The Authority must consider the matters set out in any statement furnished under reg 20 (as substituted) and may require the licensed supplier to provide an auditor's certificate as to whether any price is set out in such statement, and the manner in which that price has been calculated, have been fairly stated and properly compiled: reg 21(1) (as so substituted). The Authority may also serve notice on the licensed supplier requiring him to provide further reasons justifying any price below the purchase price for electricity which the licensed supplier has set out in a statement under reg 20 (as substituted and amended): reg 21(2) (as so substituted). If the Authority does not accept that it is appropriate in all the circumstances for amounts payable by the licensed supplier in respect of the levy to be calculated by reference to any price being charged for electricity the Authority must, within 28 days of the date upon which it received the statement or (if requested) the auditor's certificate or further reasons, serve on the licensed supplier a notice under reg 22 (as amended): reg 21(3) (as so substituted). The Authority may also by notice served on the licensed supplier require the supplier to furnish the Authority with a statement setting out (a) any price which the licensed supplier is charging for any electricity; (b) the manner in which that price has been calculated; and (c) any reasons which the supplier may have to justify a belief on his part that it is appropriate in all the circumstances for amounts payable by him in respect of the levy to be calculated by reference to that price; and the Authority may also in like manner require the licensed supplier to provide an auditor's certificate that any calculation so furnished is fairly stated

and properly compiled: reg 21(4) (as so substituted). If, after having regard to any statement so furnished, and to any auditor's certificate so provided, the Authority considers that any price charged by the licensed supplier is less than the price which the Authority thinks it would be appropriate to charge for electricity, it must serve on the licensed supplier a notice under reg 22 (as amended): reg 21(5) (as so substituted). Any auditor's certificate required to be provided under reg 21 (as substituted) must be provided as quickly as is reasonably practicable and in any event not more than 60 days after the date of the Authority's request: reg 21(6) (as so substituted). 'Auditor's certificate' means a statement given, in relation to a company within the meaning of the Companies Act 1985 or the Companies Act 2006, by the auditor or auditors (as holding office for the time being in accordance with that Act) of the person furnishing the information; and in relation to any other description of person, a person who is a member of one or more of the following bodies, ie the Institute of Chartered Accountants in England and Wales, the Institute of Chartered Accountants of Scotland, the Chartered Association of Certified Accountants and the Institute of Chartered Accountants in Ireland: Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 2(1) (as substituted: see note 2 supra); Companies Act 2006 s 1297(5).

Subject to the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 22(2)-(4) (as amended), a notice served by the Authority on a licensed supplier under reg 22 (as amended) must set out: (i) the Authority's reasons for not accepting that it is appropriate in all the circumstances for amounts payable by the supplier in respect of the levy to be calculated by reference to any price charged during the qualifying month or months in question for electricity; and (ii) the price which the Authority thinks it would be appropriate to charge for that purpose: reg 22(1) (reg 22 amended by virtue of the Utilities Act 2000 s 3(2); the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 22(1) also amended by SI 1998/1828). When deciding what price to set out pursuant to head (ii) supra in such a notice the Authority must in particular have regard to: (A) the quantities of electricity being supplied by the licensed supplier; (B) load factors; (C) the voltage at which any supply is given; (D) the time of year and the time of the day at which any supply is given; (E) any conditions according to which a supply may be interrupted; (F) the location of customers receiving a supply from the supplier; (G) the date and duration of any agreement under which any customer is receiving a supply from the supplier: Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 22(2) (as so amended). Any price set out pursuant to head (ii) supra in such a notice served on a licensed supplier must not be so high as to cause the average charge per unit treated as charged by that supplier to exceed the maximum average charge per unit which he could make under the terms of his licence: reg 22(3) (amended by SI 2001/3286). No notice under the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 22 (as amended) in respect of a particular qualifying month may be served after the expiry of a period of three years commencing on the last day of the month in question: reg 22(4). Upon receipt of a notice under reg 22 (as amended), the licensed supplier must as quickly as practicable calculate the amount which would have been payable in respect of the relevant qualifying month, or each of the relevant qualifying months, if that amount had been calculated by reference to the price set out in that notice: reg 23(1). As soon as he has completed that calculation, the licensed supplier must pay to the Authority an amount equal to the difference between the amount produced by that calculation and the amount already due in respect of the levy in respect of the relevant qualifying month, or each of the relevant qualifying months, together with an amount in respect of interest in accordance with reg 29(1): reg 23(2) (reg 23 amended by virtue of the Utilities Act 2000 s 3(2)). At the same time as he makes a payment in accordance with the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 23(2) (as amended) the licensed supplier must furnish to the Authority a statement of the manner in which he has calculated that payment: reg 23(3) (as so amended). For these purposes, 'relevant qualifying month' means a qualifying month in respect of which the licensed supplier was due to make a payment pursuant to reg 11 (as substituted) and in relation to which the Authority has served a notice under reg 22 (as amended): reg 23(4) (as so amended). Interest at the prescribed interest rate and for the prescribed period must be paid by any licensed supplier on the amount of any payment made in accordance with reg 23(2) (as amended): reg 29(1)(f). As to the prescribed interest rate and the prescribed period see note 34 supra.

40 Ibid reg 12(3) (as substituted: see note 2 supra). That evidence must include evidence of the effect in relation to him of regs 8-10 (as amended) during the qualifying month: reg 12(3) (as so substituted).

41 For the meaning of 'fossil fuel' see PARA 1240 note 13 ante (definition applied by ibid reg 13(3)).

42 Ibid reg 13(1) (amended by virtue of the Utilities Act 2000 s 3(2)). Any additional statement furnished in accordance with the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 13(1) (as so amended) must include: (1) a description of each type of fuel used in the station during the month; (2) an estimate of the quantity of each type of fuel so used; and (3) an estimate of the net calorific value of each such type of fuel: reg 13(2).

43 Ie after taking into account the effect of regs 8-10 (as amended).

44 Any reference in ibid reg 14 (as amended) to a relevant station or stations is a reference to a particular generating station or generating stations of a particular description: reg 14(7).

45 Ie as adjusted pursuant to ibid regs 9, 10 (as amended).

46 Ie whether by reason of evidence produced to the Authority pursuant to reg 8 (as substituted and amended) or otherwise.

47 See note 45 supra.

48 le after taking into account any relevant evidence produced for the purposes of the Fossil Fuel Levy Regulations 1990, SI 1990/266, regs 8-10 (as amended).

49 Ibid reg 14(1), (2) (amended by virtue of the Utilities Act 2000 s 3(2)). For these purposes, the appropriate manner is a manner which takes into account evidence produced for the purposes of the Fossil Fuel Levy Regulations 1990, SI 1990/266, regs 8-10 (as amended) and, subject thereto, which causes each quantity purported to have been supplied by a supplier mentioned in reg 14(1) (as amended) as reduced by the Authority to bear the same proportion to the aggregate of the quantities as so reduced as each quantity purported to have been so supplied bears to the aggregate of such quantities: reg 14(3) (as so amended).

50 Ibid reg 14(4) (as amended: see note 49 supra).

51 Ibid reg 14(5) (as amended: see note 49 supra). Interest at the prescribed interest rate and for the prescribed period must be paid by any licensed supplier on the amount of any payment made in accordance with reg 14(5)(a) (see head (A) in the text): reg 29(1)(b). As to the prescribed interest rate and the prescribed period see note 34 supra. An amount equal to interest at the base rate of Barclays Bank plc current from time to time during the prescribed period must be added to the amount of any deduction made in accordance with reg 14(5)(b) (see head (b) in the text): reg 29(2)(a).

If any amount which a licensed supplier is entitled to deduct pursuant to reg 14(5)(b) is greater than the amount of the next payment due from him under reg 11(3) (as substituted), the supplier need not make that next payment and he may deduct the balance of the amount which he is entitled to deduct (together with an amount in respect of interest in accordance with reg 29(2) (as amended)) from the next succeeding payment due from him under reg 11(3) (as substituted): reg 27(1) (amended by SI 2001/1200). This applies in relation to successive payments due under the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 11(3) (as substituted) until either the licensed supplier has deducted the whole of the amount first mentioned in reg 27(1) (as amended) or the supplier has served notice on the Authority that he does not intend to make any further deductions in respect of that amount: reg 27(2) (reg 27 amended by virtue of the Utilities Act 2000 s 3(2)). A licensed supplier who in pursuance of these provisions does not make a payment in accordance with the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 11 (as substituted) in respect of a qualifying month must nevertheless furnish to the Authority a statement in relation to that month in accordance with reg 12 (as substituted), save that such statement must set out the manner in which the supplier has calculated the amount of the payment which he would have paid but for this provision: reg 27(3) (as so amended). An amount equal to interest at the base rate of Barclays Bank plc current from time to time during the prescribed period must be added to the amount of any deduction made in accordance with reg 27 (as amended): reg 29(2)(f).

Where any person who ceases to be a licensed supplier is unable, by reason of such cessation, to exercise any right of deduction from payments due under reg 11 (as substituted) in pursuance of reg 14(5)(b), as read with reg 29 (as amended), the Authority must make to that person a payment of an amount equal to the amount which could not be so deducted: reg 40(3) (amended by virtue of the Utilities Act 2000 s 3(2)).

52 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 14(6) (as amended: see note 10 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(i) Fuel Sources and Fuel Stocks/D. ELECTRICITY FROM NON-FOSSIL FUEL SOURCES AND FOSSIL FUEL LEVY; TRANSITIONAL ARRANGEMENTS AND SAVINGS/1243. Defaults etc in making payments in respect of levy.

1243. Defaults etc in making payments in respect of levy.

If any licensed supplier¹ fails to make a payment in respect of the levy², the Gas and Electricity Markets Authority ('GEMA')³ must as soon as practicable serve notice on the supplier:

- 3114 (1) stating that the supplier has failed to make the payment; and
- 3115 (2) after having regard to the information relating to the supplier available to the Authority at the time, setting out the amount which the Authority believes that the supplier should have paid and the manner in which the amount has been calculated⁴.

Forthwith upon receipt of a notice so served on him the licensed supplier must pay to the Authority the amount set out in the notice, together with an amount in respect of interest⁵.

If at any time the Authority has reason to believe that the payment, or the aggregate of the payments, made in respect of the levy by a licensed supplier in respect of a qualifying month⁶ pursuant to the relevant regulations⁷ is less than it should have been, the Authority must serve notice on the supplier setting out:

- 3116 (a) the Authority's reason or reasons for the belief; and
- 3117 (b) after having regard to the information relating to the supplier available to the Authority at the time, the amount which the Authority believes that the supplier should have paid and the manner in which that amount has been calculated⁸.

Forthwith upon receipt of a notice so served on him the licensed supplier must pay to the Authority the difference between the amount set out in that notice and the amount which he has paid, together with an amount in respect of interest⁹.

If at any time any licensed supplier has reason to believe that the payment, or the aggregate of the payments, made in respect of the levy by him in respect of a qualifying month pursuant to the relevant regulations is less than it should have been, he must serve notice on the Authority setting out:

- 3118 (i) his reason or reasons for the belief;
- 3119 (ii) the amount which he believes he should have paid and the manner in which that amount has been calculated,

and with his notice the licensed supplier must pay to the Authority the difference between the amount which he has paid and the amount set out in that notice, together with an amount in respect of interest¹⁰.

No notice under any of the above provisions may, however, be served after the expiry of a period of three years commencing on the last day of the qualifying month in question¹¹.

- 10 Ibid reg 18(1) (as amended: see note 4 supra). Interest at the prescribed interest rate and for the prescribed period must be paid by any licensed supplier on the amount of any payment made in accordance with reg 18(1) (as amended): reg 29(1)(e); and see note 5 supra.
- 11 Ibid regs 16(3), 17(3), 18(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(i) Fuel Sources and Fuel Stocks/D. ELECTRICITY FROM NON-FOSSIL FUEL SOURCES AND FOSSIL FUEL LEVY; TRANSITIONAL ARRANGEMENTS AND SAVINGS/1244. Over-payments in respect of levy.

1244. Over-payments in respect of levy.

If at any time any licensed supplier¹ has reason to believe that the payment, or the aggregate of the payments, made in respect of the levy² by him in respect of a qualifying month³ pursuant to the relevant regulations⁴ is greater than it should have been, he may serve notice on the Gas and Electricity Markets Authority ('GEMA')⁵ setting out his reason or reasons for the belief and the amount which he believes he should have paid and the manner in which that amount has been calculated⁶. If the Authority wishes to question any matter set out in a notice so served on it, it must do so by notice served on the licensed supplier within 28 days of receiving the notice served as previously mentioned⁷. Any notice so served by the Authority must set out in full its reasons for wishing to question any matter in the notice previously served⁸. If the Authority fails to serve such a notice within the prescribed period, it is deemed to have accepted the notice served on it as previously mentioned without question as to the amount, but without prejudice to the ability of the Authority subsequently to serve notice of under-payment⁹ on the licensed supplier in respect of the qualifying month in question, and the licensed supplier may then deduct the difference between the amount which he has paid and the amount set out in that notice, together with an amount in respect of interest¹⁰, from the next payment due¹¹ from him¹².

If at any time the Authority has reason to believe that the payment, or the aggregate of the payments, made in respect of the levy by a licensed supplier in respect of a qualifying month pursuant to the relevant regulations is greater than it should have been, the Authority must serve notice on the supplier setting out the Authority's reason or reasons for the belief and, after having regard to the information relating to the supplier available to the Authority at the time, the amount which it believes that the supplier should have paid and the manner in which that amount has been calculated¹³. If the licensed supplier wishes to question any matter set out in a notice so served on him, he must do so by notice served on the Authority within 28 days of receiving the notice served as mentioned above¹⁴. Any notice so served must set out in full the licensed supplier's reasons for wishing to question any matter in the notice served on him by the Authority¹⁵. If the licensed supplier fails to serve such a notice within the prescribed period, he is deemed to have accepted the notice served on him by the Authority without question as to the amount, but without prejudice to the Authority's ability subsequently to serve notice of under-payment on the licensed supplier¹⁶ in respect of the qualifying month in question, and he may then deduct the difference between the amount set out in that notice and the amount which he has paid, together with an amount in respect of interest¹⁷, from the next payment due¹⁸ from him¹⁹.

When any question arising from a notice questioning any matter served under the above provisions²⁰ has been resolved, whether by agreement between the Authority and the licensed supplier or otherwise:

- 3120 (1) any payment found to be due from the supplier in respect of the levy must be made by him at the same time as he makes the next payment due from him²¹; and

3121 (2) any amount found to be in excess of the proper amount of a payment made by the supplier in respect of the levy may be deducted by him from the next payment due from him,

together, in each case, with an amount in respect of interest²².

If any amount which a licensed supplier is entitled to deduct pursuant to the above provisions²³ is greater than the amount of the next payment due from him²⁴, the supplier need not make that next payment and he may deduct the balance of the amount which he is entitled to deduct, together with an amount in respect of interest²⁵, from the next succeeding payment due from him²⁶. This applies in relation to successive payments due until either the licensed supplier has deducted the whole of the amount first mentioned above or the supplier has served notice on the Authority that he does not intend to make any further deductions in respect of that amount²⁷. A licensed supplier who, in pursuance of this provision, does not make a payment²⁸ in respect of a qualifying month must nevertheless furnish to the Authority a statement in relation to that month²⁹, save that that statement must set out the manner in which the supplier has calculated the amount of the payment which he would otherwise have paid³⁰.

Where any person who ceases to be a licensed supplier is unable, by reason of such cessation, to exercise any right of deduction from payments due³¹ in pursuance of the above provisions³², the Authority must make to that person a payment of an amount equal to the amount which could not be so deducted³³.

1 For the meaning of 'licensed supplier' see PARA 1242 note 1 ante.

2 For the meaning of 'levy' see PARA 1242 note 2 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(i) Fuel Sources and Fuel Stocks/D. ELECTRICITY FROM NON-FOSSIL FUEL SOURCES AND FOSSIL FUEL LEVY; TRANSITIONAL ARRANGEMENTS AND SAVINGS/1245. Calculations and payments to be made by the nominated person.

1245. Calculations and payments to be made by the nominated person.

In advance of each levy payment date¹ the nominated person² must calculate the amount of any payment due to or from him³ and must provide the Gas and Electricity Markets Authority ('GEMA')⁴ with a statement setting out how the amount of the payment required to be made⁵ has been calculated and including the figures used in calculating that amount⁶. The nominated person must provide the Authority with that statement on the banking day⁷ prior to the relevant levy payment date⁸.

Where in relation to any levy payment date the amount is a negative number, the nominated person must pay that sum to the Authority on the fifth banking day after the levy payment date immediately following the date on which the statement has been provided⁹. If the nominated person makes that payment later than the next levy payment date, at the discretion of the Authority, it may also be required to pay interest on that sum at a rate not exceeding the prescribed rate¹⁰ from the levy payment date on which such payment should have been made until such payment is actually made¹¹.

If the Secretary of State¹² so directs, the Authority¹³ must pay an amount into the Consolidated Fund out of money that has been paid¹⁴ by the nominated person¹⁵; but the total of the amounts directed to be paid must not exceed £60 million¹⁶. At any time which falls after the giving of such a direction, the Secretary of State is under a duty to spend the required amount¹⁷ for the purpose of promoting the use of energy from renewable sources¹⁸. This duty of the Secretary of State is without prejudice to any other power or duty of his to spend money for that purpose¹⁹.

1 For the meaning of 'levy payment date' see PARA 1242 note 5 ante.

2 For the meaning of 'the nominated person' see PARA 1242 note 3 ante.

9 Ibid reg 41(3) (as substituted: see note 6 supra).

10 For the meaning of 'prescribed rate' see PARA 1242 note 34 ante.

11 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 41(4) (as substituted: see note 6 supra). In any case where the Authority determines that interest is so payable under reg 41(4) (as substituted), the amount of such

interest may not be included under any item listed in reg 5 (as substituted) for the purposes of calculating the amount referred in reg 5 (as substituted) on any levy payment date: reg 41(5) (as so substituted).

In relation to any payments required to be made by the nominated person in accordance with reg 41 (as substituted), regs 16, 17 and 18 (as amended) (defaults etc in making payments: see PARA 1243 ante) apply as if they referred to (1) payments under reg 41 (as substituted) (instead of reg 11 (as substituted and amended)); (2) payments by the nominated person (instead of by licensed suppliers); and (3) interest payments under reg 41(4) (as substituted) (instead of under reg 29(1) (as amended)): reg 42(1) (as substituted: see note 6 supra).

12 As to the Secretary of State see PARA 601 note 1 ante.

13 Ie as the person prescribed under the Electricity Act 1989 s 33(1)(b) (as substituted; repealed with savings) (collection of fossil fuel levy): see PARA 1241 ante.

14 Ie under ibid s 33(5A) (as added) (repealed with savings): see PARA 1241 ante.

15 See the Sustainable Energy Act 2003 s 7(1), (8). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

16 Ibid s 7(2).

17 For these purposes, 'the required amount' is an amount of money equal to the total of the amounts that at the time in question have been paid into the Consolidated Fund under ibid s 7(1), less the total of any amounts that the Secretary of State has already spent under s 7(3): s 7(4).

18 Ibid s 7(3). For these purposes, 'renewable sources' means sources of energy other than fossil fuel or nuclear fuel; and 'fossil fuel' means coal, substances produced directly or indirectly from coal, lignite, natural gas, crude liquid petroleum, or petroleum products (and 'natural gas' and 'petroleum products' have the same meanings as in the Energy Act 1976: see PARA 603 notes 3-4 ante): Sustainable Energy Act 2003 s 7(5), (6).

19 Ibid s 7(7). As to the promotion of sustainable energy see further PARA 614 et seq ante.

UPDATE

1245 Calculations and payments to be made by the nominated person

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(i) Fuel Sources and Fuel Stocks/D. ELECTRICITY FROM NON-FOSSIL FUEL SOURCES AND FOSSIL FUEL LEVY; TRANSITIONAL ARRANGEMENTS AND SAVINGS/1246. Application and distribution etc of sums collected.

1246. Application and distribution etc of sums collected.

Payments received by the Gas and Electricity Markets Authority ('GEMA')¹ in a qualifying month² pursuant to the relevant regulations³ must be applied and distributed by it in accordance with the following provisions⁴. The Authority must deduct and retain from those payments the amount of the administrative expenses incurred by it in respect of the qualifying month⁵ and in respect of its collection of payments⁶ from the nominated person⁷. Where in relation to the levy payment date⁸ immediately after the end of the qualifying month mentioned above, the Authority has received a statement from the nominated person⁹ which states that payment is due to be made to the nominated person¹⁰, the payments mentioned above less the amounts so deducted are to be applied¹¹ to the making of such payment on the levy payment date in relation to which such statement has been prepared¹². If, however, any of the payments mentioned above are not received by the Authority in time to be applied and distributed in accordance with the preceding provisions, such payments must, as soon as practicable after the payment to the nominated person¹³ has been made, be added in the appropriate amounts¹⁴ to the next payment due to be made under these provisions to the nominated person¹⁵.

Any money received by the Authority¹⁶ must, until such time as it is required for the making of payments pursuant to the above provisions, be invested in the approved manner¹⁷ and all relevant interest payments¹⁸ must be invested in the approved manner¹⁹.

1 As to the establishment and general functions of the Gas and Electricity Markets Authority see PARA 708 et seq ante; and as to the use of the abbreviation 'GEMA' in this context see PARA 708 note 5 ante.

2 For the meaning of 'qualifying month' see PARA 1242 note 3 ante.

3 Ie pursuant to the Fossil Fuel Levy Regulations 1990, SI 1990/266 (as amended): see PARA 1242 et seq ante, PARA 1247 post.

4 Ibid reg 28(1) (reg 28 substituted by SI 2001/3286).

5 Ie as the person prescribed by the 1990 Regulations for the purposes of the Electricity Act 1989 s 33(1)(b), (c) (as amended; repealed with savings): see PARA 1241 ante.

6 Ie pursuant to ibid s 33(5A) (as added: repealed with savings): see PARA 1241 ante.

7 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 28(2) (as substituted: see note 4 supra). For the meaning of 'the nominated person' see PARA 1242 note 3 ante.

8 For the meaning of 'levy payment date' see PARA 1242 note 5 ante.

9 Ie in accordance with ibid reg 41(1) and (2) (as substituted): see PARA 1245 ante.

10 Ie pursuant to ibid reg 5(8) (as substituted): see PARA 1242 note 8 ante.

11 Ie subject to ibid reg 28(4), (5) (as substituted): see the text and notes 13-15 infra.

12 Ibid reg 28(3) (as substituted: see note 4 supra).

13 Ie the payment mentioned in ibid reg 28(3) (as substituted).

14 For these purposes, the appropriate amount as regards the payment mentioned in *ibid* reg 28(4) (as substituted) in relation to the nominated person is an amount equal to the difference between the amount due to be paid to the nominated person under reg 5(8) (as substituted) and the payment actually made to the nominated person under reg 28(3) (as substituted): reg 28(5) (as substituted: see note 4 *supra*).

15 *Ibid* reg 28(4) (as substituted: see note 4 *supra*). In relation to any payments required to be made to the nominated person in accordance with reg 28 (as substituted), regs 24, 25 and 26 (as amended) (over-payments: see PARA 1244 *ante*) apply as if (1) they referred to payments under reg 28 (as substituted) (instead of reg 11) (as substituted); (2) they referred to payments to the nominated person (instead of to licensed suppliers); and (3) there were no reference to interest under reg 29(2) (as amended): reg 42(2) (substituted by SI 2000/1200).

16 *Ie* pursuant to the Fossil Fuel Levy Regulations 1990, SI 1990/266, regs 2-29 (as amended), other than reg 29(1) (as amended).

17 *Ibid* reg 30(1) (amended by virtue of the Utilities Act 2000 s 3(2)). For these purposes, any money or relevant interest payment is invested in the approved manner if, utilising one or more of the Bank of England or an authorised deposit taker, it is (1) invested on the sterling United Kingdom inter-bank money market; or (2) placed on deposit in sterling in an interest bearing account or accounts: Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 30(3) (amended by SI 2001/3649). 'Authorised deposit taker' means (a) a person who has permission under the Financial Services and Markets Act 2000 Pt IV (ss 40-55) to accept deposits; or (b) an EEA firm of the kind mentioned in Sch 3 para 5(b) (as substituted) which has permission under Sch 3 para 15 (as amended), as a result of qualifying for authorisation under Sch 3 para 12(1), to accept deposits; and this definition must be read with s 22, any relevant order under s 22, and Sch 2 (as amended): Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 30(4), (5) (added by SI 2001/3649).

18 'Relevant interest payments' means (1) interest payments made pursuant to the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 29(1) (as amended); and (2) interest payments in respect of money invested pursuant to reg 30 (as amended): reg 2(1) (substituted by SI 2001/1200).

19 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 30(2) (amended by SI 2001/1200).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(i) Fuel Sources and Fuel Stocks/D. ELECTRICITY FROM NON-FOSSIL FUEL SOURCES AND FOSSIL FUEL LEVY; TRANSITIONAL ARRANGEMENTS AND SAVINGS/1247. Records and information; inspection of meters.

1247. Records and information; inspection of meters.

The Gas and Electricity Markets Authority ('GEMA')¹ must keep separate records of:

- 3122 (1) all payments received by it pursuant to any of the specified provisions²;
- 3123 (2) all relevant interest payments³ received by it; and
- 3124 (3) all administrative expenses incurred by it in connection with the levy⁴.

The Authority must maintain one or more bank accounts for all payments received by it pursuant to the relevant regulations⁵, and must keep such account or accounts separate from all other bank accounts maintained by it⁶. The Authority must send a statement of the amount standing for the time being to the credit of any such account to the Secretary of State⁷ and the nominated person⁸ at monthly intervals⁹. It must also send a statement of the administrative expenses incurred by it in connection with the levy and of the costs of the nominated person to the licensed suppliers¹⁰ and the nominated person at intervals of not more than six months¹¹. Within ten banking days¹² of the end of each month the Authority must also send to the Secretary of State a statement of aggregate levy receipts, relevant interest payments, the Authority's administrative expenses and payments made to or received from the nominated person during that month¹³.

The Authority may¹⁴ by notice served¹⁵ on any person who is:

- 3125 (a) a licensed supplier;
- 3126 (b) a licensed transmitter¹⁶;
- 3127 (c) a licensed generator¹⁷;
- 3128 (d) the nominated person; or
- 3129 (e) a licensed distributor¹⁸,

require that person to furnish, at such reasonable time and place as may be, and in the form and manner, specified in the notice, to the Authority such information of a prescribed description¹⁹ as may be specified in the notice²⁰; but no person is to be required, when complying with such a notice, to give any information which he could not be compelled to give in evidence in civil proceedings in the High Court²¹. Any person furnishing information to the Authority in accordance with such a notice must, if the notice so requires, provide an auditor's certificate²² that such information, or any such part of that information as may be specified in the notice, is fairly stated and properly compiled²³. Where any person is required by such a notice to furnish information in the form of estimates, he must use all reasonable care, having regard to all the relevant circumstances, to ensure that the information so furnished is complete, accurate and reliable²⁴. Where information of a prescribed description²⁵ has been furnished to the Authority by any person in accordance with such a notice, and that information is, or appears to the Authority to be, inconsistent with other information in the possession of the Authority pursuant to the relevant regulations, that conflict must be resolved in the prescribed manner²⁶.

All information furnished to the Authority pursuant to the relevant regulations must be kept separate from other information held by the Authority²⁷ and may be used by it, or by any staff or other person employed or engaged by it, only for purposes connected with the levy²⁸.

The nominated person, each licensed supplier, each licensed transmitter, each licensed distributor and each licensed generator must retain for the prescribed period²⁹ any relevant records³⁰. During the prescribed period the nominated person, each licensed supplier, each licensed transmitter, each licensed distributor and each licensed generator must permit any person who is authorised in writing by the Authority for the purpose, on production of his Authority, to inspect and to take copies of or extracts from any relevant records being retained pursuant to this provision³¹.

Each licensed supplier, each licensed transmitter, each licensed distributor and each licensed generator must permit any competent person who is authorised by the Authority for the purpose, on the production of his Authority, to examine and test any relevant meter³² for all or any of the following purposes:

- 3130 (i) determining the pattern or construction of the meter;
- 3131 (ii) determining the manner of its installation;
- 3132 (iii) determining whether the meter is in proper order for ascertaining the quantities of electricity passing through it; and
- 3133 (iv) establishing the margins for error within which it is operating³³.

8 For the meaning of 'the nominated person' see PARA 1242 note 3 ante.

9 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 31(3) (as substituted: see note 4 supra).

10 For the meaning of 'licensed supplier' see PARA 1242 note 1 ante.

11 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 31(4) (as substituted: see note 4 supra).

12 For the meaning of 'banking day' see PARA 1242 note 5 ante.

13 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 31(5) (as substituted: see note 4 supra).

14 le subject to ibid reg 33(2) (as substituted) (see the text and note 21 infra), and without prejudice to reg 34 (see the text and note 24 infra).

15 As to service of notices see PARA 1242 note 15 ante.

16 For the meaning of 'licensed transmitter' see PARA 1242 note 21 ante.

17 'Licensed generator' means a person authorised by a licence to generate electricity: Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 2(1) (as substituted: see note 4 supra).

18 For the meaning of 'licensed distributor' see PARA 1242 note 20 ante.

19 le of a description contained in the Fossil Fuel Levy Regulations 1990, SI 1990/266, Schedule Pts 1-IV (paras 1-18) (retitled and amended by SI 2001/1200; also amended by SI 1998/1828; SI 2001/3286).

20 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 33(1) (as substituted: see note 4 supra).

21 Ibid reg 33(2) (as substituted: see note 4 supra).

22 For the meaning of 'auditor's certificate' see PARA 1242 note 39 ante.

23 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 33(3) (as substituted: see note 4 supra).

24 Ibid reg 34.

25 See note 19 supra.

26 See the Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 35(1) (amended by SI 2001/1200; and by virtue of the Utilities Act 2000 s 3(2)). Where the information is of a description contained in the Fossil Fuel Levy Regulations 1990, SI 1990/266, Schedule Pt I (paras 1-8) (as amended), the Authority may place greater reliance on information furnished by a licensed supplier; where the information is of a description contained in Schedule Pt II (paras 9-10) (as amended), the Authority may place greater reliance on information furnished by a licensed transmitter; and where the information is of a description contained in Schedule Pt III (paras 11-15), the Authority may place greater reliance on information furnished by a licensed generator: reg 35(2) (as so amended). Subject to that, in any case the Authority may place greater reliance on information which is accompanied by an auditor's certificate that it is fairly stated and properly compiled: reg 35(3) (amended by virtue of the Utilities Act 2000 s 3(2)).

27 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 36(1) (regs 36, 37, 39 amended by virtue of the Utilities Act 2000 s 3(2)). The information must be kept in containers or other media which cannot be opened or otherwise interfered with and to which access cannot be had, except in case of emergency, by any person not entitled to use or have access to such information: Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 36(2).

28 Ibid reg 36(3) (as amended: see note 27 supra).

29 For these purposes, 'prescribed period', in relation to any relevant records, means the period of five years commencing on the date on which information derived from those records is either (1) in the case of a licensed supplier, first used by the supplier for the purpose of calculating or recalculating the amount of any payment due from him in respect of the levy; or (2) in the case of the nominated person, a licensed supplier, a licensed transmitter, a licensed distributor or a licensed generator, first furnished to the Authority pursuant to a notice under ibid reg 33 (as substituted); 'records' includes any document, book, computer program, printout, tape, core, film, disk or other tangible data whatsoever and, in relation to any single item of information, means any one of them; and 'relevant records' means any records from which have been derived (a) any information used by a licensed supplier for the purpose of calculating the amount of any payment due from him in respect of the levy; and (b) any information furnished to the Authority by the nominated person, a licensed supplier, a licensed transmitter, a licensed distributor or a licensed generator pursuant to a notice under reg 33 (as substituted): reg 37(3) (as amended (see note 27 supra); also amended by SI 2001/1200; SI 2001/3286).

30 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 37(1) (substituted by SI 2001/1200; amended by SI 2001/3286).

31 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 37(2) (as amended (see note 27 supra); also amended by SI 2001/1200; SI 2001/3286).

32 For these purposes, 'relevant meter' means a meter which (1) is under the control of the licensed supplier, licensed transmitter, licensed distributor or licensed generator or to which a licensed supplier (or a person authorised by a supplier) has access; and (2) is used for ascertaining any quantities of electricity provided to or supplied by a licensed supplier: Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 39(2) (amended by SI 2001/3286).

33 Fossil Fuel Levy Regulations 1990, SI 1990/266, reg 39(1) (as amended (see note 27 supra); also amended by SI 2001/3286).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(i) Fuel Sources and Fuel Stocks/E. FUEL STOCKS AT GENERATING STATIONS/1248. Fuel stocks etc at generating stations.

E. FUEL STOCKS AT GENERATING STATIONS

1248. Fuel stocks etc at generating stations.

In respect of any generating station¹ which is of a capacity not less than 10 megawatts² (or such other specified capacity not exceeding 100 megawatts as may be substituted by an order³ of the Secretary of State⁴) and is fuelled otherwise than by waste⁵ or manufactured gases⁶, the Secretary of State may give a direction⁷ requiring the person who operates it:

- 3134 (1) to make such arrangements with respect to stocks of fuel and other materials held at or near that generating station for the purposes of its operation as will enable those stocks to be brought within a specified⁸ time to, and thereafter maintained at, a specified level⁹, and ensure that they do not fall below that level, except as may be permitted by the terms of the direction or by any other direction¹⁰ of the Secretary of State¹¹; and
- 3135 (2) to create such stocks and make such arrangements with respect to them¹².

The amount of any stocks may be specified by reference to the period for which it would enable the generating station to be maintained in operation¹³.

In respect of any generating station to which these provisions apply, the Secretary of State may give a direction authorising or requiring the person who operates it to make such use as may be specified of any stocks held at or near that generating station¹⁴ and requiring that person to operate, or not to operate, that generating station for specified periods, at specified levels of capacity or using specified fuels¹⁵.

A direction under the above provisions may:

- 3136 (a) specify the cases and circumstances in which any stocks are to be treated as held at or near any generating station¹⁶;
- 3137 (b) specify the extent to which the direction may be treated as complied with where, under arrangements made or approved by the Secretary of State, access can be had to stocks held for the use of a number of consumers¹⁷;
- 3138 (c) specify the manner in which any period¹⁸ is to be determined¹⁹; and
- 3139 (d) require anything falling to be specified under the direction to be specified by such persons and by reference to such matters as may be specified²⁰.

Such a direction which confers on any person the function of specifying anything²¹ may require that person to exercise that function in such manner as may be specified by the direction²².

The Secretary of State may also give a direction:

- 3140 (i) requiring the holder of a transmission licence²³ to give to the Secretary of State, after consultation with specified persons²⁴, any information²⁵ or advice which the Secretary of State may reasonably require for purposes connected with the exercise of these functions²⁶;

- 3141 (ii) requiring any person who is authorised by a licence to participate in the transmission of electricity²⁷ to carry on the activities which the licence authorises, or any of them, at any time when a direction authorising or requiring the person who operates a generating station to make such use as may be specified of any stocks held at or near that generating station and requiring that person to operate, or not to operate, that generating station for specified periods, at specified levels of capacity or using specified fuels²⁸ is in force, either in a specified manner or with a view to achieving specified objectives²⁹.

The Secretary of State must lay before each House of Parliament a copy of every direction given by him under the above provisions unless he is of the opinion that disclosure of the direction is against the interests of national security or the commercial interests of any person³⁰.

A person who, without reasonable excuse, contravenes³¹ or fails to comply with any such direction of the Secretary of State is liable on summary conviction to a fine not exceeding the statutory maximum, or on conviction on indictment to a fine³². No proceedings may, however, be instituted in England and Wales in respect of such an offence except by or on behalf of the Secretary of State³³.

1 For the meaning of 'generating station' see PARA 1041 note 6 ante.

2 The Electricity Act 1989 s 34(1)(a) as enacted refers to '50 megawatts' but has effect as if for that capacity there were substituted the capacity of '10 megawatts': see the Electricity Act 1989 (Variation of Section 34(1)(a)) Order 1990, SI 1990/1066, art 2.

3 As to the making of orders generally see the Electricity Act 1989 s 106 (as amended); and PARA 1306 post.

4 See *ibid* s 34(2); and note 2 *supra*. As to the Secretary of State see PARA 601 note 1 ante.

5 For these purposes, 'waste' has the same meaning as in the Control of Pollution Act 1974 s 30(1) (prospectively repealed) (ie the same meaning as in the Environmental Protection Act 1990 s 75(2) (as substituted): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 623); Electricity Act 1989 s 34(1).

6 Electricity Act 1989 s 34(1) (as varied: see note 2 *supra*).

7 As to directions generally see *ibid* s 107; and PARA 1306 post.

8 For these purposes, 'specified' means specified by or under the Secretary of State's direction: Electricity Act 1989 s 34(5).

9 *Ibid* s 34(3)(a)(i).

10 Ie a direction under *ibid* s 34(4): see the text and notes 14-15 *infra*.

11 *Ibid* s 34(3)(a)(ii).

12 *Ibid* s 34(3)(b).

13 *Ibid* s 34(3).

14 *Ibid* s 34(4)(a).

15 *Ibid* s 34(4)(b).

16 *Ibid* s 34(5)(a).

17 *Ibid* s 34(5)(b).

18 Ie any period mentioned in *ibid* s 34(3) or (4): s 34(5)(c).

19 *Ibid* s 34(5)(c).

- 20 Ibid s 34(5)(d).
- 21 Ie anything falling to be specified under the direction: *ibid* s 34(6).
- 22 Ibid s 34(6).
- 23 For the meaning of 'transmission licence' see PARA 1065 ante at head (2) in the text.
- 24 For these purposes, 'specified' means specified by or under the Secretary of State's direction: Electricity Act 1989 s 35(3).
- 25 For the meaning of 'information' see PARA 1044 note 10 ante.
- 26 Electricity Act 1989 s 35(1) (amended by the Energy Act 2004 s 143(1), Sch 19 paras 3, 12(1), (2)). The functions referred to are those under the Electricity Act 1989 s 34 (as modified): see the text and notes 1-23 *supra*.
- 27 For the meaning of 'licence' see PARA 1041 note 12 ante; and for the meaning of references to participating in the transmission of electricity see PARA 1050 note 5 ante.
- 28 Ie a direction under *ibid* s 34(4): see the text and notes 14-15 *supra*.
- 29 Ibid s 35(2) (substituted by the Energy Act 2004 s 143(1), Sch 19 paras 3, 12(1), (3)). A person subject to a direction under head (ii) in the text must give effect to it notwithstanding any other duty imposed on him by or under the Electricity Act 1989 Pt I (ss 3A-64) (as amended) (see PARA 1041 et seq ante, PARA 1249 et seq post): s 35(3) (amended for these purposes by the Energy Act 2004 s 143(1), Sch 19 paras 3, 12(1), (4)).
- 30 Electricity Act 1989 s 35(4).
- 31 For the meaning of 'contravention' and cognate expressions see PARA 1070 note 20 ante.
- 32 Electricity Act 1989 s 35(5). As to the statutory maximum see PARA 689 note 2 ante.
- 33 Ibid s 35(6). The Energy Act 1976 s 18(1), Sch 2 paras 1-4, 7-8 (administration and other matters: see PARA 609 et seq ante) have effect as if: (1) the Electricity Act 1989 s 34 (as modified) were contained in that Act; (2) the powers of the Energy Act 1976 Sch 2 para 1 were exercisable for any purpose connected with securing compliance with a direction under the Electricity Act 1989 s 34; (3) information obtained by virtue of the Energy Act 1976 Sch 2 para 1 could lawfully be disclosed to any person by whom anything falls to be specified under such a direction; and (4) the powers conferred by Sch 2 para 1(1)(c) included power to direct that information and forecasts be furnished to any such person: Electricity Act 1989 s 35(7).

UPDATE

1248 Fuel stocks etc at generating stations

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733. Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/A. GENERATING STATIONS AND OVERHEAD LINES REQUIRING CONSENT FOR CONSTRUCTION, INSTALLATION ETC/1249. Consent required for construction etc of generating stations; in general.

(ii) Works requiring Consent of the Secretary of State

A. GENERATING STATIONS AND OVERHEAD LINES REQUIRING CONSENT FOR CONSTRUCTION, INSTALLATION ETC

1249. Consent required for construction etc of generating stations; in general.

A generating station¹ may not be constructed at a relevant place² and a generating station at such a place must not be extended³ or operated except in accordance with a consent granted by the Secretary of State⁴. This restriction does not, however, apply to a generating station whose capacity:

- 3142 (1) does not exceed the permitted capacity, that is to say:
- 301
- 445. (a) 50 megawatts (or such other capacity as may be substituted by an order⁵ of the Secretary of State)⁶; or
- 446. (b) in the case of generating stations which are wholly or mainly driven by wind or water and are situated in waters within or adjacent to England and Wales up to the seaward limits of the territorial sea⁷, one megawatt, provided that the waters are not within an area in which development⁸ requires planning permission⁹ under the Town and Country Planning Act 1990¹⁰; and
- 302
- 3143 (2) in the case of a generating station which is to be constructed or extended, will not exceed the permitted capacity when it is constructed or extended¹¹.

Different provision may be made in such an order¹² for generating stations of different classes or descriptions¹³. The Secretary of State may also by order direct that this requirement of consent is not to apply to generating stations of a particular class or description, either generally or for such purposes as may be specified in the order¹⁴.

A consent granted by the Secretary of State may include such conditions (including conditions as to the ownership or operation of the generating station) as appear to the Secretary of State to be appropriate¹⁵. Such a consent continues in force for such period as may be specified in or determined by or under the consent¹⁶.

Any person who, without reasonable excuse, contravenes¹⁷ these provisions as to the requirement of consent is liable on summary conviction to a fine not exceeding level 5 on the standard scale¹⁸. No proceedings may, however, be instituted in England and Wales in respect of such an offence except by or on behalf of the Secretary of State¹⁹.

1 For the meaning of 'generating station' see PARA 1041 note 6 ante.

2 ie a relevant place within the meaning of the Electricity Act 1989 s 4 (as amended): see PARA 1050 ante. 'Construct' and 'construction', in relation to so much of a generating station as comprises or is to comprise renewable energy installations, has the same meaning as in the Energy Act 2004 Pt 2 Ch 2 (ss 84-104); and

'renewable energy installation' has the same meaning as in Pt 2 Ch 2 (see PARA 1310 et seq post): Electricity Act 1989 s 64(1) (definitions added by the Energy Act 2004 s 102(1), (4)). For the meanings of 'construct' and 'construction' for those purposes see PARA 1312 note 4 post; and for the meaning of 'renewable energy installation' see PARA 1311 note 2 post.

3 For these purposes, 'extension', in relation to a generating station, includes the use by the person operating the station of any land or area of waters, wherever situated, for a purpose directly related to the generation of electricity by that station and 'extend' is to be construed accordingly: Electricity Act 1989 s 36(9) (amended by the Energy Act 2004 s 93(3)). It is submitted that 'extended' was intended to fall within this meaning.

4 Electricity Act 1989 s 36(1) (amended by the Energy Act 2004 s 93(1)). The Electricity Act 1989 s 36(1) (as amended) is subject to s 36(2), (4) (see the text and notes 6- 14 infra). As to the Secretary of State see PARA 601 note 1 ante.

5 See *ibid* s 36(3). As to the making of orders generally see s 106 (as amended); and PARA 1306 post; and as to the exercise of this power see head (1)(b) in the text.

6 *Ibid* s 36(2)(a) (as originally enacted).

7 As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

8 For this purpose, 'development' bears the same meaning as in the Town and Country Planning Act 1990 (see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 217 et seq): Electricity Act 1989 (Requirement of Consent for Offshore Wind and Water Driven Generating Stations) (England and Wales) Order 2001, SI 2001/3642, art 2(2).

9 For this purpose, 'planning permission' bears the same meaning as in the Town and Country Planning Act 1990 (see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 43 note 6): Electricity Act 1989 (Requirement of Consent for Offshore Wind and Water Driven Generating Stations) (England and Wales) Order 2001, SI 2001/3642, art 2(2).

10 See *ibid* art 2(1), modifying the Electricity Act 1989 s 36(2)(a).

11 Electricity Act 1989 s 36(2)(b).

12 *Ie* an order under *ibid* s 36(2).

13 *Ibid* s 36(2). As to the framing of classes or descriptions see PARAS 1051 note 4, 1068 note 17 ante.

14 *Ibid* s 36(4). In exercise of the power so conferred, the Secretary of State has made the Offshore Generating Stations (Exemption) Order 1990, SI 1990/443, which came into force on 31 March 1990: art 1. The requirement of consent under the Electricity Act 1989 s 36(1) (as amended) does not apply to a generating station which is situated on an offshore installation (within the meaning of the Mineral Workings (Offshore Installations) Act 1971 (repealed: see now the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, regs 2(1), 3(1) (as amended); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 733) and is used solely for the purpose of the supply of electricity to that offshore installation, or to that and any other offshore installation: Offshore Generating Stations (Exemption) Order 1990, SI 1990/443, arts 2, 3.

15 Electricity Act 1989 s 36(5)(a).

16 *Ibid* s 36(5)(b).

17 For the meaning of 'contravention' and cognate expressions see PARA 1070 note 20 ante.

18 Electricity Act 1989 s 36(6). As to the standard scale see PARA 613 note 11 ante.

19 *Ibid* s 36(7). As to the preliminary accreditation and accreditation of generating stations under the Renewables Obligation Order 2006, SI 2006/1004, art 31 see PARA 1238 ante. See also the Energy Act 1976 s 14 (as amended); and PARAS 1216-1217 ante; the Electricity Act 1989 s 61 (as amended) (concurrent proceedings in relation to applications for consent under s 36 (as modified: see note 10 supra) and compulsory purchase orders, etc); and PARA 1298 post; s 10(1), Sch 3 para 2 (as amended) (limitation on compulsory acquisition of land to which application for consent will relate); and PARAS 1283-1284 post; and s 38, Sch 9 para 1 (preservation of amenity in relation to proposals for consent under s 36 (as modified)); and PARA 1253 post. The Town and Country Planning Act 1990 allows the Secretary of State to direct that planning permission is to be deemed to be granted under the Electricity Act 1989 s 36 (as modified): see the Town and Country Planning Act 1990 s 90(2); and TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 238. On granting consent, the Secretary

of State may direct that hazardous substances consent is to be deemed to be granted: see the Planning (Hazardous Substances) Act 1990 s 12(2), (3), (5); and TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1254. See also the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927; and PARA 1254 et seq post; the Electricity Generating Stations (Fuel Control) Order 1987, SI 1987/2175; and PARA 1216 ante; the Nuclear Installations Act 1965 s 3 (as amended); and PARAS 1490-1491 post; the Submarine Pipelines (Electricity Generating Stations) Regulations 1981, SI 1981/750, reg 2; and PARA 1300 post; and the Conservation (Natural Habitats etc) Regulations 1994, SI 1994/2716 (as amended); and OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 729 et seq.

As to the powers under the Electricity Act 1989 to enter on land for purposes of exploration see s 10(1) (as amended), Sch 4 para 10; and PARA 1296 post. As to EC legislation as it applies to, inter alia, construction, etc of generating stations see PARA 631 et seq ante.

UPDATE

1249 Consent required for construction etc of generating stations; in general

TEXT AND NOTES--Certain of the functions of the Secretary of State in issuing consents under the Electricity Act 1989 s 36 are transferred to the Marine Management Organisation and s 36 is accordingly further amended: see Marine and Coastal Access Act 2009 s 12. See further WATER AND WATERWAYS vol 100 (2009) PARA 30A.

Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/A. GENERATING STATIONS AND OVERHEAD LINES REQUIRING CONSENT FOR CONSTRUCTION, INSTALLATION ETC/1250. Declarations extinguishing etc public rights of navigation.

1250. Declarations extinguishing etc public rights of navigation.

Where a consent¹ is granted by the Secretary of State² in relation to:

- 3144 (1) the construction³ or operation of a generating station⁴ that comprises or is to comprise, in whole or in part, renewable energy installations⁵ situated at places in relevant waters⁶; or
- 3145 (2) an extension⁷ of a generating station that is to comprise, in whole or in part, renewable energy installations situated at places in relevant waters or an extension of such an installation,

he may, at the same time, make a declaration under these provisions as respects rights of navigation so far as they pass through some or all of those places⁸. He may make such a declaration only if the applicant for the consent made an application for such a declaration when making his application for the consent⁹.

Such a declaration is one declaring that the rights of navigation specified or described in it:

- 3146 (a) are extinguished;
- 3147 (b) are suspended for the period that is specified in the declaration;
- 3148 (c) are suspended until such time as may be determined in accordance with provision contained in the declaration; or
- 3149 (d) are to be exercisable subject to such restrictions or conditions, or both, as are set out in the declaration¹⁰.

Such a declaration has effect, in relation to the rights specified or described in it, from the time at which it comes into force¹¹ and continues in force for such period as may be specified in the declaration or as may be determined in accordance with provision contained in it¹².

A declaration under these provisions:

- 3150 (i) must identify the renewable energy installations, or proposed renewable energy installations, by reference to which it is made;
- 3151 (ii) must specify the date on which it is to come into force, or the means by which that date is to be determined;
- 3152 (iii) may modify or revoke a previous such declaration, or a declaration under the specified provision of the Energy Act 2004¹³; and
- 3153 (iv) may make different provision in relation to different means of exercising a right of navigation¹⁴.

Where such a declaration is made by the Secretary of State, or a determination is made by him for the purposes of a provision contained in such a declaration, he must either:

- 3154 (A) publish the declaration or determination in such manner as appears to him to be appropriate for bringing it, as soon as is reasonably practicable, to the attention of persons likely to be affected by it; or
- 3155 (B) secure that it is published in that manner by the applicant for the declaration¹⁵.

Where a consent relating to the matters that are described in heads (1) and (2) above has been granted by the Secretary of State¹⁶ before the above provisions came into force¹⁷, then on an application made by the generator¹⁸, the Secretary of State may make a declaration under the following provisions as respects rights of navigation so far as they pass through the places where the renewable energy installations are situated or are to be situated or so far as they pass through some of those places¹⁹. Such a declaration is in the terms set out in heads (a) to (d) above²⁰. Except that it may not modify or revoke a previous declaration²¹, the provisions set out above as to the effect of the declaration, the matters set out in heads (i) to (iv) above and the requirements as to publication set out in heads (A) and (B) above²² apply as they apply to declarations made under the above provisions²³. Before making such a declaration, the Secretary of State must, however, publish details of the generator's application in such manner as he considers appropriate²⁴. The Secretary of State must give notice of that application to such persons as he considers appropriate, must consult the persons to whom notice has been given and must make such arrangements as he considers appropriate for a copy of the application to be made available for inspection by members of the public²⁵. He must also give such opportunities to such persons as he considers appropriate to make representations to the Authority about the application²⁶.

1 For these purposes, 'consent' means a consent under the Electricity Act 1989 s 36 (as amended) (see PARA 1249 ante): s 36A(7) (s 36A added by the Energy Act 2004 s 99(1)).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 For the meaning of 'construction' for these purposes see PARA 1312 note 4 post; and as to the application of this definition see PARA 1249 note 2 ante.

4 For the meaning of 'generating station' see PARA 1041 note 6 ante.

5 For the meaning of 'renewable energy installation' see PARA 1311 note 2 post; and as to the application of this definition see PARA 1249 note 2 ante.

6 For these purposes, 'relevant waters' means waters in or adjacent to Great Britain which are between the mean low water mark and the seaward limits of the territorial sea: Electricity Act 1989 s 36A(7) (as added: see note 1 supra). For the meaning of 'Great Britain' see PARA 602 note 7 ante; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

7 'Extension', in relation to a renewable energy installation, has the same meaning as in the Energy Act 2004 Pt 2 Ch 2 (ss 84-104) (see PARA 1310 et seq post): Electricity Act 1989 s 38A(7) (as added: see note 1 supra). That definition (in the Energy Act 2004 s 104(1)) (see PARA 1314 note 6 post) applies the definition in the Electricity Act 1989 s 36(9) (see PARA 1249 note 3 ante).

8 Ibid s 36A(1) (as added: see note 1 supra).

9 Ibid s 36A(2) (as added: see note 1 supra).

10 Ibid s 36A(3) (as added: see note 1 supra).

11 Ibid s 36A(4)(a) (as added: see note 1 supra).

12 Ibid s 36A(4)(b) (as added: see note 1 supra).

13 Ie a declaration under the Energy Act 2004 s 100: see the text and notes 16-26 infra.

14 Electricity Act 1989 s 36A(5) (as added: see note 1 supra).

15 Ibid s 36A(6) (as added: see note 1 supra).

16 Ie under the Electricity Act 1989 s 36 (as amended): see PARA 1249 ante.

17 Ie before 1 October 2005 (the commencement of the Energy Act 2004 s 99): see the Energy Act 2004 (Commencement No 5) Order 2005, SI 2005/877, art 2(2), Sch 2.

18 For these purposes, 'generator', in relation to a consent under the Electricity Act 1989 s 36 (as amended), means the person who is constructing or operating the station in question, or making the extension in question, or who is proposing to do so: Energy Act 2004 s 100(8).

19 See ibid s 100(1)-(3).

20 See ibid s 100(4).

21 Ie the Electricity Act 1989 s 36A(5)(c) (as added) (see head (iii) in the text) is omitted: Energy Act 2004 s 100(5).

22 Ie the Electricity Act 1989 s 36A(4)-(6) (as added) applies in relation to such declarations.

23 See the Energy Act 2004 s 100(5).

24 Ibid s 100(6)(a). The Secretary of State may satisfy the requirements of s 100(6)(a)-(d) by securing that the things that he is required to do under that provision are done on his behalf by the generator: see s 100(7).

25 Ibid s 100(6)(b)-(d); and see note 24 supra.

26 Ibid s 100(6)(e).

UPDATE

1250 Declarations extinguishing etc public rights of navigation

TEXT AND NOTES 1-15--Certain of the functions of the Secretary of State in issuing consents under the Electricity Act 1989 s 36A are transferred to the Marine Management Organisation and s 36A is accordingly amended: see Marine and Coastal Access Act 2009 s 12. See further WATER AND WATERWAYS vol 100 (2009) PARA 30A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/A. GENERATING STATIONS AND OVERHEAD LINES REQUIRING CONSENT FOR CONSTRUCTION, INSTALLATION ETC/1251. Duties in relation to navigation.

1251. Duties in relation to navigation.

The Secretary of State¹ may not grant a consent² in relation to any particular offshore generating activities³ if he considers that interference with the use of recognised sea lanes essential to international navigation⁴ is likely to be caused by the carrying on of those activities or is likely to result from their having been carried on⁵. It is the duty of the Secretary of State, in determining whether to give a consent for any particular offshore generating activities, and what conditions to include in such a consent, to have regard to the extent and nature of any obstruction of or danger to navigation which, without amounting to interference with the use of such sea lanes, is likely to be caused by the carrying on of the activities, or is likely to result from their having been carried on⁶. In determining for these purposes what interference, obstruction or danger is likely and its extent and nature, the Secretary of State must have regard to the likely overall effect⁷, both while being carried on and subsequently, of the activities in question and of such other offshore generating activities as are either already the subject of consents or are activities in respect of which it appears likely that consents will be granted⁸.

If the Secretary of State, having granted a consent in relation to any offshore generating activities, thinks it appropriate to do so in the interests of the safety of navigation, he may at any time vary conditions of the consent so as to modify⁹ in relation to any of the following matters the obligations imposed by those conditions:

- 3156 (1) the provision of aids to navigation (including, in particular, lights and signals);
- 3157 (2) the stationing of guard ships in the vicinity of the place where the activities are being or are to be carried on; or
- 3158 (3) the taking of other measures for the purposes of, or in connection with, the control of the movement of vessels in that vicinity¹⁰.

A modification in exercise of that power must be set out in a notice¹¹ given by the Secretary of State¹² to the person whose obligations are modified¹³.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For these purposes, 'consent' means a consent under the Electricity Act 1989 s 36 (as amended) (see PARA 1249 ante): s 36B(7) (s 36B added by the Energy Act 2004 s 66(1)).

3 For these purposes, 'offshore generating activities' means (1) the construction or operation of a generating station that is to comprise or comprises (in whole or in part) renewable energy installations; or (2) an extension of a generating station that is to comprise (in whole or in part) renewable energy installations or an extension of such an installation: Electricity Act 1989 s 36B(7) (as added: see note 2 supra). For the meaning of 'construction' see PARA 1312 note 4 post; for the meaning of 'renewable energy installation' see PARA 1311 note 2 post; and as to the application of these definitions see PARA 1249 note 2 ante. For the meaning of 'generating station' see PARA 1041 note 6 ante. For the meaning of 'extension', in relation to a renewable energy installation, see PARA 1249 note 3 ante (definition applied by the Energy Act 2004 s 104(1) and the Electricity Act 1989 s 36B(8) (as added: see note 2 supra)).

4 For these purposes, 'the use of recognised sea lanes essential to international navigation' means (1) anything that constitutes the use of such a sea lane for the purposes of the United Nations Convention on the Law of the Sea 1982 (Cmnd 8941) art 60(7); or (2) any use of waters in the territorial sea adjacent to Great Britain that would fall within head (1) supra if the waters were in a renewable energy zone: Electricity Act 1989 s 36B(7) (as added: see note 2 supra). For the meaning of 'renewable energy zone' see PARA 1310 post (definition applied by the Electricity Act 1989 s 64(1) (amended for this purpose by the Energy Act 2004 s 102(1), (4)(b)); for the meaning of 'Great Britain' see PARA 602 note 7 ante; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

5 Electricity Act 1989 s 36B(1) (as added: see note 2 supra).

6 Ibid s 36B(2) (as added: see note 2 supra).

7 For these purposes, the effects of offshore generating activities include (1) how, in relation to those activities, the Secretary of State has exercised or will exercise his powers under ibid s 36A (as added) and the Energy Act 2004 s 100 (extinguishment of public rights of navigation: see PARA 1250 ante); and (2) how, in relation to those activities, the Secretary of State has exercised or will exercise his powers under the Energy Act 2004 ss 95, 96, Pt 2 Ch 3 (ss 105-114) (safety zones and decommissioning: see PARAS 1314-1316, 1320 et seq post): Electricity Act 1989 s 36B(4) (as added: see note 2 supra).

8 Ibid s 36B(3) (as added: see note 2 supra).

9 For the meaning of 'modify' see PARA 1035 note 3 ante.

10 Electricity Act 1989 s 36B(5) (as added: see note 2 supra).

11 For the meaning of 'notice' see PARA 1047 note 11 ante.

12 Ie as the person who granted the consent.

13 See the Electricity Act 1989 s 36B(6) (as added: see note 2 supra).

UPDATE

1251 Duties in relation to navigation

TEXT AND NOTES--Certain of the functions of the Secretary of State in issuing consents under the Electricity Act 1989 s 36B are transferred to the Marine Management Organisation and s 36B is accordingly amended: see Marine and Coastal Access Act 2009 s 12. See further WATER AND WATERWAYS vol 100 (2009) PARA 30A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/A. GENERATING STATIONS AND OVERHEAD LINES REQUIRING CONSENT FOR CONSTRUCTION, INSTALLATION ETC/1252. Consent required for overhead lines; in general.

1252. Consent required for overhead lines; in general.

An electric line¹ may not be installed or kept installed above ground except in accordance with a consent granted by the Secretary of State². This restriction does not, however, apply:

- 3159 (1) in relation to an electric line which has a nominal voltage not exceeding 20 kilovolts and is used or intended to be used for supplying³ a single consumer⁴;
- 3160 (2) in relation to so much of an electric line as is or will be within premises⁵ in the occupation or control of the person responsible for its installation⁶; or
- 3161 (3) in such other cases as may be prescribed⁷.

The prescribed exemptions are:

- 3162 (a) the installation or keeping installed of an electric line which connects an electric line installed below ground with apparatus mounted on a pole or structure and is attached to the pole or structure throughout its length except where it passes through a fuse or apparatus⁸;
- 3163 (b) the installation or keeping installed of a wire or cable, including its casing or coating, which forms part of electronic communications apparatus⁹ and which is supported, or carried by, or suspended from the supports for an existing line¹⁰;
- 3164 (c) the installation or keeping installed for a period not exceeding six months of an electric line no part of which is within a National Park¹¹, a National Scenic Area in Scotland¹², an area of outstanding natural beauty¹³, a regional park¹⁴ or a site of special scientific interest (an 'SSSI')¹⁵ and which connects two points on an existing line which are not further apart than the maximum distance¹⁶ so as to provide a diversion for the existing line¹⁷;
- 3165 (d) the installation or keeping installed of an electric line attached to a building, other than a scheduled monument¹⁸, listed building¹⁹ or building in a conservation area²⁰, where the building in question crosses a road, railway or watercourse and its principal purpose is not the support of the electric line²¹;
- 3166 (e) the installation or keeping installed, subject to the prescribed limitations and restrictions²², of an electric line no part of which is within a National Park, National Scenic Area, area of outstanding natural beauty, regional park or SSSI and which replaces an existing line whether or not it is installed in the same positions as the existing line in question²³;
- 3167 (f) an electric line forming part of the Midland Metro light rail transit system²⁴;
- 3168 (g) an electric line which has been, or is to be, installed or kept installed in accordance with a power conferred by, or by an order made under, an Act of Parliament²⁵ and has been, or is to be, installed or kept installed for the purposes of a tramway or trolley vehicle system or system using a mode of guided transport²⁶ prescribed by order made under the Transport and Works Act 1992²⁷.

A consent granted under these provisions may include such conditions (including conditions as to the ownership and operation of the line) as appear to the Secretary of State to be

appropriate²⁸. Such a consent may be varied or revoked by the Secretary of State at any time after the end of such period as may be specified in the consent²⁹ and otherwise continues in force for such period as may be specified in or determined by or under the consent³⁰.

Any person who without reasonable excuse contravenes³¹ these provisions relating to the requirement of consent is liable on summary conviction to a fine not exceeding level 3 on the standard scale³². No proceedings may, however, be instituted in England and Wales in respect of such an offence except by or on behalf of the Secretary of State³³.

1 For the meaning of 'electric line' see PARA 1041 note 5 ante.

2 Electricity Act 1989 s 37(1). Section 37(1) is subject to s 37(2): s 37(1). As to the Secretary of State see PARA 601 note 1 ante.

3 For the meaning of 'supply' see PARA 1041 note 10 ante.

4 Electricity Act 1989 s 37(2)(a).

5 For the meaning of 'premises' see PARA 1041 note 5 ante.

6 Electricity Act 1989 s 37(2)(b).

7 Ibid s 37(2)(c). For the meaning of 'prescribed' see PARA 1096 note 11 ante. In exercise of the power so conferred, the Secretary of State has made the Overhead Lines (Exemption) Regulations 1990, SI 1990/2035; and the Overhead Lines (Exemption) Regulations 1992, SI 1992/3074: see heads (a)-(e), (g) in the text.

8 Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(1)(a).

9 Ie within the meaning given in the Telecommunications Act 1984 Sch 2 para 1 (as amended) (see TELECOMMUNICATIONS vol 97 (2010) PARA 163): Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(1)(b).

10 Ibid reg 3(1)(b). 'An existing line' means an electric line which has been installed or is kept installed above ground in accordance with a consent granted under the Electricity Act 1989 s 37(1); or has been installed above ground and is an electric line to which s 37(1) does not apply either by virtue of s 112(3), Sch 17 para 5(4) or (5) (transitional provisions) or by virtue of any provision of the Overhead Lines (Exemption) Regulations 1990, SI 1990/2035: reg 2.

11 As to the National Parks see OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 636 et seq.

12 Ie an area designated as a National Scenic Area by a direction under the Town and Country Planning (Scotland) Act 1972 s 262C (as added): see the Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

13 'Area of outstanding natural beauty' means an area designated as such by an order under the National Parks and Access to the Countryside Act 1949 s 87 (repealed) (see now the Countryside and Rights of Way Act 2000 s 82 (as amended); and OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 658 et seq): Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

14 Ie lands designated as a regional park by an order under the Countryside (Scotland) Act 1967 s 48A (as added): see the Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

15 'SSSI' means a site of special scientific interest designated under the Wildlife and Countryside Act 1981 s 29 (repealed) (see now s 28 (as amended) (notification of SSSIs); and OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 674 et seq): Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

16 'The maximum distance' means (1) in relation to an electric line which has a nominal voltage less than 66 kilovolts, 500 metres; and (2) in relation to any other electric line, 850 metres: ibid reg 3(2).

17 Ibid reg 3(1)(c).

18 'Scheduled monument' has the same meaning as in the Ancient Monuments and Archaeological Areas Act 1979 (see NATIONAL CULTURAL HERITAGE vol 77 (2010) PARA 1010): Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

19 'Listed building' has the same meaning as in the Planning (Listed Buildings and Conservation Areas) Act 1990 s 91 (as amended) (see TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1091): Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

20 'Conservation area' has the same meaning as in the Planning (Listed Buildings and Conservation Areas) Act 1990 s 91 (as amended) (see TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1169): Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 3(2).

21 Ibid reg 3(1)(d).

22 Ie subject to the limitations in ibid reg 4 and the provisions of reg 5 (see note 23 infra): reg 3(1)(e). The prescribed limitations are that: (1) the electric line does not have a nominal voltage greater than the nominal voltage of the existing line; (2) any conditions contained in a consent granted under the Electricity Act 1989 s 37(1) or under the previous legislation (ie the Electric Lighting (Clauses) Act 1899 Schedule s 10(b) (repealed)) applicable to the existing line are complied with; (3) the height above the surface of the ground of any support for the electric line does not exceed the height of the highest support which is being replaced by more than 10%; (4) where the electric line is installed in a different position from the existing line, the distance between any small support and the existing line does not exceed 30 metres and the distance between any other support and the existing line does not exceed 60 metres; and (5) where the electric line is installed in a different position from the existing line, the existing line is removed within 12 months from the date on which the installation of the electric line which replaces it is completed: Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 4(1). For these purposes, any reference to the distance between a support and an existing line is a reference to the shortest distance between the centre of the base of that support and an imaginary line through the centre of the base of each support of the existing line (reg 4(2)(a)); and a 'small support' means a support for an electric line which does not exceed 10 metres in height (reg 4(2)(b)).

23 Ibid reg 3(1)(e). In a case where either (1) the electric line is to be installed in a different position from the existing line; or (2) the height above the surface of the ground of any support for the electric line will exceed the height of the highest support which is to be replaced, reg 3(1)(e) applies only if it is determined for these purposes that there is not likely to be a significant adverse effect on the environment: reg 5(1). For these purposes, it must be determined that there is not likely to be such an adverse effect if (a) notice is given by the person proposing to install the electric line to the relevant planning authority (within the meaning of the Electricity Act 1989 s 36(8), Sch 8 (as amended): see PARA 1260 note 9 post) of the proposal to install that electric line; and (b) that planning authority does not, within six weeks of receiving that notice, (i) determine that if the electric line were installed in accordance with the proposal it would in the opinion of that authority be likely to have a significant adverse effect on the environment; and (ii) notify the person by whom the notice was given and the Secretary of State of that determination: Overhead Lines (Exemption) Regulations 1990, SI 1990/2035, reg 5(2), (3).

24 See the Midland Metro Act 1992 s 10(3); the Midland Metro (No 2) Act 1992 s 10(3).

25 Overhead Lines (Exemption) Regulations 1992, SI 1992/3074, reg 3(a). The Overhead Lines (Exemption) Regulations 1992, SI 1992/3074, came into force on 1 January 1993 (see reg 1) and thus did not apply to the exemption set out at head (f) in the text.

26 For these purposes, 'guided transport', 'tramway', 'trolley vehicle system' and 'vehicle' have the same meanings as in the Transport and Works Act 1992 (see RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES): Overhead Lines (Exemption) Regulations 1992, SI 1992/3074, reg 2.

27 Ibid reg 3(b). The order referred to is an order made under the Transport and Works Act 1992 s 2: Overhead Lines (Exemption) Regulations 1992, SI 1992/3074, reg 3(b).

28 Electricity Act 1989 s 37(3)(a).

29 Ibid s 37(3)(b).

30 Ibid s 37(3)(c).

31 For the meaning of 'contravention' and cognate expression see PARA 1070 note 20 ante.

32 Electricity Act 1989 s 37(4). As to the standard scale see PARA 613 note 11 ante.

33 Ibid s 37(5). As to applications for consent see s 36(8), Sch 8 (as amended); and PARA 1260 et seq post. See also the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927; and PARA 1254 et seq post.

See further the Electricity Act 1989 s 61 (as amended) (concurrent proceedings in relation to applications for consent under s 37 and compulsory purchase orders, applications for necessary wayleaves and felling and lopping of trees, etc); and PARA 1298 post; s 10(1), Sch 3 para 2 (as amended) (limitation on compulsory

acquisition of land to which application for consent will relate); and PARA 1283 post; and s 38, Sch 9 para 1 (preservation of amenity in relation to proposals for consent under s 37); and PARA 1253 post. The Town and Country Planning Act 1990 allows the Secretary of State to direct that planning permission is to be deemed to be granted under the Electricity Act 1989 s 37: see the Town and Country Planning Act 1990 s 90(2); and TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 238. As to the powers under the Electricity Act 1989 to enter on land for purposes of exploration see s 10(1), Sch 4 para 10; and PARA 1296 post. As to EC environmental legislation as it applies to, inter alia, overhead lines see PARA 637 ante. See also the Conservation (Natural Habitats etc) Regulations 1994, SI 1994/2716 (as amended); and OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 729 et seq.

UPDATE

1252 Consent required for overhead lines; in general

NOTES--Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

TEXT AND NOTES 8-23--SI 1990/2035 replaced: Overhead Lines (Exemption) (England and Wales) Regulations 2009, SI 2009/640 (amended by SI 2010/29).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1253. Preservation of amenity.

B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT

1253. Preservation of amenity.

In formulating any proposals ('relevant proposals'):

- 3169 (1) for the construction¹ or extension² of a generating station³ of a capacity not less than 10 megawatts, or such other capacity as may be specified by order made by the Secretary of State⁴, or for the operation of such a station in a different manner;
- 3170 (2) for the installation, whether above or below ground, of an electric line⁵; or
- 3171 (3) for the execution of any other works for or in connection with the transmission⁶ or supply⁷ of electricity⁸,

a licence holder⁹ or a person authorised by exemption¹⁰ to generate¹¹, distribute¹², supply or participate in the transmission of electricity¹³ must:

- 3172 (a) have regard the desirability of preserving natural beauty, of conserving flora, fauna and geological or physiographical features of special interest and of protecting sites, buildings¹⁴ and objects of architectural, historic or archaeological interest¹⁵;
- 3173 (b) do what he reasonably can to mitigate any effect which the proposals would have on the natural beauty of the countryside or on any such flora, fauna, features, sites, buildings or objects¹⁶.

In considering any relevant proposals for which his consent is required¹⁷, the Secretary of State must have regard to the desirability of the matters mentioned in head (a) above and the extent to which the person by whom the proposals were formulated has complied with his duty under head (b) above¹⁸.

A licence holder must within 12 months from the grant of his licence prepare, and from time to time modify¹⁹, a statement setting out the manner in which he proposes to perform his duty under heads (a) and (b) above, including in particular the consultation procedures he intends to follow²⁰. Before so preparing or modifying a statement, he must consult:

- 3174 (i) where the activities which he is authorised by his licence to carry out include activities in England, Natural England²¹ and the Historic Buildings and Monuments Commission for England ('English Heritage')²²; and
- 3175 (ii) where those activities include activities in Wales, the Countryside Council for Wales²³ and the Welsh Ministers²⁴.

As soon as practicable after preparing or modifying such a statement, the licence holder must publish it as so prepared or modified in such manner as he considers appropriate²⁵.

- 1 For the meaning of 'construction' see PARA 1312 note 4 post; and as to the application of this definition see PARA 1249 note 2 ante.
- 2 For the meaning of 'extension' see PARA 1249 note 3 ante.
- 3 For the meaning of 'generating station' see PARA 1041 note 6 ante.
- 4 See the Electricity Act 1989 s 38, Sch 9 para 1(4). As to the Secretary of State see PARA 601 note 1 ante; and as to the making of orders generally see s 106 (as amended); and PARA 1306 post. At the date at which this title states the law, no such order had been made for these purposes. Cf, however, the Electricity Act 1989 (Requirement of Consent for Offshore Wind and Water Driven Generating Stations) (England and Wales) Order 2001, SI 2001/3642, made under and for the purposes of the Electricity Act 1989 s 36 (as amended); and PARA 1249 ante.
- 5 For the meaning of 'electric line' see PARA 1041 note 5 ante.
- 6 For the meaning of 'transmission' see PARA 1041 note 6 ante.
- 7 For the meaning of 'supply' see PARA 1041 note 10 ante.
- 8 See the Electricity Act 1989 Sch 9 para 1(3).
- 9 For the meaning of 'licence holder' see PARA 1041 note 12 ante.
- 10 For the meaning of 'exemption' see PARA 1046 note 7 ante.
- 11 For the meaning of 'generate' see PARA 1041 note 7 ante.
- 12 For the meaning of 'distribute' see PARA 1041 note 5 ante.
- 13 For the meaning of references to participating in the transmission of electricity see PARA 1050 note 5 ante.
- 14 For these purposes, 'building' includes structure: Electricity Act 1989 Sch 9 para 1(3).
- 15 Ibid Sch 9 para 1(1)(a) (Sch 9 para 1(1) amended by the Energy Act 2004 s 143(1), Sch 19 paras 3, 16; and by the Utilities Act 2000 (Transitional Provisions) (No 2) Regulations 2001, SI 2001/3264, reg 6).
- 16 Electricity Act 1989 Sch 9 para 1(1)(b) (as amended: see note 15 supra). See the Conservation (Natural Habitats etc) Regulations 1994, SI 1994/2716 (as amended); and OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 729 et seq. As to the assessment of environmental impact see PARA 1254 et seq post.
- 17 Ie under the Electricity Act 1989 s 36 (as amended) (consent in relation to generating stations: see PARA 1249 ante) or s 37 (consent in relation to electric lines: see PARA 1252 ante).
- 18 Ibid Sch 9 para 1(2).
- 19 For the meaning of 'modify' see PARA 1035 note 3 ante.
- 20 Electricity Act 1989 Sch 9 para 2(1).
- 21 As to Natural England see OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 523.
- 22 Electricity Act 1989 Sch 9 para 2(2)(a) (amended by the Environmental Protection Act 1990 s 132, Sch 9 para 16; the Natural Environment and Rural Communities Act 2006 s 105, Sch 11 Pt 1 para 115, Sch 12). As to English Heritage see NATIONAL CULTURAL HERITAGE vol 77 (2010) PARA 803 et seq; TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1058.
- 23 As to the Countryside Council for Wales see OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 524.
- 24 See the Electricity Act 1989 Sch 9 para 2(2)(b) (amended by the Environmental Protection Act 1990 s 132, Sch 9 para 16; the Historic Buildings Council for Wales (Abolition) Order 2006, SI 2006/63, art 3(4)). The statutory wording is 'the National Assembly for Wales' rather than the Welsh Ministers; but see PARA 601 note 1 ante.
- 25 Electricity Act 1989 Sch 9 para 2(3). Schedule 9 paras 1, 2 (as amended) extend to England and Wales only: Sch 9 para 1(5).

UPDATE

1253 Preservation of amenity

TEXT AND NOTE 18--See Marine and Coastal Access Act 2009 s 12(5)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1254. Prohibition of grant of consent without consideration of environmental information.

1254. Prohibition of grant of consent without consideration of environmental information.

The Secretary of State¹ must not grant a section 36 consent² or a section 37 consent³ which relates to EIA development unless the prescribed requirements⁴ have been satisfied⁵. For these purposes, 'EIA development' means development⁶ which is:

- 3176 (1) Schedule 1 development, namely the carrying out of development to provide any of the following:
- 303
447. (a) a generating station⁷ the construction⁸ of which or the operation of which will require a section 36 consent and which is either a nuclear generating station or a non-nuclear generating station with a heat output of 300 megawatts or more;
448. (b) an electric line⁹ installed above ground with a voltage of 220 kilovolts or more and a length of more than 15 kilometres, the installation of which or the keeping installed of which will require a section 37 consent; or
449. (c) any change to or extension¹⁰ of such development where such a change or extension in itself meets the thresholds, if any, or the descriptions of development specified for these purposes¹¹;
- 304
- 3177 (2) Schedule 2 development, namely the carrying out of development to provide any of the following:
- 305
450. (a) a generating station the construction of which or the operation of which will require a section 36 consent but which is not Schedule 1 development;
451. (b) an electric line installed above ground with a voltage of 132 kilovolts or more the installation of which or the keeping installed of which will require a section 37 consent but which is not Schedule 1 development;
452. (c) an electric line installed above ground in a sensitive area¹² the installation of which or the keeping installed of which will require a section 37 consent but which is not Schedule 1 development and does not fall within head (b) above; or
453. (d) any change to or extension of development of a description falling within the description of Schedule 1 development (other than a change or extension falling with head (1)(c) above) or Schedule 2 development where that development is already authorised, executed, or in the process of being executed, and the change or extension may have significant adverse effects on the environment¹³,
- 306
- 3178 if one of the specified events¹⁴ has occurred¹⁵;
- 3179 (3) any other development which the Secretary of State determines¹⁶ is EIA development¹⁷;

and in spite of the fact that any development is not Schedule 1 development or Schedule 2 development, the Secretary of State may, having taken into account such of the prescribed criteria¹⁸ as are relevant to the development, make a determination¹⁹ that an application for a

section 36 consent or a section 37 consent is for EIA development as the development is likely to have significant effects on the environment by virtue of factors such as its nature, size or location²⁰.

An applicant must submit in relation to any application for a section 36 consent or a section 37 consent which relates to EIA development an environmental statement²¹ which includes the prescribed information²². In relation to any application for a section 36 consent or a section 37 consent which relates to EIA development, the Secretary of State must not grant the required consent unless:

- 3180 (i) he is satisfied that the applicant has complied with his obligations under the above provision;
- 3181 (ii) he has taken into consideration the environmental information²³ and states in his decision in relation to that consent that he has done so; and
- 3182 (iii) the prescribed procedures²⁴ have been followed in so far as they are applicable²⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 'Section 36 consent' means a consent under the Electricity Act 1989 s 36 (as amended) to construct, extend or operate a generating station (see PARA 1249 ante): Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1).

3 'Section 37 consent' means a consent under the Electricity Act 1989 s 37 to install or keep installed an electric line above ground (see PARA 1252 ante): Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1).

4 le the requirements of *ibid* reg 4 (as amended): see the text and notes 22-25 *infra*.

5 *Ibid* reg 3(1).

6 For these purposes, 'development' means the carrying out of building, engineering or other operations in, on, over or under land or sea in pursuance of any application to which the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927 (as amended), apply: reg 2(1). Those regulations apply in the case of any application under the Electricity Act 1989 s 36 (as amended) for consent to construct, extend or operate a generating station, or any application under s 37 for consent to install or keep installed an electric line above ground, which is received by the Secretary of State on or after 1 September 2000 (Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 1(1), (2)); and extend throughout England and Wales (reg 1(3)).

7 For the meaning of 'generating station' see PARA 1041 note 6 ante (definition applied by *ibid* reg 2(1)).

8 'Construction' is not defined for these purposes; but cf para 1249 note 2 ante.

9 For the meaning of 'electric line' see PARA 1041 note 5 ante (definition applied by the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1)).

10 'Extension' is not defined for these purposes; but cf para 1249 note 3 ante.

11 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1), Sch 1 (amended by SI 2007/1977).

12 For these purposes, 'sensitive area' means any of the following: (1) land notified under the Wildlife and Countryside Act 1981 s 28(1) (as substituted) (areas of special scientific interest); (2) land to which the Wildlife and Countryside Act 1981 s 29(3) (repealed) (nature conservation orders) applied; (3) an area to which the Town and Country Planning (General Development Procedure) Order 1995, SI 1995/419, art 10 (as amended), Table para (u)(ii) applies (see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 475 ante at head (21)(b) in the text); (4) a National Park within the meaning of the National Parks and Access to the Countryside Act 1949; (5) the Broads; (6) a property appearing on the World Heritage List kept under the 1972 UNESCO Convention for the Protection of the World Cultural and Natural Heritage art 11(2); (7) a scheduled monument within the meaning of the Ancient Monuments and Archaeological Areas Act 1979; (8) an area of outstanding natural beauty designated as such by an order made by Natural England as respects England or the Countryside Council for Wales, as respects Wales, under the Countryside and Rights of Way Act 2000 s 82 (as amended) as confirmed by the Secretary of State or by the National Assembly for Wales or the Welsh Ministers; (9) a

European site within the meaning of the Conservation (Natural Habitats etc) Regulations 1994, SI 1994/2716, reg 10 (as amended); Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, Sch 2 paras (a)-(i) (amended by virtue of the Countryside and Rights of Way Act 2000 ss 73, 76, 93, Sch 10, Sch 15 Pt II and the Natural Environment and Rural Communities Act 2006 s 1(4)).

13 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, Sch 2 paras (1), (3)-(5) (amended by SI 2007/1977).

14 The events referred to are: (1) the submission by the applicant in relation to the proposed development of a document referred to by the applicant as an environmental statement for the purposes of the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927 (as amended); or (2) a determination by the Secretary of State (whether pursuant to a request for a screening opinion or reg 6 (as amended): see PARA 1255 post), having taken into account such of the criteria set out in Sch 3 (see note 18 infra) as are relevant to the development, that the application relates to EIA development as the development is likely to have significant effects on the environment by virtue of factors such as its nature, size or location: reg 3(3). 'Screening opinion' means a written statement of opinion of the Secretary of State as to whether the development in question is EIA development: reg 2(1).

15 See *ibid* reg 3(2).

16 *Ie* in accordance with *ibid* reg 3(4): see the text and notes 18-20 *infra*.

17 *Ibid* reg 2(1).

18 *Ie* the criteria set out in *ibid* Sch 3. Those criteria are as follows (Sch 3):

85 (1) characteristics of development: the characteristics of development must be considered, having regard, in particular, to:

55. (a) the size of the development;
55

56. (b) the cumulation with other developments;
56

57. (c) the use of natural resources;
57

58. (d) the production of waste;
58

59. (e) pollution and nuisances; and
59

60. (f) the risk of accidents, having regard in particular to substances or technologies used;
60

86 (2) location of development: the environmental sensitivity of geographical areas likely to be affected by development must be considered, having regard, in particular, to the existing land use, the relative abundance, quality and regenerative capacity of natural resources in the area and the absorption capacity of the natural environment, paying particular attention to the following areas:

61. (a) wetlands;
61

62. (b) coastal zones;
62

63. (c) mountain and forest areas;
63

64. (d) nature reserves and parks;
64

65. (e) areas classified or protected under EEA states' legislation;
65

66. (f) special protection areas designated by EEA states pursuant to EC Council Directive 79/409 (OJ L103, 25.04.79, p 1) (as amended) on the conservation of wild birds and EC Council Directive 92/43 (OJ L206, 22.07.92, p 7) (as amended) on the conservation of natural habitats and of wild fauna and flora: see OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 728; WATER AND WATERWAYS vol 101 (2009) PARAS 674, 679);

66

67. (g) areas in which the environmental quality standards laid down in legislation of the Communities have already been exceeded;

67

68. (h) densely populated areas; and

68

69. (i) landscapes of historical, cultural and archaeological significance;

69

- 87 (3) characteristics of the potential impact; the potential significant effects of development must be considered in relation to criteria set out under heads (1), (2) supra, and having regard, in particular, to:

70. (a) the extent of the impact (geographical area and size of the affected population);

70

71. (b) the transfrontier nature of the impact;

71

72. (c) the magnitude and complexity of the impact;

72

73. (d) the probability of the impact; and

73

74. (e) the duration, frequency and reversibility of the impact.

74

'EEA state' has the meaning given by the Interpretation Act 1978 Sch 1 (as amended) (ie in relation to any time, a state which at that time is a member state, or any other state which at that time is a party to the EEA Agreement; and the 'EEA Agreement' means the Agreement on the European Economic Area signed at Oporto on 2 May 1992 as adjusted by the Protocol signed at Brussels on 17 March 1993, as modified or supplemented from time to time): Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1) (definition substituted by SI 2007/1977).

19 Ie whether pursuant to a request for a screening opinion or to the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 6 (as amended).

20 Ibid reg 3(4).

21 'Environmental statement' means (1) a statement prepared in respect of development pursuant to ibid reg 4(1) (see the text to this note and note 22 infra); (2) any information (a) provided to the Secretary of State by the applicant in order to supplement the statement referred to in head (1) supra and (b) made available to the Secretary of State no later than 14 days after the date of receipt by the Secretary of State of that statement; and (3) any further information submitted by the applicant pursuant to a requirement under reg 13(1) (see PARA 1257 post): reg 2(1) (definition substituted by SI 2007/1977).

22 The statement must include at least the information referred to in the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, Sch 4 Pt II, and such of the information referred to in Sch 4 Pt I as is reasonably required to assess the environmental effects of the development and which, having regard in particular to current knowledge and methods of assessment, the applicant can reasonably be required to compile, taking into account the terms of any scoping opinion given: reg 4(1). 'Scoping opinion' means a written statement of opinion of the Secretary of State as to the information to be provided in an environmental statement: reg 2(1) (definition amended by SI 2007/1977).

The information which the statement must contain is as follows (Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, Sch 4 Pt II), ie:

- 88 (1) a description of the development comprising information on the site, design and size of the development;

- 89 (2) a description of the measures envisaged in order to avoid, reduce and, if possible, remedy significant adverse effects;

- 90 (3) the data required to identify and assess the main effects which the development is likely to have on the environment;

- 91 (4) an outline of the main alternatives studied by the applicant and an indication of the main reasons for his choice, taking into account the environmental effects; and

92 (5) a non-technical summary of the information provided under heads (1)-(4) supra.

The additional information which may be reasonably required is as follows (Sch 4 Pt I), ie:

93 (a) a description of the development, including in particular:

75. (i) a description of the physical characteristics of the whole development and the land-use requirements during the construction and operational phases;
75

76. (ii) a description of the main characteristics of the production processes, for instance, nature and quality of the materials used; and
76

77. (iii) an estimate, by type and quantity, of expected residues and emissions (water, air and soil pollution, noise, vibration, light, heat, radiation, etc) resulting from the operation of the proposed development;
77

94 (b) a description of the aspects of the environment likely to be significantly affected by the development, including, in particular, population, fauna, flora, soil, water, air, climatic factors, material assets, including the architectural and archaeological heritage, landscape and the interrelationship between the above factors;

95 (c) a description of the likely significant effects of the development on the environment, which should cover the direct effects and any indirect, secondary, cumulative, short, medium and long-term, permanent and temporary, positive and negative effects of the development, resulting from:

78. (i) the existence of the development;
78

79. (ii) the use of natural resources; and
79

80. (iii) the emission of pollutants, the creation of nuisances and the elimination of waste, and the description by the applicant of the forecasting methods used to assess the effects on the environment;
80

96 (d) a description of the measures envisaged to prevent, reduce and where possible offset any significant adverse effects on the environment;

97 (e) a non-technical summary of the information provided under heads (a)-(d) supra;

98 (f) an indication of any difficulties (technical deficiencies or lack of know-how) encountered by the applicant in compiling the required information.

23 Ie including without limitation any views expressed by other EEA states under *ibid* reg 12 (as amended) (see *PARA 1258 post*): reg 4(2)(b). 'Environmental information' means the environmental statement prepared by the applicant, additional information, and any representations duly made by any consultative body or any other person about the likely environmental effects of the proposed development: reg 2(1) (definition substituted by SI 2007/1977). 'Additional information' means information which (1) is made available to the Secretary of State after the date of receipt by the Secretary of State of a document referred to by the applicant as an environmental statement and before determination by the Secretary of State of the application for a section 36 consent or a section 37 consent in respect of the development; (2) is of material relevance to the matters referred to in the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, Sch 4; and (3) is not information falling within *PARAS* (b) or (c) of the definition of 'environmental statement' (see note 21 heads (2)-(3) *supra*): reg 2(1) (definition added by SI 2007/1977). 'The consultative bodies' means (a) (other than in relation to development which is or is to be situated in the English area) the local planning authority and any principal council for the area where the land is situated, if not the local planning authority; (b) where the application or proposed application relates to a site in England, Natural England; (c) where the application or proposed application relates to a site in Wales, the Countryside Council for Wales; (d) where the application or proposed application relates to a section 36 consent, the Environment Agency; and (e) other bodies designated by statutory provision as having specific environmental responsibilities whom the Secretary of State considers are likely to have an interest in the application or proposed application: Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1) (definition amended by SI 2007/977; and by virtue of the Natural Environment and Rural Communities Act 2006 s 1(4)). 'The English area' means the area so defined in the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 1(2) (see *PARA 1656 note 6 post*); 'local planning authority' has the same meaning as is

assigned to 'relevant planning authority' by the Electricity Act 1989 Sch 8 para 2(6)(a), (aa) or (ab) (as amended) (as the case may be) (see PARA 1260 note 9 post); and 'principal council' has the same meaning as in the Local Government Act 1972 s 270(1) (as amended) (see LOCAL GOVERNMENT vol 69 (2009) PARA 24): Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1).

24 le the procedures laid down in ibid reg 9 (as amended), reg 10(2A) (as added), regs 11-14 (as amended), reg 14A (as added): see PARAS 1257-1259 post.

25 Ibid reg 4(2) (amended by SI 2007/1977).

UPDATE

1254 Prohibition of grant of consent without consideration of environmental information

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733. Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

See Marine and Coastal Access Act 2009 s 12(5)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1255. Screening.

1255. Screening.

A person who is minded to apply for a section 36 consent¹ or a section 37 consent² for development³ which he considers may be EIA development⁴ may make a written request to the Secretary of State⁵ for a screening opinion⁶. A request for a screening opinion must be accompanied by:

- 3183 (1) a plan sufficient to identify the site which is the subject of the proposed development;
- 3184 (2) a brief description of the nature and purpose of the proposed development and of its possible effects on the environment; and
- 3185 (3) such further information or representations as the person making the request may wish to provide or make⁷.

The Secretary of State, on receiving a request for a screening opinion must, if he considers that he has not been provided with sufficient information to give an opinion, within three weeks of the receipt of the request by him give notice⁸ to the person making the request of the particular points on which he requires further information⁹.

Where the Secretary of State considers that he has sufficient information he must consult the local planning authority¹⁰ within whose area the land which is the subject of the proposed application is situated (or, in relation to a proposed development in, on, over or under the sea, such local planning authority or local planning authorities as he considers appropriate) as to its views on whether the proposed development is EIA development, unless the person requesting a screening opinion has already conveyed that authority's views to the Secretary of State¹¹. A local planning authority must give its views to the Secretary of State within three weeks of the date on which it was so consulted, or such longer period as the Secretary of State may determine¹².

When the Secretary of State considers that he has sufficient information he must give a screening opinion within three weeks of whichever is the latest of:

- 3186 (a) the date of receipt of the request by the Secretary of State;
- 3187 (b) the date by which he has received all the further information required by him in a notice given under the above provisions; and
- 3188 (c) the date by which the local planning authority is so required to give its views or, if earlier, the date by which the Secretary of State has received the views of the local planning authority,

or within such longer period as may be agreed in writing with the person making the request¹³. Where the Secretary of State determines that the application for consent is for EIA development, he must provide with the screening opinion a written statement giving full reasons for his determination¹⁴.

Where an application is made to the Secretary of State for a section 36 consent or a section 37 consent but the application is not accompanied by a document referred to by the applicant as

an environmental statement¹⁵ and the proposed development has not previously been the subject of a screening opinion, the Secretary of State must make a determination as to whether or not the application for consent is for EIA development within three weeks of whichever is the latest of:

- 3189 (i) the date of receipt of the application by the Secretary of State;
- 3190 (ii) the date by which he has received all the further information required by him¹⁶; and
- 3191 (iii) the date by which the local planning authority is required to give its views¹⁷ or, if earlier, the date by which the Secretary of State has received the views of the local planning authority,

or within such longer period as may be agreed in writing with the applicant, and give notice to the applicant in writing accordingly, giving full reasons for his determination¹⁸. The applicant may, within three weeks beginning with the date a notice is so given that the proposed development is EIA development, write to the Secretary of State to inform him that he proposes to provide an environmental statement¹⁹. If the Secretary of State so determines that the proposed development is EIA development and the applicant takes no such action, the consent applied for is to be deemed to be refused at the end of the three week period referred to above²⁰.

1 For the meaning of 'section 36 consent' see PARA 1254 note 1 ante.

2 For the meaning of 'section 37 consent' see PARA 1254 note 2 ante.

3 For the meaning of 'development' see PARA 1254 note 6 ante.

4 For the meaning of 'EIA development' see PARA 1254 ante.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 5(1). For the meaning of 'screening opinion' see PARA 1254 note 14 ante.

7 Ibid reg 5(2).

8 Any notice or other document to be sent, served or given under the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927 (as amended) (see PARA 1254 ante; the text and notes 1-7 supra, 9-20 infra; and PARA 1256 et seq post) may be sent, served or given either (1) by delivering it to the person on whom it is to be served or to whom it is to be given; (2) by leaving it at the usual or last known place of abode of that person, or, in a case where an address for service has been given by that person, at that address; (3) by sending it in a prepaid registered letter, or by the recorded delivery service, addressed to that person at his usual or last known place of abode, or, in a case where an address for service has been given by that person, at that address; or (4) in the case of an incorporated company or body, by delivering it to the secretary or clerk of the company or body at its registered or principal office, or by sending it in a prepaid registered letter, or by the recorded delivery service, addressed to the secretary or clerk of the company or body at that office: reg 16.

9 Ibid reg 5(3). Nothing in the relevant regulations, however, requires the disclosure of any information which is subject to an obligation of confidentiality under the law of England and Wales (including any information which is capable of being treated as confidential or must be so treated under the Environmental Information Regulations 2004, SI 2004/3391): Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 15(2); Interpretation Act 1978 s 17(2).

10 For the meaning of 'local planning authority' see PARA 1254 note 23 ante.

11 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 5(4).

12 Ibid reg 5(5).

13 Ibid reg 5(6).

14 Ibid reg 5(7).

15 For the meaning of 'environmental statement' see PARA 1254 note 21 ante.

16 In a notice given under the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 5(3) as applied by reg 6(2). When making any determination under reg 6(1) (as amended) the Secretary of State may have recourse to procedures laid down in reg 5 as if the applicant had made a request for a screening opinion and in particular may require the applicant to provide the information set out in reg 5(2), may require further information in accordance with reg 5(3) and may consult the relevant local planning authority in accordance with reg 5(4), (5): reg 6(2).

17 In under ibid reg 5(5) as applied by reg 6(2): see note 16 supra.

18 Ibid reg 6(1) (amended by SI 2007/1977).

19 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 6(3).

UPDATE

1255 Screening

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12(5)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1256. Preparation of an environmental statement.

1256. Preparation of an environmental statement.

A person who is minded to apply for a section 36 consent¹ or a section 37 consent² for development³ which is or may be EIA development⁴ may make a written request for a scoping opinion⁵. A request for a scoping opinion must be accompanied by:

- 3192 (1) a plan sufficient to identify the site which is the subject of the proposed development;
- 3193 (2) a brief description of the nature and purpose of the proposed development and of its possible effects on the environment; and
- 3194 (3) such further information or representations as the person making the request may wish to provide or make⁶.

The Secretary of State⁷, on receiving a request for a scoping opinion, must, if he considers that he has not been provided with sufficient information to give an opinion, within three weeks of the receipt of the request by him give notice to the person making the request of the particular points on which he requires further information⁸.

When the Secretary of State considers that he has sufficient information he must consult:

- 3195 (a) the person making the request for a scoping opinion; and
- 3196 (b) the consultative bodies⁹,

and give them three weeks, or such longer period as that person and the Secretary of State may agree, to make representations regarding the content of the scoping opinion¹⁰. The Secretary of State must not give a scoping opinion until he is satisfied that the requirements for consultation so provided for have been met and he has considered any representations received by him pursuant to such consultation regarding the scoping opinion which he proposes to give¹¹.

The Secretary of State must give a scoping opinion within three weeks of whichever is the latest of:

- 3197 (i) the date of receipt of the request by the Secretary of State;
- 3198 (ii) the date by which he has received all the further information required by him in a notice given under the above provisions; and
- 3199 (iii) the last date by which any person consulted under heads (a) and (b) above is required to make representations, or if earlier, the date by which the Secretary of State has received the last of the representations of such persons,

or within such longer period as may be agreed in writing with the person making the request for a scoping opinion¹². Before giving a scoping opinion the Secretary of State must, having regard to current knowledge and methods of assessment, take into account the specific

characteristics of the proposed development, the specific characteristics of that type of development and the environmental features likely to be affected¹³.

Where a person has, at the same time as making a request for a screening opinion¹⁴, asked the Secretary of State for a scoping opinion under the above provisions, and the Secretary of State has given a screening opinion to the effect that the development is EIA development, the Secretary of State must begin the procedures relating to scoping on the date on which he gives the screening opinion¹⁵.

A prospective applicant may give the Secretary of State notice in writing that he intends to make an application for a section 36 consent or a section 37 consent in relation to any development and to submit an environmental statement with his application¹⁶. Such a notice must include the information necessary to identify, or be accompanied by documents identifying, the location and the nature and purpose of the proposed development, and must indicate the main environmental consequences to which the prospective applicant proposes to refer in his environmental statement¹⁷. Where the Secretary of State receives such a notice he must:

- 3200 (A) give notice to the consultative bodies in writing of the name and address of the prospective applicant and of the duty imposed upon them¹⁸ to make information available to the prospective applicant; and
- 3201 (B) give notice to the prospective applicant in writing of the names and addresses of the consultative bodies so notified¹⁹.

Where an application for a section 36 consent or a section 37 consent in relation to development has been made without an environmental statement, and either the Secretary of State has given notice to the applicant²⁰ that the development constitutes EIA development, or the applicant has informed the Secretary of State that he proposes to submit an environmental statement, the Secretary of State must take the action specified in heads (A) and (B) above which are to be read as if references to the prospective applicant were references to the applicant²¹.

1 For the meaning of 'section 36 consent' see PARA 1254 note 1 ante.

2 For the meaning of 'section 37 consent' see PARA 1254 note 2 ante.

3 For the meaning of 'development' see PARA 1254 note 6 ante.

4 For the meaning of 'EIA development' see PARA 1254 ante.

5 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 7(1) (amended by SI 2007/1977).

6 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 7(2).

7 As to the Secretary of State see PARA 601 note 1 ante.

8 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 7(3). As to the service of notices see PARA 1255 note 8 ante; and as to the exclusion of confidential information see PARA 1255 note 9 ante.

9 For the meaning of 'the consultative bodies' see PARA 1254 note 23 ante.

10 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 7(4) (amended by SI 2007/1977).

11 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 7(5).

12 Ibid reg 7(6).

13 Ibid reg 7(7).

14 Ie under ibid reg 5(1): see PARA 1255 ante.

15 Ibid reg 7(8).

16 Ibid reg 8(1).

17 Ibid reg 8(2).

18 Ie by ibid reg 15 (as amended). Subject to reg 15(2) (exclusion of confidential information: see PARA 1255 note 9 ante), the consultative bodies must, if requested by the applicant (or prospective applicant), or may without such a request, enter into consultation with the applicant to determine whether they have in their possession any information which they consider or the applicant considers relevant to the preparation of an environmental statement and, if they have any such information, they must make it available to the applicant: reg 15(1) (amended by SI 2007/1977).

19 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 8(3) (amended by SI 2007/1977).

20 Ie pursuant to the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 6 (as amended): see PARA 1255 ante.

21 Ibid reg 8(4).

UPDATE

1256 Preparation of an environmental statement

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12(5)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1257. Publicity and procedures in connection with environmental impact assessment; in general.

1257. Publicity and procedures in connection with environmental impact assessment; in general.

In any case where an applicant for a section 36 consent¹ or a section 37 consent² which relates to EIA development³ has provided the Secretary of State⁴ with an environmental statement⁵, the applicant must, as soon after provision of that statement as is reasonably practicable, publish a notice containing the prescribed information⁶. Such a notice may be combined with any other notice which the applicant may be required to publish in respect of his application⁷. Subject to certain exceptions⁸, a reasonable charge reflecting printing and distribution costs may be made in relation to the supply of a copy of an environmental statement to any person⁹.

The Secretary of State must send to the local planning authority¹⁰ within whose area the land which is the subject of the proposed application is situated (or, in relation to a proposed development in, on, over or under the sea, such local planning authority or local planning authorities as the Secretary of State considers appropriate) a copy of any screening opinion¹¹ or determination¹² and of any scoping opinion¹³, and the relevant local planning authority must take steps to ensure that such documents are made available for public inspection at all reasonable hours at the place where the register¹⁴ is kept¹⁵. If an application for a section 36 consent or a section 37 consent is made and any documents relating to it are sent to a local planning authority pursuant to the above provision, the local planning authority must take steps to ensure that the documents so received are also placed on Part I of the register¹⁶. If a local planning authority receives a copy of an environmental statement¹⁷, of further information¹⁸, of additional information¹⁹ or of certain notices²⁰, the local planning authority must also take steps to ensure that it is placed on Part I of the register²¹. Where an application for a section 36 consent or a section 37 consent which relates to EIA development is determined by the Secretary of State, the Secretary of State must send to the local planning authority or authorities to which a copy of the environmental statement pertaining to the application was provided²² and to the applicant a statement containing the prescribed information²³ and that local planning authority or those authorities must make that statement available for public inspection at all reasonable hours at the place where the register is kept²⁴. The Secretary of State must also make the statement provided in accordance with the above provision available to any EEA state consulted²⁵ in accordance with the prescribed procedure²⁶. Where an applicant receives a statement in accordance with the above provision the applicant must, as soon as is reasonably practicable, publish a notice specifying that the application has been determined, that section 36 or section 37 consent has either been granted or refused and that the statement containing the prescribed information²⁷ is available for public inspection at the local planning authority or authorities to which a copy of the environmental statement pertaining to the application was²⁸ provided²⁹.

Where an applicant submits to the Secretary of State an environmental statement relating to an application for a section 36 consent or a section 37 consent and also serves a copy of the environmental statement on any of the consultative bodies³⁰, he must:

- 3202 (1) serve with it a copy of the application and any plan submitted with it (unless he has already served those documents on the consultative body in question);

3203 (2) inform the consultative body that representations may be made to the Secretary of State; and

3204 (3) inform the Secretary of State of the name of every consultative body whom he has so served and of the date on which he did so³¹.

Where the Secretary of State receives an environmental statement in connection with an application for a section 36 consent or a section 37 consent he must within two weeks of receiving the environmental statement give notice to such of the consultative bodies upon whom the applicant has not served a copy of the environmental statement that an environmental statement will be taken into consideration in determining the application and that they may make representations or express their views, and he must elicit whether any such consultative body wishes to receive a copy of the environmental statement³². He must also give the applicant notice of the copies of the environmental statement required by those consultative bodies and of the names and addresses of the consultative bodies concerned³³. The applicant must serve copies of the environmental statement on any consultative body of whom he receives such notice and must inform the Secretary of State of the date on which he did so³⁴. Where an applicant submits an environmental statement to the Secretary of State relating to an application for a section 36 consent or a section 37 consent, the applicant must serve a copy of the environmental statement on the local planning authority within whose area the land which is the subject of the proposed development is situated (or, in relation to a proposed development in, on, over or under the sea, such local planning authority or authorities as the Secretary of State is to direct) and must inform the Secretary of State of the date on which he did so³⁵. The Secretary of State must not determine the application until after the later of 14 days from the last date on which a copy of the environmental statement was served in accordance with these provisions and the date stated in the notice published³⁶ by the applicant³⁷.

The Secretary of State, when dealing with an application for a section 36 consent or a section 37 consent in relation to which an environmental statement has been provided, may in writing require the applicant to provide such further information as may be specified concerning any matter which is required to be, or may be, dealt with in the environmental statement³⁸. He may also in writing require an applicant to produce such evidence as he may reasonably call for to verify any information in the applicant's environmental statement³⁹. In any case where an applicant for a section 36 consent or a section 37 consent which relates to EIA development is so required to provide further information, the applicant must publish a notice containing the specified information⁴⁰. The applicant must serve a copy of the further information on any person on whom was served a copy of the environmental statement⁴¹ together with a copy of the above-mentioned notice⁴². A reasonable charge reflecting printing and distribution costs may be made in relation to the supply of a copy of the further information to any person except that the copies served pursuant to the above requirement must be supplied free of charge⁴³. The Secretary of State must not determine the application until after the later of 14 days from the last date on which a copy of the further information was so served and the date stated in the notice published⁴⁴ pursuant to the above requirements⁴⁵.

1 For the meaning of 'section 36 consent' see PARA 1254 note 1 ante.

2 For the meaning of 'section 37 consent' see PARA 1254 note 2 ante.

3 For the meaning of 'EIA development' see PARA 1254 ante.

4 As to the Secretary of State see PARA 601 note 1 ante.

5 For the meaning of 'environmental statement' see PARA 1254 note 21 ante.

6 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 9(1) (substituted by SI 2007/1977). This is subject to the Electricity Works (Environmental

Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 12(5) (see PARA 1258 post): reg 9(1) (as so substituted). A notice to which reg 9(1) (as substituted) applies must be published in two successive weeks in the London Gazette, and in one or more newspapers circulating in the locality in which the land to which the application relates is situated (or, in relation to a proposed development in, on, over or under the sea, in such newspapers as are likely to come to the attention of those likely to be affected by the proposed development): reg 9(1A) (added by SI 2007/1977). The notice must: (1) describe the application in question, state that it is accompanied by an environmental statement and, where relevant, state that it is likely to have significant effects on the environment in another EEA state; (2) state that copies of the environmental statement may be inspected at or obtained from an address in the locality in which the land to which the application relates is situated (or, if the proposed development is in, on, over or under the sea, an address in England and Wales) and specify the amount of any payment required to be paid for a copy of the environmental statement; (3) state a date, not less than four weeks after the date on which the notice is to be last published in accordance with reg 9(1A) (as added), by which any person may make representations in relation to the application in question to the Secretary of State and specify the address to which any such representations are to be sent; (4) describe the procedures under regs 14, 14A (as amended and added respectively: see the text and notes 40-45 infra; and PARA 1259 post) in accordance with which any person may make representations in relation to (a) further information provided by the applicant pursuant to a requirement imposed under reg 13(1) (see the text and note 38 infra); or (b) additional information; (5) describe the circumstances under the Electricity Act 1989 in which the Secretary of State may cause a public inquiry to be held into the application; and (6) set out the nature of possible decisions to be taken in relation to the application: Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 9(2) (amended by SI 2007/1977).

7 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 9(3).

8 The copies served pursuant to *ibid* reg 11(1) or (3) (as amended) or reg 11(3A) (as added) (see the text and notes 30, 34-35 infra) must be supplied free of charge: reg 9(4) (amended by SI 2000/1927). As to the service of notices and documents see PARA 1255 note 8 ante.

9 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 9(4).

10 For the meaning of 'local planning authority' see PARA 1254 note 23 ante.

11 For the meaning of 'screening opinion' see PARA 1254 note 14 ante.

12 *Ie* under the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 6: see PARA 1255 ante.

13 For the meaning of 'scoping opinion' see PARA 1254 note 22 ante.

14 'Register' means the register kept pursuant to the Town and Country Planning Act 1990 s 69 (as amended and prospectively substituted: see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 466): Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 2(1).

15 *Ibid* reg 10(1).

16 *Ibid* reg 10(2) (amended by SI 2007/1977).

17 *Ie* pursuant to the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 11(3A) (as added): see the text and note 35 infra.

18 *Ie* pursuant to *ibid* reg 14(3) (as amended): see the text and notes 41-42 infra.

19 *Ie* pursuant to *ibid* reg 14A(1)(a) (as added): see PARA 1259 post. For the meaning of 'additional information' see PARA 1254 note 23 ante.

20 *Ie* a copy of a notice pursuant to *ibid* reg 14(3) (as amended) or reg 14A(5) (as added): see PARA 1259 post.

21 *Ibid* reg 10(2A) (added by SI 2007/1977).

22 *Ie* under the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 11(3A) (as added): see the text and note 35 infra.

23 A statement to which *ibid* reg 10(3) (as substituted) applies must contain the following information: (1) the content of the Secretary of State's determination and any conditions attached to any consent granted; (2) a

summary of the main concerns and opinions expressed by the persons affected or likely to be affected by, or having an interest in, the application; (3) in the light of the concerns and opinions referred to in head (2) *supra*, the main reasons and considerations on which the Secretary of State's determination is based; (4) a description where necessary of the main measures to avoid, reduce and, if possible, offset the major adverse effects of the development; and (5) the availability of judicial review procedures, including details of where further information in relation to such procedures can be obtained: reg 10(3A) (added by SI 2007/1977).

24 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 10(3) (substituted by SI 2007/1977).

25 *Ie* in accordance with the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 12 (as amended): see PARA 1258 *post*. For the meaning of 'EEA state' see PARA 1254 note 18 *ante*.

26 *Ibid* reg 10(4) (amended by SI 2007/1977).

27 *Ie* the information referred to in the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 10(3A) (as added): see note 23 *supra*.

28 *Ie* under *ibid* reg 11(3A) (as added): see the text and note 35 *infra*.

29 *Ibid* reg 10(5) (reg 10(5), (6) added by SI 2007/1977). A notice to which the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 10(5) (as added) applies must be published in two successive weeks in the London Gazette and in one or more newspapers circulating in the locality in which the land to which the application relates is situated (or, in relation to a proposed development in, on, over or under the sea, in such newspapers as are likely to come to the attention of those likely to be affected by the proposed development): reg 10(6) (as so added).

30 For the meaning of 'the consultative bodies' see PARA 1254 note 23 *ante*.

31 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 11(1) (reg 11(1), (2)(b), (3) amended by SI 2007/1977).

32 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 11(2)(a) (substituted by SI 2007/1977).

33 Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 11(2)(b) (as amended: see note 31 *supra*).

34 *Ibid* reg 11(3) (as amended: see note 21 *supra*).

35 *Ibid* reg 11(3A) (added by SI 2007/1977).

36 *Ie* pursuant to *ibid* reg 9(1) (as substituted): see the text and notes 1-6 *supra*.

37 *Ibid* reg 11(4).

38 *Ibid* reg 13(1).

39 *Ibid* reg 13(2).

40 *Ibid* reg 14(1) (reg 14(1) substituted, reg 14(1A) added, and reg 14(2), (3) amended by SI 2007/1977). A notice to which the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 14(1) (as substituted) applies must be published in two successive weeks in the London Gazette, and in one or more newspapers circulating in the locality in which the land to which the application relates is situated (or, in relation to a proposed development in, on, over or under the sea, in such newspapers as are likely to come to the attention of those likely to be affected by the proposed development): reg 14(1A) (as so added). The notice must (1) describe the application in question and state that further information has been provided; (2) state that copies of the further information may be inspected at or obtained from an address in the locality in which the land to which the application relates is situated (or, if the proposed development is in, on, over or under the sea, an address in England and Wales) and specify the amount of any payment required to be paid for a copy of the further information; and (3) state a date not less than four weeks after the date on which the notice is to be last published in accordance with reg 14(1A) (as added) by which any person may make representations in relation to the further information to the Secretary of State and specify the address to which any such representations are to be sent: reg 14(2) (as so amended).

41 *Ie* under *ibid* reg 11(1) or 11(3) (as amended) or reg 11(3A) (as added): see the text and notes 30, 34-35 *supra*.

UPDATE

1257 Publicity and procedures in connection with environmental impact assessment; in general

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12(5)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1258. Projects affecting other EEA states.

1258. Projects affecting other EEA states.

Where either an applicant submits to the Secretary of State¹ an application for EIA development² and it appears to the Secretary of State that the proposed EIA development is likely to have significant effects on the environment in another EEA state³, or another EEA state likely to be significantly affected by any proposed EIA development so requests, the Secretary of State must send to the EEA state in question as soon as possible and no later than the date on which the environmental statement⁴ in respect of that proposed EIA development is made available to the public⁵, except in a case where a request is made by an EEA state after that date:

- 3205 (1) a description of the proposed EIA development, together with any available information on its possible significant effects on the environment in the other EEA state; and
- 3206 (2) a notice explaining the nature of the decision as to whether or not to grant consent for the proposed EIA development and informing the EEA state in question that it may, within such reasonable period as may be specified in the notice, indicate that it wishes to participate in the prescribed⁶ procedure⁷.

Where an EEA state indicates that it wishes to participate in that procedure in relation to the proposed EIA development, the Secretary of State must, save to the extent he has already done so, send to that EEA state:

- 3207 (a) a copy of the notice published in accordance with the prescribed procedure⁸;
- 3208 (b) the environmental statement in respect of the proposed EIA development; and
- 3209 (c) to the extent that it is not included in the items referred to in head (a) or head (b) above, and subject to the provision for the exclusion of confidential information⁹, any other available information which is relevant to the proposed EIA development¹⁰.

The Secretary of State, in so far as he is concerned, must also arrange for the information referred to above¹¹ to be made available, within a reasonable time, to the specified authorities¹² and the public concerned in the territory of the EEA state likely to be significantly affected¹³. He must ensure that those authorities and the public concerned are given an opportunity, before consent for the development is given, to forward to the Secretary of State, within a reasonable time, their opinion on the information supplied¹⁴. The Secretary of State must enter into consultations with the EEA state concerned, for such reasonable period as may have been agreed with that EEA state, regarding, among other things, the possible significant effects of the proposed EIA development on the environment in that EEA state and the measures envisaged to reduce or eliminate such effects¹⁵. Where the Secretary of State notifies an applicant for EIA development that the above provisions¹⁶ apply in respect of the development, the applicant must not make available to the public¹⁷ the specified items¹⁸ until the Secretary of

State has notified the applicant that he has sent to the EEA state concerned the information referred to in heads (1) and (2) above¹⁹.

UPDATE

1258 Projects affecting other EEA states

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12(5)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/B. PRESERVATION OF AMENITY; ASSESSMENT OF ENVIRONMENTAL IMPACT/1259. Additional information and timing of determination.

1259. Additional information and timing of determination.

Where additional information¹ is made available to the Secretary of State² he must:

- 3210 (1) serve a copy of the additional information on the local planning authority³ or local planning authorities on whom was served a copy of the environmental statement⁴;
- 3211 (2) notify the applicant that additional information has been served on the local planning authority or local planning authorities in accordance with head (1) above; and
- 3212 (3) in any case where the additional information is provided to the Secretary of State by a person other than the applicant, serve a copy of the additional information on the applicant⁵.

On the first occasion on which the applicant is notified of the service of additional information in accordance with head (2) above, the applicant must:

- 3213 (a) publish a notice⁶ containing the specified information⁷; and
- 3214 (b) serve a copy of that notice on the Secretary of State⁸.

On receipt of a such notice, the Secretary of State must serve a copy of that notice on any person on whom was served⁹ a copy of the environmental statement¹⁰. The Secretary of State must not determine the application until after the later of:

- 3215 (i) 14 days from the last date on which a copy of the notice pursuant to head (a) above was so served by the Secretary of State; and
- 3216 (ii) the date stated in the notice so published as the date by which any person may make representations to the Secretary of State in relation to the additional information¹¹.

1 For the meaning of 'additional information' see PARA 1254 note 23 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 For the meaning of 'local planning authority' see PARA 1254 note 23 ante.

4 Ie under the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 11(3A) (as added): see PARA 1257 the text and note 35 ante.

5 Ibid reg 14A(1) (reg 14A added by SI 2007/1977).

6 Ie in accordance with the Electricity Works (Environmental Impact Assessment) (England and Wales) Regulations 2000, SI 2000/1927, reg 14A(3) (as added). Such a notice must be published in two successive weeks in the London Gazette and in one or more newspapers circulating in the locality in which the land to which the application relates is situated (or, in relation to a proposed development in, on, over or under the sea, in such newspapers as are likely to come to the attention of those likely to be affected by the proposed development): reg 14A(3) (as added: see note 5 supra).

7 le the information specified in *ibid* reg 14A(4) (as added). The notice must: (1) describe the application in question and state that the Secretary of State has received additional information; (2) identify the local planning authority or local planning authorities to which the Secretary of State is required to forward a copy of the additional information pursuant to reg 14A(1)(a) (as added) (see head (1) in the text); (3) state that the local planning authority or local planning authorities identified in head (2) *supra* are required to place the additional information on the register; (4) state that requests for copies of the additional information may be sent to the Secretary of State and specify an address for that purpose; (5) state a date not less than four weeks after the date on which the notice is to be last published in accordance with reg 14A(3) (as added) (see note 6 *supra*) by which any person may make representations to the Secretary of State in relation to the additional information and specify the address to which any such representations are to be sent; and (6) state that the details set out in heads (2)-(4) *supra* will also apply in respect of any additional information received by the Secretary of State after publication of the notice: reg 14A(4) (as added: see note 5 *supra*). For the meaning of 'the register' see PARA 1257 note 14 *ante*.

8 *Ibid* reg 14A(2) (as added: see note 5 *supra*).

9 le under *ibid* reg 11(1) or (3) (as amended) or reg 11(3A) (as added): see PARA 1257 the text and notes 30, 34-35 *ante*.

10 *Ibid* reg 14A(5) (as added: see note 5 *supra*).

11 See *ibid* reg 14A(6) (as added: see note 5 *supra*).

UPDATE

1259 Additional information and timing of determination

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12(5)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1260. Applications for consent; in general.

C. APPLICATIONS FOR CONSENT

1260. Applications for consent; in general.

An application for a consent¹ of the Secretary of State² must be in writing and must describe by reference to a map the land to which the application relates, that is, the land on which the generating station³ is proposed to be constructed⁴, extended⁵ or operated, or across which the electric line⁶ is proposed to be installed or kept installed⁷. Where, however, an application for consent⁸ relates to the construction or operation of a generating station the whole or a part of which is to be, or is, at a place that is not within the area of a relevant planning authority⁹, or to the extension of a generating station at or to a place the whole or a part of which is not within such an area, then the application must describe by reference to a map the place to which the application relates, that is, the place where it is proposed to construct the generating station, where the proposed extension will be or where the station proposed to be operated is situated¹⁰.

Where an application for a declaration extinguishing, suspending or restricting public rights of navigation¹¹ is made with an application for a consent relating to a generating station¹², the application for the declaration is to be treated¹³ as part of the application for the consent¹⁴.

An application for a consent in relation to an electric line¹⁵ must also state the length of the proposed line and its nominal voltage¹⁶ and whether all necessary wayleaves¹⁷ have been agreed with owners and occupiers of land proposed to be crossed by the line¹⁸, and must be supplemented, if the Secretary of State so directs¹⁹, by such additional information²⁰ as may be specified in the direction²¹.

The Secretary of State may by regulations²² make provision for determining the fees to be paid on applications for consent and the circumstances in which they are to be paid²³. Any sums so received by the Secretary of State must be paid into the Consolidated Fund²⁴.

Notice of an application for a consent in relation to a generating station²⁵ which is not an offshore generating station²⁶ must be published by the applicant:

- 3217 (1) in two successive weeks in one or more local newspapers circulating in the locality in which the land to which the application relates is situated; and
- 3218 (2) in the London Gazette, or in Scotland in the Edinburgh Gazette, and in one or more national newspapers²⁷.

The notice must describe, by reference to a map, the land to which the application relates, and name a place within the locality in which such land is situated where such map may be inspected²⁸; but these requirements do not apply where an application for consent is made in respect of the extension of a generating station or of the change in the manner of operation of a generating station which extension or change the Secretary of State considers to be of a minor character and where the Secretary of State gives a direction dispensing with such requirements²⁹.

The applicant must publish notice of an application for a consent to construct, extend or operate an offshore generating station³⁰, together with any application for a declaration relating to rights of navigation³¹ which is made with that application:

- 3219 (a) in two successive weeks in one or more local newspapers which are likely to come to the attention of those likely to be affected by the proposed development;
- 3220 (b) in Lloyd's List and in one or more national newspapers;
- 3221 (c) if there are in circulation one or more appropriate fishing trade journals which are published at intervals not exceeding one month, in at least one such trade journal; and
- 3222 (d) in the London Gazette, or, in respect of certain applications³², in the Belfast Gazette³³.

The notice must describe, by reference to a map, the location to which the application relates, and must provide that the map may be inspected, during normal office hours, by members of the public either:

- 3223 (i) at the offices of each local planning authority in England and Wales upon whom the applicant serves notice of that application³⁴ or of any relevant planning authority upon whom the applicant serves notice of the application³⁵; or
- 3224 (ii) at an address which is reasonably accessible to those likely to be affected by the consent applied for if it is granted³⁶.

These requirements do not, however, apply to an application for an extension or change in the manner of operation where the Secretary of State considers the extension or change to be of a minor character and gives a direction dispensing with such requirements³⁷.

Notice of an application for a consent³⁸ in respect of the installing or keeping installed of an electric line of a nominal voltage of not less than 132 kilovolts must be published by the applicant in two successive weeks in one or more local newspapers circulating in the locality in which the land over which the line is proposed to pass or passes is situated or circulating respectively in the several localities in which different parts of that land are situated³⁹. A notice so published must describe, by reference to a map, the land over which the line is proposed to pass or passes, and must name a place within each locality in which such land is situated where that map may be inspected⁴⁰.

1 le under the Electricity Act 1989 s 36 (as amended) (see PARA 1249 ante) or s 37 (see PARA 1252 ante).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 For the meaning of 'generating station' see PARA 1041 note 6 ante.

4 For the meaning of 'constructed' see PARA 1312 note 4 post; and as to the application of this definition see PARA 1249 note 2 ante.

5 For the meaning of 'extended' see PARA 1249 note 3 ante.

6 For the meaning of 'electric line' see PARA 1041 note 5 ante.

7 Electricity Act 1989 s 36(8), Sch 8 para 1(1).

8 le an application for consent under *ibid* s 36 (as amended).

9 For the purposes of *ibid* Sch 8 (as amended), 'relevant planning authority' means: (1) in relation to land in England which is not in a National Park for which a National Park authority is the local planning authority, a local planning authority within the meaning of the Town and Country Planning Act 1990 (see TOWN AND COUNTRY

PLANNING vol 46(1) (Reissue) PARA 28 et seq), except that in relation to a non-metropolitan county and an application for consent under the Electricity Act 1989 s 37 it includes the county planning authority only where the line will have a nominal voltage of not less than 132 kilovolts; (2) in relation to land in England which is in a National Park for which a National Park authority is the local planning authority, that National Park authority; and (3) in relation to Wales, a local planning authority: Sch 8 paras 2(6), 8(1) (Sch 8 para 2(6) amended by the Planning (Consequential Provisions) Act 1990 s 4, Sch 2 para 83(1); the Local Government (Wales) Act 1994 ss 20(4), 66(8), Sch 6 para 22, Sch 18; the Environment Act 1995 ss 78, 120, Sch 10 para 30(3)(a), (b), (6), Sch 24).

The Local Government, Planning and Land Act 1980 s 149(3)(a) (as amended) (see TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1464) has effect in relation to the provisions of the Electricity Act 1989 Sch 8 (as amended) so far as applying to applications for consent under s 37 as it has effect in relation to the provisions referred to therein: Sch 8 para 8(2).

10 Electricity Act 1989 Sch 8 para 7A(1)-(3) (added by the Energy Act 2004 s 93(2)).

11 Ie an application for a declaration under the Electricity Act 1989 s 36A (as added): see PARA 1250 ante.

12 See note 8 supra.

13 Ie for the purposes of the Electricity Act 1989 Sch 8 (as amended): see the text and notes 1-12 supra, 14-40 infra; and PARA 1261 et seq post.

14 Ibid Sch 8 para 8(3) (added by the Energy Act 2004 s 99(2)).

15 Ie an application for a consent under the Electricity Act 1989 s 37.

16 Ibid Sch 8 para 1(2)(a). The provisions relating to objections by the local planning authority are modified in relation to electric lines with a nominal voltage of less than 132 kilovolts: see Sch 8 para 2(5); and PARA 1261 post.

17 As to wayleaves generally see PARAS 1292-1294 post.

18 Electricity Act 1989 Sch 8 para 1(2)(b).

19 As to directions generally see ibid s 107; and PARA 1306 post.

20 For the meaning of 'information' see PARA 1044 note 10 ante.

21 Electricity Act 1989 Sch 8 para 1(2).

22 As to the making of regulations generally see ibid ss 60, 106 (as amended); and PARA 1306 post.

23 Ibid Sch 8 para 1(3). In exercise of the power so conferred, the Secretary of State has made (1) the Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 11, which do not apply to applications for consent relating to offshore generating stations; (2) the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 9. As to the functions of the Secretary of State to be taken into account in fixing the fees for such applications, and as to the matters specified in relation to those functions for the purposes of the Finance (No 2) Act 1987 s 102(4), see the Electricity Act 1989 (Fees) Order 1990, SI 1990/184, arts 2, 3, Sch 1 Pt I, Sch 2 paras 1-4, 8.

24 Electricity Act 1989 Sch 8 para 1(4). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

25 Ie a consent under ibid s 36 (as amended).

26 The Electricity (Applications for Consent) Regulations 1990, SI 1990/455, do not apply to an application to which the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, apply: see reg 10. For the meaning of 'offshore generating station' for those purposes see note 30 infra.

27 Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 4(1).

28 Ibid reg 4(2).

29 Ibid reg 4(3).

30 For these purposes, 'offshore generating station' means a generating station that is, or is to be, located (1) within the renewable energy zone; or (2) within waters in or adjacent to England and Wales which are between the mean low water mark and the seaward limits of the territorial sea; and 'renewable energy zone'

means so much of the area designated by the Renewable Energy Zone (Designation of Area) Order 2004, SI 2004/2668, as does not include the area designated by the Renewable Energy Zone (Designation of Area) (Scottish Ministers) Order 2005, SI 2005/3153, as an area in relation to which the Scottish Ministers are to have functions: Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 3. As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

31 Ie a declaration under the Electricity Act 1989 s 36A (as added): see PARA 1250 ante.

32 Ie in respect of an application relating to an offshore generating station located or to be located in that part of the Renewable Energy Zone that lies within the part of the sea which is to be treated as adjacent to Northern Ireland for the purposes of the Adjacent Waters Boundaries (Northern Ireland) Order 2002, SI 2002/791, art 3(1).

33 Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, regs 3, 4(1). Any notice published or served pursuant to reg 4(1) must state the time (which must not be less than 28 days from the date or latest date of publication of the notice, or less than 28 days from the date of service of the notice) within which, and the manner in which, objections to the application may be made to the Secretary of State, by persons other than any relevant planning authority: reg 7(1).

34 Ie under *ibid* reg 6(2) or pursuant to a direction of the Secretary of State under reg 6(4): see PARA 1262 post.

35 Ie under the Electricity Act 1989 Sch 8 para 2(1): see PARA 1261 post.

36 Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 4(2).

37 *Ibid* reg 4(3).

38 Ie under the Electricity Act 1989 s 37: see PARA 1252 ante.

39 Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 5(1).

40 *Ibid* reg 5(2).

UPDATE

1260 Applications for consent; in general

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12.

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1261. Objections by the relevant planning authority.

1261. Objections by the relevant planning authority.

Where an application is made to the Secretary of State¹ for his consent², notice of the application must be served³ on the relevant planning authority⁴. This does not, however, apply in the case of an application in relation to a generating station⁵ where no part of the place to which the application relates is within the area of a relevant planning authority⁶. Except in such cases, or in a case where the Secretary of State proposes to accede to the application subject to such modifications⁷ or conditions as will give effect to the objection of the relevant planning authority⁸, where the relevant planning authority notifies the Secretary of State that it objects to the application and its objection is not withdrawn, the Secretary of State must cause a public inquiry to be held⁹ and must, before determining whether to give his consent, consider the objection and the report of the person who held the inquiry¹⁰. The Secretary of State may make regulations¹¹:

- 3225 (1) limiting the time within which notification of objections may be made to him by relevant planning authorities and providing that objections which are not notified within the time so limited may be disregarded for these purposes¹²; and
- 3226 (2) providing that, in relation to applications for consent¹³ for electric lines¹⁴ of a nominal voltage less than 132 kilovolts, the above provisions are to have effect with such modifications as may be prescribed¹⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie under the Electricity Act 1989 s 36 (as amended) (see PARA 1249 ante) or s 37 (see PARA 1252 ante).

3 As to service of documents generally see *ibid* s 109; and PARA 1307 post. Notices or documents required to be served by the Electricity (Applications for Consent) Regulations 1990, SI 1990/455 (as amended) (see PARA 1260 ante; the text and notes 12-15 *infra*; and PARA 1262 post) may be sent by post: reg 10.

4 Electricity Act 1989 s 36(8), Sch 8 para 2(1). For the meaning of 'the relevant planning authority' see PARA 1260 note 9 ante. Schedule 8 para 2(1) does not apply where the Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 9 applies: see note 15 *infra*.

5 Ie an application for consent under the Electricity Act 1989 s 36 (as amended): see PARA 1249 ante.

6 See *ibid* Sch 8 para 7A(1), (2), (4) (added by the Energy Act 2004 s 93(2)).

7 For the meaning of 'modifications' see PARA 1035 note 3 ante.

8 See the Electricity Act 1989 Sch 8 para 2(4).

9 *Ibid* Sch 8 para 2(2)(a). As to public inquiries see PARA 1263 post. See also note 12 *infra*.

10 *Ibid* Sch 8 para 2(2)(b). See also note 12 *infra*.

11 As to the making of regulations generally see *ibid* ss 60, 106 (as amended); and PARA 1306 post.

12 *Ibid* Sch 8 para 2(3). Where an application for consent under s 36 (as amended), other than one relating to an offshore generating station, or an application for consent under s 37 is made, the relevant planning authority must serve notification of any objection by it to the application on the Secretary of State within four months, in the case of an application under s 36 (as amended), or two months, in the case of an application

under s 37, of the date of the application, or within any longer period as may be agreed in writing by the authority with both the Secretary of State and the applicant: Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 8(1). The Secretary of State may disregard, for the purposes of the Electricity Act 1989 Sch 8 para 2(2), any objection not so notified: Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 8(2). Regulation 8 does not have effect where reg 9 applies: see note 15 infra. As to the disapplication of the 1990 Regulations in the case of an application relating to an offshore generating station see PARA 1260 note 26 ante; and for the meaning of 'offshore generating station' see PARA 1260 note 30 ante.

A relevant planning authority must serve notification of any objection by it to an application under the Electricity Act 1989 s 36 (as amended) for a consent to construct, extend or operate offshore generating station, together with any application under s 36A (as added) (see PARA 1250 ante) for a declaration relating to rights of navigation which is made with the application under s 36 (as amended), upon the Secretary of State within four months of the date of the application, or within any longer period as may be agreed in writing by the authority with both the Secretary of State and the applicant: Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, regs 3, 7(2). The Secretary of State may, for the purposes of the Electricity Act 1989 Sch 8 para 2(2), disregard any objection not notified by a relevant planning authority in accordance with the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 7(2): reg 7(3).

13 le under the Electricity Act 1989 s 37: see PARA 1252 ante.

14 For the meaning of 'electric line' see PARA 1041 note 5 ante.

15 Electricity Act 1989 Sch 8 para 2(5). For the meaning of 'prescribed' see PARA 1096 note 11 ante. Where such an application is made, and written notice of the proposal to make such application was sent to the relevant planning authority before the application was made, then if that authority has sent written notification to the applicant of whether or not it would object to an application in the terms of that proposal, the Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 8 (see note 12 supra) does not have effect; and the Electricity Act 1989 Sch 8 para 2 (as amended) has effect with the modification that Sch 8 para 2(1) does not apply: Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 9.

UPDATE

1261 Objections by the relevant planning authority

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1262. Objections by other persons.

1262. Objections by other persons.

The Secretary of State¹ may make provision by regulations² for securing:

- 3227 (1) that notice of any application for consent³ is to be published, in such circumstances and in such manner as may be prescribed by the regulations⁴;
- 3228 (2) that notice of any such application is to be served, in such circumstances as may be prescribed by the regulations or where the Secretary of State so directs⁵, on such persons as may be so prescribed or, as the case may be, specified in the direction⁶;
- 3229 (3) that every notice published or served in pursuance of the regulations is to state the time within which, and the manner in which, objections to the application may be made by persons other than the relevant planning authority⁷, and that the time so stated is not to be less than such minimum period as may be prescribed by the regulations⁸; and
- 3230 (4) that, in so far as any such notice requires objections to be sent to any person other than the Secretary of State, copies of the objections are to be sent to the Secretary of State by that person⁹.

In relation to applications for consent to the extension¹⁰ of a generating station¹¹ or to the operation of such a station in a different manner, the regulations may include provision for enabling the Secretary of State to give directions dispensing with the requirements of the regulations in such cases as he thinks fit¹².

Where in the case of an application for consent¹³ the Secretary of State is not required¹⁴ to cause a public inquiry to be held but objections or copies of objections have been sent to the Secretary of State in pursuance of regulations so made, the Secretary of State must consider those objections, together with all other material considerations, with a view to determining whether a public inquiry should be held with respect to the application and, if he thinks it appropriate to do so, he must cause a public inquiry to be held, either in addition to or instead of any other hearing or opportunity of stating objections to the application¹⁵.

¹ As to the Secretary of State see PARA 601 note 1 ante.

² As to the making of regulations generally see the Electricity Act 1989 ss 60, 106 (as amended); and PARA 1306 post.

³ I.e. under the Electricity Act 1989 s 36 (as amended) (see PARA 1249 ante) or s 37 (see PARA 1252 ante).

⁴ Electricity Act 1989 Sch 8 para 3(1)(a). As to publication of such notice see PARA 1260 ante.

⁵ As to directions generally see *ibid* s 107; and PARA 1306 post.

⁶ *Ibid* Sch 8 para 3(1)(b). See also the Electricity (Applications for Consent) Regulations 1990, SI 1990/445, reg 6(b); the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, regs 5, 6(4).

Where all or part of the land to which the application relates is designated as a site of special scientific interest, then notice of the application must be served on Natural England or the Countryside Council for Wales as

appropriate: Electricity (Applications for Consent) Regulations 1990, SI 1990/455, regs 3(1), 6(a) (reg 6(a) amended by virtue of the Environmental Protection Act 1990 s 139, Sch 11 para 9; the Natural Environment and Rural Communities Act 2006 s 1(4)).

In the case of an application under the Electricity Act 1989 s 36 (as amended) for a consent to construct, extend or operate an offshore generating station, together with any application under s 36A (as added) (see PARA 1250 ante) for a declaration relating to rights of navigation which is made with the application under s 36 (as amended), the applicant must serve notice of an application upon (1) the Joint Nature Conservation Committee; (2) Natural England, except in the case of development in Wales; (3) the Countryside Council for Wales, in the case of development in Wales; (4) the Environment Agency; (5) English Heritage, except in the case of development in Wales; (6) Cadw, in the case of development in Wales; (7) the Maritime and Coastguard Agency; (8) a harbour authority (within the meaning of the Harbours Act 1964 s 57: see PORTS AND HARBOURS vol 36(1) (2007 Reissue) PARA 619) in the case of development in or adjacent to a harbour under the control of that authority; (9) the National Assembly for Wales (or the Welsh Ministers), in the case of development in Wales; and (10) such other persons as the Secretary of State may direct: Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, regs 3, 5 (reg 5 amended by virtue of the Natural Environment and Rural Communities Act 2006 s 1(4)). Where no part of the place to which such an application relates is within the area of a relevant planning authority, but in the applicant's opinion any local planning authority in England and Wales, any planning authority in Scotland or the Department of the Environment in Northern Ireland is likely to have an interest in the application, the applicant must serve notice of the application upon that body and, within seven days of such service, inform the Secretary of State in writing of its identity and provide him with a copy of the notice: Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 6(1), (2). Where, in the applicant's opinion, no such body is likely to have an interest in the application, the applicant must inform the Secretary of State of that fact: reg 6(3). Where in the Secretary of State's opinion any such body is likely to have an interest in the application, the Secretary of State may, unless he has received a notice under reg 6(2) to the effect that a notice of the application has been served on that body, direct that the applicant must serve notice of an application upon that body: reg 6(4). For the meaning of 'local planning authority' for these purposes see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 28 et seq (meaning applied by reg 6(5)).

7 For the meaning of 'relevant planning authority' see PARA 1260 note 9 ante.

8 Electricity Act 1989 Sch 8 para 3(1)(c). Any notice of application published pursuant to the Electricity (Applications for Consent) Regulations 1990, 1990/455, regs 4, 5 (see PARA 1260 ante) or served pursuant to reg 6 (as amended: see note 6 supra) must state the time, which must not be less than 28 days from the date or latest date of publication or service, within which, and the manner in which, objections to the application may be made to the Secretary of State by persons other than the relevant planning authority: reg 7. Similarly, any notice published pursuant to the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 4(1) (see PARA 1260 ante) or served pursuant to reg 5 (as amended) or reg 6 (see note 6 supra) must state the time (which must not be less than 28 days from the date or latest date of publication of the notice, or less than 28 days from the date of service of the notice) within which, and the manner in which, objections to the application may be made to the Secretary of State, by persons other than any relevant planning authority: reg 7(1).

9 Electricity Act 1989 Sch 8 para 3(1)(d). At the date at which this title states the law, no such provision had been made by regulations.

10 For the meaning of 'extension' see PARA 1249 note 3 ante.

11 For the meaning of 'generating station' see PARA 1041 note 6 ante.

12 Electricity Act 1989 Sch 8 para 3(1). See the Electricity (Applications for Consent) Regulations 1990, SI 1990/455, reg 4(3); the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 4(3); and PARA 1260 ante.

13 Ie under the Electricity Act 1989 s 36 (as modified) or s 37.

14 Ie by virtue of ibid Sch 8 para 2(2): see PARA 1261 ante.

15 Ibid Sch 8 para 3(2). As to public inquiries see PARA 1263 et seq post.

UPDATE

1262 Objections by other persons

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1263. Public inquiries; in general.

1263. Public inquiries; in general.

Where a public inquiry is to be held¹ in respect of an application for consent², the Secretary of State³ must inform the applicant accordingly; and the applicant must in two successive weeks publish a notice⁴ stating:

- 3231 (1) the fact that the application has been made, and the purpose of it, together with a description of the land⁵ or place⁶ to which it relates⁷;
- 3232 (2) a place in the locality or, in the case of an application relating to a generating station at a place not within, or not wholly within, the area of a relevant planning authority⁸, in the area specified in or determined in accordance with regulations made by the Secretary of State⁹, where a copy of the application, and of the map referred to in it, can be inspected¹⁰; and
- 3233 (3) the place, date and time of the public inquiry¹¹.

The notice must be published in one or more local newspapers circulating:

- 3234 (a) in the locality in which the land in question is situated, or circulating respectively in the several localities in which different parts of that land are situated, as the applicant may consider appropriate¹²; or
- 3235 (b) in the case of an application relating to such a generating station as is mentioned in head (2) above, in the specified¹³ area¹⁴.

If it appears to the Secretary of State that, in addition to the publication of such a notice, further notification of the public inquiry should be given (either by the service of notices, or by advertisement, or in any other way) in order to secure that the information¹⁵ specified in heads (1) to (3) above is sufficiently made known to persons in the locality¹⁶, or to persons who are likely to be affected by the consent applied for if it is given¹⁷, the Secretary of State may direct the applicant to take such further steps for that purpose as may be specified in the direction¹⁸.

Where a public inquiry is to be held in respect of an application for consent and the Secretary of State is proceeding concurrently in relation to a compulsory purchase order, an application for a wayleave or a reference concerning the felling or lopping of trees¹⁹, the public inquiry must extend to all the matters arising in the concurrent proceedings, and any notice of the inquiry must indicate, in addition to any other matters required to be stated in it, the extent of the inquiry accordingly²⁰.

Where a public inquiry is to be held and the application for consent relates to land in the areas of two or more relevant planning authorities:

- 3236 (i) the application is not to be the subject of a public inquiry in so far as it relates to land which is not within the area of a planning authority which has notified the Secretary of State that it objects to the application, unless the Secretary of State otherwise directs having regard to objections by other persons of which he has notice²¹; and

- 3237 (ii) in so far as the application is to be the subject of a public inquiry in relation to land in the areas of two or more relevant planning authorities, the Secretary of State may direct that separate public inquiries are to be held²².

For the purposes of head (i) above, a relevant planning authority which has notified the Secretary of State that it objects to the application is to be treated as not having done so if the Secretary of State proposes to accede to the application subject to such modifications or conditions as will give effect to the objection²³.

Heads (i) and (ii) above do not, however, apply in the case of an application relating to such a generating station as is mentioned in head (2) above²⁴. Instead, where a public inquiry is to be held²⁵ and the application for consent relates to a place a part of which is in the area of one or more relevant planning authorities, the following provisions apply²⁶. Except in so far as the Secretary of State otherwise directs, an inquiry held where there is an objection by a relevant planning authority²⁷ must be confined to so much of the application as relates to land within the area of the authority by which an objection has been made²⁸. The Secretary of State must have regard to objections made otherwise than by the authority in question in determining whether to give such a direction and in determining, where he gives one, what direction to give²⁹; and for these purposes a planning authority that has made an objection is to be treated as not having done so if the Secretary of State proposes to accede to the application subject to such modifications or conditions as meet that objection³⁰. The Secretary of State may direct that separate inquiries may be held in relation to any or each of the following:

- 3238 (A) so much of the application as relates to land within the area of a particular relevant planning authority;
 3239 (B) so much of the application as relates to anywhere that is not within the area of a relevant planning authority³¹.

The procedure on any public inquiry in respect of an application for consent³² which is caused by the Secretary of State to be held in England and Wales³³ and which commences on or after 6 April 2007 is governed by the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007³⁴, as set out below³⁵. Any such inquiry which commenced before that date³⁶ is subject to the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) Rules 1990³⁷, which continue to apply for such transitional purposes³⁸.

1 le in accordance with the Electricity Act 1989 s 36(8), Sch 8 paras 2(2) or 3(2): see PARAS 1261-1262 ante.

2 le for consent under *ibid* s 36 (as amended) (see PARA 1249 ante) or s 37 (see PARA 1252 ante).

3 As to the Secretary of State see PARA 601 note 1 ante.

4 As to notices generally see PARA 1307 post.

5 le in a case not falling within the Electricity Act 1989 s 36(8), Sch 8 para 7A(4)(a)(i) (as added): see note 6 *infra*.

6 le in a case where an application for a consent under *ibid* s 36 (as amended) relates to (1) the construction or operation of a generating station the whole or a part of which is to be, or is, at a place that is not within the area of a relevant planning authority; or (2) the extension of a generating station at or to a place the whole or a part of which is not within such an area: see Sch 8 para 7A(1), (2), (5)(a)(i) (Sch 8 para 7A added by the Energy Act 2004 s 93(2)). For the meaning of 'construction' see PARA 1312 note 4 post, and as to the application of this definition see PARA 1249 note 2 ante; for the meaning of 'generating station' see PARA 1041 note 6 ante; and for the meaning of 'relevant planning authority' see PARA 1260 note 9 ante.

7 Electricity Act 1989 Sch 8 para 4(1)(a) (modified by Sch 8 para 7A(1), (2), (5)(a)(i) (as added): see note 6 *supra*).

8 le in a case falling within *ibid* Sch 8 para 7A(1) (as added): see note 6 *supra*.

9 As to the making of regulations generally see *ibid* ss 60, 106 (as amended); and PARA 1306 post. Where a public inquiry is to be held in respect of the construction, extension or operation of a generating station, the whole or part of which is to be or is at a place that is not within the area of a relevant planning authority, and the applicant serves notice of the same pursuant to Sch 8 para 4(1), the notice must state that a copy of the application, and of the map referred to in it, can be inspected at the same location or locations used to display the map pursuant to the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 4(2) (see PARA 1260 ante) or, if in relation to any such location that is not possible, at a suitable alternative location as near as possible to it: reg 8.

10 Electricity Act 1989 Sch 8 para 4(1)(b) (modified by Sch 8 para 7A(1), (2), (5)(a)(ii) (as added: see note 6 *supra*)). As to the form of application and the map see PARA 1260 ante.

11 *Ibid* Sch 8 para 4(1)(c).

12 *Ibid* Sch 8 para 4(2).

13 le the area specified in or determined in accordance with regulations made by the Secretary of State. The area for the purposes of *ibid* Sch 8 para 4(2) (as modified by Sch 8 para 7A (as added)) is to be the same area within which the local newspapers referred to in the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 4(1)(a) (see PARA 1260 ante) circulate: reg 8(b).

14 Electricity Act 1989 Sch 8 para 4(2) (modified by Sch 8 para 7A(1), (2), (5)(b) (as added: see note 6 *supra*)).

15 For the meaning of 'information' see PARA 1044 note 10 ante.

16 le in a case not falling within the Electricity Act 1989 Sch 8 para 7A(1) (as added): see note 6 *supra*.

17 le in a case falling within *ibid* Sch 8 para 7A(1) (as added): see note 6 *supra*.

18 *Ibid* Sch 8 para 4(3) (modified by Sch 8 para 7A(1), (2), (5)(c) (as added: see note 6 *supra*)). As to directions generally see s 107; and PARA 1306 post.

19 le is proceeding concurrently as mentioned in *ibid* s 61(2) or (4): see PARA 1298 post.

20 *Ibid* Sch 8 para 4(4).

21 *Ibid* Sch 8 para 5(1)(a). As to objections by planning authorities and other persons see PARA 1262 ante.

22 *Ibid* Sch 8 para 5(1)(b). Where the Secretary of State gives any such directions, the provisions of Sch 8 paras 2-4 (as amended) apply with the necessary modifications: Sch 8 para 5(1). For the meaning of 'modifications' see PARA 1035 note 3 ante.

23 *Ibid* Sch 8 para 5(2). As to the general powers of the Secretary of State to order a public inquiry under the Electricity Act 1989 see s 62 (as amended); and PARA 1299 post.

24 *Ibid* Sch 8 para 7A(1), (2), (6) (as added: see note 6 *supra*).

25 See note 1 *supra*.

26 See note 24 *supra*.

27 le an inquiry held in accordance with the Electricity Act 1989 Sch 8 para 2(2): see PARA 1261 ante.

28 *Ibid* Sch 8 para 7A(1), (2), (7) (as added: see note 6 *supra*).

29 *Ibid* Sch 8 para 7A(1), (2), (8) (as added: see note 6 *supra*).

30 *Ibid* Sch 8 para 7A(1), (2), (10) (as added: see note 6 *supra*).

31 *Ibid* Sch 8 para 7A(1), (2), (9) (as added: see note 6 *supra*).

32 See note 2 *supra*.

33 See note 1 *supra*.

34 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, rr 1(1), (2)(a). The 2007 Rules also apply to any public inquiry caused by the Secretary of State to be held in England and Wales under the Electricity Act 1989 s 62 (as amended) (see PARA 1299 post) in relation to any application notice of which was not required to be published by regulations under Sch 8 para 3(1) (see PARA 1262 ante): Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 1(2)(b).

35 See PARA 1265 et seq post.

36 For these purposes, an inquiry is to be taken to have commenced on the day on which the Secretary of State issued the relevant notice under the 1990 Rules of his intention to cause the inquiry to be held: Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 28(2).

37 See the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) Rules 1990, SI 1990/528 (revoked subject to transitional provisions).

38 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 28(2).

UPDATE

1263 Public inquiries; in general

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1264. Additional inspectors.

1264. Additional inspectors.

The following provisions apply in the case of:

- 3240 (1) a public inquiry in England and Wales held¹ in respect of an application for consent²; or
- 3241 (2) a public inquiry in England and Wales which is a combination³ into one inquiry of two or more such inquiries, or of one or more such inquiries and one or more other inquiries⁴.

At any time after appointing a person to hold the inquiry ('the lead inspector'), the Secretary of State⁵ may direct⁶ him:

- 3242 (a) to consider such matters relating to the conduct of the inquiry as are specified in the direction; and
- 3243 (b) to make recommendations to the Secretary of State about those matters⁷.

After considering the recommendations of the lead inspector, the Secretary of State may:

- 3244 (i) appoint for the purposes of the inquiry such number of additional inspectors as he thinks appropriate; and
- 3245 (ii) direct that each additional inspector must consider such of the matters to which the inquiry relates as are allocated to him by the lead inspector⁸.

An additional inspector must comply with every direction as to procedural matters given to him by the lead inspector⁹ and must report to the lead inspector on every matter allocated to him¹⁰. It is to be for the lead inspector to report to the Secretary of State on the consideration of both the matters which he considered himself¹¹ and the matters the consideration of which was allocated to additional inspectors¹².

The power of the Secretary of State to give directions to the lead inspector may be exercised on one or more different occasions after the appointment of the lead inspector¹³. Accordingly:

- 3246 (A) the recommendations that may be made by the lead inspector following such a direction include, in particular, a recommendation for varying the number of additional inspectors; and
- 3247 (B) the power of the Secretary of State to appoint an additional inspector includes power to revoke such an appointment¹⁴.

1 le in accordance with the Electricity Act 1989 s 36(8), Sch 8 paras 2(2) or 3(2): see PARAS 1261-1262 ante.

2 le for consent under *ibid* s 36 (as amended) (see PARA 1249 ante) or s 37 (see PARA 1252 ante).

3 le under *ibid* s 62 (as amended): see PARA 1299 post.

4 *Ibid* s 36(8), Sch 8 para 5A(1) (Sch 8 para 5A added by the Energy Act 2004 s 182(1)).

5 As to the Secretary of State see PARA 601 note 1 ante.

6 A direction by any person under the Electricity Act 1989 Sch 8 para 5A (as added) may be varied or revoked by a subsequent direction by that person: Sch 8 para 5A(8) (as added: see note 4 supra). As to directions generally see s 107; and PARA 1306 post.

7 Ibid Sch 8 para 5A(2) (as added: see note 4 supra).

8 Ibid Sch 8 para 5A(3) (as added: see note 4 supra).

9 Ibid Sch 8 para 5A(4)(a) (as added: see note 4 supra).

10 Ibid Sch 8 para 5A(4)(b) (as added: see note 4 supra).

11 Ibid Sch 8 para 5A(5)(a) (as added: see note 4 supra).

12 Ibid Sch 8 para 5A(5)(b) (as added: see note 4 supra).

13 Ibid Sch 8 para 5A(6) (as added: see note 4 supra).

14 Ibid Sch 8 para 5A(7) (as added: see note 4 supra).

UPDATE

1264 Additional inspectors

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 12.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1265. Preliminary procedure on public inquiry.

1265. Preliminary procedure on public inquiry.

The Secretary of State¹ must send the applicant² and the relevant planning authority³ in writing⁴:

- 3248 (1) notice that an inquiry⁵ is to be held;
- 3249 (2) notice that there will be a pre-inquiry meeting⁶ or that he has decided not to hold one⁷, as the case may be; and
- 3250 (3) a statement of the matters which, in his view, are the matters to be considered at the inquiry; and where another Minister of the Crown or a government department has expressed in writing to the Secretary of State a view that the application should not be granted either wholly or in part, or should be granted only subject to conditions, the Secretary of State must set this out in his statement⁸.

The Secretary of State must send a copy of the statement described in head (3) above to the minister or government department concerned⁹. He may at any time modify that statement and if he does so he must send the modified statement to the applicant who must publish by local advertisement¹⁰ a notice of the modification made¹¹. Where the Secretary of State has modified that statement he must also publish a notice of the modification made on a website¹².

The Secretary of State must as soon as practicable after the issue of a relevant notice¹³:

- 3251 (a) inform the applicant and any qualifying planning authority¹⁴ in writing of the name and address¹⁵ of any qualifying objector¹⁶;
- 3252 (b) send to each person entitled to appear at the inquiry¹⁷ or whom he knows to have an interest in the proposal a copy of the statement sent by the Secretary of State under head (3) above and a registration form¹⁸.

On receipt of the relevant notice, the applicant must publish by local advertisement a notice stating:

- 3253 (i) that the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007¹⁹ apply to the inquiry;
- 3254 (ii) the matters contained in the statement sent by the Secretary of State under head (3) above;
- 3255 (iii) the arrangements for the first pre-inquiry meeting, if any; and
- 3256 (iv) that persons interested in participating in the inquiry should obtain from the Secretary of State a registration form²⁰;

and the Secretary of State must as soon as practicable after the issue of the relevant notice publish the notice referred to in heads (i) to (iv) above on a website²¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For these purposes, 'application' means, except where the context requires otherwise, an application made under the Electricity Act 1989 s 36(8), Sch 8 para 1 (see PARA 1260 ante) for (1) consent under s 36 (as amended) (see PARA 1249 ante) to construct, extend or operate a generating station, together with any application under s 36A (as added) (see PARA 1250 ante) for a declaration relating to rights of navigation which is made with that application for consent; (2) consent under s 37 (see PARA 1252 ante) to install or keep installed an electric line above ground; and 'applicant' means the person making an application: Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1)). For the meaning of 'generating station' see PARA 1041 note 6 ante (definition applied by r 2(1)). The statutory definition of 'electric line' (see PARA 1041 note 5 ante) is not specifically so applied.

3 For the meaning of 'relevant planning authority' see PARA 1260 note 9 ante (definition applied by ibid r 2(1)).

4 Notices or documents required or authorised to be sent under the 2007 Rules may be sent either by post or by using electronic communications to send or supply the notice or document to a person at such address as may for the time being be specified by the person for that purpose: ibid r 26(1).

A requirement of the 2007 Rules that any document is to be in writing is fulfilled where that document satisfies the criteria in ibid r 3(3); r 3(6). In those rules, and in relation to the use of electronic communications for any purpose of those rules which is capable of being carried out electronically: (1) the expression 'address' includes any number or address used for the purposes of such communications, except that where any provision of the rules requires any person to provide a name and address to any other person, the requirement is not fulfilled unless the person subject to the requirement provides a postal address; (2) references to statements, notices, or other documents, or to copies of such documents, include references to such documents or copies of them in electronic form: r 3(1). Rule 3(3)-(7) applies where an electronic communication is used by a person for the purpose of fulfilling any requirement of those rules to give or send any statement, notice or other document to any other person ('the recipient'): r 3(2). The requirement is to be taken to be fulfilled where the statement, notice or other document transmitted by means of the electronic communication is (a) capable of being accessed by the recipient; (b) legible in all material respects; and (c) sufficiently permanent to be used for subsequent reference (r 3(3)); and for these purposes, 'legible in all material respects' means that the information contained in the statement, notice or document is available to the recipient to no lesser extent than it would be if sent or given by means of a document in printed form (r 3(4)). Where the electronic communication is received by the recipient outside the recipient's business hours, it is to be taken to have been received on the next working day; and for this purpose 'working day' means a day which is not a Saturday, a Sunday, Christmas Day, Good Friday, or a day which is a bank holiday in England and Wales under the Banking and Financial Dealings Act 1971: r 3(5). A requirement in the rules to send more than one copy of a statement, notice or other document may be complied with by transmitting one copy only of the statement, notice or other document in question: r 3(7).

For these purposes, 'document' includes a photograph, map or plan; and 'electronic communication' has the same meaning as in the Electronic Communications Act 2000 s 15(1) (as amended) (see TELECOMMUNICATIONS AND BROADCASTING vol 45(1) (2005 Reissue) PARA 616): Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1).

5 'Inquiry' means a public inquiry in relation to which the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, apply (see r 1(1), (2), cited in PARA 1263 ante); and where an inquiry is conducted by means of concurrent sessions, it includes any such session: r 2(1).

6 'Pre-inquiry meeting' means a meeting held before an inquiry to consider what may be done with a view to securing that the inquiry is conducted efficiently and expeditiously, and where two or more such meetings are held about the same inquiry, references to the conclusion of a pre-inquiry meeting are references to the conclusion of the final meeting: ibid r 2(1).

7 le under ibid r 9(2): see PARA 1267 post.

8 Ibid r 4(1).

9 Ibid r 4(2).

10 'By local advertisement', in relation to a notice, means by publication of the notice in at least one newspaper circulating in the locality in which the land to which the application relates is situated: ibid r 2(1). If, however, the application relates to (1) the construction or operation of a generating station the whole or a part of which is to be, or is, at a place that is not within the area of a relevant planning authority; or (2) the extension of a generating station at or to a place the whole or a part of which is not within such an area, then that definition is modified to read as follows: 'by local advertisement', in relation to a notice, means by publication of the notice in at least one newspaper which is likely to come to the attention of those likely to be affected by the consent applied for if it is given: see rr 1(3), 27(1)(a)(i).

'Land' means the land (including trees, buildings or other structures, and land covered with water) to which an inquiry relates: r 2(1).

11 Ibid r 4(3).

12 Ibid r 4(4). A requirement imposed by the 2007 Rules on the Secretary of State to publish a notice on a website is met (1) by publication of the notice, or of the details required to be contained in that notice, on a website maintained by the Secretary of State; or (2) by publication of a link on a website maintained by the Secretary of State to another website on which the notice is published, or the details required to be contained in that notice are published: r 2(6).

13 'Relevant notice' means (except in ibid r 28(2): see PARA 1263 ante) the Secretary of State's written notice under r 4(1): r 2(1).

14 'Qualifying planning authority' means (1) where the Secretary of State has caused a public inquiry to be held under the Electricity Act 1989 Sch 8 para 2 (as amended) (see PARA 1261 ante) in respect of an application, any relevant planning authority who has objected to the application in accordance with regulations under Sch 8 para 2(3) and whose objection has not been withdrawn; (2) where the Secretary of State has caused a public inquiry to be held under s 62 (as amended) (see PARA 1299 post) in respect of an application, notice of which was not required to be published by regulations under Sch 8 para 3(1) (see PARA 1262 ante), any relevant planning authority: Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1).

15 See note 4 supra.

16 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 5. 'Qualifying objector' means (1) where the Secretary of State has caused a public inquiry to be held under the Electricity Act 1989 Sch 8 para 2 (as amended) (see PARA 1261 ante) or Sch 8 para 3 (see PARA 1262 ante) in respect of an application, anyone who has objected to the application in accordance with regulations under Sch 8 para 3(1); (2) where the Secretary of State has caused a public inquiry to be held under s 62 (as amended) (see PARA 1299 post) in respect of an application, notice of which was not required to be published by regulations under Sch 8 para 3(1) (see PARA 1262 ante), anyone who has made a written objection in respect of the application to the Secretary of State or the relevant planning authority before the date of the relevant notice, and whose objection has not been withdrawn: Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1).

17 'Person entitled to appear at an inquiry' means a person described in ibid r 15(1) (see PARA 1272 post) and cognate expressions are to be construed accordingly: r 2(1).

18 Ibid r 6(1). 'Registration form' means a form for completion by persons who wish to participate in the inquiry: r 2(1). The registration form must: (1) include the address to which completed forms must be returned, and the date by which that must be done, which must be not later than eight weeks after the date of the relevant notice; and (2) request the following information: (a) the name, address and telephone number of the person registering; (b) the name, address and telephone number of any agent, or, in the case of an organisation, of the contact person; (c) whether or not the person registering has an interest in any land which will be affected by the proposal; (d) whether or not the person registering is likely to want to be represented formally and to play a major part in the inquiry; (e) if not, whether or not the person registering will wish to give oral evidence at the inquiry or will wish only to submit representations in writing; and (f) two copies of an outline statement from the person registering: r 6(4).

'Outline statement' means a written statement of the principal submissions which a person proposes to put forward at an inquiry: r 2(1). The Secretary of State may at any time before the close of an inquiry request from any person entitled or permitted to appear additional copies of an outline statement as mentioned in r 6(4)(b)(vi) (see head (2)(f) supra) sent in accordance with r 6(4)(a) (see head (1) supra); and must specify the time within which such documents should be received by him; and any person so requested must ensure that the copies are received by the Secretary of State within the period specified: r 25(1)(a), (2).

The Secretary of State must, as soon as practicable after the date by which the registration form must be returned under head (1) supra, circulate each outline statement received by him as mentioned in head (2)(f) supra: r 6(5). Subject to r 2(5), a requirement imposed by the 2007 Rules on the Secretary of State or the inspector to circulate a document is met by sending a copy of that document to (i) the relevant planning authority; (ii) the applicant; and (iii) each qualifying objector who has indicated in accordance with head (2)(d) supra that he is likely to want to be represented formally and to play a major part in the inquiry (r 2(3)); but nothing in r 2(3) requires the Secretary of State or the inspector to send a copy of a document to the person from whom it was received (r 2(5)). 'Inspector' includes a lead inspector and an additional inspector; 'lead inspector' means a person appointed by the Secretary of State to hold an inquiry or a reopened inquiry; and 'additional inspector' means an inspector appointed by the Secretary of State under the Electricity Act 1989 Sch 8 para 5A(3)(a) (as added) (see PARA 1264 ante): Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1).

19 The Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841: see the text and notes 1-18 *supra*, 20-21 *infra*; and PARA 1266 *et seq post*.

20 *Ibid* r 6(2).

21 *Ibid* r 6(3); and see note 12 *supra*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1266. Technical advisers, mediators and assessors.

1266. Technical advisers, mediators and assessors.

If it appears to the Secretary of State¹ that evidence to be given to the inquiry² is, or is likely to be, of such technical or scientific nature that the inquiry would be conducted more efficiently and expeditiously if an expert and independent assessment of that evidence were to be made, he may at any time appoint a technical adviser for that purpose³. A technical adviser must be a person appearing to the Secretary of State to have such qualifications and experience as enable him to conduct an expert assessment of scientific or technical evidence to be given to the inquiry⁴. Where the Secretary of State appoints a technical adviser, he may in writing⁵ require the applicant⁶ to publish by local advertisement⁷ and within such period as he may specify a notice stating the name of the person so appointed and specifying the evidence to be assessed⁸; and where he requires the applicant to publish such a notice, as soon as reasonably practicable thereafter the Secretary of State must publish that notice on a website⁹.

The technical adviser must, in consultation with the persons entitled to appear at the inquiry¹⁰ either jointly or separately, assess the evidence so specified and must report his assessment in writing to the inspector¹¹. The technical adviser's report must include a description of any areas of disagreement between the parties and must state his view of the significance of each such disagreement¹². Within seven days of receipt of the technical adviser's report, the inspector must circulate it¹³.

The technical adviser must give evidence on his report at the inquiry and is to be subject to cross-examination to the same extent as any other witness¹⁴. The inspector may allow the technical adviser to alter or add to his report so far as may be necessary for the purposes of the inquiry; but he must, if necessary by adjourning the inquiry, give every other person entitled to appear who is appearing at the inquiry an adequate opportunity of considering any such alteration or addition¹⁵.

If it appears to the Secretary of State that:

- 3257 (1) there is an absence of agreement between persons entitled to appear at the inquiry on a matter which is relevant to the inquiry;
- 3258 (2) the inquiry would be conducted more efficiently and expeditiously if agreement could be reached in relation to that matter or any disagreement in relation to it could be defined and narrowed; and
- 3259 (3) such a result is capable of being achieved by mediation,

then he may at any time appoint a mediator for that purpose¹⁶. A mediator must be a person appearing to the Secretary of State to have been trained in mediation techniques by an independent mediation organisation¹⁷. Where the Secretary of State appoints a mediator, he may in writing require the applicant to publish by local advertisement and within such period as he may specify a notice stating the name of the person so appointed and the matter in relation to which he is to mediate¹⁸; and where he requires the applicant to publish such a notice, as soon as reasonably practicable thereafter the Secretary of State must publish that notice on a website¹⁹.

The mediator must determine the procedure for the mediation²⁰. Within seven days from the conclusion of the mediation, the mediator must give to the inspector a report describing the mediation procedure and its outcome and the inspector must, as soon as practicable after receipt, send the report to persons entitled to appear at the inquiry²¹. The inspector must permit any person entitled to appear at the inquiry to address him on that report, but the mediator is not to give evidence at the inquiry²².

The Secretary of State may also appoint an assessor to sit with an inspector at an inquiry or reopened inquiry to advise the inspector on such matters arising as the Secretary of State may specify²³. Where he appoints an assessor, he must notify in writing every person entitled to appear at the inquiry of the name of the assessor and of the matters on which he is to advise the inspector²⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'inquiry' see PARA 1265 note 5 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1267. Pre-inquiry and other meetings.

1267. Pre-inquiry and other meetings.

The Secretary of State¹ must² hold one or more pre-inquiry meetings³; but this does not apply where the Secretary of State considers that holding a pre-inquiry meeting would not result in the inquiry being conducted more efficiently and expeditiously⁴.

The pre-inquiry meeting or, where there is more than one, the first pre-inquiry meeting, must be held within 12 weeks of the date of the relevant notice⁵. The Secretary of State must give not less than three weeks' written notice⁶ of the pre-inquiry meeting or, where there is more than one, the first pre-inquiry meeting, to:

- 3260 (1) any person entitled to appear at the inquiry⁷; and
- 3261 (2) any other person whose presence at the pre-inquiry meeting seems to him to be desirable⁸.

The Secretary of State may in writing require the applicant⁹ to take one or more of the following steps:

- 3262 (a) not less than two weeks before the date fixed for the first pre-inquiry meeting to publish by local advertisement¹⁰ a notice of the pre-inquiry meeting;
- 3263 (b) to send a notice of that pre-inquiry meeting to such persons or classes of persons as he may specify, within such period as he may specify;
- 3264 (c) to post a notice of that pre-inquiry meeting:
- 307
- 454. (i) in such places near to the land¹¹; or
- 455. (ii) if the application relates to the construction or operation of a generating station¹² the whole or a part of which is to be, or is, at a place that is not within the area of a relevant planning authority¹³, or the extension of a generating station at or to a place the whole or a part of which is not within such an area, in such places that it is likely to come to the attention of those likely to be affected by the consent applied for if it is given¹⁴,
- 308
- 3265 and within such period, as he may specify¹⁵.

A notice of the pre-inquiry meeting published, sent or posted pursuant to heads (a) to (c) above must state:

- 3266 (A) the fact that the application¹⁶ has been made, and the purpose of it, together with a description of the land or, in the case of such an application as is described in head (c)(ii) above, the place¹⁷ to which it relates;
- 3267 (B) a place¹⁸ where a copy of the application, and of the map referred to in it, can be inspected; and
- 3268 (C) the place, date and time of the pre-inquiry meeting¹⁹.

The inspector²⁰ must preside at each pre-inquiry meeting and must determine the matters to be discussed and the procedure to be followed²¹. He may require any person present at the pre-inquiry meeting who, in his opinion, is behaving in a disruptive manner to leave and may refuse to permit that person to return or to attend any further pre-inquiry meeting, or may permit him to return or attend only on such conditions as he may specify²². He may at any time and for any purpose connected with the inquiry²³ hold such other meetings as he considers necessary, and he must arrange for such notice to be given of those meetings as appears to him necessary²⁴.

If the Secretary of State requests any further information from the applicant, any qualifying planning authority²⁵, any qualifying objector²⁶ or any other person at the pre-inquiry meeting, that person must ensure that two copies²⁷, in the case of the applicant or any qualifying planning authority, or three copies in the case of any other person, of the information have been received by the Secretary of State within such period as he may specify; and the Secretary of State must, as soon as practicable after receipt, circulate²⁸ all information received by him under this provision²⁹.

As soon as practicable after the end of each pre-inquiry meeting the inspector must prepare a note of the proceedings at that meeting and must send a copy of that note to the Secretary of State³⁰; and as soon as practicable after sending the copy of the note to the Secretary of State, the inspector must circulate it³¹. The inspector must also, as soon as practicable after making recommendations to the Secretary of State on a timetable for the proceedings³² or the matters which he is directed to consider³³, circulate a copy of those recommendations³⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The subject to the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 9(2): see the text and note 4 infra.

3 Ibid r 9(1). For the meaning of 'pre-inquiry meeting' see PARA 1265 note 6 ante.

4 Ibid r 9(2). In that case, r 9(3)-(8) (see the text and notes 5-22, 25-29 infra) does not apply: r 9(2).

5 Ibid r 9(3). For the meaning of 'relevant notice' see PARA 1265 note 13 ante; and as to allowing further time see PARA 1266 note 13 ante.

6 As to giving notice, and the use of electronic communications, see PARA 1265 note 4 ante.

7 For the meaning of 'person entitled to appear at the inquiry' see PARA 1265 note 17 ante.

8 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 9(4).

9 For the meaning of 'applicant' see PARA 1265 note 2 ante.

10 For the meaning of 'by local advertisement' see PARA 1265 note 10 ante.

11 For the meaning of 'land' see PARA 1265 note 10 ante.

12 For the meaning of 'generating station' see PARA 1041 note 6 ante (definition applied by the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1)).

13 For the meaning of 'relevant planning authority' see PARA 1260 note 9 ante (definition applied by ibid r 2(1)).

14 See ibid rr 1(3), 27(1)(b)(i).

15 Ibid r 9(5) (modified by r 27(1)(b)(i)).

16 For the meaning of 'application' see PARA 1265 note 2 ante.

17 For these purposes, 'place' means, unless the context otherwise requires, the place to which an inquiry relates, that is, the place where it is proposed to construct the generating station, where the proposed

extension will be or where the station proposed to be operated is situated: Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1) (definition added by r 27(1)(a)(ii)).

18 Ie a place in the locality or, in the case of such an application as is described in head (c)(ii) in the text, a place which must be the same location or locations where, under the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, regs 4(2), 8 (see *PARAS* 1260, 1263 ante) a copy of the application, and of the map referred to in it, can be inspected: see the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 9(6)(b) (modified by r 27(1)(b)(iii)).

19 Ibid r 9(6) (modified by r 27(1)(b)(ii), (iii)).

34 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 10(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1268. Receipt of statements of case etc.

1268. Receipt of statements of case etc.

The applicant¹ must:

- 3269 (1) ensure that within the specified period² two copies of his statement of case³ have been received by the Secretary of State⁴; and
- 3270 (2) as soon as reasonably practicable after sending the statement of case to the Secretary of State, send a copy of it to every other person whom the applicant knows to be entitled⁵ to appear at the inquiry⁶.

The following persons, namely:

- 3271 (a) any qualifying planning authority⁷;
- 3272 (b) any qualifying objector⁸ who has indicated⁹ that he is likely to want to be represented formally and to play a major part in the inquiry; and
- 3273 (c) any other person who is required¹⁰ to send a statement of case¹¹,

must also ensure that within the specified period¹² two copies of their statement of case have been received by the Secretary of State¹³. As soon as reasonably practicable after sending the statement of case to the Secretary of State, they must send a copy of it to every other person whom they know to be entitled¹⁴ to appear at the inquiry¹⁵. An authority¹⁶ required to send a statement of case under this provision must include in that statement of case details of the time and place where the opportunity to inspect and take copies¹⁷ is to be afforded¹⁸; and any person referred to in head (a) or head (b) above must in their statements of case identify each part of the applicant's statement of case with which they agree and each part with which they do not agree, and must state the reasons for each disagreement¹⁹.

Any person who sends a statement of case to the Secretary of State must send with it a copy of any document, or the relevant part of any document, referred to in the list comprised in that statement of case, unless a copy of the document or part of the document in question is already available²⁰ for inspection²¹. The Secretary of State must, as soon as practicable after receipt by him of each statement of case and copies of any documents or relevant part of any documents, deposit²² them²³.

The applicant, and any person referred to in head (a) or head (b) above, may in writing²⁴ request from any other person who is required to provide a statement of case a copy of any document, or of the relevant part of any document, referred to in the list of documents comprised in that person's statement of case; and any such document, or relevant part, must be sent, as soon as practicable, to the person who requested it²⁵.

The Secretary of State or the inspector may in writing require any person, who has sent a statement of case in accordance with these provisions, to provide a specified number of additional copies of the statement, or such further information about the matters contained in the statement as he may specify, and must specify the time within which the copies or information must be received by him²⁶. Any person required to provide additional copies or further information must:

- 3274 (i) ensure that the additional copies have been received by the Secretary of State or inspector, within the specified time;
- 3275 (ii) ensure that two copies of the further information have been received by the Secretary of State or the inspector, within the specified time; and the Secretary of State or the inspector must, as soon as practicable after receipt, deposit that further information; and
- 3276 (iii) as soon as reasonably practicable after sending the further information to the Secretary of State or the inspector, send a copy of it to every other person whom the person providing the information knows to be entitled²⁷ to appear at the inquiry²⁸.

The authority in question²⁹ must afford to any person who so requests a reasonable opportunity to inspect and, where practicable, take copies of:

- 3277 (A) any statement of case, written comments, information or other document a copy of which has been deposited in accordance with these provisions; and
- 3278 (B) the statement of case, if any, of that authority and any written comments, information or other documents sent by that authority pursuant to these provisions,

subject to the payment by that person of a reasonable charge³⁰.

If any person who sends a statement of case under these provisions wishes to comment on another person's statement of case they must ensure that within four weeks of its receipt two copies of their written comments have been received by the Secretary of State; and the Secretary of State must, as soon as practicable after receipt, deposit such comments³¹. As soon as practicable after sending their comments to the Secretary of State, they must send a copy of them to every other person whom they know to be entitled³² to appear at the inquiry³³.

The Secretary of State must, as soon as practicable after receipt, send to the inspector any statement of case, document or further information or written comments sent to him in accordance with these provisions and received by him within the relevant period, if any, specified therein³⁴.

1 For the meaning of 'applicant' see PARA 1265 note 2 ante.

2 I.e. the period specified in the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 11(3). Unless the Secretary of State specifies another period by notice in writing, the periods within which statements of case must be received by the Secretary of State are, in the case of an applicant (1) where a pre-inquiry meeting is held, four weeks from the conclusion of it; (2) otherwise 12 weeks from the date of the relevant notice: r 11(3)(a). For the meaning of 'pre-inquiry meeting' see PARA 1265 note 6 ante; and as to allowing further time see PARA 1266 note 13 ante. As to 'notice in writing' see PARA 1265 note 4 ante; and as to the Secretary of State see PARA 601 note 1 ante.

3 'Statement of case' means a written statement which contains (1) full particulars of the case which a person proposes to put forward at an inquiry; (2) a list of any documents which that person intends to refer to or put in evidence; (3) a list of the individuals whom that person proposes to call as witnesses; and (4) the subject-matter of the evidence of each such witness: *ibid* r 2(1). For the meaning of 'document' see PARA 1265 note 4 ante; and for the meaning of 'inquiry' see PARA 1265 note 5 ante.

4 *Ibid* r 11(1)(a). The Secretary of State may at any time before the close of an inquiry request from any person entitled or permitted to appear additional copies of a statement of case or comments sent in accordance with r 11 and must specify the time within which such documents should be received by him; and any person so requested must ensure that the copies are received by the Secretary of State within the period specified: r 25(1)(b), (2).

5 I.e. in accordance with *ibid* r 15(1): see PARA 1270 post.

6 *Ibid* r 11(1)(b).

7 For the meaning of 'qualifying planning authority' see PARA 1265 note 14 ante.

8 For the meaning of 'qualifying objector' see PARA 1265 note 16 ante.

9 In accordance with the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 6(4)(b)(iv): see PARA 1265 note 18 ante.

10 In accordance with *ibid* r 11(5). The Secretary of State may in writing require any other person who has notified him of an intention or wish to appear at the inquiry, to send to him two copies of their statement of case and in this case the Secretary of State must (1) send a written statement of the matters referred to in r 4(1)(c) (see PARA 1265 ante) to that person; and (2) as soon as practicable inform that person of the name and address of every person to whom his statement of case is required to be sent: r 11(5).

11 See *ibid* r 11(4).

12 In the period specified in *ibid* r 11(3). Unless the Secretary of State specifies another period by notice in writing, the periods within which statements of case must be received by the Secretary of State are, in the case of any person to whom r 11(2) applies: (1) where a pre-inquiry meeting is held, six weeks from the conclusion of it; (2) otherwise 14 weeks from the date of the relevant notice: r 11(3)(b).

13 *Ibid* r 11(2)(a).

14 See note 5 *supra*.

15 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 11(2)(b).

16 In a relevant planning authority or, if the application relates to the construction, operation or extension of a generating station and no part of the place to which the application relates is within the area of a relevant planning authority, an interested authority: see *ibid* r 11(6) (modified by rr 1(3), 27(2)(b)). 'Interested authority' means any body upon whom the applicant has served a notice of the application in accordance with the Electricity (Offshore Generating Stations) (Applications for Consent) Regulations 2006, SI 2006/2064, reg 6 (see PARA 1262 ante); Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 2(1) (definition added for these purposes by r 27(2)(a)). For the meaning of 'generating station' see PARA 1041 note 6 ante; and for the meaning of 'relevant planning authority' see PARA 1260 note 9 ante (definitions applied by r 2(1)).

17 In described in *ibid* r 11(13) (as modified): see the text and notes 29-30 *infra*.

18 *Ibid* r 11(6) (as modified: see note 16 *supra*).

19 *Ibid* r 11(7).

20 In pursuant to *ibid* r 11(13) (as modified): see the text and notes 29-30 *infra*.

21 *Ibid* r 11(12).

22 Subject to *ibid* r 2(5), a requirement imposed by the 2007 Rules on the Secretary of State or the inspector to deposit a document is met by sending a copy of it to the relevant planning authority (or, if the application is as described in note 16 *supra*) to the interested authority: r 2(4) (modified by r 27(2)(b)). Nothing in r 2(4) (as modified), however, requires the Secretary of State or the inspector to send a copy of a document to the person from whom it was received: r 2(5). For the meaning of 'inspector' see PARA 1265 note 18 ante.

23 *Ibid* r 11(8).

24 See PARA 1265 note 4 ante.

25 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 11(9).

26 *Ibid* r 11(10).

27 See note 5 *supra*.

28 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 11(11).

29 le the relevant planning authority or, if the application is as described in note 16 *supra*, the interested authority: see *ibid* r 11(13) (modified by r 27(2)(b)).

30 See *ibid* r 11(13) (as modified: see note 29 *supra*). Where the relevant planning authority is under an obligation to afford to any person who so requests an opportunity to inspect and take copies of any document, an opportunity is to be taken to have been afforded to a person where the person is notified of (1) publication of the relevant document on a website; (2) the address of the website; and (3) the place on the website where the document may be accessed, and how it may be accessed: r 26(2). Note that r 26(2) is not modified so as to apply to 'interested authorities'.

31 *Ibid* r 11(14)(a).

32 See note 5 *supra*.

33 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 11(14)(b).

34 *Ibid* r 11(15).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1269. Inquiry timetable; date and notification of inquiry.

1269. Inquiry timetable; date and notification of inquiry.

The inspector¹ must at a pre-inquiry meeting²:

- 3279 (1) propose a timetable for the proceedings at, or at part of, an inquiry³; and
- 3280 (2) specify the date by which any proof of evidence and summary⁴, and any statement of common ground⁵, must be received by the Secretary of State⁶,

and must give written notice⁷ of the date so specified to every person entitled to appear at the inquiry⁸. As soon as practicable after that pre-inquiry meeting, he must make recommendations to the Secretary of State on the proposed timetable⁹. No later than four weeks¹⁰ before the start of the inquiry, the inspector must send to every person entitled to appear at the inquiry a copy of the timetable for the proceedings approved by the Secretary of State¹¹. He may subsequently vary the timetable¹² with the approval of the Secretary of State, except that where the inquiry has already started, and the variation would not result in the inquiry closing on a date later than the date on which it was to close under the timetable which is being varied, the approval of the Secretary of State is not required¹³.

Where no pre-inquiry meeting is held, the inspector:

- 3281 (a) may arrange a timetable for the proceedings at, or at part of, an inquiry; and
- 3282 (b) must specify the date by which any proof of evidence and summary¹⁴ and any statement of common ground¹⁵ must be received by the Secretary of State,

and must give written notice of the timetable, if any, and date so specified to every person entitled to appear at the inquiry within ten weeks of the date of the relevant notice¹⁶. He may, at any time, vary any timetable so arranged¹⁷.

The date fixed by the Secretary of State for the holding of an inquiry must be, unless he considers such a date impracticable, not later than:

- 3283 (i) where a pre-inquiry meeting is held, ten weeks after the conclusion of it;
- 3284 (ii) otherwise 18 weeks from the date of the relevant notice¹⁸.

Where the Secretary of State considers it impracticable to fix a date in accordance with heads (i) and (ii) above, the date fixed must be the earliest date after the end of the period applicable under those heads which he considers to be practicable¹⁹.

Unless the Secretary of State agrees a lesser period of notice with the applicant²⁰ and any qualifying planning authority²¹, he must give not less than four weeks' written notice²² of the date, time and place fixed by him for the holding of an inquiry to every person entitled to appear at the inquiry²³. The Secretary of State may vary the date fixed for the holding of an inquiry, whether or not the date as varied is within the period applicable under heads (i) and (ii) above, and the above requirement as to notice applies to a variation of a date as it applied to the date originally fixed²⁴.

The Secretary of State may vary the time or place for the holding of an inquiry and must give such notice of any variation as appears to him to be reasonable²⁵.

1 For the meaning of 'inspector' see PARA 1265 note 18 ante.

2 He held in accordance with the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 9: see PARA 1267 ante. For the meaning of 'pre-inquiry meeting' see PARA 1265 note 6 ante.

3 For the meaning of 'inquiry' see PARA 1265 note 5 ante.

4 He sent in accordance with the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 17: see PARA 1271 post.

5 He sent in accordance *ibid* r 18: see PARA 1271 post.

6 As to the Secretary of State see PARA 601 note 1 ante.

7 As to written notice see PARA 1265 note 4 ante.

8 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, 12(1). For the meaning of 'person entitled to appear at the inquiry' see PARA 1265 note 17 ante.

9 *Ibid* r 12(2).

10 As to allowing further time see PARA 1266 note 13 ante.

11 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, 12(3).

12 He the timetable mentioned in *ibid* r 12(2): see the text and note 9 *supra*.

13 *Ibid* r 12(4).

14 See note 4 *supra*.

15 See note 5 *supra*.

16 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, 12(5).

17 *Ibid* r 12(6).

18 *Ibid* r 14(1).

19 *Ibid* r 14(2).

20 For the meaning of 'applicant' see PARA 1265 note 2 ante.

21 For the meaning of 'qualifying planning authority' see PARA 1265 note 14 ante.

22 A written notice is to be taken to have been given by the Secretary of State for these purposes where he and any person entitled to appear at the inquiry have agreed that notice of the matters mentioned in the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 14(3) may instead be accessed by that person via a website, and (1) the notice is a notice to which that agreement applies; (2) the Secretary of State has published that notice on the website; and (3) not less than four weeks before the date fixed by the Secretary of State for the holding of the inquiry, the person is notified of (a) the publication of the notice on the website; (b) the address of the website; and (c) the place on the website where the notice may be accessed, and how it may be accessed: r 14(6). As to publication on a website see PARA 1265 note 12 ante.

23 *Ibid* r 14(3).

24 *Ibid* r 14(4).

25 *Ibid* r 14(5).

Where the 2007 Rules apply to an inquiry by virtue of r 1(2)(b) (see PARA 1263 ante), r 9(5), (6) (see PARA 1267 ante) applies, in addition to r 14(1)-(6), in relation to that inquiry as if references in r 9(5), (6) to a pre-inquiry meeting or the first pre-inquiry meeting were references to the inquiry: r 14(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1270. Appearance and representation at the inquiry

1270. Appearance and representation at the inquiry

The persons entitled to appear at an inquiry¹ are:

- 3285 (1) the applicant²;
- 3286 (2) a qualifying planning authority³;
- 3287 (3) any of the following bodies if the land⁴ is situated in their area and they are not the relevant planning authority:
- 309
- 456. (a) a county, county borough or district council, including the council of the Isles of Scilly;
- 457. (b) a joint planning board⁵;
- 458. (c) an urban development corporation⁶;
- 310
- 3288 (4) where the land is in an area previously designated as a new town, the Commission for the New Towns⁷;
- 3289 (5) a qualifying objector⁸ who has returned a registration form⁹;
- 3290 (6) any other person who has sent¹⁰ a statement of case¹¹.

Nothing in heads (1) to (6), however, prevents the inspector¹² from permitting any other person to appear at an inquiry, and such permission must not be unreasonably withheld¹³.

Any person entitled or permitted to appear may do so on his own behalf or be represented by any other person¹⁴. An inspector may allow one or more persons to appear for the benefit of some or all of any persons having a similar interest in the matter under inquiry¹⁵.

Where another Minister of the Crown or any government department has expressed a view that the application should not be granted either wholly or in part, or should be granted only subject to conditions¹⁶, and the Secretary of State¹⁷ has included its terms in a statement sent in accordance with the prescribed procedure¹⁸, any person entitled to appear may, not later than four weeks¹⁹ before the date of an inquiry, apply in writing to the Secretary of State for a representative of the other minister or department concerned to be made available at the inquiry²⁰. Where an application is so made, the Secretary of State must send the application to the other minister or department, who must make a representative available to attend the inquiry²¹. Any person attending an inquiry as a representative in pursuance of this provision must state the reasons for the expressed view and is to give evidence and be subject to cross-examination to the same extent as any other witness²²; but nothing in that provision requires a representative of a minister or a government department to answer any question which in the opinion of the inspector is directed to the merits of government policy²³.

UPDATE

1270 Appearance and representation at the inquiry

TEXT AND NOTE 11--SI 2007/841 r 15(1) amended: SI 2008/2831.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1271. Proofs of evidence and statement of common ground.

1271. Proofs of evidence and statement of common ground.

Any person entitled to appear at an inquiry¹ who proposes to give, or to call another person to give, evidence at the inquiry by reading a proof of evidence, must send two copies of the proof of evidence, in the case of a qualifying planning authority² and the applicant³, or three copies in any other case, to the Secretary of State⁴. Where a copy of a proof of evidence so sent contains more than 1,500 words, it must be accompanied by a written summary, which, unless the inspector permits otherwise, must not contain more than 1,500 words⁵. Where a person sends copies of a proof of evidence and summary, if any, that person must at the same time send a copy to every other person whom that person knows to be entitled to appear at the inquiry⁶ unless such a person has indicated in writing⁷ that he does not require to be sent a copy⁸.

The proof of evidence and any summary must be received by the Secretary of State no later than the date specified by the inspector⁹ and as soon as practicable after receipt, the Secretary of State must deposit¹⁰ each such proof of evidence and each such summary¹¹.

The Secretary of State must send to the inspector, as soon as practicable after receipt, any proof of evidence together with any summary sent to him in accordance with the above provisions¹².

Any person required by these provisions to send copies of a proof of evidence to the Secretary of State must send with them the same number of copies of the whole, or the relevant part, of any document¹³ referred to in the proof of evidence, unless a copy of the document or part of the document in question is already available¹⁴ for inspection¹⁵.

The Secretary of State or the inspector may in writing require any person who has sent a copy of a proof of evidence or summary in accordance with these provisions to provide such additional copies of the proof or summary as he may specify and must specify the time within which the copy of the proof or summary must be received by him¹⁶. Any person required to provide additional copies must ensure that the copies have been received by the Secretary of State or the inspector within the specified time¹⁷.

The Secretary of State may in writing require the relevant planning authority¹⁸ and the applicant to prepare together an agreed statement of common ground¹⁹. Where an agreed statement of common ground is so prepared, the applicant must:

- 3291 (1) ensure that, by the date specified by the inspector²⁰, two copies of the statement have been received by the Secretary of State; and the Secretary of State must, as soon as practicable after receipt, deposit that statement;
- 3292 (2) at the same time as he sends the statement to the Secretary of State, send a copy of it to every other person whom the applicant knows to be entitled to appear at the inquiry²¹, except the relevant planning authority; and
- 3293 (3) afford to any other person who so requests a reasonable opportunity to inspect and, where practicable and on payment of a reasonable charge, take copies of the statement²².

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1272. Procedure at public inquiry; site inspections.

1272. Procedure at public inquiry; site inspections.

Except as otherwise provided, the inspector¹ must determine the procedure at an inquiry². At the start of the inquiry the inspector must identify the matters to be considered at the inquiry and any matters on which he requires further explanation from the persons entitled or permitted to appear³. He may direct that in relation to such matters as he may specify, either or both of the following are to apply:

- 3294 (1) evidence is not to be read out at the inquiry, or where a summary of evidence is sent⁴, only the summary is to be read out; and
- 3295 (2) persons giving evidence are not to be subject to cross-examination on those matters⁵;

but nothing in the above provisions precludes any person entitled or permitted to appear from:

- 3296 (a) referring to matters which they consider relevant to the consideration of the application but which were not matters identified by the inspector⁶; and
- 3297 (b) making oral submissions on any matters which are the subject of a direction under heads (1) and (2) above⁷.

Unless in any particular case the inspector otherwise determines, the applicant⁸ is to begin and has the right of final reply; and the other persons entitled or permitted to appear are to be heard in such order as the inspector may determine⁹. Subject to any direction under heads (1) and (2) above, a person entitled to appear at an inquiry is to be entitled to call evidence and the applicant and a qualifying planning authority¹⁰ are to be entitled to cross-examine persons giving evidence¹¹. The inspector may, however, refuse to permit the giving or production of evidence, cross-examination of persons giving evidence or presentation of any other matter which he considers to be irrelevant or repetitious; but where he refuses to permit the giving of oral evidence, the person wishing to give the evidence may submit to him any evidence or other matter in writing¹² before the close of the inquiry¹³.

The inspector may refuse to permit the cross-examination of persons giving evidence, or may require such cross-examination to cease, if it appears to him that permitting such cross-examination or allowing it to continue would have the effect that the timetable approved by the Secretary of State¹⁴ or arranged by the inspector¹⁵ could not be met¹⁶. He must not require or permit the giving or production of any evidence, whether written or oral, which he considers would be contrary to the public interest; but otherwise, the inspector may direct that documents¹⁷ tendered in evidence may be inspected by any person entitled or permitted to appear at the inquiry¹⁸.

Where a person gives evidence at an inquiry by reading a summary of his proof of evidence¹⁹, the proof of evidence is to be treated as tendered in evidence, unless the person required to provide the summary notifies the inspector that he now wishes to rely on the contents of that summary alone, and, subject to any direction under head (2) above, the person whose evidence the proof of evidence contains must then be subject to cross-examination on it to the same extent as if it were evidence he had given orally²⁰. Where, however, the inspector gives a

direction under head (1) above, any proof of evidence received by the Secretary of State²¹ which covers matters which are the subject of that direction is, to the extent that it covers those matters, to be treated as tendered in evidence, unless:

- 3298 (i) the person has provided a summary²² and that person has notified the inspector that he now wishes to rely on the contents of that summary alone, in which case the summary is to be treated as tendered in evidence to the extent that it covers the matters which are the subject of the direction;
- 3299 (ii) the person alters or adds to the proof of evidence²³, in which case the proof of evidence, as altered, is to be treated as tendered in evidence to the extent that it covers the matters which are the subject of the direction; or
- 3300 (iii) the person who has sent the proof of evidence notifies the inspector that he no longer wishes to give or call that evidence²⁴.

The inspector may direct that facilities are to be afforded to any person appearing at an inquiry to take or obtain copies of documentary evidence open to public inspection²⁵. He may require any person appearing or present at an inquiry who, in his opinion, is behaving in a disruptive manner to leave and may refuse to permit that person to return or permit him to return only on such conditions as he may specify; but any such person may submit to him any evidence or other matter in writing before the close of the inquiry²⁶.

The inspector may allow any person to alter or add to a statement of case²⁷ or a proof of evidence²⁸ so far as may be necessary for the purposes of the inquiry; but he must, if necessary by adjourning the inquiry, give every other person entitled to appear who is appearing at the inquiry an adequate opportunity of considering any such alteration or addition²⁹.

The inspector may proceed with an inquiry in the absence of any person entitled to appear at it³⁰. He may take into account any written representation or evidence or any other document received by him from any person before an inquiry opens or during the inquiry provided that he discloses it at the inquiry³¹.

The inspector may from time to time adjourn an inquiry and, if the date, time and place of the adjourned inquiry are announced at the inquiry before the adjournment, no further notice is required³².

Any person who appears at an inquiry and makes a closing submission must by the close of the inquiry provide the inspector with a copy of his closing submission in writing³³.

The inspector may make an unaccompanied inspection:

- 3301 (A) of the land³⁴; or
- 3302 (B) in the case of an application which relates to the construction or operation of a generating station³⁵ the whole or a part of which is to be, or is, at a place that is not within the area of a relevant planning authority³⁶, or to the extension of a generating station at or to a place the whole or a part of which is not within such an area, of the place³⁷,

before or during an inquiry without giving notice of his intention to the persons entitled to appear at the inquiry³⁸. During an inquiry or after its close, the inspector may inspect the land or the place in the company of the applicant, any qualifying planning authority, and any qualifying objector³⁹ who has returned⁴⁰ a registration form⁴¹; but where the inspector inspects the land or the place after the close of an inquiry, a qualifying objector is only entitled to accompany him on that inspection if that objector appeared at the inquiry⁴². In all cases where the inspector intends to make an accompanied site inspection he must announce during the inquiry the date and time at which he proposes to make it⁴³; and he is not bound to defer an

accompanied inspection⁴⁴ where any person mentioned above is not present at the time appointed⁴⁵.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1273. Procedure after public inquiry; decision.

1273. Procedure after public inquiry; decision.

After the close of an inquiry¹, the lead inspector² must by such date as the Secretary of State³ may determine make a report in writing⁴ to the Secretary of State which must include:

- 3303 (1) his consideration of the application⁵;
- 3304 (2) the consideration by any additional inspector⁶ of the matters relating to the application which that additional inspector has been directed to consider;
- 3305 (3) his conclusions; and
- 3306 (4) his recommendations or his reasons for not making any recommendation⁷.

Where the Secretary of State determines a date by which the lead inspector is to report to him, he must give notice in writing of that determination to the lead inspector and to all persons entitled to appear at the inquiry⁸.

Where an assessor⁹ has been appointed, he may, after the close of the inquiry, make a report in writing to the inspector¹⁰ in respect of the matters on which he was appointed to advise¹¹. Where an assessor makes such a report, the inspector must append it to his own report and must state in his own report how far he agrees or disagrees with the assessor's report and, where he disagrees with the assessor, his reasons for that disagreement¹².

When making his decision the Secretary of State may disregard any written representations, evidence or any other document received after the close of the inquiry¹³. If, after the close of an inquiry, the Secretary of State:

- 3307 (a) differs from an inspector on any matter of fact mentioned in, or appearing to him to be material to, a conclusion reached by the inspector; or
- 3308 (b) takes into consideration any new evidence or new matter of fact, not being a matter of government policy,

and is for that reason disposed to disagree with a recommendation made by the lead inspector, he must not come to a decision which is at variance with that recommendation without first notifying in writing the persons entitled to appear at the inquiry who appeared at it of his disagreement and the reasons for it and affording them an opportunity of making written representations to him or, if the Secretary of State has taken into consideration any new evidence or new matter of fact, not being a matter of government policy, of asking for the reopening of the inquiry¹⁴. Those persons so making written representations or requesting the inquiry to be reopened must ensure that such representations or requests are received by the Secretary of State within three weeks¹⁵ of the date of the Secretary of State's notification¹⁶. The Secretary of State may, as he thinks fit, cause an inquiry to be reopened, and he must do so if asked by the applicant¹⁷ or a qualifying planning authority¹⁸ in the circumstances¹⁹ and within the period²⁰ mentioned above²¹. Where an inquiry is reopened, whether by the same or a different lead inspector, the Secretary of State must send to the persons entitled to appear at the inquiry who appeared at it a written statement of the matters with respect to which further evidence is invited²².

The Secretary of State must, as soon as practicable, notify his decision on an application, and his reasons for it, in writing to all persons entitled to appear at the inquiry who did appear and to any other person who, having appeared at the inquiry, has asked to be notified of the decision²³. Where a copy of the lead inspector's report²⁴ is not sent with the notification of the decision, the notification must be accompanied by a statement of his conclusions and of any recommendations made by him, and if a person entitled to be notified of the decision has not received a copy of that report, he must be supplied with a copy of it on written application to the Secretary of State²⁵. Any person so applying to the Secretary of State must ensure that his application is received by the Secretary of State within four weeks of the Secretary of State's determination²⁶.

Where a decision of the Secretary of State on an application in respect of which an inquiry has been held is quashed in proceedings before any court, the Secretary of State:

- 3309 (i) must send to the persons entitled to appear at the inquiry who appeared at it a written statement of the matters with respect to which further representations are invited for the purposes of his further consideration of the application;
- 3310 (ii) must afford to those persons the opportunity of making written representations to him in respect of those matters or of asking for the reopening of the inquiry; and
- 3311 (iii) may, as he thinks fit, cause the inquiry to be reopened, whether by the same or a different lead inspector²⁷.

Those persons making representations or asking for the inquiry to be reopened under head (ii) above must ensure that such representations or requests are received by the Secretary of State within three weeks of the date of the written statement sent under head (i) above²⁸.

1 For the meaning of 'inquiry' see PARA 1265 note 5 ante.

2 For the meaning of 'lead inspector' see PARA 1265 note 18 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 As to the use of electronic communications see PARA 1265 note 4 ante.

5 For the meaning of 'application' see PARA 1265 note 2 ante.

6 For the meaning of 'additional inspector' see PARA 1265 note 18 ante.

7 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 21(1).

8 Ibid r 21(2). For the meaning of 'person entitled to appear at the inquiry' see PARA 1265 note 17 ante; and as to such persons see PARA 1270 ante.

9 For the meaning of 'assessor' see PARA 1266 ante.

10 For the meaning of 'inspector' see PARA 1265 note 18 ante.

11 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 21(3).

12 Ibid r 21(4).

13 Ibid r 21(5).

14 Ibid r 21(6).

15 As to allowing further time see PARA 1266 note 13 ante.

16 Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 21(7).

17 For the meaning of 'applicant' see PARA 1265 note 2 ante.

18 For the meaning of 'qualifying planning authority' see PARA 1265 note 14 ante.

19 In the circumstances mentioned in the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841, r 21(6): see the text and note 14 supra.

20 In within the period mentioned in *ibid* r 21(7): see the text and notes 15-16 supra.

21 *Ibid* r 21(8).

22 *Ibid* r 21(8)(a). Rule 14(3)-(6) (see PARA 1269 ante) applies in relation to the reopened inquiry as if references therein to an inquiry were references to the reopened inquiry; and r 9(5), (6) (see PARA 1267 ante) applies in relation to the reopened inquiry as if references therein to the pre-inquiry meeting were references to the reopened inquiry: r 21(8)(b), (c).

23 *Ibid* r 22(1). Notification in writing of a decision and reasons is to be taken to have been given to a person for these purposes where (1) the Secretary of State and the person have agreed that decisions and reasons required under r 22 to be given in writing may instead be accessed by that person via a website; (2) the decision and reasons are a decision and reasons to which that agreement applies; (3) the Secretary of State has published the decision and reasons on a website; and (4) the person is notified, in the manner for the time being agreed between him and the Secretary of State, of (a) the publication of the decision and reasons on a website; (b) the address of the website; and (c) the place on the website where the decision and reasons may be accessed, and how they may be accessed: r 22(2). As to publication on a website see PARA 1265 note 12 ante.

24 For these purposes, 'report' includes any assessor's report appended to an inspector's report and an additional inspector's report appended to the lead inspector's report but does not include any other documents so appended; but any person who has received a copy of the report may apply to the Secretary of State in writing, within six weeks of the date of the Secretary of State's decision, for an opportunity of inspecting any such documents and the Secretary of State must afford him that opportunity: *ibid* r 22(4).

25 *Ibid* r 22(3).

26 *Ibid* r 22(5).

27 *Ibid* r 23(1).

28 *Ibid* r 23(3).

Where the Secretary of State causes an inquiry to be reopened, r 14(3)-(6) (see PARA 1269 ante) applies in relation to the reopened inquiry as if references therein to an inquiry were references to the reopened inquiry; and r 9(5), (6) (see PARA 1267 ante) applies in relation to the reopened inquiry as if references therein to the pre-inquiry meeting were references to the reopened inquiry: r 23(2)(a), (b).

PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(ii) Works requiring Consent of the Secretary of State/C. APPLICATIONS FOR CONSENT/1274. Special provisions relating to overhead lines.

1274. Special provisions relating to overhead lines.

Where an application for consent in relation to an overhead electric line¹ states that all necessary wayleaves² have not been agreed with owners and occupiers of land proposed to be crossed by the electric line, the Secretary of State³ may:

- 3312 (1) give notice⁴ to the applicant that he does not intend to proceed with the application until he is satisfied, with respect to all the land over which wayleaves have not been agreed, that the applicant has applied to him for consent⁵ to the acquisition of wayleaves⁶; or
- 3313 (2) grant his consent subject to the condition, either in respect of the whole of the line or in respect of any part of it specified in the consent, that the work is not to proceed until he has given his permission⁷.

In determining at any time whether to give permission for any work to proceed, either generally or in respect of any part of the line, the Secretary of State must have regard to the extent to which the necessary wayleaves have been agreed by that time⁸. In so far as any such wayleaves have not been granted in respect of any part of the line, he must take into account any prejudicial effect which, in his opinion, the giving of permission (whether in respect of that part or of any adjacent part of the line) might have on any subsequent proceedings relating to the outstanding wayleaves⁹.

In London¹⁰, it is not lawful for any person to erect or place any wire¹¹ over or upon any street¹² without the consent of the local authority¹³ or otherwise than upon and subject to such reasonable terms and conditions¹⁴ as the local authority may attach to such consent if given¹⁵ or to retain any such wire otherwise than upon and subject to the terms and conditions attached to the consent of the local authority to such erection and placing¹⁶. Any person who contravenes this provision is liable to a penalty not exceeding level 1 on the standard scale¹⁷ and the local authority may at any time after the date of any conviction for such an offence remove the wire in respect of which the offence was committed¹⁸. Provision was also made for the making of byelaws by the London County Council with respect to (a) the identification of wires by registration or otherwise and the charging of fees upon such registration; (b) the regulation of wires; (c) the strength of wires; and (d) the removal of disused wires and of wires erected, placed or retained otherwise than in accordance with the statutory provisions or the provisions of the byelaws¹⁹. The London County Council and its successor, the Greater London Council, have both been abolished and this power has therefore lapsed²⁰; but byelaws made before 1 April 1965 may continue to apply²¹.

Nothing in the restrictions relating to London²² extends or applies to any illuminated sign²³ affixed or proposed to be affixed to any building or any wire placed or proposed to be placed between any such illuminated sign and any part of the external wall of the building to which that sign is affixed or proposed to be affixed for the purpose of connecting the sign with that building or for the purpose of supplying electricity or any other means of illumination to the illuminated sign²⁴. Other exemptions apply to wires (i) for private use placed on private land and no part of which is liable to fall into any public street²⁵; (ii) in connection with any tramway, light railway or trolley vehicle undertaking²⁶; and (iii) erected, placed or maintained by a railway

company in certain circumstances²⁷. There are additional exemptions and protections for electronic communications code network operators²⁸, authorised electricity undertakers²⁹, certain port and navigation authorities³⁰ and the Inns of Court³¹.

In respect of England and Wales generally, no person may fix or place any overhead cable, wire or other similar apparatus over, along or across a highway without the consent of the highway authority for that highway, which may attach to its consent such reasonable terms and conditions as it thinks fit³². A person contravening this restriction, or the terms or conditions of any consent so given, is guilty of an offence and liable to a fine not exceeding level 1 on the standard scale³³. These provisions do not, however, apply to any works or apparatus belonging to a licence holder under the Electricity Act 1989³⁴ who is entitled to exercise any power³⁵ relating to street works³⁶.

It is also an offence to place any wire or other apparatus across a highway in such a manner as to be likely to cause danger to persons using the highway and without having taken all necessary means to give adequate warning of the danger³⁷.

1 Ie an application under the Electricity Act 1989 s 37: see PARA 1252 ante. For the meaning of 'electric line' see PARA 1041 note 5 ante.

2 As to applications for wayleaves see further PARAS 1292-1294 post.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'notice' see PARA 1047 note 11 ante; and as to the giving of notices generally see PARA 1307 post.

5 Ie consent under the Electricity Act 1989 s 10(1), Sch 4 para 6: see PARA 1292 post.

6 Ibid s 38(6), Sch 8 para 6(1)(a).

7 Ibid Sch 8 para 6(1)(b).

8 Ibid Sch 8 para 6(2)(a).

9 Ibid Sch 8 para 6(2)(b).

10 The London Overground Wires, etc Act 1933 applies to the area formerly known as 'the administrative county of London': see s 2(1). The area of that county was defined by the London Government Act 1939 s 1, Sch 1 (repealed) and corresponds to the area known as 'Greater London' without the outer London boroughs (ie the inner London boroughs, the City of London and the Temples): see the London Government Act 1963 ss 1, 2 (as amended); and LONDON GOVERNMENT vol 29(2) (Reissue) PARA 29 et seq. The London Overground Wires, etc Act 1933 continues to apply in that area by virtue of the London Government Act 1963 s 87(1)(a).

11 For these purposes, 'wire' means any cable, wire, conductor or other similar apparatus and any support thereof or attachment thereto other than a support or attachment to which the London Building Act 1930 Pts VI, VII (repealed) would have applied, and of which the whole is erected or placed or proposed to be erected or placed above ground in what was the area of the administrative county of London (see note 10 supra), over or upon any street there, or any land and situate at any point within a distance of 50 feet from such street: London Overground Wires, etc Act 1933 s 2(1). For the meaning of 'street' see note 12 infra.

12 For these purposes, 'street' includes any highway, road, bridge, lane, mews, footway, square, court, alley, passage whether a thoroughfare or not, and any part of any such highway, road etc: see ibid s 2(1).

13 For these purposes, 'local authority' means either the Common Council of the City of London (see ibid s 2(1)(b)); or the council of the borough concerned (see s 2(1)(c) which refers to the 'council of a metropolitan borough'; by virtue of the London Government Act 1963 s 87(1)(b)(i) this has effect as a reference to a London borough council). The London boroughs concerned are the inner London boroughs: see note 10 supra. The London Overground Wires, etc Act 1933 s 2(1)(a) refers to the London County Council; no fresh reference has been substituted for this reference, which is now obsolete. As to the Common Council of the City of London see LONDON GOVERNMENT vol 29(2) (Reissue) PARAS 31, 32.

14 Ie not being a term or condition requiring the payment of a royalty or other monetary payment in the nature of a royalty as a condition of the granting of consent: ibid s 3(1)(a).

15 Ibid s 3(1)(a).

16 Ibid s 3(1)(b). A decision on an application for such a consent must be communicated within 28 days; and any consent must be in writing and may relate to more than one wire: see s 3(2), (3). As to appeals see s 3(4).

17 Ibid s 3(5) (amended by virtue of the Criminal Justice Act 1982 s 46). As to the standard scale see PARA 613 note 11 ante.

18 See the London Overground Wires, etc Act 1933 s 3(6).

19 See *ibid* s 5.

20 The London County Council was replaced by the Greater London Council with effect from 1 April 1965 by virtue of the London Government Act 1963 s 2(2)-(4) (repealed); the Greater London Council was abolished as from 1 April 1986 by the Local Government Act 1985 s 1. The Greater London Authority, established by the Greater London Authority Act 1999 ss 1, 2, has no powers to make such byelaws. As to the Greater London Authority see LONDON GOVERNMENT vol 29(2) (Reissue) PARA 79 et seq.

21 See the London Government Act 1963 s 87(1). No provision in the London Overground Wires, etc Act 1933 or in any byelaw made thereunder authorises a local authority to confer any powers of erecting, placing or retaining electric lines upon a person not authorised by statute or licence to do so: see s 16. Section 16 refers to an electric line as defined in the Electric Lighting Act 1882 (repealed); by virtue of the Interpretation Act 1978 s 17(2)(a), the definition contained in the Electricity Act 1989 s 64(1) (as amended) (see PARA 1041 note 5 ante) presumably now applies in this context.

22 *Ie* the London Overground Wires, etc Act 1933 or any byelaw made thereunder: s 21(1).

23 'Illuminated sign' includes an illuminated portico and any lamp or other appliance for providing outside lighting or flood lighting: *ibid* s 21(2).

24 *Ibid* s 21(1). Illuminated signs are subject to the general planning controls over advertisements: see TOWN AND COUNTRY PLANNING vol 46(2) (Reissue) PARA 769 et seq.

25 See *ibid* s 17(a)(i).

26 See *ibid* s 17(a)(ii).

27 See *ibid* s 17(b).

28 See *ibid* s 14 (amended by the Communications Act 2003 s 406(1), Sch 17 para 5(1), (3)).

29 See the London Overground Wires, etc Act 1933 s 15. No specific provision is made in the Electricity Act 1989 to bring licence holders within the definition of 'authorised electricity undertakers' for these purposes. The London Overground Wires, etc Act 1933 refers to persons carrying on electricity undertakings under a licence made or granted in accordance with the Electricity (Supply) Acts 1882-1928 (repealed). Such undertakings were transferred to the area boards and thence to the successor companies. The transitional provision made by the Electricity Act 1989 s 112(3), Sch 17 para 17 is presumably effective to bring the successor companies within the definition of 'authorised electricity undertakers' for these purposes. As to the successor companies see PARA 1034 ante.

30 See the London Overground Wires, etc Act 1933 ss 19-20.

31 See *ibid* s 18.

32 See the Highways Act 1980 s 178(1); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 367.

33 See *ibid* s 178(4) (amended by virtue of the Criminal Justice Act 1982 s 46). As to the standard scale see PARA 613 note 11 ante.

34 For the meaning of 'licence' see PARA 1041 note 12 ante.

35 *Ie* any power conferred by the Electricity Act 1989 Sch 4 para 1 (as amended): see PARA 1287 post.

36 See *ibid* s 112(1), Sch 16 para 2(4)(d); the Highways Act 1980 s 178(5) (as amended); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 367.

37 See *ibid* s 162 (as amended); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 374.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(iii) Nuclear Liabilities/1275. Financial assistance for discharge of nuclear liabilities.

(iii) Nuclear Liabilities

1275. Financial assistance for discharge of nuclear liabilities.

The Secretary of State¹ may², with the Treasury's approval:

- 3314 (1) make grants of such amounts as he thinks fit for the purpose of meeting qualifying expenditure, that is to say, expenditure incurred or to be incurred by any person, whether or not the same person as the person to whom the grant is made, in connection with:
- 311
- 459. (a) the storage or reprocessing of nuclear fuel³;
 - 460. (b) the treatment, storage or disposal of radioactive waste⁴;
 - 461. (c) the cleaning-up of a principal nuclear site⁵; or
 - 462. (d) the decommissioning of a nuclear installation⁶;
- 312
- 3315 (2) enter into an agreement with any person under which the Secretary of State undertakes that, if such conditions as may be specified in the agreement are satisfied, he will exercise the power conferred by head (1) above in such manner and to such extent as may be specified in the agreement⁷;
- 3316 (3) make loans of such amount as he thinks fit for the purpose of meeting such qualifying expenditure⁸; and
- 3317 (4) guarantee, in such manner and on such terms he may think fit, the repayment of the principal of, the payment of interest on, and the discharge of any other financial obligation in connection with, any sums which are borrowed from a person other than the Secretary of State for the purpose of meeting such qualifying expenditure⁹.

The Secretary of State must not, however,

- 3318 (i) make any grant or loan under these provisions for the purpose of meeting any expenditure; or
- 3319 (ii) give any guarantee in respect of borrowing undertaken for the purpose of meeting any expenditure,

if the expenditure is expenditure on anything for which the Nuclear Decommissioning Authority¹⁰ has a financial responsibility under the specified provision¹¹ of the Energy Act 2004¹².

It is the duty of the Secretary of State to prepare in respect of each financial year, in such form as the Treasury may direct, an account of sums issued to him for loans so made or sums received by him in repayment of such loans, and of the disposal by him of those sums and to send the account to the Comptroller and Auditor General¹³ not later than the end of November in the following financial year¹⁴. The Comptroller and Auditor General must examine, certify and report on the account and lay copies of it and of his report before each House of Parliament¹⁵.

Immediately after a guarantee is given under head (4) above, the Secretary of State must lay a statement of the guarantee before each House of Parliament; and immediately after any sum is

paid for fulfilling a guarantee so given, the Secretary of State must so lay a statement relating to that sum¹⁶.

Any sums required by the Secretary of State for making such grants or loans or fulfilling any such guarantee must be paid out of money provided by Parliament¹⁷. Any sums received by him by way of repayment¹⁸ must be paid into the Consolidated Fund¹⁹.

Where the Secretary of State undertakes to make a grant under head (1) above in respect of qualifying expenditure incurred or to be incurred by any company, and in accordance with generally accepted accounting practice the company recognises the value of the undertaking in its balance sheet, and recognises a corresponding credit in its profit and loss account, no amount is to be brought into account in respect of that credit in computing the profits of the company for corporation tax purposes²⁰. This does not, however:

3320 (A) affect the amount, if any, to be brought into account in computing the profits of the company for corporation tax purposes as a result of any subsequent adjustment of the amount or estimated amount of the qualifying expenditure to which the undertaking relates, or the value of the undertaking²¹;

3321 (B) apply if the undertaking is given after 31 March 2008 or such later date, not later than 31 March 2011, as may be specified by the Treasury by order made by statutory instrument²².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 See, however, the text and notes 10-12 infra.

3 Electricity Act 1989 s 97, Sch 12 paras 1(1)(a), 5 (Sch 12 paras 1(1), (2), 2(1), 3(1) amended by the Electricity (Miscellaneous Provisions) Act 2003 s 3(1)-(4)). A grant may be made at such times, in such manner and subject to such conditions as the Secretary of State may with the Treasury's approval determine: Electricity Act 1989 Sch 12 para 1(3).

4 Electricity Act 1989 Sch 12 para 1(1)(b) (as amended: see note 3 supra). As to the making of the grant see note 3 supra.

5 Ibid Sch 12 para 1(1)(ba) (added by the Energy Act 2004 s 34(1)). As to the making of the grant see note 3 supra. For these purposes, 'cleaning-up' and 'principal nuclear site' have the same meanings as in Pt 1 Ch 1 (ss 1-37) (as amended) (see PARAS 1592 notes 2, 5 post): Electricity Act 1989 Sch 12 para 1(5) (added by the Energy Act 2004 s 34(2)).

6 Electricity Act 1989 Sch 12 para 1(1)(c) (substituted by the Energy Act 2004 s 34(1)). As to the making of the grant see note 3 supra. For these purposes, 'decommissioning' and 'nuclear installation' have the same meanings as in Pt 1 Ch 1 (as amended) (see PARA 1592 notes 2, 3 post): Electricity Act 1989 Sch 12 para 1(5) (as added: see note 5 supra).

7 Electricity Act 1989 Sch 12 para 1(2) (as amended: see note 3 supra).

8 Ibid Sch 12 para 2(1) (as amended: see note 3 supra). A loan may be made at such times, in such manner and subject to such conditions as the Secretary of State may with the Treasury's approval determine: Sch 12 para 2(2)(a). It must be repaid to him at such times and by such methods, and interest on it must be paid to him at such rates and at such times, as he may with the like approval from time to time direct: Sch 12 para 2(2)(b). As to directions generally see s 107; and PARA 1306 post.

9 Ibid Sch 12 para 3(1) (as amended: see note 3 supra).

10 As to the establishment and constitution of the Nuclear Decommissioning Authority see PARAS 1394-1395 post; and as to its functions see PARAS 1592-1595 post.

11 Ie under the Energy Act 2004 s 21: see PARA 1607 post.

12 Electricity Act 1989 Sch 12 para 3A (added by the Energy Act 2004 s 34(3)).

13 As to the office of Comptroller and Auditor General see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARAS 724-726.

14 Electricity Act 1989 Sch 12 para 2(5)(a), (b).

15 Ibid Sch 12 para 2(5).

16 Ibid Sch 12 para 3(2).

17 Ibid Sch 12 paras 1(4), 2(3), 3(3). If any sums are paid out in fulfilment of such a guarantee, the person whose obligations are fulfilled must make to the Secretary of State, at such times and in such manner as the Secretary of State may from time to time direct, payments of (1) such amounts as the Secretary of State may so direct in or towards repayment of the sums so paid out; and (2) interest on what is outstanding for the time being in respect of sums so paid out at such rate as the Secretary of State may so direct; and the Treasury's approval is required for the giving of any such direction: Sch 12 para 3(4).

18 Ie under ibid Sch 12 paras 2(2) or 3(4): Sch 12 paras 2(4), 3(5).

19 Ibid Sch 12 paras 2(4), 3(5). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

20 Electricity (Miscellaneous Provisions) Act 2003 s 4(1), (4).

21 Ibid s 4(2).

22 Ibid s 4(3). No such order may be made unless a draft of it has been laid before and approved by a resolution of the House of Commons: s 4(3). At the date at which this title states the law, no such order had been made.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(iv) Statistical Information; Promotion of New Techniques/1276. Provision of statistical information.

(iv) Statistical Information; Promotion of New Techniques

1276. Provision of statistical information.

The Secretary of State¹ may, if he considers it expedient for the purpose of obtaining statistical information² relating to the generation³, transmission⁴ or supply⁵ of electricity or the use of electricity interconnectors⁶, serve a notice⁷ on any licence holder⁸ or any person who is authorised by an exemption⁹ to generate or supply electricity or to participate in the operation of electricity interconnectors¹⁰. Such a notice may require the person on whom it is served to furnish, at a time and place specified in the notice, to the Secretary of State such statistical information about that person's business as may be so specified¹¹.

No information with respect to any particular business which has been so obtained and relates to the affairs of any individual or to any particular business may, during the lifetime of that individual or so long as that business continues to be carried on, be published or otherwise disclosed without the consent of that individual or the person for the time being carrying on that business¹². This restriction does not, however, apply in relation to any disclosure which is made after consultation with the individual concerned, or the person for the time being carrying on the business concerned, and is of information relating to:

- 3322 (1) the quantities of electricity generated by particular methods or by the use of particular fuels¹³;
- 3323 (2) the quantities of particular fuels used for the generation of electricity¹⁴;
- 3324 (3) the quantities of electricity transferred between Great Britain¹⁵ and countries or territories outside Great Britain, or between England and Wales on the one hand and Scotland on the other¹⁶; or
- 3325 (4) the quantities of electricity supplied in England, Scotland or Wales either generally or to persons of any particular class or description¹⁷.

Nor does the restriction apply in relation to any disclosure which is made to the minister in charge of any government department or to the Scottish Ministers or for the purposes of any proceedings under these provisions¹⁸.

The Secretary of State may, after consultation with persons or bodies appearing to him to be representative of persons likely to be affected, by order¹⁹ amend heads (1) to (4) above so as to add other descriptions of information which may be disclosed notwithstanding that it may relate to a particular person or business²⁰.

Any person who without reasonable excuse fails to furnish information in compliance with a requirement under these provisions is liable on summary conviction to a fine not exceeding level 1 on the standard scale²¹.

Any person who publishes or discloses any information in contravention²² of heads (1) to (4) above, or who, in purported compliance with a requirement under these provisions, knowingly or recklessly furnishes any information which is false in any material particular, is liable on summary conviction to imprisonment for a term not exceeding three months, or a fine not

exceeding the statutory maximum, or to both, and on conviction on indictment to imprisonment for a term not exceeding two years or a fine, or to both²³.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For these purposes, 'information' does not include estimates as to future matters but, subject to that, has the same meaning as in the Electricity Act 1989 Pt I (ss 3A-64) (as amended) (see PARA 1044 note 10 ante): s 98(9).

3 For the meaning of 'generate' and cognate expressions see PARA 1041 note 7 ante (definition applied by ibid s 98(9)).

4 For the meaning of 'transmission' see PARA 1041 note 6 ante (definition applied by ibid s 98(9)).

5 For the meaning of 'supply' see PARA 1041 note 10 ante (definition applied by ibid s 98(9)).

6 For the meaning of 'electricity interconnector' see PARA 1041 note 11 ante (definition applied by ibid s 98(9)).

7 For the meaning of 'notice' see PARA 1047 note 11 ante (definition applied by ibid s 98(9)). As to the service of notices generally see PARA 1307 post.

8 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante (definition applied by ibid s 98(9)).

9 For the meaning of 'exemption' see PARA 1046 note 7 ante (definition applied by ibid s 98(9)).

10 Ibid s 98(1) (amended by the Energy Act 2004 s 147(1), (8)). For the meaning of 'participating in the operation of an electricity interconnector' see PARA 1050 note 7 ante (definition applied by s 98(9)).

11 Ibid s 98(2).

12 Electricity Act 1989 s 98(3). Section 98(3) is subject to s 98(4), (5) (as amended) (see the text and notes 13-18 infra): s 98(3).

13 Ibid s 98(4)(a).

14 Ibid s 98(4)(b).

15 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

16 Electricity Act 1989 s 98(4)(c).

17 Ibid s 98(4)(d).

18 Ibid s 98(5) (amended by the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2 Pt I para 95).

19 As to the making of orders generally see the Electricity Act 1989 s 106 (as amended); and PARA 1306 post.

20 Ibid s 98(6). At the date at which this title states the law, no such order had been made.

21 Ibid s 98(7). As to the standard scale see PARA 613 note 11 ante.

22 For the meaning of 'contravention' see PARA 1070 note 20 ante.

23 Electricity Act 1989 s 98(8). As to the statutory maximum see PARA 689 note 2 ante; and for the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(iv) Statistical Information; Promotion of New Techniques/1277. Promotion of new techniques in the national interest.

1277. Promotion of new techniques in the national interest.

The Secretary of State¹ may exercise the power conferred on him regarding expenditure on research and development in science or technology² for the purpose of promoting such research into, and such development of, new techniques relating to the generation³, transmission⁴ or supply⁵ of electricity, as appears to him to be necessary in the national interest⁶.

The Secretary of State may, if he considers it expedient for purposes connected with the performance of this duty, serve notice⁷ on any licence holder⁸ or any person who is authorised by an exemption⁹ to generate or supply electricity¹⁰. Such a notice may require the person on whom it is served to furnish, at a time and place specified in the notice, to the Secretary of State such information¹¹ about that person's business as may be so specified¹².

The statutory restriction on the disclosure of statistical information¹³ applies for these purposes, but not in relation to any disclosure which is made to the minister in charge of any government department or to the Scottish Ministers or for the purpose of any proceedings against a person who fails to comply with a requirement to furnish information or who contravenes the restriction¹⁴.

Any person who without reasonable excuse fails to furnish information in compliance with the above provisions is liable on summary conviction to a fine not exceeding level 1 on the standard scale¹⁵. A person who publishes or discloses any information in contravention of such a requirement, or who in purported compliance with such a requirement knowingly or recklessly furnishes any information which is false in any material particular is liable on summary conviction to imprisonment for a term not exceeding three months or a fine not exceeding the statutory maximum, or to both, and on conviction or indictment to imprisonment for a term not exceeding two years or a fine, or to both¹⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. the power conferred on him by the Science and Technology Act 1965 s 5 (as amended): see NATIONAL CULTURAL HERITAGE vol 77 (2010) PARA 973. Nothing in the Transfer of Functions (Science) Order 1992, SI 1992/1296, is to be taken as implying that the functions of the Secretary of State under the Electricity Act 1989 s 99 (see the text and notes 3-16 infra) are to be concurrently exercised by any other Minister of the Crown (see the Transfer of Functions (Science) Order 1992, SI 1992/1296, art 2(2)); and nothing in the Transfer of Functions (Scientific Research) Order 1999, SI 1999/2785, art 2, is to be taken as implying that those functions are to become exercisable concurrently by the Secretary of State for Environment, Food and Rural Affairs (see the Transfer of Functions (Scientific Research) Order 1999, SI 1999/2785, art 2(3); the Ministry of Agriculture, Fisheries and Food (Dissolution) Order 2002, SI 2002/794). See also note 6 infra.

3 For the meaning of 'generate' and cognate expressions see PARA 1041 note 7 ante (definition applied by the Electricity Act 1989 ss 98(9), 99(4)).

4 For the meaning of 'transmission' see PARA 1041 note 6 ante (definition applied by ibid ss 98(9), 99(4)).

5 For the meaning of 'supply' see PARA 1041 note 10 ante (definition applied by ibid ss 98(9), 99(4)).

6 Ibid s 99(1). There is now a Technology Strategy Board, established as a research council, which has taken over responsibility for a number of contracts in the field of energy research and innovation which were entered into by the Secretary of State: see PARA 601 ante.

7 For the meaning of 'notice' see PARA 1047 note 11 ante (definition applied by *ibid* ss 98(9), 99(4)). As to the service of notices generally see PARA 1307 post.

8 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante (definition applied by *ibid* ss 98(8), 99(4)).

9 For the meaning of 'exemption' see PARA 1046 note 7 ante (definition applied by *ibid* ss 98(9), 99(4)).

10 *Ibid* s 99(2).

11 For the meaning of 'information' see PARA 1276 note 2 ante (definition applied by *ibid* s 99(4)).

12 *Ibid* s 99(3).

13 *Ie* *ibid* s 98(3) (applied by s 99(4)): see PARA 1276 ante.

14 See *ibid* s 98(5) (as amended); applied by s 99(4)); and PARA 1276 ante.

15 *Ibid* s 98(7) (applied by s 99(4)). As to the standard scale see PARA 613 note 11 ante.

16 *Ibid* s 98(8) (applied by s 99(4)). As to the statutory maximum see PARA 689 note 2 ante; and for the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(v) Areas with High Distribution or Transmission Costs/1278. Assistance for areas with high distribution costs.

(v) Areas with High Distribution or Transmission Costs

1278. Assistance for areas with high distribution costs.

If it appears to the Secretary of State¹;

3326 (1) that the costs of distributing² electricity within a particular area of Great Britain³ are significantly higher (when calculated on a per customer basis) than in other areas of Great Britain; and

3327 (2) that within that area there are at least 100,000 premises⁴ that are connected to the same distribution system⁵,

he may make an order under these provisions⁶. Such an order is one that establishes a scheme which:

3328 (a) requires authorised transmitters⁷ to make a payment each year to relevant distributors⁸ distributing electricity in that area of Great Britain of such amount as may be determined in accordance with provision contained in the scheme;

3329 (b) requires the charges imposed by the authorised transmitters on authorised suppliers⁹ to be adjusted in accordance with the scheme for the purpose of enabling the transmitters to make that payment; and

3330 (c) requires relevant distributors in receipt of a payment under the order to secure, in accordance with the order, that the benefit of the payment is passed to the authorised suppliers supplying electricity in the area of Great Britain in question¹⁰.

Such an order establishing a scheme in relation to the distribution of electricity within a particular area must specify the area¹¹. For the purpose of facilitating the implementation of a scheme for which such an order provides, such an order may make such modifications¹² as the Secretary of State considers appropriate of the conditions of the licences¹³ of authorised suppliers, of authorised transmitters and of authorised distributors¹⁴.

For the purpose of carrying out the functions conferred on him by or under these provisions the Secretary of State may require an authorised supplier, an authorised distributor, or an authorised transmitter, to supply him, in a specified form and within a specified time, with information of a specified description¹⁵; but no person may be so required to supply information he could not be compelled to give in evidence in civil proceedings in the High Court¹⁶.

Before making such an order, the Secretary of State must consult such persons as he considers appropriate¹⁷.

Where a scheme established under these provisions in relation to the distribution of electricity within a particular area is in force, no scheme must be established under them in relation to the distribution of electricity outside that area¹⁸. Where a scheme is established under these provisions, it is the duty of the Secretary of State to carry out a review of that scheme:

- 3331 (i) three years after its establishment; and
- 3332 (ii) thereafter at three yearly intervals¹⁹.

Part I of the Electricity Act 1989²⁰ has effect as if every requirement or other duty imposed on a licence holder²¹ under these provisions were a relevant requirement²² for the enforcement purposes of that Part of the 1989 Act²³.

In the exercise of these powers, the Secretary of State has made a scheme to provide assistance for a specified area of Scotland in respect of the costs of distributing electricity within that area²⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'distribute' and cognate expressions see PARA 1041 note 5 ante (definition applied by the Energy Act 2004 s 184(13)).

3 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

4 For the meaning of 'premises' see PARA 1041 note 5 ante (definition applied by the Energy Act 2004 s 184(13)).

5 For the meaning of 'distribution system' see PARA 1041 note 5 ante (definition applied by ibid s 184(13)).

6 Energy Act 2004 s 184(1). Such an order is subject to the negative resolution procedure: s 184(9). As to the negative resolution procedure see PARA 602 note 2 ante.

7 For these purposes, 'authorised transmitter' means a person authorised by a licence under the Electricity Act 1989 s 6(1)(b) (as substituted) (see PARA 1065 ante) to participate in the transmission of electricity: Energy Act 2004 s 184(13).

8 For these purposes, 'relevant distributor' means an authorised distributor who distributes electricity by means of a distribution system to which at least 100,000 premises are connected: ibid s 184(13). For the meaning of 'authorised distributor' see PARA 1094 note 8 ante (definition applied by s 184(13)).

9 For the meaning of 'authorised supplier' see PARA 1094 note 7 ante (definition applied by s 184(13)).

10 Ibid s 184(2).

11 Ibid s 184(3).

12 For the meaning of 'modifications' see PARA 733 note 8 ante.

13 For the meaning of 'licence' see PARA 1041 note 12 ante (definition applied by the Energy Act 2004 s 184(13)).

14 Ibid s 184(4).

15 Ibid s 184(5).

16 Ibid s 184(6).

17 Ibid s 184(7). Section 184(7) may be satisfied by consultation that took place wholly or partly before 5 October 2004 (ie the commencement of s 184: see the Energy Act 2004 (Commencement No 3) Order 2004, SI 2004/2575, art 2(1), Sch 1): Energy Act 2004 s 184(8).

18 Ibid s 184(10).

19 Ibid s 184(11).

20 Ie the Electricity Act 1989 Pt I (ss 3A-64) (as amended): see PARA 1041 et seq ante, PARA 1281 et seq post.

21 For the meaning of 'licence holder' see PARA 1041 note 12 ante (definition applied by the Energy Act 2004 s 184(13)).

22 Ie within the meaning of the Electricity Act 1989 s 25(8) (as amended): see PARA 1207 note 5 ante.

23 Energy Act 2004 s 184(12).

24 See the Energy Act 2004 (Assistance for Areas with High Distribution Costs) Order 2005, SI 2005/528, which came into force on 1 April 2005: art 1(1).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(v) Areas with High Distribution or Transmission Costs/1279. Adjustment of transmission charges.

1279. Adjustment of transmission charges.

The Secretary of State¹ may make an order under these provisions if it appears to him:

- 3333 (1) that a particular area in Great Britain² is suitable as a location for the generation of electricity from renewable sources³;
- 3334 (2) that, as a result, that area represents an area of high potential for the development of the generation of electricity from such sources; and
- 3335 (3) that that development is likely to be deterred, or otherwise hindered in a material respect, by the level of charges that would otherwise be imposed by authorised transmitters⁴ on persons generating electricity in that area from renewable sources⁵.

Such an order is one that establishes a scheme which:

- 3336 (a) limits the amounts of charges that authorised transmitters may impose on persons so generating electricity in that area⁶ to amounts determined in accordance with provision contained in the scheme; and
- 3337 (b) requires the charges imposed by the authorised transmitters on authorised suppliers⁷ to be adjusted in accordance with the scheme for the purpose of making good shortfalls resulting from that limitation⁸.

An order under these provisions establishing a scheme in relation to the generation of electricity from renewable sources in a particular area must specify the area⁹. If heads (1) to (3) above are satisfied in the case of two or more separate areas in Great Britain, an order under these provisions may relate to both, or all, of those areas¹⁰. For the purpose of facilitating the implementation of a scheme, an order under these provisions may make such modifications¹¹ as the Secretary of State considers appropriate of the conditions of the licences¹² of authorised transmitters and of authorised suppliers¹³.

For the purpose of carrying out the functions conferred on him by or under these provisions the Secretary of State may require an authorised supplier, an authorised distributor¹⁴ or an authorised transmitter to supply him, in a specified form and within a specified time, with information of a specified description¹⁵; but no person may be so required to supply information he could not be compelled to give in evidence in civil proceedings in the High Court¹⁶.

Before making an order under these provisions the Secretary of State must:

- 3338 (i) publish a draft of any scheme proposed to be established by the order;
- 3339 (ii) publish an assessment of the costs likely to be incurred by different persons in consequence of the order; and
- 3340 (iii) consult authorised suppliers and such other persons likely to be affected by the order as he considers appropriate¹⁷.

An assessment published under head (ii) above must set out, in particular, the Secretary of State's assessment of the likely effect of the order on charges for electricity in Great Britain¹⁸.

Where a scheme in relation to the generation of electricity from renewable sources within a particular area¹⁹ is in force, no scheme must be established in relation to the generation of electricity from renewable sources outside that area²⁰. A scheme must not be applied:

- 3341 (A) in relation to a time later than 4 October 2024²¹;
- 3342 (B) for a period of more than five years, but it may, subject to head (A) above, be renewed at any time by a further order under these provisions for a period of no more than five years from the coming into force of the further order²².

Part I of the Electricity Act 1989²³ has effect as if every requirement or other duty imposed on a licence holder²⁴ under these provisions were a relevant requirement²⁵ for the enforcement purposes of that Part of the 1989 Act²⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

3 For these purposes, 'renewable sources' means sources of energy in relation to which the following condition is satisfied, namely, that the production of evidence in respect of electricity generated from those sources is capable of satisfying a renewables obligation imposed by an order under the Electricity Act 1989 s 32 (as substituted and amended) (obligation in respect of electricity generated from renewable sources: see PARA 1219 ante): Energy Act 2004 s 185(14).

4 For these purposes, 'authorised transmitter' means a person authorised by a licence under the Electricity Act 1989 s 6(1)(b) (as substituted) (see PARA 1065 ante) to participate in the transmission of electricity: Energy Act 2004 s 185(14).

5 Ibid s 185(1) (amended by the Climate Change and Sustainable Energy Act 2006 s 25(1), (2)). The power to make an order containing provision authorised by the Energy Act 2004 s 185 (as amended) is subject to the affirmative resolution procedure: s 185(15). As to the affirmative resolution procedure see PARA 754 note 17 ante. At the date at which this title states the law, no such order had been made.

6 Ibid s 185 (as amended) has effect in relation to an order which, by virtue of s 185(3A) (as added) (see the text and note 10 infra), relates to two or more areas as if references in s 185(2), (3) and (10) to the area to which the scheme established by the order relates (however expressed) were references to the combined area: s 185(3B) (s 185(3A), (3B) added by the Climate Change and Sustainable Energy Act 2006 s 25(1), (3)).

7 For the meaning of 'authorised supplier' see PARA 1094 note 7 ante (definition applied by the Energy Act 2004 s 185(14)).

8 Ibid s 185(2).

9 Ibid s 185(3); and see note 6 supra.

10 Ibid s 185(3A) (as added: see note 6 supra).

11 For the meaning of 'modifications' see PARA 733 note 8 ante.

12 For the meaning of 'licence' see PARA 1041 note 12 ante (definition applied by the Energy Act 2004 s 185(14)).

13 Ibid s 185(4).

14 For the meaning of 'authorised distributor' see PARA 1094 note 8 ante (definition applied by ibid s 185(14)).

15 Ibid s 185(5).

16 Ibid s 185(6).

17 Ibid s 185(7). Section 185(7) may be satisfied (1) by publications and consultation taking place wholly or partly before 5 October 2004 (ie the commencement of s 185 (now as amended): see the Energy Act 2004 (Commencement No 3) Order 2004, SI 2004/2575, art 2(1), Sch 1); (2) in relation to any order to be made thereunder after the commencement of the Climate Change and Sustainable Energy Act 2006 s 25 (ie 21 August 2006: see s 28(1)) by publications and consultation taking place wholly or partly before that commencement: Energy Act 2004 s 185(9); Climate Change and Sustainable Energy Act 2006 s 25(5).

18 Energy Act 2004 s 185(8).

19 See note 6 *supra*.

20 Energy Act 2004 s 185(10).

21 Ibid s 185(11) (amended by the Climate Change and Sustainable Energy Act 2006 s 25(1), (4)).

22 Electricity Act 1989 s 185(12).

26 Energy Act 2004 s 185(13).

UPDATE

1279 Adjustment of transmission charges

NOTE 3--Definition of 'renewable sources' amended: Energy Act 2008 Sch 5 para 20.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(6) PROTECTION OF THE PUBLIC INTEREST/(vi) Decommissioning of Offshore Electric Lines/1280. Decommissioning programmes; in general.

(vi) Decommissioning of Offshore Electric Lines

1280. Decommissioning programmes; in general.

Under the Energy Act 2004, the Secretary of State has power to require the submission of decommissioning programmes in relation to, among other things, certain offshore electric lines¹. He may either approve or reject such programmes² and, where he rejects a decommissioning programme, he may himself prepare one³. Decommissioning programmes are discussed in a later part of this title⁴.

1 See the Energy Act 2004 Pt 2 Ch 3 (ss 105-114); and PARA 1320 et seq post. As to the relevant electric lines see PARA 1320 note 1 post.

2 See *ibid* s 106; and PARA 1322 post.

3 See *ibid* s 107; and PARA 1323 post.

4 See PARA 1320 et seq post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(i) Powers with respect to Land and Water/1281. Power to acquire land by agreement.

(7) WORKS AND RIGHTS OVER LAND

(i) Powers with respect to Land and Water

1281. Power to acquire land by agreement.

The general powers of the former Electricity Council and Electricity Boards¹ under the Electricity Acts 1947 and 1957 included a power to acquire land by agreement². There is no specific provision³ in the Electricity Act 1989 conferring a general power to acquire land by agreement, although special types of land may be so acquired⁴. The general power of acquisition by agreement now derives from the Compulsory Purchase Act 1965⁵.

1 As to the Electricity Council and the Electricity Boards see PARA 1033 ante.

2 See in particular the Electricity Act 1947 s 2(5) (repealed); the Electricity Act 1957 ss 3(6), 42(1), Sch 4 Pt I (repealed).

3 For powers to acquire land by compulsory purchase see PARA 1283 post.

4 See the Electricity Act 1989 s 10(1) (as amended), Sch 3 para 3; and PARA 1283 post.

5 The consideration for an acquisition by agreement may be in money or money's worth: see the Compulsory Purchase Act 1965 s 3 (as amended); and see generally COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 501 et seq.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(i) Powers with respect to Land and Water/1282. Source of powers to acquire land.

1282. Source of powers to acquire land.

The statutory powers to acquire land¹ by compulsory purchase have effect in relation to the holder of a transmission licence² and, to the extent that his licence³ so provides, in relation to an electricity distributor⁴ or any other licence holder⁵. Where any provision conferring such a power is applied to a licence holder by his licence, it has effect subject to such restrictions and conditions as may be included in the licence for the purpose of qualifying that provision as so applied or any power or right conferred by or under it⁶.

A licence holder who is entitled to exercise any such power is deemed to be a statutory undertaker and his undertaking a statutory undertaking for the purposes of the Acquisition of Land Act 1981⁷.

1 In the Electricity Act 1989 s 10(1), Sch 3 (as amended): see PARA 1283 et seq post.

2 For the meaning of 'transmission licence' see PARA 1065 ante at head (2) in the text.

3 For the meaning of 'licence' see PARA 1041 note 12 ante.

4 For the meaning of 'electricity distributor' see PARA 1065 note 9 ante.

5 Electricity Act 1989 s 10(1) (amended by the Utilities Act 2000 ss 53(1), (2), 108, Sch 8; the Energy Act 2004 s 143(1), Sch 19 paras 3, 9(1), (2)). For the meaning of 'licence holder' see PARA 1041 note 12 ante. References in the Electricity Act 1989 Sch 3 (as amended) to a licence holder are to be construed accordingly: s 10(1).

6 See *ibid* s 10(2).

7 See *ibid* s 112(1), Sch 16 para 2(2)(g). See further Sch 3 para 5; and PARA 1284 post; and see generally COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 501 et seq.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(i) Powers with respect to Land and Water/1283. Compulsory acquisition of land.

1283. Compulsory acquisition of land.

The Secretary of State¹ may authorise a licence holder² to purchase compulsorily³ any land⁴ which is required⁵ for any purpose connected with the carrying on of the activities which he is authorised by his licence⁶ to carry on⁷ and this power includes a power to authorise the acquisition of rights over land by the creation of new rights as well as the acquisition of existing rights⁸. No order may, however, be made for authorising the compulsory purchase of land belonging to another licence holder except with the consent of the Gas and Electricity Markets Authority ('GEMA')⁹ and the Authority must not give its consent if:

- 3343 (1) the land is being used by the licence holder to whom it belongs for the purposes of an installation¹⁰ necessary for carrying on activities authorised by his licence¹¹; or
- 3344 (2) it appears to the Authority that the land will be so used and the use will commence, or that the necessary planning permission¹² or consent¹³ will be applied for, within the period of five years¹⁴ beginning with the date of the application for its consent¹⁵.

A consent which is not acted on within the period of six months beginning with the day on which it is granted ceases to have effect at the end of that period¹⁶.

Where for any purpose a licence holder has acquired or proposes to acquire any land which is or forms part of a common, open space, or fuel or field garden allotment¹⁷, or any right over any such land, and other land is required for the purpose of being given in exchange for it, the Secretary of State may authorise the licence holder to purchase that other land compulsorily or the licence holder may acquire it by agreement¹⁸.

Where a licence holder has acquired any land by virtue of his powers of compulsory purchase¹⁹ he may not dispose of it or any interest in or right over it except with the consent of the Authority²⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 3-20 infra apply see PARA 1282 ante. A licence holder who is entitled to exercise any power conferred by the Electricity Act 1989 s 10(1), Sch 3 (as amended) is deemed to be a statutory undertaker and his undertaking a statutory undertaking for the purposes of the New Towns Act 1981 (see TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1344 et seq); the Acquisition of Land Act 1981 (see COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 501 et seq); and the Civil Aviation Act 1982 ss 47-49, 51 (as amended), and s 46 (as amended), Sch 9 (see AIR LAW vol 2 (2008) PARA 199 et seq) (Electricity Act 1989 s 112(1), Sch 16 para 2(2)(f)-(h)); and it is immaterial for those purposes whether any power conferred by, or by any provision of, Sch 3 (as amended) on the holder of a licence under s 6(1) (as substituted and amended) (see PARA 1065 ante) is qualified by restrictions, exceptions or conditions included in the licence (Sch 16 para 2(9)).

3 For the procedure, compensation etc relating to the compulsory acquisition of land, rights over land and the acquisition of rights by creating new rights see note 8 infra; and PARA 1284 post. For the concurrent powers of the Secretary of State see *ibid* s 61 (as amended); and PARA 1298 post. For transitional provisions and savings relating to land compulsorily acquired under the Electricity Act 1947 s 9 (repealed) see the Electricity Act 1989 s 112(3), Sch 17 paras 8, 23.

4 'Land' for the purpose of *ibid* Sch 3 paras 1, 2 (as amended) includes any right over land other than, in Scotland, a right to abstract, divert and use water: Sch 3 para 1(2).

5 As to the meaning of 'required' in this context see *Sharkey v Secretary of State for the Environment and South Buckinghamshire District Council* (1990) 62 P & CR 126, [1990] 2 EGLR 191; *affd* (1991) 63 P & CR 332, [1992] RVR 29, CA (the land in question must be needed for the statutory purposes and the requirement must be a requirement that is more than merely desirable but not to the extent of being absolutely indispensable).

6 For the meaning of 'licence' see PARA 1041 note 12 *ante*. As to the restrictions etc which may be included in a licence see the Electricity Act 1989 s 10(2); and PARA 1282 *ante*.

7 *Ibid* Sch 3 para 1(1). See *Procter and Gamble Ltd v Secretary of State for the Environment* (1991) 63 P & CR 317, [1992] 1 EGLR 265, CA (a compulsory purchase order made for one purpose cannot lawfully be confirmed for another purpose or for a purpose additional to that for which it was made); considered in *Yorkshire Traction Co Ltd v Secretary of State for Transport* [1996] EGCS 13 (*affd* (1997) 75 P & CR 437, [1997] 2 EGLR 28, CA) in the context of the acquisition of land under the Transport Act 1968 s 10(3) (as amended)).

8 Electricity Act 1989 Sch 3 para 1(2). The Compulsory Purchase Act 1965 has effect with the modifications necessary to make it apply to a licence holder's compulsory acquisition of a right in England and Wales by the creation of a new right as it applies to the compulsory acquisition of land, so that, in appropriate contexts, references in that Act to land are to be read as referring to, or as including references to, the right acquired or to be acquired, or to land over which the right is or is to be exercisable, according to the requirements of the particular context: Electricity Act 1989 Sch 3 para 6. For specific adaptations of the Compulsory Purchase Act 1965 in relation to the acquisition of new rights see the Electricity Act 1989 Sch 3 paras 7-13; and PARA 1284 *post*. For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 *ante*.

9 *Ibid* Sch 3 para 2(1) (Sch 3 paras 2, 4 amended by virtue of the Utilities Act 2000 s 3(2)). As to the establishment and general functions of the Gas and Electricity Markets Authority see PARA 708 *et seq ante*; and as to the use of the abbreviation 'GEMA' in this context see PARA 708 note 5 *ante*.

10 'Installation' refers to the construction or extension of a generating station (see the Electricity Act 1989 s 36 (as amended); and PARA 1249 *ante*) or the installation of overhead electric lines (see s 37; and PARA 1252 *ante*).

11 *Ibid* Sch 3 para 2(2)(a) (as amended: see note 9 *supra*).

12 'Planning permission' means a planning permission granted under the Town and Country Planning Act 1990 Pt III (ss 55-106B (as amended)) (see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 217 *et seq*): Electricity Act 1989 Sch 3 para 2(5) (amended by the Planning (Consequential Provisions) Act 1990 s 4, Sch 2 para 83(1)).

13 *Ie* a consent granted under the Electricity Act 1989 s 36 (as amended) or s 37: see PARAS 1249, 1252 *ante*.

14 The Secretary of State may by order provide that *ibid* Sch 3 para 2(2) (as amended) is to have effect as if for the period of five years there were substituted such other period as may be specified in the order: Sch 3 para 2(3). At the date at which this title states the law, no such order had been made. As to the making of orders generally see s 106 (as amended); and PARA 1306 *post*.

15 *Ibid* Sch 3 para 2(2)(b) (as amended: see note 9 *supra*).

16 *Ibid* Sch 3 para 2(4).

17 *Ie* for the purposes of the Acquisition of Land Act 1981: Electricity Act 1989 Sch 3 para 3(1)(a). 'Common' includes any land subject to be inclosed under the Inclosure Acts 1845 to 1882, and any town or village green; 'open space' means any land laid out as a public garden, or used for the purposes of public recreation, or a disused burial ground; and 'fuel or field garden allotment' means any allotment set out as a fuel allotment, or a field garden allotment, under an Inclosure Act: Acquisition of Land Act 1981 s 19(4). As to the compulsory acquisition of certain protected categories of land see ss 18, 19 (as amended) and s 28, Sch 3 paras 5, 6 (as amended); and COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARAS 533 *et seq*, 596 *et seq*. As to the Inclosure Acts 1845 to 1882 see COMMONS vol 13 (2009) PARA 419.

18 Electricity Act 1989 Sch 3 para 3(2). The Secretary of State could properly consider the planned or likely developments or future occurrences which it was intended or predicted would or might affect either the acquired land or the land given up in deciding whether or not to issue a certificate under the Acquisition of Land Act 1981 s 19 (as amended): *Greenwich London Borough Council v Secretary of State for the Environment, Yates v Secretary of State for the Environment* (1993) Times, 2 March, [1994] JPL 607. See further COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 531.

19 le under the provisions of the Electricity Act 1989 Sch 3 para 1.

20 Ibid Sch 3 para 4 (as amended: see note 9 *supra*). For transitional provisions relating to disposals of land effected in pursuance of a provision included in a transfer scheme by virtue of s 68(2)(c) or in pursuance of s 70, Sch 10 (see *PARA 1034 ante*), see s 112(3), Sch 17 para 23.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(i) Powers with respect to Land and Water/1284. Procedure, compensation etc with respect to compulsory acquisition.

1284. Procedure, compensation etc with respect to compulsory acquisition.

The Acquisition of Land Act 1981 applies to (1) the compulsory purchase by a licence holder¹ of land or rights over land in England and Wales²; and (2) the compulsory acquisition by a licence holder of a right by the creation of a new right³.

The enactments in force with respect to compensation for the compulsory purchase of land⁴ apply with the necessary modification as respects compensation in the case of a licence holder's compulsory acquisition of a right by the creation of a new right as they apply to compensation on the compulsory purchase of land and interests in land⁵.

In assessing the compensation to be paid by the acquiring authority under the Compulsory Purchase Act 1965, regard must be had not only to the extent, if any, to which the value of the land is depreciated by the acquisition of the right but also to the damage (if any) to be sustained by the owner by reason of the severance of that land from his other land or that other land being injuriously affected by the exercise of the statutory powers⁶. No person is to be required to grant any right over part only of (a) any house, building or manufactory⁷; or (b) a park⁸ or garden⁹ belonging to a house, if he is willing to sell the whole, unless the Lands Tribunal¹⁰ determines, in the case of head (a) above, that the part over which the right is proposed to be acquired can be acquired without material detriment to the remainder, or, in the case of head (b) above, it can be acquired without seriously affecting the amenity or convenience of the house¹¹. If the tribunal determines the part can be acquired without affecting the whole in the manner specified, it must award compensation in respect of any loss due to the acquisition of the right in addition to its value and, upon such award, the party with an interest in the buildings or land is required to grant that right over the part to the acquiring authority¹².

The statutory provisions stating the effect of a deed poll executed in various circumstances where there is no conveyance by persons with interests in the land¹³ are to be modified so as to secure that, as against persons with interests in the land which are expressed to be overridden by the deed, the right which is to be compulsorily acquired is vested absolutely in the acquiring authority¹⁴. The statutory provisions relating to powers of entry¹⁵ are to be modified so as to secure that with effect from the date on which the acquiring authority served notice to treat in respect of any right, it has power exercisable in the like circumstances and subject to the like conditions, to enter upon the land for the purpose of exercising that right¹⁶. The statutory provisions relating to protection for interests of tenants at will etc¹⁷ are to apply with such modifications as are necessary to secure that persons with interests so mentioned are compensated in a manner corresponding to that in which they would be compensated on a compulsory acquisition of that land, but taking into account only the extent of such interference with such an interest as is actually caused, or likely to be caused, by the exercise of the right in question¹⁸. Finally, the statutory provisions in respect of protection of the acquiring authority's possession in cases where, by inadvertence, an estate, a right or an interest has not been got in¹⁹, are to be modified so as to enable that authority, in circumstances corresponding to those mentioned, to continue entitled to exercise the right acquired by it, subject to its compliance with such provisions as relate to compensation²⁰.

- 1 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 2-20 infra apply see PARA 1282 ante.
- 2 Electricity Act 1989 s 10(1) (as amended), Sch 3 para 5(1).
- 3 Ibid Sch 3 para 5(1), applying the Acquisition of Land Act 1981 s 28, Sch 3 (as amended) for these purposes. Section 16 (as amended) and Sch 3 para 3 (as amended) (statutory undertakers' land excluded from compulsory purchase: see COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARAS 564, 606, 607) does not, however, apply where the land or rights in question belong to another licence holder: Electricity Act 1989 Sch 3 para 5(2). As to the general adaptation of the Compulsory Purchase Act 1965 in relation to the creation of new rights see the Electricity Act 1989 Sch 3 para 6; and PARA 1283 note 8 ante.

UPDATE

1284 Procedure, compensation etc with respect to compulsory acquisition

TEXT AND NOTE 11--Reference to the Lands Tribunal is now to the Upper Tribunal: Compulsory Purchase Act 1965 s 8(1) (amended by SI 2009/1307).

NOTE 16--1989 Act Sch 3 para 11 amended: Tribunals, Courts and Enforcement Act 2007 Sch 22 para 7.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(ii) Rights as to Water/1285. Rights to abstract water.

(ii) Rights as to Water

1285. Rights to abstract water.

The Secretary of State¹ may authorise a licence holder² to purchase a right to abstract, divert and use water in England and Wales for any purpose connected with the carrying on of the activities which he is authorised by his licence to carry on³.

Under the Water Resources Act 1991 the abstraction of water from a source of supply is prohibited other than in pursuance of a licence granted by the Environment Agency or under certain exceptions⁴. In relation to the imposition of charges for water abstraction, no charges⁵ are to be levied in respect of water authorised to be abstracted for use in the production of electricity, or any other form of power, by a generating station or apparatus of a capacity of not more than five megawatts⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions referred to in the text apply see PARA 1282 ante.

3 See the Electricity Act 1989 s 10(1) (as amended), Sch 3 para 1(1), (2); and PARA 1283 ante.

4 See the Water Resources Act 1991 s 24(1) (as amended); and WATER AND WATERWAYS vol 100 (2009) PARA 214.

5 Ie other than charges for the purpose of recovering administrative expenses attributable to the exercise by the Environment Agency of its functions in relation to the application for the licence: *ibid* s 125(1) (amended by the Environment Act 1995 s 120, Sch 22 para 128).

6 See *ibid* s 125(1) (as amended: see note 5 *supra*); and WATER AND WATERWAYS vol 100 (2009) PARA 274.

UPDATE

1285 Rights to abstract water

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iii) Powers to execute Works in Streets/1286. Source of powers for carrying out street works etc.

(iii) Powers to execute Works in Streets

1286. Source of powers for carrying out street works etc.

The statutory provisions conferring powers to carry out certain works¹ have effect in relation to the holder of a transmission licence² and, to the extent that his licence³ so provides, in relation to an electricity distributor⁴ any other licence holder⁵. Where any such provision is applied to a licence holder by his licence, it has effect subject to such restrictions, exceptions and conditions as may be included in the licence for the purpose of qualifying that provision as so applied or any power or right conferred by or under it⁶.

A generation licence⁷ may provide that those statutory provisions are to have effect in relation to the licence holder as if:

- 3345 (1) any reference to any purpose connected with the carrying on of the activities which he is authorised by his licence to carry on included a reference to any purpose connected with the supply to any premises⁸ of heat produced in association with electricity and steam produced from and air and water heated by such heat⁹; and
- 3346 (2) any reference to electric lines¹⁰ or electrical plant¹¹ included a reference to pipes and associated works¹² used or intended to be used for conveying heat so produced, and steam produced from and air and water heated by such heat¹³;

and this applies in relation to any purpose connected with the supply to any premises of any gas or liquid subjected to a cooling effect produced in association with electricity as it applies to a purpose mentioned in heads (1) and (2) above¹⁴.

A transmission licence may provide that, where the licence is modified¹⁵ so as to reduce in any respect the area in which the licence holder may carry on activities, those statutory provisions are to have effect in relation to him as if any reference to the activities which he is authorised by his licence to carry on included a reference to the activities which he was previously so authorised to carry on¹⁶.

1 Ie the Electricity Act 1989 s 10(1), Sch 4 (as amended): see PARA 1287 et seq post.

2 For the meaning of 'transmission licence' see PARA 1065 ante at head (2) in the text.

3 For the meaning of 'licence' see PARA 1041 note 12 ante.

4 For the meaning of 'electricity distributor' see PARA 1065 note 9 ante.

5 Electricity Act 1989 s 10(1) (amended by the Utilities Act 2000 ss 53(1), (2), 108, Sch 8; the Energy Act 2004 s 143(1), Sch 19 paras 3, 9(1), (2)). For the meaning of 'licence holder' see PARA 1041 note 12 ante. References in the Electricity Act 1989 Sch 3 (as amended) to a licence holder are to be construed accordingly: s 10(1).

6 See *ibid* s 10(2).

7 For the meaning of 'generation licence' see PARA 1065 ante at head (1) in the text.

8 For the meaning of 'premises' see PARA 1041 note 5 ante.

9 Electricity Act 1989 s 10(3)(a) (s 10(3) amended by the Utilities Act 2000 s 53(1), (3)). As to the powers of local authorities to establish combined heat and power schemes see the Local Government (Miscellaneous Provisions) Act 1976 s 11 (amended by the Electricity Act 1989 s 112(1), (4), Sch 16 para 20, Sch 18). The effect of the amendment is threefold: (1) it gives a local authority the necessary legal powers to sell electricity outside its own area; (2) save in such cases as may be prescribed, it prevents that authority from selling electricity which is produced otherwise than in association with heat; (3) it makes the authority subject to the requirements of the Electricity Act 1989 Pt I (ss 3A-64) (as amended) (see PARA 1041 et seq ante, PARA 1287 et seq post). Thus, in order to engage in combined heat and power projects, a local authority must operate under a licence or an exemption in the same way as any other licence holder, and it derives its powers to lay pipes, to carry out associated works and to execute street works from s 10 (as amended).

10 For the meaning of 'electric line' see PARA 1041 note 5 ante.

11 For the meaning of 'electrical plant' see PARA 1041 note 5 ante.

12 For these purposes, 'associated works', in relation to pipes, means any of the following connected with the pipes, ie any valve, filter, stopcock, pump, meter, inspection chamber and manhole and such other works as may be prescribed: Electricity Act 1989 s 10(3). For the meaning of 'prescribed' see PARA 1096 note 11 ante. At the date at which this title states the law, no regulations prescribing such works had been made.

13 Ibid s 10(3)(b) (as amended: see note 9 supra).

14 Ibid s 10(3A) (added by the Utilities Act 2000 s 53(1), (4)).

15 Ie under the Electricity Act 1989 s 6(6B) (as added) (see PARA 1065 ante), s 11 (as substituted and amended) (see PARA 1074 ante) or s 11A (as added and amended) (see PARA 1075 ante).

16 Ibid s 10(4) (substituted by the Energy Act 2004 s 143(1), Sch 19 paras 3, 9(1), (3)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iii) Powers to execute Works in Streets/1287. Powers to break up streets etc.

1287. Powers to break up streets etc.

A licence holder¹ may execute² the following kinds of works for any purpose connected with the carrying on of the activities which he is authorised by his licence to carry on:

- 3347 (1) installing under, over, in, on, along or across any street³ and from time to time inspecting, maintaining, adjusting, repairing, replacing or removing any electric lines⁴ or electrical plant⁵ and any structures⁶ for housing or covering them⁷; and
- 3348 (2) any works requisite for or incidental to the purposes of any such works, including for those purposes:
- 313
- 463. (a) opening or breaking up any street⁸ or any sewers, drains or tunnels⁹ within or under any street;
- 464. (b) tunnelling or boring under any street; and
- 465. (c) removing or using all earth and materials in or under the street¹⁰.
- 314

Nothing in heads (1) and (2) above, however, empowers a licence holder to lay down or place any electric line or electrical plant into, through or against any building, or in any land not dedicated to the public use¹¹.

The power of a licence holder to place any structure for housing any electric line or plant on or over a street is exercisable only with the consent of the street authority¹² but such consent must not be unreasonably withheld¹³. Except in cases of emergency arising from faults in electric lines or electrical plant, a street which is not a maintainable highway may not be opened or broken up by virtue of the above provisions except with the consent of the street authority or that of the Secretary of State¹⁴.

In exercising the above powers, a licence holder must do as little damage as possible¹⁵ and must make compensation for any damage done in the exercise of those powers¹⁶. He is also required to exercise those powers in such a manner as will secure that nothing which he installs or keeps installed under, over, in, on, along or across any street becomes a source of danger to the public¹⁷.

1 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 2-17 infra apply see PARA 1286 ante. A licence holder who is entitled to exercise any power conferred by the Electricity Act 1989 s 10(1), Sch 4 para 1 (as amended) (see the text and notes 2-17 infra) is deemed to be a statutory undertaker and his undertaking a statutory undertaking for the purposes of the Public Health Act 1925 s 26, the Requisitioned Land and War Works Act 1945 s 17(1)(b) (as amended), the Highways Act 1980 and the Housing Act 1985 ss 296, 611 (as amended); and references in the Civil Aviation Act 1982 s 48(6) (as amended), the Local Government (Miscellaneous Provisions) Act 1953 s 6 (as amended), the Highways Act 1980 ss 176, 185 (as amended) and the Road Traffic Regulation Act 1984 s 74 (as amended), Sch 5 para 3 (as amended) to electricity undertakers are to be construed as references to licence holders so entitled: see the Electricity Act 1989 s 112(1), Sch 16 para 2(3), (4)(a), (b), (d), (e), (5)(a), (c), (d).

2 le subject to ibid s 10(1), Sch 4 para 1(2)-(10) (as amended: see the text and notes 3-17 infra): Sch 4 para 1(1). Nothing in Sch 4 para 1(1) affects the application to any operation of the Coast Protection Act 1949 ss 34-

36 (as amended) (see WATER AND WATERWAYS vol 101 (2009) PARA 533 et seq): Electricity Act 1989 Sch 4 para 1(8) (substituted by the New Roads and Street Works Act 1991 s 168(1), Sch 8 para 123(4)).

3 For these purposes, 'street' means the whole or part of any of the following, irrespective of whether it is a thoroughfare: (1) any highway, road, lane, footway, alley or passage; (2) any square or court; and (3) any land laid out as a way whether it is for the time being formed as a way or not; and where a street passes over a bridge or through a tunnel, references to the street include that bridge or tunnel: New Roads and Street Works Act 1991 s 48(1); applied by the Electricity Act 1989 Sch 4 para 1(9) (substituted by the New Roads and Street Works Act 1991 s 168(1), Sch 8 para 123(5)). A street need not be a thoroughfare: see *R v Goole Local Board* [1891] 2 QB 212; *Hill v Wallasey Local Board* [1894] 1 Ch 133, CA; *Midland Rly Co v Watton* (1886) 17 QBD 30, CA; *Taylor v Oldham Corpn* (1876) 4 ChD 395. It does not have to be linear in form and width is not relevant to define what is or is not a street since footpaths and alleys are included in the definition. A walkway in London is deemed to be a street for the purpose of statutory undertakers' works: see the Greater London Council (General Powers) Act 1969 s 24(1) (as amended). See also the New Roads and Street Works Act 1991 s 91(4) which applies the provisions of Pt III (ss 48-106) (as amended) to a street which consists of or forms part of a towing path by the side of a canal where the path or the subsoil is held or used for the purposes of the canal or inland navigation undertaking. See further HIGHWAYS, STREETS AND BRIDGES.

References to a bridge include so much of any street as gives access to the bridge and any embankment, retaining wall or other work or substance supporting or protecting that part of the street: see s 88(1)(a). Any statutory right to place apparatus in a street includes the right to place apparatus in and attach apparatus to the structure of the bridge and any other rights to execute works in relation to that apparatus extend to that situation also: s 88(3). See, however, s 88(5)(b) which requires an undertaker to comply with any reasonable conditions the bridge authority may wish to impose for the protection of the bridge or access to it. A wayleave agreement is no longer required when apparatus is attached to the bridge (see s 88(3)) but where apparatus is located elsewhere on the bridge, eg by cutting into the structure of the bridge, an agreement may be required (see *Glasgow Corpn v Glasgow and South Western Rly Co* [1895] AC 376, HL). See further HIGHWAYS, STREETS AND BRIDGES.

4 For the meaning of 'electric line' see PARA 1041 note 5 ante.

5 For the meaning of 'electrical plant' see PARA 1041 note 5 ante.

6 'Structures', which broadly correspond to a 'street box' under the Electric Lighting (Clauses) Act 1899 Sch 13(1) (repealed) are likely to include an underground or overground cable joint box, a meter or fuse box, a box containing switch gear or means of regulating the supply, a container or a compartment enclosing a substation. Such structures may be installed either above ground (on a verge or pavement) or below ground, though the last two items are now most usually below ground. Such 'structures' are not specifically defined in the Electricity Act 1989 though a general formulation is used to describe the structures which can be installed: see the definition of 'electrical plant' in s 64(1) (as amended). See *Hobday v Nicol* [1944] 1 All ER 302 at 303-304 per Humphreys J ('structure, as I understand it, is anything which is constructed; and it involves the notion of something which is put together, consisting of a number of different things which are so put together or built together, constructed as to make one whole, which is then called a structure'. A structure, if constructed of brick or similar materials, is a 'building or structure of work' in respect of which, in London, a building notice must be given under the Building (Inner London) Regulations 1985, SI 1985/1936 (as amended). See *County of London Electric Supply Co Ltd v Perkins* (1908) 98 LT 870, DC, following *Whitechapel Board of Works v Crow* (1901) 84 LT 595, DC; and *Charing Cross and Strand Electricity Supply Corpn v Woodthorpe* (1903) 88 LT 772, DC. Cf *Moran & Son Ltd v Marsland* [1909] 1 KB 744, DC; *LCC v District Surveyors' Association and Willis* [1909] 2 KB 138, DC. The consistory court granted a faculty for the construction of two underground chambers in closed churchyards: *Re St Nicholas Cole Abbey*, *Re St Benet Fink, Churchyard* [1893] P 58; but see *Rector and Churchwardens of St Nicholas Acons v LCC* [1928] AC 469, PC; and ECCLESIASTICAL LAW vol 14 para 1073 note 6. The failure of a licence holder to provide proper ventilation may be negligence: see *Solomons v Stepney Borough Council* (1905) 69 JP 360, DC. See, however, *Goodbody v Poplar Borough Council* (1914) 84 LJKB 1230, DC (an explosion caused by an electric spark igniting gas which had leaked into a brick chamber containing fuses; local authority not liable on the ground that it was not responsible for the presence of gas in the chamber).

7 Electricity Act 1989 Sch 4 para 1(1)(a).

8 To break up a street without statutory authority is a nuisance at common law. An injunction restraining the unlawful breaking up of streets may be granted if the nuisance is substantial and permanent: *A-G v Sheffield Gas Consumers Co* (1853) 3 De GM & G 304; *R v Longton Gas Co* (1860) 2 E & E 651; *Edgeware Highway Board v Harrow District Gas Co* (1874) LR 10 QB 92. See HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 324.

9 'Tunnels' means tunnels ejusdem generis with 'sewers' and 'drains'; the term does not include a railway tunnel or a subway: *Caledonian Rly Co v Glasgow Corpn* (1901) 3 F 526, 8 SLT 457, Ct of Sess; *Schweder v Worthing Gas Light and Coke Co* [1912] 1 Ch 83.

10 Electricity Act 1989 Sch 4 para 1(1)(b). As to the rights of statutory undertakers to lay and maintain apparatus in supported walkways see the Walkways Regulations 1973, SI 1973/686 (as amended); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 685 et seq.

For the application of the New Roads and Street Works Act 1991 to works carried out by statutory undertakers see PARA 1290 post; and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 389 et seq. As to liability for noise (including vibration) that is emitted from or caused by a vehicle, machinery or equipment in a street see the Environmental Protection Act 1990 s 79(1)(ga) (added by the Noise and Statutory Nuisance Act 1993 s 2(2)(b)). See further ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 817 et seq; NUISANCE vol 78 (2010) PARAS 156, 165.

11 Electricity Act 1989 Sch 4 para 1(1). The exception applies only where no part of the land is dedicated: see *Schweder v Worthing Gas Light and Coke Co (No 2)* [1913] 1 Ch 118, where it was held that dedication between the owner and the highway authority involved not merely the occupation by the public of the surface but so much of the subjacent soil as was necessary for the proper maintenance of the street or road. A public footpath is land 'dedicated to public use' even though the footpath is not repairable by the inhabitants at large: see *Marriott v East Grinstead Gas and Water Co* [1909] 1 Ch 70. As to dedication generally see HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 108 et seq.

12 'The street authority' means (1) if the street is a maintainable highway, the highway authority; and (2) if it is not, the street managers: New Roads and Street Works Act 1991 s 49(1) (definition applied by the Electricity Act 1989 Sch 4 para 1(9) (as substituted: see note 3 supra)). 'Maintainable highway' means a highway which for the purposes of the Highways Act 1980 is maintainable at the public expense; and 'highway authority' has the same meaning as in that Act: New Roads and Street Works Act 1991 s 86(1) (definition as so applied). 'Street managers' means the authority, body or person liable to the public to maintain or repair the street or, if there is none, any authority, body or person having the management or control of the street: s 49(4).

13 Electricity Act 1989 Sch 4 para 1(2) (amended by the New Roads and Street Works Act 1991 Sch 8 para 123(1), (2)). Any question as to whether or not a consent is unreasonably withheld is to be determined by a single arbitrator to be appointed by the parties or, in default of agreement, by the Gas and Electricity Markets Authority ('GEMA'): Electricity Act 1989 Sch 4 para 1(3) (amended by virtue of the Utilities Act 2000 s 3(2)). As to the establishment and general functions of the Gas and Electricity Markets Authority see PARA 708 et seq ante; and as to the use of the abbreviation 'GEMA' in this context see PARA 708 note 5 ante.

14 Electricity Act 1989 Sch 4 para 1(4) (amended by the New Roads and Street Works Act 1991 Sch 8 para 123(1), (3)). The Secretary of State may not entertain an application for his consent unless the licence holder has served notice of the application on the person whose consent would otherwise be required: Electricity Act 1989 Sch 4 para 1(5).

15 As to the duty of undertakers to reinstate the street after the execution of street works see the New Roads and Street Works Act 1991 s 70 (as amended); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 457. See also s 65 (as amended) which lays down requirements as to safety to be observed in the execution of street works; and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 451. As to any right of action by an individual see *Keating v Elvan Reinforced Concrete Co Ltd* [1968] 2 All ER 139, [1968] 1 WLR 722. See also *Pitman v Southern Electricity Board* [1978] 3 All ER 901, CA (metal plate placed over hole and protruding above pavement level a new and unexpected hazard; defendants liable in negligence); *Sullivan v South Glamorgan County Council* (1985) 84 LGR 415, Times, 7 August, CA.

16 Electricity Act 1989 Sch 4 para 1(6).

17 Ibid Sch 4 para 1(7). The Electric Lighting (Clauses) Act 1899 Schedule s 13(3) (repealed) placed a duty on electricity boards to maintain street boxes so as not to be a source of danger, 'whether by reason of inequality of surface or otherwise'. The provision was intended to prevent the principle in *Moore v Lambeth Waterworks Co* (1886) 17 QBD 462, CA, from applying in relation to street boxes (where a structure is lawfully fixed in the highway and is in good repair, no claim by the party injured by it will lie against the defendant undertaker). See also *Thompson v Brighton Corp* [1894] 1 QB 332, CA; and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 397. It appears that this is still good law and that the words 'source of danger to the public' under the Electricity Act 1989 Sch 4 para 1(7) are intended to apply (inter alia) to the upper surface or the covering of apparatus referred to in note 6 supra.

UPDATE

1287 Powers to break up streets etc

NOTES--Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6

(meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iii) Powers to execute Works in Streets/1288. Alteration of works.

1288. Alteration of works.

A licence holder¹ may execute works² notwithstanding that they involve a temporary or permanent alteration of any of the following:

- 3349 (1) any electric line³ or electrical plant⁴ under the control of another licence holder⁵;
- 3350 (2) any gas pipe operated by a gas transporter⁶;
- 3351 (3) any relevant pipe⁷ which (whether or not it is in a street) is under the control of the Environment Agency⁸, a water undertaker⁹ or a sewerage undertaker¹⁰;
- 3352 (4) any electronic communications apparatus used for the purpose of an electronic communications code network operated by a person to whom the electronic communications code applies¹¹; or
- 3353 (5) any system apparatus¹² of a licensed operator¹³ of a driver information system¹⁴.

Where a licence holder proposes to execute works which involve or are likely to involve any such alteration as is mentioned in head (1), head (2) or head (3) above, he must (except in the case of emergency works¹⁵) not less than one month before the works are commenced give the relevant undertaker¹⁶ a notice¹⁷ specifying the nature of the licence holder's works, the alteration or likely alteration involved and the time and place at which the works will be commenced¹⁸. Where a licence holder has given such notice, the relevant undertaker may within seven days beginning with the giving of the notice give the licence holder a counter-notice which may state either that the undertaker intends to make any alterations made necessary or expedient by the proposed works himself or that he requires the licence holder to make any such alteration under his supervision and to his satisfaction¹⁹.

Where such a counter-notice states that the relevant undertaker intends himself to make any alteration, he has the right²⁰, instead of the licence holder, to execute any works for the purpose of making the alteration and any expenses incurred by him in or in connection with the execution of such works and the amount of any loss or damage sustained by him in consequence of the alteration are recoverable from the licence holder in any court of competent jurisdiction²¹. Where a counter-notice states that any alteration is to be made under the supervision of and to the satisfaction of the relevant undertaker, the licence holder must not make any alteration except as required by the notice or where the undertaker fails to make the alteration within the specified period²² and any expenses incurred by the undertaker in or in connection with the supervision and the amount of any loss or damage sustained by him in consequence of the alteration are recoverable from the licence holder in any court of competent jurisdiction²³.

Where:

- 3354 (a) no such counter-notice is given; or
- 3355 (b) the relevant undertaker, having given such a notice, fails to make the alteration made necessary or expedient by the licence holders' proposed works

within such period as is specified²⁴ by the licence holder in a notice or where he unreasonably fails to provide the required supervision,

the licence holder may execute the works for the purpose of making the alteration with or without supervision but in either case the works must be carried out to the satisfaction of the undertaker²⁵.

A licence holder or any of his agents acting on his behalf who executes works without giving the required notice²⁶, or who unreasonably fails to comply with any reasonable requirements of the relevant undertaker, is liable on summary conviction to a fine not exceeding level three on the standard scale²⁷.

Certain persons or bodies²⁸ authorised by or under any enactment to execute street works²⁹ may execute those works notwithstanding that they involve a temporary or permanent alteration of any electric line or electrical plant under the control of a licence holder³⁰, and, in such a case, the provisions relating to the giving of notices, compliance with requirements and other matters³¹ apply with the necessary modifications³².

1 For the meaning of 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 2-32 infra apply see PARA 1286 ante.

2 I.e. works in pursuance of the Electricity Act 1989 s 10(1), Sch 4 para 1 (as amended): see PARA 1287 ante.

3 For the meaning of 'electric line' see PARA 1041 note 5 ante.

4 For the meaning of 'electrical plant' see PARA 1041 note 5 ante.

5 Electricity Act 1989 Sch 4 para 3(1)(a).

6 Ibid Sch 4 para 3(1)(b) (amended by the Gas Act 1995 s 16(1), Sch 4 para 17(1); and by virtue of the Utilities Act 2000 s 76(7)). For the meaning of 'gas transporter' see PARA 805 ante (definition applied by the Electricity Act 1989 Sch 4 para 12 (amended for these purposes by virtue of the Utilities Act 2000 s 76(7))).

7 I.e. within the meaning of the Water Resources Act 1991 s 159 (as amended) or the Water Industry Act 1991 s 158 (as amended): see WATER AND WATERWAYS vol 101 (2009) PARA 462 note 4.

8 As to the Environment Agency see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq. As to consents required to carry out works in the vicinity of flood defences see the Water Resources Act 1991 s 109 (as amended); the Land Drainage Act 1991 ss 66, 67 (as amended); and WATER AND WATERWAYS vol 101 (2009) PARAS 576, 603, 605-607.

9 As to water undertakers see WATER AND WATERWAYS vol 100 (2009) PARAS 134 et seq, 318 et seq.

10 Electricity Act 1989 Sch 4 para 3(1)(c) (amended by the Water Consolidation (Consequential Provisions) Act 1991 s 2(1), Sch 1 para 51(2)). As to sewerage undertakers see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 999 et seq.

11 Electricity Act 1989 Sch 4 para 3(1)(d) (amended by the Communications Act 2003 s 406(1), Sch 17 para 99(1), (2)). Where a licence holder is proposing to execute works involving a temporary or permanent alteration of any electronic communications apparatus, the provisions of the Telecommunications Act 1984 s 10, Sch 2 para 23(1) (as amended) apply: see the Electricity Act 1989 s 112(1), Sch 16 para 1(6).

12 I.e. a 'system apparatus' within the meaning of the Road Traffic (Driver Licensing and Information Systems) Act 1989 Pt II (ss 8-15) (as amended) (see ROAD TRAFFIC vol 40(2) (2007 Reissue) PARA 651): Electricity Act 1989 Sch 4 para 3(1)(e).

13 I.e. an operator of a driver information system licensed under the Road Traffic (Driver Licensing and Information Systems) Act 1989 Pt II (as amended): Electricity Act 1989 Sch 4 para 3(1)(e).

14 Ibid Sch 4 para 3(1)(e).

15 In relation to any emergency works, the licence holder must give the relevant undertaker notice as soon as practicable after commencing the works: *ibid* Sch 4 para 3(4). For the meaning of 'the relevant undertaker' see note 16 *infra*.

16 'The relevant undertaker' means the other licence holder, the gas transporter or the person supplying water in the exercise of statutory powers, as the case may be: Electricity Act 1989 Sch 4 para 3(2) (amended by virtue of the Utilities Act 2000 s 76(7)).

17 For the meaning of 'notice' see PARA 1047 note 11 *ante*. As to the service of notices see PARA 1307 *post*.

18 Electricity Act 1989 Sch 4 para 3(2)-(4) (as amended: see note 16 *supra*). As to the position where a licence holders' apparatus is affected by highway, bridge or transport works see the New Roads and Street Works Act 1991 ss 83-85 (as amended); and HIGHWAYS, STREETS AND BRIDGES.

19 Electricity Act 1989 Sch 4 para 3(5).

20 *Ie* subject to *ibid* Sch 4 para 3(8): see the text and notes 24-26 *infra*.

21 See *ibid* Sch 4 para 3(6).

22 *Ie* where *ibid* Sch 4 para 3(8) applies: see the text and notes 24-25 *infra*.

23 *Ibid* Sch 4 para 3(7).

24 The period specified must not be less than 48 hours: *ibid* Sch 4 para 3(8)(b).

25 See *ibid* Sch 4 para 3(8).

26 *Ie* a notice under *ibid* Sch 4 para 3(3): see the text and notes 15-18 *supra*.

27 *Ibid* Sch 4 para 3(9). As to the standard scale see PARA 613 note 11 *ante*.

28 *Ie* the persons or bodies set out in *ibid* Sch 4 para 4(1)(a)-(d) (as amended). Those persons and bodies are (1) any gas transporter; (2) the Environment Agency, any water undertaker or any sewerage undertaker; (3) any electronic communications code operator or former public telecommunications operator; and (4) any operator of a driver information system who is licensed under the Road Traffic (Driver Licensing and Information Systems) Act 1989 Pt II (as amended); and for these purposes, those persons and bodies are referred to as 'relevant undertakers': Electricity Act 1989 Sch 4 para 4(1) (amended by the Environment Act 1995 s 120, Sch 22; the Communications Act 2003 s 406(1), Sch 17 para 99(1), (3); and by virtue of the Utilities Act 2000 s 76(7)).

29 *Ie* any works corresponding to those authorised by the Electricity Act 1989 Sch 4 para 1 (as amended) (see PARA 1287 *ante*): Sch 4 para 4(1), (2).

30 *Ibid* Sch 4 para 4(1).

31 *Ie* the provisions of *ibid* Sch 4 para 3(3)-(9): see the text and notes 15-27 *supra*.

32 *Ibid* Sch 4 para 4(2). The provisions of Sch 4 para 3(3)-(9) apply as if (1) any reference to the licence holder were a reference to the relevant undertaker; and (2) any reference to the relevant undertaker were a reference to the licence holder: Sch 4 para 4(2)(a), (b).

UPDATE

1288 Alteration of works

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iii) Powers to execute Works in Streets/1289. Protection of electronic communications apparatus.

1289. Protection of electronic communications apparatus.

A licence holder¹ who installs or alters, or changes the mode of operation of, any electric line² or electrical plant³ is under a duty to take reasonable precautions for securing that the operation of the line or plant does not interfere with the operation of any electronic communications apparatus which is under the control of a person to whom the electronic communications code⁴ applies and which is not unusually sensitive to interference with its operation⁵. However, in the case of any electronic communications apparatus which is subsequently installed or altered or whose mode of operation is subsequently changed, this duty does not apply in relation to (1) any momentary interference⁶ with its operation; or (2) where it is installed in unreasonably close proximity to the electric line or plant, any other interference with its operation⁷.

The above provisions are to be read as also applying in the converse case of a person to whom the electronic communications code applies who installs or alters, or changes the mode of operation of, any electronic communications apparatus, and, in such a case, are to have effect as if (a) any reference to a licence holder were a reference to that person; (b) any reference to an electric line or electrical plant were a reference to such apparatus; and (c) any reference to such apparatus under the control of a person to whom the code applies were a reference to the line or plant under the control of the licence holder⁸.

Any dispute arising between the parties must be referred to arbitration by an arbitrator and, in default of agreement between the parties, the arbitrator must be appointed by the President of the Chartered Institute of Arbitrators⁹.

1 For the meaning of 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 2-9 infra apply see PARA 1286 ante.

2 For the meaning of 'electric line' see PARA 1041 note 5 ante.

3 For the meaning of 'electrical plant' see PARA 1041 note 5 ante.

4 As to the electronic communications code see TELECOMMUNICATIONS vol 97 (2010) PARA 151 et seq.

5 Electricity Act 1989 s 10(1) (as amended), Sch 4 para 5(1) (Sch 4 para 5 amended by the Communications Act 2003 s 406(1), Sch 17 para 99(1), (2)).

6 For these purposes, 'momentary interference' means any interference of momentary duration which is not a regular occurrence, whether caused by physical contact or otherwise: Electricity Act 1989 Sch 4 para 5(5).

7 Ibid Sch 4 para 5(2) (as amended: see note 5 supra).

8 Ibid Sch 4 para 5(3) (as amended: see note 5 supra).

9 Ibid Sch 4 para 5(4) (as amended: see note 5 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iii) Powers to execute Works in Streets/1290. Application of the New Roads and Street Works Act 1991.

1290. Application of the New Roads and Street Works Act 1991.

The New Roads and Street Works Act 1991 provides a nationally applicable and uniform set of provisions for the execution by undertakers¹ of works in streets² and for the protection of authorities, bodies and persons having the control or management of streets or sewers, drains or tunnels, transport undertakings or bridges³. Those provisions apply equally to all street works whether they are carried out in pursuance of a statutory right or of a street works licence⁴ and, subject to such exceptions and adaptations as may be prescribed, they are as relevant to private streets as they are to publicly-maintainable highways⁵. The relevant provisions are dealt with elsewhere in this work⁶.

1 'Undertaker' in relation to street works means the person by whom the relevant statutory right is exercisable (in the capacity in which it is exercisable by him) or the licensee under the relevant street works licence: see the New Roads and Street Works Act 1991 s 48(4). 'Statutory right' means a right, whether expressed as a right, a power or otherwise, conferred by an enactment, whenever passed or made, other than a right exercisable by a street works licence: s 105(1). The rights of licence holders under the Electricity Act 1989 s 10(1), Sch 4 para 1 (as amended) (see PARA 1287 ante) to execute works thus come within this definition; and such licence holders are undertakers for these purposes. For the meaning of 'licence holder' see PARA 1041 note 12 ante.

2 For the meaning of 'street' see *ibid* s 48(1); and PARA 1287 note 3 ante.

3 See *ibid* Pt III (ss 48-106) (as amended); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 406 et seq.

4 As to street works licences see *ibid* s 50; and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 414.

5 See *ibid* s 48(2); and HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 407.

6 See HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 406 et seq.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iii) Powers to execute Works in Streets/1291. Injury to apparatus by traffic.

1291. Injury to apparatus by traffic.

If the wires and apparatus of an electricity undertaker properly laid in a highway are injured by traffic of excessive weight on the highway, the undertaker has a cause of action against those responsible for the traffic¹, and has a similar cause of action in case of injury due to misfeasance on the part of the highway authority in repairing the highway².

1 See *Chichester Corpn v Foster* [1906] 1 KB 167, DC; *Armagh Union Guardians v Bell* [1900] 2 IR 371.

2 See *Gas Light and Coke Co v St Mary Abbott's, Kensington, Vestry* (1885) 15 QBD 1, CA; and *Alliance and Dublin Consumers' Gas Co v Dublin County Council* [1901] 1 IR 492, CA. See further HIGHWAYS, STREETS AND BRIDGES vol 21 (2004 Reissue) PARA 325.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iv) Wayleaves over Private Land/1292. Power to place lines on private land.

(iv) Wayleaves over Private Land

1292. Power to place lines on private land.

Where it is necessary or expedient, for any purpose connected with the carrying on of the activities which he is authorised by his licence¹ to carry on, for a licence holder²:

- 3356 (1) to install and keep installed an electric line³ on, under or over any land⁴ and the owner or occupier⁵ of that land, after being given a notice⁶ requiring him to give the necessary wayleave⁷ within a specified period⁸, has either failed to give the necessary wayleave before the expiration of that period or has given the wayleave subject to terms and conditions to which the licence holder objects⁹; or
- 3357 (2) to keep an electric line installed on, under or over any land and the owner or occupier of that land has given notice¹⁰ requiring him to remove the electric line¹¹,

the following provisions apply¹². The Secretary of State¹³ may, on the application of the licence holder, himself grant the necessary wayleave subject to such terms¹⁴ and conditions as he thinks fit¹⁵. A wayleave so granted continues in force, unless previously terminated in accordance with a term in the wayleave, for such period as may be specified in the wayleave¹⁶. The Secretary of State may not, however, entertain an application for such a consent in any case where the land is covered by a dwelling¹⁷ and the line is to be installed on or over the land¹⁸. Before granting the necessary wayleave, the Secretary of State must give the occupier of the land and, where the occupier is not also the owner of the land, the owner, the opportunity of being heard by a person appointed by the Secretary of State¹⁹.

Where a wayleave is granted to a licence holder under the above provisions, the occupier of the land and, where the occupier is not also the owner of the land, the owner may recover compensation in respect of the grant²⁰.

Where in the exercise of any right conferred by a wayleave, any damage is caused to land or movables²¹, any person having an interest in the land or movables may recover compensation²² in respect of such damage and where, in consequence of the exercise of such a right, a person is disturbed in his enjoyment of any land or movables, he may recover compensation in respect of that disturbance²³.

1 For the meaning of 'licence' see PARA 1041 note 12 ante.

2 For the meaning of 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 3-23 infra apply see the Electricity Act 1989 s 10(1) (as amended); and PARAS 1282, 1286 ante.

3 For the meaning of 'electric line' see PARA 1041 note 5 ante. Where a licence holder makes an application to the Secretary of State for his consent for the installation of an overhead electric line and, for a purpose connected with the proposed installation of the line, makes one or more of the following: (1) a compulsory purchase order (see PARAS 1281-1284 ante); (2) an application to the Secretary of State for the necessary wayleave (see the text and notes 4-23 infra); and (3) a reference to him in respect of felling and lopping of trees (see PARA 1295 post), the proceedings in respect of these matters may (so far as is practicable) be taken concurrently with the proceedings required under *ibid* s 36(8), Sch 8 (as amended): see s 61 (as amended); and

PARA 1298 post. As to concurrent proceedings in connection with an application for a necessary wayleave and a reference in respect of felling and lopping of trees see PARA 1295 post.

As to the procedure for obtaining consent to the placing of an overhead line see Sch 8 (as amended); and PARA 1260 et seq ante. As to the special provisions in connection with consents granted under s 37 (ie where an application for such consent is made and that application states that all necessary wayleaves have not been agreed with owners and occupiers of land proposed to be crossed by the electric line) see Sch 8 para 6; and PARA 1274 ante.

4 On the true construction of ibid Sch 4 para 6, the word 'land' includes installations or equipment attached to the land, and the phrase 'on, under or over ... land' includes 'through installations or equipment' on that land: *British Waterways Board v London Power Networks plc* [2002] EWHC 2417 (Ch), [2003] 1 All ER 187, [2003] 1 EGLR 111 (Secretary of State had power to grant a wayleave through a service tunnel). The expression 'land' used in connection with wayleaves for overhead lines must be taken to include the airspace above the ground: see note 7 infra.

5 As to the meaning of 'occupier' see PARA 1094 note 6 ante.

6 For the meaning of 'notice' see PARA 1047 note 11 ante. As to the requirement to serve a notice and the contents thereof see the Acquisition of Land Act 1981 ss 11, 12 (as amended); and COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARAS 559, 560. As to the service of notices generally see PARA 1307 post.

7 For these purposes, 'the necessary wayleave' means (1) in a case falling within head (1) in the text, consent for the licence holder to install and keep installed the electric line on, under or over the land and to have access to the land for the purpose of inspecting, maintaining, adjusting, repairing, altering, replacing or removing the electric line (Electricity Act 1989 s 10(1), Sch 4 para 6(1)); and (2) in a case falling within head (2) in the text, consent for the licence holder to keep the electric line installed on, under or over the land and to have access to the land for the purpose of inspecting, maintaining, adjusting, repairing, altering, replacing or removing the electric line (Sch 4 para 6(2)). A necessary wayleave granted under Sch 4 para 6 is not subject to the provisions of any enactment requiring the registration of interests in, charges over or any other obligation affecting the land but it binds any person who is at any time the owner or occupier of the land: Sch 4 para 6(6).

Where in pursuance of a wayleave granted under Sch 4 para 6, a licence holder has erected on any land supports for an electric line, he is deemed to have an interest in that land for the purposes of the Mines (Working Facilities and Support) Act 1966 s 7 (as amended) (see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 390): Electricity Act 1989 Sch 4 para 6(7).

Subject to the special provisions with regard to mines and minerals, it seems that the rights conferred by a necessary wayleave give a licence holder not an interest in land but simply a right of occupation: see *Newcastle-Under-Lyme Corp v Wolstanton Ltd* [1947] Ch 427 at 456-457, [1947] 1 All ER 218 at 223-224, CA (a case relating to gas pipes), where it was held that the local authority's exclusive right of occupation was limited to the space in the soil taken up by its pipes and so did not apply to any part of the soil on which the pipes rested; that therefore the only right to support for its pipes ever enjoyed by the authority was the implied right of support for the pipes themselves, as distinct from the right of support enjoyed by the owner of the soil, arising, on the principle in *Normanton Gas Co v Pope and Pearson Ltd* (1883) 52 LQB 629, CA, and *Re Dudley Corp* (1881) 8 QBD 86, CA, out of the exercise of the authority's statutory powers to lay the pipes. See also *London and North Western Ry Co v Evans* [1893] 1 Ch 16, CA; and EASEMENTS AND PROFITS A PRENDRE vol 16(2) (Reissue) PARA 180 et seq. On that basis it appears that where electric lines are laid under the authority of a right conferred by a wayleave, a licence holder has the following rights: (a) where the line is underground, the exclusive right to occupy the space in the soil taken by the electric line; and (b) where the line is above ground, the right to occupy the airspace taken by the line and the right to occupy the surface of the land on which supports for the line are placed.

In *Central Electricity Generating Board v Jennaway* [1959] 3 All ER 409, [1959] 1 WLR 937 it was held that the power to place an electric line above ground conferred by the Electricity (Supply) Act 1919 s 22 (repealed) implied a power to place supports for the line, but some doubt was thrown on this proposition by *Sovmots Investments Ltd v Secretary of State for the Environment* [1979] AC 144, [1977] 2 All ER 385, HL (a case concerning a housing authority's ancillary rights over adjacent land). Since 'electric line' is now defined under the Electricity Act 1989 s 64(1) (as amended) as including any supports for such a line, the matter is put beyond doubt.

As to transitional provisions relating to wayleaves see s 112(3), Sch 17 para 9.

8 The period specified must not be less than 21 days: ibid Sch 4 para 6(1)(b).

9 Ibid Sch 4 para 6(1).

10 Ie under ibid Sch 4 para 8(2): see PARA 1294 post.

11 Ibid Sch 4 para 6(2).

12 Ibid Sch 4 para 6(1), (2).

13 As to the Secretary of State see PARA 601 note 1 ante.

14 In *West Midlands Joint Electricity Authority v Pitt, Minister of Transport v Pitt* [1932] 2 KB 1, CA, the expression 'terms' in the Electricity (Supply) Act 1919 s 22(1) (repealed) was held not to include pecuniary terms.

15 Electricity Act 1989 Sch 4 para 6(3). As to the discretionary nature of this power see *British Waterways Board v London Power Networks plc* [2002] EWHC 2417 (Ch), [2003] 1 All ER 187, [2003] 1 EGLR 111.

16 Electricity Act 1989 Sch 4 para 6(3).

17 This restriction also applies where the land will be covered by a dwelling on the assumption that any planning permission under the Town and Country Planning Act 1990 Pt III (ss 55-106B) (as amended: see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 217 et seq) which is in force is acted on: Electricity Act 1989 Sch 4 paras 6(4)(a), 12 (Sch 4 para 12 amended for these purposes by the Planning (Consequential Provisions) Act 1990 s 4, Sch 2 para 83(1)). For these purposes, 'dwelling' means a building or part of a building occupied, or (if not occupied) last occupied or intended to be occupied, as a private dwelling, and includes any garden, yard, outhouses and appurtenances belonging to or usually enjoyed with that building or part: Electricity Act 1989 Sch 4 para 6(8). The 'root idea' of a garden is that it is 'a substantially homogenous area, substantially devoted to the growth of fruits, flowers and vegetables': see *Bomford v Osborne* [1942] AC 14 at 40, [1941] 2 All ER 426 at 442, HL, per Lord Wright. Where there is a cultivated garden which is separated from an adjoining piece of rough pasture, the rough pasture cannot be regarded as part of the garden: *Methuen-Campbell v Walters* [1979] QB 525, [1979] 1 All ER 606, CA; considered in the context of the Town and Country Planning Act 1990 in *George Wimpey UK Ltd v First Secretary of State* [2004] EWHC 2419 (Admin), [2005] 2 P & CR 524, [2004] All ER (D) 139 (Sep); *McAlpine v Secretary of State for the Environment* [1995] 1 PLR 16, (1994) 159 LG Rev 429; *Skerritts of Nottingham Ltd v Secretary of State for the Environment, Transport and the Regions* (1999) 78 P & CR 410, [2000] 2 PLR 102.

Where a licence holder wishes to place an electric line over a house or garden and the owner or occupier refuses, he will have to proceed by way of compulsory purchase (see the Electricity Act 1989 s 10(1), Sch 3 (as amended); and PARA 1283 et seq ante) thus bringing into play the Compulsory Purchase Act 1965 (as modified) which would, in certain circumstances, give the landowner the option to require the licence holder to purchase the entire house or garden (see PARA 1284 ante).

18 Electricity Act 1989 Sch 4 para 6(4). The restriction in Sch 4 para 6(4) does not, however, apply to the replacement of an existing electric line: *R v Secretary of State for Trade and Industry, ex p Wolf* (1997) 79 P & CR 299, CA.

19 Ibid Sch 4 para 6(5). For the prescribed procedure for such hearings see PARA 1293 post.

20 Ibid Sch 4 para 7(1).

21 'Movables' means chattels: ibid Sch 4 para 12.

22 Compensation may be recovered as a lump sum or by periodical payments or partly in one way and partly in the other: ibid Sch 4 para 7(3). Any question of disputed compensation is to be determined by the Lands Tribunal and the Land Compensation Act 1961 s 2 (as amended), s 4 apply to any such determination: Electricity Act 1989 Sch 4 paras 7(4), 12. See COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 715 et seq. As to the principles to be applied in determining compensation see *Welford v EDF Energy Networks (LPN) Ltd* [2007] EWCA Civ 293, [2007] RVR 172, [2007] All ER (D) 26 (Apr) (once the owner of the land has a business in existence, has made the investment in the land on which that business is to be carried out and has commenced work in connection with the business on it, the business has a sufficient relationship to the land for the land to have a special value to the owner arising out of that business so that compensation for the loss occasioned by its disturbance may be recoverable, even though the land is not yet being used for the business); and see *Macleod v National Grid Co plc* [1998] 2 EGLR 217, Lands Tribunal. See also *Radnor Trust Ltd v Central Electricity Generating Board* (1961) 12 P & CR 111, [1961] RVR 9, where costs reasonably incurred by the claimants after delivery of the claim but before referring the claim to the Lands Tribunal were held to fall within the basis of the decisions in *LCC v Tobin* [1959] 1 All ER 649, [1959] 1 WLR 354, CA (where legal and accountancy fees were recoverable as compensation), and *Harvey v Crawley Development Corp'n* [1957] 1 QB 485, [1957] 1 All ER 504, CA (where costs incurred by reason of the compulsory purchase were recoverable provided that they were not too remote), and to be recoverable from the Board as compensating authority). There is, however, no power to award costs after a wayleave hearing (as to which see PARA 1293 post): *R v Department of Trade and Industry, ex p Healaugh Farms* (1995) 72 P & CR 1, (1995) Times, 27 December. As to compensation for interference with land with development potential see also *Christian Salvesen (Properties) Ltd v Central Electricity Generating Board* (1984) 48 P & CR 465, where it was held that payment for a wayleave for an overhead line and its supports precluded the payment of additional compensation when successors in title to

the land were refused planning permission for residential development because of the line; the terms of the rights of the parties were governed exclusively by the deed of grant. Cf *Mayclose Ltd v Central Electricity Generating Board* [1987] RVR 268, [1987] 2 EGLR 18, CA. At the time the deed of grant was made, it was intended to encompass the whole of the relationship between the parties to it; it followed that any potential rights to compensation were excluded: see *Allen v South Eastern Electricity Board* [1988] 1 EGLR 171, CA. See also *Clouds Estate Trustees v Southern Electricity Board* [1983] RVR 184 (method for calculating proper annual rent for wayleaves).

23 Electricity Act 1989 Sch 4 para 7(2).

UPDATE

1292 Power to place lines on private land

NOTE 22--See also *Welford v EDF Energy Networks (LPN) plc* [2009] RVR 10. Reference to the Lands Tribunal is now to the Upper Tribunal; Land Compensation Act 1961 s 2 omitted: Electricity Act 1989 Sch 4 paras 7(4), 12 (amended by SI 2009/1307).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iv) Wayleaves over Private Land/1293. Procedure before grant of consent by Secretary of State.

1293. Procedure before grant of consent by Secretary of State.

On receipt of an application for his consent to the placing of an electric line¹ across land², the Secretary of State³ must fix a date, time and place for the hearing and notice⁴ of them must be given to every objector⁵ and to the licence holder⁶.

The licence holder must serve on each objector, no later than 14 days before the date of the hearing⁷, a written statement of his reasons for the proposed placing of the electric line and must supply a copy of the statement to the Secretary of State⁸; and where a government department has expressed in writing to the licence holder a view in support of the proposed placing of the electric line and the licence holder proposes to rely on that expression of view in its submissions at the hearing, the licence holder must include it in the statement and send a copy of the statement to the government department concerned⁹.

The licence holder may appear at the hearing by any of his officers appointed for the purpose or by counsel or solicitor, and an objector may appear on his own behalf or be represented by counsel, solicitor or any other person¹⁰. Any objector may, not later than seven days before the date of the hearing, apply in writing to the Secretary of State for a representative of any government department which has expressed a view on which the licence holder proposes to rely to be made available at the hearing¹¹. Any such application must be transmitted to the government department concerned which must make a representative so available¹².

Subject to the following provisions, the procedure at the hearing is determined at the discretion of the appointed person¹³. The hearing must take place in public unless the licence holder or any objector requests that it be held in private¹⁴. The licence holder begins and has the right of final reply, unless in any particular case the appointed person determines otherwise with the consent of the licence holder¹⁵; and the objectors are heard in such order as the appointed person may determine¹⁶. Evidence may be admitted at the discretion of the appointed person but he must not require or permit the giving or production of any evidence which would be contrary to the public interest¹⁷. If any objector does not appear at the hearing, the appointed person may at his discretion proceed with the hearing and, if he does so, he must take into account any previous written representations of that objector in so far as they appear to him to be proper and relevant to the matters in issue¹⁸.

The appointed person may from time to time adjourn the hearing and, if the date, time and place of the adjourned hearing are announced before the adjournment, no further notice is required¹⁹. He may make an unaccompanied inspection of the land before, during or after the hearing without giving notice of his intention to any person entitled to appear at the hearing²⁰ and must make an inspection after the close of the hearing if he is requested to do so by the licence holder or any objector before or during the hearing²¹. In the latter case he must announce during the hearing the date and time of the inspection²².

After the close of the hearing, the appointed person must make a report in writing to the Secretary of State which must include his findings of fact and recommendations, if any, or his reasons for not making any recommendations²³. Where the Secretary of State differs from the appointed person on a finding of fact, or receives any new evidence after the hearing, or takes into consideration any new issue of fact other than a matter of government policy, and is thereby disposed to disagree with a recommendation made by the appointed person, he may

not come to a decision without first notifying the licence holder and any objector who appeared at the hearing of his disagreement and the reasons for it and affording them an opportunity to make representations in writing within 21 days or, if he has received new evidence or taken into consideration any new issue of fact, of asking within 21 days for the hearing to be reopened²⁴. If he thinks fit, the Secretary of State may in any case cause the hearing to be reopened, and he must cause it to be reopened if asked to do so in accordance with the above provisions²⁵.

The Secretary of State must notify his decision, and his reasons for it, in writing to the licence holder and the objectors; and where a copy of the appointed person's report²⁶ is not sent with the notification, the notification must be accompanied by a summary of the appointed person's conclusions and recommendations²⁷.

1 For the meaning of 'electric line' see PARA 1041 note 5 ante.

2 Ie an application for consent under the Electricity Act 1989 s 10(1), Sch 4 para 6(3): see PARA 1292 ante.

3 The Electricity (Compulsory Wayleaves) (Hearings Procedure) Rules 1967, SI 1967/450, refer throughout to the 'Minister of Power' but this is now to be construed as a reference to the Secretary of State: see PARA 601 ante.

4 At least 21 days' notice must be given: *ibid* r 4(1).

5 'Objector' means an owner or occupier of the land or any part of it who has failed to give his consent to the placing of the electric line or who has attached to his consent any terms, conditions or stipulations to which the licence holder objects: *ibid* r 3(1). The Electricity (Compulsory Wayleaves) (Hearings Procedure) Rules 1967, SI 1967/450, refer throughout to an 'electricity authority' (ie the former Central Electricity Generating Board or a former area board: see PARA 1033 ante); but by virtue of the Electricity Act 1989 (Consequential Modifications of Subordinate Legislation) Order 1990, SI 1990/526, art 2, Schedule, such references are now to be construed as references to a licence holder. For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante.

6 Electricity (Compulsory Wayleaves) (Hearings Procedure) Rules 1967, SI 1967/450, r 4(1); Interpretation Act 1978 s 17(2). The date, time and place may be varied by the Secretary of State on reasonable notice; and the period of notice may be shorter than that prescribed with the written consent of the parties: see the Electricity (Compulsory Wayleaves) (Hearings Procedure) Rules 1967, SI 1967/450, r 4(1)(i), (ii).

7 A later date may be specified where a shorter period of notice was given under *ibid* r 4(1)(i): see r 4(2).

8 *Ibid* r 4(2). The statement must be accompanied by a list of any documents (including maps, photographs and plans) which the licence holder intends to refer to or put in evidence: see r 4(4). Every objector must be afforded a reasonable opportunity to inspect and take copies of the documents where practicable: r 4(4).

9 *Ibid* r 4(3).

10 *Ibid* r 5(1). Where there are two or more objectors having a similar interest, joint representation may be allowed: see r 5(2).

11 *Ibid* r 6(1).

12 *Ibid* r 6(2). At the hearing, the representative must state the reasons for the department's view and may give evidence and be cross-examined, but may not be required to answer any questions directed to the merits of government policy: see r 6(3).

13 *Ibid* r 7(1). The 'appointed person' means the person appointed by the Secretary of State to hold the hearing: r 3(1).

14 *Ibid* r 7(2).

15 *Ibid* r 7(3).

16 *Ibid* r 7(3). The licence holder and the objectors are entitled to call evidence and cross-examine persons giving evidence: r 7(4).

17 See *ibid* r 7(5). The appointed person may allow the licence holder to alter or add to the reasons contained in his statement or any list of documents, but must give every objector an adequate opportunity of considering any alterations or additions: see r 7(6).

18 *Ibid* r 7(7).

19 *Ibid* r 7(8).

20 *Ibid* r 8(1). 'The land' means the land across which consent to place an electric line is sought: r 3(1).

21 *Ibid* r 8(2).

22 *Ibid* r 8(2). The licence holder and the objectors are entitled to accompany the appointed person on any inspection held as a result of such a request, but if any such person is not present at the time appointed the inspection need not be deferred: see r 8(3).

23 *Ibid* r 9(1).

24 *Ibid* r 9(2).

25 *Ibid* r 9(3). If the hearing is reopened r 4(1) (see the text and notes 1-6 *supra*) applies as it applies to the original hearing: r 9(3).

26 For these purposes, 'report' does not include documents, maps, photographs or plans appended to the report but any person entitled to a copy of the report must be afforded an opportunity of inspecting such documents etc if he so wishes: *ibid* r 10(3).

27 *Ibid* r 10(1). If any person so entitled to be notified has not received a copy of the appointed person's report, he must be supplied with one on written application to the Secretary of State within one month from the date on which he is notified of the decision: r 10(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(iv) Wayleaves over Private Land/1294. Temporary continuation of wayleaves.

1294. Temporary continuation of wayleaves.

Where at any time a necessary wayleave¹, whether granted by the Secretary of State² in exercise of the powers conferred on him³ or by agreement between the parties:

- 3358 (1) is determined by the expiration of the period specified in the wayleave;
- 3359 (2) is terminated by the owner or occupier⁴ of the land⁵ in accordance with a term in the wayleave; or
- 3360 (3) ceases to be binding on the owner or occupier by reason of a change in the ownership or occupation of the land following the grant of the wayleave,

the owner or occupier of the land may give to the licence holder⁶ a notice⁷ requiring him to remove the electric line⁸ from the land⁹. The licence holder is not, however, obliged to comply with such a notice except in the following circumstances and to the following extent¹⁰.

Where within the period of three months beginning with the date of the notice requesting the removal of the electric line, the licence holder makes neither an application for the grant of the necessary wayleave¹¹ nor an order authorising the compulsory purchase of the land¹², the licence holder must comply with the notice requesting removal at the end of that three-month period¹³. Where within that period the licence holder:

- 3361 (a) makes an application for the grant of the necessary wayleave and the application is refused by the Secretary of State¹⁴; or
- 3362 (b) makes an order authorising the compulsory purchase of the land¹⁵ and that order is not confirmed by the Secretary of State¹⁶,

the licence holder must comply with the notice at the end of the period of one month beginning with the date of the Secretary of State's decision or such longer period as the Secretary of State may specify¹⁷.

1 Ie such a wayleave as is mentioned in the Electricity Act 1989 s 10(1) (as amended), Sch 4 para 6 (see PARA 1292 ante); Sch 4 para 8(1). For the meaning of 'necessary wayleave' see PARA 1292 note 7 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Ie the powers conferred by the Electricity Act 1989 Sch 4 para 6: see PARA 1292 ante.

4 As to the meaning of 'occupier' see PARA 1094 note 6 ante.

5 The expression 'land' used in connection with wayleaves for overhead lines must be taken to include the airspace above the ground: see PARA 1292 note 7 ante.

6 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 1-5 supra, 7-17 infra apply see the Electricity Act 1989 s 10(1) (as amended); and PARAS 1282, 1286 ante.

7 The periods specified for the owner or occupier to give the licence holder notice to remove the line are as follows: (1) in a case falling within head (1) in the text, at any time after or within three months before the end of that period specified in the wayleave; (2) in a case falling within head (2) in the text, at any time after the

termination of the wayleave; and (3) in a case falling within head (3) in the text, at any time after the change in ownership or occupation takes place: Electricity Act 1989 Sch 4 para 8(2)(a)-(c).

8 For the meaning of 'electric line' see PARA 1041 note 5 ante.

9 Electricity Act 1989 Sch 4 para 8(1), (2).

10 Ibid Sch 4 para 8(2).

11 Ie under ibid Sch 4 para 6: see PARA 1292 ante.

12 Ie an order made by virtue of ibid s 10(1) (as amended), Sch 3 para 1: see PARA 1283 ante.

13 Ibid Sch 4 para 8(3).

14 See ibid Sch 4 para 8(4)(a), (b).

15 See note 12 supra.

16 See the Electricity Act 1989 Sch 4 para 8(5)(a), (b).

17 Ibid Sch 4 para 8(4), (5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(v) Removing Obstructions/1295. Felling or lopping of trees etc.

(v) Removing Obstructions

1295. Felling or lopping of trees etc.

Where any tree¹ is or will be in such close proximity to an electric line² or electrical plant³ which is kept installed or is being or is to be installed by a licence holder⁴ as:

- 3363 (1) to obstruct or interfere with the installation, maintenance or working of the line or plant; or
- 3364 (2) to constitute an unacceptable source of danger whether to children or other persons,

the licence holder may give notice⁵ to the occupier⁶ of the land⁷ requiring him to fell or lop⁸ the tree or cut back its roots so as to prevent it from having the effects mentioned, subject to the payment to him of the expenses reasonably incurred by him in complying with the notice⁹.

If within 21 days from the giving of the notice, the requirements of the notice are not complied with and neither the owner nor occupier gives a counter-notice¹⁰, the licence holder may carry out the necessary work himself¹¹.

Where, within that 21 days' period, the owner or occupier gives a counter-notice objecting to the requirements of the notice, the matter must be referred to the Secretary of State¹² who, after giving the parties an opportunity of being heard by a person appointed by him, may make such order as he thinks just¹³. The order may empower the licence holder (after giving such notice to the person who gave the counter-notice as the order may direct) to do the work himself and may determine any question as to what expenses, if any, are to be paid¹⁴.

In exercising the powers conferred by the order, the licence holder must:

- 3365 (a) cause trees to be felled or lopped or their roots to be cut back in accordance with good arboricultural practice and so as to do as little damage as possible to trees, fences, hedges and growing crops;
- 3366 (b) cause the felled trees, lopped boughs or root cuttings to be removed in accordance with the directions of the owner or occupier; and
- 3367 (c) make good any damage done to the land¹⁵.

Where in the exercise of any such power any damage is caused to land or movables¹⁶, any person interested in the land or movables may recover compensation in respect of that damage from the licence holder on whose behalf the power is exercised; and where in consequence of the exercise of such a power a person is disturbed in his enjoyment of any land or movables he may recover from that licence holder compensation in respect of that disturbance¹⁷.

Any person who intentionally obstructs a person acting in exercise of any power conferred under the above provisions is liable on summary conviction to a fine not exceeding level 3 on the standard scale¹⁸.

Where for a purpose connected with the proposed installation of an electric line¹⁹, a licence holder makes an application to the Secretary of State for the necessary wayleave²⁰ and a reference in respect of the felling and lopping of trees, those proceedings may (so far as is practicable) be taken concurrently²¹.

1 'Tree' includes any shrub and references to felling or lopping, felled trees or lopped boughs are to be construed accordingly: Electricity Act 1989 s 10(1) (as amended), Sch 4 para 9(8).

2 For the meaning of 'electric line' see PARA 1041 note 5 ante. See also the Electricity Safety, Quality and Continuity Regulations 2002, SI 2002/2665, reg 18(5) (every overhead line must be so placed that it must not, so far as is reasonably practicable, come so close to any building, tree or structure as to cause danger); and PARA 1167 ante.

See also *Buckland v Guildford Gas Light and Coke Co* [1949] 1 KB 410, [1948] 2 All ER 1086 (undertaking which had installed high voltage electric wires across a field over the top of trees held liable for the death of a girl aged 13 who had climbed a tree unaware of the existence of the electric line); *Pye v Isaacs and South Western Electricity Board* (10 June 1958, unreported) (held at Devon Assizes before Hilbery J) (defendant liable for injuries received by an orchard worker bringing an aluminium ladder into contact with overhead electric lines).

3 For the meaning of 'electrical plant' see PARA 1041 note 5 ante.

4 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 5-22 infra apply see the Electricity Act 1989 s 10(1) (as amended); and PARAS 1282, 1286 ante.

5 For the meaning of 'notice' see PARA 1047 note 11 ante. As to the service of notices see PARA 1307 post.

6 Where the occupier is not also the owner of the land, a copy of any notice must be served on the owner: Electricity Act 1989 Sch 4 para 9(3). As to the meaning of 'occupier' see PARA 1094 note 6 ante.

7 'Land' in this context means the land on which the tree is growing: see *ibid* Sch 4 para 9(1).

8 'Power to lop' authorises the cutting of the lateral branches of a tree but not of the top: see *Unwin v Hanson* [1891] 2 QB 115, CA. As to tree preservation orders see TOWN AND COUNTRY PLANNING vol 46(2) (Reissue) PARA 847 et seq. The Town and Country Planning Act 1990 imposes no restrictions on making tree preservation orders over land owned by statutory undertakers, but there is power to exempt trees belonging to specified persons or bodies from the provisions relating to the preservation of trees in conservation areas: see s 212(2); and TOWN AND COUNTRY PLANNING vol 46(2) (Reissue) PARA 878. Where provision is made by a tree preservation order for prohibiting the wilful destruction of trees except with the consent of the local planning authority, a statutory undertaker or his contractors may be guilty of contravening the order if, in the course of relaying underground cables, they sever the roots and thereby reduce the life expectancy of the trees in question: *Barnet London Borough Council v Eastern Electricity Board* [1973] 2 All ER 319, [1973] 1 WLR 430, DC.

9 Electricity Act 1989 Sch 4 para 9(1), (2). A licence from the Forestry Commissioners in respect of the felling of trees is not required in any case where the felling of a tree is carried out by or at the request of a licence holder because the tree is or will be in such close proximity to an electric line or electrical plant as to have the effect mentioned in heads (1)-(2) in the text: see the Forestry Act 1967 s 9(4)(c), (6) (as amended); the Forestry (Exceptions from Restriction of Felling) Regulations 1979, SI 1979/792, reg 4(2); and FORESTRY vol 52 (2009) PARAS 121-122.

10 *Ie* under the Electricity Act 1989 Sch 4 para 9(5): see the text and note 12 infra.

11 *Ibid* Sch 4 para 9(4). The necessary work is to cause the tree to be felled, lopped or its roots to be cut back so as to prevent it from having the effects mentioned in heads (1)-(2) in the text: Sch 4 para 9(4).

12 *Ibid* Sch 4 para 9(5). As to the Secretary of State see PARA 601 note 1 ante.

13 *Ibid* Sch 4 para 9(6). The power of the Secretary of State to make orders in respect of the felling or lopping of trees is not exercisable by statutory instrument: see s 106(1) (as amended); and PARA 1306 post.

14 *Ibid* Sch 4 para 9(6)(a), (b).

15 *Ibid* Sch 4 para 9(7).

16 For the meaning of 'movables' see PARA 1292 note 21 ante.

17 Electricity Act 1989 Sch 4 para 11(2). Any question of disputed compensation must be referred to and determined by the Lands Tribunal; and the Land Compensation Act 1961 s 2 (as amended), s 4 (see COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 715 et seq) apply to any such determination: Electricity Act 1989 Sch 4 paras 11(3), 12.

18 Ibid Sch 4 para 11(1). The provisions of the Rights of Entry (Gas and Electricity Boards) Act 1954 (see PARAS 773-774 ante) do not appear to apply to the felling and lopping of trees.

19 See the Electricity Act 1989 s 37; and PARA 1252 ante.

20 See ibid Sch 4 para 6; and PARA 1292 ante.

21 See ibid s 61(5); and PARA 1298 post.

UPDATE

1295 Felling or lopping of trees etc

NOTE 17--Reference to the Lands Tribunal is now to the Upper Tribunal; Land Compensation Act 1961 s 2 omitted: Electricity Act 1989 Sch 4 paras 11(3), 12 (amended by SI 2009/1307).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/ (vi) Power to enter upon Land for purposes of Exploration/1296. Entry on land.

(vi) Power to enter upon Land for purposes of Exploration

1296. Entry on land.

Subject to the following provisions and without prejudice to any other right of entry¹, a person authorised in writing by a licence holder² may, at any reasonable time, enter upon and survey any land other than land covered by a building³ to ascertain whether that land would be suitable for use for any purpose connected with the carrying on of the activities which the licence holder is authorised by his licence to carry on⁴. A person so authorised may not demand entry as of right unless he gives the occupier⁵ 14 days' notice of his intended entry and he produces, if required to do so, evidence of his authority⁶.

The power to survey land includes power to search and bore in order to ascertain the nature of the subsoil but works may not be carried out on the land for this purpose unless:

- 3368 (1) notice of the proposed works is given under the above provisions; and
- 3369 (2) where land is held by statutory undertakers⁷ who object on the ground that carrying out such works would be seriously detrimental to the carrying on of their undertaking, the Secretary of State⁸ gives his consent⁹.

Where any person exercises powers conferred under the above provisions, the licence holder under whose authority he acted must make good any damage done to the land¹⁰, and any person who intentionally obstructs a person exercising those powers is liable on summary conviction to a fine not exceeding level 3 on the standard scale¹¹.

Where, in the exercise of any power of entry on land for the purposes of exploration, damage is caused to land or movables¹², any person having an interest in the land or movables may recover compensation from the licence holder on whose behalf the power was exercised; and where in consequence of the exercise of such a power a person is disturbed in his enjoyment of any land or movables he may recover from that licence holder compensation in respect of that disturbance¹³.

1 Powers relating to rights of entry to survey land and to search and bore for specified purposes are conferred by the Town and Country Planning Act 1990: see ss 324, 325 (as amended): and TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARAS 57-58. The Rights of Entry (Gas and Electricity Boards) Act 1954 (see PARAS 773-774 ante) does not appear to apply to powers of entry under the provisions of the Electricity Act 1989 s 10(1) (as amended), Sch 4 para 10: see the text and notes 2-10 infra.

2 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante. As to the licence holders to whom the provisions set out in the text and notes 3-13 infra apply see the Electricity Act 1989 s 10(1) (as amended); and PARAS 1282, 1286 ante.

3 See the Electricity Act 1989 Sch 4 para 10(3), which also applies where the land will be covered by a building on the assumption that any planning permission within the meaning of the Town and Country Planning Act 1990 (see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue para 217 et seq) which is in force is acted on: Electricity Act 1989 Sch 4 paras 10(3), 12 (Sch 4 para 12 amended by the Planning (Consequential Provisions) Act 1990 s 4, Sch 2 para 83(1)). For these purposes, 'building' includes any garden, yard, outhouses and appurtenances belonging to or usually enjoyed with a building: Electricity Act 1989 Sch 4 para 10(6). As to the meaning of 'garden' see PARA 1292 note 17 ante.

- 4 Ibid Sch 4 para 10(1).
- 5 As to the meaning of 'occupier' see PARA 1094 note 6 ante.
- 6 Electricity Act 1989 Sch 4 para 10(2).
- 7 'Statutory undertakers' has the same meaning as in the Town and Country Planning Act 1990 (see TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARA 1009 et seq): Electricity Act 1989 Sch 4 para 12 (as amended: see note 4 supra).
- 8 As to the Secretary of State see PARA 601 note 1 ante.
- 9 Electricity Act 1989 Sch 4 para 10(4). See also the Town and Country Planning Act 1990 s 325(9); and TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 57.
- 10 Electricity Act 1989 Sch 4 para 10(5).
- 11 Ibid Sch 4 para 11(1). As to the standard scale see PARA 613 note 11 ante.
- 12 For the meaning of 'movables' see PARA 1292 note 21 ante.
- 13 Electricity Act 1989 Sch 4 para 11(2). Any question of disputed compensation must be referred to and determined by the Lands Tribunal; and the Land Compensation Act 1961 s 2 (as amended), s 4 (see COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 715 et seq) apply to any such determination: Electricity Act 1989 Sch 4 paras 11(3), 12.

UPDATE

1296 Entry on land

NOTE 13--Reference to the Lands Tribunal is now to the Upper Tribunal; Land Compensation Act 1961 s 2 omitted: Electricity Act 1989 Sch 4 paras 11(3), 12 (amended by SI 2009/1307).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/ (vii) Application to Crown Land/1297. Crown land.

(vii) Application to Crown Land

1297. Crown land.

No power (whether a power of compulsory acquisition¹ or other compulsory power, a power to carry out works² or a power of entry³) which is conferred by or under Part I of the Electricity Act 1989⁴ is, except with the consent of the appropriate authority⁵, exercisable in relation to land in which there is a Crown or Duchy interest⁶. A consent given for the purposes of the above provisions may be given on such financial or other conditions as the appropriate authority may consider appropriate⁷.

1 As to compulsory acquisition of land or rights over land see PARAS 1282-1285 ante; as to the acquisition of wayleaves see PARAS 1292-1294 ante.

2 As to powers to carry out works see PARAS 1286-1290 ante.

3 As to powers of entry upon land see PARA 1296 ante; as to powers of entry upon premises see PARAS 773-774, 1107 ante.

4 Ie conferred by the Electricity Act 1989 Pt I (ss 3A-64) (as amended): see PARA 1041 et seq ante.

5 For these purposes the appropriate authority, in relation to land belonging (1) to Her Majesty in right of the Crown and forming part of the Crown Estate, means the Crown Estate Commissioners; (2) to Her Majesty in right of the Crown (other than land falling within head (1) supra), means the government department having the management of that land; (3) to Her Majesty in right of the Duchy of Lancaster, means the Chancellor of the Duchy of Lancaster; (4) to the Duchy of Cornwall, means such person as the Duke of Cornwall or the possessor for the time being of that Duchy appoints; and (5) to a government department or held in trust for Her Majesty for the purposes of a government department, means that department; and if any question arises as to what authority is the appropriate authority in relation to any land, that question must be referred to the Treasury whose decision is final: *ibid* s 63(4).

6 *Ibid* s 63(1). Subject to s 63(1), the provisions of Pt I (as amended) have effect in relation to land in which there is a Crown or Duchy interest as they have effect in relation to land in which there is no such interest: s 63(3). A Crown or Duchy interest is an interest (1) belonging to Her Majesty in right of the Crown or of the Duchy of Lancaster or to the Duchy of Cornwall; or (2) belonging to a government department or held in trust for Her Majesty for the purposes of a government department: s 63(1)(a), (b).

7 *Ibid* s 63(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(vii) Concurrent Proceedings and Public Inquiries/1298. Concurrent proceedings.

(vii) Concurrent Proceedings and Public Inquiries

1298. Concurrent proceedings.

Where a licence holder¹ makes an application to the Secretary of State² for his consent for the construction or extension of a generating station³, and makes a compulsory purchase order⁴ for a purpose connected with the proposed construction or extension of that station, then the proceedings which are required to be taken⁵ for the purpose of confirming that order may be taken concurrently, so far as practicable, with the proceedings required to be taken in relation to that application for consent⁶ and with any related proceedings applying for a safety zone notice⁷ under the Energy Act 2004⁸.

Where a licence holder makes an application to the Secretary of State for his consent for the installation of an electric line⁹ above ground¹⁰, and makes, for a purpose connected with the proposed installation of that line, one or more of the following, that is:

- 3370 (1) a compulsory purchase order;
- 3371 (2) an application to the Secretary of State for a necessary wayleave¹¹; and
- 3372 (3) a reference to him relating to the felling and lopping of trees¹²,

then the proceedings which are required to be taken:

- 3373 (a) for the purpose of confirming that order¹³;
- 3374 (b) in relation to that application¹⁴; or
- 3375 (c) in relation to that reference¹⁵,

may be taken concurrently, so far as practicable, with the proceedings required to be taken¹⁶ in relation to that application for consent¹⁷.

Where, for a purpose connected with the proposed installation of an electric line, a licence holder makes an application to the Secretary of State for the necessary wayleave¹⁸ and a reference in relation to the felling and lopping of trees¹⁹, then the proceedings required to be taken²⁰ in relation to that reference may be taken concurrently, so far as practicable, with the proceedings required to be taken²¹ in relation to that application²².

1 For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 I.e. an application under the Electricity Act 1989 s 36 (as amended); see PARA 1249 ante. For the meaning of 'generating station' see PARA 1041 note 6 ante; for the meaning of 'extension' in relation to a generating station see PARA 1249 note 3 ante; for the meaning of 'construction' see PARA 1312 note 4 post; and as to the application of the latter definition see PARA 1249 note 2 ante.

4 As to the compulsory acquisition of land and rights over land see PARA 1282 et seq ante.

5 I.e. the proceedings which are required to be taken by the Acquisition of Land Act 1981 Pt II (ss 10-16) (as amended); see COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 557 et seq.

- 6 le the proceedings which are required to be taken by the Electricity Act 1989 s 36(8), Sch 8 (as amended): see PARA 1260 et seq ante.
- 7 le any related proceedings under the Energy Act 2004 s 95(9), Sch 16: see PARA 1315 post.
- 8 Electricity Act 1989 s 61(1), (2) (amended by the Energy Act 2004 s 102(1), (2)).
- 9 For the meaning of 'electric line' see PARA 1041 note 5 ante.
- 10 le an application under the Electricity Act 1989 s 37: see PARA 1252 ante.
- 11 le an application under ibid s 10(1) (as amended), Sch 4 para 6: see PARA 1292 ante. For the meaning of 'necessary wayleave' see PARA 1292 note 7 ante.
- 12 le a reference under ibid Sch 4 para 9: see PARA 1295 ante.
- 13 See note 5 supra.
- 14 le the proceedings which are required to be taken by the Electricity Act 1989 Sch 4 para 6: see PARA 1292 ante.
- 15 le the proceedings which are required to be taken by ibid Sch 4 para 9: see PARA 1295 ante.
- 16 See note 6 supra.
- 17 Electricity Act 1989 s 61(3), (4).
- 18 See note 11 supra.
- 19 See note 12 supra.
- 20 See note 15 supra.
- 21 See note 14 supra.
- 22 Electricity Act 1989 s 61(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/(vii) Concurrent Proceedings and Public Inquiries/1299. Powers of the Secretary of State in relation to public inquiries.

1299. Powers of the Secretary of State in relation to public inquiries.

The Secretary of State¹ may cause an inquiry to be held in any case where he considers it advisable to do so in connection with any matter arising under Part I of the Electricity Act 1989² other than a matter in respect of which any enforcement functions³ of the Gas and Electricity Markets Authority ('GEMA')⁴ are or may be exercisable or a matter relating to a function which is exercisable by the Scottish Ministers⁵.

Where an inquiry is to be caused to be held by the Secretary of State under Part I of that Act or under the provisions of the Energy Act 2004 relating to applications for safety zone notices⁶ in connection with any matter and there is some other matter required or authorised⁷ to be the subject of another inquiry and it appears to the relevant minister or ministers⁸ that those matters are so far cognate that they should be considered together, the relevant minister or ministers may direct⁹ that the two inquiries be held concurrently or combined as one inquiry¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie under the Electricity Act 1989 Pt I (ss 3A-64) (as amended): see PARA 1041 et seq ante.

3 Ie any functions under ibid s 25 (as amended): see PARA 1207 ante.

4 As to the establishment and general functions of the Gas and Electricity Markets Authority see PARA 708 et seq ante; and as to the use of the abbreviation 'GEMA' in this context see PARA 708 note 5 ante.

5 Electricity Act 1989 s 62(1) (amended by the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 6(1), Sch 5 para 8(1), (2); and by virtue of the Utilities Act 2000 s 3(2)). The provisions of the Local Government Act 1972 s 250(2)-(5) (as amended) (which relate to the giving of evidence at, and defraying the cost of, local inquiries: see LOCAL GOVERNMENT vol 69 (2009) PARA 105) are to apply in relation to any inquiry so held as they apply in relation to a local inquiry which a minister causes to be held under the Local Government Act 1972 s 250(1): Electricity Act 1989 s 62(2). Inquiries so held are designated for the purposes of the Tribunals and Inquiries Act 1992 s 10 (as amended) (reasons to be given for decisions: see JUDICIAL REVIEW vol 61 (2010) PARA 646): see the Tribunals and Inquiries (Discretionary Inquiries) Order 1975, SI 1975/1379, arts 3, 4, Schedule paras 32, 81 (amended by SI 1990/526); and the Interpretation Act 1978 s 17(2). As to the procedure at such inquiries see further the Electricity Generating Stations and Overhead Lines (Inquiries Procedure) (England and Wales) Rules 2007, SI 2007/841; and PARA 1265 et seq ante; and as to additional inspectors at such inquiries see PARA 1264 ante.

6 Ie under the Energy Act 2004 s 95(9), Sch 16: see PARA 1315 post.

7 Ie whether by the Electricity Act 1989 Pt I (as amended) or by some other enactment: s 62(3)(b).

8 For these purposes, 'the relevant minister or ministers' means the Secretary of State, or, where causing another inquiry ('the other inquiry') to be held is a function of some other Minister of the Crown, the Secretary of State and that other minister acting jointly: ibid s 62(4).

9 As to directions generally see ibid s 107; and PARA 1306 post.

10 Ibid 62(3) (amended by the Energy Act 2004 s 102(1), (3); and by the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 6(1), Sch 5 para 8(1), (4)).

UPDATE

1299 Powers of the Secretary of State in relation to public inquiries

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(7) WORKS AND RIGHTS OVER LAND/ (ix) Submarine Pipelines/1300. Disapplication of statutory controls in certain cases.

(ix) Submarine Pipelines

1300. Disapplication of statutory controls in certain cases.

The statutory provisions relating to:

- 3376 (1) the control of construction and use of pipelines in territorial and continental shelf waters¹;
- 3377 (2) compulsory increases in capacity of pipelines²; and
- 3378 (3) the acquisition by persons of rights to use pipelines belonging to others³,

do not apply to any pipeline for the conveyance of:

- 3379 (a) water to or from an electricity generating station⁴; or
- 3380 (b) dissolved chlorine to any pipeline conveying water to an electricity generating station⁵.

1 Ie the Petroleum Act 1998 s 14(1): see PARA 1743 post.

2 Ie ibid s 16: see PARA 1749 post.

3 Ie ibid s 17 (as amended): see PARA 1750 post.

4 For the meaning of 'generating station' see PARA 1041 note 6 ante.

5 Submarine Pipelines (Electricity Generating Stations) Regulations 1981, SI 1981/750, reg 2. No authorisation for such pipelines is thus required. As to authorisations for pipelines generally see PARA 1744 et seq post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(8) CIVIL LIABILITY OF LICENCE HOLDERS ETC; OFFENCES/1301. Liability for nuisance.

(8) CIVIL LIABILITY OF LICENCE HOLDERS ETC; OFFENCES

1301. Liability for nuisance.

The common law rules¹ with regard to the liability for nuisance of bodies exercising a statutory power or performing a statutory duty apply to licence holders² under the Electricity Act 1989³. This is subject to any specific provisions with regard to nuisance contained in any local enactments⁴.

¹ See *Department of Transport v North West Water Authority* [1984] AC 336, [1983] 1 All ER 892 per Webster J (revsd without affecting heads (1)-(4) infra [1984] AC 351, [1983] 3 All ER 273, HL), in which the following propositions were approved: (1) in the absence of negligence, a body is not liable for a nuisance which is attributable to the exercise by it of a duty imposed upon it by statute (see *Hammond v Vestry of St Pancras* (1874) LR 9 CP 316); (2) it is not liable in those circumstances even if by statute it is expressly made liable, or not exempted from liability, for nuisance (see *Stretton's Derby Brewery Co Ltd v Derby Corpn* [1894] 1 Ch 431, and *Smeaton v Ilford Corpn* [1954] Ch 450, [1954] 1 All ER 923); (3) in the absence of negligence, a body is not liable for a nuisance which is attributable to the exercise by it of a power conferred by statute if, by statute, it is not expressly either made liable, or not exempted from liability, for nuisance (see *Midwood & Co v Manchester Corpn* [1905] 2 KB 597, CA; *Longhurst v Metropolitan Water Board* [1948] 2 All ER 834, HL; and *Dunne v North Western Gas Board* [1964] 2 QB 806, [1963] 3 All ER 916, CA); and (4) a body is liable for a nuisance by it attributable to the exercise of a power conferred by statute, even without negligence, if by statute it is expressly either made liable, or not exempted from liability, for nuisance (see *Charing Cross West End and City Electric Supply Co v London Hydraulic Power Co* [1914] 3 KB 772, CA).

As to the rule in *Rylands v Fletcher* (1868) LR 3 HL 330, see *Midwood and Co v Manchester Corpn* supra (fusing of electric main causing bitumen in which it was laid to volatilise into an inflammable gas which exploded; undertaker liable in nuisance, apart from any evidence of negligence); *Charing Cross West End and City Electric Supply Co v London Hydraulic Power Co* supra (liability under the rule applied where damage was caused by escapes from the defendants' pipes to electric cables laid in the highway); *Goodbody v Poplar Borough Council* (1914) 84 LJB 1230, DC (local authority authorised to supply electricity not liable for results of explosion in an underground brick-built chamber containing fuses into which there leaked gas from the adjoining gas main; undertakers not responsible for the gas leak and the fusing not negligent; cf *Solomons v Stepney Borough Council* (1905) 69 JP 360, DC). See now *Cambridge Water Co plc v Eastern Counties Leather* [1994] 2 AC 264, [1994] 1 All ER 53, HL (foreseeability of damage of the relevant type should be regarded as a prerequisite of liability in damage under the rule in *Rylands v Fletcher* supra); *Transco plc v Stockport Metropolitan Borough Council* [2003] UKHL 61, [2004] 2 AC 1, [2004] 1 All ER 589; and see NUISANCE vol 78 (2010) PARA 148; TORT vol 97 (2010) PARA 592 et seq.

As to liability for noise that is prejudicial to health or a nuisance and is emitted from or caused by a vehicle, machinery or equipment in a street see PARA 1287 note 10 ante; and as to the liability of undertakers to pay compensation to a street authority or other person in respect of loss or damage caused as a result of the exercise by them of street works or certain other events see the New Roads and Street Works Act 1991 s 82; and see generally HIGHWAYS, STREETS AND BRIDGES.

² For the meanings of 'licence' and 'licence holder' see PARA 1041 note 12 ante.

³ The statutory provisions made in relation to the liability of area boards in nuisance by the Electric Lighting (Clauses) Act 1899 Schedule ss 2, 81 (amended by the Electricity Act 1947 s 57(2), Sch 4 Pt III) are repealed without the enactment of any equivalent provisions in relation to the successor companies under the Electricity Act 1989.

⁴ See *ibid* s 112(3), Sch 17 para 34.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(8) CIVIL LIABILITY OF LICENCE HOLDERS ETC; OFFENCES/1302. Other civil liabilities.

1302. Other civil liabilities.

Where a licence holder¹ has placed on land something known to be dangerous such as high voltage overhead electric lines², he owes a common law duty to take reasonable care to avoid acts or omissions which he can reasonably foresee which would be likely to injure persons so closely and directly affected by his acts or omissions that the supplier ought to have had them in contemplation³. Civil liability may also arise in connection with other defaults⁴.

1 For the meanings of 'licence' and licence holder see PARA 1041 note 12 ante. The provisions of the Electric Lighting (Clauses) Act 1899 Schedule s 77 relating to an electricity board's liability for accidents, damages and injuries are repealed without any equivalent provisions being made in respect of the successor companies by the Electricity Act 1989.

2 For the meaning of 'electric line' see PARA 1041 note 5 ante.

3 The duty of taking proper care extends to blind persons who are entitled to protection from injury caused by the execution of works on a pavement: *Haley v London Electricity Board* [1965] AC 778, [1964] 3 All ER 185, HL. See also *Buckland v Guildford Gas Light and Coke Co* [1949] 1 KB 410, [1948] 2 All ER 1086 (where it was held that where undertakers had placed overhead lines across land they owed a duty of care to a child who was neither the owner nor occupier of the land but had strayed on to it from a nearby footpath); *Pye v Isaacs and South Western Electricity Board* (10 June 1958, unreported) (heard at Devon Summer Assizes before Hilbery J) (defendants liable for injuries received by orchard worker who brought an aluminium ladder into contact with overhead lines); *Adams v Southern Electricity Board* (1993) Times, 21 October, CA (electricity board owed a duty of care to ensure that plaintiff was effectively prevented from climbing up a pole-mounted high voltage electrical installation). See, however, *R v Secretary of State for Trade and Industry, ex p Duddridge* [1995] 3 CMLR 231, [1995] Env LR 151; affd [1996] 2 CMLR 361, (1995) Times, 26 October, CA (Secretary of State under no duty under EC law to issue regulations to restrict the electromagnetic fields from electricity supply cables; although the Secretary of State's experts accepted that there was the possibility of a connection between exposure to ionising radiation present in the fields and the risk of developing leukaemia, further research was necessary). As to electromagnetic disturbance see the Electromagnetic Compatibility Regulations 2006, SI 2006/3418; and TELECOMMUNICATIONS AND BROADCASTING vol 45(1) (2005 Reissue) PARA 553.

4 For provisions as to civil liability where there is a breach of electricity supply and safety regulations see PARA 1152 ante; as to liabilities for failure by electricity distributors to restore supplies within a specified period see PARA 1112 et seq ante; and as to breach of duty for failure to comply with enforcement orders see PARA 1207 ante. As to breach of statutory duty generally see TORT vol 97 (2010) PARA 495 et seq.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(8) CIVIL LIABILITY OF LICENCE HOLDERS ETC; OFFENCES/1303. Offences by bodies corporate.

1303. Offences by bodies corporate.

Where a body corporate is guilty of an offence¹ under the Electricity Act 1989 and that offence is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director, manager, secretary or other similar officer, or any person purporting to act in any such capacity, he as well as the body corporate is guilty of that offence and is liable to be proceeded against and punished accordingly². Where the affairs of a body corporate are managed by its members, this provision applies in relation to the acts and defaults of a member in connection with his functions of management as if he were a director of the body corporate³.

1 As to the criminal liability of bodies corporate see generally CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 38.

2 Electricity Act 1989 s 108(1).

3 Ibid s 108(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(8) CIVIL LIABILITY OF LICENCE HOLDERS ETC; OFFENCES/1304. Extraterritorial operation of the Electricity Act 1989.

1304. Extraterritorial operation of the Electricity Act 1989.

Where by virtue of the Electricity Act 1989 an act or omission taking place outside Great Britain¹ constitutes an offence, proceedings for the offence may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in Great Britain². Provision made by or under that Act in relation to places outside Great Britain:

3381 (1) so far as it applies to individuals, applies to them whether or not they are British citizens; and

3382 (2) so far as it applies to bodies corporate³, applies to them whether or not they are incorporated under the law of a part of the United Kingdom⁴.

1 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

2 Electricity Act 1989 s 108A(1) (s 108A added by the Electricity Act 1989 s 102(1), (5)).

3 As to offences by bodies corporate see PARA 1303 ante.

4 Electricity Act 1989 s 108A(2) (as added: see note 2 supra). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(8) CIVIL LIABILITY OF LICENCE HOLDERS ETC; OFFENCES/1305. Making of false statements etc.

1305. Making of false statements etc.

If any person, in giving any information¹ or making any application under or for the purposes of any provision of Part I of the Electricity Act 1989² or of any regulations made thereunder³, makes any statement which he knows to be false in a material particular, or recklessly makes any statement which is false in a material particular, he is liable on summary conviction to a fine not exceeding the statutory maximum and on conviction on indictment to a fine⁴. No proceedings may, however, be instituted in England and Wales in respect of such an offence except by or with the consent of the Secretary of State⁵ or the Director of Public Prosecutions⁶.

Any person who seeks to obtain entry to any premises⁷ by falsely pretending to be:

- 3383 (1) an employee of, or other person acting on behalf of, an electricity distributor⁸ or electricity supplier⁹;
- 3384 (2) an electrical inspector¹⁰, or
- 3385 (3) a meter examiner¹¹,

is liable on summary conviction to a fine not exceeding level 4 on the standard scale¹².

1 For the meaning of 'information' para 1044 note 10 ante.

2 In any provision of the Electricity Act 1989 Pt I (ss 3A-64) (as amended): see PARA 1041 et seq ante, PARA 1306 et seq post.

3 In any regulations made under ibid Pt I (as amended). As to the making of regulations generally see ss 60, 106 (as amended); and PARA 1306 post.

4 Ibid s 59(1). As to the statutory maximum see PARA 689 note 2 ante; and for the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Electricity Act 1989 s 59(3). As to consents required for prosecutions generally see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARAS 1071-1072.

7 For the meaning of 'premises' see PARA 1041 note 5 ante.

8 For the meaning of 'electricity distributor' see PARA 1065 note 9 ante.

9 For the meaning of 'electricity supplier' see PARA 1065 note 7 ante.

10 As to the appointment of electrical inspectors see the Electricity Act 1989 s 30 (as amended); and PARA 1178 ante.

11 As to the appointment of meter examiners see ibid s 31, Sch 7 para 4 (as amended); and PARA 1182 ante.

12 Ibid s 59(2) (amended by the Utilities Act 2000 s 108, Sch 6 Pt II paras 24, 37). As to the standard scale see PARA 613 note 11 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(9) ADMINISTRATIVE AND FINANCIAL PROVISIONS/1306. Regulations, orders and directions.

(9) ADMINISTRATIVE AND FINANCIAL PROVISIONS

1306. Regulations, orders and directions.

Regulations made under any provision of Part I of the Electricity Act 1989¹ may provide for the determination of questions of fact or of law which may arise in giving effect to the regulations and for regulating (otherwise than in relation to any court proceedings) any matters relating to the practice and procedure to be followed in connection with the determination of such questions², including provision:

- 3386 (1) as to the mode of proof of any matter³;
- 3387 (2) as to parties and their representation⁴;
- 3388 (3) for the right to appear before and be heard by the Secretary of State⁵, the Gas and Electricity Markets Authority ('GEMA')⁶ and other authorities⁷; and
- 3389 (4) as to the award of costs or expenses of proceedings for the determination of such questions, including the amount of the costs or expenses and the enforcement of the awards⁸.

Any regulations so made which prescribe a period within which things are to be done may provide for extending the period so prescribed⁹.

Regulations so made may also provide for anything falling to be determined under them to be determined by such persons, in accordance with such procedure and by reference to such matters and to the opinion of such persons as may be prescribed by the regulations¹⁰. They may make different provision for different cases, including different provision in relation to different persons, circumstances or localities¹¹ and may make such supplemental, consequential and transitional provision as the Secretary of State or, as the case may be, the Authority, considers appropriate¹².

Any power under the Electricity Act 1989 to make regulations and any power of the Secretary of State to make orders¹³ is in each case exercisable by statutory instrument¹⁴ and any such instrument containing (a) regulations made by the Secretary of State; or (b) subject to certain exceptions¹⁵, an order, is subject to annulment in pursuance of a resolution of either House of Parliament¹⁶.

Any power conferred by that Act in relation to giving a direction includes power to vary or revoke it, unless the context otherwise requires¹⁷. A direction so given must be in writing¹⁸ and it is the duty of any person to whom such a direction is given to give effect to that direction¹⁹.

UPDATE

1306 Regulations, orders and directions

TEXT AND NOTES 13-16--Electricity Act 1989 s 106(1) amended, s 106(2) further amended, s 106(1A) added: Energy Act 2008 s 96(2), Sch 5 paras 5, 6.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(9) ADMINISTRATIVE AND FINANCIAL PROVISIONS/1307. Service of documents.

1307. Service of documents.

Any document required or authorised¹ to be served on any person may be served (1) by delivering it to him or leaving it at his proper address² or by sending it by post³ to that address; or (2) in the case of a body corporate, by serving it in accordance with head (1) above on the secretary of that body; or (3) in the case of a partnership, by serving it in accordance with head (1) above on a partner or a person having the control or management of the partnership business⁴.

If the name or address of any owner or occupier⁵ of land cannot, after reasonable inquiry, be ascertained, the document may be served by addressing it to him by the description of 'owner' or 'occupier' of the land and describing the land and leaving it either in the hands of a person who is or appears to be resident or employed on the land or affixed conspicuously to some building or other object on or near the land⁶. These provisions do not, however, apply to any document in relation to the service of which provision is made by rules of court⁷.

Any notice required to be given or sent for the purposes of Part I of the Electricity Act 1989⁸ must be in writing⁹.

1 Ie by virtue of the Electricity Act 1989: s 109(1).

2 For these purposes, and for the purposes of the Interpretation Act 1978 s 7 (service of documents by post: see note 3 *infra*), the proper address of any person is his last known address except that (1) in the case of service on a body corporate or its secretary, it is the address of the registered or principal office of the body; and (2) in the case of service on a partnership, a partner or a person having the control or management of a partnership business, it is the address of the principal office of the partnership: Electricity Act 1989 s 109(2). The principal office of a company registered, or a partnership carrying on business, outside the United Kingdom is its principal office within the United Kingdom: s 109(2). Where a person has specified another address within the United Kingdom as the one at which he or someone on his behalf will accept such documents, then that address is treated as his proper address for these purposes: s 109(3). 'Secretary', in relation to a local authority within the meaning of the Local Government Act 1972, means the proper officer within the meaning of that Act (see LOCAL GOVERNMENT vol 69 (2009) PARA 431): Electricity Act 1989 s 109(6). For the meaning of 'United Kingdom' see PARA 602 note 7 *ante*.

3 Unless the contrary intention appears, service is deemed to be effected by properly addressing, prepaying and posting a letter containing the document and, unless the contrary is proved, to have been effected at the time at which the letter would be delivered in the ordinary course of post: see the Interpretation Act 1978 s 7.

4 Electricity Act 1989 s 109(1).

5 As to the meaning of 'occupier' see PARA 1094 note 6 *ante*.

6 Electricity Act 1989 s 109(4).

7 Ibid s 109(5). As to service for the purposes of the Civil Procedure Rules ('CPR') see CIVIL PROCEDURE vol 11 (2009) PARA 138 *et seq*.

8 Ie the Electricity Act 1989 Pt I (ss 3A-64) (as amended): see PARA 1041 *et seq ante*.

9 See *ibid* s 64(1); and PARA 1047 note 11 *ante*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(9) ADMINISTRATIVE AND FINANCIAL PROVISIONS/1308. Financial provisions.

1308. Financial provisions.

Any administrative expenses incurred by the Secretary of State¹ or the Treasury in consequence of the provisions of the Electricity Act 1989, and any increase attributable to that Act in the sums payable out of money provided by Parliament under any other Act, are to be paid out of money provided by Parliament².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Electricity Act 1989 s 110. As to 'money provided by Parliament' see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 703 et seq; and as to the Treasury see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 512.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/4. PARTICULAR PROVISIONS RELATING TO ELECTRICITY/(9) ADMINISTRATIVE AND FINANCIAL PROVISIONS/1309. Directions restricting the use of certain information.

1309. Directions restricting the use of certain information.

The Secretary of State¹ may give to the holder of a transmission licence² ('the authorised person') such directions³ as appear to the Secretary of State to be requisite or expedient for the purpose of securing that, in any case where, in the course of any dealings⁴ with an outside person⁵ who is, or is an associate⁶ of, a person authorised by a licence⁷ or an exemption⁸ to generate⁹, supply¹⁰ or participate in the transmission of electricity¹¹, or to participate in the operation of electricity interconnectors¹², the authorised person or any associate of his is furnished with or otherwise acquires any information¹³ which relates to the affairs of that outside person or any associate of his, neither the person by whom the information is acquired nor any other person obtains any unfair commercial advantage from his possession of the information¹⁴.

As soon as practicable after giving any such directions, the Secretary of State must publish a copy of the directions in such manner as he considers appropriate for the purpose of bringing the directions to the attention of persons likely to be affected by a contravention¹⁵ of them¹⁶.

The obligation to comply with any such directions is a duty owed to any person who may be affected by a contravention of them¹⁷. Where a duty is owed to any person by virtue of these provisions, any breach of the duty which causes that person to sustain loss or damage is actionable at the suit or instance of that person¹⁸. In any proceedings brought against any person¹⁹, it is, however, a defence for him to prove that he took all reasonable steps and exercised all due diligence to avoid contravening the direction²⁰.

Without prejudice to any right which any person may have by virtue of these provisions to bring civil proceedings in respect of any contravention or apprehended contravention of any such directions, compliance with any such directions is also enforceable by civil proceedings by the Secretary of State for an injunction or for any other appropriate relief²¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'transmission licence' see PARA 1065 ante at head (2) in the text.

3 As to directions generally see the Electricity Act 1989 s 107; and PARA 1306 ante.

4 For these purposes, 'dealings' includes dealings entered into otherwise than for purposes connected with the transmission of electricity: *ibid* s 58(8).

5 For these purposes, 'outside person', in relation to any person, means any person who is not an associate of his: *ibid* s 58(8). For the meaning of 'associate' see note 6 infra.

6 For these purposes, a person is an associate of another if he and that other are connected with each other within the meaning of the Income and Corporation Taxes Act 1988 s 839 (as amended) (see INCOME TAXATION vol 23(2) (Reissue) PARA 1258): Electricity Act 1989 s 58(8).

7 For the meaning of 'licence' see PARA 1041 note 12 ante.

8 For the meaning of 'exemption' see PARA 1046 note 7 ante.

9 For the meaning of 'generate' see PARA 1041 note 7 ante.

10 For the meaning of 'supply' see PARA 1041 note 10 ante.

- 11 For the meaning of references to participating in the transmission of electricity see PARA 1050 note 7 ante; and for the meaning of 'transmission' see PARA 1041 note 6 ante.
- 12 For the meaning of references to participating in the operation of an electricity interconnector see PARA 1050 note 7 ante; and for the meaning of 'electricity interconnector' see PARA 1041 note 11 ante.
- 13 For the meaning of 'information' see PARA 1044 note 10 ante.
- 14 Electricity Act 1989 s 58(1), (2) (amended by the Energy Act 2004 ss 143(1), 147(1), (6), Sch 19 paras 3, 14).
- 15 For the meaning of 'contravention' see PARA 1070 note 20 ante.
- 16 Electricity Act 1989 s 58(3).
- 17 Ibid s 58(4).
- 18 Ibid s 58(5).
- 19 Ie in pursuance of ibid s 58(5).
- 20 Ibid s 58(6).
- 21 Ibid s 58(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(i) Renewable Energy Zones/1310. Exploitation of areas outside the territorial sea for energy production.

5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY

(1) OFFSHORE PRODUCTION OF ENERGY

(i) Renewable Energy Zones

1310. Exploitation of areas outside the territorial sea for energy production.

The rights to which these provisions apply, namely the rights under Part V of the United Nations Convention on the Law of the Sea 1982¹ and any modifications of that Convention agreed after 22 July 2004² that have entered into force in relation to the United Kingdom³ that are exercisable by the United Kingdom in areas outside the territorial sea⁴:

- 3390 (1) with respect to the exploitation of those areas for the production of energy from water⁵ or winds;
- 3391 (2) with respect to the exploration⁶ of such areas in that connection; or
- 3392 (3) for other purposes connected with such exploitation⁷, including, in particular, the transmission⁸, distribution⁹ and supply¹⁰ of electricity generated in the course of such exploitation¹¹,

have effect as rights belonging to Her Majesty by virtue of these provisions¹². Her Majesty may by Order in Council designate an area as an area within which those rights are exercisable (a 'renewable energy zone')¹³. Such Orders in Council are subject to the negative resolution procedure¹⁴.

The rights to which the above provisions apply are exercisable in those areas of the sea specified in the Schedule to the Merchant Shipping (Prevention of Pollution) (Limits) Regulations 1996¹⁵.

Certain persons distributing electricity generated by a generating station situated in a renewable energy zone are exempt from the statutory prohibition¹⁶ on unlicensed distribution¹⁷.

¹ ie the United Nations Convention on the Law of the Sea 1982 (Cmnd 8941): see the Energy Act 2004 s 84(7).

² ie after the passing of the Energy Act 2004: see s 84(7).

³ For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

⁴ As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

⁵ References in the Energy Act 2004 Pt 2 Ch 2 (ss 84-104) (see the text and notes 1-4 supra, 6-14 infra; and PARA 1311 et seq post) to the production of energy from water include, in particular, references to its production from currents and tides: s 104(2).

⁶ For these purposes, 'exploration' includes the doing of anything (whether by way of investigations, trials or feasibility studies or otherwise) with a view to ascertaining whether the exploitation of an area is, in a particular case, practicable or commercially viable, or both: ibid s 84(7).

7 Ibid s 84(1), (2), (7).

8 For the meaning of 'transmission' see PARA 1041 note 6 ante (definition applied by ibid s 104(1)).

9 For the meaning of 'distribution' see PARA 1041 note 5 ante (definition applied by ibid s 104(1)).

10 For the meaning of 'supply' see PARA 1041 note 10 ante (definition applied by ibid s 104(1)).

11 Ibid s 84(3).

12 Ibid s 84(1).

13 Ibid s 84(4). As to the exercise of this power see the text and note 15 infra. In exercising or performing the powers and duties conferred or imposed on him by or under the Petroleum Act 1998 (see PARA 1625 et seq post), the Secretary of State may have regard to activities, or proposed activities, in a renewable energy zone for or in connection with the generation of electricity: see s 47A (as added); and PARA 1629 post.

14 Energy Act 2004 s 84(6). As to the negative resolution procedure see ss 192(2), 196(1); and PARA 602 note 2 ante.

15 See the Renewable Energy Zone (Designation of Area) Order 2004, SI 2004/2668, art 1. For the specified areas of sea see the Merchant Shipping (Prevention of Pollution) (Limits) Regulations 1996, SI 1996/2128, reg 2, Schedule (amended by SI 1997/506).

The Secretary of State may by order designate the whole or a part of a renewable energy zone as an area in relation to which the Scottish Ministers are to have functions: Energy Act 2004 s 84(5). As to the exercise of this power see the Renewable Energy Zone (Designation of Area) (Scottish Ministers) Order 2005, SI 2005/3153. As to the Secretary of State see PARA 601 note 1 ante.

16 Ie the prohibition contained in the Electricity Act 1989 s 4(1)(bb) (as added): see PARA 1050 ante at head (3) in the text.

17 See the Electricity (Class Exemptions from the Requirement for a Licence) Order 2001, SI 2001/3270, art 3(1)(b), Sch 3 Class D (as added); and PARA 1060 ante.

UPDATE

1310 Exploitation of areas outside the territorial sea for energy production

TEXT AND NOTE 13--As from a day to be appointed Energy Act 2004 s 84(4) substituted; the area within which the rights to which s 84 applies are exercisable (the 'renewable energy zone') (1) is any area for the time being designated under the Marine and Coastal Access Act 2009 s 41(3) (exclusive economic zone), but (2) if Her Majesty by Order in Council declares that the renewable energy zone extends to such other area as may be specified in the Order, is the area resulting from the Order: Marine and Coastal Access Act 2009 Sch 4 para 4. See further WATER AND WATERWAYS vol 100 (2009) para 30B.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(i) Renewable Energy Zones/1311. Application of criminal law to renewable energy installations etc.

1311. Application of criminal law to renewable energy installations etc.

Her Majesty may by Order in Council¹ provide:

- 3393 (1) that acts and omissions which take place on, under or above:
 315
 466. (a) a renewable energy installation² situated in waters to which these provisions apply³; or
 467. (b) waters to which these provisions apply that are within a safety zone⁴,
 316
 3394 and which would, if they took place in a part of the United Kingdom⁵, constitute an offence under the law in force in that part, are to be treated for the purposes of that law as taking place in that part⁶;
 3395 (2) that a constable is to have:
 317
 468. (a) on, under and above a renewable energy installation situated in waters to which these provisions apply; and
 469. (b) on, under and above any waters to which these provisions apply that are within a safety zone,
 318
 3396 all the powers and privileges that he has in the area of the force of which he is a member⁷.

Proceedings for anything that is an offence by virtue only of an Order in Council under the above provisions may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom⁸.

Subject to certain exceptions⁹, no proceedings for an offence alleged to have been committed on, under or above:

- 3397 (i) a renewable energy installation situated in waters to which the above provisions apply¹⁰; or
 3398 (ii) waters to which the above provisions apply that, at the time of the alleged offence, were within a safety zone,

may be instituted in England and Wales, except by or with the consent of the Director of Public Prosecutions¹¹. Such consent is not, however, required where the proceedings in question are proceedings for which the consent of the Attorney General is otherwise required¹².

1 An Order in Council under the Energy Act 2004 s 85 (see the text and notes 2-8 infra) or s 87 (see PARA 1312 post) that makes provision that would be within the legislative competence of the Scottish Parliament if it were included in an Act of that Parliament is subject to annulment in pursuance of a resolution of the Scottish Parliament (but may by virtue of s 88(2) be subject also to the negative resolution procedure): s 88(1), (3). An Order in Council under s 85 or s 87 that makes provision that would not be within the legislative competence of the Scottish Parliament is subject to the negative resolution procedure: s 88(2). As to the negative resolution procedure see ss 192(2), 196(1); and PARA 602 note 2 ante.

2 For the purposes of *ibid* Pt 2 Ch 2 (ss 84-104) (see PARA 1310 ante; the text and notes 3-12 *infra*; and PARA 1312 *et seq post*), 'renewable energy installation' means: (1) an offshore installation used for purposes connected with the production of energy from water or winds; (2) an installation in the course of construction at a place where it is to be used as an offshore installation within head (1) *supra*; (3) an installation that has ceased to be an installation within head (1) *supra* while remaining an offshore installation (whether or not at the same place); (4) an installation that is being decommissioned at a place where it has been an installation within head (1) or head (3) *supra*; (5) an installation in transit to or from a place where it is to be, or has been, used for purposes that would make it, or made it, an installation within head (1) *supra*; (6) an installation in transit to or from a place where it is to be, or was, an installation within head (3) *supra*: s 104(1), (3). In heads (1)-(6) *supra*, 'offshore installation' means an installation which is situated in waters where (a) it permanently rests on, or is permanently attached to, the bed of the waters; and (b) it is not connected with dry land by a permanent structure providing access at all times for all purposes: s 104(4). The purposes referred to in s 104(3)(a) (see head (1) *supra*) include, in particular, (i) the transmission, distribution and supply of electricity generated using water or winds; and (ii) the doing of anything (whether by way of investigations, trials or feasibility studies or otherwise) with a view to ascertaining whether the generation of electricity in that manner is, in a particular case, practicable or commercially viable, or both: s 104(5). 'Installation' includes artificial island, structure and device: s 104(1). As to the production of energy from water see PARA 1310 note 5 ante; and for the meanings of 'transmission', 'distribution' and 'supply' of electricity see PARA 1041 notes 5-6, 10 ante (definitions applied by s 104(1)).

3 The waters to which *ibid* s 85 (see the text and notes 1-2 *supra*, 4-8 *infra*) applies are: (1) tidal waters and parts of the sea in or adjacent to Great Britain up to the seaward limits of the territorial sea; and (2) waters in a renewable energy zone: s 85(5). For the meaning of 'Great Britain' see PARA 602 note 7 ante; for the meaning of 'renewable energy zone' see PARA 1310 ante; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

4 'Safety zone' means an area which is a safety zone for the purposes of *ibid* Pt 2 Ch 2 by virtue of s 95 (see PARA 1314 *post*): s 104(1).

5 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

6 Energy Act 2004 s 85(1), (2). At the date at which this title states the law no such order had been made.

7 *Ibid* s 85(3). Section 85(3) is in addition to any other enactment or any rule of law or subordinate legislation conferring a power or privilege on constables; and s 85 is to be disregarded in determining the extent of those other powers and privileges: s 85(4). 'Subordinate legislation' includes an instrument made under an Act of the Scottish Parliament: s 85(7).

8 *Ibid* s 85(6).

9 *Ibid* s 86 (see the text and notes 10-12 *infra*) does not apply to an offence created by or under (1) the Health and Safety at Work etc Act 1974; (2) the Customs and Excise Acts 1979, or any enactment that has to be construed as one with those Acts or any of them; (3) the Civil Aviation Act 1982 or any enactment that has to be construed as one with that Act; (4) the Petroleum Act 1987 s 23 (as amended) (see PARA 1680 *post*); (5) the Pilotage Act 1987; (6) the Electricity Act 1989 s 4 (as amended) (see PARA 1050 ante), s 29 (as amended) (see PARA 1152 ante), s 35 (as amended) (see PARA 1248 ante), s 36 (as amended) (see PARA 1249 ante), s 37 (see PARA 1252 ante) or s 59 (as amended) (see PARA 1305 ante) or Sch 7 para 3 (as amended) (see PARA 1180 ante); (7) the Value Added Tax Act 1994 or any enactment that has to be construed as one with that Act; (8) the Merchant Shipping Act 1995; (9) the Energy Act 2004 s 97 (see PARA 1317 *post*) or Pt 2 Ch 3 (ss 105-114) (see PARA 1320 *et seq post*): s 86(2).

10 *Ibid* s 86 applies: see note 3 *supra*.

11 *Ibid* s 86(1), (3)(a). No such proceedings in Northern Ireland may be instituted except by or with the consent of the Director of Public Prosecutions for Northern Ireland: s 86(3)(b).

12 *Ibid* s 86(4). Nor is such consent required where the proceedings in question are proceedings for which the consent of the Advocate General for Northern Ireland (or, until the coming into force of the Justice (Northern Ireland) Act 2002 s 27(1) (not in force), the consent of the Attorney General for Northern Ireland) is otherwise required: s 86(4), (5).

The Territorial Waters Jurisdiction Act 1878 s 3 (consents to prosecution of offences committed on the open sea by persons who are not British citizens: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1056) does not apply to proceedings for an offence to which the Energy Act 2004 s 86 applies: s 86(7).

UPDATE

1311 Application of criminal law to renewable energy installations etc

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

NOTES 1-8--The Criminal Jurisdiction (Application to Offshore Renewable Energy Installations etc) Order 2009, SI 2009/1739, has been made under the Energy Act 2004 s 85.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(i) Renewable Energy Zones/1312. Application of civil law to renewable energy installations etc.

1312. Application of civil law to renewable energy installations etc.

Her Majesty may by Order in Council¹ provide that questions arising out of:

- 3399 (1) acts or omissions taking place on, under or above a renewable energy installation² situated in waters to which these provisions apply³; or
- 3400 (2) acts or omissions taking place on, under or above such waters in relation to a related line⁴,

are to be determined in accordance with the law in force in such part of the United Kingdom⁵ as may be specified in the order⁶. An Order in Council under these provisions may also make provision:

- 3401 (a) for conferring jurisdiction in proceedings with respect to questions of the kind mentioned in heads (1) and (2) above on courts⁷ in one or more parts of the United Kingdom⁸; jurisdiction conferred on a court by such an order is in addition to any jurisdiction otherwise exercisable by that or any other court and the above provisions are to be disregarded in determining the extent of any jurisdiction so exercisable⁹;
 - 3402 (b) for treating:
- 319
- 470. (i) an installation with respect to which provision is made as set out above and which is outside the territorial sea but in waters to which the above provisions apply¹⁰; and
 - 471. (ii) waters within 500 metres of the installation,
- 320
- 3403 as if for the purposes of certain communications legislation¹¹ they were situated in such part of the United Kingdom as is specified in the order¹².

1 As to Orders in Council under the Energy Act 2004 s 87 see s 88, cited in PARA 1311 note 1 ante.

2 For the meaning of 'renewable energy installation' see PARA 1311 note 2 ante.

3 The waters to which the Energy Act 2004 s 87 (see the text and notes 1-2 supra, 4-9 infra) applies are (1) tidal waters and parts of the sea in or adjacent to Great Britain up to the seaward limits of the territorial sea; and (2) waters in a renewable energy zone: s 87(4). For the meaning of 'Great Britain' see PARA 602 note 7 ante; for the meaning of 'renewable energy zone' see PARA 1310 ante; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

4 'Related line' means an electric line, or a part of an electric line, which (1) falls within ibid s 87(7); but (2) is not an electricity interconnector (within the meaning of the Electricity Act 1989 Pt I (ss 3A-64) (as amended) (see PARA 1041 note 11 ante): Energy Act 2004 s 87(6). An electric line, or a part of an electric line, falls within s 87(7) if it (a) is used for the conveyance of electricity to or from a renewable energy installation; (b) is in the course of construction at a place where it is to be so used; or (c) has ceased to be so used (whether or not it is being decommissioned) and since ceasing to be so used has not been used for any other purpose: s 87(7). For the meaning of 'electric line' see PARA 1041 note 5 ante (definition applied by s 104(1)). 'Construct', in relation to an installation or an electric line or in relation to a generating station so far as it is to comprise renewable energy installations, includes (i) placing it in or upon the bed of any waters; (ii) attaching it to the bed of any

waters; (iii) assembling it; (iv) commissioning it; and (v) installing it; and 'construction' is to be construed accordingly: s 104(1).

5 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

6 Energy Act 2004 s 87(1).

7 For these purposes, 'court' includes any tribunal or regulatory authority: ibid s 87(6).

8 Ibid s 87(2).

9 Ibid s 87(3).

10 Ie waters to which ibid s 87 applies: see note 3 supra.

11 Ie for the purposes of the provisions to which the Communications Act 2003 s 410 (as amended) applies: see TELECOMMUNICATIONS vol 97 (2010) PARA 51.

12 Ibid s 410(3) (amended by the Energy Act 2004 s 87(5)).

UPDATE

1312 Application of civil law to renewable energy installations etc

TEXT AND NOTES 1-9--In exercise of the power so conferred, Her Majesty has made the Civil Jurisdiction (Application to Offshore Renewable Energy Installations etc) Order 2009, SI 2009/1743.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/ (ii) Licensing etc of Offshore Activities/1313. Licensing of offshore activities under the Electricity Act 1989 and consents under that Act; in general.

(ii) Licensing etc of Offshore Activities

1313. Licensing of offshore activities under the Electricity Act 1989 and consents under that Act; in general.

A person who:

- 3404 (1) generates¹ electricity for the purpose of giving a supply² to any premises³ or enabling a supply to be so given;
- 3405 (2) participates in the transmission⁴ of electricity⁵ for that purpose;
- 3406 (3) distributes⁶ electricity for that purpose; or
- 3407 (4) participates in the operation of an electricity interconnector⁷,

is guilty of an offence unless he is authorised to do so by a licence⁸. Electricity licences have already been discussed⁹.

The Secretary of State¹⁰ is prospectively given statutory powers:

- 3408 (a) to modify the conditions of transmission or distribution licences for purposes connected with offshore transmission or offshore distribution¹¹;
- 3409 (b) where a transmission licence is in force that authorises a person to co-ordinate and direct the flow of electricity onto and over a transmission system¹² by means of which electricity is transmitted within Great Britain¹³, or within an area of Great Britain (the 'co-ordination licence'), to make such modifications of the co-ordination licence as he considers appropriate for the purpose of applying the authorisation and conditions of the licence in relation to the transmission of electricity within one or both of the following:
 - 321 472. (i) an area of the territorial sea adjacent to Great Britain¹⁴; and
 - 473. (ii) an area designated¹⁵ under the Continental Shelf Act 1964¹⁶.
- 322

The Gas and Electricity Markets Authority ('GEMA')¹⁷ is prospectively given statutory powers to make provision by regulations for facilitating the making, in prescribed cases, of a determination on a competitive basis of the person to whom an offshore transmission licence is to be granted¹⁸.

Certain offshore generating stations may not be constructed or extended without the consent of the Secretary of State¹⁹.

All the above matters are discussed in more detail in an earlier part of this title²⁰.

1 For the meaning of 'generate' see PARA 1041 note 7 ante.

2 For the meaning of 'supply' see PARA 1041 note 10 ante.

- 3 For the meaning of 'premises' for these purposes see PARA 1050 note 3 ante.
- 4 For the meaning of 'transmission' see PARA 1041 note 6 ante.
- 5 For the meaning of references to participating in the transmission of electricity see PARA 1050 note 5 ante.
- 6 For the meaning of 'distribute' see PARA 1041 note 5 ante.
- 7 For the meaning of references to participating in the operation of an electricity interconnector see PARA 1050 note 7 ante.
- 8 See the Electricity Act 1989 s 4(1)(a)-(bb), (d) (as amended); and PARA 1050 ante. For the meaning of 'licence' see PARA 1041 note 12 ante.
- 9 See PARA 1050 et seq ante.
- 10 As to the Secretary of State see PARA 601 note 1 ante.
- 11 See the Energy Act 2004 s 90 (not in force); and PARA 1078 ante.
- 12 For the meaning of 'transmission system' see PARA 1041 note 6 ante.
- 13 For the meaning of 'Great Britain' see PARA 602 note 7 ante.
- 14 As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.
- 15 le designated under the Continental Shelf Act 1964 s 1(7) (as amended): see PARA 1636 post; and INTERNATIONAL RELATIONS LAW vol 61 (2010) PARA 172.
- 16 See the Energy Act 2004 s 91 (not in force); and PARA 1079 ante.
- 17 As to the establishment and general functions of the Gas and Electricity Markets Authority see PARA 708 et seq ante; and as to the use of the abbreviation 'GEMA' in this context see PARA 708 note 5 ante.
- 18 See the Electricity Act 1989 s 6C (as added) (not in force); and PARA 1067 ante.
- 19 See ibid s 36 (as amended); and PARA 1249 ante. For modifications of the procedure for granting consent in such cases see s 36(8), Sch 8 para 7A (as added); and PARA 1260 et seq ante.
- 20 See notes 11-19 supra.

UPDATE

1313 Licensing of offshore activities under the Electricity Act 1989 and consents under that Act; in general

NOTES 11, 16, 18--Provisions now in force: SI 2009/1269.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(iii) Safety Zones for Installations/1314. Safety zones around renewable energy installations.

(iii) Safety Zones for Installations

1314. Safety zones around renewable energy installations.

Where:

- 3410 (1) there is a proposal to construct¹ a renewable energy installation² in waters subject to regulation under these provisions, namely waters in or adjacent to Great Britain³ which are between the mean low water mark and the seaward limits of the territorial sea⁴, and waters within a renewable energy zone⁵, or to extend⁶ or to decommission⁷ a renewable energy installation situated in such waters⁸;
- 3411 (2) there is a proposal to operate a renewable energy installation on completion of its construction in such waters, or of any extension of it in such waters⁹; or
- 3412 (3) a renewable energy installation is being constructed, extended, operated or decommissioned in such waters¹⁰,

then if the Secretary of State¹¹ considers it appropriate to do so for the purpose of securing the safety of:

- 3413 (a) the renewable energy installation or its construction, extension or decommissioning;
- 3414 (b) other installations in the vicinity of the installation or the place where it is to be constructed or extended;
- 3415 (c) individuals in or on the installation or other installations in that vicinity; or
- 3416 (d) vessels¹² in that vicinity or individuals on such vessels,

he may issue a notice¹³ declaring that such areas as are specified or described in the notice are to be safety zones for the statutory¹⁴ purposes¹⁵. The Secretary of State's power to issue such a notice is exercisable by him either on an application¹⁶ made to him for the purpose by any person or, where no such application is made, on his own initiative¹⁷. Before issuing such a notice which relates, wholly or partly, to an area of Scottish waters¹⁸, or to an area of waters in a Scottish part of a renewable energy zone¹⁹, the Secretary of State must consult the Scottish Ministers²⁰.

An area may be declared to be a safety zone only if it is an area of waters around or adjacent to a place where a renewable energy installation is to be, or is being, constructed, extended, operated or decommissioned; but a safety zone may extend to waters outside the waters subject to regulation under the above provisions²¹.

Where a notice is so issued, or a determination is made for the purposes of such a notice²², the Secretary of State must either:

- 3417 (i) himself publish the notice or determination in such manner as he considers appropriate for bringing it, as soon as is reasonably practicable, to the attention of persons likely to be affected by it; or

3418 (ii) secure that it is published in that manner either by the applicant for the notice or, in the case of a determination made by a person other than the Secretary of State, by the applicant for the notice or by the person who made the determination²³.

1 For the meaning of 'construct' see PARA 1312 note 4 ante.

2 For the meaning of 'renewable energy installation' see PARA 1311 note 2 ante.

3 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

4 As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

5 For the meaning of 'renewable energy zone' see PARA 1310 ante.

6 'Extend' and 'extension' in relation to an installation have the same meanings as in relation to a generating station: Energy Act 2004 s 104(1). For that meaning see the Electricity Act 1989 s 36(9); and PARA 1249 note 3 ante (definition applied by s 104(1)).

7 'Decommission', in relation to an installation or an electric line, includes (1) removing it from the bed of any waters; (2) demolishing it; and (3) dismantling it: *ibid* s 104(1). As to decommissioning see further PARA 1320 et seq post.

8 *Ibid* s 95(1)(a), (10).

9 *Ibid* s 95(1)(b).

10 *Ibid* s 95(1)(c).

11 As to the Secretary of State see PARA 601 note 1 ante.

12 'Vessel' includes (1) a hovercraft; (2) any submersible apparatus; and (3) an installation in transit; and 'submersible apparatus' has the meaning given by the Merchant Shipping Act 1995 s 88(4) (ie any apparatus (including any vessel, vehicle or hovercraft, any structure, any diving plant or equipment and any other form of equipment) used, or designed for use, in supporting human life on or under the bed of any waters or elsewhere under the surface of any waters): Energy Act 2004 s 104(1).

13 A notice under *ibid* s 95 (see the text and notes 1-12 supra, 14-23 infra): (1) must identify the renewable energy installation, or proposed renewable energy installation, by reference to which it is issued; (2) must specify the date on which it is to come into force, or the means by which that date is to be determined; (3) may contain provision by virtue of which the area of a safety zone varies from time to time by reference to factors specified in, or determinations made in accordance with, the provisions of the notice; (4) may contain provision imposing prohibitions on the carrying on in a safety zone of activities specified in, or determined in accordance with, the provisions of the notice, or for the imposition of such prohibitions; (5) may contain provision granting permission for vessels to enter or remain in a safety zone or for persons to carry on prohibited activities, or for the grant of such permissions; (6) may confer discretions, with respect to the making of determinations for the purposes of such a notice, on such persons as may be specified or described in the notice; (7) may modify or revoke a previous notice; and (8) may make different provision in relation to different cases: s 95(6).

14 *Ie* for the purposes of *ibid* Pt 2 Ch 2 (ss 84-104): see PARAS 1310 et seq ante; the text and notes 1-13 supra, 15-23 infra; and PARA 1315 et seq post.

15 *Ibid* s 95(2).

16 As to such applications see PARA 1315 post. A charge of £2,000 is payable to the Secretary of State in respect of any application: Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 8.

17 Energy Act 2004 s 95(3).

18 'Scottish waters' means (1) the internal waters of the United Kingdom that are in or are adjacent to Scotland; or (2) so much of the territorial sea of the United Kingdom as is adjacent to Scotland: *ibid* s 104(1).

19 'Scottish part', in relation to a renewable energy zone, means so much of that zone as is designated under *ibid* 84(5) (see PARA 1310 ante): s 104(1).

20 Ibid s 95(4).

21 Ibid s 95(5).

22 References to a determination for the purposes of a notice include references to a determination made for those purposes in accordance with the notice, or with regulations under ibid s 96 (see PARA 1316 post) (a) to impose a prohibition; (b) to grant a permission; or (c) to impose conditions in relation to a permission: s 95(8).

23 Ibid s 95(7).

UPDATE

1314 Safety zones around renewable energy installations

TEXT AND NOTES--Certain of the functions of the Secretary of State under the Energy Act 2004 s 95 are transferred to the Marine Management Organisation and s 95 is accordingly amended: see Marine and Coastal Access Act 2009 s 13. See further WATER AND WATERWAYS vol 100 (2009) PARA 30A.

NOTES--Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(iii) Safety Zones for Installations/1315. Procedure for the declaration of safety zones.

1315. Procedure for the declaration of safety zones.

An application for a safety zone notice¹ must describe, by way of a map, the place where the relevant renewable energy installation² is to be, or is being, constructed³, extended⁴, operated or decommissioned⁵, and the waters in relation to which any declaration applied for will establish a safety zone⁶. The application must also describe the other provisions the application asks to be included in the notice applied for and must include such other information as may be prescribed by regulations⁷ made by the Secretary of State⁸. An application is not allowed to be made orally⁹.

The Secretary of State may by regulations make provision for securing:

- 3419 (1) that, in the prescribed¹⁰ circumstances, notice of an application is published in the prescribed manner¹¹;
- 3420 (2) that, in the prescribed circumstances and in any other case where the Secretary of State so directs, notice of an application is served on the persons who are prescribed or are specified in the direction¹²;
- 3421 (3) that every notice published or served in pursuance of the regulations states the period within which objections to the application may be made, and the manner in which any objections are to be made;
- 3422 (4) that the period so stated is not less than the prescribed period after the publication or service of the notice;
- 3423 (5) that, where such a notice requires objections to be sent to a person other than the Secretary of State, the recipient of the objections is required to send copies of them to the Secretary of State¹³.

The regulations may provide that the Secretary of State may give such directions dispensing with the requirements of the regulations as he considers appropriate¹⁴.

Where objections, or copies of objections, to an application have been sent to the Secretary of State in compliance with the regulations, the Secretary of State must consider those objections, together with all other material considerations, with a view to determining whether a public inquiry should be held with respect to the application, and must, if he thinks it appropriate to do so, cause a public inquiry to be held, either in addition to or instead of any other hearing or opportunity of stating objections to the application¹⁵.

Where the Secretary of State is either proposing to issue a safety zone notice without an application having been made, or is proposing, in response to an application but without the holding of a public inquiry, to issue a safety zone notice in terms that are materially different from those applied for, he must:

- 3424 (a) publish notice of the proposal in such manner as he considers appropriate for bringing it, as soon as is reasonably practicable, to the attention of persons likely to be affected by it; and
- 3425 (b) serve notice of the proposal on such persons as he considers appropriate¹⁶.

The notice that is so published or served must describe, by way of a map, the place where the relevant renewable energy installation is to be, or is being, constructed, extended, operated or decommissioned, and the waters in relation to which any declaration proposed will establish a safety zone; and it must also describe the other provisions that the Secretary of State proposes to include in the safety zone notice¹⁷. That notice must also state the period within which objections to the proposal may be made and the manner in which any objections are to be made¹⁸. The period for making objections must not be shorter than the minimum period which would be applicable¹⁹ if the notice were being published in respect of an application for a safety zone notice²⁰. Where objections or copies of objections to the proposal have been sent to the Secretary of State, he must consider those objections, together with all other material considerations, with a view to determining whether a public inquiry should be held with respect to the proposal, and must, if he thinks it appropriate to do so, cause a public inquiry to be held, either in addition to or instead of any other hearing or opportunity of stating objections to the proposal²¹.

The following provisions apply where a public inquiry is to be held²². In the case of an inquiry to be held in respect of an application, the Secretary of State must inform the applicant that it is to be held and the applicant must, in two successive weeks, publish a notice in one or more local newspapers circulating in one or more areas determined in accordance with regulations made by the Secretary of State²³. In the case of an inquiry in respect of a proposal of the Secretary of State, he must publish a notice in such manner as he considers appropriate for bringing the inquiry to the attention of persons likely to be affected by the proposal²⁴. A notice that is published by the applicant or the Secretary of State²⁵ must contain a statement of the fact that the application or proposal has been made and a description of the application or proposal²⁶. It must also set out a place where a copy of the application or proposal, and of the map referred to in it, can be inspected²⁷, and the place, date and time of the public inquiry²⁸. If it appears to the Secretary of State, in the case of an inquiry in respect of such an application, that further notification of the inquiry should be given, in addition to the published notice, in order to secure that the matters set out in the published notice are sufficiently made known to persons who are likely to be affected by the application:

- 3426 (i) the Secretary of State may direct the applicant to take such further steps for that purpose, whether by the service of notices, advertisement or otherwise, as may be specified in the direction; and
- 3427 (ii) that person must comply with the direction²⁹;

and if it appears to the Secretary of State, in the case of an inquiry in respect of a proposal of his, that further notification of the inquiry should be given, in addition to the published notice, in order to secure that the matters set out in the published notice are sufficiently made known to persons who are likely to be affected by the proposal, he must take such further steps for that purpose, whether by the service of notices, advertisement or otherwise, as he considers appropriate³⁰.

The following provisions apply³¹ in the case of:

- 3428 (A) a public inquiry in England and Wales under the provisions set out above;
or
- 3429 (B) a public inquiry in England and Wales which is a combination³² into one inquiry of either two or more inquiries under the provisions set out above, or of one or more such inquiries and one or more other inquiries³³.

At any time after appointing a person to hold the inquiry ('the lead inspector'), the Secretary of State may direct him³⁴ to consider such matters relating to the conduct of the inquiry as are specified in the direction and to make recommendations to the Secretary of State about those

matters³⁵. After considering the recommendations of the lead inspector, the Secretary of State may appoint for the purposes of the inquiry such number of additional inspectors as he thinks appropriate and may direct that each additional inspector must consider such of the matters to which the inquiry relates as are allocated to him by the lead inspector³⁶. An additional inspector must comply with every direction as to procedural matters given to him by the lead inspector and must report to the lead inspector on every matter allocated to him³⁷. It is to be for the lead inspector to report to the Secretary of State on the consideration of both the matters which he considered himself and the matters the consideration of which was allocated to additional inspectors³⁸.

1 For these purposes, references to a safety zone notice are references to a notice under the Energy Act 2004 s 95 (see PARA 1314 ante); s 95(9), Sch 16 para 1.

2 For these purposes, 'relevant renewable energy installation', in relation to an application for a safety zone notice or a proposal by the Secretary of State to issue such a notice, means the renewable energy installation by reference to which the notice applied for or proposed would fall to be issued: *ibid* Sch 16 para 2. For the meaning of 'renewable energy installation' see PARA 1311 note 2 ante. As to the Secretary of State see PARA 601 note 1 ante.

3 For the meaning of 'constructed' see PARA 1312 note 4 ante.

4 For the meaning of 'extended' see PARA 1314 note 6 ante.

5 For the meaning of 'decommissioned' see PARA 1314 note 7 ante.

6 Energy Act 2004 Sch 16 para 3(1).

7 Regulations under *ibid* Sch 16 are subject to the negative resolution procedure: Sch 16 para 9. As to the negative resolution procedure see ss 192(2), 196(1); and PARA 602 note 2 ante.

8 *Ibid* Sch 16 para 3(2). An application for the declaration under s 95(2) (see PARA 1314 ante) of a safety zone must include the following information (in addition to that required by Sch 16 para 3(1), (2)(a)) (Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 3), ie:

99 (1) in relation to any proposed or existing relevant renewable energy installation:

81. (a) a description of the installation and its proposed or existing location and dimensions (including an explanation of how much of it is (or is expected to be) visible above the water line and how much below it), supported by drawings;

81

82. (b) a description of how the installation operates (or is to operate);

82

83. (c) a description of the location (or proposed location) of any electric line used (or proposed to be used) for the conveyance of electricity to or from the installation and any connection to such an electric line;

83

84. (d) a description of the location (or proposed location) of any offshore sub-station housing connection equipment;

84

85. (e) where the zone is sought in respect of more than one relevant renewable energy installation, the proposed or existing distances between such installations; and

85

86. (f) details of any navigational marking that has been specified for use with an installation of the description in question by a general lighthouse authority;

86

100 (2) in relation to any proposed or existing relevant renewable energy installation powered by waves or tides:

87. (a) a description of components located (or to be located) above and below the water line;

87

88. (b) details of any moving parts (or proposed parts) and of how far and in which direction such parts may move through waters surrounding the installation;
88
89. (c) a description of the extent and location (or proposed extent and location) of anchors, moorings and cables used (or to be used) in relation to the installation;
89
90. (d) details of the anticipated range of wave heights in the proposed safety zone, which may be given by reference to any generally accepted scale or code for expressing that information; and
90
91. (e) a description of typical spring and neap tidal data, and of typical tidal stream speeds and bearings, relating to waters in the proposed safety zone;
91
- 101 (3) in relation to the proposed safety zone;
92. (a) whether the zone relates to the construction, extension, operation or decommissioning of the relevant renewable energy installation;
92
93. (b) whether the applicant seeks the declaration of a standard safety zone, or if not, what dimensions are sought for that zone;
93
94. (c) a description of those works or operations in respect of which the zone is being applied for and their estimated date and duration;
94
95. (d) whether the applicant proposes that the area of the zone will vary and any factors or determinations by reference to which the applicant proposes that such variation may take place;
95
96. (e) whether the zone relates to major maintenance works in respect of a relevant renewable energy installation which has become operational;
96
97. (f) a statement setting out what steps, if any, the applicant proposes to take to monitor vessels and activities within the zone; and
97
98. (g) except where the Secretary of State has notified the applicant that it is not required, an up to date shipping traffic survey for the waters comprising the zone; and
98
- 102 (4) an assessment of the extent to which navigation might be possible or should be restricted, and whether restrictions would cause navigational problems, within or near waters where the relevant renewable energy installation is to be, or is being, constructed, extended, operated or decommissioned, as the case may be.

For these purposes, 'standard safety zone' means: (i) in the case of the proposed or ongoing construction, extension or decommissioning of a wind turbine, or of major maintenance works in respect of such an installation, a safety zone with a radius of 500 metres measured from the outer edge at sea level of the proposed or existing wind turbine tower; or (ii) in the case of the proposed or ongoing operation of a wind turbine, a safety zone with a radius of 50 metres measured from the outer edge at sea level of the proposed or existing wind turbine tower; and 'major maintenance works' means works relating to any renewable energy installation which has become operational, requiring the attachment to, or anchoring next to, such an installation of a self-elevating platform, jack-up barge, crane barge or other maintenance vessel: reg 2. For the meaning of 'general lighthouse authority' see the Merchant Shipping Act 1995 s 193(1); and SHIPPING AND MARITIME LAW vol 94 (2008) PARA 1068 (definition applied by the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 2).

9 Energy Act 2004 Sch 16 para 3(3).

10 'Prescribed' means prescribed by regulations under *ibid* Sch 16 para 4: Sch 16 para 4(4). See note 11 *infra*.

11 A notice required by or under *ibid* Sch 16 may be combined with a notice required by or under the Electricity Act 1989 Sch 8 (as amended) (procedure on application for a consent in respect of a generating station: see PARA 1260 *et seq ante*) in any case involving the same installation or proposed installation: Energy Act 2004 Sch 16 para 8.

The applicant must publish notice of an application (1) in two successive weeks in one or more local newspapers which are likely to come to the attention of those likely to be affected by the safety zone; (2) in Lloyd's List and in one or more national newspapers; (3) if there are in circulation one or more appropriate fishing trade journals which are published at intervals not exceeding one month, in at least one such trade journal; (4) in the London Gazette, unless the safety zone is proposed or located wholly within waters mentioned in head (5) or head (6) infra; (5) in the case of an application relating to a safety zone proposed or located wholly or partly in an area of Scottish waters or an area of waters in the Scottish part of the renewable energy zone, the Edinburgh Gazette; and (6) in the case of an application relating to a safety zone proposed or located wholly or partly in that part of the renewable energy zone that lies in the part of the sea which is treated as adjacent to Northern Ireland, the Belfast Gazette: see the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 4(1). At the same time as publishing the notice under reg 4(1)(a) (see head (1) supra, the applicant must send a copy of the notice to (a) the harbour masters of ports whose users are in the opinion of the applicant likely to be affected by the application; (b) the sector office of the Maritime and Coastguard Agency which is responsible for operations in the waters in which the safety zone is proposed or located; and (c) the local office of the Marine and Fisheries Agency which is responsible for operations in the waters in which the safety zone is proposed or located, requesting that the notice be displayed for a period of not less than 14 days at an address accessible during normal office hours to members of the public likely to be affected by the application: reg 4(2). 'Renewable energy zone' means the area designated by the Renewable Energy Zone (Designation of Area) Order 2004, SI 2004/2668 (see PARA 1310 ante): Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 2.

12 The applicant must, within 21 days of the earliest date of publication of the notice under *ibid* reg 4(1) (see note 11 supra), serve notice of an application upon (1) the Maritime and Coastguard Agency; (2) the Scottish Ministers, in the case of a safety zone proposed or located wholly or partly in an area of Scottish waters or an area of waters in the Scottish part of the renewable energy zone; (3) the National Assembly for Wales, in the case of a safety zone proposed or located wholly or partly in the internal or territorial waters adjacent to Wales; and (4) the owner (and operator, if a different person) of the relevant renewable energy installation where that person is not the applicant: *ibid* reg 5.

13 Energy Act 2004 Sch 16 para 4(1). Any notice published or served pursuant to the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, regs 4, 5 (see notes 11-12 supra) must state the time (which must not be less than 28 days from the date or latest date of publication of the notice, or less than 28 days from the service of the notice) within which, and the manner in which, any objections to the application for a safety zone notice are to be made: reg 6(1). Where a notice requires an objection to be sent to a person other than the Secretary of State, the recipient of that objection must within 14 days send a copy of it to the Secretary of State: reg 6(2).

14 Energy Act 2004 Sch 16 para 4(2).

15 *Ibid* Sch 16 para 4(3).

16 *Ibid* Sch 16 para 5(1), (2).

17 *Ibid* Sch 16 para 5(3).

18 *Ibid* Sch 16 para 5(4).

19 *Ie* in accordance with regulations under *ibid* Sch 16 para 4.

20 *Ibid* Sch 16 para 5(5).

21 *Ibid* Sch 16 para 5(6).

22 *Ibid* Sch 16 para 6(1).

23 *Ibid* Sch 16 para 6(2). Where a public inquiry is to be held in respect of an application and the applicant publishes notice of this pursuant to Sch 16 para 6(2)(b), the notice must be publicised within the same area within which the local newspapers used to publicise the notice of application under the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 4(1) circulate (see note 11 supra), and the place where a copy of the application for a safety zone, and of the map referred to in it, can be inspected must be at an address accessible during normal office hours to members of the public likely to be affected by the application: reg 7.

24 Energy Act 2004 Sch 16 para 6(3). For these purposes, a public inquiry under Sch 16 para 5(6), in a case where that provision applies by virtue of Sch 16 para 5(1)(b), is a public inquiry in respect of a proposal of the Secretary of State and is not a public inquiry in respect of an application: Sch 16 para 6(10).

25 le under ibid Sch 16 para 6(2) or (3): see the text and notes 23-24 supra.

26 Ibid Sch 16 para 6(4).

27 Ibid Sch 16 para 6(5)(a). The place set out in accordance with Sch 16 para 6(5)(a) in the case of an inquiry in respect of an application for a safety zone notice must be the place determined in accordance with regulations made by the Secretary of State: Sch 16 para 6(6).

28 Ibid Sch 16 para 6(5)(b).

29 Ibid Sch 16 para 6(7).

30 Ibid Sch 16 para 6(8). The Local Government Act 1972 s 250(2)-(5) (as amended) (which relates to evidence at inquiries and the costs of inquiries) applies in relation to a public inquiry held under the Energy Act 2004 Sch 16 as it applies in relation to a local inquiry which a minister causes to be held under the Local Government Act 1972 s 250(1): Energy Act 2004 Sch 16 para 6(9)(a).

31 le as from 6 April 2007: see the Energy Act 2004 (Commencement No 8) Order 2007, art 2.

32 le under the Electricity Act 1989 s 62 (as amended): see PARA 1299 ante.

33 Energy Act 2004 Sch 16 para 7(1).

34 The power of the Secretary of State to give directions to the lead inspector may be exercised on one or more different occasions after the appointment of the lead inspector: ibid Sch 16 para 7(6). Accordingly (1) the recommendations that may be made by the lead inspector following such a direction include, in particular, a recommendation for varying the number of additional inspectors; and (2) the power of the Secretary of State to appoint an additional inspector includes power to revoke such an appointment: Sch 16 para 7(7). A direction by any person under Sch 16 para 7 may be varied or revoked by a subsequent direction by that person: Sch 16 para 7(8).

35 Ibid Sch 16 para 7(2).

36 Ibid Sch 16 para 7(3).

37 Ibid Sch 16 para 7(4).

38 Ibid Sch 16 para 7(5).

UPDATE

1315 Procedure for the declaration of safety zones

TEXT AND NOTES--See Marine and Coastal Access Act 2009 s 13.

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(iii) Safety Zones for Installations/1316. Prohibited activities in safety zones.

1316. Prohibited activities in safety zones.

A vessel¹ is not to enter or remain in a safety zone² except where permission for it to do so is granted:

- 3430 (1) by or in accordance with provision contained in a safety zone notice³; or
- 3431 (2) by or in accordance with provision contained in regulations⁴ made by the Secretary of State⁵.

A person must not carry on an activity wholly or partly in a safety zone if his doing so is prohibited by or in accordance with provision contained in a safety zone notice⁶; but this does not apply to the extent that carrying on the activity is permitted:

- 3432 (a) by or in accordance with provision contained in such a notice; or
- 3433 (b) by or in accordance with provision contained in regulations made by the Secretary of State⁷.

The provision that may be made with respect to permissions for the purposes of the above provisions⁸ includes:

- 3434 (i) provision for the permissions to apply in relation only to such times and such periods as may be specified or described in that provision; and
- 3435 (ii) provision for the permissions to apply only to such vessels, such persons and such purposes as may be specified or described in that provision⁹;

and the provision that may be made with respect to a permission for those purposes includes provision imposing conditions in relation to a permission¹⁰. The conditions may include:

- 3436 (A) conditions imposing obligations in relation to a vessel, or individuals on it, that must be satisfied while the vessel is in the safety zone; and
- 3437 (B) conditions imposing obligations as to the manner in which any activity to which the permission relates is to be carried on¹¹.

1 For the meaning of 'vessel' see PARA 1314 note 12 ante.

2 For the meaning of 'safety zone' see PARA 1311 note 4 ante; and as to such zones see PARA 1314 ante.

3 I.e. a notice under the Energy Act 2004 s 95: see PARA 1314 ante.

4 Regulations under *ibid* s 96 (see the text and notes 1-3 *supra*, 5-11 *infra*) may confer discretions, with respect to the granting or imposition in accordance with the regulations of permissions or conditions, on such persons as may be specified or described in the regulations: s 96(7). Such regulations are subject to the negative resolution procedure: s 96(8). As to the negative resolution procedure see ss 192(2), 196(1); and PARA 602 note 2 ante.

5 *Ibid* s 96(1). As to the Secretary of State see PARA 601 note 1 ante.

The prohibitions under s 96(1) on a vessel entering and remaining in a safety zone do not apply if it is a vessel (1) belonging to, or acting under the authority of, a government department, the Environment Agency or the Scottish Environment Protection Agency, and engaged in the provision of services for, the transport of persons or goods to or from, or the inspection of any existing or proposed renewable energy installation in that safety zone; (2) belonging to a United Kingdom police force or the armed forces of the Crown, where that force is, or those forces are, acting in the course of its or their powers and duties; (3) belonging to or acting on behalf of a general lighthouse authority, where it is operating within the area specified in the Merchant Shipping Act 1995 s 193(1) (see SHIPPING AND MARITIME LAW vol 94 (2008) PARA 1068) as the area of that authority; (4) belonging to, or acting on behalf of a harbour authority, where that body is acting in the course of its powers and duties; (5) belonging to, or acting on behalf of, the Crown Estate, where that body is acting in the exercise of its rights established in a lease or licence relating to a renewable energy installation in that safety zone; (6) belonging to, or acting on behalf of, the holder of a licence granted under the Electricity Act 1989 s 6(1)(b) (as substituted) (see PARA 1065 ante) where that person is carrying out activities which it is authorised by the licence to carry on and which relate to offshore transmission (within the meaning of s 6C(6) (as added) (see PARA 1067 note 4 ante)); (7) acting in connection with the saving or attempted saving of life or property, or in connection with training exercises relating to the saving of life or property; (8) entering or remaining in a safety zone owing to stress of weather or when in distress; or (9) entering or remaining in a safety zone in connection with an activity mentioned in the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 9(2) (see note 6 infra): reg 9(1). For the meaning of 'harbour authority' see the Harbours Act 1964 s 57(1); and PORTS AND HARBOURS vol 36(1) (2007 Reissue) PARA 619 (definition applied by the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 2).

6 Energy Act 2004 s 96(2). The prohibitions under s 96(2) on a person carrying out activities wholly or partly in a safety zone do not apply: (1) in connection with the construction, service, maintenance or decommissioning by an owner or operator of any existing or proposed renewable energy installation in that safety zone; (2) in connection with the laying, inspection, testing, repair, alteration, renewal or removal of any submarine cable in a safety zone which relates to any existing or proposed renewable energy installation in that zone; (3) in connection with monitoring activities required to be undertaken by or on behalf of an owner or operator in order to comply with the terms of a statutory consent or licence relating to an existing or proposed renewable energy installation in that safety zone, including but not limited to (a) bird monitoring; (b) benthic investigations; and (c) sampling of fish densities; or (4) in connection with activities undertaken in accordance with the Electricity (Offshore Generating Stations) (Safety Zones) (Application Procedures and Control of Access) Regulations 2007, SI 2007/1948, reg 9(1) (see note 5 supra): reg 9(2).

7 Energy Act 2004 s 96(3); and see notes 5-6 supra.

8 le for the purposes of *ibid* s 96.

9 *Ibid* s 96(4).

10 *Ibid* s 96(5).

11 *Ibid* s 96(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(iii) Safety Zones for Installations/1317. Offences relating to safety zones.

1317. Offences relating to safety zones.

Where a vessel¹:

3438 (1) enters or remains in a safety zone² in contravention of the prohibition on doing so without permission³;

3439 (2) enters or remains in a safety zone with a permission granted for the statutory purposes⁴, and there is a contravention of a condition of that permission in relation to the vessel or individuals on the vessel,

the vessel's owner and her master⁵ are each guilty of an offence⁶.

A person is guilty of an offence:

3440 (a) if he carries on an activity wholly or partly in a safety zone in contravention⁷ of a prohibition on doing so⁸;

3441 (b) where he carries on an activity wholly or partly in a safety zone with a permission granted for the statutory purposes⁹ and there is a contravention of a condition of that permission in relation to the carrying on of that activity¹⁰.

A person guilty of an offence under the above provisions is liable on summary conviction to a fine not exceeding the statutory maximum¹¹ and on conviction on indictment to imprisonment for a term not exceeding two years, or a fine, or to both¹².

In proceedings against a person as the owner of a vessel for an offence under head (1) or head (2) above, however, it is a defence for him to show that the existence of the safety zone was not known to the master of the vessel in question at the time of the offence and would not have become known to the master had he made reasonable inquiries before that time¹³. In any other proceedings against a person for an offence under the above provisions, it is a defence for that person to show that the existence of the safety zone was not known to him at the time of the offence and would not have become known to him had he made reasonable inquiries before that time¹⁴. It is also a defence in proceedings against a person for such an offence for that person to show that he took all reasonable steps to prevent the contravention in question¹⁵.

Where the commission of an offence under the above provisions is due:

3442 (i) in the case of an offence under head (1) or head (2) above, to an act or omission of a person other than the owner or master of the vessel in question; or

3443 (ii) in the case of an offence under head (a) or head (b) above, to an act or omission of a person other than the person carrying on the activity in question,

that person is also guilty of that offence and is liable to be proceeded against and dealt with accordingly¹⁶. Where any such offence is committed:

3444 (A) by a body corporate and is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, a

director¹⁷, manager, secretary or other similar officer of the body corporate, or a person who was purporting to act in any such capacity, he, as well as the body corporate, is guilty of that offence and is liable to be proceeded against and dealt with accordingly¹⁸;

3445 (B) by a Scottish firm, and is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, a partner of the firm, he, as well as the firm, is guilty of that offence and is liable to be proceeded against and dealt with accordingly¹⁹;

3446 (C) outside the United Kingdom²⁰, proceedings for the offence may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom²¹.

1 For the meaning of 'vessel' see PARA 1314 note 12 ante.

2 For the meaning of 'safety zone' see PARA 1311 note 4 ante; and as to such zones see PARA 1314 ante.

3 In contravention of the Energy Act 2004 s 96(1): see PARA 1316 ante. For the meaning of 'contravention' see PARA 761 note 7 ante.

4 In a permission granted for the purposes of ibid s 96: see PARA 1316 ante.

5 'Master' includes (1) in relation to a hovercraft, the captain; (2) in relation to any submersible apparatus, the person in charge of the apparatus; and (3) in relation to an installation in transit, the person in charge of the transit operation: ibid s 104(1). For the meaning of 'submersible apparatus' see PARA 1314 note 12 ante; and for the meaning of 'installation' see PARA 1311 note 2 ante.

6 Ibid s 97(1), (2).

7 In contravention of ibid 96(2): see PARA 1316 ante.

8 See ibid s 97(3).

9 See note 4 supra.

10 Energy Act 2004 s 97(4).

11 As to the statutory maximum see PARA 689 note 2 ante.

12 Energy Act 2004 s 97(5).

13 Ibid s 97(6).

14 Ibid s 97(7).

15 Ibid s 97(8).

16 Ibid s 98(1).

17 For these purposes, 'director', in relation to a body corporate whose affairs are managed by its members, means a member of the body corporate: ibid s 98(6).

18 Ibid s 98(2).

19 Ibid s 98(3).

20 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

21 Energy Act 2004 s 98(4). The Territorial Waters Jurisdiction Act 1878 s 3 (consents to prosecution of offences committed on the open sea by persons who are not British citizens: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1056) does not apply to proceedings for an offence under the Energy Act 2004 s 97: s 98(5). Provision made by or under Pt 2 Ch 2 (ss 84-104) (see PARA 1310 et seq ante, PARA 1318 post) in relation to places outside the United Kingdom (1) so far as it applies to individuals, applies to them whether or not they are British citizens; and (2) so far as it applies to bodies corporate, applies to them whether or not they are incorporated under the law of a part of the United Kingdom: s 104(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(iv) Navigation and Civil Aviation/1318. Navigation.

(iv) Navigation and Civil Aviation

1318. Navigation.

The construction, extension and operation of a generating station requires the consent of the Secretary of State¹. Where the generating station comprises, or is to comprise, in whole or in part, renewable energy installations situated at places in relevant waters², the Secretary of State may, at the same time as granting the required consent, make a declaration extinguishing, suspending or restricting rights of navigation so far as they pass through some or all of those places³.

The Secretary of State may not grant a consent in relation to any particular offshore generating activities⁴ if he considers that they are likely to interfere with the use of recognised sea lanes essential to international navigation⁵; and in determining whether to give a consent for any such activities and what conditions to include in such a consent he must have regard to the extent and nature of any other likely obstruction of, or danger to, navigation which they may cause⁶.

These matters have already been discussed in more detail in an earlier part of this title⁷.

1 See the Electricity Act 1989 s 36 (as amended); and PARA 1249 ante. As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'relevant waters' for these purpose see PARA 1250 note 6 ante.

3 See the Electricity Act 1989 s 36A (as added); and PARA 1250 ante. See also the Energy Act 2004 s 100; and PARA 1250 ante.

4 For the meaning of 'offshore generating activities' see PARA 1251 note 3 ante.

5 For the meaning of 'the use of recognised sea lanes essential to international navigation' see PARA 1251 note 4 ante.

6 See the Electricity Act 1989 s 36B (as added); and PARA 1251 ante.

7 See PARAS 1250-1251 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(1) OFFSHORE PRODUCTION OF ENERGY/(iv) Navigation and Civil Aviation/1319. Civil aviation.

1319. Civil aviation.

So far as relates to a provision of an Order in Council or regulation concerning aircraft on or in the neighbourhood of a renewable energy installation¹, the power to make extra-territorial provisions under the Civil Aviation Act 1982²:

3447 (1) applies to all aircraft, and not only to aircraft registered in the United Kingdom³; and

3448 (2) applies to the doing of anything in relation to an aircraft by any person, irrespective of nationality, or, in the case of a body corporate, of the law under which it was incorporated⁴.

Without prejudice to the above provision, an air navigation order may make provision in relation to renewable energy installations located within a renewable energy zone⁵ as if those installations were located in a part of the United Kingdom⁶; and such provision may apply to any person irrespective of nationality or, in the case of a body corporate, of the law under which it was incorporated⁷.

1 For these purposes, 'renewable energy installation' has the same meaning as in the Energy Act 2004 Pt 2 Ch 2 (ss 84-104) (see PARA 1310 et seq ante): Civil Aviation Act 1982 Sch 13 Pt III paras 6(9), 7(3) (Sch 13 Pt III paras 6(7)-(9), 7 added by the Energy Act 2004 s 101(4), (5)). For the meaning of 'renewable energy installation' for those purposes see PARA 1311 note 2 ante. The neighbourhood of an installation includes anywhere within 500 metres of that installation: see the Civil Aviation Act 1982 Sch 13 Pt III para 6(8) (as so added).

2 *Ibid* Sch 13 Pt III para 6 (as amended): see AIR LAW vol 2 (2008) PARA 30.

3 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 Civil Aviation Act 1982 Sch 13 Pt III para 6(7) (as added: see note 1 supra).

5 For these purposes, 'renewable energy zone' has the same meaning as in the Energy Act 2004 Pt 2 Ch 2: Civil Aviation Act 1982 Sch 13 Pt III para 7(3) (as added: see note 1 supra). For the meaning of 'renewable energy zone' for those purposes see PARA 1310 ante.

6 *Ibid* Sch 13 Pt III para 7(1) (as added: see note 1 supra).

7 *Ibid* Sch 13 Pt III para 7(2) (as added: see note 1 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(i) Duty to inform the Secretary of State/1320. Duty to inform Secretary of State.

(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS

(i) Duty to inform the Secretary of State

1320. Duty to inform Secretary of State.

A person who becomes responsible for a relevant object¹ must notify the Secretary of State² that he has become so responsible³. For these purposes, a person becomes responsible for a relevant object if:

- 3449 (1) he makes a proposal to construct⁴ the object in regulated waters⁵;
- 3450 (2) he makes a proposal for the extension⁶ or decommissioning⁷ in such waters of the object;
- 3451 (3) he makes a proposal to operate or use the object on completion of its construction in such waters;
- 3452 (4) he makes a proposal to operate or use the object on completion in such waters of any extension of it;
- 3453 (5) he becomes a party to a proposal mentioned in heads (1) to (4) above;
- 3454 (6) he begins in such waters to construct, to extend, to operate or use or to decommission the object;
- 3455 (7) he begins to participate in any of the following activities⁸ carried on in such waters, namely the construction, extension, operation or use or decommissioning of the object⁹.

A person is not, however, required to notify the Secretary of State that he has made a proposal, or become a party to a proposal, at any time before at least one of the statutory consents¹⁰ required for enabling effect to be given to the proposal has been given or applied for¹¹.

A person who notifies the Secretary of State under these provisions that he has made a proposal, or has become a party to a proposal:

- 3456 (a) must specify in the notification what statutory consents required for giving effect to the proposal have been given, and what applications for such consents have been made; and
- 3457 (b) must notify him subsequently whenever such a consent or application is given or made¹².

A notification under the above provisions must be given within such period after the obligation to give the notification arises as may be prescribed by regulations¹³ made by the Secretary of State¹⁴.

A person who contravenes¹⁵ the above requirements is guilty of an offence¹⁶.

1 For the purposes of the Energy Act 2004 Pt 2 Ch 3 (ss 105-114) (see the text and notes 2-16 infra; and PARA 1321 et seq post) 'relevant object' means the whole or any part of (1) a renewable energy installation; or

(2) an electric line that is or has been a related line: ss 105(10), 114(2). 'Related line' means an electric line which is a line for the conveyance of electricity to or from a renewable energy installation but is not an electricity interconnector (within the meaning of the Electricity Act 1989 Pt I (ss 4A-64) (as amended) (see PARA 1041 note 11 ante); Energy Act 2004 s 105(11). For the meaning of 'renewable energy installation' see PARA 1311 note 2 ante (definition applied by s 114(1)); and for the meaning of 'electric line' see PARA 1041 note 5 ante (definition applied by ss 104(1), 114(1)).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Energy Act 2004 s 112(1).

4 For the meaning of 'construct' see PARA 1312 note 4 ante (definition applied by ibid s 114(1)).

5 The waters regulated under ibid Pt 2 Ch 3. 'Waters regulated under Pt 2 Ch 3' means (1) waters in or adjacent to Great Britain which are between the mean low water mark and the seaward limits of the territorial sea; and (2) waters in a renewable energy zone: ss 105(10), 114(2). For the meaning of 'Great Britain' see PARA 602 note 7 ante; for the meaning of 'renewable energy zone' see PARA 1310 ante (definition applied by s 114(1)); and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

6 'Extend' and 'extension', in relation to an electric line, have the same meanings as they have in Pt 2 Chs 2, 3 in relation to a renewable energy installation (see PARA 1314 note 6 ante): ss 114(1), (2).

7 For the meaning of 'decommission' see PARA 1314 note 7 ante (definition applied by ibid s 114(1)). As to decommissioning programmes see PARA 1321 et seq post.

8 A reference in ibid s 112 to participation in activities does not include a reference (1) to participation on behalf of another person; or (2) to participation by acting in pursuance of an agreement to provide a service or services to a person carrying on those activities: s 112(8).

9 Ibid s 112(2).

10 For these purposes, 'statutory consent' means a consent, licence or approval required by or under any enactment: ibid ss 105(11), 112(9). For the meaning of 'enactment' see PARA 750 note 9 ante.

11 Ibid s 112(3).

12 Ibid s 112(4).

13 Regulations under ibid s 112 are subject to the negative resolution procedure: s 112(7). As to the negative resolution procedure see ss 192(2), 196(1); and PARA 602 note 2 ante.

14 Ibid s 112(5). At the date at which this title states the law no such regulations had been made.

15 For the meaning of 'contravention' and cognate expressions see PARA 761 note 7 ante.

16 Ibid s 112(6). As to the penalties for such an offence see PARA 1328 post.

UPDATE

1320 Duty to inform Secretary of State

TEXT AND NOTES--The Secretary of State may by notice require specified persons to provide the Secretary of State with such relevant information or documents as the Secretary of State may require in connection with the exercise of functions under the Energy Act 2004 Pt 2 Ch 3 (ss 105-114): see Energy Act 2004 s 112A (added by Energy Act 2008 s 71).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(ii) Decommissioning Programmes/1321. Requirement to prepare decommissioning programmes.

(ii) Decommissioning Programmes

1321. Requirement to prepare decommissioning programmes.

The following provisions apply where:

- 3458 (1) there is a proposal by a person to construct¹ a relevant object² in regulated waters³, or to extend⁴ a relevant object in such waters;
- 3459 (2) there is a proposal by a person to operate or to use a relevant object in such waters on the completion of its construction, or of any extension of it in such waters; or
- 3460 (3) a person is constructing, extending, operating or using a relevant object in such waters or has begun in such waters to decommission⁵ such an object⁶.

The Secretary of State⁷ may by notice require that person to submit to him a programme for decommissioning the relevant object (a 'decommissioning programme')⁸. He may, however, require a person to submit a decommissioning programme in respect of proposals made by that person only if the Secretary of State is satisfied that at least one of the statutory consents⁹ required for enabling that person to give effect to those proposals has been given, or has been applied for and is likely to be given¹⁰. Where there is more than one person to whom such a notice may be given it may be given to any one or more of them¹¹ and, where it is given to more than one of them, the requirement to submit a programme must be satisfied by all those persons acting jointly¹². Before giving such a notice in relation to a relevant object which is to be or is, wholly or partly, either in an area of Scottish waters¹³, or in an area of waters in a Scottish part of a renewable energy zone¹⁴, the Secretary of State must consult the Scottish Ministers¹⁵.

A notice under these provisions must either specify the date by which the decommissioning programme is to be submitted¹⁶ or require it to be submitted on or before such date as the Secretary of State may direct¹⁷. It may require the recipient¹⁸ of the notice to carry out the consultations specified in the notice before submitting the programme required of him¹⁹.

A decommissioning programme:

- 3461 (a) must set out measures to be taken for decommissioning the relevant object;
- 3462 (b) must contain an estimate of the expenditure likely to be incurred in carrying out those measures;
- 3463 (c) must make provision for the determination of the times at which, or the periods within which, those measures will have to be taken;
- 3464 (d) if it proposes that the relevant object will be wholly or partly removed from a place in regulated waters, must include provision about restoring that place to the condition that it was in prior to the construction of the object; and
- 3465 (e) if it proposes that the relevant object will be left in position at a place in regulated waters or will not be wholly removed from a place in such waters, must

include provision about whatever continuing monitoring and maintenance of the object will be necessary²⁰.

A notice under the above provisions may require the recipient of the notice to submit any of the following with the decommissioning programme:

- 3466 (i) such information and documents relating to the place where the relevant object is or is to be situated as may be specified in the notice;
- 3467 (ii) such specifications relating to the relevant object as may be specified in the notice;
- 3468 (iii) such information and documents relating to the financial affairs of the recipient as may be specified in the notice; and
- 3469 (iv) details of the security²¹, if any, that the recipient proposes to provide²² in relation to the carrying out of the decommissioning programme and for his compliance with any conditions of its approval²³.

1 For the meaning of 'construct' see PARA 1312 note 4 ante (definition applied by the Energy Act 2004 s 114(1)).

2 For the meaning of 'relevant object' see PARA 1320 note 1 ante.

3 The waters regulated under the Energy Act 2004 Pt 2 Ch 3 (ss 105-114) (see PARA 1320 ante; the text and notes 4-23 infra; and PARA 1322 et seq post). For the meaning of 'waters regulated under Pt 2 Ch 3' see PARA 1320 note 5 ante.

4 For the meaning of 'extend' see PARA 1320 note 6 ante.

5 For the meaning of 'decommission' see PARA 1314 note 7 ante (definition applied by the Energy Act 2004 s 114(1)).

6 Ibid s 105(1).

7 As to the Secretary of State see PARA 601 note 1 ante.

8 Energy Act 2004 s 105(2).

9 For the meaning of 'statutory consent' see PARA 1320 note 10 ante.

10 Energy Act 2004 s 105(3). For this purpose it is, however, immaterial that a statutory consent that has been or may be given will have no effect before a particular time or unless particular conditions are satisfied: s 105(3).

11 Ibid s 105(4)(a).

12 Ibid s 105(4)(b).

13 For the meaning of 'Scottish waters' see PARA 1314 note 18 ante (definition applied by ibid s 114(1)).

14 For the meaning of 'Scottish part', in relation to a renewable energy zone, see PARA 1314 note 19 ante (definition applied by ibid s 114(1)); and for the meaning of 'renewable energy zone' see PARA 1310 ante (definition as so applied).

15 Ibid s 105(5).

16 Ibid s 105(6)(a).

17 Ibid s 105(6)(b).

18 'Recipient', in relation to a notice under ibid s 105, means the person or any one or more of the persons to whom that notice was given: s 114(2).

19 Ibid s 105(7).

20 Ibid s 105(8).

21 'Security' includes (1) a charge over a bank account or any other asset; (2) a deposit of money; (3) a performance bond or guarantee; (4) a letter of credit; and (5) a letter of comfort: ibid s 114(2).

22 For these purposes, references to providing a security include references (1) to securing its maintenance or renewal; and (2) to ensuring that its value is adjusted from time to time to take account of changes to the likely costs of the matters in respect of which it is given: ibid s 114(3).

23 Ibid s 105(9).

UPDATE

1321 Requirement to prepare decommissioning programmes

TEXT AND NOTES--See also Energy Act 2004 s 105A (added by Energy Act 2008 s 69(4)) (section 105 notices: supplemental).

TEXT AND NOTES 8, 10--Energy Act 2004 s 105(2), (3) amended: Energy Act 2008 s 69(2), (3).

NOTE 21--Definition of 'security' in Energy Act 2004 s 114(2) amended to include an insurance policy: Energy Act 2008 s 70(2).

TEXT AND NOTE 23--Energy Act 2004 s 105(9) repealed: Energy Act 2008 Sch 5 para 17, Sch 6.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(ii) Decommissioning Programmes/1322. Approval of decommissioning programmes.

1322. Approval of decommissioning programmes.

The Secretary of State¹ may either approve or reject a decommissioning programme submitted² to him³. Before approving or rejecting a decommissioning programme relating to a relevant object⁴ which is to be or is, wholly or partly, either in an area of Scottish waters⁵, or in an area of waters in a Scottish part of a renewable energy zone⁶, the Secretary of State must consult the Scottish Ministers⁷.

If the Secretary of State approves a programme, he may do so:

- 3470 (1) with or without modifications⁸; and
- 3471 (2) either subject to conditions or unconditionally⁹;

and his power to approve it subject to conditions includes, in particular, power to approve it subject to a condition that the person who submitted the programme¹⁰:

- 3472 (a) provides such security¹¹ in relation to the carrying out of the programme, and for his compliance with the conditions, if any, of its approval, as may be specified by the Secretary of State; and
- 3473 (b) provides that security at such time, and in accordance with such requirements, as may be specified by the Secretary of State¹².

That power to approve a programme subject to conditions also includes power, where more than one person submitted it, to impose different conditions in relation to different persons¹³.

Before approving a programme with modifications or subject to conditions, the Secretary of State must give the person who submitted it an opportunity of making representations about the proposed modifications or conditions¹⁴.

If he rejects a programme, the Secretary of State:

- 3474 (i) must inform the person who submitted it of his reasons for doing so; and
- 3475 (ii) may exercise his power¹⁵ to require the submission of a new one¹⁶.

The Secretary of State must act without unreasonable delay in reaching a decision as to whether to approve or reject a programme¹⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. a programme submitted under the Energy Act 2004 s 105: see PARA 1321 ante.

3 Ibid s 106(1).

4 For the meaning of 'relevant object' see PARA 1320 note 1 ante.

5 For the meaning of 'Scottish waters' see PARA 1314 note 18 ante (definition applied by the Energy Act 2004 s 114(1)).

6 For the meaning of 'Scottish part', in relation to a renewable energy zone, see PARA 1314 note 19 ante (definition applied by *ibid* s 114(1)); and for the meaning of 'renewable energy zone' see PARA 1310 ante (definition as so applied).

7 *Ibid* s 106(2).

8 For the meaning of 'modification' see PARA 733 note 8 ante.

9 Energy Act 2004 s 106(3).

10 References in *ibid* Pt 2 Ch 3 to the person by whom a decommissioning programme was submitted are references, in the case of a programme submitted jointly by more than one person, to each of them: s 114(4).

11 For the meaning of 'security' see PARA 1321 note 21 ante; and for the meaning of references to providing a security see PARA 1321 note 22 ante.

12 Energy Act 2004 s 106(4).

13 *Ibid* s 106(6).

14 *Ibid* s 106(5).

15 *Ie* under *ibid* s 105: see PARA 1321 ante.

16 *Ibid* s 106(7).

17 *Ibid* s 106(8).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(ii) Decommissioning Programmes/1323. Failure to submit, or rejection of, decommissioning programmes.

1323. Failure to submit, or rejection of, decommissioning programmes.

Where either a notice given requiring the preparation of a decommissioning programme¹ is not complied with, or the Secretary of State² rejects a programme submitted to him, the Secretary of State may himself prepare a decommissioning programme in relation to the relevant object³ in question⁴. Before himself preparing a decommissioning programme relating to a relevant object which is to be or is, wholly or partly, either in an area of Scottish waters⁵, or in an area of waters in a Scottish part of a renewable energy zone⁶, the Secretary of State must consult the Scottish Ministers⁷.

Where the Secretary of State prepares a decommissioning programme under these provisions:

- 3476 (1) he must give notice informing the recipient⁸ of the previous notice given⁹ that he has done so; and
- 3477 (2) the relevant statutory provisions¹⁰ have effect subsequently as if the Secretary of State's programme were a programme submitted to him by the person informed and had been approved by the Secretary of State subject to the conditions specified by the Secretary of State¹¹.

Where the Secretary of State so informs a person that he has prepared his own decommissioning programme, he may by notice to that person require him¹²:

- 3478 (a) to provide such security¹³ in relation to the carrying out of the programme, and for his compliance with its conditions, if any, as may be specified by the Secretary of State; and
- 3479 (b) to provide it at such time, and in accordance with such requirements, as may be specified by the Secretary of State;

and such a requirement has effect as if it were a condition of the deemed approval of the programme¹⁴.

The Secretary of State may by notice require the recipient of a notice requiring the preparation of a decommissioning programme¹⁵ to provide him with such information and documents¹⁶ as he may require for the purpose of exercising his powers under the above provisions¹⁷. Information and documents so required to be provided must be provided within such period as may be specified in the notice¹⁸; and a person who fails, without reasonable excuse, to comply with such a notice is guilty of an offence¹⁹.

Where, having given a notice requiring the preparation of a decommissioning programme²⁰, the Secretary of State prepares his own decommissioning programme, he may recover expenditure incurred by him in, or in connection with, the exercise of his powers under the above provisions from the recipient of the notice²¹. A person liable to pay a sum to the Secretary of State by virtue of that power to recover expenditure must also pay interest²² on that sum for the period which begins with the day on which the Secretary of State notified him of the sum payable and ends with the date of payment²³.

- 1 le a notice under the Energy Act 2004 s 105: see PARA 1321 ante.
- 2 As to the Secretary of State see PARA 601 note 1 ante.

UPDATE

1323 Failure to submit, or rejection of, decommissioning programmes

TEXT AND NOTES 17-19--Energy Act 2004 s 107(5)-(7) repealed: Energy Act 2008 Sch 5 para 18, Sch 6.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(ii) Decommissioning Programmes/1324. Reviews and revisions of decommissioning programmes.

1324. Reviews and revisions of decommissioning programmes.

The Secretary of State¹ must, from time to time, conduct such reviews of a decommissioning programme² approved by him as he considers appropriate³.

A proposal:

- 3480 (1) to modify⁴ a decommissioning programme approved by the Secretary of State, or to modify a condition to which such a programme is subject, may be made by the Secretary of State, or by the person who submitted the programme or, if there is more than one of them, by all of them acting jointly⁵;
- 3481 (2) to relieve a person of his duty in relation to carrying out a decommissioning programme⁶ approved by the Secretary of State, or, as respects such a programme, to impose that duty upon a person not previously subject to it, whether in addition to or in substitution for another person, may be made by the Secretary of State or by the person for the time being subject to that duty or, if there is more than one person subject to that duty, by any one or more of them⁷.

A proposal under head (1) or head (2) above may be made only by way of notice given:

- 3482 (a) if the proposal is the Secretary of State's, to every person whose duty in relation to carrying out the programme⁸ would be affected or relieved under the proposal or who would become subject to such a duty; and
- 3483 (b) in any other case, to the Secretary of State⁹.

An opportunity of making representations to the Secretary of State about a proposal of his under these provisions must be given by him to every person to whom notice of the proposal is required to have been given¹⁰.

It is to be for the Secretary of State, after considering any representations made to him, to determine whether or not effect should be given to a proposal of his, or of any other person, under the above provisions¹¹. Before making such a determination with respect to a proposal in relation to a decommissioning programme relating to a relevant object¹² which is to be or is, wholly or partly, either in an area of Scottish waters¹³, or in an area of waters in a Scottish part of a renewable energy zone¹⁴, the Secretary of State must consult the Scottish Ministers¹⁵. Where the Secretary of State makes such a determination, he must give notice of his determination, and of his reasons for it, to:

- 3484 (i) every person who, before the determination, had a duty in relation to the carrying out of the programme¹⁶; and
- 3485 (ii) every person who will become subject to such a duty as a result of the determination¹⁷.

Where the Secretary of State so gives notice in respect of a proposal, the relevant statutory provisions¹⁸ have effect after the giving of that notice:

3486 (A) in the case of a proposal under head (1) above, as if the programme in question had been approved subject to the modifications specified in the determination; and

3487 (B) in the case of a proposal under head (2) above, as if that programme had been submitted to the Secretary of State by the person or persons so specified¹⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'decommissioning programme' see PARA 1321 ante (definition applied by the Energy Act 2004 s 114(2)).

1324 Reviews and revisions of decommissioning programmes

TEXT AND NOTE 7--See also Energy Act 2004 s 108(3A) (added by Energy Act 2008 s 69(5)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(iii) Implementation of Decommissioning Programmes/1325. Carrying out of decommissioning programmes.

(iii) Implementation of Decommissioning Programmes

1325. Carrying out of decommissioning programmes.

Where a decommissioning programme¹ is approved by the Secretary of State², it is the duty of the person who submitted the programme³ to secure:

- 3488 (1) that it is carried out in every respect; and
- 3489 (2) that all the conditions to which the approval is subject are complied with⁴.

Where a relevant object⁵ is subject to a decommissioning programme approved by the Secretary of State, it is an offence for a person to take any measures for decommissioning⁶ that object unless he does so either in accordance with the programme, or with the agreement of the Secretary of State⁷.

¹ For the meaning of 'decommissioning programme' see PARA 1321 ante (definition applied by the Energy Act 2004 s 114(2)).

² As to the Secretary of State see PARA 601 note 1 ante; and as to his approval of decommissioning programmes see PARA 1322 ante.

³ For the meaning of references to the person who submitted the programme see PARA 1322 note 10 ante.

⁴ Energy Act 2004 s 109(1).

⁵ For the meaning of 'relevant object' see PARA 1320 note 1 ante.

⁶ For the meaning of 'decommission' see PARA 1314 note 7 ante (definition applied by the Energy Act 2004 s 114(1)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(iii) Implementation of Decommissioning Programmes/1326. Default in carrying out decommissioning programmes.

1326. Default in carrying out decommissioning programmes.

Where either:

- 3490 (1) a decommissioning programme¹ approved by the Secretary of State² is not carried out in a particular respect; or
- 3491 (2) a condition to which the approval is subject is contravened³,

the Secretary of State may, by notice, require a person subject to the statutory duty in relation to carrying out the programme⁴ to take such remedial action as may be specified in the notice⁵.

Remedial action required by a notice under these provisions must be taken within such period as may be specified in the notice⁶; and a person who fails to comply with a notice so given to him is guilty of an offence⁷. In proceedings against a person for such an offence it is, however, a defence for him to show that he exercised due diligence to avoid the contravention in question⁸.

If a notice under these provisions is not complied with, the Secretary of State may:

- 3492 (a) himself secure the carrying out of the remedial action required by the notice; and
- 3493 (b) recover any expenditure incurred by him in doing so from the person to whom the notice was given⁹.

A person liable to pay a sum to the Secretary of State by virtue of heads (a) and (b) above must also pay interest¹⁰ on that sum for the period which begins with the day on which the Secretary of State notified him of the sum payable and ends with the date of payment¹¹.

¹ For the meaning of 'decommissioning programme' see PARA 1321 ante (definition applied by the Energy Act 2004 s 114(2)).

² As to the Secretary of State see PARA 601 note 1 ante; and as to his approval of decommissioning programmes see PARA 1322 ante.

⁷ Ibid s 110(3). As to the penalty for such an offence see PARA 1328 post.

⁸ Ibid s 110(4).

⁹ Ibid s 110(5).

¹⁰ The rate of interest must be a rate determined by the Secretary of State to be comparable with commercial rates: ibid s 110(7).

11 Ibid s 110(6).

UPDATE

1326 Default in carrying out decommissioning programmes

TEXT AND NOTES--Where any security in relation to the carrying out of an approved decommissioning programme, or for compliance with the conditions of its approval, has been provided by a person ('the security provider') by way of a trust or other arrangements, the manner in which, and purposes for which, the protected assets are to be applied and enforceable (whether in the event of the security provider's insolvency or otherwise) is to be determined in accordance with the trust or other arrangements: Energy Act 2004 s 110A(1), (3) (ss 110A, 110B added by Energy Act 2008 s 70(1)). In the Energy Act 2004 s 110A a reference to 'the protected assets' is a reference to the security and any property or rights in which it consists: s 110A(2). For the purposes of s 110A(3), no regard is to be had to so much of the Insolvency Act 1986, the Insolvency (Northern Ireland) Order 1989 or any other enactment or rule of law as, in its operation in relation to the security provider or any conduct of the security provider, would (1) prevent or restrict the protected assets from being applied in accordance with the trust or other arrangement, or (2) prevent or restrict their enforcement for the purposes of being so applied: Energy Act 2004 s 110A(4). In s 110A(4) 'enactment' includes an instrument made under an enactment: s 110A(5). Supplemental provision is made: see Energy Act 2004 s 110B.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(iv) Decommissioning Regulations/1327. Regulations about decommissioning.

(iv) Decommissioning Regulations

1327. Regulations about decommissioning.

The Secretary of State¹ may make regulations² relating to the decommissioning³ of relevant objects⁴ in regulated⁵ waters⁶. The provision that may be contained in such regulations includes, in particular:

- 3494 (1) provision prescribing standards in respect of decommissioning;
- 3495 (2) provision prescribing standards and safety requirements in respect of anything left in place where a relevant object is not wholly removed;
- 3496 (3) provision about the security⁷ that a person may be required to provide⁸;
- 3497 (4) provision for the prevention of pollution;
- 3498 (5) provision for inspections, including provision as to the payment of the costs of inspections⁹.

Regulations so made may include provision making it an offence to contravene¹⁰ provisions of the regulations¹¹. Where those regulations create an offence, they must make provision as to the mode of trial and punishment of offenders; but there is no power for such regulations:

- 3499 (a) to impose a penalty of imprisonment on summary conviction, or to impose a maximum fine, on summary conviction, of more than the statutory maximum¹²; or
- 3500 (b) to impose a maximum term of imprisonment, on conviction on indictment, of more than two years¹³.

Before making regulations under these provisions:

- 3501 (i) the Secretary of State must consult organisations appearing to him to be representative of persons who will be affected by the regulations, and any other persons he considers appropriate¹⁴;
- 3502 (ii) containing provision that relates to the decommissioning of relevant objects which are to be or are, wholly or partly, either in Scottish waters¹⁵, or in waters in a Scottish part of a renewable energy zone¹⁶, the Secretary of State must consult the Scottish Ministers¹⁷.

¹ As to the Secretary of State see PARA 601 note 1 ante.

² Such regulations are subject to the negative resolution procedure: Energy Act 2004 s 111(7). As to the negative resolution procedure see ss 192(2), 196(1); and PARA 602 note 2 ante.

³ For the meaning of 'decommission' see PARA 1314 note 7 ante (definition applied by ibid s 114(1)).

⁴ For the meaning of 'relevant object' see PARA 1320 note 1 ante.

⁵ ie in waters regulated under the Energy Act 2004 Pt 2 Ch 3 (ss 105-114): see PARA 1320 et seq ante; the text and notes 1-4 supra, 6-17 infra; and PARA 1328 post.

- 6 Ibid s 111(1). At the date at which this title states the law no such regulations had been made.
- 7 For the meaning of 'security' see PARA 1321 note 21 ante.
- 8 le under the Energy Act 2004 Pt 2 Ch 3. For the meaning of references to providing a security see PARA 1321 note 22 ante.
- 9 Ibid s 111(2).
- 10 For the meaning of 'contravention' and cognate expressions see PARA 761 note 7 ante.
- 11 Energy Act 2004 s 111(3).
- 12 As to the statutory maximum see PARA 689 note 2 ante.
- 13 Energy Act 2004 s 111(4).
- 14 Ibid s 111(5).
- 15 For the meaning of 'Scottish waters' see PARA 1314 note 18 ante (definition applied by ibid s 114(1)).
- 16 For the meaning of 'Scottish part', in relation to a renewable energy zone, see PARA 1314 note 19 ante (definition applied by ibid s 114(1)); and for the meaning of 'renewable energy zone' see PARA 1310 ante (definition as so applied).
- 17 Ibid s 111(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/5. OFFSHORE PRODUCTION OF RENEWABLE ENERGY/(2) DECOMMISSIONING OF OFFSHORE INSTALLATIONS/(v) Offences/1328. Offences relating to decommissioning programmes.

(v) Offences

1328. Offences relating to decommissioning programmes.

A person guilty of an offence under a statutory provision relating to decommissioning programmes¹ is liable on summary conviction to a fine not exceeding the statutory maximum², or on conviction on indictment to imprisonment for a term not exceeding two years or a fine, or to both³. No proceedings for a decommissioning offence⁴ may, however, be instituted in England and Wales or Northern Ireland except:

- 3503 (1) by the Secretary of State⁵;
- 3504 (2) by a person authorised in that behalf by the Secretary of State; or
- 3505 (3) by or with the consent of the Director of Public Prosecutions or, as the case may be, the Director of Public Prosecutions for Northern Ireland⁶.

Where a decommissioning offence is committed by a body corporate and is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, a director⁷, manager, secretary or other similar officer of the body corporate, or of a person who was purporting to act in any such capacity, he, as well as the body corporate, is guilty of that offence and is liable to be proceeded against and dealt with accordingly⁸.

Where a decommissioning offence is committed outside the United Kingdom⁹, proceedings for the offence may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom¹⁰.

1 Ie under the Energy Act 2004 Pt 2 Ch 3 (ss 105-114): see PARA 1320 et seq ante. As to such offences see PARAS 1320, 1323, 1326 ante.

2 As to the statutory maximum see PARA 689 note 2 ante.

3 Energy Act 2004 s 113(1).

4 'Decommissioning offence' means an offence under (1) a provision of ibid Pt 2 Ch 3; or (3) regulations made under s 111 (see PARA 1327 ante): s 113(7). At the date at which this title states the law no such regulations had been made.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Energy Act 2004 s 113(2).

7 For these purposes, 'director', in relation to a body corporate whose affairs are managed by its members, means a member of the body corporate: ibid s 113(7).

8 Ibid s 113(3). Similarly, where such an offence is committed by a Scottish firm, and is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, a partner of the firm, he (as well as the firm) is guilty of that offence and is liable to be proceeded against and dealt with accordingly: s 113(4).

9 Provision made by or under ibid Pt 2 Ch 3 in relation to places outside the United Kingdom: (1) so far as it applies to individuals, applies to them whether or not they are British citizens; and (2) so far as it applies to

bodies corporate, applies to them whether or not they are incorporated under the law of any part of the United Kingdom: s 114(5). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

10 Ibid s 113(5). The Territorial Waters Jurisdiction Act 1878 s 3 (consents to prosecution of offences committed on the open sea by persons who are not British citizens: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1056) does not apply to proceedings for a decommissioning offence: Energy Act 2004 s 113(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1329. Imposition of renewable transport fuel obligations.

6. RENEWABLE TRANSPORT FUEL OBLIGATIONS

1329. Imposition of renewable transport fuel obligations.

The Secretary of State¹ may by order (an 'RTF order')² impose on each transport fuel supplier³ of a specified⁴ description the obligation mentioned below (a 'renewable transport fuel obligation')⁵. That obligation is an obligation, for each specified period, for the supplier to produce to the administrator⁶, by the specified date, evidence which:

- 3506 (1) is of the specified kind and in the specified form; and
- 3507 (2) shows that during the specified period the specified amount of renewable transport fuel was supplied at or for delivery to places in the United Kingdom⁷.

Before making an RTF order the Secretary of State must consult such persons appearing to him to represent persons whose interests will be affected by the order, and such other persons, as he considers appropriate⁸.

The Renewable Transport Fuel Obligations Order 2007⁹, which is made in the exercise of these powers, imposes a renewable transport fuel obligation on every transport fuel supplier who in a specified period¹⁰:

- 3508 (a) owns relevant hydrocarbon oil¹¹ at the time when the requirement to pay the duty of excise with which the oil is chargeable takes effect; and
- 3509 (b) supplies that oil at or for delivery to places in the United Kingdom¹²;

but that obligation does not apply to a transport fuel supplier who, in a specified period, supplies less than 450,000 litres in total of the oil (a 'non-obligated supplier')¹³.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The power to make an RTF order is subject to the affirmative resolution procedure: Energy Act 2004 s 124(5). As to the affirmative resolution procedure see ss 192(3), 196(1); and PARA 754 note 17 ante.

3 'Transport fuel supplier' means a person who, in the course of any business of his, supplies transport fuel at or for delivery to places in the United Kingdom; and 'transport fuel' means (1) renewable transport fuel; (2) fossil fuel; or (3) any solid, liquid or gaseous fuel that is neither renewable transport fuel nor fossil fuel: *ibid* s 132(1). 'Supply' means, in relation to fuel, the supply of that fuel to any person with a view to its being used (whether by that person or persons to whom it is subsequently supplied) wholly or primarily for transport purposes (s 132(1)); and for these purposes, fuel is used for transport purposes if either it is used as fuel for one or more of the following, namely, vehicles, vessels, aircraft, trains or any other mode of transport; or it is used for producing fuel that is intended to be so used (s 132(3)). For the meaning of 'United Kingdom' see PARA 602 note 7 ante. For the meaning of 'renewable transport fuel' see note 5 *infra*.

4 'Specified' means specified in, or determined in accordance with, an RTF order: *ibid* s 132(1).

5 *Ibid* ss 124(1), (3), 132(1). 'Renewable transport fuel' means: (1) biofuel; (2) blended biofuel; (3) any solid, liquid or gaseous fuel (other than fossil fuel or nuclear fuel) which is produced either wholly by energy from a renewable source or wholly by a process powered wholly by such energy; or (4) any solid, liquid or gaseous fuel which is of a description of fuel designated by an RTF order as renewable transport fuel: s 132(1). 'Biofuel' means liquid or gaseous fuel that is produced wholly from biomass; 'blended biofuel' means liquid or gaseous fuel consisting of a blend of biofuel and fossil fuel (s 132(1)); 'biomass' means the biodegradable portion of a specified product, waste or residue; and 'renewable source' means, in relation to energy, any of the following sources of energy: (a) wind; (b) solar heat; (c) water (including waves and tides); (d) geothermal sources; or (e) biomass (s 132(4)). For these purposes, a process powered by electricity that was generated by energy from a particular source is to be treated as being powered by energy from that source: s 132(2). For the meaning of 'fossil fuel' see PARA 1219 note 13 *ante* (definition applied by s 132(4)).

6 'Administrator' means the person appointed by virtue of *ibid* s 125 (see PARA 1330 *post*) as the administrator for the purposes of provision made by or under Pt 2 Ch 5 (ss 124-132) (see the text and notes 1-5 *supra*, 7-8 *infra*; and PARA 1330 *et seq post*): s 132(1).

7 *Ibid* s 124(2). For these purposes, the 'specified date' means 5 October, or the next working day after 5 October, if 5 October is not a working day, following the end of the obligation period in question; and the evidence which is required is one or more RTF certificates issued by the administrator in accordance with the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072 (see PARA 1332 *post*): art 4(3)(b), (c). As to the calculation of the specified amount of renewable transport fuel see art 4(4). For the meaning of 'obligation period' see note 10 *infra*.

8 Energy Act 2004 s 124(4).

9 *Ie* the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, which came into force on 26 October 2007: see art 1.

10 For the purposes of the Energy Act 2004 s 124(2) and the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, a 'specified period' means a period beginning on 15 April in a year and ending on 14 April in the following year ('obligation period'): art 4(3)(a).

11 'Relevant hydrocarbon oil' means hydrocarbon oil which is (1) fossil fuel; (2) chargeable to the duty of excise on hydrocarbon oil under the Hydrocarbon Oil Duties Act 1979 s 6; and (3) for use as fuel in road vehicles (whether or not it may also be used in other vehicles): Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, arts 2(1), 3(10). 'Fossil fuel' means coal, substances produced directly or indirectly from coal, lignite, natural gas, crude liquid petroleum, or petroleum products; and 'petroleum products' means the following substances produced directly or indirectly from crude, that is to say, fuels, lubricants, bitumen, wax, industrial spirits and any wide-range substance (meaning a substance whose final boiling point at normal atmospheric pressure is more than 50°C higher than its initial boiling point): art 3(3), (8).

12 *Ibid* art 4(1).

13 *Ibid* art 4(2).

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

1329 Imposition of renewable transport fuel obligations

NOTE 5--Definition of 'fossil fuel' in Energy Act 2004 s 132(4) amended: Energy Act 2008 Sch 5 para 19.

NOTE 6--'Administrator' means the person for the time being appointed as the Administrator by order under the Energy Act 2004 ss 124-132: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(1)).

NOTES 7, 11--SI 2007/3072 arts 3(10), 4(4) amended: SI 2009/843.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1330. The administrator.

1330. The administrator.

An RTF order¹ may, for the purposes of provision made by or under the relevant statutory provisions², appoint a person as the administrator³. Such an order may:

- 3510 (1) establish a body corporate to be appointed as the administrator;
- 3511 (2) make provision for the appointment of members of that body;
- 3512 (3) make provision in relation to the staffing of that body;
- 3513 (4) make provision in relation to the expenditure of that body;
- 3514 (5) make provision regulating the procedure of that body;
- 3515 (6) make any other provision that the Secretary of State⁴ considers appropriate for purposes connected with the establishment and maintenance of that body⁵;

and the provision that may be made by virtue of heads (1) to (6) above in relation to a body corporate includes, in particular, provision conferring discretions on the Secretary of State, the body itself, or members or staff of the body⁶.

Only the following persons may be appointed as the administrator:

- 3516 (a) a body or other person established or appointed by or under any enactment⁷ to carry out other functions;
- 3517 (b) a body established by virtue of heads (1) to (6) above⁸;

and where provision is made by an RTF order for the appointment of a body or other person within head (a) above, such an order may make such modifications⁹ of any enactment relating to that body or person as the Secretary of State considers appropriate for the purpose of facilitating the carrying out of the functions of the administrator¹⁰.

An RTF order appointing a person as the administrator may:

- 3518 (i) confer or impose powers and duties on the administrator for purposes connected with the implementation of provision made by or under the relevant statutory provisions¹¹;
- 3519 (ii) confer discretions on the administrator in relation to the making of determinations under such an order and otherwise in relation to his powers and duties; and
- 3520 (iii) impose duties on transport fuel suppliers¹² for purposes connected with the administrator's powers and duties¹³.

The powers that may be conferred on the administrator by virtue of heads (i) to (iii) above include, in particular:

- 3521 (A) power to require a transport fuel supplier to provide him with such information as he may require for purposes connected with the carrying out of the administrator's functions;

- 3522 (b) power to impose requirements as to the form in which such information must be provided and as to the period within which it must be provided;
- 3523 (c) power to impose charges of specified¹⁴ amounts on transport fuel suppliers¹⁵.

The Secretary of State may make grants to the administrator on such terms as the Secretary of State may determine¹⁶.

The Office of the Renewable Fuels Agency is established as a body corporate with effect from 26 October 2007, and is appointed as the administrator pursuant to the above provisions¹⁷. The administrator must establish and maintain RTF accounts for transport fuel suppliers¹⁸ and must make an annual report to the Secretary of State which is then to be laid before Parliament¹⁹.

1 For the meaning of 'RTF order' see PARA 1329 ante.

2 le by or under the Energy Act 2004 Pt 2 Ch 5 (ss 124-132): see PARA 1329 ante; the text and notes 3-16 infra; and PARA 1331 et seq post.

3 Ibid s 125(1).

4 As to the Secretary of State see PARA 601 note 1 ante.

5 Energy Act 2004 s 125(8).

6 Ibid s 125(9).

7 For the meaning of 'enactment' see PARA 750 note 9 ante.

8 Energy Act 2004 s 125(6).

9 For the meaning of 'modifications' see PARA 733 note 8 ante.

10 Energy Act 2004 s 125(7).

11 See note 2 supra.

12 For the meaning of 'transport fuel supplier' see PARA 1329 note 3 ante.

13 Energy Act 2004 s 125(2). The duties that may be imposed by virtue of s 125(2)(c) (see head (iii) in the text) include, in particular, duties framed by reference to determinations made by the administrator: s 125(5).

14 For the meaning of 'specified' see PARA 1329 note 4 ante.

15 Energy Act 2004 s 125(3). Sums received by the administrator by virtue of provision within s 125(3)(c) (see head (c) in the text) must be used by him for the purpose of meeting costs incurred by him in carrying out his functions as the administrator: s 125(4).

16 Ibid s 125(10).

17 See the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, art 6(1). As to the constitution of the Office, its staff and proceedings see art 6(2), Schedule paras 1-8. For financial provisions see Schedule paras 9-15. The Office must give the Secretary of State information, advice and assistance about any matter in respect of which it has any functions if (1) the Office considers it appropriate to do so; or (2) the Secretary of State asks the Office to do so in connection with the carrying out of any the Secretary of State's functions: Schedule para 16. As to the avoidance of any conflicts of interest see Schedule paras 17, 18; and as to the status of the Office see Schedule para 19. For supplementary provisions see Schedule paras 20, 21.

18 See ibid arts 7-11.

19 See ibid art 14. As to the administrator's powers and duties to require information see arts 12, 13; and as to the administrator's other powers and duties see art 15.

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

1330 The administrator

TEXT AND NOTES 1-16--Replaced. See now the Energy Act 2004 ss 125-125C (ss 125-125C substituted for s 125 by the Climate Change Act 2008 Sch 7 para 2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1331. Determinations of amounts of transport fuel.

1331. Determinations of amounts of transport fuel.

An RTF order¹ may make provision about how amounts of transport fuel² are to be counted or determined for the purposes of provision made by or under the relevant³ statutory provisions⁴. The provision that may be so made includes, in particular:

- 3524 (1) provision for amounts of renewable transport fuel⁵ to count towards discharging a renewable transport fuel obligation⁶ for a period only if the fuel is of a specified⁷ description;
- 3525 (2) provision for amounts of renewable transport fuel of a specified description to count towards discharging such an obligation only up to a specified amount;
- 3526 (3) provision for such an obligation not to be treated as discharged unless a specified minimum amount of renewable transport fuel of a specified description has been counted towards its discharge;
- 3527 (4) provision for only such proportion of any renewable transport fuel of a specified description as is attributable to a specified substance, source of energy, method, process or other matter to count towards discharging such an obligation;
- 3528 (5) provision as to how that proportion is to be determined;
- 3529 (6) provision for an amount of renewable transport fuel of a specified description to count towards discharging such an obligation only if, or to the extent that, specified conditions are satisfied in relation to its supply⁸, the person by or to whom it was supplied or the place at or for delivery to which it was supplied;
- 3530 (7) provision for evidence produced by a supplier in relation to any fuel not to count for the purposes of his renewable transport fuel obligation for a period if evidence in relation to the same fuel has previously been produced, whether by him or by another supplier;
- 3531 (8) provision for evidence produced by a supplier in relation to any fuel not to count for those purposes if, after the supply to which the evidence relates, the fuel is supplied by any person at or for delivery to a place outside the United Kingdom⁹ or a specified part of the United Kingdom;
- 3532 (9) provision about the measurement of amounts of different descriptions of transport fuel;
- 3533 (10) provision for units of transport fuel of a specified description to count for more or less than the same units of transport fuel of other descriptions;
- 3534 (11) provision about how measurements in different units of different descriptions of transport fuel are to be aggregated;
- 3535 (12) provision for the application of presumptions where specified matters are shown¹⁰.

The provision that may be so made also includes, in particular, provision which:

- 3536 (a) is made having regard to one or more of the effects mentioned below, whether in the United Kingdom or elsewhere, namely the effects of the production, supply or use of fuel of a particular description on:

323

- 474. (i) carbon emissions;

- 475. (ii) agriculture;
 - 476. (iii) other economic activities;
 - 477. (iv) sustainable development; or
 - 478. (v) the environment generally; or
- 324
- 3537 (b) requires regard to be had to one or more such effects¹¹.

The Renewable Transport Fuel Obligations Order 2007¹², which is made in the exercise of these powers, makes provision for the determinations of amounts of transport fuel for these purposes¹³.

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

1331 Determinations of amounts of transport fuel

TEXT AND NOTES--If an RTF order makes provision for the counting or determination of amounts of transport fuel for the purposes of provision made by or under the Energy Act 2004 ss 124-132 by reference to any document, it may provide for references to the document to have effect as references to it as revised or re-issued from time to time: s 126(5) (s 126(5)-(8) added by the Climate Change Act 2008 Sch 7 para 3). The Secretary of State may give written directions to the Administrator about the exercise of any of the Administrator's functions in connection with the counting or determination of amounts of transport fuel for the purposes of provision made by or

under the Energy Act 2004 ss 124-132: s 126(6). The power to give directions under s 126(6) includes power to vary or revoke the directions: s 126(7). The Administrator must comply with any directions given under s 126(6): s 126(8).

NOTE 13--SI 2007/3072 art 5 amended: SI 2009/843.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1332. Renewable transport fuel certificates.

1332. Renewable transport fuel certificates.

An RTF order¹ may make provision for the administrator² to issue certificates to transport fuel suppliers³ ('RTF certificates')⁴. An RTF certificate is to certify:

- 3538 (1) that the supplier to whom it is issued has supplied⁵ the amount of renewable transport fuel⁶ stated in the certificate;
- 3539 (2) that that amount of such fuel was supplied by him during the period stated in the certificate;
- 3540 (3) that that amount of such fuel was supplied by him during that period at or for delivery to a place in the United Kingdom⁷ or in the part of the United Kingdom stated in the certificate; and
- 3541 (4) the other specified⁸ facts⁹.

Such a certificate may be issued to a supplier only if:

- 3542 (a) he applies for it in the specified manner;
- 3543 (b) his application includes evidence of the specified kind and in the specified form; and
- 3544 (c) the other specified conditions are satisfied¹⁰.

An RTF order may authorise transfers of RTF certificates, whether for a consideration or otherwise, between persons of specified descriptions¹¹. Such an order may also provide that such a transfer is not to be effective unless:

- 3545 (i) the specified details of it have been notified to the administrator in the specified manner and within the specified time; and
- 3546 (ii) the other specified requirements have been complied with¹².

If a supplier produces an RTF certificate to the administrator, it is to count for the statutory purposes¹³ as sufficient evidence of the facts certified¹⁴. An RTF order may provide that, in specified circumstances, evidence so produced¹⁵ may count to the specified extent towards the discharge of a renewable transport fuel obligation¹⁶ for a period even if it is produced after the time by which evidence had to be produced for the purposes of that obligation¹⁷. Such an order may also provide that, in specified circumstances, evidence so produced¹⁸ may count to the specified extent towards the discharge of a renewable transport fuel obligation for a period that is later than the period stated¹⁹ in the certificate in question²⁰.

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1333. Discharge of obligation by payment.

1333. Discharge of obligation by payment.

An RTF order¹ may provide that a person who does not wholly discharge his renewable transport fuel obligation² for a period by the production of evidence must pay the administrator³ the specified⁴ sum within the specified period⁵. The provision that may be so made includes, in particular, provision:

- 3547 (1) for the specified sum to increase, in cases where that sum is not paid within a specified period, at the specified rate until it is paid or until the occurrence of a specified event;
- 3548 (2) for specified amounts to be adjusted from time to time for inflation in the specified manner⁶;
- 3549 (3) for the repayment of sums in cases where provision made with regard to the discharge of a renewable transport fuel obligation for a period by virtue of the relevant statutory provision relating to evidence⁷ applies in relation to a person;
- 3550 (4) prohibiting the administrator from taking steps to recover the specified sum or a part of that sum if specified conditions are satisfied⁸.

An RTF order may provide that, in a case in which the amount of payments⁹ which the administrator has received by the specified time in respect of renewable transport fuel obligations for any period falls short of the amount due in respect of that period, the persons who:

- 3551 (a) were subject to renewable transport fuel obligations for that period; and
- 3552 (b) are of a specified description,

must, within the specified period and in the specified circumstances, each make a payment, or further payment, to the administrator of an amount calculated in the specified manner¹⁰. The provision that may be so made includes, in particular, provision for the making of adjustments and repayments after a requirement to make payments has already arisen¹¹.

An RTF order may require the administrator to use, to the specified extent, the sums received by him by virtue of the above provisions for the purpose of meeting costs incurred by him in carrying out his functions as the administrator¹². To the extent that the administrator does not so use the sums so received, they must be paid by him to transport fuel suppliers¹³, or to transport fuel suppliers of a specified description, in accordance with the specified system of allocation¹⁴.

1 For the meaning of 'RTF order' see PARA 1329 ante.

2 For the meaning of 'renewable transport fuel obligation' see PARA 1329 ante.

3 For the meaning of 'administrator' see PARA 1329 note 6 ante; and as to the appointment of the administrator see PARA 1330 ante.

4 For the meaning of 'specified' see PARA 1329 note 4 ante.

5 Energy Act 2004 s 128(1). As to payments see the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, art 21.

6 Provision within the Energy Act 2004 s 128(2)(b) (see head (2) in the text) may refer, in particular, to a specified index or to other data, including any index or data as modified from time to time after the coming into force of the order: s 128(3).

7 Ie by virtue of ibid s 127(7): see PARA 1332 ante.

8 Ibid s 128(2).

9 Ie payments by virtue of ibid s 128(1): see the text and notes 1-4 supra.

10 Ibid s 128(4).

11 Ibid s 128(5).

12 Ibid s 128(6). For the prescribed system of allocation of such sums see the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, art 22(2)-(4).

13 For the meaning of 'transport fuel supplier' see PARA 1329 note 3 ante.

14 Energy Act 2004 s 128(7); and see the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, art 22(1), (5), (6).

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

1333 Discharge of obligation by payment

TEXT AND NOTES 12-14--Replaced. Energy Act 2004 s 128(6), (7) now s 128(6)-(10) (substituted by Climate Change Act 2008 Sch 7 para 4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1334. Imposition of civil penalties.

1334. Imposition of civil penalties.

An RTF order¹ may:

- 3553 (1) designate a provision made by or under the relevant statutory provisions² for these purposes; and
- 3554 (2) provide that a person is to be liable to a civil penalty if he contravenes³ that provision and if any other specified⁴ conditions are satisfied⁵.

Where the administrator⁶ is satisfied that a person (the 'defaulter') is so liable, he may give a notice to the defaulter in the specified manner (a 'civil penalty notice') imposing on the defaulter a penalty of such amount as the administrator considers appropriate⁷. That penalty must not exceed the lesser of:

- 3555 (a) the specified amount; and
- 3556 (b) the amount equal to ten per cent of the turnover, as determined in the specified manner, of the specified business of the defaulter⁸.

The civil penalty notice must:

- 3557 (i) set out the administrator's reasons for deciding that the defaulter is liable to a penalty;
- 3558 (ii) state the amount of the penalty that is being imposed;
- 3559 (iii) set out a date before which the penalty must be paid to the administrator⁹;
- 3560 (iv) describe how payment may be made;
- 3561 (v) explain the steps that the defaulter may take if he objects to the penalty; and
- 3562 (vi) set out and explain the powers of the administrator to enforce the penalty¹⁰.

A penalty imposed by virtue of these provisions must be paid to the administrator:

- 3563 (A) by the date set out in the civil penalty notice by which it is imposed; and
- 3564 (B) in a manner described in that notice¹¹.

Sums received by the administrator by virtue of these provisions must be paid to the Secretary of State¹², who must pay them into the Consolidated Fund¹³.

1 For the meaning of 'RTF order' see PARA 1329 ante.

2 I.e. made by or under the Energy Act 2004 Pt 2 Ch 5 (ss 124-132): see PARA 1329 et seq ante; the text and notes 3-13 infra; and PARAS 1335-1336 post.

4 For the meaning of 'specified' see PARA 1329 note 4 ante.

5 Energy Act 2004 s 129(1); and see the Renewable Transport Fuel Obligations Order 2007, SI 2007/3072, art 23.

6 For the meaning of 'administrator' see PARA 1329 note 6 ante; and as to the appointment of the administrator see PARA 1330 ante.

7 Energy Act 2004 ss 129(2), 132(1). As to objections to, and appeals against, civil penalty notices see PARAS 1335-1336 post.

8 Ibid s 129(3).

9 The date for the payment of the penalty must not be less than 14 days after the giving of the civil penalty notice: ibid s 129(5).

10 Ibid s 129(4).

11 Ibid s 129(6).

12 As to the Secretary of State see PARA 601 note 1 ante.

13 Energy Act 2004 s 129(7). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

1334 Imposition of civil penalties

TEXT AND NOTES 12, 13--Sums received by the Administrator by virtue of the Energy Act 2004 s 129 (1) where the Administrator is the Secretary of State, must be paid into the Consolidated Fund; and (2) otherwise, must be paid to the Secretary of State, who must pay them into the Consolidated Fund: Energy Act 2004 s 129(7) (substituted by the Climate Change Act 2008 Sch 7 para 5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1335. Objections to civil penalties.

1335. Objections to civil penalties.

A person to whom a civil penalty notice¹ is given may give notice to the administrator² that he objects to the penalty on one or both of the following grounds:

- 3565 (1) that he is not liable to pay it;
- 3566 (2) that the amount of the penalty is too high³.

The notice of objection:

- 3567 (a) must set out the grounds of the objection and the objector's reasons for objecting on those grounds; and
- 3568 (b) must be given to the administrator in the specified⁴ manner and within the specified period after the giving of the civil penalty notice⁵.

The administrator must consider a notice of objection given in accordance with the above provisions and may then:

- 3569 (i) cancel the penalty;
- 3570 (ii) reduce it;
- 3571 (iii) increase it; or
- 3572 (iv) confirm it⁶.

The administrator must not enforce a penalty in respect of which he has received a notice of objection before he has notified the objector of the outcome of his consideration of the objection⁷. That notification of the outcome of his consideration must be given, in the specified manner:

- 3573 (A) before the end of the specified period; or
- 3574 (B) within such longer period as he may agree with the objector⁸.

Where, on consideration of an objection, the administrator increases the penalty, he must give the objector a new civil penalty notice; and, where he reduces it, the above-mentioned notification⁹ must set out the reduced amount¹⁰.

1 For the meaning of 'civil penalty notice' see PARA 1334 ante.

2 For the meaning of 'administrator' see PARA 1329 note 6 ante; and as to the appointment of the administrator see PARA 1330 ante.

10 Ibid s 130(6).

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1336. Appeals against civil penalties.

1336. Appeals against civil penalties.

A person to whom a civil penalty notice¹ is given may appeal to the court² on one or both of the following grounds:

- 3575 (1) that he is not liable to pay the penalty;
- 3576 (2) that the amount of the penalty is too high³.

An appeal under these provisions must be brought within such period after the giving of the civil penalty notice as may be set out in rules of court⁴ and may be brought in relation to a penalty irrespective of whether a notice of objection⁵ has been given in respect of that penalty or whether there has been an increase or reduction⁶ on consideration of the objection⁷. Such an appeal is to be by way of a rehearing of the administrator's⁸ decision to impose the penalty⁹.

On such an appeal, the court may:

- 3577 (a) allow the appeal and cancel the penalty;
- 3578 (b) allow the appeal and reduce the penalty; or
- 3579 (c) dismiss the appeal¹⁰.

The matters to which the court may have regard when determining such an appeal include all matters that the court considers relevant, including:

- 3580 (i) matters of which the administrator was unaware when he made his decision; and
- 3581 (ii) matters which the court would otherwise be prevented from having regard to by virtue of rules of court¹¹.

1 For the meaning of 'civil penalty notice' see PARA 1334 ante.

2 For these purposes, 'the court' means, in England and Wales or Northern Ireland, the High Court: Energy Act 2004 s 131(7)(a).

3 Ibid s 131(1).

4 Ibid s 131(2). The appellant's notice must be filed at the court within 28 days after the date of the decision to impose a civil penalty: see *Practice Direction--Appeals* PD 52 para 17.3.

5 Ie a notice of objection under the Energy Act 2004 s 130: see PARA 1335 ante.

6 Ie under ibid s 130.

7 Ibid s 131(6).

8 For the meaning of 'administrator' see PARA 1329 note 6 ante; as to the appointment of the administrator see PARA 1330 ante; and as to his power to impose civil penalties see PARA 1334 ante.

9 Energy Act 2004 s 131(4).

11 Ibid s 131(5).

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

1336 Appeals against civil penalties

NOTES--See Climate Change Act 2008 ss 131A-131C; and PARA 1336A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/6. RENEWABLE TRANSPORT FUEL OBLIGATIONS/1336A. Disclosure of information.

1336A. Disclosure of information.

Information held by or on behalf of the Commissioners for Her Majesty's Revenue and Customs in connection with their functions under or by virtue of the Hydrocarbon Oil Duties Act 1979 may be disclosed to the Administrator, or an authorised person, for the purposes of or in connection with the Administrator's functions: Energy Act 2004 s 131A(1), (2) (ss 131A-131C added by the Climate Change Act 2008 Sch 7 para 6). In the Energy Act 2004 ss 124-132 'authorised person' means a person who provides services to, or exercises functions on behalf of, the Administrator, and is authorised by the Administrator to receive information to which s 131A applies: s 131A(3). The Administrator may authorise such a person to receive information to which s 131A applies either generally or for a specific purpose: s 131A(4).

Section 131B applies to information disclosed under s 131A, other than information which is also provided to the Administrator or an authorised person otherwise than under s 131A: s 131B(1). Information to which s 131B applies may not be disclosed by the Administrator, by an authorised person, or by any other person who obtains it in the course of providing services to, or exercising functions on behalf of, the Administrator, except as permitted by s 131B(3), (4): s 131B(2). Section 131B(2) does not apply to a disclosure made by the Administrator to an authorised person, by an authorised person to the Administrator, or by an authorised person to another authorised person, for the purposes of, or in connection with, the discharge of the Administrator's functions: s 131B(3). Section 131B(2) does not apply to a disclosure if it is (1) authorised by an enactment; (2) made in pursuance of an order of a court; (3) made for the purposes of a criminal investigation or criminal proceedings, whether or not within the United Kingdom relating to a matter in respect of which the Administrator has functions; (4) made for the purposes of civil proceedings, whether or not within the United Kingdom, relating to a matter in respect of which the Administrator has functions; (5) made with the consent of the Commissioners for Her Majesty's Revenue and Customs; or (6) made with the consent of each person to whom the information relates: s 131B(4).

A person commits an offence if he discloses information about a person in contravention of s 131B(2) and the person's identity is specified in the disclosure or can be deduced from it: s 131C(1). Information about a person means revenue and customs information relating to a person within the meaning of the Commissioners for Revenue and Customs Act 2005 s 19(2): Energy Act 2004 s 131C(2). It is a defence for a person charged with an offence under s 131C to prove that he reasonably believed that the disclosure was lawful, or that the information had already and lawfully been made available to the public: s 131C(3). A person guilty of an offence under s 131C is liable on conviction on indictment, to imprisonment for a term not exceeding two years or a fine or both, or on summary conviction, to imprisonment for a term not exceeding twelve months or a fine not exceeding the statutory maximum or both: s 131C(4). In the application of s 131C in England and Wales, in relation to an offence committed before the commencement of the Criminal Justice Act 2003 s 154(1), the reference to twelve months above is to be read as a reference to six months: see Energy Act 2004 s 131C(6). A prosecution for an offence under s 131C may be brought in England and Wales only with the consent of the Director of Public Prosecutions: see s 131C(5).

UPDATE

1329-1336 Renewable Transport Fuel Obligations

In the Energy Act 2004 ss 124-132, 'enactment' includes an enactment contained in subordinate legislation and an enactment contained in, or in an instrument made under, a Measure or Act of the National Assembly for Wales: s 132(1) (amended by Climate Change Act 2008 Sch 7 para 7(3)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(i) The European Atomic Energy Community ('Euratom')/1337. The Euratom Treaty.

7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES

(1) INTERNATIONAL PROVISIONS AND BODIES

(i) The European Atomic Energy Community ('Euratom')

1337. The Euratom Treaty.

The European Communities Act 1972 made the legislative changes which were necessary to enable the United Kingdom to comply with the obligations entailed by membership of the European Economic Community, the European Coal and Steel Community, and the European Atomic Energy Community ('Euratom')¹. Euratom was established by the Treaty establishing the European Atomic Energy Community² ('the Euratom Treaty') signed at Rome on 25 March 1957, to which the United Kingdom was not a party. The Treaty of Accession, whereby the United Kingdom, the Kingdom of Denmark, and the Republic of Ireland became members of Euratom and parties to the Euratom Treaty as amended or supplemented³, entered into force on 1 January 1973⁴. The conditions of admission and the adjustments to the Euratom Treaty necessitated thereby are set out in the Act of Accession, and the provisions of that Act concerning Euratom form an integral part of the Euratom Treaty⁵.

1 The European Communities Act 1972 also provides that certain other treaties entered into by Euratom before 22 January 1972 are given legal effect in the United Kingdom: s 1(2) (as amended), s 2(1), Sch 1 para 7. For this purpose 'treaty' includes any international agreement and any Protocol or annex to a treaty or international agreement: s 1(4). The relevant treaties are (1) Agreement of 29 May-19 June 1958 between Euratom and the United States of America (OJ 1959 p 309) with amendment (OJ 1962 p 2038); (2) Agreement of 8 November 1958 between Euratom and the United States of America concerning peaceful uses of atomic energy (OJ 1959 p 312); (3) Agreement of 6 October 1959 between Euratom and Canada for co-operation in the peaceful uses of atomic energy (OJ 1959 p 1165) as amended (see OJ L65, 8.3.78, p 16); (4) Technical agreement of 6 October 1959 between Euratom and Atomic Energy of Canada Ltd concerning peaceful uses of atomic energy (OJ 1959 p 1177) (and see OJ L27, 4.2.82, p 25); (5) Additional Agreement of 11 June 1960 between Euratom and the United States of America concerning peaceful uses of atomic energy (OJ 1961 p 668) as amended (see OJ 1962 p 2045; OJ 1964 p 2586; OJ L139, 22.5.74, p 24); and published as so amended in Cmnd 5392; (6) Agreement of 26 January 1961 concerning co-operation between Euratom and the International Labour Organisation (OJ 1961 p 473); (7) Agreement of 9 June 1961 between Euratom and Brazil concerning the peaceful uses of atomic energy (OJ L79, 31.3.69, p 7); (8) Exchange of Letters of 9-14 December 1961 between the President of the Euratom Commission and the Director General of the Food and Agriculture Organisation of the United Nations (OJ 1962 p 1356); (9) Agreement of 4 September 1962 between Euratom and the Argentine Republic concerning the peaceful uses of nuclear energy (OJ 1963 p 2966); (10) Agreement of 27 May 1964 on the exchange of information between Euratom and the United States Atomic Energy Commission (OJ 1966 p 2481); and (11) Exchange of Letters of 18 November 1965 between the Commission and the International Bureau of Weights and Measures (OJ 1966 p 614); see Cmnd 4862-I, Appendix. Except as regards the agreement published in Cmnd 5392 (see head (5) supra), English texts of these treaties are contained in European Communities, Treaties and Related Instruments (HMSO 1972) vol IX.

The European Communities (Definition of Treaties) (No 5) (Joint European Torus) Order 1978, SI 1978/1032, made under the European Communities Act 1972 s 1(3), declares the Exchange of Letters dated 3 May 1978 between the United Kingdom and Euratom regarding privileges to be granted to the Joint European Torus Joint Undertaking to be a Community Treaty as defined by the European Communities Act 1972 s 1(2) (as amended). The principal effect of this Order is to bring into play, in relation to the Exchange of Letters, the provisions of the European Communities Act 1972 s 2 (as amended).

- 2 The English text of the Euratom Treaty is reproduced in its original form in Cmnd 5179-II.
- 3 The Euratom Treaty has been amended by the Merger Treaty, the Budget Treaty, the Act of Accession and certain secondary legislation. Those amendments were included in the consolidated text published in 1973 by the European Communities. The Euratom Treaty was further amended by the Treaty on European Union (Maastricht, 7 February 1992; Cm 1934) ('the Maastricht Treaty') Title IV art I. All references in this title to the Euratom Treaty are to the unofficial consolidated version published by the European Communities in 1996, which includes the amendments made by the Maastricht Treaty. As to the provisions of the Euratom Treaty see PARAS 1338-1339 post.
- 4 See the Treaty of Accession (1972) (TS 16 (1979); Cmnd 7461) arts 1(1), 2. The English text of the original treaty is reproduced in Cmnd 5179-I.
- 5 Treaty of Accession art 1(2). The Act of Accession was annexed to the Treaty of Accession.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(i) The European Atomic Energy Community ('Euratom')/1338. The task and duties of Euratom.

1338. The task and duties of Euratom.

It is the task of the European Atomic Energy Community ('Euratom')¹ to contribute to the raising of the standard of living in the member states and to the development of relations with other countries by creating the conditions necessary for the speedy establishment and growth of nuclear industries².

In order to perform its task Euratom is under a duty:

- 3582 (1) to promote research³ and ensure the dissemination of technical information⁴;
- 3583 (2) to establish uniform safety standards to protect the health of workers and of the general public and ensure that they are applied⁵;
- 3584 (3) to facilitate investment and ensure, particularly by encouraging ventures on the part of undertakings, the establishment of the basic installations necessary for the development of nuclear energy in the Community⁶;
- 3585 (4) to ensure that all users in the Community receive a regular and equitable supply of ores and nuclear fuels⁷;
- 3586 (5) to make certain, by appropriate supervision, that nuclear materials are not diverted to purposes other than those for which they are intended⁸;
- 3587 (6) to exercise the right of ownership conferred upon it with respect to special fissile materials⁹;
- 3588 (7) to ensure wide commercial outlets and access to the best technical facilities by the creation of a common market in specialised materials and equipment, by the free movement of capital for investment in the field of nuclear energy and by freedom of employment for specialists within the Community¹⁰; and
- 3589 (8) to establish with other countries and international organisations such relations as will foster progress in the peaceful uses of nuclear energy¹¹.

The use of nuclear energy for military purposes is outside the scope of all the provisions of the Euratom Treaty¹².

1 I.e. the European Atomic Energy Community: Euratom Treaty art 1. As to citation of the Euratom Treaty see PARA 1337 note 3 ante.

2 Ibid art 1.

3 Ibid art 2(a). See further arts 4-11.

4 Ibid art 2(a). See further arts 12-23.

5 Ibid art 2(b). See further arts 30-39; and see eg Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1) laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation. Member states must ensure that all new classes or types of practice resulting in exposure to ionising radiation are justified in advance of being first adopted or first approved by their economic, social or other benefits in relation to the health detriment they may cause: art 6(1). Existing classes or types of practice may be reviewed as to justification whenever new and important evidence about their efficacy or consequences is acquired: art 6(2). As to the principles to be applied by the Secretary of State when determining whether the economic benefits of a new process outweigh the health detriment see *R (on the*

application of Friends of the Earth Ltd) v Secretary of State for Environment, Food and Rural Affairs [2001] EWCA Civ 1847, [2002] 1 CMLR 608, [2001] All ER (D) 82 (Dec); and see *R (on the application of Marchiori) v Environment Agency* [2001] EWCA Civ 03, [2002] All ER (D) 220 (Jan) (decided under Euratom Council Directive 80/836 (OJ L246, 17.9.80, p 1 (repealed and replaced by Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1)) (the merits or demerits of government defence policy are not justiciable; the Environment Agency is entitled to regard the manufacture of Trident nuclear warheads as a benefit for the purposes of the justification principle).

See also Euratom Council Directive 89/618 (OJ L357, 7.12.89, p 31) on informing the general public about health protection measures to be applied and steps to be taken in the event of a radiological emergency.

6 Euratom Treaty art 2(c). As to investment see arts 40-44; and as to joint undertakings see arts 45-51. Certain investment projects must be communicated to the European Commission: see art 41; and Euratom Council Regulation 2587/1999 (OJ L315, 9.12.99, p 1); EC Commission Regulation 1209/2000 (OJ L138, 9.6.2000, p 12).

7 Euratom Treaty art 2(d). As to supplies see arts 52-76.

8 Ibid art 2(e). As to security see arts 24-29; as to safeguards see arts 77-85; and as to the application of Euratom safeguards see Euratom Commission Regulation 302/2005 (OJ L54, 28.2.2005, p 1).

9 Euratom Treaty art 2(f). See further arts 86-91.

10 Ibid art 2(g). See further arts 92-100.

11 Ibid art 2(h). See further arts 101-106. The Community has concluded a number of international agreements to this end: see eg the Agreement between the Government of Japan and the European Atomic Energy Community for co-operation in the peaceful uses of nuclear energy (OJ L32, 6.2.2007, p 65).

12 See Case C-65/04 *EC Commission v United Kingdom* (2006) Times, 29 March, [2006] All ER (D) 152 (Mar), ECJ, applying Case C-61/03 *EC Commission v United Kingdom* [2005] 2 CMLR 49, [2005] All ER (D) 106 (Apr), ECJ.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(i) The European Atomic Energy Community ('Euratom')/1339. The institutions and Supply Agency of Euratom.

1339. The institutions and Supply Agency of Euratom.

The tasks entrusted to Euratom are now carried out by the institutions of the Community, namely the European Parliament, the Council, the Commission, the Court of Justice and the Court of Auditors¹. The Council and the Commission are assisted by an Economic and Social Committee acting in an advisory capacity². There is a Court of First Instance attached to the Court of Justice with jurisdiction to hear and determine certain classes of action or proceeding, subject to a right of appeal to the Court of Justice on points of law only³. The Court of First Instance is not, however, competent to hear and determine questions concerning the interpretation of the Euratom Treaty, the validity and interpretation of acts of the institutions of Euratom or the interpretation of the statutes of bodies established by an act of the Council which are referred to the Court of Justice for a preliminary ruling⁴.

A Supply Agency has been established under the Euratom Treaty in order to ensure the supply of ores⁵, source materials and special fissile materials⁶ by means of a common supply policy on the principle of equal access to sources of supply⁷. The agency has a right of option on ores, source materials and special fissile materials produced in member states and an exclusive right to conclude contracts relating to the supply of such materials coming from inside or outside Euratom⁸. The transfer of small quantities of ores, source materials and special fissile materials is exempted from the relevant rules in the Treaty⁹.

1 See the Euratom Treaty art 3(1). As to citation of the Euratom Treaty see PARA 1337 note 3 ante.

2 See *ibid* art 3(2).

3 See *ibid* art 140A.

4 See *ibid* art 140A(1). As to the jurisdiction of the Court of Justice see arts 136-160; and see eg Case C-29/99 *EC Commission v EU Council* [2002] ECR I-11221, [2002] All ER (D) 119 (Dec), ECJ.

5 'Ores' means any ore containing, in such average concentration as may be specified by the Council acting by a qualified majority on a European Commission proposal, substances from which the source materials defined below may be obtained by the appropriate chemical and physical processing: *ibid* art 197(4). The average concentrations specified are: for uranium-bearing ores, any average concentration of 0.1% or more uranium; for thorium-bearing ores except monazites, any average concentration of 3% or more thorium; for monazites, any average concentration of 10% or more thorium or 0.1% or more uranium: Euratom Council Regulation 9 (OJ L12, 22.2.60, p 482; Special Edn 1959-62 p 43) art 2. Average concentrations are the ratio between the weight of the uranium or thorium contained, in any form whatsoever, in a given quantity of ore and the weight of that same quantity of ore: art 1.

'Source materials' means uranium containing the mixture of isotopes occurring in nature; uranium whose content in uranium-235 is less than the normal; thorium; any of the above in the form of metal, alloy, chemical compound or concentrate; any other substance containing one or more of the above in such a concentration as may be specified by the Council acting in a qualified majority on a Commission proposal: Euratom Treaty art 197(3). At the date at which this title states the law, no concentration had been so specified.

6 'Special fissile materials' means plutonium-239; uranium-233; uranium enriched in uranium-235 or uranium-233; and any other substance containing one or more of the above isotopes and such other fissile materials as may be specified by the Council acting by a qualified majority on a Commission proposal, but does not include source materials: *ibid* art 197(1). At the date at which this title states the law, no other fissile materials had been so specified. 'Uranium enriched in uranium-235 or uranium-233' means uranium containing

uranium-235 or uranium-233 or both in an amount such that the abundance ratio of the sum of these isotopes to isotope 238 is greater than the ratio of isotope 235 to isotope 238 occurring in nature: art 197(2).

7 See *ibid* art 52. The Supply Agency is under the supervision of the Commission (art 53) and has legal personality and financial autonomy (art 54). See also the Statutes of the Euratom Supply Agency (OJ 27, 6.12.58, p 534) (as amended).

8 See the Euratom Treaty art 52(2). Member states must communicate or cause to be communicated to the Agency all the information necessary to enable it to exercise its right of option and its exclusive right to conclude supply contracts: *ibid* art 55. They are responsible for ensuring that the Agency may operate freely in their territories; and may establish one or more bodies having authority to represent, in relations with the Agency, producers and users in the non-European territories under their jurisdiction: art 56. See further arts 57-76.

9 See Euratom Commission Regulation 66/2006 (OJ L11, 17.1.2006, p 6) exempting the transfer of small quantities of ores, source materials and special fissile materials from the rules of the chapter on supplies.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1340. Nature of international provisions.

(ii) Other International Provisions and Bodies

A. INTERNATIONAL PROVISIONS

1340. Nature of international provisions.

Much of the domestic law relating to atomic energy and radioactive substances is derived directly or indirectly from the provisions of international treaties¹ and conventions², and regulations³ and recommendations⁴ made by international bodies⁵. These treaties and conventions are the outcome of agreements between sovereign states providing for the mutual and uniform regulation of the use of atomic energy and the use and transport of radioactive substances, but they are in the nature of multilateral treaties between states and form part of English municipal law⁶ only in so far as they are incorporated into that law by domestic legislation⁷. Regulations made under the Euratom Treaty are, however, of general application, are binding in their entirety and are directly applicable in all member states⁸.

1 As to such treaties see PARAS 1341-1342 post.

2 As to such conventions see PARAS 1343-1352 post.

3 As to such regulations see PARA 1354 post.

4 As to such recommendations see PARAS 1354, 1356 post.

5 As to such international bodies see PARAS 1354-1356 post.

6 Cf *Republic of Italy v Hambros Bank Ltd and Gregory (Custodian of Enemy Property)* [1950] Ch 314, [1950] 1 All ER 430. See further CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 802.

7 As to indirect incorporation see eg the Nuclear Installations Acts 1965 and 1969 (see PARAS 1357 note 9, 1487 et seq post) giving effect to the conventions mentioned in PARAS 1345-1347 post. As to international conventions see generally INTERNATIONAL RELATIONS LAW.

8 Euratom Treaty art 161.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1341. Treaties relating to nuclear weapons.

1341. Treaties relating to nuclear weapons.

States party to the Treaty banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water¹ undertake to prohibit, to prevent and not to carry out any nuclear weapon test explosion, or any other nuclear explosion, at any place under such a state's jurisdiction or control in the atmosphere; beyond its limits, including outer space; under water, including territorial waters or high seas; or in any other environment, if the explosion causes radioactive debris to be present outside the territorial limits of the state under whose jurisdiction or control the explosion is conducted². The United Kingdom is also a party to the Comprehensive Nuclear Test Ban Treaty which bans all nuclear explosions in all environments, for military or civilian purposes³. That treaty, however, is not yet in force⁴.

States party to the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies⁵ undertake, inter alia, not to place in orbit around the earth any objects carrying nuclear weapons or any other kinds of weapons of mass destruction, or install such weapons on celestial bodies, or station such weapons in outer space in any other manner, and agree that the moon and other celestial bodies must be used by all states party to the treaty exclusively for peaceful purposes⁶.

States party to the Treaty on the Non-Proliferation of Nuclear Weapons⁷ undertake not to transfer to any recipient, or receive from any transferor, nuclear weapons or other nuclear explosive devices⁸. There are provisions with regard to the acceptance and implementation of safeguards with a view to ensuring that the obligations assumed by states under the treaty are fulfilled⁹, including an undertaking by each state not to provide source or special fissionable material¹⁰, or equipment or material especially designed or prepared for the processing, use or production of special fissionable material, to any non-nuclear-weapon state for peaceful purposes, unless the source or special fissionable material is subject to such safeguards¹¹. An Agreement ('the Safeguards Agreement')¹² has been entered into between the United Kingdom, the European Atomic Energy Community ('Euratom') and the International Atomic Energy Agency ('the IAEA') providing for the implementation of safeguards in the United Kingdom in connection with the Treaty. The Safeguards Agreement has been given effect in English law by the Nuclear Safeguards and Electricity (Finance) Act 1978¹³; and the Additional Protocol to the Safeguards Agreement¹⁴ has been given effect in English law by the Nuclear Safeguards Act 2000¹⁵.

States party to the Treaty on the Prohibition of the Emplacement of Nuclear Weapons and Other Weapons of Mass Destruction on the Sea Bed and the Ocean Floor and in the Subsoil Thereof¹⁶ undertake not to emplant or emplace on the sea bed and the ocean floor and in the subsoil thereof beyond the outer limit of a defined sea bed zone any nuclear weapons or any other types of weapons of mass destruction as well as structures, launching installations or any other facilities specifically designed for storing, testing or using such weapons¹⁷. There are provisions with respect to verifying through observation the activities of states party to the treaty¹⁸.

1 le the Treaty banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water (Moscow, 5 August 1963; TS 3 (1964); Cmnd 2245). The treaty is drawn up in English and Russian, each text being equally authentic. It was ratified by the United Kingdom on 10 October 1963 and entered into force on that

date. The treaty has not been incorporated into English municipal law, either directly or indirectly; but see further CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 802. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 See the Treaty banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and under Water art 1(1).

3 The Comprehensive Nuclear Test Ban Treaty was opened for signature in New York on 24 September 1996, signed by the United Kingdom government on that date and ratified by the United Kingdom on 6 April 1998.

4 The Comprehensive Nuclear Test Ban Treaty will enter into force 180 days after it is ratified by all of the 44 countries listed in Annex 2, including China, Israel and the United States of America.

5 See the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies (London, Moscow and Washington, 27 January 1967; TS 10 (1968); Cmnd 3519). The treaty is drawn up in Chinese, English, French, Russian and Spanish. It was ratified by the United Kingdom on 10 October 1967 and entered into force on that date. The treaty has not been incorporated into English municipal law, either directly or indirectly; but see further CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 802.

6 See the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies art IV.

7 See the Treaty on the Non-Proliferation of Nuclear Weapons (London, Moscow and Washington, 1 July 1968; TS 88 (1970); Cmnd 4474). The treaty is drawn up in Chinese, English, French, Russian and Spanish, each text being equally authentic. It was ratified by the United Kingdom on 27 and 29 November 1969, and entered into force on 5 March 1970. The treaty has not been incorporated into English municipal law, either directly or indirectly; but see further CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 802.

8 See *ibid* arts I, II.

9 See *ibid* art III. As to the application of safeguards by the International Atomic Energy Agency see PARA 1354 the text and note 4 post; and as to Euratom safeguards see PARA 1338 ante. See also note 13 *infra*.

10 The expression 'source or special fissionable material' is not defined in the treaty. Cf the meanings of 'source materials' and 'special fissile materials' in the Euratom Treaty: see PARA 1339 ante.

11 See the Treaty on the Non-Proliferation of Nuclear Weapons (Cmnd 4474) art III(2).

12 See the Agreement for the application of Safeguards in the United Kingdom in connection with the Treaty on the Non-Proliferation of Nuclear Weapons (with Protocol) ('the Safeguards Agreement') (Vienna, 6 September 1976; Misc 2 (1977); Cmnd 6730). The text of the agreement was presented to Parliament on 3 March 1977.

13 See the Nuclear Safeguards and Electricity (Finance) Act 1978 s 1. The Act confers, on any person designated as an inspector by the International Atomic Energy Agency under the Safeguards Agreement art 85 or under the Additional Protocol art 11, powers of entry to civil nuclear installations for the purpose of making inspections permitted by the Safeguards Agreement arts 71-84, or verifying design information, as mentioned in art 50: Nuclear Safeguards and Electricity (Finance) Act 1978 s 2(1) (amended by the Nuclear Safeguards Act 2000 s 11(3)(a)). As to the exercise of those powers of entry and inspection see the Nuclear Safeguards and Electricity (Finance) Act 1978 s 2(2). Any person who intentionally obstructs any inspector exercising a power conferred on him by s 2(1) (as amended), or without reasonable excuse refuses or fails to provide any information or to permit any inspection reasonably required by any such inspector, or without reasonable excuse refuses or fails to carry out in a facility any operation which he is requested to carry out by an inspector, is guilty of an offence and liable on summary conviction to a fine not exceeding the statutory maximum or on conviction on indictment to a fine: Nuclear Safeguards and Electricity (Finance) Act 1978 s 2(4), (4A) (respectively amended and added by the Nuclear Safeguards Act 2000 s 11(3)(b)). If any person in giving information reasonably required by any inspector exercising a power conferred by the Nuclear Safeguards and Electricity (Finance) Act 1978 s 2(1) (as amended) makes a statement which he knows to be false in a material particular, or recklessly makes any statement which is false in a material particular, he is liable on summary conviction to a fine not exceeding the statutory maximum, and on conviction on indictment to imprisonment for a term not exceeding two years, or a fine, or to both: s 2(5). The Secretary of State may make regulations, by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament, to give effect to certain provisions of the Safeguards Agreement: Nuclear Safeguards and Electricity (Finance) Act 1978 s 3(1), (3). Such regulations may provide that any person contravening or failing to comply with any provision of the regulations is to be liable on summary conviction to a fine not exceeding level 4 on the standard scale, or not exceeding a lesser amount: s 3(2) (amended by virtue of the Criminal Justice Act 1982 s 46). At the date at which this title states the law, no such regulations had been made. As to offences by bodies corporate see the Nuclear Safeguards and Electricity (Finance) Act 1978 s 4. As to the Additional Protocol see note 14 *infra*; and

for the domestic legislation giving effect to it see PARAS 1578-1581 post. As to the standard scale see PARA 613 note 11 ante; as to the statutory maximum see PARA 689 note 2 ante; and as to the Secretary of State see PARA 601 note 1 ante. For the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

14 le the Additional Protocol signed at Vienna on 22 September 1998 (Cm 6664) additional to the Safeguards Agreement. That Protocol required the United Kingdom to provide the International Atomic Energy Agency with a declaration containing certain information (see art 2) and to allow access by the Agency (1) to certain facilities, locations and decommissioned facilities in order to resolve any questions about that information (see arts 4-6); and (2) to specified locations in order to carry out wide-area environmental sampling (see art 9). On request by the United Kingdom, the United Kingdom and the Agency are to make arrangements for managed access in order to prevent the dissemination or proliferation of sensitive information: see art 7.

15 See PARAS 1578-1581 post. The provisions of the 1978 Act have been extended to the Channel Islands and the Isle of Man: see the Nuclear Safeguards (Jersey) Order 2004, SI 2004/1288; the Nuclear Safeguards (Isle of Man) Order 2004, SI 2004/1289; the Nuclear Safeguards (Guernsey) Order 2004, SI 2004/1290.

16 le the Treaty on the Prohibition of the Emplacement of Nuclear Weapons and Other Weapons of Mass Destruction on the Sea Bed and the Ocean Floor and in the Subsoil Thereof (London, Moscow and Washington, 11 February 1971; TS 13 (1973); Cmnd 5266). The treaty is drawn up in Chinese, English, French, Russian and Spanish, each text being equally authentic. It was ratified by the United Kingdom on 18 May 1972 and entered into force on that date. The treaty has not been incorporated in English municipal law, either directly or indirectly; but see further CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 802.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1342. The Antarctic Treaty.

1342. The Antarctic Treaty.

Under the Antarctic Treaty¹ any nuclear explosions in Antarctica and the disposal there of radioactive waste material are prohibited². In the event of the conclusion of international agreements concerning the use of nuclear energy, including nuclear explosions and the disposal of radioactive waste material, to which certain of the contracting parties to the treaty³ are parties, the rules established under such agreements apply in Antarctica⁴.

On 4 October 1991 the parties to the Antarctic Treaty adopted the Protocol on Environmental Protection⁵. The Protocol enunciates a number of general principles and rules regarding the protection of the environment in the Antarctic Treaty Area. These principles are given specific substance in several annexes dealing with different aspects of environmental protection, one of which is waste disposal and waste management (including radioactive waste)⁶.

1 Ie the Antarctic Treaty (Washington, 1 December 1959; TS 97 (1961); Cmnd 1535). The treaty is drawn up in English, French, Russian and Spanish. It was ratified by the United Kingdom on 31 May 1960 and entered into force on 23 June 1961. See also the Antarctic Act 1994; and ANIMALS vol 2 (2008) PARAS 990-993.

2 See the Antarctic Treaty art V(1).

3 Ie all of the contracting parties whose representatives are entitled to participate in the meetings provided for under *ibid* art IX: art V(2).

4 *Ibid* art V(2).

5 Ie the Protocol on Environmental Protection to the Antarctic Treaty (Madrid, 4 October 1991; Misc 6 (1992); Cm 1960).

6 See the Protocol on Environmental Protection to the Antarctic Treaty (Cm 1960), Annex III on Waste Disposal and Waste Management, which contains two provisions on radioactive waste. Under Annex III art 2 parties are required to remove from the Treaty area all radioactive waste generated after the coming into force of the Annex, while under art 8 they are required to prepare and annually review management plans for all kinds of waste, including radioactive waste.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1343. OECD Convention on the Establishment of a Security Control in the Field of Nuclear Energy.

1343. OECD Convention on the Establishment of a Security Control in the Field of Nuclear Energy.

In accordance with their aim that any joint activities in the field of nuclear energy by member countries of the Organisation for European Economic Co-operation (now the Organisation for Economic Co-operation and Development (OECD)) should be directed towards peaceful purposes, the council of the organisation approved a Convention on the Establishment of a Security Control in the Field of Nuclear Energy, which was signed in Paris on 20 December 1957 by 17 countries, including the United Kingdom¹. The object of the security control is to ensure that joint undertakings established on the initiative or with the assistance of the Organisation for Economic Co-operation and Development Nuclear Energy Agency ('NEA')² and materials, equipment and services made available by the NEA or under its supervision do not further any military purpose³. Because, however, the system of security control under the Convention duplicated the work of the equivalent systems of the International Atomic Energy Agency ('the IAEA')⁴ and Euratom⁵ which were applied on a wider geographic scale the OECD decided, on 14 October 1976, to authorise the Director of Control appointed under the Convention to suspend the application of the control regulations until further notice⁶.

1 See the Convention on the Establishment of a Security Control in the Field of Nuclear Energy (Paris, 20 December 1957; TS 8 (1960); Cmnd 971). The Convention was ratified by the United Kingdom on 9 May 1958 and came into force on 22 July 1959. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 As to the NEA see PARA 1355 post.

3 Convention on the Establishment of a Security Control in the Field of Nuclear Energy (Cmnd 971) art 1(a).

4 As to the IAEA see PARA 1354 post.

5 As to the system of control introduced by the IAEA in conjunction with Euratom see PARA 1341 ante.

6 The Director of Control was also instructed to keep the situation under review and to initiate reconsideration of the matter in the event of a significant change in the circumstances which led to the suspension of the control.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1344. The Radiation Protection Convention 1960.

1344. The Radiation Protection Convention 1960.

At Geneva on 22 June 1960 the General Conference of the International Labour Organisation¹ adopted a Convention concerning the Protection of Workers against Ionising Radiations². The Convention was ratified by the United Kingdom on 9 March 1962 and entered into force for the United Kingdom on 9 March 1963³. It applies to all activities involving exposure of workers to ionising radiations in the course of their work⁴, and each state which ratifies the Convention undertakes to give effect to it by means of laws or regulations, codes of practice or other appropriate means⁵.

The Convention provides that every effort must be made to restrict the exposure of workers to ionising radiations to the lowest practicable level and that any unnecessary exposure must be avoided by all parties concerned⁶, and requires the fixing of maximum permissible radiation doses for various categories of workers which must be kept under constant review in the light of current knowledge⁷. Appropriate warnings must be used to indicate the presence of hazards from ionising radiations⁸; workers directly engaged in radiation work must be instructed in the precautions to be taken for their protection⁹; appropriate monitoring of workers and places of work must be carried out¹⁰; every worker directly engaged in radiation work must undergo certain medical examinations¹¹; and no worker may be employed in work in which he could be subject to exposure to ionising radiations contrary to qualified medical advice¹².

1 As to the International Labour Organisation see INTERNATIONAL RELATIONS LAW vol 61 (2010) PARA 311.

2 I.e. the International Labour Convention No 115 concerning the Protection of Workers against Ionising Radiations (Geneva, 22 June 1960; TS 41 (1963); Cmnd 2058) (which may be cited as 'the Radiation Protection Convention 1960').

3 At the date at which this title states the law, the Radiation Protection Convention 1960 had been ratified by 41 countries. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 Ibid art 2(1). The Convention does not, however, apply to radioactive substances, whether sealed or unsealed, nor to apparatus generating ionising radiations, which substances or apparatus, owing to the limited doses of ionising radiations which can be received from them, are exempted from its provisions by means of national laws or regulations, codes of practice or other appropriate means: art 2(2). In applying the provisions of the Convention the competent authority must consult with representatives of employers and workers: art 1.

5 Ibid art 1. The United Kingdom gives effect to the Convention in various ways, eg by regulations under the Health and Safety at Work etc Act 1974: see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 647 et seq.

6 Radiation Protection Convention 1960 art 5.

7 See ibid arts 6-8.

8 See ibid art 9(1).

9 See ibid art 9(2).

10 See ibid art 11.

11 See ibid arts 12, 13.

12 See ibid art 14.

UPDATE

1344 The Radiation Protection Convention 1960

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1345. The Paris Convention on Third Party Liability in the Field of Nuclear Energy.

1345. The Paris Convention on Third Party Liability in the Field of Nuclear Energy.

A Convention on Third Party Liability in the Field of Nuclear Energy was signed by 16 European countries at Paris on 29 July 1960¹. The purpose of this Convention, which was prepared by the European Nuclear Energy Agency of the Organisation for European Economic Co-operation (now the Organisation for Economic Co-operation and Development Nuclear Energy Agency ('the NEA'))², was to unify the basic rules applying, in the Organisation for Economic Co-operation and Development member countries, to the liability incurred for damage caused by nuclear incidents³ involving either nuclear fuel⁴ or radioactive products or waste⁵ in, or nuclear substances⁶ coming from, land-based nuclear installations⁷.

The main principles of the Convention are the absolute and exclusive liability, without proof of fault, of the operator⁸ of the nuclear installation concerned; limitations of liability in time and in amount; the operator's obligation to cover his liability by insurance or otherwise; and that there is to be one court, normally the court of the place where the incident occurs, competent for all claims arising out of the same incident, with the obligatory enforcement of its judgments in all countries party to the Convention.

In order to ensure that as far as possible there were no differences between this Convention and the Vienna Convention on Civil Liability for Nuclear Damage⁹, the signatories of the Paris Convention signed an Additional Protocol to that Convention on 28 January 1964¹⁰, the purpose of which was to bring the two Conventions into line with each other. The Paris Convention, as amended by the Protocol, has been ratified by the United Kingdom¹¹, and came into force in 1968¹².

A further Protocol amending the Paris Convention, in particular by replacing the original unit of account with the Special Drawing Right of the International Monetary Fund¹³ and also making technical modifications to take account of experience gained from practical application of the Convention, was signed on 16 November 1982¹⁴. The 1982 Protocol has been ratified or acceded to by all the states which ratified or acceded to the Convention as originally amended and came into force in 1988.

A Joint Protocol to establish a link between the Paris Convention and the Vienna Convention by mutually extending the benefit of the regime of civil liability for nuclear damage set forth under each Convention and to eliminate conflicts arising from the simultaneous application of both Conventions to a nuclear incident was opened for signature on 21 September 1988¹⁵. The Joint Protocol came into force in 1992¹⁶.

The Energy Act 2004 confers power on the Secretary of State to amend the Nuclear Installations Act 1965 and certain other enactments in order to give effect to the Joint Protocol or any Protocol amending the Paris Convention¹⁷.

1 See the Convention on Third Party Liability in the Field of Nuclear Energy (Paris, 29 July 1960; Misc 17 (1960); Cmnd 1211) ('the Paris Convention'). See also note 10 infra.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1346. The Brussels Convention on Third Party Liability in the Field of Nuclear Energy.

1346. The Brussels Convention on Third Party Liability in the Field of Nuclear Energy.

A Convention supplementary to the Paris Convention of 29 July 1960 on Third Party Liability in the Field of Nuclear Energy¹ was signed at Brussels on 31 January 1963². The object of this Convention is to provide for the payment of additional compensation out of public funds and jointly by the contracting parties where the maximum amount laid down in the Paris Convention is insufficient. A Protocol additional to the Brussels Supplementary Convention was signed on 28 January 1964³, having become necessary as a result of the modifications made to the Paris Convention by the Additional Protocol to the Paris Convention of 28 January 1964⁴. The Brussels Supplementary Convention, as amended by the Protocol, has been ratified by the United Kingdom⁵, and came into force on 4 December 1974⁶. A further Protocol amending the Convention, mainly providing for higher amounts of compensation to be provided by the contracting parties, was signed on 16 November 1982⁷. The 1982 Protocol has been ratified or acceded to by all the states which have ratified or acceded to the Convention as originally amended and came into force in 1991.

The Energy Act 2004 confers power on the Secretary of State to amend the Nuclear Installations Act 1965 and certain other enactments in order to give effect to any Protocol amending the Brussels Supplementary Convention⁸.

1 As to the Paris Convention and subsequent Protocols thereto see PARA 1345 ante.

2 See the Convention on Third Party Liability in the Field of Nuclear Energy ('the Brussels Supplementary Convention') (Brussels, 31 January 1963; Misc 8 (1963); Cmnd 2090).

3 For the English text of the Brussels Supplementary Convention as amended by the Additional Protocol see TS 44 (1975); Cmnd 5948.

4 As to the Additional Protocol to the Paris Convention see PARA 1345 the text and note 10 ante.

5 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

6 The provisions of the Brussels Supplementary Convention, as amended by the Additional Protocol, are given effect in United Kingdom law by the Nuclear Installations Act 1965 and the Energy Act 1983: see PARA 1487 et seq post.

7 See the Protocol to amend the Brussels Supplementary Convention as amended by the Additional Protocol of 28 January 1964 (Paris, 16 November 1982; TS 17 (1992); Cm 1832).

8 See the Energy Act 2004 s 76; and PARA 1359 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1347. The Vienna Convention on Civil Liability for Nuclear Damage.

1347. The Vienna Convention on Civil Liability for Nuclear Damage.

The Vienna Convention on Civil Liability for Nuclear Damage and an Optional Protocol concerning the Compulsory Settlement of Disputes were signed at Vienna on 21 May 1963¹. The Convention has been ratified or acceded to by 19 states² and came into force on 12 November 1977. The Convention, which was prepared under the auspices of the International Atomic Energy Agency ('the IAEA')³, embodies the same basic principles as the Paris Convention⁴, but is intended to have worldwide application. A Joint Protocol to establish a link between the Paris Convention and the Vienna Convention by mutually extending the benefit of the regime of civil liability for nuclear damage set forth under each Convention and to eliminate conflicts arising from the simultaneous application of both Conventions to a nuclear incident was opened for signature on 21 September 1988⁵.

An Additional Protocol to amend the Vienna Convention was opened for signature on 29 September 1997⁶, together with a Convention on Supplementary Compensation for Nuclear Damage⁷.

1 See the Vienna Convention on Civil Liability for Nuclear Damage and an Optional Protocol concerning the Compulsory Settlement of Disputes (Vienna, 21 May 1963; Misc 9 (1964); Cmnd 2333).

2 The United Kingdom signed the Convention and Protocol on 11 November 1964, but had not ratified them at the date at which this title states the law. The United Kingdom has, however, enacted legislation giving effect, inter alia, to the Convention: see the Nuclear Installations Act 1965; the Energy Act 1984; and PARA 1487 et seq post. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 As to the IAEA see PARA 1354 post.

4 As to the Paris Convention and subsequent Protocols thereto see PARA 1345 ante.

5 As to the Joint Protocol (Cm 774) see also PARA 1345 the text and notes 16-17 ante.

6 See the Protocol to amend the Vienna Convention on Civil Liability for Nuclear Damage (Vienna, 29 September 1997).

7 See the Convention on Supplementary Compensation for Nuclear Damage (Vienna, 29 September 1997). The United Kingdom is not a signatory to the Protocol or the supplementary Convention.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1348. The International Convention for the Safety of Life at Sea 1974.

1348. The International Convention for the Safety of Life at Sea 1974.

On 1 November 1974 an International Conference on Safety of Life at Sea, held in London, opened for signature and acceptance an International Convention for the Safety of Life at Sea¹. The Convention entered into force on 25 May 1980 and replaced the International Convention for Safety of Life at Sea 1960. The Convention contains regulations for the carriage of dangerous goods by sea which apply, inter alia, to the carriage of radioactive substances².

The Convention also contains regulations designed to provide the administrative background for the control of the safety of merchant ships equipped with nuclear power plants³.

1 See the International Convention for the Safety of Life at Sea (London, 1 November 1974 to 1 July 1975; TS 46 (1980); Cmnd 7874) with Protocol (London, 1 June 1978 to 1 March 1979; TS 40 (1981); Cmnd 8277). The Convention is commonly known as 'SOLAS'. The Convention was laid before Parliament in October 1978 and ratified by the United Kingdom in November 1979. Numerous amendments have since been made to the Convention, eg amendments adopted on 27 May 1999 make the International Code for the Safe Carriage of Packaged Irradiated Nuclear Fuel, Plutonium and High-Level Radioactive Wastes on Board Ships ('INF Code') mandatory.

2 See the International Convention for the Safety of Life at Sea 1974 Annex, Ch VII (carriage of dangerous goods). The provisions of Annex, Ch VII are implemented in the United Kingdom by the Merchant Shipping (Dangerous Goods and Marine Pollutants) Regulations 1997, SI 1997/2367 (as amended): see SHIPPING AND MARITIME LAW vol 94 (2008) PARA 660. See also the Merchant Shipping (Carriage of Packaged Irradiated Nuclear Fuel etc) (INF Code) Regulations 2000, SI 2000/3216; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq.

3 See the International Convention for the Safety of Life at Sea 1974 Annex, Ch VIII.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1349. The Brussels Convention relating to Civil Liability in the Field of Maritime Carriage of Nuclear Material.

1349. The Brussels Convention relating to Civil Liability in the Field of Maritime Carriage of Nuclear Material.

The Convention relating to Civil Liability in the Field of Maritime Carriage of Nuclear Material was prepared under the auspices of the International Maritime Organisation¹, the Nuclear Energy Agency ('the NEA')² and the International Atomic Energy Agency ('the IAEA')³, and was signed by nine states, including the United Kingdom, at Brussels on 17 December 1971⁴. It came into force on 15 July 1975, but it has not yet been ratified by the United Kingdom⁵.

The purpose of the Convention is to remove the practical difficulties which have impeded the maritime carriage of nuclear material arising from the fact that, under maritime law, shipowners carrying nuclear material may be held liable for nuclear damage if they can be shown to have been at fault. Accordingly the Convention provides that maritime carriers of nuclear material are exonerated from any liability for damage caused by a nuclear incident if the operator of a land-based nuclear installation is liable under the Paris Convention⁶ or the Vienna Convention⁷, or under national law, provided that that law is in all respects as favourable to persons who suffer damage as either of those Conventions⁸. In addition shipowners are excluded from liability for damage to the nuclear installation itself or the means of transport⁹. The liability of the operator of a nuclear ship in respect of damage caused by a nuclear incident involving the nuclear fuel of, or radioactive products or waste produced in, such a ship is not, however, affected¹⁰.

1 The organisation was formerly known as the Intergovernmental Maritime Consultative Organisation, the change of name being made on 22 May 1982. As to the International Maritime Organisation see SHIPPING AND MARITIME LAW vol 93 (2008) PARA 13.

2 As to the NEA see PARA 1355 post.

3 As to the IAEA see PARA 1354 post.

10 See *ibid* art 3.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1350. The Convention on Physical Protection of Nuclear Material.

1350. The Convention on Physical Protection of Nuclear Material.

The Convention on Physical Protection of Nuclear Material was opened for signature on 3 March 1980 and entered into force on 8 February 1987. The Convention has been ratified, acceded to or accepted by more than 120 states and confirmed by Euratom¹. The purpose of the Convention, which was prepared under the auspices of the International Atomic Energy Agency ('the IAEA')², is to establish by international co-operation, in conformity with the national law of each signatory state, effective measures for the physical protection of nuclear material³ and to facilitate the safe transport of nuclear material.

Each state party to the Convention is required to take appropriate steps to ensure that nuclear material in the course of international nuclear transport within its territory, or on board a ship or aircraft under its jurisdiction in so far as such ship or aircraft is engaged in the transport to or from that state, is protected to specified standards⁴. States must not export or import, or authorise the export or import of, nuclear material unless assurances have been received that it will be protected to the specified level⁵, and must not allow the transit of nuclear material through their territory in the course of international nuclear transport unless they have received similar assurances⁶. A state is required to apply through its national law the specified levels of protection to nuclear material being transported from one part of its territory to another part through international waters or airspace⁷. There are provisions for prior notification of intended transport of nuclear material through a state's territory⁸.

The Convention requires states to identify and make known to each other, directly or through the IAEA, their central authority and point of contact having responsibility for physical protection of nuclear material and for co-ordinating recovery and response operations in the event of any unauthorised removal, use or alteration of nuclear material or credible threat thereof⁹. They are also required to provide co-operation and assistance to the maximum feasible extent in such eventualities¹⁰. States must co-operate and consult as appropriate with a view to the maintenance and improvement of physical protection of nuclear material¹¹.

The Convention also requires that states are to provide under their national law that specified actions in relation to nuclear material are punishable offences¹² and to assume jurisdiction in respect of these offences both on a territorial and nationality basis¹³. There are provisions for the detention¹⁴ and extradition of persons suspected of having committed such offences¹⁵, and requiring the greatest measure of assistance between states in connection with criminal proceedings brought in respect of such offences¹⁶.

1 See the Convention on Physical Protection of Nuclear Material (Vienna and New York from 3 March 1980; Misc 27 (1980); Cmnd 8112). The United Kingdom ratified the Convention on 6 September 1991, and it has been incorporated in English municipal law, eg by the enactment of the Nuclear Material (Offences) Act 1983: see PARA 1583 post. For the meaning of 'United Kingdom' see PARA 602 note 7 ante. As to Euratom see PARAS 1337-1339 ante.

2 As to the IAEA see PARA 1354 post.

3 For the purposes of the Convention 'nuclear material' means (1) plutonium, except that with isotopic concentration exceeding 80% in plutonium-238; (2) uranium-233; (3) uranium enriched in the isotopes 235 or 233; (4) uranium containing the mixture of isotopes as occurs in nature other than in the form of ore or ore-residue; and (5) any material containing one or more of the above: Convention on the Physical Protection of

Nuclear Material (Cmnd 8112) art 1. Cf the Nuclear Material (Offences) Act 1983 s 6, Schedule: see PARA 1583 note 2 post.

4 Convention on Physical Protection of Nuclear Material (Cmnd 8112) art 3. The levels of protection are described in Annex 1.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1351. The Convention on Early Notification of a Nuclear Accident.

1351. The Convention on Early Notification of a Nuclear Accident.

The Convention on Early Notification of a Nuclear Accident was opened for signature at Vienna on 26 September 1986. The Convention has been ratified, acceded to, approved or accepted by more than 100 states and became effective on 27 October 1986¹. The purpose of the Convention, which was prepared under the auspices of the International Atomic Energy Agency ('the IAEA')², is to ensure that, in the event of an accident involving specified facilities³ in the territory of a signatory state, other states which are or may be physically affected by a consequential release of radioactive material are notified forthwith, either directly or through the IAEA, of the nature, time and location of the accident, and promptly provided with information relevant to minimising the radiological consequences in those states which may be affected⁴.

The information to be provided under the Convention should comprise:

- 3590 (1) the time, exact location where appropriate and the nature of the nuclear accident;
- 3591 (2) the facility or activity involved;
- 3592 (3) the assumed or established cause and the foreseeable development of the accident relevant to the transboundary release of the radioactive materials;
- 3593 (4) the general characteristics of the radioactive release;
- 3594 (5) information on current and forecast meteorological conditions and the results of environmental monitoring relevant as above;
- 3595 (6) all off-site protective measures taken or planned; and
- 3596 (7) the predicted behaviour over time of the radioactive release⁵.

Initial information must be supplemented by further relevant information on the development of the emergency situation, including its foreseeable or actual termination⁶. States must respond promptly to requests from affected states for further information or consultations⁷. States must notify the IAEA and other states which are parties to the Convention, either directly or through the IAEA, of their competent authorities and points of contact for giving and receiving notifications and information under the Convention⁸. The IAEA, upon request from a party to the Convention which does not have nuclear activities itself and which borders on a state having an active nuclear programme but not a party, must conduct investigations into the feasibility and establishment of an appropriate radiation monitoring system to facilitate the achievement of the objectives of the Convention⁹.

1 See the Convention on Early Notification of a Nuclear Accident (Vienna, from 26 September 1986; Misc 2 (1989); Cm 565). The United Kingdom ratified the Convention on 9 February 1990. It has not been incorporated in English municipal law, either directly or indirectly, but see further CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 802. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 As to the IAEA see PARA 1354 post.

3 The facilities and activities in question are any nuclear reactor wherever located; any nuclear fuel cycle facility; any radioactive waste management facility; the transport and storage of nuclear fuels or radioactive wastes; the manufacture, use, storage, disposal and transport of radioisotopes; and the use of radioisotopes for

power generation in space objects: see the Convention on Early Notification of a Nuclear Accident (Cm 565) art 1(2).

4 See *ibid* arts 1(1), 2, 4.

5 See *ibid* art 5(1).

6 See *ibid* art 5(2).

7 See *ibid* art 6.

8 See *ibid* art 7.

9 See *ibid* art 8.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1352. The Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency.

1352. The Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency.

The Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency was opened for signature at Vienna on 26 September 1986. The Convention has been ratified, acceded to, approved or accepted by more than 90 states and became effective on 26 February 1987¹. The purpose of the Convention, which was prepared under the auspices of the International Atomic Energy Agency ('the IAEA')², is to facilitate the prompt provision of assistance to states by the IAEA and other states in the event of a nuclear accident or radiological emergency to mitigate its consequences.

Parties to the Convention must co-operate between themselves and with the IAEA to facilitate prompt assistance in the event of a nuclear accident or radiological emergency to minimise its consequences and to protect life, property and the environment from the effects of radioactive releases³. If a state party to the Convention requires such assistance it may call for it from any other party, either directly or through the IAEA⁴, and must specify the scope and types of assistance required and provide necessary information to the assisting party⁵. A state to which a request for such assistance is directed must promptly decide and notify the requesting party, directly or through the IAEA, whether it can offer assistance and the scope and terms of such assistance⁶. States must notify the IAEA of the experts, equipment and materials which could be made available to provide assistance⁷. Assistance may be requested relating to medical treatment or temporary relocation into the territory of another signatory state of people involved in a nuclear accident or radiological emergency⁸. The Convention provides for the IAEA to make available resources, transmit information and co-ordinate assistance⁹.

The responsibility for direction and control of assistance within its territory is that of the requesting state, which to the extent of its capabilities must provide appropriate facilities and services and must ensure the protection of personnel, equipment and materials brought into its territory for this purpose by assisting states¹⁰. States must notify the IAEA and other states which are parties to the Convention, either directly or through the IAEA, of their competent authorities and points of contact authorised to make and receive requests for and to accept offers of assistance¹¹. The Convention sets out functions of the IAEA assumed at the request of signatory states¹². There are provisions in relation to the confidentiality of information provided in connection with assistance¹³ and the co-ordination of public statements¹⁴; the reimbursement of costs or offer of assistance without costs¹⁵; privileges, immunities and facilities to be afforded to personnel of assisting states¹⁶; transit of personnel, equipment and property¹⁷; and claims in respect of injury or damage caused within the territory of requesting states in the course of the provision of assistance¹⁸.

1 See the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency (Vienna, from 26 September 1986; Misc 3 (1989); Cm 566). The United Kingdom ratified the Convention on 3 February 1990. The provisions of art 8 (ie art 8(2), (3)) set out in the Atomic Energy Act 1989 s 5, Schedule have the force of law in the United Kingdom and are to be construed for that purpose as granting any privilege or immunity which they require to be afforded: s 5(2). Those provisions require the requesting state to afford the following privileges and immunities to personnel of the assisting party or personnel acting on its behalf who have been duly notified to and accepted by the requesting state: (1) immunity from arrest, detention and legal process, including criminal, civil and administrative jurisdiction, of the requesting state, in respect of acts or

omissions in the performance of their duties; and (2) exemption from taxation, duties or other charges, except those which are normally incorporated in the price of goods or paid for services rendered, in respect of the performance of their assistance functions: Schedule para 2. The requesting state must: (a) afford the assisting party exemption from taxation, duties or other charges on the equipment and property brought into the territory of the requesting state by the assisting party for the purpose of the assistance; and (b) provide immunity from seizure, attachment or requisition of such equipment and property: Schedule para 3. At any time when a declaration under the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency (Cm 566) art 8(9) is in force, however (ie a declaration that the state making it does not consider itself bound in whole or in part by art 8(2), (3)), art 8(2), (3) only has the force of law in the United Kingdom to the extent that the United Kingdom considers itself bound thereby in accordance with the terms of the declaration: Atomic Energy Act 1989 s 5(3). Her Majesty may by Order in Council certify whether Her Majesty's Government in the United Kingdom has made or withdrawn a declaration under the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency (Cm 566) art 8(9): Atomic Energy Act 1989 s 5(4). See eg the Atomic Energy (Mutual Assistance Convention) Order 1990, SI 1990/235, art 2, Schedule. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

Nothing in the Atomic Energy Act 1989 s 5 (as amended) is to be construed as granting any privilege or immunity to a person who is a United Kingdom national or permanently resident in the United Kingdom, or prejudice any privilege or immunity afforded pursuant to any other international agreement or rule of customary international law: s 5(5). If in any proceedings any question arises whether a person is or is not entitled to any privilege or immunity by virtue of s 5 (as amended), a certificate issued by or under the authority of the Secretary of State stating any fact relevant to that question is conclusive evidence of that fact: s 5(6). For these purposes, 'United Kingdom national' means an individual who is a British citizen, a British overseas territories citizen, a British National (Overseas) or a British Overseas citizen: s 5(8) (amended by virtue of the British Overseas Territories Act 2002 s 2(3)). As to categories of citizenship see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARA 5 et seq. As to the Secretary of State's expenses in providing assistance under the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency (Cm 566) see the Atomic Energy Act 1989 s 5(1); and PARA 1362 post.

2 As to the IAEA see PARA 1354 post.

3 See the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency (Cm 566) art 1.

4 See *ibid* art 2(1). If at any time Her Majesty's Government calls for assistance under art 2(1), the Secretary of State must take such steps as are necessary to make public the fact that a call for assistance has been made, the nature of the assistance called for and the reasons for making the call: Atomic Energy Act 1989 s 5(7).

5 See the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency (Cm 566) art 2(2).

6 See *ibid* art 2(3).

7 See *ibid* art 2(4).

8 See *ibid* art 2(5).

9 See *ibid* art 2(6).

10 See *ibid* art 3.

11 See *ibid* art 4.

12 See *ibid* art 5.

13 See *ibid* art 6(1).

14 See *ibid* art 6(2).

15 See *ibid* art 7.

16 See *ibid* art 8. See also note 1 *supra*.

17 See *ibid* art 9.

18 See *ibid* art 10.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/A. INTERNATIONAL PROVISIONS/1353. The Convention on Nuclear Safety.

1353. The Convention on Nuclear Safety.

The Convention on Nuclear Safety was adopted on 17 June 1994 by a diplomatic conference convened by the International Atomic Energy Agency ('the IAEA')¹ at its headquarters and opened for signature on 20 September 1994. It entered into force on 24 October 1996. The Convention applies to the safety of nuclear installations² and its objectives are:

- 3597 (1) to achieve and maintain a high level of nuclear safety worldwide through the enhancement of national measures and international co-operation including, where appropriate, safety-related technical co-operation;
- 3598 (2) to establish and maintain effective defences in nuclear installations against potential radiological hazards in order to protect individuals, society and the environment from harmful effects of ionising radiation from such installations;
- 3599 (3) to prevent accidents with radiological consequences and to mitigate such consequences should they occur³.

Parties to the Convention must establish and maintain a legislative and regulatory framework to govern the safety of nuclear installations⁴ which must provide for:

- 3600 (a) the establishment of applicable national safety requirements and regulations;
- 3601 (b) a system of licensing with regard to nuclear installations and the prohibition of the operation of a nuclear installation without a licence;
- 3602 (c) a system of regulatory inspection and assessment of nuclear installations to ascertain compliance with applicable regulations and the terms of licences;
- 3603 (d) the enforcement of applicable regulations and of the terms of licences, including suspension, modification or revocation⁵.

Parties must ensure that prime responsibility for the safety of a nuclear installation rests with the holder of the relevant licence and must take the appropriate steps to ensure that each such licence holder meets its responsibility⁶. They must also take the appropriate steps:

- 3604 (i) to ensure that all organisations engaged in activities directly related to nuclear installations are to establish policies that give due priority to nuclear safety⁷;
- 3605 (ii) to ensure that adequate financial resources are available to support the safety of each nuclear installation throughout its life⁸;
- 3606 (iii) to ensure that sufficient numbers of qualified staff with appropriate education, training and retraining are available for all safety-related activities in or for each nuclear installation, throughout its life⁹;
- 3607 (iv) to ensure that the capabilities and limitations of human performance are taken into account throughout the life of a nuclear installation¹⁰;
- 3608 (v) to ensure that quality assurance programmes are established and implemented with a view to providing confidence that specified requirements for all

activities important to nuclear safety are satisfied throughout the life of a nuclear installation¹¹;

3609 (vi) to ensure that:
325

479. (A) comprehensive and systematic safety assessments are carried out before the construction and commissioning of a nuclear installation and throughout its life; such assessments must be well documented, subsequently updated in the light of operating experience and significant new safety information, and reviewed under the authority of the regulatory body¹²;

480. (B) verification by analysis, surveillance, testing and inspection is carried out to ensure that the physical state and the operation of a nuclear installation continue to be in accordance with its design, applicable national safety requirements, and operational limits and conditions¹³;

326

3610 (vii) to ensure that in all operational states the radiation exposure to the workers and the public caused by a nuclear installation is to be kept as low as reasonably achievable and that no individual is to be exposed to radiation doses which exceed prescribed national dose limits¹⁴;

3611 (viii) to ensure that there are on-site and off-site emergency plans that are routinely tested for nuclear installations and cover the activities to be carried out in the event of an emergency¹⁵;

3612 (ix) to ensure that appropriate procedures are established and implemented:
327

481. (A) for evaluating all relevant site-related factors likely to affect the safety of a nuclear installation for its projected lifetime¹⁶;

482. (B) for evaluating the likely safety impact of a proposed nuclear installation on individuals, society and the environment¹⁷;

483. (C) for re-evaluating as necessary all relevant factors referred to in heads (A) and (B) above so as to ensure the continued safety acceptability of the nuclear installation¹⁸;

484. (D) for consulting parties in the vicinity of a proposed nuclear installation, in so far as they are likely to be affected by that installation and, upon request providing the necessary information to such parties, in order to enable them to evaluate and make their own assessment of the likely safety impact on their own territory of the nuclear installation¹⁹;

328

3613 (x) to ensure that:

329

485. (A) the design and construction of a nuclear installation provides for several reliable levels and methods of protection (defence in depth) against the release of radioactive materials, with a view to preventing the occurrence of accidents and to mitigating their radiological consequences should they occur²⁰;

486. (B) the technologies incorporated in the design and construction of a nuclear installation are proven by experience or qualified by testing or analysis²¹;

487. (C) the design of a nuclear installation allows for reliable, stable and easily manageable operation, with specific consideration of human factors and the man-machine interface²²;

330

3614 (xi) to ensure that:

331

488. (A) the initial authorisation to operate a nuclear installation is based upon an appropriate safety analysis and a commissioning programme demonstrating that the installation, as constructed, is consistent with design and safety requirements²³;

- 489. (B) operational limits and conditions derived from the safety analysis, tests and operational experience are defined and revised as necessary for identifying safe boundaries for operation²⁴;
- 490. (C) operation, maintenance, inspection and testing of a nuclear installation are conducted in accordance with approved procedures²⁵;
- 491. (D) procedures are established for responding to anticipated operational occurrences and to accidents²⁶;
- 492. (E) necessary engineering and technical support in all safety-related fields is available throughout the lifetime of a nuclear installation²⁷;
- 493. (F) incidents significant to safety are reported in a timely manner by the holder of the relevant licence to the regulatory body²⁸;
- 494. (G) programmes to collect and analyse operating experience are established, the results obtained and the conclusions drawn are acted upon and that existing mechanisms are used to share important experience with international bodies and with other operating organisations and regulatory bodies²⁹;
- 495. (H) the generation of radioactive waste resulting from the operation of a nuclear installation is kept to the minimum practicable for the process concerned, both in activity and in volume, and any necessary treatment and storage of spent fuel and waste directly related to the operation and on the same site as that of the nuclear installation take into consideration conditioning and disposal³⁰.

332

The provisions of the Convention do not affect the rights and obligations of the parties to it under their law to protect information from disclosure³¹.

1 As to the IAEA see PARA 1354 post.

2 See the Convention on Nuclear Safety art 3. 'Nuclear installation' means for each contracting party any land-based civil nuclear power plant under its jurisdiction including such storage, handling and treatment facilities for radioactive materials as are on the same site and are directly related to the operation of the nuclear power plant. Such a plant ceases to be a nuclear installation when all nuclear fuel elements have been removed permanently from the reactor core and have been stored safely in accordance with approved procedures, and a decommissioning programme has been agreed to by the regulatory body: art 2(i). 'Regulatory body' means for each contracting party any body or bodies given the legal authority by that contracting party to grant licences and to regulate the siting, design, construction, commissioning, operation or decommissioning of nuclear installations (art 2(ii)); and 'licence' means any authorisation granted by the regulatory body to the applicant to have the responsibility for the siting, design, construction, commissioning, operation or decommissioning of a nuclear installation (art 2(iii)).

The Arabic, Chinese, English, French, Russian and Spanish texts are equally authentic: see art 35. The United Kingdom government signed the Convention on 20 September 1994 and ratified it on 17 January 1996 with effect from 24 October 1996. Euratom acceded to the Convention on 31 January 2000 with effect from 30 April 2000. See, however, Case C-29/99 *EC Commission v EU Council* [2002] ECR I-11221, [2002] All ER (D) 119 (Dec), ECJ.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/B. INTERNATIONAL BODIES/1354. The International Atomic Energy Agency.

B. INTERNATIONAL BODIES

1354. The International Atomic Energy Agency.

The Statute of the International Atomic Energy Agency ('the IAEA')¹ was approved on 26 October 1956 by the Conference on the Statute of the International Atomic Energy Agency held at United Nations Headquarters, New York, and entered into force on 29 July 1957. The IAEA's objectives are to seek to accelerate and enlarge the contribution of atomic energy to peace, health and prosperity throughout the world and to ensure, so far as the IAEA is able, that assistance provided by it or at its request or under its supervision or control is not used in such a way as to further any military purpose². Membership of the IAEA is limited to states and is based on the sovereign equality of all of the members³. The United Kingdom is a member.

The IAEA has, among other functions, authority to apply safeguards at the request of a state to any of that state's activities in the field of atomic energy⁴, and to establish or adopt standards of safety for health protection and minimisation of danger to life and property⁵. By resolution of the Economic and Social Council of the United Nations, the IAEA was in 1959 entrusted with the drafting of recommendations on the transport of radioactive substances, provided that they were consistent with the framework and general principles of recommendations of the Committee of Experts on the Transport of Dangerous Goods of the United Nations and that they were established in consultation with the United Nations and the specialised agencies concerned⁶. Accordingly in 1961 the IAEA published Regulations for the Safe Transport of Radioactive Materials, which have been revised from time to time.

An Agreement on the Privileges and Immunities of the International Atomic Energy Agency was approved by the Board of Governors on 1 July 1959⁷, and has been accepted by the United Kingdom⁸.

1 For the text of the Statute of the International Atomic Energy Agency and the amendments to it see Cmnds 450, 2053, 5393.

2 Statute of the International Atomic Energy Agency art II.

3 See *ibid* art IV.

4 See *ibid* art IIIA(5). See also the Agreement of 14 December 1972 between the International Atomic Energy Agency and the Government of the United Kingdom of Great Britain and Northern Ireland for the Application of Safeguards (Cmnd 5221). As to safeguards under the Treaty on the Non-Proliferation of Nuclear Weapons see PARA 1341 the text and notes 7-11 ante; and as to Euratom safeguards see PARA 1338 the text and note 8 ante.

5 See the Statute of the International Atomic Energy Agency art IIIA(6).

6 See Resolution 724 C (XXVIII), 17 July 1959.

7 For the text of the agreement see Cmnd 1675.

8 Privileges and immunities in the United Kingdom in accordance with the agreement are conferred upon the Agency, its officers and experts, and representatives of its members, by the International Atomic Energy Agency (Immunities and Privileges) Order 1974, SI 1974/1256 (amended by SI 1975/1209; SI 2006/1075). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/B. INTERNATIONAL BODIES/1355. The Organisation for Economic Co-operation and Development Nuclear Energy Agency.

1355. The Organisation for Economic Co-operation and Development Nuclear Energy Agency.

The Organisation for Economic Co-operation and Development Nuclear Energy Agency ('the NEA') was originally set up in 1957 as the European Nuclear Energy Agency of the Organisation for European Economic Co-operation¹, and was renamed in 1972 on the addition of Japan as a full member. Nineteen European countries, including the United Kingdom, together with Australia, Canada, the United States of America and Japan, are members of the Agency². The European Atomic Energy Community ('Euratom') also participates in its work³.

The purpose of the NEA is to further the development of the production and uses of nuclear energy, including applications of ionising radiations, for peaceful purposes by the participating countries, through co-operation between those countries and a harmonisation of measures taken at the national level⁴. The NEA's duties and objectives are:

- 3615 (1) to promote technical and economic studies and undertake consultations on the programme and projects of participating countries relating to the development of research and industry in the field of the production and uses of nuclear energy for peaceful purposes, in collaboration with other bodies of the Organisation for Economic Co-operation and Development ('the OECD') in matters falling within their competence⁵;
- 3616 (2) to promote the formation of joint undertakings for the production and uses of nuclear energy for peaceful purposes, endeavouring to secure the participation of the greatest possible number of countries⁶;
- 3617 (3) to ensure that the operation of joint undertakings and the materials, equipment and services made available by the NEA or under its supervision are used solely for peaceful purposes⁷;
- 3618 (4) to encourage the development of research into the production and uses of nuclear energy for peaceful purposes in participating countries and the exchange of scientific and technical information related to its purposes between participating countries⁸;
- 3619 (5) to contribute to the promotion, by the responsible national authorities, of the protection of workers and the public against the hazards of ionising radiations and of the preservation of the environment⁹;
- 3620 (6) to contribute to the promotion of the safety of nuclear installations and materials by the responsible national authorities¹⁰;
- 3621 (7) to contribute to the promotion of a system for third party liability and insurance with respect to nuclear damage¹¹;
- 3622 (8) to encourage measures to ensure the most efficient use of patented inventions in the field of nuclear energy¹²;
- 3623 (9) to contribute¹³ to the elimination of obstacles to international trade or to development of the nuclear industry¹⁴;
- 3624 (10) to contribute to the dissemination of information which may be freely distributed on the peaceful uses of nuclear energy, in particular on the safety and regulation of nuclear activities as well as on the physical protection of nuclear installations and materials¹⁵.

The NEA must establish a close collaboration with Euratom, details of which must be determined by common agreement¹⁶.

1 See the Decision of the Council of the Organisation for European Economic Co-operation establishing a European Nuclear Energy Agency and Convention on the Establishment of a Security Control in the Field of Nuclear Energy on 20 December 1957 (as amended by a revised Statute adopted by the Council on 5 April 1978). For the English text of the decision see Cmnd 357. The Statute of the OECD Nuclear Energy Agency was further amended on 10 December 1992 and 13 July 1995.

2 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 See the Statute of the OECD Nuclear Energy Agency art 18. As to Euratom see PARAS 1337-1339 ante.

4 See *ibid* art 1(b).

5 See *ibid* art 4(a).

6 See *ibid* art 5(a).

7 See *ibid* art 6(a). To that end, the Agency must establish a security control: art 6(a). The security control may be applied, at the request of the parties, to any bilateral or multilateral agreement, or, at the request of a participating country, to any of that country's activities in the field of nuclear energy: art 6(b). As to the security control see PARA 1343 ante.

8 See *ibid* art 7(a), (c).

9 See *ibid* art 8(a)(i).

10 See *ibid* art 8(a)(ii).

11 See *ibid* art 8(a)(iii).

12 See *ibid* art 8(a)(iv).

13 In so far as is consistent with *ibid* art 1(b): see the text and note 4 *supra*.

14 See *ibid* art 8(a)(v).

15 See *ibid* art 8(a)(vi).

16 See *ibid* art 18. Corresponding provision for collaboration is made in the Euratom Treaty art 201. As to the objectives of Euratom see PARA 1338 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(1) INTERNATIONAL PROVISIONS AND BODIES/(ii) Other International Provisions and Bodies/B. INTERNATIONAL BODIES/1356. Non-governmental bodies.

1356. Non-governmental bodies.

The International Commission on Radiological Protection ('ICRP'), which was set up in 1928 under the name of the International X-ray and Radium Protection Commission¹ by the Second International Congress of Radiology, is a private association of experts, from various countries, who are elected on the basis of their recognised activity in the fields of medical radiology, radiation protection, physics, health physics, biology, genetics, biochemistry or biophysics, and who are independent of any political or commercial interests. It provides guidance within the whole field of radiation protection². It is an independent registered charity in the United Kingdom and currently has its scientific secretariat in Sweden³.

From time to time the ICRP publishes recommendations upon which appropriate protection measures against the hazards of ionising radiation can be based, while leaving to the various national protection bodies the responsibility of formulating the specific legislation, codes of practice or advice that are best suited to the needs of their individual countries. The recommendations, which specify limits consisting of maximum permissible doses of ionising radiation to which particular categories of persons or the population generally may be exposed, are well established as authoritative guides to permissible levels of such exposure, and have a considerable influence on the regulatory activities of the relevant international organisations as well as on national legislation in the field of radiation protection. Radiation units and measurements used in the work of the ICRP have been defined and worked out by the International Commission on Radiation Units and Measurements ('ICRU'), which is a private association of experts set up in 1925 by the International Congress of Radiology⁴.

1 The International Commission on Radiological Protection assumed its present name and organisational form in 1950, with a view to covering more effectively the expanding field of radiation protection.

2 See the text and note 4 infra.

3 At the date at which this title states the law, information about the status of the ICRP was accessible at www.icrp.org.

4 The ICRU is based in Bethesda in the United States of America. At the date at which this title states the law, information about the ICRU was accessible at www.icru.org.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(i) The Legislation/1357. The controlling legislation.

(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL

(i) The Legislation

1357. The controlling legislation.

The principal Acts under which the production and use of atomic energy¹, radioactive substances² and radioactive material³ are controlled are the Atomic Energy Act 1946⁴, the Atomic Energy Authority Acts 1954⁵, 1971⁶ and 1986⁷, the Radioactive Substances Act 1993⁸ and the Nuclear Installations Acts 1965 and 1969⁹. The Energy Act 2004 makes new provision with regard to nuclear decommissioning¹⁰, transfers relating to nuclear undertakings¹¹ and security at nuclear installations¹².

Control is also exercised under the Health and Safety at Work etc Act 1974 with respect to the use of ionising radiations in the workplace¹³ and the carriage of radioactive material by rail¹⁴. Regulations now having effect under the Education Act 2002 make provision with respect to the use of radioactive substances and X-ray equipment in certain types of educational establishments¹⁵; and regulations made under the Food Safety Act 1990 make provision with regard to the application of ionising radiations to food intended for sale for human consumption¹⁶. Control is also exercised under the Merchant Shipping Act 1995¹⁷, the Civil Aviation Act 1982¹⁸ and the Radioactive Material (Road Transport) Act 1991¹⁹ with respect to the carriage of radioactive materials by sea, air and road; and under the Medicines Act 1968 with respect to the medical administration of radioactive substances²⁰.

1 'Atomic energy' means the energy released from atomic nuclei as a result of any process, including the fission process, but does not include energy released in any process of natural transmutation or radioactive decay which is not accelerated or influenced by external means: Atomic Energy Act 1946 s 18(1) (applied for the purposes of the Atomic Energy Authority Act 1954 by s 8(1); and for the purposes of the Nuclear Installations Act 1965 by s 26(1)).

2 'Radioactive substance' means any substance which consists of or contains any radioactive chemical element, whether natural or artificial; and 'substance' means any natural or artificial substance, whether in solid or liquid form or in the form of a gas or vapour, and also includes any manufactured article or article which has been subjected to any artificial treatment or process: see the Atomic Energy Authority Act 1954 s 8(1) (which incorporated by reference the definition formerly in the Radioactive Substances Act 1948 s 12 (repealed)). The Radioactive Substances Act 1993 contains separate definitions of 'radioactive material', 'mobile radioactive apparatus' and 'radioactive waste' (see ss 1-3; and PARAS 1439-1445, 1450 post), but no definition of 'radioactive substance'.

3 For the meaning of 'radioactive material' see *ibid* s 1; and PARA 1439 post.

4 The Atomic Energy Act 1946 provides for the general promotion and control of the development of atomic energy by the Secretary of State, and for connected purposes. Under the 1946 Act the Secretary of State has powers, *inter alia*, to obtain information relating to certain materials, plant and processes, to authorise entry on and inspection of certain premises, to search for and work minerals and compulsorily acquire certain property and rights under contracts, and to control the production and use of atomic energy. There are restrictions on the disclosure of information relating to certain plant, and special provisions as to inventions relating to atomic energy. Contraventions of certain provisions of the Act constitute offences, for which penalties are provided. See PARAS 1358, 1361, 1425 et seq, 1515, 1566, 1571, 1588 post.

5 The Atomic Energy Authority Act 1954 established the United Kingdom Atomic Energy Authority ('the UKAEA') and provided for its functions, powers and duties. See PARA 1363 et seq post.

6 Under the Atomic Energy Authority Act 1971, certain parts of the UKAEA's undertaking were transferred to the nuclear fuels company and the radiochemical company: see PARA 1377 et seq post.

7 The Atomic Energy Authority Act 1986 introduced changes to the UKAEA's constitution intended to facilitate trading activities. See PARAS 1366, 1375-1376 post.

8 The Radioactive Substances Act 1993 regulates the keeping and use of radioactive material on premises used for the purposes of an undertaking, makes provision as to the disposal and accumulation of radioactive waste and controls the use of mobile radioactive apparatus. See PARA 1439 et seq post. The territorial application of the Radioactive Substances Act 1993 has been extended to certain installations and any waters within 500 metres of such installations, in English areas on the continental shelf: see the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 4 (amended by virtue of the Radioactive Substances Act 1993 ss 49(1), (2), Sch 4 para 1, Sch 5 paras 1, 4); and the Interpretation Act 1978 s 17(2)(a).

9 The Nuclear Installations Act 1965 and the Nuclear Installations Act 1969 (which amends certain provisions of the 1965 Act) may be cited together as the Nuclear Installations Acts 1965 to 1969: see the Nuclear Installations Act 1969 s 5(2). The Nuclear Installations Act 1965 controls the installation and operation of certain nuclear installations, imposes duties on holders of nuclear site licences and makes provision for compensation where injury or damage has been caused in breach of certain of those duties. See PARA 1487 et seq post.

Any provisions of the Nuclear Installations Act 1965 may be extended by Order in Council to any of the Channel Islands, the Isle of Man, or to any other territory outside the United Kingdom for the international relations of which Her Majesty's Government in the United Kingdom is responsible: s 28(1). Any Order in Council so made may be varied or revoked by any subsequent order so made: s 28(2). For the purposes of s 28 the Congenital Disabilities (Civil Liability) Act 1976 s 3 (disabled birth due to radiation: see PARAS 1494 note 9, 1495 note 5, 1502 note 14 post) is to be treated as if it were a provision of the Nuclear Installations Act 1965: Congenital Disabilities (Civil Liability) Act 1976 s 4(6). Under the Nuclear Installations Act 1965 s 28, a number of orders have been made extending ss 10-17 (as amended) (see PARA 1497 et seq post), s 21 (as amended) (see PARAS 1513-1514 post), s 26 (as amended: interpretation), and s 30 (short title and commencement) with adaptations and modifications, to other territories: see eg the Nuclear Installations (Falkland Islands and Dependencies) Order 1972, SI 1972/124; the Nuclear Installations (Isle of Man) Order 1977, SI 1977/429 (amended by SI 1987/668); the Nuclear Installations (Guernsey) Order 1978, SI 1978/1528 (varied by SI 1985/1640); and the Nuclear Installations (Jersey) Order 1980, SI 1980/1527 (varied by SI 1987/2207).

As to the application of the Nuclear Installations Act 1965 to Northern Ireland see s 27 (as amended).

10 The Energy Act 2004 Pt 1 Ch 1 (ss 1-37) (as amended) establishes the Nuclear Decommissioning Authority ('the NDA') (see PARAS 1394-1397 post) and sets out its powers and duties with regard to cleaning up and decommissioning of nuclear sites (see PARA 1592 et seq post).

11 See ibid Pt 1 Ch 2 (ss 38-50); and PARA 1402 et seq post.

12 Ibid Pt 1 Ch 3 (ss 51-71) (as amended) makes provision for the Civil Nuclear Constabulary: see PARA 1520 et seq post.

13 See PARA 1474 post; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 647 et seq.

14 See PARA 1476 post.

15 See the Education (Schools and Further and Higher Education) Regulations 1989, SI 1989/351, reg 7 (amended in relation to England by 2004/571). As to the 1989 Regulations see EDUCATION vol 15(2) (2006 Reissue) PARA 627.

16 See the Food (Control of Irradiation) Regulations 1990, SI 1990/2490 (as amended); and FOOD vol 18(2) (Reissue) PARA 320 et seq.

17 See PARA 1476 post; and SHIPPING AND MARITIME LAW.

18 See PARA 1476 post; and AIR LAW.

19 See PARA 1475 post; and ROAD TRAFFIC.

20 See PARA 1474 post; and MEDICINAL PRODUCTS AND DRUGS.

UPDATE

1357 The controlling legislation

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

NOTE 15--SI 1989/351 revoked in relation to England: SI 2008/1701.

NOTE 16--SI 1990/2490 replaced: Food Irradiation (England) Regulations 2009, SI 2009/1584; Food Irradiation (Wales) Regulations 2009, SI 2009/1795.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/ (ii) Powers and Functions of the Secretary of State/1358. General functions of the Secretary of State with regard to atomic energy.

(ii) Powers and Functions of the Secretary of State

1358. General functions of the Secretary of State with regard to atomic energy.

It is the general duty of the Secretary of State¹ to promote and control the development of atomic energy². This duty includes in particular the duty of securing that, in the conduct of the affairs of the United Kingdom Atomic Energy Authority ('the UKAEA')³, the proper degrees of importance are attached to the various applications of atomic energy⁴. Certain powers originally conferred on the former Minister of Supply⁵, including powers relating to the acquisition of land, apply in relation to any functions of the Secretary of State under the Atomic Energy Act 1946 or any property vested in him or under his control by virtue of that Act⁶.

Powers are vested in the Secretary of State to search for minerals⁷, acquire compulsorily rights to work minerals⁸, and prohibit the working or dealing in or use of certain minerals⁹, in connection with atomic energy. He may store, transport or dispose of any articles¹⁰ acquired by him either in the exercise of any rights to work minerals vested in him under the Atomic Energy Act 1946 or in or by reason of the exercise of the powers conferred on him under that Act in relation to the search for minerals and the acquisition of prescribed substances, mineral stocks, plant and contractual rights, and he may do all such things as appear to him to be necessary or expedient for the exercise of such powers¹¹.

¹ As to the Secretary of State see PARA 601 note 1 ante.

² Atomic Energy Act 1946 s 1. For the meaning of 'atomic energy' see PARA 1357 note 1 ante. The Atomic Energy Act 1946 refers throughout to 'the Minister of Supply', in whom powers under that Act were originally vested, but these references are now to be construed as references to the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry).

³ As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq post; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 post.

⁴ Atomic Energy Authority Act 1954 s 3(1). The Atomic Energy Authority Act 1954 refers throughout to the 'Lord President of the Council', in whom powers under that Act were originally vested, but these references are now to be construed as references to the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry).

⁵ The powers originally conferred by the Ministry of Supply Act 1939 s 2(2), (3), Schedule (repealed), but now conferred by the Supply Powers Act 1975 s 2(1), (2), Sch 1 (as amended) (which provide for the application of specified statutory provisions, including provisions relating to the acquisition of land, in relation to the Secretary of State or his property), and the Ministry of Supply (Transfer of Powers) (No 1) Order 1939, SR & O 1939/877, arts 5, 6, Schs 1, 2 (revoked with savings): see the Atomic Energy Act 1946 s 2(2) (amended by the Supply Powers Act 1975 s 8(2)). As to the repeal of the Ministry of Supply Act 1939, and the revocation of the Ministry of Supply (Transfer of Powers) (No 1) Order 1939, SR & O 1939/877 (without affecting the operation of arts 5, 6 in relation to any functions of the Secretary of State under the Atomic Energy Act 1946 or any property vested in or under the Secretary of State's control by virtue of that Act), see the Supply Powers Act 1975 s 8(1), (7), Sch 2 Pts I, II.

⁶ Atomic Energy Act 1946 s 2(2) (as amended: see note 5 supra). Powers derived by the Secretary of State under the Ministry of Supply (Transfer of Powers) (No 1) Order 1939, SR & O 1939/877 (revoked with savings) include powers to make byelaws under the Military Lands Act 1892 Pt II (ss 14-18) (as amended). As to the power to make byelaws in relation to land vested in or under the management of the UKAEA see PARAS 1363, 1575 post.

- 7 See the Atomic Energy Act 1946 s 6; and PARAS 1425-1426 post.
- 8 See *ibid* s 7 (as amended); and PARAS 1427-1428 post.
- 9 See *ibid* s 10; and PARAS 1429-1431 post.
- 10 For the meaning of 'articles' see PARA 1366 note 5 post.
- 11 See the Atomic Energy Authority Act 1954 s 2(3) proviso (b), (c); and PARAS 1425, 1427, 1432, 1435 post.

UPDATE

1358 General functions of the Secretary of State with regard to atomic energy

NOTES 2, 4--The functions of the Secretary of State for Business, Enterprise and Regulatory Reform have been transferred to the Secretary of State for Business, Innovation and Skills: see the Secretary of State for Business, Innovation and Skills Order 2009, SI 2009/2748.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/ (ii) Powers and Functions of the Secretary of State/1359. Power to amend legislation in order to give effect to international obligations.

1359. Power to amend legislation in order to give effect to international obligations.

The Secretary of State¹ may by order² make the modifications³ of the Nuclear Installations Act 1965⁴, and any other enactment having effect in relation to a matter to which an international Protocol such as is mentioned in head (1) below relates, that he considers appropriate for the purpose:

- 3625 (1) of facilitating the ratification by Her Majesty's Government in the United Kingdom⁵ of an international Protocol, whether entered into before or after 22 July 2004⁶, that relates to liability for nuclear damage⁷; or
- 3626 (2) of exercising an option under such a Protocol⁸, or of facilitating the exercise of such an option⁹.

This power to modify enactments includes power to modify enactments conferring power to make subordinate legislation¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The power to make an order containing provision authorised by the Energy Act 2004 s 76 is subject to the affirmative resolution procedure: s 76(7). As to that procedure see PARA 754 note 17 ante.

3 For the meaning of 'modifications' see PARA 733 note 8 ante.

4 As to the Nuclear Installations Act 1965 see PARA 1487 et seq post.

5 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

6 Ie whether before or after the passing of the Energy Act 2004.

7 The following are the only international Protocols which are to be taken for these purposes to be Protocols relating to liability for nuclear damage: (1) the Joint Protocol relating to the Application of the Vienna Convention and the Paris Convention (Vienna, from 21 September 1988; Misc 12 (1988); Cm 774) (see PARA 1345 ante); and (2) any Protocol amending the Paris Convention or the Brussels Supplementary Convention: Energy Act 2004 s 76(3). For these purposes, 'the Brussels Supplementary Convention' means the Supplementary Convention on Third Party Liability in the Field of Nuclear Energy (Brussels, 31 January 1963; Misc 8 (1963); Cmnd 2090, 5948) (see PARA 1346 ante); and 'the Paris Convention' means the Paris Convention on Third Party Liability in the Field of Nuclear Energy (Paris, 29 July 1960; Misc 17 (1960); Cmnd 1211) (see PARA 1345 ante); Energy Act 2004 s 76(4).

8 The reference in *ibid* s 76(1) to exercising an option under a Protocol is a reference to making provision the making of which, in connection with the matters to which the Protocol relates, is allowed by that Protocol: s 76(5).

9 *Ibid* s 76(1), (2). At the date at which this title states the law, no such order had been made.

10 *Ibid* s 76(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/ (ii) Powers and Functions of the Secretary of State/1360. Other functions and powers of the Secretary of State.

1360. Other functions and powers of the Secretary of State.

The Secretary of State¹:

- 3627 (1) appoints the members of the United Kingdom Atomic Energy Authority ('the UKAEA')² and the Nuclear Decommissioning Authority ('the NDA')³;
- 3628 (2) has power to grant permits for the use of a site for the treatment of irradiated matter which involves the extraction from it of plutonium or uranium, or for the treatment of uranium such as to increase the proportion of the isotope 235 contained in it⁴;
- 3629 (3) has further responsibilities with regard to the approval of special financial cover to be provided by nuclear site licensees in respect of their liability to pay compensation for breach of duty⁵, the laying before Parliament of copies of certain notices and reports in respect of certain claims for compensation⁶, the appointment of inspectors for certain purposes⁷, and the prosecution of certain offences⁸;
- 3630 (4) has power to make regulations governing the carriage of dangerous goods⁹;
- 3631 (5) has power to make health and safety regulations in connection with the emission of ionising and other radiations and in relation to measures for informing the public about health protection measures to be taken in the event of a radiation emergency¹⁰;
- 3632 (6) has power under the Radioactive Substances Act 1993 to grant exemptions from the requirements for registration or authorisation under that Act¹¹, to give directions to the Environment Agency with regard to the exercise of its powers under that Act¹², to require certain applications under that Act to be determined by him¹³ and to determine appeals against decisions of the Agency under that Act¹⁴;
- 3633 (7) has power to provide, or arrange for the provision of, facilities for the disposal of radioactive waste¹⁵; and
- 3634 (8) has power to enter into agreements with respect to nuclear transfer schemes under the Energy Act 2004¹⁶.

With certain exceptions¹⁷, the functions of the Secretary of State under the Radioactive Substances Act are transferred, in so far as they are exercisable in relation to Wales, to the Welsh Ministers¹⁸. Certain of his functions under the Nuclear Installations Act 1965 are exercisable, so far as they relate to Scotland, either by the Scottish Ministers or only after consultation with them¹⁹.

Where the Secretary of State had promised a 'full public consultation' as to whether the building of new nuclear power stations was a possible option in order to diversify existing energy supplies, the High Court held that that promise was not fulfilled where the consultation document had the impression of an 'issues paper' only and not a consultation paper, and had been misleading given that two key issues had not been properly addressed, those being questions on the economics of developing nuclear sites and questions on the disposal of radioactive waste. The claimant's legitimate expectation of a 'full public consultation' had thus been breached and the Secretary of State had acted unfairly as a matter of procedure²⁰.

- 1 As to the Secretary of State see PARA 601 note 1 ante.
- 2 See PARA 1364 post. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq post; and as to the use of the abbreviation 'the UKAEA' see PARA 1363 the text and notes 4-5 post.
- 3 See PARA 1395 post. As to the establishment and constitution of the NDA see PARAS 1394-1395 post; and as to its functions see PARAS 1592-1595 post.
- 4 See the Nuclear Installations Act 1965 s 2 (as amended); and PARA 1489 post.
- 5 See ibid s 19 (as amended); and PARAS 1285-1286 post.
- 6 See PARA 1512 post.
- 7 See PARA 1518 post.
- 8 See PARA 1586 post.
- 9 See PARAS 1475-1476 post.
- 10 See PARA 1474 post.
- 11 See PARAS 1440-1446, 1450 post.
- 12 See PARAS 1468, 1572 post. As to the Environment Agency see PARA 1390 post; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.
- 13 See PARA 1469 post.
- 14 See PARAS 1471-1473 post.
- 15 See PARA 1460 post.
- 16 See PARA 1421 post.
- 17 The functions of the Secretary of State under the Radioactive Substances Act 1993 s 1(5) (see PARA 1439 post), s 8(6) (see PARA 1440 post), s 11(1) (see PARA 1446 post), s 15 (as amended) (see PARA 1450 post) and s 25 (as amended) (see PARA 1572 post) are not so transferred; and his functions under s 25 (as amended) and s 39 (as amended) (see PARA 1567 post) are exercisable by the Assembly or the Welsh Ministers concurrently with the Secretary of State: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. As to the National Assembly for Wales and the Welsh Ministers see PARA 602 note 1 ante.
- 18 See the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1; and PARA 602 note 1 ante.
- 19 See the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1; the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, arts 2, 4, Schs 1, 3; the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2.
- 20 See *R (on the application of Greenpeace Ltd) v Secretary of State for Trade and Industry* [2007] EWHC 311 (Admin), (2007) Times, 20 February, [2007] All ER (D) 192 (Feb). Accordingly, the decision taken in the consultation document that nuclear new build had a 'role to play' was unlawful: *R (on the application of Greenpeace Ltd) v Secretary of State for Trade and Industry* supra.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iii) Other Administrative Provisions/1361. Orders and regulations generally.

(iii) Other Administrative Provisions

1361. Orders and regulations generally.

Certain orders and regulations must be made by statutory instrument¹ and are subject to annulment in pursuance of a resolution of either House of Parliament². They include certain orders made under the Atomic Energy Act 1946³ and all regulations and certain orders made by the Secretary of State under the Radioactive Substances Act 1993⁴. Certain orders⁵ made under the Nuclear Installations Act 1965 must be made by statutory instrument and a draft of the order must be laid before and approved by resolution of the House of Commons⁶.

Any order made under the Nuclear Installations Act 1965, on the happening of any occurrence in respect of which liability may be incurred to pay compensation under the Act, which makes provision for the registration of such particulars of any person shown to have been within such area during such period as may be specified in the order, must be made by statutory instrument and be laid before Parliament after being made⁷.

The power to make certain orders relating to financial limits⁸ is exercisable subject to the Treasury's approval and no such order may be made unless a draft of it has been laid before, and approved by a resolution of, the House of Commons⁹.

¹ As to statutory instruments see generally the Statutory Instruments Act 1946 s 1 (as amended); and STATUTES.

² If either House of Parliament, within a period of 40 days beginning with the day on which any order made under the Atomic Energy Act 1946 to which s 15(1) (see note 3 infra) applies is laid before it, resolves that the order be annulled, the order ceases to have effect, but without prejudice to anything previously done thereunder or to the making of a new order: s 15(1). In reckoning any such period of 40 days, no account is to be taken of any time during which Parliament is dissolved or prorogued or during which both Houses are adjourned for more than four days: s 15(1). As to annulment by resolution of either House of Parliament see generally the Statutory Instruments Act 1946 ss 5, 7(1); and PARLIAMENT vol 34 (Reissue) PARA 945.

³ In every order made by the Secretary of State (see PARA 602 note 1 ante) under the Atomic Energy Act 1946, except an order made under s 7 (as amended) or an order varying or revoking such an order: s 15(1). As to orders made under s 7 (as amended) see PARA 1427 the text and note 4 post. Any order made under the Atomic Energy Act 1946 may be varied or revoked by a subsequent order made in like manner and subject to the like conditions: s 15(2).

⁴ See the Radioactive Substances Act 1993 s 44(3), (4). The only exception concerns orders under s 49(2), Sch 5 relating to certain transitional provisions: s 44(4). Section 44 does not extend to Northern Ireland: s 44(5). As to the making of orders relating to Northern Ireland see s 45. The Secretary of State has power to make regulations under the Radioactive Substances Act 1993 for any purpose for which regulations are authorised or required so to be made: s 44(1). As to the transfer of his functions in relation to Wales to the Welsh Ministers see PARA 601 note 1 ante.

⁵ In any order under the Nuclear Installations Act 1965 s 16(1A) (as added: see PARA 1505 post), s 18(1B) (as added: see PARA 1509 post) or s 21(1A) (as added: see PARA 1513 post): see s 25A (added by the Energy Act 1983 s 30).

⁶ Nuclear Installations Act 1965 s 25A (as added: see note 5 supra). Every order made by the Secretary of State under the Nuclear Installations Act 1965 s 2 (as amended: see PARA 1489 post) must be made by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament: see s 2(1C) (added

by the Atomic Energy Authority Act 1971 s 17(1)). The power to make an order conferred by the Nuclear Installations Act 1965 s 2 (as amended) includes power to vary or revoke it by a subsequent order: s 2(1C) (as so added).

7 See *ibid* s 23(1); and *PARA 1500 post*.

8 The orders made for the purposes of the Nuclear Industry (Finance) Act 1977 ss 2(2)(a)-(c), (3)(a)-(b) (as amended) (see *PARA 1384 post*): s 2(4).

9 *Ibid* s 2(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iii) Other Administrative Provisions/1362. Expenses of ministers.

1362. Expenses of ministers.

There must be paid out of money provided by Parliament:

- 3635 (1) any expenses incurred by the Secretary of State in the exercise of functions under, and any sums required to be paid to any person by way of compensation by or under, the Atomic Energy Act 1946¹;
- 3636 (2) any sum payable by a minister in respect of a claim for compensation under the Nuclear Installations Act 1965²;
- 3637 (3) any increase in the sums payable out of money so provided under certain provisions of the Atomic Energy Authority Act 1954³ and under, or in respect of expenses incurred under, certain provisions of the Nuclear Installations Act 1965⁴, being an increase attributable to the Atomic Energy Authority Act 1971⁵;
- 3638 (4) any subscription by the Secretary of State for shares issued by the nuclear fuels company⁶;
- 3639 (5) any increase in the administrative expenses of the Secretary of State attributable to the Atomic Energy (Miscellaneous Provisions) Act 1981⁷;
- 3640 (6) any expenses incurred by the Secretary of State in consequence of the provisions of the Radioactive Material (Road Transport) Act 1991⁸;
- 3641 (7) any expenses incurred by the Secretary of State for Defence in carrying on certain activities⁹ in consequence of the Atomic Energy Authority (Weapons Group) Act 1973, or otherwise carrying that Act into effect, and any increase attributable to that Act in the sums payable out of money provided by Parliament under any other enactment¹⁰;
- 3642 (8) any expenses incurred by the Secretary of State for Defence:
- 333
 - 496. (a) in connection with the formation or operation of any company formed with a view to, or for the purpose of, the carrying on of designated activities under the Atomic Weapons Establishment Act 1991 or with the operation of any such company wholly owned by the Secretary of State; or
 - 497. (b) in assuming responsibility for any liabilities arising out of the carrying on of designated activities or liabilities to or in respect of persons employed or formerly employed in or in connection with the carrying on of such activities¹¹;
- 334
 - 3643 (9) any expenditure incurred by the Secretary of State, with the consent of the Treasury, under or as a result of:
- 335
 - 498. (a) any option under which he or his nominee may acquire an undertaking or property from a British Energy company¹²; or
 - 499. (b) any agreement entered into for the purpose of giving effect to the provisions of such an option, or of continuing or modifying¹³ their effect¹⁴.
- 336

The Secretary of State may require a licensee¹⁵ to repay to him, in such cases and to such extent as it appears to the Secretary of State, with the Treasury's agreement, to be appropriate

to do so, such part as may appear to him to be attributable to the nuclear installations¹⁶ in respect of which nuclear site licences¹⁷ have been granted to that licensee of:

- 3644 (i) any sums paid by him by way of remuneration, allowances or other payments to inspectors appointed by him¹⁸; and
- 3645 (ii) any expenses incurred by him or by any government department; or
- 3646 (iii) such sums as the Treasury may determine in respect of the use of premises belonging to the Crown, which the Secretary of State may with the Treasury's consent determine to be incurred in connection with the exercise by the Secretary of State of his power to appoint inspectors¹⁹.

The licensee must comply with any such requirement; and any sums so repaid to the Secretary of State must be paid into the Consolidated Fund²⁰.

There are provisions in the Science and Technology Act 1965 as to the payment of expenses incurred by certain ministers in carrying on or supporting scientific research²¹ or the dissemination of the results of such research, in furthering the practical application of such results, and in making payments to or in respect of members of certain advisory bodies established for the purpose of assisting ministers in matters connected with scientific research²².

The Secretary of State may pay out of money provided by Parliament any expenses which he incurs in connection with assistance provided under the Convention on Assistance in the case of a Nuclear Accident or Radiological Emergency²³, and must pay into the Consolidated Fund any sums which he receives under the Convention by way of reimbursement of any expenses which he so incurs²⁴.

1 Atomic Energy Act 1946 s 16. As to the Secretary of State see PARA 601 note 1 ante. Any compensation, however, required to be paid by an order under s 7 (as amended) (see PARAS 1427-1428 post) vesting any right to work minerals in the United Kingdom Atomic Energy Authority ('the UKAEA') is to be paid by the Authority: s 16 proviso (added by the Atomic Energy Authority Act 1954 s 6(4), Sch 3). As to such orders see PARA 1427 the text and note 4 post. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq post; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 post.

2 See the Nuclear Installations Act 1965 s 16(3), s 18(1), (3) (as amended); and PARAS 1506-1505 post.

3 Ie under the Atomic Energy Authority Act 1954 s 4(1): Atomic Energy Authority Act 1971 s 23(a). See further PARA 1375 the text and note 2 post.

4 Ie under, or in respect of expenses incurred under, the Nuclear Installations Act 1965 s 24 (as substituted and amended) (provisions relating to inspectors): Atomic Energy Authority Act 1971 s 23(b). See further PARA 1518 post.

5 Ibid s 23. Any increase in the sums payable under the Atomic Energy Authority Act 1954 s 4(1) which is attributable to the Science and Technology Act 1965 s 4(1) (see PARA 1369 post) must also be defrayed out of money provided by Parliament: see s 4(2).

6 See the Atomic Energy Authority Act 1971 s 11(4) (amended by the Nuclear Industry (Finance) Act 1977 s 2(5); the Energy Act 2004 s 197(2)). As to the nuclear fuels company see PARA 1377 post. The Treasury's consent is required for such subscription: see the Atomic Energy Authority Act 1971 s 11(4) (as so amended).

7 Atomic Energy (Miscellaneous Provisions) Act 1981 s 3. As to the extension of the powers of the United Kingdom Atomic Energy Authority and the Secretary of State by that Act see PARA 1381 post.

8 Radioactive Material (Road Transport) Act 1991 s 7. See further PARA 1475 post; and ROAD TRAFFIC vol 40(3) (2007 Reissue) PARA 1661 et seq.

9 Ie any activities which before 1 April 1973 were activities of the Weapons Group of the United Kingdom Atomic Energy Authority and involved the doing of work on explosive nuclear devices: Atomic Energy Authority

(Weapons Group) Act 1973 ss 1(1), 8(a); Atomic Energy Authority (Weapons Group) Act 1973 (Appointed Day) Order 1973, SI 1973/463.

10 Atomic Energy Authority (Weapons Group) Act 1973 s 8. See further PARA 1386 ante.

11 Atomic Weapons Establishment Act 1991 s 5. See further PARA 1387 post. It is immaterial whether the liabilities for which responsibility is so assumed are the liabilities of such a company as is mentioned in head (8) (a) in the text or of any other company which is or has been a contractor: see s 5(b). For the meaning of 'designated activities' and 'contractor' see PARA 1387 notes 2, 11 post.

12 For these purposes, 'British Energy company' has the same meaning as in the Electricity (Miscellaneous Provisions) Act 2003 s 1 (ie British Energy plc or a company which either is or immediately before 8 May 2003 was a subsidiary of British Energy plc: see s 1(2)); Energy Act 2004 s 79(2). The Electricity (Miscellaneous Provisions) Act 2003 s 1 provides for the payment out of money provided by Parliament of any expenditure which the Secretary of State may, with the approval of the Treasury, incur with a view to or in connection with (1) the provision by the Secretary of State of financial assistance to a British Energy company; (2) the acquisition by the Secretary of State or his nominee or by a Crown company of (a) any securities of a British Energy company; or (b) any part of the undertaking or assets of a British Energy company; or (3) the carrying on of any undertaking acquired as mentioned in head (2)(b) supra or any undertaking using assets so acquired: see s 1(1). For those purposes, 'Crown company' means a company which is wholly owned by the Crown; 'financial assistance' includes assistance by way of grant or loan, by entering into a guarantee or by any other means (whether the assistance is given in pursuance of an agreement or otherwise); and 'securities' includes shares or stock, debentures or debenture stock, bonds and other securities of a company (whether or not constituting a charge on the assets of the company): s 1(2). A company is wholly owned by the Crown for the purposes of s 1 at any time when none of the issued shares in the company is held otherwise than by the Secretary of State or a nominee of his, or by a company which is itself wholly owned by the Crown: s 1(3).

13 For the meaning of 'modification' and cognate expressions see PARA 733 note 8 ante.

14 Energy Act 2004 s 79(1).

15 For the meaning of 'licensee' see PARA 1490 note 11 post.

16 For the meaning of 'nuclear installation' see PARA 1487 note 3 post.

17 For the meaning of 'nuclear site licence' see PARA 1487 note 1 post.

18 Ie any sum paid at any time by the Secretary of State under the Nuclear Installations Act 1965 s 24(1) (s 24 substituted by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 4): Nuclear Installations Act 1965 s 24(3)(a) (as further substituted by the Atomic Energy Act 1989 s 6(1)(a)). As to the power to appoint inspectors under the Nuclear Installations Act 1965 s 24(1) (as substituted) see PARA 1518 post. As to the Secretary of State see PARA 601 note 1 ante.

19 Ibid s 24(3)(b) (as substituted (see note 18 supra); amended by the Atomic Energy Act 1989 s 6(1)(b)).

20 Nuclear Installations Act 1965 s 24(3) (as substituted (see note 18 supra); amended by the Atomic Energy Act 1989 s 6(1)(c)). In so far, however, as sums so repaid relate to expenses incurred by the Scottish Administration they must be paid to the Scottish Ministers: Nuclear Installations Act 1965 s 24(3) (as so substituted; amended for this purpose by the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2 Pt I para 38(1), (4)). Any liability of a licensee in respect of sums payable under the Nuclear Installations Act 1965 s 24(3) (as substituted and amended) on account of pensions may, if the Secretary of State so determines, be calculated at such rate as may be determined by the Minister for the Civil Service, by reference to remuneration: s 24(4) (as substituted: see note 18 supra). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

21 'Scientific research' means research and development in any of the sciences (including the social sciences) or in technology: Science and Technology Act 1965 s 6(1).

22 See ibid s 5(1) (as amended); and NATIONAL CULTURAL HERITAGE vol 77 (2010) PARA 973.

23 Ie the Convention on Assistance in the Case of a Nuclear Accident or Radiological Emergency done at Vienna on 26 September 1986: Atomic Energy Act 1989 s 5(8). See further PARA 1352 ante.

24 Ibid s 5(1).

UPDATE

1362 Expenses of ministers

NOTE 12--Electricity (Miscellaneous Provisions) Act 2003 s 1(2), definition of 'British Energy company' amended: SI 2009/1941.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1363. Establishment and nature of the United Kingdom Atomic Energy Authority.

(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')

A. IN GENERAL

1363. Establishment and nature of the United Kingdom Atomic Energy Authority.

The United Kingdom Atomic Energy Authority ('the UKAEA') was established on 1 August 1954¹ for the purposes, inter alia, of developing and carrying out research into atomic energy² and producing, distributing and acquiring radioactive substances³. The United Kingdom Atomic Energy Authority is referred to in the Atomic Energy Authority Act 1954, the Nuclear Installations Act 1965 and certain other legislation as 'the Authority'⁴ but in the Energy Act 2004 as 'the UKAEA'⁵.

The Authority is not a government department, although it is treated as such for various purposes, and is not generally entitled to Crown privileges⁶; it is a statutory corporation with perpetual succession and a common seal⁷ under the general control of the Secretary of State⁸. The finances of the Authority were put on a trading fund basis with effect from 1 April 1986⁹.

Premises belonging to or in the occupation of the Authority are deemed to be premises belonging to or occupied by the Crown for the purposes of certain legislation relating to factories¹⁰, and are protected from trespass in the like manner as government factories and magazines¹¹.

For the purpose of making and enforcing byelaws under the Military Lands Act 1892¹² any land vested in or under the management of the Authority is deemed to be land vested in or under the management of the Secretary of State, and any right of the Authority to use land vested in another person is deemed to be a right of the Secretary of State, and the purposes of the Authority are deemed to be purposes of a department or organisation maintained by him¹³.

The Authority's rights with respect to patented inventions are discussed elsewhere in this work¹⁴.

The administrative and departmental records of the Authority are public records¹⁵.

The Secretary of State has power to give the Authority such directions as he may think fit and the Authority must comply with any directions so given¹⁶.

¹ Atomic Energy Authority Act 1954 ss 1(1), 8(2); Atomic Energy Authority (Appointed Day) Order 1954, SI 1954/832. As to the application of the Atomic Energy Authority Act 1954 to Northern Ireland see s 9 (amended by the Acquisition of Land Act 1981 s 34, Sch 4 para 1; the Statute Law (Repeals) Act 2004; the Energy Act 2004 s 197(9), Sch 23 Pt 1).

² For the meaning of 'atomic energy' see PARA 1357 note 1 ante.

³ As to the Authority's functions see PARA 1366 et seq post. For the meaning of 'radioactive substance' see PARA 1357 note 2 ante.

4 See the Nuclear Installations Act 1965 s 26(1); the Atomic Energy Authority Act 1971 s 1(1)(a); the Atomic Energy Authority (Weapons Group) Act 1973 s 1(1); the Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(1); the Atomic Energy Authority Act 1986 s 9.

5 See the Energy Act 2004 s 196(1). Throughout this title, and for the sake of consistency, where the full name of the United Kingdom Atomic Energy Authority is given it is followed by the abbreviation 'the UKAEA', even if not so followed in the legislation being set out; but where the full name is not given, then either 'the Authority' or 'the UKAEA' is used to refer to the United Kingdom Atomic Energy Authority in accordance with the practice of the legislation in question.

6 See the Atomic Energy Authority Act 1954 s 6(5) (amended by the Statute Law (Repeals) Act 2004, Sch 1 Pt 16).

7 Ibid s 1(9), Sch 1 para 1.

8 As to the Secretary of State see PARA 601 note 1 ante.

9 See the Atomic Energy Authority Act 1986 s 1; and PARA 1375 post.

10 See the Atomic Energy Authority Act 1954 s 6(4), Sch 3 (as amended); the Factories Act 1961 ss 173(1), 183(1), Sch 6 para 1; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 308. The power of entry on land conferred on the police by the Game Laws (Amendment) Act 1960 is not exercisable in relation to land occupied by or under the management of the Authority: see s 2(3)(c) (as amended); and ANIMALS vol 2 (2008) PARA 785.

11 See the Explosives Act 1875 s 97 (as amended); the Atomic Energy Authority Act 1954 Sch 3 (as amended); and EXPLOSIVES vol 17(2) (Reissue) PARA 909 note 5.

12 Ie for the purposes of the Military Lands Act 1892 Pt II (ss 14-18) (as amended): see PARA 1575 post.

13 See the Atomic Energy Authority Act 1954 Sch 3 (as amended); and PARA 1575 post.

14 See the Patents Act 1949 s 46(2) (amended by the Atomic Energy Authority Act 1954 Sch 3); the Atomic Energy Authority (Weapons Group) Act 1973 s 5(1), (2) (amended by the Patents Act 1977 s 132(6), Sch 5 para 6); the Patents Act 1977 s 22 (as amended); and PATENTS AND REGISTERED DESIGNS vol 79 (2008) PARAS 335-336.

15 See the Public Records Act 1958 s 10, Sch 1 para 3, Table Pt II (as amended). As to the general provisions and effect of that Act see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARAS 837-841.

16 Atomic Energy Authority Act 1954 s 3(2). Such directions may be general or particular in character, but no such direction may be given except after consultation with the Authority, and the Secretary of State may not regard it as his duty to intervene in detail in the conduct by the Authority of its affairs unless in his opinion overriding national interests so require: s 3(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1364. Composition of the United Kingdom Atomic Energy Authority.

1364. Composition of the United Kingdom Atomic Energy Authority.

The United Kingdom Atomic Energy Authority ('the UKAEA') consists of a chairman and not fewer than four or more than 15 other members¹. All members are appointed by the Secretary of State².

Every member of the Authority holds office and is under a duty to vacate it in accordance with the terms of his appointment, and on ceasing to be a member is eligible for reappointment³. Any member may at any time by notice in writing to the Secretary of State resign his office⁴. The Authority must appoint a secretary and may appoint such other officers and take into its employment such other persons as it may determine⁵.

1 Atomic Energy Authority Act 1954 s 1(2) (amended by the Atomic Energy Authority Act 1959 s 1; the Atomic Energy Authority Act 1995 s 11(2)). The Authority must pay to each of its members, in respect of his office as such, such remuneration (whether by way of salary or fees) and such allowances as the Secretary of State with the Treasury's approval determines in the case of those members respectively: Atomic Energy Authority Act 1954 s 1(6)(a). The Authority may also pay such pensions or make such payments towards the provision of pensions to or in respect of those members as the Secretary of State may with the like approval determine in the case of those members respectively: s 1(6)(b). Such additional remuneration as the Secretary of State with the Treasury's approval determines must be paid to any member (except the chairman) who is employed about the Authority's affairs otherwise than as a member of the Authority: s 1(7). The terms of appointment of a member of the Authority may with the Treasury's approval entitle him to compensation to be paid by the Authority on his ceasing to be a member: s 1(8A) (added by the Atomic Energy Authority Act 1986 s 7(1), (3)). Where a person ceases to be a member other than on the expiry of his term of office and is not entitled to compensation under the terms of his appointment but it appears to the Secretary of State that there are special circumstances which make it right that he should receive compensation the Secretary of State may, with the Treasury's approval, require the Authority to make to that person a payment of such amount as may be determined by the Secretary of State with the Treasury's approval: Atomic Energy Authority Act 1954 s 1(8B) (as so added). For these purposes, except in so far as the context otherwise requires, 'pension', in relation to a person, means a pension, whether contributory or not, of any kind whatsoever payable to or in respect of him, and includes a gratuity so payable and a return of contributions, with or without interest thereon or any other addition thereto: s 8(2). As to the Secretary of State see PARA 601 note 1 ante.

2 Atomic Energy Authority Act 1954 s 1(3) (amended by the Atomic Energy Authority Act 1995 s 11(3)).

3 Atomic Energy Authority Act 1954 s 1(4). A member of the Authority who is in any way directly or indirectly interested in a contract made or proposed to be made by the Authority must, as soon as possible after the relevant circumstances have come to his knowledge, disclose the nature of his interest at a meeting of the Authority: s 1(9), Sch 1 para 5(1). Any such disclosure must be recorded in the Authority's minutes (Sch 1 para 5(2)), and the member must not take any further part in any deliberation or decision with respect to that contract (Sch 1 para 5(2)(a)).

4 Ibid s 1(4).

5 Ibid s 1(9), Sch 1 para 7(1). The Authority may pay such officers or persons such remuneration as it may determine; and as regards any officers or persons employed in whose case it may be determined by the Authority with the approval of the Secretary of State to do so, may pay to or in respect of them such pensions, or provide and maintain such pension schemes (whether contributory or not) as may be so determined: Sch 1 para 7(2). Where any officer of or person employed by the Authority, being a participant in any pension scheme applicable to his office or employment, becomes a member of the Authority, he may be treated for the purposes of the pension scheme as if his service as a member of the Authority were service as an officer of or person employed by the Authority; and his rights under the scheme are not affected by any provision of the Atomic Energy Authority Act 1954 which requires that the pensions or payments towards the provision of pensions to be paid or made in the case of members of the Authority must be determined by the Secretary of the State with

the Treasury's approval: Sch 1 para 7(3). As to the further application of the Authority's pension schemes see PARA 1374 post; and as to the termination of employment on security grounds see PARA 1577 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1365. Acts of the United Kingdom Atomic Energy Authority.

1365. Acts of the United Kingdom Atomic Energy Authority.

The United Kingdom Atomic Energy Authority ('the UKAEA')¹ may act notwithstanding a vacancy among its members², its quorum being three or such number not less than three as the Authority may from time to time determine³. In general the Authority regulates its own procedure⁴.

The application of the Authority's seal must be duly authenticated⁵ and every document purporting to be an instrument issued by the Authority and to be so sealed or to be signed on behalf of the Authority is receivable in evidence and is deemed to be such an instrument without further proof, unless the contrary is shown⁶.

1 As to the establishment of the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 Atomic Energy Authority Act 1954 s 1(9), Sch 1 para 2.

3 Ibid Sch 1 para 3. A member who has disclosed an interest in a contract (see PARA 1364 note 3 ante) is disregarded for the purpose of constituting a quorum for any deliberation or decision on it: Sch 1 para 5(2)(b).

4 See ibid Sch 1 para 6.

5 See ibid Sch 1 para 8. Authentication is by the signatures of (1) the chairman or some other member of the Authority authorised by it for that purpose; and (2) the secretary of the Authority or some person authorised by it to act in his stead in that behalf: Sch 1 para 8.

6 Ibid Sch 1 para 9. For these purposes, 'instrument', without prejudice to the generality of that expression, includes in particular rules, regulations, byelaws, awards, contracts, certificates and other documents: s 8(2). In other contexts, 'instrument' also includes Orders in Council, Letters Patent, judgments, decrees and orders: see s 8(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1366. Functions of the United Kingdom Atomic Energy Authority; in general.

1366. Functions of the United Kingdom Atomic Energy Authority; in general.

The United Kingdom Atomic Energy Authority ('the UKAEA')¹ has power, whether within the United Kingdom² or elsewhere:

- 3647 (1) to produce, use and dispose of atomic energy³ and carry out research into any matters connected with it⁴;
- 3648 (2) to manufacture or otherwise produce, buy or otherwise acquire, store and transport any articles⁵ which in the Authority's opinion are or are likely to be required for or in connection with the production or use of atomic energy or such research, and to dispose of any articles manufactured, produced, bought or acquired by it⁶;
- 3649 (3) to manufacture or otherwise produce, buy or otherwise acquire, treat, store, transport and dispose of any radioactive substances⁷;
- 3650 (4) to make arrangements with universities and other institutions or persons for the conduct of research into matters connected with atomic energy or radioactive substances and, with the approval of the Secretary of State⁸ and the Treasury, to make grants or loans to universities and other institutions or persons engaged in the production or use of atomic energy or radioactive substances or in research into matters connected with atomic energy or radioactive substances⁹; and
- 3651 (5) to distribute information relating to, and educate and train persons in matters connected with, atomic energy or radioactive substances¹⁰.

The Authority also has power to exploit commercially by selling, licensing the use of or otherwise dealing with any intellectual property¹¹ resulting from research and development carried out by the Authority itself or another person in pursuance of arrangements with the Authority, or which is at the Authority's disposal by virtue of arrangements for the exchange of results of research and development, or research and development carried out in collaboration with another person¹².

The Authority must not, however, develop or produce any weapon or part of a weapon, or engage in any work, whether by way of research, experiment, development, production or otherwise, on any explosive nuclear device, whether for war-like applications or otherwise, except in accordance with arrangements made with the Secretary of State¹³. It may not search for minerals¹⁴ in the United Kingdom otherwise than under the authority of the Secretary of State, and may not work minerals¹⁵ in the United Kingdom otherwise than in the exercise of rights vested in the Secretary of State and the Authority under the Atomic Energy Act 1946¹⁶.

1 As to the establishment of the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 For the meaning of 'atomic energy' see PARA 1357 note 1 ante. Included in the production and use of atomic energy is the carrying out of any process preparatory or ancillary to such production or use: Atomic Energy Act 1946 s 18(4) (applied by the Atomic Energy Authority Act 1954 s 8(1)).

4 Atomic Energy Authority Act 1954 s 2(2)(a). As to the Authority's power to carry out non-nuclear scientific research see PARA 1369 post.

5 'Articles' includes substances, vehicles, vessels and animals and also electricity: Atomic Energy Act 1946 s 18(2) (applied by the Atomic Energy Authority Act 1954 s 8(1)).

6 Atomic Energy Authority Act 1954 s 2(2)(b).

7 Ibid s 2(2)(c). For the meaning of 'radioactive substance' see PARA 1357 note 2 ante. As to the control of radioactive substances under the Radioactive Substances Act 1993 see PARAS 1439 et seq, 1450 et seq, 1468-1469, 1470 et seq, 1516 post.

8 As to the Secretary of State see PARA 601 note 1 ante.

9 Atomic Energy Authority Act 1954 s 2(2)(e).

10 Ibid s 2(2)(f).

11 For these purposes, 'intellectual property' includes patents, trade marks, copyrights, design rights, registered designs and any other scientific or technical information of commercial value: Atomic Energy Authority Act 1986 s 8(2) (amended by the Copyright, Designs and Patents Act 1988 s 303(1), Sch 7 para 33).

12 Atomic Energy Authority Act 1986 s 8(1).

13 Atomic Energy Authority Act 1954 s 2(2) proviso (i) (amended by the Atomic Energy Authority (Weapons Group) Act 1973 s 6(2)); Atomic Energy Authority (Weapons Group) Act 1973 s 6(1). See also PARA 1357 ante.

14 For these purposes, 'minerals' includes all substances obtained or obtainable from the soil by underground or surface working: Atomic Energy Act 1946 s 18(1).

15 Any reference for these purposes to the working of minerals is to be construed as including a reference to the getting, carrying away, sorting and treating of minerals: ibid s 18(3).

16 See the Atomic Energy Authority Act 1954 s 2(2) proviso (ii). These rights may be vested in the Secretary of State or the Authority by order of the Secretary of State under the Atomic Energy Act 1946 s 7 (as amended): see PARA 1427 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1367. Additional functions with regard to decommissioning etc.

1367. Additional functions with regard to decommissioning etc.

The functions of the United Kingdom Atomic Energy Authority ('the UKAEA')¹ include:

- 3652 (1) power to carry on such activities as it considers appropriate in connection with anything that the Nuclear Decommissioning Authority ('the NDA')² has a responsibility for securing under Part 1 of the Energy Act 2004³;
- 3653 (2) power to enter into such arrangements with the NDA or any other person as it considers appropriate for that purpose; and
- 3654 (3) power for that purpose to develop and commercially to exploit an expertise in relation to things in which the NDA requires an expertise for the purpose of carrying out its functions⁴.

In the case of responsibilities of the NDA in relation to an installation, site or facility it is immaterial for these purposes that the UKAEA is not, for certain statutory purposes⁵, the person with control of it⁶.

The functions of the UKAEA also include:

- 3655 (a) power to manage and commercially to exploit any land or other property of the UKAEA that is no longer required by it for or in connection with the carrying out of its other functions; and
- 3656 (b) power to carry on a business of providing services for the administration of nuclear pension schemes⁷ and such public service pension schemes⁸ as may be approved by the Secretary of State⁹ for these purposes¹⁰.

The UKAEA has power, for the purpose of carrying out its functions, whether conferred by the above provisions or otherwise, to do all such things as appear to it to be likely to facilitate the exercise or performance of its powers and duties, or to be incidental to doing so¹¹; and the ways in which the UKAEA may carry out those functions include¹² carrying them out through subsidiaries and carrying them out in association with, or through arrangements with, other persons¹³.

1 As to the establishment and nature of the United Kingdom Atomic Energy Authority ('the UKAEA') see PARAS 1363-1365 ante; as to its functions see PARA 1366 ante, PARA 1368 et seq post; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 As to the establishment and constitution of the NDA see PARAS 1394-1395 post; and as to its functions see PARAS 1592-1595 post.

3 Ie under the Energy Act 2004 Pt 1 (ss 1-80): see PARAS 1359, 1362 ante, PARAS 1394-1397, 1592 et seq post.

4 Ibid s 80(1). Section 7(5) (things in which the NDA requires an expertise: see PARA 1594 post) has effect for these purposes as it has effect for the purposes of s 7(4): s 80(6).

5 Ie for the purposes of ibid Pt 1 Ch 1 (ss 1-37): see PARAS 1394-1397, 1592 et seq post.

6 Ibid s 80(2).

7 For these purposes, 'nuclear pension scheme' means a scheme that is a nuclear pension scheme for the purposes of *ibid* Sch 8 (see *PARA 1423 post*): s 80(7).

8 For these purposes, 'public service pension scheme' means a public service pension scheme within the meaning of the Pension Schemes Act 1993 (see s 1 (as amended); and *SOCIAL SECURITY AND PENSIONS vol 44(2) (Reissue) PARA 874*) or the Pension Schemes (Northern Ireland) Act 1993 (see s 1): *Energy Act 2004 s 80(7)*.

9 As to the Secretary of State see *PARA 601 note 1 ante*.

10 *Energy Act 2004 s 80(3)*.

11 *Ibid s 80(4)*.

12 *Ie by virtue of ibid s 80(4)*.

13 *Ibid s 80(5)*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1368. Functions with respect to waste disposal.

1368. Functions with respect to waste disposal.

Since 1 January 1976 the United Kingdom Atomic Energy Authority ('the UKAEA')¹ has been empowered (without prejudice to its other powers²) to engage in the United Kingdom³ and elsewhere in such activities relating to the treatment or disposal of waste and other matter as the Secretary of State⁴ may from time to time specify by notice given to the Authority, and to do anything which appears to the Authority to be appropriate for the purpose of exercising the powers so conferred⁵.

1 As to the establishment of the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 As to the general powers and functions of the Authority see PARA 1366 ante.

3 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 As to the Secretary of State see PARA 601 note 1 ante.

5 See the Control of Pollution Act 1974 ss 101, 109(2); the Control of Pollution Act 1974 (Commencement No 4) Order 1975, SI 1975/2118, art 3, Schedule Pt III; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 707. As to the disposal of radioactive waste by persons authorised under the Radioactive Substances Act 1993 see PARA 1450 et seq post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1369. Non-nuclear scientific research.

1369. Non-nuclear scientific research.

The functions of the United Kingdom Atomic Energy Authority ('the UKAEA')¹ include the undertaking of scientific research² in such matters not connected with atomic energy as may, after consultation with the Authority, be required by the Secretary of State³. Any increase in the sums payable to the Authority⁴ in respect of expenses which is attributable to this provision must be defrayed out of money provided by Parliament⁵.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante, PARA 1370 et seq post; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 For the meaning of 'scientific research' see PARA 1362 note 21 ante.

3 Science and Technology Act 1965 s 4(1). The provisions of the Atomic Energy Authority Act 1954 s 2(2) (as amended) (see PARA 1366 ante) apply to such research: Science and Technology Act 1965 s 4(1). As to the Secretary of State see PARA 601 note 1 ante.

4 Ie under the Atomic Energy Authority Act 1954 s 4(1): see PARA 1375 post.

5 Science and Technology Act 1965 s 4(2). As to the expenses of the Authority see PARA 1375 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1370. Powers in relation to land.

1370. Powers in relation to land.

The Secretary of State¹ may authorise the United Kingdom Atomic Energy Authority (the UKAEA)² to purchase compulsorily either any land required for the exercise and performance of its functions³, or without purchasing any other interest in land a right to place any pipe across that land, whether above or below ground, and to use, repair and maintain that pipe⁴. The Authority may, if it appears to it necessary or expedient for the due exercise and performance of its functions, place any pipe in any highway and repair and maintain any pipe so placed, and for those purposes open and break up the highway⁵. Buildings belonging to the Authority are exempt from building byelaws⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the establishment of the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 As to the functions of the Authority see PARAS 1366-1369 ante. Eg the Authority was deemed to be duly authorised under the Atomic Energy Authority Act 1954 s 5(1) (as amended: see note 4 infra), to purchase compulsorily certain land in Dorset and to extinguish rights of common and similar rights: see the Winfrith Heath Act 1957.

4 Atomic Energy Authority Act 1954 s 5(1). The Acquisition of Land Act 1981 applies as if the Authority were a local authority within the meaning of that Act: Atomic Energy Authority Act 1954 s 5(1) (amended for this purpose by the Acquisition of Land Act 1981 s 34, Sch 4 para 1, Sch 6 Pt 1); and see COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARAS 507, 508. In relation to the right to place a pipe across land, the Acquisition of Land Act 1981, and enactments incorporated with it, have effect as if references to land comprised in the compulsory purchase order were construed, where the context so requires, as references to the land across which the pipe is to be placed, and as if references to the obtaining or taking possession of the land comprised in the order were construed as references to the exercise of the right: Atomic Energy Authority Act 1954 s 5(1) proviso.

5 Ibid s 5(2). Work carried out will be subject to the provisions of the New Roads and Street Works Act 1991: see HIGHWAYS, STREETS AND BRIDGES.

6 See the Atomic Energy Authority Act 1954 s 5(5) (amended by the Building Act 1984 s 133(1), Sch 6 para 4). This provision is prospectively repealed by the Building Act 1984 s 133(2), Sch 7, and prospectively replaced by s 45 (as amended) on such day or days as the Secretary of State, in exercise of the powers conferred on him by s 134(1), may by order made by statutory instrument appoint. At the date at which this title states the law, no such order had been made and s 45 was not in force. Under the prospective new provisions, the provisions of s 44 (as amended) (which deals with the application of building regulations to the Crown), except s 44(2) and (3) (as amended), will apply in relation to the Authority as if the Authority were a Crown authority, any building belonging to or occupied by the Authority were a Crown building, and the references in s 44(1) to not being a Crown authority were references to being neither a Crown authority nor the Authority, but so that the provisions of s 44 (as amended) will not apply in relation to dwelling houses or offices belonging to or occupied by the Authority: s 45(1) (prospectively amended by the Sustainable and Secure Buildings Act 2004 s 3(1), (9), as from a day to be appointed under s 11(3); at the date at which this title states the law, no such day had been appointed). Subject to the provisions of the Building Act 1984 s 44 (as amended), as applied by s 45(1) (as amended), building regulations and the enactments relating to building regulations will not apply in relation to buildings belonging to or occupied by the Authority, being buildings other than dwelling houses or offices: s 45(2). See further BUILDING.

UPDATE

1370 Powers in relation to land

NOTES--Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1371. Provision of services by the United Kingdom Atomic Energy Authority.

1371. Provision of services by the United Kingdom Atomic Energy Authority.

The United Kingdom Atomic Energy Authority (the UKAEA)¹ has power, at the request of either the nuclear fuels company or the radiochemical company², to provide for that company any service or facility which the Authority would have power to provide for the purposes of its own undertaking³. Without prejudice to the generality of this provision the Authority, with the consent of the Secretary of State⁴ and of the Treasury, may enter into an agreement with either of the companies whereby the Authority undertakes that, if the company incurs any liability of a description specified in the agreement, the Authority will indemnify the company in respect of that liability⁵.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 As to the nuclear fuels company and the radiochemical company and their current status see PARA 1377 et seq post.

3 Atomic Energy Authority Act 1971 s 15(1).

4 As to the Secretary of State see PARA 601 note 1 ante.

5 Atomic Energy Authority Act 1971 s 15(2). The terms of any such agreement are to be such as may, with the consent of the Secretary of State and the Treasury, be agreed between the Authority and the company concerned: s 15(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1372. The United Kingdom Atomic Energy Authority's returns, accounts and report.

1372. The United Kingdom Atomic Energy Authority's returns, accounts and report.

The United Kingdom Atomic Energy Authority ('the UKAEA')¹ must furnish the Secretary of State² with such returns, accounts and other information with respect to its property and activities, and prepare programmes and estimates of expenditure, in such form and at such times as he may require³. The Authority must as soon as possible after the end of each financial year⁴ make to the Secretary of State a report on the exercise and performance by it of its functions during that year, indicating what parts of the report ought in the Authority's opinion to be withheld from publication in the interests of national security; and the Secretary of State must lay a copy of the report, with the omission of such parts of it as ought in his opinion to be withheld from publication in the interests of national security, before each House of Parliament, together with such comments as he may think fit to make⁵.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Atomic Energy Authority Act 1954 s 3(4).

4 'Financial year' means the 12 months ending with 31 March: *ibid* s 8(2).

5 *Ibid* s 3(5). As to the supervisory powers of the Secretary of State in respect of the conduct of the Authority's undertaking under the Atomic Energy Authority Act 1986 s 6 see PARA 1376 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1373. Negotiations regarding employment by the United Kingdom Atomic Energy Authority.

1373. Negotiations regarding employment by the United Kingdom Atomic Energy Authority.

Except where it is satisfied that adequate machinery exists, the United Kingdom Atomic Energy Authority ('the UKAEA')¹ is under a duty to seek consultation with any organisation appearing to it to be appropriate with a view to the conclusion between the Authority and that organisation of such agreements as appear to the parties to be desirable with respect to the establishment and maintenance of machinery for:

- 3657 (1) the settlement by negotiation of terms and conditions of employment of persons employed by the Authority, with provision for reference to arbitration in default of such settlement of such cases as may be determined by or under the agreements²; and
- 3658 (2) the promotion and encouragement of measures affecting the safety, health and welfare of persons employed by the Authority and, so far as in the opinion of the Authority considerations of national security permit, the discussion of other matters of mutual interest to the Authority and such persons, including efficiency in the Authority's work³.

The Authority must send to the relevant Secretaries of State⁴ copies of any such agreement and of any instrument⁵ varying the terms of any such agreement⁶.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 Atomic Energy Authority Act 1954 s 7(1)(a).

3 Ibid s 7(1)(b).

4 I.e. the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry) and the Secretary of State for Work and Pensions. As to the Secretary of State see PARA 601 note 1 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1374. Pensions payable by the United Kingdom Atomic Energy Authority.

1374. Pensions payable by the United Kingdom Atomic Energy Authority.

In the case of such members¹ of the United Kingdom Atomic Energy Authority ('the UKAEA')² as the Secretary of State³ with the Treasury's approval determines, the Authority must pay such pensions⁴ or make such payments towards the provision of pensions to or in respect of those members as the Secretary of State may, with the like approval, determine⁵.

As regards any officers or persons employed in whose case it is determined by the Authority with the approval of the Secretary of State so to do, the Authority must pay to or in respect of them such pensions, or provide and maintain for them such pension schemes (whether contributory or not), as may be so determined⁶. The pension rights of these officers and persons are not affected by their becoming members of the Authority⁷.

Provision is made for the continued application of the Authority's pension scheme to persons employed by certain other bodies⁸ and for its extension to persons employed by other bodies⁹.

1 As to the members of the Authority see PARA 1364 ante.

Financial provisions applying to the United Kingdom Atomic Energy Authority.

1375. Financial provisions applying to the United Kingdom Atomic Energy Authority.

The Secretary of State¹ may, out of money provided by Parliament, pay to the United Kingdom Atomic Energy Authority ('the UKAEA')² such sums in respect of the Authority's expenses as he may, with Treasury consent, determine³.

From 1 April 1986 the operations of the Authority were placed on a trading fund basis by the Atomic Energy Authority Act 1986. The Authority was required, in respect of its net assets on that date, to assume a debt ('commencing capital debt') due to the Secretary of State of an amount specified in writing by the Secretary of State, after consulting the Authority and with the Treasury's approval⁴.

The Authority may borrow such sums as may be required to meet the obligations and discharge the functions of the Authority or its subsidiaries⁵ from the Secretary of State in sterling or from any other person in any currency with the consent⁶ of the Secretary of State or in accordance with a general authority given by him⁷. No such consent or authority is, however, necessary where money is borrowed from a wholly owned subsidiary of the Authority⁸. The Secretary of State may give general authority for temporary borrowing by way of overdraft or otherwise and borrowing by subsidiaries of the Authority⁹. The Authority may not borrow money except in accordance with these provisions; but a person lending to the Authority is not prejudiced by the Authority's failure to comply with the statutory requirements as to borrowing¹⁰.

The total amount outstanding by way of principal in respect of:

- 3659 (1) money borrowed by the Authority or a wholly owned subsidiary;
- 3660 (2) money borrowed for the repayment of which the Authority or a wholly owned subsidiary is a guarantor or surety;
- 3661 (3) the Authority's commencing capital debt; and
- 3662 (4) sums issued by the Treasury in fulfilment of its guarantees¹¹,

must not exceed £200 million¹². Borrowing between the Authority and a wholly owned subsidiary, or between two such subsidiaries, is not taken into account when arriving at the total amount of the Authority's borrowing¹³. Where a body corporate ceases to be a wholly owned subsidiary of the Authority, the Secretary of State may by order provide that the above provisions¹⁴ have effect with the substitution of such lower amounts as he considers appropriate¹⁵.

Where the Authority or a wholly owned subsidiary enters into a transaction which involves credit or other financial services being made available to it, the Secretary of State may by order¹⁶ provide:

- 3663 (a) that it is to be treated for the purposes of the above provisions¹⁷ as having borrowed such amount as may be specified in the order; and
- 3664 (b) for determining how much of that amount is to be treated as outstanding at any time¹⁸.

The Secretary of State may lend to the Authority any sums which it has power to borrow from him¹⁹. The Authority's commencing capital debt and any loans made to the Authority must be repaid at such times, and in such manner, as the Secretary of State may direct²⁰ and with interest at such rates and payable at such times as he may direct²¹. The Treasury must issue out of the National Loans Fund such sums as are necessary for the Secretary of State to make loans to the Authority²².

An account must be prepared by the Secretary of State in respect of each financial year²³ in such form and manner as the Treasury may direct, setting out:

- 3665 (i) sums issued to him for loans to the Authority; and
- 3666 (ii) sums received by him from the Authority and the disposal by him of those sums²⁴.

The account must be sent to the Comptroller and Auditor General²⁵.

The Treasury may guarantee, in such manner and on such conditions as it thinks fit, the repayment of the principal of, the interest payable on, and any other financial obligation in connection with, any sums which the Authority or any of its subsidiaries borrows from a person other than the Secretary of State²⁶. If any sums are issued in fulfilment of a guarantee, the Authority or subsidiary must make to the Treasury, at such times and in such manner as the Treasury may direct, payments of such amounts as the Treasury may direct in or towards repayment of the sums issued²⁷, and payments of interest on what is outstanding in respect of the sums issued, at such rate as the Treasury may direct²⁸. Any sums required by the Treasury for fulfilling the guarantee or sums received by the Treasury must be charged on and issued out of, or paid into, the Consolidated Fund²⁹.

Any land occupied by the Authority is deemed for the purposes of any rate on property to be occupied by or on behalf of the Crown for public purposes³⁰. Land so occupied is, however, liable to non-domestic rates³¹.

Any sums received by the Authority must be applied by the Authority in such manner as the Secretary of State, with Treasury approval, directs³². The Authority must keep proper accounts and other records, and must prepare and transmit to the Comptroller and Auditor General statements of accounts for each financial year, and he must examine and certify the statements and lay copies, together with his report on them, before each House of Parliament³³.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 Atomic Energy Authority Act 1954 s 4(1); Atomic Energy Authority Act 1959 s 3; Science and Technology Act 1965 s 4(2); Atomic Energy Authority Act 1971 s 23. As to the payment of ministers' expenses generally see PARA 1362 ante.

4 Atomic Energy Authority Act 1986 s 1(1). The commencing capital debt of the Authority is deemed to have been assumed by it on 1 April 1986 and a sum equal to the amount of that debt is deemed to have been issued to the Secretary of State out of the National Loans Fund on that date: s 1(2). As to the National Loans Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 727 et seq.

5 For these purposes, 'subsidiary' has the same meaning as in the Companies Act 1985 s 736 (as substituted; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, and replaced by s 1159, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed) (see COMPANIES vol 14 (2009) PARA 25); Atomic Energy Authority Act 1986 s 9 (amended by the Companies Act 1989 s 144(2), (4), Sch 18 para 42).

6 Consent must not be given except with the Treasury's approval: s 2(5).

7 Ibid s 2(1).

8 Ibid s 2(2). The Authority must exercise control over its subsidiaries so as to secure that no subsidiary borrows from a person other than the Authority or another subsidiary except with the consent of the Secretary of State or in accordance with a general authority given by him: s 2(3). For these purposes, 'wholly owned subsidiary' has the same meaning as in the Companies Act 1985 s 736 (as substituted; prospectively repealed and replaced (see note 5 supra)) (see COMPANIES vol 14 (2009) PARA 25): Atomic Energy Authority Act 1986 s 9 (as amended: see note 5 supra).

9 Ibid s 2(4).

10 Ibid s 2(6).

11 Ie under ibid s 5: see the text and notes 26-29 infra.

12 Ibid s 3(1). The sum of £200m is substituted by virtue of the United Kingdom Atomic Energy Authority (Limit on Borrowing) Order 1991, SI 1991/1736, art 2. The Atomic Energy Authority Act 1986 specifies a sum not exceeding '£150m or such greater sum, not exceeding £200m, as the Secretary of State may specify by order': s 3(1). An order under s 3(1) may not be made without the Treasury's approval and a draft must have been approved by a resolution of the House of Commons: s 3(6), (7)(a). When he consents to borrowing in a currency other than sterling, or later, the Secretary of State may give directions, with the Treasury's approval, as to the method of calculation and the date to be taken in determining the value in sterling of the amount outstanding: s 3(5). Before giving such directions the Secretary of State must consult the Authority: s 3(6).

13 Ibid s 3(2).

14 Ie ibid s 3(1): see the text and note 12 supra.

15 Ibid s 3(3). In making this order the Secretary of State must have regard to the extent to which amounts taken into account for the purposes of s 3(1) were attributable to money borrowed for that body corporate and money borrowed for the repayment of which that body corporate is a guarantor or surety: s 3(3). Any order under this provision is subject to annulment in pursuance of a resolution of the House of Commons: s 3(7).

16 Any such order made is subject to annulment in pursuance of a resolution of the House of Commons: ibid s 3(7).

17 Ie for the purposes of ibid s 3(1): see the text and note 12 supra.

18 Ibid s 3(4).

19 Ibid s 4(1). The Secretary of State may not make a loan without the Treasury's approval: s 4(3).

20 Ibid s 4(2)(a).

21 Ibid s 4(2)(b). The Secretary of State may not give a direction without the Treasury's approval, and before giving a direction altering the terms for repayment or for the payment of interest he must consult the Authority: s 4(3).

22 Ibid s 4(4). Any sum received by the Secretary of State in respect of the Authority's commencing capital debt or such a loan must be paid into the National Loans Fund: s 4(5).

23 As to the financial year of the Authority see PARA 1372 note 4 ante.

24 Atomic Energy Authority Act 1986 s 4(6)(a).

25 Ibid s 4(6)(b). The account must be sent not later than the end of November in the following financial year: s 4(6)(b). The Comptroller and Auditor General must examine, certify and make out a report on the account and lay copies of the account and the report before each House of Parliament: s 4(6). As to the office of Comptroller and Auditor General see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARAS 724-726.

26 Ibid s 5(1). The Treasury must lay a statement of the guarantee given before each House of Parliament immediately after it is given: s 5(2).

27 Ibid s 5(3)(a).

28 Ibid s 5(3)(b). Before giving any direction under s 5(3) the Treasury must consult the Authority: s 5(4). The Treasury must as soon as possible lay before each House of Parliament a statement relating to the sum issued for fulfilling the guarantee: s 5(5).

29 Ibid s 5(6). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

30 Atomic Energy Authority Act 1954 s 6(1).

31 See the Local Government Finance Act 1988 s 65A (as added and amended); and RATING AND COUNCIL TAX vol 39(1B) (Reissue) PARA 38.

32 Atomic Energy Authority Act 1954 s 4(2) (amended by the Atomic Energy (Miscellaneous Provisions) Act 1981 s 2). Any such direction may require the whole or any part of these revenues to be paid into the Exchequer: Atomic Energy Authority Act 1954 s 4(2) (as so amended).

33 Ibid s 4(3). The statements in the form directed by the Treasury must be so transmitted on or before 30 November next following the expiration of the financial year in question: s 4(3).

UPDATE

1375 Financial provisions applying to the United Kingdom Atomic Energy Authority

NOTES 5, 8--In definitions of 'subsidiary' and 'wholly owned subsidiary' reference to Companies Act 1985 s 736 now to Companies Act 2006 s 1159 (see COMPANIES vol 14 (2009) PARA 25); Atomic Energy Authority Act 1986 s 9 (definitions amended by SI 2009/1941).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/A. IN GENERAL/1376. Supervisory powers of the Secretary of State.

1376. Supervisory powers of the Secretary of State.

The United Kingdom Atomic Energy Authority ('the UKAEA')¹ must, in formulating and carrying out plans for the general conduct of its undertaking and that of its subsidiaries², act on lines settled from time to time by the Authority with the approval of the Secretary of State³. In respect of work involving an outlay on capital account, the Authority must from time to time settle a general programme of work⁴, and at the Secretary of State's request settle a programme of work in respect of a particular project or category of projects⁵. The Authority may not carry out a project involving substantial outlay on capital account, and must exercise control over its subsidiaries so as to secure that they do not carry out such a project, except in accordance with such a programme of work⁶ which has been approved by the Secretary of State⁷.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 For the meaning of 'subsidiary' see PARA 1375 note 5 ante.

3 Atomic Energy Authority Act 1986 s 6(1). These requirements do not, however, affect the power of the Secretary of State to give directions under the Atomic Energy Authority Act 1954 s 3 (see PARA 1363 the text and note 16 ante); Atomic Energy Authority Act 1986 s 6(4). As to the Secretary of State see PARA 601 note 1 ante.

4 Ibid s 6(2)(a).

5 Ibid s 6(2)(b). Programmes settled under s 6(2)(a), (b) must be submitted to the Secretary of State for his approval: s 6(2).

6 Ie in accordance with either (1) a general programme; or (2) where the Secretary of State has requested the Authority to settle a programme relating wholly or partly to the project concerned, in accordance with a programme settled in pursuance of the request: see ibid s 6(3)(a), (b).

7 Ibid s 6(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1377. Transfer of part of the United Kingdom Atomic Energy Authority's undertaking to the nuclear fuels company.

B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING

(A) TRANSFERS TO THE NUCLEAR FUELS AND RADIOCHEMICAL COMPANIES

1377. Transfer of part of the United Kingdom Atomic Energy Authority's undertaking to the nuclear fuels company.

By virtue of the Atomic Energy Authority Act 1971 and without further assurance, so much of the undertaking of the United Kingdom Atomic Energy Authority ('the UKAEA')¹ as, immediately before the appointed day², was financed out of the Authority's trading fund³, was, with certain exceptions⁴, transferred to the nuclear fuels company⁵ on that date⁶. There were also transferred to that company all such property, rights, liabilities and obligations as, immediately before that date, were property, rights, liabilities and obligations of the Authority appertaining⁷ to the transferred parts of the undertaking⁸, with certain exceptions⁹, and all the land and premises which were then the property of the Authority at Springfields, Lancashire, and Windscale, Cumberland, but did not appertain to the transferred parts of the undertaking¹⁰.

A certificate issued by the Secretary of State¹¹ to the effect that any part of the Authority's undertaking or any property of the Authority which is specified in the certificate was, or was not, transferred to the nuclear fuels company, or that any rights, liabilities or obligations of the Authority specified in the certificate were, or were not, so transferred, is conclusive evidence of the matters stated in the certificate¹². Before issuing any such certificate in relation to any matter the Secretary of State must consult the Authority, the nuclear fuels company and the radiochemical company¹³ (if all three are affected by the matter), or the Authority and the nuclear fuels company (if only those two are affected), and on issuing any certificate the Secretary of State must send a copy to each of those bodies which is affected by it¹⁴.

Provision was made with regard to employees in the transferred parts of the undertaking¹⁵ and with regard to the transfer of other rights, liabilities and obligations¹⁶.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 The appointed day was 1 April 1971: Atomic Energy Authority Act 1971 ss 1(1), 24(2); Atomic Energy Authority Act 1971 (Appointed Day) Order 1971, SI 1971/478.

3 Any part of the Authority's undertaking was taken to be financed out of the Authority's trading fund at any time if the Authority's expenses in carrying on that part of the undertaking were at that time treated in the Authority's accounts as payable out of that fund: Atomic Energy Authority Act 1971 s 1(3). The trading fund in question should not be confused with the trading fund basis introduced for the Authority as a whole by virtue of the Atomic Energy Authority Act 1986: see PARA 1375 ante.

4 The parts of the Authority's undertaking financed out of the trading fund which were excepted from the transfer to British Nuclear Fuels Ltd were those parts which were carried on at the Authority's Radiochemical Centre at Amersham, Buckinghamshire, and at the Authority's establishment at Harwell, Berkshire: Atomic Energy Authority Act 1971 s 1(2)(a). As to the transfer of those parts of the undertaking to the radiochemical

company see PARA 1379 et seq post. Harwell became part of Oxfordshire on local government reorganisation in 1974.

5 British Nuclear Fuels Ltd was incorporated in England under the companies legislation on 16 February 1971 and became a public limited company on 3 January 1984. The company was established with the principal objects of taking over from the Authority activities, property and rights, and assuming obligations and liabilities of the Authority, pursuant to the Atomic Energy Authority Act 1971; designing, manufacturing, supplying or dealing in nuclear fuel; carrying out any processing and reprocessing of fissile material and nuclear fuel; manufacturing, supplying or dealing in radioactive substances; operating nuclear reactors and other irradiation facilities; producing, using and disposing of heat and electricity generated by nuclear power stations; designing, manufacturing, supplying or dealing in plant, equipment and apparatus of a kind used in or in connection with any of the above activities; providing services in connection with any of those activities; and carrying out various ancillary and connected activities. The security provisions set out in the Nuclear Installations Act 1965 s 2(1B), Sch 1 (as added and amended) (see PARA 1573 et seq post) have effect in relation to the company: see the Atomic Energy Authority Act 1971 s 21(2); the Nuclear Installations (Application of Security Provisions) Order 1971, SI 1971/569. British Nuclear Fuels Ltd became British Nuclear Fuels plc in 1984. British Nuclear Fuels plc (known as 'BNFL') is now the holding company for Sellafield Ltd, British Nuclear Group Project Services and Nexia Solutions. As to the current corporate structure see further the BNFL website, accessible at the date at which this title states the law at www.bnfl.com.

6 Atomic Energy Authority Act 1971 s 1(1)(a).

7 Property, rights, liabilities and obligations of the Authority were taken to be property, rights, liabilities and obligations appertaining to a transferred part of the Authority's undertaking if they were property held, rights acquired, or liabilities or obligations incurred wholly or mainly for the purposes of, or in the course of carrying on, that part of the Authority's undertaking, as distinct from the Authority's undertaking in general or any other part of that undertaking in particular: *ibid* s 24(3).

8 Any reference to property of the Authority is a reference to property of the Authority whether situated in the United Kingdom or elsewhere, and any reference to rights, liabilities or obligations of the Authority is a reference to rights to which the Authority was entitled or (as the case may be) liabilities or obligations to which the Authority was subject, whether under the laws of, or of a part of, the United Kingdom or under the laws of any country or territory outside the United Kingdom (*ibid* s 24(4)); but nothing in the Atomic Energy Authority Act 1971 may be construed as transferring to the company any right, liability or obligation expressly conferred or imposed on the Authority by name by any enactment (other than the Atomic Energy Authority Act 1954 s 2(1), Sch 2 (as amended) (see PARA 1366 ante)) or by statutory instrument (Atomic Energy Authority Act 1971 s 24(6)). The transfers of property were not subject to stamp duty: see s 22(1). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

9 *Ibid* s 1(1)(b). There were excepted from the transfer all the land and premises which were occupied for the purposes of the Authority's establishment at Risley, Lancashire, whether any of them were then situated in that county or in Cheshire: s 1(2)(b). On local government reorganisation in 1974 Risley became part of Cheshire. Certain industrial property was also excepted from the transfers (see s 3; and PARA 1378 post), as were any rights, liabilities and obligations of the Authority under any contract of employment, under certain agreements for personal services, or under any pension scheme or agreement relating to a pension scheme (see s 6(1)).

10 *Ibid* s 1(1)(c). Windscale became part of Cumbria on local government reorganisation in 1974. The establishment is now known as Sellafield.

11 As to the Secretary of State see PARA 601 note 1 ante.

12 Atomic Energy Authority Act 1971 s 5(5) (s 5(5), (7) amended by the Statute Law (Repeals) Act 2004).

13 As to the radiochemical company see PARA 1379 et seq post.

14 Atomic Energy Authority Act 1971 s 5(7) (as amended: see note 12 supra).

15 See *ibid* ss 8-10 (as amended).

16 See *ibid* s 6 (as amended).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1378. Exclusions from transfer in respect of intellectual property.

1378. Exclusions from transfer in respect of intellectual property.

There was excepted from the transfer to the nuclear fuels company any interest of the United Kingdom Atomic Energy Authority ('the UKAEA')¹ in any patent, registered design or registered trade mark², or in any application for the grant of a patent, or for the registration of a design or trade mark, which was pending immediately before the appointed day³ for the purposes of the transfer⁴, or in any invention in respect of which an application for a patent was pending immediately before that day or which, in pursuance of arrangements made by the Authority, was recorded as having been made before that day⁵.

There were also excepted from the transfer:

- 3667 (1) any rights, liabilities or obligations of the Authority in respect of any licence to use a patented invention, registered design or registered trade mark, or to use an invention, design or trade mark in respect of which an application for a patent, or for registration of the design or trade mark, was pending, whether any such licence was granted by or to the Authority, including any rights to grant sub-licences under any such licence⁶;
- 3668 (2) any rights, liabilities or obligations of the Authority arising under any assignment (whether by or to the Authority) of a patent, registered design or registered trade mark, or of the right to apply for or to obtain any patent or to apply for or to obtain registration of a design or trade mark⁷; and
- 3669 (3) any rights, liabilities or obligations of the Authority under any agreement in so far as it provides (whether conditionally or otherwise) for any such licence or sub-licence as is mentioned in head (1) above, or any such assignment as is mentioned in head (2) above, to be granted or made in the future or for the furnishing of information or technical assistance relating to any invention, design or trade mark, whether actual or prospective⁸.

Where any interest, rights, liabilities or obligations were excepted from the transfer as mentioned above, the exceptions included the copyright⁹ in any literary work consisting of a document by which the interest, rights, liabilities or obligations were conferred or imposed or in which the subject matter to which they related was embodied¹⁰, or in any artistic work on which that subject matter was based or from which it was wholly or partly derived¹¹.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 Atomic Energy Authority Act 1971 s 3(1)(a). Any reference in s 3 to a patent or to a registered design or registered trade mark, or to copyright, must be construed as referring to a patent granted, or a design or trade mark registered, or to copyright subsisting, under the laws of any country or territory outside the United Kingdom as well as to a patent granted, design or trade mark registered, or copyright subsisting, under the laws of the United Kingdom: s 3(5). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 ie 1 April 1971: see PARA 1377 note 2 ante.

4 Atomic Energy Authority Act 1971 s 3(1)(b).

5 Ibid s 3(1)(c).

6 Ibid s 3(2)(a).

7 Ibid s 3(2)(b).

8 Ibid s 3(2)(c).

9 See note 2 *supra*.

10 Atomic Energy Authority Act 1971 s 3(3)(a).

11 Ibid s 3(3)(b). The Authority was to make available to the nuclear fuels company such facilities for and information relating to the use of any invention, design or trade mark in respect of which an exception from the transfer was so made as was agreed between the Authority and the company to be requisite for the purposes of the part of the Authority's undertaking transferred to the company, or as, in default of such agreement, the Secretary of State might direct as being requisite for those purposes; and any such facilities or information were to be so made available in such manner, and on such terms as to payment or otherwise, as might be agreed between the Authority and the company or as, in default of such agreement, the Secretary of State might direct: s 3(4). As to the Secretary of State see PARA 601 note 1 *ante*; and as to the nuclear fuels company see PARA 1377 note 5 *ante*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1379. Transfer of part of the United Kingdom Atomic Energy Authority's undertaking to the radiochemical company.

1379. Transfer of part of the United Kingdom Atomic Energy Authority's undertaking to the radiochemical company.

By virtue of the Atomic Energy Authority Act 1971 and without further assurance, so much of the undertaking of the United Kingdom Atomic Energy Authority ('the UKAEA')¹ as, immediately before the appointed day², was financed out of the Authority's trading fund³ and was carried on at the Radiochemical Centre at Amersham, Buckinghamshire, or at the Authority's establishment at Harwell, Berkshire, was transferred to the radiochemical company⁴ on that date⁵. There were also transferred to that company all such property, rights, liabilities and obligations as, immediately before that date, were property, rights, liabilities and obligations of the Authority appertaining⁶ to the transferred part of the undertaking, with certain exceptions⁷.

A certificate issued by the Secretary of State⁸ to the effect that any part of the Authority's undertaking or any property of the Authority which is specified in the certificate was, or was not, transferred to the radiochemical company, or that any rights, liabilities or obligations of the Authority specified in the certificate were, or were not, so transferred, is conclusive evidence of the matters stated in the certificate⁹. Before issuing any such certificate the Secretary of State must consult the Authority, the radiochemical company, and the nuclear fuels company¹⁰ (if all three are affected by the matter), or the Authority and the radiochemical company (if only those two are affected), and on issuing any certificate the Secretary of State must send a copy to each of those bodies which is affected by it¹¹.

Provision was made with regard to employees in the transferred parts of the undertaking¹² and with regard to the transfer of other rights, liabilities and obligations¹³.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 I.e 1 April 1971: see PARA 1377 note 2 ante.

3 As to the Authority's trading fund see PARA 1377 note 3 ante.

4 The Radiochemical Centre Ltd was incorporated in England under the companies legislation on 16 February 1971. The company was established with the principal objects of taking over from the Authority activities, property and rights, and assuming obligations and liabilities of the Authority, pursuant to the Atomic Energy Authority Act 1971; designing, manufacturing, dealing in, supplying, hiring, maintaining, repairing, processing and reprocessing radioactive substances, stable isotopes, and products embodying radioactive substances and stable isotopes; designing, manufacturing, supplying or dealing in any plant, equipment or apparatus of a kind used in or in connection with any of the above activities (other than any nuclear reactor having a power output in excess of 1 megawatt or any isotope separator which separates the isotopes of uranium); providing services in connection with any of those activities; and carrying out various ancillary and connected activities. The company was incorporated on change of name to Amersham International Ltd on 5 May 1981 and registered as a public limited company on 10 February 1982. In 1997 Amersham International Ltd merged with Pharmacia Biotech (Sweden) and Nycomed (Norway) to become part of Amersham plc. Amersham is now part of GE Healthcare Ltd, a unit of General Electric Company (NYSE: GE) that is headquartered in the United Kingdom.

5 Atomic Energy Authority Act 1971 s 2(1)(a). Harwell became part of Oxfordshire on local government reorganisation in 1974.

6 As to the meaning of 'appertaining' see PARA 1377 note 7 ante.

7 Atomic Energy Authority Act 1971 s 2(1)(b). There were excepted from the transfer all land and premises forming part of the Authority's establishment at Harwell: s 2(2). There were also excepted from the transfer certain industrial property (see s 3; and PARA 1378 ante) and any rights, liabilities and obligations of the Authority under any contract of employment, under certain agreements for personal services, or under any pension scheme or agreement relating to a pension scheme (see s 6(1); and PARA 1377 note 9 ante), the provisions applicable to those exceptions being the same as apply with respect to the nuclear fuels company.

8 As to the Secretary of State see PARA 601 note 1 ante.

9 Atomic Energy Authority Act 1971 s 5(5) (s 5(5), (7) amended by the Statute Law (Repeals) Act 2004).

10 As to the nuclear fuels company see PARA 1377 note 5 ante.

11 Atomic Energy Authority Act 1971 s 5(7) (as amended: see note 9 supra).

12 See *ibid* ss 8-10 (as amended).

13 See *ibid* s 6 (as amended).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1380. Use of certain land, premises, apparatus, facilities and services.

1380. Use of certain land, premises, apparatus, facilities and services.

The United Kingdom Atomic Energy Authority ('the UKAEA')¹ was required to secure to the radiochemical company² the exclusive occupation and use of the land and premises at Harwell which, immediately before the appointed day for the purposes of the transfer to the company³, were occupied and used exclusively for the purposes of that part of the Authority's undertaking which was so transferred⁴. The Authority must also make available to the radiochemical company the use of:

- 3670 (1) such means of access and other facilities and services as may be agreed between them to be requisite in connection with the occupation and use of that land and those premises or as, in default of such agreement, the Secretary of State⁵ may direct as being in his opinion requisite in connection therewith⁶; and
- 3671 (2) all such additional apparatus, facilities and services (being apparatus, facilities and services which did not form part of the property and rights transferred to the company⁷ and do not fall within the means of access and other facilities and services mentioned above⁸) as may be agreed between the Authority and the radiochemical company to be additional apparatus, facilities and services which, immediately before that date⁹, were used or enjoyed in connection with that part of the Authority's undertaking carried on at Harwell which was so transferred to the company or as, in default of such agreement, the Secretary of State may direct as being in his opinion additional apparatus, facilities and services which were so used or enjoyed¹⁰.

1 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 As to the radiochemical company see PARA 1379 note 4 ante.

3 I.e 1 April 1971: see PARA 1377 note 2 ante.

4 Atomic Energy Authority Act 1971 s 4(2).

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Atomic Energy Authority Act 1971 s 4(2)(a).

7 Ibid s 4(5)(a). As to the property and rights transferred to the company see PARA 1379 ante.

8 Ibid s 4(5)(b).

9 See note 3 supra.

10 Atomic Energy Authority Act 1971 s 4(2)(b). Anything which is so required to be secured or made available must be so secured or made available on such terms, as to payment or otherwise, as may be agreed between the Authority and the radiochemical company or as, in default of agreement, the Secretary of State may direct: s 4(4) (amended by the Energy Act 2004 s 197(9), Sch 23 Pt 1).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1381. Shares in the companies.

1381. Shares in the companies.

Subject to certain limits on payments¹, where any shares are issued by the nuclear fuels company², otherwise than in consideration of the property, rights, liabilities and obligations transferred to it³, the Secretary of State⁴, with the consent of the Treasury, may subscribe for any such shares and pay for them out of money provided by Parliament⁵. Any dividends or other sums received by the Secretary of State in right of or on the disposal of any shares held by him in either of the companies⁶ must be paid into the Consolidated Fund⁷.

The power of the United Kingdom Atomic Energy Authority ('the UKAEA')⁸ to dispose of shares in either of the companies is exercisable whether or not the disposal is consistent with the exercise and performance of its functions and whether the disposal extends to some or all of the shares held in the company⁹. The power of the Secretary of State to dispose of shares held by him in either of the companies is exercisable whether or not the disposal is consistent with promoting or controlling the development of atomic energy and whether the disposal extends to some or all of the shares held in the company¹⁰. Where a disposal by the Authority would not in its opinion be consistent with the exercise or performance of its functions the disposal may only be made:

- 3672 (1) if in the Secretary of State's opinion it will promote the national interest;
and
- 3673 (2) under and in accordance with directions¹¹ given by him¹².

Where a disposal by the Secretary of State would in his opinion be inconsistent with promoting or controlling the development of atomic energy, the disposal may only be made if in his opinion it will promote the national interest¹³.

1 Ie subject to the Nuclear Industry (Finance) Act 1977 s 2 (as amended): see PARA 1384 post.

2 As to the nuclear fuels company see PARA 1377 note 5 ante.

3 Ie otherwise than in pursuance of the Atomic Energy Authority Act 1971 s 7 (repealed).

4 As to the Secretary of State see PARA 601 note 1 ante.

5 Atomic Energy Authority Act 1971 s 11(4) (amended by the Nuclear Industry (Finance) Act 1977 s 2(5); the Energy Act 2004 s 197(2)).

6 'The companies' means the nuclear fuels company and the radiochemical company: see the Atomic Energy Authority Act 1971 ss 1(1), 2(1), 24(1). As to the radiochemical company see PARA 1379 note 4 ante.

7 Ibid s 11(5) (amended by the Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(8)). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

8 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

9 Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(1), (2). This provision applies to the disposal of shares in any company: s 1(1), (2). The power of the Secretary of State under the Atomic Energy Authority Act 1954 s 3 (see PARA 1363 the text and note 16 ante) to direct the Authority to dispose of shares is correspondingly extended: Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(2).

10 Ibid s 1(1), (3). This provision applies to the disposal of shares held by the Secretary of State in any company whose activities include the development of atomic energy or research into matters connected therewith or the production, treatment, storage or disposal of radioactive substances: s 1(1), (3). For the meaning of 'atomic energy' see PARA 1357 note 1 ante (definition applied by s 4(1)). For these purposes, 'radioactive substance' means any substance which consists of or contains any radioactive chemical element, whether natural or artificial: s 4(1) (definition substituted by the Radioactive Substances Act 1993 s 49(1), Sch 4 para 5).

11 The directions given under the Atomic Energy Authority Act 1954 s 3: see PARA 1363 the text and note 16 ante.

12 Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(4). This does not, however, apply to anything done by the UKAEA in exercise of powers conferred on it by or under the Energy Act 2004 Pt 1 Ch 2 (ss 38-50, Schs 5-9) (as amended) (see PARA 1402 et seq post) or to any disposal of securities in accordance with arrangements entered into by the UKAEA for purposes connected with the carrying out of its functions by the Nuclear Commissioning Authority (the 'NDA'): see the Energy Act 2004 s 48(8); and PARA 1421 post. As to the establishment and constitution of the NDA see PARAS 1394-1395 post; and as to its functions see PARAS 1592-1595 post.

13 Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1382. Loans by the Secretary of State to the nuclear fuels company.

1382. Loans by the Secretary of State to the nuclear fuels company.

The Secretary of State¹ may with the Treasury's approval make loans to the nuclear fuels company² (subject to certain limits³) on such terms as may with the like approval be agreed between the Secretary of State and that company⁴; and the Treasury may issue out of the National Loans Fund⁵ to the Secretary of State such sums as are necessary to enable him to make such loans⁶. Any sums received by the Secretary of State by way of repayment of, or interest on, such a loan must be paid into the National Loans Fund⁷.

The Secretary of State must, in respect of each financial year⁸, prepare in such form and manner as the Treasury may direct an account of sums so issued to him by the Treasury and of any sums to be so paid into the National Loans Fund, and of the disposal by him of those sums respectively, and send it to the Comptroller and Auditor General⁹ not later than the end of November in the following financial year; and the Comptroller and Auditor General must examine, certify and report on the account and lay copies of it, together with his report, before each House of Parliament¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the nuclear fuels company see PARA 1377 note 5 ante.

3 ie subject to the Nuclear Industry (Finance) Act 1977 s 2 (as amended): see PARA 1384 post.

4 Atomic Energy Authority Act 1971 s 12(1) (amended by the Nuclear Industry (Finance) Act 1977 s 2(5); the Energy Act 2004 s 197(3)).

6 Atomic Energy Authority Act 1971 s 12(2).

7 Ibid s 12(3).

8 'Financial year' means the 12 months ending with 31 March: see the Interpretation Act 1978 s 5, Sch 1.

9 As to the office of Comptroller and Auditor General see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARAS 724-726.

10 Atomic Energy Authority Act 1971 s 12(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1383. Guarantees by the Secretary of State of BNFL's borrowing.

1383. Guarantees by the Secretary of State of BNFL's borrowing.

The Secretary of State¹ may guarantee² repayment of any loan made to BNFL³ and the guarantee may extend to the payment of loan interest and any other payments falling to be made by that company to the lender or the lender's order in connection with the loan or its repayment⁴. If BNFL enters into agreements requiring that company to perform services for which it is to receive payment or part payment in advance, and the agreements provide for the advances to be repaid in specified circumstances, the Secretary of State may guarantee the repayment and also any payment of interest on sums for which BNFL may be liable under the agreements⁵. If any amount is paid by the Secretary of State in fulfilment of such a guarantee, BNFL will, as from the date of the payment, be indebted to him in that amount, with interest (for so long as the debt remains unpaid) at such rate as the Treasury may specify from time to time⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The Treasury's consent is required for any guarantee to be given by the Secretary of State under the Nuclear Industry (Finance) Act 1977 s 1 (as amended) (see the text and notes 3-6 infra); and immediately after giving it the Secretary of State must lay before each House of Parliament a statement showing the extent and character of the guarantee, and the circumstances in which it came to be given: s 1(3).

3 As to BNFL see PARA 1377 note 5 ante.

4 Nuclear Industry (Finance) Act 1977 s 1(1) (amended by the Energy Act 2004 s 197(5), (9), Sch 23 Pt 1).

5 Nuclear Industry (Finance) Act 1977 s 1(2).

6 Ibid s 1(4). For so long as there remains outstanding any indebtedness of the company to the Secretary of State under s 1(4), the Secretary of State must from time to time as the Treasury may request (and in any case not less than once in any financial year) lay before each House of Parliament a statement showing the amount of the indebtedness and the circumstances in which it arose, and defining (with Treasury approval) his intentions with regard to requiring its repayment: see s 1(5). Any sums required for fulfilling a guarantee are to be paid out of money provided by Parliament, and any sums received as repayment of the company's indebtedness or by way of interest on such indebtedness are to be paid into the Consolidated Fund: see s 1(6). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031. For the meaning of 'financial year' see PARA 1382 note 8 ante.

As to the application of s 1 (as amended) to designated BNFL companies see the Energy Act 2004 Sch 7 para 3; and PARA 1422 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/(A) Transfers to the Nuclear Fuels and Radiochemical Companies/1384. Limits on payments by the Secretary of State to BNFL.

1384. Limits on payments by the Secretary of State to BNFL.

The aggregate of:

- 3674 (1) the total amount paid (in or after 1971) by the Secretary of State¹ or by the United Kingdom Atomic Energy Authority ('the UKAEA')², or by both collectively, for shares issued by BNFL³ (otherwise than shares issued in consideration of the property, rights, liabilities and obligations transferred by the Atomic Energy Authority Act 1971⁴); and
 - 3675 (2) the total amount outstanding in respect of the principal of the loans made (in or after 1971) by the Secretary of State to the company under that Act⁵; and
 - 3676 (3) the total of any sums:
- 337
- 500. (a) for which the Secretary of State is, or may in default of payment by the company become, liable in the fulfilment of guarantees given for the company⁶, so far only as the guarantee relates to the principal of any loan to the company; and
 - 501. (b) which he has paid in fulfilment of guarantees given for the company less any repayment by the company of its resulting indebtedness⁷,
- 338

must not at any time exceed the limit for the time being applicable to that company⁸. For these purposes, the financial limit applicable to BNFL is £2,000 million⁹.

The aggregate of any sums for which the Secretary of State is, or may in default of payment by BNFL become, liable in the fulfilment of guarantees given¹⁰, and any sums which he has paid in fulfilment of guarantees so given, less any repayment made by the company of its resulting indebtedness¹¹, must not exceed £400 million, or such greater sum, not exceeding £500 million, as may be specified by order¹².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 As to BNFL see PARA 1377 note 5 ante.

4 I.e. otherwise than in pursuance of the Atomic Energy Authority Act 1971 s 7 (repealed). As to the transfer to BNFL see PARA 1377 ante.

1385. Accounts of the companies.

As soon as practicable after the holding of any general meeting of the nuclear fuels company¹, the Secretary of State² must lay before each House of Parliament a copy of any accounts which, in accordance with any requirement of the companies legislation³, are laid before the company at that meeting, and of any documents which are annexed or attached to any such accounts⁴.

1 As to the nuclear fuels company see PARA 1377 note 5 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Ie any requirement of the Companies Act 1985 or the Companies Act 2006. As to the relevant requirements see generally COMPANIES.

4 Atomic Energy Authority Act 1971 s 14 (amended by the Companies Consolidation (Consequential Provisions) Act 1985 s 30, Sch 2; and by virtue of the Atomic Energy (Miscellaneous Provisions) Act 1981 s 1(7)); Companies Act 2006 s 1297(5).

UPDATE

1385 Accounts of the companies

TEXT AND NOTES--Replaced. As soon as practicable after either of the companies (1) if it is a private company, has sent to members copies of accounts in accordance with the Companies Act 1985 s 238; or (2) if it is a public company, has laid accounts before the company in general meeting in accordance with s 241, the Secretary of State must lay before each House of Parliament a copy of those accounts and of any documents annexed or attached to them: 1971 Act s 14 (substituted by the Companies Act 2006 (Commencement No 3, Consequential Amendments, Transitional Provisions and Savings) Order 2007, SI 2007/2194).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/ (B) Transfers of Responsibility for Weapons Research etc/1386. Transfer of United Kingdom Atomic Energy Authority Weapons Group to the Secretary of State.

(B) TRANSFERS OF RESPONSIBILITY FOR WEAPONS RESEARCH ETC

1386. Transfer of United Kingdom Atomic Energy Authority Weapons Group to the Secretary of State.

On 1 April 1973¹ the undertaking of the United Kingdom Atomic Energy Authority ('the UKAEA')² ceased to comprise the part known as the Weapons Group, and it became the responsibility of the Secretary of State³ (and not the Authority, except under contract to, or by direction of, or with the approval of, the Secretary of State) to carry on any activities which before that day were activities of the group and involved the doing of work on explosive nuclear devices⁴. On the same day there were transferred to the Secretary of State for Defence certain land and premises, and certain other property, rights, liabilities and obligations which immediately before that day belonged to or were incumbent upon the Authority and appertained to the group⁵. Any rights, liabilities or obligations of the Authority under:

- 3677 (1) any contract of employment;
- 3678 (2) any agreement for the rendering by a person of services to the Authority in his capacity as a member of it; or
- 3679 (3) any pension scheme or agreement relating to a pension scheme,

were, however, excepted from the transfer, as were certain patent rights and other industrial property⁶. Every employee of the Authority engaged in the group immediately before that day then ceased to be employed by the Authority, but could be taken into employment in the civil service in pursuance of arrangements made by the Secretary of State in connection with the transfer⁷.

The Secretary of State must at the Authority's request enter into arrangements with it for securing that it has access to any of its property which in consequence of the transfer is for the time being in the custody or control of the Secretary of State⁸, and to any technical information which was available to the Authority before the transfer and is required by it for the purposes of any part of its undertaking which was not transferred⁹.

The Atomic Weapons Establishment Act 1991 enabled the Secretary of State to transfer to a company the undertaking of the Atomic Weapons Establishment¹⁰.

¹ Atomic Energy Authority (Weapons Group) Act 1973 ss 1(1), 9(1); Atomic Energy Authority (Weapons Group) Act 1973 (Appointed Day) Order 1973, SI 1973/463.

² As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

³ As to the Secretary of State see PARA 601 note 1 ante.

⁴ Atomic Energy Authority (Weapons Group) Act 1973 s 1(1).

5 See *ibid* ss 1(2), 9(2)(a), (3). Property thus vested in the Secretary of State was transferred without further assurance: s 1(2). A certificate issued by the Secretary of State that any property was or was not, or that any rights, liabilities or obligations were or were not, transferred, is conclusive evidence of the matters stated in the certificate: s 3(4) (s 3(4), (5) amended by the Statute Law (Repeals) Act 2004). Before issuing any such certificate the Secretary of State must consult the Authority: Atomic Energy Authority (Weapons Group) Act 1973 s 3(5) (as so amended). For general transitional provisions see s 4 (amended by the Statute Law (Repeals) Act 2004). See also *Pearce v Secretary of State for Defence* [1988] AC 755, [1988] 2 All ER 348, HL (the transfer of liabilities to the Secretary of State for Defence does not have the effect of taking away accrued rights; the Secretary of State was not, therefore, entitled to claim immunity from suit under the Crown Proceedings Act 1947 s 10(1), (2) (repealed with effect from 15 May 1987) in respect of a claim for damages for personal injury as a result of exposure to radiation during tests of nuclear weapons carried out by the Authority's scientists prior to the transfer).

6 See the Atomic Energy Authority (Weapons Group) Act 1973 s 1(3), Schedule. The rights so reserved to the Authority were (1) any interest of the Authority in a patent, registered design, registered trade mark or copyright; (2) any rights, liabilities or obligations of the Authority so far as arising (a) from an application for the grant of a patent or for the registration of a design or a trade mark, where the application was pending immediately before the appointed day; (b) from any invention (whether patented or not) made before that day; or (c) from the use by the Authority before that day of an unregistered trade mark; (3) any property of the Authority consisting of drawings, models, specifications or designs, or of documents relating thereto (including documents relating to the application or operation of any process or technique), other than those relating to any explosive nuclear device; and (4) any rights, liabilities or obligations of the Authority so far as arising (a) from any licence or assignment, whether to or by the Authority, of an invention, design, copyright or trade mark, or from an agreement for such a licence or assignment; or (b) from any agreement with respect to the making of an application for a patent or for the registration of a design or trade mark; or (c) from any agreement requiring the Authority to provide, or enabling it to receive, technical information or assistance of any description: Schedule paras 1-4. For these purposes, any reference to a patent, or to a registered design, or to copyright, includes a patent granted or design registered or copyright subsisting under the laws of a country or territory outside the United Kingdom; and any reference to a trade mark includes a trade mark subsisting or registered under the laws of any such country or territory: Schedule para 5. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

Where the Secretary of State thinks it necessary or expedient for the purposes of any activities carried on or to be carried on by him he may, by directions given to the Authority, after consultation with it, require it to make available to him, on such terms as to payment or otherwise as he thinks appropriate, (i) facilities for, and information relating to, the use of any invention, design or trade mark so excepted from transfer (s 5(1)(a)); and (ii) any technical information in the possession of or available to the Authority, other than information which it is precluded by contract from disclosing (s 5(1)(b)).

7 See *ibid* ss 2(1), 9(2)(b).

8 *Ibid* s 5(3)(a).

9 *Ibid* s 5(3)(b). The arrangements must include arrangements for enabling servants of the Authority to inspect and take copies of certain relevant documents: see s 5(3).

10 As to the Atomic Weapons Establishment and the provisions of the Atomic Weapons Establishment Act 1991 see PARA 1387 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/ (B) Transfers of Responsibility for Weapons Research etc/1387. Arrangements with regard to the Atomic Weapons Establishment.

1387. Arrangements with regard to the Atomic Weapons Establishment.

The Atomic Weapons Establishment Act 1991 provides for arrangements that may be made by the Secretary of State¹ with respect to the undertaking carried on by him and known as the Atomic Weapons Establishment. The Act applies in relation to such activities, carried on at such premises, as may be designated by the Secretary of State by order². The activities that may be so designated are any activities connected with the development, production or maintenance of nuclear devices or with research into such devices or their effects and the premises which may be so designated are those which, at the date when the Act came into force³, formed part of the undertaking carried on by the Secretary of State and known as the Atomic Weapons Establishment⁴.

The Atomic Weapons Establishment Act 1991 applies if, as regards any designated premises, the Secretary of State makes arrangements for a company to carry on designated activities at the premises under contract with him and for that or another company:

- 3680 (1) to become the employer of such of the qualified employees⁵ as are employees to whom the arrangements apply; and
- 3681 (2) to acquire from him rights in or over the premises or any part of them and any property used for the purposes of the undertaking, with a view to their services and that property being made available for carrying on the designated activities at those premises⁶.

Provision is made for regulations governing the status of employees on transfer of an undertaking to apply with modifications when the Secretary of State makes arrangements for a company to carry on designated activities at designated premises⁷. In these circumstances provision is also made for the disapplication to transferred employees of redundancy procedures applicable to persons employed in the civil service of the Crown⁸ and for the modification of their entitlements under certain pension schemes⁹.

There is to be paid out of money provided by Parliament any expenses of the Secretary of State incurred:

- 3682 (a) in connection with the formation of any company formed with a view to, or for any purpose of, the carrying on of designated activities or with the operation of any such company wholly owned by the Secretary of State; or
- 3683 (b) in assuming responsibility for any liabilities (whether of such a company or any other company which is or has been a contractor) which are liabilities arising out of the carrying on of designated activities or liabilities to or in respect of persons employed or formerly employed in or in connection with the carrying on of such activities¹⁰.

Provision is made as to the application of certain enactments for the purpose of conferring privileges and immunities on contractors¹¹. The jurisdiction of the Ministry of Defence Police Force extends to the land and property of a contractor¹².

1 le in practice the Secretary of State for Defence. As to the Secretary of State see PARA 601 note 1 ante.

2 Atomic Weapons Establishment Act 1991 s 1(1). The power to make such an order is exercisable by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament: s 1(5). For these purposes, 'designated', with reference to any activity or premises, means designated by an order made by the Secretary of State: s 1(4). The Atomic Weapons Establishment (Designation and Appointed Day) Order 1992, SI 1992/2743, designates any activities connected with the development, production or maintenance of nuclear devices or with research into such devices or their effects (art 3) in relation to each of the premises forming part of the undertaking carried on by the Secretary of State on 25 September 1991 and known as the Atomic Weapons Establishment, more particularly described as the Atomic Weapons Establishment at (1) Aldermaston, Berks (including the separate site at Blacknest, Berks); (2) the Mearings, Burghfield, Berks; (3) Caerphilly Rd, Llanishen, Cardiff; and (4) Foulness, Essex (art 2).

3 le on 25 September 1991: Atomic Weapons Establishment Act 1991 s 6(2).

4 Ibid s 1(2). 'The undertaking' for these purposes in relation to any designated premises means the carrying on by the Secretary of State of designated activities at those premises: s 1(1).

5 'The qualified employees' means the persons who are employed in the civil service of the Crown in or in connection with the undertaking on such day as the Secretary of State appoints by order: ibid s 1(1). The appointed day for this purpose was 31 March 1993: Atomic Weapons Establishment (Designation and Appointed Day) Order 1992, SI 1992/2743, art 4.

6 Atomic Weapons Establishment Act 1991 s 1(3). For these purposes, 'company' means a company formed under the Companies Act 1985 or the Companies Act 2006 or the corresponding provisions of any earlier enactment and 'formed' with reference to the purposes of a company includes the alteration of its objects: Atomic Weapons Establishment Act 1991 s 1(4); Companies Act 2006 s 1297(5). Any reference in the Atomic Weapons Establishment Act 1991 s 1(3) to a company includes a reference to a company formed by the Secretary of State: s 1(3).

7 Ibid s 2(1). The Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246, otherwise apply to the transfer of the undertaking or any part of it whether or not the undertaking would be treated as an undertaking to whose transfer those regulations apply: Atomic Weapons Establishment Act 1991 s 2(1) (amended by the Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246, reg 20(3), Sch 2 para 6(1), (2)). For the purposes of those regulations the services of the qualified employees together with the rights in or over the premises and property used for the purposes of the undertaking are to be treated as part of that undertaking to whose transfer those regulations apply whether or not the company which is to become their employer also carries on designated activities: Atomic Weapons Establishment Act 1991 s 2(2) (amended by the Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246, Sch 2 para 6(1), (3)). See further EMPLOYMENT vol 39 (2009) PARA 111 et seq.

8 See the Atomic Weapons Establishment Act 1991 s 2(3).

9 Ibid s 2(4). Where in pursuance of the arrangements (1) a person ceases to be employed in the civil service of the Crown on becoming employed by a company; and (2) he would not have so ceased if it were not for the arrangements, he will not, on so ceasing, be treated for the purposes of any scheme under the Superannuation Act 1972 s 1 (as amended), or any pension scheme maintained by the United Kingdom Atomic Energy Authority, as having retired on redundancy: Atomic Weapons Establishment Act 1991 s 2(4).

10 Ibid s 5.

11 See ibid s 3(1), Schedule (as amended). For the purposes of the Military Lands Act 1892 Pt II (ss 14-18) (as amended) (byelaws for lands under the management of the Secretary of State and used for service purposes: see ARMED FORCES vol 2(2) (Reissue) PARAS 123-124), land in designated premises is treated as land under the management of the Secretary of State for military purposes: Atomic Weapons Establishment Act 1991 Schedule para 2. The Landlord and Tenant Act 1954 Pt II (ss 23-46) (as amended) (security of tenure for business tenants: see LANDLORD AND TENANT vol 27(2) (2006 Reissue) PARA 701 et seq) does not apply to any tenancy granted to a contractor in respect of any land in designated premises: Atomic Weapons Establishment Act 1991 Schedule para 3. The Clean Air Act 1993 s 46(1), (2) (see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 210) has effect in relation to emissions from designated premises as if references to premises under the control of a government department which are occupied for the public service of the Crown include a reference to designated premises (and references to the responsible minister are references to the Secretary of

State); and for all other purposes of that Act any such premises are to be treated as Crown premises occupied by a government department: Atomic Weapons Establishment Act 1991 Schedule para 10B (added by the Clean Air Act 1993 s 67(1), Sch 4 para 5).

The power of the Secretary of State under the Health and Safety at Work etc Act 1974 s 48(4) (Crown exemptions: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 304) includes power to provide for exceptions, in relation to designated premises or activities carried on by a contractor at such premises, from all or any of the relevant statutory provisions within the meaning of Pt I (ss 1-54) (as amended) (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 302 note 24); and for the purposes of the Health and Safety (Enforcing Authority) Regulations 1998, SI 1998/494 (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 372), designated premises and the activities carried on by a contractor at such premises are treated as occupied or carried on by the Crown: Atomic Weapons Establishment Act 1991 Schedule para 7; Interpretation Act 1978 s 17(2).

For the purposes of the Local Government Finance Act 1988 Pt III (ss 41-67) (as amended) (liability to non-domestic rates: see RATING AND COUNCIL TAX) land in designated premises is treated as occupied on behalf of the Crown for public purposes: Atomic Weapons Establishment Act 1991 Schedule para 9. For the purposes of the Planning (Hazardous Substances) Act 1990 s 31 (as amended) (see TOWN AND COUNTRY PLANNING vol 46(3) (Reissue) PARAS 1214-1215), any interest of a contractor in designated premises is treated as a Crown interest in those premises: Atomic Weapons Establishment Act 1991 Schedule para 10.

As to the application of the Radioactive Substances Act 1993 to designated premises and activities see PARA 1450 note 6 post; and as to the application of the Nuclear Installations Act 1965 to designated premises and contractors see PARA 1492 note 3, 1493 note 9, 1494 note 7 post. For these purposes, 'contractor' means a company which carries on designated activities at designated premises under contract with the Secretary of State or, by making the services of employees or property available, enables such activities to be carried on at such premises, whether by a company or by the Secretary of State: Atomic Weapons Establishment Act 1991 s 1(4). 'Designated premises', for the purposes of the Schedule (as amended), means any designated premises as respects which such arrangements as are referred to in s 1(3) have been made, whatever may be the respective rights of the Secretary of State and any contractor in or over any part of the premises: Schedule para 1. The Secretary of State may by order repeal or amend any provisions of the Schedule (as amended) by order made by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament; but this power may not be exercised so as to extend the application of any privilege or immunity which is for the time being provided for by that Schedule: s 3(2), (3). As to the exercise of this power see the Atomic Weapons Establishment Act 1991 Amendment Order 1997, SI 1997/1396, cited in PARA 1492 note 3, 1493 note 9, 1494 note 7 post.

12 See the Atomic Weapons Establishment Act 1991 s 4. The places to which the Ministry of Defence Police Act 1987 s 2(2) (jurisdiction) applies include land, vehicles, vessels, aircraft and hovercraft which are in the possession, under the control or used for the purposes of a contractor, and used for the purposes of, or for purposes which include, carrying on designated activities: Atomic Weapons Establishment Act 1991 s 4(1). The reference to Crown property in the Ministry of Defence Police Act 1987 s 2(3) has effect as if it included a reference to property which belongs to a contractor, is in its possession or under its control, and is (or was immediately before its removal) used to any extent for the purpose of carrying on designated activities: Atomic Weapons Establishment Act 1991 s 4(2).

UPDATE

1387 Arrangements with regard to the Atomic Weapons Establishment

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

NOTE 6--'Company' means a company as defined in the Companies Act 2006 s 1(1) (see COMPANIES vol 14 (2009) PARA 24) and 'formed', in relation to a company, includes the alteration of the company's articles so as to add, remove or alter a statement of the company's objects: Atomic Weapons Establishment Act 1991 s 1(4) (definitions substituted by SI 2009/1941).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(iv) The United Kingdom Atomic Energy Authority ('the UKAEA')/B. TRANSFERS OF PARTS OF ORIGINAL UKAEA UNDERTAKING/ (C) Transfers under the Atomic Energy Authority Act 1995/1388. Transfers under the Atomic Energy Authority Act 1995; in general.

(C) TRANSFERS UNDER THE

1388. Transfers under the Atomic Energy Authority Act 1995; in general.

The Atomic Energy Authority Act 1995 gave the Secretary of State¹ power to direct the United Kingdom Atomic Energy Authority ('the UKAEA')² to make, before a date specified in the direction, a transfer scheme which related to such property, rights and liabilities as were specified in, or determined in accordance with, the direction and which contained such other provisions as might be so specified³. If so directed, the UKAEA was to make a scheme or schemes providing for the transfer to any person or persons of such property, rights and liabilities of that Authority as were specified in, or determined in accordance with, the scheme⁴. A nuclear site licence⁵ or the fee simple estate in any land which, immediately before the day on which the scheme came into force, consisted of or was wholly or partly comprised in a site in respect of which such a licence held by the Authority was in force might not, however, be transferred by such a scheme⁶. If the Secretary of State decided not to approve such a scheme, or if the Authority failed to make such a scheme by the date specified in the direction, he might himself make a transfer scheme⁷.

The Authority or the Secretary of State might enter into agreements with respect to transfer schemes⁸. At any time after the coming into force of a transfer scheme, the Secretary of State might by order extinguish all or any of the liabilities of the Authority in respect of the principal of such relevant loans as might be specified in the order to such extent as might be so specified⁹. No liability of the Authority in respect of its commencing capital debt¹⁰ or in respect of certain loans¹¹ was to be transferred by a transfer scheme except to a company which was either wholly owned by the Crown, or a wholly-owned subsidiary of the Authority¹². A transfer scheme might provide for the division of the Authority's undertaking¹³. Where, in consequence of any provisions included in a transfer scheme for the purposes of any such division, the interests, rights or liabilities of a third party were modified, the third party might be entitled to compensation¹⁴.

There was to be an initial government holding in any successor company¹⁵. Provision was made by the 1995 Act to safeguard the pension rights of certain transferred employees¹⁶.

With the exception of amendments made by it to other enactments¹⁷, the 1995 Act was repealed in its entirety by the Energy Act 2004¹⁸. That repeal does not, however, affect any provision of the 1995 Act so far as it has effect in relation to:

- 3684 (1) a transfer scheme under the 1995 Act that was made before 5 October 2004¹⁹; or
- 3685 (2) a company that is a successor company by reference to such a scheme²⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(v) The Health Protection Agency and the Environment Agency/1389. The Health Protection Agency; in general.

(v) The Health Protection Agency and the Environment Agency

1389. The Health Protection Agency; in general.

The Health Protection Agency was established on 1 April 2005¹. The composition and functions of that Agency are discussed in detail elsewhere in this work². Among those functions are the following functions in relation to risks connected with radiation (whether ionising or not):

- 3686 (1) the advancement of the acquisition of knowledge about protection from such risks;
- 3687 (2) the provision of information and advice in relation to the protection of the community (or any part of the community) from such risks³.

The Agency must also exercise such of the functions which were exercisable on 1 April 2005 by the National Radiological Protection Board as are specified in a direction given by the appropriate authority⁴. The giving of such a direction does not, however, transfer the function to the Agency or prevent the exercise of the function by the appropriate authority⁵.

The Radiological Protection Act 1970, which established the National Radiological Protection Board and set out its functions, is repealed⁶. That board is now part of the Health Protection Agency.

1 See the Health Protection Agency Act 2004 s 1; the Health Protection Agency Act 2004 (Commencement) Order 2005, SI 2005/121, art 2.

2 See HEALTH SERVICES vol 54 (2008) PARAS 213-227.

3 See the Health Protection Agency Act 2004 s 3(1).

4 See *ibid* s 3(2). As to the appropriate authority see s 6. In England, the appropriate authority is the Secretary of State: see s 6(1).

5 See *ibid* s 3(8).

6 See *ibid* s 11, Sch 4.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(v) The Health Protection Agency and the Environment Agency/1390. The Environment Agency; in general.

1390. The Environment Agency; in general.

The composition and general functions of the Environment Agency ('the Agency') are discussed elsewhere in this work¹. The Agency has specific responsibilities with regard to:

- 3688 (1) the registration of users of radioactive material and mobile radioactive apparatus under the Radioactive Substances Act 1993²;
- 3689 (2) the granting of authorisations for the disposal and accumulation of radioactive waste under that Act³; and
- 3690 (3) the granting of authorisations for the transfrontier shipment of certain radioactive waste⁴ and of approvals for transfrontier shipments which have been authorised by another member state⁵.

Those responsibilities are discussed below⁶. The Agency also has statutory powers of entry with regard to radioactive substances, as is discussed below⁷.

The Agency has a statutory right to be consulted:

- 3691 (a) by the Health and Safety Executive⁸
- 339 502. (i) before the granting of a nuclear site licence under the Nuclear Installations Act 1965 in respect of a site in England and Wales⁹;
- 503. (ii) before the variation of certain nuclear site licences¹⁰;
- 504. (iii) before revoking a nuclear site licence in respect of a site in England and Wales¹¹;
- 340 3692 (b) by the Nuclear Decommissioning Authority ('the NDA')¹² before the NDA:
- 341 505. (i) prepares a strategy under the Energy Act 2004 for carrying out its functions, revises such a strategy in a manner requiring approval, or submits such a strategy to have the approval of the strategy renewed¹³; or
- 506. (ii) prepares or revises its annual plan¹⁴.
- 342

1 As to the Environment Agency see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 See PARA 1439 et seq post. For additional powers with regard to high-activity sealed radioactive sources and orphan sources see PARA 1464 et seq post.

3 See PARA 1450 et seq post. For additional powers with regard to high-activity sealed radioactive sources and orphan sources see PARA 1464 et seq post.

4 See PARA 1479 et seq post.

5 See PARA 1483 post.

6 See PARAS 1439 et seq, 1479 et seq, 1567-1568, 1584 post.

- 8 As to the Health and Safety Executive see PARA 1391 post; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.
- 9 See PARA 1490 post.
- 10 See PARA 1490 the text and notes 13-14 post.
- 11 See PARA 1494 post.
- 12 As to the establishment and constitution of the NDA see PARAS 1394-1397 post; and as to its functions see PARAS 1592-1595 post.
- 13 See PARA 1598 post.
- 14 See PARA 1600 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vi) The Health and Safety Executive/1391. The Health and Safety Executive; in general.

(vi) The Health and Safety Executive

1391. The Health and Safety Executive; in general.

The composition and general functions of the Health and Safety Executive ('the Executive') are discussed elsewhere in this work¹. The Executive has specific responsibilities with regard to nuclear site licensing and inspection² and the granting of consents for projects for dismantling or decommissioning work on any nuclear power station or nuclear reactor to which the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999³ apply⁴. Those responsibilities are discussed below⁵.

The Executive has a statutory right to be consulted:

- 3693 (1) by the Environment Agency⁶ before the granting of an authorisation:
343
- 507. (a) under the Radioactive Substances Act 1993 to dispose of or accumulate
radioactive waste⁷ and before any such authorisation is varied⁸; and
- 508. (b) for the transfrontier shipment of certain radioactive waste⁹;
344
- 3694 (2) by the Nuclear Decommissioning Authority ('the NDA')¹⁰ before the NDA:
345
- 509. (a) prepares a strategy under the Energy Act 2004 for carrying out its
functions, revises such a strategy in a manner requiring approval, or submits such a
strategy to have the approval of the strategy renewed¹¹; or
- 510. (b) prepares or revises its annual plan¹².
346

The Executive regulates the nuclear industry through its Nuclear Directorate.

¹ As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

² Ie under the Nuclear Installations Act 1965: see PARA 1487 et seq post.

³ Ie the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892 (as amended): see PARA 1615 et seq post.

⁴ As to the nuclear power stations and other nuclear reactors to which the 1999 Regulations apply see PARA 1614 post.

⁵ See PARAS 1487 et seq, 1614 et seq post.

⁶ As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

⁷ See PARA 1453 post.

⁸ See PARA 1459 post.

9 See PARA 1480 post.

10 As to the establishment and constitution of the NDA see PARAS 1394-1397 post; and as to its functions see PARAS 1592-1595 post.

11 See PARA 1598 post.

12 See PARA 1600 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vi) The Health and Safety Executive/1392. Recovery of expenses by the Health and Safety Executive.

1392. Recovery of expenses by the Health and Safety Executive.

The following provisions apply to any expenses incurred by the Health and Safety Executive ('the Executive')¹ and any expenses incurred by the Health and Safety Commission ('the Commission')² which, in either case, the Executive may determine to be incurred wholly or partly in connection with:

- 3695 (1) the carrying into effect of specified provisions of the Nuclear Installations Act 1965³; or
- 3696 (2) the carrying out of research into nuclear safety at the direction of the Commission⁴;

and such expenses incurred by the Executive include any sums paid by it by way of remuneration, allowances or other payments to inspectors appointed under the Health and Safety at Work etc Act 1974⁵.

In such cases and to such extent as it may appear to the Executive appropriate to do so, the Executive must:

- 3697 (a) require a person who has applied for a nuclear site licence⁶ to repay to it so much of any expenses to which these provisions apply as may appear to it to be attributable to dealing with the application⁷;
- 3698 (b) require a person to whom a nuclear site licence has been granted to repay to it:
- 347 511. (i) so much of any expenses to which these provisions apply as may appear to it to be attributable to any nuclear installation⁸ in respect of which the licence has been granted; and
- 512. (ii) so much of any such expenses which are not otherwise recoverable under these provisions as it thinks fit⁹.
- 348

A person must comply with any requirement so made of him¹⁰. Any liability of a person in respect of sums payable by him under these provisions on account of pensions must, if the Executive so determines, be satisfied by way of contributions calculated, at such rate as may be determined by the Treasury, by reference to remuneration¹¹.

Where the Executive anticipates that a person who has applied for or has been granted a nuclear site licence will become subject to a liability under these provisions, it may require him to make to it a payment or payments on account of the liability¹². Where a person has made such a payment on account of an anticipated liability, then:

- 3699 (A) if he does not become subject to the liability, the Executive is liable to repay the payment to him; and
- 3700 (B) if the amount of the liability to which he becomes subject is less than the amount so paid on account, the Executive is liable to repay the difference to him¹³.

1 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 As to the Health and Safety Commission see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 367.

3 The such of the provisions of the Nuclear Installations Act 1965 as are mentioned in the Health and Safety at Work etc Act 1974 Sch 1 (as amended). Those provisions (which are 'relevant statutory provisions' for the purposes of the 1974 Act: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 302 notes 12, 24) are (1) the Nuclear Installations Act 1965 s 1 (as amended) (see PARA 1487 post); (2) ss 3-6 (as amended) (see PARAS 1490-1494 post); (3) s 22 (as amended) (see PARA 1499 post); (4) s 24A (as added) (see the text and notes 4-12 infra); and (5) Sch 2 (repealed except in relation to Northern Ireland): see the Health and Safety at Work etc Act 1974 Sch 1 (amended for these purposes by the Atomic Energy Act 1989 s 6(3)).

4 Nuclear Installations Act 1965 s 24A(1) (s 24A added by the Atomic Energy Act 1989 s 2(1)).

5 See the Nuclear Installations Act 1965 s 24A(2) (as added: see note 4 supra).

6 For the meaning of 'nuclear site licence' see PARA 1487 note 1 post.

7 Nuclear Installations Act 1965 s 24A(3) (as added: see note 4 supra).

8 For the meaning of 'nuclear installation' see PARA 1487 note 3 post.

9 Nuclear Installations Act 1965 s 24A(4) (as added: see note 4 supra).

10 Ibid s 24A(5) (as added: see note 4 supra).

11 Ibid s 24A(6) (as added: see note 4 supra).

UPDATE

1392-1393 Recovery of expenses by the Health and Safety Executive, Fees payable in relation to nuclear design proposals

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1392 Recovery of expenses by the Health and Safety Executive

NOTE 2--Health and Safety Commission abolished as from 1 April 2008: see the Legislative Reform (Health and Safety Executive) Order 2008, SI 2008/960, art 2.

NOTE 4--1965 Act s 24(1) substituted: SI 2008/960.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vi) The Health and Safety Executive/1393. Fees payable in relation to nuclear design proposals.

1393. Fees payable in relation to nuclear design proposals.

Where, by virtue of the specified provisions of the Health and Safety at Work etc Act 1974¹ or the Nuclear Installations Act 1965², the Health and Safety Executive ('the Executive')³ carries out any work for the purpose of preparing an assessment agreement⁴ or assessing a design proposal for any new nuclear installation⁵, a fee is payable by the person who has requested the assessment of the design proposal⁶. That fee must not exceed the sum of the costs reasonably incurred by the Executive for the work, and is to be payable within 30 days from the date of the invoice that the Executive has sent or given to the person who is required to pay the fee⁷. Such invoices must include a statement of the work done and the costs incurred including the period to which the statement relates⁸.

1 le by virtue of the Health and Safety at Work etc Act 1974 s 11(1), (4)(a), (6) (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 367.

2 le by virtue of the Nuclear Installations Act 1965 s 1(1) (as amended) (see PARA 1487 post), s 3 (as amended) (see PARAS 1490-1491 post).

3 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

4 'Assessment agreement' means an agreement between the Executive and the person requesting the assessment of a design proposal, which identifies the scope of the assessment to be made by the Executive of that design proposal: Health and Safety (Fees) Regulations 2007, SI 2007/813, reg 17A(3) (reg 17A, Sch 13A added by SI 2007/1672). The 2007 Regulations are made under the Health and Safety at Work etc Act 1974 s 43 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 354. For the meaning of 'design proposal' see note 5 infra.

5 'Design proposal' means a proposal for any new nuclear installation, including matters relating to the installation's construction, commissioning, operation and decommissioning, which is to be assessed by the Executive prior to any application for a licence under the Nuclear Installations Act 1965 s 1(1) (as amended) which may be made based upon that design proposal; and 'nuclear installation' means a nuclear reactor or an installation within the meaning of s 1(1)(b) (see PARA 1487 post): Health and Safety (Fees) Regulations 2007, SI 2007/813, reg 17A(3) (as added: see note 4 supra).

6 Ibid reg 17A(1), Sch 13A (as added: see note 4 supra).

7 Ibid reg 17A(2)(a) (as added: see note 4 supra).

8 Ibid reg 17A(2)(b) (as added: see note 4 supra).

ESTABLISHMENT, CONSTITUTION AND PROCEEDINGS/1394. Establishment of the Nuclear Decommissioning Authority.

(vii) The Nuclear Decommissioning Authority ('the NDA')

A. ESTABLISHMENT, CONSTITUTION AND PROCEEDINGS

1394. Establishment of the Nuclear Decommissioning Authority.

The Nuclear Decommissioning Authority ('the NDA') is a body corporate established under the Energy Act 2004¹. The NDA is not to be treated, except so far as necessary for the purposes of its function of acting on the Secretary of State's² behalf for specified purposes³, as performing any duty or exercising any power on behalf of the Crown or as enjoying any status, immunity or privilege of the Crown, and the NDA's property is not to be regarded as property of the Crown, or as held on behalf of the Crown⁴. The NDA is a public authority for the purposes of the Freedom of Information Act 2000⁵ and is subject to investigation by the Parliamentary Commissioner⁶.

1 See the Energy Act 2004 s 1(1), which came into force on 27 July 2004: Energy Act 2004 (Commencement No 1) Order 2004, SI 2004/1973, art 2, Schedule.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 le for the purposes of its function under the Energy Act 2004 s 7(2): see PARA 1594 post.

4 Ibid s 1(2).

5 See the Freedom of Information Act 2000 s 3(1)(a)(i), Sch 1 Pt VI (amended for these purposes by the Energy Act 2004 s 2(10), Sch 1 Pt 3 para 18).

6 See the Parliamentary Commissioner Act 1967 s 4 (as substituted and amended), Sch 2 (substituted by the Parliamentary Commissioner (No 2) Order 2005, SI 2005/3430, SI 2005/3430, art 2, Schedule).

UPDATE

1394 Establishment of the Nuclear Decommissioning Authority

NOTE 6--1967 Act Sch 2 further substituted: see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 43.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vii) The Nuclear Decommissioning Authority ('the NDA')/A. ESTABLISHMENT, CONSTITUTION AND PROCEEDINGS/1395. Constitution of the Nuclear Decommissioning Authority.

1395. Constitution of the Nuclear Decommissioning Authority.

Subject to the arrangements for the initial period¹, the Nuclear Decommissioning Authority ('the NDA')² must consist of not fewer than seven and not more than 13 members and must have a membership comprising both non-executive members and executive members³.

The non-executive members must be:

- 3701 (1) a chairman appointed by the Secretary of State⁴; and
- 3702 (2) a number of other persons appointed by the Secretary of State after consultation with the chairman;

and it is for the Secretary of State to determine⁵ how many non-executive members there are to be in addition to the chairman⁶.

The executive members must be:

- 3703 (a) a person appointed by the non-executive members to be the NDA's chief executive; and
- 3704 (b) the other persons, if any, appointed by them after consultation with the chief executive to be executive members in addition to the chief executive;

and it is for the non-executive members to determine⁷ whether there are to be executive members in addition to the chief executive and, if so, how many⁸. The approval of the Secretary of State is required for the appointment of the chief executive⁹. Where the Secretary of State so provides by a direction to the NDA, the non-executive members must secure that the number of executive members in addition to the chief executive is not less than the minimum set by the direction and does not exceed the maximum so set; and the direction must not set a maximum of more than three¹⁰.

Before appointing a person to be the chairman or otherwise to be a non-executive member of the NDA, or approving the appointment of a person to be the chief executive, the Secretary of State must consult the Scottish Ministers¹¹. The Secretary of State must exercise his powers under the above provisions to secure, so far as practicable, that the number of executive members is at all times less than the number of non-executive members¹².

If there are executive members in addition to the chief executive, each must be a member of the staff of the NDA¹³.

The Secretary of State has power by order to modify the above provisions¹⁴.

¹ See subject to the Energy Act 2004 s 2(10), Sch 1 para 4. Until the end of the initial period the NDA consisted of just those members who had been appointed: see Sch 1 para 4(1). As soon as practicable after his own appointment took effect, the chairman of the NDA was to exercise the power to appoint a chief executive: Sch 1 para 4(2). Appointments of members other than the chairman and chief executive might be made during the initial period only after the appointment of the chief executive had taken effect: Sch 1 para 4(3). The chairman must ensure that proper records are kept of everything he did, while he was the only non-executive

member, in the exercise or performance of powers or duties conferred or imposed on the non-executive members: see Sch 1 para 4(5). For these purposes, 'the initial period' means the period which began with the commencement of so much of the Energy Act 2004 as provides for the establishment of the NDA (ie 27 July 2004: see PARA 1394 ante) and ended with whichever of the following first occurred: (1) the time when an appointment took effect that brought the number of members of the NDA up to seven; (2) the time specified as the end of the initial period in a notice given during that period by the Secretary of State to the NDA for these purposes: see Sch 1 para 4(6).

2 As to the establishment of the NDA see PARA 1394 ante.

3 Energy Act 2004 s 2(1).

4 As to the Secretary of State see PARA 601 note 1 ante.

5 Ie subject to the Energy Act 2004 s 2(1): see the text and notes 1-3 supra.

6 Ibid s 2(2).

7 Ie subject to ibid s 2(8): see the text and note 10 infra.

8 Ibid s 2(3).

9 Ibid s 2(4).

10 Ibid s 2(8).

11 Ibid s 2(5). Section 2(5) may be satisfied by consultation that took place wholly or partly before the commencement of s 2 (ie 27 July 2004: see the Energy Act 2004 (Commencement No 1) Order 2004, SI 2004/1973, art 2, Schedule): Energy Act 2004 s 2(6).

12 Ibid s 2(9).

13 Ibid s 2(7).

14 See ibid s 35(1)(a). The power to make an order containing provision authorised by s 35 is subject to the affirmative resolution procedure (s 35(4)); and before making such an order the Secretary of State must consult the Scottish Ministers (s 35(2)). As to the affirmative resolution procedure see PARA 754 note 17 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vii) The Nuclear Decommissioning Authority ('the NDA')/A. ESTABLISHMENT, CONSTITUTION AND PROCEEDINGS/1396. Members and staff of the Nuclear Decommissioning Authority.

1396. Members and staff of the Nuclear Decommissioning Authority.

Subject to what follows, the chairman of the Nuclear Decommissioning Authority ('the NDA')¹ and each of the other non-executive members is to hold and vacate office in accordance with the terms of his appointment². Each appointment must state the period for which it is made³, which must not exceed five years; but a person is eligible for reappointment on any number of occasions from the end of a term of office⁴. A non-executive member is not eligible to hold office as chief executive or otherwise to be a member of the staff of the NDA⁵. A non-executive member may at any time resign his office as the chairman or as a member of the NDA, or both, by giving notice of his resignation to the Secretary of State⁶. If the Secretary of State is satisfied that the chairman or another non-executive member:

- 3705 (1) is an undischarged bankrupt or has had his estate sequestrated without being discharged;
- 3706 (2) is subject to a bankruptcy restrictions order or an interim bankruptcy restrictions order;
- 3707 (3) has made an arrangement with his creditors, or has entered into a trust deed for creditors, or has made a composition contract with his creditors;
- 3708 (4) has such a financial or other interest as is likely to affect prejudicially the carrying out by him of his functions as a member of the NDA;
- 3709 (5) is unfit for office by reason of misbehaviour; or
- 3710 (6) is otherwise incapable of carrying out, or unfit to carry out, the functions of his office,

the Secretary of State may, by giving him notice to that effect, remove him from office⁷. Before exercising this power, the Secretary of State must consult the Scottish Ministers⁸.

The NDA may pay to the chairman, and to each of the other non-executive members, such remuneration and allowances as the Secretary of State may determine⁹. It may also pay, or make provision for paying, to or in respect of the chairman, and to or in respect of each of the other non-executive members, such sums by way of pensions, allowances or gratuities as the Secretary of State may determine¹⁰. Where a person ceases, otherwise than on the expiry of his term of office, to be a non-executive member, and it appears to the Secretary of State that there are special circumstances which make it right for him to receive compensation, the NDA may make a payment to him of such amount as the Secretary of State may determine¹¹.

The chief executive of the NDA is to hold office on such terms and conditions, including terms and conditions as to remuneration, as the non-executive members determine¹²; and each of the other executive members, if any, is to hold office as a member, on such terms and conditions, including terms and conditions as to remuneration, as the non-executive members may determine in his case¹³. The terms and conditions on which an executive member other than the chief executive becomes or remains an employee of the NDA, or (without being an employee) a member of its staff, are also to be determined by the non-executive members¹⁴. If the non-executive members so determine in the case of the chief executive or any of the other executive members, the NDA must pay such pensions, allowances or gratuities to or in respect

of the chief executive and each of those other members, or provide and maintain for the chief executive and those other members such pension schemes (whether contributory or not), as the non-executive members may determine¹⁵. If an executive member is a participant in a pension scheme applicable to his membership of the NDA, and ceases to be an executive member without ceasing to be a member of the NDA's staff, he may, if the Secretary of State so determines, be treated for the purposes of the pension scheme as if any service of his (after ceasing to be an executive member) as an employee of the NDA were service as an executive member¹⁶.

The NDA may appoint such employees, in addition to those who are its members, as it may determine and may make such other arrangements for the staffing of the NDA as it thinks fit¹⁷. The employees of the NDA who are not its members are to be employed on such terms and conditions, including terms and conditions as to remuneration, as it determines¹⁸; and the NDA may, in the case of any of its employees who are not its members, pay to or in respect of those employees such pensions, allowances or gratuities, or provide and maintain for them such pension schemes (whether contributory or not), as it determines¹⁹. If an employee of the NDA is a participant in a pension scheme applicable to his employment, and becomes an executive member, he may, if the Secretary of State so determines, be treated for the purposes of the pension scheme as if his service as a member were service as an employee of the NDA²⁰.

A pension scheme maintained by the United Kingdom Atomic Energy Authority ('the UKAEA')²¹ may apply to members of the NDA, and members of its staff, as it applies to persons to whom it otherwise applies²².

The Secretary of State has power by order to modify the above provisions²³.

23 See *ibid* s 35(1)(a). As to the manner in which this power is to be exercised see PARA 1395 note 14 *ante*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vii) The Nuclear Decommissioning Authority ('the NDA')/A. ESTABLISHMENT, CONSTITUTION AND PROCEEDINGS/1397. Proceedings of the Nuclear Decommissioning Authority.

1397. Proceedings of the Nuclear Decommissioning Authority.

The Nuclear Decommissioning Authority ('the NDA')¹ may make such arrangements as it thinks fit for the carrying out of its functions² by committees established by it and for committees established by it to give it advice about matters relating to the carrying out of its functions³. The membership of every committee established by the NDA must include at least one person who is a member of the NDA⁴. Where the NDA establishes a committee for the purpose of giving it advice, and does not authorise it⁵ to do anything on the NDA's behalf, the membership of the committee may include persons (including persons constituting a majority of the committee) who are neither members of the NDA nor members of its staff⁶. In other cases every member of the committee must be either a member of the NDA or a member of its staff⁷. Where a person who is neither a member of the NDA nor a member of its staff is a member of a committee, the NDA may pay to that person such remuneration and expenses as it determines⁸.

Anything that is authorised or required by or under an enactment⁹ to be done by the NDA may be done on its behalf:

- 3711 (1) by a member of the NDA, or of its staff, who has been authorised by it for the purpose, whether generally or specifically; or
- 3712 (2) by a committee established by the NDA which has been so authorised¹⁰.

The NDA must not, however, make arrangements for the final decision on any of the following to be made by a committee or by a member of the NDA or of its staff:

- 3713 (a) the NDA's strategy for carrying out its functions¹¹ or any modification¹² of that strategy;
- 3714 (b) its annual plan¹³ or any modification of that plan;
- 3715 (c) the arrangements for regulating the proceedings of the NDA;
- 3716 (d) the further delegation of anything delegated to a committee or to a member of the NDA or of its staff¹⁴.

A decision of the NDA relating to any of the matters described in heads (a) to (d) above is ineffective unless a majority of the members who were present at the meeting at which the decision was made, or otherwise had an opportunity of participating in the decision-making process, consisted of non-executive members¹⁵; and a decision by the NDA for regulating its own proceedings may determine what, for these purposes, constitutes an opportunity of participating in the decision-making process¹⁶. A question for these purposes about whether a member was present at a meeting of the NDA, or satisfied the requirements that needed to be satisfied for him to be treated as having had an opportunity of participating in a decision, must be determined, if there are any, exclusively by reference to official minutes¹⁷ of the meeting or decision¹⁸.

The NDA may make such other arrangements as it thinks fit for regulating its own proceedings and for regulating the proceedings of the committees it has established¹⁹. Such arrangements

may include such additional arrangements²⁰ as the NDA thinks fit about quorums and the making of decisions by a majority²¹. The procedure for the carrying out of the separate functions which under the Energy Act 2004 are conferred on the non-executive members must be in accordance with such arrangements as may be determined by a majority of the non-executive members²². The NDA must publish, in such manner as it considers appropriate, the arrangements made under these provisions²³.

Authentication of the application of the NDA's seal is to be by the signature of the chairman or another member of the NDA or of any other person authorised by it for the purpose, whether generally or specifically²⁴. A document²⁵ purporting to be duly executed under the seal of the NDA, or signed on behalf of the NDA, may be received in evidence and, except so far as the contrary is shown, is to be taken to be duly so executed or signed²⁶.

The NDA must make arrangements for the keeping of proper records of each of the following:

- 3717 (i) its proceedings;
- 3718 (ii) proceedings of the committees established by it;
- 3719 (iii) proceedings at meetings of the non-executive members; and
- 3720 (iv) anything done by a member of the NDA or of its staff in reliance on a delegation²⁷ of the NDA's functions²⁸.

The validity of proceedings of the NDA, of the non-executive members or of a committee established by the NDA is not affected by:

- 3721 (A) a vacancy in the membership of the NDA or of such a committee;
- 3722 (B) a defect in the appointment of the chairman, of any other non-executive member, of the chief executive or of any other executive member;
- 3723 (C) a failure of the Secretary of State to comply with the statutory requirements as to the numbers of executive and non-executive members²⁹; or
- 3724 (D) a failure to comply with arrangements for regulating the NDA's proceedings made by it³⁰ under the powers set out above³¹.

Nothing in heads (A) to (D) above, however, validates the proceedings of a meeting which would still be inquorate even if defects and failures mentioned within head (B) or head (C) above had not occurred, or a decision which is otherwise ineffective by virtue of the statutory requirements as to quorums³² set out above³³.

The Secretary of State has power by order to modify the above provisions³⁴.

1398. Expenditure and receipts of the Nuclear Decommissioning Authority.

The Secretary of State¹ may make grants to the Nuclear Decommissioning Authority ('the NDA')². Grants so made are to be on such terms as the Secretary of State may determine³. In determining whether to make a grant to the NDA, and the amount of such a grant, the Secretary of State must have regard, in particular, to the extent to which he considers that the NDA should exercise its power to make grants or loans of the specified kind⁴ in order to mitigate the effects of the cessation, whether before or after designation, of the operation of a designated installation⁵.

The NDA must pay to the Secretary of State all sums received by it otherwise than by way of such grant⁶, and the Secretary of State must pay sums so received by him into the Consolidated Fund⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Energy Act 2004 s 22(1). As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARA 1592 et seq post.

Every amount so paid by way of grant must be shown in the Nuclear Decommissioning Funding Account as a debit: s 31(3). As to that account see PARAS 1612-1613 post.

3 Ibid s 22(2).

4 Ie of the kind mentioned in ibid s 10(2)(c): see PARA 1597 post. For the meaning of 'designated installation' see PARA 1592 note 3 post.

5 Ibid s 22(5).

6 Ibid s 22(3). This does not apply, however, to the repayment under s 23(3) of a loan made under s 23: see s 23(3); and PARA 1399 post.

Every amount received by the NDA that is required to be paid by it to the Secretary of State under s 22(3) must be shown in the Nuclear Decommissioning Funding Account as a credit: s 31(4)(b); and see note 2 supra.

7 Ibid s 22(4). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vii) The Nuclear Decommissioning Authority ('the NDA')/B. EXPENDITURE, RECEIPTS AND BORROWING/1399. Borrowing by the Nuclear Decommissioning Authority.

1399. Borrowing by the Nuclear Decommissioning Authority.

The Nuclear Decommissioning Authority ('the NDA')¹ has no power to borrow money except in accordance with the following provisions² and subject to the statutory limit³ set out below⁴.

The NDA may borrow from the Secretary of State⁵, and the Secretary of State may lend to the NDA, sums in sterling that it requires for or in connection with the carrying out of its functions⁶. Where a loan is made to the NDA by the Secretary of State the loan must be repaid to him at such times and by such methods, and interest on the loan must be paid to him at such rates and at such times, as he may determine⁷.

The NDA may also borrow temporarily, by overdraft or otherwise, from persons other than the Secretary of State sums in sterling that it requires for or in connection with the carrying out of its functions⁸. The consent of the Secretary of State is required for such borrowing⁹.

The approval of the Treasury is required:

- 3725 (1) for a loan to the NDA by the Secretary of State;
- 3726 (2) for a determination by the Secretary of State with regard to repayment of, and interest on, such a loan¹⁰; and
- 3727 (3) for a consent by the Secretary of State to any borrowing¹¹ from other persons¹².

The NDA may not borrow, however, if the effect would be to take the aggregate amount mentioned in heads (a) and (b) below over its borrowing limit¹³ or to increase the amount by which the aggregate amount so outstanding exceeds that limit¹⁴. The aggregate amount referred to is the aggregate of:

- 3728 (a) amounts outstanding from the NDA in respect of the principal of sums borrowed by the NDA; and
- 3729 (b) the amount of every outstanding liability of the NDA that is a liability to which it is subject by virtue of a nuclear transfer scheme¹⁵ and is a liability in respect of the principal of a sum borrowed by another person before the transfer took effect¹⁶.

Subject to Treasury approval¹⁷, the Secretary of State may guarantee:

- 3730 (i) the repayment of the principal of any sum borrowed by the NDA from a person other than the Secretary of State;
- 3731 (ii) the payment of interest on such a sum; and
- 3732 (iii) the discharge of any other financial obligation of the NDA in connection with the borrowing of such a sum¹⁸;

and may give such a guarantee in such manner, and on such terms, as he thinks fit¹⁹. As soon as practicable after giving such a guarantee, the Secretary of State must lay a statement of the

guarantee before Parliament²⁰. If sums are paid out by the Secretary of State under a guarantee so given, the NDA must pay him such amounts in or towards the repayment to him of those sums as he may direct and interest, at such rates as he may direct, on amounts outstanding under this provision²¹; and such payments to the Secretary of State must be made at such times, and in such manner, as he may from time to time direct²². The approval of the Treasury is required for the giving by the Secretary of State of any such direction²³. He must pay sums received by him by virtue of the above provision into the Consolidated Fund²⁴.

Where a sum has been paid out by the Secretary of State under a guarantee so given, he must lay a statement relating to that sum before Parliament:

3733 (A) as soon as practicable after the end of the financial year²⁵ in which that sum is paid out; and

3734 (B) as soon as practicable after the end of each subsequent relevant financial year²⁶.

1 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARA 1592 et seq post.

2 Ie except in accordance with the Energy Act 2004 s 23: see the text and notes 3-12 infra.

3 Ie subject to ibid s 24: see the text and notes 13-16 infra.

4 Ibid s 23(1), (7).

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Energy Act 2004 s 23(2).

7 Ibid s 23(3)(a), (b). Nothing in s 22(3) (see PARA 1398 ante) requires the repayment of sums received by way of such a loan otherwise than in accordance with a determination under s 23(3): s 23(3).

8 Ibid s 23(4).

9 Ibid s 23(5).

10 Ie a determination under ibid s 23(3): see the text and note 7 supra.

11 Ie any borrowing under ibid s 23(4): see the text and note 8 supra.

12 Ibid s 23(6).

13 The NDA's borrowing limit is £2,000 million: ibid s 24(3). The Secretary of State may by order increase the NDA's borrowing limit: s 24(4). No such order may be made unless a draft of the order has been laid before Parliament and approved by a resolution of the House of Commons: s 24(5).

14 Ibid s 24(1).

15 The reference in ibid s 24 to a nuclear transfer scheme includes a reference to a modification agreement (within the meaning of Sch 5: see PARA 1410 post) in relation to such a scheme: s 24(6). For the meaning of 'nuclear transfer scheme' see PARA 1402 post.

16 Ibid s 24(2).

17 See ibid s 25(8)(a).

18 Ibid s 25(1).

19 Ibid s 25(2).

20 Ibid s 25(3).

21 Ibid s 25(4).

22 Ibid s 25(5).

23 See ibid s 25(8)(b).

24 Ibid s 25(9). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

25 For the meaning of 'financial year' see ibid s 196(1); and PARA 763 note 17 ante.

26 Ibid s 25(6). In relation to a sum paid out under a guarantee, a financial year is a relevant financial year for these purposes unless (1) before the beginning of that year, the whole of that sum has been repaid to the Secretary of State under s 25(4); and (2) the NDA is not at any time during that year subject to a liability to pay interest on amounts that became due under s 25(4) in respect of that sum: s 25(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vii) The Nuclear Decommissioning Authority ('the NDA')/B. EXPENDITURE, RECEIPTS AND BORROWING/1400. Accounts of the Nuclear Decommissioning Authority.

1400. Accounts of the Nuclear Decommissioning Authority.

The Nuclear Decommissioning Authority ('the NDA')¹ must keep proper accounts and proper accounting records² and must, in respect of each of its accounting years³, prepare a statement of its accounts⁴. A statement of accounts so prepared must give a true and fair view of the income and expenditure of the NDA for the accounting year in question and its state of affairs⁵ and must comply with every requirement which has been notified by the Secretary of State⁶ to the NDA⁷. Those requirements may include, in particular, requirements relating to:

- 3735 (1) the information to be contained in the statement;
- 3736 (2) the manner in which that information is to be presented; or
- 3737 (3) the methods and principles according to which the statement is to be prepared⁸;

and the approval of the Treasury is required for the imposition⁹ of such a requirement¹⁰.

The accounts of the NDA relating to each of its accounting years, including the statement of accounts prepared for the year under these provisions, must be audited by the Comptroller and Auditor General¹¹ who must send a copy of his report on what is audited to the NDA¹².

The NDA must send to the Secretary of State and to the Scottish Ministers, in respect of each of its accounting years:

- 3738 (a) a copy of the accounts for that year that are required to be audited under these provisions; and
- 3739 (b) a copy of the Comptroller and Auditor General's report on those accounts¹³;

and the Secretary of State must lay a copy of whatever is so sent to him before Parliament¹⁴.

1 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARA 1592 et seq post.

2 For these purposes, 'accounting records' includes all books, papers and other records of the NDA relating to the accounts which it is required to keep or matters dealt with in those accounts: Energy Act 2004 s 26(12).

3 For these purposes, 'accounting year', in relation to the NDA, means (1) the NDA's first accounting year; or (2) a financial year after the end of the NDA's first accounting year; and 'the NDA's first accounting year' means (a) where the NDA is established at the beginning of a financial year, that financial year; and (b) in any other case, the period which begins with the day on which the NDA is established and ends (i) if no direction is given under head (ii) infra, with 31 March in the financial year current on that day; and (ii) if the Secretary of State so directs, with 31 March at the end of the following financial year: *ibid* s 26(12). For the meaning of 'financial year' see PARA 763 note 17 ante.

4 *Ibid* s 26(1). The NDA must comply with any directions given to it by the Secretary of State about the time by which it must have complied with its obligations to prepare a statement of its accounts under s 26(1)(b): see s 26(9).

5 *Ibid* s 26(2).

6 As to the Secretary of State see PARA 601 note 1 ante.

7 Energy Act 2004 s 26(3). As to notification generally see PARA 739 note 2 ante; and as to notification to the NDA see also PARA 1591 post.

8 Ibid s 26(4).

9 Ie under ibid s 26(3); see the text and notes 6-7 supra.

10 Ibid s 26(5).

11 Ibid s 26(6). As to the Comptroller and Auditor General see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARAS 724-726. The NDA must comply with any directions given to it by the Secretary of State about the time by which it must have complied with its obligations under s 26(6); see s 26(9).

12 Ibid s 26(7).

13 Ibid s 26(8). The NDA must comply with any directions given to it by the Secretary of State about the time by which it must have complied with its obligations under s 26(8); see s 26(9).

14 Ibid s 26(10). The Scottish Ministers must lay a copy of whatever is sent to them under s 26(8) before the Scottish Parliament: s 26(11).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(2) DOMESTIC LEGISLATION AND ADMINISTRATION; IN GENERAL/(vii) The Nuclear Decommissioning Authority ('the NDA')/C. VALIDITY OF TRANSACTIONS/1401. Validity of transactions with or entered into by the Nuclear Decommissioning Authority.

C. VALIDITY OF TRANSACTIONS

1401. Validity of transactions with or entered into by the Nuclear Decommissioning Authority.

A person who enters into a transaction with the Nuclear Decommissioning Authority ('the NDA')¹ is not required to see or to inquire whether the transaction constitutes or involves:

- 3740 (1) conduct by the NDA which is for the purposes of, or conducive or incidental to, the carrying out of its functions²;
- 3741 (2) a contravention³ of certain specified statutory provisions⁴; or
- 3742 (3) a contravention of a direction given by the Secretary of State⁵.

A transaction entered into by the NDA is not invalidated because the transaction constitutes or involves:

- 3743 (a) conduct by the NDA which is neither for the purposes of, nor conducive or incidental to, the carrying out of its functions; or
- 3744 (b) a contravention such as is mentioned in head (2) or head (3) above⁶.

1 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante.

2 As to the functions of the NDA see PARAS 1592-1595 post.

3 For the meaning of 'contravention' see PARA 761 note 7 ante.

4 Is a contravention of the Energy Act 2004 s 7(6) (see PARA 1594 post) or s 9 (see PARA 1596 post).

5 Ibid s 33(1). As to the Secretary of State see PARA 601 note 1 ante.

6 Ibid s 33(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1402. Power to make nuclear transfer schemes.

(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS

(i) Transfer by Scheme of Property, Rights and Liabilities

A. NUCLEAR TRANSFER SCHEMES; IN GENERAL

1402. Power to make nuclear transfer schemes.

The Secretary of State¹ may make a scheme providing for one or more transfers authorised by the relevant statutory provisions² (a 'nuclear transfer scheme')³. Nothing in those provisions, however, authorises the transfer in accordance with a nuclear transfer scheme of a nuclear site licence⁴.

Before making:

- 3745 (1) a nuclear transfer scheme which transfers property, rights or liabilities to or from the Nuclear Decommissioning Authority ('the NDA')⁵ or a subsidiary⁶ of the NDA; or
- 3746 (2) a nuclear transfer scheme not falling within head (1) above which he is proposing to make for purposes connected with the carrying out of the NDA's functions⁷,

the Secretary of State must consult the NDA⁸. Before making a nuclear transfer scheme which transfers property, rights or liabilities to any person from BNFL⁹, or from a wholly-owned subsidiary¹⁰ of BNFL, the Secretary of State must consult BNFL¹¹; and before making a nuclear transfer scheme that transfers property, rights or liabilities to any person from the United Kingdom Atomic Energy Authority ('the UKAEA')¹², or from a wholly-owned subsidiary of the UKAEA, the Secretary of State must consult the UKAEA¹³. The consent of the Treasury is required for the making of a nuclear transfer scheme¹⁴.

A nuclear transfer scheme is to come into force at such time as the Secretary of State may appoint, whether in the scheme or subsequently¹⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie authorised by the Energy Act 2004 Pt 1 Ch 2 (ss 38-50, Schs 5-9): see the text and notes 3-14 infra; and PARA 1403 et seq post.

3 Ibid ss 38(1), 196(1). See also s 70 (obligation to make a nuclear transfer scheme transferring employees etc of the UKAEA Constabulary to the Civil Nuclear Constabulary); and PARA 1527 post.

4 Ibid s 38(2). For the meaning of 'nuclear site licence' see PARA 1487 note 1 post (definition applied by s 196(1)).

5 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

6 For these purposes, 'subsidiary' has the meaning given by the Companies Act 1985 s 736 (as substituted; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, and replaced by s 1159, as from a day to be

appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed) (see COMPANIES vol 14 (2009) PARA 25); Energy Act 2004 s 196(1)).

7 As to the NDA's functions see PARA 1592 et seq post.

8 Energy Act 2004 s 38(3).

9 Ie the nuclear fuels company within the meaning of the Atomic Energy Authority Act 1971 (see PARA 1377 ante); Energy Act 2004 s 196(1).

10 For these purposes, 'wholly-owned subsidiary' has the meaning given by the Companies Act 1985 s 736 (as substituted; prospectively repealed and replaced (see note 6 supra)) (see COMPANIES vol 14 (2009) PARA 25); Energy Act 2004 s 196(1)).

11 Ibid s 38(4). As to the transfer of securities of BNFL or of property, rights and liabilities of BNFL or of a wholly-owned subsidiary of BNFL see s 39; and PARA 1414 post.

12 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

13 Energy Act 2004 s 38(5). As to the transfer of property, rights and liabilities of the UKAEA or of a wholly-owned subsidiary of the UKAEA see s 39; and PARA 1414 post.

14 Ibid s 38(6).

15 Ibid s 38(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1403. Transferor's duty to assist the Secretary of State.

1403. Transferor's duty to assist the Secretary of State.

Where the Secretary of State¹ proposes to make a nuclear transfer scheme², the transferor³ has the duty, within such period as the Secretary of State may allow:

- 3747 (1) to provide the Secretary of State; and
- 3748 (2) to secure, so far as practicable, that its subsidiaries⁴ provide the Secretary of State,

with all such information and other assistance as the Secretary of State may require for the purposes of, or in connection with, the making of the scheme⁵. The duties of the transferor under these provisions are duties owed to the Secretary of State⁶ and are to be enforceable by the Secretary of State in civil proceedings for an injunction or for any other appropriate remedy or relief⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

3 For these purposes, 'the transferor', in relation to a nuclear transfer scheme, means a person from whom it is proposed that property, rights or liabilities are transferred by the scheme: Energy Act 2004 s 49(5).

4 For the meaning of 'subsidiary' see PARA 1402 note 6 ante.

5 Energy Act 2004 s 49(1), (2).

6 Ibid s 49(3).

7 Ibid s 49(4)(a), (c). In Scotland, they are enforceable in civil proceedings for specific performance of a statutory duty under the Court of Session Act 1988 s 45: see the Energy Act 2004 s 49(4)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1404. Identification of relevant property etc; property, rights and liabilities that may be transferred.

1404. Identification of relevant property etc; property, rights and liabilities that may be transferred.

A nuclear transfer scheme¹ may set out the property, rights² and liabilities to be transferred in one or more of the following ways:

- 3749 (1) by specifying or describing them in particular;
- 3750 (2) by identifying them generally by reference to, or to a specified part of, an undertaking from which they are to be transferred; or
- 3751 (3) by specifying the manner in which they are to be determined³.

The property, rights and liabilities that may be transferred by a nuclear transfer scheme include:

- 3752 (a) property, rights and liabilities that would not otherwise be capable of being transferred or assigned by the transferor⁴;
- 3753 (b) property acquired, and rights and liabilities arising, in the period after the making of the scheme and before it comes into force;
- 3754 (c) rights and liabilities arising after it comes into force in respect of matters occurring before it comes into force;
- 3755 (d) property situated anywhere in the United Kingdom⁵ or elsewhere;
- 3756 (e) rights and liabilities under the law of a part of the United Kingdom or of a place outside the United Kingdom; and
- 3757 (f) rights and liabilities under an enactment⁶, Community instrument or subordinate legislation⁷.

The transfers to which effect may be given by a nuclear transfer scheme include transfers of interests and rights that are to take effect in accordance with the scheme as if there were:

- 3758 (i) no such requirement to obtain a person's consent or concurrence;
- 3759 (ii) no such liability in respect of a contravention of any other requirement; and
- 3760 (iii) no such interference with any interest or right,

as there would be, in the case of a transaction apart from the Energy Act 2004, by reason of a provision having effect, whether under an enactment or agreement or otherwise, in relation to the terms on which the transferor is entitled or subject to anything to which the transfer relates⁸.

Where a person would otherwise be entitled, in consequence of anything done or likely to be done by or under the Energy Act 2004 in connection with a nuclear transfer scheme, to terminate, modify, acquire or claim an interest or right or to treat an interest or right as modified or terminated, that entitlement:

- 3761 (A) is not to be enforceable in relation to that interest or right until after the transfer of the interest or right by the scheme; and
- 3762 (B) is then to be enforceable in relation to the interest or right only in so far as the scheme contains provision for the interest or right to be transferred subject to whatever confers that entitlement⁹.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 References in the Energy Act 2004 s 38(8), Sch 5 (as amended) (see the text and notes 3-9 infra; and PARA 1405 et seq post) to a right or to an entitlement to a right include references to an entitlement to exercise a right; and, accordingly, references to a right's arising include references to its becoming exercisable: Sch 5 para 13(2).

3 Ibid Sch 5 para 1.

4 For these purposes, 'transferor' (1) in relation to a nuclear transfer scheme, means a person from whom property, rights or liabilities are transferred in accordance with the scheme; and (2) in relation to particular property, rights or liabilities transferred or created in accordance with a nuclear transfer scheme, means the person from whom that property or those rights or liabilities are transferred or the person who or whose property is subject to the interest or right created by the scheme or for whose benefit the liability is created: ibid Sch 5 para 13(1).

5 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

6 For the meaning of 'enactment' see PARA 750 note 9 ante.

7 Energy Act 2004 Sch 5 para 2(1). For the meaning of 'subordinate legislation' see PARA 750 note 10 ante.

8 See ibid Sch 5 para 2(2), (3). Schedule 5 para 2(2)-(5) has effect where shares in a subsidiary of the transferor are transferred (1) as if the reference in Sch 5 para 2(3) to the terms on which the transferor is entitled or subject to anything to which the transfer relates included a reference to the terms on which the subsidiary is entitled or subject to anything immediately before the transfer takes effect; and (2) in relation to an interest or right of the subsidiary, as if the references in Sch 5 para 2(5) to the transfer of the interest or right included a reference to the transfer of the shares: Sch 5 para 2(6). For the meaning of 'subsidiary' see PARA 1402 note 6 ante.

9 Ibid Sch 5 para 2(4), (5); and see note 8 supra.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1405. Dividing and modifying transferor's property, rights and liabilities.

1405. Dividing and modifying transferor's property, rights and liabilities.

A nuclear transfer scheme¹ may contain provision:

- 3763 (1) for the creation, in favour of a transferor² or transferee³, of an interest or right⁴ in or in relation to property transferred in accordance with the scheme⁵;
- 3764 (2) for giving effect to a transfer to a person by the creation, in favour of that person, of an interest or right in or in relation to property retained by a transferor⁶;
- 3765 (3) for the creation of new rights and liabilities, including rights of indemnity and duties to indemnify, as between different transferees and as between a transferee and a transferor⁷;
- 3766 (4) for the creation of rights and liabilities for the purpose of converting arrangements between different parts of a transferor's undertaking which exist immediately before the coming into force of the scheme into a contract between different transferees or between a transferee and a transferor⁸;
- 3767 (5) for rights and liabilities to be transferred so as to be enforceable by or against more than one transferee or by or against both the transferee and the transferor⁹;
- 3768 (6) for rights and liabilities enforceable against more than one person in accordance with provision falling within head (5) above to be enforceable in different or modified respects by or against each or any of them¹⁰;
- 3769 (7) for interests, rights or liabilities of third parties¹¹ in relation to anything to which the scheme relates to be modified¹² in the manner set out in the scheme¹³.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 For the meaning of 'transferor' see PARA 1404 note 4 ante.

3 For these purposes, 'transferee' (1) in relation to a nuclear transfer scheme, means a person to whom property, rights or liabilities are transferred in accordance with the scheme; and (2) in relation to particular property, rights or liabilities transferred or created in accordance with a nuclear transfer scheme, means the person to whom that property or those rights or liabilities are transferred or in whose favour, or in relation to whom, they are created: Energy Act 2004 s 38(8), Sch 5 para 13(1).

4 For the meaning of references to a right see PARA 1404 note 2 ante.

5 Energy Act 2004 Sch 5 para 3(1)(a). Schedule 5 para 2(2), (3) (see PARA 1405 ante) applies to the creation of interests and rights in accordance with a nuclear transfer scheme as it applies to the transfer of interests and rights: Sch 5 para 3(6).

6 Ibid Sch 5 para 3(1)(b).

7 Ibid Sch 5 para 3(1)(c).

8 Ibid Sch 5 para 3(2).

9 Ibid Sch 5 para 3(3)(a).

10 Ibid Sch 5 para 3(3)(b).

11 For these purposes, 'third party', in relation to a nuclear transfer scheme, means a person other than the transferor or the transferee: *ibid* Sch 5 para 3(5).

12 For the meaning of 'modifications' and cognate expressions see *PARA 733* note 8 *ante*.

13 Energy Act 2004 Sch 5 para 3(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1406. Obligation to effect transfers etc under a nuclear transfer scheme.

1406. Obligation to effect transfers etc under a nuclear transfer scheme.

A nuclear transfer scheme¹ may contain provision for imposing on a transferee² or transferor³ an obligation:

- 3770 (1) to enter into such agreements with another person on whom a corresponding obligation is, or could be or has been, imposed by virtue of these provisions, whether in the same or a different scheme; or
- 3771 (2) to execute such instruments in favour of any such person,

as may be specified or described in the scheme⁴. An obligation imposed on a person by virtue of the above provision is enforceable by the relevant person⁵ in civil proceedings for an injunction or for any other appropriate remedy or relief⁶.

A nuclear transfer scheme may also provide for:

- 3772 (a) transfers made by or under an agreement or instrument entered into or executed in accordance with an obligation imposed in a nuclear transfer scheme; or
- 3773 (b) interests or rights⁷ created by or under such an agreement or instrument,

to include, to the extent specified in the scheme, a transfer, interest or right that may be made or created by virtue of the specified⁸ statutory provision⁹.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 For the meaning of 'transferee' see PARA 1405 note 3 ante.

3 For the meaning of 'transferor' see PARA 1404 note 4 ante.

4 Energy Act 2004 s 38(8), Sch 5 para 4(1).

5 The relevant person for these purposes is the person with, or in favour of whom, the agreement or instrument is to be entered into or executed: *ibid* Sch 5 para 4(7).

6 *Ibid* Sch 5 para 4(6)(a), (c). In Scotland, such an obligation may be enforced in civil proceedings for specific performance of a statutory duty under the Court of Session Act 1988 s 45: see Sch 5 para 4(6)(b).

7 For the meaning of references to a right see PARA 1404 note 2 ante.

8 *Ie* created by virtue of the Energy Act 2004 Sch 5 para 2(2): see PARA 1404 ante.

9 *Ibid* Sch 5 para 4(3). Subject to Sch 5 para 4(3), (4), Sch 5 para 2 (see PARA 1404 ante) does not enable (1) an agreement or instrument entered into or executed in accordance with an obligation imposed by a nuclear transfer scheme; or (2) anything done under such an agreement or instrument, to give effect to a transfer, or to create an interest or right, which could not have been made or created by or under that agreement or instrument apart from Sch 5 para 2: Sch 5 para 4(2). A nuclear transfer scheme may, however, provide for Sch 5 para 2(4), (5) to apply to interests or rights affected by (a) the provisions of an agreement or instrument which is to be entered into or executed in accordance with the scheme; or (b) a proposal for such an agreement or for the execution of such an instrument: Sch 5 para 4(4). Where Sch 5 para 2(4), (5) does apply to interests

or rights so affected, it applies as if references to the nuclear transfer scheme included references to the agreement or instrument in question: Sch 5 para 4(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1407. Effect of nuclear transfer schemes; proof of title.

1407. Effect of nuclear transfer schemes; proof of title.

In relation to each provision of a nuclear transfer scheme¹ for the transfer of property, rights² or liabilities, or for the creation of interests, rights or liabilities:

- 3774 (1) the Energy Act 2004 has effect so as, without further assurance, to vest the property or interests, or the rights or liabilities, in the transferee³ at the time at which the scheme comes into force; and
- 3775 (2) the provisions of that scheme in relation to that property or those interests, or in relation to those rights or liabilities, have effect from that time⁴.

This is subject to so much of a nuclear transfer scheme as provides for:

- 3776 (a) the transfer of property, rights or liabilities which are to be transferred in accordance with the scheme; or
- 3777 (b) the creation of interests, rights and liabilities which are to be created in accordance with the scheme,

to be effected by or under an agreement or instrument entered into or executed in pursuance of an obligation imposed by virtue of the relevant⁵ statutory provision⁶.

A certificate issued by the Secretary of State⁷ to the effect that any property, right or liability vested at a particular time in accordance with a nuclear transfer scheme in a person specified in the certificate is to be conclusive evidence of the matters specified in the certificate⁸.

¹ For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

² For the meaning of references to a right see PARA 1404 note 2 ante.

³ For the meaning of 'transferee' see PARA 1405 note 3 ante.

⁴ Energy Act 2004 s 38(8), Sch 5 para 5(1).

⁵ Ie by virtue of ibid Sch 5 para 4(1): see PARA 1406 ante.

⁶ Ibid Sch 5 para 5(2).

⁷ As to the Secretary of State see PARA 601 note 1 ante.

⁸ Energy Act 2004 Sch 5 para 7.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1408. Supplementary provisions of schemes.

1408. Supplementary provisions of schemes.

A nuclear transfer scheme¹ may make incidental, supplemental, consequential and transitional provision in connection with the transfers to be made in accordance with the scheme²; and such provision may include different provision for different cases or different purposes³. In particular, a nuclear transfer scheme may make provision, in relation to transfers in accordance with the scheme:

- 3778 (1) for the transferee⁴ to be treated as the same person in law as the transferor⁵;
- 3779 (2) for agreements made, transactions effected or other things done by or in relation to the transferor to be treated, so far as may be necessary for the purposes of or in connection with the transfers, as made, effected or done by or in relation to the transferee;
- 3780 (3) for references in an agreement, instrument or other document⁶ to the transferor or to an employee or office holder with the transferor to have effect, so far as may be necessary for the purposes of or in connection with any of the transfers, with such modifications as are specified in the scheme; and
- 3781 (4) for proceedings commenced by or against the transferor to be continued by or against the transferee⁷;

but head (3) above does not apply to references in an enactment⁸ or in subordinate legislation⁹.

A nuclear transfer scheme may make provision for disputes as to the effect of the scheme between different transferees, or between a transferee and a transferor, to be referred to such arbitration as may be specified in or determined under the scheme¹⁰.

Where a person is entitled, in consequence of a nuclear transfer scheme, to possession of a document relating in part to the title to land or other property in England and Wales, or to the management of such land or other property, the scheme may provide for that person to be treated as having given another person an acknowledgment in writing of the right of that other person to production of the document and to delivery of copies of it¹¹.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 Energy Act 2004 s 38(8), Sch 5 para 6(1). For these purposes, references to a transfer in accordance with a nuclear transfer scheme include references to the creation in accordance with such a scheme of an interest, right or liability: Sch 5 para 6(8). For the meaning of references to a right see PARA 1404 note 2 ante.

3 Ibid Sch 5 para 6(2).

4 For the meaning of 'transferee' see PARA 1405 note 3 ante.

5 For the meaning of 'transferor' see PARA 1404 note 4 ante.

6 For the meaning of 'document' see PARA 733 note 4 ante.

7 Energy Act 2004 Sch 5 para 6(3).

8 For the meaning of 'enactment' see PARA 750 note 9 ante.

9 Energy Act 2004 Sch 5 para 6(4). For the meaning of 'subordinate legislation' see PARA 750 note 10 ante.

10 Ibid Sch 5 para 6(5).

11 Ibid Sch 5 para 6(6)(a). The Law of Property Act 1925 s 64 (production and safe custody of documents) has effect accordingly, and on the basis that the acknowledgment did not contain an expression of contrary intention: Energy Act 2004 Sch 5 para 6(6)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1409. Duties in relation to foreign property.

1409. Duties in relation to foreign property.

Where there is a transfer in accordance with a nuclear transfer scheme¹ of foreign property², or a foreign right or liability, the transferor³ and the transferee⁴ must take all requisite steps to secure that the vesting of the foreign property, right or liability in the transferee by the Energy Act 2004 is effective under the relevant foreign law⁵. Until the vesting of the foreign property, right or liability in the transferee in accordance with the scheme is effective under the relevant foreign law, the transferor must either hold the property or right for the benefit of the transferee or discharge the liability on behalf of the transferee⁶. Nothing in the above provisions, however, prejudices the effect under the law of a part of the United Kingdom of the vesting of any foreign property, right or liability in the transferee in accordance with a nuclear transfer scheme⁷.

Where:

- 3782 (1) any foreign property, right or liability is acquired or incurred by the transferor in respect of any other property, right or liability; and
- 3783 (2) by virtue of these provisions, the transferor holds the other property or right for the benefit of another person or is required to discharge the liability on behalf of another person,

the property, right or liability acquired or incurred immediately becomes the property, right or liability of that other person⁸.

Where the transferor of foreign property, or of a foreign right or liability, is the Nuclear Decommissioning Authority ('the NDA')⁹ or the United Kingdom Atomic Energy Authority ('the UKAEA')¹⁰:

- 3784 (a) the transferor has all such powers as it may require for the performance of obligations imposed on it under these provisions; but
- 3785 (b) the transferee must, so far as practicable, act on behalf of the transferor in performing the obligations so imposed on the transferor¹¹.

Expenses incurred by a transferor under these provisions must be met by the transferee¹²; and an obligation imposed thereunder in relation to property, rights or liabilities is to be enforceable as if contained in a contract between the transferor and the transferee¹³.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 References in the Energy Act 2004 s 38(8), Sch 5 para 8 (see the text and notes 3-13 infra) to foreign property, or to a foreign right or liability, are references to any property, right or liability as respects which an issue arising in any proceedings would be determined (in accordance with the rules of private international law) by reference to the law of a country or territory outside the United Kingdom: Sch 5 para 8(7). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 For the meaning of 'transferor' see PARA 1404 note 4 ante.

4 For the meaning of 'transferee' see PARA 1405 note 3 ante.

5 Energy Act 2004 Sch 5 para 8(1).

6 Ibid Sch 5 para 8(2).

7 Ibid Sch 5 para 8(3).

8 Ibid Sch 5 para 8(4). The provisions of Sch 5 para 8(1)-(4) have effect in relation to foreign property, rights or liabilities transferred to a person under Sch 5 para 8(4) as they have effect in the case of property, rights and liabilities transferred in accordance with a nuclear transfer scheme: Sch 5 para 8(5).

9 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

10 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

11 Energy Act 2004 Sch 5 para 8(6).

12 Ibid Sch 5 para 8(8).

13 Ibid Sch 5 para 8(9).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1410. Modification of scheme by agreement.

1410. Modification of scheme by agreement.

The following provisions apply in the case of a nuclear transfer scheme¹ where a transferee² agrees in writing:

- 3786 (1) with the transferor³;
- 3787 (2) with another transferee under that scheme; or
- 3788 (3) with a transferor or transferee under another nuclear transfer scheme,

that provision be made that property, rights⁴ or liabilities transferred in accordance with the scheme⁵ or either of them, and property, rights or liabilities acquired or incurred since the transfer in respect of the transferred property, rights or liabilities, be transferred from one party to the agreement to the other as from a date appointed by the agreement, for the purpose of modifying⁶ the effect of the scheme or, as the case may be, the effect of either or both of the schemes⁷. If:

- 3789 (a) the agreement is entered into within the period of three years after the coming into force of any transfer made in accordance with either of the schemes to a party to the agreement; and
- 3790 (b) the Secretary of State⁸ has given his approval to the transfer for which the agreement provides, and to its terms and conditions,

the transfer for which the agreement provides is to take effect on the date appointed by the agreement as if it were a transfer in accordance with a nuclear transfer scheme⁹.

Subject to the approval of the Secretary of State (which requires the consent of the Treasury¹⁰), the provisions that may be contained in a modification agreement¹¹ include any provision in relation to a transfer for which it provides as is capable of being contained in a nuclear transfer scheme in relation to a transfer for which the scheme provides¹². Nothing in a modification agreement is, however, to provide for interests, rights or liabilities to be created, as opposed to transferred, except as between persons who are parties to the agreement¹³. Before refusing his approval for these purposes, or giving his approval for these purposes in a case where the Nuclear Decommissioning Authority ('the NDA')¹⁴ is not a party to the proposed agreement, the Secretary of State must consult the NDA¹⁵.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 For the meaning of 'transferee' see PARA 1405 note 3 ante.

3 For the meaning of 'transferor' see PARA 1404 note 4 ante.

4 For the meaning of references to a right see PARA 1404 note 2 ante.

5 For these purposes, references to a transfer in accordance with a nuclear transfer scheme include references to the creation of an interest, right or liability in accordance with such a scheme: Energy Act 2004 s 38(8), Sch 5 para 9(8).

- 6 For the meaning of 'modification' and cognate expressions see PARA 733 note 8 ante.
- 7 Energy Act 2004 Sch 5 para 9(1), (2).
- 8 As to the Secretary of State see PARA 601 note 1 ante.
- 9 Energy Act 2004 Sch 5 para 9(3).
- 10 See *ibid* Sch 5 para 9(7).
- 11 'Modification agreement' means an agreement for a transfer that is to have effect in accordance with *ibid* Sch 5 para 9(3) (see the text and notes 8-9 *supra*): Sch 5 para 13(1).
- 12 *Ibid* Sch 5 para 9(4).
- 13 *Ibid* Sch 5 para 9(5).
- 14 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 *et seq post*.
- 15 Energy Act 2004 Sch 5 para 9(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1411. Employment protection.

1411. Employment protection.

The Transfer of Undertakings (Protection of Employment) Regulations 2006¹ apply to a transfer of an undertaking or business or part of an undertaking or business in accordance with a nuclear transfer scheme², or in accordance with a modification agreement³, as if, in so far as that would not otherwise be the case, the references in those regulations to the transferor were references to the person in whom that undertaking or business or that part of an undertaking or business was vested immediately before the coming into force of the transfer⁴. The 2006 Regulations also apply to a service provision change⁵ in accordance with a nuclear transfer scheme, or in accordance with a modification agreement, as if, in so far as that would not otherwise be the case, the references in those regulations to the transferor were references to the person by whom the activities affected by the service provision change were carried out immediately before the coming into force of the service provision change⁶.

It is the duty of the Secretary of State⁷, before making a nuclear transfer scheme or approving a modification agreement, to give such notice of his proposals to such persons as he considers appropriate for enabling the provisions of the 2006 Regulations applicable to a transfer or service provision change in accordance with the scheme or agreement to be complied with by the transferor⁸.

1 The Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246: see EMPLOYMENT vol 39 (2009) PARA 111 et seq.

2 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

3 For the meaning of 'modification agreement' see PARA 1410 note 11 ante.

4 Energy Act 2004 s 38(8), Sch 5 para 10(1) (Sch 5 para 10(1), (2)-4) amended by the Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246, reg 20(3), Sch 2 para 14).

5 For these purposes, references to a service provision change are references to a service provision change falling within the Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246, reg 3(1) (b): Energy Act 2004 Sch 5 para 10(4) (as amended: see note 4 supra).

6 Ibid Sch 5 para 10(1A) (added by the Transfer of Undertakings (Protection of Employment) Regulations 2006, SI 2006/246, Sch 2 para 14(1), (4)).

7 As to the Secretary of State see PARA 601 note 1 ante.

8 Energy Act 2004 Sch 5 para 10(2) (as amended: see note 2 supra). In Sch 5 para 10(2) (as amended), 'the transferor', in relation to a transfer (or service provision change), means the person who is the transferor (or service provision change) in relation to that transfer for the purposes of the 2006 Regulations: Energy Act 2004 Sch 5 para 10(3) (as so amended).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1412. Compensation for third parties.

1412. Compensation for third parties.

Where:

- 3791 (1) an entitlement of a third party¹ to an interest or right² would, apart from a provision of a nuclear transfer scheme³ or the specified statutory provisions⁴, arise in respect of the transfer or creation in accordance with a nuclear transfer scheme of any property, rights or liabilities;
- 3792 (2) the provisions of that scheme or of the specified statutory provisions mentioned in head (1) above have the effect of preventing the third party's entitlement to that interest or right from arising in respect of anything for which the scheme provides; and
- 3793 (3) provision is not made by the scheme for securing that an entitlement to that interest or right, or to an equivalent interest or right, is preserved or created so as to arise in respect of the first occasion when corresponding circumstances next occur after the coming into force of the transfers for which the scheme provides,

the third party is to be entitled to such compensation as may be just in respect of the extinguishment of his entitlement⁵.

Where, in consequence of provisions included in a nuclear transfer scheme, the interests, rights or liabilities of a third party are modified⁶ as mentioned in heads (a) to (d) below, the third party is to be entitled to such compensation as may be just in respect of any diminution in the value of his interests or rights, or any increase in the burden of his liabilities, which is attributable to that modification⁷. Those modifications are modifications by virtue of which:

- 3794 (a) an interest of the third party in property is transformed into, or replaced by, an interest in only part of that property;
- 3795 (b) an interest of the third party in property is transformed into, or replaced by, separate interests in different parts of that property;
- 3796 (c) a right of the third party against the transferor is transformed into, or replaced by, two or more rights which do not include a right which, on its own, is equivalent, disregarding the person against whom it is enforceable, to the right against the transferor; or
- 3797 (d) a liability of the third party to the transferor is transformed into, or replaced by, two or more separate liabilities at least one of which is a liability enforceable by a person other than the transferor⁸.

A liability to pay compensation under these provisions is to fall on such of the following persons, namely:

- 3798 (i) a Minister of the Crown;
- 3799 (ii) the Nuclear Decommissioning Authority ('the NDA')⁹;
- 3800 (iii) the United Kingdom Atomic Energy Authority ('the UKAEA')¹⁰;

- 3801 (iv) a publicly owned company¹¹ which is a transferor or a transferee for the purposes of the provisions of the scheme giving rise to the compensation;
- 3802 (v) a person who consented to the provisions of the scheme giving rise to the compensation¹²; and
- 3803 (vi) where in the case of a recovery scheme¹³ the transferor is not a publicly owned company, the relevant contractor¹⁴ and the transferor¹⁵,

as benefit from the extinguishment of the entitlement mentioned in heads (1) to (3) above, have interests in the whole or any part of the property affected by the modification in question, are subject to the rights of the person to be compensated which are affected by that modification or are entitled to enforce the liabilities of the person to be compensated which are affected by that modification¹⁶. Such a liability to pay compensation must be apportioned between the persons liable to pay it in such manner as may be appropriate having regard to the extent of the benefit they respectively obtain from the extinguishment, or the interests, rights or liabilities in respect of which they are liable to pay compensation¹⁷.

Where compensation is paid by any person in connection with provisions of a recovery scheme, the person paying the compensation may, if and to the extent that the Secretary of State¹⁸ so directs, recover the amount paid from the relevant contractor and the transferor¹⁹.

A dispute as to:

- 3804 (A) whether any compensation is to be paid under these provisions;
- 3805 (B) the person to or by whom it is to be paid, or
- 3806 (C) the amount to be paid by any person,

must be referred to and determined by an arbitrator appointed by the Lord Chancellor, where the claimant requires the matter to be determined in England and Wales or in Northern Ireland²⁰.

The above provisions have effect in relation to the provisions of an agreement or instrument entered into or executed in pursuance of an obligation imposed in a nuclear transfer scheme, and the provisions of a modification agreement²¹ relating to property, rights or liabilities transferred or created in accordance with a nuclear transfer scheme, as it has effect in relation to the scheme but as if, in the case of a modification agreement, everyone who is not a party to the agreement were a third party²².

1 For these purposes, 'third party', in relation to a nuclear transfer scheme, means a person other than the transferor or the transferee: Energy Act 2004 s 38(8), Sch 5 para 11(11). For the meaning of 'transferor' see PARA 1404 note 4 ante; and for the meaning of 'transferee' see PARA 1405 note 3 ante.

2 For the meaning of references to a right see PARA 1404 note 2 ante.

3 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

4 I.e. the Energy Act 2004 Sch 5 para 2(4), (5): see PARA 1404 ante.

5 Ibid Sch 5 para 11(1).

6 For the meaning of 'modification' and cognate expressions see PARA 733 note 8 ante.

7 Energy Act 2004 Sch 5 para 11(2).

8 Ibid Sch 5 para 11(3).

9 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

10 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

11 For these purposes, a body corporate is a publicly owned company if it is a company limited by shares and that company is one in which (1) a person specified in the Energy Act 2004 s 37(4) holds all the shares; or (2) two or more persons so specified, taken together, hold all the shares: s 37(3) (definition applied by s 50(2)). The persons mentioned in s 37(3) are (a) the Treasury; (b) a Minister of the Crown; (c) the NDA; (d) the UKAEA; (e) a publicly owned company; or (f) a nominee of a person falling within heads (a)-(e) supra: s 37(4).

12 See *ibid* Sch 5 para 11(5).

13 'Recovery scheme' means so much of a nuclear transfer scheme as contains provision for or in connection with a transfer authorised by *ibid* s 41 (see PARA 1417 post): Sch 5 para 13(1).

14 'Relevant contractor', in relation to a recovery scheme, means the person who (within the meaning of *ibid* s 41) is the contractor in relation to the contract by reference to the breach of which, or the expiry or other termination of which, that scheme was made: Sch 5 para 13(1).

15 *Ibid* Sch 5 para 11(6).

16 *Ibid* Sch 5 para 11(4).

17 *Ibid* Sch 5 para 11(7).

18 As to the Secretary of State see PARA 601 note 1 ante.

19 Energy Act 2004 Sch 5 para 11(8).

20 See *ibid* Sch 5 para 11(9), (10)(a). Where the claimant requires the matter to be determined in Scotland, the dispute must be referred to and determined by an arbiter appointed by the Lord President of the Court of Session: see Sch 5 para 11(10)(b).

21 For the meaning of 'modification agreement' see PARA 1410 note 11 ante.

22 Energy Act 2004 Sch 5 para 11(12).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/A. NUCLEAR TRANSFER SCHEMES; IN GENERAL/1413. Compensation for transferor in case of a recovery scheme.

1413. Compensation for transferor in case of a recovery scheme.

If the Secretary of State¹ is satisfied in the case of a recovery scheme² that it is just to do so he may pay compensation to the transferor³ in respect of property or rights⁴ of which he is deprived in accordance with the scheme, or may direct the Nuclear Decommissioning Authority ('the NDA')⁵ to pay such compensation⁶. No compensation is to be payable under these provisions to the relevant contractor⁷.

Where compensation is paid under these provisions and the Secretary of State so directs, so much of the compensation as may be specified in the direction may be recovered by him or, as the case may be, by the NDA from the relevant contractor⁸.

The amount of any such compensation is to be determined by the Secretary of State⁹. A dispute as to:

- 3807 (1) whether any compensation is to be paid under these provisions;
- 3808 (2) the person to or by whom it is to be paid; or
- 3809 (3) the amount to be paid by any person,

must be referred to and determined by an arbitrator appointed by the Lord Chancellor, where the claimant requires the matter to be determined in England and Wales or in Northern Ireland¹⁰.

The above provisions have effect in relation to the provisions of an agreement or instrument entered into or executed in pursuance of an obligation imposed in a recovery scheme, and the provisions of a modification agreement¹¹ relating to property, rights and liabilities transferred or created in accordance with a recovery scheme, as it has effect in relation to the scheme¹².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'recovery scheme' see PARA 1412 note 13 ante.

3 For the meaning of 'transferor' see PARA 1404 note 4 ante.

4 For the meaning of references to a right see PARA 1404 note 2 ante.

5 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

6 Energy Act 2004 s 38(8), Sch 5 para 12(1).

7 Ibid Sch 5 para 12(2). For the meaning of 'relevant contractor' see PARA 1412 note 14 ante.

8 Ibid Sch 5 para 12(3).

10 Ibid Sch 5 para 12(5), (6)(a). Where the claimant requires the matter to be determined in Scotland, the dispute must be referred to and determined by an arbiter appointed by the Lord President of the Court of Session: Sch 5 para 12(6)(b).

- 11 For the meaning of 'modification agreement' see PARA 1410 note 11 ante.
- 12 Energy Act 2004 Sch 5 para 12(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/B. TRANSFERS OF PUBLICLY OWNED ASSETS/1414. Power to provide for transfers of publicly owned assets.

B. TRANSFERS OF PUBLICLY OWNED ASSETS

1414. Power to provide for transfers of publicly owned assets.

A nuclear transfer scheme¹ may provide for a transfer to a publicly owned company², to the Nuclear Decommissioning Authority ('the NDA')³, or to a consenting person⁴, of the following property, rights and liabilities that are set out in the scheme⁵, namely:

- 3810 (1) securities⁶ of the nuclear fuels company ('BNFL')⁷;
- 3811 (2) securities of a company⁸ if it is either a nuclear company⁹ that is publicly owned or a company designated for these purposes by an order made by the Secretary of State¹⁰;
- 3812 (3) property, rights and liabilities of BNFL or of the United Kingdom Atomic Energy Authority ('the UKAEA')¹¹;
- 3813 (4) property, rights and liabilities of a company such as is described in head (2) above;
- 3814 (5) property, rights and liabilities of a wholly-owned subsidiary¹² of BNFL, of the UKAEA or of a company such as is described in head (2) above¹³.

Nothing in these provisions, however, authorises:

- 3815 (a) a transfer of securities of BNFL, or a transfer of property, rights or liabilities of BNFL or of a wholly-owned subsidiary of BNFL, at a time when BNFL is no longer publicly owned¹⁴;
- 3816 (b) a transfer of securities of a company designated for these purposes, or a transfer of property, rights or liabilities of such a company or of a wholly-owned subsidiary of such a company, at a time when the company is no longer publicly owned¹⁵.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 For the meaning of 'publicly owned company' see PARA 1412 note 11 ante.

3 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante. For taxation provisions relating to a transfer to the NDA or a subsidiary of the NDA under the Energy Act 2004 s 39 see s 47, Sch 9 Pt 1 (paras 1-15).

4 For these purposes, a person is a consenting person, in relation to a nuclear transfer scheme, if he has consented to the provisions of the scheme so far as they relate to him: *ibid* s 39(9).

5 *Ibid* s 39(1).

6 For the meaning of 'securities' see PARA 744 note 7 ante.

7 As to BNFL see PARA 1377 note 5 ante. For taxation provisions with regard to a transfer in accordance with the Energy Act 2004 s 39 of securities of a BNFL company, or of property, rights or liabilities of such a company, to a publicly owned company that is not a subsidiary of the NDA see Sch 9 Pt 2 (paras 16-27).

8 For these purposes, 'company' has the same meaning as in the Companies Act 1985 or the Companies Act 2006: Energy Act 2004 s 50(5); Companies Act 2006 s 1297(5).

9 For these purposes, 'nuclear company' means a body corporate with control of a designated installation, designated site or designated facility: *ibid* s 50(1). For the meaning of 'designated' in relation to an installation, site or facility see *PARA 1592* note 3 post (definitions applied by s 50(2)).

10 Is a company falling within *ibid* s 39(3). The Secretary of State may designate a company for these purposes only if it is a publicly owned company to which (1) securities of BNFL; (2) property, rights or liabilities of BNFL; or (3) property, rights or liabilities of a wholly-owned subsidiary of BNFL, were transferred (whether in accordance with a nuclear transfer scheme or otherwise) at a time when both the company and BNFL were publicly owned: s 39(4). The Secretary of State must lay a copy of every order under s 39(3) (see head (2) in the text) before Parliament: s 39(5).

11 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see *PARA 1363* et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see *PARA 1363* the text and notes 4-5 ante. For taxation provisions with regard to a transfer in accordance with the Energy Act 2004 s 39 of property, rights or liabilities of the UKAEA, securities of a wholly-owned subsidiary of the UKAEA or property, rights or liabilities of such a subsidiary, to a transferee which is (1) a publicly owned company which is not a subsidiary of the NDA; or (2) the UKAEA, see *Sch 9 Pt 2* (paras 16-21).

12 For the meaning of 'wholly-owned subsidiary' see *PARA 744* note 6 ante.

13 Energy Act 2004 s 39(2), (3).

14 *Ibid* s 39(6).

15 *Ibid* s 39(7).

UPDATE

1414 Power to provide for transfers of publicly owned assets

NOTE 8--Energy Act 2004 s 50(5) amended: SI 2009/1941.

NOTE 10--See the Energy Act 2004 (Designation of Publicly Owned Companies) Order 2007, SI 2007/3479.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/B. TRANSFERS OF PUBLICLY OWNED ASSETS/1415. Structure etc of transferee companies.

1415. Structure etc of transferee companies.

Where property, rights and liabilities are transferred to a company¹ ('the transferee company') in accordance with provisions of a nuclear transfer scheme² authorised by the statutory provisions relating to the transfer of publicly owned assets³, and that company is publicly owned⁴ when the transfer takes effect, the following provisions apply⁵. Nothing in these provisions, however, is to be construed as prejudicing the ability of a Minister of the Crown or the Treasury, apart from the powers conferred on him or on it by or under the Energy Act 2004 or any other enactment⁶, to acquire or dispose of securities⁷ of a company other than the transferee company or to act through nominees for the purpose⁸.

As a consequence of the vesting, in accordance with the relevant scheme⁹, of property, rights and liabilities in the transferee company, that company must issue to the Treasury, or to a Minister of the Crown, such securities of the company as the Secretary of State¹⁰ may from time to time direct¹¹. In a case where the transferee company is a wholly-owned subsidiary¹² of one of either the Nuclear Decommissioning Authority ('the NDA') or the United Kingdom Atomic Energy Authority ('the UKAEA') (the Authorities)¹³, that company must, as a consequence of the vesting in that company of property, rights and liabilities, issue to the Authority in question such securities of the company as the Authority may from time to time direct¹⁴. Such a direction by the Secretary of State or the Authority in question may, however, be given to a company only at a time when the company is publicly owned¹⁵. Securities issued in accordance with such a direction must be of such nominal value as the Secretary of State may direct, must be issued as fully paid and must be treated for the purposes of the companies legislation as if they had been paid up by virtue of the payment to the company of their nominal value in cash¹⁶.

The Treasury or a Minister of the Crown may use money provided by Parliament for the acquisition of securities of the transferee company or rights to subscribe for such securities¹⁷.

The Treasury, a Minister of the Crown or either of the Authorities may appoint a person to act as a nominee of the Treasury, of that minister or of that Authority for the above purposes¹⁸. The issue of securities¹⁹ to a nominee of the Treasury or of a Minister of the Crown must be in accordance with such directions, if any, as are given from time to time by the Treasury or, with the consent of the Treasury, by the minister²⁰; and the acquisition of securities or rights²¹ by a nominee of the Treasury or of a Minister of the Crown must be in accordance with such directions, if any, as are given from time to time by the Treasury or, with the consent of the Treasury, by a Minister of the Crown²². A person who by virtue of these provisions²³ holds securities or rights as a nominee of the Treasury or of a Minister of the Crown must hold them and deal with them on such terms, and in such manner, as the Treasury or, with the consent of the Treasury, the Secretary of State may direct²⁴.

Dividends or other sums received by the Treasury or a Minister of the Crown in right of, or on the disposal of, securities or rights acquired by virtue of these provisions must be paid into the Consolidated Fund²⁵.

Where statutory accounts²⁶ of the transferee company prepared as at a particular time would show the company as having net assets in excess of the aggregate of its called-up share capital²⁷ and the amount, apart from the property, rights and liabilities to which the company has become entitled or subject in accordance with the relevant scheme, of its undistributable

reserves²⁸, provision is made as to the treatment of the excess²⁹. The Energy Act 2004 also provides for the situation where a distribution³⁰ is proposed to be declared either during an accounting reference period³¹ of the transferee company which includes a transfer date³² or before any accounts are laid or filed in respect of such a period³³.

1 Ie a company within the meaning of the Companies Act 1985 or the Companies Act 2006: Energy Act 2004 s 39(8), Sch 6 para 1(3); Companies Act 2006 s 1297(5).

2 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

3 Ie authorised by the Energy Act 2004 s 39: see PARA 1414 ante.

4 For the meaning of 'publicly owned company' see PARA 1412 note 11 ante.

5 Energy Act 2004 Sch 6 para 1(1).

26 'Statutory accounts', in relation to a company, means accounts of the company prepared in respect of a period in accordance with the requirements of the Companies Act 1985 or the Companies Act 2006, or with those requirements applied with such modifications as are necessary where that period is not an accounting reference period; and 'accounting reference period' has the meaning given by the Companies Act 1985 s 224 (prospectively repealed by the Companies Act 2006 s 1295, Sch 16 and replaced by s 391, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed): Energy Act 2004 Sch 6 para 6(8); Companies Act 2006 s 1297(5).

27 'Called-up share capital' has the meaning given by the Companies Act 1985 s 737 (prospectively repealed by the Companies Act 2006 s 1295, Sch 16 and replaced by s 547, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed): Energy Act 2004 Sch 6 para 6(8).

28 'Undistributable reserves' has the meaning given by the Companies Act 1984 s 264(3) (prospectively repealed by the Companies Act 2006 s 1295, Sch 16 and replaced by s 831(4), as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed): Energy Act 2004 Sch 6 para 6(8).

29 See *ibid* Sch 6 para 6.

30 le a distribution within the meaning of the Companies Act 1985 Pt VIII (ss 263-281) (as amended) (prospectively repealed by the Companies Act 2006 s 1295, Sch 16 and replaced by Pt 23 (ss 829-853), as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed): see the Energy Act 2004 Sch 6 para 7(5).

31 For these purposes, 'accounting reference period' has the meaning given by the Companies Act 1985 s 224 (prospectively repealed and replaced: see note 26 *supra*): Energy Act 2004 Sch 6 para 7(5).

32 For these purposes, 'a transfer date', in relation to the transferee company, means the date of the coming into force of the relevant scheme: *ibid* Sch 6 para 7(5).

33 See *ibid* Sch 6 para 7.

UPDATE

1415 Structure etc of transferee companies

TEXT AND NOTES 1, 16--Energy Act 2004 Sch 6 paras 1(3), 2(4) amended: SI 2009/1941.

NOTES 26-28--Definitions of 'accounting reference period', 'called-up share capital', and 'undistributable reserves' in the Energy Act 2004 Sch 6 para 6(8) amended to take account of the coming into force of the Companies Act 2006: SI 2008/948; SI 2009/1941.

NOTE 30--Definition of 'distribution' amended: SI 2009/1941.

NOTE 31--Definition of 'accounting reference period' in the 2004 Act Sch 6 para 7(5) amended to take account of the coming into force of the Companies Act 2006: SI 2008/948.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/C. OTHER PROVISIONS THAT MAY BE MADE BY A NUCLEAR TRANSFER SCHEME/1416. Transfers with the consent of the transferor.

C. OTHER PROVISIONS THAT MAY BE MADE BY A NUCLEAR TRANSFER SCHEME

1416. Transfers with the consent of the transferor.

A nuclear transfer scheme¹ may provide for a transfer to a publicly owned company², or to the Nuclear Decommissioning Authority ('the NDA')³, of the following property, rights and liabilities that are set out in the scheme⁴, namely:

- 3817 (1) securities⁵ of a nuclear company⁶ that is not publicly owned;
- 3818 (2) property and rights of such a company in or in relation to a nuclear site⁷ or an installation⁸ in or on such a site; or
- 3819 (3) property, rights and liabilities to which such a company is entitled or subject⁹:
- 349
- 513. (a) in respect of such a site or installation;
- 514. (b) in connection with or by reference to activities carried on in or on such a site or installation; or
- 515. (c) for purposes connected with that site or installation or with any such activities¹⁰.
- 350

Property, rights and liabilities may be transferred by virtue of these provisions, however, only if the person who is entitled or subject to them has consented to their transfer in accordance with a nuclear transfer scheme¹¹.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 For the meaning of 'publicly owned company' see PARA 1412 note 11 ante.

3 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

4 Energy Act 2004 s 40(1).

5 For the meaning of 'securities' see PARA 744 note 7 ante.

6 For the meaning of 'nuclear company' see PARA 1414 note 9 ante.

7 For the meaning of 'nuclear site' see PARA 1592 note 5 post (definition applied by the Energy Act 2004 s 50(2)).

8 'Installation' includes buildings, structure and apparatus, whether or not fixed to land: ibid s 37(1) (definition applied by s 50(2)).

9 For these purposes, references to the property, rights and liabilities of a company, or to which a company is entitled or subject, include references to the property, rights and liabilities of any of its wholly-owned subsidiaries: ibid s 40(4). For the meaning of 'wholly-owned subsidiary' see PARA 744 note 6 ante.

10 Ibid s 40(3).

11 Ibid s 40(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/C. OTHER PROVISIONS THAT MAY BE MADE BY A NUCLEAR TRANSFER SCHEME/1417. Recovery of property from private ownership.

1417. Recovery of property from private ownership.

The following provisions apply in the case of a nuclear company¹ ('the transferred company') all the shares² in which were transferred for the purposes of a management contract³ to the contractor⁴ or to a subsidiary⁵ of the contractor where:

- 3820 (1) the contractor is in breach of that contract; or
- 3821 (2) that contract has come to an end, whether by the expiry of the period for which it was in force or otherwise⁶.

A nuclear transfer scheme⁷ may provide for the transfer to:

- 3822 (a) a publicly owned company⁸;
- 3823 (b) the Nuclear Decommissioning Authority ('the NDA')⁹, or
- 3824 (c) a consenting contractor¹⁰,

of the following property, rights and liabilities that are set out in the scheme¹¹, namely:

- 3825 (i) securities¹² of the transferred company (whether transferred as mentioned above or issued afterwards);
- 3826 (ii) property, rights and liabilities to which the transferred company was entitled or subject immediately before the transfer so mentioned;
- 3827 (iii) property, rights and liabilities transferred for the purposes of the management contract, to the contractor, to a subsidiary of the contractor or to the transferred company or a wholly-owned subsidiary¹³ of the transferred company;
- 3828 (iv) property, rights and liabilities to which the transferred company or a wholly-owned subsidiary of the transferred company first became entitled or subject while that contract was in force¹⁴.

Heads (i) to (iv) above do not, however, apply to property, rights or liabilities to the extent that they have been excluded from those heads either by provision contained in an agreement between the NDA and the person entitled to or subject to them, or by provision contained in a nuclear transfer scheme by virtue of which the property, rights and liabilities or the shares mentioned above were vested in any person¹⁵.

A transfer is authorised by these provisions notwithstanding that what is transferred¹⁶ has ceased, before the transfer, to be the property or a right or liability:

- 3829 (A) of a person to whom anything was transferred for the purposes of the management contract mentioned above;
- 3830 (B) of the transferred company or of a wholly-owned subsidiary of that company; or
- 3831 (C) in the case of securities issued after the transfer for the purposes of that management contract, of the person to whom they were issued¹⁷.

Nothing in these provisions authorises the transfer of property, rights or liabilities from a company at a time when it is publicly owned¹⁸.

1 For the meaning of 'nuclear company' see PARA 1414 note 9 ante.

2 For the meaning of 'shares' see PARA 744 note 7 ante.

3 For these purposes, 'management contract' means a contract between the NDA and another person under which the other person is required to do or secure anything that the NDA is required to secure for the purpose of discharging its responsibilities: Energy Act 2004 s 41(8).

4 For these purposes, 'contractor', in relation to a management contract, means a party to the contract who is not the NDA: *ibid* s 41(8).

5 For the meaning of 'subsidiary' see PARA 744 note 6 ante.

6 Energy Act 2004 s 41(1).

7 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

8 For the meaning of 'publicly owned company' see PARA 1412 note 11 ante (definition applied by the Energy Act 2004 s 50(2)).

9 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 *et seq post*.

10 For these purposes, a person is a consenting contractor, in relation to a nuclear transfer scheme, if (1) he is a contractor under a management contract other than the one that has been broken or come to an end; and (2) he has consented to the provisions of the scheme so far as they relate to him: Energy Act 2004 s 41(7).

11 *Ibid* s 41(2).

12 For the meaning of 'securities' see PARA 744 note 7 ante.

13 For the meaning of 'wholly-owned subsidiary' see PARA 744 note 6 ante.

14 Energy Act 2004 s 41(3).

15 *Ibid* s 41(4).

16 For these purposes, 'transferred', in relation to shares, property, rights or liabilities, means transferred in accordance with a nuclear transfer scheme: *ibid* s 41(8).

17 *Ibid* s 41(5).

18 *Ibid* s 41(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(i) Transfer by Scheme of Property, Rights and Liabilities/C. OTHER PROVISIONS THAT MAY BE MADE BY A NUCLEAR TRANSFER SCHEME/1418. Transfer of Nuclear Liabilities Investment Portfolio.

1418. Transfer of Nuclear Liabilities Investment Portfolio.

A nuclear transfer scheme¹ may provide for the transfer from BNFL² to the Secretary of State³ of the Nuclear Liabilities Investment Portfolio⁴ or of so much of that portfolio as may be specified in the scheme⁵; but nothing in these provisions authorises a transfer at a time when BNFL is no longer publicly owned⁶.

Where cash is transferred to the Secretary of State by a transfer authorised by these provisions, he must pay it into the Consolidated Fund⁷; and where the Secretary of State receives sums by way of income on property or rights transferred to him by a transfer so authorised, or sums in respect of the disposal of any such property or rights, he must pay those sums into the Consolidated Fund⁸.

The Secretary of State must comply with every direction given to him by the Treasury with respect to:

- 3832 (1) the disposal of property or rights transferred to him by a transfer authorised by these provisions; or
- 3833 (2) the exercise of any other right attached to, or arising in respect of, such property;

and, in a case where there is no applicable direction, the Secretary of State must not dispose of or exercise any property or rights with respect to which he may be given a direction except with the consent of the Treasury⁹.

1 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

2 As to BNFL see PARA 1377 note 5 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 For these purposes, 'the Nuclear Liabilities Investment Portfolio' means property and rights to which BNFL is entitled and which appear to the Secretary of State, from BNFL's published accounts, to represent assets held by BNFL for the purpose of being able to meet costs or liabilities for which the NDA has a financial responsibility under the Energy Act 2004 Pt 1 Ch 1 (ss 1-37, Schs 1-4) (as amended) (see PARAS 1394-1397 ante, PARA 1592 et seq post): s 42(6).

5 Ibid s 42(1). For taxation provisions with regard to such transfers see s 47, Sch 9 Pt 4 (paras 31-33).

6 Ibid s 42(2). As to when a company is publicly owned see PARA 1412 note 11 ante.

7 Ibid s 42(3). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

8 Ibid s 42(4).

9 Ibid s 42(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(ii) Extinguishment of Undertakings and Tax Losses/1419. Undertakings given by the Secretary of State.

(ii) Extinguishment of Undertakings and Tax Losses

1419. Undertakings given by the Secretary of State.

Where the Secretary of State¹ has given an undertaking² to a publicly owned company³ to make payments to that company or a subsidiary⁴ of that company, and it appears to him that the financial responsibilities of the Nuclear Decommissioning Authority ('the NDA')⁵ under the provisions of the Energy Act 2004 relating to decommissioning⁶ would⁷ make it unnecessary for those amounts to be paid, the Secretary of State may extinguish the undertaking, and every liability of his that has arisen under the undertaking, with effect from such date as he may notify to the other parties to it⁸. Nothing in these provisions, however, authorises the extinguishment of an undertaking at a time when the company to whom payments would fall to be made under the undertaking is not publicly owned⁹.

The extinguishment of an undertaking under these provisions neither requires nor enables any sum to be brought into account in any person's case for the purposes of corporation tax¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For these purposes, 'undertaking' includes any agreement in which an undertaking to make payments is contained: Energy Act 2004 s 43(5).

3 For the meaning of 'publicly owned company' see PARA 1412 note 11 ante.

4 For the meaning of 'subsidiary' see PARA 744 note 6 ante.

5 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

6 I.e. under the Energy Act 2004 Pt 1 Ch 1 (ss 1-37, Schs 1-4) (as amended): see PARAS 1394-1397 ante, PARA 1592 et seq post.

7 I.e. apart from ibid s 21(8): see PARA 1607 post.

8 Ibid s 43(1), (2).

9 Ibid s 43(3). For the meaning of 'company' see PARA 1422 note 4 post.

10 Ibid s 43(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(ii) Extinguishment of Undertakings and Tax Losses/1420. Extinguishment of BNFL losses for tax purposes.

1420. Extinguishment of BNFL losses for tax purposes.

In relation to accounting periods¹ beginning on or after the trigger date², all the relevant losses³ of every BNFL company⁴ arising before that date are to be treated for the purposes of corporation tax as extinguished⁵; but this applies to the relevant losses of a BNFL company only if it is publicly owned on the day before the trigger date⁶.

1 'Accounting period' is to be construed in accordance with the Income and Corporation Taxes Act 1988 s 12 (as amended) (see INCOME TAXATION vol 23(1) (Reissue) PARA 837); s 834(1) (definition applied by the Energy Act 2004 s 44(5)).

2 For these purposes, 'trigger date' means whichever is the earlier of the following: (1) the date of the first occasion on which ibid s 21 (see PARA 1607 post) operates so as to confer financial responsibilities on the Nuclear Decommissioning Authority ('the NDA') in relation to an installation, site or facility the person with control of which is a BNFL company that is publicly owned; and (2) the date of the first occasion on which a transfer takes effect which is a transfer to the NDA or a subsidiary of the NDA in accordance with a nuclear transfer scheme authorised by s 39 (see PARA 1402 ante) of property, rights or liabilities of a BNFL company: s 44(4). For the meaning of 'subsidiary' see PARA 744 note 6 ante; for the meaning of 'BNFL company' see note 4 infra; and for the meaning of 'installation' see PARA 1416 note 8 ante (definition applied by s 50(2)). 'Site' includes (a) land within the United Kingdom; (b) an area of territorial waters adjacent to the United Kingdom; (c) the sea bed and subsoil in any such area; 'facility' includes a business or other undertaking and installations, vehicles or other property comprised in or used for the purposes of a business or other undertaking; and 'vehicle' includes vessel: s 37(1) (definitions so applied). For the meaning of 'person with control' see PARA 1592 note 13 post (definition so applied). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and for the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 The following are relevant losses of a BNFL company for these purposes: (1) losses incurred by the company in a trade; (2) losses incurred by the company in a transaction a profit or gain from which would have been chargeable to tax under the Income and Corporation Taxes Act 1988 s 18(1), (3) Schedule D, Case VI (as amended) (see INCOME TAXATION vol 23(1) (Reissue) PARA 560 et seq); (3) excesses to be carried forward in the company's case under s 75(9) (as substituted) (see INCOME TAXATION vol 23(2) (Reissue) PARA 1345); (4) Schedule A losses (within the meaning of s 392A (as added and amended) (see INCOME TAXATION vol 23(1) (Reissue) PARA 866) incurred by the company; (5) losses to be carried forward in the company's case under s 392B(1) (as added) (see INCOME TAXATION vol 23(1) (Reissue) PARA 866); (6) any tax loss of the company falling within s 400(2)(d) (see INCOME TAXATION vol 23(1) (Reissue) PARA 867 note 4); (7) allowable losses (within the meaning of the Taxation of Chargeable Gains Act 1992 s 8 (as amended)) (see CAPITAL GAINS TAXATION vol 5(1) (2004 Reissue) PARAS 169-170) that have accrued to the company; (8) deficits of the kind mentioned in the Finance Act 1996 s 83(1) to the extent that they are to be carried forward in the company's case under s 83(3A) (as added) (see INCOME TAXATION vol 23(1) (Reissue) PARA 852); (9) excesses of the kind mentioned in the Capital Allowances Act 2001 s 260 (see INCOME TAXATION vol 23(1) (Reissue) PARA 373) in relation to the company; (10) losses of the kind mentioned in the Finance Act 2002 Sch 29 para 35(1) incurred by the company; (11) unrelieved surplus advance corporation tax of the company (within the meaning of the Finance Act 1998 s 32 (as amended)); Energy Act 2004 s 44(2) (amended by the Finance Act 2004, Sections 38 to 40 and 45 and Schedule 6 (Consequential Amendment of Enactments) Order 2004, SI 2004/2310, reg 2, Schedule para 72).

4 For these purposes, 'BNFL company' means (1) the nuclear fuels company ('BNFL'); (2) a company that is a 75% subsidiary of BNFL at a time during the qualifying period; or (3) a company (other than BNFL) that is a 75% subsidiary of a BNFL parent company at a time during the qualifying period; 'BNFL parent company' means a company of which BNFL is a 75% subsidiary; and 'qualifying period' means the period beginning with 16 March 2004 and ending with the trigger date: Energy Act 2004 s 44(4). As to BNFL see PARA 1377 note 5 ante.

5 Ibid s 44(1).

6 Ibid s 44(3).

UPDATE

1420 Extinguishment of BNFL losses for tax purposes

NOTE 1--Reference to Income and Corporation Taxes Act 1988 s 12 now to Corporation Tax Act 2009 Pt 2 Ch 2 (ss 9-12): Income and Corporation Taxes Act 1988 s 834(1) (amended by Corporation Tax Act 2009 Sch 1 para 273(2)(a)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(iii) Supplementary Provisions/1421. Supplementary powers of the Secretary of State, the Nuclear Decommissioning Authority and the United Kingdom Atomic Energy Authority.

(iii) Supplementary Provisions

1421. Supplementary powers of the Secretary of State, the Nuclear Decommissioning Authority and the United Kingdom Atomic Energy Authority.

The Secretary of State¹ has power to enter into agreements for the purpose of accepting or imposing such contractual obligations as he thinks fit with respect to:

- 3834 (1) nuclear transfer schemes² and proposals for such schemes;
- 3835 (2) anything connected with such a scheme or proposal; or
- 3836 (3) the exercise of powers conferred on the Secretary of State or any other person by or under the relevant provisions³ of the Energy Act 2004⁴.

The Nuclear Decommissioning Authority ('the NDA')⁵ and the United Kingdom Atomic Energy Authority ('the UKAEA')⁶ each has power to enter into agreements for the purpose of accepting or imposing such contractual obligations as it or they think fit with respect to:

- 3837 (a) nuclear transfer schemes and proposals for such schemes;
- 3838 (b) anything connected with such a scheme or proposal; or
- 3839 (c) the exercise of powers conferred on it or them, or any other person, by or under the relevant provisions⁷ of the 2004 Act⁸.

The NDA and the UKAEA also each has power to do anything else which, in its or their opinion, is appropriate for facilitating:

- 3840 (i) a transfer which is or is proposed to be effected in accordance with a nuclear transfer scheme; or
- 3841 (ii) any other transfer of property, rights or liabilities of the NDA or (as the case may be) the UKAEA which is or is proposed to be effected for purposes connected with the carrying out by any person of any functions conferred on that person by or under those relevant provisions⁹.

Agreements entered into in exercise of the powers conferred by heads (1) to (3) or heads (a) to (c) above¹⁰ may, in particular, include provision for the making of payments (whether by way of consideration or otherwise) to the Secretary of State, or to the NDA or the UKAEA, in respect of anything transferred or created in accordance with a nuclear transfer scheme¹¹. The consent of the Treasury is required for the Secretary of State or the UKAEA to enter into an agreement in exercise of those powers¹² and the consent of the Secretary of State is also required for the UKAEA to enter into an agreement in exercise of those powers¹³. Sums received by the Secretary of State in pursuance of an agreement under these provisions must be paid into the Consolidated Fund¹⁴.

Before making any disposal of securities¹⁵ of a company¹⁶ in a case in which:

- 3842 (A) the disposal is made in accordance with arrangements entered into by the UKAEA for purposes connected with the carrying out of its functions by the NDA;
 3843 (B) those arrangements are not arrangements to which the Secretary of State has consented as described above; and
 3844 (C) in the opinion of the UKAEA, the disposal is one which it would not have power to make but for the statutory provision allowing a disposal otherwise inconsistent with the UKAEA's functions¹⁷,

the UKAEA must consult the Secretary of State¹⁸. The statutory limitation on the cases in which the UKAEA may make share disposals that are inconsistent with its functions¹⁹ does not, however, apply to anything done by the UKAEA in exercise of powers conferred on it by or under the relevant provisions of the Energy Act 2004²⁰ or to any disposal of securities in accordance with arrangements entered into by the UKAEA for purposes connected with the carrying out of its functions by the NDA²¹.

The powers conferred on the Secretary of State, the NDA and the UKAEA by the above provisions are in addition to their other powers and are to be disregarded in determining the extent of those powers²².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(iii) Supplementary Provisions/1422. Finances and accounts of transferee companies.

1422. Finances and accounts of transferee companies.

The Secretary of State¹ may², with the approval of the Treasury, make loans of such amounts as he thinks fit to:

- 3845 (1) a designated BNFL company³ which is publicly controlled⁴; or
- 3846 (2) a publicly controlled transferee company⁵ which is not a designated BNFL company⁶.

Loans which the Secretary of State makes under these provisions must be repaid to him at such times and by such methods as he may direct from time to time⁷; and interest on such loans must be paid to him at such rates and at such times as he may so direct⁸. The approval of the Treasury is required for any such direction⁹. The Secretary of State must pay sums received by him by virtue of these provisions into the Consolidated Fund¹⁰.

The Secretary of State may guarantee repayment of any loans made to any designated BNFL company that is publicly controlled at the time when the guarantee is given¹¹, subject to the statutory financial limits¹². He may also guarantee, subject to Treasury approval¹³ and to the relevant financial limits¹⁴:

- 3847 (a) the repayment of the principal of any sum borrowed otherwise than from him by a transferee company which is not a designated BNFL company but is publicly controlled at the time of the giving of the guarantee;
- 3848 (b) the payment of interest on such a sum; and
- 3849 (c) the discharge of any other financial obligation of such a transferee company in connection with the borrowing of such a sum¹⁵;

and may give such a guarantee in such manner, and on such terms, as he thinks fit¹⁶. As soon as practicable after giving a guarantee under heads (a) to (c) above, the Secretary of State must lay a statement of the guarantee before Parliament¹⁷. If sums are paid out by the Secretary of State under a guarantee so given, the company whose obligations are fulfilled by the payment must pay him such amounts in or towards the repayment to him of those sums as he may direct and interest, at such rates as he may direct, on amounts outstanding under this provision¹⁸. Such payments to the Secretary of State must be made at such times, and in such manner, as he may from time to time direct¹⁹. The Treasury's approval is required for the giving of any direction under these provisions²⁰. Where a sum has been paid out by the Secretary of State under a guarantee given under heads (a) to (c) above, he must lay a statement relating to that sum before Parliament as soon as practicable after the end of the financial year²¹ in which that sum is paid out and as soon as practicable after the end of each subsequent relevant financial year²². The Secretary of State must pay sums received by him by virtue of the above provisions²³ into the Consolidated Fund²⁴.

If the articles of association of a transferee company confer on a Minister of the Crown powers exercisable with the consent of the Treasury for, or in connection with, restricting the sums of money that may be borrowed or raised during any period by some or all of the members of the group²⁵ to which that company belongs, those powers are to be exercisable in the national

interest notwithstanding any rule of law or the provisions of any enactment²⁶; but for these purposes, an alteration of the articles of association of the company is to be disregarded if the alteration has the effect of conferring or extending any such power and it is made at a time when the company is not publicly owned²⁷.

For the purposes of the statutory accounts²⁸ of each of the following:

- 3850 (i) a transferee company;
- 3851 (ii) a subsidiary of the UKAEA to which a transfer has been made in accordance with a nuclear transfer scheme;
- 3852 (iii) a company that is the transferor²⁹ in relation to a transfer in accordance with such a scheme to a company falling within head (i) or head (ii) above,

the vesting in the company mentioned in head (i) or head (ii) above of property, rights and liabilities in accordance with the nuclear transfer scheme is to be taken to have been effected immediately after the end of the last accounting year³⁰ of the transferor³¹. Where a nuclear transfer scheme either specifies the value of an asset or the amount of a liability transferred in accordance with the scheme, or provides for the determination of that value or amount, the value or amount is to be taken to be the value or amount specified in or determined in accordance with the provisions of the scheme³².

As soon as practicable after the holding of a general meeting of a transferee company which, at the time of the meeting, is wholly-owned by the Crown³³, a Minister of the Crown must lay before Parliament a copy of all accounts which, in accordance with a requirement of the companies legislation, are laid before the company at that meeting, and all documents³⁴ which are annexed or attached to those accounts³⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The Energy Act 2004 s 45(1), Sch 7 paras 5, 6 (see notes 12, 14 infra) has effect for these purposes: s 45(1).

3 For these purposes, 'designated BNFL company' means a company designated for the purposes of ibid Sch 7 by an order made by the Secretary of State: Sch 7 para 1(1). The Secretary of State may designate a company for those purposes as a designated BNFL company only if, without being a subsidiary of the United Kingdom Atomic Energy Authority ('the UKAEA'), it is a publicly controlled company to which (1) securities of BNFL or of a designated BNFL company; (2) property, rights or liabilities of BNFL or of a designated BNFL company; or (3) property, rights or liabilities of a wholly-owned subsidiary of BNFL or of a designated BNFL company, were transferred (whether in accordance with a nuclear transfer scheme or otherwise) at a time when both the person from whom they were transferred and the company to which they were transferred were publicly controlled: Sch 7 para 1(2). An order designating a company for the purposes of Sch 7 must be laid before Parliament: Sch 7 para 1(5). References in Sch 7 to a nuclear transfer scheme include references to any modification agreement (within the meaning of s 38(8), Sch 5: see PARA 1410 note 11 ante) relating to that scheme: Sch 7 para 1(6). In Sch 7 para 1, 'company' has the same meaning as in the Companies Act 1985 or the Companies Act 2006: Energy Act 2004 Sch 7 para 1(7); Companies Act 2006 s 1297(5). For the meaning of 'nuclear transfer scheme' generally see PARA 1402 ante; for the meanings of 'subsidiary' and wholly-owned subsidiary' see PARA 744 note 6 ante; for the meaning of 'securities' see PARA 744 note 7 ante; and as to the nuclear fuels company ('BNFL') see PARA 1377 note 5 ante. For the meaning of 'publicly controlled company' see note 4 infra. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

4 For the purposes ibid of Pt 1 Ch 2 (ss 38-50, Schs 5-9) (as amended), a body corporate is a publicly controlled company if it is a company limited by shares that is either publicly owned or is otherwise a company in which: (a) a person specified in s 50(4) holds a majority of the voting rights; or (b) two or more persons so specified, taken together, hold a majority of the voting rights: s 50(1), (3). The persons specified are: (i) the Treasury; (ii) a Minister of the Crown; (iii) the Nuclear Decommissioning Authority ('the NDA'); (iv) the United Kingdom Atomic Energy Authority ('the UKAEA'); (v) a publicly owned company; or (vi) a nominee of a person falling within heads (i)-(v) supra: s 50(4). 'Company' has the same meaning as in the Companies Act 1985 or the Companies Act 2006: Energy Act 2004 ss 37(7), 50(5); Companies Act 2006 s 1297(5). For these purposes, 'voting rights' is to be construed in accordance with s 37(5): ss 37(1), 50(2). The Companies Act 1985 s 736A (as added) (prospectively repealed by the Companies Act 2006 s 1295, Sch 16 and replaced by s 1159(3), Sch

6, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed) (meaning of 'voting rights' etc) applies for construing references in the Energy Act 2004 Pt 1 Chs 1, 2 (ss 1-50) (as amended) to holding voting rights in a company as it applies for construing the Companies Act 1985 s 736(1)(a) (as substituted; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, and replaced by s 1159, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed): Energy Act 2004 ss 37(5), 50(2). For the meaning of 'shares' see PARA 744 note 7 ante; for the meaning of 'publicly owned company' see PARA 1412 note 11 ante; as to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

5 For these purposes, 'transferee company' means a body corporate which is (1) a body corporate to which a transfer has been made in accordance with a nuclear transfer scheme; but (2) not a subsidiary of the UKAEA: *ibid* Sch 7 para 1(1).

6 *Ibid* Sch 7 para 2(1).

7 *Ibid* Sch 7 para 2(2).

8 *Ibid* Sch 7 para 2(3).

9 *Ibid* Sch 7 para 2(4).

10 *Ibid* Sch 7 para 2(5). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

11 See *ibid* Sch 7 para 3, applying the Nuclear Industry (Finance) Act 1977 s 1 (as amended) with appropriate modifications. See further PARA 1383 ante.

12 The Nuclear Industry (Finance) Act 1977 s 2 (as amended) (financial limits for BNFL: see PARA 1384 ante) has effect (1) as if the limit specified in s 2(1) (as amended) applied to BNFL and the designated BNFL companies, taken together, as it previously applied just to BNFL; and (2) as if the amounts specified in the Energy Act 2004 Sch 7 para 5(2) were included, in the case of the application of the Nuclear Industry (Finance) Act 1977 s 2(1) (as amended) to BNFL and those companies, in the amounts specified in s 2(2) (as amended): Energy Act 2004 Sch 7 para 5(1). The amounts treated as included in the amounts specified in the Nuclear Industry (Finance) Act 1977 s 2(2) (as amended) are: (a) the total paid after 27 July 2004 (ie the date of the passing of the Energy Act 2004) by the Secretary of State or the Treasury for securities issued, otherwise than in pursuance of Sch 6 para 2 (see PARA 1415 ante), by a designated BNFL company which is publicly controlled both before and after the acquisition of those securities by the Secretary of State or the Treasury; (b) the total amount outstanding in respect of the principal of loans made by virtue of Sch 7 para 2 to a designated BNFL company; (c) every sum for which the Secretary of State is liable in fulfilment of so much of a guarantee given under the Nuclear Industry (Finance) Act 1977 s 1(1) (as amended) as relates to the principal of any loan to a company which is a designated BNFL company; (d) every sum to which the Secretary of State may become so liable in default of payment by such a company; (e) so much of every sum which the Secretary of State has paid in fulfilment of guarantees given for such a company under s 1(1) (as amended) as has not been repaid under s 1(4) (as amended): Energy Act 2004 Sch 7 para 5(2). The Nuclear Industry (Finance) Act 1977 s 2(3) (limit of £400 million on certain other guarantees for BNFL) has effect as if references to BNFL included references to a designated BNFL company that was publicly controlled when the guarantee was given: Energy Act 2004 Sch 7 para 5(3). The Secretary of State may by order increase the limit for the time being specified in the Nuclear Industry (Finance) Act 1977 s 2(1) (as amended) or provide for the apportionment of that limit between the different companies in relation to which it applies and for its operation as apportioned: Energy Act 2004 Sch 7 para 5(4). An order apportioning the limit between different companies may provide for the amount apportioned to a particular company to be nil: Sch 7 para 5(5). No order is to be made containing provision increasing that limit unless a draft of the order has been laid before Parliament and approved by a resolution of the House of Commons: Sch 7 para 5(6). An order under Sch 7 para 5 providing for the apportionment of that limit between different companies to which it applies must be laid before Parliament: Sch 7 para 5(7).

13 See *ibid* Sch 7 para 4(8)(a).

14 *Ie* subject to *ibid* Sch 7 para 6. The aggregate amount outstanding by way of principal in respect of the amounts specified in *ibid* Sch 7 para 6(2) must not exceed £100 million: Sch 7 para 6(1). Those amounts are (1) money borrowed by BNFL or by the UKAEA the liability to pay which falls, by virtue of one or more nuclear transfer schemes, on a company which at the time when the scheme came into force was publicly controlled but was neither a designated BNFL company nor a subsidiary of the UKAEA; (2) money borrowed by a transferee company which at the time of the borrowing was publicly controlled but not a designated BNFL company; (3) borrowed money for the repayment of which a publicly controlled transferee company which is not a designated BNFL company is a guarantor or a surety; and (4) sums paid by the Secretary of State in fulfilment of guarantees given under Sch 7 para 4 in respect of borrowing by a transferee company which at the time of the giving of the guarantee was publicly controlled but was not a designated BNFL company: Sch 7 para

6(2). Borrowing by a wholly-owned subsidiary of a company ('the holding company') which would not otherwise be taken into account for these purposes is to be taken into account as if it were borrowing by the holding company; but borrowing between a company and any of its wholly-owned subsidiaries, or between two such subsidiaries, is not to be taken into account: Sch 7 para 6(3). Nothing in Sch 7 para 6 restricts the amount that may be borrowed by a company that has ceased to be publicly controlled or requires amounts in respect of the liabilities of such a company to repay borrowing to be taken into account for these purposes, except in so far as they are liabilities to repay the Secretary of State: Sch 7 para 6(4). The Secretary of State may by order increase the limit for the time being specified in Sch 7 para 6(1) or provide for the apportionment of that limit between the different companies in relation to which it applies and for its application as apportioned: Sch 7 para 6(5). An order apportioning the limit between different companies may provide for the amount apportioned to a particular company to be nil: Sch 7 para 6(6). No order is to be made containing provision increasing that limit unless a draft of the order has been laid before Parliament and approved by a resolution of the House of Commons: Sch 7 para 6(7). An order under Sch 7 para 6 providing for the apportionment of that limit between different companies to which it applies must be laid before Parliament: Sch 7 para 6(8).

15 Ibid Sch 7 para 4(1).

16 Ibid Sch 7 para 4(2).

17 Ibid Sch 7 para 4(3).

18 Ibid Sch 7 para 4(4).

19 Ibid Sch 7 para 4(5).

20 See *ibid* Sch 7 para 4(8)(b).

21 For the meaning of 'financial year' see PARA 763 note 17 *ante*.

22 Ibid Sch 7 para 4(6). In relation to a sum paid out under a guarantee, a financial year is a relevant financial year for these purposes unless (1) before the beginning of that year, the whole of that sum has been repaid to the Secretary of State under Sch 7 para 4(4); and (2) the company in question is not at any time during that year subject to a liability to pay interest on amounts that became due under Sch 7 para 4(4) in respect of that sum: Sch 7 para 4(7).

23 *Ie* by virtue of *ibid* Sch 7 para 4(4).

24 Ibid Sch 7 para 4(9).

25 For these purposes, 'group', in relation to a company, means the following companies, taken together: (1) that company; (2) all of its subsidiaries; (3) every company of which that company is a subsidiary; and (4) every company not mentioned in heads (1)-(3) *supra* which is a subsidiary of a company falling within head (3) *supra*: *ibid* Sch 7 para 7(4).

26 Ibid Sch 7 para 7(1), (2). For the meaning of 'enactment' see PARA 750 note 9 *ante*.

27 Ibid Sch 7 para 7(3).

28 For these purposes, 'statutory accounts', in relation to a company, means accounts of that company prepared for the purposes of a provision of the Companies Act 1985 or the Companies Act 2006, including group accounts: Energy Act 2004 Sch 7 para 8(4); Companies Act 2006 s 1297(5).

29 'Transferor', in relation to a transfer scheme, means the person from whom property, rights and liabilities are transferred to a transferee company in accordance with the scheme: *ibid* Sch 7 para 1(1).

30 For these purposes, 'accounting year', in relation to a body corporate, means the period for which its annual accounts are prepared; and 'last accounting year', in relation to a nuclear transfer scheme, means the last complete accounting year ending before the scheme comes into force: *ibid* Sch 7 para 8(4).

31 Ibid Sch 7 para 8(1), (2).

32 Ibid Sch 7 para 8(3).

33 For these purposes, a body corporate is wholly-owned by the Crown if it is a company limited by shares each of which is held on behalf of the Crown: *ibid* Sch 7 para 1(3). A share in a company is held on behalf of the Crown if, and only if, it is held by (1) the Treasury; (2) a Minister of the Crown; (3) another company which is wholly-owned by the Crown; or (4) a nominee of a person falling within heads (1)-(3) *supra*: Sch 7 para 1(4).

34 For the meaning of 'document' see PARA 733 note 4 ante.

35 Energy Act 2004 Sch 7 para 9.

UPDATE

1422 Finances and accounts of transferee companies

NOTES 3, 4--Energy Act 2004 ss 37(5), (7), 50(5), Sch 7 para 1(7) amended: SI 2009/1941.

NOTE 28--Definition of 'statutory accounts' amended: SI 2008/948.

NOTE 35--Energy Act 2004 Sch 7 para 9 amended: SI 2008/948.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(iii) Supplementary Provisions/1423. Pensions; in general.

1423. Pensions; in general.

Schedule 8 to the Energy Act 2004 makes provision, in connection with nuclear transfer schemes¹:

- 3853 (1) for the modification², by a direction of the Nuclear Decommissioning Authority ('the NDA')³, of a relevant pension scheme⁴ so as to extend the groups of persons who may participate in the scheme⁵;
- 3854 (2) with regard to public sector transfers of members of a United Kingdom Atomic Energy Authority ('UKAEA') pension scheme⁶;
- 3855 (3) to protect pension entitlements on certain other transfers⁷; and
- 3856 (4) to enable a UKAEA pension scheme to apply to employees of a designated BNFL company⁸ which is publicly controlled⁹.

1 A reference in the Energy Act 2004 s 46, Sch 8 to a nuclear transfer scheme includes a reference to a modification agreement (within the meaning of s 38(8), Sch 5: see PARA 1410 note 11 ante): Sch 8 para 1(5). For the meaning of 'nuclear transfer scheme' generally see PARA 1402 ante.

2 References in *ibid* Sch 8 to the modification of a pension scheme include references to the modification of any one or more of the following: (1) the trust deed of the scheme, if there is one; (2) rules of the scheme; or (3) any other instrument relating to the constitution, management or operation of the scheme: *ibid* Sch 8 para 1(2).

3 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post.

4 For these purposes, 'relevant pension scheme' means (1) a nuclear pension scheme maintained by or on behalf of a nuclear company which is wholly-owned by the Crown; (2) a nuclear pension scheme designated as a relevant pension scheme for these purposes by an order made by the Secretary of State: Energy Act 2004 Sch 8 para 2(10). 'Nuclear pension scheme' means (a) a UKAEA pension scheme; (b) an NDA pension scheme; (c) a pension scheme maintained by or on behalf of a nuclear company which is wholly-owned by the Crown; or (d) a pension scheme designated for the purposes of Sch 8 by an order made by the Secretary of State: Sch 8 para 1(1). 'NDA pension scheme' means a pension scheme maintained by or on behalf of the NDA under or by virtue of s 8(1)(a) or (b) (see PARA 1595 post); and 'UKAEA pension scheme' means a pension scheme maintained by the UKAEA under the Atomic Energy Authority Act 1954 Sch 1 para 7(2)(b) (see PARA 1426 ante): Energy Act 2004 Sch 8 para 1(1). For the meaning of 'nuclear company' see PARA 1414 note 9 ante; as to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

For the purposes of Sch 8, a body corporate is wholly-owned by the Crown if it is a company limited by shares and that company is one in which either a person specified in Sch 8 para 1(4) holds all the shares or two or more persons so specified, taken together, hold all the shares: Sch 8 para 1(3). Those persons are (i) the Treasury; (ii) a Minister of the Crown; (iii) another company which is wholly-owned by the Crown; or (iv) a nominee of a person falling within heads (i)-(iii) supra: Sch 8 para 1(4).

5 See *ibid* Sch 8 Pt 2 (para 2(1)-(10)). The Secretary of State's consent is required for the giving of any such direction by the NDA: Sch 8 para 2(9).

6 See *ibid* Sch 8 Pt 3 (paras 3-8). As to transfers of employment for NDA purposes see Sch 8 para 3; as to the application of the UKAEA pension scheme to a person who becomes an employee of a relevant public sector employer and who was, immediately before the transfer of his employment took effect, a participant in a UKAEA pension scheme see Sch 8 para 4; as to modifications of a UKAEA pension scheme to give effect to Sch 8 para 4 see Sch 8 para 5; as to the transfer of funds from a UKAEA pension scheme see Sch 8 para 6; as to the manner in which the Secretary of State is to exercise his powers to give directions for the purposes of Sch 8 paras 5, 6 see Sch 8 para 7; and as to payments to the UKAEA by a relevant public sector employer see Sch 8 para 8.

'Relevant public sector employer' means any of the following: (1) the UKAEA; (2) the NDA; (3) the Civil Nuclear Police Authority (as to which see PARA 1520 et seq post); (4) a publicly controlled company (for the meaning of which see PARA 1422 note 4 ante): Sch 8 para 1(1).

7 See ibid Sch 8 Pt 4 (paras 9-12). As to the persons entitled to pension protection see Sch 8 para 9; as to protection on transfer in accordance with a nuclear transfer scheme see Sch 8 para 10; as to protection on a transfer in accordance with transfer arrangements see Sch 8 para 11; and as to the Secretary of State's power to direct modifications of an NDA pension scheme see Sch 8 para 12. 'Transfer arrangements' means arrangements for the transfer of any of the following otherwise than in accordance with a nuclear transfer scheme (1) securities of, or voting rights in, a company; or (2) a business, or a part of a business: Sch 8 para 1(1). For the meaning of 'securities' see PARA 744 note 7 ante; and for the meaning of 'voting rights' see PARA 1422 note 4 ante.

8 For these purposes, 'designated BNFL company' has the same meaning as in ibid s 45(1), Sch 7 (see PARA 1422 ante): Sch 8 para 13(8).

9 See ibid Sch 8 Pt 5 (para 13).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(3) TRANSFERS RELATING TO CIVIL NUCLEAR UNDERTAKINGS/(iii) Supplementary Provisions/1424. Taxation provisions.

1424. Taxation provisions.

Schedule 9 to the Energy Act 2004 makes provision, in connection with nuclear transfer schemes¹, for the treatment for the purposes of corporation tax and the taxation of chargeable gains of transfers¹:

- 3857 (1) to the Nuclear Decommissioning Authority ('the NDA') or a subsidiary of the NDA²;
- 3858 (2) relating to BNFL or the United Kingdom Atomic Energy Authority ('the UKAEA') or a subsidiary of the UKAEA³;
- 3859 (3) relating to relevant site licensees⁴; and
- 3860 (4) to the Secretary of State⁵.

Stamp duty is not to be chargeable:

- 3861 (a) on a nuclear transfer scheme; or
- 3862 (b) on an instrument⁶ certified by the Secretary of State to the Commissioners for Revenue and Customs as made for the purposes of such a scheme, or as made for purposes connected with such a scheme,

except to the extent that the scheme or instrument includes provision in relation to private transfers⁷. Where, however, by virtue of the above provision stamp duty is not chargeable at all, or is chargeable only to a reduced extent, on a nuclear transfer scheme or instrument, the scheme or instrument is to be treated as duly stamped only if:

- 3863 (i) in accordance with the relevant provision of the Stamp Act 1891⁸ it has been stamped with a stamp denoting either that it is not chargeable to duty or that it has been duly stamped; or
- 3864 (ii) it is stamped with the duty to which it would be otherwise be chargeable⁹.

An agreement which is made for the purposes of a nuclear transfer scheme or purposes connected with such a scheme is not to give rise to stamp duty reserve tax except to the extent that the agreement relates to private transfers¹⁰.

¹ For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

² See the Energy Act 2004 s 47, Sch 9 Pt 1 (paras 1-15). For supplemental provisions see Sch 2 Pt 6 (paras 35-37). As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARA 1592 et seq post. For the meaning of 'subsidiary' see PARA 744 note 6 ante.

³ See *ibid* Sch 9 Pt 2 (paras 16-27). See also note 2 *supra*. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

⁴ See *ibid* Sch 2 Pt 3 (paras 28-30). See also note 2 *supra*. For these purposes, 'relevant site licensee' has the same meaning as in the Energy Act 2004 s 27(4) (see s 27(5); and PARA 1608 post): s 47, Sch 9 para 30.

5 See *ibid* Sch 2 Pt 4 (paras 31-33). See also note 2 *supra*. As to the Secretary of State see PARA 601 note 1 *ante*.

6 For these purposes, 'instrument' has the same meaning as in the Stamp Act 1891 (see STAMP DUTIES AND STAMP DUTY RESERVE TAX vol 44(1) (Reissue) PARA 1001): Energy Act 2004 s 47, Sch 9 para 34(4).

7 Energy Act 2004 Sch 9 para 34(1). For these purposes, 'private transfer' means: (1) a transfer of any property, right or liability to a person other than the Secretary of State, the NDA or a publicly owned company; or (2) the creation of an interest or right in favour of a person other than the Secretary of State, the NDA or a publicly owned company: Sch 9 para 34(4). For the meaning of 'publicly owned company' see PARA 1412 note 11 *ante*.

8 *Ie* the Stamp Act 1891 s 12 (as substituted): see STAMP DUTIES AND STAMP DUTY RESERVE TAX vol 44(1) (Reissue) PARA 1111.

9 Energy Act 2004 Sch 9 para 34(2).

10 *Ibid* Sch 9 para 34(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1425. Power to search for minerals.

(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS

1425. Power to search for minerals.

The Secretary of State¹ or any person authorised by him in that behalf may do on, over or below the surface of any land such work as the Secretary of State considers necessary for the purpose of discovering whether there are present in or on the land, either in a natural state or in a deposit of waste material obtained from any underground or surface working, any minerals² from which in his opinion any of the prescribed substances³ can be obtained, and the extent to which any such mineral is so present⁴.

The above powers include a power to remove any work constructed or other thing placed on, over or below the surface of the land in the course of the exercise of those powers, and to do such work on the land as the Secretary of State or person authorised by him in that behalf thinks fit for the purpose of restoring the land wholly or partly to the condition in which it would have been but for the exercise of those powers⁵.

For the purpose of exercising the above powers any person authorised by the Secretary of State in that behalf may pass, with or without animals or vehicles, over any land⁶.

The Secretary of State may store, transport or dispose of any articles⁷ acquired by him in or by reason of any exercise of the above powers⁸, and may do all such things, including the erection of buildings and the execution of works, as appear to him to be necessary or expedient for the exercise of those powers⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'minerals' see PARA 1366 note 14 ante.

3 'Prescribed substance' means uranium, thorium, plutonium, neptunium or any of their respective compounds or any such other substance as the Secretary of State may by order prescribe, being a substance which in his opinion is or may be used for the production or use of atomic energy, or research into matters connected therewith: Atomic Energy Act 1946 s 18(1). In the exercise of this power, the Secretary of State has made the Atomic Energy (Americium) Order 2002, SI 2002/2533, which came into force on 1 December 2002 (art 1) and prescribes americium for these purposes (art 2). For the meaning of 'atomic energy' see PARA 1357 note 1 ante; and as to its production or use see PARA 1366 note 3 ante.

4 Atomic Energy Act 1946 s 6(1).

5 Ibid s 6(5). Before any of the powers described in the text are exercised in relation to any land, the Secretary of State must serve a notice in writing on every owner, lessee and occupier of the land specifying the nature of the work proposed to be done and the extent of the land affected, and the time, not being less than 28 days, within which and the manner in which objections can be made to it: s 6(2). No such power may be exercised otherwise than in pursuance of the notice or before the expiration of the time specified in it for making objections: s 6(2). If any such objection is duly made and not withdrawn, the Secretary of State must, before exercising any such powers, afford an opportunity to the person making the objection of appearing before and being heard by a person appointed by the Secretary of State for the purpose and, if the person making the objection avails himself of that opportunity, the Secretary of State may afford to any other persons to whom it appears to him expedient to afford it an opportunity of being heard on the same occasion: s 6(3). After considering any such objection and the report of the person so appointed, the Secretary of State may serve on the persons on whom the original notice was served a further notice in writing withdrawing the original notice or modifying its terms, but not so as to increase the extent of the land affected; and, in the case of

modification, no powers may be exercised under s 6(1) otherwise than in pursuance of the original notice as so modified: s 6(4). As to compensation see PARA 1426 post. As to the service of notices see PARA 1589 post.

6 Ibid s 6(6). If any person wilfully obstructs or interferes with the exercise of powers under s 6 he is guilty of an offence: s 6(7). As to offences and penalties see s 14 (as amended); and PARA 1588 post.

7 For the meaning of 'articles' see PARA 1366 note 5 ante.

8 Atomic Energy Authority Act 1954 s 2(3) proviso (b).

9 Ibid s 2(3) proviso (c).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1426. Compensation for work done in searching for minerals.

1426. Compensation for work done in searching for minerals.

Where, as a result of the exercise of powers of searching for minerals¹, the value of any land is diminished, compensation must be determined and paid².

The compensation must, in the first instance, be a sum calculated by reference to the diminution of the annual value³ of the land ascribable to the exercise of the powers, and must be paid in instalments, quarterly in arrear, to the person who for the time being is entitled to occupy the land⁴. Any such compensation is considered as accruing due from day to day, is apportionable in respect of time accordingly⁵, and carries interest⁶.

The Secretary of State⁷ may at any time serve a notice in writing⁸ on every owner, lessee and occupier of land in respect of which such powers⁹ have been exercised stating that he does not propose to exercise those powers any further in relation to that land, and thereupon the period in respect of which compensation is payable ends and the powers cease to be exercisable in so far as they depend on any notice previously served under those powers, but without prejudice to the service of a new notice under them¹⁰. If the period in which compensation is payable comes to an end in this manner, then if, at the expiration of that period, the value of any estate or interest which a person then has in the land is less than it would be but for the exercise of the powers, there must be paid to him by way of compensation a sum equal to the amount of that depreciation; and that compensation is taken to accrue due at the expiration of that period¹¹, and carries interest¹².

Any dispute arising as to whether compensation is payable or as to the amount of the compensation or the persons to whom it is payable must be referred to and determined by the Lands Tribunal¹³.

1 Ie under the Atomic Energy Act 1946 s 6: see PARA 1425 ante.

2 Ibid s 6(8). The compensation is to be determined and paid in accordance with s 6(8), Sch 1: s 6(8).

3 'Annual value' means, in relation to any land, the rent at which the land might reasonably be expected to let from year to year if the tenant undertook to pay all usual tenant's rates and taxes and to bear the costs of the repairs and insurance and the other expenses, if any, necessary to maintain the land in a state to command that rent: *ibid* Sch 1 para 8. As to a tenant's liability for rates and taxes see generally LANDLORD AND TENANT vol 27(1) (2006 Reissue) PARA 521 et seq.

4 Ibid Sch 1 para 1. In assessing any such compensation it must be assumed that the land cannot be restored to the condition in which it would be but for the exercise of the right: Sch 1 para 7.

5 Ibid Sch 1 para 1.

6 Ibid Sch 1 para 5. Any such compensation carries interest, as from the time at which it accrues due, until payment, at such rate per annum as the Treasury may from time to time by order prescribe; and for these purposes, compensation payable in accordance with Sch 1 para 1 is deemed to accrue on the last day of each quarter in respect of which it is payable: Sch 1 para 5.

7 As to the Secretary of State see PARA 601 note 1 ante.

8 The Secretary of State must cause the fact of service to be published in such manner as he thinks best adapted for informing persons affected (other than persons on whom the notice was served): Atomic Energy Act 1946 Sch 1 para 6. As to the service of notices see PARA 1589 post.

9 le powers exercised under *ibid* s 6: see PARA 1425 ante.

10 *Ibid* Sch 1 para 2.

11 *Ibid* Sch 1 para 3. Where compensation is payable under Sch 1 para 3 in respect of any estate or interest which, to the knowledge of the Secretary of State, is subject to a mortgage, that compensation and any interest on it must be paid to the mortgagee and he is liable to account for it as if the compensation were proceeds of sale of that estate or interest arising under a power of sale exercised by the mortgagee at the material time and the interest on that compensation were interest on those proceeds: Sch 1 para 4. If, however, that estate or interest is subject to two or more successive mortgages, Sch 1 para 4 has effect with the substitution for the reference to the mortgagee of references to the first mortgagee: Sch 1 para 4 proviso.

12 See *ibid* Sch 1 para 5; and note 6 *supra*.

13 *Ibid* Sch 1 para 9 (amended by the Lands Tribunal Act 1949 s 10, Sch 2; the Statute Law (Repeals) Act 1974; and by virtue of the Land Compensation Act 1961 s 40(1)). For the procedure see the Lands Tribunal Rules 1996, SI 1996/1022 (as amended); and COMPULSORY ACQUISITION OF LAND vol 18 (2009) PARA 747 *et seq*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1427. Compulsory acquisition of rights to work minerals.

1427. Compulsory acquisition of rights to work minerals.

Where it appears to the Secretary of State¹ that any minerals² from which in his opinion any of the prescribed substances³ can be obtained are present in or on any land, either in a natural state or in a deposit of waste material obtained from any underground or surface working, he may by order⁴ provide for compulsorily vesting in him or in the United Kingdom Atomic Energy Authority ('the UKAEA')⁵ the exclusive right, so long as the order remains in force, to work those minerals and any other minerals which it appears to him to be necessary to work with those minerals⁶.

The Secretary of State may also provide, by that order or a subsequent order⁷, for compulsorily vesting in him or in the Authority any other ancillary rights which appear to him to be necessary for the purpose of working such minerals⁸, including rights:

- 3865 (1) to withdraw support⁹;
- 3866 (2) necessary for the purpose of access to or conveyance of those minerals or the ventilation or drainage of the workings¹⁰;
- 3867 (3) to use and occupy the surface of any land for the purpose of erecting any necessary buildings and installing any necessary plant¹¹ in connection with the working of those minerals¹²;
- 3868 (4) to use and occupy for the purposes of working those minerals any land forming part of or used in connection with an existing mine or quarry, and to use or acquire any plant used in connection with any such mine or quarry¹³; and
- 3869 (5) to obtain a supply of water for purposes connected with the working of those minerals, or to dispose of water or other liquid matter obtained in consequence of working them¹⁴.

The Secretary of State may store, transport or dispose of any articles¹⁵ acquired by him in the exercise of the above rights¹⁶, and may do all things as appear to him to be necessary or expedient for the exercise of such powers¹⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'minerals' see PARA 1366 note 14 ante.

3 For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

4 Any order so made is subject to special parliamentary procedure and the Statutory Orders (Special Procedure) Act 1945 applies to it subject to the modification that s 2(1), Sch 1 para 1 is deemed to include a provision requiring the notice of the order as proposed to be made to be served by the Secretary of State (1) on all persons who, but for the order, would be entitled to work the minerals affected; and (2) on every owner, lessee and occupier, except tenants for a month or any period less than a month, of any land in respect of which rights are proposed to be acquired under the order: Atomic Energy Act 1946 s 7(3); and see PARLIAMENT vol 34 (Reissue) PARA 914 et seq. As to the payment of compensation see PARA 1428 post; and as to the working of minerals see PARA 1366 note 15 ante.

5 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

6 Atomic Energy Act 1946 s 7(1) (amended by the Atomic Energy Authority Act 1954 s 6(4), Sch 3). These powers are unaffected by the repeal of the Atomic Energy Act 1946 s 2: see the Atomic Energy Authority Act 1954 s 2(3) proviso (a).

7 See note 4 *supra*.

8 Atomic Energy Act 1946 s 7(1) (as amended: see note 6 *supra*).

9 *Ibid* s 7(1)(a).

10 *Ibid* s 7(1)(b).

11 'Plant' includes any machinery, equipment or appliance, whether affixed to land or not: *ibid* s 18(1).

12 *Ibid* s 7(1)(c).

13 *Ibid* s 7(1)(d).

14 *Ibid* s 7(1)(e).

15 For the meaning of 'articles' see PARA 1366 note 5 *ante*.

16 Atomic Energy Authority Act 1954 s 2(3) proviso (b).

17 *Ibid* s 2(3) proviso (c). As to the Secretary of State's powers compulsorily to acquire prescribed substances, stocks of minerals and plant see PARA 1432 *post*; and as to the powers to obtain information, and of entry and inspection see PARAS 1515, 1566 *post*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1428. Compensation on compulsory acquisition of rights to work minerals.

1428. Compensation on compulsory acquisition of rights to work minerals.

Any order made for the compulsory acquisition of rights to work minerals¹ must provide for the payment of compensation, in such cases and subject to such conditions as may be specified in the order or determined under it, in respect of loss suffered as the result of the acquisition or exercise of rights under the order². No account may, however, be taken, in calculating the compensation, of the value of any minerals present in or on land affected by the order, being minerals specified in the order as those from which in the opinion of the Secretary of State³ any of the prescribed substances⁴ can be obtained⁵.

1 Ie an order under the Atomic Energy Act 1946 s 7 (as amended): see PARA 1427 ante. For the meaning of 'minerals', and as to the working of minerals, see PARA 1366 notes 14-15 ante.

2 Ibid s 7(2).

3 As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

5 Atomic Energy Act 1946 s 7(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1429. Control and prohibition of working minerals and of the production, use or disposal of radioactive material and plant.

1429. Control and prohibition of working minerals and of the production, use or disposal of radioactive material and plant.

The Secretary of State¹ may by order² provide for prohibiting, except under the authority of a licence granted by him:

- 3870 (1) the working of any minerals³ specified in the order and being minerals from which, in his opinion, any of the prescribed substances⁴ can be obtained⁵; or
- 3871 (2) the acquisition, production, treatment, possession, use, disposal, export or import of:
- 351
- 516. (a) any of the prescribed substances⁶; or
- 517. (b) any minerals which are specified in the order, being minerals from which in his opinion any of the prescribed substances can be obtained and not being minerals in a natural state or contained in a deposit of waste material obtained from any underground or surface working⁷; or
- 518. (c) any plant⁸ designed or adapted for the production or use of atomic energy⁹ or for research into matters connected therewith¹⁰.
- 352

The above powers of control do not apply to the United Kingdom Atomic Energy Authority ('the UKAEA')¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the making of orders see PARA 1361 the text and notes 2-3 ante. At the date at which this title states the law, no such order had been made. An order made under this power may contain such incidental and supplementary provisions as the Secretary of State considers necessary: Atomic Energy Act 1946 s 10(1). Contravention of such an order is an offence, as is also the failure to comply with the order or with any condition attached to the grant of a licence under s 10: s 10(4). As to the prosecution of the offence and the penalties see s 14 (as amended); and PARAS 1582, 1588 post.

3 For the meaning of 'minerals', and as to the working of minerals, see PARA 1366 notes 14-15 ante.

4 For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

8 For the meaning of 'plant' see PARA 1427 note 11 ante.

9 For the meaning of 'atomic energy' see PARA 1357 note 1 ante. As to its production or use see PARA 1366 note 3 ante.

10 Atomic Energy Act 1946 s 10(1)(b)(iii).

11 Atomic Energy Authority Act 1954 s 6(4), Sch 3. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1430. Seizure of articles.

1430. Seizure of articles.

An order under the power to control the working etc of minerals and other prescribed substances¹ may provide for:

- 3872 (1) the seizure of any article² in respect of which there are reasonable grounds for suspecting that a contravention of the order of prohibition has been committed; and
- 3873 (2) the retention of any such article pending the institution and final determination of proceedings in respect of the contravention; and
- 3874 (3) if the proceedings lead finally to a conviction, the disposal of any such article³.

¹ ie an order made under the Atomic Energy Act 1946 s 10: see PARA 1429 note 2 ante. For the meaning of 'minerals', and as to the working of minerals, see PARA 1366 notes 14-15 ante. For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

³ Atomic Energy Act 1946 s 10(3). Contravention of the order is an offence: see PARA 1429 note 2 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1431. Availability of minerals, substances and plant for research etc.

1431. Availability of minerals, substances and plant for research etc.

The Secretary of State¹ must secure so far as practicable, by the issue of licences in such cases or classes of cases as he thinks fit, that minerals², prescribed substances³ and plant⁴ which may be the subject of a prohibition order⁵ are available for purposes of research and education, for medical and biological purposes and for commercial purposes not involving the production or use of atomic energy⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'minerals' see PARA 1366 note 14 ante.

3 For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

4 For the meaning of 'plant' see PARA 1427 note 11 ante.

5 Ie an order under the Atomic Energy Act 1946 s 10: see PARA 1429 note 2 ante.

6 Ibid s 10(2). For the meaning of 'atomic energy' see PARA 1357 note 1 ante; and as to its production or use see PARA 1366 note 3 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1432. Compulsory acquisition of substances, minerals and plant.

1432. Compulsory acquisition of substances, minerals and plant.

The Secretary of State¹ may compulsorily acquire any prescribed substances², any minerals³ from which in his opinion any such substance can be obtained, other than minerals in a natural state or contained in a deposit of waste material obtained from any underground or surface working⁴, or any plant⁵ designed or adapted for the production or use of atomic energy⁶ or research into connected matters⁷. There is a statutory procedure prescribed for the acquisition⁸.

The Secretary of State may store, transport or dispose of any articles⁹ acquired by him in or by reason of any exercise of the above powers¹⁰, and may do all things as appear to him to be necessary or expedient for the exercise of such powers¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Atomic Energy Act 1946 s 8(1)(a). For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

3 For the meaning of 'minerals' see PARA 1366 note 14 ante.

4 Atomic Energy Act 1946 s 8(1)(b). The Secretary of State may compulsorily acquire the rights to work such minerals subject to the payment of compensation: see PARAS 1427-1428 ante. As to the working of minerals see PARA 1366 note 15 ante.

5 For the meaning of 'plant' see PARA 1427 note 11 ante.

6 For the meaning of 'atomic energy' see PARA 1357 note 1 ante; and as to the production or use of atomic energy see PARA 1366 note 3 ante.

7 Atomic Energy Act 1946 s 8(1)(c). In the case of any plant which is affixed to land the Secretary of State may sever it from the land, in which case he must make good any damage caused by the severance: s 8(1).

8 See *ibid* s 8(1), Sch 2 Pt I (paras 1-6); and PARA 1433 post.

9 For the meaning of 'articles' see PARA 1366 note 5 ante.

10 Atomic Energy Authority Act 1954 s 2(3) proviso (b).

11 *Ibid* s 2(3) proviso (c).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1433. Procedure for compulsory acquisition of prescribed substances etc.

1433. Procedure for compulsory acquisition of prescribed substances etc.

Where the Secretary of State¹ proposes to acquire any articles² he must serve upon the person appearing to him to be the owner³ of them a notice in writing (a 'notice of acquisition') specifying the articles to be acquired and requiring that person to make a declaration containing specified particulars as to the ownership of those articles and as to any agreement or charge by virtue of which any other person has an interest in any of those articles⁴. Upon the service of such a notice of acquisition, no article specified in it must be removed from the premises where it was situated at the time of service of the notice, without the consent of the person specified in the notice; and any person knowingly removing an article or causing or permitting it to be removed in contravention of this provision is guilty of an offence⁵.

If it appears to the Secretary of State, either in consequence of any written declaration so made to him or otherwise, that some person other than the person on whom the notice of acquisition was served is the owner of the articles to which the notice relates, or has any interest in them, he must serve a copy of the notice of acquisition on that other person⁶. The notice of acquisition must state that an objection may be made to it within such time (not being less than 28 days) and in such manner as is specified in it; and if any such objection is duly made and not withdrawn, the Secretary of State must afford an opportunity to the person making the objection of appearing before and being heard by a person appointed for that purpose by the Secretary of State⁷.

After considering any objection duly made and not withdrawn, and the report of the person appointed to hear the objection, the Secretary of State must serve on all persons upon whom the notice of acquisition, or a copy of it, was served a further notice in writing either withdrawing the notice of acquisition or confirming it as respects all the articles to which it relates or such of those articles as may be specified⁸. Any article with respect to which a notice of acquisition has been served vests in the Secretary of State at the expiration of the time for making an objection if no objection has been duly made⁹. If an objection has been made but the notice is confirmed as respects that article, the article vests in the Secretary of State at the time of service of the confirming notice¹⁰. In either case, the article vests free of mortgage¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. under the Atomic Energy Act 1946 s 8: see PARA 1432 ante. For the meaning of 'articles' see PARA 1366 note 5 ante.

3 For these purposes, 'owner' means, in relation to any article, the person entitled to sell the article, it being assumed not to be subject to any mortgage; and 'mortgage' includes any pledge, lien or other similar obligation and the expression 'mortgagee' is to be construed accordingly: *ibid* s 8(1), (2), Sch 2 Pt II para 6.

4 *Ibid* Sch 2 Pt I para 1. As to the service of notices see PARA 1589 post.

5 *Ibid* Sch 2 Pt I para 2. As to the prosecution of and penalties for the offence see PARAS 1582, 1588 post.

6 *Ibid* Sch 2 Pt I para 3.

7 *Ibid* Sch 2 Pt I para 4. If the person making the objection avails himself of that opportunity, the Secretary of State may afford to any other persons to whom it appears to him expedient to afford it an opportunity of being heard on the same occasion: Sch 2 Pt I para 4.

- 8 Ibid Sch 2 Pt I para 5.
- 9 Ibid Sch 2 Pt I para 6(a).
- 10 Ibid Sch 2 Pt I para 6(b).
- 11 Ibid Sch 2 Pt I para 6. As to compensation see PARA 1434 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1434. Compensation on compulsory acquisition of substances, minerals and plant.

1434. Compensation on compulsory acquisition of substances, minerals and plant.

Where any article¹ is compulsorily acquired², compensation in respect of the acquisition must be paid³. The compensation is a sum equal to the price which the owner⁴ of the article might reasonably have been expected to obtain upon its sale effected by him immediately before the date of the service of the notice of acquisition⁵, and the compensation accrues due on that date and (subject to the following provisions) must be paid to the owner⁶. Any dispute as to whether any such compensation is payable or as to the amount of it or the persons to whom it is payable must be referred to an arbitrator to be appointed, in default of agreement, by the President of the Institution of Civil Engineers⁷. Any compensation payable carries interest, as from the time at which it accrues due, until payment, at such rate as the Treasury may from time to time by order prescribe⁸.

Where, immediately before the service of the notice of acquisition relating to any article in respect of which compensation is so payable, it was in the possession of some person other than the owner by virtue of a hire purchase agreement⁹ or was subject to a mortgage¹⁰, that person or the mortgagee, as the case may be, may, by a notice served on the Secretary of State, claim to have apportioned to him such part of the compensation as may be specified in his claim; and in default of agreement between the parties the claim must be determined by an arbitrator to be appointed, in default of agreement, by the President of the Institution of Civil Engineers, who may apportion the compensation between them in such manner as appears to him to be just¹¹. Where any compensation is so paid to a mortgagee he is liable to account for it as if the compensation were proceeds of sale of the article in question arising under a power of sale exercised by the mortgagee at the material time and the interest on that compensation were interest on those proceeds¹².

1 For the meaning of 'articles' see PARA 1366 note 5 ante.

2 As to the compulsory acquisition of articles see PARA 1432 ante; and as to the procedure to be followed see PARA 1433 ante.

3 Atomic Energy Act 1946 s 8(2).

4 For the meaning of 'owner' see PARA 1433 note 3 ante.

5 As to a notice of acquisition see PARA 1433 ante.

6 Atomic Energy Act 1946 s 8(2), Sch 2 Pt II para 1.

7 Ibid Sch 2 Pt II para 2. As to the Institution of Civil Engineers see BUILDING CONTRACTS, ARCHITECTS, ENGINEERS, VALUERS AND SURVEYORS vol 4(3) (Reissue) PARA 220.

8 Ibid Sch 2 Pt II para 3.

9 'Hire purchase agreement' has the same meaning as in the Hire Purchase Act 1938 (repealed: see now the Consumer Credit Act 1974 s 189(1)): Atomic Energy Act 1946 Sch 2 Pt II para 6. The wording of the 1974 definition is different; quare whether that definition applies for these purposes.

10 For the meaning of 'mortgage' and 'mortgagee' see PARA 1433 note 3 ante.

11 Atomic Energy Act 1946 Sch 2 Pt II para 4. As to the service of notices see PARA 1589 post.

12 Ibid Sch 2 Pt II para 5.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(4) CONTROL OF MINERALS, PRESCRIBED SUBSTANCES, RIGHTS AND INVENTIONS/1435. Compulsory acquisition of contractual rights.

1435. Compulsory acquisition of contractual rights.

The Secretary of State¹ may serve on any person who is a party to a contract relating to the production or use of atomic energy² or research into matters connected with it, which is not a contract for the rendering of personal services, a notice in writing stating that on such date as may be specified in the notice his rights and liabilities under the contract will be transferred to the Secretary of State³. Subject to any withdrawal of the notice⁴, the contract thereupon has effect as regards any rights exercisable, or liabilities incurred, on or after the specified date, as if the Secretary of State were a party to the contract instead of the person on whom the notice was served, and as if for any reference in the contract to that person there were substituted a reference to the Secretary of State⁵.

The notice must contain a statement that an objection may be made to it within such time and in such manner as may be specified; and if any such objection is duly made and not withdrawn the Secretary of State must afford an opportunity to the person making the objection of appearing before, and being heard by, a person appointed by the Secretary of State for the purpose⁶. After considering any such objection and the report of the person appointed, the Secretary of State may withdraw the original notice by the service of a further written notice⁷.

The Secretary of State may store, transport or dispose of any articles⁸ acquired by him in or by reason of the exercise of the above powers⁹, and may do all things as appear to him to be necessary or expedient for the exercise of those powers¹⁰.

Where the rights and liabilities of a party to a contract are thus transferred to the Secretary of State, there must be paid to that party such compensation in respect of any loss suffered by him as may be agreed between him and the Secretary of State with the Treasury's approval, or, in default of such agreement, as may be determined by arbitration¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'atomic energy' see PARA 1357 note 1 ante; and as to the production or use of atomic energy see PARA 1366 note 3 ante.

UPDATE

1436 Control of importation and exportation

NOTE 2--SI 2003/2764 replaced: Export Control Order 2008, SI 2008/3231 (see TRADE AND INDUSTRY vol 97 (2010) PARA 817 et seq).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(i) Control of Supply/1437. Control of sale and supply.

1437. Control of sale and supply.

The Medicines Act 1968¹ provides a framework for the regulation and control of all dealings with medicinal products² which superseded former legislation dealing specifically with the control and supply of radioactive substances³. The Act contains provisions enabling ministers⁴ to apply the statutory provisions, and the regulations relating to clinical trials⁵, to substances other than medicinal products⁶.

The Secretary of State⁷ has by regulations applied certain provisions of the Medicines Act 1968 relating to the licensing of the sale, supply, import, export, manufacture and assembly of medicinal products to radiopharmaceutical kits, generators and precursors⁸. Regulations have also been made under which medicinal products based on radioactive isotopes (other than isotopes based on sealed sources) became licensable under the Act⁹.

1 For the framework of regulation and control under the Medicines Act 1968 see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 1 et seq.

2 'Medicinal products' are defined in ibid s 130 (as amended): see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 7.

3 Ie the Radioactive Substances Act 1948 ss 3, 4 (repealed).

4 As to the ministers responsible see the Medicines Act 1968 s 1(1) (as amended); and MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 3.

5 Ie the Medicines for Human Use (Clinical Trials) Regulations 2004, SI 2004/1031 (as amended): see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 82 et seq.

6 See the Medicines Act 1968 s 104(1) (as amended); and MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 9. As to the exercise of this power see the Medicines (Radioactive Substances) Order 1978, SI 1978/1004, art 2, Schedule, which applies specified provisions of the Medicines Act 1968 to (1) interstitial and intracavitary appliances (other than nuclear powered cardiac pacemakers) which contain or are to contain a radioactive substance sealed in a container (otherwise than solely for the purpose of storage, transport or disposal) or bonded solely within material and including the immediate container or bonding that are designed to be inserted into the human body or body cavities; (2) surface applicators, ie plates, plaques and ophthalmic applicators which contain or are to contain a radioactive substance sealed in a container (otherwise than solely for the purpose of storage, transport or disposal) or bonded solely within material and including the immediate container or bonding that are designed to be brought into contact with the human body; (3) any apparatus capable of administering neutrons to human beings when the neutrons are administered in order to generate a radioactive substance in the person to whom they are administered for the purpose of diagnosis or research; and (4) other substances or articles (not being an instrument, apparatus or appliance) which consist of or contain or generate a radioactive substance and which (a) consist of or contain or generate that substance in order, when administered, to utilise the radiation emitted therefrom; and (b) are manufactured, sold or supplied for use wholly or mainly by being administered to one or more human beings solely by way of a test for ascertaining what effects it has when so administered. 'Radioactive substance' for the purposes of this legislation means any substance containing one or more radionuclides of which the activity or concentration cannot be disregarded as far as radiation protection is concerned: art 1(2). The specified provisions so applied are the provisions contained in the Medicines Act 1968 Pt I (ss 1-5) (as amended) (administration: see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 1 et seq); s 60 (as amended) (restrictions on sale, supply and administration of certain medicines: see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 143); s 67(2), (4) (as amended) (provisions about offences: see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 48); and Pt VIII (ss 104-136) (as amended) (miscellaneous and supplementary provisions): Medicines (Radioactive Substances) Order 1978, SI 1978/1004, art 2. For the exercise of the extended power under the Medicines Act 1968 s 60 (as amended) in relation to the administration of radioactive medicinal products see PARA 1438 note 3 post.

7 le the Secretary of State for Health acting under the European Communities Act 1972 s 2(2).

8 See the Medicines Act 1968 (Application to Radiopharmaceutical-associated Products) Regulations 1992, SI 1992/605 (amended by SI 2005/2754; SI 2006/2407). A radiopharmaceutical product for human use is exempted from the requirement for a product licence imposed by the Medicines Act 1968 s 7 (as amended) (see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 44) if it is prepared from a kit, generator or precursor which itself has a product licence under the Act, where the product is prepared at the time of its administration and where that administration is not a contravention of the Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006 (as amended) (see PARA 1438 post): Medicines (Exemption from Licensing) (Radiopharmaceuticals) Order 1992, SI 1992/2844, art 2. This order, and the Medicines Act 1968 (Application to Radiopharmaceutical-associated Products) Regulations 1992, SI 1992/605 (as amended), implement in the United Kingdom EC Council Directive 89/343 (OJ L142, 25.5.89, p 16) (repealed: see now European Parliament and EC Council Directive 2001/83 (OJ L311, 28.11.2001, p 67) (as amended) which is implemented in the United Kingdom by the Medicines (Codification Amendments Etc) Regulations 2002, SI 2002/236 (as amended): see MEDICINAL PRODUCTS AND DRUGS).

NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(i) Control of Supply/1438. Medical administration of radioactive substances.

1438. Medical administration of radioactive substances.

The responsible ministers¹ have made regulations² prohibiting the administration of radioactive medicinal products to human beings (other than self-administration) except by doctors and dentists holding a certificate issued by the ministers in respect of such products or by persons acting under the directions of such a doctor or dentist, and except in accordance with any specifications in that certificate as to descriptions or classes of products which may be administered and as to purposes for which they may be administered³.

¹ As to the ministers responsible see the Medicines Act 1968 s 1(1) (as amended); and MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 3.

² For this purpose the statutory provisions enabling the ministers to make regulations are the Medicines Act 1968 s 60 (as amended) and the European Communities Act 1972 s 2(2): see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 143. In so far as the Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006 (as amended), are not made under the Medicines Act 1968 s 60 (as amended) they are to be treated for the purposes of s 67(2), (4) (as amended) (provisions about offences: see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 48) and Pt VIII (ss 104-136) (as amended) (miscellaneous and supplementary provisions), and of any order or regulations made under that Act, as though they were regulations made under s 60 (as amended) and any certificate issued under those regulations is to be treated as being issued for the purposes of the Medicines Act 1968 s 60 (as amended): Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006, art 8(2) (added by SI 1995/2147). The Medicines Act 1968 s 6(2) (see MEDICINAL PRODUCTS AND DRUGS vol 30(2) (Reissue) PARA 43) applies to functions conferred on the ministers by the 1978 Regulations as it applies to functions conferred on the licensing authority by or under that Act: Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006, art 8(1) (as so added; amended by SI 2006/2407).

³ See the Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006, art 2 (substituted by SI 2006/2806). As to granting, issue, duration and renewal of certificates see the Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006, regs 4-5 (as amended); and as to the suspension, revocation and variation of certificates see reg 6 (as amended). Applicants may be heard or may make written representations before a certificate is refused, suspended, varied or revoked (see reg 7 (as amended)); and a committee (the Administration of Radioactive Substances Advisory Committee) may be appointed to advise the ministers (see reg 3 (as amended)). The Medicines (Administration of Radioactive Substances) Regulations 1978, SI 1978/1006 (as amended) implement in the United Kingdom the provisions of Euratom Council Directive 76/579 (OJ L187, 12.7.76, p 1) (as amended).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1439. Prohibition on use of unregistered premises.

(ii) Control of Keeping, Use, Disposal and Accumulation

A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS

1439. Prohibition on use of unregistered premises.

No person may on any premises¹ which are used for the purposes of an undertaking² carried on by him, keep or use, or cause or permit to be kept or used, radioactive material of any description³, knowing or having reasonable grounds for believing it to be such material, unless either:

- 3875 (1) he is registered⁴ in respect of those premises and in respect of the keeping and use on them of radioactive material of that description; or
- 3876 (2) he is exempted from such registration⁵; or
- 3877 (3) the radioactive material in question consists of mobile radioactive apparatus⁶ in respect of which he is registered⁷ or exempted⁸ from such registration⁹.

'Radioactive material' means anything which, not being waste¹⁰, is a substance¹¹ falling within either one or both of the following descriptions, or an article¹² made wholly or partly from, or incorporating such a substance¹³, namely:

- 3878 (a) a substance containing a specified element¹⁴ in such a proportion that the number of becquerels of that element contained in the substance, divided by the number of grams which the substance weighs, is a number greater than that specified¹⁵ in relation to that element¹⁶; or
- 3879 (b) a substance possessing radioactivity which is wholly or partly attributable to a process of nuclear fission or other process of subjecting a substance to bombardment by neutrons or to ionising radiations, not being a process occurring in the course of nature or in consequence of the disposal of radioactive waste¹⁷ or by way of contamination¹⁸ in the course of an application of a process to some other substance¹⁹.

1 'Premises' includes any land, whether covered by buildings or not, including any place under ground, and any land covered by water: Radioactive Substances Act 1993 s 47(1). It includes the plant on a site: *R v Inspectorate of Pollution, ex p Greenpeace Ltd (No 2)* [1994] 4 All ER 329 at 342, [1994] 2 CMLR 548 at 561 per Otton J. As to the application of the Radioactive Substances Act 1993 to the Crown see s 42 (as amended); and PARA 1441 post. As to the extension of the territorial application of the Act to certain installations in designated areas on the continental shelf see PARA 1357 note 8 ante.

2 'Undertaking' includes any trade, business or profession, and in relation to a public or local authority includes any of the powers or duties of that authority, and in relation to any other body of persons, whether corporate or unincorporate, includes any of the activities of that body: *ibid* s 47(1). 'Public or local authority', in relation to England and Wales, includes a water undertaker or a sewerage undertaker: s 47(1). As to water

undertakers and the services provided by them see WATER AND WATERWAYS vol 100 (2009) PARA 134 et seq, 318 et seq; and as to sewerage undertakers and the services provided by them see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 999 et seq.

3 In determining for these purposes whether any radioactive material is kept or used on any premises, no account is to be taken of any radioactive material kept or used in or on any railway vehicle, road vehicle, vessel or aircraft if either (1) the vehicle, vessel or aircraft is on those premises in the course of a journey; or (2) in the case of a vessel which is on those premises otherwise than in the course of a journey, the material is used in propelling the vessel or is kept in or on the vessel for use in propelling it: *ibid* s 47(3). A reference in the Radioactive Substances Act 1993 to the keeping or use of radioactive material means, in relation to a high-activity source, any practice in relation to that source except the disposal or accumulation of the source: and 'practice' must be construed in accordance with Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1) laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation: Radioactive Substances Act 1993 s 47(5A) (added by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 17(2)). 'High-activity source' has the same meaning as it has in Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57) on the control of high-activity sealed radioactive sources and orphan sources ('the HASS Directive') (ie a sealed source containing a radionuclide whose activity at the time of manufacture or, if this is not known, of the first placing on the market is equal to or exceeds the relevant activity level specified in Annex I: see art 2(b)); but excluding any such source once its activity level has fallen below the exemption levels specified in Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1), Annex I, Table A col 2: Radioactive Substances Act 1993 s 47(1) (definitions added by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 17(1)(a)). 'Sealed source' has the meaning given to it by Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1) (ie an apparatus, a radioactive substance or an installation capable of emitting ionising radiation or radioactive substances (a 'source') whose structure is such as to prevent, under normal conditions of use, any dispersion of the radioactive substances into the environment (see art 1)) and includes the capsule, where applicable, enclosing the radioactive material as an integral part of the source: Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57), art 2(k).

4 *Ie* under the Radioactive Substances Act 1993 s 7 (as amended): see PARAS 1442-1443 post.

5 As to exemption see PARA 1440 post.

6 For the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 post.

7 *Ie* under the Radioactive Substances Act 1993 s 10 (as amended): see PARAS 1447-1448 post.

8 As to exemption see PARA 1446 post.

9 Radioactive Substances Act 1993 s 6. Contravention of s 6 is an offence: s 32(1)(a). As to penalties see s 32(2) (as amended); and PARA 1584 post. Notwithstanding registration or exemption from it, a permit is required before a nuclear site may be used for the treatment of irradiated matter or uranium in a specified manner: see PARA 1489 post.

10 For the meaning of 'waste' see PARA 1450 note 2 post.

11 'Substance' means any natural or artificial substance, whether in solid or liquid form or in the form of a gas or vapour: Radioactive Substances Act 1993 s 47(1).

12 'Article' includes part of an article: *ibid* s 47(1).

13 *Ibid* s 1(1).

14 The specified elements are actinium, lead, polonium, protoactinium, radium, radon, thorium and uranium: *ibid* s 1(2)(a), Sch 1; but see note 15 *infra*.

15 *Ie* specified in the appropriate column of *ibid* Sch 1: s 1(2)(a). 'The appropriate column' means (1) in relation to a solid substance, Sch 1 col 2; (2) in relation to a liquid substance, Sch 1 col 3; and (3) in relation to a substance which is a gas or vapour, Sch 1 col 4: s 1(3). The Secretary of State may by order vary the provisions of Sch 1 either by adding further entries or by altering or deleting any entry: s 1(5). This power is not transferred to the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. At the date at which this title states the law, no such order had been made. As to the Secretary of State see PARA 601 note 1 *ante*; and as to the application of this provision to Northern Ireland see s 1(6).

16 *Ibid* s 1(2)(a).

17 For the meaning of 'radioactive waste' see PARA 1450 note 3 post; and for the meaning of 'disposal' in relation to waste see PARA 1450 note 2 post.

18 For these purposes, any reference to the contamination of a substance or article is a reference to its being so affected by either or both of the following, ie (1) absorption, admixture or adhesion of radioactive material or radioactive waste; and (2) the emission of neutrons or ionising radiations, as to become radioactive or to possess increased radioactivity: Radioactive Substances Act 1993 s 47(5).

19 Ibid s 1(2)(b). A substance is not treated as radioactive material for the purposes of s 1(2)(b) if the level of radioactivity is less than such a level as may be prescribed for substances of that description: s 1(4). 'Prescribed' in this context means prescribed by regulations made under the Radioactive Substances Act 1993: s 47(1) (definition substituted by the Energy Act 2004 s 75, Sch 15 paras 1, 13). At the date at which this title states the law, no regulations had been made for these purposes and none had effect as if so made.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1440. Exemptions from registration of premises.

1440. Exemptions from registration of premises.

In respect of all premises¹, except those in which clocks or watches are manufactured or repaired by processes involving the use of luminous material², all persons are exempted from registration in respect of the keeping and use thereon of clocks and watches which are radioactive material³.

At any time while a nuclear site licence⁴ is in force in respect of a site, and at any time after the revocation or surrender of that licence⁵ but before the licensee's period of responsibility⁶ has come to an end, the licensee is exempted from registration in respect of the premises and the keeping and use thereon of radioactive material of every description⁷. Where, however, in the case of any such premises, it appears to the Environment Agency ('the Agency')⁸ that, if the licensee had been required to apply for registration⁹ in respect of those premises, the Agency would have imposed certain conditions¹⁰, the Agency may direct that the exemption so conferred is to have effect subject to such conditions (being conditions which in the opinion of the Agency correspond to those which it would so have imposed) as may be specified in the direction¹¹.

The Secretary of State¹² may by order grant further exemptions from registration by reference to such classes of premises and undertakings¹³ and such descriptions of radioactive material as may be specified in the order¹⁴. Any exemption so granted may be granted subject to such limitations or conditions as may be specified in the order¹⁵.

1 For the meaning of 'premises' see PARA 1439 note 1 ante.

2 See the Radioactive Substances Act 1993 s 8(5).

3 Ibid s 8(4), (5). For the meaning of 'radioactive material' generally see PARA 1439 ante; and as to its keeping and use on premises see PARA 1439 note 3 ante.

4 For the meaning of 'nuclear site licence' see PARA 1487 note 1 post (definition applied by the Radioactive Substances Act 1993 s 47(1)).

5 As to the revocation and surrender of licences see PARA 1494 post.

6 For the meanings of 'licensee' and 'period of responsibility' see PARAS 1490 note 11, 1494 note 7 respectively post (definitions applied by the Radioactive Substances Act 1993 s 47(1)).

7 Ibid s 8(1). Notwithstanding exemption from registration under the Act a permit is required before a nuclear site may be used for the treatment of irradiated matter or uranium in a specified manner: see PARA 1489 post.

8 The statutory wording is 'the appropriate Agency'. 'The appropriate Agency' means, in relation to England and Wales, the Environment Agency: *ibid* s 47(1) (definition added by the Environment Act 1995 s 120, Sch 22 para 227(2), (7)). As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

9 *Ie* under the Radioactive Substances Act 1993 s 7 (as amended): see PARA 1442 post.

10 *Ie* conditions under *ibid* s 7(6)(b) (as amended) or s 7(6)(c): see PARA 1443 post at heads (b)-(c) in the text.

11 Ibid s 8(2) (s 8(2), (3) amended by the Environment Act 1995 Sch 22 paras 200, 203). The Environment Agency must furnish the licensee with a copy of any direction imposing such conditions: Radioactive Substances Act 1993 s 8(3) (as so amended). As to the responsibility of a licensee after revocation or surrender of his licence see PARA 1494 post.

12 As to the Secretary of State see PARA 601 note 1 ante.

13 For the meaning of 'undertaking' see PARA 1439 note 2 ante.

14 Radioactive Substances Act 1993 s 8(6). This power is not transferred to the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. In the exercise of this power the Secretary of State has made the following orders: (1) the Radioactive Substances (Hospitals) Exemption (Amendment) Order 1995, SI 1995/2395; (2) the Radioactive Substances (Natural Gas) Exemption Order 2002, SI 2002/1177; (3) the Radioactive Substances (Testing Instruments) (England and Wales) Exemption Order 2006, SI 2006/1500. In addition, by virtue of the Interpretation Act 1978 s 17(2)(b), a number of orders made under the Radioactive Substances Act 1960 s 2(6) (repealed and replaced by the Radioactive Substances Act 1993 ss 8(6), 50, Sch 6)) continue in force: see eg (a) the Radioactive Substances (Exhibitions) Exemption Order 1962, SI 1962/2645; (b) the Radioactive Substances (Phosphatic Substances, Rare Earths etc) Exemption Order 1962, SI 1962/2648; (c) the Radioactive Substances (Geological Specimens) Exemption Order 1962, SI 1962/ 2712; (d) the Radioactive Substances (Smoke Detectors) Exemption Order 1980, SI 1980/953 (as amended); (e) the Radioactive Substances (Hospitals) Exemption Order 1990, SI 1990/2512 (as amended). Heads (a)-(e) are by way of example only and do not constitute an exhaustive list.

15 Radioactive Substances Act 1993 s 8(7). As to the application of s 8 (as amended) to Northern Ireland see s 8(8).

UPDATE

1440 Exemptions from registration of premises

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1441. Crown exemption.

1441. Crown exemption.

The statutory provisions for regulating the keeping and use of radioactive material etc and the disposal and accumulation of radioactive waste¹ bind the Crown except that they do not apply in relation to premises² occupied on behalf of the Crown for naval, military or air force purposes or for the purposes of the department of the Secretary of State having responsibility for defence³, or occupied by or for the purposes of a visiting force⁴. No contravention by the Crown of any such statutory provision makes the Crown criminally liable; but on the application of any authority charged with enforcing that provision, the High Court may declare unlawful any act or omission of the Crown which constitutes such a contravention⁵. The statutory provisions apply, however, to persons in the public service of the Crown as they apply to other persons⁶.

Nothing in these provisions is to be taken as in any way affecting Her Majesty in her private capacity⁷.

¹ I.e. the provisions of the Radioactive Substances Act 1993: see in particular para 1439 ante, PARAS 1445, 1450, 1452 post.

² For the meaning of 'premises' see PARA 1439 note 1 ante.

³ I.e. the Ministry of Defence.

⁴ Radioactive Substances Act 1993 s 42(1), (2). 'Visiting force' means any such body, contingent or detachment of the forces of any country as is a visiting force for the purposes of any of the provisions of the Visiting Forces Act 1952: Radioactive Substances Act 1993 s 42(8); and see ARMED FORCES. As to the disposal of radioactive waste from exempted premises occupied by the Crown, a government department or visiting forces see s 42(6) (as amended); and PARAS 1455, 1462 post. Under the Nuclear Installations Act 1965, government departments are liable for the emission of ionising radiations, but are otherwise exempt from the provisions of that Act: see s 7 (as amended), s 9; and PARA 1495 the text and note 12 post.

⁵ Radioactive Substances Act 1993 s 42(3).

⁶ Ibid s 42(4).

⁷ Ibid s 42(7). Section 42(7) is to be construed as if the Crown Proceedings Act 1947 s 38(3) (interpretation of references to Her Majesty in her private capacity) were contained in the Radioactive Substances Act 1993: s 42(7). As to the application of s 42 to Northern Ireland see s 42(9).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1442. Applications for registration of premises.

1442. Applications for registration of premises.

An application for registration¹ in respect of premises² and the keeping and use thereon of radioactive material³ must be made to the Environment Agency ('the Agency')⁴ specifying:

- 3880 (1) the premises to which the application relates;
- 3881 (2) the undertaking⁵ for the purposes of which those premises are used;
- 3882 (3) the description or descriptions of radioactive material proposed to be kept or used on the premises, and the maximum quantity of such material of each such description likely to be kept or used there at any one time; and
- 3883 (4) the manner, if any, in which radioactive material is proposed to be used on the premises⁶.

The application must contain such other information as may be prescribed⁷ and must be accompanied by the charge prescribed⁸ for the purpose⁹.

The Agency must send a copy of the application to each local authority¹⁰ in whose area the premises are situated, but this is subject to any direction¹¹ that knowledge of any particular application should be restricted on grounds of national security¹². There is a right of public access to local authority records relating to documents sent to the authority in connection with applications for registration¹³.

1 le under the Radioactive Substances Act 1993 s 7 (as amended): see the text and notes 2-12 *infra*. As to the requirement of registration see PARA 1439 *ante*.

2 For the meaning of 'premises' see PARA 1439 note 1 *ante*.

3 For the meaning of 'radioactive material' see PARA 1439 *ante*; and as to its keeping and use on premises see PARA 1439 note 3 *ante*.

4 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 *ante*. As to the Environment Agency see PARA 1390 *ante*; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 *et seq*; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 7 (as amended) with regard to high-activity and other sealed sources see PARA 1464 *post*.

5 For the meaning of 'undertaking' see PARA 1439 note 2 *ante*.

6 Radioactive Substances Act 1993 s 7(1)(a), (2) (s 7(1), (3) amended by the Environment Act 1995 s 120, Sch 22 paras 200, 202(1)).

7 Radioactive Substances Act 1993 s 7(1)(b). For the meaning of 'prescribed' in this context see PARA 1439 note 19 *ante*. At the date at which this title states the law, no regulations had been made prescribing information under s 7(1) (as amended). As to the making of such regulations see PARA 1361 the text and note 4 *ante*.

8 le prescribed for the purpose by a charging scheme under the Environment Act 1995 s 41 (as amended): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 97. 'Prescribed', in relation to such a charging scheme, has the same meaning as in s 41 (as amended): Radioactive Substances Act 1993 s 47(1) (definition substituted by the Energy Act 2004 s 75, Sch 15 paras 1, 13).

9 Radioactive Substances Act 1993 s 7(1)(c) (as amended: see note 6 supra).

10 'Local authority' (except where the reference is to a public or local authority: see PARA 1439 note 2 ante) means (1) in England, the council of a county, district or London borough or the Common Council of the City of London or an authority established by the Waste Regulation and Disposal (Authorities) Order 1985, SI 1985/1884 (as amended) (see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 620); (2) in Wales, the council of a county or county borough; and (3) in Northern Ireland, a district council: Radioactive Substances Act 1993 s 47(1) (definition amended for these purposes by the Local Government (Wales) Act 1994 s 66(6), (8), Sch 16 para 102, Sch 18).

11 le subject to any direction under the Radioactive Substances Act 1993 s 25 (as amended): see PARA 1572 post.

12 Ibid s 7(3) (as amended: see note 6 supra); and see s 25(3) (as amended); and PARA 1572 post.

13 See ibid s 39 (as amended); and PARA 1567 post.

UPDATE

1442-1444 Applications for registration of premises ... Certificate of registration

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1443. Environment Agency's powers as to registration of premises.

1443. Environment Agency's powers as to registration of premises.

Where an application is made to the Environment Agency ('the Agency')¹ for registration² in respect of any premises³, the Agency may either:

- 3884 (1) register the applicant in respect of those premises and the keeping and use thereon of radioactive material⁴ of the description to which the application relates⁵; or
- 3885 (2) if the application relates to two or more descriptions of radioactive material, register the applicant in respect of the premises and the keeping and use thereon of such one or more of those descriptions of radioactive material as may be specified in the registration⁶; or
- 3886 (3) refuse the application⁷.

Registration may be effected subject to such limitations and conditions as the Agency thinks fit⁸; and in particular may be effected subject to conditions:

- 3887 (a) imposing requirements, including, if the Agency thinks fit, requirements involving structural or other alterations, in respect of any part of the premises, or in respect of any apparatus, equipment or appliance used or to be used on any part of the premises for the purposes of any use of radioactive material from which radioactive waste⁹ is likely to arise¹⁰;
- 3888 (b) requiring the person to whom the registration relates, at such times and in such manner as may be specified in the registration, to furnish the Agency with information as to the removal of radioactive material from those premises to any other premises¹¹; and
- 3889 (c) prohibiting radioactive material from being sold or otherwise supplied from those premises unless it, or the container in which it is supplied, bears a label or other mark indicating that it is radioactive material, or, if the conditions so require, indicating the description of radioactive material to which it belongs, and in either case complying with any relevant requirements specified in the conditions¹².

In the exercise of any power so conferred on it, the Agency must have regard exclusively to the amount and character of the radioactive waste likely to arise from the keeping or use of radioactive material on the premises in question¹³; but this does not apply:

- 3890 (i) in relation to high-activity sources¹⁴ and to other sealed sources which, in the opinion of the Agency, are of a similar level of potential hazard to high-activity sources; or
- 3891 (ii) in determining whether to impose any conditions falling within head (b) or head (c) above¹⁵.

1 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 7 (as amended) with regard to high-activity and other sealed sources see PARA 1464 post.

2 le under *ibid* s 7 (as amended): see PARA 1442 ante; and the text and notes 3-15 *infra*.

3 For the meaning of 'premises' see PARA 1439 note 1 ante.

4 For the meaning of 'radioactive material' see PARA 1439 ante; and as to its keeping and use on premises see PARA 1439 note 3 ante.

5 Radioactive Substances Act 1993 s 7(4)(a) (s 7(4)-(7) amended by the Environment Act 1995 s 120, Sch 22 para 200).

6 Radioactive Substances Act 1993 s 7(4)(b) (as amended: see note 5 *supra*).

7 *Ibid* s 7(4)(c) (as amended: see note 5 *supra*). Where the Agency refuses an application the applicant may appeal to the Secretary of State or, in relation to Wales, to the Welsh Ministers: see s 26(1) (as amended); and PARA 1471 post. An application for registration under s 7 (as amended) which is duly made to the Agency may be treated by the applicant as having been refused if it is not determined within the prescribed period for determinations or such longer period as may be agreed with the applicant: s 7(5) (as so amended). 'The prescribed period for determinations', in relation to any application under the Radioactive Substances Act 1993, means, subject to s 47(2), the period of four months beginning with the day on which the application was received: 47(1). The Secretary of State or, in relation to Wales, the Welsh Ministers may by order substitute for the period for the time being so specified such other period as he considers or they consider appropriate: see s 47(2). At the date at which this title states the law, no such order had been made. As to the Secretary of State and the Welsh Ministers, and the transfer of functions in relation to Wales, see PARA 601 note 1 ante.

8 *Ibid* s 7(6) (as amended: see note 5 *supra*). The applicant has a right of appeal to the Secretary of State or the Welsh Ministers against the attachment of any limitations or conditions: see s 26(1) (as amended); and PARA 1471 post. To facilitate the exercise of any power under the Radioactive Substances Act 1993 to grant registrations subject to limitations or conditions, the Secretary of State or, in relation to Wales, the Welsh Ministers, may make regulations by statutory instrument setting out general limitations or conditions applicable to specified classes of cases; and any limitations or conditions so specified are deemed to be attached to any registration falling within the class to which they are expressed to be applicable, subject to any exceptions or modifications specified in the registration see: s 44(2), (3). At the date at which this title states the law, no such regulations had been made. As to the making of regulations see PARA 1361 the text and note 4 ante.

9 For the meaning of 'radioactive waste' see PARA 1450 note 3 post.

10 Radioactive Substances Act 1993 s 7(6)(a) (as amended: see note 5 *supra*).

11 *Ibid* s 7(6)(b) (as amended: see note 5 *supra*).

12 *Ibid* s 7(6)(c).

13 *Ibid* s 7(7) (as amended (see note 5 *supra*); also amended by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 9(a)).

14 For the meaning of 'high-activity source' see PARA 1439 note 3 ante.

15 Radioactive Substances Act 1993 s 7(7A) (added by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 9(b)).

UPDATE

1442-1444 Applications for registration of premises ... Certificate of registration

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1444. Certificate of registration.

1444. Certificate of registration.

On registering a person¹ in respect of any premises² the Environment Agency ('the Agency')³ must furnish him with a certificate which contains all material particulars of the registration or gives sufficient information as to the particulars to enable them to be ascertained⁴. Subject to any direction to the Agency that knowledge of the registration should be restricted for reasons of national security⁵, the Agency must also send a copy of the certificate to each local authority⁶ in whose area the premises are situated⁷. The person to whom the registration relates must at all times cause copies of the certificate to be kept posted on the premises in such characters and in such positions as to be conveniently read by persons having duties on those premises which are or may be affected by the matters set out in the certificate⁸.

1 Ie under the Radioactive Substances Act 1993 s 7 (as amended): see PARAS 1442-1443 ante.

2 For the meaning of 'premises' see PARA 1439 note 1 ante.

3 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 7 (as amended) with regard to high-activity and other sealed sources see PARA 1464 post.

4 Ibid s 7(8)(a) (substituted by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 9(c)).

5 Ie subject to any direction under the Radioactive Substances Act 1993 s 25 (as amended): see PARA 1572 post.

6 For the meaning of 'local authority' see PARA 1442 note 10 ante.

7 Radioactive Substances Act 1993 s 7(8)(b) (amended by the Environment Act 1995 s 120, Sch 22 para 200).

8 Ibid s 19. Contravention of this provision is an offence: s 33(1). As to the prosecution of the offence see PARA 1586 post; and as to the penalties see PARAS 1584, 1588 post.

UPDATE

1442-1444 Applications for registration of premises ... Certificate of registration

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1445. Prohibition on keeping etc of unregistered mobile radioactive apparatus.

1445. Prohibition on keeping etc of unregistered mobile radioactive apparatus.

No person may keep, use, lend or let on hire, or cause or permit to be kept, used, lent or let on hire, mobile radioactive apparatus¹ of any description for the purpose of activities involving the use of the apparatus concerned for:

- 3892 (1) testing, measuring or otherwise investigating any of the characteristics of substances² or articles³; or
- 3893 (2) releasing quantities of radioactive material into the environment or introducing such material into organisms,

unless he is either registered in respect of that apparatus or exempted from registration⁴ in respect of mobile radioactive apparatus of that description⁵.

1 'Mobile radioactive apparatus' means any apparatus, equipment, appliance or other thing which is radioactive material and is (1) constructed or adapted for being transported from place to place; or (2) is portable and designed or intended to be used for releasing radioactive material into the environment or introducing it into organisms: Radioactive Substances Act 1993 s 3. For the meaning of 'radioactive material' see PARA 1439 ante.

2 For the meaning of 'substance' see PARA 1439 note 11 ante.

3 For the meaning of 'article' see PARA 1439 note 12 ante.

4 As registration see the Radioactive Substances Act 1993 s 10; and PARAS 1447-1448 post; and as to exemption see s 11; and PARA 1440 post.

5 Ibid s 9(1), (2). Contravention of s 9 is an offence: s 32(1)(a). As to penalties see s 32(2) (as amended); and PARA 1584 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1446. Exemptions from registration in respect of mobile radioactive apparatus.

1446. Exemptions from registration in respect of mobile radioactive apparatus.

The Secretary of State¹ may by order² grant exemption from registration in respect of mobile radioactive apparatus³, by reference to such classes of persons, and such descriptions of mobile radioactive apparatus, as may be specified in the order⁴. Any exemption granted by such an order may be granted subject to such limitations or conditions as may be specified in the order⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the making of orders see PARA 1361 the text and note 4 ante.

3 The exemption from registration under the Radioactive Substances Act 1993 s 10 (as amended): see PARAS 1447-1448 post. For the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante.

4 Ibid s 11(1). This power is not transferred to the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. In the exercise of this power, the Secretary of State has made the Radioactive Substances (Testing Instruments) (England and Wales) Exemption Order 2006, SI 2006/1500. In addition, by virtue of the Interpretation Act 1978 s 17(2)(b), the Radioactive Substances (Electronic Valves) Exemption Order 1967, SI 1967/1797, which was made under the Radioactive Substances Act 1960 s 2(6) (repealed and replaced by the Radioactive Substances Act 1993 ss 8(6), 50, Sch 6)) continues in force.

5 Radioactive Substances Act 1993 s 11(2). As to the application of s 11 to Northern Ireland see s 11(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1447. Applications for registration of mobile radioactive apparatus.

1447. Applications for registration of mobile radioactive apparatus.

An application for the registration of mobile radioactive apparatus¹ must be made to the Environment Agency ('the Agency')² specifying the apparatus to which the application relates and the manner in which it is proposed to use the apparatus³ and containing such other information as may be prescribed⁴. It must be accompanied by the charge prescribed⁵ for the purpose⁶. Subject to any direction to the Agency that knowledge of the registration should be restricted for reasons of national security⁷, the Agency must send a copy of the application to each local authority⁸ in whose area it appears to the Agency that the apparatus will be kept or will be used for releasing radioactive material into the environment⁹.

1 For the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante.

2 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 10 (as amended) with regard to high-activity and other sealed sources see PARA 1464 post.

3 Ibid s 10(1)(a) (s 10(1), (3) amended by the Environment Act 1995 s 120, Sch 22 paras 200, 204).

4 Radioactive Substances Act 1993 s 10(1)(b) (as amended: see note 3 supra). For the meaning of 'prescribed' in this context see PARA 1439 note 19 ante. At the date at which this title states the law, no information had been so prescribed.

5 I.e. prescribed for the purpose by a charging scheme under the Environment Act 1995 s 41 (as amended): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 97. For the meaning of 'prescribed' in this context see PARA 1442 note 8 ante.

6 Radioactive Substances Act 1993 s 10(1)(c) (as amended: see note 3 supra).

7 I.e. subject to any direction under the Radioactive Substances Act 1993 s 25 (as amended): see PARA 1572 post.

8 For the meaning of 'local authority' see PARA 1442 note 10 ante.

9 Radioactive Substances Act 1993 s 10(3).

UPDATE

1447-1449 Applications for registration of mobile radioactive apparatus ... Cancellation and variation of registration; in general

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1448. Environment Agency's powers as to registration of mobile radioactive apparatus; certificate of registration.

1448. Environment Agency's powers as to registration of mobile radioactive apparatus; certificate of registration.

Where an application is made to the Environment Agency ('the Agency')¹ for registration in respect of any mobile radioactive apparatus², the Agency may register the applicant in respect of that apparatus either unconditionally, or subject to such limitations or conditions as it thinks fit, or it may refuse the application³. If the Agency registers the applicant, it must furnish him with a certificate which contains all material particulars of the registration or gives sufficient information as to the particulars to enable them to be ascertained⁴. Subject to any direction to the Agency that knowledge of the registration should be restricted for reasons of national security⁵, the Agency must also send a copy of the certificate to each local authority⁶ in whose area it appears to the Agency that the apparatus will be kept or will be used for releasing radioactive material into the environment⁷.

1 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 10 (as amended) with regard to high-activity and other sealed sources see PARA 1464 post.

2 *Ie* under *ibid* s 10 (as amended): see PARA 1447 ante. For the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante.

3 *Ibid* s 10(2) (s 10(2), (4), (5) amended by the Environment Act 1995 s 120, Sch 22 paras 200, 204(2)). An application for registration which is duly made to the Agency may be treated by the applicant as having been refused if it is not determined within the prescribed period for determinations or within such longer period as may be agreed with the applicant: Radioactive Substances Act 1993 s 10(4) (as so amended). For the meaning of 'the prescribed period for determinations', and as to the Secretary of State's or the Welsh Ministers' powers to vary this period, see PARA 1443 note 7 ante. As to rights of appeal to the Secretary of State or the Welsh Ministers if the Agency refuses an application, or registers the applicant in respect of the apparatus subject to limitations or conditions, see PARA 1471 post; and as to the Secretary of State and the Welsh Ministers see PARA 601 note 1 ante.

4 *Ibid* s 10(5)(a) (substituted by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 10).

5 *Ie* subject to any direction under the Radioactive Substances Act 2003 s 25 (as amended): see PARA 1572 post.

6 For the meaning of 'local authority' see PARA 1442 note 10 ante.

7 Radioactive Substances Act 1993 s 10(5)(b) (as amended: see note 3 supra).

UPDATE

1447-1449 Applications for registration of mobile radioactive apparatus ... Cancellation and variation of registration; in general

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/A. REGULATION OF KEEPING AND USE ETC OF RADIOACTIVE MATERIAL AND MOBILE RADIOACTIVE APPARATUS/1449. Cancellation and variation of registration; in general.

1449. Cancellation and variation of registration; in general.

Where any person is for the time being registered in respect of premises or mobile radioactive apparatus¹, the Environment Agency ('the Agency')² may at any time cancel the registration or may vary it:

- 3894 (1) where the registration has effect without limitations or conditions, by attaching limitations or conditions to it³; or
- 3895 (2) where the registration has effect subject to limitations or conditions, by revoking or varying any of those limitations or conditions or by or attaching further limitations or conditions to the registration⁴.

These powers are exercisable with or without the making of an application by the person holding the registration⁵.

On so cancelling or varying a registration the Agency must give notice of the cancellation or variation to the person to whom the registration relates and, if a copy of the certificate of registration was sent to a local authority⁶, the Agency must send a copy of the notice of cancellation or variation to that local authority⁷.

Where a person holds a registration⁸ in respect of any high-activity source⁹ and either:

- 3896 (a) intends to keep or use a high-activity source, other than an existing high-activity source¹⁰, on or after 1 January 2006; or
- 3897 (b) intends to keep or use an existing high-activity source on or after 1 January 2008;

that person must apply to the Environment Agency under the above provisions to vary his registration to enable the Agency to ensure that the registration complies with the relevant provisions of the Euratom Directive on the control of high-sealed radioactive sources and orphan sources¹¹ and that person must make that application in accordance¹² with the prescribed time limits¹³. If a person fails to make an application in accordance with those time limits, his registration must be cancelled by the Agency so far as it relates to the high-activity source in question¹⁴. The Agency may, however notify a person to whom head (a) or head (b) above applies:

- 3898 (i) that he is not required to make such an application; or
- 3899 (ii) if the Agency is satisfied that in its opinion exceptional circumstances apply to that person, that such person may make an application within a period shorter than that provided for under the prescribed time limits¹⁵.

¹ le registered under the Radioactive Substances Act 1993 s 7 (as amended) (see PARAS 1442-1444 ante) or s 10 (as amended) (see PARAS 1447-1448 ante). For the meaning of 'premises' see PARA 1439 note 1 ante; and for the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante.

2 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 12 (as amended) with regard to high-activity and other sealed sources see PARA 1464 post.

3 Ibid s 12(1)(a) (s 12(1), (2) amended by the Environment Act 1995 s 120(1), Sch 22 para 200). As to the limitations and conditions which may be imposed see PARAS 1443, 1448 ante.

4 Radioactive Substances Act 1993 s 12(1)(b) (as amended: see note 3 supra). Where the Agency varies a registration otherwise than by revoking a limitation or condition, or cancels a registration, the person directly concerned may appeal to the Secretary of State or the Welsh Ministers: see PARA 1471 post.

5 Ibid s 12(1A) (added by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, SI 2005/2686, reg 11).

6 Ie in accordance with the Radioactive Substances Act 1993 s 7(8) (as amended) or s 10(5) (as amended): see PARAS 1444, 1448 ante. For the meaning of 'local authority' see PARA 1442 note 10 ante.

7 Ibid s 12(2) (as amended: see note 3 supra).

8 Ie under ibid s 7 (as amended) or s 10 (as amended): see PARAS 1442-1444, 1447-1448 ante.

9 For these purposes, 'high-activity source' has the same meaning as it has in Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57) on the control of high-activity sealed radioactive sources and orphan sources ('the HASS Directive') (ie a sealed source containing a radionuclide whose activity at the time of manufacture or, if this is not known, of the first placing on the market is equal to or exceeds the relevant activity level specified in Annex I: see art 2(b)); but excluding any such source once its activity level has fallen below the exemption levels specified in Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1), Annex I, Table A col 2: High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 2(1). For the meaning of 'sealed source' for these purposes see PARA 1439 note 3 ante.

10 'Existing high-activity source' means a high-activity source first placed on the market on or before 31 December 2005: ibid reg 2(1).

11 Ie the HASS Directive: see note 9 supra.

12 Ie in accordance with the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 3(3): see note 13 infra.

13 Ibid reg 3(1). Except where notification is given under reg 3(2)(b) (see head (ii) in the text), the application must be made (1) at least four months before the date the source is intended to be kept or used; or (2) in the case of a high-activity source (other than an existing high-activity source) which is intended to be kept or used within four months of 20 October 2005 (ie the date when the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, came into force: see reg 1(2)), as soon as practicable and in any event at least two months before the date of intended keeping or use of the source: reg 3(3).

14 Ibid reg 3(4).

15 Ibid reg 3(2).

UPDATE

1447-1449 Applications for registration of mobile radioactive apparatus ... Cancellation and variation of registration; in general

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1450. Restrictions on the disposal of radioactive waste.

B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE

1450. Restrictions on the disposal of radioactive waste.

Except in accordance with an authorisation under the Radioactive Substances Act 1993¹, no person may:

- 3900 (1) dispose of² any radioactive waste³ on or from any premises⁴ which are used for the purposes of any undertaking⁵ carried on by him, or cause or permit any radioactive waste to be so disposed of, if in any such case he knows or has reasonable grounds for believing it to be radioactive waste⁶; or
- 3901 (2) dispose of any such waste arising from any mobile radioactive apparatus⁷ kept by him for the purpose of its being used in certain activities⁸, or cause or permit any such radioactive waste to be disposed of⁹; or
- 3902 (3) dispose of any such waste received by him in the course of carrying on an undertaking for the purpose of its being disposed of by him, or cause or permit it to be disposed of knowing or having reasonable grounds for believing it to be radioactive waste, unless it is waste which falls within the provisions of an authorisation granted in respect of a disposal referred to in head (1) or head (2) above and it is disposed of in accordance with an authorisation so granted¹⁰.

With certain qualifications, the restrictions specified in heads (1) and (3) above do not apply to the disposal of radioactive waste arising from clocks and watches from any premises in the specified circumstances¹¹; and the Secretary of State¹² may by order¹³ exclude particular descriptions of radioactive waste from any of the above provisions either absolutely or subject to limitations or conditions¹⁴.

The merits or demerits of government defence policy are not justiciable; thus the Environment Agency was entitled to grant authorisations permitting the discharge of nuclear waste by contractors to the Ministry of Defence from two nuclear sites, both of which were military installations at which Trident nuclear warheads were manufactured¹⁵.

1 As to authorisations see PARAS 1453-1459 post; as to the transfer and review of authorisations see PARAS 1457-1458 post; and as to the exercise by the Environment Agency of its functions relating to authorisations with regard to high-activity and other sealed sources see PARA 1464 post. The issue of justification in terms of net benefit under Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1) art 6 (replacing Euratom Council Directive 80/836 (OJ L246, 17.9.80, p 1) art 6 (repealed)) is to be considered prior to the grant of any authorisation for the discharge of radioactive waste, notwithstanding that domestic legislation is silent on the matter of prior justification: *R v Secretary of State for the Environment, ex p Greenpeace Ltd* [1994] 4 All ER 352, [1994] 3 CMLR 737.

2 'Disposal', in relation to waste, includes its removal, deposit or destruction, its discharge whether into water, air, a sewer or drain or otherwise, or its burial, whether underground or otherwise, and 'dispose of' is to be construed accordingly: Radioactive Substances Act 1993 s 47(1). 'Waste' includes any substance which constitutes scrap material or an effluent or other unwanted surplus substance arising from the application of any process, and any substance or article which requires to be disposed of as being broken, worn out, contaminated or otherwise spoilt: s 47(1). Any substance or article which, in the course of the carrying on of

any undertaking, is discharged, discarded or otherwise dealt with as if it were waste is presumed to be waste unless the contrary is proved: s 47(4). For the meaning of 'substance' see PARA 1439 note 11 ante; for the meaning of 'article' see PARA 1439 note 12 ante; and for the meaning of 'contamination' see PARA 1439 note 18 ante.

3 'Radioactive waste' means waste which consists wholly or partly of a substance or article which, if it were not waste, would be radioactive material, or which has been contaminated in the course of the production, keeping or use of radioactive material or by contact with or proximity to other waste falling within this definition: Radioactive Substances Act 1993 s 2. For the meaning of 'radioactive material' see PARA 1439 ante.

4 For the meaning of 'premises' see PARA 1439 note 1 ante; see also note 6 infra.

5 For the meaning of 'undertaking' see PARA 1439 note 2 ante.

6 Radioactive Substances Act 1993 s 13(1). Contravention of this provision is an offence: s 32(1)(a). As to prosecutions and penalties see PARAS 1584, 1586, 1588 post. In relation to any premises which (1) are situated on a nuclear site; but (2) have ceased to be used for the purposes of an undertaking carried on by the licensee, the provisions of s 13(1) apply to those premises, subject to the provisions of s 15 (as amended) (see the text and notes 11-14 infra), as if they were used for the purposes of an undertaking carried on by the licensee: s 13(5). 'Nuclear site' means (a) any site in respect of which a nuclear site licence is for the time being in force; or (b) any site in respect of which, after the revocation or surrender of a nuclear site licence, the period of responsibility of the licensee has not yet come to an end: s 47(1). For the meaning of 'nuclear site licence' see PARA 1487 note 1 post; for the meaning of 'licensee' see PARA 1490 note 11 post; and for the meaning of 'period of responsibility' see PARA 1494 note 7 post (definitions applied by s 47(1)).

For these purposes, so far as relating to authorisations required under s 13(1) for the disposal of radioactive waste, a site used by a contractor for the purposes of any activity which would, if the Nuclear Installations Act 1965 s 1 (as amended) (see PARA 1487 post) applied to the site, require a nuclear site licence (a 'relevant site') in designated premises is treated as a site in respect of which a nuclear site licence is for the time being in force: Atomic Weapons Establishment Act 1991 s 3(1), Schedule para 10A (added by the Radioactive Substances Act 1993 s 49(1), Sch 4 para 10). For the meaning of 'contractor' and 'designated premises' see PARA 1387 notes 2, 11 ante.

7 For the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante.

8 The activities to which the Radioactive Substances Act 1993 s 9 applies: see PARA 1445 ante.

9 Ibid s 13(2). Contravention of this provision is an offence: s 32(1)(a). As to offences generally see PARA 1584 post.

10 Ibid s 13(3), (4). Contravention of this provision is an offence: s 32(1)(a).

11 See ibid s 15(1) (amended in relation to England and Wales by the Radioactive Substances (Clocks and Watches) (England and Wales) Regulations 2001, SI 2001/4005, reg 2(1), (2)). Heads (1) and (3) in the text do not apply to such disposal on or from any premises in the circumstances described in the Radioactive Substances Act 1993 s 15(1A) (as added): s 15(1) (as so amended). Those circumstances are that (1) no radionuclide other than tritium, promethium 147 or radium 226 is present in any clock or watch on the premises (whether or not any radioactive waste arises from it); (2) no such clock or watch contains more than one of those radionuclides; and (3) either s 15(1B) (as added) or s 15(1C) (as added) is satisfied: s 15(1A) (s 15(1A)-(1C) added in relation to England and Wales by the Radioactive Substances (Clocks and Watches) (England and Wales) Regulations 2001, SI 2001/4005, reg 2(1), (3)).

The Radioactive Substances Act 1993 s 15(1B) (as so added) is satisfied if the total quantity of tritium divided by 109, plus the total quantity of promethium 147 divided by 107, plus the total quantity of radium 226 divided by 104, in all such clocks and watches does not exceed 1 (quantity in each case being measured in becquerels): s 15(1B) (as so added). Section 15(1C) (as added) is satisfied if (a) all such clocks and watches fall within a description specified in the first column of the Table set out therein; (b) radioactive waste arises from no more than five of them; and (c) none of them gives rise to a quantity of radioactive waste exceeding the figure in the third column of the Table corresponding to the relevant radionuclide listed in the second column: s 15(1C) (as so added).

Section 15(1) (as amended) does not, however, affect the operation of s 13(1) (see head (1) in the text) in relation to the disposal of radioactive waste arising from clocks or watches on or from premises which, by virtue of s 8(5), are excluded from the operation of s 8(4) (ie premises on which clocks or watches are manufactured or repaired by processes involving the use of luminous material: see PARA 1440 ante): s 15(1).

12 As to the Secretary of State see PARA 601 note 1 ante.

13 As to the making of orders see PARA 1361 text and note 4 ante. See also note 14 infra.

14 Radioactive Substances Act 1993 s 15(2). This power is not transferred to the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. As to the application of s 15 to Northern Ireland see s 15(3). Any of the provisions of s 13 or s 14 (see PARA 1452 post) specified in such an order does not, accordingly, apply to a disposal of radioactive waste of a description specified in such an order, provided that, where the exclusion is subject to limitations and conditions, those limitations or conditions are complied with: s 15(2). In the exercise of this power, the Secretary of State has made the following orders: (1) the Radioactive Substances (Hospitals) Exemption (Amendment) Order 1995, SI 1995/2395; (2) the Radioactive Substances (Natural Gas) Exemption Order 2002, SI 2002/1177; (3) the Radioactive Substances (Testing Instruments) (England and Wales) Exemption Order 2006, SI 2006/1500; (4) the Radioactive Substances (Emergency Exemption) (England and Wales) Order 2006, SI 2006/3169 (which gives an exemption for radioactive waste relating to the death of Alexander Litvinenko). In addition, by virtue of the Radioactive Substances Act 1993 s 49(2), Sch 5 paras 1, 4 and the Interpretation Act 1978 s 17(2)(b), a number of orders have effect as if so made: see eg (a) the Radioactive Substances (Storage in Transit) Exemption Order 1962, SI 1962/2646; (b) the Radioactive Substances (Prepared Uranium and Thorium Compounds) Exemption Order 1962, SI 1962/2711; (c) the Radioactive Substances (Schools etc) Exemption Order 1963, SI 1963/1832; (d) the Radioactive Substances (Smoke Detectors) Exemption Order 1980, SI 1980/953 (as amended); (e) the Radioactive Substances (Hospitals) Exemption Order 1990, SI 1990/2512 (as amended). Heads (a)-(e) are by way of illustration only and do not constitute an exhaustive list.

For the application to radioactive substances of the Environmental Protection Act 1990 Pt II (ss 29-78) (as amended) and other statutory provisions relating to the disposal of waste see PARA 1368 ante, PARA 1451 post; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH. As to the control of the pollution of the seas by radioactive substances see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq.

15 See *R (on the application of Marchiori) v Environment Agency* [2001] EWCA Civ 03, [2002] All ER (D) 220 (Jan).

UPDATE

1450-1451 Restrictions on the disposal of radioactive waste, Control of pollution and contaminated land

Certain persons or indorsements mentioned in these paragraphs are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1451. Control of pollution and contaminated land.

1451. Control of pollution and contaminated land.

Except as provided by regulations made by the Secretary of State or the Welsh Ministers¹, nothing in Part II of the Environmental Protection Act 1990² or Part III of the Water Resources Act 1991³ applies to radioactive waste⁴; but regulations may:

- 3903 (1) provide for prescribed provisions of those Parts of those Acts to have effect with such modifications as he considers, or they consider, appropriate for the purposes of dealing with such radioactive waste; and
- 3904 (2) make such modifications of the Radioactive Substances Act 1993 and any other Act, in relation to such waste, as he considers, or they consider, appropriate⁵.

Similarly, except as provided by regulations so made, nothing in Part IIA of the Environmental Protection Act 1990⁶ (which relates to contaminated land) applies in relation to harm⁷, or pollution of controlled waters⁸, so far as attributable to any radioactivity possessed by any substance; but regulations may:

- 3905 (a) provide for prescribed provisions of that Part of that Act to have effect with such modifications as the Secretary of State or the Welsh Ministers considers or consider appropriate for the purpose of dealing with harm, or pollution of controlled waters, so far as attributable to any radioactivity possessed by any substances; or
- 3906 (b) make such modifications of the Radioactive Substances Act 1993 or any other Act as he considers, or they consider, appropriate⁹.

1 Ie regulations made by the Secretary of State or the Welsh Ministers under the Environmental Protection Act 1990 s 78 (amended by the Radioactive Substances Act 1993 s 49(1), Sch 4 para 7) or the Water Resources Act 1991 s 98 (amended by the Radioactive Substances Act 1993 Sch 4 para 11). As to the Secretary of State and the Welsh Ministers, and the transfer of functions in relation to Wales under the Environmental Protection Act 1990 and the Water Resources Act 1991, see PARA 601 note 1 ante.

2 Ie the Environmental Protection Act 1990 Pt II (ss 29-78) (as amended) (waste on land): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 620 et seq.

3 Ie the Water Resources Act 1991 Pt III (ss 82-104) (as amended) (water pollution): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 288 et seq.

4 Ie radioactive waste within the meaning of the Radioactive Substances Act 1993 (see PARA 1450 note 3 ante): Environmental Protection Act 1990 s 78 (as amended: see note 1 supra); Water Resources Act 1991 s 98(1) (as amended: see note 1 supra).

5 Environmental Protection Act 1990 s 78 (as amended: see note 1 supra); Water Resources Act 1991 s 98 (as amended: see note 1 supra). At the date at which this title states the law, no such regulations had been made, but, by virtue of the Water Consolidation (Consequential Provisions) Act 1991 s 2(2), Sch 2 para 1(1), (2), the Control of Pollution (Radioactive Waste) Regulations 1989, SI 1989/1158, have effect as if made under the Water Resources Act 1991 s 98 (as so amended). Those regulations, which came into force on 1 September 1989 (see reg 1, Schedule), specified certain provisions of the Water Act 1989 Pt III Ch I (repealed) which were to have effect, without modification, in relation to any radioactive waste as they had effect in relation to any effluent or other matter or substance which was not radioactive waste (see the Control of Pollution (Radioactive Waste) Regulations 1989, SI 1989/1158, reg 3) and provided that the Radioactive Substances Act 1960 s 9(1)

(repealed: see now the Radioactive Substances Act 1993 s 40(1)) was to apply in relation to the provisions so specified (see the Control of Pollution (Radioactive Waste) Regulations 1989, SI 1989/1158, reg 4 (amended by the Water Consolidation (Consequential Provisions) Act 1991 s 3, Sch 3 Pt II). The Control of Pollution (Radioactive Waste) Regulations 1989, SI 1989/1158, reg 3 must now be read as referring to the corresponding provisions of the Water Resources Act 1991 (ie ss 82, 84-86, s 87(1), 88(2), 92, 99, 161(11)-(14), 190(1), (2), 202(1)-(4), 203 (as amended): see WATER AND WATERWAYS). See also the Radioactive Substances Act 1993 s 40(1), Sch 3 Pt I (as amended): and PARA 1463 post.

6 le the Environmental Protection Act 1990 Pt IIA (ss 78A-78YC) (as added and amended): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 761 et seq.

7 For the meaning of 'harm' for these purposes see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 761 note 4.

8 For the meaning of 'pollution of controlled waters' for these purposes see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 761 note 6.

9 Environmental Protection Act 1990 s 78YC (added by the Environment Act 1995 s 57). As to the exercise of these powers to lay down basic safety standards in relation to land contaminated by reason of radioactive substances see the Radioactive Contaminated Land (Enabling Powers) (England) Regulations 2005, SI 2005/3467; the Radioactive Contaminated Land (Modification of Enactments) (England) Regulations 2006, SI 2006/1379; and the Radioactive Contaminated Land (Modification of Enactments) (Wales) Regulations 2006, SI 2006/2988. See further ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 761 et seq.

UPDATE

1450-1451 Restrictions on the disposal of radioactive waste, Control of pollution and contaminated land

Certain persons or indorsements mentioned in these paragraphs are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

1451 Control of pollution and contaminated land

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1451 Control of pollution and contaminated land

NOTE 9--SI 2006/1379 amended: SI 2007/3245, SI 2008/520. SI 2006/2988 amended: SI 2007/3250, SI 2008/521.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1452. Restrictions on the accumulation of radioactive waste.

1452. Restrictions on the accumulation of radioactive waste.

Except in accordance with an authorisation under the Radioactive Substances Act 1993¹, no person may accumulate, with a view to its subsequent disposal², any radioactive waste³ on any premises used for the purposes of an undertaking⁴ carried on by him, or cause or permit any radioactive waste to be so accumulated, if in any such case he knows or has reasonable grounds for believing it to be radioactive waste⁵. This restriction does not, however, apply to the accumulation of radioactive waste on any premises situated on a nuclear site⁶.

No authorisation is required under this provision if an authorisation relating to the disposal of radioactive waste⁷ has been granted which requires or permits it to be accumulated with a view to its subsequent disposal in accordance with that authorisation⁸. The provisions relating to the disposal of radioactive waste, so far as they concern the exemption for certain radioactive waste arising from clocks and watches⁹ and enable the Secretary of State to make orders excluding particular descriptions of such waste¹⁰, apply in relation to the accumulation of radioactive waste as they apply to the disposal of it¹¹.

1 As to authorisations see PARAS 1453-1459 post; as to the transfer and review of authorisations see PARAS 1457-1458 post; and as to the exercise by the Environment Agency of its functions relating to authorisations with regard to high-activity and other sealed sources see PARA 1464 post.

2 For the meaning of 'disposal' see PARA 1450 note 2 ante.

3 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante. Where radioactive material is produced, kept or used on any premises, and any substance arising from the production, keeping or use of that material is accumulated in a part of the premises appropriated for the purpose and retained there for a period of not less than three months, that substance is presumed, unless the contrary is proved, both to be radioactive waste and to be accumulated on the premises with a view to its subsequent disposal: Radioactive Substances Act 1993 s 14(4). For the meaning of 'premises' see PARA 1439 note 1 ante; for the meaning of 'radioactive material' see PARA 1439 ante; and for the meaning of references to keeping or using such material see PARA 1439 note 3 ante.

4 For the meaning of 'undertaking' see PARA 1439 note 2 ante.

5 Radioactive Substances Act 1993 s 14(1). Contravention of this provision is an offence: s 32(1)(a). As to prosecutions and penalties see PARAS 1584, 1586, 1588 post.

6 Ibid s 14(3). For the meaning of 'nuclear site' see PARA 1450 note 6 ante.

7 Ie an authorisation given under ibid s 13: see PARA 1450 ante. See also PARAS 1453-1459 post.

8 Ibid s 14(2).

9 See ibid s 15(1) (as amended); and PARA 1450 the text and note 11 ante.

10 See ibid s 15(2); and PARA 1450 the text and note 14 ante. This power is not transferred to the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. As to the Secretary of State and the Welsh Ministers see PARA 601 note 1 ante.

11 Ibid s 15(1), (2) (s 15(1) amended in relation to England and Wales by the Radioactive Substances (Clocks and Watches) (England and Wales) Regulations 2001, SI 2001/4005, reg 2(1), (2)). As to the exemption orders made, or having effect as if made, under the Radioactive Substances Act 1993 s 15(2) see PARA 1450 note 14 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1453. Power to authorise the disposal or accumulation of radioactive waste; consultation requirements.

1453. Power to authorise the disposal or accumulation of radioactive waste; consultation requirements.

The power to grant authorisations¹ to dispose of² or accumulate radioactive waste³ is exercisable by the Environment Agency ('the Agency')⁴. In the case of the disposal of such waste on or from any premises⁵ situated on a nuclear site⁶:

- 3907 (1) before granting an authorisation the Agency must consult with such local authorities⁷, relevant water bodies⁸ or other public or local authorities⁹ as appear to the Agency to be proper to be consulted by it¹⁰;
- 3908 (2) without prejudice to the generality of head (1) above, on any application for an authorisation in respect of such disposal, the Agency:
- 353
519. (a) must consult the Food Standards Agency¹¹ and the Health and Safety Executive¹² before deciding whether to grant an authorisation on that application and, if so, subject to what limitations or conditions; and
520. (b) must consult the Food Standards Agency concerning the terms of the authorisation, for which purpose the Environment Agency must, before granting any authorisation on that application, send the Food Standards Agency a copy of any authorisation which it proposes so to grant¹³.
- 354

1 The authorisations under the Radioactive Substances Act 1993 s 13 (see PARA 1450 ante) or s 14 (see PARA 1452 ante): s 16(1).

2 For the meaning of 'dispose of' see PARA 1450 note 2 ante.

3 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

4 Radioactive Substances Act 1993 s 16(2) (amended by the Environment Act 1995 s 120, Sch 22 paras 200, 205(2), Sch 24). The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its powers and functions in relation to high-activity and other sealed sources see PARA 1464 post.

5 For the meaning of 'premises' see PARA 1439 note 1 ante.

6 For the meaning of 'nuclear site' see PARA 1450 note 6 ante.

7 For the meaning of 'local authority' see PARA 1442 note 10 ante.

8 'Relevant water body' means, in England and Wales, a water undertaker, a sewerage undertaker or a local fisheries committee: Radioactive Substances Act 1993 s 47(1) (definition amended by the Environment Act 1995 Sch 22 para 227(6), Sch 24). As to water undertakers and the services provided by them see WATER AND WATERWAYS vol 100 (2009) PARAS 134 et seq, 318 et seq; and as to sewerage undertakers and the services provided by them see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 46 (2010) PARA 999 et seq. As to fisheries committees see AGRICULTURE AND FISHERIES.

9 For the meaning of 'public or local authority' see PARA 1439 note 2 ante.

10 Radioactive Substances Act 1993 s 16(5) (amended by the Environment Act 1995 Sch 22 paras 200, 205(6)).

11 As to the Food Standards Agency see FOOD vol 18(2) (Reissue) PARA 225 et seq.

12 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

13 Radioactive Substances Act 1993 s 16(4A) (added by the Environment Act 1995 Sch 22 para 205(5); amended by the Food Standards Act 1999 s 40(1), Sch 5 para 43(1), (2)).

UPDATE

1453-1457 Power to authorise the disposal or accumulation of radioactive waste; consultation requirements ... Transfer of authorisations

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1453 Power to authorise the disposal or accumulation of radioactive waste; consultation requirements

NOTE 8--Definition of 'relevant water body' amended: Radioactive Substances Act 1993 s 47(1) (amended by Marine and Coastal Access Act 2009 Sch 14 para 17 (not yet in force), Sch 22 Pt 4 (in force in relation to Wales: SI 2010/630)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1454. Application for authorisation.

1454. Application for authorisation.

An application for authorisation to dispose of or accumulate radioactive waste¹ must be made to the Environment Agency ('the Agency')² and must be accompanied by the charge prescribed³ for the purpose⁴. On receipt of an application, the Agency must send a copy to each local authority⁵ in whose area radioactive waste⁶ is to be disposed of⁷ or accumulated in accordance with the authorisation applied for, subject to any direction to the Agency⁸ that knowledge of the application or authorisation should be restricted in the interests of national security⁹.

An application for an authorisation which is duly made to the Agency and which is not an application for an authorisation in respect of the disposal of radioactive waste¹⁰ on or from any premises situated on a nuclear site¹¹ may be treated by the applicant as having been refused if it is not determined within the prescribed period for determinations¹² or such longer period as may be agreed with the applicant¹³.

¹ Ie an authorisation under the Radioactive Substances Act 1993 s 13 (see PARA 1450 ante) or s 14 (see PARA 1452 ante): s 16(1). For the meanings of 'dispose of' and 'radioactive waste' see PARA 1450 notes 2-3 ante.

² See PARA 1453 ante. The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its powers and functions in relation to high-activity and other sealed sources see PARA 1464 post.

³ Ie prescribed for the purpose by a charging scheme under the Environment Act 1995 s 41 (as amended): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 97. For the meaning of 'prescribed' in this context see PARA 1442 note 8 ante.

⁴ Radioactive Substances Act 1993 s 16(4) (amended by the Environment Act 1995 s 120, Sch 22 para 205(4)).

⁵ For the meaning of 'local authority' see PARA 1442 note 10 ante.

⁶ For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

⁷ For the meaning of 'disposed of' see PARA 1450 note 2 ante.

⁸ Ie subject to any direction under the Radioactive Substances Act 1993 s 25 (as amended): see PARA 1572 post.

⁹ Ibid s 16(6) (amended by the Environment Act 1995 Sch 22 para 200; the Energy Act 2004 s 75, Sch 15 paras 1, 2).

¹⁰ Ie an application under the Radioactive Substances Act 1993 s 13(1): see PARA 1450 ante at head (1) in the text.

¹¹ For the meaning of 'nuclear site' see PARA 1450 note 6 ante.

¹² For the meaning of 'the prescribed period for determinations', and as to the Secretary of State's or the Welsh Ministers' power to alter that period, see PARA 1443 note 7 ante.

¹³ Radioactive Substances Act 1993 s 16(7) (amended by the Environment Act 1995 Sch 22 paras 200, 205(7)).

UPDATE

1453-1457 Power to authorise the disposal or accumulation of radioactive waste; consultation requirements ... Transfer of authorisations

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1455. Granting of authorisations.

1455. Granting of authorisations.

An authorisation¹ to dispose of² or accumulate radioactive waste³ may be granted in respect of radioactive waste generally or in respect of one or more descriptions of it as specified in the authorisation, and subject to such limitations and conditions⁴ as the Environment Agency ('the Agency')⁵ thinks fit⁶.

If, in considering an application for an authorisation to dispose of radioactive waste, it appears to the Agency that the disposal of radioactive waste to which the application relates is likely to involve the need for special precautions to be taken by a local authority⁷, relevant water body⁸ or other public or local authority⁹, the Agency must consult with that authority before granting the authorisation¹⁰. Where a public or local authority takes any special precautions in respect of radioactive waste disposed of in accordance with an authorisation which has been granted¹¹, and those precautions are taken:

- 3909 (1) in compliance with the conditions subject to which the authorisation was granted; or
- 3910 (2) with the prior approval of the Agency as being precautions which in the circumstances ought to be taken by that public or local authority,

the public or local authority has power to make such charges, in respect of the taking of those precautions, as may be agreed between that authority and the person to whom the authorisation was granted, or as, in default of such agreement, may be determined by the Agency, and to recover the charges so agreed or determined from that person¹².

¹ ie an authorisation under the Radioactive Substances Act 1993 s 13 (see PARA 1450 ante) or s 14 (see PARA 1452 ante): s 16(1).

² For the meaning of 'dispose of' see PARA 1450 note 2 ante.

³ For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

⁴ To facilitate the exercise of any power under the Radioactive Substances Act 1993 to grant authorisations subject to limitations or conditions, the Secretary of State or, in relation to Wales, the Welsh Ministers may make regulations by statutory instrument setting out general limitations or conditions applicable to specified classes of cases; and any limitations or conditions so specified are deemed to be attached to any authorisation falling within the class to which they are expressed to be applicable, subject to any exceptions or modifications specified in the authorisation: see s 44(2), (3). At the date at which this title states the law, no such regulations had been made. As to the making of regulations see PARA 1361 the text and note 4 ante; and as to the Secretary of State and the Welsh Ministers and the transfer of functions under the 1993 Act in relation to Wales see PARA 601 note 1 ante.

⁵ The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions with regard to high-activity and other sealed source see PARA 1464 post.

⁶ Radioactive Substances Act 1993 s 16(8) (amended by the Environment Act 1995 s 120, Sch 22 paras 200, 205(8)). There is a legal obligation to justify the authorisation in terms of net benefit in accordance with

European Community law: see *R v Secretary of State for the Environment, ex p Greenpeace Ltd* [1994] 4 All ER 352, [1994] 3 CMLR 737.

An authorisation has effect from the date specified in it, and when copies of the certificate of authorisation are required to be sent as mentioned in the Radioactive Substances Act 1993 s 16(9)(b) (see PARA 1456 post), the Agency must, in fixing that date, have regard to the time at which those copies may be expected to be sent, and must fix a date which appears to it to allow an interval of not less than 28 days after that time before the authorisation has effect, unless in the Agency's opinion it is necessary that the authorisation should come into operation immediately or should otherwise be expedited: s 16(10) (amended by the Environment Act 1995 Sch 22 paras 200, 205(9), Sch 24).

7 For the meaning of 'local authority' see PARA 1442 note 10 ante.

8 For the meaning of 'relevant water body' see PARA 1453 note 8 ante.

9 For the meaning of 'public or local authority' see PARA 1439 note 2 ante.

10 Radioactive Substances Act 1993 s 18(1) (s 18(1), (2) amended by the Environment Act 1995 s 120, Sch 22 paras 200, 207, Sch 24). Where, in the case of any such premises as are mentioned in the Radioactive Substances Act 1993 s 42(2) (ie premises occupied on behalf of the Crown for naval, military or air force purposes or for the purposes of the department of the Secretary of State having responsibility for defence, or occupied by or for the purposes of a visiting force: see PARA 1441 ante): (1) arrangements are made whereby radioactive waste is not to be disposed of from those premises except with the approval of the Environment Agency; and (2) in pursuance of those arrangements the Agency proposes to approve, or approves, the removal of radioactive waste from those premises to a place provided by a local authority as a place for the deposit of refuse, the provisions of s 18(1), (2) (as amended) apply as if the proposal to approve the removal of the waste were an application for an authorisation under s 13 to remove it, or (as the case may be) the approval were such an authorisation: s 42(6) (amended by the Environment Act 1995 s 120, Sch 22 para 200).

11 Ie under *ibid* s 13: see PARA 1450 ante.

12 *Ibid* s 18(2) (as amended: see note 11 *supra*).

UPDATE

1453-1457 Power to authorise the disposal or accumulation of radioactive waste; consultation requirements ... Transfer of authorisations

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1456. Certificate of authorisation.

1456. Certificate of authorisation.

When any authorisation to dispose of or accumulate radioactive waste¹ is granted, the Environment Agency ('the Agency')² must furnish the person to whom the authorisation is granted with a certificate which contains all material particulars of the authorisation or gives sufficient information as to the particulars to enable them to be ascertained³. Subject to any directions restricting knowledge of the authorisation in the interests of national security⁴, the Agency must also send a copy of the certificate to each local authority⁵ in whose area radioactive waste⁶ is to be disposed⁷ of or accumulated in accordance with the authorisation and to any other public or local authority⁸ consulted pursuant to the obligation imposed⁹ on the Agency¹⁰. At all times while an authorisation is in force in respect of the disposal or accumulation of waste from or on any premises¹¹ the person who holds the authorisation must cause copies of the certificate of authorisation to be kept posted on the premises, in such characters and in such positions as to be conveniently read by persons having duties on those premises which are or may be affected by the matters set out in the certificate¹².

1 Ie any authorisation under the Radioactive Substances Act 1993 s 13 (see PARA 1450 ante) or s 14 (see PARA 1452 ante): s 16(1).

2 The statutory wording is 'the appropriate Agency'. The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions with regard to high-activity and other sealed sources see PARA 1464 post.

3 Radioactive Substances Act 1993 s 16(9)(a) (substituted by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 12).

4 Ie subject to any directions under the Radioactive Substances Act 1993 s 25 (as amended): see PARA 1572 post.

5 For the meaning of 'local authority' see PARA 1442 note 10 ante.

6 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

7 For the meaning of 'disposed of' see PARA 1450 note 2 ante.

8 For the meaning of 'public or local authority' see PARA 1439 note 2 ante.

9 Ie by the Radioactive Substances Act 1993 s 16(5) (as amended): see PARA 1453 ante.

10 Ibid s 16(9)(b) (amended by the Environment Act 1995 s 120, Sch 22 para 200).

11 In this context the authorisation must be under the Radioactive Substances Act 1993 s 13(1) (disposal: see PARA 1450 ante), or s 14 (accumulation: see PARA 1240 ante): s 19(b). For the meaning of 'premises' see PARA 1439 note 1 ante.

12 Ibid s 19 (amended by the Energy Act 2004 s 75, Sch 15 paras 1, 3).

UPDATE

1453-1457 Power to authorise the disposal or accumulation of radioactive waste; consultation requirements ... Transfer of authorisations

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1457. Transfer of authorisations.

1457. Transfer of authorisations.

Where a person ('the transferor') holds an authorisation¹ in respect of the disposal² of radioactive waste³ on or from premises⁴ situated on a nuclear site⁵, and an application is made for a transfer⁶, in whole or in part, of that authorisation to another person ('the transferee'), then the Environment Agency ('the Agency')⁷ must⁸, on receipt of the application (but subject to directions restricting knowledge of the application in the interests of national security⁹) send a copy of the application to every local authority¹⁰ in whose area radioactive waste may be disposed of under the authorisation to which the application relates¹¹.

Before granting the application, the Agency must¹² consult everyone whom it would have been required to consult before granting the authorisation¹³ if:

- 3911 (1) the transferee had applied for the grant of the authorisation that he would hold were the application to be granted; and
- 3912 (2) in the case of a partial transfer, the transferor had applied for the grant, in place of his existing authorisation, of the authorisation he would hold in those circumstances¹⁴.

The Agency may, however, proceed with the application without sending a copy of the application to a local authority mentioned above¹⁵, or without consulting an authority or body mentioned above¹⁶ about the proposed transfer, if it appears to the Agency that arrangements for the disposal of radioactive waste are unlikely to be changed, as a result of the transfer, in a way that would be of interest to that authority or body¹⁷.

The Agency may grant the application if, and only if, it is satisfied:

- 3913 (a) that the transferee has or will have operational control over the disposals to which the transferred authorisation will relate;
- 3914 (b) that he is able and willing to ensure compliance with the limitations and conditions of the authorisation that he will hold if the application is granted; and
- 3915 (c) that no other grounds exist on which it would be reasonable to refuse to grant the application¹⁸.

Where the Agency grants the application, it must:

- 3916 (i) fix the date from which the transfer applied for is to have effect;
- 3917 (ii) furnish the transferee with a certificate which contains all material particulars of the authorisation he holds as a result of the transfer or gives sufficient information as to the particulars to enable them to be ascertained;
- 3918 (iii) in the case of a partial transfer, furnish the transferor with a similar certificate as respects the authorisation he holds as a result of the transfer; and
- 3919 (iv) subject to directions restricting knowledge of the application in the interests of national security¹⁹, send a copy of the certificate furnished to the transferee, and of any certificate furnished to the transferor:

355

521. (A) to every local authority in whose area radioactive waste may be disposed of under the authorisation to which the certificate relates; and

522. (B) to every person consulted²⁰ about the transfer²¹.

356

The time fixed as the time from which the transfer is to have effect must be not less than 28 days after the day, if any, on which the Agency, when it fixes that time, expects copies of the certificates mentioned in head (iv) above to be sent out in accordance with that provision²²; but this does not apply if, in the opinion of the Agency, it is necessary for the transfer to have immediate effect or otherwise to be expedited²³.

1 Ie an authorisation granted under the Radioactive Substances Act 1993 s 13: see PARA 1450 ante.

2 For the meaning of 'disposal' see PARA 1450 note 2 ante.

3 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

4 For the meaning of 'premises' see PARA 1439 note 1 ante.

5 For the meaning of 'nuclear site' see PARA 1450 note 6 ante.

6 Ie an application under the Radioactive Substances Act 1993 s 16A (as added and amended). Such an application is one which (1) is made to the authorising authority (see note 7 infra) jointly by the transferor and the transferee; (2) is accompanied by the appropriate amount; and (3) in the case of an application for a transfer relating to part only of the premises, identifies the part in question: s 16A(2) (s 16A added by the Energy Act 2004 s 72). The appropriate amount for these purposes is the amount of the charge (if any) that is prescribed for the purpose by a charging scheme under the Environment Act 1995 s 41 (as amended) (see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 97): see the Radioactive Substances Act 1993 s 16A(3)(a) (as so added). For the meaning of 'prescribed' in this context see PARA 1442 note 8 ante.

7 The statutory wording is 'the authorising authority'; and for these purposes 'authorising authority', in relation to an authorisation having effect in Great Britain, means the appropriate Agency: *ibid* s 16A(11)(a) (as added: see note 6 supra). The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

8 Ie subject to *ibid* s 16A(6) (as added): see the text and notes 15-17 infra.

9 Ie subject to any directions under *ibid* s 25 (as amended): see PARA 1572 post.

10 For the meaning of 'local authority' see PARA 1442 note 10 ante.

11 Radioactive Substances Act 1993 s 16A(1), (4) (as added: see note 6 supra). See also note 7 supra.

12 See note 8 supra.

13 Ie everyone whom it would have been required to consult under the Radioactive Substances Act 1993 s 16(4A) (as added and amended) or s 16(5) (as amended): see PARA 1453 ante.

14 *Ibid* s 16A(5) (as added: see note 6 supra). See also note 7 supra.

15 Ie mentioned in *ibid* s 16A(4) (as added): see the text and notes 12-13 supra.

16 Ie mentioned in *ibid* s 16A(5) (as added): see the text and note 14 supra.

17 *Ibid* s 16A(6) (as added: see note 6 supra). See also note 7 supra.

18 *Ibid* s 16A(7) (as added: see note 6 supra). See also note 7 supra.

19 See note 9 supra.

20 le to every person consulted about the transfer under so much of the Radioactive Substances Act 1993 s 16A(5) (as added) as requires consultation in accordance with s 16(5) (as amended): s 16A(8)(d)(ii) (as added: see note 6 supra).

21 Ibid s 18A(8) (as added (see note 6 supra); amended by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 13). See also note 7 supra.

22 Radioactive Substances Act 1993 s 16A(9) (as added: see note 6 supra). See also note 7 supra.

23 Ibid s 16A(10) (as added: see note 6 supra). See also note 7 supra.

UPDATE

1453-1457 Power to authorise the disposal or accumulation of radioactive waste; consultation requirements ... Transfer of authorisations

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1458. Review of authorisations.

1458. Review of authorisations.

The Environment Agency¹:

3920 (1) must carry out periodic reviews² of the limitations and conditions attached to each authorisation³; and

3921 (2) may, at any other time, carry out any such additional review of the limitations and conditions attached to an authorisation⁴ as it thinks fit⁵.

1 The statutory wording is 'the authorising authority'; and for these purposes, 'the authorising authority', in relation to an authorisation having effect in Great Britain, means the appropriate Agency: Radioactive Substances Act 1993 s 17A(2) (s 17A added by the Energy Act 2004 s 74). The Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 For these purposes, 'periodic reviews', in relation to an authorisation, means reviews at such regular intervals as the authorising authority thinks fit in the case of that authorisation: Radioactive Substances Act 1993 s 17A(2) (as added: see note 1 supra).

3 I.e. each authorisation under *ibid* s 13 or s 14: see PARAS 1450, 1452 ante. As to the power to grant authorisations subject to limitations or conditions see PARA 1455 ante.

4 I.e. an authorisation under either *ibid* s 13 or s 14.

5 *Ibid* s 17A(1) (as added: see note 1 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1459. Variation or revocation of authorisation.

1459. Variation or revocation of authorisation.

The Environment Agency ('the Agency')¹ may at any time:

- 3922 (1) revoke an authorisation²; or
- 3923 (2) where the authorisation has effect without limitations or conditions, vary it by attaching limitations or conditions to it³; or
- 3924 (3) where the authorisation has effect subject to limitations or conditions, vary it by revoking or varying them or attaching further limitations or conditions to the authorisation⁴.

The powers of the Agency under these provisions are exercisable with or without the making of an application by the person holding the authorisation⁵; but where an application for the variation of an authorisation is made by that person, it must be accompanied by the charge, if any, that is prescribed⁶ for the purpose⁷.

On any proposal to vary an authorisation granted⁸ in respect of the disposal⁹ of radioactive waste¹⁰ on or from any premises¹¹ situated on a nuclear site¹², the Agency:

- 3925 (a) must consult the Food Standards Agency¹³ and the Health and Safety Executive¹⁴ before deciding whether to vary the authorisation and, if so, whether by attaching, revoking or varying any limitations or conditions or by attaching further limitations or conditions; and
- 3926 (b) must consult the Food Standards Agency concerning the terms of any variation, for which purpose the Environment Agency must, before varying the authorisation, send the Food Standards Agency a copy of any variations which it proposes to make¹⁵.

Where any authorisation¹⁶ is revoked or varied, the Environment Agency must give notice of the revocation or variation to the person to whom the authorisation was granted, and must, if a copy of the certificate of authorisation was sent to a public or local authority¹⁷, send a copy of the notice to that authority¹⁸.

Where a person holds an authorisation¹⁹ in respect of any high-activity source²⁰ and either:

- 3927 (i) intends to dispose of or accumulate a high-activity source, other than an existing high-activity source²¹, on or after 1 January 2006; or
- 3928 (ii) intends to dispose of or accumulate an existing high-activity source on or after 1 January 2008;

that person must apply to the Agency under the above provisions to vary his authorisation to enable the Agency to ensure that the authorisation complies with the relevant provisions of the Euratom Directive on the control of high-sealed radioactive sources and orphan sources²² and that person must make that application in accordance²³ with the prescribed time limits²⁴. If a

person fails to make an application in accordance with those time limits, his authorisation must be revoked by the Agency so far as it relates to the high-activity source in question²⁵. The Agency may, however, notify a person to whom head (i) or head (ii) above applies:

- 3929 (A) that he is not required to make such an application; or
 3930 (B) if the Agency is satisfied that in its opinion exceptional circumstances apply to that person, that he may make an application within a period shorter than that provided for under the prescribed time limits²⁶.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq; and as to the exercise of its functions under the Radioactive Substances Act 1993 s 17 (as amended) with regard to high-activity and other sealed sources see PARA 1464 post.

2 Ie an authorisation granted under the Radioactive Substances Act 1993 ss 13 or 14: see PARAS 1450, 1452 ante: s 17(1) (s 17(1), (2), (3) amended by the Environment Act 1995 s 120, Sch 22 para 200). When an authorisation is revoked or varied, the person to whom it was granted may appeal to the Secretary of State or the Welsh Ministers: see PARA 1471 post. As to the Secretary of State and the Welsh Ministers see PARA 601 note 1 ante.

3 Radioactive Substances Act 1993 s 17(2)(a) (as amended: see note 2 supra). As to the power to grant authorisations subject to limitations or conditions see PARA 1455 ante.

4 Ibid s 17(2)(b) (as amended: see note 2 supra). Where judicial review of a variation is sought, a stay of the variation pending a full hearing of the application will not necessarily be granted: see *R v Inspectorate of Pollution, ex p Greenpeace Ltd* [1994] 4 All ER 321, [1994] 1 WLR 570, CA. As to the validity of variations of an existing authorisation to allow a testing process which if successful would require a new authorisation for its operation see *R v Inspectorate of Pollution, ex p Greenpeace Ltd (No 2)* [1994] 4 All ER 329, [1994] 2 CMLR 548.

5 Radioactive Substances Act 1993 s 17(2ZA) (s 17(2ZA), (2ZB) added by the Energy Act 2004 s 73).

6 Ie prescribed for the purpose by a charging scheme under the Environment Act 1995 s 41 (as amended) (see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 97): see the Radioactive Substances Act 1993 s 17(2ZB)(a) (as added: see note 5 supra). For the meaning of 'prescribed' in this context see PARA 1442 note 8 ante.

7 Ibid s 17(2ZB)(a) (as added: see note 5 supra).

8 Ie under ibid s 13(1): see PARA 1450 ante.

9 For the meaning of 'disposal' see PARA 1450 note 2 ante.

10 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

11 For the meaning of 'premises' see PARA 1439 note 1 ante.

12 For the meaning of 'nuclear site' see PARA 1450 note 6 ante.

13 As to the Food Standards Agency see FOOD vol 18(2) (Reissue) PARA 225 et seq.

14 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

15 Radioactive Substances Act 1993 s 17(2A) (added by the Environment Act 1995 Sch 22 para 206(1); amended by the Food Standards Act 1999 s 40(1), Sch 5 para 43(1), (3)).

16 See note 2 supra.

17 Ie in accordance with the Radioactive Substances Act 1993 s 16(9)(b) (as amended): see PARA 1456 ante. For the meaning of 'public or local authority' see PARA 1439 note 2 ante.

18 Ibid s 17(3) (as amended: see note 2 supra).

19 See note 2 supra.

20 For the meaning of 'high-activity source' see PARA 1449 note 9 ante.

21 For the meaning of 'existing high-activity source' see PARA 1449 note 10 ante.

22 Ie Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57) on the control of high-activity sealed radioactive sources and orphan sources ('the HASS Directive').

23 Ie in accordance with the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 4(3): see note 24 infra.

24 Ibid reg 4(1). Except where notification is given under reg 4(2)(b) (see head (b) in the text), the application must be made (1) at least four months before the date the source is intended to be disposed of or accumulated; or (2) in the case of a high-activity source (other than an existing high-activity source) which is intended to be disposed of or accumulated within four months of 20 October 2005 (ie the date when the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, came into force: see reg 1(2)), as soon as practicable and in any event at least two months before the date of intended disposal or accumulation of the source: reg 4(3).

25 Ibid reg 4(4).

26 Ibid reg 4(2).

UPDATE

1459 Variation or revocation of authorisation

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1460. Provision of facilities for disposal or accumulation of radioactive waste.

1460. Provision of facilities for disposal or accumulation of radioactive waste.

If it appears to the Secretary of State or, in relation to Wales, to the Welsh Ministers¹ that adequate facilities are not available for the safe disposal² or accumulation of radioactive waste³, he or they may either provide such facilities, or may arrange for their provision by such persons as he or they may think fit⁴. If he proposes, or they propose, to provide, or to arrange for the provision of, a place for the disposal or accumulation of that waste he or they must, before carrying out the proposal, consult with any local authority⁵ in whose area that place would be situated, and with such other public or local authorities⁶, if any, as appear to him or to them to be proper to be consulted by him or by them⁷.

The Secretary of State or the Welsh Ministers may make reasonable charges for the use of any facilities provided by him or by them or in accordance with arrangements made by him or by them, and when those facilities are not provided by him or by them, he or they may direct that reasonable charges may be made by the person providing them in accordance with any such arrangements⁸.

1 As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 ante; and as to the application of the Radioactive Substances Act 1993 s 29 to Northern Ireland see s 29(4).

2 For the meaning of 'disposal' see PARA 1450 note 2 ante.

3 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

4 Radioactive Substances Act 1993 s 29(1).

5 For the meaning of 'local authority' see PARA 1442 note 10 ante.

6 For the meaning of 'public or local authority' see PARA 1439 note 2 ante.

7 Radioactive Substances Act 1993 s 29(2).

8 Ibid s 29(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1461. Environment Agency's power to dispose of radioactive waste.

1461. Environment Agency's power to dispose of radioactive waste.

If there is radioactive waste¹ on any premises² and the Environment Agency ('the Agency')³ is satisfied that it ought to be disposed of⁴, but, by reason that the premises are unoccupied or the occupier is absent or insolvent or for any other reason, it is unlikely that it will be otherwise lawfully disposed of, the Agency has power to dispose of that radioactive waste as it may think fit⁵. The Agency may recover from the occupier, or, if the premises are unoccupied, from the owner⁶, any expenses reasonably incurred by it in disposing of that waste⁷.

1 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

2 For the meaning of 'premises' see PARA 1439 note 1 ante.

3 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq. As to the Agency's power to recover and dispose of orphan sources see PARA 1467 post.

4 For the meaning of 'dispose of' see PARA 1450 note 2 ante.

5 Radioactive Substances Act 1993 s 30(1) (s 30(1), (3) amended by the Environment Act 1995, s 120, Sch 22 para 217).

6 For these purposes, 'owner' has the same meaning as in the Public Health Act 1936 s 343(1) (ie the person for the time being receiving the rack rent of the premises in connection with which the word is used, whether on his own account or as agent or trustee for any other person, or who would so receive it if those premises were let at a rack rent): Radioactive Substances Act 1993 s 30(3). The provisions of the Public Health Act 1936 s 294, limiting the liability of owners who are only agents or trustees, also apply with the substitution for reference to a council of references to the Environment Agency: Radioactive Substances Act 1993 s 30(3)(a) (as amended: see note 5 supra). See further ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 123.

7 Ibid s 30(1).

UPDATE

1461-1463 Environment Agency's power to dispose of radioactive waste ... Functions of public and local authorities; disregard of radioactivity

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1462. Removal of radioactive waste by local authorities.

1462. Removal of radioactive waste by local authorities.

Where an authorisation¹ requires or permits radioactive waste² to be removed to a place provided by a local authority³ as a place for the deposit of refuse, it is the duty of that authority to accept any such waste removed to that place in accordance with the authorisation and to deal with it after its removal to that place in the manner, if any, indicated in the authorisation⁴.

1 Ie an authorisation under the Radioactive Substances Act 1993 s 13: see PARA 1450 ante.

2 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

3 For the meaning of 'local authority' see PARA 1442 note 10 ante.

4 Radioactive Substances Act 1993 s 18(3). Where, in the case of any such premises as are mentioned in s 42(2) (ie premises occupied on behalf of the Crown for naval, military or air force purposes or for the purposes of the department of the Secretary of State having responsibility for defence, or occupied by or for the purposes of a visiting force): (1) arrangements are made whereby radioactive waste is not to be disposed of from those premises except with the approval of the Environment Agency; and (2) in pursuance of those arrangements the Agency proposes to approve, or approves, the removal of radioactive waste from those premises to a place provided by a local authority as a place for the deposit of refuse, the provisions of s 18(3) apply as if the proposal to approve the removal of the waste were an application for an authorisation under s 13 to remove it, or (as the case may be) the approval were such an authorisation: s 42(6) (amended by the Environment Act 1995 s 120, Sch 22 para 200). The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq. As to the exemption of certain premises occupied by the Crown from all the provisions of the Radioactive Substances Act 1993 see s 42(2), (7); and PARA 1441 ante. For the meaning of 'visiting force' see PARA 1441 note 4 ante.

UPDATE

1461-1463 Environment Agency's power to dispose of radioactive waste ... Functions of public and local authorities; disregard of radioactivity

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/B. DISPOSAL AND ACCUMULATION OF RADIOACTIVE WASTE/1463. Functions of public and local authorities; disregard of radioactivity.

1463. Functions of public and local authorities; disregard of radioactivity.

For the purposes of the operation of certain statutory provisions¹ and the exercise or performance of any power or duty conferred or imposed by, or for the enforcement of, any such statutory provision, no account must be taken of any radioactivity possessed by any substance² or article³ or by any part of any premises⁴. The statutory provisions concerned are contained in, or have effect by virtue of, various specified public general Acts⁵ (or any enactment amending, extending or superseding them⁶) and local enactments⁷ in whatever terms the latter are expressed provided they relate to specified matters⁸.

1 'Statutory provision' in relation to Great Britain means a provision, whether of a general or a special nature, contained in, or in any document made or issued under, any Act, whether of a general or a special nature: Radioactive Substances Act 1993 s 40(3)(a). As to its meaning in relation to Northern Ireland see s 40(3)(b). For the meaning of 'Great Britain' see PARA 602 note 7 ante.

2 For the meaning of 'substance' see PARA 1439 note 11 ante.

3 For the meaning of 'article' see PARA 1439 note 12 ante.

4 Radioactive Substances Act 1993 s 40(1). For the meaning of 'premises' see PARA 1439 note 1 ante.

5 The specified in *ibid* s 40(2)(a), Sch 3 Pt I. The specified enactments are (1) the Public Health Act 1936 ss 48, 81, 82, 141, 259, 261 (as amended) (see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH); (2) the Clean Air Act 1993 s 16 (as amended) (see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 234); (3) the Sea Fisheries Regulation Act 1966 s 5 (as amended) (see AGRICULTURE AND FISHERIES); (4) the Salmon and Freshwater Fisheries Act 1975 s 4 (as amended) (see AGRICULTURE AND FISHERIES, WATER); (5) the Building Act 1984 s 59 (as amended) (see BUILDING vol 4(2) (2002 Reissue) PARA 382); (6) the Planning (Hazardous Substances) Act 1990 (see TOWN AND COUNTRY PLANNING); (7) the Environmental Protection Act 1990 Pt III (ss 79-84) (as amended) (see NUISANCE vol 78 (2010) PARA 155 et seq); (8) the Water Industry Act 1991 ss 72, 111, 113(6), Pt IV Ch III (ss 118-141) and s 140, Sch 8 paras 2-4 (as amended) (so far as they re-enact provisions of the Control of Pollution Act 1974 ss 43, 44) (see WATER); (9) the Water Resources Act 1991 ss 82, 84, 85, 86, 87(1), 88(2), 92, 93, 99, 161, 190, 202, 203, Sch 25 para 6 (as amended) (see WATER); and (10) the Water Act 1945 s 18, so far as it continues to have effect by virtue of the Water Consolidation (Consequential Provisions) Act 1991 s 2(2), Sch 2 or by virtue of its repeal by the Control of Pollution Act 1974 s 108, Sch 4 not having been brought into force (see WATER): Radioactive Substances Act 1993 Sch 3 Pt I (amended by the Clean Air Act 1993 s 67(1), Sch 4 para 6; the Environment Act 1995 s 120(1), Sch 22 para 230(1)). The references to provisions of the Water Resources Act 1991 have effect subject to the power conferred by s 98 (as amended) (see PARA 1451 ante): Radioactive Substances Act 1993 s 40(4). For transitional modifications of Sch 3 (as so amended) see s 49(2), Sch 5 Pt II (paras 9-12) (amended by the Statute Law (Repeals) Act 2004).

6 Radioactive Substances Act 1993 s 40(2)(a).

7 'Local enactment' means a local or private Act, or an order confirmed by Parliament or brought into operation in accordance with special parliamentary procedure: *ibid* s 40(3). As to the special parliamentary procedure for orders see PARLIAMENT vol 34 (Reissue) PARA 914 et seq.

8 *Ibid* s 40(2)(b). The matters specified are (1) the prohibition or restriction of the disposal or accumulation of waste or any description of waste, or of any substance which is a nuisance, or so as to be a nuisance, or of any substance which is, or so as to be, prejudicial to health, noxious, polluting or of any similar description (s 40(2)(b)(i)); or (2) any power or duty thereby conferred or imposed on the Environment Agency or any local authority, relevant water body or other public or local authority or any officer thereof to take any action for preventing, restricting or abating the disposals or accumulations mentioned in head (1) *supra* (s 40(2)(b)(ii) (amended by the Environment Act 1995 s 120, Sch 22 para 224)). In this context 'disposal' means discharging

or depositing a substance or allowing a substance to escape or to enter a stream or other place as may be mentioned in the statutory provision concerned: Radioactive Substances Act 1993 s 40(3). For the meaning of 'waste' see PARA 1450 note 2 ante; for the meaning of 'local authority' see PARA 1442 note 10 ante; for the meaning of 'relevant water body' see PARA 1453 note 8 ante; and for the meaning of 'public or local authority' see PARA 1439 note 2 ante.

UPDATE

1461-1463 Environment Agency's power to dispose of radioactive waste ... Functions of public and local authorities; disregard of radioactivity

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1463 Functions of public and local authorities; disregard of radioactivity

NOTES--Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

NOTE 5--Radioactive Substances Act 1993 Sch 3 Pt 1 partly repealed: Marine and Coastal Access Act 2009 Sch 22 Pt 4 (in force in relation to Wales: SI 2010/630).

Radioactive Substances Act 1993 Sch 3 Pt 1 further amended: Marine and Coastal Access Act 2009 Sch 14 para 18 (not yet in force).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/C. HIGH-ACTIVITY SEALED RADIOACTIVE SOURCES AND ORPHAN SOURCES; ADDITIONAL PROVISIONS/1464. Exercise of statutory powers and functions by the Environment Agency.

C. HIGH-ACTIVITY SEALED RADIOACTIVE SOURCES AND ORPHAN SOURCES; ADDITIONAL PROVISIONS

1464. Exercise of statutory powers and functions by the Environment Agency.

The Environment Agency ('the Agency')¹ may exercise its powers under any enactment in relation to matters concerning the prevention of unauthorised access to, or loss or theft of, high-activity sources², or other sealed sources³ which, in the opinion of the Agency, are of a similar level of potential hazard to high-activity sources, including matters relating to the security of sites where such material is held, notwithstanding that the control of pollution is not the primary or only purpose for which the powers are exercised⁴.

In performing its statutory functions with regard to registrations and authorisations⁵, where high-activity sources or other sealed sources which, in the opinion of the Agency are of a similar level of potential hazard to high-activity sources, is, or will be, kept, used⁶, disposed of⁷ or accumulated on any premises, the Agency must⁸:

- 3931 (1) in considering if the measures taken, or to be taken, by the applicant or person granted the registration or authorisation ensure the adequate security of any premises, and where it considers it appropriate:
- 357
- 523. (a) inspect those premises⁹; and
- 524. (b) consult with the police and such other persons as the Agency considers appropriate concerning the measures¹⁰;
- 358
- 3932 (2) have regard to any advice the Agency receives from the police or other persons within such time as the Agency believes is reasonable before:
- 359
- 525. (a) determining the registration or authorisation or effecting any variation or cancellation of the registration or authorisation; or
- 526. (b) imposing any limitations and conditions on the registration or authorisation¹¹;
- 360

but this does not apply where the premises are, or are part of, a nuclear site¹². An applicant or person holding a registration or authorisation must permit the Agency and any accompanying person reasonable access to any premises it wishes to inspect under head (1) above¹³. If an applicant or person holding a registration or authorisation fails to comply with this requirement, the Agency may refuse the application or cancel the registration or revoke the authorisation in so far as it relates to the sources referred to above¹⁴.

¹ The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante (definition applied by the High-activity Sealed

Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 2(2)). As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 For the meaning of 'high-activity source' see PARA 1449 note 9 ante.

3 For the meaning of 'sealed source' see PARA 1439 note 3 ante (definition applied by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 2(2)).

4 Ibid reg 5(1), (2).

5 Its functions under the Radioactive Substances Act 1993 s 7 (as amended) (see PARAS 1442-1444 ante), s 10 (as amended) (see PARAS 1447-1448 ante), s 12 (as amended) (see PARA 1449 ante), s 13 (see PARA 1450 ante), s 14 (see PARA 1452 ante) or s 17 (as amended) (see PARA 1459 ante).

6 For the meaning of 'kept or used' see PARA 1439 note 3 ante (definition applied by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 2(2)).

7 For the meaning of 'disposed of' see PARA 1450 note 2 ante (definition applied by ibid reg 2(2)).

8 For the meaning of 'premises' see PARA 1439 note 1 ante (definition applied by ibid reg 2(2)).

9 Where the Environment Agency so inspects any premises it may be accompanied by such other persons as are appropriate to assist it in assessing the measures: ibid reg 6(5).

10 Ibid reg 6(1), (3).

11 Ibid reg 6(1), (4).

12 Ibid reg 6(2). For the meaning of 'nuclear site' see PARA 1450 note 6 ante (definition applied by reg 2(2)).

13 Ibid reg 6(6).

14 Ibid reg 6(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/C. HIGH-ACTIVITY SEALED RADIOACTIVE SOURCES AND ORPHAN SOURCES; ADDITIONAL PROVISIONS/1465. Records and inspections.

1465. Records and inspections.

The Environment Agency¹ must keep records of the required matters² and of the matters notified to it under the relevant provision³ of the Euratom Directive on the control of high-activity sealed radioactive sources and orphan sources⁴. It must also establish or maintain a system of inspections to enforce the provisions of that Directive⁵ which must be complied with by persons holding registrations⁶ or authorisations⁷ under the Radioactive Substances Act 1993⁸.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante (definition applied by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 2(2)). As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 Ie the matters required by Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57) on the control of high-activity sealed radioactive sources and orphan sources ('the HASS Directive') art 5(3), (4).

3 Ie under ibid art 6.

4 High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 7(a). For the meaning of 'orphan source' see PARA 1466 note 2 post.

5 Ie the provisions of Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57) arts 3, 4, 5 and 6, and 7 (subject to art 16(1)(b)).

6 Ie under the Radioactive Substances Act 1993 s 7 (as amended) (see PARAS 1442-1444 ante) or s 10 (as amended) (see PARAS 1447-1448 ante).

7 Ie under ibid s 13 (see PARA 1450 ante) or s 14 (see PARA 1452 ante).

8 High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, regs 2(1), 7(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/C. HIGH-ACTIVITY SEALED RADIOACTIVE SOURCES AND ORPHAN SOURCES; ADDITIONAL PROVISIONS/1466. Advice and assistance in respect of orphan sources.

1466. Advice and assistance in respect of orphan sources.

The relevant person¹ must ensure that:

- 3933 (1) in relation to the public and workers, specialised technical advice and assistance is promptly made available to such persons who are not normally involved in operations subject to radiation protection requirements and who suspect the presence of an orphan source²; and
- 3934 (2) the primary aim of such advice and assistance is:
- 361
- 527. (a) the safety of the source; and
- 528. (b) the protection of the public and workers from radiation³.
- 362

1 For these purposes: (1) in relation to England and Wales and the protection of workers and in relation to England and the protection of the public (except workers), the relevant person means the Secretary of State; (2) in relation to Wales and the protection of the public (except workers), the relevant person means the Welsh Ministers: see the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 8(2)(a), (b). As to the Secretary of State and the Welsh Ministers see PARA 601 note 1 ante.

2 'Orphan source' means a sealed source, the activity level of which, at the time of its discovery, is above the exemption level referred to in Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1) art 3(2)(a) and which is not under regulatory control, either because it has never been under regulatory control or because it has been abandoned, lost, misplaced, stolen or transferred, without proper notification of the competent authority, to a new holder or without informing the recipient: Euratom Council Directive 2003/122 (OJ L346, 31.12.2003, p 57) art 2(a) (definition applied by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 2(2)). For the meaning of 'sealed source' see PARA 1439 note 3 ante (definition so applied).

3 High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 8(1).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/C. HIGH-ACTIVITY SEALED RADIOACTIVE SOURCES AND ORPHAN SOURCES; ADDITIONAL PROVISIONS/1467. Recovery and disposal of orphan sources.

1467. Recovery and disposal of orphan sources.

The Environment Agency ('the Agency')¹ must be prepared or have made provision, including assignment of responsibilities, to recover any orphan source² and must have drawn up appropriate response plans and measures³. The Agency has the power to recover any expenses reasonably incurred by it, or by a person on its behalf, in the recovery and disposal of an orphan source from the holder⁴ of that source or from the occupier or owner of the premises⁵ where the source is located⁶.

If the relevant person⁷ thinks fit, that person may make available to the Agency a sum or sums of money in respect of costs and expenses incurred or to be incurred by the Agency, or by a person on its behalf, in relation to the recovery and disposal of orphan sources where:

- 3935 (1) the amount of such costs and expenses exceeds or is expected to exceed any reasonable provision for such costs and expenses made by the Agency; and
- 3936 (2) the making available of such sum or sums is necessary to enable the recovery and disposal of any orphan source⁸.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 For the meaning of 'orphan source' see PARA 1466 note 2 ante (definition applied by the Radioactive Substances Act 1993 s 47(1); amended for this purpose by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 17(1)(b)).

3 Radioactive Substances Act 1993 s 30A(1) (s 30A added by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, 2005/2686, reg 16).

4 For these purposes, 'holder' means the person who is or is required to be registered or authorised under the Radioactive Substances Act 1993 in relation to that orphan source: s 30A(3) (as added: see note 3 supra).

5 For the meaning of 'premises' see PARA 1439 note 1 ante.

6 Radioactive Substances Act 1993 s 30A(2) (as added: see note 3 supra).

7 For these purposes, 'relevant person' means (1) in relation to England, the Secretary of State; (2) in relation to Wales, the Welsh Ministers: see *ibid* s 30A(5)(a), (b) (as added: see note 3 supra). As to the Secretary of State and the Welsh Ministers see PARA 601 note 1 ante.

8 *Ibid* s 30A(4) (as added: see note 3 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/D. SECRETARY OF STATE'S OR WELSH MINISTERS' POWERS IN RELATION TO APPLICATIONS ETC/1468. Powers to give directions to the Environment Agency in relation to radioactive materials and waste.

D. SECRETARY OF STATE'S OR WELSH MINISTERS' POWERS IN RELATION TO APPLICATIONS ETC

1468. Powers to give directions to the Environment Agency in relation to radioactive materials and waste.

The Secretary of State or, in relation to Wales, the Welsh Ministers¹ may, if he thinks fit or they think fit, in relation to:

- 3937 (1) an application for registration²;
- 3938 (2) an application for an authorisation³ or for the transfer, in whole or in part, or variation of an authorisation⁴; or
- 3939 (3) any such registration or authorisation,

give directions to the Environment Agency⁵ requiring it to take any of the following steps in accordance with the directions⁶:

- 3940 (a) so to exercise its powers under the Radioactive Substances Act 1993 as:
363
 - 529. (i) to refuse an application for registration or authorisation or for the transfer, in whole or in part, or variation of an authorisation⁷; or
 - 530. (ii) to effect or grant a registration or authorisation, attaching such limitations or conditions, if any, as may be specified in the direction⁸; or
 - 531. (iii) to vary a registration or authorisation as may be so specified⁹; or
 - 532. (iv) to grant an application for the transfer, in whole or in part, of an authorisation¹⁰; or
 - 533. (v) to carry out a review¹¹ of authorisations¹²; or
 - 534. (vi) to cancel or revoke (or not to cancel or revoke) a registration or authorisation¹³;
- 364
- 3941 (b) to serve an enforcement or prohibition notice¹⁴ as respects any registration or authorisation in such terms as may be specified in the directions¹⁵;
- 3942 (c) to send such written particulars relating to, or to activities carried on in pursuance of, registrations effected or authorisations granted¹⁶ as may be specified in the directions to such local authorities¹⁷ as may be so specified¹⁸.

UPDATE

1468-1474 Powers to give directions to the Environment Agency in relation to radioactive materials and waste ... Safety regulations generally

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/D. SECRETARY OF STATE'S OR WELSH MINISTERS' POWERS IN RELATION TO APPLICATIONS ETC/1469. Power to require certain applications to be determined by the Secretary of State or the Welsh Ministers.

1469. Power to require certain applications to be determined by the Secretary of State or the Welsh Ministers.

The Secretary of State or, in relation to Wales, the Welsh Ministers¹ may give general directions to the Environment Agency ('the Agency')² requiring it to refer applications³ for registrations, authorisations, transfers or variations of any description specified in the directions to the Secretary of State or to those ministers for his or their determination⁴. He or they may also give directions to the Agency in respect of any particular application requiring it to refer the application to the Secretary of State or the Welsh Ministers for determination⁵. Where an application is referred to the Secretary of State or to those ministers in pursuance of such directions he or they may cause a local inquiry to be held in relation to the application⁶.

After determining any application so referred, the Secretary of State or the Welsh Ministers may give the Agency directions⁷ as to the steps to be taken by it in respect of the application⁸.

¹ As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales see PARA 601 note 1 ante.

² The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

1469 Power to require certain applications to be determined by the Secretary of State or the Welsh Ministers

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/E. ENFORCEMENT AND PROHIBITION NOTICES/1470. Enforcement and prohibition notices under the Radioactive Substances Act 1993.

E. ENFORCEMENT AND PROHIBITION NOTICES

1470. Enforcement and prohibition notices under the Radioactive Substances Act 1993.

If the Environment Agency ('the Agency')¹ is of the opinion that a person to whom a registration² under the Radioactive Substances Act 1993 relates or who holds an authorisation³ under that Act is failing, or is likely to fail, to comply with any limitation or condition subject to which the registration or authorisation has effect, the Agency may serve a notice on that person⁴. The notice must:

- 3943 (1) state that the Agency is of that opinion;
- 3944 (2) specify the matters constituting the failure to comply with the limitations or conditions in question or the matters making it likely that such a failure will occur, as the case may be; and
- 3945 (3) specify the steps that must be taken to remedy those matters and the period within which those steps must be taken⁵.

If the Agency is of the opinion, as respects the keeping or use of radioactive material⁶ or of mobile radioactive apparatus⁷, or the disposal⁸ or accumulation of radioactive waste⁹, by a person in pursuance of a registration or authorisation under the Radioactive Substances Act 1993, that continuing to carry on that activity, or continuing to do so in a particular manner, involves an imminent risk of pollution of the environment or of harm to human health, the Agency may serve a notice on that person¹⁰. The notice must:

- 3946 (a) state the Agency's opinion;
- 3947 (b) specify the matters giving rise to the risk involved in the activity, the steps that must be taken to remove the risk and the period during which they must be taken; and
- 3948 (c) direct that the registration or authorisation will, until the notice is withdrawn, cease to have effect, either wholly or to the extent specified in the notice¹¹.

Such a notice may be served whether or not the carrying on of the activity in question complies with any limitations or conditions to which the registration or authorisation in question is subject¹². The Agency must by notice to the recipient withdraw such a notice when it is satisfied that the risk specified in it has been removed¹³.

When any such notice as is mentioned above is served by the Agency, the Agency must send a copy of the notice (i) to a local authority¹⁴ to which a certificate relating to registration was sent¹⁵; or (ii) to a public or local authority to which a copy of an authorisation was sent¹⁶, as appropriate¹⁷.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 Ie a registration under the Radioactive Substances Act 1993 s 7 (as amended) or s 10 (as amended): see PARAS 1442-1448 ante.

3 Ie an authorisation under ibid s 13 or s 14: see PARAS 1450, 1452 ante.

4 Ibid s 21(1) (s 12(1), (2) amended by the Environment Act 1995 s 120, Sch 22 para 200; the Radioactive Substances Act 1993 s 21(1) also amended by the Energy Act 2004 s 75, Sch 15 paras 1, 5(1)). As to the service of notices see PARA 1590 post.

5 Radioactive Substances Act 1993 s 21(2) (as amended: see note 4 supra). As to appeals against enforcement notices see PARA 1471 post.

6 For the meaning of 'radioactive material' see PARA 1439 ante; and for the meaning of 'kept or used' see PARA 1439 note 3 ante.

7 For the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante.

8 For the meaning of 'disposal' see PARA 1450 note 2 ante.

9 For the meaning of 'radioactive waste' see PARA 1450 note 3 ante.

10 Radioactive Substances Act 1993 s 22(1) (s 22(1), (3) amended by the Environment Act 1995 s 120, Sch 22 paras 200, 210(1)).

11 Radioactive Substances Act 1993 s 22(3) (as amended: see note 10 supra). Where the registration or authorisation is not wholly suspended by the direction so given, the direction may specify limitations or conditions to which the registration or authorisation is to be subject until the notice is withdrawn: s 22(4). As to appeals and representations against prohibition notices see PARA 1471 post.

12 Ibid s 22(2).

13 Ibid s 22(7) (amended by the Environment Act 1995 Sch 22 paras 200, 210(3), (4), Sch 24). On so doing, the Agency must send a copy of the withdrawal notice to any public or local authority to which a copy of the original notice was sent (see heads (i)-(ii) in the text): Radioactive Substances Act 1993 s 22(7) (as so amended). For the meaning of 'public or local authority' see PARA 1439 note 2 ante.

14 For the meaning of 'local authority' see PARA 1442 note 10 ante.

15 Ie in the case of a registration if a certificate relating to registration was sent to a local authority under the Radioactive Substances Act 1993 s 7(8) (as amended) or s 10(5) (as amended): see PARAS 1444, 1448 ante.

16 Ie in the case of an authorisation if a copy of the authorisation was sent to a local authority under ibid s 16(9)(b) (as amended) or s 16A(8)(d) (as added): see PARAS 1456-1457 ante.

17 Ibid s 21(4) (amended by the Environment Act 1995 Sch 22 paras 200, 209(1), (3), Sch 24; the Energy Act 2004 Sch 15 paras 1, 5(2)); Radioactive Substances Act 1993 s 22(6) (amended by the Environment Act 1995 Sch 22 paras 200, 210(3), (4), Sch 24; the Energy Act 2004 s 75, Sch 15 paras 1, 6).

UPDATE

1468-1474 Powers to give directions to the Environment Agency in relation to radioactive materials and waste ... Safety regulations generally

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/F. APPEALS/1471. Right of appeal in respect of registrations, authorisations and enforcement and prohibition notices.

F. APPEALS

1471. Right of appeal in respect of registrations, authorisations and enforcement and prohibition notices.

Where the Environment Agency ('the Agency')¹:

- 3949 (1) refuses an application for registration under the Radioactive Substances Act 1993², or refuses an application for an authorisation under that Act³;
- 3950 (2) refuses an application⁴ for the transfer, in whole or in part, or variation of such an authorisation;
- 3951 (3) attaches any limitations or conditions to such a registration or to such an authorisation⁵; or
- 3952 (4) varies such a registration or such an authorisation, otherwise than by revoking a limitation or condition subject to which it has effect⁶; or
- 3953 (5) cancels such a registration or revokes such an authorisation⁷,

the person directly concerned⁸ may appeal to the Secretary of State or, in relation to Wales, to the Welsh Ministers⁹; and a person on whom an enforcement notice¹⁰ or a prohibition notice¹¹ is served may appeal to him or to them against the notice¹². No appeal lies, however, in respect of any decision taken by the Agency in pursuance of a direction¹³ of the Secretary of State or the Welsh Ministers¹⁴.

The Secretary of State or the Welsh Ministers may refer any matter involved in an appeal from a decision of the Agency to a person appointed by him or by them for the purpose¹⁵; and may by regulations make provision with respect to appeals from decisions of the Agency, including in particular provision as to the period within which appeals are to be brought¹⁶.

The bringing of an appeal against a cancellation or revocation of a registration or authorisation has the effect, unless the Secretary of State otherwise directs, or the Welsh Ministers otherwise direct, of suspending the operation of the cancellation or revocation pending the determination of the appeal¹⁷; but otherwise the bringing of an appeal does not, unless the Secretary of State so directs, or the Welsh Ministers so direct, affect the validity of the decision or notice in question during that period¹⁸.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 Ie under the Radioactive Substances Act 1993 s 7 (as amended) or s 10 (as amended): see PARAS 1442-1448 ante. As to refusal of an application in respect of premises see s 7(4)(c) (as amended); and PARA 1443 ante; and as to refusal of an application in respect of mobile radioactive apparatus see s 10(2) (as amended); and PARA 1448 ante. As to when an application may be treated by the applicant as having been refused see s 7(5) (as amended); and PARA 1443 ante; s 10(4) (as amended); and PARA 1448 ante.

3 Ie under ibid s 13 or s 14: see PARAS 1450, 1452 ante. As to the grant of authorisations see s 16 (as amended); and PARAS 1453-1455 ante; and as to when an application for an authorisation (other than an

application for authorisation under s 13(1) in respect of the disposal of radioactive waste on or from premises situated on a nuclear site) may be treated by the applicant as having been refused see s 16(7) (as amended); and PARA 1454 ante.

4 le an application under ibid s 16A (as added and amended) (transfer of authorisations: see PARA 1457 ante) or s 17 (as amended) (variation of authorisations: see PARA 1459 ante).

5 For these purposes, any reference to attaching limitations or conditions to a registration or authorisation is a reference to attaching limitations or conditions to it either in effecting or granting it or in the exercise of any power to vary it: ibid s 26(5).

6 As to variation of registrations see PARA 1449 ante; and as to variation of authorisations see PARA 1459 ante.

7 As to cancellation of registrations see PARA 1449 ante; and as to revocation of authorisations see PARA 1459 ante.

8 'The person directly concerned' means: (1) in relation to a registration under the Radioactive Substances Act 1993 s 7 (as amended) or s 10 (as amended), the person applying for the registration or to whom the registration relates; (2) in relation to an authorisation under s 13 or s 14, the person applying for the authorisation or to whom it was granted; (3) in relation to an application under s 16A (as added and amended) for the transfer of an authorisation, either or both of the persons making the application; (4) in relation to an application for a variation under s 17 (as amended), the person applying for the variation: s 26(5)(a)-(d) (amended by the Energy Act 2004 s 75, Sch 15 paras 1, 10(2)).

9 Radioactive Substances Act 1993 s 26(1) (amended by the Environment Act 1995 s 120, Sch 22 para 200; the Energy Act 2004 Sch 15 paras 1, 10(1)). As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 ante; and as to the application of the Radioactive Substances Act 1993 ss 26-27 (as amended) to Northern Ireland see ss 26(6), 27(8).

10 le a notice under ibid s 21 (as amended): see PARA 1470 ante.

11 le a notice under ibid s 22 (as amended): see PARA 1470 ante.

12 Ibid s 26(2).

13 le a direction under ibid s 23 (as amended) or s 24 (as amended): see PARAS 1468-1469 post.

14 Ibid s 26(3)(b) (amended by the Environment Act 1995 Sch 22, PARA 200).

15 Radioactive Substances Act 1993 s 27(1) (amended by the Environment Act 1995 Sch 22 para 215(2)).

16 Radioactive Substances Act 1993 s 27(7). At the date at which this title states the law, no such regulations had been made, but the Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, made under the Radioactive Substances Act 1960 s 11D(6), (11) (repealed) have effect as if so made by virtue of the Radioactive Substances Act 1993 s 49(2), Sch 5 paras 1, 4; and the Interpretation Act 1978 s 17(2)(b). See PARA 1472 post.

17 As to determination of the appeal see PARA 1473 post.

18 Radioactive Substances Act 1993 s 27(6).

UPDATE

1468-1474 Powers to give directions to the Environment Agency in relation to radioactive materials and waste ... Safety regulations generally

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/F. APPEALS/1472. Procedure on appeal.

1472. Procedure on appeal.

A person who wishes to appeal to the Secretary of State or, in relation to Wales, to the Welsh Ministers¹ must give written notice of the appeal to him or to them². The notice must be accompanied by the specified documents³ and must, subject to the following provision, be given before the expiry of the period of two months beginning with the date on which a copy of the decision or notice which is the subject matter of the appeal is sent to the appellant or the application is treated as having been refused⁴, or before the expiry of such longer period as may be allowed by the Secretary of State or by those ministers⁵. Where, however, the appeal is against the decision of the Environment Agency ('the Agency')⁶ to cancel a registration or to revoke an authorisation, notice of appeal must be given before the expiry of the period of 28 days beginning with the date on which notice of the decision is given to the appellant or before the expiry of such longer period as may be allowed by the Secretary of State or the Welsh Ministers⁷.

If and to the extent that regulations⁸ so require, an appeal must be advertised in such manner as may be prescribed⁹.

Upon receipt of a notice of appeal accompanied by the specified documents, the Secretary of State or the Welsh Ministers must send to the Agency a copy of the notice of appeal, the appellant's statement of case and the appellant's statement indicating whether he wishes the appeal to be in the form of a hearing or to be disposed of on the basis of written representations¹⁰. Where the appeal is against a decision in respect of an application for an authorisation on which the Agency consulted any local authority¹¹, relevant water body¹² or other public or local authority¹³, the Agency must notify the Secretary of State or the Welsh Ministers of the names of the authorities consulted¹⁴. The Secretary of State or the Welsh Ministers must send to any authority whose name is so notified to him or to them a notice stating that an appeal has been lodged and that within a period of 21 days beginning with the date of service of that notice the authority may make representations to him or to them with respect to the subject matter of the appeal¹⁵. The Secretary of State or the Welsh Ministers must send to the appellant and the Agency a copy of any representations made to him or to them by those authorities and must allow the appellant and the Agency a period of not less than 14 days in which to make representations on them¹⁶.

If either party to the appeal so requests, an appeal must be in the form of a hearing which may, if the person hearing the appeal so decides, be held, or held to any extent, in private¹⁷.

Where the appellant informs the Secretary of State or the Welsh Ministers that he wishes the appeal to be disposed of on the basis of written representations, the Agency may submit written representations to the Secretary of State or the Welsh Ministers not later than 28 days after receiving a copy of the appellant's statements¹⁸. The appellant may make further representations by way of reply to any representations from the Agency not later than 17 days after the date of submission of those representations by the Agency¹⁹. Any representations made by the Agency or the appellant must be dated and submitted to the Secretary of State or the Welsh Ministers on the date they bear²⁰ and a party so submitting representations must at the same time send a copy to the other party²¹.

The Secretary of State or the Welsh Ministers must give the appellant and the Agency at least 28 days' written notice of the date, time and place for the holding of any hearing unless they agree to a shorter period of notice²². In the case of a hearing which is to be held wholly or partly in public, the Secretary of State or the Welsh Ministers must, at least 21 days before the date fixed for the hearing, publish a copy of the notice in at least one newspaper circulating in the locality in which the activity which is the subject matter of the appeal is or would be carried on²³. He or they may vary the date fixed for the holding of any hearing, in which case these provisions as to notice and publicity apply to the variation of a date as they applied to the date originally fixed²⁴. He or they may also vary the time or place for the holding of a hearing but must give such notice of any such variation as appears to him or to them to be reasonable²⁵.

After the conclusion of the hearing the person appointed to conduct the hearing must make a report in writing to the Secretary of State or the Welsh Ministers which must include his conclusions together with his recommendations or his reasons for not making any recommendations²⁶.

1 le under the Radioactive Substances Act 1993 s 26 (as amended): see PARA 1471 ante. As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 ante. As to the application of these provisions to Northern Ireland see PARA 1471 note 9 ante.

2 Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, reg 2(1); Radioactive Substances Act 1993 s 49(2), Sch 5 paras 1, 2, 4; Interpretation Act 1978 s 17(2)(a), (b); and see PARA 1471 note 16 ante.

3 Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, reg 2(2). The documents so specified are: (1) a full statement of the appellant's case; (2) a copy of any relevant application; (3) a copy of any relevant certificate of registration; (4) a copy of any relevant correspondence between the appellant and the Environment Agency; (5) a copy of any decision or notice which is the subject matter of the appeal; and (6) a statement indicating whether the appellant wishes the appeal to be in the form of a hearing or to be disposed of on the basis of written representations: reg 2(2) (amended by virtue of the Environment Act 1995 s 120, Sch 22 para 200). Any request by the appellant that an appeal be withdrawn must be made to the Secretary of State or to the Welsh Ministers in writing: Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, reg 2(3).

4 As to when an application may be treated by the applicant as having been refused see the Radioactive Substances Act 1993 s 7(5) (as amended); and PARA 1443 ante; s 10(4) (as amended); and PARA 1448 ante.

5 Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, reg 3(1).

6 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

7 Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, reg 3(2).

UPDATE

1468-1474 Powers to give directions to the Environment Agency in relation to radioactive materials and waste ... Safety regulations generally

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(ii) Control of Keeping, Use, Disposal and Accumulation/F. APPEALS/1473. Determination of appeal.

1473. Determination of appeal.

On determining an appeal from a decision of the Environment Agency ('the Agency')¹ relating to a registration, an authorisation or an enforcement or prohibition notice², the Secretary of State or, in relation to Wales, the Welsh Ministers³ may:

- 3954 (1) affirm the decision;
- 3955 (2) where that decision was the refusal of an application, direct the Agency to grant the application;
- 3956 (3) where that decision involved limitations or conditions attached to a registration, quash those limitations or conditions wholly or in part; or
- 3957 (4) where that decision was a cancellation or revocation of a registration, quash the decision⁴.

Where the Secretary of State does, or the Welsh Ministers do, any of the things mentioned in heads (2) to (4) above, he or they may give directions to the Agency as to the limitations and conditions to be attached to the registration or authorisation in question⁵. On the determination of an appeal in respect of an enforcement notice or a prohibition notice⁶, the Secretary of State or the Welsh Ministers may either cancel or affirm the notice and, if he affirms or they affirm it, may do so either in its original form or with such modifications as he or they may think fit⁷.

The Secretary of State or the Welsh Ministers must notify the appellant in writing of his or their determination of the appeal and of his or their reasons for it and, if a hearing is held⁸, must at the same time provide the appellant with a copy of the report of the person who conducted the hearing⁹. He or they must at the same time send a copy of those documents to the Agency and to any authority to which he or they was or were required¹⁰ to give notice of the appeal¹¹.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 I.e. an appeal under the Radioactive Substances Act 1993 s 26 (as amended): see PARAS 1471-1472 ante.

3 As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 ante.

4 Radioactive Substances Act 1993 s 27(4)(a)-(d) (amended by the Environment Act 1995 s 120, Sch 22 para 200).

5 Radioactive Substances Act 1993 s 27(4) (as amended: see note 4 supra).

6 I.e. an appeal under *ibid* s 26(2): see PARA 1471 ante.

7 *Ibid* s 27(5).

8 As to the procedure at a hearing see PARA 1472 ante.

9 Radioactive Substances (Appeals) Regulations 1990, SI 1990/2504, reg 7(1).

10 I.e. under *ibid* reg 4(3): see PARA 1472 ante.

11 Ibid reg 7(2).

UPDATE

1468-1474 Powers to give directions to the Environment Agency in relation to radioactive materials and waste ... Safety regulations generally

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(iii) Safety Regulations; in general/1474. Safety regulations generally.

(iii) Safety Regulations; in general

1474. Safety regulations generally.

The Secretary of State¹ is empowered to make health and safety regulations² prohibiting or imposing requirements in connection with the emission of any ionising or other radiations and imposing requirements with respect to the monitoring of any such emission³. In the exercise of this power, the Secretary of State has made the Ionising Radiations Regulations 1999⁴ and the Radiation (Emergency Preparedness and Public Information) Regulations 2001⁵, which are discussed elsewhere in this work⁶, and the Nuclear Industries Security Regulations 2003⁷, which are discussed below⁸.

Euratom Council Directives lay down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation⁹ and measures on health protection of individuals against the dangers of ionising radiation in relation to medical exposure¹⁰. These Directives are implemented in the United Kingdom by the Justification of Practices Involving Ionising Radiation Regulations 2004¹¹ and the Ionising Radiation (Medical Exposure) Regulations 2000¹². In addition, the Health and Safety at Work Act 1974¹³, the Food Safety Act 1990¹⁴, the Environment Act 1995¹⁵, the Food and Environment Protection Act 1985¹⁶, the Radioactive Substances Act 1993¹⁷, the Ionising Radiations Regulations 1999, the Radiation (Emergency Preparedness and Public Information) Regulations 2001, the Nuclear Industries Security Regulations 2003, and a number of other regulations contain provisions implementing the first-mentioned Directive¹⁸.

The medical uses of radioactive materials are also controlled by orders and regulations either made under, applying or disapplying provisions of the Medicines Act 1968¹⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. regulations under the Health and Safety at Work etc Act 1974 s 15 (as amended): see s 15(1) (as amended); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 424.

3 Ibid s 15(2), Sch 3 para 13(2), (3).

See further MEDICINAL PRODUCTS AND DRUGS.

UPDATE

1468-1474 Powers to give directions to the Environment Agency in relation to radioactive materials and waste ... Safety regulations generally

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1474 Safety regulations generally

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(iii) Safety Regulations; in general/1475. Regulations relating to road transport.

1475. Regulations relating to road transport.

Under the Radioactive Material (Road Transport) Act 1991 the Secretary of State¹ may make such regulations as appear to him to be necessary or expedient (1) to prevent any injury to health, or any damage to property or to the environment, being caused by, or by any incident arising out of, the transport of radioactive material²; and (2) to give effect to such international regulations for the safe transport of radioactive material as may from time to time be published by the International Atomic Energy Agency³. The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2007⁴ are partly made in the exercise of this power. The carriage of radioactive material by road is also controlled by the relevant provisions of the Nuclear Industries Security Regulations 2003⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 'Transport' for these purposes means transport by road: Radioactive Material (Road Transport) Act 1991 s 1(2). 'Radioactive material' means any material having a specific activity in excess of 70 kilobecquerels per kilogram or such lesser specific activity as may be specified in an order made by the Secretary of State: s 1(1).

3 Ibid s 2(1). As to the International Atomic Energy Agency see PARA 1354 ante. As to the provision that may be made by such regulations see s 2(2), (3) (prospectively amended by the Road Safety Act 2006 s 57(1)-(3), as from a day to be appointed under s 61(1); at the date at which this title states the law, no such day had been appointed). See further ROAD TRAFFIC vol 40(3) (2007 Reissue) PARA 1661 et seq.

4 Ie the Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2007, SI 2007/1573. With certain exceptions, radioactive material falls within the definition of 'Class 7 goods' for the purposes of those regulations: see reg 2(1). See particularly reg 57.

5 See the Nuclear Industries Security Regulations 2003, SI 2003/403, regs 13-21; and PARAS 1552-1557 post.

UPDATE

1475 Regulations relating to road transport

NOTE 4--SI 2007/1573 replaced: Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009, SI 2009/1348.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/(iii) Safety Regulations; in general/1476. Carriage of radioactive substances by rail, sea and air.

1476. Carriage of radioactive substances by rail, sea and air.

The carriage of radioactive material by rail is controlled by the Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2007¹, and by the relevant provisions of the Nuclear Industries Security Regulations 2003². The railway is not liable under the Convention concerning International Carriage by Rail³ for loss or damage caused by a nuclear incident when, pursuant to the laws and prescriptions of a state governing liability in the field of nuclear energy⁴, the operator of a nuclear installation or another person who is substituted for him is liable for the loss or damage⁵. The Convention also incorporates rules concerning the international carriage of dangerous goods by rail⁶. The Convention has the force of law in the United Kingdom, and judicial notice is to be taken of it⁷.

The carriage of radioactive material by sea is controlled by the Merchant Shipping (Dangerous Goods and Marine Pollutants) Regulations 1997⁸, the Merchant Shipping (Carriage of Packaged Irradiated Nuclear Fuel etc) (INF Code) Regulations 2000⁹, the Merchant Shipping (Reporting Requirements for Ships Carrying Dangerous or Polluting Goods) Regulations 1995¹⁰ and the relevant provisions of the Nuclear Industries Security Regulations 2003¹¹.

The transfrontier shipment of radioactive waste is discussed in detail below¹².

The carriage of radioactive material by air is controlled by the Air Navigation (Dangerous Goods) Regulations 2002¹³. The provisions of the Nuclear Industries Security Regulations 2003 relating to carriers¹⁴ do not apply to transport by air¹⁵.

1 Ie the Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2007, SI 2007/1573. With certain exceptions, radioactive material falls within the definition of 'Class 7 goods' for the purposes of those regulations: see reg 2(1). See particularly reg 57.

2 See the Nuclear Industries Security Regulations 2003, SI 2003/403, regs 13-21; and PARAS 1552-1557 post.

3 The Convention concerning International Carriage by Rail (commonly called 'COTIF') was signed at Berne in 1980 and first given the force of law in the United Kingdom by the International Transport Conventions Act 1983: see CARRIAGE AND CARRIERS vol 7 (2008) PARA 683 et seq; RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 27. The COTIF Convention was presented to Parliament in 1982 in Cmnd 8535. A new version of the COTIF Convention was agreed in 1999 (by the signature of the Protocol of Vilnius on 3 June 1999 (Cm 4863) (2000)), and is now implemented into United Kingdom law by the Railways (Convention on International Carriage by Rail) Regulations 2005, SI 2005/2092, made under the Railways and Transport Safety Act 2003 s 103, Sch 6.

4 Ie in the United Kingdom, the Nuclear Installations Act 1965: see PARA 1487 et seq post.

5 COTIF Convention Appendix A art 50: see RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 27.

6 COTIF Convention Appendix C contains uniform rules concerning the contract for the international carriage of goods by rail (commonly called 'RID').

7 See the Railways (Convention on International Carriage by Rail) Regulations 2005, SI 2005/2092, reg 3(1); and CARRIAGE AND CARRIERS vol 7 (2008) PARA 683; RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 27.

8 le the Merchant Shipping (Dangerous Goods and Marine Pollutants) Regulations 1997, SI 1997/2367: see SHIPPING AND MARITIME LAW vol 94 (2008) PARA 660.

9 le the Merchant Shipping (Carriage of Packaged Irradiated Nuclear Fuel etc) (INF Code) Regulations 2000, SI 2000/3216: see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq.

10 le the Merchant Shipping (Reporting Requirements for Ships Carrying Dangerous or Polluting Goods) Regulations 1995, SI 1995/2498: see SHIPPING AND MARITIME LAW vol 94 (2008) PARA 657.

11 See note 2 supra. See also the Nuclear Industries Security Regulations 2003, SI 2003/403, regs 27, 28 (application of those regulations to transport by ship or hovercraft); and PARA 1552 note 1 post.

12 See the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031; and PARA 1477 et seq post.

13 le the Air Navigation (Dangerous Goods) Regulations 2002, SI 2002/2786 (as amended): see CARRIAGE AND CARRIERS vol 7 (2008) PARA 193 et seq.

14 See note 2 supra.

15 See PARA 1552 note 1 post.

UPDATE

1476 Carriage of radioactive substances by rail, sea and air

TEXT AND NOTE 1--SI 2007/1573 replaced: Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009, SI 2009/1348.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/A. IN GENERAL/1477. Control of radioactive waste shipments.

(iv) Transfrontier Shipment of Radioactive Waste

A. IN GENERAL

1477. Control of radioactive waste shipments.

Shipments of radioactive waste¹ from, to or in transit through the United Kingdom² are subject to a system of authorisation and approval under regulations³ which implement in the United Kingdom a Euratom Council Directive⁴ on the supervision and control of shipments of radioactive waste between member states and into and out of the European Atomic Energy Community ('Euratom')⁵.

The regulations apply to shipments of radioactive waste between member states and into and out of the Community, with certain exceptions⁶. Shipments falling within Part III of the Transfrontier Shipment of Radioactive Waste Regulations 1993⁷ are prohibited in the United Kingdom unless carried out under, and in accordance with the conditions and requirements contained in, an authorisation granted by the competent authorities of the member state entitled to grant such authorisation⁸ and an approval given by the appropriate Agency⁹. Shipments falling within Part II of those regulations¹⁰ are prohibited in the United Kingdom unless carried out under, and in accordance with the conditions and requirements contained in, an authorisation granted by that Agency¹¹. The shipments for which authorisation by the Agency suffices are:

- 3958 (1) shipments of radioactive waste from a place of origin in the United Kingdom to a place of destination in another country, whether another member state or a third country¹²;
- 3959 (2) shipments whereby such waste is to be imported into the Community from a third country and the country of destination is the United Kingdom¹³; and
- 3960 (3) shipments whereby such waste is to enter the Community from a third country and the country of destination is not a member state and the United Kingdom is the member state in whose territory the waste is first to enter the Community¹⁴.

Transport operations necessary for any shipment to which the regulations apply must comply with Community and national provisions and with international agreements on the transport of radioactive material¹⁵.

The regulations bind the Crown¹⁶ save that no contravention by the Crown of any provision of the regulations is to make the Crown criminally liable, but the High Court may, on the application of the Agency, declare unlawful any act or omission of the Crown which constitutes such a contravention¹⁷. The regulations apply to persons in the public service of the Crown as they apply to other persons¹⁸. The requirements of the regulations do not have effect to the extent that in any particular case they would, in the opinion of the Secretary of State for Defence, be against the interests of national security¹⁹.

1 'Shipment' means transport operations from the place of origin to the place of destination, including loading and unloading, of radioactive waste: Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(1). 'Radioactive waste' for this purpose means any material which contains or is contaminated by radionuclides and for which no use is foreseen: *ibid* reg 2(1).

2 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 *Ie* the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031: see the text and notes 4-17 *infra*; and PARA 1479 *et seq post*.

4 *Ie* Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) (prospectively repealed with effect from 25 December 2008 and replaced by Euratom Council Directive 2006/117 (OJ L337, 5.12.2006, p 21) on the supervision and control of shipments of radioactive waste and spent fuel: see art 23(1)). The latter Directive must be transposed into United Kingdom law by 24 December 2008: see art 22(1). As to the European Atomic Energy Community ('Euratom') see PARAS 1337-1339 ante. See also Euratom Council Regulation 1493/93 (OJ L148, 19.6.93, p 1) on shipments of radioactive substances between member states.

5 See the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(1). The regulations were made by the Secretary of State in the exercise of powers conferred on him as the designated minister for the purposes of the European Communities Act 1972 s 2(2), and came into force on 1 January 1994: see reg 1.

6 The regulations do not apply to shipments where the quantities and concentration of the radioactive waste do not exceed the levels laid down in EC Council Directive 80/836 (OJ L246, 17.9.80, p 1) art 4(a), (b) (repealed and replaced by Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1) laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation: see now art 4(3)), or to shipments where a sealed source (other than one containing fissile material) is returned by its user to the supplier of the source in another country: Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 3(1).

7 *Ie* shipments to which *ibid* Pt III (regs 10-11) applies.

8 *Ibid* reg 10(a). 'Authorisation' for these purposes, and for the purposes of regs 13(2)(b)(iii) and 15(1) (see PARAS 1484-1485 *post*), means authorisation for a shipment granted by a member state under Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) arts 7 or 12(2) (prospectively repealed: see note 4 *supra*), or under art 7 (prospectively repealed) as applied by any other provision of that Directive: Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(1).

9 See *ibid* reg 10(b). The statutory wording is 'given by the chief inspector', and 'chief inspector' is defined as the chief inspector appointed under the Radioactive Substances Act 1993 in the case of a shipment taking place within England and Wales, Scotland or Northern Ireland and, in the case of a shipment taking place in two or more of the territories of England and Wales, Scotland or Northern Ireland, the proper authority determined in accordance with reg 2(2) (see reg 2(1)); but the functions formerly exercised under that Act by the chief inspector are now exercised in relation to England and Wales by the Environment Agency as the 'appropriate Agency': see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 *et seq*. In relation to Scotland, the appropriate Agency is the Scottish Environment Protection Agency: see the Radioactive Substances Act 1993 s 47(1) (amended for these purposes by the Environment Act 1995 s 120, Sch 22 paras 227(2), (7)). There is still a chief inspector for Northern Ireland, appointed under the Radioactive Substances Act 1993 s 4(7) (otherwise repealed). Where a shipment takes place in more than one of the territories of England and Wales, Scotland or Northern Ireland, the proper authority is (1) in the case of a shipment to a place of destination in the United Kingdom, the appropriate Agency or the chief inspector for Northern Ireland; (2) in the case of a shipment from a place of origin in the United Kingdom, the appropriate Agency or the chief inspector for the territory in which the place of origin is situated; and (3) in the case of a shipment where the United Kingdom is a country of transit, the appropriate Agency or the chief inspector for the territory in which the point of entry into the United Kingdom is situated: see the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(2). 'Place of origin' and 'place of destination' mean places situated in two different countries, either member states or third countries, and these countries are respectively called 'the country of origin' and 'the country of destination'; and 'country of transit' means a country, whether a member state or a third country, other than the country of origin and the country of destination, through which a shipment of radioactive waste is, or is to be, transported: reg 2(1). 'Third country' means a country which is not a member of Euratom: reg 2(1).

10 *Ie* shipments to which *ibid* Pt II (regs 5-9) applies.

11 *Ibid* reg 6. As to authorisation see reg 7(5); and PARA 1480 *post*.

12 *Ibid* reg 5(a).

- 13 Ibid reg 5(b).
- 14 Ibid reg 5(c).
- 15 Ibid reg 3(2).
- 16 Ibid reg 4(1). As to the application of this provision to Northern Ireland see reg 4(4).
- 17 Ibid reg 4(2).
- 18 Ibid reg 4(3).
- 19 Ibid reg 4(5).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

1477 Control of radioactive waste shipments

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/A. IN GENERAL/1478. Directions relating to the transfrontier shipment of nuclear waste.

1478. Directions relating to the transfrontier shipment of nuclear waste.

The Secretary of State¹ may, if he thinks fit in relation to any application for either an authorisation² or an approval³ in relation to the transfrontier shipment of radioactive waste⁴, give to the appropriate Agency⁵ directions as to (1) whether the application is to be granted or refused⁶; or (2) the conditions and requirements to which the authorisation or approval, if granted, is to be subject⁷, and it is the duty of the Agency to give effect to the directions⁸. Such a direction is of no effect in so far as it requires the Agency to determine an application in a manner which is either contrary to, or not within the powers conferred on it by, any of the provisions of the relevant regulations⁹ apart from that conferring the power to give directions¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie an authorisation under the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, Pt II (regs 5-9): see PARA 1477 ante, PARA 1479 et seq post.

3 Ie an approval under ibid reg 11: see PARA 1483 post.

4 For the meaning of 'radioactive waste' see PARA 1477 note 1 ante.

5 See PARA 1477 note 9 ante.

6 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 16(1)(a).

8 Ibid reg 16(1).

9 Ie the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031: see PARA 1477 ante, PARA 1479 et seq post.

10 Ibid reg 16(2).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/B. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN THE UNITED KINGDOM/1479. Authorisation for transfrontier shipments of radioactive waste.

B. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN THE UNITED KINGDOM

1479. Authorisation for transfrontier shipments of radioactive waste.

An application for authorisation under Part II of the Transfrontier Shipment of Radioactive Waste Regulations 1993¹ for a transfrontier shipment² of radioactive waste³ must be submitted, using the appropriate standard document⁴, to the appropriate Agency⁵:

- 3961 (1) in the case of a shipment from a place of origin⁶ in the United Kingdom⁷ to a place of destination⁸ in another country⁹, by the holder¹⁰ who intends to carry out the shipment or to arrange for it to be carried out¹¹;
- 3962 (2) in the case of a shipment whereby such waste is to be imported into the European Atomic Energy Community ('Euratom')¹² from a country which is not a member of the Community and the country of destination is the United Kingdom¹³, by the intended consignee¹⁴; and
- 3963 (3) in the case of a shipment whereby such waste is to enter the Community from a third country¹⁵, the country of destination is not a member state, and the United Kingdom is the member state in whose territory the waste is first to enter the Community¹⁶, by the person who has the responsibility for managing the shipment within the United Kingdom¹⁷.

An application may be submitted in respect of more than one shipment if:

- 3964 (a) the radioactive waste to which it relates essentially has the same physical, chemical and radioactive characteristics;
- 3965 (b) the shipments are to be made from the same holder to the same consignee and involve the same competent authorities; and
- 3966 (c) in the case of shipments which involve third countries, the transit is via the same frontier post of entry to or exit from the Community, and via the same frontier post of the third country or countries concerned (unless otherwise agreed between the competent authorities concerned)¹⁸.

1. I.e. under the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, Pt II (regs 5-9). For these purposes, 'authorisation' means an authorisation under reg 7(5) (see PARA 1480 post): reg 2(1).

2. For the meaning of 'shipment' see PARA 1477 note 1 ante.

3. For the meaning of 'radioactive waste' see PARA 1477 note 1 ante.

4. 'Appropriate standard document' means the standard document prepared for that purpose in accordance with the procedure laid down in Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) art 19 (prospectively repealed and replaced: see PARA 1477 note 4 ante): Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(1).

5. See PARA 1477 note 9 ante.

- 6 For the meaning of 'place of origin' see PARA 1477 note 9 ante.
- 7 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.
- 8 For the meaning of 'place of destination' see PARA 1477 note 9 ante.
- 9 Ie a shipment to which the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1003/3031, Pt II (regs 5-9) applies by virtue of reg 5(a): see PARA 1477 ante.
- 10 'Holder' means any person who, before carrying out a shipment, has the legal responsibility for the radioactive waste to be shipped and intends to carry out or arrange for shipment to a consignee: ibid reg 2(1). 'Consignee' means a person to whom radioactive waste is shipped: reg 2(1).
- 11 Ibid reg 7(1)(a).
- 12 As to the European Atomic Energy Community ('Euratom') see PARAS 1337-1339 ante.
- 13 Ie a shipment to which the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, Pt II applies by virtue of reg 5(b): see PARA 1477 ante.
- 14 Ibid reg 7(1)(b).
- 15 For the meaning of 'third country' see PARA 1477 note 9 ante.
- 16 Ie a shipment to which the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, Pt II applies by virtue of reg 5(c): see PARA 1477 ante.
- 17 Ibid reg 7(1)(c).
- 18 Ibid reg 7(2).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/B. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN THE UNITED KINGDOM/1480. Granting of authorisation by the appropriate Agency.

1480. Granting of authorisation by the appropriate Agency.

On receipt of an application for authorisation¹ the appropriate Agency² must send the application for approval to the competent authorities of each country, other than the United Kingdom³, which, in relation to the proposed shipment⁴, is either the country of origin⁵ or destination⁶, or a country of transit⁷, using the appropriate standard document⁸. The sending of the application for approval does not affect the subsequent decision of the Agency whether to grant the authorisation⁹.

When the application is for authorisation for a shipment from the United Kingdom to another country¹⁰ and the place of origin is within a nuclear site¹¹, or for a shipment from a country outside the European Atomic Energy Community and the place of destination is within a nuclear site in the United Kingdom¹², the appropriate Agency must, upon receipt of the application, consult the Health and Safety Executive¹³ by sending to the Executive a copy of the application; and before granting an authorisation it must consider any representations made to it about the application by the Executive during such period as may be specified by it when copying the application to the Executive or such other period as the Agency and the Executive may agree in writing¹⁴.

If all the approvals necessary for the shipment in question have been granted¹⁵ the Agency may grant an authorisation to ship the radioactive waste¹⁶ to the person who made the application and, using the appropriate standard document, the Agency must inform the competent authorities of each country which is either the country of origin or destination, or a country of transit¹⁷.

An authorisation is valid for such period not exceeding three years as is specified in it¹⁸. The granting of an authorisation does not in any way affect the responsibility of the holder¹⁹, the transporter²⁰, the consignee²¹ or any other person involved in the shipment²².

1 I.e. an application made under the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 7(1): see PARA 1479 ante. For the meaning of 'authorisation' for these purposes see PARA 1479 note 1 ante.

2 See PARA 1477 note 9 ante.

3 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 For the meaning of 'shipment' see PARA 1477 note 1 ante.

5 For the meaning of 'country of origin' see PARA 1477 note 9 ante.

6 For the meaning of 'country of destination' see PARA 1477 note 9 ante.

7 For the meaning of 'country of transit' see PARA 1477 note 9 ante.

8 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 7(3). For the meaning of 'appropriate standard document' see PARA 1479 note 4 ante.

9 Ibid reg 7(3).

10 le an application to which *ibid* Pt II (regs 5-9) applies by virtue of reg 5(a): see PARA 1477 ante.

11 'Nuclear site' means (1) any site in respect of which a nuclear site licence is for the time being in force; or (2) any site in respect of which, after the revocation or surrender of a nuclear site licence, the period of responsibility of the licensee has not come to an end: *ibid* reg 7(10). 'Nuclear site licence', 'licensee' and 'period of responsibility' have the same meanings as in the Nuclear Installations Act 1965 (see PARAS 1487 note 1, 1490 note 11, 1494 note 7 respectively post): Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 7(10).

12 le an application to which *ibid* Pt II applies by virtue of reg 5(b): see PARA 1477 ante.

13 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

14 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 7(4).

15 For these purposes, and for the purposes of *ibid* regs 13(2)(b)(ii) and 15(1) (see PARAS 1484-1485 post), 'approval' means an approval under Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) art 6(1) (prospectively repealed and replaced: see PARA 1477 note 4 ante), or under art 6(1) as applied by any other provision of that Directive, and 'necessary', in relation to such an approval, means necessary by virtue of any provision of that Directive: Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(1). Such an approval is deemed to have been granted where no reply has been received from the competent authorities of a country, to whom an application for approval has been sent, prior to the expiry of the period of two months from their having received it or, where they have requested a further period of not more than one month for making their position known, prior to the expiry of that further period, unless they have informed the European Commission in accordance Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) art 17 (prospectively repealed and replaced) that they do not accept this automatic approval procedure in general: Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, regs 2(1), 7(6).

16 For the meaning of 'radioactive waste' see PARA 1477 note 1 ante.

17 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 7(5). Where the Agency grants an authorisation it must use the appropriate standard document and must attach to the document any additional requirements which apply in relation to the shipment: reg 7(7).

18 *Ibid* reg 7(8).

19 For the meaning of 'holder' see PARA 1479 note 10 ante.

20 For these purposes, 'transporter' has the meaning it has in Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) (prospectively repealed and replaced: see PARA 1477 note 4 ante): Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 2(1).

21 For the meaning of 'consignee' see PARA 1479 note 10 ante.

22 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 7(9).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/B. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN THE UNITED KINGDOM/1481. Restrictions on shipments to certain destinations and requirements as to taking back certain shipments.

1481. Restrictions on shipments to certain destinations and requirements as to taking back certain shipments.

The appropriate Agency¹ must not grant an authorisation² for a shipment³ of radioactive waste⁴ either (1) to a latitude south of latitude 60° south⁵; or (2) to a state party to the Lomé Convention⁶ which is not a member of the European Atomic Energy Community ('Euratom')⁷; or (3) to a third country⁸ which, in the Agency's opinion, in accordance with the relevant criteria⁹, does not have the technical, legal or administrative resources to manage the radioactive waste safely¹⁰.

Where the Agency has granted an authorisation for a shipment from a place of origin¹¹ in the United Kingdom¹² to another country¹³, the holder¹⁴ is obliged to take the radioactive waste back if either (a) the shipment cannot be completed¹⁵; or (b) the conditions and requirements contained in the authorisation for the shipment are not complied with¹⁶.

The Agency may not grant an authorisation for radioactive waste to be imported into the Community where the United Kingdom is the country of destination¹⁷ unless it is satisfied that the consignee¹⁸ of the waste has negotiated a clause with the holder of the waste established in the country of origin, obliging that holder to take back the waste where a shipment cannot be completed¹⁹.

1 See PARA 1477 note 9 ante.

2 For the meaning of 'authorisation' for these purposes see PARA 1479 note 1 ante.

3 For the meaning of 'shipment' see PARA 1477 note 1 ante.

4 For the meaning of 'radioactive waste' see PARA 1477 note 1 ante.

- 14 For the meaning of 'holder' see PARA 1479 note 10 ante.
- 15 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 8(2)(a).
- 16 Ibid reg 8(2)(b).
- 17 Is an authorisation for a shipment to which ibid Pt II applies by virtue of reg 5(b): see PARA 1477 ante.
- 18 For the meaning of 'the consignee' see PARA 1479 note 10 ante.
- 19 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 8(3).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/B. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN THE UNITED KINGDOM/1482. Receipt of shipment.

1482. Receipt of shipment.

Where, in the case of a shipment¹ from a place of origin² in the United Kingdom³ in respect of which the country of destination⁴ is a member state of the European Atomic Energy Community ('Euratom')⁵, the appropriate Agency⁶ receives from the competent authorities of the country of destination a copy of the acknowledgment of receipt of the shipment⁷, he must send a copy of that acknowledgment to the person who submitted the application⁸ for authorisation for that shipment⁹.

Where the country of destination of a shipment from a place of origin in the United Kingdom is a third country¹⁰, the person who submitted the application for authorisation for that shipment must, within two weeks of the date of its arrival, notify the Agency that the radioactive waste¹¹ has reached its destination in the third country, and must indicate the last customs post in the Community through which the shipment passed¹². The notification must be substantiated by a declaration or certification of the consignee¹³ of the waste stating that it has reached its proper destination and indicating the customs post of entry into the country of destination¹⁴.

1 For the meaning of 'shipment' see PARA 1477 note 1 ante. The Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 9(1), (2) (see the text and notes 2-13 infra) applies to shipments to which Pt II (regs 5-9) applies by virtue of reg 5(a) (see PARA 1477 ante): reg 9(1), (2).

2 For the meaning of 'place of origin' see PARA 1477 note 8 ante.

3 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 For the meaning of 'place of destination' see PARA 1477 note 8 ante.

5 As to Euratom see PARAS 1337-1339 ante.

6 See PARA 1477 note 8 ante.

7 Ie sent in accordance with Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) art 9(2) (prospectively repealed and replaced: see PARA 1477 note 4 ante): Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 9(1).

8 Ie the application for authorisation submitted under ibid reg 7(1): see PARA 1479 ante.

9 Ibid reg 9(1).

14 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 9(3).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/C. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN ANOTHER MEMBER STATE/1483. Approval for shipments of radioactive waste.

C. SHIPMENTS FOR WHICH AUTHORISATION IS GRANTED IN ANOTHER MEMBER STATE

1483. Approval for shipments of radioactive waste.

Where in relation to a shipment¹ the United Kingdom² is the country of destination³ or the country of transit⁴, the appropriate Agency⁵ must, using the appropriate standard document⁶, not later than two months after receipt of a duly completed application for approval from the competent authorities of the country responsible⁷ for sending the same, notify those authorities of its approval of the shipment, or of any conditions which the Agency requires to be attached to the approval, or of its refusal to grant approval⁸.

Any conditions required by the Agency to be attached to the approval must not be more stringent than those laid down for similar shipments wholly within the United Kingdom and must comply with existing international agreements⁹. The Agency must give reasons¹⁰ for attaching conditions to an approval, or for refusing an approval¹¹.

The Agency may request a further period of not more than one month, in addition to the period of two months referred to above, to make its position known, and if it so requests, the time for giving notification is extended by that further period¹². Where the Agency fails to reply within the set period to the competent authorities of a country who have sent it an application for approval it is deemed¹³ to have notified those authorities that it refuses to grant approval for the shipment in question¹⁴.

14 Ibid reg 11(5).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/D. RESHIPMENT OPERATIONS/1484. Reshipment operations.

D. RESHIPMENT OPERATIONS

1484. Reshipment operations.

The regulations governing transfrontier shipments of radioactive waste¹ do not affect the right of a member state of the European Atomic Energy Community ('Euratom')², or an undertaking within a member state, to which radioactive waste³ has been exported for processing, to return the waste after treatment to its country of origin⁴. Similarly, when irradiated nuclear fuel has been exported to a member state or to an undertaking within it for reprocessing, the regulations do not affect the right of the member state or undertaking to return to its country of origin waste or other products of the reprocessing operation⁵.

Where radioactive waste was to be exported for reprocessing to a member state, or to an undertaking in a member state, and transit of the initial shipment⁶ was approved⁷ by the appropriate Agency⁸, it may not refuse to approve reshipment where that reshipment concerns the same material after treatment or reprocessing if all relevant legislation is respected⁹. The Agency is also not permitted to refuse approval for reshipment of radioactive waste to the holder¹⁰ of the waste in the member state of dispatch where the reshipment is undertaken on the same conditions, and with the same specifications, as the initial shipment, and:

- 3967 (1) the country of dispatch in relation to the shipment is a member state; and
- 3968 (2) either the shipment cannot be completed or the conditions and requirements contained in the authorisation¹¹ and necessary approvals¹² for the shipment are not complied with; and
- 3969 (3) transit of the initial shipment was approved¹³.

Likewise, approval may not be refused for reshipment of radioactive waste to the holder of the waste established in a third country¹⁴ where the reshipment is undertaken on the same conditions, and with the same specifications, as the initial shipment, and (a) a shipment from a third country to a country of destination¹⁵ which is a member state cannot be completed; and (b) transit of the initial shipment was approved¹⁶.

Where, in relation to a shipment, the holder of the radioactive waste becomes obliged to take back the waste¹⁷, the Agency¹⁸ must ensure that the radioactive waste in question is taken back by the holder¹⁹. Where a person has failed to comply with any obligation of his to take back radioactive waste, the Agency may take proceedings in the High Court for the purpose of securing compliance with the obligation²⁰.

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/E. DOCUMENTS AND RECEIPTS/1485. Documents and receipts.

E. DOCUMENTS AND RECEIPTS

1485. Documents and receipts.

No person may carry out a transfrontier shipment of radioactive waste¹ within the United Kingdom² unless it is accompanied by the application made³ for authorisation⁴, the necessary approvals⁵ for the shipment and the authorisation or, where a shipment is made by rail, those documents are available to the appropriate Agency⁶. Where in relation to such a shipment the United Kingdom is the country of destination⁷, the consignee⁸ must within 15 days of receipt of the radioactive waste send the Agency an acknowledgment of receipt using the appropriate standard document⁹. Where the Agency receives such an acknowledgment of receipt it must send copies of it to the competent authorities of the other countries involved in the operation¹⁰.

1 Ie a shipment to which the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, apply: see PARA 1477 et seq ante. For the meaning of 'shipment' and 'radioactive waste' see PARA 1477 note 1 ante.

2 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 Ie under Euratom Council Directive 92/3 (OJ L35, 12.2.92, p 24) (prospectively repealed and replaced: see PARA 1477 note 4 ante): Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 15(1).

4 For the meaning of 'authorisation' for these purposes see PARA 1477 note 7 ante.

5 For the meaning of 'approval' and 'necessary' for these purposes see PARA 1480 note 15 ante.

6 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 15(1). The provisions of reg 15 are without prejudice to any accompanying documents required under other relevant provisions: reg 15(1). As to the appropriate Agency see PARA 1477 note 9 ante.

7 For the meaning of 'country of destination' see PARA 1477 note 9 ante.

8 For the meaning of 'consignee' see PARA 1479 note 10 ante.

9 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 15(2). For the meaning of 'the appropriate standard document' see PARA 1479 note 4 ante.

10 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 15(3).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(5) CONTROL IN RELATION TO RADIOACTIVE MATERIALS AND WASTE/ (iv) Transfrontier Shipment of Radioactive Waste/F. APPEALS/1486. Appeals.

F. APPEALS

1486. Appeals.

Where, except in pursuance of a direction given by the Secretary of State¹, the appropriate Agency²:

- 3970 (1) refuses to grant an authorisation for a shipment³ of radioactive waste⁴ for which application has been made⁵; or
- 3971 (2) grants such an authorisation subject to conditions or requirements⁶; or
- 3972 (3) notifies⁷ the competent authorities of a country who have sent the Agency an application for approval⁸ for a shipment of radioactive waste either that it refuses to grant approval for the shipment in question or that it requires conditions to be attached to approval⁹; or
- 3973 (4) is deemed¹⁰ to have refused to grant approval for a shipment¹¹,

the person applying for authorisation for that shipment may appeal to the Secretary of State¹².

A person wishing to appeal must give written notice of appeal to the Secretary of State within the specified period¹³ or such longer period as the Secretary of State may at any time allow¹⁴. If the appellant wishes to withdraw an appeal he must do so by notifying the Secretary of State in writing¹⁵.

The appellant must send to the Secretary of State with the notice of appeal an additional copy of the notice and two copies of the specified documents¹⁶; and the Secretary of State must send one copy of the papers received by him to the Agency¹⁷.

When an appeal is made to the Secretary of State he may refer any matter involved in the appeal to a person appointed by him for that purpose¹⁸ and may afford the appellant the opportunity of appearing before and being heard by a person appointed by him for that purpose¹⁹. In the event of the appellant choosing to take advantage of any such opportunity the Secretary of State must afford the same opportunity to the Agency²⁰. Any such hearing may, if the person hearing the appeal so decides, be held, or held to any extent, in private²¹.

On determining an appeal the Secretary of State may:

- 3974 (a) affirm the decision or deemed decision of the Agency²²;
- 3975 (b) where the appeal is against the refusal or deemed refusal of the Agency to grant an authorisation or approval, direct the chief inspector to grant it²³; and
- 3976 (c) where the appeal is against the conditions or requirements subject to which the Agency granted an authorisation or the conditions attached to a grant of an approval, quash all or any of the conditions or requirements²⁴.

Where the Secretary of State exercises any of the powers in head (b) or head (c) above, he may give directions to the Agency as to the conditions or requirements to be attached to the authorisation or refusal, and the Agency must give effect to any such directions²⁵. No direction given by the Secretary of State on determination of an appeal may, however, require the

Agency to take any action which would be either contrary to, or not within the powers conferred upon it by, any of the provisions of the relevant regulations²⁶ apart from these provisions relating to appeals²⁷.

1 Ie under the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 16: see PARA 1478 post. As to the Secretary of State see PARA 601 note 1 ante.

2 See PARA 1477 note 9 ante.

3 For the meaning of 'shipment' see PARA 1477 note 1 ante.

4 For the meaning of 'radioactive waste' see PARA 1477 note 1 ante.

5 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 17(1)(a). The reference in the text to an application is to an application under reg 7(1): see PARA 1479 ante.

6 Ibid reg 17(1)(b).

7 Ie under ibid reg 11(1): see PARA 1483 ante.

8 Ie approval under the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 11.

9 Ibid reg 17(1)(c).

10 Ie deemed to have refused to grant approval by virtue of ibid reg 11(5): see PARA 1483 ante.

11 Ibid reg 17(1)(d).

12 Ibid reg 17(1).

13 Ie the period specified in ibid reg 17(3). In the case of an appeal made by virtue of reg 17(1)(d), the period specified is six months; and in any other case the period is two months from the date on which the person entitled to make the appeal is notified that the authorisation or, as the case may be, the approval is refused or is granted subject to conditions: reg 17(3). Where by virtue of reg 11(5) the appropriate Agency is deemed to have notified the competent authorities of a country that it refuses to grant approval for a shipment, it is deemed, for the purposes of reg 17(3), to have notified the person entitled to make the appeal of that refusal on the seventh day after the expiry of the period set for reply by reg 11: reg 17(4).

14 Ibid reg 17(2).

15 Ibid reg 17(5).

16 The specified documents are: (1) a full statement of the appellant's case; (2) any relevant application; (3) any authorisation or decision which is the subject matter of the appeal; and (4) any correspondence or other documents relevant to the appeal: ibid reg 17(6)(a)-(d).

17 Ibid reg 17(6).

18 Ibid reg 17(7)(a).

19 Ibid reg 17(7)(b).

20 Ibid reg 17(7).

22 Ibid reg 17(9)(a).

23 Ibid reg 17(9)(b).

24 Ibid reg 17(9)(c).

25 Ibid reg 17(9).

26 le the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031: see PARA 1477 et seq ante, PARA 1585 post.

27 Ibid reg 17(10).

UPDATE

1477-1486 Transfrontier Shipment of Radioactive Waste

Replaced. See the Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1487. Nuclear site licences.

(6) CONTROL OF NUCLEAR INSTALLATIONS

(i) Nuclear Site Licensing

1487. Nuclear site licences.

Unless a nuclear site licence¹ has been granted in respect of the site by the Health and Safety Executive, or was granted before 1 January 1975 by the Secretary of State², and is for the time being in force, no person may use any site for the purpose of installing or operating a nuclear installation³, that is to say either:

- 3977 (1) any nuclear reactor⁴, other than such a reactor comprised in a means of transport, whether by land, water or air⁵; or
- 3978 (2) any other installation of a prescribed⁶ class or description, being an installation which is designed or adapted for:
- 365
- 535. (a) the production or use of atomic energy; or
- 536. (b) the carrying out of any process preparatory or ancillary to it which involves or is capable of causing the emission of ionising radiations; or
- 537. (c) the storage, processing or disposal of nuclear fuel or of bulk quantities of other radioactive matter produced or irradiated in the course of the production or use of nuclear fuel⁷.
- 366

Contravention⁸ of these provisions is an offence⁹.

Certain grants, loans and guarantees may be available for expenditure incurred in connection with the cleaning up of a site with respect to which a nuclear site licence is, or is required to be, in force or the decommissioning of any installation for whose operation a nuclear site licence is so required¹⁰.

No nuclear transfer scheme under the Energy Act 2004¹¹ may provide for the transfer of a nuclear site licence¹².

1 'Nuclear site licence' means a licence, granted by the Health and Safety Executive and for the time being in force, to use a site for the purpose of installing or operating a nuclear installation: Nuclear Installations Act 1965 ss 1(1), 26(1) (s 1(1) amended for this purpose by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 1). For the meaning of 'nuclear installation' see the text and notes 3-8 infra. As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 Licences, directions, consents, approvals, notices, certificates, determinations and other instruments granted, given or issued (1) for the purposes of or under a relevant provision of the Nuclear Installations Act 1965 (ie any provision of ss 1, 3-6, 22, 24A (as added), Sch 2 (now repealed except in relation to Northern Ireland): see the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 1(3), applying the Health and Safety at Work etc Act 1974 Sch 1 (amended for these purposes by the Atomic Energy Act 1989 s 6(3)); or (2) for the purposes of or under a nuclear site licence issued under the 1965 Act, and which were in force at 1 January 1975 continue in effect as if granted, given or issued in accordance with that Act as modified by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations

1974, SI 1974/2056, or under a licence granted under the Nuclear Installations Act 1965 as so modified: Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 3(3). As to the Secretary of State see PARA 601 note 1 ante.

3 Nuclear Installations Act 1965 s 1(1) (amended for these purposes by the Nuclear Installations Act 1965 (Repeal and Modifications) Regulations 1990, SI 1990/1918). 'Nuclear installation' means a nuclear reactor or an installation such as is mentioned in the Nuclear Installations Act 1965 s 1(1)(b) (see the text and notes 6-7 infra): s 26(1). For the meaning of 'nuclear reactor' see note 4 infra.

4 'Nuclear reactor' means any plant (including any machinery, equipment or appliance, whether affixed to land or not) designed or adapted for the production of atomic energy by a fission process in which a controlled chain reaction can be maintained without an additional source of neutrons: *ibid* s 26(1). For the meaning of 'atomic energy' see PARA 1357 note 1 ante (definition applied by s 26(1)); and as to its production see PARA 1366 note 3 ante.

5 *Ibid* s 1(1)(a). As to the fees payable to the Health and Safety Executive for assessing a design proposal for a nuclear reactor see PARA 1393 ante.

6 'Prescribed' means prescribed by regulations made by the Secretary of State, which must be made by statutory instrument and are subject to annulment in pursuance of a resolution of either House of Parliament: s 26(1) (definition amended by the Transfer of Functions (Nuclear Installations) Order 1999, SI 1999/2786, art 3(1)).

7 Nuclear Installations Act 1965 ss 1(1)(b), 26(1). Regulations made by virtue of this provision may exempt, or make provision for exempting, from the requirements of s 1(1) (as amended: see notes 1, 3 supra), either unconditionally or subject to prescribed conditions, any installation which the Secretary of State is satisfied is not, or if the prescribed conditions were complied with would not be, a relevant installation: s 1(2). 'Relevant installation' means an installation to which a relevant international agreement applies; and 'relevant international agreement' means an international agreement with respect to third-party liability in the field of nuclear energy to which the United Kingdom or Her Majesty's Government therein are party, other than an agreement relating to liability in respect of nuclear reactors comprised in means of transport: s 26(1). As to the prescribed installations see PARA 1488 post. Section 1 (as amended) does not apply to the Crown: see s 9; and PARA 1495 post. The functions of the Secretary of State under s 1(1)(b) and (2) are, in so far as they are exercisable in or as regards Scotland, only exercisable after consultation with the Scottish Ministers: Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3.

As to the fees payable to the Health and Safety Executive for assessing a design proposal for a nuclear installation within the meaning of the Nuclear Installations Act 1965 s 1(1)(b) see PARA 1393 ante.

8 'Contravention', in relation to any enactment or to any condition imposed or direction given under it, includes a failure to comply with that enactment, condition or direction, and cognate expressions are to be construed accordingly: *ibid* s 26(1).

9 *Ibid* s 1(3) (amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(a), Sch 1). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding the prescribed sum or, on conviction on indictment, to imprisonment for a term not exceeding two years, or a fine, or to both: see the Health and Safety at Work etc Act 1974 ss 33(3)(a), (4)(a), 53(1), Sch 1 (as amended); and HEALTH AND SAFETY AT WORK. As to fines on conviction on indictment of bodies corporate see PARA 1588 post. As to the prescribed sum see PARA 613 note 20 ante.

10 See the Electricity Act 1989 s 97, Sch 12 (as amended); and PARA 1275 ante.

11 As to nuclear transfer schemes see PARA 1402 et seq ante.

12 See the Energy Act 2004 s 38(2); and PARA 1402 ante.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1487 Nuclear site licences

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

TEXT AND NOTES 1-7--The Nuclear Installations Act 1965 s 1(1) is subject to the Energy Act 2008 s 47 (prohibition on use of site in absence of approved funded decommissioning programme): Nuclear Installations Act 1965 s 1(4) (added by Energy Act 2008 s 65).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1488. Prescribed installations.

1488. Prescribed installations.

The following classes of installations¹ are prescribed installations requiring a nuclear site licence²:

- 3979 (1) any installation designed or adapted for the carrying out of any process involved in the manufacture from enriched uranium³, plutonium, or any alloy, chemical compound, mixture or combination containing enriched uranium or plutonium, of fuel elements to be used in the production of atomic energy⁴;
- 3980 (2) any installation designed or adapted for the carrying out of any process (other than a process carried out solely for the purposes of chemical or isotopic assay or metallographic investigation) involved in:
 - 367 538. (a) the production, from enriched uranium or from any alloy, chemical compound, mixture or combination containing enriched uranium, of any alloy, chemical compound, mixture or combination containing enriched uranium⁵; or
 - 539. (b) the production, from plutonium or from any alloy, chemical compound, mixture or combination containing plutonium, of any alloy, chemical compound, mixture or combination containing plutonium⁶; or
 - 540. (c) the production, from any alloy, chemical compound, mixture or combination containing enriched uranium, of enriched uranium or plutonium⁷; or
 - 541. (d) the production, from any alloy, chemical compound, mixture or combination containing plutonium, of plutonium⁸;
- 368 3981 (3) any installation designed or adapted for the incorporation of enriched uranium or plutonium or of any alloy, chemical compound, mixture or combination containing enriched uranium or plutonium, in any device designed either to form part of a nuclear assembly or for irradiation in a nuclear reactor⁹, other than a device designed solely for the purpose of measuring neutron flux¹⁰;
- 3982 (4) any installation comprising a nuclear assembly designed or adapted for the production of neutrons and containing enriched uranium or plutonium or any alloy, chemical compound, mixture or combination containing enriched uranium or plutonium, and in which a controlled chain reaction can be maintained with an additional source of neutrons¹¹;
- 3983 (5) any installation designed or adapted for the processing of irradiated nuclear fuel other than processing carried out solely for the purpose of chemical or isotopic assay or metallographic investigation of such nuclear fuel¹²;
- 3984 (6) any installation designed or adapted for storage of fuel elements referred to in head (1) above, irradiated nuclear fuel, or bulk quantities of any other radioactive matter which has been produced or irradiated in the course of the production or use of nuclear fuel, other than storage incidental to carriage and (in the case of irradiated nuclear fuel) other than storage incidental to any of the excepted processes referred to in head (5) above¹³;
- 3985 (7) any installation designed or adapted for any treatment of irradiated matter which involves the extraction from it of plutonium or uranium or for any treatment of uranium, whether enriched or not, such as to increase the proportion of the isotope 235 contained in it¹⁴; and

3986 (8) any installation designed or adapted for the carrying on of any process involved in the production from nuclear matter¹⁵, other than excepted matter¹⁶, of isotopes prepared for use for industrial, chemical, agricultural, medical or scientific purposes¹⁷.

The Secretary of State¹⁸ may by instrument in writing exempt from the relevant statutory requirements¹⁹ any installation described above which he is satisfied is not a relevant installation²⁰.

1 For the meaning of 'installation' see PARA 1487 note 3 ante.

2 le prescribed for the purposes of the Nuclear Installations Act 1965 s 1(1)(b) (see PARA 1487 ante): Nuclear Installations Regulations 1971, SI 1971/381, reg 3. For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

3 'Enriched uranium' means uranium enriched so as to contain more than 0.72% of the isotope 235: ibid reg 2(3).

4 Ibid reg 3(1). For the meaning of 'atomic energy' see PARA 1357 note 1 ante; as to the application of this definition see PARA 1487 note 4 ante; and as to the production of atomic energy see PARA 1366 note 3 ante.

5 Ibid reg 3(2)(a).

6 Ibid reg 3(2)(b).

7 Ibid reg 3(2)(c).

8 Ibid reg 3(2)(d).

9 For the meaning of 'nuclear reactor' see PARA 1487 note 4 ante.

10 Nuclear Installations Regulations 1971, SI 1971/381, reg 3(3).

11 Ibid reg 3(4).

12 Ibid reg 3(5).

13 Ibid reg 3(6).

14 Ibid reg 3(7).

15 'Nuclear matter' has the same meaning as in the Nuclear Installations Act 1965 s 26(1) (see PARA 1492 note 4 post): Nuclear Installations Regulations 1971, SI 1971/381, reg 2(2).

16 'Excepted matter' has the same meaning as in the Nuclear Installations Act 1965 s 26(1) (see PARA 1496 note 6 post): Nuclear Installations Regulations 1971, SI 1971/381, reg 2(2).

17 Ibid reg 3(8).

18 As to the Secretary of State see PARA 601 note 1 ante.

19 le the requirements of the Nuclear Installations Act 1965 s 1(1) (as amended): see PARA 1487 ante.

20 Nuclear Installations Regulations 1971, SI 1971/381, reg 4. For the meaning of 'relevant installation' see PARA 1487 note 7 ante.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1489. Permits for treatment of irradiated matter or uranium.

1489. Permits for treatment of irradiated matter or uranium.

Notwithstanding that a nuclear site licence¹ is for the time being in force or is not for the time being required, no person other than the United Kingdom Atomic Energy Authority ('the UKAEA')² may use any site for any treatment either of irradiated matter which involves the extraction from it of plutonium or uranium, or of uranium such as to increase the proportion of the isotope 235 contained in it, except under and in accordance with the terms of a permit in writing granted by the Authority or a government department which is for the time being in force, and any fissile material produced under such a permit may be disposed of only in a manner approved by the body by whom the permit was granted³. Unless the permit is granted by the Secretary of State, it must not authorise such use of a site otherwise than for purposes of research and development⁴.

Any person who contravenes⁵ this provision is guilty of an offence and is liable on summary conviction to a fine not exceeding the prescribed sum or imprisonment for a term not exceeding three months, or to both, or on conviction on indictment to a fine or imprisonment for a term not exceeding five years, or to both⁶.

1 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 Nuclear Installations Act 1965 s 2(1) (amended by the Atomic Energy Authority Act 1971 s 17(1)). Any permit granted by the Authority or by the Secretary of State or any other government department may at any time be revoked by the Authority or by the Secretary of State or that department, as the case may be, or may be surrendered by the person to whom it was granted: Nuclear Installations Act 1965 s 2(1D) (s 2(1A)-(1D) added by the Atomic Energy Authority Act 1971 s 17(1)). As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 2 (as amended) are transferred, in so far as they are exercisable in or as regards Scotland, to the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

4 Nuclear Installations Act 1965 s 2(1A) (as added: see note 3 supra). Where a permit granted by the Secretary of State to a body corporate authorises such a use of a site for purposes other than, or not limited to, research and development, he may by order direct that the security provisions set out in s 2(1B) (as so added), Sch 1 (as added) (see PARA 1573 et seq post) are to have effect in relation to that body: s 2(1B) (as so added). The power to make such an order (1) includes power to vary or revoke the order by a subsequent order; and (2) is exercisable by statutory instrument, which is subject to annulment in pursuance of a resolution of either House of Parliament: s 2(1C) (as so added). As to such orders see eg the Nuclear Installations (Application of Security Provisions) Order 1971, SI 1971/569, in relation to British Nuclear Fuels Ltd (now BNFL); the Nuclear Installations (Application of Security Provisions) Order 1993, SI 1993/687 (in relation to Urenco (Capenhurst) Ltd). Where such an order is made, then (a) in relation to premises on a site in respect of which the permit is for the time being in force and in relation to any building operations or works of engineering construction undertaken by or on behalf of that body corporate on such a site, the Factories Act 1961 applies as it applies, by virtue of the Atomic Energy Authority Act 1954 s 6(4), Sch 3 (as amended) (see PARA 1363 ante), in the case of the United Kingdom Atomic Energy Authority, that is to say, as if the premises belonged to or were in the occupation of the Crown or, as the case may be, as if the operations or works were undertaken by or on behalf of the Crown (Atomic Energy Authority Act 1971 s 18(1)(a)); and (b) in relation to premises on such a site, the Offices, Shops and Railway Premises Act 1963 applies as it applies in relation to premises occupied by that Authority (Atomic Energy Authority Act 1971 s 18(1)(b)). As to the Factories Act 1961 and the Offices, Shops and Railway Premises Act 1963 see HEALTH AND SAFETY AT WORK. As to the application of the Atomic Energy Authority Act 1971 to Northern Ireland see s 18(2).

5 For the meaning of 'contravention' see PARA 1487 note 8 ante.

6 Nuclear Installations Act 1965 s 2(2) (amended by the Atomic Energy Authority Act 1971 s 17(2); and by virtue of the Criminal Law Act 1977 s 32(1); and the Magistrates' Courts Act 1980 s 32(2)). As to the prescribed sum see PARA 613 note 20 ante; and as to fines on conviction on indictment of bodies corporate see PARA 1588 post.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1490. Grant and variation of nuclear site licences; recovery of expenses from licensees.

1490. Grant and variation of nuclear site licences; recovery of expenses from licensees.

A nuclear site licence¹ must not be granted to any person other than a body corporate and is not transferable². The Health and Safety Executive³ must consult the appropriate Agency⁴ before granting a nuclear site licence in respect of a site in Great Britain⁵.

Two or more installations in the vicinity of one another may, if the Health and Safety Executive thinks fit, be treated for the purposes of the grant of a nuclear site licence as being on the same site⁶.

A nuclear site licence may include provision with respect to the time from which certain statutory requirements⁷ are to apply in relation to the licensed site⁸, and where such provision is thus included the requirements do not apply until that time or until the first occasion after the grant of the licence on which any person uses the site for the operation of a nuclear installation⁹, whichever is the earlier, although no such provision may be so included without the Secretary of State's consent¹⁰.

The Health and Safety Executive may from time to time vary any nuclear site licence by excluding from it any part of the licensed site which the licensee¹¹ no longer needs for any use requiring such a licence and with respect to which the Executive is satisfied that there is no danger from ionising radiations from anything on that part of the site¹². Before varying a nuclear site licence in respect of a site in Great Britain, the Executive must, if the variation relates to or affects the creation, accumulation or disposal of radioactive waste¹³, consult the appropriate Agency¹⁴.

The statutory provisions for appeals to the Secretary of State by persons aggrieved by certain decisions of an authority having power to issue licences¹⁵ do not apply with respect to nuclear site licences¹⁶.

Expenditure to comply with the terms of a nuclear site licence, and pre-trading expenditure on site preparation, may qualify for tax relief¹⁷.

In such cases and to such extent as it may appear to the Health and Safety Executive appropriate to do so, the Executive must (1) require a person who has applied for a nuclear site licence to repay to it so much of any relevant expenses¹⁸ as may appear to it to be attributable to dealing with the application¹⁹; and (2) require a person to whom a nuclear site licence has been granted to repay to it so much of any relevant expenses as may appear to it to be attributable to any nuclear installation in respect of which the licence has been granted, and so much of any such expenses which are not otherwise recoverable²⁰ as it thinks fit²¹. A person must comply with any requirement so made of him²². The Executive also has power, where it anticipates that a person who has applied for or has been granted a nuclear site licence will become subject to such a liability, to require him to make a payment or payments to it on account of the liability²³. If he does not then become subject to the liability, or if the amount of the liability to which he becomes subject is less than the amount of the payment which he has made on account of the anticipated liability, the Executive is liable to repay to him either the whole payment made or the difference between the payment and the liability²⁴.

- 1 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1490-1492 Grant and variation of nuclear site licences; recovery of expenses from licensees ... Conditions attached to nuclear site licences

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1490 Grant and variation of nuclear site licences; recovery of expenses from licensees

NOTE 17--Income and Corporation Taxes Act 1988 ss 91A, 91B now Corporation Tax Act 2009 ss 142-145.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1491. Notices to local authorities or other bodies.

1491. Notices to local authorities or other bodies.

Where the Health and Safety Executive¹ considers it appropriate to do so in the case of any application for a nuclear site licence² in respect of any site, it may direct the applicant to serve on any local authority, any water undertaker³ or any local fisheries committee⁴ and any other body which is a public or local authority, notice that the application has been made, giving such particulars as may be specified by the Executive's direction with respect to the use proposed to be made of the site under the licence, and stating that representations with respect to it may be made to the Executive by the body upon whom the notice is served within three months of the date of service⁵. This does not, however, apply in relation to an application in respect of a site for a generating station where a consent under the relevant provision of the Electricity Act 1989⁶ is required for the operation of the station⁷.

Where such a direction has been given, the Executive must not grant the licence unless it is satisfied that three months have elapsed since the service of the last of the notices required by the direction nor until after it has considered any representations made in accordance with any of those notices⁸.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1490-1492 Grant and variation of nuclear site licences; recovery of expenses from licensees ... Conditions attached to nuclear site licences

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1491 Notices to local authorities or other bodies

TEXT AND NOTE 5--Nuclear Installations Act 1965 s 3(3) further amended: Marine and Coastal Access Act 2009 Sch 14 para 6 (not yet in force).

Nuclear Installations Act 1965 s 3(3) repealed in part: Marine and Coastal Access Act 2009 Sch 22 Pt 4 (in force in relation to Wales: SI 2010/630).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1492. Conditions attached to nuclear site licences.

1492. Conditions attached to nuclear site licences.

The Health and Safety Executive¹, by instrument in writing, must on granting a nuclear site licence², and may from time to time thereafter, attach to the licence conditions which appear to it to be necessary or desirable in the interests of safety whether in normal circumstances or in the event of any accident or other emergency on the site³. The Executive may also at any time by instrument in writing attach to a licence such conditions as it thinks fit with respect to the handling, treatment and disposal of nuclear matter⁴. The Executive may at any time by a further instrument in writing vary or revoke any condition⁵. The Executive must consult the appropriate Agency⁶ before attaching any condition to a nuclear site licence in respect of a site in Great Britain⁷, or before varying or revoking any condition attached to such a nuclear site licence, if the condition relates to or affects the creation, accumulation or disposal of radioactive waste⁸. While a licence remains in force in respect of any site, the Executive must consider any representations by any organisation representing persons having duties upon the site which may from time to time be made to it with a view to its exercising any of its powers under these provisions in relation to the site⁹.

At all times while a licence remains in force the licensee¹⁰ must cause copies of any conditions attached to the licence which are for the time being in force to be kept posted at the site and in particular on any part of it which an inspector¹¹ may direct, in such characters and in such positions as to be conveniently read by persons having duties upon the site which are or may be affected by those conditions¹².

In the event of any contravention¹³ of any condition attached to a nuclear site licence, the licensee and any person having duties upon the site in question by whom that contravention was committed is guilty of an offence¹⁴. Any person who contravenes the requirements relating to the posting of copies of any such conditions at the site is also guilty of an offence¹⁵, as is any person who without reasonable cause pulls down, injures or defaces any document so posted¹⁶.

1 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

3 Nuclear Installations Act 1965 s 4(1) (s 4(1)-(3), (4) amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 1). Those conditions may in particular include provision (1) for securing the maintenance of an efficient system for detecting and recording the presence and intensity of any ionising radiations from time to time emitted from anything on, or from anything discharged on or from, the site; (2) with respect to the design, siting, construction, installation, operation, modification and maintenance of any plant or other installation on, or to be installed on, the site; (3) with respect to preparations for dealing with, and measures to be taken on the happening of, any accident or other emergency on the site; and (4) without prejudice to the Radioactive Substances Act 1993 s 13 (see PARA 1450 ante) and s 16 (see PARAS 1453-1456 ante), with respect to the discharge of any substance on or from the site: Nuclear Installations Act 1965 s 4(1)(a)-(d) (amended by the Radioactive Substances Act 1993 s 49(1), Sch 4 para 2)).

Any conditions which, by virtue of the Nuclear Installations Act 1965 s 4 (as amended), are attached to a nuclear site licence granted in respect of a site in designated premises used by a contractor, do not apply to the extent that such conditions affect the design of a nuclear device or any other device (other than a nuclear reactor) intended to simulate the properties of a nuclear device: Atomic Weapons Establishment Act 1991 s 3, Schedule para 6(1) (substituted by the Atomic Weapons Establishment Act 1991 Amendment Order 1997, SI 1997/1396, art 2). For the meanings of 'contractor' and 'designated premises' see PARA 1387 notes 2, 11 ante.

4 Nuclear Installations Act 1965 s 4(2) (as amended: see note 3 supra). 'Nuclear matter' means (subject to any exceptions prescribed by regulations) (1) any fissile material in the form of uranium metal, alloy or chemical compound (including natural uranium), or of plutonium metal, alloy or chemical compound, and any other fissile material which may be so prescribed; and (2) any radioactive material produced in, or made radioactive by exposure to the radiation incidental to, the process of producing or utilising any such fissile material: s 26(1). The Secretary of State's power to make regulations for the purposes of this definition of 'nuclear matter' is only exercisable, in so far as it is exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3. At the date at which this title states the law, no exceptions had been so prescribed for the purposes of this definition.

5 Nuclear Installations Act 1965 s 4(3) (as amended: see note 3 supra).

6 le, in relation to England and Wales, the Environment Agency: see PARA 1490 note 4 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

7 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

8 Nuclear Installations Act 1965 s 4(3A) (added by the Environment Act 1995, s 120, Sch 22, PARA 8). For the meaning of 'disposal' and 'radioactive waste' see PARA 1450 notes 2-3 ante (definitions applied by the Nuclear Installations Act 1965 s 4(3A) (as so added)).

9 Ibid s 4(4) (as amended: see note 3 supra).

10 For the meaning of 'licensee' see PARA 1490 note 11 ante.

11 'Inspector', for these purposes and the purposes of the Nuclear Installations Act 1965 s 5(2) (as amended) (see PARA 1494 post), means an inspector appointed by the Health and Safety Executive under the Health and Safety at Work etc Act 1974 s 19: Nuclear Installations Act 1965 s 26(1) (definition added by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, Sch 2 para 6). As to the powers of such inspectors see the Health and Safety at Work etc Act 1974 s 20 (as amended); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376. As to inspectors appointed by the Secretary of State see PARA 1518 post. As to the Secretary of State see PARA 601 note 1 ante.

12 Nuclear Installations Act 1965 s 4(5).

13 For the meaning of 'contravention' see PARA 1487 note 8 ante.

14 Nuclear Installations Act 1965 s 4(6) (amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(a), Sch 1). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding the prescribed sum or, on conviction on indictment, to imprisonment for a term not exceeding two years, or a fine, or to both: Health and Safety at Work etc Act 1974 ss 33(3), (4)(b), 53(1), Sch 1 (as amended). As to fines on conviction on indictment of bodies corporate see PARA 1588 post. As to the prescribed sum see PARA 613 note 20 ante.

15 Nuclear Installations Act 1965 s 4(6) (as amended: see note 10 supra). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding the prescribed sum or, on conviction on indictment, to a fine: Health and Safety at Work etc Act 1974 ss 33(3), 53(1), Sch 1 (as amended).

16 Nuclear Installations Act 1965 s 4(6) (as amended: see note 10 supra). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding level 2 on the standard scale: s 4(6) (as so amended; further amended by virtue of the Criminal Justice Act 1982 ss 38, 46). As to the standard scale see PARA 613 note 11 ante.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1490-1492 Grant and variation of nuclear site licences; recovery of expenses from licensees ... Conditions attached to nuclear site licences

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1493. Lists of nuclear sites.

1493. Lists of nuclear sites.

The Secretary of State¹ must:

- 3987 (1) maintain a list showing every site, including a map or maps showing the position and limits of each site, in respect of which a nuclear site licence² has been granted;
- 3988 (2) make arrangements for the list or a copy of it to be made available for public inspection; and
- 3989 (3) cause notice of the arrangements to be made public in such manner as may appear to him appropriate³.

The list is not required to show any site or part of a site in the case of which no nuclear site licence is for the time being in force and 30 years have elapsed since the last licensee's⁴ period of responsibility⁵ expired⁶.

These provisions do not apply relation to any site in designated premises⁷ used by a contractor⁸ in respect of which a nuclear site licence has been granted⁹.

1 As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 6 (as amended) are transferred, in so far as they are exercisable in or as regards Scotland, to the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

2 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

3 Nuclear Installations Act 1965 s 6(1) (amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(a), Sch 1).

4 For the meaning of 'licensee' see PARA 1490 note 11 ante.

5 For the meaning of 'period of responsibility' see the Nuclear Installations Act 1965 s 5(3) (as amended); and PARA 1494 note 7 post.

6 Ibid s 6(2).

7 For the meaning of 'designated premises' see PARA 1387 note 11 ante.

8 For the meaning of 'contractor' see PARA 1387 note 2 ante.

9 Atomic Weapons Establishment Act 1991 s 3, Schedule para 6(3) (substituted by the Atomic Weapons Establishment Act 1991 Amendment Order 1997, SI 1997/1396, art 2).

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1494. Revocation and surrender of nuclear site licences.

1494. Revocation and surrender of nuclear site licences.

A nuclear site licence¹ may at any time be revoked by the Health and Safety Executive² or surrendered by the licensee³. The Executive must consult the appropriate Agency⁴ before revoking a nuclear site licence in respect of a site in Great Britain⁵. Upon either revocation or surrender the licensee must, if so required by the Executive, deliver up or account for the licence to such person as the Executive may direct⁶. During the remainder of his period of responsibility⁷ the licensee must cause to be posted on the site such notices indicating its limits in such positions as may be directed by an inspector⁸; and the Executive may give such other directions to the licensee as it may think fit for preventing or giving warning of any risk of injury⁹ to any person or damage to any property by ionising radiations from anything remaining on the site¹⁰.

If the licensee contravenes¹¹ any direction for the time being in force under these provisions he is guilty of an offence¹², as is any person who without reasonable cause pulls down, injures or defaces any notice so posted¹³.

1 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

2 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

3 Nuclear Installations Act 1965 s 5(1) (s 5(1), (2), (3) amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 1). For the meaning of 'licensee' see PARA 1490 note 11 ante.

4 I.e., in relation to England and Wales, the Environment Agency: see PARA 1490 note 4 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

5 Nuclear Installations Act 1965 s 5(1A) (added by the Environment Act 1995 s 120, Sch 22 para 9). For the meaning of 'Great Britain' see PARA 602 note 7 ante.

6 Nuclear Installations Act 1965 s 5(2) (as amended: see note 3 supra). As to directions in force at 1 January 1975 see PARA 1487 note 2 ante.

7 The 'period of responsibility', in relation to the licensee under a nuclear site licence, means, as respects the site in question or any part of it, the period beginning with the grant of the licence and ending with whichever of the following dates is the earlier, i.e. (1) the date when the Health and Safety Executive gives notice in writing to the licensee that in its opinion there has ceased to be any danger from ionising radiations from anything on the site or, as the case may be, on that part of it; (2) the date when a new nuclear site licence in respect of a site comprising the site in question or, as the case may be, that part of it is granted either to the same licensee or to some other person, except that it does not include any period during which *ibid* s 19(1) (as amended) (see PARA 1510 post) does not apply in relation to the site: ss 5(3), 26(1) (s 5(3) as amended: see note 3 supra).

If a nuclear site licence has been granted in respect of any site in designated premises used by a contractor, the provisions of the Nuclear Installations Act 1965 have effect as if any reference to the period of the licensee's responsibility were a reference to any period during which the contractor occupies that site: Atomic Weapons Establishment Act 1991 s 3, Schedule para 6(2) (substituted by the Atomic Weapons Establishment Act 1991 Amendment Order 1997, SI 1997/1396, art 2). For the meanings of 'contractor' and 'designated premises' see PARA 1387 notes 2, 11 ante.

8 Nuclear Installations Act 1965 s 5(2) (as amended: see note 3 supra). For the meaning of 'inspector' for these purposes see PARA 1492 note 11 ante. As to such inspectors see PARA 1518 post.

9 'Injury' means personal injury and includes loss of life: *ibid* s 26(1). For the avoidance of doubt, anything which affects a man in his ability to have a normal, healthy child, or affects a woman in that ability, or so affects her when she is pregnant that her child is born with disabilities which would not otherwise have been present, is an injury for the purpose of the Nuclear Installations Act 1965: Congenital Disabilities (Civil Liability) Act 1976 s 3(2).

10 Nuclear Installations Act 1965 s 5(2) (as amended: see note 3 supra). Such directions may be given on the revocation or surrender of the licence and from time to time thereafter until the expiration of the licensee's period of responsibility: s 5(2) (as so amended).

11 For the meaning of 'contravention' see PARA 1487 note 8 ante.

12 Nuclear Installations Act 1965 s 5(4) (amended for this purpose by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974 reg 2(1)(a), Sch 1). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding the prescribed sum or, on conviction on indictment, to a fine: see the Health and Safety at Work etc Act 1974 ss 33(3), 53(1), Sch 1 (as amended); and HEALTH AND SAFETY AT WORK. As to fines on conviction on indictment of bodies corporate see PARA 1588 post. As to the prescribed sum see PARA 613 note 20 ante.

13 Nuclear Installations Act 1965 s 5(4) (as amended: see note 12 supra). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding level 2 on the standard scale: s 5(4) (as so amended; also amended by virtue of the Criminal Justice Act 1982 ss 38, 46). As to the standard scale see PARA 613 note 11 ante.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1494 Revocation and surrender of nuclear site licences

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(i) Nuclear Site Licensing/1494A. Nuclear sites: funded decommissioning programmes.

1494A. Nuclear sites: funded decommissioning programmes.

1. Funded decommissioning programmes

The Energy Act 2008 s 45 applies where, on or after the day on which s 45 comes into force (ie 6 April 2009: see SI 2009/45), a person applies for a nuclear site licence in respect of a site to which the Energy Act 2008 s 45(2) applies: s 45(1). 'Nuclear site licence' has the meaning given by the Nuclear Installations Act 1965 s 26 (see PARA 1487): Energy Act 2008 s 68. Section 45(2) applies to (1) a site on which the person intends to construct a nuclear installation for a purpose for which a licence under the Electricity Act 1989 s 6(1)(a) (see PARA 1065), or the Electricity (Northern Ireland) Order 1992, SI 1992/231 art 10(1)(a) (generating licences) is required, and (2) a site to which the Energy Act 2008 s 45 previously applied by virtue of head (1) and on which the person intends to operate a nuclear installation which was constructed for such a purpose: s 45(2). 'Nuclear installation' has the meaning given by the Nuclear Installations Act 1965 s 26 (see PARA 1487): Energy Act 2008 s 68. The person must give written notice of the application to the Secretary of State, and prepare and submit to the Secretary of State a funded decommissioning programme: s 45(3). A funded decommissioning programme is a programme which (a) makes provision for the technical matters, and (b) specifies how the implementation of that provision, so far as it relates to the designated technical matters, is to be financed: s 45(4). The technical matters, in relation to a site, are (i) the treatment, storage, transportation and disposal of hazardous material (within the meaning of the Energy Act 2004 s 37 (see PARA 1592)) during the operation of a nuclear installation on the site, (ii) the decommissioning of any relevant nuclear installation and the cleaning-up of the site, and (iii) activities preparatory to the matters mentioned in head (ii); and for the purposes of head (i) a nuclear installation is not to be regarded as being operated at a time when it is being decommissioned: Energy Act 2008 s 45(5). 'Cleaning-up' and 'decommissioning', in relation to a site or installation, include the treatment, storage, transportation and disposal of hazardous material (within the meaning of the Energy Act 2004 s 37) and of other matter and substances that need to be dealt with or removed in or towards making the site or installation suitable to be used for other purposes: Energy Act 2008 s 68. 'Relevant nuclear installation', in relation to a site, means a nuclear installation which is or is intended to be established on the site: Energy Act 2008 s 68. The designated technical matters, in relation to a site, are (A) such of the matters within head (i) or (iii) as are specified by the Secretary of State by order, and (B) the matters within head (ii): s 45(6). The funded decommissioning programme must, in particular, contain details of the steps to be taken under the programme in relation to the technical matters, estimates of the costs likely to be incurred in connection with the designated technical matters, and details of any security to be provided in connection with those costs: s 45(7). A person who submits a programme must pay to the Secretary of State such fee as may be determined in accordance with regulations under s 54 (see PARA 1494A.4), in respect of the costs mentioned in s 45(9), at a time determined in accordance with such regulations: s 45(8). The costs are those incurred by the Secretary of State in relation to the consideration of the programme, including, in particular, the costs of obtaining advice in relation to the programme, or information required in relation to the programme in accordance with s 52(4) (see PARA 1494A.3): s 45(9).

The Secretary of State may approve or reject a funded decommissioning programme submitted under s 45 in respect of a site; this may be with or without modifications, and unconditionally or subject to conditions: see Energy Act 2008 s 46. An offence is created where a person with a nuclear site licence for a site uses the site, or permits another person to use the site, by virtue of the licence without an approved funded decommissioning programme in place: see Energy Act 2008 s 47.

2. Modification of approved programmes

Where the Secretary of State has approved a funded decommissioning programme (see PARA 1494A.1) in respect of a site, a person mentioned in the Energy Act 2008 s 48(2) may (1) propose a modification of the programme, or (2) propose a modification of the conditions to which the approval of the programme is subject: Energy Act 2008 s 48(1). Those persons are (a) the Secretary of State, (b) the site operator, and (c) any other person who has obligations under the programme (provided that the site operator consents to the proposed modification): s 48(2). 'Site operator' means a person who holds a nuclear site licence (see PARA 1494A.1) in respect of a site: Energy Act 2008 s 68. A proposal under s 48(1) may, in particular, propose (i) that obligations, or additional obligations, be imposed on a body corporate associated with the site operator, or (ii) the removal of obligations imposed on a body corporate which is or was so associated: s 48(3). For the meaning of 'associated' see Energy Act 2008 s 67. In head (2) 'modification of the conditions' includes the imposition of conditions where the programme was approved unconditionally: s 48(4).

The procedure for making a modification to an approved funded programme is established: see Energy Act 2008 s 49. The Secretary may make regulations disapplying s 49 in relation to modifications proposed by a person other than the Secretary of State: see Energy Act 2008 s 50. Provision is made as to the time when a modification to a funded decommissioning programme takes effect: see Energy Act 2008 s 51.

3. Information

The Secretary of State's powers to obtain information from the site operator and other persons with obligations under a funded decommissioning programme (see PARA 1494A.1), and in certain circumstances, from bodies corporate associated with the site operator are set out: see Energy Act 2008 s 52. For the meaning of 'site operator' see PARA 1494A.2. For the meaning of 'associated' see Energy Act 2008 s 67. The Secretary of State has power to review an approved funded programme and, as part of this, to request information about the programme from the site operator or any other person who has obligations under the programme: see Energy Act 2008 s 53.

4. Regulations and guidance

The Secretary of State has power to make regulations about the preparation, content and implementation of a funded decommissioning programme (see PARA 1494A.1), and about the modification of such programmes; the Secretary of State may also publish guidance about the preparation, content, modification and implementation of such programmes: see Energy Act 2008 s 54. Regulations under s 54 may make provision enabling the Secretary of State to rely, in specified circumstances, on verification of financial matters by an independent third party: see Energy Act 2008 s 55.

5. Protection of decommissioning funds

The Energy Act 2008 s 56 applies where, in relation to a site to which s 45 (see PARA 1494A.1) applies, any security for the performance of obligations relating to the designated technical matters (see PARA 1494A.1) has been provided by a person ('the security provider') by way of a trust or other arrangements, in accordance with an approved funded decommissioning programme (see PARA 1494A.1): Energy Act 2008 s 56(1). In s 56 'security' includes (1) a charge over a bank account or any other asset; (2) a deposit of money; (3) a performance bond or guarantee; (4) an insurance policy; (5) a letter of credit: s 56(3). The manner in which, and purposes for which, the protected assets are to be applied and enforceable (whether in the event of the security provider's insolvency or otherwise) is to be determined in accordance with the trust or other arrangements: s 56(4). In s 56 a reference to 'the protected assets' is a reference to the security and any property or rights in which it consists: s 56(2). For the purposes of s 56(4), no regard is to be had to so much of the Insolvency Act 1986, the Insolvency (Northern Ireland) Order 1989, SI 1989/2405 (NI 19)) or any other enactment or rule of law as, in its operation in relation to the security provider or any conduct of the security provider, would (a) prevent or restrict the protected assets from being applied in accordance with the trust or other arrangement, or (b) prevent or restrict their enforcement for the purposes of being so applied: s 56(5). 'Enactment' includes an enactment comprised in, or in an instrument made under, an Act of the Scottish Parliament or Northern Ireland legislation: Energy Act 2008 s 68.

6. Enforcement

It is an offence for a site operator or a body corporate associated with a site operator (a 'relevant person') to fail to comply with an obligation imposed on the relevant person by an approved funded decommissioning programme (see PARA 1494A.1) in respect of the site: see Energy Act 2008 s 57. For the meaning of 'site operator' see PARA 1494A.2. For the meaning of 'associated' see Energy Act 2008 s 67.

The Secretary of State has the power to direct a person with obligations under an approved funded decommissioning programme to take action that the Secretary of State considers necessary or appropriate in the following circumstances, namely if it has been shown that the person has failed to comply with any obligations imposed by the programme, or if the person has been engaged in unlawful conduct which the Secretary of State considers may affect the programme: see Energy Act 2008 s 58.

A person who discloses information obtained by virtue of a notice under the Energy Act 2008 52(4) or 53(2) or (5) (see PARA 1494A.3), or regulations under s 54(2)(e) (see PARA 1494A.4), is guilty of an offence unless the disclosure is permitted by the Energy Act 2008 s 59; the disclosure is permitted if (1) it is made with the consent of the person by or on behalf of whom the information was provided; (2) it is made under s 63 (see PARA 1494A.7) or for the purposes of any other function of the Secretary of State under Pt 3 Ch 1 (ss 45-68); (3) it is a disclosure of information obtained under s 63 by the Health and Safety Executive and it is made by the Executive for the purposes of its functions under the Nuclear Installations Act 1965; (4) it is a disclosure of information obtained under the Energy Act 2008 s 63 by the Environment Agency or the Department of the Environment for Northern Ireland and it is made by the Agency or Department for the purposes of its functions under the Radioactive Substances Act 1993; (5) it is required by or under an enactment: see Energy Act 2008 s 59. For the meaning of 'enactment' see PARA 1494A.5.

It is an offence for a person, knowingly or recklessly, to supply information which is false or misleading in a material respect to the Secretary of State in response to a requirement under the Energy Act 2008 Pt 3 Ch 1: see Energy Act 2008 s 60.

No proceedings for an offence under the Energy Act 2008 Pt 3 Ch 1 (including an offence created by regulations under s 54) may be instituted except by the Secretary of State or (a) in

England and Wales, the Director of Public Prosecutions, or (b) in Northern Ireland, the Director of Public Prosecutions for Northern Ireland: Energy Act 2008 s 61.

7. Miscellaneous

The Secretary of State may, by order, modify the Energy Act 2008 s 45 (see PARA 1494A.1) so that it also applies where, on or after the day on which the order comes into force, a person applies for a nuclear site licence in respect of a site of a description specified in the order: see Energy Act 2008 s 62. For the meaning of 'nuclear site licence' see PARA 1494A.1.

The Secretary of State may require specified bodies (ie the Health and Safety Executive, the Environment Agency and the Department of the Environment for Northern Ireland) to provide the Secretary of State with such assistance as that body is reasonably able to give in connection with the performance by the Secretary of State of a function under the Energy Act 2008 Pt 3 Ch 1 (ss 45-68): see Energy Act 2008 s 63.

The obligations on an operator (or former operator) under a decommissioning programme (see PARA 1494A.1) remain until the Secretary of State explicitly releases them from their obligations, even if it no longer holds a site licence: see Energy Act 2008 s 64.

Where the Secretary of State enters an agreement for, or in connection with, the disposal of relevant hazardous material by or on behalf of the Secretary of State, the agreement may provide for a fee to be paid to the Secretary of State: see Energy Act 2008 s 66.

UPDATE

1487-1494 Nuclear Site Licensing

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences/1495. Duty of licensees, the Crown or the Atomic Energy Authority.

(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences

1495. Duty of licensees, the Crown or the Atomic Energy Authority.

Where a nuclear site licence¹ has been granted in respect of any site, it is the duty of the licensee² to secure:

- 3990 (1) that no specified occurrence³ involving nuclear matter⁴ causes injury⁵ to any person or damage to any property⁶ of any person other than himself arising out of or resulting from the radioactive properties of that nuclear matter or a combination of those properties and any toxic, explosive or other hazardous properties of the matter⁷; and
- 3991 (2) that no ionising radiations emitted during his period of responsibility⁸ either from anything caused or suffered by him to be on the site which is not nuclear matter, or from any waste discharged (in whatever form) on or from the site, cause injury to any person or damage to any property of any person other than himself⁹.

In determining the licensee's liability by virtue of these provisions in respect of any occurrence, any property on the site at the time of the occurrence which is a nuclear installation¹⁰ or other property which is on the site either for the purpose of use in connection with the operation, or the cessation of the operation, by the licensee of a nuclear installation which is or has been on that site, or for the purpose of the construction of a nuclear installation on that site, is deemed to be the licensee's property notwithstanding that it is the property of some other person¹¹.

These provisions apply, with modifications, to the Crown¹² and to the United Kingdom Atomic Energy Authority ('the UKAEA')¹³.

It has been held that these provisions do not impose any clear statutory duty to monitor, or to attempt to cure or to clean up, any damage to or contamination of property caused by an occurrence involving nuclear matter¹⁴.

1 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

2 For the meaning of 'licensee' see PARA 1490 note 11 ante.

3 Ie any such occurrence as is mentioned in the Nuclear Installations Act 1965 s 7(2): see PARA 1496 post.

4 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

5 For the meaning of 'injury' see PARA 1494 note 9 ante. If a child is born disabled as the result of an injury to either of its parents caused in breach of a duty imposed by any of the Nuclear Installations Act 1965 ss 7-11 (as amended), the child's disabilities are to be regarded under the subsequent provisions of that Act (compensation and other matters) as injuries caused on the same occasion, and by the same breach of duty, as was the injury to the parent: Congenital Disabilities (Civil Liability) Act 1976 s 3(3).

6 Such damage is not limited to particular types of damage, but will occur provided that there is some alteration in the physical characteristics of the property caused by radioactive properties which render it less useful or less valuable; the intermingling of plutonium with topsoil renders the characteristics of marshland

different since it becomes 'radioactive waste' and thus less useful and less valuable until the contaminated soil has been removed. Moreover, that damage is not mere economic damage; the land itself is physically damaged by the radioactive properties of the plutonium, even though its consequences are economic, in the sense that the property is worth less and requires the owner to expend money to remove the topsoil: see *Blue Circle Industries plc v Ministry of Defence* [1999] Ch 289, [1998] 3 All ER 385, CA, distinguishing *Merlin v British Nuclear Fuels plc* [1990] 2 QB 557, [1990] 3 All ER 711 (no breach of duty where diminution in value of property due to presence of carcinogenic agents). Cf *Magnohard Ltd v United Kingdom Atomic Energy Authority* 2004 SC 247, 2003 SLT 1083, Ct of Sess (OH) (the physical damage to property contemplated includes damage resulting in some alteration in the physical characteristics of the property caused by the radioactive properties of the nuclear material which render the property less useful or less valuable).

7 Nuclear Installations Act 1965 s 7(1)(a).

8 For the meaning of 'period of responsibility' see PARA 1494 note 7 ante.

9 Nuclear Installations Act 1965 s 7(1)(b). Section 7(1)(a), (b) is subject to s 7(4) (as added: see note 13 infra): s 7(1) (amended by the Nuclear Installations Act 1965 (Repeal and Modification) Regulations 1990, SI 1990/1918, reg 2, Schedule).

10 For the meaning of 'nuclear installation' see PARA 1487 note 3 ante.

11 Nuclear Installations Act 1965 s 7(3).

12 Ie by virtue of *ibid* s 9. If a government department uses any site for any purpose for which a nuclear site licence would be required if s 1 (as amended) (see PARA 1487 ante) applied to the Crown, s 7 (as amended) applies in like manner as if (1) the Crown were the licensee under a nuclear site licence in respect of that site (s 9(a)); and (2) any reference to the period of the licensee's responsibility were a reference to any period during which the department occupies the site (s 9(b)).

13 *Ibid* s 8 (as amended) applies in relation to sites occupied by the Authority: s 7(4) (added by the Nuclear Installations Act 1965 (Repeal and Modification) Regulations 1990, SI 1990/1918, Schedule). The Nuclear Installations Act 1965 s 7 (as amended) applies in relation to the Authority (1) as if any premises which are or have been occupied by the Authority were a site in respect of which a nuclear site licence has been granted to the Authority (s 8(a)); and (2) as if in relation to any such premises any reference to the period of the licensee's responsibility were a reference to any period during which the Authority is in occupation of those premises (s 8(b)); and s 7 (as amended) so applies whether or not a nuclear site licence has been granted in respect of the premises in question: s 8 (amended by the Nuclear Installations Act 1965 (Repeal and Modification) Regulations 1990, SI 1990/1918, Schedule). As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

14 See *Magnohard Ltd v United Kingdom Atomic Energy Authority* 2004 SC 247, 2003 SLT 1083, Ct of Sess (OH).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences/1496. Nuclear occurrences.

1496. Nuclear occurrences.

The specified occurrences involving nuclear matter¹ are:

- 3992 (1) any occurrence on the licensed site², during the period of the licensee's³ responsibility⁴, which involves nuclear matter⁵;
- 3993 (2) any occurrence elsewhere than on the licensed site which involves nuclear matter, other than excepted matter⁶, which at the time of the occurrence is in the course of carriage⁷ either:
- 369
542. (a) on the licensee's behalf as licensee of that site; or
543. (b) to that site with his agreement from a place outside the relevant territories⁸,
- 370
- 3994 and, in either case, is not on any other relevant site⁹ in the United Kingdom¹⁰;
- 3995 (3) any occurrence elsewhere than on the licensed site which involves nuclear matter, other than excepted matter, which, having been on the licensed site at any time during the period of the licensee's responsibility or having been in the course of carriage on the licensee's behalf as licensee of that site, has not subsequently been on any relevant site or in the course of any relevant carriage¹¹ or (except in the course of relevant carriage) within the territorial limits¹² of a country which is not a relevant territory¹³.

1 The occurrences specified for the purposes of the Nuclear Installations Act 1965 s 7(1)(a): see PARA 1495 ante. For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

2 For the meaning of 'licensed site' see PARA 1494 note 8 ante.

3 For the meaning of 'licensee' see PARA 1490 note 11 ante.

4 For the meaning of 'period of responsibility' see PARA 1494 note 7 ante.

5 Nuclear Installations Act 1965 s 7(2)(a).

6 'Excepted matter' means nuclear matter consisting only of one or more of the following, namely (1) isotopes prepared for use for industrial, commercial, agricultural, medical, scientific or educational purposes; (2) natural uranium; (3) any uranium of which isotope 235 forms not more than 0.72%; (4) nuclear matter of such other description in such circumstances as may be prescribed by regulations or, for the purposes of the application of the Nuclear Installations Act 1965 to a relevant foreign operator, as may be excluded from the operation of the relevant international agreement by the relevant foreign law: s 26(1) (amended by the Energy Act 1983 s 32). In exercise of the power conferred by head (4) supra, the Secretary of State has made the Nuclear Installations (Excepted Matter) Regulations 1978, SI 1978/1779, which came into operation on 1 January 1979: reg 1. For the purposes of head (4) supra, the following is excepted matter: (a) any substance consisting substantially of uranium in which (i) the total activity content per gram of that substance of all radioisotopes other than uranium isotopes which are normally present in natural uranium or any daughter products of such uranium isotopes does not exceed 200,000 alpha disintegrations per minute for all alpha emitting isotopes and does not exceed 20 microcuries from all beta or gamma emitting isotopes; and (ii) the mass of the isotope uranium 235 does not exceed 1% of the total mass of all the uranium isotopes present; and (b) nuclear matter, for such time as it is outside a relevant site, which has been consigned from a relevant site and is not waste discharged on or from such a site or consigned therefrom, and which when it left that site (i) was duly packed and labelled in accordance with the appropriate provisions of the IAEA regulations; (ii) did not

exceed the prescribed limits of activity; and (iii) being fissile material, did not exceed the prescribed limits and was either exempted from the additional provisions of the IAEA regulations relating to packages containing fissile materials, or was packed in such a way as to satisfy the nuclear safety criteria laid down for Fissile Class I or Class II packages in those regulations: see the Nuclear Installations (Excepted Matter) Regulations 1978, SI 1978/1779, reg 3. For the prescribed limits of activity see reg 4; and for the prescribed limits for fissile material see reg 5, Schedule. 'The IAEA regulations' means the Regulations for the Safe Transport of Radioactive Materials published by the International Atomic Energy Agency, and for these purposes means the 1973 revised edition of those regulations, except where the 1967 edition is specified: Nuclear Installations (Excepted Matter) Regulations 1978, SI 1978/1779, reg 2(2). The current edition is the 2005 revised edition. Excepted matter is exempted from the need to have a certificate of insurance during carriage in the form prescribed by the Nuclear Installations (Insurance Certificate) Regulations 1965, SI 1965/1823: see PARA 1514 post.

'Relevant foreign operator' means a person who, for the purposes of a relevant international agreement, is the operator of a relevant installation in a relevant territory other than the United Kingdom; 'relevant foreign law' means the law of a relevant territory other than the United Kingdom or any part of it regulating in accordance with a relevant international agreement matters falling to be so regulated and, in relation to a particular relevant foreign operator, means such law of his home territory; 'relevant territory' means a country for the time being bound by a relevant international agreement; and 'home territory', in relation to a relevant foreign operator, means the relevant territory in which, for the purposes of a relevant international agreement, he is the operator of a relevant installation: Nuclear Installations Act 1965 s 26(1). Any question as to whether any person is a relevant foreign operator, or any law is the relevant foreign law with respect to any matter, must be referred to and determined by the Secretary of State: s 26(3)(a), (b). As to the Secretary of State see PARA 601 note 1 ante. His power to make regulations for the purposes of the definition of 'excepted matter' is only exercisable, in so far as it is exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3. For the meaning of 'relevant site' see note 9 infra. For the meanings of 'relevant installation' and 'relevant international agreement' see PARA 1487 note 7 ante; and for the meaning of 'United Kingdom' see PARA 602 note 7 ante. See also note 8 infra.

7 Any reference in the Nuclear Installations Act 1965 to the carriage of nuclear matter must be construed as including references to any storage incidental to the carriage of the matter before its delivery at its final destination: s 26(2).

8 Any question whether any country is for the time being a relevant territory must be referred to and determined by the Secretary of State: *ibid* s 26(3)(c).

9 'Relevant site' means any of the following, ie: (1) a licensed site at any time during the period of the licensee's responsibility; (2) any premises when occupied by the United Kingdom Atomic Energy Authority ('the UKAEA'); (3) any site at any time when it is occupied by a government department, if it is being or has been used by the department as mentioned in *ibid* s 9 (see PARA 1495 note 12 ante); (4) any site in a relevant territory other than the United Kingdom at any time when it is being used for the operation of a relevant installation by a relevant foreign operator: s 26(1). As to the UKAEA see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

10 *Ibid* s 7(2)(b).

11 'Relevant carriage', in relation to nuclear matter, means carriage on behalf of (1) a licensee as the licensee of a particular licensed site; or (2) the United Kingdom Atomic Energy Authority; or (3) a government department for the purposes of the department's use of a site as mentioned in *ibid* s 9; or (4) a relevant foreign operator; or (5) a person authorised to operate a nuclear reactor which is comprised in a means of transport and in which the nuclear matter in question is intended to be used: s 26(1). See also note 7 supra. For the meaning of 'nuclear reactor' see PARA 1487 note 4 ante.

12 'Territorial limits' includes territorial waters: *ibid* s 26(1).

13 *Ibid* s 7(2)(c). 'Occurrence' is broad enough to cover both the arrival of a radioactive particle at a beach and the fact of its remaining on the beach: *Magnohard Ltd v United Kingdom Atomic Energy Authority* 2004 SC 247, 2003 SLT 1083, Ct of Sess (OH).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences/1497. Duty of foreign operators.

1497. Duty of foreign operators.

In certain cases a relevant foreign operator¹ must secure that no occurrence causes injury² to any person or damage to any property of any person other than himself arising out of or resulting from the radioactive properties of nuclear matter³ or a combination of those and any toxic, explosive or other hazardous properties of that matter⁴.

This duty applies to any nuclear matter which is not excepted matter⁵ and which:

- 3996 (1) is in the course of carriage⁶:
371
 - 544. (a) on his behalf; or
 - 545. (b) to his relevant site⁷ with his agreement⁸ from a place outside the relevant territories⁹,
- 372 3997 and in either case is not for the time being on any relevant site in the United Kingdom¹⁰; or
- 3998 (2) having been on his relevant site or in the course of carriage on his behalf has not subsequently been on any relevant site or in the course of any relevant carriage¹¹ or (except in the course of relevant carriage) within the territorial limits¹² of a country which is not a relevant territory¹³.

The duty applies to an occurrence taking place wholly or partly within the territorial limits of the United Kingdom¹⁴ or an occurrence outside those limits which also involves nuclear matter in respect of which a duty is imposed¹⁵ on any person by certain provisions of the Nuclear Installations Act 1965¹⁶.

1 For the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

2 For the meaning of 'injury' see PARA 1494 note 9 ante.

3 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

4 See the Nuclear Installations Act 1965 s 10(1).

5 For the meaning of 'excepted matter' see PARA 1496 note 6 ante.

6 For the meaning of 'carriage' see PARA 1496 note 7 ante.

7 For the meaning of 'relevant site' see PARA 1496 note 9 ante.

8 Compensation is not payable under the Nuclear Installations Act 1965 in respect of injury or damage caused by a breach of a duty so imposed in respect of such carriage unless the agreement was expressed in writing: s 13(3).

9 For the meaning of 'relevant territory' see PARA 1496 note 6 ante.

10 Nuclear Installations Act 1965 s 10(1)(a). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

11 For the meaning of 'relevant carriage' see PARA 1496 note 11 ante.

- 12 For the meaning of 'territorial limits' see PARA 1496 note 12 ante.
- 13 Nuclear Installations Act 1965 s 10(1)(b).
- 14 Ibid s 10(2)(a).
- 15 le imposed on any person by ibid s 7, s 8 or s 9 (ss 7, 8 as amended): see PARAS 1495-1496 ante.
- 16 Ibid s 10(2)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences/1498. Duty of other persons causing nuclear matter to be carried.

1498. Duty of other persons causing nuclear matter to be carried.

Where any nuclear matter¹ other than excepted matter² is in the course of carriage³ within the territorial limits⁴ of the United Kingdom⁵ on behalf of any person ('the responsible party'), and (1) the carriage is not relevant carriage⁶; and (2) the nuclear matter is not for the time being on any relevant site⁷, it is the duty of the responsible party to secure that no occurrence involving that nuclear matter causes injury⁸ to any person or damage to any property of any person other than the responsible party, being injury or damage incurred within those territorial limits and arising out of or resulting from the radioactive properties of that nuclear matter or a combination of those and any toxic, explosive or other hazardous properties of that matter⁹.

1 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

2 For the meaning of 'excepted matter' see PARA 1496 note 6 ante.

3 For the meaning of 'carriage' see PARA 1496 note 7 ante.

4 For the meaning of 'territorial limits' see PARA 1496 note 12 ante.

5 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

6 Nuclear Installations Act 1965 s 11(a). For the meaning of 'relevant carriage' see PARA 1496 note 11 ante.

7 Ibid s 11(b). For the meaning of 'relevant site' see PARA 1496 note 9 ante.

8 For the meaning of 'injury' see PARA 1494 note 9 ante.

9 Nuclear Installations Act 1965 s 11.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences/1499. Reports of dangerous occurrences.

1499. Reports of dangerous occurrences.

On the happening of any occurrence of a prescribed¹ class or description² either on a licensed site or in the course of the carriage of nuclear matter on behalf of any person where a duty with respect to that carriage is imposed on him by certain statutory provisions³, the licensee⁴ or that person must cause the occurrence to be reported forthwith in the prescribed manner⁵ to the Health and Safety Executive and to any other persons who are prescribed in relation to occurrences of that class or description⁶. If the occurrence is not so reported, the licensee or that person is guilty of an offence⁷.

1 For the meaning of 'prescribed' see PARA 1487 note 6 ante. The Secretary of State's power to make regulations for these purposes is only exercisable, in so far as it is exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3. As to the exercise of this power see the Nuclear Installations (Dangerous Occurrences) Regulations 1965, SI 1965/1824; and note 2 infra.

2 Prescribed occurrences are occurrences of each of the following classes or descriptions, ie: (1) any occurrence on a licensed site involving the emission of ionising radiations or the release of radioactive or toxic substances in such circumstances as to cause or be likely to cause (a) the death of, or serious injury to the health of, persons outside the site at the time of the occurrence, whether or not persons on the site are also affected thereby; or (b) the death of, or serious injury to the health of, persons on the site at the time of the occurrence; (2) any occurrence in the course of carriage of nuclear matter, not being excepted matter, on behalf of any person other than the United Kingdom Atomic Energy Authority ('the UKAEA') or a government department, being (a) an occurrence which that person has reason to believe has caused or may be likely to cause the death of any person, or serious injury to his health, by reason of the radioactive properties of such nuclear matter; or (b) an occurrence involving the breaking open of any outside container in which such nuclear matter is being carried; (3) any explosion or outbreak of fire on a licensed site affecting or likely to affect the safe working or safe condition of the nuclear installation; and (4) any uncontrolled criticality excursion: *ibid* reg 3(1). The requirements of heads (2)-(4) supra are without prejudice to the generality of the requirements of head (1) supra: reg 3(2). For the meaning of 'licensed site' see PARA 1490 note 8 ante; for the meaning of 'injury' see PARA 1494 note 9 ante; for the meaning of 'carriage' see PARA 1496 note 7 ante; for the meaning of 'nuclear matter' see PARA 1492 note 4 ante; for the meaning of 'excepted matter' see PARA 1496 note 6 ante; and for the meaning of 'nuclear installation' see PARA 1487 note 3 ante. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 Ie the provisions of the Nuclear Installations Act 1965 s 7 (as amended: see PARAS 1495-1496 ante), s 10 (see PARA 1497 ante) or s 11 (see PARA 1498 ante): s 22(1)(b).

4 For the meaning of 'licensee' see PARA 1490 note 11 ante.

5 All such occurrences must be reported to the Health and Safety Executive by the quickest means available and thereafter confirmed to it in writing: Nuclear Installations (Dangerous Occurrences) Regulations 1965, SI 1965/1824, reg 4(1) (amended by virtue of SI 1974/2056). Such reports must contain the information (or such part of it as is applicable to the occurrence concerned) specified in the Nuclear Installations (Dangerous Occurrences) Regulations 1965, SI 1965/1824, reg 4(3), Schedule: reg 4(3). The specified information is: (1) in the case of a licensee, the licensee's full name and the site licence number, or, in the case of any other person on whose behalf the nuclear matter is being carried, the full name and address of that person; (2) the date, time and exact location of the occurrence; (3) a brief description of the occurrence together with, as the case may be, the state of the nuclear installation (eg normal operation, under maintenance) or the state of the nuclear matter in the case of an occurrence elsewhere than on a licensed site (eg on the means of transport, in transit storage) and any other relevant matters at the time of the occurrence; (4) so far as is known, whether any injury has been caused to persons or any damage to property or both, and, if so, whether such injury or damage has been caused on or off the licensed site or both; (5) where an occurrence has resulted in

contamination, particulars of: (a) the nature of the contaminant; (b) the area affected thereby; (c) the weather conditions and wind direction at the time of the occurrence; (d) persons contaminated and the extent of such contamination; (e) any area on the licensed site which was evacuated or to which access was restricted: reg 4(3), Schedule. As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

6 Nuclear Installations Act 1965 s 22(1), (2) (s 22(2) amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 1). In the case of any prescribed occurrence specified in the Nuclear Installations (Dangerous Occurrences) Regulations 1965, SI 1965/1824, reg 3(1)(a)(i) or (b) (see note 2 heads (1)(a), (2) supra), reports must be made (as well as to the Health and Safety Executive) to the local authority in whose area the occurrence happened and to the chief officer of police for the police area in which it happened, and confirmed thereafter in writing to the Executive: reg 4(1)(a) (amended by virtue of SI 1974/2056).

7 Nuclear Installations Act 1965 s 22(2) (as amended: see note 6 supra; further amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(a), Sch 1). The offender is liable on summary conviction to a fine not exceeding the prescribed sum, or on conviction on indictment to a fine: see the Health and Safety at Work etc Act 1974 ss 33(3), 53(1), Sch 1 (as amended): and HEALTH AND SAFETY AT WORK. As to the prescribed sum see PARA 613 note 20 ante.

UPDATE

1499 Reports of dangerous occurrences

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(ii) Duties of Nuclear Site Licensees and others in respect of Nuclear Occurrences/1500. Registration of persons present in the area of certain occurrences.

1500. Registration of persons present in the area of certain occurrences.

On the happening of any occurrence in respect of which liability may be incurred by virtue of any of the statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences¹, the appropriate authority² may by order³ make provision for enabling such particulars of any person shown to have been within such area during such period (being the period during which the occurrence took place) as may be specified in the order to be registered by or on behalf of that person in a specified manner, and any such registration in respect of any person is to be sufficient evidence⁴ of his presence within that area during that period unless the contrary is proved⁵.

1 In the provisions of the Nuclear Installations Act 1965 ss 7-11 (as amended): see PARAS 1495-1498 ante. For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

2 'The appropriate authority' means, where the Crown is the person against whom any claim in respect of the occurrence falls to be made, the minister in charge of the government department concerned (or, where any part of the Scottish Administration is concerned, the minister) or, in any other case, the Secretary of State: *ibid* s 23(2) (amended by the Scotland Act 1998 (Modification of Functions) Order 1999, SI 1999/1756, art 2, Schedule para 2). As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 23 (as amended) are transferred, in so far as they are exercisable in or as regards Scotland, to the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

3 Any such order must be made by statutory instrument and laid before Parliament after being made: Nuclear Installations Act 1965 s 23(1). Any such orders, being local, are not recorded in this work.

4 As to the effect of an enactment making a document sufficient evidence see CIVIL PROCEDURE vol 11 (2009) PARA 767.

5 Nuclear Installations Act 1965 s 23(1). This provision is without prejudice to any right of any person to claim against any person by virtue of ss 7-11 (as amended): s 23(1).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/A. RIGHTS TO COMPENSATION/1501. Compensation for breach of duty.

(iii) Compensation in respect of Breach of Duty

A. RIGHTS TO COMPENSATION

1501. Compensation for breach of duty.

Where any injury¹ or damage has been caused in breach of a duty imposed by the statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences², compensation in respect of that injury or damage is payable³ wherever it occurred⁴, but no other liability is incurred by any person in respect of it⁵. Any injury or damage which, though not caused in breach of such a duty, is not reasonably separable from injury or damage so caused is deemed to have been so caused⁶.

Where, in the case of an occurrence which constitutes a breach of such a duty, a person other than the person subject to the duty makes any payment in respect of injury or damage caused by that occurrence and:

- 3999 (1) the payment is made in pursuance of any of certain international conventions⁷; or
- 4000 (2) the occurrence took place or the injury or damage was incurred within the territorial limits⁸ of a country which is not a relevant territory⁹ and the payment is made by virtue of a law of that country and by a person who has his principal place of business in a relevant territory or is acting on behalf of such a person,

the person making the payment may make the like claim for compensation of the like amount, if any, not exceeding the amount of the payment made by him, as would have been available to him if the injury in question had been suffered by him or the property suffering the damage in question had been his¹⁰.

1 For the meaning of 'injury' see PARA 1494 note 9 ante.

2 I.e. the provisions of the Nuclear Installations Act 1965 ss 7-10 (as amended): see PARAS 1495-1497 ante. For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

3 I.e. in accordance with *ibid* s 16 (as amended) (see PARAS 1506-1505 post); and subject to s 13(1), (3), (4) (see PARAS 1497 ante, 1502 post), s 15 (see PARA 1503 post) and s 17(1) (see PARA 1507 post): s 12(1)(a).

4 *Ibid* s 12(1)(a). See eg *Blue Circle Industries plc v Ministry of Defence* [1999] Ch 289, [1998] 3 All ER 385, CA (claimant entitled to compensation for damage to the land and all resulting losses, including diminution in the value and saleability of the land). As to the satisfaction of claims see PARAS 1505-1510 post. Nothing in the Health and Safety at Work etc Act 1974 Pt 1 (ss 1-54) (as amended) must be construed as affecting the operation of the Nuclear Installations Act 1965 s 12 (as amended): Health and Safety at Work etc Act 1974 s 47(1)(c). See further HEALTH AND SAFETY AT WORK.

5 Nuclear Installations Act 1965 s 12(1)(b). Section 12(1)(b) is subject to s 12(3) (see note 6 *infra*), and to s 12(4) (as amended) and s 21(2) (see PARA 1513 post): s 12(1)(b). Subject to s 13(5) (as amended) (see the text and notes 7-10 *infra*), nothing in s 12(1)(b) or in s 12(3A) (as added) (see PARA 1502 post) affects (1) the operation of the Carriage by Air Act 1961 or the Carriage by Air (Supplementary Provisions) Act 1962 (see

CARRIAGE AND CARRIERS vol 7 (2008) PARAS 121 et seq, 150, 154 et seq) in relation to any international carriage to which a convention referred to in the Act in question applies; or (2) the operation of the Carriage of Goods by Road Act 1965 (see CARRIAGE AND CARRIERS vol 7 (2008) PARA 650 et seq): Nuclear Installations Act 1965 s 12(4) (b), (c) (amended by the Nuclear Installations Act 1969 s 1). The requirements of the Road Traffic Act 1988 Pt VI ss 143-162 (as amended) (which relate to compulsory insurance or security against third-party risks of users of motor vehicles: see ROAD TRAFFIC vol 40(2) (2007 Reissue) PARA 937 et seq), do not apply in relation to any injury to any person, or damage to the property of any person, for which any person is liable by virtue of the Nuclear Installations Act 1965 ss 7, 8 (as amended), or ss 9 or 10: s 21(5) (amended by virtue of the Motor Vehicles (Compulsory Insurance) Regulations 1987, SI 1987/2171, reg 5); Road Traffic (Consequential Provisions) Act 1988 s 5, Sch 4 para 1.

6 Nuclear Installations Act 1965 s 12(2). Where any injury or damage is caused partly in breach of such a duty and partly by an emission of ionising radiations which does not constitute such a breach, s 12(2) does not affect any liability of any person in respect of that emission apart from the Nuclear Installations Act 1965, but a claimant is not entitled to recover compensation in respect of the same injury or damage both under the Act and otherwise: s 12(3).

7 The relevant international conventions are those referred to in the Acts mentioned in the Nuclear Installations Act 1965 s 12(4) (as amended): s 13(5)(a). As to those Acts see note 5 supra.

8 For the meaning of 'territorial limits' see PARA 1496 note 12 ante.

9 For the meaning of 'relevant territory' see PARA 1496 note 6 ante.

10 Nuclear Installations Act 1965 s 13(5), (5A) (s 13(5) amended by the Nuclear Installations Act 1969 s 3; the Energy Act 1983 s 27(3); the Nuclear Installations Act 1965 s 13(5A) added by the Energy Act 1983 s 27(3)). The Nuclear Installations Act 1965 s 13(5) (as amended) applies as if the Nuclear Installations Act 1965 s 13(1) had not been passed: s 13(5)(ii). In the case of a claim made by virtue of head (2) in the text, however, the amount of the claim must not exceed the amount applicable under s 16(1) (as amended) or s 16(2) (see PARA 1505 post) to the person subject to the duty in question: s 13(5A) (as so added).

UPDATE

1501 Compensation for breach of duty

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/A. RIGHTS TO COMPENSATION/1502. Exclusion or reduction of compensation.

1502. Exclusion or reduction of compensation.

Compensation is not payable in respect of injury¹ or damage caused by a breach of duty imposed by certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences² if the injury or damage was caused by an occurrence of a certain class³ which is shown to have taken place wholly within the territorial limits⁴ of one only of the relevant territories⁵ other than the United Kingdom⁶. Nor is compensation payable if the injury or damage so caused was incurred within the territorial limits of a country which is not a relevant territory⁷, but, in the case of such a breach of duty other than by a relevant foreign operator⁸, this provision does not apply to injury or damage incurred by, or by persons or property on, a ship or aircraft registered in the United Kingdom⁹.

The duty imposed by the statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences¹⁰ does not impose any liability on the person subject to that duty for injury or damage caused by an occurrence which constitutes a breach of that duty if the occurrence, or the causing thereby of the injury or damage, is attributable to hostile action in the course of any armed conflict, including any armed conflict within the United Kingdom¹¹. Such a liability is imposed, however, where the occurrence, or the causing thereby of the injury or damage, is attributable to a natural disaster, notwithstanding that the disaster is of such an exceptional character that it could not reasonably have been foreseen¹².

The amount of compensation payable to or in respect of any person for injury or damage caused in breach of a duty imposed by certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences¹³ may be reduced by reason of that person's fault if, but only if, and to the extent that, the causing of that injury or damage is attributable to any act of that person committed with the intention of causing harm to any person or property or with reckless disregard for the consequences of his act¹⁴. Where damage is caused to any property otherwise than in breach of such a duty, but the damage would have been caused in breach of such a duty if the property had not been the licensee's or a relevant foreign operator's¹⁵, no liability which would otherwise have been incurred by any person in respect of that damage is incurred except:

- 4001 (1) in pursuance of an agreement to incur liability in respect of such damage entered into in writing before the occurrence of the damage; or
- 4002 (2) where the damage was caused by an act or omission of that person done with intent to cause injury or damage¹⁶.

1 For the meaning of 'injury' see PARA 1494 note 9 ante.

2 I.e. the provisions of the Nuclear Installations Act 1965 s 7 (as amended) or s 8 (as amended) or s 9 or s 10: see PARAS 1495-1497 ante. For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

3 I.e. such an occurrence as is mentioned in ibid s 7(2)(b) or (c) (see PARA 1496 ante), or s 10(2)(b) (see PARA 1497 ante): s 13(1)(a).

4 For the meaning of 'territorial limits' see PARA 1496 note 12 ante.

5 For the meaning of 'relevant territory' see PARA 1496 note 6 ante.

6 Nuclear Installations Act 1965 s 13(1)(a). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

7 Ibid s 13(1)(b).

8 Ie in the case of such a breach of duty under ibid s 7 or s 8 (as amended) or s 9, but not in the case of a breach under s 10: s 13(2).

9 Ibid s 13(2).

10 Ie the provisions of ibid s 7 (as amended), s 8, (as amended), s 9, s 10 or s 11: s 13(4)(a).

11 Ibid s 13(4)(a).

12 Ibid s 13(4)(b).

13 See note 2 supra.

14 Nuclear Installations Act 1965 s 13(6). As respects compensation payable to a child by virtue of the Congenital Disabilities (Civil Liability) Act 1976, the Nuclear Installations Act 1965 s 13(6) must be applied as if the reference there to fault was to the fault of the parent: Congenital Disabilities (Civil Liability) Act 1976 s 3(4). Compensation is not payable in the child's case if the injury to the parent preceded the time of the child's conception and at that time either or both of the parents knew the risk of their child being born disabled (that is to say, the particular risk created by the injury): s 3(5).

15 Ie if in the Nuclear Installations Act 1965 s 7(1)(a) or (b), the words 'other than the licensee' or in s 10(1) the words 'other than that operator' had not been enacted: s 12(3A) (added by the Nuclear Installations Act 1969 s 1). As to property which is deemed to be the property of the licensee notwithstanding that it is the property of some other person see PARA 1495 ante.

16 Nuclear Installations Act 1965 s 12(3A) (as added: see note 15 supra). This does not affect the operation of any of the provisions mentioned in s 12(4) (as amended): see s 12(3A), (4) (as respectively added and amended); and PARA 1501 note 5 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1503. Time for bringing claims.

B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION

1503. Time for bringing claims.

Notwithstanding anything in any other enactment, a claim by virtue of any of the statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences¹ may be made at any time before, but may not be entertained if made at any time after, the expiration of 30 years from the relevant date, which is the date of the occurrence which gave rise to the claim or, where that occurrence was a continuing one, or was one of a succession of occurrences all attributable to a particular happening on a particular relevant site² or to the carrying out from time to time on a particular relevant site of a particular operation, the date of the last event in the course of that occurrence or succession of occurrences to which the claim relates³. A claim in respect of injury⁴ or damage caused by an occurrence involving nuclear matter⁵ stolen from, or lost, jettisoned or abandoned by, the person whose breach of a duty imposed by any of certain statutory provisions⁶ gave rise to the claim may not, however, be entertained if the occurrence takes place after the expiration of the period of 20 years beginning with the day when the nuclear matter was so stolen, lost, jettisoned or abandoned⁷.

1 Ie the provisions of the Nuclear Installations Act 1965 ss 7-11 (as amended) (see PARAS 1495-1498 ante): s 15(1). For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

2 For the meaning of 'relevant site' see PARA 1496 note 9 ante.

3 Nuclear Installations Act 1965 s 15(1).

4 For the meaning of 'injury' see PARA 1494 note 9 ante.

5 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

6 Ie the provisions of the Nuclear Installations Act 1965 ss 7-10 (as amended) PARAS 1495-1497 ante) but not of s 11 (see PARA 1498 ante): s 15(2).

7 Ibid s 15(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1504. Protection for ships and aircraft.

1504. Protection for ships and aircraft.

A claim in respect of an occurrence¹ which constitutes a breach of a person's duty under the Nuclear Installations Act 1965² does not give rise to any lien or other right in respect of any ship or aircraft³.

1 le an occurrence such as is mentioned in the Nuclear Installations Act 1965 s 7(2)(b) or (c) (see PARA 1496 ante), s 10 (see PARA 1497 ante) or s 11 (see PARA 1498 ante): s 14(1).

2 le a breach of duty under ibid s 7 (as amended) or s 8 (as amended (see PARAS 1495-1496 ante), or s 9, s 10 or s 11 (see PARAS 1495, 1497-1498 ante): s 14(1).

3 Ibid s 14(1). The provisions of the Supreme Court Act 1981 s 21 which relate to the bringing of claims in rem against ships and aircraft (see SHIPPING AND MARITIME LAW vol 93 (2008) PARA 93) do not apply to such a claim: Nuclear Installations Act 1965 s 14(1) (amended by the Merchant Shipping Act 1979 s 50(4), Sch 7 Pt I); Interpretation Act 1978 s 17(2)(a). The Supreme Court Act 1981 is prospectively renamed as the Senior Courts Act 1981 by the Constitutional Reform Act 2005 s 59(5), Sch 11 Pt 1 para 1, as from a day to be appointed under s 148(1); at the date at which this title states the law, that amendment was not in force.

The Nuclear Installations Act 1965 s 14(1) (as so amended) has effect in relation to any claim, however, notwithstanding that by reason of s 16 (as amended) (see PARAS 1505-1506 post) no payment for the time being falls to be made in satisfaction of the claim: s 14(2).

UPDATE

1504 Protection for ships and aircraft

NOTE 3--Appointed day is 1 October 2009: SI 2009/1604.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1505. Limitations on liability to satisfy claims.

1505. Limitations on liability to satisfy claims.

The liability of any person to pay compensation under the Nuclear Installations Act 1965 by virtue of a duty imposed on him by certain provisions of that Act¹ does not require him to make, in respect of any one occurrence² constituting a breach of that duty, payments by way of such compensation exceeding in the aggregate, apart from payments in respect of interest or costs, £140 million or, in the case of licensees³ of such sites as may be prescribed⁴, £10 million⁵. The Secretary of State⁶ may, with the Treasury's approval, by order increase or further increase these amounts⁷.

A relevant foreign operator⁸ is not required⁹ to make any payment by way of compensation in respect of an occurrence:

4003 (1) if he would not have been required to make that payment if the occurrence had taken place in his home territory¹⁰ and the claim had been made by virtue of the relevant foreign law¹¹ made for purposes corresponding to those of certain statutory provisions¹²; or

4004 (2) to the extent that the amount required for the satisfaction of the claim is not required to be available by the relevant foreign law made for purposes corresponding to those of the statutory provisions relating to special cover for the licensee's liability¹³ and has not been made available by statute¹⁴ or by means of a relevant foreign contribution¹⁵.

1 The provisions of the Nuclear Installations Act 1965 s 7 (as amended), s 8 (as amended) or s 9: see PARAS 1495-1496 ante.

2 For the meaning of 'occurrence' see PARA 1507 note 11 post.

3 For the meaning of 'licensee' see PARA 1490 note 11 ante.

4 For the meaning of 'prescribed' see PARA 1487 note 6 ante. In exercise of the power to prescribe such sites, the Secretary of State made the Nuclear Installations (Prescribed Sites) Regulations 1983, SI 1983/919, which came into force on 1 September 1983: reg 1. There is prescribed for these purposes any site in respect of which a nuclear site licence is for the time being in force on which (1) the quantity of radionuclides present at any time is such that their total activity does not exceed the limits of activity prescribed in reg 4; (2) the only nuclear reactor is a small nuclear reactor and the quantity of radionuclides outside the reactor other than associated nuclear fuel present at any time is such that their total activity does not exceed one half of the limits of activity so prescribed; and (3) in either case the total mass of fissile materials, other than those comprised in associated nuclear fuel, present at any time does not exceed the limits prescribed by reg 5: reg 3. For these purposes, 'associated nuclear fuel' means a quantity of nuclear fuel intended and ready for use or in use which has been used in a nuclear reactor and which is held in, or on the same site as, that nuclear reactor which does not exceed the quantity of nuclear fuel specified in the nuclear site licence relating to that nuclear reactor or any consent or approval granted under that site licence; and 'fissile material' means plutonium 239, plutonium 241, uranium 233, uranium 235 (where the mass of the isotope uranium 235 exceeds 1% of the total mass of all the uranium isotopes present), or any material containing any of them: reg 2. For the meaning of 'nuclear reactor' see PARA 1487 note 4 ante; and for the meaning of 'nuclear site licence' see PARA 1487 note 1 ante.

5 Nuclear Installations Act 1965 s 16(1) (amended by the Energy Act 1983 s 27(1); modified by the Nuclear Installations (Increase of Operators' Limits of Liability) Order 1994, SI 1994/909, reg 2).

6 As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 16(1), (1A) (as respectively amended and added) are only exercisable, in so far as they are exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3.

7 Nuclear Installations Act 1965 16(1A) (added by the Energy Act 1983 s 27(2)). In exercise of the power so conferred, the Secretary of State has made the Nuclear Installations (Increase of Operators' Limits of Liability) Order 1994, SI 1994/909: see note 5 supra. Any such order does not affect liability in respect of any occurrence before, or beginning before, the order comes into force: Nuclear Installations Act 1965 s 16(1A) (as so added).

8 For the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

9 Ie he is not required by virtue of the Nuclear Installations Act 1965 s 10 to make such a payment: s 16(2).

10 For the meaning of 'home territory' see PARA 1496 note 6 ante.

11 For the meaning of 'relevant foreign law' see PARA 1496 note 6 ante.

12 Ie the provisions of the Nuclear Installations Act 1965 s 7 (as amended), s 8 (as amended) or s 9 (see PARAS 1495-1496 ante): s 16(2)(a).

13 Ie the provisions of ibid s 19(1) (as amended) (see PARA 1510 post): s 16(2)(b).

14 Ie under ibid s 18 (as amended) (see PARA 1509 post): s 16(2)(b).

15 Ibid s 16(2). For the meaning of 'relevant foreign contribution' see PARA 1506 note 8 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1506. Making of claims.

1506. Making of claims.

Any claim by virtue of a duty imposed on any person by certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences¹:

- 4005 (1) to the extent to which, though duly established, it is not or would not be payable by that person²; or
- 4006 (2) which is made after the expiration of the relevant period³; or
- 4007 (3) which, being a claim in respect of injury or damage caused by an occurrence involving nuclear matter stolen from, or lost, jettisoned or abandoned by, that person⁴, is made after the expiration of 20 years beginning with the day of that theft, loss, jettisoning or abandonment; or
- 4008 (4) which is a claim the full satisfaction of which out of funds otherwise required to be, or to be made, available for the purpose is prevented by certain provisions relating to the carriage of nuclear matter⁵,

must be made to the appropriate authority⁶.

If such a claim is established to that authority's satisfaction, and to the extent to which it cannot be satisfied out of sums made available for the purpose⁷ or by means of a relevant foreign contribution⁸, it must be satisfied by that authority to such extent and out of funds provided by such means as Parliament may determine⁹.

1 Ie any provision of the Nuclear Installations Act 1965 s 7 (as amended) or s 8 (as amended) (see PARAS 1495-1496 ante) or s 9 or s 10 (see PARAS 1495, 1497 ante): s 16(3). For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

2 Ie to the extent to which, by virtue of *ibid* s 16(1) (as amended) or s 16(2) (see PARA 1505 ante), it is not or would not be payable by that person: s 16(3)(a).

3 'The relevant period' means the period of ten years beginning with the relevant date within the meaning of *ibid* s 15(1) (see PARA 1503 ante): s 16(5).

4 Ie such a claim as is mentioned in *ibid* s 15(2) (see PARA 1503 ante): s 16(3)(c). For the meaning of 'injury' see PARA 1494 note 9 ante; and for the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

5 Ie the provisions of *ibid* s 21(1) (see PARA 1513 post): s 16(3)(d). For the meaning of 'carriage' see PARA 1496 note 7 ante.

6 *Ibid* s 16(3). The appropriate authority, in the case of a claim by virtue of s 9 (other than a claim in connection with a site used by a department of the Government of Northern Ireland) is the minister in charge of the government department concerned (or, where the government department concerned is a part of the Scottish Administration, the Scottish Ministers) or, in any other case, is the Secretary of State: s 16(3) (amended by the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2 Pt I para 38(1), (2)). As to the Secretary of State see PARA 601 note 1 ante.

7 Ie the provisions of the Nuclear Installations Act 1965 s 18 (as amended): see PARA 1509 post.

8 'Relevant foreign contribution', in relation to any claim, means any sums falling by virtue of any relevant international agreement to be paid by the government of any relevant territory other than the United Kingdom towards the satisfaction of that claim: *ibid* s 26(1). For the meaning of 'relevant international agreement' see

PARA 1487 note 7 ante; and for the meaning of 'relevant territory' see PARA 1496 note 6 ante. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

9 Ibid s 16(3). Where a claim has been made to the appropriate authority, any question affecting the establishment of the claim or as to the amount of any compensation in satisfaction of it may, if the authority thinks fit, be referred for decision to whichever of the High Court, the Court of Session and the High Court of Justice in Northern Ireland would, but for the provisions of s 16 (as amended), have had jurisdiction in accordance with s 17(1), (2) (see PARA 1507 text and note 5 post) to determine the claim: s 16(4). The claimant may appeal to that court from any decision of the authority on any such question which is not so referred, and on any such reference or appeal the authority is entitled to appear and be heard: s 16(4)(a). Notwithstanding anything in any Act, the court's decision is final: s 16(4)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1507. Jurisdiction and shared liability.

1507. Jurisdiction and shared liability.

No court in the United Kingdom¹ or any part of it has jurisdiction to determine any claim or question under the Nuclear Installations Act 1965 certified by the Secretary of State² to be one which, under any relevant international agreement³, falls to be determined by a court of some other relevant territory⁴ or of some other part of the United Kingdom, and any proceedings to enforce such a claim which are commenced in any court in the United Kingdom or, as the case may be, that part of it, must be set aside⁵.

Where, by virtue of any one or more of certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences⁶ and any relevant foreign law⁷ made for purposes corresponding to those of any of those provisions, liability in respect of the same injury⁸ or damage is incurred by two or more persons, then, for the purposes of any proceedings in the United Kingdom relating to that injury or damage⁹:

4009 (1) both or all of those persons are treated as jointly and severally liable in respect of that injury or damage¹⁰; and

4010 (2) until claims against each of those persons in respect of the occurrence¹¹ by virtue of which the person in question is liable for that injury or damage have been satisfied up to a specified limit¹²,

no sums in excess of those required for the purposes of the satisfaction of claims against a licensee, the United Kingdom Atomic Energy Authority ('the UKAEA') or the Crown¹³ are required to be made available out of money provided by Parliament¹⁴ for the purpose of paying compensation in respect of that injury or damage¹⁵.

Where, in the case of any claim in respect of breach of duty by a relevant foreign operator¹⁶, that operator is the government of a relevant territory, then, for the purposes of any proceedings brought in a court in the United Kingdom to enforce that claim, that government is deemed to have submitted to the jurisdiction of that court, and accordingly rules of court may provide for the manner in which any such claim is to be commenced and carried on¹⁷, but this provision does not authorise the issue of execution against the property of that government¹⁸.

1 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 17(1), (4) are transferred, in so far as they are exercisable in or as regards Scotland, to the Scottish Ministers, by the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

3 For the meaning of 'relevant international agreement' see PARA 1487 note 7 ante.

4 For the meaning of 'relevant territory' see PARA 1496 note 6 ante.

5 Nuclear Installations Act 1965 s 17(1). Where the Secretary of State certifies that any claim or question falls to be determined by a court in a particular part of the United Kingdom, that certificate is conclusive evidence of the jurisdiction of that court to determine that claim or question: s 17(2).

6 le the provisions of *ibid* ss 7-10 (as amended): see PARAS 1495-1496 ante. For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

7 For the meaning of 'relevant foreign law' see PARA 1496 note 6 ante.

8 For the meaning of 'injury' see PARA 1494 note 9 ante.

9 This includes proceedings for the enforcement of a judgment registered under the Foreign Judgments (Reciprocal Enforcement) Act 1933 (see CONFLICT OF LAWS vol 8(3) (Reissue) PARA 171 et seq): Nuclear Installations Act 1965 s 17(3). See also PARA 1508 post.

10 *Ibid* s 17(3)(a).

11 'Occurrence', for the purposes of *ibid* ss 16(1), (1A) (as respectively amended and added: see PARA 1505 ante), s 17(3) (as amended: see note 12 infra), and s 18 (as amended: see PARA 1509 post), means: (1) in the case of a continuing occurrence, the whole of that occurrence; and (2) in the case of an occurrence which is one of a succession of occurrences all attributable to a particular happening on a particular relevant site or to the carrying out from time to time on a particular relevant site of a particular operation, all those occurrences collectively: s 26(1). For the meaning of 'relevant site' see PARA 1496 note 9 ante.

12 The limit is, in the case of a licensee, the United Kingdom Atomic Energy Authority or the Crown, an aggregate amount equal to that applicable to the person in question under *ibid* s 16(1) (as amended), or, in the case of a relevant foreign operator, such aggregate amount as may be provided for by the relevant foreign law made for purposes corresponding to those of s 19(1) (as amended): s 17(3)(b)(i), (ii) (amended by the Energy Act 1983 ss 28(4), 31, 36, Sch 4 Pt II). As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

13 le no sums in excess of those required for the purposes of the Nuclear Installations Act 1965 s 17(3)(b)(i) (as amended: see note 12 supra) (ie, up to an aggregate amount equal to that applicable to the person in question under s 16(1) (as amended)): s 17(3)(b).

14 le by virtue of *ibid* s 18 (as amended) (see PARA 1509 post): s 17(3)(b).

15 *Ibid* s 17(3)(b).

16 le by virtue of *ibid* s 10: s 17(6).

17 As to service out of the jurisdiction see CIVIL PROCEDURE vol 11 (2009) PARA 156 et seq.

18 Nuclear Installations Act 1965 s 17(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1508. Foreign judgments.

1508. Foreign judgments.

The provisions of the Foreign Judgments (Reciprocal Enforcement) Act 1933 relating to the registration of foreign judgments¹ apply to any judgment given in a court of any foreign country which is certified by the Secretary of State² to be a relevant foreign judgment³ for the purposes of the Nuclear Installations Act 1965, whether or not those provisions would otherwise have so applied⁴.

It is sufficient defence to proceedings in the United Kingdom against any person for the recovery of a sum alleged to be payable under a judgment given in a country outside the United Kingdom for that person to show that:

- 4011 (1) the sum in question was awarded in respect of injury⁵ or damage of a description which is the subject of a relevant international agreement⁶;
- 4012 (2) the country in question is not a relevant territory⁷; and
- 4013 (3) the sum in question was not awarded in pursuance of any of certain international conventions⁸.

1 I.e. the provisions of the Foreign Judgments (Reciprocal Enforcement) Act 1933 Pt I (ss 1-7) (as amended): see CONFLICT OF LAWS vol 8(3) (Reissue) PARA 171 et seq.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 'Relevant foreign judgment' means a judgment of a court of a relevant territory other than the United Kingdom which, under a relevant international agreement, is to be enforceable anywhere within the relevant territories: Nuclear Installations Act 1965 s 26(1). For the meaning of 'relevant territory' see PARA 1496 note 6 ante; and for the meaning of 'relevant international agreement' see PARA 1487 note 7 ante. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 Ibid s 17(4). The Foreign Judgments (Reciprocal Enforcement) Act 1933 Pt I (as amended) has effect in relation to any judgment so certified as if s 4(1)(a)(ii), (2), (3) (as amended) were omitted: Nuclear Installations Act 1965 s 17(4).

5 For the meaning of 'injury' see PARA 1494 note 9 ante.

6 Nuclear Installations Act 1965 s 17(5)(a). Section 17(5) (as amended) does not apply where the judgment in question is enforceable in the United Kingdom in pursuance of an international agreement: s 17(5), (5A) (respectively amended and added by the Energy Act 1983 s 31).

7 Nuclear Installations Act 1965 s 17(5)(b). See also note 6 supra.

8 Ibid s 17(5)(c). The international conventions are those referred to in the Acts mentioned in s 12(4) (as amended) (see PARA 1501 note 5 ante): s 17(5). See also note 6 supra.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1509. General cover for compensation.

1509. General cover for compensation.

In the case of any occurrence¹ in respect of which one or more persons incur liability by virtue of certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences² or by virtue of any relevant foreign law³ made for purposes corresponding to those or any of those provisions, there must be made available out of money provided by Parliament such sums as when aggregated:

- 4014 (1) with any funds required by the statutory provisions relating to special cover for the licensee's liability⁴, or by any relevant foreign law made for purposes corresponding to those statutory provisions, to be available for the purpose of satisfying claims in respect of that occurrence against any licensee or relevant foreign operator⁵;
- 4015 (2) with any relevant foreign contributions⁶ towards the satisfaction of claims in respect of that occurrence, in the case of a claim by virtue of any such foreign law⁷; and
- 4016 (3) with any amounts payable under a contract of insurance or other arrangements for satisfying claims in respect of that occurrence against the United Kingdom Atomic Energy Authority ('the UKAEA')⁸, in the case of an occurrence in respect of which the Authority incurs liability⁹,

may be necessary to ensure that all claims in respect of that occurrence made within the relevant period¹⁰, and duly established, excluding, but without prejudice to, any claim in respect of interest or costs, are satisfied up to an aggregate amount being the equivalent in sterling of 300 million special drawing rights¹¹ as defined by the International Monetary Fund¹².

In relation to liability by virtue of any relevant foreign law, there must be left out of account for these purposes any claim which, though made within the relevant period, was made after the expiration of any limitation period imposed by that law and permitted by a relevant international agreement¹³. Where:

- 4017 (a) a relevant foreign law provides in pursuance of a relevant international agreement for sums additional to those referred to in head (1) above to be made available out of public funds; but
- 4018 (b) the maximum aggregate amount of compensation for which such law provides is less than 300 million special drawing rights,

then heads (1) to (3) above have effect as if for the reference in relation to those heads to 300 million special drawing rights there were substituted a reference to the maximum aggregate amount for which the relevant foreign law provides¹⁴. Where a relevant foreign law makes no such provision for additional funds as is referred to in head (a) above, then in relation to liability by virtue of that law in respect of any occurrence:

- 4019 (i) heads (1) to (3) above do not have effect in relation to any claim unless the person (or one of the persons) liable is a licensee, the Authority or the Crown¹⁵; and
- 4020 (ii) if a licensee, the Authority or the Crown is liable, heads (1) to (3) above have effect as if for the reference in relation to those heads to 300 million special drawing rights there were substituted a reference to the amount which would be applicable to that person under the statutory provision limiting that person's liability¹⁶ in respect of the occurrence in question (or, if more than one such person is liable, to the aggregate of the amounts which would be so applicable) if it had constituted a breach of duty¹⁷ under the Nuclear Installations Act 1965¹⁸.

1 For the meaning of 'occurrence' see PARA 1507 note 11 ante.

2 le the provisions of the Nuclear Installations Act 1965 s 7 (as amended), or s 8 (as amended) (see PARAS 1495-1496 ante) or s 9 or s 10 (see PARAS 1495, 1497 ante): s 18(1). For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

3 For the meaning of 'relevant foreign law' see PARA 1496 note 6 ante.

4 le the provisions of the Nuclear Installations Act 1965 s 19(1) (as amended): see PARA 1510 post.

5 Ibid s 18(1)(a).

6 For the meaning of 'relevant foreign contribution' see PARA 1506 note 8 ante. Any sums received by the Secretary of State by way of a relevant foreign contribution towards the satisfaction of any claim by virtue of ibid s 7 (as amended), s 8 (as amended), s 9 or s 10 must be paid into the Exchequer: ss 18(5), 26(1). As to the Secretary of State see PARA 601 note 1 ante. His functions under s 18(1B) (as added) (see note 12 infra) are only exercisable, in so far as they are exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3.

7 Ibid s 18(1)(b).

8 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

9 Nuclear Installations Act 1965 s 18(1)(c) (added by the Atomic Energy Act 1989 s 3).

10 'The relevant period' has the same meaning as in the Nuclear Installations Act 1965 s 16 (as amended) (see PARA 1506 note 3 ante): s 18(6).

11 'Special drawing rights' means those rights as defined by the International Monetary Fund (IMF); and for the purpose of defining the equivalent in sterling on any day of a sum expressed in special drawing rights, one special drawing right is treated as equal to such a sum in sterling as the IMF has fixed as being the equivalent of one special drawing right for that day, or if no sum has been fixed for that day, for the last day before that day for which a sum has been so fixed: ibid s 25B(1) (s 25B added by the Energy Act 1983 s 30). A certificate given by or on behalf of the Treasury stating (1) that a particular sum in sterling has been so fixed for a particular day; or (2) that no sum has been so fixed for a particular day and that a particular sum in sterling has been so fixed for a day which is the last day for which a sum has been so fixed before the particular day, is conclusive evidence of those matters for the purposes of the Nuclear Installations Act 1965 s 25B(1) (as so added); and the Treasury may charge a reasonable fee, payable into the Consolidated Fund, for any such certificate: s 25B(2), (3) (as so added). A document purporting to be such a certificate is receivable in evidence in any proceedings and is deemed to be such a certificate unless the contrary is proved: s 25B(2) (as so added). As to the International Monetary Fund see FINANCIAL SERVICES AND INSTITUTIONS vol 49 (2008) PARA 1391; as to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031; and as to the Treasury see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 512.

12 Ibid s 18(1), (1A) (amended and added respectively by the Energy Act 1983 s 28(1), (2)). The Secretary of State may with the Treasury's approval by order increase or further increase the sum expressed in special drawing rights in the Nuclear Installations Act 1965 s 18(1A) (as so added); but an order so made cannot have effect in respect of an occurrence before (or beginning before) the order comes into force: s 18(1B) (as so added); and see note 6 supra. Section 18(1) (as so amended) does not apply to any claim by virtue of such a relevant foreign law as is mentioned in it, in respect of injury or damage incurred within the territorial limits of a country which is not a relevant territory or to any claim such as is mentioned in s 15(2) (see PARA 1503 ante), which is not made within the period of 20 years so mentioned: s 18(2). Where any such claim as is mentioned in

s 18(1) (as so amended) is satisfied wholly or partly out of money provided by Parliament, there must also be made available out of money so provided such sums as are necessary to ensure the satisfaction of any claim in respect of interest or costs in connection with the first-mentioned claim: s 18(3). Section 18(1) (as so amended) takes effect subject to s 18(2)-(4B) (s 18(4) substituted, and s 18(4A), (4B) added, by the Energy Act 1983 s 28(3)); to the Nuclear Installations Act 1965 s 17(3)(b) (see PARA 1507 the text and notes 10-14 ante); and to s 21(1) (as amended) (see PARA 1513 post): s 18(1) (as so amended). For the meaning of 'injury' see PARA 1494 note 9 ante; for the meaning of 'territorial limits' see PARA 1496 note 12 ante; and for the meaning of 'relevant territory' see PARA 1496 note 6 ante.

13 Ibid s 18(4) (as substituted: see note 12 supra). For the meaning of 'relevant international agreement' see PARA 1487 note 7 ante.

14 Ibid s 18(4A) (as added: see note 12 supra).

15 Ibid s 18(4B)(a) (as added: see note 12 supra).

16 Ie under ibid s 16(1) (as amended): see PARA 1505 ante.

17 Ie under ibid s 7 (as amended), s 8 (as amended) or s 9: see PARAS 1495-1496 ante.

18 Ibid s 18(4B)(b) (as added: see note 12 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1510. Obligation to make funds available to satisfy claims.

1510. Obligation to make funds available to satisfy claims.

Where a nuclear site licence¹ has been granted in respect of any site, the licensee² must make such provision, either by insurance or by some other means, as the Secretary of State may with Treasury consent³ approve for sufficient funds to be available at all times to ensure that any claims which have been or may be duly established against the licensee as licensee of that site by virtue either of the Nuclear Installations Act 1965⁴ or of any relevant foreign law⁵ made for purposes corresponding to the provisions of that Act imposing a duty on certain foreign operators⁶ (excluding, but without prejudice to, any claim in respect of interest or costs) are satisfied up to the required amount⁷ in respect of each severally of the following periods, namely:

- 4021 (1) the current cover period⁸, if any⁹;
- 4022 (2) any cover period which ended less than ten years before the time in question¹⁰; and
- 4023 (3) any earlier cover period in respect of which a claim remains to be disposed of¹¹;

and for the purposes of these provisions the cover period in respect of which any claim is to be treated as being made is that in which the beginning of the relevant period¹² fell¹³. If at any time while these provisions apply in relation to any licensed site they are not complied with in respect of that site, the licensee is guilty of an offence¹⁴.

Where, by reason of the gravity of any occurrence which has resulted or may result in any such claims against a licensee as licensee of a particular licensed site¹⁵, or having regard to any previous occurrences which have resulted or may result in such claims against the licensee, the Secretary of State thinks it proper to do so, he must by notice in writing to the licensee direct that a new cover period for the purpose of these provisions is to begin in respect of that site on such date not earlier than two months after the date of the service of the notice as may be specified in the notice¹⁶.

¹ For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante. As to the granting of nuclear site licences see PARA 1490 ante.

² For the meaning of 'licensee' see PARA 1490 note 11 ante.

³ As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 19(1), (4) (as amended) are transferred, in so far as they are exercisable in or as regards Scotland and, subject to the consent of the Treasury as regards certain matters, to the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

⁴ Ie by virtue of the Nuclear Installations Act 1965 s 7 (as amended): see PARAS 1495-1496 ante.

⁵ For the meaning of 'relevant foreign law' see PARA 1496 note 6 ante.

⁶ Ie a duty under the Nuclear Installations Act 1965 s 10: see PARA 1497 ante.

7 'The required amount' in relation to the provision to be made by a licensee in respect of a cover period, means an aggregate amount equal to the amount applicable under *ibid* s 16(1) (as amended) (see PARA 1505 ante) to the licensee, as licensee of the site in question, in respect of an occurrence within that period: s 19(1A) (added by the Energy Act 1983 s 27(4)). For the meaning of 'cover period' see note 8 *infra*.

8 'Cover period' means, subject to the Nuclear Installations Act 1965 s 19(2A), (2B) (as added), the period of the licensee's responsibility, and for these purposes the period of the licensee's responsibility is deemed to include any time after the expiration of that period during which it remains possible for the licensee to incur any liability by virtue of s 7(2)(b) or (c) (see PARA 1496 the text and notes 10, 13 ante), or by virtue of any relevant foreign law made for purposes corresponding to those of s 10 (see PARA 1497 ante): ss 19(2), 26(1) (s 19(2) amended by the Atomic Energy Act 1989 s 4(1)(a)). When the amount applicable under the Nuclear Installations Act 1965 s 16(1) (as amended) to a licensee of a site changes as a result of the coming into force of an order under s 16(1A) (as added) or of regulations made for the purposes of s 16(1) (as amended), or an alteration relating to the site which brings it within, or takes it outside, the description prescribed by such regulations, the current cover period relating to him as licensee of that site ends and a new cover period begins: s 19(2A) (added by the Energy Act 1983 s 27(5)). The current cover period continues to run, and no new cover period begins, on the grant of a new nuclear site licence to the same licensee in respect of a site consisting of or including the site in respect of which his existing nuclear site licence is in force: Nuclear Installations Act 1965 s 19(2B) (added by the Atomic Energy Act 1989 s 4(1)(b)).

9 Nuclear Installations Act 1965 s 19(1)(a).

10 *Ibid* s 19(1)(b).

11 *Ie* a claim made within the relevant period within the meaning of *ibid* s 16 (as amended) (see PARA 1506 note 3 ante) (s 19(1)(c)(i)); and, in the case of a claim such as is mentioned in s 15(2) (see PARA 1503 the text and note 6 ante), also within the period of 20 years so mentioned (s 19(1)(c)(ii)).

12 *Ie* the relevant period within the meaning of *ibid* s 16 (as amended) (see PARA 1506 note 3 ante): s 19(1).

13 *Ibid* s 19(1). Section 19(1) is subject to s 3(5) (as amended) (see PARA 1490 the text and note 10 ante) and to s 19(3) (see PARA 1511 post): s 19(1). As to the satisfaction of the requirements where the licensee is licensee of two or more other sites see PARA 1511 post. Member states must take all measures necessary to facilitate the conclusion of insurance contracts covering nuclear risks: see the Euratom Treaty art 98. As to citation of the Treaty see PARA 1337 note 3 ante.

14 Nuclear Installations Act 1965 s 19(5). A licensee guilty of such an offence is liable on summary conviction to a fine not exceeding the prescribed sum, or to imprisonment for a term not exceeding three months, or to both, and on conviction on indictment to a fine, or to imprisonment for a term not exceeding two years, or to both: s 19(5)(a), (b) (amended by virtue of the Criminal Law Act 1977 s 32(1); and the Magistrates' Courts Act 1980 s 32(2)). As to fines on conviction on indictment of bodies corporate see PARA 1588 note 4 post. As to the prescribed sum see PARA 613 note 20 ante.

15 For the meaning of 'licensed site' see PARA 1490 note 8 ante.

16 Nuclear Installations Act 1965 s 19(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/B. PROSECUTION AND SATISFACTION OF CLAIMS; COVER FOR COMPENSATION/1511. Cover for liability in respect of licensee of three or more sites.

1511. Cover for liability in respect of licensee of three or more sites.

Where in the case of any licensed site¹ the requirements of the Nuclear Installations Act 1965 for sufficient funds to be available to satisfy claims² are to be satisfied otherwise than by insurance and provision would also fall to be so made by the same person in respect of two or more other sites, those requirements are deemed to be satisfied in respect of each of those sites if funds are available to meet such claims in respect of all the sites collectively, and those funds would for the time being be sufficient to satisfy those requirements in respect of those two of the sites in respect of which those requirements are the highest³. The Secretary of State⁴ may, however, in any particular case at any time direct either that this provision does not apply or that the funds available must be of such amount higher than that provided for by this provision, but lower than that necessary to satisfy those requirements in respect of all the sites severally, as may be required by the direction⁵.

1 For the meaning of 'licensed site' see PARA 1490 note 8 ante.

2 Ie the requirements of the Nuclear Installations Act 1965 s 19(1) (as amended): see PARA 1510 ante.

3 Ibid s 19(3).

4 As to the Secretary of State see PARA 601 note 1 ante. His functions under ibid s 19(3) are transferred, in so far as they are exercisable in or as regards Scotland and, subject to the consent of the Treasury as regards certain matters, to the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

5 Nuclear Installations Act 1965 s 19(3) proviso.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/C. SUPPLEMENTARY PROVISIONS/1512. Notice of claims made.

C. SUPPLEMENTARY PROVISIONS

1512. Notice of claims made.

In the case of each licensed site¹ the licensee² must give notice in writing to the Secretary of State³ forthwith upon its appearing to the licensee that the aggregate amount of any claims⁴ made in respect of any cover period⁵ falling within the period of the licensee's responsibility⁶ has reached three fifths of the required amount⁷ of special cover for the licensee's liability⁸. Where such a notice has been given, no payment by way of settlement of any claim in respect of the cover period in question by agreement between the licensee and the claimant may be made except after consultation with the Secretary of State and in accordance with the terms of any direction which he may give to the licensee in writing with respect to any particular claim⁹.

If in the case of any licensed site any cover period falling within the period of the licensee's responsibility has ended, the licensee must not later than 31 January in each year send to the Secretary of State in writing a statement showing the date when that cover period ended and the following particulars of any claims in respect of that cover period as at the beginning and end respectively of the last preceding calendar year, namely (1) the aggregate number of claims received; (2) the aggregate number of claims established; and (3) the aggregate number and aggregate amount of claims satisfied¹⁰.

Any person by whom any funds for the satisfaction of claims¹¹ fall to be provided must give to the Secretary of State not less than two months' notice in writing before ceasing to keep those funds available and, notwithstanding any such notice, so far as those funds relate to nuclear matter¹² for the time being in the course of carriage¹³, may not cease to keep them available while that carriage continues¹⁴.

1 For the meaning of 'licensed site' see PARA 1490 note 8 ante.

2 For the meaning of 'licensee' see PARA 1490 note 11 ante.

3 As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 20 (as amended) are transferred, in so far as they are exercisable in or as regards Scotland, to the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 2, Sch 1.

4 I.e. claims such as are mentioned in the Nuclear Installations Act 1965 s 19(1) (as amended): see PARA 1510 ante.

5 For the meaning of 'cover period' see PARA 1510 note 8 ante.

6 For the meaning of 'period of responsibility' see PARA 1494 note 7 ante.

7 I.e. the required amount within the meaning of the Nuclear Installations Act 1965 s 19(1) (as amended): see PARA 1510 ante.

8 Ibid s 20(1) (amended by the Energy Act 1983 s 27(6)). The Secretary of State must as soon as may be lay before each House of Parliament a copy of any such notice received by him: Nuclear Installations Act 1965 s 20(3).

9 Ibid s 20(1) (as amended: see note 8 supra).

10 Ibid s 20(2). The Secretary of State must as soon as may be lay before each House of Parliament a report (in such form as, having regard to s 16 (as amended) (see PARAS 1506-1505 ante), he may consider appropriate) with respect to any such statements received by him: s 20(3).

11 le funds such as are mentioned in ibid s 19(1) (as amended): see PARA 1510 ante.

12 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

13 For the meaning of 'carriage' see PARA 1496 note 7 ante.

14 Nuclear Installations Act 1965 s 20(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/C. SUPPLEMENTARY PROVISIONS/1513. Supplementary provisions relating to damage to the means of transport of nuclear matter.

1513. Supplementary provisions relating to damage to the means of transport of nuclear matter.

Where, in the case of an occurrence involving nuclear matter¹ in the course of carriage², a claim in respect of damage to the means of transport being used for that carriage is duly established either:

- 4024 (1) against any person by virtue of a breach of duty under certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences³; or
- 4025 (2) against a licensee, the United Kingdom Atomic Energy Authority ('the UKAEA')⁴ or the Crown by virtue of any relevant foreign law⁵ made for purposes corresponding to the statutory provisions which impose a duty on certain foreign operators⁶,

then, without prejudice to any right of the claimant to the satisfaction of that claim, no payment towards its satisfaction must be made:

- 4026 (a) out of funds which are required to be available for the purpose by statute⁷ or by any relevant foreign law made for corresponding purposes; or
- 4027 (b) out of funds which have been made available for the purpose out of money provided by Parliament⁸ or by means of a relevant foreign contribution⁹,

such as to prevent the satisfaction out of those funds up to an aggregate amount which is the equivalent in sterling (on the day or first day of that occurrence) of 5 million special drawing rights¹⁰ of all claims which have been or may be duly established against the same person in respect of injury¹¹ or damage caused by that occurrence other than damage to that means of transport¹².

Where, in the case of an occurrence involving nuclear matter in the course of carriage, a claim in respect of damage to the means of transport being used for that carriage is duly established¹³ against a relevant foreign operator, but that operator is not required¹⁴ to make a payment in satisfaction of the claim, the statutory exclusion of any other liability apart from that under the Nuclear Installations Act 1965¹⁵ does not apply to any liability of that operator with respect to the damage in question apart from that Act¹⁶.

1 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

2 For the meaning of 'carriage' see PARA 1496 note 7 ante.

3 I.e. under the Nuclear Installations Act 1965 s 7 (as amended) or s 8 (as amended) (see PARAS 1495-1496 ante) or s 9 or s 10 (see PARAS 1495, 1497 ante); s 21(1)(a). For the meaning of 'licensee' see PARA 1490 note 11 ante; and for the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

4 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

5 For the meaning of 'relevant foreign law' see PARA 1496 note 6 ante.

6 le the provisions of the Nuclear Installations Act 1965 s 10: s 21(1)(b).

7 le by ibid s 19(1) (as amended): see PARA 1510 ante.

8 le under ibid s 18 (as amended): see PARA 1509 ante.

9 For the meaning of 'relevant foreign contribution' see PARA 1506 note 8 ante.

10 For the meaning of 'special drawing rights' see PARA 1509 note 11 ante.

11 For the meaning of 'injury' see PARA 1494 note 9 ante.

12 Nuclear Installations Act 1965 s 21(1) (amended by the Energy Act 1983 s 29(1)). The Secretary of State may with the Treasury's approval by order increase or further increase the sum so expressed in special drawing rights, but such an order does not have effect in respect of any occurrence before (or beginning before) the order comes into force: Nuclear Installations Act 1965 s 21(1A) (added by the Energy Act 1983 s 29(2)). At the date at which this title states the law, no such order had been made. The power to make such orders is exercisable by statutory instrument and a draft must be laid before and approved by resolution of the House of Commons: Nuclear Installations Act 1965 s 25A (added by the Energy Act 1983 s 30). As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 21(1A) (as added) are only exercisable, in so far as they are exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3.

13 le established by virtue of the Nuclear Installations Act 1965 s 10 (see PARA 1497 ante): s 21(2).

14 le by virtue of ibid s 16(2)(a) (see PARA 1505 the text and note 8 ante): s 21(2).

15 le ibid s 12(1)(b) (see PARA 1501 the text and note 5 ante): s 21(2).

16 Ibid s 21(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(6) CONTROL OF NUCLEAR INSTALLATIONS/(iii) Compensation in respect of Breach of Duty/C. SUPPLEMENTARY PROVISIONS/1514. Insurance certificates in respect of carriage.

1514. Insurance certificates in respect of carriage.

Where any nuclear matter¹ is to be carried other than wholly within the territorial limits of the United Kingdom² by, or on behalf or with the agreement of, a licensee³, the United Kingdom Atomic Energy Authority ('the UKAEA')⁴, a government department or a relevant foreign operator⁵ in such circumstances that, while the matter is in the course of that carriage⁶, the responsible party⁷ may incur liability by virtue of a breach of duty under certain statutory provisions relating to the duty of licensees and foreign operators in respect of nuclear occurrences⁸ or by virtue of any relevant foreign law⁹ made for purposes corresponding to the statutory provisions which impose a duty on certain foreign operators¹⁰, the responsible party must, before the carriage is begun, cause to be delivered to the person who is to carry that matter a document issued by or on behalf of the guarantor¹¹ which must contain such particulars as may be prescribed¹² of the responsible party, of that nuclear matter and carriage, and of the funds available in pursuance of the Nuclear Installations Act 1965¹³, or of the relevant foreign law made for corresponding purposes, to satisfy any claim by virtue of that liability¹⁴.

If in any case there is a wilful failure to comply with these provisions, the responsible party (except where that party is the Crown), and also the carrier (if he knew or ought to have known the matter carried to be such matter for carriage in such circumstances) is guilty of an offence and liable on summary conviction to a fine not exceeding level 3 on the standard scale¹⁵.

1 For the meaning of 'nuclear matter' see PARA 1492 note 4 ante.

2 Nuclear Installations Act 1965 s 21(4A) (added by the Energy Act 1983 s 29(3)). For the meaning of 'territorial limits' see PARA 1496 note 12 ante; and for the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 For the meaning of 'licensee' see PARA 1490 note 11 ante.

4 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

5 For the meaning of 'relevant foreign operator' see PARA 1496 note 6 ante.

6 For the meaning of 'carriage' see PARA 1496 note 7 ante.

7 'The responsible party' means that licensee, the United Kingdom Atomic Energy Authority, that government department or that relevant foreign operator, as the case may be: Nuclear Installations Act 1965 s 21(3).

8 I.e. under ibid s 7 (as amended) or s 8 (as amended) (see PARAS 1495-1496 ante) or s 9 or s 10 (see PARAS 1495, 1497 ante): s 21(3).

9 For the meaning of 'relevant foreign law' see PARA 1496 note 6 ante.

10 I.e. the provisions of the Nuclear Installations Act 1965 s 10 (see PARA 1497 ante): s 21(3).

11 'The guarantor' means (1) where the responsible party is a licensee, the person by whom there fall to be provided the funds required by ibid s 19(1) (as amended) (see PARA 1510 ante) to satisfy any claim in respect of the carriage in question; (2) where the responsible party is the United Kingdom Atomic Energy Authority, the Secretary of State; (3) where the responsible party is the Crown, the minister in charge of the government

department concerned (or in relation to any part of the Scottish Administration the Scottish Ministers); and (4) where the responsible party is a relevant foreign operator, the person by whom there fall to be provided the funds required by the relevant foreign law made for purposes corresponding to those of s 18 (as amended) (see PARA 1509 ante) or s 19(1) (as amended) (see PARA 1510 ante) to be made available to satisfy any claim in respect of the carriage in question: s 21(3), (4)(a)-(d) (amended by the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2 Pt I para 38(1), (3)). As to the Secretary of State see PARA 601 note 1 ante. His functions under the Nuclear Installations Act 1965 s 21(3) (as amended) are only exercisable, in so far as they are exercisable in or as regards Scotland, after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3.

12 For the meaning of 'prescribed' see PARA 1487 note 6 ante. The prescribed particulars are (1) the name and address of the responsible party; (2) a description of the nuclear matter to be carried; (3) the place of departure and the intended destination of the nuclear matter to be carried in respect of which the responsible party may incur liability by virtue of the Nuclear Installations Act 1965 s 7 (as amended), s 8 (as amended), s 9 or s 10, or any relevant foreign law made for purposes corresponding to those of s 10; (4) the amount of the funds available for the satisfaction of claims and the period covered by such funds; (5) the type of security; (6) a statement that the responsible party is an operator of a relevant site made by or on behalf of the appropriate authority, namely, in relation to a licensee or the United Kingdom Atomic Energy Authority, the Secretary of State, in relation to a government department, the minister in charge of that department (or where the government department concerned is part of the Scottish Administration the Scottish Ministers), or, in relation to a relevant foreign operator, the government or other competent public authority of that operator's relevant territory: Nuclear Installations (Insurance Certificate) Regulations 1965, SI 1965/1823, regs 2, 3 (amended by SI 1969/64; SI 1999/1820). For the meaning of 'relevant site' see PARA 1496 note 9 ante; and for the meaning of 'relevant territory' see PARA 1496 note 6 ante.

13 I.e. in pursuance of the Nuclear Installations Act 1965 s 18 (as amended) or s 19(1) (as amended) (see PARAS 1509-1510 ante): s 21(3).

14 Ibid s 21(3). The guarantor is debarred from disputing in any court any of the particulars stated in that document: s 21(3).

15 Ibid s 21(3) (amended by virtue of the Criminal Justice Act 1982 ss 38, 46). As to the standard scale see PARA 613 note 11 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(7) POWERS OF ENTRY AND INSPECTION/1515. Powers of entry and inspection under the Atomic Energy Act 1946.

(7) POWERS OF ENTRY AND INSPECTION

1515. Powers of entry and inspection under the Atomic Energy Act 1946.

A person authorised by the Secretary of State¹ may, on producing his authority², enter any premises where he has reasonable grounds for believing (1) that work is being carried out for the purpose of or in connection with the production or use of atomic energy³, or research into matters connected with it; or (2) that any of the prescribed substances⁴ or any minerals⁵ from which any such substance can be obtained, or any plant⁶ of specified design or adaptation⁷ are situated, and may inspect the premises and any articles⁸ found in them⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The authority must be contained in some duly authenticated document, and need only be produced if required: see the Atomic Energy Act 1946 s 5(1).

3 For the meaning of 'atomic energy' see PARA 1357 note 1 ante; and as to its production or use see PARA 1366 note 3 ante.

4 For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

5 For the meaning of 'minerals' see PARA 1366 note 14 ante.

6 For the meaning of 'plant' see PARA 1427 note 11 ante.

7 The plant designed or adapted for the production or use of atomic energy or research into matters connected with it: Atomic Energy Act 1946 ss 4(1)(c), 5(1).

8 For the meaning of 'articles' see PARA 1366 note 5 ante.

9 Atomic Energy Act 1946 s 5(1). The person carrying out the inspection may make copies of or extracts from any drawing, plan or other document found in the premises, and for that purpose may remove any drawing etc, and retain possession of it for a period not exceeding seven days: s 5(1). Any person wilfully obstructing a person exercising these powers of entry and inspection is guilty of an offence: s 5(2). As to prosecutions and penalties see s 14 (as amended); and PARAS 1582, 1586, 1588 post. As to the power to search for minerals and the compensation to be paid see PARAS 1425-1426 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(7) POWERS OF ENTRY AND INSPECTION/1516. Powers of entry with regard to radioactive substances.

1516. Powers of entry with regard to radioactive substances.

As the 'appropriate Agency' in relation to England and Wales for the purposes of the Radioactive Substances Act 1993¹, the Environment Agency ('the Agency')² is not given specific powers of entry and inspection under that Act, but it has a general power under the Environment Act 1995 to do anything which, in its opinion, is calculated to facilitate, or is conducive or incidental to, the carrying out of its functions³. Under that 1995 Act the Agency may also authorise a person to exercise powers of entry to premises for the purposes of pollution control⁴; and the pollution control functions of the Agency include its functions under the Radioactive Substances Act 1993⁵.

1 See PARA 1440 note 8 ante.

2 As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

3 See the Environment Act 1995 s 37(1); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 73.

4 See ibid s 108, Sch 18 (as amended); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 148 et seq.

5 See ibid s 108(15) (as amended); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 148.

UPDATE

1516 Powers of entry with regard to radioactive substances

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(7) POWERS OF ENTRY AND INSPECTION/1517. Powers of entry relating to the carriage of radioactive materials by road.

1517. Powers of entry relating to the carriage of radioactive materials by road.

The Radioactive Material (Road Transport) Act 1991 confers powers of entry on inspectors and examiners with respect to vehicles used to transport radioactive packages, and premises on which any such vehicle may be¹. These powers are discussed in detail elsewhere in this work².

¹ See the Radioactive Material (Road Transport) Act 1991 s 5; and ROAD TRAFFIC vol 40(3) (2007 Reissue) PARA 1662.

² See ROAD TRAFFIC vol 40(3) (2007 Reissue) PARA 1662.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(7) POWERS OF ENTRY AND INSPECTION/1518. Powers of inspection in relation to nuclear installations.

1518. Powers of inspection in relation to nuclear installations.

The Secretary of State¹ may appoint as inspectors for the purpose of assisting him in the execution of the provisions of the Nuclear Installations Act 1965, other than the provisions which are relevant provisions for the purposes of the Health and Safety at Work etc Act 1974², such number of persons appearing to him to be qualified for the purpose as he may from time to time consider necessary or expedient, and may make to or in respect of any person so appointed such payments by way of remuneration, allowances or other payments as he may with the approval of the Minister for the Civil Service determine³. Any such inspector may for that purpose exercise such of certain powers set out in the Health and Safety at Work etc Act 1974 as are specified in his instrument of appointment⁴, and provisions of the 1974 Act relating to restrictions on disclosure of information, offences and prosecutions by inspectors⁵ apply in the case of inspectors so appointed as they apply in the case of inspectors appointed under that 1974 Act⁶.

Any inspector appointed by the Health and Safety Executive⁷ may exercise the powers of an inspector under the Health and Safety at Work etc Act 1974⁸ in relation to certain provisions⁹ of the Nuclear Installations Act 1965¹⁰. The Executive has power to recover any sums paid by it by way of remuneration, allowances or other payments to such inspectors¹¹.

An inspector¹² must, if so required when exercising or seeking to exercise any power conferred on him by the above provisions, produce his instrument of appointment or a duly authenticated copy of it¹³. So much of an inspector's instrument of appointment as specifies the powers which he is entitled to exercise may be varied by the enforcing authority¹⁴ which appointed him¹⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie other than the provisions which are mentioned in the Health and Safety at Work etc Act 1974 s 1, Sch 1 (amended for these purposes by the Atomic Energy Act 1989 s 6(3)). Those provisions are the Nuclear Installations Act 1965 s 1 (as amended) (see PARA 1487 ante), ss 3-6 (as amended) (see PARAS 1490-1494 ante), s 22 (as amended) (see PARA 1499 ante) and s 24A (as added) (see PARA 1490 ante).

3 Ibid s 24(1) (s 24(1), (2) substituted by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 4).

4 Ie such of the powers set out in the Health and Safety at Work etc Act 1974 s 20(2) as may be so specified: Nuclear Installations Act 1965 s 24(2) (as substituted: see note 3 supra). See further HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376.

5 Ie the provisions of the Health and Safety at Work etc Act 1974 s 28 (as amended), s 33 (as amended), and s 39 (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 382, HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq): Nuclear Installations Act 1965 s 24(2) (as substituted: see note 3 supra).

6 Ibid s 24(2) (as substituted: see note 3 supra).

7 Ie any inspector appointed under the Health and Safety at Work etc Act 1974 s 19: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375. As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

8 As to those powers see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376 et seq.

9 Ie the provisions of the Nuclear Installations Act 1965 s 4(5) (see PARA 1492 ante) and s 5(2) (as amended: see PARA 1494 ante): s 26(1) (amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications)

Regulations 1974, SI 1974/2056, Sch 2 para 6). As to certain restrictions on such an inspector exercising a right of entry upon certain sites unless he has been specially authorised by or on behalf of a Minister of the Crown see PARA 1573 post.

10 le by virtue of the Nuclear Installations Act 1965 s 26(1) (as amended: see note 9 supra).

11 See *ibid* s 24A (as added); and PARA 1490 ante.

12 le an inspector appointed by the Secretary of State (see the text and notes 1-6 supra) or by the Health and Safety Executive under the Health and Safety at Work etc Act 1974 s 19 (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375).

13 See *ibid* s 19(4); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375.

14 In relation to the Nuclear Installations Act 1965, the 'enforcing authority' means the Health and Safety Executive or the Secretary of State (as the case may be): see the Health and Safety at Work etc Act 1974 s 18(7); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375.

15 *Ibid* s 19(3).

UPDATE

1518 Powers of inspection in relation to nuclear installations

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(7) POWERS OF ENTRY AND INSPECTION/1519. Powers of entry and search under the Nuclear Safeguards Act 2000.

1519. Powers of entry and search under the Nuclear Safeguards Act 2000.

A person authorised by the Secretary of State¹ for the purpose of exercising powers under the Nuclear Safeguards Act 2000 may be granted a warrant to enter premises and search them². These powers of entry and search, and the circumstances in which they may be exercised, are discussed below³.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 See the Nuclear Safeguards Act 2000 ss 4, 8; and PARA 1579 the text and notes 1-14 post.

3 See PARA 1579 the text and notes 1-14 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. (8) SECURITY, SECRECY AND INFORMATION

(i) The Civil Nuclear Police Authority and Constabulary

A. THE CIVIL NUCLEAR POLICE AUTHORITY

(A) ESTABLISHMENT, MEMBERSHIP ETC AND PROCEEDINGS

1520. Establishment and function of the Civil Nuclear Police Authority.

There is a body corporate known as the Civil Nuclear Police Authority ('the Police Authority')¹. The Police Authority is not to be regarded as the servant or agent of the Crown, or as enjoying any status, immunity or privilege of the Crown² and its property is not to be regarded as property of the Crown, or as held on behalf of the Crown³.

The Police Authority is a public body for the purposes of the Freedom of Information Act 2000⁴ and its administrative and departmental records are public records⁵.

It is the function of the Police Authority to secure the maintenance of an efficient and effective constabulary, to be known as the Civil Nuclear Constabulary⁶. Subject to the relevant statutory provisions⁷, the Police Authority may do anything which appears to it to be likely to facilitate the carrying out of its functions⁸, or to be incidental to carrying them out⁹.

⁴ See the Freedom of Information Act 2000 Sch 1 Pt V para 63A (added by the Energy Act 2004 Sch 10 para 18).

⁵ See the Public Records Act 1958 Sch 1 para 3, Table Pt II (amended for these purposes by the Energy Act 2004 s 69(1), Sch 14 para 1).

⁶ Energy Act 2004 s 52(1). As to the Civil Nuclear Constabulary, and the functions of the Police Authority with regard to it, see PARA 1528 et seq post.

⁷ Ie subject to the provisions of the Energy Act 2004 Pt 1 Ch 3 (ss 51-71, Schs 10-13) (as amended): see PARA 1521 et seq post.

⁸ References in ibid Pt 1 Ch 3 (as amended) to the functions of the Police Authority include references to securing that the functions of the Civil Nuclear Constabulary are carried out: s 71(2).

⁹ Ibid s 52(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. THE CIVIL NUCLEAR POLICE AUTHORITY/(A) Establishment, Membership etc and Proceedings/1521. Members and employees of the Civil Nuclear Police Authority.

1521. Members and employees of the Civil Nuclear Police Authority.

The Civil Nuclear Police Authority ('the Police Authority')¹ is to consist of not fewer than seven and not more than 13 members² appointed by the Secretary of State³; and he must appoint one of the members of the Police Authority to be its chairman⁴. Subject to what follows, each member of the Police Authority is to hold and vacate office as chairman, or otherwise as a member, in accordance with the terms of his appointment⁵; and each appointment must state the period for which it is made⁶. That period must not exceed five years; but a person is eligible for reappointment as chairman, or otherwise as a member of the Police Authority, on any number of occasions, from the end of a term of office⁷.

A member of the Police Authority may at any time resign his office as the chairman or as a member of the Police Authority, or both, by giving notice to the Secretary of State⁸. If the Secretary of State is satisfied that the chairman or another member of the Police Authority:

- 4028 (1) is an undischarged bankrupt or has had his estate sequestrated without being discharged;
- 4029 (2) is subject to a bankruptcy restrictions order or an interim bankruptcy restrictions order;
- 4030 (3) has made an arrangement with his creditors, or has entered into a trust deed for creditors, or has made a composition contract with his creditors;
- 4031 (4) has been convicted of an offence;
- 4032 (5) has been absent, on at least three consecutive occasions and without the consent of the Police Authority, from meetings of that authority; or
- 4033 (6) is for any other reason incapable of carrying out, or unfit to carry out, the functions of his office,

the Secretary of State may, by giving him notice to that effect, remove him from office⁹.

The Police Authority may pay to each of its members such remuneration and allowances as the Secretary of State may determine¹⁰.

Members of the Police Authority are disqualified for membership of the House of Commons¹¹.

The Police Authority may¹² employ such persons as it may determine¹³; and those persons are to be employed by the Police Authority on such terms and conditions, including terms and conditions as to remuneration, as the Police Authority determines¹⁴. The Police Authority may pay to or in respect of its employees such pensions, allowances or gratuities¹⁵, or with the approval of the Secretary of State, provide and maintain for them such pension schemes (whether contributory or not), as it determines¹⁶.

A pension scheme maintained by the United Kingdom Atomic Energy Authority ('the UKAEA')¹⁷ under the specified provision of the Atomic Energy Authority Act 1954¹⁸ ('a UKAEA pension scheme') may apply to employees of the Police Authority as it applies to persons to whom it otherwise applies¹⁹. The Secretary of State may, by direction²⁰, require the UKAEA to make such modifications²¹ of a UKAEA pension scheme as the Secretary of State considers appropriate in respect of the participation of persons in such a scheme by virtue of these provisions²². Such a

direction may also require the UKAEA to make such supplemental, consequential and transitional provision modifying a UKAEA pension scheme as the Secretary of State considers appropriate²³. Before giving such a direction, the Secretary of State must consult:

- 4034 (a) the UKAEA;
- 4035 (b) the Police Authority;
- 4036 (c) the Treasury; and
- 4037 (d) such persons as appear to him to represent the employees likely to be affected by the direction²⁴.

The Police Authority must pay such amounts to the UKAEA in respect of the participation of persons in a pension scheme by virtue of these provisions as are agreed between the Police Authority and the UKAEA, or, in the absence of such agreement, determined by the Secretary of State²⁵.

THE CIVIL NUCLEAR POLICE AUTHORITY/(A) Establishment, Membership etc and Proceedings/1522. Proceedings of the Civil Nuclear Police Authority; authentication of seal.

1522. Proceedings of the Civil Nuclear Police Authority; authentication of seal.

The Civil Nuclear Police Authority ('the Police Authority')¹ may make such arrangements as it thinks fit for regulating its proceedings². Those arrangements may include:

- 4038 (1) arrangements for quorums and the making of decisions by a majority;
- 4039 (2) the establishment of committees and the regulation of their proceedings;
- 4040 (3) the delegation of functions to committees established by the Police Authority and to its employees³;

and the membership of a committee established by the Police Authority may include employees of that authority and persons who are neither members nor employees of that authority⁴.

The validity of proceedings of the Police Authority is not be affected by a failure by the Secretary of State⁵ to comply with the statutory requirements as to the appointment of members⁶ or any other defect in the appointment of a member of the Police Authority⁷.

The application of the seal of the Police Authority is to be authenticated by the signature of a member of the Police Authority or any other person who has been authorised by it, whether generally or specifically, for the purpose⁸. A document purporting to be duly executed under the Police Authority's seal, or signed on behalf of the Police Authority, may be received in evidence and, except so far as the contrary is shown, is to be taken to be duly so executed or signed⁹.

NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. THE CIVIL NUCLEAR POLICE AUTHORITY/(B) Finances/1523. Borrowing by the Civil Nuclear Police Authority.

(B) FINANCES

1523. Borrowing by the Civil Nuclear Police Authority.

The Civil Nuclear Police Authority ('the Police Authority')¹ may borrow money, but only in accordance with the following provisions². The approval of the Treasury is required for borrowing by the Police Authority³. The Police Authority may borrow from the Secretary of State⁴ such sums in sterling as it may require for meeting its obligations and for carrying out its functions⁵. It may also, with the consent of the Secretary of State, borrow temporarily by way of overdraft from persons other than the Secretary of State such sums in sterling as it may require for meeting its obligations and for carrying out its functions⁶. The Police Authority must not, however, borrow if the effect would be:

- 4041 (1) to take the aggregate amount outstanding in respect of the principal of sums it has borrowed over its borrowing limit⁷; or
- 4042 (2) to increase the amount by which the aggregate amount so outstanding exceeds that limit⁸.

The Secretary of State may, with the consent of the Treasury⁹, guarantee:

- 4043 (a) the repayment of the principal of any sum borrowed by the Police Authority;
- 4044 (b) the payment of interest on such a sum; and
- 4045 (c) the discharge of any other financial obligation of the Police Authority in connection with the borrowing of such a sum¹⁰,

and may give such a guarantee in such manner, and on such terms, as he thinks fit¹¹. As soon as practicable after giving such a guarantee, the Secretary of State must lay a statement of the guarantee before Parliament¹². If sums are paid out by the Secretary of State under a guarantee so given, the Police Authority must pay him:

- 4046 (i) such amounts in or towards the repayment to him of those sums as he may, with the consent of the Treasury¹³, direct; and
- 4047 (ii) interest, at such rates as he may with such consent direct, on amounts outstanding under this provision¹⁴.

Payments to the Secretary of State under heads (i) and (ii) above must be made at such times, and in such manner, as he may from time to time and with Treasury consent¹⁵ direct¹⁶.

Where a sum has been paid out by the Secretary of State under a guarantee given under the above provisions, he must lay a statement relating to that sum before Parliament:

- 4048 (A) as soon as practicable after the end of the financial year¹⁷ in which that sum is paid out; and

4049 (B) as soon as practicable after the end of each subsequent relevant financial year¹⁸.

1 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

2 Energy Act 2004 s 51(2), Sch 10 para 8(1).

As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

17 For the meaning of 'financial year' see PARA 763 note 17 ante.

18 Energy Act 2004 Sch 10 para 9(6). In relation to a sum paid out under a guarantee, a financial year is a relevant financial year for these purposes unless (1) before the beginning of that year, the whole of that sum has been repaid to the Secretary of State under Sch 10 para 9(4) (see heads (i)-(ii) in the text); and (2) the Police Authority is not at any time during that year subject to a liability to pay interest on amounts that became due under Sch 10 para 9(4) in respect of that sum: Sch 10 para 9(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. THE CIVIL NUCLEAR POLICE AUTHORITY/(B) Finances/1524. Grants, loans, receipts and surpluses.

1524. Grants, loans, receipts and surpluses.

The Secretary of State¹ may make payments by way of grant to the Civil Nuclear Police Authority ('the Police Authority')² and may also make payments to it by way of loan³. He may make any grants made by him to the Police Authority subject to such conditions as he thinks fit⁴. Loans made by the Secretary of State to the Police Authority are to be on such terms, as to repayment and interest and other matters, as the Secretary of State may determine⁵; and he must pay sums so received by him into the Consolidated Fund⁶.

The Secretary of State may give a direction requiring the Police Authority to pay to him an amount equal to:

- 4050 (1) the whole or part of a sum which it has received (otherwise than from the Secretary of State); or
- 4051 (2) the whole or part of any surplus which it has for a financial year⁷;

and for these purposes the Police Authority has a surplus for a financial year if its revenues for that year exceed the sums which it requires for carrying out its functions in that year⁸. Before giving such a direction the Secretary of State must consult the Police Authority and the Treasury⁹. He must pay sums so received by him into the Consolidated Fund¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

10 See note 6 supra.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. THE CIVIL NUCLEAR POLICE AUTHORITY/(B) Finances/1525. Financial duties of the Civil Nuclear Police Authority.

1525. Financial duties of the Civil Nuclear Police Authority.

The Secretary of State¹ may determine the financial duties of the Civil Nuclear Police Authority ('the Police Authority')². Before determining any financial duties under these provisions, the Secretary of State must consult the Police Authority³; and the approval of the Treasury is required for a determination by the Secretary of State of the Police Authority's financial duties⁴.

A determination by the Secretary of State of the Police Authority's financial duties may:

- 4052 (1) relate to a period beginning before, on or after the date on which it is made;
- 4053 (2) contain supplemental provisions; and
- 4054 (3) be varied by a subsequent determination⁵;

and the Secretary of State may make different determinations for different functions and activities of the Police Authority⁶.

The Secretary of State must give the Police Authority notice of every determination by him of its financial duties⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Energy Act 2004 s 51(2), Sch 10 para 11(1). As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

5 Ibid Sch 10 para 11(4).

6 Ibid Sch 10 para 11(5).

7 Ibid Sch 10 para 11(6). As to the giving of notice see PARA 739 note 2 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. THE CIVIL NUCLEAR POLICE AUTHORITY/(B) Finances/1526. Accounts and audit.

1526. Accounts and audit.

The Civil Nuclear Police Authority ('the Police Authority')¹ must keep proper accounts and proper accounting records² and must prepare, in respect of each of its accounting years³, a statement of its accounts⁴. A statement of accounts so prepared must give a true and fair view of the income and expenditure of the Police Authority for the accounting year in question and of its state of affairs⁵; and such a statement of accounts must comply with every requirement which has been notified⁶ by the Secretary of State⁷ to the Police Authority⁸. The approval of the Treasury is required for the imposition of such a requirement⁹; and those requirements may include, in particular, requirements relating to:

- 4055 (1) the information to be contained in the statement;
- 4056 (2) the manner in which that information is to be presented;
- 4057 (3) the methods and principles according to which the statement is to be prepared¹⁰.

The accounts of the Police Authority relating to each of its accounting years, including the statement of accounts prepared for the year under these provisions, must be audited by the Comptroller and Auditor General¹¹ who must send a copy of his report on what he is required to audit to the Police Authority¹². The Police Authority must send to the Secretary of State, in respect of each of its accounting years, a copy of the accounts for that year that are required to be audited under these provisions, and a copy of the Comptroller and Auditor General's report on those accounts¹³. The Secretary of State must lay a copy of whatever is so sent to him before Parliament¹⁴.

1 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

2 For these purposes, 'accounting records' includes all books, papers and other records of the Police Authority relating to (1) the accounts which it is required to keep; or (2) matters dealt with in those accounts: Energy Act 2004 s 51(2), Sch 10 para 12(10).

3 For these purposes, 'accounting year', in relation to the Police Authority, means (1) the Police Authority's first accounting year; or (2) a financial year after the end of the Police Authority's first accounting year; and 'the Police Authority's first accounting year' means (a) where the Police Authority is established at the beginning of a financial year, that financial year; and (b) in any other case, the period which begins with the day on which the Police Authority is established and ends: (i) if no direction is given under head (ii) infra, with 31 March in the financial year current on that day; and (ii) if the Secretary of State so directs, with 31 March at the end of the following financial year: *ibid* Sch 10 para 12(10). For the meaning of 'financial year' see PARA 763 note 17 ante.

4 *Ibid* Sch 10 para 12(1).

5 *Ibid* Sch 10 para 12(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/A. THE CIVIL NUCLEAR POLICE AUTHORITY/(C) Nuclear Transfer Scheme for United Kingdom Energy Authority Constabulary/1527. Secretary of State's duty to make nuclear transfer scheme.

(C) NUCLEAR TRANSFER SCHEME FOR UNITED KINGDOM ENERGY AUTHORITY CONSTABULARY

1527. Secretary of State's duty to make nuclear transfer scheme.

The Secretary of State¹ must make a nuclear transfer scheme² providing for the transfer to the Civil Nuclear Police Authority ('the Police Authority')³ of:

- 4058 (1) the employees of the United Kingdom Atomic Energy Authority ('the UKAEA')⁴ who are members of the UKAEA Constabulary⁵;
- 4059 (2) such other persons employed by the UKAEA for purposes connected with that Constabulary as he considers appropriate;
- 4060 (3) such property held by the UKAEA for purposes connected with the activities of members of the UKAEA Constabulary as he considers appropriate; and
- 4061 (4) such rights and liabilities of the UKAEA relating to any of those activities, or to any such property, as he considers appropriate⁶.

The nuclear transfer scheme that provides for the transfer of members of the UKAEA Constabulary to the Police Authority must provide for the transfer to the Police Authority, at the same time, of everyone who immediately before that time is employed by the UKAEA exclusively for purposes connected with that Constabulary⁷.

The provisions of the Energy Act 2004 relating to nuclear transfer schemes⁸ have effect as if the nuclear transfer scheme required by the above provisions were an authorised scheme⁹ but did not require the consent of the Police Authority to any of its provisions¹⁰. From the date on which the nuclear transfer scheme so required comes into force, the members of the UKAEA Constabulary who are transferred by the scheme are to hold office as members of the Civil Nuclear Constabulary¹¹ as if they had been appointed by the Police Authority in accordance with the statutory requirements¹² and had, on appointment, made the required¹³ declaration¹⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to nuclear transfer schemes generally see PARA 1402 et seq ante.

3 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

4 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

5 For these purposes, 'members of the UKAEA Constabulary', in relation to a nuclear transfer scheme, means persons who, on the date on which the scheme comes into force, are special constables appointed on the nomination of the UKAEA under the Special Constables Act 1923 s 3 (as amended): Energy Act 2004 s 70(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(A) In general/1528. Functions of the Civil Nuclear Constabulary.

B. THE CIVIL NUCLEAR CONSTABULARY

(A) IN GENERAL

1528. Functions of the Civil Nuclear Constabulary.

The primary function of the Civil Nuclear Constabulary ('the Constabulary')¹ is:

- 4062 (1) the protection of licensed nuclear sites² which are not used wholly or mainly for defence purposes; and
- 4063 (2) safeguarding nuclear material³ in Great Britain⁴ and elsewhere⁵.

The Civil Nuclear Police Authority ('the Police Authority')⁶ may allocate to the Constabulary the function of carrying on such other activities relating to, or connected with, the security of nuclear material, or sites where such material is being, has been or is to be used, processed or stored, as the Police Authority thinks fit⁷; but the Secretary of State may give the Police Authority directions⁸ restricting the exercise of those powers of allocation⁹.

The Constabulary also has the function of carrying on such other activities as may be allocated to it by the Police Authority in accordance with directions given to that authority for these purposes by the Secretary of State¹⁰.

Nothing in the above provisions limits what a member of the Constabulary may do in the exercise of the powers and privileges conferred on him¹¹ in respect of his jurisdiction¹².

1 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

2 For these purposes, 'licensed nuclear site' means a site in respect of which a nuclear site licence is or is required to be in force: Energy Act 2004 s 71(1). For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante (definition applied by s 196(1)).

3 For these purposes, 'nuclear material' means (1) any fissile material in the form of (a) uranium metal, alloy or chemical compound; or (b) plutonium metal, alloy or chemical compound; (2) any other fissile material prescribed by regulations made by the Secretary of State: *ibid* s 71(1). Regulations under s 71(1) are subject to the negative resolution procedure: s 71(4). As to the negative resolution procedure see PARA 602 note 2 ante. Where regulations under the Anti-terrorism, Crime and Security Act 2001 s 76(7) (repealed) prescribing material to be treated as nuclear material for the purposes of that provision were in force immediately before the commencement of the Energy Act 2004 s 37 (ie 1 March 2005: see the Energy Act 2004 (Commencement No 4) Order 2005, SI 2005/442, art 2(1), Sch 1), those regulations have effect after that commencement as regulations made under and for the purposes of the Energy Act 2004 s 71: s 71(5). By virtue of s 71(5), material of the following kinds is prescribed for these purposes: (i) previously separated americium-241 which is not irradiated; (ii) previously separated americium-242m which is not irradiated, (iii) previously separated americium-243 which is not irradiated, and (iv) previously separated neptunium-237 which is not irradiated: Nuclear Industries Security Regulations 2003, SI 2003/403, reg 3(1). In reg 3(1), 'irradiated', in relation to any kind of material, means that the material has a total radiation output giving a dose rate exceeding 1 Gray per hour at one metre from the unshielded surface of the material; and 'previously separated', in relation to any kind of material, means that the material has been subject to treatment that increases the concentration of the material: reg 3(2). As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

5 Energy Act 2004 s 52(2).

6 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

7 Energy Act 2004 s 52(3).

8 Any power of the Secretary of State under *ibid* Pt 1 Ch 3 (ss 51-71, Schs 10-13) (as amended) to give directions (1) restricting the exercise by the Police Authority of its powers; (2) requiring functions to be carried out or objectives to be met by the Constabulary or the Police Authority; or (3) imposing obligations on the Police Authority or any of its members or employees, includes power to impose restrictions, confer functions, require objectives to be met or impose obligations at or in relation to places outside Great Britain: s 71(3).

9 *Ibid* s 52(5).

10 *Ibid* s 52(4).

11 *Ie* by *ibid* s 56: see PARA 1532 post.

12 *Ibid* s 52(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(A) In general/1529. Chief constable and other senior officers.

1529. Chief constable and other senior officers.

The Civil Nuclear Police Authority ('the Police Authority')¹ must appoint a chief constable of the Civil Nuclear Constabulary ('the Constabulary')² and a deputy chief constable of the Constabulary³ and may appoint one or more assistant chief constables of the Constabulary⁴. The approval of the Secretary of State⁵ is required for the making of any such appointment⁶; and before appointing the deputy chief constable or an assistant chief constable, the Police Authority must consult the chief constable⁷. The chief constable, the deputy chief constable and every assistant chief constable are to be members of the Constabulary⁸.

The Police Authority may call on a senior officer⁹, in the interests of efficiency or effectiveness, to retire or to resign¹⁰. The approval of the Secretary of State is required before the Police Authority may call on a senior officer to retire or to resign¹¹; and before seeking the approval of the Secretary of State, the Police Authority must:

- 4064 (1) give the senior officer a notice¹² of its intention to call on him to retire or to resign and an explanation of its grounds for doing so;
- 4065 (2) give the senior officer an opportunity of making representations, including an opportunity of making representations in person; and
- 4066 (3) consider any representations made by or on behalf of the senior officer¹³.

A senior officer who is called on to retire or to resign must retire or resign with effect from such date as the Police Authority may specify or such earlier date as may be agreed between him and the Police Authority¹⁴.

The Secretary of State may require the Police Authority to exercise its power under the above provisions to call on the chief constable to retire or to resign¹⁵. Before requiring the Police Authority to exercise that power, the Secretary of State must:

- 4067 (a) give the chief constable a notice¹⁶ of his intention to require the Police Authority to exercise that power and an explanation of his grounds for doing so;
- 4068 (b) give the chief constable an opportunity of making representations, including an opportunity of making representations in person; and
- 4069 (c) consider any representations made by or on behalf of the chief constable¹⁷.

The Secretary of State may not exercise his power to require the Police Authority to exercise its power to call on the chief constable to retire or to resign¹⁸ unless he has appointed one or more persons to hold an inquiry and to report to him and has considered the report made to him¹⁹. At least one of the persons so appointed must be a person who is neither a constable, an employee of the Police Authority nor an officer of a government department²⁰. At an inquiry so held the chief constable and the Police Authority must each be given an opportunity of making representations, including, in the case of the chief constable, an opportunity of making representations in person²¹ and the Police Authority must pay the costs reasonably incurred by the chief constable in respect of such an inquiry²².

If the Secretary of State exercises his power to require the Police Authority to exercise its power to call on the chief constable to retire or to resign, the Police Authority must call on him to retire or to resign and it is not required to comply with heads (1) to (3) above before doing so²³.

Where:

- 4070 (i) the Police Authority has notified a senior officer that it intends to exercise its statutory power²⁴ to call on him to retire or to resign;
- 4071 (ii) the Secretary of State has notified the chief constable²⁵ that he intends to require the Police Authority to exercise that power in his case; or
- 4072 (iii) the Police Authority has exercised that power in the case of a senior officer, or has been required to do so by the Secretary of State, but the senior officer has not yet retired or resigned,

the Police Authority may suspend the senior officer from duty²⁶; but this power is to be exercisable only where the Police Authority considers that it is necessary to exercise it in order to maintain public confidence in the Constabulary²⁷. The approval of the Secretary of State is required for such a suspension²⁸.

Where:

- 4073 (A) the Police Authority has notified the chief constable that it intends to exercise its statutory power²⁹ to call on him to retire or to resign;
- 4074 (B) the Secretary of State has notified the chief constable³⁰ that he intends to require the Police Authority to exercise that power in his case; or
- 4075 (C) the Police Authority has exercised that power, or has been required to do so by the Secretary of State, but the chief constable has not yet retired or resigned,

the Secretary of State may require the Police Authority to suspend the chief constable from duty³¹; but this power is to be exercisable only where the Secretary of State considers that it is necessary to exercise it in order to maintain public confidence in the Constabulary³². The Police Authority must comply with such a requirement to suspend the chief constable from duty³³.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(A) In general/1530. Functions of senior officers.

1530. Functions of senior officers.

In carrying out his functions in any financial year¹, the chief constable of the Civil Nuclear Constabulary² must have regard to the annual policing plan for that year issued³ by the Civil Nuclear Police Authority ('the Police Authority')⁴ and the three-year strategy plan most recently issued⁵ by the Police Authority for a period that includes that year⁶.

The deputy chief constable may perform a function of the chief constable:

- 4076 (1) while the chief constable is unable to act or unavailable;
- 4077 (2) during a vacancy in the office of chief constable; or
- 4078 (3) with the consent of the chief constable⁷, which consent may be either general or specific⁸.

The Police Authority may authorise an assistant chief constable to perform a function of the chief constable:

- 4079 (a) while both the chief constable and the deputy chief constable are unable to act or unavailable; or
- 4080 (b) while the offices of chief constable and deputy chief constable are both vacant⁹;

but at any one time, only one person may be authorised so to act¹⁰.

No person is entitled by virtue of head (1) or head (2) above, or an authorisation under head (a) or head (b) above, to act for a continuous period exceeding three months, except with the consent of the Secretary of State¹¹.

1 For the meaning of 'financial year' see PARA 763 note 17 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(A) In general/1531. Members of the Civil Nuclear Constabulary.

1531. Members of the Civil Nuclear Constabulary.

The Civil Nuclear Police Authority ('the Police Authority')¹ may appoint persons to be members of the Civil Nuclear Constabulary ('the Constabulary')². Members of the Constabulary are to be employees of the Police Authority and, apart from the chief constable himself, are to be under the direction and control of the chief constable³.

A person appointed as a member of the Constabulary must, on appointment, be attested as a constable by making the required declaration before a justice of the peace in England and Wales⁴ or make the required declaration before a sheriff or a justice of the peace in Scotland⁵.

1 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

2 Energy Act 2004 s 55(1). As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

3 Ibid s 55(2).

4 Ibid s 55(3)(a). The required declaration is, in the case of a declaration before a justice of the peace in England and Wales, the declaration required by the Police Act 1996 s 29 (as amended) (see POLICE vol 36(1) (2007 Reissue) PARA 103) in the case of a member of a police force maintained under that Act: Energy Act 2004 s 55(4)(a).

5 Ibid s 55(3)(b). The required declaration is, in the case of a declaration before a sheriff or a justice of the peace in Scotland, a declaration faithfully to execute the duties of the office of a member of the Civil Nuclear Constabulary: s 55(4)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(B) Jurisdiction and Powers of the Constabulary/1532. Jurisdiction and powers of the Civil Nuclear Constabulary; application of offences etc applying to constables.

(B) JURISDICTION AND POWERS OF THE CONSTABULARY

1532. Jurisdiction and powers of the Civil Nuclear Constabulary; application of offences etc applying to constables.

A member of the Civil Nuclear Constabulary ('the Constabulary')¹ has the powers and privileges of a constable²:

- 4081 (1) at every place comprised in a relevant nuclear site³ and everywhere within 5 kilometres of such a place⁴;
 - 4082 (2) at every trans-shipment site⁵ where it appears to him expedient to be in order to safeguard nuclear material while it is at the site⁶;
 - 4083 (3) at every other place where it appears to him expedient to be in order to safeguard nuclear material which is in transit⁷;
 - 4084 (4) at every place where it appears to him expedient to be in order to pursue or to detain⁸ a person whom he reasonably believes to have unlawfully removed or interfered with nuclear material being safeguarded by members of the Constabulary, or to have attempted to do so⁹;
 - 4085 (5) throughout Great Britain¹⁰ for purposes connected with:
- 373
- 546. (a) a place mentioned in heads (1) to (4) above;
 - 547. (b) anything that he or another member of the Constabulary is proposing to do, or has done, at such a place; or
 - 548. (c) anything which he reasonably believes to have been done, or to be likely to be done, by another person at or in relation to such a place¹¹.
- 374

The above provisions have effect in United Kingdom waters¹² adjacent to Great Britain as they have effect in Great Britain, but as if references to the powers and privileges of a constable were references to the powers and privileges of a constable in the nearest part of Great Britain¹³.

In a place where a member of the Constabulary so has the powers and privileges of a constable, such a member who is of at least the rank of assistant chief constable may give an authorisation to stop and search vehicles, their occupants and their contents and to stop and search pedestrians in connection with terrorism¹⁴.

For the purposes of the specified provision of the Firearms Act 1968¹⁵, and of any rule of law whereby any provision of that Act does not bind the Crown, a member of the Constabulary is to be deemed to be a person in the service of Her Majesty and references to the public service are to be deemed to include references to use by a person in the exercise and performance of his powers and duties as a member of the Constabulary¹⁶.

In any enactment¹⁷:

- 4086 (i) references to a person's being in the custody of a constable, or to his being detained in the charge of a constable, include references to his being detained by a member of the Constabulary in the exercise of any of the powers or privileges of a constable conferred on him by the above provisions; and
- 4087 (ii) references to a person's accompanying a constable include references to his accompanying a member of the Constabulary¹⁸.

Any person who assaults a member of the Constabulary who is exercising any of the powers or privileges conferred on him by the above provisions, or who is otherwise performing his duties under the direction and control of the chief constable of the Constabulary or as an employee of the Civil Nuclear Police Authority¹⁹, is guilty of an offence and liable on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding level 5 on the standard scale, or to both²⁰. Any person who resists or wilfully obstructs such a member of the Constabulary when so acting, or a person assisting him, is likewise guilty of an offence and liable on summary conviction to imprisonment for a term not exceeding:

- 4088 (A) at the date at which this title states the law, one month; or
- 4089 (B) as from a day to be appointed²¹, 51 weeks,

or a fine not exceeding level 3 on the standard scale, or to both²².

It is an offence to impersonate a member of the Constabulary²³ and it is also an offence to cause disaffection amongst members of the Constabulary²⁴.

The Secretary of State²⁵ may by order make such modifications of subordinate legislation²⁶ as appear to him to be appropriate in consequence of any of the relevant provisions²⁷ of the Energy Act 2004²⁸.

1 As to the Civil Nuclear Police Authority's statutory function of securing the maintenance of the Civil Nuclear Constabulary see PARA 1520 ante; and as to the appointment of members of the Constabulary see PARA 1531 ante.

2 As to the powers and privileges of a constable see POLICE vol 36(1) (2007 Reissue) PARA 102 et seq.

3 For these purposes, 'relevant nuclear site' means a licensed nuclear site other than a designated defence site: Energy Act 2004 s 56(7). For the meaning of 'licensed nuclear site' see PARA 1528 note 2 ante. 'Designated defence site' means a site designated by order made by the Secretary of State as a site which appears to him to be used wholly or mainly for defence purposes: s 56(8). An order under s 56(8) must be laid before Parliament after being made: s 56(9). Where an order designating a site for the purposes of the Anti-terrorism, Crime and Security Act 2001 s 76(2) (repealed) was in force immediately before the commencement of the Energy Act 2004 s 56 (ie 1 April 2005: see the Energy Act 2004 (Commencement No 5) Order 2005, SI 2005/877, art 2(1), Sch 1), that order has effect after that commencement as an order made under and for the purposes of the Energy Act 2004 s 56(8): s 56(10). By virtue of s 56(10), the following nuclear sites are designated for these purposes: (1) premises known as the Zero Energy Experimental Reactor (Neptune) at Moor Lane, Raynesway, Derby DE24 8BJ; (2) premises known as the Devonshire Dock Complex at Barrow-in-Furness, Cumbria, LA14 1AF; (3) premises known as the Nuclear Fuel Production Plant at Moor Lane, Raynesway, Derby, DE21 7XX; (4) premises known as Devonport Royal Dockyards at Devonport, Plymouth PL1 4SG; (5) premises known as the Atomic Weapons Establishment Aldermaston at Aldermaston, Berkshire RG7 4PR; (6) premises known as the Atomic Weapons Establishment Burghfield at Burghfield, Berkshire RG30 3RP; and (7) premises known as Rosyth Royal Dockyard at Rosyth, Fife KY11 2YD: Atomic Energy Authority (Special Constables) Order 2002, SI 2002/1151, art 2.

4 Energy Act 2004 s 56(1).

5 For these purposes, 'trans-shipment site' means a place which a member of the Constabulary reasonably believes to be (1) a place where a consignment of nuclear material in transit is trans-shipped or stored; or (2) a place to which a consignment of nuclear material may be brought to be trans-shipped or stored while it is in transit; and nuclear material is 'in transit' for the purposes of *ibid* s 56 if it is being carried (or is being trans-shipped or stored incidentally to carriage) before its delivery at its final destination: s 56(7). For the meaning of 'nuclear material' see PARA 1528 note 3 ante.

6 Ibid s 56(2).

7 Ibid s 56(3).

8 For these purposes, 'detain', in relation to a person, includes transferring him to the custody of another or to a place where he may be held in custody: *ibid* s 56(7).

9 Ibid s 56(4).

10 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

11 Energy Act 2004 s 56(5).

12 For these purposes, 'United Kingdom waters' means waters within the seaward limits of the territorial sea: *ibid* s 56(7). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

13 Energy Act 2004 s 56(6).

14 See the Terrorism Act 2000 s 44(4BA) (added by the Energy Act 2004 s 57(1), (2)(a)); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 427.

15 *Ie* the Firearms Act 1968 s 54 (as amended) (application to Crown servants): see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(2) (2006 Reissue) PARA 634 note 1.

16 Ibid s 54(3AA) (added by the Energy Act 2004 s 69(1), Sch 14 para 3).

17 For the meaning of 'enactment' see PARA 750 note 9 ante.

18 Energy Act 2004 s 68(7).

19 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

20 See the Police Act 1996 s 89(1) (modified and applied for these purposes by the Energy Act 2004 s 68(1)); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(2) (2006 Reissue) PARA 735. As to the standard scale see PARA 613 note 11 ante.

21 *Ie* as from a day to be appointed under the Criminal Justice Act 2003 s 336(3). At the date at which this title states the law, no such day had been appointed.

22 See the Police Act 1996 s 89(2) (prospectively amended by the Criminal Justice Act 2003 s 280(2), (3), Sch 26 para 47, as from a day to be appointed (see note 21 *supra*); modified and applied for these purposes by the Energy Act 2004 s 68(1)). See further CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(2) (2006 Reissue) PARA 735.

23 See the Police Act 1996 s 90 (as amended) (applied for these purposes by the Energy Act 2004 s 68(2)); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 527.

24 See the Police Act 1996 s 91(2)(b) (substituted by the Energy Act 2004 s 68(3)); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 527.

25 As to the Secretary of State see PARA 601 note 1 ante.

26 For the meaning of 'subordinate legislation' see PARA 750 note 10 ante.

27 *Ie* the Energy Act 2004 Pt 1 Ch 3 (ss 51-71, Schs 10-13) (as amended): see PARA 1520 et seq ante, PARA 1533 et seq post.

28 Ibid s 69(2). Such orders are subject to the negative resolution procedure: s 69(3). As to the negative resolution procedure see PARA 602 note 2 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(C) Administration of the Constabulary/1533. Government, administration and conditions of service.

(C) ADMINISTRATION OF THE CONSTABULARY

1533. Government, administration and conditions of service.

Where:

- 4090 (1) the Civil Nuclear Police Authority ('the Police Authority')¹ makes provision about the government, administration or conditions of service of the Civil Nuclear Constabulary ('the Constabulary')² or its members; and
- 4091 (2) the provision relates to matters which are the subject of regulations about the government, administration and conditions of service of police forces under the specified provision of the Police Act 1996³,

the provision made by the Police Authority may differ from those regulations only so far as necessary to take account of differences relating to the structure and circumstances of the Constabulary⁴. Before making provision about the government, administration or conditions of service of the Constabulary or its members, the Police Authority must consult:

- 4092 (a) the chief constable of the Constabulary;
- 4093 (b) the Civil Nuclear Police Federation⁵; and
- 4094 (c) if the proposed provision relates to members of a rank-related association⁶, that association⁷.

1 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

2 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

3 Ie regulations under the Police Act 1996 s 50 (as amended): see POLICE vol 36(1) (2007 Reissue) PARA 228.

4 Energy Act 2004 s 58(1).

5 As to the Civil Nuclear Police Federation see PARA 1541 post.

6 For the meaning of 'rank-related association' see the Energy Act 2004 s 65(2); and PARA 1542 post (definition applied by s 71(1)).

7 Ibid s 58(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(C) Administration of the Constabulary/1534. Members of the Civil Nuclear Constabulary serving with other forces or with the Serious Organised Crime Agency.

1534. Members of the Civil Nuclear Constabulary serving with other forces or with the Serious Organised Crime Agency.

Where a member of the Civil Nuclear Constabulary ('the Constabulary')¹ serves:

- 4095 (1) with a relevant force² under arrangements made between the chief officer³ of that force and the chief constable of the Constabulary, the member of the Constabulary is to be under the direction and control of the chief officer of the relevant force and is to have the same powers and privileges as a member of that force⁴;
- 4096 (2) with the Serious Organised Crime Agency⁵ under arrangements made between the Serious Organised Crime Agency and the chief constable of the Constabulary, the member of the Constabulary is to be under the direction and control of the Serious Organised Crime Agency and to continue to be a constable⁶.

1 As to the Civil Nuclear Police Authority's statutory function of securing the maintenance of the Civil Nuclear Constabulary see PARA 1520 ante; and as to the appointment of members of the Constabulary see PARA 1531 ante.

2 For these purposes, 'relevant force' means (1) a police force for a police area in Great Britain; (2) the Police Service of Northern Ireland; (3) the British Transport Police Force; or (4) the Ministry of Defence Police: Energy Act 2004 s 59(3) (amended by the Serious Organised Crime and Police Act 2005 ss 59, 174(2), Sch 4 paras 197, 198, Sch 17 Pt 2).

3 For these purposes, 'chief officer' means (1) a chief officer of police of a police force for a police area in Great Britain; (2) the Chief Constable of the Police Service of Northern Ireland; (3) the chief constable of the British Transport Police Force; or (4) the chief constable of the Ministry of Defence Police: Energy Act 2004 s 59(3) (as amended: see note 2 supra).

4 Ibid s 59(1), (2).

5 As to the Serious Organised Crime Agency see POLICE vol 36(1) (2007 Reissue) PARA 430 et seq.

6 Energy Act 2004 s 59A(1), (2) (added by the Serious Organised Crime and Police Act 2005 s 59, Sch 4 paras 197, 199).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(C) Administration of the Constabulary/1535. Charges for services provided by the Civil Nuclear Constabulary.

1535. Charges for services provided by the Civil Nuclear Constabulary.

A person who:

- 4097 (1) is the owner or occupier of a site in respect of which services are provided by the Civil Nuclear Constabulary ('the Constabulary')¹;
- 4098 (2) is a person with an interest in, or with custody or control of, nuclear material² in respect of which services are so provided; or
- 4099 (3) is a person not falling within head (1) or head (2) above who is the recipient of services provided by the Constabulary³,

must pay to the Civil Nuclear Police Authority ('the Police Authority')⁴ such charges, if any, in respect of services provided by the Constabulary as are either agreed between that person and the Police Authority, or, in the absence of agreement, determined by the Secretary of State⁵.

The Secretary of State may pay to the Police Authority such sums as are either agreed between him and that authority, or, in the absence of agreement, determined by the Secretary of State, in respect of services provided by the Constabulary to such persons as he may determine⁶.

The services in respect of which charges or sums may be so imposed or paid include services which it is the duty of the Constabulary to provide and services which it is the duty of the person charged to have provided⁷.

1 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

2 For the meaning of 'nuclear material' see PARA 1528 note 3 ante.

3 A person described in heads (1)-(3) in the text is a person falling within the Energy Act 2004 s 60(2).

4 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

5 See the Energy Act 2004 s 60(1), (2). As to the Secretary of State see PARA 601 note 1 ante.

6 Ibid s 60(3).

7 Ibid s 60(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(D) Planning, Reports, Supervision and Inspection/1536. Objectives and plans.

(D) PLANNING, REPORTS, SUPERVISION AND INSPECTION

1536. Objectives and plans.

Before the beginning of each financial year¹, the Civil Nuclear Police Authority ('the Police Authority')² must determine objectives for policing by the Civil Nuclear Constabulary ('the Constabulary') during that year³. The objectives must:

- 4100 (1) incorporate every objective relating to policing imposed by directions given by the Secretary of State⁴ setting out objectives for the Police Authority for that financial year⁵; and
- 4101 (2) otherwise be consistent with the directions given by the Secretary of State to the Police Authority⁶ under the relevant statutory provisions⁷.

Before determining the objectives, the Police Authority must consult the chief constable of the Constabulary⁸.

Before the beginning of each financial year, the Police Authority must also issue a plan setting out the proposed arrangements for policing by the Constabulary during the year (the 'annual policing plan')⁹. The annual policing plan must include a statement of:

- 4102 (a) the objectives determined for the year under the provisions set out above;
- 4103 (b) the Police Authority's priorities for the year;
- 4104 (c) the performance targets set by the Police Authority for the year; and
- 4105 (d) the financial resources expected to be available and the proposed allocation of those resources¹⁰.

The annual policing plan for a financial year must be consistent with the three-year strategy plan most recently issued or proposed to be issued¹¹ for a period that includes that financial year¹². Before an annual policing plan for a financial year is issued, a draft of a plan for that year must have been prepared by the chief constable and submitted by him to the Police Authority for its consideration¹³; and before the Police Authority issues an annual policing plan which differs from the draft submitted by the chief constable, it must consult him¹⁴. The Police Authority must arrange for every annual policing plan to be published in such manner as appears to it to be appropriate and must send a copy of every annual policing plan to the Secretary of State¹⁵.

Before the beginning of each financial year, the Police Authority must issue a plan setting out the Police Authority's medium and long term strategies for policing by the Constabulary during the three year period¹⁶ beginning with that year (the 'three-year strategy plan')¹⁷. Before a three-year strategy plan for any period is issued, a draft of a plan for that period must have been prepared by the chief constable and submitted by him to the Police Authority for its consideration¹⁸; and before the Police Authority issues a three-year strategy plan which differs from the draft submitted by the chief constable, it must consult him¹⁹. The Police Authority must arrange for every three-year strategy plan to be published in such manner as appears to

it to be appropriate and must send a copy of every three-year strategy plan to the Secretary of State²⁰.

1 For the meaning of 'financial year' see PARA 763 note 17 ante.

2 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

3 Energy Act 2004 s 61, Sch 12 para 1(1). As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

In determining the objectives, the Police Authority must have regard to any strategic priorities determined for that year by the Secretary of State under the Police Act 1996 s 37A (as added) (strategic priorities for police authorities: see POLICE vol 36(1) (2007 Reissue) PARA 198): Energy Act 2004 Sch 12 para 1(3) (substituted by the Police and Justice Act 2006 s 52, Sch 14 para 59).

The first objectives that were required to be determined under the Energy Act 2004 Sch 12 para 1 (as amended), and the first plans or draft plans to be issued or prepared under Sch 12 paras 2, 3 (see the text and notes 9-20 infra), were required to be determined, issued or prepared as if the references in Sch 12 Pt 1 (paras 1-4) (as amended) to a financial year were references to such period (1) ending not more than two years after the commencement of Sch 12 Pt 1 (as amended) (ie 1 April 2005: see the Energy Act 2004 (Commencement No 5) Order 2005, SI 2005/877, art 2(1), Sch 1); and (2) ending with a 31 March, as might be notified to the Police Authority by the Secretary of State: Energy Act 2004 Sch 12 para 4.

4 As to the Secretary of State see PARA 601 note 1 ante.

5 The directions given under the Energy Act 2004 s 63(1), Sch 13 para 1: see PARA 1539 post.

6 The directions given under ibid Pt 1 Ch 3 (ss 51-71, Schs 10-13) (as amended): see PARA 1520 et seq ante, PARA 1537 et seq post.

7 Ibid Sch 12 para 1(2).

8 Ibid Sch 12 para 1(4).

9 Ibid Sch 12 para 2(1). As to the initial plan see Sch 12 para 4, cited in note 3 supra.

10 Ibid Sch 12 para 2(2).

13 Ibid Sch 12 para 2(4).

14 Ibid Sch 12 para 2(5).

15 Ibid Sch 12 para 2(6).

16 The reference in the text to a three year period is a reference to a period of three successive financial years: ibid Sch 12 para 3(5).

17 Ibid Sch 12 para 3(1). As to the initial plan see Sch 12 para 4, cited in note 3 supra.

18 Ibid Sch 12 para 3(2).

19 Ibid Sch 12 para 3(3).

20 Ibid Sch 12 para 3(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(D) Planning, Reports, Supervision and Inspection/1537. Reports by the chief constable of the Civil Nuclear Constabulary and by the Civil Nuclear Police Authority.

1537. Reports by the chief constable of the Civil Nuclear Constabulary and by the Civil Nuclear Police Authority.

The chief constable of the Civil Nuclear Constabulary ('the Constabulary')¹ must, as soon as possible after the end of each reporting year², submit to the Civil Nuclear Police Authority ('the Police Authority')³ a report on the policing carried out by the Constabulary during that year and must arrange for the report to be published in such manner as appears to him to be appropriate⁴.

Whenever he is required to do so by the Police Authority, the chief constable must submit to it a report on such matters connected with policing by the Constabulary, and in such form, as it may specify⁵. The Police Authority may either arrange for a report so submitted to it to be published in such manner as appears to it to be appropriate, or may require the chief constable to arrange for it to be published in that manner⁶. If, however, it appears to the chief constable that a report so required from him would contain:

- 4106 (1) information which, in the public interest, ought not to be disclosed; or
- 4107 (2) information which is not needed by the Police Authority for the carrying out of its functions,

he may request the Police Authority to refer its requirement for a report to the Secretary of State⁷. Where such a request is made, the requirement for the report has effect only to the extent that it is confirmed by the Secretary of State⁸.

As soon as possible after the end of each reporting year, the Police Authority must issue a report relating to the policing carried out by the Constabulary during that year (an 'annual report')⁹. The annual report must include an assessment of the extent to which, during that year, proposals have been implemented and things have been done in accordance with:

- 4108 (a) the three-year strategy plan¹⁰ most recently issued for a period in which that year ends; and
 - 4109 (b) the annual policing plan issued:
- 375
- 549. (i) in the case of the first annual report, for every financial year the whole or a part of which is included in the reporting year; and
 - 550. (ii) in any other case, for the financial year that coincides with the reporting year¹¹.
- 376

The Police Authority must send a copy of each annual report to the Secretary of State¹². Where the Secretary of State receives a copy of the Police Authority's annual report for any year, he must lay it before Parliament and must arrange for it to be published in such manner as appears to him to be appropriate¹³.

The Secretary of State may at any time require the Police Authority to submit to him a report on such matters connected with the carrying out of its functions, or policing by the Constabulary, as he may specify¹⁴; and he may at any time require the chief constable to submit to him a report on such matters connected with policing by the Constabulary as the Secretary of State may specify¹⁵. If the Secretary of State specifies a particular form for such a report, the report must be submitted in that form¹⁶. Where a report is submitted to the Secretary of State under these provisions, he may either arrange for it to be published in such manner as appears to him to be appropriate or require the person submitting the report to arrange for it to be published in that manner¹⁷.

1 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante; and as to the appointment of the chief constable see PARA 1529 ante.

2 For these purposes, 'reporting year', in relation to the Police Authority or the chief constable, means (1) the initial reporting year; or (2) a financial year after the end of the initial reporting year; and 'the initial reporting year' means (a) where the Police Authority is established at the beginning of a financial year, that financial year; and (b) in any other case, the period which begins with the day on which the Police Authority is established and ends (i) if no direction is given under head (ii) infra, with 31 March in the financial year current on that day; and (ii) if the Secretary of State so directs, with 31 March at the end of the following financial year: Energy Act 2004 s 61, Sch 12 para 9(1), (2). For the meaning of 'financial year' see PARA 763 note 17 ante. As to the Secretary of State see PARA 601 note 1 ante.

3 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

4 Energy Act 2004 Sch 12 para 5.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(D) Planning, Reports, Supervision and Inspection/1538. Inspection of the Civil Nuclear Constabulary.

1538. Inspection of the Civil Nuclear Constabulary.

Her Majesty's Inspectors of Constabulary¹ must inspect the Civil Nuclear Constabulary ('the Constabulary')² from time to time³ and must also inspect the Constabulary if requested to do so by the Secretary of State⁴ either:

- 4110 (1) generally; or
- 4111 (2) in respect of a particular matter⁵.

Following an inspection under these provisions, Her Majesty's Inspectors of Constabulary must report to the Secretary of State on the efficiency and effectiveness of the Constabulary either generally or, in the case of an inspection under head (2) above, in respect of the matter to which the inspection related⁶. Such a report must be in such form as the Secretary of State may direct⁷.

The Secretary of State must arrange for every report which he receives⁸ to be published in such manner as appears to him to be appropriate⁹; but he may exclude from such publication any part of a report if, in his opinion, the publication of that part would be against the interests of national security or might jeopardise the safety of any person¹⁰. The Secretary of State must send a copy of the published report to the Civil Nuclear Police Authority ('the Police Authority')¹¹ and to the chief constable of the Constabulary¹².

The Police Authority must pay to the Secretary of State such amounts as he may determine in respect of an inspection carried out under these provisions¹³; and the Secretary of State must pay sums so received by him into the Consolidated Fund¹⁴.

Where a report under the above provisions following an inspection states:

- 4112 (a) that the Constabulary is, whether generally or in a specified respect, not efficient or not effective; or
- 4113 (b) that the Constabulary is likely, unless remedial action is taken, to cease to be efficient or effective, whether generally or in a specified respect,

then the Secretary of State may give a direction requiring the Police Authority to take the particular steps specified in the direction for the purpose of remedying the matters stated in the report¹⁵. Before giving such a direction the Secretary of State must notify the Police Authority and the chief constable of his intention to give a direction and of his reasons for doing so and must give them an opportunity of making representations¹⁶. The Police Authority must comply with such a direction¹⁷.

1 As to Her Majesty's Inspectors of Constabulary see POLICE vol 36(1) (2007 Reissue) PARA 206.

2 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

3 Energy Act 2004 s 62(1); and see note 5 infra.

4 As to the Secretary of State see PARA 601 note 1 ante.

5 Energy Act 2004 s 62(1). Before carrying out an inspection under s 62 wholly or partly in Scotland, Her Majesty's Inspectors of Constabulary must consult the Scottish inspectors (1) in the case of any inspection by virtue of s 62(1) or (2)(a), about the scope and conduct in Scotland of the proposed inspection; and (2) in any other case, about its conduct in Scotland: s 62(3). For these purposes, 'the Scottish inspectors' means the inspectors of constabulary appointed under the Police (Scotland) Act 1967 s 33(1): Energy Act 2004 s 62(11).

16 Ibid Sch 13 para 4(4).

17 Ibid s 63(1).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(D) Planning, Reports, Supervision and Inspection/1539. Supervision by the Secretary of State.

1539. Supervision by the Secretary of State.

The Secretary of State¹ may give directions to the Civil Nuclear Police Authority ('the Police Authority')² setting out objectives for that authority for a financial year³. The objectives may include:

- 4114 (1) objectives to be met generally in the carrying out by the Police Authority of its functions;
- 4115 (2) objectives to be met in the carrying out by the Police Authority of particular functions, or in its carrying out of functions, or particular functions, at particular times or places;
- 4116 (3) objectives to be met, whether generally or in relation to particular matters, in the management of the Civil Nuclear Constabulary ('the Constabulary')⁴;
- 4117 (4) objectives to be met in securing proper accountability by the Police Authority for its own activities and for those of the Constabulary⁵.

Before giving such a direction, the Secretary of State must consult the Police Authority and the chief constable of the Constabulary⁶.

The Secretary of State may also give directions to the Police Authority requiring it to secure:

- 4118 (a) that such tasks are performed by members of the Constabulary as are set out in the direction, or as are determined under it;
- 4119 (b) that the tasks so set out or determined are performed in the manner so set out or determined;
- 4120 (c) that the financial and other resources available to the Police Authority are allocated and used in such manner as is so set out or determined;
- 4121 (d) that the practices and procedures relating to security that are so set out or determined are adopted and followed⁷ by members of the Police Authority;
- 4122 (e) that the practices and procedures (relating to security or any other matter) that are so set out or determined are adopted and followed by and in relation to members of the Constabulary and other employees of the Police Authority, and in relation to their appointment as such;
- 4123 (f) that the practices and procedures (relating to security or any other matter) that are so set out or determined are adopted and followed in relation to agreements between the Police Authority and other persons;
- 4124 (g) that the criteria so set out or determined are applied in assessing the performance of members of the Constabulary and of other employees of the Police Authority, and in determining their operational, training and equipment needs; and
- 4125 (h) that such officers of the Secretary of State's department as are so set out or determined are given an entitlement, for the purpose of enabling them to monitor or inspect the activities of the Police Authority and of its employees, to have access to or make use of premises occupied by or under the control of the Police Authority, apparatus maintained for use by members or employees of the

Police Authority and documents⁸ and records in the custody or under the control of the Police Authority or of the chief constable⁹.

The Secretary of State may also give the Police Authority such other general or specific directions as he considers appropriate for securing the efficient and effective operation of the Constabulary¹⁰. Before giving a direction under these provisions, the Secretary of State must consult the Police Authority and the chief constable¹¹.

The Secretary of State may give directions to the Police Authority as to the government, administration and conditions of service of the Constabulary and its members¹². Before giving such a direction, the Secretary of State must consult:

- 4126 (i) the Police Authority;
- 4127 (ii) the chief constable;
- 4128 (iii) the Civil Nuclear Police Federation¹³; and
- 4129 (iv) if the direction affects members of a rank-related association¹⁴, that association¹⁵.

The Police Authority must comply with directions so given¹⁶. Where the Secretary of State considers that the Police Authority is failing to meet an objective set out by him under the above provisions, or to comply with a direction given under them, he may give a direction requiring the Police Authority to take the particular steps specified in the direction for the purpose of remedying the failure to meet the objective or to comply with the direction¹⁷. Before giving such a direction, the Secretary of State must notify the Police Authority and the chief constable of his intention to give a direction and of his reasons for doing so and give them an opportunity of making representations¹⁸. The Police Authority must comply with the direction¹⁹.

The Secretary of State must exercise his powers under the relevant statutory provisions²⁰ in such manner, and to such extent, as appears to him best calculated to promote the efficiency and effectiveness of the Constabulary²¹.

The Police Authority must pay to the Secretary of State such amounts as he may determine in respect of things done by him for or in relation to the authority or its employees in connection with matters relating to security²²; and the Secretary of State must pay sums so received by him into the Consolidated Fund²³.

UPDATE

1539 Supervision by the Secretary of State

TEXT AND NOTE 9--Energy Act 2004 Sch 13 para 2(1) amended: Energy Act 2008 Sch 5 para 21.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(E) Rights etc of Members of the Constabulary/1540. Trade union membership.

(E) RIGHTS ETC OF MEMBERS OF THE CONSTABULARY

1540. Trade union membership.

A member of the Civil Nuclear Constabulary ('the Constabulary')¹ must not be a member of a trade union² or of an association whose objects are or include controlling or influencing the pay, pensions or conditions of service of members of the Constabulary³. This does not, however, prevent a member of the Constabulary:

- 4130 (1) from being a member of the Civil Nuclear Police Federation⁴;
- 4131 (2) from being a member of a rank-related association⁵; or
- 4132 (3) with the consent of the chief constable of the Constabulary, from continuing to be a member of a trade union to which he belonged before becoming a member of the Constabulary⁶.

1 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

2 For these purposes, 'trade union' has the meaning given by the Trade Union and Labour Relations (Consolidation) Act 1992 s 1 (see EMPLOYMENT vol 40 (2009) PARA 846); Energy Act 2004 s 67(3).

3 Ibid s 67(1).

4 As to the Civil Nuclear Police Federation see PARA 1541 post.

5 For the meaning of 'rank-related association' see the Energy Act 2004 s 65(2); and PARA 1542 post (definition applied by s 37(1)).

6 Ibid s 67(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(E) Rights etc of Members of the Constabulary/1541. Civil Nuclear Police Federation.

1541. Civil Nuclear Police Federation.

The Secretary of State¹ may approve a body, whether corporate or unincorporate, to be known as the Civil Nuclear Police Federation², to carry out the function of representing members of the Civil Nuclear Constabulary ('the Constabulary')³, other than senior officers⁴, in all matters affecting their welfare and efficiency⁵. Those matters do not, however, include:

- 4133 (1) the promotion in rank of particular individuals; or
- 4134 (2) except to the extent provided as set out below⁶, discipline matters affecting particular individuals⁷.

The Civil Nuclear Police Federation may represent a member of the Constabulary, other than a senior officer:

- 4135 (a) at disciplinary proceedings conducted in accordance with arrangements made by the Civil Nuclear Police Authority⁸; or
- 4136 (b) on an appeal under any such arrangements from a decision in such proceedings⁹;

but such representation must comply with any restrictions imposed¹⁰ by the relevant statutory provision¹¹.

Except so far as otherwise authorised by the Secretary of State¹², the Civil Nuclear Police Federation must be entirely independent of, and unassociated with, bodies and other persons who are without appropriate police connections¹³; but it may employ in an administrative or advisory capacity persons who are without appropriate police connections¹⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Energy Act 2004 s 64(1), (2).

3 As to the Civil Nuclear Police Authority's statutory function of securing the maintenance of the Civil Nuclear Constabulary see PARA 1520 ante.

4 For the meaning of 'senior officer' see PARA 1529 note 9 ante.

5 Energy Act 2004 s 64(1), (3).

6 Ie except as provided in ibid s 64(5): see the text and notes 8-9 infra.

7 Ibid s 64(4).

8 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

9 Energy Act 2004 s 64(5).

10 Ie imposed by ibid s 66: see PARA 1543 post.

11 Ibid s 64(6).

12 An authorisation for these purposes may be given either conditionally or unconditionally and may be varied or revoked at any time: *ibid* s 64(9).

13 *Ibid* s 64(7). Only the following have appropriate police connections for these purposes: (1) persons within the service of the Constabulary, of the Ministry of Defence Police, of the British Transport Police Force, of a police force for a police area in Great Britain or of the Police Service of Northern Ireland; (2) persons not falling within head (1) *supra* who are members of or employed by the Police Authority; (3) a federation referred to in the Police Act 1996 s 59 (as amended) (see *POLICE* vol 36(1) (2007 Reissue) PARA 423), the Ministry of Defence Police Act 1987 s 3 (see *POLICE* vol 36(1) (2007 Reissue) PARA 123) or the Railways and Transport Safety Act 2003 s 39 (see *RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES* vol 39(1A) (Reissue) PARA 283) (police federations); (4) the Police Association for Northern Ireland; (5) a rank-related association; (6) a body recognised under, and for the purposes specified in, the Police Act 1996 s 64(5) (see *POLICE* vol 36(1) (2007 Reissue) PARA 426) or the corresponding Northern Ireland legislation (recognition of other bodies for trade union purposes): Energy Act 2004 s 64(10).

14 *Ibid* s 64(8).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(E) Rights etc of Members of the Constabulary/1542. Rank-related associations.

1542. Rank-related associations.

The Secretary of State¹ may approve one or more bodies, whether corporate or unincorporate, to be known as a rank-related association², to carry out the function of representing, in all matters affecting their welfare and efficiency, members of the Civil Nuclear Constabulary ('the Constabulary')³ who are not members of the Civil Nuclear Police Federation⁴ or of another rank-related association and who hold such ranks as may be specified in the approval given for these purposes by the Secretary of State⁵. Those matters do not, however, include:

- 4137 (1) the promotion in rank of particular individuals; or
- 4138 (2) except to the extent provided as set out below⁶, discipline matters affecting particular individuals⁷.

A rank-related association may represent a member of the association:

- 4139 (a) at disciplinary proceedings conducted in accordance with arrangements made by the Civil Nuclear Police Authority⁸; or
- 4140 (b) on an appeal under any such arrangements from a decision in such proceedings⁹;

but such representation must comply with any restrictions imposed¹⁰ by the relevant statutory provisions¹¹.

Except so far as otherwise authorised by the Secretary of State¹², a rank-related association must be entirely independent of, and unassociated with, bodies and other persons who are without appropriate police connections¹³; but it may employ in an administrative or advisory capacity persons who are without appropriate police connections¹⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Energy Act 2004 s 65(1), (2).

3 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante.

4 As to the Civil Nuclear Police Federation see PARA 1541 ante.

5 Energy Act 2004 s 65(1), (3).

6 Ie except to the extent provided by ibid s 65(5): see the text and notes 8-9 infra.

7 Ibid s 65(4).

8 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

9 Energy Act 2004 s 65(5).

10 Ie imposed by ibid s 66: see PARA 1543 post.

11 Ibid s 65(6).

12 An authorisation for these purposes may be given either conditionally or unconditionally and may be varied or revoked at any time: *ibid* s 65(9).

13 Ibid s 65(7). In relation to a rank-related association, only the following have appropriate police connections for these purposes: (1) persons within the service of the Constabulary, of the Ministry of Defence Police, of the British Transport Police Force, of a police force for a police area in Great Britain or of the Police Service of Northern Ireland; (2) persons not falling within head (1) *supra* who are members of or employed by the Police Authority; (3) the Civil Nuclear Police Federation; (4) another rank-related association; (5) a federation referred to in the Police Act 1996 s 59 (as amended) (see *POLICE* vol 36(1) (2007 Reissue) PARA 423), the Ministry of Defence Police Act 1987 s 3 (see *POLICE* vol 36(1) (2007 Reissue) PARA 123) or the Railways and Transport Safety Act 2003 s 39 (see *RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES* vol 39(1A) (Reissue) PARA 283) (police federations); (6) the Police Association for Northern Ireland; (7) a body recognised under, and for the purposes specified in, the Police Act 1996 s 64(5) (see *POLICE* vol 36(1) (2007 Reissue) PARA 426) or the corresponding Northern Ireland legislation (recognition of other bodies for trade union purposes): Energy Act 2004 s 65(10).

14 Ibid s 65(8).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(i) The Civil Nuclear Police Authority and Constabulary/B. THE CIVIL NUCLEAR CONSTABULARY/(E) Rights etc of Members of the Constabulary/1543. Representation at certain disciplinary proceedings.

1543. Representation at certain disciplinary proceedings.

Where disciplinary proceedings conducted in accordance with arrangements made by the Civil Nuclear Police Authority¹ may lead to a member of the Civil Nuclear Constabulary ('the Constabulary')² who is not a senior officer³ being dismissed, required to resign or reduced in rank, the member of the Constabulary must be given an opportunity to elect to be legally represented in those proceedings and on any appeal under the arrangements⁴. If he so elects, he may be represented, at his option, by counsel or by a solicitor⁵.

If he is not legally represented, the member of the Constabulary may be represented in the proceedings or on an appeal only by a person who is:

- 4141 (1) a member of the Constabulary;
- 4142 (2) a member of a police force maintained under the Police Act 1996⁶;
- 4143 (3) a constable of a police force maintained under the Police (Scotland) Act 1967;
- 4144 (4) a constable of the British Transport Police Force⁷; or
- 4145 (5) a member of the Ministry of Defence Police⁸.

1 As to the establishment of the Civil Nuclear Police Authority see PARA 1520 ante.

2 As to the Civil Nuclear Police Authority's statutory function of maintaining the Civil Nuclear Constabulary see PARA 1520 ante; and as to the appointment of members of the Constabulary see PARA 1531 ante.

3 For the meaning of 'senior officer' see PARA 1529 note 9 ante.

7 As to the British Transport Police Force see RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARAS 281 et seq.

8 Energy Act 2004 s 66(4). As to the Ministry of Defence Police Force see POLICE vol 36(1) (2007 Reissue) PARA 120 et seq.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/A. IN GENERAL/1544. Power to make regulations.

(ii) Regulation of Security of the Civil Nuclear Industry

A. IN GENERAL

1544. Power to make regulations.

The Secretary of State¹ may make regulations² for the purpose of ensuring the security of:

- 4146 (1) nuclear sites³ and other nuclear premises⁴;
- 4147 (2) nuclear material used or stored on nuclear sites or other nuclear premises and equipment⁵ or software used or stored on such sites or premises in connection with activities involving nuclear material;
- 4148 (3) other radioactive material used or stored on nuclear sites and equipment or software used or stored on nuclear sites in connection with activities involving other radioactive material;
- 4149 (4) equipment or software in the United Kingdom⁶ which:
 - 377 551. (a) is capable of being used in, or in connection with, the enrichment of uranium⁷; and
 - 552. (b) is in the possession or control of a person involved in uranium enrichment activities⁸;
- 378 4150 (5) sensitive nuclear information⁹ which is in the possession or control in the United Kingdom of:
 - 379 553. (a) a person who is involved in activities on or in relation to a nuclear site or nuclear premises or who is proposing or likely to become so involved;
 - 554. (b) a person involved in uranium enrichment activities; or
 - 555. (c) a person who is storing, transporting or transmitting the information for or on behalf of a person falling within head (a) or head (b) above;
- 380 4151 (6) nuclear material which is being, or is expected to be:
 - 381 556. (a) transported within the United Kingdom or its territorial sea¹⁰;
 - 557. (b) transported, outside the United Kingdom and its territorial sea, to or from any nuclear site or other nuclear premises in the United Kingdom; or
 - 558. (c) carried on board a United Kingdom ship¹¹;
- 382 4152 (7) information relating to the security of anything mentioned in heads (1) to (6) above¹².

The regulations may, in particular:

- 4153 (i) require a person to produce for the approval of the Secretary of State a plan for ensuring the security of anything mentioned in heads (1) to (7) above and to comply with the plan as approved by the Secretary of State¹³;
- 4154 (ii) require compliance with any directions given by the Secretary of State¹⁴;
- 4155 (iii) impose requirements in relation to any activities by reference to the approval of the Secretary of State¹⁵;
- 4156 (iv) create summary offences or offences triable either way¹⁶;
- 4157 (v) make provision for the purposes mentioned in heads (1) to (7) above corresponding to any provision which may be made for the general purposes of Part I of the Health and Safety at Work etc Act 1974¹⁷ by virtue of the provisions of that Act¹⁸ relating to health and safety regulations¹⁹;
- 4158 (vi) make provision corresponding to any provision which may be made by virtue of the provisions of that Act relating to fees²⁰ in connection with the performance by or on behalf of the Secretary of State or any other specified body or person of functions under the regulations²¹; and
- 4159 (vii) apply, with or without modifications, or make provision corresponding to, any provision contained in the specified provisions²² of that Act²³.

An offence under the regulations may be made punishable:

- 4160 (A) in the case of an offence triable either way, on conviction on indictment, with imprisonment for a term not exceeding two years or a fine (or both), and on summary conviction, with imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum (or both); or
- 4161 (B) in the case of a summary offence, with imprisonment for a term not exceeding six months or a fine not exceeding level 5 on the standard scale (or both)²⁴.

The regulations may make provision applying to acts done outside the United Kingdom by United Kingdom persons²⁵. They may also make different provision for different purposes²⁶ and such incidental, supplementary and transitional provision as the Secretary of State considers appropriate²⁷.

Before making the regulations the Secretary of State must consult the Health and Safety Commission²⁸ and such other persons as he considers appropriate²⁹.

In the exercise of these powers, the Secretary of State has made the Nuclear Industries Security Regulations 2003³⁰, which are discussed below³¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The power to make such regulations is exercisable by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament: Anti-terrorism, Crime and Security Act 2001 s 77(6).

3 For these purposes, 'nuclear site' means a licensed nuclear site within the meaning of the Energy Act 2004 Pt 1 Ch 3 (ss 50-71, Schs 10-13) (as amended): Anti-terrorism, Crime and Security Act 2001 s 77(7) (definition substituted by the Energy Act 2004 s 69(1), Sch 14 para 10(1)). For the meaning of 'licensed nuclear site' for those purposes see PARA 1528 note 2 ante.

4 For these purposes, 'other nuclear premises' means premises other than a nuclear site on which nuclear material is used or stored: Anti-terrorism, Crime and Security Act 2001 s 77(7). For the meaning of 'nuclear material' see PARA 1528 note 3 ante (definition applied by s 77(7) (amended for this purpose by the Energy Act 2004 s 69(1), Sch 14 para 10(1)).

5 For these purposes, 'equipment' includes equipment that has not been assembled and its components: Anti-terrorism, Crime and Security Act 2001 s 77(7) (definition added by the Energy Act 2004 s 77(1), (5)(a)).

6 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

7 For these purposes, 'enrichment of uranium' means a treatment of uranium that increases the proportion of isotope 235 contained in the uranium: Anti-terrorism, Crime and Security Act 2001 s 77(7) (definition added by the Energy Act 2004 s 77(1), (5)(a)).

8 References for these purposes to a person involved in uranium enrichment activities are references to a person who is or is proposing to become involved in any of the following activities (whether in the United Kingdom or elsewhere): (1) the enrichment of uranium; (2) activities carried on with a view to, or in connection with, the enrichment of uranium; (3) the production, storage, transport or transmission of equipment or software for or on behalf of persons involved in uranium enrichment activities; or (4) activities that make it reasonable to assume that he will become involved in something mentioned in heads (1)-(3) supra: Anti-terrorism, Crime and Security Act 2001 s 77(6A) (added by the Energy Act 2004 s 77(1), (4)).

9 For these purposes, 'sensitive nuclear information' means (1) information relating to, or capable of use in connection with, the enrichment of uranium; or (2) information relating to activities carried out on or in relation to nuclear sites or other nuclear premises which appears to the Secretary of State to be information which needs to be protected in the interests of national security: Anti-terrorism, Crime and Security Act 2001 s 77(7) (definition amended by the Energy Act 2004 s 77(1), (5)(b)). For the purposes of head (2) of this definition; and in the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended) (see PARA 1545 et seq post), information which appears to the Secretary of State to be information which needs protecting in the interests of national security includes information which requires a protective marking in accordance with the classification policy: reg 2(4) (added by SI 2006/2815). 'Classification policy' means the classification policy 'Information concerning the Use, Storage and Transport of Nuclear and other Radioactive Material' issued by the Secretary of State from time to time: Nuclear Industries Security Regulations 2003, SI 2003/403, reg 2(1) (definition added by SI 2006/2815).

10 As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

11 For these purposes, 'United Kingdom ship' means a ship registered in the United Kingdom under the Merchant Shipping Act 1995 Pt II (ss 8-23): see SHIPPING AND MARITIME LAW.

12 Anti-terrorism, Crime and Security Act 2001 s 77(1) (amended by the Energy Act 2004 s 77(1)-(3)).

13 Anti-terrorism, Crime and Security Act 2001 s 77(2)(a).

14 Ibid s 77(2)(b). See the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 11; and PARA 1551 post.

15 Anti-terrorism, Crime and Security Act 2001 s 77(2)(c).

16 Ibid s 77(2)(d).

17 I.e the Health and Safety at Work etc Act 1974 Pt I (ss 1-54) (as amended): see HEALTH AND SAFETY AT WORK.

18 I.e by virtue of ibid s 15(2), (3)(c), (4)-(8) (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 424-425.

19 Anti-terrorism, Crime and Security Act 2001 s 77(2)(e).

20 I.e by virtue of the Health and Safety at Work etc Act 1974 ss 43(2)-(5), (8), (9) (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 354.

21 Anti-terrorism, Crime and Security Act 2001 s 77(2)(f). Any sums received by virtue of provision made under s 77(2)(f) must be paid into the Consolidated Fund: s 77(8). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq; PARLIAMENT vol 78 (2010) PARAS 1028-1031. In the exercise of the power under the Anti-terrorism, Crime and Security Act 2001 s 77(2)(f) the Secretary of State has made the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, which came into force on 5 September 2005: reg 1(2). See further PARA 1561 post.

22 I.e contained in the Health and Safety at Work etc Act 1974 ss 19-42 (as amended) (enforcement, information and offences) and ss 44-47 (appeals, default powers, service of notices and civil liability): see HEALTH AND SAFETY AT WORK.

23 Anti-terrorism, Crime and Security Act 2001 s 77(2)(g).

24 Ibid s 77(3). As to the standard scale see PARA 613 note 11 ante.

- 25 Ibid s 77(4)(a).
- 26 Ibid s 77(4)(b).
- 27 Ibid s 77(4)(c).
- 28 As to the Health and Safety Commission see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.
- 29 Anti-terrorism, Crime and Security Act 2001 s 77(5).
- 30 Ie the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended): see PARA 1545 et seq post.
- 31 See PARA 1545 et seq post.

UPDATE

1544 Power to make regulations

NOTES-- Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733. Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

NOTE 29--2001 Act s 77(5) amended: SI 2008/960.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1545. Requirement for approved security plan for nuclear premises.

B. SECURITY OF NUCLEAR PREMISES

1545. Requirement for approved security plan for nuclear premises.

There must be an approved security plan¹ for each nuclear premises², whether or not the premises form part of other premises to which this requirement and the requirements of heads (1) to (5) and (i) to (iv) below apply³. A security plan must describe in writing the standards, procedures and arrangements adopted or to be adopted by the responsible person⁴ to ensure the security of:

- 4162 (1) the nuclear premises in relation to which he is the responsible person;
 - 4163 (2) any Category I/II nuclear material⁵ and Category III nuclear material⁶ used or stored on the premises;
 - 4164 (3) any equipment or software used or stored on the premises in connection with activities involving nuclear material;
 - 4165 (4) any sensitive nuclear information⁷ kept on the premises; and
 - 4166 (5) in the case of nuclear premises which are or form part of a nuclear site:
- 383
- 559. (a) any nuclear material, so far as not already mentioned in head (2) above, and other radioactive material used or stored on the premises; and
 - 560. (b) any equipment or software used or stored on the premises in connection with activities involving other radioactive material⁸.
- 384

In particular, but without prejudice to the generality of heads (1) to (5) above, the plan must describe the standards, procedures and arrangements relating to:

- 4167 (i) the investigation and assessment by the Secretary of State⁹ of the suitability of relevant personnel¹⁰ of the responsible person with a view to ensuring the security of the premises and the material, equipment and information mentioned in those heads;
- 4168 (ii) the receipt and dispatch of any Category I/II nuclear material and Category III nuclear material to be transported to or from the nuclear premises;
- 4169 (iii) the manner in which the nuclear premises are to be policed and guarded, including the identity of the person providing any constables or persons acting as guards, the total number of constables and such persons attached to the premises and the number of such constables or other persons who will normally be present there; and
- 4170 (iv) the steps to be taken by the responsible person or any person acting on his behalf if any event of a specified kind¹¹ that requires immediate action occurs, and the regular practice of the activities required in connection with those steps¹².

The responsible person in relation to each nuclear premises must submit a security plan for the premises to the Secretary of State for approval¹³ and the Secretary of State may approve the plan as submitted or with such amendments as he may require¹⁴. In the case of premises which

were nuclear premises on the commencement date¹⁵, the security plan was to be submitted by 22 June 2003¹⁶. Failure to comply with these requirements is an offence¹⁷.

1 'Approved security plan' means a security plan which has been approved by the Secretary of State under the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 5 (see the text and notes 13-16 *infra*) or reg 6 (see PARA 1546 *post*), as amended by any amendments approved under reg 6, and which has not been revoked (but see reg 8 (temporary security plans); and PARA 1548 *post*): reg 2(1). 'Security plan' must be construed in accordance with reg 4(2), (3) (as amended) (see the text and notes 4-12 *infra*): reg 2(1).

2 'Nuclear premises' means (1) a nuclear site on which nuclear material or other radioactive material is used or stored; (2) premises that form part of a nuclear site and are premises on which a person, who is not the holder of the nuclear site licence and is not acting as an officer, employee or contractor of that holder, uses or stores nuclear material or other radioactive material; or (3) other nuclear premises on which Category I/II nuclear material (see note 5 *infra*) or Category III nuclear material (see note 6 *infra*) is used or stored, but excluding premises that are used solely for the purpose of the temporary storage of such material during the course of or incidental to its transport in any case where the standards, procedures and arrangements in respect of the security of the transport are contained in an approved transport security statement: *ibid* reg 2(1). 'Nuclear site' has the meaning given in the Anti-Terrorism, Crime and Security Act 2001 s 76(7) (repealed) and 'nuclear material' has the meaning given in s 76(7) (repealed) (as extended under the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 3: see PARA 1528 note 3 *ante*): reg 2(1). See now the Energy Act 2004 s 71(1); and PARA 1528 notes 2-3 *ante*. For the meaning of 'nuclear site licence' see PARA 1487 note 1 *ante* (definition applied by the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 2(1)).

The 2003 Regulations do not apply to any nuclear premises controlled or operated wholly or mainly for the purposes of the department of the Secretary of State with responsibility for defence, or to any transport of nuclear material for the purposes of the department of the Secretary of State with responsibility for defence: reg 26. For the meaning of 'transport' see PARA 1552 note 1 *post*.

Notwithstanding anything in regs 27, 28(2) (see PARA 1552 note 1 *post*), nothing in the 2003 Regulations applies to acts done outside the United Kingdom by a person other than a United Kingdom person: regs 27(13), 28(3) (c).

3 *Ibid* reg 4(1). In the case of premises which were nuclear premises on the commencement date, reg 4(1) did not apply until (1) if a security plan had been submitted by 22 June 2003 to the Secretary of State for approval under reg 5, the date on which the Secretary of State approved a security plan for the premises; or (2) if it had not, 22 June 2003: reg 4(4). 'Commencement date' means 22 March 2003: reg 2(1).

Where, immediately before the commencement date, an operator of nuclear premises which is a generating station or a laboratory was under any obligation under the Nuclear Generating Stations (Security) Regulations 1996, SI 1996/665 (revoked) by virtue of any existing approved security plan, the operator was to continue to comply with that obligation as if it were an obligation under the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended) until there was an approved security plan for those premises: see reg 12.

4 For these purposes, 'responsible person', in relation to any nuclear premises, means (1) in the case of a nuclear site falling within PARA (a) of the definition of 'nuclear premises' (see note 2 *head* (1) *supra*), the holder of the nuclear site licence; (2) in the case of premises falling within PARA (b) of that definition (see note 2 *head* (2) *supra*), the person mentioned in that *head*; and (3) in the case of premises falling within PARA (c) of that definition (see note 2 *head* (3) *supra*), the person who uses or stores the Category I/II nuclear material or Category III nuclear material on those premises; but this is subject to *ibid* reg 2(3): reg 2(1), (2). No person is the responsible person in relation to any nuclear premises falling within PARA (b) or (c) of the definition of 'nuclear premises' by virtue of using or storing nuclear material or other radioactive material on behalf of another person if he is that other person's officer, employee or contractor: reg 2(3).

5 For these purposes, nuclear material is 'Category I/II nuclear material' if and only if it is: (1) a kind of nuclear material specified in *ibid* Schedule, Table col 1 in relation to which there is an entry in Schedule, Table col 2 specifying a quantity (including 'any quantity') for material of that kind; and (2) of such a quantity as is specified in Schedule, Table col 2 for material of that kind: regs 2(1), 3(3). In determining the quantity of material of any kind for the purposes of reg (3)(b), (4)(b) (see *head* (2) *supra*; and note 6 *head* (2) *infra*): (a) in the case of material used or stored on nuclear premises, the quantities of all material of the kind in question that is being used or stored on the nuclear premises in question are to be aggregated; and (b) in the case of material being transported by road, train or ship, the quantities of all material of the kind in question that is being transported in the road convoy, on the train or on the ship, as the case may be, are to be aggregated: reg 3(5). The specified materials and quantities are as follows (Schedule, Table cols 1, 2), ie in the case of:

103 (1) plutonium (other than plutonium with an isotopic concentration exceeding 80% in plutonium-238) which is not irradiated, the specified quantity is more than 500 g;

104 (2) uranium-233 which is not irradiated, the specified quantity is more than 500 g;

- 105 (3) previously separated neptunium-237 which is not irradiated, the specified quantity is more than 1 kg;
- 106 (4) previously separated americium-241, previously separated americium-242m or previously separated americium-243, which are not irradiated, the specified quantity is more than 1 kg;
- 107 (5) uranium-235 in enriched uranium containing 20% or more of uranium-235, which is not irradiated, the specified quantity is more than 1 kg;
- 108 (6) uranium-235 in enriched uranium containing 10% or more, but less than 20%, of uranium-235, which is not irradiated, the specified quantity is 10 kg; and
- 109 (7) irradiated reactor fuel being transported outside the United Kingdom, other than such fuel which, prior to being irradiated, was uranium enriched so as to contain 10% or more, but less than 20%, of uranium-235, the specified quantity is any quantity.

'Enriched uranium' means uranium enriched so as to contain more than 0.711% of uranium-235; and 'irradiated' and 'previously separated' have the meanings given in reg 3(2) (see PARA 1528 note 3 ante): Schedule.

6 For these purposes, nuclear material is 'Category III nuclear material' if and only if it is (1) a kind of nuclear material specified in *ibid* Schedule, Table col 1 in relation to which there is an entry in Schedule, Table col 3 specifying a quantity (including 'any quantity') for material of that kind; and (2) of such a quantity as is specified in Schedule, Table col 3 for material of that kind: regs 2(1), 3(4). As to determining the quantity of material of any kind for the purposes of head (2) *supra* see reg 3(5), cited in note 5 *supra*. The specified materials and quantities are as follows (Schedule, Table cols 1, 3), ie in the case of:

- 110 (1) plutonium (other than plutonium with an isotopic concentration exceeding 80% in plutonium-238) which is not irradiated, the specified quantity is 500 g or less, but more than 15 g;
- 111 (2) uranium-233 which is not irradiated, the specified quantity is 500 g or less, but more than 15 g;
- 112 (3) previously separated neptunium-237 which is not irradiated, the specified quantity is 1 kg or less, but more than 15 g;
- 113 (4) previously separated americium-241, previously separated americium-242m or previously separated americium-243, which are not irradiated, the specified quantity is 1 kg or less, but more than 15 g;
- 114 (5) uranium-235 in enriched uranium containing 20% or more of uranium-235, which is not irradiated, the specified quantity is 1 kg or less, but more than 15 g;
- 115 (6) uranium-235 in enriched uranium containing 10% or more, but less than 20%, of uranium-235, which is not irradiated, the specified quantity is less than 10 kg but more than 1 kg;
- 116 (7) uranium-235 in enriched uranium containing less than 10% but more than 0.711% of uranium-235, which is not irradiated, the specified quantity is 10 kg or more;
- 117 (8) irradiated reactor fuel being used, stored or transported within the United Kingdom, the specified quantity is any quantity;
- 118 (9) irradiated reactor fuel being transported outside the United Kingdom which, prior to being irradiated, was uranium enriched so as to contain 10% or more, but less than 20%, of uranium-235, the specified quantity is any quantity;
- 119 (10) other irradiated nuclear material, the specified quantity is any quantity.

7 For the meaning of 'sensitive nuclear information' see PARA 1544 note 9 ante (definition applied by *ibid* reg 2(1)).

8 *Ibid* reg 4(2) (amended by SI 2006/2815).

9 As to the Secretary of State see PARA 601 note 1 ante.

10 'Relevant personnel', in relation to a person ('the principal') who is the responsible person in relation to any nuclear premises, a carrier or a person to whom the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22 (as substituted) applies (see PARAS 1558-1559 post), means (1) each of the principal's officers,

employees, contractors and consultants; and (2) each officer, employee, contractor or consultant of the principal's contractors and consultants: reg 2(1).

11 le specified in ibid reg 10(5)(a), (b), (e) or (h): see PARA 1550 post.

12 Ibid reg 4(3).

13 Ibid reg 5(1).

14 Ibid reg 5(2). The responsible person who has submitted the security plan must pay a fee to the Secretary of State for assessing and approving the plan: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

15 For the meaning of 'commencement date' see note 3 supra.

16 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 5(3).

17 See ibid reg 25; and PARA 1560 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1546. Replacement, amendment and revocation of approved security plans.

1546. Replacement, amendment and revocation of approved security plans.

The responsible person¹ in relation to each nuclear premises² may at any time submit to the Secretary of State³ for approval:

- 4171 (1) a fresh security plan⁴ for the premises, or
- 4172 (2) proposals for amending the approved security plan⁵ for the premises⁶.

The Secretary of State may approve the plan or proposals as submitted or with such amendments as he may require⁷ and may, on approving a fresh security plan for the premises, revoke the approval of the former plan for the premises⁸.

1 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

2 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'security plan' see PARA 1545 note 1 ante.

5 For the meaning of 'approved security plan' see PARA 1545 note 1 ante.

6 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 6(1).

7 Ibid reg 6(2). The responsible person who has submitted the proposal for amendment must pay a fee to the Secretary of State for assessing and approving the proposal: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

8 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 6(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1547. Maintenance of security.

1547. Maintenance of security.

The responsible person¹ in relation to each nuclear premises² must comply with the standards, procedures and arrangements described in the approved security plan³ for the premises⁴. He is not, however, to be regarded as having failed to comply with any of those standards, procedures or arrangements by reason of any matter if the Secretary of State⁵ has notified the responsible person in writing that that matter, or a matter of its description, is in his opinion unlikely to be prejudicial to the security of the premises and the specified⁶ material, equipment and information⁷.

Failure to comply with these provisions is an offence⁸.

1 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

2 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.

3 For the meaning of 'approved security plan' see PARA 1545 note 1 ante.

4 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 7(1).

5 As to the Secretary of State see PARA 601 note 1 ante.

6 I.e. the material, equipment and information mentioned in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 4(2) (as amended): see PARA 1545 ante.

7 Ibid reg 7(2). The responsible person to whom the notification is made must pay a fee to the Secretary of State for preparing and making the notification: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

8 See the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 25; and PARA 1560 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1548. Temporary security plans during building works etc.

1548. Temporary security plans during building works etc.

If it is proposed to carry out any work of alteration or extension to any building or other structure which is, or forms part of, nuclear premises¹, the responsible person² in relation to the premises must give notice in writing to the Secretary of State³ specifying the nature of the proposed works, and stating whether in his opinion they are likely to involve any derogation from any of the standards, procedures and arrangements described in the approved security plan⁴ for the premises⁵. The works may not be begun until the Secretary of State has approved a temporary security plan⁶ for them⁷. This does not, however, apply in the case of any particular work if before the work is begun the Secretary of State has notified the responsible person in writing that that work, or any work of a description that includes that work, is in his opinion unlikely to be prejudicial to the security of the premises and the specified⁸ material and equipment⁹.

To obtain approval of a temporary security plan for any works, the responsible person must submit the plan in writing to the Secretary of State¹⁰. The temporary security plan must describe any standards, procedures and arrangements which the responsible person proposes to adopt to ensure the security of the premises and the specified material and equipment¹¹ during the period whilst the works are being carried out¹². The Secretary of State may approve the temporary security plan as submitted or with such amendments as he may require¹³.

During the period whilst the works are being carried out, the approved security plan for the premises has effect subject to the approved temporary security plan¹⁴; and during that period the responsible person must comply with the standards, procedures and arrangements described in the approved temporary security plan¹⁵.

The responsible person may at any time submit proposals for amending the approved temporary security plan to the Secretary of State, and the Secretary of State may approve the proposals as submitted or with such amendments as he may require¹⁶.

Failure to comply with these provisions is an offence¹⁷.

1 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.

2 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'approved security plan' see PARA 1545 note 1 ante.

5 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 8(1)(a).

6 For the meaning of 'security plan' see PARA 1545 note 1 ante.

7 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 8(1)(b).

8 I.e. the material and equipment mentioned in *ibid* reg 4(2) (as amended): see PARA 1545 ante.

9 *Ibid* reg 8(2). The responsible person to whom the notification is made must pay a fee to the Secretary of State for preparing and making the notification: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

10 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 8(3).

11 See note 8 *supra*.

12 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 8(4).

13 Ibid reg 8(5). The responsible person who has submitted the temporary security plan must pay a fee to the Secretary of State for assessing and approving the plan: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further *PARA 1561 post*.

14 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 8(6).

15 Ibid reg 8(7).

16 Ibid reg 8(8). The responsible person who has submitted the proposal must pay a fee to the Secretary of State for assessing and approving the proposal: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further *PARA 1561 post*.

In the case of premises which were nuclear premises on the commencement date, the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 8(1)-(8) did not apply until there was an approved security plan for the premises: see reg 8(9). For the meaning of 'commencement date' see *PARA 1545 note 3 ante*.

17 See *ibid* reg 25; and *PARA 1560 post*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1549. Requirement for approval of relevant personnel.

1549. Requirement for approval of relevant personnel.

The responsible person¹ in relation to each nuclear premises² must ensure that each of his relevant personnel³ in relation to the premises who is specified in the approved security plan⁴ for the premises as requiring investigation and assessment⁵, or who falls within a description of persons who are so specified, is a person who has been approved by the Secretary of State⁶ as being of suitable character and integrity, having regard to the need to ensure the security of the premises and the specified⁷ material, equipment and information⁸.

Failure to comply with these provisions is an offence⁹.

1 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

2 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.

3 For the meaning of 'relevant personnel' see PARA 1545 note 10 ante.

4 For the meaning of 'approved security plan' see PARA 1545 note 1 ante.

5 I.e. as mentioned in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 4(3)(a): see PARA 1545 ante.

6 As to the Secretary of State see PARA 601 note 1 ante.

7 I.e. the material and equipment mentioned in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 4(2) (as amended): see PARA 1545 ante.

8 Ibid reg 9. The responsible person in relation to whom the persons being assessed are relevant personnel must pay a fee to the Secretary of State for assessing and approving any person or persons under reg 9: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

9 See the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 25; and PARA 1560 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1550. Reports by responsible persons.

1550. Reports by responsible persons.

The responsible person¹ in relation to each nuclear premises² must report to the Secretary of State³ any event or matter of a kind specified in heads (1) to (10) below⁴, namely:

- 4173 (1) any unauthorised incursion on to the premises or any attempted or suspected such incursion;
- 4174 (2) any incident occurring on the premises involving an explosive or incendiary device or suspected such device, or a firearm or replica firearm;
- 4175 (3) any damage to any building or equipment on the premises which might affect the security of the premises or any specified material or equipment⁵;
- 4176 (4) any malicious damage to any building or equipment on the premises, other than any trivial damage that does not affect the security of the premises or any specified material or equipment⁶;
- 4177 (5) any theft or attempted theft, or any loss or suspected loss, or any unauthorised movement:
- 385 561. (a) of any nuclear material⁷ used or stored on the premises or in transit to or from them; or
- 562. (b) in the case of premises which are or form part of a nuclear site⁸, of any other radioactive material used or stored on them;
- 386 4178 (6) any theft or attempted theft, or any loss or unauthorised disclosure, of sensitive nuclear information⁹ kept on the premises, or any suspected such theft, loss or disclosure;
- 4179 (7) any unauthorised access to any sensitive nuclear information kept on the premises, or any attempt to gain such access;
- 4180 (8) any threat to do anything which would fall within any of heads (1) to (7) above;
- 4181 (9) any failure to comply with any of the standards, procedures and arrangements described in the approved security plan¹⁰ for the premises or in any approved temporary security plan¹¹ to which for the time being they are subject;
- 4182 (10) any other event or matter which might affect the security of the premises or the specified material, equipment or information¹²,

as soon as practicable and in any event within 24 hours of its becoming known to him¹³. If it is not possible for him to make a written report within that period, he must make the report orally and confirm it in writing within 48 hours of the event or matter becoming known to him¹⁴. In any other case the report must be made in writing¹⁵.

The report must specify the nature of the matter or event and, in the case of an event, the date and time it occurred and the apparent reason for it¹⁶.

Failure to comply with these provisions is an offence¹⁷.

¹ For the meaning of 'responsible person' see PARA 1545 note 4 ante.

- 2 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.
- 3 As to the Secretary of State see PARA 601 note 1 ante.
- 4 le any event or matter of a kind specified in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 10(5).
- 5 le any material and equipment mentioned in ibid reg 4(2) (as amended): see PARA 1545 ante.
- 6 See note 5 supra.
- 7 For the meaning of 'nuclear material' see PARA 1545 note 2 ante.
- 8 For the meaning of 'nuclear site' see PARA 1545 note 2 ante.
- 9 For the meaning of 'sensitive nuclear information' see PARA 1544 note 9 ante (definition applied by the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 2(1)).
- 10 For the meaning of 'approved security plan' see PARA 1545 note 1 ante.
- 11 As to temporary security plans and their approval see PARA 1548 ante.
- 12 See note 5 supra.
- 13 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 10(1), (5). The responsible person who has made the report must pay a fee to the Secretary of State for reviewing the report: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.
- 14 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 10(2) (amended by SI 2006/2815).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/B. SECURITY OF NUCLEAR PREMISES/1551. Directions to responsible persons.

1551. Directions to responsible persons.

The responsible person¹ in relation to each nuclear premises² must comply with any direction given by the Secretary of State³ for the specified statutory purpose⁴ requiring him:

- 4183 (1) to adopt or implement, in respect of the whole or any specified part of the premises, standards, procedures or arrangements specified in the direction and to secure that the responsible person's officers, employees, contractors and consultants comply with them;
- 4184 (2) to submit a fresh security plan⁵ or amendments of the approved security plan⁶ for the premises to the Secretary of State for approval;
- 4185 (3) to satisfy the Secretary of State about the continuing or future adequacy of the approved security plan for the premises, or that the responsible person is complying with it;
- 4186 (4) to record or investigate in such manner as is specified in the direction any event or matter of a prescribed kind⁷ or any such other event or matter as is specified in the direction, or to report, in such manner as is specified in the direction, to the Secretary of State, or such other person as is so specified, any such other event or matter as is so specified; or
- 4187 (5) to take such steps as the Secretary of State considers necessary to remedy or alleviate the consequences of any contravention⁸ of the relevant regulations⁹.

Such a direction may impose a requirement to be met:

- 4188 (a) within a period specified in the direction; or
- 4189 (b) in the case of a direction under head (3) above, periodically at such intervals as are specified in the direction¹⁰.

Failure to comply with these provisions is an offence¹¹.

1 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

2 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 I.e. the purpose specified in the Anti-terrorism, Crime and Security Act 2001 s 77(1) (as amended): see PARA 1544 ante.

5 For the meaning of 'security plan' see PARA 1545 note 1 ante.

6 For the meaning of 'approved security plan' see PARA 1545 note 1 ante.

7 I.e. any event or matter specified in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 10(5): see PARA 1550 ante.

8 I.e. any contravention of the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended): see PARA 1545 et seq ante, PARA 1552 et seq post.

9 Ibid reg 11(1). The responsible person: (1) who has been given the direction must pay a fee to the Secretary of State for monitoring the standards, procedures or arrangements at nuclear premises, the adequacy of existing security plans and the adequacy of compliance with existing security plans in order to decide whether to issue a direction and for preparing, giving and implementing the direction; (2) who has provided the material must pay a fee to the Secretary of State for reviewing material supplied under reg 11(1)(c) (see head (3) in the text) to decide whether the approved security plan is adequate or whether it is being complied with; (3) who has made the report must pay a fee to the Secretary of State for reviewing the report under reg 11(1)(d) (see head (4) in the text): see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

10 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 11(2).

11 See ibid reg 25; and PARA 1560 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL/1552. Requirement for Category I/II nuclear material and Category III nuclear material to be transported by approved carriers.

C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL

1552. Requirement for Category I/II nuclear material and Category III nuclear material to be transported by approved carriers.

No person must transport¹ any Category I/II nuclear material² unless:

- 4190 (1) he is a carrier³ who is for the time being approved by the Secretary of State⁴ as a Class A carrier⁵ to transport Category I/II nuclear material and Category III nuclear material⁶; or
- 4191 (2) he is doing so as an officer or employee of such a carrier⁷.

No person must transport any Category III nuclear material unless:

- 4192 (a) he is a carrier who is for the time being approved by the Secretary of State as a Class A carrier to transport Category I/II nuclear material and Category III nuclear material;
- 4193 (b) he is a carrier who is for the time being approved by the Secretary of State as a Class B carrier⁸ to transport Category III nuclear material; or
- 4194 (c) he is doing so as an officer or employee of a carrier falling within head (a) or head (b) above⁹.

If the responsible person¹⁰ in relation to any nuclear premises¹¹ arranges for the transport of any Category I/II nuclear material or Category III nuclear material to or from the premises, he must ensure that the transport is undertaken by a carrier who is not prohibited under this provision from transporting the material in question¹².

Failure to comply with these provisions is an offence¹³.

¹ 'Transport' means transport by any means, but excluding (1) transport by air; and (2) transport within nuclear premises or between adjacent nuclear premises; and 'transport security statement' must be construed in accordance with the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 16(2), (3) (see PARA 1553 post): reg 2(1). The Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended) apply to transport in a United Kingdom ship whether or not that ship is in the territorial sea of the United Kingdom: reg 27(1). They do not, however, apply to transport in a ship that is not a United Kingdom ship, except that (subject to reg 27(3)-(12)), Pt 1 (regs 4-12) (as amended) (see the text and notes 3-16 infra; and PARAS 1546-1551 post), regs 18-21 (as amended) (see PARAS 1552-1557 post) and Pt 5 (regs 23-28) (general and supplementary provisions) apply to transport within the United Kingdom or its territorial sea in such a ship if the ship (a) is proceeding to a port in the United Kingdom in order to enter it, or entering, leaving or proceeding from such a port, and is carrying nuclear material; or (b) is proceeding to such a port in order for nuclear material to be loaded on to it there: reg 27(2). Part 1 (as amended), regs 18-21 (as amended) and Pt 5 do not apply to transport in a ship that is not a United Kingdom ship and is owned by the government of a country outside the United Kingdom or a department or agency of such a government except at a time when such a ship is being used for commercial purposes: reg 27(3). In relation to transport in a ship that is not a United Kingdom ship: (i) any obligation imposed by virtue of the 2003 Regulations (including any obligation arising under the Health and Safety at Work etc Act 1974 Act as it applies by virtue of the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 23 (see PARA 1560 post) or under the corresponding Northern Ireland legislation as it applies by virtue of reg 24) is

to be regarded as an obligation that must be met in respect of the ship in question as a condition of its entry into the port in question (but without prejudice to the continuation of that obligation, in so far as it is capable of remaining operative, after it leaves the port); and (ii) any offence to which reg 25(2) applies (see PARA 1560 post) is to be regarded as an offence constituted by a breach of such a condition in respect of the ship in question: reg 27(4). For the meaning of 'United Kingdom ship' see PARA 1544 note 11 ante (definition applied by reg 2(1)). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

Subject to reg 28(3), the 2003 Regulations apply as if any reference to a ship (other than in the expression 'United Kingdom ship') included a reference to a hovercraft: reg 28(1). They apply to transport in a United Kingdom hovercraft if and only if the transport is either within the United Kingdom or its territorial sea, or to or from any nuclear premises in the United Kingdom: reg 28(2). Regulation 27 applies as if the references in reg 27(2)-(4) to a United Kingdom ship included references to a United Kingdom hovercraft: reg 28(3)(a). For these purposes, 'hovercraft' has the same meaning as in the Hovercraft Act 1968 s 4(1) (see SHIPPING AND MARITIME LAW vol 93 (2008) PARA 381); and 'United Kingdom hovercraft' means a hovercraft registered under the Hovercraft (General) Order 1972, SI 1972/674 (as amended) (see SHIPPING AND MARITIME LAW vol 93 (2008) PARA 388 et seq): Nuclear Industries Security Regulations 2003, SI 2003/403, reg 28(4).

Notwithstanding anything in regs 27, 28(2), nothing in the 2003 Regulations applies to acts done outside the United Kingdom by a person other than a United Kingdom person: regs 27(13), 28(3)(c).

2 For the meaning of 'Category I/II nuclear material' see PARA 1545 note 5 ante.

3 'Carrier' means a person undertaking the transport of Category I/II nuclear material or Category III nuclear material, and includes both a carrier for hire or reward and a carrier on his own account: Nuclear Industries Security Regulations 2003, SI 2003/403, reg 2(1).

4 As to the Secretary of State see PARA 601 note 1 ante; and as to the approval of carriers see PARA 1553 post.

5 'Class A carrier' means a carrier approved by the Secretary of State under the Nuclear Industries Security Regulations 2003, SI 2003/403, Pt 3 (regs 13-21) (see the text and notes 6-12 infra; and PARA 1553 et seq post) to transport Category I/II nuclear material and Category III nuclear material: reg 2(1). A carrier who applies for approval must pay a fee to the Secretary of State: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

6 For the meaning of 'Category III nuclear material' see PARA 1545 note 6 ante.

7 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 13(1).

8 'Class B carrier' means a carrier approved by the Secretary of State under ibid Pt 3 to transport Category III nuclear material: reg 2(1). A carrier who applies for approval must pay a fee to the Secretary of State: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

9 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 13(2).

10 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

11 For the meaning of 'nuclear premises' see PARA 1545 note 2 ante.

12 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 13(3).

13 See ibid reg 25; and PARA 1560 post.

UPDATE

1552 Requirement for Category I/II nuclear material and Category III nuclear material to be transported by approved carriers

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL/1553. Approval of carriers and of transport security statements.

1553. Approval of carriers and of transport security statements.

The Secretary of State¹ may approve a carrier² as an approved carrier³ only if he is satisfied that:

- 4195 (1) in the case of an approval as a Class A carrier, the carrier transports⁴ or proposes to transport Category I/II nuclear material⁵ in the course of his business;
- 4196 (2) in the case of an approval as a Class B carrier, the carrier transports or proposes to transport Category III nuclear material⁶ in the course of his business;
- 4197 (3) the carrier has provided the Secretary of State with:
 - 387 563. (a) his telephone number, facsimile number and principal place of business; and
 - 564. (b) with the name, address, telephone number and facsimile number of an individual who will accept any written or oral communication from the Secretary of State under the relevant regulations⁷ on behalf of the carrier⁸; and
- 388 4198 (4) the carrier has submitted a transport security statement⁹ that the Secretary of State has approved (as submitted or with such amendments as he has required), and he will comply with the standards, procedures and arrangements described in the approved transport security statement¹⁰ while he is approved¹¹.

A carrier applying for approval as a Class A carrier or Class B carrier under the above provisions must submit with his application a transport security statement for approval by the Secretary of State¹². The transport security statement must describe in writing the standards, procedures and arrangements adopted or to be adopted by the carrier to ensure the security of:

- 4199 (i) in the case of a carrier applying for approval as a Class A carrier, any Category I/II nuclear material or Category III nuclear material transported or to be transported by him;
- 4200 (ii) in the case of a carrier applying for approval as a Class B carrier, any Category III nuclear material transported or to be transported by him; and
- 4201 (iii) in any case, any information which is or comes within his possession or control relating to the security of any nuclear premises or of any Category I/II nuclear material or Category III nuclear material transported or to be transported by him¹³.

In particular, but without prejudice to the generality of heads (i) to (iii) above, the statement must describe the standards, procedures and arrangements relating to the investigation and assessment by the Secretary of State of the suitability of relevant personnel¹⁴ of the carrier with a view to ensuring the security of:

- 4202 (A) any Category I/II nuclear material or Category III nuclear material transported or to be transported by the carrier;

- 4203 (B) any information falling within head (iii) above; and
 4204 (C) any nuclear premises¹⁵ to or from which the carrier transports or is to transport any Category I/II nuclear material or Category III nuclear material, and any premises used or to be used for the purpose of the temporary storage of such material during the course of or incidental to its transport¹⁶.

The statement must also describe the standards, procedures and arrangements relating to the temporary storage of Category I/II nuclear material or Category III nuclear material during the course of or incidental to its transport, including the security of premises used for such storage¹⁷, and to the steps to be taken by the carrier or any person acting on his behalf if any event of a specified kind¹⁸ that requires immediate action occurs, and the regular practice of the activities required in connection with those steps¹⁹. The Secretary of State may approve the statement as submitted or with such amendments as he may require²⁰.

Where a carrier has applied to the Secretary of State for approval as an approved carrier, he must give him notice in writing of his decision and, if he has granted the application, of the date from which he is approved and whether he is approved as a Class A carrier or as a Class B carrier²¹. If the Secretary of State proposes not to approve a carrier as an approved carrier, he must give him written notice of his proposal and of the reasons for it²². The carrier may make representations to the Secretary of State within 28 days from the date on which that notice is given²³ and the Secretary of State must take into account any such representations before reaching a decision whether to approve the carrier as an approved carrier²⁴. If the Secretary of State decides not to approve a carrier as an approved carrier, he must state the reasons for his decision when he gives him notice²⁵ of the decision²⁶.

The Secretary of State's approval of a carrier as an approved carrier has effect for the period of five years from the date from which he is approved, unless it is revoked²⁷ earlier²⁸.

An approved carrier may at any time submit to the Secretary of State for approval a fresh transport security statement, or proposals for amending his approved transport security statement²⁹. The Secretary of State may approve the fresh statement or proposals as submitted or with such amendments as he may require³⁰. On approving a fresh transport security statement for an approved carrier, the Secretary of State may revoke the approval of the former statement for the approved carrier³¹.

An approved carrier must comply with the standards, procedures and arrangements described in his approved transport security statement³². He must also ensure that each of his relevant personnel who is specified in his approved transport security statement as requiring investigation and assessment as mentioned above³³, or who falls within a description of persons who are so specified, is a person who has been approved by the Secretary of State as being of suitable character and integrity, having regard to the need to ensure the security of the material, information and premises³⁴ mentioned above³⁵. Failure to comply with these requirements is an offence³⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'carrier' see PARA 1552 note 3 ante.

3 'Approved carrier' means a Class A carrier or a Class B carrier: Nuclear Industries Security Regulations 2003, SI 2003/403, reg 2(1). For the meanings of 'Class A carrier' and 'Class B carrier' see PARA 1552 notes 5, 8 ante.

4 For the meaning of 'transport' see PARA 1552 note 1 ante.

5 For the meaning of 'Category I/II nuclear material' see PARA 1545 note 5 ante.

6 For the meaning of 'Category III nuclear material' see PARA 1545 note 6 ante.

7 Ie under the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended): see PARA 1545 et seq ante; the text and notes 1-6 supra, 8-36 infra; and PARA 1554 et seq post.

8 An approved carrier must notify the Secretary of State of any change to the information referred to in ibid 14(1)(c) (see head (3) in the text): (1) in the case of information referred to in reg 14(1)(c)(i) (see head (3)(a) in the text), within seven days of the change occurring; and (2) in the case of information referred to in reg 14(1)(c)(ii) (see head (3)(b) in the text), no later than the change occurs: reg 17(2). The carrier who has made the notification must pay a fee to the Secretary of State for reviewing it: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

9 Ie under the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 16: see the text and notes 12-20 infra. For the meaning of 'transport security statement' see PARA 1552 note 1 ante.

10 'Approved transport security statement' means a transport security statement which has been approved by the Secretary of State under ibid reg 16, as amended by any amendments approved under reg 16, and which has not been revoked: reg 2(1).

11 Ibid reg 14(1). The carrier who has made the application must pay a fee to the Secretary of State for assessing the application and approving the carrier: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

12 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 16(1). The carrier who has submitted the transport security statement must pay a fee to the Secretary of State for assessing and approving it: see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

13 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 16(2).

14 For the meaning of 'relevant personnel' see PARA 1545 note 10 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL/1554. Revocation of approval of carriers.

1554. Revocation of approval of carriers.

The Secretary of State¹ may revoke the approval of an approved carrier² if he has requested that his approval be revoked, or on any of the following grounds:

- 4205 (1) that:
389
565. (a) in the case of a Class A carrier³, he has ceased to carry on a business as a carrier of Category I/II nuclear material⁴; or
566. (b) in the case of a Class B carrier⁵, he has ceased to carry on a business as a carrier of Category III nuclear material⁶;
- 390
- 4206 (2) that he has failed to comply with any obligation imposed on him under the relevant regulations⁷;
- 4207 (3) that he has supplied false or misleading information in his application for approval as an approved carrier or has failed to supply information that was material to the application; or
- 4208 (4) that the Secretary of State is of the view that the approval should be revoked in the interests of ensuring the security of the Category I/II nuclear material or Category III nuclear material that the approved carrier might otherwise transport⁸.

If the Secretary of State proposes to revoke the approval of an approved carrier otherwise than pursuant to a request from him, he must give him written notice of his proposal and of the reasons for it⁹. The approved carrier may make representations to the Secretary of State within 28 days from the date on which that notice is given¹⁰; and the Secretary of State must take into account any such representations before reaching a decision whether to revoke the approved carrier's approval¹¹.

If the Secretary of State decides to revoke the approval of an approved carrier, he must give him written notice of his decision and of the reasons for it¹².

NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL/1555. Reports by carriers.

1555. Reports by carriers.

An approved carrier¹ must report to the Secretary of State² any event or matter of a kind specified in heads (1) to (11) below³, namely:

- 4209 (1) any unauthorised incursion on to, interference with, or other incident affecting the security of any means of conveyance of Category I/II nuclear material⁴ or Category III nuclear material⁵ during the course of its transport⁶ or any attempted or suspected such incursion, interference or incident;
 - 4210 (2) any unauthorised incursion on to premises where Category I/II nuclear material or Category III nuclear material is being stored temporarily during the course of or incidental to its transport or any attempted or suspected such incursion;
 - 4211 (3) any incident occurring during the transport of Category I/II nuclear material or Category III nuclear material, or on premises where such material is being stored temporarily during the course of or incidental to its transport, involving an explosive or incendiary device or suspected such device, or a firearm or replica firearm;
 - 4212 (4) any damage to the means of conveyance of Category I/II nuclear material or Category III nuclear material which might affect the security of that material;
 - 4213 (5) any damage to any building or equipment on premises where Category I/II nuclear material or Category III nuclear material is being stored temporarily during the course of or incidental to its transport which might affect the security of the material;
 - 4214 (6) any theft or attempted theft, or any loss or suspected loss, or any unauthorised movement of, or any interference with, Category I/II nuclear material or Category III nuclear material during transport;
 - 4215 (7) any theft or attempted theft, or any loss or unauthorised disclosure, of specified information⁷ or any suspected such theft, loss or disclosure;
 - 4216 (8) any unauthorised access to any such information or any attempt to gain such access;
 - 4217 (9) any threat to do anything which would fall within any of heads (1) to (8) above;
 - 4218 (10) any failure to comply with any of the standards, procedures and arrangements described in the approved carrier's approved transport security statement or the measures described in any approved transport plan⁸ required under the relevant regulation⁹;
 - 4219 (11) any other event or matter which might affect the security of:
- 391
- 567. (a) Category I/II nuclear material or Category III nuclear material being transported;
 - 568. (b) premises where Category I/II nuclear material or Category III nuclear material is being stored temporarily during the course of or incidental to its transport; or
 - 569. (c) any specified information¹⁰,
- 392

as soon as practicable and in any event within 24 hours of its becoming known to him¹¹. If it is not possible for him to make a written report within that period, he must make the report orally and confirm it in writing within 48 hours of the event or matter becoming known to him¹². In any other case the report must be made in writing¹³.

The report must specify the nature of the matter or event and, in the case of an event, the date and time it occurred and the apparent reason for it¹⁴.

Failure to comply with these provisions is an offence¹⁵.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL/1556. Duties relating to particular transports of Category I/II and Category III nuclear material.

1556. Duties relating to particular transports of Category I/II and Category III nuclear material.

No Class A carrier¹ must transport² any Category I/II nuclear material³ unless a transport plan⁴ relating to the particular transport by him has been approved by the Secretary of State⁵. No less than one month before the proposed date on which the transport of any Category I/II nuclear material is to begin, whether or not the transport is to be undertaken in stages by more than one carrier, each Class A carrier who is to transport the material must submit a transport plan relating to the transport by him for the approval of the Secretary of State⁶. The transport plan must describe in writing the measures to be adopted to ensure the security of the material during:

- 4220 (1) the course of the transport;
- 4221 (2) the loading or unloading of the material during the course of or incidental to the transport; and
- 4222 (3) any period of temporary storage during the course of or incidental to the transport⁷.

The Secretary of State may approve the transport plan as submitted or with such amendments as he may require⁸. Before approving such a plan the Secretary of State must consult the responsible person⁹ in relation to any nuclear premises¹⁰ to or from which the material is to be transported and any other Class A carrier who is to undertake another stage of the transport of the material, and must consider any representations made by them¹¹.

Each Class A carrier must ensure that any particular transport of Category I/II nuclear material by him conforms to the transport plan approved by the Secretary of State in relation to that transport¹². No less than seven days before the proposed date on which any Class A carrier is to begin transporting any Category I/II nuclear material, he must give notice in writing to the Secretary of State of the dates on which the transport by him is to begin and end¹³.

No less than seven days¹⁴ before the proposed date on which any approved carrier¹⁵ is to begin transporting any Category III nuclear material¹⁶, he must give notice in writing to the Secretary of State of the following matters in relation to the transport by him¹⁷, namely:

- 4223 (a) the dates on which the transport is to begin and end;
- 4224 (b) the places from which and to which the material is to be transported;
- 4225 (c) the identity of the persons from whom and to whom the material is to be transferred;
- 4226 (d) where all or any part of the transport is to take place outside the United Kingdom¹⁸, the route of the transport;
- 4227 (e) any places at which the material is to stop temporarily; and
- 4228 (f) where the material is to be transported otherwise than in a closed and locked vehicle, railway compartment or shipping compartment, details of the container to be used to transport the material¹⁹.

This does not, however, apply to a carrier who transports a vehicle carrying nuclear material on his ship to or from the United Kingdom if the driver of the vehicle drives it on and off the ship and remains on the ship during the ship's journey²⁰.

The above provisions²¹ have effect with modifications in relation to transport in a ship that is not a United Kingdom ship²². Failure to comply with them is an offence²³.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/C. SECURITY OF TRANSPORT OF NUCLEAR MATERIAL/1557. Directions to carriers.

1557. Directions to carriers.

An approved carrier¹ must comply with any direction given by the Secretary of State² for the specified statutory purpose³ relating to his business as a carrier of Category I/II nuclear material⁴ or Category III nuclear material⁵ and requiring the approved carrier:

- 4229 (1) not to begin a particular proposed transport⁶;
- 4230 (2) to adopt or implement standards, procedures or arrangements specified in the direction and to secure that his officers, employees, contractors and consultants comply with them;
- 4231 (3) to submit a fresh transport security statement⁷ or amendments of his approved transport security statement⁸;
- 4232 (4) to satisfy the Secretary of State about the continuing or future adequacy of his approved transport security statement, or that he is complying with it;
- 4233 (5) to record or investigate in such manner as is specified in the direction any event or matter of a prescribed kind⁹ or any such other event or matter as is specified in the direction, or to report, in such manner as is specified in the direction, to the Secretary of State, or such other person as is so specified, any such other event or matter as is so specified; or
- 4234 (6) to take such steps as the Secretary of State considers necessary to remedy or alleviate the consequences of any contravention¹⁰ of the relevant regulations¹¹.

Such a direction may impose a requirement to be met:

- 4235 (a) within a period specified in the direction; or
- 4236 (b) in the case of a direction under head (4) above, periodically at such intervals as are specified in the direction¹².

Failure to comply with these requirements is an offence¹³.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/D. SECURITY OF SENSITIVE NUCLEAR INFORMATION, URANIUM ENRICHMENT SOFTWARE AND EQUIPMENT/1558. Application of the provisions regulating sensitive nuclear information, uranium enrichment equipment and software.

D. SECURITY OF SENSITIVE NUCLEAR INFORMATION, URANIUM ENRICHMENT SOFTWARE AND EQUIPMENT

1558. Application of the provisions regulating sensitive nuclear information, uranium enrichment equipment and software.

Subject to the prescribed exceptions¹, the statutory provisions² regulating sensitive nuclear information³, uranium enrichment equipment⁴ and uranium enrichment software⁵ apply:

- 4237 (1) to any person who has possession or control of sensitive nuclear
information in the United Kingdom⁶ and who is involved in the following activities:
393
570. (a) activities on or in relation to a nuclear site or nuclear premises⁷ or who is
proposing to become so involved;
571. (b) the enrichment of uranium, whether in the United Kingdom or elsewhere;
or
572. (c) activities with a view to, or in connection with, the enrichment of uranium,
whether in the United Kingdom or elsewhere; and
394
- 4238 (2) to any person who has possession or control of uranium enrichment
equipment or uranium enrichment software in the United Kingdom and who is
involved or proposing to become involved in the following activities, whether in the
United Kingdom or elsewhere:
395
573. (a) the enrichment of uranium;
574. (b) activities with a view to, or in connection with, the enrichment of uranium;
or
575. (c) the production, storage or transport⁸ of equipment or software on behalf of
a person involved in the activities mentioned in head (a) or head (b) above⁹.
396

They do not apply:

- 4239 (i) to an approved carrier¹⁰ in so far as the security of the sensitive nuclear
information that he has in his possession is the subject of an approved transport
security statement¹¹ or an approved transport plan¹²; or
- 4240 (ii) to any person, in so far as the information he has in his possession or
control has previously been made available to the public anywhere in the world
otherwise than in contravention of the relevant statutory provision¹³ or of any other
prohibition breach of which was an offence at the time when it was so made
available (including, in a case in which it was made available outside but not within
the United Kingdom, an offence under the law of one or more of the places where it
was made available)¹⁴.

Subject to that, head (1)(a) above applies to a person only to the extent that he knows that the information in his possession or control is or should have been protectively marked¹⁵, or was so marked when he received it, but a person listed in heads (A) to (F) below¹⁶ cannot benefit from this exception¹⁷, namely a person who:

- 4241 (A) is a responsible person¹⁸ who keeps such information on any premises other than nuclear premises for which there is an approved security plan¹⁹;
- 4242 (B) has possession or control of such information for the purposes of planning, designing, or constructing any proposed nuclear premises or installation or other facility on nuclear premises;
- 4243 (C) is the Nuclear Decommissioning Authority ('the NDA')²⁰ or has possession or control of such information for purposes related to the discharge by the NDA of responsibilities given to it by designation under the relevant statutory provisions²¹;
- 4244 (D) is any contractor or consultant of any person referred to in heads (A) to (C) above;
- 4245 (E) is a holding company²² whose subsidiary²³ falls within any of heads (A) to (D) above; or
- 4246 (F) is a subsidiary²⁴ of a person falling within head (E) above²⁵.

1 Ie subject to the exceptions in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22(2), (3) and (6) (as substituted): see the text and notes 10-17, 19 infra.

2 Ie *ibid* reg 22 (as substituted): see PARA 1559 post.

3 For the meaning of 'sensitive nuclear information' see PARA 1544 note 9 ante (definition applied by *ibid* reg 2(1)).

4 'Uranium enrichment equipment' means equipment capable of being used in or in connection with the enrichment of uranium: *ibid* reg 2(1) (definition added by SI 2006/2815). 'Enriched', in relation to uranium, means enriched so as to contain more than 0.711% of uranium-235: Nuclear Industries Security Regulations 2003, SI 2003/403, reg 2(1).

5 'Uranium enrichment software' means any software capable of being used in or in connection with the enrichment of uranium: *ibid* reg 2(1) (definition added by SI 2006/2815).

6 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

7 For the meanings of 'nuclear site' and 'nuclear premises' see PARA 1545 note 2 ante.

8 For the meaning of 'transport' see PARA 1552 note 1 ante.

9 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22(1) (reg 22 substituted by SI 2006/2815).

10 For the meaning of 'approved carrier' see PARA 1553 note 3 ante.

11 For the meaning of 'approved transport security statement' see PARA 1553 note 10 ante.

12 For the meaning of 'approved transport plan' see PARA 1555 note 8 ante.

13 Ie otherwise than in contravention of the Anti-terrorism, Crime and Security Act 2001 s 80(3): see PARA 1563 post.

14 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22(2) (as substituted: see note 9 supra).

15 For these purposes: (1) information is protectively marked if it bears a protective marking (a) which complies with the requirements of the classification policy; (b) which conforms to the guidelines set out in the document entitled 'Finding a Balance: Guidance on the Sensitivity of Nuclear and Related Information and its Disclosure' issued from time to time by the Secretary of State; or (c) which has been applied by the Secretary of State or a statutory body in the interests of national security; and (2) information should have been protectively marked if such marking was required by the classification policy: Nuclear Industries Security Regulations 2003,

SI 2003/403, reg 22(5) (as substituted: see note 9 supra). For the meaning of 'classification policy' see PARA 1544 note 9 ante.

16 Ie a person listed in *ibid* reg 22(4) (as substituted).

17 *Ibid* reg 22(3) (as substituted: see note 9 supra).

18 For the meaning of 'responsible person' see PARA 1545 note 4 ante.

19 The Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22 (as substituted) applies to a responsible person only to the extent that he keeps sensitive nuclear information or uranium enrichment equipment or uranium enrichment software in premises other than premises for which there is an approved security plan: reg 22(6) (as substituted: see note 9 supra). For the meaning of 'approved security plan' see PARA 1545 note 1 ante.

20 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARAS 1592-1595 post.

21 Ie under the Energy Act 2004 s 3 or s 4: see PARAS 1592-1593 post.

22 Ie as defined in the Companies Act 1985 s 736(1) (as substituted; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, and replaced by s 1159, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed): see COMPANIES vol 14 (2009) PARA 25.

23 Ie as defined in *ibid* s 736 (as substituted; prospectively repealed and replaced: see note 22 supra): see COMPANIES vol 14 (2009) PARA 25.

24 See note 22 supra.

25 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22(4) (as substituted: see note 9 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/D. SECURITY OF SENSITIVE NUCLEAR INFORMATION, URANIUM ENRICHMENT SOFTWARE AND EQUIPMENT/1559. Regulation of sensitive nuclear information, uranium enrichment equipment and software.

1559. Regulation of sensitive nuclear information, uranium enrichment equipment and software.

A person to whom the following provisions apply¹ must:

- 4247 (1) maintain such security standards, procedures and arrangements as are necessary for the purpose of minimising the risk of loss, theft or unauthorised disclosure of, or unauthorised access to, any sensitive nuclear information², uranium enrichment equipment³ or uranium enrichment software⁴ within his possession or control;
- 4248 (2) comply with any directions given by the Secretary of State⁵ requiring him to take such steps as are necessary or as are specified in the direction for that purpose;
- 4249 (3) ensure that each of his relevant personnel⁶ who is involved in any of the specified activities⁷ is familiar with the security standards, procedures and arrangements mentioned in head (1) above or steps specified in any direction given under head (2) above relevant to that activity;
- 4250 (4) ensure that each of his relevant personnel who is specified in a direction given under head (2) above as a person whose suitability requires investigation and assessment by the Secretary of State, or who falls within a description of persons who are so specified, is a person who has been approved by the Secretary of State as being of suitable character and integrity, having regard to the need to ensure the security of any sensitive nuclear information, uranium enrichment equipment or software within the possession or control of the person to whom these provisions apply; and
- 4251 (5) report to the Secretary of State any event or matter of a kind specified in heads (a) to (c) below⁸ that relates to any sensitive nuclear information, uranium enrichment equipment or uranium enrichment software within his possession or control, namely:
 - 397 576. (a) any theft or attempted theft, or any loss or unauthorised disclosure, of sensitive nuclear information, uranium enrichment equipment or uranium enrichment software, or any suspected such theft, loss or disclosure;
 - 577. (b) any unauthorised access to sensitive nuclear information, uranium enrichment equipment or uranium enrichment software, or any attempt to gain such access;
 - 578. (c) any other event or matter which might affect the security of any sensitive nuclear information, uranium enrichment equipment or uranium enrichment software,
 - 398 4252 as soon as practicable and in any event within 24 hours of its becoming known to him, specifying the nature of the event or matter and, in the case of any event, the date and time it occurred and the apparent reason for it⁹.

If it is not possible for the person in question to make a written report under head (5) above within the period specified in that head, he must make the report orally and confirm it in writing within 48 hours of the event or matter becoming known to him¹⁰. In any other case the report must be made in writing¹¹.

Failure to comply with these provisions is an offence¹². In proceedings for such an offence it is a defence for the accused to show that he is a member of the relevant personnel of another person to whom these provisions apply and that he was acting under the instruction of that other person at the time of the alleged offence¹³.

1 Ie a person to whom the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22 (as substituted) applies. As to such persons see PARA 1558 ante.

2 For the meaning of 'sensitive nuclear information' see PARA 1544 note 9 ante.

3 For the meaning of 'uranium enrichment equipment' see PARA 1558 note 4 ante.

4 For the meaning of 'uranium enrichment software' see PARA 1558 note 5 ante.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 For the meaning of 'relevant personnel' see PARA 1545 note 10 ante.

7 Ie any of the activities listed in the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22(1)(a) or (b) (as substituted): see PARA 1558 ante at heads (1)-(2) in the text.

8 Ie any event or matter of a kind specified in *ibid* reg 22(10) (as substituted).

9 *Ibid* reg 22(7), (10) (reg 22 substituted by SI 2006/2815). A fee is payable to the Secretary of State for certain of his functions under the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22 (as substituted): see the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule. See further PARA 1561 post.

10 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22(8) (as substituted: see note 9 *supra*).

11 *Ibid* reg 22(9) (as substituted: see note 9 *supra*).

12 See *ibid* reg 25; and PARA 1560 post.

13 *Ibid* reg 22(11) (as substituted: see note 9 *supra*).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/E. ENFORCEMENT, OFFENCES AND FEES/1560. Enforcement of the Nuclear Industries Security Regulations 2003 and offences under those regulations.

E. ENFORCEMENT, OFFENCES AND FEES

1560. Enforcement of the Nuclear Industries Security Regulations 2003 and offences under those regulations.

The provisions of the Health and Safety at Work etc Act 1974 relating to:

- 4253 (1) the appointment of inspectors¹;
- 4254 (2) the powers of inspectors²;
- 4255 (3) the power of enforcing authorities to indemnify their inspectors³;
- 4256 (4) obtaining of information⁴;
- 4257 (5) restrictions on the disclosure of information⁵;
- 4258 (6) offences⁶;
- 4259 (7) venue⁷;
- 4260 (8) offences due to the fault of another person⁸;
- 4261 (9) offences by bodies corporate⁹;
- 4262 (10) restriction on the institution of proceedings in England and Wales¹⁰;
- 4263 (11) the power of the court to order the cause of an offence to be remedied or, in certain cases, forfeiture¹¹; and
- 4264 (12) the service of notices¹²,

apply with specified modifications¹³ for the purposes of the Nuclear Industries Security Regulations 2003¹⁴ as they apply for the purposes of that Act¹⁵.

If any person fails to comply with any of the specified provisions of those 2003 Regulations¹⁶ he is guilty of an offence¹⁷. A person guilty of such an offence, or of an offence under the provision of the Health and Safety at Work etc Act 1974 mentioned in head (6) above as it applies by virtue of the provisions set out above¹⁸, is liable on conviction on indictment to imprisonment for a term not exceeding two years or a fine, or to both, and on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding the statutory maximum, or to both¹⁹. Proceedings for an offence to which these provisions apply that is committed outside the United Kingdom²⁰ may be taken, and the offence may for incidental purposes be treated as having been committed, in any place in the United Kingdom²¹. Nothing in the 2003 Regulations applies, however, to acts done outside the United Kingdom by a person other than a United Kingdom person²².

1 Ie the Health and Safety at Work etc Act 1974 s 19: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375.

2 Ie *ibid* s 20 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376. For the prescribed modifications see the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 23(4). See also note 13 *infra*.

3 Ie the Health and Safety at Work etc Act 1974 s 26: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375.

4 Ie *ibid* s 27(1): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 369. Section 27(1) applies for these purposes with the following modifications: (1) in s 27(1)(a), for 'the Commission' substitute 'the Secretary of

State' and for 'its' substitute 'his'; (2) in s 27(1)(b), for 'the Commission may, with the consent of the Secretary of State' substitute 'the Secretary of State may' and for 'furnish to the Commission' substitute 'furnish to the Secretary of State': Nuclear Industries Security Regulations 2003, SI 2003/403, reg 23(5) (substituted by SI 2006/2815). See also note 13 infra.

5 le the Health and Safety at Work etc Act 1974 s 28 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 382.

6 le ibid s 33(1)(e), (f), (h), (i), (j), (k), (l), (m), (n), (o) (as amended): see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852. For the prescribed modification in relation to transport in a ship that is not a United Kingdom ship or a United Kingdom hovercraft see the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 23(5A) (added for these purposes by regs 27(5), (10), 28(3)(a), (b)). For the meaning of 'United Kingdom ship' see PARA 1571 note 11 ante (definition applied by reg 2(1)); and for the meaning of 'United Kingdom hovercraft' see PARA 1552 note 1 ante.

7 le the Health and Safety at Work etc Act 1974 s 35: see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 856.

8 le ibid s 36: see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 859.

16 le any provision of ibid reg 5 (see PARA 1545 ante), reg 7 (see PARA 1547 ante), reg 8 (see PARA 1548 ante), reg 9 (see PARA 1549 ante), reg 10 (as amended) (see PARA 1550 ante), reg 11 (see PARA 1551 ante), reg 12 (transitional provisions: see PARA 1545 ante), reg 13 (see PARA 1552 ante), reg 17 (see PARA 1553 ante), reg 18 (as amended) (see PARA 1555 ante), regs 19, 20 (see PARA 1556 ante), reg 21 (see PARA 1557 ante), or reg 22 (as substituted) (see PARA 1559 ante).

17 Ibid reg 25(1).

18 le an offence under the Health and Safety at Work etc Act 1974 s 33 (as amended) as it applies by virtue of the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 23.

19 Ibid reg 25(2). As to the statutory maximum see PARA 689 note 2 ante.

20 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

21 Nuclear Industries Security Regulations 2003, SI 2003/403, reg 25(3).

22 See ibid regs 27(13), 28(3)(c). For the meaning of 'United Kingdom person' see PARA 1562 note 10 post (definition applied by reg 2(1)).

UPDATE

1560-1561 Enforcement of the Nuclear Industries Security Regulations 2003 and offences under those regulations, Fees payable for regulation of nuclear industries security

Certain functions under provisions mentioned in these paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/E. ENFORCEMENT, OFFENCES AND FEES/1561. Fees payable for regulation of nuclear industries security.

1561. Fees payable for regulation of nuclear industries security.

Where the Secretary of State¹ carries out a function² under or in connection with the provision of the Nuclear Industries Security Regulations 2003³ specified in relation to that function⁴, a fee is payable⁵ to the Secretary of State⁶.

Where an inspector performs functions in exercise of his enforcement powers under the relevant provision of the Health and Safety at Work etc Act 1974⁷, a fee is payable to the Secretary of State:

- 4265 (1) by a responsible person⁸, to the extent that such functions are performed for the purpose of putting into effect the 2003 Regulations in relation to that person;
- 4266 (2) by a carrier⁹, to the extent that such functions are performed for the purpose of putting into effect those regulations in relation to that person; and
- 4267 (3) by a person subject to requirements by or under the relevant regulation regulating sensitive nuclear information, uranium enrichment equipment and software¹⁰, to the extent that such functions are performed for the purpose of putting into effect the 2003 Regulations in relation to that person¹¹.

Where, in connection with putting into effect the 2003 Regulations, the Secretary of State carries out intelligence activities, makes security threat assessments, takes measures to counter security threats, or issues alert warnings, a fee is payable to the Secretary of State by the responsible person, carrier, or person subject to requirements as mentioned in head (3) above, in relation to whom such functions are performed¹²; and where, in connection with putting into effect those regulations, the Secretary of State provides advice or training to responsible persons, carriers, or persons subject to such requirements, a fee is payable to the Secretary of State by the person to whom such advice or training is given¹³.

Where, in connection with the enforcement of the 2003 Regulations, the Secretary of State performs functions other than functions referred to above¹⁴, a fee is payable to the Secretary of State:

- 4268 (a) by a responsible person, to the extent that such functions are for the purpose of putting into effect those regulations in relation to that person;
- 4269 (b) by a carrier, to the extent that such functions are performed for the purpose of putting into effect those regulations in relation to that person; and
- 4270 (c) by a person subject to requirements as mentioned in head (3) above, to the extent that such functions are performed for the purpose of putting into effect those regulations in relation to that person¹⁵.

The fees referred to above:

- 4271 (i) must not exceed the costs reasonably incurred of performing the functions for which the fees are payable;

- 4272 (ii) must take into account the seniority of the individuals performing the functions, and the time spent performing the functions;
- 4273 (iii) are to be calculated at the end of each quarter of the financial year, which financial year is to be from 1 April to 31 March; and
- 4274 (iv) are to be payable within 30 days from the date of the invoice that the Secretary of State has sent or given to the person who is required to pay the fees, such invoices to include a statement of the functions performed and the costs incurred including the period to which the statement relates¹⁶.

They are not to include any costs connected with any criminal investigation or prosecution in England, Wales and Northern Ireland, incurred, in either case, from the date any summons is obtained from a magistrates' court¹⁷.

The Secretary of State may apportion fees between different persons for a function performed by the Secretary of State or an inspector, as the case may be, where such function is reasonably attributable to those different persons¹⁸.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. a function specified in the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule col 2. See further note 6 infra.

3 I.e. the provision of the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended): see PARA 1545 et seq ante.

4 I.e. specified in the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule col 1. See further note 6 infra.

5 The fee referred to in the text is payable by the person specified in the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 3(1), Schedule col 3. See further note 6 infra.

6 Ibid reg 3(1). See further PARA 1545 note 14, PARA 1546 note 7, PARA 1547 note 7, PARA 1548 notes 9, 13, 16, PARA 1549 note 8, PARA 1550 note 13, PARA 1551 note 9, PARA 1552 notes 5, 8, PARA 1553 notes 8, 11, 12, 26, 35, PARA 1554 note 8, PARA 1555 note 11, PARA 1556 notes 5, 11, 13, 14, 17, PARA 1557 note 11 and PARA 1559 note 9 ante.

7 I.e. under the Health and Safety at Work etc Act 1974 s 20 (as amended) (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376) (as applied for the purposes of the Nuclear Industries Security Regulations 2003, SI 2003/403 (as amended) by reg 23(1), (2)(b), (3), (4) (see PARA 1560 ante).

8 For the meaning of 'responsible person' see PARA 1545 note 4 ante (definition applied by the Nuclear Industries Security (Fees) Regulations 2005, SI 2005/1654, reg 2(2)).

9 For the meaning of 'carrier' see PARA 1552 note 3 ante (definition applied by ibid reg 2(2)).

10 I.e. a person subject to requirements under the Nuclear Industries Security Regulations 2003, SI 2003/403, reg 22 (as substituted): see PARAS 1558-1559 ante.

13 Ibid reg 3(4).

14 I.e. other than the functions referred to in ibid reg 3(1), (3), (4): see the text and notes 1-6, 12-13 supra.

15 Ibid reg 3(5).

16 Ibid reg 4(1).

17 Ibid reg 4(2)(a).

18 Ibid reg 4(3).

UPDATE

1560-1561 Enforcement of the Nuclear Industries Security Regulations 2003 and offences under those regulations, Fees payable for regulation of nuclear industries security

Certain functions under provisions mentioned in these paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/F. PROHIBITION OF DISCLOSURES/(A) Disclosures relating to Nuclear Security/1562. Prohibition of disclosures relating to nuclear security.

F. PROHIBITION OF DISCLOSURES

(A) DISCLOSURES RELATING TO NUCLEAR SECURITY

1562. Prohibition of disclosures relating to nuclear security.

A person is guilty of an offence if he discloses¹ any information or thing the disclosure of which might prejudice the security:

- 4275 (1) of any nuclear site²; or
- 4276 (2) of any nuclear material³;
- 399
- 579. (a) which is being held on any nuclear site; or
- 580. (b) anywhere in the world which is being transported to or from a nuclear site or carried on board a British ship⁴,
- 400
- 4277 including nuclear material which is expected to be so held, transported or carried⁵,

with the intention of prejudicing that security, or being reckless as to whether the disclosure might prejudice that security⁶. A person guilty of such an offence is liable on conviction on indictment to imprisonment for a term not exceeding seven years or a fine, or to both, and on summary conviction to imprisonment for a term not exceeding six months⁷ or a fine not exceeding the statutory maximum, or to both⁸. Proceedings for such an offence may not be instituted in England and Wales except by or with the consent of the Attorney General⁹.

These provisions apply to acts done outside the United Kingdom, but only if they are done by a United Kingdom person¹⁰; but this does not affect any criminal liability otherwise arising¹¹. Proceedings for an offence committed outside the United Kingdom may be taken, and the offence may for incidental purposes be treated as having been committed, in any place in the United Kingdom¹².

1 For these purposes, 'disclose' and 'disclosure', in relation to a thing, include parting with possession of it: Anti-terrorism, Crime and Security Act 2001 s 79(4).

2 For these purposes, 'nuclear site' means a site in the United Kingdom (including a site occupied by or on behalf of the Crown) which is (or is expected to be) used for any purpose mentioned in the Nuclear Installations Act 1965 s 1(1) (as amended) (see PARA 1487 ante): Anti-terrorism, Crime and Security Act 2001 s 79(4).

3 For the meaning of 'nuclear material' see PARA 1528 note 3 ante (definition applied by ibid s 79(4) (amended for this purpose by the Energy Act 2004 s 69(1), Sch 14 para 10(2)).

4 For these purposes, 'British ship' means a ship (including a ship belonging to Her Majesty) which is registered in the United Kingdom: Anti-terrorism, Crime and Security Act 2001 s 79(4). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

5 See ibid s 79(2).

6 Ibid s 79(1).

7 As from a day to be appointed this maximum term of imprisonment is to be increased to a maximum term of 12 months (see the Criminal Justice Act 2003 ss 281(7), 282(2), (3) (not in force); although this does not affect the penalty for any offence committed before that day (see s 282(4) (not in force). See further CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (Reissue) PARA 1121. At the date at which this title states the law, no such day had been appointed.

8 Anti-terrorism, Crime and Security Act 2001 s 79(3).

9 Ibid s 81(1)(a).

10 Ibid s 79(5). For the purposes of Pt 8 (ss 77-81) (as amended), 'United Kingdom person' means a United Kingdom national, a Scottish partnership or a body incorporated under the law of any part of the United Kingdom: s 81(2). For this purpose a United Kingdom national is an individual who is (1) a British citizen, a British overseas territories citizen, a British National (Overseas) or a British Overseas citizen; (2) a person who under the British Nationality Act 1981 is a British subject; or (3) a British protected person within the meaning of that Act: Anti-terrorism, Crime and Security Act 2001 s 81(3) (amended by virtue of the British Overseas Territories Act 2002 s 2(3)). As to British citizenship see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARAS 23-43; as to British overseas territories citizenship see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARAS 44-57; as to the status of British National (Overseas) see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARAS 63-65; as to British overseas citizenship see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARAS 58-62; as to British subjects under the British Nationality Act 1981 see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARAS 66-71; and as to British protected persons within the meaning of s 50(1) see BRITISH NATIONALITY, IMMIGRATION AND ASYLUM vol 4(2) (2002 Reissue) PARAS 72-76.

11 Anti-terrorism, Crime and Security Act 2001 s 79(7).

12 Ibid s 79(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/F. PROHIBITION OF DISCLOSURES/(B) Disclosures of Uranium Enrichment Technology/1563. Prohibition of disclosures of uranium enrichment technology.

(B) DISCLOSURES OF URANIUM ENRICHMENT TECHNOLOGY

1563. Prohibition of disclosures of uranium enrichment technology.

The Secretary of State¹ may make regulations² prohibiting the disclosure³ of any information⁴ about the enrichment of uranium⁵ or of any information or thing which is, or is likely to be, used in connection with the enrichment of uranium⁶. The regulations may, in particular, provide for:

- 4278 (1) a prohibition to apply, or not to apply, to such information or things, and in such cases or circumstances, as may be prescribed⁷;
- 4279 (2) the authorisation by the Secretary of State of disclosures that would otherwise be prohibited⁸; and
- 4280 (3) defences to an offence⁹ relating to any prohibition¹⁰.

The regulations may:

- 4281 (a) provide for any prohibition to apply to acts done outside the United Kingdom¹¹ by United Kingdom persons¹²;
- 4282 (b) make different provision for different purposes; and
- 4283 (c) make such incidental, supplementary and transitional provision as the Secretary of State thinks fit¹³.

Subject to the statutory exceptions¹⁴, no person within the United Kingdom, and no United Kingdom person outside the United Kingdom, may disclose to any person anywhere in the world any of the following equipment¹⁵ or software, namely:

- 4284 (i) enrichment equipment¹⁶;
- 4285 (ii) any equipment specifically designed or adapted to be used to manufacture enrichment equipment;
- 4286 (iii) any equipment specifically designed or adapted to be used to adapt any equipment which, following its adaptation, remains or becomes enrichment equipment;
- 4287 (iv) any equipment specifically designed or adapted to be used to test the proper working of enrichment equipment; and
- 4288 (v) any software specifically designed or adapted to be used in connection with the use of any equipment falling within any of heads (i) to (iv) above,

with the intention of assisting or enabling, or being reckless¹⁷ as to whether the disclosure might assist or enable, any person, whether the person to whom the disclosure is made or any other person, to undertake a specified activity¹⁸. Nor, subject to those exceptions, may such a person disclose to any person anywhere in the world any of the following information¹⁹, namely any information where, in any such case as is mentioned in heads (A) to (D) below, the

information would assist or enable a specified activity²⁰ to be undertaken, being information about:

- 4289 (A) any equipment or software to which heads (i) to (v) above apply or the construction, testing or evaluation of such equipment;
- 4290 (B) any equipment or software which is no longer in existence but, during its existence, was equipment or software to which heads (i) to (v) above applied;
- 4291 (C) any design for any equipment or software which, were it to be manufactured or produced in accordance with the design, would be equipment or software to which heads (i) to (v) above apply; and
- 4292 (D) the method of use of any equipment or software mentioned in any of heads (A) to (C) above,

with the intention of assisting or enabling, or being reckless as to whether the disclosure might assist or enable, any person, whether the person to whom the disclosure is made or any other person, to undertake a specified activity²¹.

A person who contravenes such a prohibition²² is guilty of an offence and is liable on conviction on indictment to imprisonment for a term not exceeding seven years or a fine, or to both, and on summary conviction to imprisonment for a term not exceeding six months²³ or a fine not exceeding the statutory maximum, or to both²⁴. Proceedings for such an offence may not be instituted in England and Wales except by or with the consent of the Attorney General²⁵.

Proceedings for such an offence alleged to have been committed outside the United Kingdom may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom²⁶. In addition and without prejudice to any powers which a court may possess to order the exclusion of the public from any proceedings, the court may, upon application by the prosecution in the course of proceedings for such an offence, order all or any portion of the public to be excluded during any part of the hearing if it considers that the publication of any evidence to be given or of any statement to be made in the course of the hearing would be prejudicial to national security; but the passing of sentence must in any case take place in public²⁷. In proceedings for such an offence relating to the disclosure of information, it is not to be necessary to prove that, at the time of the disclosure, the information had not been made available to the general public²⁸ unless the defence adduces evidence to the contrary²⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The power to make the regulations is exercisable by statutory instrument: Anti-terrorism, Crime and Security Act 2001 s 80(6). The regulations may not be made unless a draft of the regulations has been laid before and approved by each House of Parliament: s 80(7).

3 For these purposes, 'disclosure', in relation to a thing, includes parting with possession of it: *ibid* s 80(8).

4 For these purposes, 'information' includes software: *ibid* s 80(8).

5 For this purpose 'the enrichment of uranium' means any treatment of uranium that increases the proportion of the isotope 235 contained in the uranium: *ibid* s 80(1).

6 *Ibid* s 80(1), (2). In the exercise of this power, the Secretary of State has made the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, which came into force on 11 August 2004: see reg 1(1). See the text and notes 14-20, 24-27 *infra*; and PARAS 1564-1565 *post*.

7 Anti-terrorism, Crime and Security Act 2001 s 80(4)(a). 'Prescribed' means specified or described in the regulations: s 80(8).

8 *Ibid* s 80(4)(b).

9 I.e. an offence under *ibid* s 80(3): see the text and notes 21-22 *infra*.

- 10 Ibid s 80(4)(c).
- 11 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.
- 12 For the meaning of 'United Kingdom person' see PARA 1562 note 10 ante.
- 13 Anti-terrorism, Crime and Security Act 2001 s 80(5).
- 14 Ie subject to the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 3 (exempt disclosures): see PARA 1564 post. See also reg 4 (authorisation of disclosures); and PARA 1565 post.
- 15 'Equipment' includes (1) a component of equipment; and (2) buildings: ibid reg 1(2).
- 16 'Enrichment equipment' means equipment which is (1) specifically designed or adapted for use in connection with the enrichment of uranium; or (2) not so designed or adapted but likely to be of exceptional use in that connection: ibid reg 1(2).
- 17 For these purposes, a person is reckless as to whether a disclosure made by him might assist or enable any person who is undertaking or proposes to undertake a specified activity to undertake that activity if (1) at the time he makes the disclosure: (a) he has recognised that the disclosure would create a risk that any person who is undertaking or proposes to undertake a specified activity might be assisted or enabled to undertake that activity; or (b) he is indifferent as to whether the disclosure would create such a risk or not; or (2) the disclosure creates an obvious risk that any person who is undertaking or proposes to undertake a specified activity might be assisted or enabled to undertake that activity, but at the time he makes the disclosure he has failed to give any thought to the possibility that the disclosure would create such a risk: ibid reg 2(2).
'Specified activity' means any of the following activities: (1) treating uranium to increase the proportion of the isotope 235 contained in the uranium; (2) manufacturing enrichment equipment; (3) adapting equipment which, following its adaptation, remains or becomes enrichment equipment; (4) testing or evaluating the proper working of enrichment equipment: ibid reg 1(2).
- 18 Ibid reg 2(1), (3).
- 19 For these purposes, 'information' does not include software: reg 1(2).
- 20 See note 17 supra.
- 21 Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 2(1), (3), (4).
- 22 Ie a prohibition to which regulations made under the Anti-terrorism, Crime and Security Act 2001 s 80 apply.
- 23 As from a day to be appointed this maximum term of imprisonment is to be increased to a maximum term of 12 months (see the Criminal Justice Act 2003 ss 281(7), 282(2), (3) (not in force); although this does not affect the penalty for any offence committed before that day (see s 282(4) (not in force). See further CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (Reissue) PARA 1121. At the date at which this title states the law, no such day had been appointed.
- 24 Anti-terrorism, Crime and Security Act 2001 s 80(3).
- 25 Ibid s 81(1)(a).
- 26 Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 7(1).
- 27 Ibid reg 7(2).
- 28 Ie as provided in ibid reg 3(3): see PARA 1564 post.
- 29 Ibid reg 7(3).

UPDATE

1563 Prohibition of disclosures of uranium enrichment technology

TEXT AND NOTES--See also Anti-terrorism, Crime and Security Act 2001 s 80A (added by Energy Act 2008 s 101), which relates to the securing of sensitive nuclear information pertaining to uranium enrichment.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/F. PROHIBITION OF DISCLOSURES/(B) Disclosures of Uranium Enrichment Technology/1564. Exempt disclosures.

1564. Exempt disclosures.

The statutory prohibition on the disclosure of prescribed equipment, software and information¹ does not prohibit disclosure if:

- 4293 (1) it is made with the intention of assisting or enabling the proper working of enrichment equipment² to be tested for the purpose of enabling or facilitating, or evaluated in the course of, the carrying out of any functions of:
- 401
- 581. (a) the Health and Safety Executive³;
 - 582. (b) the Environment Agency⁴;
 - 583. (c) Euratom⁵; or
 - 584. (d) the International Atomic Energy Agency ('the IAEA')⁶; or
- 402
- 4294 (2) it is made:
- 403
- 585. (a) for the purpose of enabling an application for a patent to be filed in the Patent Office⁷; or
 - 586. (b) for the purpose of enabling such an application to be amended; or
 - 587. (c) in the course of the filing or amendment of such an application; or
 - 588. (d) by a person acting in the course of his duties in respect of such applications under the authority or direction of the Comptroller-General of Patents, Designs and Trade Marks⁸; or
- 404
- 4295 (3) it consists of information⁹ contained in an application for a patent and was made not less than six weeks after the application was filed in the Patent Office and no directions prohibiting or restricting its publication on the grounds of national security or public safety have been given¹⁰ in relation to the application or all such directions have been revoked; or
- 4296 (4) it is made:
- 405
- 589. (a) for the purpose of enabling an application for a patent, or other protection for an invention, to be filed outside the United Kingdom under the law of a country other than the United Kingdom or under a treaty or international convention to which the United Kingdom is a party; or
 - 590. (b) for the purpose of enabling such an application to be amended; or
 - 591. (c) in the course of the filing or amendment of such an application,
- 406
- 4297 where the Comptroller-General of Patents, Designs and Trade Marks has granted written authority for the filing¹¹; or
- 4298 (5) it is made by a United Kingdom person¹² outside the United Kingdom acting in the course of his duties in respect of applications for patents, or other protections for inventions, filed outside the United Kingdom under the law of a country other than the United Kingdom or under a treaty or international convention, whether it is one to which the United Kingdom is a party or not; or
- 4299 (6) it constitutes:

407

592. (a) an activity which is authorised by a licence granted in accordance with any provision made under the Export Control Act 2002; or

593. (b) an export which is authorised by or under the relevant provision of the European regulation setting up a Community regime for the control of exports of dual-use items and technology¹³; or

594. (c) a transfer which is authorised under the relevant provision¹⁴ of that regulation; or

595. (d) anything which is the subject of a prohibition imposed by an Order in Council under the specified provision of the United Nations Act 1946¹⁵ but which is permitted or authorised by means of the exercise of a power conferred by such an order; or

408

4300 (7) it is authorised¹⁶ by the Secretary of State¹⁷.

Furthermore, that prohibition does not prohibit disclosure of equipment or software by parting with possession of it to the extent that the person making the disclosure:

4301 (i) has the intention of assisting or enabling, or is reckless¹⁸ as to whether the disclosure might assist or enable, another person to undertake a specified activity¹⁹; and

4302 (ii) both believes and has reasonable cause to believe that the undertaking of the specified activity by that other person is supported or approved by the Secretary of State²⁰.

Nor does it prohibit:

4303 (A) disclosure of information which, at the time of the disclosure, has previously been made available to the general public anywhere in the world otherwise than in contravention of the relevant statutory prohibition²¹ or of any other prohibition breach of which was an offence at the time when it was so made available, including, in a case in which it was made available outside but not within the United Kingdom, an offence under the law of one or more of the places where it was made available²²;

4304 (B) the doing of any thing the prohibition of which would be contrary to a Community obligation of the United Kingdom²³.

1 Ie the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 2: see PARA 1563 ante.

8 As to the Comptroller General of Patents, Designs and Trade Marks see PATENTS AND REGISTERED DESIGNS vol 79 (2008) PARA 577.

- 9 For the meaning of 'information' see PARA 1563 note 19 ante.
- 10 Ie under the Patents Act 1977 s 22 (as amended): see PATENTS AND REGISTERED DESIGNS vol 79 (2008) PARA 335.
- 11 Ie under ibid s 23(1) (as amended): see PATENTS AND REGISTERED DESIGNS vol 79 (2008) PARA 337.
- 12 For the meaning of 'United Kingdom person' see PARA 1562 note 10 ante.
- 13 Ie which is authorised by or under EC Council Regulation 1334/2000 (OJ L159, 30.6.2000, p 1) art 6.
- 14 Ie which is authorised under ibid art 21.
- 15 Ie under the United Nations Act 1946 s 1(1): see INTERNATIONAL RELATIONS LAW vol 61 (2010) PARA 526.
- 16 Ie under the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 4(1): see PARA 1565 post.
- 17 Ibid reg 3(1).
- 18 For the meaning of 'reckless' for these purposes see PARA 1563 note 17 ante.
- 19 For the meaning of 'specified activity' see PARA 1563 note 17 ante.
- 20 Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 3(2).
- 21 Ie in contravention of the Anti-terrorism, Crime and Security Act 2001 s 80(3): see PARA 1563 ante.
- 22 Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 3(3).
- 23 Ibid reg 3(4).

Notwithstanding the Electronic Commerce (EC Directive) Regulations 2002, SI 2002/2013, reg 3(2) (substituted by SI 2004/1178), those 2002 Regulations apply for the purposes of the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818: reg 8.

UPDATE

1564 Exempt disclosures

NOTE 13--Regulation 1334/2000 replaced in relation to export authorisation applications made on or after 27 August 2009: EC Council Regulation 428/2009 setting up a Community regime for the control of exports, transfer, brokering and transit of dual-use items (OJ L134, 29.5.2009 p 1); references to the repealed regulation should be construed as references to Regulation 428/2009: art 27.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(ii) Regulation of Security of the Civil Nuclear Industry/F. PROHIBITION OF DISCLOSURES/(B) Disclosures of Uranium Enrichment Technology/1565. Authorisation of disclosures.

1565. Authorisation of disclosures.

On the application¹ of any person or otherwise, the Secretary of State² may authorise any individual disclosure, or any class of disclosure, which would otherwise be prohibited by the statutory prohibition³ on the disclosure of prescribed equipment, software and information⁴. In the case of an application, an authorisation is to be granted by written notice to the applicant, and such other persons as the Secretary of State thinks fit⁵; and in any other case, it is to be granted by written notice to such persons as the Secretary of State thinks fit⁶. In any case, an authorisation may be granted for such duration and subject to such conditions as the Secretary of State thinks fit⁷.

The Secretary of State may require:

- 4305 (1) the provision in writing by the applicant for an authorisation of such additional information as he may consider necessary to enable him to decide whether to grant the authorisation; and
- 4306 (2) the verification of any information provided by the applicant in connection with the application in such manner as the Secretary of State may specify⁸.

Where on an application for an authorisation the Secretary of State proposes not to grant the authorisation, he must give the applicant written notice of his proposal and of the reasons for it⁹. The applicant may make written representations to the Secretary of State within the period of 28 days following the date on which that notice is given¹⁰; and the Secretary of State must take into account any such representations before deciding whether to grant the authorisation¹¹.

If the Secretary of State decides not to grant the authorisation, he must give the applicant written notice of his decision and of the reasons for it¹².

Where the applicant for an authorisation:

- 4307 (a) makes any statement or provides any information which is false or misleading in a material particular; or
- 4308 (b) omits any information which is material to his application;

and the authorisation is granted, then in any such circumstances the authorisation is void, as regards the applicant, from the time it was granted, and as regards any other person, it is void from the time he knew or should reasonably have become aware of those circumstances¹³.

The Secretary of State may withdraw or vary an authorisation by written notice to each person to whom notice of the authorisation was given¹⁴ (an 'interested party')¹⁵. Such a notice must specify the reasons for the decision to withdraw or vary the authorisation, as the case may be¹⁶. The withdrawal or variation of an authorisation is to take effect for each interested party upon the receipt by him of the notice so given¹⁷. An interested party may make representations to the Secretary of State within 28 days of the date on which that notice is given to him¹⁸; and the Secretary of State must take into account any such representations before reaching a decision

whether to set aside or vary the notice so given, and must give written notice to every interested party of his decision¹⁹. Such a decision has immediate effect²⁰. A decision²¹ to vary a notice withdrawing or varying an authorisation²² does not cause any disclosure not to be authorised which would have been authorised if the notice had not been varied²³. Where an interested party, in making representations under the above provisions:

- 4309 (i) makes any statement or provides any information which is false or misleading in a material particular; or
- 4310 (ii) omits any information which is material to his representations,

and the notice withdrawing or varying an authorisation²⁴ is set aside or varied²⁵, then in any such circumstances any decision by the Secretary of State²⁶ to set aside or vary the notice is void, as regards the interested party, from the time the decision was made, and as regards any other person, it is void from the time that person knew or should reasonably have become aware of those circumstances²⁷.

1 A 'written document' (ie an application, information, a representation or a notice under the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 4 or 5: see the text and notes 2-27 *infra*) may be sent or given to the intended recipient by (1) delivering it to him; or (2) leaving it at his proper address; or (3) sending it to him at that address by post or other means: reg 6(1), (2). No written document may be sent or given by means of an electronic communication unless either the intended recipient has indicated that he is willing to receive it in that form, or it is sent in response to a previous electronic communication and the intended recipient has not indicated that it should not be given or sent in that form: reg 6(3). A written document may be sent or given (a) to a body corporate by being sent or given to its secretary or clerk; (b) to a firm by being given or sent to a partner in the firm or a person having management or control of the partnership business; (c) to an unincorporated body by being sent or given to a member of its governing body: reg 6(4).

For these purposes and the purposes of the Interpretation Act 1978 s 7 in its application to these provisions, the proper address (except in a case falling within the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 6(7)) of (i) the Secretary of State is the address of the principal office of the holder of the office of Secretary of State who for the time being exercises the functions of the Secretary of State under regs 4, 5; (ii) a body corporate is the address of its registered or principal office; (iii) a firm or unincorporated body is the address of its principal office; (iv) any other person is his last known address: reg 6(5). Where, by virtue of reg 6(1)-(5), the proper address of the intended recipient of a written document is outside the United Kingdom, references in reg 6 to the proper address of (A) a body corporate, firm or unincorporated body include its principal office (if any) in the United Kingdom; (B) any other person include his last known address in the United Kingdom (unless he is known no longer to have an address in the United Kingdom): reg 6(6). Where a written document is to be given or sent by means of an electronic communication, the proper address of any person includes the number or address which he has indicated is to be used by him for receipt of the communication: reg 6(7). 'Electronic communication' means a communication transmitted either by means of an electronic communications network, or by other means but while in electronic form: reg 6(1). For the meaning of 'United Kingdom' see PARA 602 note 7 *ante*.

2 As to the Secretary of State see PARA 601 note 1 *ante*.

3 Ie by the Uranium Enrichment Technology (Prohibition on Disclosure) Regulations 2004, SI 2004/1818, reg 2: see PARA 1563 *ante*.

4 *Ibid* reg 4(1). For the meanings of 'equipment' and 'information' see PARA 1563 notes 15, 19 *ante*.

5 *Ibid* reg 4(2)(a). As to the notice see note 1 *supra*.

6 *Ibid* reg 4(2)(b). As to the notice see note 1 *supra*.

7 *Ibid* reg 4(2)(c).

8 *Ibid* reg 4(3). As to provision of the information see note 1 *supra*.

9 *Ibid* reg 4(4). As to the notice see note 1 *supra*.

10 *Ibid* reg 4(5). As to the representations see note 1 *supra*.

- 11 Ibid reg 4(6).
- 12 Ibid reg 4(7). As to the notice see note 1 supra.
- 13 Ibid reg 4(8), (9).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1566. Power to obtain information under the Atomic Energy Act 1946.

(iii) Other Provisions relating to Security, Secrecy and Information

A. OBTAINING AND DISCLOSURE OF INFORMATION

1566. Power to obtain information under the Atomic Energy Act 1946.

The Secretary of State¹ may by written notice² require a person to make such periodical and other returns, at such times and containing such particulars and accompanied by such plans, drawings and other documents as may be specified in the notice:

- 4311 (1) of any prescribed substance³ specified in the notice which is in his possession or under his control⁴;
- 4312 (2) of any minerals⁵ so specified in his possession or under his control or present in or on land owned or occupied by him, being minerals from which in the Secretary of State's opinion any of the prescribed substances can be obtained⁶;
- 4313 (3) of any plant⁷ in his possession or under his control designed or adapted for the production or use of atomic energy⁸ or research into matters connected with it⁹;
- 4314 (4) of any contract entered into by him or any licence granted by or to him relating to the production or use of atomic energy or research into matters connected with it¹⁰; and
- 4315 (5) of any other information in his possession relating to any work carried out by him or on his behalf or under his direction in connection with the production or use of atomic energy or research into matters connected with it¹¹.

Any person who fails to comply with any such notice served on him or knowingly or recklessly makes any untrue statement in any return made in pursuance of any such notice is guilty of an offence¹².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 The notice must be served upon the person required to make the returns etc: Atomic Energy Act 1946 s 4(1). As to the service of notices see PARA 1589 post.

3 For the meaning of 'prescribed substance' see PARA 1425 note 3 ante.

4 Atomic Energy Act 1946 s 4(1)(a).

5 For the meaning of 'minerals' see PARA 1366 note 14 ante.

6 Atomic Energy Act 1946 s 4(1)(b).

7 For the meaning of 'plant' see PARA 1427 note 11 ante.

8 For the meaning of 'atomic energy' see PARA 1357 note 1 ante; and as to its production or use see PARA 1366 note 3 ante.

9 Atomic Energy Act 1946 s 4(1)(c).

10 Ibid s 4(1)(d).

11 Ibid s 4(1)(e).

12 Ibid s 4(2). As to prosecutions and penalties see s 14 (as amended); and PARAS 1582, 1586, 1588 post; and for the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11. As to the power of the Environment Agency to require information as a condition of allowing premises to be registered under the Radioactive Substances Act 1993 see s 7(1) (as amended); and PARA 1442 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1567. Public access to documents and records under the Radioactive Substances Act 1993.

1567. Public access to documents and records under the Radioactive Substances Act 1993.

The Environment Agency ('the Agency')¹ must keep copies of:

- 4316 (1) all applications made to it under any provision of the Radioactive Substances Act 1993²;
- 4317 (2) all documents issued by it under any provision of that Act³;
- 4318 (3) all other documents sent by it to any local authority⁴ in pursuance of directions of the Secretary of State or the Welsh Ministers⁵; and
- 4319 (4) such records of convictions⁶ as may be prescribed⁷ in regulations⁸.

The Agency must make copies of those documents available to the public except to the extent that this would involve the disclosure of information relating to any relevant process⁹ or trade secret or would involve the disclosure of applications or certificates as respects which the Secretary of State has directed, or he and the Welsh Ministers have jointly directed¹⁰, that knowledge should be restricted on grounds of national security¹¹.

Each local authority must keep and make available to the public copies of all documents sent to the authority under any provision of the Radioactive Substances Act 1993 unless directed by the Agency that all or any part of any such document is not to be available for inspection¹².

Copies of documents so required to be made available to the public by the Agency¹³ or by a local authority¹⁴ need not be kept in documentary form¹⁵. The public has the right to inspect such documents at all reasonable times and, on payment of a reasonable fee, to be provided with a copy of any such document¹⁶.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 Radioactive Substances Act 1993 s 39(1)(a) (s 39(1) amended by the Environment Act 1995 s 120, Sch 22 paras 200, 223(1)).

3 Radioactive Substances Act 1993 s 39(1)(b) (as amended: see note 2 supra).

4 For the meaning of 'local authority' see PARA 1442 note 10 ante.

5 Radioactive Substances Act 1993 s 39(1)(c) (as amended: see note 2 supra). As to the power of the Secretary of State or the Welsh Ministers to direct the Agency to send certain particulars to specified local authorities under s 23(4) (as amended) see PARA 1468 ante; and as to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 ante.

6 Ie under ibid ss 32-34 (as amended) (see PARAS 1571, 1584 post) or s 35 (repealed).

7 Ie prescribed by regulations: see PARA 1439 note 19 ante. See also note 8 infra. The prescribed records are records specifying in relation to each conviction the offence, the name of the offender, the date of conviction,

the penalty imposed and the name of the court: Radioactive Substances (Records of Convictions) Regulations 1992, SI 1992/1685, reg 2; and see note 8 *infra*.

8 Radioactive Substances Act 1993 s 39(1)(d) (as amended: see note 2 *supra*). At the date at which this title states the law, no such regulations had been made, but the Radioactive Substances (Records of Convictions) Regulations 1992, SI 1992/1685 (see note 7 *supra*) have effect as if so made by virtue of the Radioactive Substances Act 1993 s 49(2), Sch 5 paras 1, 4; and the Interpretation Act 1978 s 17(2)(b). The power to make regulations under the Radioactive Substances Act 1993 s 39(1) (as amended) is exercisable by the Welsh Ministers concurrently with the Secretary of State: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1. As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 *ante*.

9 'Relevant process' means any process applied for the purposes of, or in connection with, the production or use of radioactive material: Radioactive Substances Act 1993 s 34(3) (definition applied by s 39(6)). For the meaning of 'radioactive material' see PARA 1439 *ante*.

10 *Ie* directed under *ibid* s 25 (as amended): see PARA 1572 *post*.

11 *Ibid* s 39(1) (as amended: see note 2 *supra*).

12 *Ibid* s 39(2) (amended by the Environment Act 1995 s 120, Sch 22 paras 200, 223(2), Sch 24). Directions under the Radioactive Substances Act 1993 s 39(2) (as amended) may only be given for the purpose of preventing disclosure of relevant processes or trade secrets and may be given generally in respect of all, or any description of, documents or in respect of specific documents: s 39(3).

13 *Ie* required to be made available under *ibid* s 39(1) (as amended).

14 *Ie* required to be made available under *ibid* s 39(2) (as amended).

15 *Ibid* s 39(4).

16 *Ibid* s 39(5). As to the application of s 39 to Northern Ireland see s 39(7).

UPDATE

1567-1568 Public access to documents and records under the Radioactive Substances Act 1993, Site records and disposal records

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1568. Site records and disposal records.

1568. Site records and disposal records.

The Environment Agency (the Agency')¹ may, by notice served on any person to whom a registration relates² or who holds an authorisation³, impose on him such requirements in relation to site records⁴, source transfer records⁵ or disposal records⁶ kept by that person as the Agency may specify in the notice⁷. The requirements that may be so imposed on a person are:

- 4320 (1) to retain copies of the records for a specified⁸ period after he has ceased to carry on the activities regulated by his registration or authorisation⁹; or
- 4321 (2) to furnish the Agency with copies of the records in the event of his registration being cancelled or his authorisation being revoked or in the event of his ceasing to carry on the activities regulated by his registration or authorisation¹⁰.

1 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

2 I.e. a registration under the Radioactive Substances Act 1993 s 7 (as amended) or s 10 (as amended): see PARAS 1442-1448 ante.

3 I.e. an authorisation under ibid s 13 or s 14: see PARAS 1450, 1452 ante.

4 'Records' means records required to be kept by virtue of the conditions attached to the registration or authorisation relating to the activities regulated by the registration or authorisation; and 'site records' means records relating to the condition of the premises on which those activities are carried on or, in the case of registration in respect of mobile radioactive apparatus, of any place where the apparatus is kept: ibid s 20(4). 'The activities regulated' by his registration or authorisation means (1) in the case of registration under s 7 (as amended), the keeping or use of radioactive material; (2) in the case of registration under s 10 (as amended), the keeping, using, lending or hiring of the mobile radioactive apparatus; (3) in the case of an authorisation under s 13, the disposal of radioactive waste; and (4) in the case of an authorisation under s 14, the accumulation of radioactive waste: s 20(4)(a)-(d). For the meaning of 'premises' see PARA 1439 note 1 ante; for the meaning of 'mobile radioactive apparatus' see PARA 1445 note 1 ante; for the meaning of 'radioactive waste' see PARA 1450 note 3 ante; and for the meaning of 'disposal' see PARA 1450 note 2 ante.

5 'Source transfer records' means records relating to the transfer of control of high-activity sources: ibid s 20(4) (definition added by the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 14(b)). For the meaning of 'high-activity source' see PARA 1439 note 3 ante.

6 'Disposal records' means records relating to the disposal of radioactive waste on or from the premises on which the activities are carried on: Radioactive Substances Act 1993 s 20(4).

7 Ibid s 20(1) (amended by the Environment Act 1995 s 120, Sch 22 para 200; the Energy Act 2004 s 75, Sch 15 paras 1, 4; the High-activity Sealed Radioactive Sources and Orphan Sources Regulations 2005, SI 2005/2686, reg 14(a)). As to the service of notices see PARA 1590 post.

8 'Specified' means specified in a notice under the Radioactive Substances Act 1993 s 20 (as amended): s 20(4).

9 Ibid s 20(2)(a).

10 Ibid s 20(2)(b) (amended by the Environment Act 1995 s 120, Sch 22 para 200).

UPDATE

1567-1568 Public access to documents and records under the Radioactive Substances Act 1993, Site records and disposal records

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1569. Public information for radiation emergencies.

1569. Public information for radiation emergencies.

Health and safety regulations¹ have been made by the Secretary of State under the Health and Safety at Work etc Act 1974 which implement a Euratom Council Directive laying down basic safety standards for the protection of the health of workers and the general public arising from ionising radiation². Those regulations make provision, among other matters, for giving prior information to members of the public likely to be affected by a radiation emergency³ and for every local authority to prepare, and keep up to date, arrangements to give information to members of the public in their area in the case of a radiation emergency⁴. The Secretary of State for Defence may disapply all or any provisions of the regulations with respect to the armed forces, visiting forces or any person working with ionising radiation for, or on behalf of, the Secretary of State for Defence⁵.

The relevant regulations are discussed in detail elsewhere in this work⁶.

1 See the Radiation (Emergency Preparedness and Public Information) Regulations 2001, SI 2001/2975 (as amended); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 668 et seq.

2 Ie Euratom Council Directive 96/29 (OJ L159, 29.6.96, p 1).

3 See the Radiation (Emergency Preparedness and Public Information) Regulations 2001, SI 2001/2975, reg 16.

4 See *ibid* reg 17.

5 See *ibid* reg 18 (as amended).

6 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 668 et seq.

UPDATE

1569 Public information for radiation emergencies

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1570. Communication of information by the European Commission.

1570. Communication of information by the European Commission.

The European Commission must communicate to member states, persons¹ and undertakings² information³ acquired by the European Atomic Energy Community ('Euratom'), whether such information is derived from Euratom's own research programme or communicated to the Commission with authority to make free use of it. The Commission may, however, make the disclosure of such information conditional on its being treated as confidential and not passed on to third parties. The Commission may not disclose information which has been acquired subject to restrictions on its use or dissemination (such as information known as classified information) unless it ensures compliance with these restrictions⁴. These provisions do not apply to information subject to a security grading⁵.

From the date of accession⁶, such information as has been communicated to member states, persons and undertakings in accordance with these provisions must be placed at the disposal of the United Kingdom, which must give it limited distribution within its territory under the conditions referred to above⁷.

1 'Person' means any natural person who pursues all or any of his activities in the territories of member states within the field specified in the relevant chapter of the Euratom Treaty: art 196(a). As to citation of the Euratom Treaty see PARA 1337 note 3 ante.

2 'Undertaking' means any undertaking or institution which pursues all or any of its activities in the territories of member states within the field specified in the relevant chapter of the Euratom Treaty, whatever its public or private legal status: art 196(b).

3 I.e. information which is not covered by the provisions of *ibid* art 12 (information over which the Community has power of disposal): art 13.

4 *Ibid* art 13. As to Euratom see PARAS 1337-1339 ante.

5 *Ibid* art 24(3).

6 The date of accession of the United Kingdom was 1 January 1973. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

7 Act of Accession Protocol 28 art 1(1).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1571. Unauthorised communication and disclosure of information.

1571. Unauthorised communication and disclosure of information.

Apart from anything done by or to the United Kingdom Atomic Energy Authority ('the UKAEA')¹, the communication of information concerning any existing or proposed plant² used or proposed to be used for the production or use of atomic energy³ to an unauthorised person is an offence unless it is done with the consent of the Secretary of State⁴.

Any person is guilty of an offence who, without the authority of the Secretary of State or the UKAEA, discloses any information obtained in the exercise of powers under the Atomic Energy Act 1946⁵, or, in contravention of certain provisions of the Health and Safety at Work etc Act 1974⁶, uses or discloses any information obtained in the exercise of powers under the Nuclear Installations Act 1965⁷.

Any person disclosing any information relating to any relevant process⁸ or trade secret used in carrying on any particular undertaking⁹ which has been given to or obtained by him under the Radioactive Substances Act 1993 or in connection with the execution of that Act is guilty of an offence unless the disclosure was made:

- 4322 (1) with the consent of the person carrying on that undertaking; or
- 4323 (2) in accordance with any general or special directions given by the Secretary of State or, in relation to Wales, by the Welsh Ministers¹⁰; or
- 4324 (3) under or by virtue of the specified provision of the Environment Act 1995¹¹; or
- 4325 (4) in connection with the execution of the Radioactive Substances Act 1993; or
- 4326 (5) for the purposes of any legal proceedings arising out of that 1993 Act, or of any report of any such proceedings¹².

1 Atomic Energy Authority Act 1954 s 6(4), Sch 3. As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

2 For the meaning of 'plant' see PARA 1427 note 11 ante.

3 For the meaning of 'atomic energy' see PARA 1357 note 1 ante.

4 See the Atomic Energy Act 1946 s 11; and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 499. The Secretary of State may by order grant exemption from s 11 in such classes of cases, and to such extent and subject to such conditions, as may be specified in the order: s 11(3). The communication of information about plant used or proposed to be used for certain scientific purposes, the method of operation of such plant, and the process operated therein, is so exempted: see the Atomic Energy (Disclosure of Information) (No 1) Order 1947, SR & O 1947/100. As to the restriction on publication of information in the case of all inventions relating to the production or use of atomic energy for which an application for a patent is made see the Patents Act 1977 s 22 (as amended); and PATENTS AND REGISTERED DESIGNS vol 79 (2008) PARAS 335-336. As to the Secretary of State see PARA 601 note 1 ante.

5 Atomic Energy Act 1946 s 13 (amended by the Atomic Energy Authority Act 1954 s 6(4), Sch 3). For the penalties for offences under the Atomic Energy Act 1946 see PARA 1588 post.

6 le the provisions of the Health and Safety at Work etc Act 1974 s 28 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 382.

7 See the Nuclear Installations Act 1965 s 24(2) (as substituted); and PARA 1518 ante. A person guilty of such an offence is liable on summary conviction to a fine not exceeding the prescribed sum, or on conviction on indictment to imprisonment for a term not exceeding two years, or a fine, or to both: Health and Safety at Work etc Act 1974 s 33(1)(j), (3)(a), (b)(i), (4)(e) (s 33(3)(a) amended by virtue of the Magistrates' Courts Act 1980 s 32(2)). As to the prescribed sum see PARA 613 note 20 ante.

8 For the meaning of 'relevant process' see PARA 1567 note 9 ante.

9 For the meaning of 'undertaking' see PARA 1439 note 2 ante.

10 As to the Secretary of State's or the Welsh Ministers' powers to give directions see PARAS 1468-1469 ante.

11 le the Environment Act 1995 s 113 (as amended) (disclosure of information): see ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 153.

12 Radioactive Substances Act 1993 s 34(1) (amended by the Environment Act 1995 s 120, Sch 22 para 220). Any person guilty of such an offence is liable on summary conviction to a fine not exceeding the statutory maximum or imprisonment for a term not exceeding three months, or to both, or on conviction on indictment to a fine or imprisonment for a term not exceeding two years, or to both: Radioactive Substances Act 1993 s 34(2). As to the statutory maximum see PARA 689 note 2 ante. As to the application of s 34 (as amended) to Northern Ireland see s 34(4).

UPDATE

1571-1572 Unauthorised communication and disclosure of information, Power to restrict knowledge of applications etc

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1571 Unauthorised communication and disclosure of information

NOTE 7--1974 Act s 33(3), (4) substituted: see further HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 353.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/A. OBTAINING AND DISCLOSURE OF INFORMATION/1572. Power to restrict knowledge of applications etc.

1572. Power to restrict knowledge of applications etc.

The Secretary of State or, in relation to Wales, the Secretary of State and the Welsh Ministers acting concurrently¹ may direct the Environment Agency ('the Agency')² that in his or their opinion, on grounds of national security, it is necessary that knowledge of such information as may be specified or described in the directions, being information contained in or relating to:

- 4327 (1) any particular application for registration as a user of radioactive material or mobile radioactive apparatus³ or applications of any description specified in the directions; or
- 4328 (2) any particular registration or registrations of any description so specified,

should be restricted⁴. He, or he and they, may also direct the Agency that in his or their opinion, on grounds of national security, it is necessary that knowledge of such information as may be specified or described in the directions, being information contained in or relating to:

- 4329 (a) any particular application for authorisation⁵ or for the transfer (in whole or in part) or variation of an authorisation or applications of any description specified in the directions; or
- 4330 (b) any particular authorisation⁶ or authorisations of any description so specified,

should be restricted⁷.

Where it appears to the Agency that an application, registration or authorisation is the subject of any such directions, the Agency must not send a copy of so much of the application or the certificate of registration or authorisation or notice of variation as contains the information specified or described in the directions to any local authority⁸ or to any public or local authority⁹, as the case may be¹⁰. No such direction, however, affects any power or duty of the Agency to consult the Food Standards Agency¹¹ or the information which is to be sent by the Agency to the Food Standards Agency¹².

¹ As to the Secretary of State and the Welsh Ministers, and the transfer of functions under the Radioactive Substances Act 1993 in relation to Wales, see PARA 601 note 1 ante. The functions of the Secretary of State under s 25 (as amended) are exercisable, in relation to Wales, concurrently with the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 2, Sch 1.

² The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

³ I.e. under the Radioactive Substances Act 1993 s 7 (as amended) or s 10 (as amended): see PARAS 1442-1448 ante.

⁴ Ibid s 25(1) (amended by the Environment Act 1995 s 120, Sch 22 paras 200, 213(1)).

⁵ I.e. under the Radioactive Substances Act 1993 s 13 (as amended) or s 14: see PARAS 1450, 1452 ante.

6 See note 5 *supra*.

7 Radioactive Substances Act 1993 s 25(2) (amended by the Environment Act 1995 s 120, Sch 22 paras 200, 213(2); the Energy Act 2004 s 75, Sch 15 paras 1, 9(1)).

8 le under any provision of the Radioactive Substances Act 1993 s 7 (as amended) or s 10 (as amended). For the meaning of 'local authority' see PARA 1442 note 10 *ante*.

9 le under any provision of *ibid* s 16 (as amended) (see PARAS 1453-1456 *ante*), s 16A (as added) (see PARA 1457 *ante*) or s 17 (as amended) (see PARA 1459 *ante*). For the meaning of 'public or local authority' see PARA 1439 note 2 *ante*.

10 *Ibid* s 25(3) (amended by the Environment Act 1995 s 120, Sch 22 paras 200, 213(3); the Energy Act 2004 s 75, Sch 15 paras 1, 9(2)).

11 As to the Food Standards Agency see FOOD vol 18(2) (Reissue) PARA 225 *et seq*.

12 Radioactive Substances Act 1993 s 25(3A) (added by the Environment Act 1995 s 120, Sch 22 para 213(4); amended by the Food Standards Act 1999 s 40(1), Sch 5 para 43(1), (5)(a)). As to the application of the Radioactive Substances Act 1993 s 25 (as amended) to Northern Ireland see s 25(4).

UPDATE

1571-1572 Unauthorised communication and disclosure of information, Power to restrict knowledge of applications etc

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/B. OFFICIAL SECRETS AND NATIONAL SECURITY/1573. Prohibited places and protected sites.

B. OFFICIAL SECRETS AND NATIONAL SECURITY

1573. Prohibited places and protected sites.

For the purposes of the provision of the Official Secrets Act 1911 which provides that places belonging to or used for the purposes of Her Majesty may be declared by order of the Secretary of State to be prohibited places for the purposes of that Act¹, any place belonging to or used for the purposes of the United Kingdom Atomic Energy Authority ('the UKAEA')², and any site to which a permit applies³, is deemed to be a place belonging to or used for the purposes of Her Majesty⁴. No person other than:

- 4331 (1) a constable acting in the execution of his duty as such; or
 - 4332 (2) an officer of her Majesty's Revenue and Customs, acting in the execution of his duty as such; or
 - 4333 (3) a person designated as an inspector of the International Atomic Energy Agency ('the IAEA')⁵ for the application of safeguards in the United Kingdom⁶ in connection with the Treaty on the Non-Proliferation of Nuclear Weapons⁷; or
 - 4334 (4) an officer of any government department specially authorised in that behalf by or on behalf of a Minister of the Crown or a member of staff of the Scottish Administration specially authorised in that behalf by or on behalf of the Scottish Ministers; or
 - 4335 (5) with respect only to a site to which a permit applies, an inspector appointed:
- 409
- 596. (a) under the Nuclear Installations Act 1965⁸; or
 - 597. (b) under the Health and Safety at Work etc Act 1974⁹ and specially authorised in that behalf by or on behalf of a Minister of the Crown,
- 410

is entitled to exercise any right of entry (whether arising by virtue of any statutory provision or otherwise) upon any place belonging to or used for the purposes of the Authority, or any such site, which is for the time being declared to be such a prohibited place, except with the consent of the Authority or a specified body corporate¹⁰ and in accordance with any conditions imposed by that Authority or that body¹¹. Any person aggrieved by a refusal by the Authority or the specified body corporate to consent to, or by such conditions imposed on, the exercise of any such right of entry may apply to the Secretary of State who may, if he thinks fit, himself authorise the exercise of the right subject to such conditions, if any, as he may think fit to impose¹².

Nuclear sites¹³ are protected sites for the purposes of the relevant provision of the Serious Organised Crime and Police Act 2005¹⁴ and trespassing on them is an offence under that Act¹⁵.

1 le the provisions of the Official Secrets Act 1911 s 3(c) (as amended): see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 479. For offences in relation to prohibited places see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 478.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 'Site to which a permit applies' means a site in respect of which a permit granted to the specified body corporate (see note 10 infra) by the Secretary of State as mentioned in the Nuclear Installations Act 1965 s 2(1B) (as added) (see PARA 1489 the text and note 4 ante) is for the time being in force: s 2(1B) (as added), Sch 1 para 1 (Sch 1 added by the Atomic Energy Authority Act 1971 s 17(6), Schedule). As to the Secretary of State see PARA 601 note 1 ante.

4 Atomic Energy Authority Act 1954 s 6(3); Nuclear Installations Act 1965 Sch 1 para 3(1) (as added: see note 3 supra). The following places and sites have been declared by the Secretary of State to be prohibited places: (1) the British Nuclear Fuels plc site at Sellafield, Seascale, Cumbria, CA20 1PG; (2) the British Nuclear Fuels plc site at Capenhurst, near Chester, Cheshire, CH1 6ER; (3) the Urenco (Capenhurst) Limited site at Capenhurst, near Chester, Cheshire, CH1 6ER; (4) the UKAEA site at Harwell, Didcot, Oxfordshire, OX11 0RA; and (5) the UKAEA site at Windscale, Seascale, Cumbria, CA20 1PF: see the Official Secrets (Prohibited Places) Order 1994, SI 1994/968, art 3, Schedule Pts I, II.

5 Ie a person designated under the Safeguards Agreement made at Vienna on 6 September 1976 (Cmnd 6730) art 85 or under the Additional Protocol signed at Vienna on 22 September 1998 (Cm 4282) art 11: see PARA 1341 ante. As to the IAEA see PARA 1354 ante.

6 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

7 As to the Treaty on the Non-Proliferation of Nuclear Weapons see PARA 1341 ante.

8 Ie an inspector appointed under the Nuclear Installations Act 1965 s 24 (as substituted and amended): see PARAS 1362, 1518 ante.

9 Ie an inspector appointed by the Health and Safety Executive under the Health and Safety at Work etc Act 1974 s 19: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375. As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

10 In relation to an order made under the Nuclear Installations Act 1965 s 2 (as amended) (see PARA 1489 ante), 'specified body corporate' means the body corporate specified in that order, as being a body to whom the Secretary of State has granted a permit as mentioned in s 2(1B) (as added): Sch 1 para 1 (as added: see note 3 supra).

11 Atomic Energy Authority Act 1954 s 6(3) (amended by the Nuclear Safeguards and Electricity (Finance) Act 1978 s 2(3); the Nuclear Safeguards Act 2000 s 11(1); and by the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2 Pt I para 28); Nuclear Installations Act 1965 Sch 1 para 3(2) (as added (see note 3 supra); amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 1(1)(b), Sch 2 para 7; the Nuclear Safeguards and Electricity (Finance) Act 1978 s 2(3); the Nuclear Safeguards Act 2000 s 11(2); and by the Scotland Act 1998 (Consequential Modifications) (No 2) Order 1999, SI 1999/1820, art 4, Sch 2 Pt I para 38(1), (5)).

12 Atomic Energy Authority Act 1954 s 6(3) proviso; Nuclear Installations Act 1965 Sch 1 para 3(2) proviso (as added: see note 3 supra).

13 For the meaning of 'nuclear site' for these purposes see the Serious Organised Crime and Police Act 2005 s 128(1B), (1C) (as added); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2007 Reissue) PARA 554.

14 Ie for the purposes of the Serious Organised Crime and Police Act 2005 s 128 (as amended): see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 554.

15 See CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 554.

UPDATE

1573 Prohibited places and protected sites

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/B. OFFICIAL SECRETS AND NATIONAL SECURITY/1574. Official secrets.

1574. Official secrets.

For the purposes of the provisions of the Official Secrets Act 1989 relating to the wrongful disclosure of information, documents or other articles¹, the following are Crown servants:

- 4336 (1) members, officers and employees of the United Kingdom Atomic Energy Authority ('the UKAEA')²;
- 4337 (2) the board members and employees of British Nuclear Fuels plc³, Urenco Limited, Urenco (Capenhurst) Limited, Enrichment Technology Company Limited, Enrichment Technology UK Limited, and Urenco Enrichment Company Limited;
- 4338 (3) the members and employees of the Nuclear Decommissioning Authority ('the NDA')⁴ and the employees and board members of any subsidiary of the NDA⁵.

Any constable and any other person employed or appointed in or for the purposes of the Civil Nuclear Constabulary⁶ is also a Crown servant for those purposes⁷, as are the members and employees of the Independent Police Complaints Commission⁸.

¹ I.e. the provisions of the Official Secrets Act 1989 ss 1-5, 7, 8 (as amended): see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 483 et seq.

² As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

³ As to British Nuclear Fuels plc see PARA 1377 et seq ante.

⁴ As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 post.

⁵ See the Official Secrets Act 1989 ss 12(1)(f), 13(1); the Official Secrets Act 1989 (Prescription) Order 1990, SI 1990/200, art 2, Sch 1 (amended by SI 1993/847; SI 2003/1918; SI 2007/2148).

⁶ As to the Civil Nuclear Constabulary see PARA 1520 et seq ante.

⁷ See the Official Secrets Act 1989 s 12(1)(e) (as amended), s 12(4A) (added by the Energy Act 2004 s 69(1), Sch 14 para 6).

⁸ See the Official Secrets Act 1989 (Prescription) Order 1990, SI 1990/200, art 2, Sch 1 (amended for these purposes by SI 2007/2148).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/B. OFFICIAL SECRETS AND NATIONAL SECURITY/1575. Byelaws as to land used for atomic energy purposes.

1575. Byelaws as to land used for atomic energy purposes.

The Secretary of State¹ may make byelaws for regulating the use of any land vested in or under the management of the United Kingdom Atomic Energy Authority ('the UKAEA')² and for securing the public against danger arising from that use, as if it were land vested in him or under his management, but no right of common may be taken away or prejudicially affected by such a byelaw³. The Secretary of State also has power to make such byelaws in relation to any land vested in another person which the Authority has the right to use, but nothing in any byelaws made by virtue of this power may injuriously affect the private rights of any person further or otherwise than is authorised by the grant of the right to use the land⁴.

The power to make such byelaws also applies in relation to land in designated premises for the purposes of the Atomic Weapons Establishment Act 1991⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 See the Military Lands Act 1892 s 14(1) (applied by the Atomic Energy Authority Act 1954 s 6(4), Sch 3); and ARMED FORCES. See also *DPP v Hutchinson* [1990] 2 AC 783, [1990] 2 All ER 836, HL (byelaw made under the Military Lands Act 1892 s 14(1) purporting to limit rights of common by a total prohibition of all unauthorised access invalid; invalidity could not be cured by severance).

4 See *ibid* s 14(1); the Emergency Laws (Miscellaneous Provisions) Act 1953 s 1, Sch 1 para 8(1); the Atomic Energy Authority Act 1954 Sch 3; and ARMED FORCES.

5 See the Atomic Weapons Establishment Act 1991 s 3(1), Schedule para 2; and PARA 1387 ante. For the meaning of 'designated premises' see PARA 1387 note 11 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/B. OFFICIAL SECRETS AND NATIONAL SECURITY/1576. Directions in the interests of national security.

1576. Directions in the interests of national security.

At the date at which this title states the law, the following provisions have effect. A specified body corporate¹ must comply with any directions which the Secretary of State² may give to it for the purpose of safeguarding information in the interests of national security; and such a direction may in particular require it to terminate the employment of any person specified in the direction who is an officer of, or employed by, that body or may require that body not to appoint a person so specified to be an officer of, or to any employment under, that body³. The specified body corporate must also comply with any directions given to it by the Secretary of State with respect to the safekeeping of material of any description specified in the directions, whether in the interests of national security or of safety⁴. As from a date to be appointed⁵, however, these provisions are repealed by the Anti-terrorism, Crime and Security Act 2001⁶. The provision made by that Act regulating the security of the civil nuclear industry has already been discussed⁷.

1 For the meaning of 'specified body corporate' see PARA 1573 note 10 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Nuclear Installations Act 1965 s 2(1B), Sch 1 para 5(1) (added by the Atomic Energy Authority Act 1971 s 17, Schedule; the Nuclear Installations Act 1965 Sch 1 para 5 (as added) prospectively repealed, as from a day to be appointed (see note 5 infra) by the Anti-terrorism, Crime and Security Act 2001 ss 78(1), 125, Sch 8 Pt 5). The Secretary of State may with Treasury approval make grants out of money provided by Parliament for reimbursing to the specified body corporate, in whole or in part, any expenses incurred by it in complying with (1) any such directions; and (2) any directions given with respect to the safekeeping of material in the interests of national security (see the text and note 4 infra): Nuclear Installations Act 1965 Sch 1 para 5(3) (as so added and prospectively repealed).

4 Ibid Sch 1 para 5(2) (as added and prospectively repealed: see note 3 supra). As to the reimbursement of expenses incurred by the specified body corporate in complying with certain of those directions see note 3 supra.

The provisions set out in the text were also applied, as they applied in relation to the specified body corporate, in relation to any company designated by the Secretary of State in connection with the international agreement on the gas centrifuge process for producing enriched uranium: see the Atomic Energy Authority Act 1971 s 19(1) (repealed with savings by the Energy Act 2004 s 197(9), (10), Sch 23 Pt 1, Pt 2 para 1). That repeal does not affect so much of any such designation as identifies a person for the purposes of obligations imposed by regulations made under the Anti-terrorism, Crime and Security Act 2001 s 77 (as amended) (see PARA 1544 et seq ante): Energy Act 2004 Sch 23 Pt 2 para 1.

5 ie as from a day to be appointed under the Anti-terrorism, Crime and Security Act 2001 s 127(1). At the date at which this title states the law, no such day had been appointed.

6 See note 3 supra.

7 See PARA 1544 et seq ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/B. OFFICIAL SECRETS AND NATIONAL SECURITY/1577. Termination of employment on security grounds.

1577. Termination of employment on security grounds.

Except with the consent of the Secretary of State¹ the United Kingdom Atomic Energy Authority ('the UKAEA')² may not terminate on security grounds³ the employment of any officer of, or person employed by, the UKAEA⁴. At the date at which this title states the law, a specified body corporate⁵ may not, except with the like consent, terminate on such grounds the employment of any person employed by that body⁶. As from a date to be appointed⁷, however, the latter provision is repealed by the Anti-terrorism, Crime and Security Act 2001⁸. The provision made by that Act regulating the security of the civil nuclear industry has already been discussed⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

3 'Security grounds' means grounds which are grounds for dismissal from the civil service in accordance with any arrangements for the time being in force relating to dismissals from that service for reasons of national security: Atomic Energy Authority Act 1954 s 1(9), Sch 1 para 7(4).

4 Ibid Sch 1 para 7(4).

5 For the meaning of 'specified body corporate' see PARA 1573 note 10 ante.

6 Nuclear Installations Act 1965 s 2(1B), Sch 1 para 6(1) (added by the Atomic Energy Authority Act 1971 ss 17(6), 19(1), Schedule; the Nuclear Installations Act 1965 Sch 1 para 6 (as added) prospectively repealed, as from a day to be appointed (see note 7 infra) by the Anti-terrorism, Crime and Security Act 2001 ss 78(1), 125, Sch 8 Pt 5). For these purposes, 'security grounds' means grounds which are grounds for dismissal from the civil service of Her Majesty in accordance with any arrangements for the time being in force relating to dismissals from that service for reasons of national security: Nuclear Installations Act 1965 Sch 1 para 6(2) (as so added and prospectively repealed).

The provisions set out in the text to notes 5-6 supra were also applied, as they applied in relation to the specified body corporate, in relation to any company designated by the Secretary of State in connection with the international agreement on the gas centrifuge process for producing enriched uranium: see the Atomic Energy Authority Act 1971 s 19(2) (repealed with savings by the Energy Act 2004 s 197(9), (10), Sch 23 Pt 1, Pt 2 para 1). That repeal does not affect so much of any such designation as identifies a person for the purposes of obligations imposed by regulations made under the Anti-terrorism, Crime and Security Act 2001 s 77 (as amended) (see PARA 1544 et seq ante): Energy Act 2004 Sch 23 Pt 2 para 1.

7 Ie as from a day to be appointed under the Anti-terrorism, Crime and Security Act 2001 s 127(1). At the date at which this title states the law, no such day had been appointed.

8 See note 6 supra.

9 See PARA 1544 et seq ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/C. ADDITIONAL PROTOCOL INFORMATION/1578. Information and records for the purposes of the Additional Protocol to the Safeguards Agreement.

C. ADDITIONAL PROTOCOL INFORMATION

1578. Information and records for the purposes of the Additional Protocol to the Safeguards Agreement.

No obligation as to secrecy or other restriction on disclosure, whether imposed by statute or otherwise, prevents a person voluntarily giving information to the Secretary of State¹ if that person has reasonable cause to believe that it is Additional Protocol information². The Secretary of State may serve notice³ on any person requiring him to give information, or information of a description, specified in the notice, within a period or at times specified in the notice and, if the notice so provides, in such form as the notice may require⁴. The information required by a notice must be information which the Secretary of State has reasonable cause to believe is Additional Protocol information⁵. A person who refuses or fails without reasonable excuse to comply with a notice is guilty of an offence⁶. A person on whom a notice is served must keep and retain such records of information in his possession, and retain any existing records, as may be necessary to enable him to comply with the notice; and a failure to do so will be taken into account in proceedings for an offence⁷ in determining whether a reasonable excuse exists for a refusal or failure to comply with the notice⁸.

The Secretary of State may make regulations⁹ requiring persons of any description specified in the regulations to inform him that they are of such a description and to give such supplementary particulars as may be so specified¹⁰. The regulations may require persons to notify the Secretary of State of changes in their circumstances¹¹, and may include incidental and supplementary provisions¹². A person who fails without reasonable excuse to comply with a requirement imposed by such regulations is guilty of an offence¹³.

A person who knowingly or recklessly makes a statement which is false or misleading in a material particular in giving:

- 4339 (1) any information to the Secretary of State or an authorised officer¹⁴;
- 4340 (2) any information to the Secretary of State in response to a requirement of regulations¹⁵; or
- 4341 (3) any information to an International Atomic Energy Agency ('IAEA') inspector¹⁶, is guilty of an offence¹⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Nuclear Safeguards Act 2000 s 2(1). The duty to comply with a notice is not affected by any such obligation or restriction: s 2(6). 'Additional Protocol information' means information which the Secretary of State needs or will need in order to enable obligations of the United Kingdom under the Additional Protocol art 2, or Annex III paras 3, 4 to be met: Nuclear Safeguards Act 2000 s 1(1). The 'Additional Protocol' means the Protocol signed at Vienna on 22 September 1998 additional to the Safeguards Agreement; and 'Safeguards Agreement' means the agreement made on 6 September 1976 between the United Kingdom, the European Atomic Energy Community ('Euratom') and the International Atomic Energy Agency ('the IAEA') for the application of Safeguards in the United Kingdom in connection with the Treaty on the Non-Proliferation of Nuclear Weapons: Nuclear Safeguards Act 2000 s 1(1). See further PARA 1341 ante. As to the IAEA see PARA 1354 ante.

Her Majesty may by Order in Council direct that any of the provisions of the 2000 Act or of the Nuclear Safeguards and Finance (Electricity) Act 1978 are to extend, with such modifications as appear to Her Majesty to be appropriate, to any of the Channel Islands, the Isle of Man or any colony: Nuclear Safeguards Act 2000 Act s 12(4). As to such extension see PARA 1341 note 15 ante.

3 Any notice under the Nuclear Safeguards Act 2000 may be served on a person by delivering it to him, by leaving it at his proper address or by sending it by post to him at that address: s 10(1). Any such notice may be served (1) in the case of a body corporate, on the secretary or clerk of that body; (2) in the case of a partnership, on any partner or a person having control or management of the partnership business; and (3) in the case of an unincorporated association, on any member of its governing body: s 10(2). For the purposes of s 10 and of the Interpretation Act 1978 s 7 in its application to the Nuclear Safeguards Act 2000 s 10, the proper address of a person is (a) in the case of a body corporate, its secretary or clerk, the address of its registered or principal office in the United Kingdom; (b) in the case of an unincorporated association (other than a partnership) or a member of its governing body, the address of its principal office in the United Kingdom; and (c) in any other case, his usual or last-known address, whether of his residence or of a place where he carries on business or is employed: s 10(3). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 Ibid s 2(2).

5 Ibid s 2(3)(a). Such information may relate to a state of affairs subsisting before the coming into force of the 2000 Act or the Additional Protocol: Nuclear Safeguards Act 2000 s 2(3)(b). A notice may not require a person to give information which is required only for the purposes of the Additional Protocol art 2.a.(ii) unless the notice sets out the terms, agreed by the United Kingdom, in which the Agency has identified information for the purposes of art 2.a.(ii): Nuclear Safeguards Act 2000 s 2(4).

6 Ibid s 2(5). As to penalties for offences, and offences by bodies corporate, see PARA 1581 post.

7 Ie an offence under ibid s 2(5): see the text and note 6 supra.

8 Ibid s 2(7); and see note 6 supra.

9 Any such regulations must be made by statutory instrument and are subject to annulment in pursuance of a resolution of either House of Parliament: ibid s 3(4). If the Secretary of State makes any such regulations, he must arrange for a statement of the fact that they have been made to be published in such a manner as is likely to bring them to the attention of persons affected by them: s 3(5).

10 Ibid s 3(1). Any such description must be framed so that persons within it are persons about whose activities the United Kingdom is or will be obliged under the Additional Protocol to provide information to the IAEA, or other persons likely to be in possession of information which the Secretary of State has reasonable cause to believe is Additional Protocol information: Nuclear Safeguards Act 2000 s 3(2). In the exercise of the power under s 3(1), the Secretary of State has made the Nuclear Safeguards (Notification) Regulations 2004, SI 2004/1255, which came into force on 5 May 2004: reg 1.

Subject to reg 5, a person: (1) was to notify the Secretary of State not later than two months after the commencement date (ie 5 May 2004) if at any time during the period of six months ending on the commencement date he had carried out in the United Kingdom any of the activities specified in Schedule para 1 (specific nuclear and nuclear-related activities); (2) was to notify the Secretary of State not later than two months after the commencement date if at any time during the period of six months ending on the commencement date he had carried out in the United Kingdom any nuclear fuel cycle-related research and development activities which were (a) carried out in co-operation with, or otherwise relevant to, a non-nuclear-weapon state; and (b) not funded, specifically authorised or controlled by, or carried out on behalf of, Her Majesty's Government; (3) must notify the Secretary of State on or before 15 January in each year if at any time during the previous calendar year he has carried out in the United Kingdom any of the activities specified in Schedule para 1; and (4) must notify the Secretary of State on or before 15 January in each year if at any time during the previous calendar year he has carried out in the United Kingdom any nuclear fuel cycle-related research and development activities which were (a) carried out in co-operation with, or otherwise relevant to, a non-nuclear-weapon state; and (b) not funded, specifically authorised or controlled by, or carried out on behalf of, Her Majesty's Government: regs 3, 4. For the form of notification see reg 6.

'Non-nuclear-weapon state' means a state other than China, France, Russia, the United Kingdom and the United States of America; 'nuclear fuel cycle-related research and development activities' means research and development activities which are specifically related to any process or system development aspect of (i) the enrichment of nuclear material; (ii) the reprocessing of nuclear fuel; or (iii) the processing of intermediate or high level waste containing plutonium, high enriched uranium, or uranium-233, but does not include activities related to theoretical or basic scientific research or to research and development on industrial radioisotope applications, medical, hydrological or agricultural applications, health or environmental effects or improved maintenance; 'nuclear material' means any source material (other than ore or ore residue) or any special fissionable material; 'processing of intermediate or high level waste' does not include (A) repackaging of the waste for storage or disposal; (B) conditioning of the waste not involving the separation of elements, for storage

or disposal; 'high enriched uranium' means uranium containing 20% or more of the isotope uranium-235; 'source material' means uranium containing the mixture of isotopes occurring in nature, uranium depleted in the isotope 235, thorium, and any of the foregoing in the form of metal, alloy, chemical compound or concentrate; and 'special fissionable material' means plutonium-239, uranium-233, uranium containing the isotopes 235 or 233 or both in an amount such that the abundance ratio of the sum of these isotopes to the isotope 238 is greater than the ratio of the isotope 235 to the isotope 238 occurring in nature, and any material containing one or more of the above: reg 2.

The Secretary of State may serve on a person a written notice setting out particulars which the Secretary of State already has in relation to that person: reg 5(1). A person on whom such a notice has been served was not required to notify the Secretary of State under reg 3 and is not required to notify him under reg 4 if the particulars set out in the notice are accurate at the time the notice is received by that person and are all the particulars which that person would otherwise be required to provide: reg 5(2). Such a person must, within 14 days of any change in any of the particulars which were set out in the notice so served on him, give to the Secretary of State notice of the new particulars: reg 5(3). The Nuclear Safeguards Act 2000 s 10 (see note 3 supra) applies in relation to the service by the Secretary of State of notices under the Nuclear Safeguards (Notification) Regulations 2004, SI 2004/1255, reg 5(1): reg 5(4).

11 Nuclear Safeguards Act 2000 s 3(3)(a).

12 Ibid s 3(3)(b).

13 Ibid s 3(6). As to penalties for offences, and offences by bodies corporate, see PARA 1581 post.

14 Ie for the purposes of the 2000 Act or the Additional Protocol: Nuclear Safeguards Act 2000 s 7(a). 'Authorised officer' means a person authorised by the Secretary of State for the purpose of exercising powers under the Nuclear Safeguards Act 2000: s 1(1).

15 Ie regulations made under ibid s 3: s 7(b).

16 Ie an Agency inspector exercising powers under ibid s 5 (see PARA 1579 post): s 7(c). 'Agency inspector' means a person designated under the Safeguards Agreement art 85 or the Additional Protocol art 11: Nuclear Safeguards Act 2000 s 1(1).

17 Ibid s 7. As to penalties for offences, and offences by bodies corporate, see PARA 1581 post; and for the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/C. ADDITIONAL PROTOCOL INFORMATION/1579. Powers of entry and search in relation to Additional Protocol information; rights of access for International Atomic Energy Agency inspectors.

1579. Powers of entry and search in relation to Additional Protocol information; rights of access for International Atomic Energy Agency inspectors.

If a justice of the peace is satisfied, on information on oath, that a person served with a notice under the relevant provisions of the Nuclear Safeguards Act 2000¹ has refused to give all or any of the information required by the notice, or has failed to give all or any of that information within the period or at the time required by the notice, and that there are reasonable grounds for believing:

- 4342 (1) that the Secretary of State² is not in possession of all or any of the information which that person has refused or failed to give³; and
- 4343 (2) that a document or other thing containing any of the information⁴ which that person has refused or failed to give and which is not in the possession of the Secretary of State, is to be found on any premises⁵,

he may issue a warrant⁶ authorising an authorised officer⁷ to enter the premises, if necessary by force, at any reasonable hour within one month from the time of issue of the warrant and to search them⁸.

If a justice of the peace is satisfied, on information on oath, that the Secretary of State has specified information, or information of a description, in a notice or in a certificate⁹, and that there are reasonable grounds for believing:

- 4344 (a) that the Secretary of State is not in possession of all or any of the information so specified or all or any information of the description so specified;
- 4345 (b) that a document or other thing containing any of the information so specified or any information of the description so specified is to be found on any premises; and
- 4346 (c) that the document or other thing is likely to be altered, destroyed or otherwise disposed of without all the information so specified or all the information of the description so specified which is contained in it and is not in the possession of the Secretary of State having been given to him,

he may issue a warrant authorising an authorised officer to enter the premises, if necessary by force, at any reasonable hour within one month from the time of issue of the warrant and to search them¹⁰. A person who wilfully obstructs an authorised officer in the exercise of a power conferred by a warrant, or fails without reasonable excuse to comply with a reasonable request made by an authorised officer or a constable for the purpose of facilitating the exercise of such a power, is guilty of an offence¹¹.

If a justice of the peace is satisfied on information on oath that there are reasonable grounds for suspecting that evidence of the commission of an offence under any of the above provisions is to be found on any premises, he may issue a warrant¹² authorising an authorised officer to enter the premises, if necessary by force, at any time within one month from the time of the

issue of the warrant and to search them¹³. A person who wilfully obstructs an authorised officer in the exercise of a power conferred by such a warrant or fails without reasonable excuse to comply with a reasonable request made by an authorised officer or a constable for the purpose of facilitating the exercise of such a power is guilty of an offence¹⁴.

International Atomic Energy Agency ('IAEA')¹⁵ inspectors ('Agency inspectors') may exercise the Agency's right¹⁶ in the United Kingdom:

- 4347 (i) of access to locations of a specified description¹⁷, for purposes permitted¹⁸ in relation to locations of that description¹⁹;
- 4348 (ii) of access to locations specified by the Agency²⁰, for the purpose of carrying out wide-area environmental sampling²¹; and
- 4349 (iii) to carry out activities at those locations²².

An Agency inspector may, at any location falling within heads (i) to (iii) above, exercise such rights of access and entry as are required²³ and do anything which the Agency is entitled to do²⁴, but only in accordance with and subject to the specified²⁵ provisions²⁶. An authorised officer may accompany an Agency inspector while he is exercising his powers²⁷ and a constable may give such assistance as an Agency inspector, or an authorised officer accompanying that inspector, may request for the purpose of facilitating the exercise of powers under these provisions²⁸, and may use such reasonable force as he considers necessary for that purpose²⁹. A person who wilfully obstructs an Agency inspector or authorised officer in the exercise of a power under these provisions, fails without reasonable excuse to comply with a reasonable request made by an Agency inspector, an authorised officer or a constable for the purpose of facilitating the exercise of such a power, or interferes without reasonable excuse with anything placed on the land in exercise of such a power, is guilty of an offence³⁰.

1 le under the Nuclear Safeguards Act 2000 s 2(2): see PARA 1578 the text and notes 3-4 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Nuclear Safeguards Act 2000 s 4(1)(a).

4 For these purposes, any reference to information contained in a document or other thing includes a reference to information which may be obtained from that document or other thing: *ibid* s 4(10).

5 *Ibid* s 4(1)(b).

6 The powers conferred by a warrant under *ibid* s 4 are only exercisable, if the warrant so provides, in the presence of a constable: s 4(8).

7 'Authorised officer' means a person authorised by the Secretary of State for the purpose of exercising powers under the Nuclear Safeguards Act 2000: s 1(1).

8 *Ibid* s 4(1).

9 For the purposes of *ibid* s 4(2), there may be specified in a certificate only information, or information of a description, which could be specified in a notice under s 2(2): s 4(3).

10 *Ibid* s 4(2). The powers of an authorised officer who enters premises under the authority of such a warrant include the power (1) to take with him such other persons and such equipment as appear to him to be necessary; (2) to inspect anything found on the premises; (3) to require any information which is held in electronic form and is accessible from the premises to be produced in a form in which he can read and copy it; and (4) to copy, or to seize and remove, any document or other thing which he has reasonable cause to believe is something which contains Additional Protocol information: Nuclear Safeguards Act 2000 s 4(5). A constable entering premises under the authority of a warrant or by virtue of s 4(5)(a) (see head (1) *supra*) may give such assistance as an authorised officer may request for the purpose of facilitating the exercise of any power under s 4, and may search or cause to be searched any person on the premises who he has reasonable cause to believe may have in his possession any document or other thing which contains Additional Protocol information: s 4(6). No constable may search a person of the opposite sex: s 4(7). For the meaning of 'Additional Protocol information' see PARA 1578 note 2 ante.

11 Ibid s 4(9). As to penalties for offences, and offences by bodies corporate, see PARA 1581 post.

12 The powers conferred by such a warrant are only exercisable, if the warrant so provides, in the presence of a constable: *ibid* s 8(5).

13 Ibid s 8(1). The powers of an authorised officer to enter the premises under the authority of the warrant include power (1) to take with him such other persons and such equipment as appear to be necessary; (2) to inspect anything found on the premises; (3) to require any information which is held in electronic form and is accessible from the premises to be produced in a form in which he can read and copy it; (4) to copy, or to seize and remove, any document or other thing which he has reasonable cause to believe may be required as evidence for the purposes of proceedings in respect of an offence; and (5) to sample any substance found on the premises which he has reasonable cause to believe may be required as such evidence: s 8(2). A constable entering premises under the authority of a warrant or by virtue of s 8(2)(a) (see head (1) *supra*) may give such assistance as an authorised officer may request for the purpose of facilitating the exercise of any power under s 8, and may search or cause to be searched any person on the premises who he has reasonable cause to believe may have in his possession any document or other thing which may be required as evidence for the purposes of proceedings in respect of an offence under the 2000 Act: s 8(3). No constable may search a person of the opposite sex: s 8(4).

14 Ibid s 8(6). As to penalties for offences, and offences by bodies corporate, see PARA 1581 post.

15 As to the IAEA see PARA 1354 *ante*.

16 *Ie* under the Additional Protocol (the Protocol signed at Vienna on 22 September 1998 additional to the Safeguards Agreement). For the meaning of 'the Safeguards Agreement' see PARA 1578 note 2 *ante*.

17 *Ie* a description mentioned in the Additional Protocol art 5.

18 *Ie* by *ibid* art 4 or any other provision.

19 Nuclear Safeguards Act 2000 Act s 5(1)(a).

20 *Ie* for the purposes of the Additional Protocol art 9.

21 Nuclear Safeguards Act 2000 s 5(1)(b) (not in force). 'Wide-area environmental sampling' has the meaning given by the Additional Protocol art 18.g: Nuclear Safeguards Act 2000 s 5(8).

22 Ibid s 5(1)(c).

23 *Ie* for the purposes of the Additional Protocol.

24 *Ie* by virtue of *ibid* art 6 (for a location falling within head (i) in the text) or art 9 (for a location falling within head (ii) in the text): Nuclear Safeguards Act 2000 s 5(2)(b) (text relating to the Additional Protocol art 9 not in force).

25 *Ie* the provisions of the Additional Protocol and the Safeguards Agreement, including any arrangements for managed access made under the Additional Protocol art 7, procedural arrangements for wide-area environmental sampling approved under art 9, or subsidiary arrangements agreed under art 13: Nuclear Safeguards Act 2000 s 5(2) (text from 'procedural arrangements' to 'art 9' not in force). For the purposes of s 5(2), the reference to 'other objective measures' in any paragraph of the Additional Protocol art 6 is to be taken to refer only to measures specified by the Secretary of State in relation to that paragraph in an order made by statutory instrument, and the reference to procedural arrangements for wide-area environmental sampling in art 9 is to be taken to refer only to arrangements specified by the Secretary of State in an order made by statutory instrument: Nuclear Safeguards Act 2000 s 5(3).

26 Ibid s 5(2).

27 Ibid s 5(4).

28 Ibid s 5(5)(a).

29 Ibid s 5(5)(b). If in any proceedings any question arises as to whether a person at any time when purporting to exercise powers under s 5 was or was not an Agency inspector, a certificate issued by or under the authority of the Secretary of State stating any fact relevant to that question is conclusive evidence of that fact: s 5(6).

30 Ibid s 5(7). As to penalties for offences, and offences by bodies corporate, see PARA 1581 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/C. ADDITIONAL PROTOCOL INFORMATION/1580. Restriction on disclosure.

1580. Restriction on disclosure.

Where information is obtained by any person under, or in connection with anything done under, the Nuclear Safeguards Act 2000 or the Additional Protocol¹, and that information relates to a particular business or other activity carried on by any person, then so long as the business or activity continues to be carried on the information must not be disclosed except:

- 4350 (1) with the consent of the person for the time being carrying on the business or activity;
- 4351 (2) in connection with anything done for specified purposes²;
- 4352 (3) in connection with the investigation of a criminal offence or for the purposes of criminal proceedings;
- 4353 (4) in connection with the enforcement of a restriction on imports or exports;
- 4354 (5) in dealing with an emergency involving danger to the public; or
- 4355 (6) with a view to ensuring the security of the United Kingdom³.

A person who discloses information in contravention of this restriction is guilty of an offence⁴. However, it is not an offence under these provisions to disclose information which has been previously disclosed to the public otherwise than in contravention of this restriction⁵.

1 For the meaning of 'the Additional Protocol' see PARA 1578 note 2 ante.

2 Ie for the purposes of the Nuclear Safeguards Act 2000, the Additional Protocol or the Safeguards Agreement: Nuclear Safeguards Act 2000 Act s 6(2)(b). For the meaning of 'the Safeguards Agreement' see PARA 1578 note 2 ante.

3 Nuclear Safeguards Act 2000 s 6(1), (2). A disclosure of any information to which s 6 applies may be made in circumstances in which any of heads (1)-(6) in the text prevents there being a contravention of s 6, notwithstanding any obligation as to secrecy or other restriction on disclosure that would otherwise apply: s 6(5).

4 Ibid s 6(3). As to penalties for offences, and offences by bodies corporate, see PARA 1581 post.

5 Ibid s 6(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(8) SECURITY, SECRECY AND INFORMATION/(iii) Other Provisions relating to Security, Secrecy and Information/C. ADDITIONAL PROTOCOL INFORMATION/1581. Penalties for offences; offences by bodies corporate.

1581. Penalties for offences; offences by bodies corporate.

A person guilty of an offence under any of the provisions of the Nuclear Safeguards Act 2000 except those relating to the restriction on disclosure or giving false or misleading information¹ is liable on summary conviction to a fine not exceeding the statutory maximum, and on conviction on indictment to a fine²; and a person guilty of an offence under the provisions relating to the restriction on disclosure or giving false or misleading information is liable on summary conviction to a fine not exceeding the statutory maximum or on conviction on indictment to imprisonment for a term not exceeding two year or a fine, or to both³. Where such an offence committed by a body corporate is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, a director⁴, manager, secretary or other similar officer of the body corporate or a person who was purporting to act in any such capacity, he as well as the body corporate is guilty of that offence and may be proceeded against and punished accordingly⁵.

¹ ie under any provision of the Nuclear Safeguards Act 2000 except s 6 (see PARA 1580 ante) or s 7 (see PARA 1578 ante): s 9(1).

² Ibid s 9(1). As to the statutory maximum see PARA 689 note 2 ante.

³ Ibid s 9(2).

⁴ 'Director', in the case of a body corporate whose affairs are managed by its members, means a member of the body corporate: ibid s 9(4).

⁵ Ibid s 9(3). Where an offence under the 2000 Act committed by a Scottish partnership is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, a partner, he as well as the partnership is guilty of the offence and may be proceeded against and punished accordingly: s 9(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1582. Offences relating to atomic energy and nuclear installations.

(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES

(i) Offences and Penalties

1582. Offences relating to atomic energy and nuclear installations.

The contravention of certain provisions of the Atomic Energy Act 1946 and of the Nuclear Installations Act 1965 constitutes an offence¹.

Offences under the 1946 Act concern the failure to supply true information as to certain materials, plant and processes², obstruction of inspectors³, obstruction of or interference with the statutory power to search for minerals⁴, the production and use of atomic energy without a licence⁵, and the disclosure of information as to plant or of information obtained in the exercise of powers under the Act⁶.

Offences under the 1965 Act concern the failure to obtain a nuclear site licence⁷ or a permit⁸ where either is necessary, contravention of any condition attached to a nuclear site licence⁹, failure to post certain documents on the site¹⁰ or pulling down, injuring or defacing documents so posted¹¹, contravention of directions¹², failure to insure against liabilities¹³, failure to report dangerous occurrences¹⁴, and the unauthorised disclosure of information obtained in the exercise of powers under the Act¹⁵.

1 For the meaning of 'contravention' in relation to any provision of the Nuclear Installations Act 1965 see PARA 1487 note 8 ante.

2 See PARA 1566 ante.

3 See PARA 1515 note 9 ante.

4 See PARA 1425 ante.

5 See PARA 1429 ante.

6 See PARA 1571 ante.

7 See PARA 1487 ante.

8 See PARA 1489 ante.

9 See PARA 1492 ante.

10 See note 9 supra.

11 See PARAS 1492, 1494 ante.

12 See PARA 1494 ante.

13 See PARA 1510 ante.

14 See PARA 1499 ante.

15 See PARA 1571 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1583. Offences in relation to nuclear material and radioactive devices.

1583. Offences in relation to nuclear material and radioactive devices.

If a person, whatever his nationality, does outside the United Kingdom¹, in relation to or by means of nuclear material², any act³ which, had he done it in any part of the United Kingdom, would have made him guilty of certain serious offences⁴, he is in any part of the United Kingdom guilty of such of those offences as are offences of which he would have been guilty had he done the act in that part of the United Kingdom⁵.

If a person, whatever his nationality, in the United Kingdom or elsewhere:

- 4356 (1) receives, holds or deals with nuclear material:
- 411
- 598. (a) intending, or for the purpose of enabling another, to do by means of that material an act which is an offence⁶; or
- 599. (b) being reckless whether another would do such an act⁷; or
- 412
- 4357 (2) makes a threat to another person that he or any other person will do by means of nuclear material such an act as is mentioned in head (1)(a) above and intends the person to whom the threat is made to fear that it will be carried out⁸; or
- 4358 (3) threatens, in order to compel a state, international governmental organisation or person to do, or abstain from doing, any act, that he or any other person will obtain nuclear material by an act which is an offence⁹,

he is guilty of an offence¹⁰.

Proceedings for offences under the Nuclear Material (Offences) Act 1983 which would not otherwise¹¹ be an offence require the consent of the Attorney General¹². Such offences are extradictable¹³.

Her Majesty may by Order in Council make provision for extending these provisions, with such exceptions, adaptations or modifications as may be specified in the order, to any of the Channel Islands, the Isle of Man or any colony¹⁴.

Under the Terrorism Act 2006 a person commits an offence if he makes or has in his possession a radioactive device¹⁵, or he has in his possession radioactive material¹⁶, with the intention of using the device or material in the course of or in connection with the commission or preparation of an act of terrorism or for the purposes of terrorism, or of making it available to be so used¹⁷; and it is irrelevant for these purposes whether the act of terrorism to which an intention relates is a particular act of terrorism, an act of terrorism of a particular description or an act of terrorism generally¹⁸. A person also commits an offence under that Act if:

- 4359 (i) he uses a radioactive device, or radioactive material, in the course of or in connection with the commission of an act of terrorism or for the purposes of terrorism¹⁹;
- 4360 (ii) in the course of or in connection with the commission of an act of terrorism or for the purposes of terrorism, he uses or damages a nuclear facility²⁰ in a manner

- which causes a release of radioactive material, or creates or increases a risk that such material will be released²¹;
- 4361 (iii) he makes a terrorist threat with regard to a radioactive device, radioactive material or a nuclear facility²².

These offences under the Terrorism Act 2006 are discussed in more detail elsewhere in this work²³.

1 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 'Nuclear material' for the purposes of the Nuclear Material (Offences) Act 1983 means material which, within the meaning of the Convention on Physical Protection of Nuclear Material opened for signature at Vienna and New York on 3 March 1980 (Cmnd 8112) (see PARA 1350 ante) is nuclear material used for peaceful purposes, ie: (1) plutonium except that with isotopic concentration exceeding 80% in plutonium-238; (2) uranium-233; (3) uranium enriched in the isotope 235 or 233; (4) uranium containing the mixture of isotopes as occurring in nature other than in the form of ore or ore-residue; and (5) any material containing one or more of the above: Nuclear Material (Offences) Act 1983 s 6(1), (4), (5), Schedule para (a) (s 6(5) added by the Extradition Act 1989 s 36(9)). 'Uranium enriched in the isotope 235 or 233' means uranium containing the isotopes 235 or 233 or both in an amount such that the abundance ratio of the sum of these isotopes to the isotope 238 is greater than the ratio of the isotope 235 to the isotope 238 occurring in nature: Nuclear Material (Offences) Act 1983 Schedule para (b). If in any proceedings a question arises whether any material was used for peaceful purposes, a certificate issued by or with the authority of the Secretary of State and stating that it was, or was not, so used is conclusive of that question; and a document purporting to be such a certificate is to be taken to be such unless the contrary is proved: s 6(2), (3).

3 The expression 'act' includes omission: *ibid* s 1(2).

4 Ie (1) the offence of murder, manslaughter, culpable homicide, assault to injury, malicious mischief or causing injury, or endangering the life of the lieges, by reckless conduct; or (2) an offence under the Offences against the Person Act 1861 s 18 (as amended) or s 20 (as amended), or the Criminal Damage Act 1971 s 1; or (3) the offence of theft, embezzlement, robbery, assault with intent to rob, burglary or aggravated burglary; or (4) the offence of fraud or extortion or an offence under the Theft Act 1968 s 21 (blackmail): Nuclear Material (Offences) Act 1983 s 1(1)(a)-(d) (amended by the Fraud Act 2006 s 14(1), (3), Sch 1 para 20, Sch 3). As to the offences listed in heads (1)-(4) *supra* see further CRIMINAL LAW, EVIDENCE AND PROCEDURE.

5 Nuclear Material (Offences) Act 1983 s 1(1). An offence under s 1(1) which is committed (whether in the United Kingdom or elsewhere) in relation to or by means of nuclear material is a 'Convention offence' for the purposes of the Terrorism Act 2006: see s 20, Sch 1 para 6(1); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 384. The Convention referred to is the International Convention for the Suppression of Acts of Nuclear Terrorism adopted by the United Nations General Assembly in April 2005 and opened for signature in New York from 14 September 2005.

6 Ie an offence mentioned in the Nuclear Material (Offences) Act 1983 s 1(1)(a) or (b): see note 4 *supra*.

7 See *ibid* s 2(1), (2)(a), (b).

8 *Ibid* s 2(1), (3)(a), (b).

9 *Ibid* s 2(1), (4).

10 *Ibid* s 2(1). Any person guilty of an offence under s 2 (as amended) is liable on conviction on indictment to imprisonment for life: s 2(5) (substituted by the Terrorism Act 2006 s 14(1)). An offence under s 2 is a 'Convention offence' for the purposes of the Terrorism Act 2006: see s 20, Sch 1 para 6(2); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 384.

11 Ie apart from the Nuclear Material (Offences) Act 1983 ss 1, 2 (as amended); and disregarding the provisions of the Internationally Protected Persons Act 1978, the Suppression of Terrorism Act 1978, the United Nations Personnel Act 1997 and the Terrorism Act 2000: Nuclear Material (Offences) Act 1983 s 3(1) (amended by the United Nations Personnel Act 1997 s 7, Schedule para 4; the Crime (International Co-operation) Act 2003 s 91(1), Sch 5 paras 7, 8).

12 Nuclear Material (Offences) Act 1983 s 3(1)(a). As to consent for proceedings in Northern Ireland see s 3(1)(b) (prospectively amended by the Justice (Northern Ireland) Act 2002 s 28(2), Sch 7 para 30, as from a day to be appointed under s 87(1); at the date at which this title states the law, no such day had been appointed).

13 See the Extradition Act 2000 s 148(2); and EXTRADITION.

14 Nuclear Material (Offences) Act 1983 s 7(2). Provision has been made by Order in Council for extending certain provisions of the Act to Guernsey, Jersey and the Isle of Man: see the Nuclear Material (Offences) Act 1983 (Guernsey) Order 1991, SI 1991/1717; the Nuclear Material (Offences) Act 1983 (Jersey) Order 1991, SI 1991/1718; and the Nuclear Material (Offences) Act 1983 (Isle of Man) Order 1991, SI 1991/1719.

15 For the meaning of 'radioactive device' see the Terrorism Act 2006 s 9(4), (5); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 444.

16 For the meaning of 'radioactive material' for these purposes see *ibid* s 9(4), (5); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 444.

17 *Ibid* s 9(1).

18 *Ibid* s 9(2). A person guilty of an offence under s 9 is liable, on conviction on indictment, to imprisonment for life: s 9(3).

19 See *ibid* s 10(1); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 445. A person guilty of an offence under s 10 is liable, on conviction on indictment, to imprisonment for life: s 10(3).

20 For the meaning of 'nuclear facility' for these purposes see *ibid* s 10(4); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 445.

21 See *ibid* s 10(2); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 445. As to the penalty for such an offence see note 19 *supra*.

22 See *ibid* s 11(1)-(3); and CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 446. A person guilty of an offence under s 11 is liable, on conviction on indictment, to imprisonment for life: s 11(4).

23 See CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARAS 444-446.

UPDATE

1583 Offences in relation to nuclear material and radioactive devices

TEXT AND NOTES--See also Nuclear Material (Offences) Act 1983 s 1A (ss 1A-1D added by Criminal Justice and Immigration Act 2008 Sch 17 para 3) which increases the penalty for a number of offences committed in relation to nuclear material. The Nuclear Material (Offences) Act 1983 s 1B deals with offences relating to damage to the environment. The Nuclear Material (Offences) Act 1983 s 1C creates the new extraterritorial offences of (without lawful authority) importing or exporting nuclear material or shipping such material as stores. The Nuclear Material (Offences) Act 1983 s 1D applies enforcement and procedural provisions of the Customs and Excise Management Act 1979 to the offence created by the Nuclear Material (Offences) Act 1983 s 1C.

See also Nuclear Material (Offences) Act 1983 s 3A (added by Criminal Justice and Immigration Act 2008 Sch 17 para 5) (application to activities of armed forces).

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

NOTE 2--Nuclear Material (Offences) Act 1983 s 6 amended and repealed in part: Criminal Justice and Immigration Act 2008 Sch 17 para 6, Sch 28 Pt 5.

NOTE 3--Nuclear Material (Offences) Act 1983 s 1(2) repealed: Criminal Justice and Immigration Act 2008 Sch 17 para 2(4), Sch 28 Pt 5.

TEXT AND NOTE 5--Nuclear Material (Offences) Act 1983 s 1(1) amended: Criminal Justice and Immigration Act 2008 Sch 17 para 2(2).

If (1) a person, whatever his nationality, does outside the United Kingdom an act directed at a nuclear facility, or which interferes with the operation of such a facility, (2) the act causes death, injury or damage resulting from the emission of ionising radiation or the release of radioactive material, and (3) had he done that act in any part of the United Kingdom, it would have made him guilty of an offence mentioned in s 1(1)(a) or (b), the person will in any part of the United Kingdom be guilty of such of the offences mentioned in s 1(1)(a) and (b) as are offences of which the act would have made him guilty had he done it in that part of the United Kingdom: Nuclear Material (Offences) Act 1983 s 1(1A) (added by Criminal Justice and Immigration Act 2008 Sch 17 para 2(3)).

TEXT AND NOTES 7-10--Nuclear Material (Offences) Act 1983 s 2 substituted: Criminal Justice and Immigration Act 2008 Sch 17 para 4. See further Nuclear Material (Offences) Act 1983 s 2A (added by Criminal Justice and Immigration Act 2008 Sch 17 para 4) (inchoate and secondary offences: extended jurisdiction).

TEXT AND NOTE 14--Nuclear Material (Offences) Act 1983 s 7(2) amended: Criminal Justice and Immigration Act 2008 Sch 17 para 7. SI 1991/1719 replaced: Nuclear Material (Offences) Act 1983 (Isle of Man) Order 2009, SI 2009/3203.

NOTES 18, 19, 22--On convicting a person of an offence under the Terrorism Act 2006 s 9, 10 or 11, the court may make a forfeiture order in respect of the radioactive device, radioactive material or nuclear facility: see s 11A (added by the Counter-Terrorism Act 2008 s 38(3)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1584. Offences under the Radioactive Substances Act 1993.

1584. Offences under the Radioactive Substances Act 1993.

Any person who:

- 4362 (1) contravenes the provisions of the Radioactive Substances Act 1993 concerning the requirements for registration of radioactive material¹ or of mobile radioactive apparatus² or concerning the disposal or accumulation of radioactive waste³; or
- 4363 (2) is registered in respect of radioactive material or mobile radioactive apparatus⁴ or is wholly or partly exempted from such registration⁵, and does not comply with a limitation or condition subject to which he is so registered or exempted; or
- 4364 (3) holds an authorisation in respect of the disposal or accumulation of radioactive waste⁶, and does not comply with any limitation or condition subject to which that authorisation has effect; or
- 4365 (4) is registered as described in head (2) above, or holds an authorisation as described in head (3) above, and fails to comply with any requirement of an enforcement or prohibition notice served on him⁷,

is guilty of an offence⁸. A person guilty of such an offence is liable on summary conviction to a fine not exceeding £20,000 or to imprisonment for a term not exceeding six months, or to both, and on conviction on indictment to a fine or to imprisonment for a term not exceeding five years, or to both⁹. If the Environment Agency ('the Agency')¹⁰ is of the opinion that proceedings for an offence under head (4) above would afford an ineffectual remedy against a person who has failed to comply with the requirements of a notice served on him as described in that head, that Agency may take proceedings in the High Court for the purpose of securing compliance with the notice¹¹.

Any person who:

- 4366 (a) fails to keep posted a certificate of registration or authorisation as required under the Radioactive Substances Act 1993¹², is guilty of an offence and liable on summary conviction to a fine not exceeding the statutory maximum, or on conviction on indictment to a fine¹³;
- 4367 (b) without reasonable cause pulls down, injures or defaces any document which has been posted in pursuance of the statutory requirements referred to in head (a) above is guilty of an offence and liable on summary conviction to a fine not exceeding level 2 on the standard scale¹⁴;
- 4368 (c) fails to comply with a requirement imposed on him under the provision of that Act concerning the retention or furnishing of copies of records¹⁵, is guilty of an offence and liable on summary conviction to a fine not exceeding the statutory maximum or imprisonment for a term not exceeding three months, or to both, or on conviction on indictment to a fine or imprisonment for a term not exceeding two years, or to both¹⁶;
- 4369 (d) makes a statement which he knows to be false or misleading in a material particular, or recklessly makes a statement which is false or misleading in a

material particular for the purpose of obtaining for himself or another any registration¹⁷, any authorisation¹⁸, any transfer of such an authorisation¹⁹ or any variation of such an authorisation²⁰, is guilty of an offence²¹ and liable on summary conviction to a fine not exceeding the statutory maximum or on conviction on indictment to a fine or imprisonment for a term not exceeding two years, or to both²²;

- 4370 (e) intentionally makes a false entry in any record which is required to be kept by virtue of a registration²³, an authorisation²⁴ or a transfer of an authorisation²⁵ or which is kept in purported compliance with a condition which must be complied with if a person is to have the benefit of an exemption²⁶, is guilty of an offence²⁷ and liable to the same penalties as a person convicted of an offence under head (d) above²⁸.

Copies of records of convictions under certain provisions of the Act²⁹ must be kept by the Agency³⁰.

Subject to the provisions of the Radioactive Substances Act 1993 relating to the disregarding of radioactivity for certain statutory purposes³¹ and to the provisions of the Interpretation Act 1978 which relate to offences under two or more laws³², nothing in the 1993 Act is to be construed as:

- 4371 (i) conferring a right of action in any civil proceedings, other than proceedings for the recovery of a fine, in respect of any contravention of that Act, or
 4372 (ii) affecting any restriction imposed by or under any other enactment, whether contained in a public general Act or in a local or private Act; or
 4373 (iii) derogating from any right of action or other remedy, whether civil or criminal, in proceedings instituted otherwise than under that Act³³.

UPDATE

1584 Offences under the Radioactive Substances Act 1993

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1585. Offences relating to the transfrontier shipment of radioactive waste.

1585. Offences relating to the transfrontier shipment of radioactive waste.

Any person who fails to comply with certain provisions¹ concerning shipments² of radioactive waste³ commits an offence⁴. It is also an offence for a person to make a statement which he knows to be false or misleading in a material particular, or recklessly to make a statement which is false or misleading in a material particular, where the statement is made in purported compliance with a requirement to furnish any information⁵ or for the purpose of obtaining the grant⁶ of any authorisation or approval to, or for the benefit of, himself or any other person⁷.

Where the commission by any person of any such offence is due to the act or default of some other person, that other person is guilty of the offence, and a person may be charged with and convicted of such an offence whether or not proceedings are taken against the first-mentioned person⁸.

Where such an offence which has been committed by a body corporate is proved to have been committed with the consent or connivance of, or to have been attributable to any neglect on the part of, a director, manager, secretary or other similar officer of the body corporate, or any person who was purporting to act in any such capacity, he, as well as the body corporate, is guilty of that offence and is liable to be proceeded against and punished accordingly⁹. Similarly, where the affairs of a body corporate are managed by its members, a member is guilty of an offence and liable to be proceeded against by reason of his acts or defaults as if he were a director of the body corporate¹⁰.

1 Ie the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 6 (requirement for authorisation for shipments of radioactive waste: see PARA 1477 ante), reg 8(2) (requirement to take back certain shipments: see PARA 1481 ante), reg 9(2) (notification of receipt of shipments to the chief inspector: see PARA 1482 ante), reg 10 (requirement for authorisation and approval of shipments: see PARA 1477 ante) and reg 15(1), (2) (documents and receipts: see PARA 1485 ante).

2 For the meaning of 'shipment' see PARA 1477 note 1 ante.

3 For the meaning of 'radioactive waste' see PARA 1477 note 1 ante.

4 Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031, reg 18(1). A person guilty of such an offence is liable on conviction on indictment to imprisonment for a term not exceeding two years, or a fine, or to both, and on summary conviction to a fine not exceeding the statutory maximum: reg 18(7). As to the statutory maximum see PARA 689 note 2 ante.

5 Ie a requirement imposed by or under any provision of the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031 (see PARA 1477 et seq ante): reg 18(2)(a).

6 Ie under the Transfrontier Shipment of Radioactive Waste Regulations 1993, SI 1993/3031 (see PARA 1477 et seq ante): reg 18(2)(b). As to authorisations and approvals see PARAS 1479, 1483 ante.

7 Ibid reg 18(2). For the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

8 Ibid reg 18(3).

9 Ibid reg 18(4).

10 Ibid reg 18(5).

UPDATE

1585 Offences relating to the transfrontier shipment of radioactive waste

TEXT AND NOTES--SI 1993/3031 replaced: Transfrontier Shipment of Radioactive Waste and Spent Fuel Regulations 2008, SI 2008/3087.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1586. Consents for prosecutions.

1586. Consents for prosecutions.

Proceedings in respect of an offence under the Atomic Energy Act 1946 relating to the communication of information concerning plants for the production or use of atomic energy¹ cannot be instituted in England or Wales except by or with the consent of the Director of Public Prosecutions². Proceedings in respect of any offence under the Radioactive Substances Act 1993 or certain offences under the Nuclear Installations Act 1965³ cannot be instituted in England and Wales except by the Secretary of State⁴, by the Environment Agency⁵ (in the case of offences under the Radioactive Substances Act 1993), or by or with the consent of the Director of Public Prosecutions⁶.

1 Ie an offence under the Atomic Energy Act 1946 s 11: see PARA 1571 the text and note 4 ante.

2 Ibid s 14(4).

3 Ie any offence under the Nuclear Installations Act 1965 s 2(2) (as amended: see PARA 1489 ante) or s 19(5) (as amended: see PARA 1510 the text and note 14 ante): s 25(3) (amended by the Nuclear Installations Act 1965, etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 5).

4 As to the Secretary of State see PARA 601 note 1 ante.

5 The statutory wording is 'the appropriate Agency'; and the Environment Agency is the appropriate Agency in relation to England and Wales: see PARA 1440 note 8 ante. As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

6 Radioactive Substances Act 1993 s 38(1) (amended by the Environment Act 1995 s 120, Sch 22 para 222); Nuclear Installations Act 1965 s 25(3) (as amended: see note 3 supra). As to proceedings in Northern Ireland see the Radioactive Substances Act 1993 s 38(2); the Nuclear Installations Act 1965 s 27(5) (amended by the Energy Act 2004 s 78(2), (5)). As to consents to prosecutions generally see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARAS 1071-1072.

UPDATE

1586 Consents for prosecutions

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1587. Liability of officers and employees of corporate bodies.

1587. Liability of officers and employees of corporate bodies.

Where any offence under the Atomic Energy Act 1946 has been committed by a body corporate, every person who at the time of the commission of the offence was a director, general manager, secretary or other similar officer of the body corporate, or was purporting to act in any such capacity, is deemed to be guilty of that offence unless he proves that it was committed without his consent or connivance and that he exercised all such diligence to prevent its commission as he ought to have exercised having regard to the nature of his functions in that capacity and to all the circumstances¹.

Where a body corporate is guilty of an offence under any provision of the Radioactive Substances Act 1993 or under certain provisions of the Nuclear Installations Act 1965², and the offence is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director³, manager, secretary or other similar officer of the body corporate or any person who was purporting to act in any such capacity, he, as well as the body corporate, is guilty of the offence and is liable to be proceeded against and punished accordingly⁴. Similar provision is made with regard to offences under the Nuclear Safeguards Act 2000⁵.

If the commission by any person of an offence under the Radioactive Substances Act 1993 is due to the act or default of some other person, that other person may be charged with and convicted of the offence whether or not proceedings for the offence are taken against the first-mentioned person⁶.

1 Atomic Energy Act 1946 s 14(3). See also PARA 1588 note 1 post. As to the criminal liability of bodies corporate see generally CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 38.

2 In the provisions of the Nuclear Installations Act 1965 ss 2(2), 19(5) (as amended) (see PARAS 1489, 1510 ante): s 25(1) (amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(b), Sch 2 para 5(a)). See also PARA 1588 note 4 post.

3 'Director', in relation to a body corporate established by or under any enactment for the purposes of carrying on under national ownership any industry or part of an industry or undertaking, the affairs of which body are managed by its members, means a member of that body corporate: Radioactive Substances Act 1993 s 36(2); Nuclear Installations Act 1965 s 25(1) (as amended: see note 2 supra).

4 Ibid s 25(1) (as amended: see note 2 supra); Radioactive Substances Act 1993 s 36(1).

5 See the Nuclear Safeguards Act 2000 s 9(3)-(5); and PARA 1581 ante.

6 Radioactive Substances Act 1993 s 37.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(i) Offences and Penalties/1588. Penalties for offences.

1588. Penalties for offences.

All offences under the Atomic Energy Act 1946 are punishable on summary conviction by a term of imprisonment not exceeding three months or a fine not exceeding the prescribed sum, or both, and on conviction on indictment by imprisonment for a term not exceeding five years or a fine, or both¹.

The penalties which may be imposed for offences under the Radioactive Substances Act 1993² and the Nuclear Installations Act 1965³ and other relevant legislation are not uniform and vary according to the nature of the offence⁴, as do the penalties which may be imposed for offences under the Nuclear Safeguards Act 2000⁵.

1 Atomic Energy Act 1946 s 14(1) (amended by virtue of the Criminal Justice Act 1948 s 1(1), (2); the Criminal Law Act 1977 s 32(1); and the Magistrates' Courts Act 1980 s 32(2)). As to the prescribed sum see PARA 613 note 20 ante. Where, however, a person convicted on indictment of such an offence is a body corporate, the provision so limiting the amount of the fine which may be imposed does not apply and the body corporate is liable to a fine of such amount as the court thinks just: Atomic Energy Act 1946 s 14(2). As to offences by bodies corporate see PARA 1587 ante.

2 As to offences under the Radioactive Substances Act 1993 see PARA 1584 ante.

3 As to offences under the Nuclear Installations Act 1965 see PARA 1582 ante.

4 For the penalties applicable under the Radioactive Substances Act 1993 see PARA 1584 ante. Penalties applicable under the Nuclear Installations Act 1965 and other enactments are mentioned in this title wherever the offences giving rise to them are considered. Where a body corporate is convicted on indictment of an offence under s 2(2) (as amended: see PARA 1489 ante) or s 19(5) (as amended: see PARA 1510 ante), so much of the provision in question as limits the amount of the fine which may be imposed does not apply, and the body corporate is liable to a fine of such amount as the court thinks just: s 25(2) (amended by the Nuclear Installations Act 1965 etc (Repeals and Modifications) Regulations 1974, SI 1974/2056, reg 2(1)(a), Sch 1).

5 For the penalties applicable under the Nuclear Safeguards Act 2000 see PARA 1581 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(ii) Service of Notices/1589. Service of notices under the Atomic Energy Act 1946.

(ii) Service of Notices

1589. Service of notices under the Atomic Energy Act 1946.

Any notice required or authorised by or under the Atomic Energy Act 1946 to be served on any person may be served either (1) by delivering it to that person; or (2) by leaving it, or sending it in a registered letter or by the recorded delivery service to him, at his usual or last known residence or place of business; or (3) in the case of an incorporated company or body, by delivering it to the clerk or secretary at that company's or body's registered or principal office, or by sending it in a registered letter or by the recorded delivery service addressed to him at that office¹. In the case of a notice to be served on an owner, lessee or occupier of land, if it is not practicable after reasonable inquiry to ascertain his name or address, the notice may be served by addressing it to him, by the description of 'owner', 'lessee' or 'occupier' of the land to which it relates, describing the land, and delivering it to some person on the premises or, if there is no such person to whom it may be delivered, by affixing it, or a copy of it, to some conspicuous part of the premises².

1 Atomic Energy Act 1946 s 17(a)-(c); Recorded Delivery Service Act 1962 s 1(1). As to service by post see also the Interpretation Act 1978 s 7.

2 Atomic Energy Act 1946 s 17(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(ii) Service of Notices/1590. Service of notices under the Radioactive Substances Act 1993.

1590. Service of notices under the Radioactive Substances Act 1993.

Any notice required or authorised by or under the Radioactive Substances Act 1993 to be served on or given to any person may be served or given by delivering it to him, or by leaving it at his proper address¹, or by sending it by post to him at that address². In the case of a body corporate, any such notice may be served on or given to the secretary or clerk of that body³; and in the case of a partnership, any such notice may be served on or given to a partner or a person having the control or management of the partnership business⁴.

These provisions apply to the sending or giving of a document as they apply to the giving of a notice⁵.

1 For these purposes, and for the purposes of the Interpretation Act 1978 s 7 (service of documents by post) as it applies to the Radioactive Substances Act 1993 s 41 (see the text and notes 2-5 infra), the proper address of any person on or to whom any such notice is to be served or given is his last known address, except that (1) in the case of a body corporate or its secretary or clerk, it is the address of the registered or principal office of that body; (2) in the case of a partnership or person having the control or management of the partnership business, it is the principal office of the partnership: s 41(3)(a), (b). For these purposes, the principal office of a company registered outside the United Kingdom or of a partnership carrying on business outside the United Kingdom is its principal office within the United Kingdom: s 41(3). If the person to be served with or given any such notice has specified an address in the United Kingdom other than his proper address within the meaning of heads (1)-(2) supra as the one at which he or someone on his behalf will accept notices of the same description as that notice, that address is also treated for these purposes and for the purposes of the Interpretation Act 1978 s 7 as his proper address: Radioactive Substances Act 1993 s 41(4). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 Ibid s 41(1).

3 Ibid s 41(2)(a).

4 Ibid s 41(2)(b).

5 Ibid s 41(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(9) OFFENCES AND PENALTIES; SERVICE OF NOTICES/(ii) Service of Notices/1591. Service of notices under the Energy Act 2004.

1591. Service of notices under the Energy Act 2004.

The general provision made by the Energy Act 2004 for service of notices¹ has been discussed in an earlier part of this title². Where:

- 4374 (1) that provision authorises the giving or sending of a notification or other document³ by its delivery to a particular person ('the recipient'); and
- 4375 (2) the notification or other document is transmitted to the recipient:
- 413
- 600. (a) by means of an electronic communications network⁴; or
- 601. (b) by other means but in a form that nevertheless requires the use of apparatus by the recipient to render it intelligible,
- 414

the transmission has effect for the purposes of that Act as a delivery of the notification or other document to the recipient, but only if the relevant statutory requirements⁵ are complied with⁶. Where the recipient is the Nuclear Decommissioning Authority ('the NDA')⁷:

- 4376 (i) it must have indicated its willingness to receive the notification or other document in a manner mentioned in head (2) above;
- 4377 (ii) the transmission must be made in such manner, and satisfy such other conditions, as it may require; and
- 4378 (iii) the notification or other document must take such form as it may require⁸.

Where the person making the transmission is the NDA, it may determine⁹ the manner in which the transmission is made and the form in which the notification or other document is transmitted¹⁰.

1 Ie the Energy Act 2004 s 193: see PARA 739 note 2 ante.

2 See PARA 739 note 2 ante.

3 For the meaning of 'notification' for these purposes see PARA 739 note 2 ante; and for the meaning of 'document' see PARA 733 note 4 ante.

4 For these purposes, 'electronic communications network' has the same meaning as in the Communications Act 2003 (see TELECOMMUNICATIONS vol 97 (2010) PARA 60): Energy Act 2004 s 196(1).

5 Ie the requirements of ibid s 194: see the text and notes 7-10 infra; and PARA 739 note 2 ante.

6 Ibid s 194(1), (2).

7 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

8 Energy Act 2004 s 194(3). An indication, requirement or determination given, imposed or made by the NDA for these purposes is to be given, imposed or made by being published in such manner as it considers appropriate for bringing it to the attention of the persons who, in its opinion, are likely to be affected by it: s 194(7).

9 le subject to *ibid* s 194(5); see *PARA 739* note 2 ante.

10 *Ibid* s 194(4). See also note 9 *supra*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/(i) Functions of the Nuclear Decommissioning Authority/A. PRINCIPAL FUNCTION/1592. Designated responsibilities.

(10) NUCLEAR DECOMMISSIONING

(i) Functions of the Nuclear Decommissioning Authority

A. PRINCIPAL FUNCTION

1592. Designated responsibilities.

The principal function of the Nuclear Decommissioning Authority ('the NDA')¹ is to have responsibility for securing:

- 4379 (1) the operation, pending the commencement of their decommissioning², of designated nuclear installations³;
- 4380 (2) the decommissioning of those and other designated nuclear installations;
- 4381 (3) the cleaning up⁴ of designated nuclear sites⁵;
- 4382 (4) the operation of designated facilities for treating⁶, storing, transporting or disposing of hazardous material⁷;
- 4383 (5) the treatment, storage, transportation and disposal, in designated circumstances, of hazardous material; and
- 4384 (6) the decommissioning of designated installations comprised in NDA facilities⁸.

The responsibilities of the NDA under these provisions are responsibilities to be discharged by the performance of its specified⁹ statutory duties¹⁰.

A designation for these purposes of an installation, site or facility, and of the circumstances in which the NDA is to have responsibility for securing the treatment, storage, transportation or disposal of matter or waste, has¹¹ to be in the form of a direction given by the Secretary of State to the NDA¹². A direction must not, however, give the NDA a responsibility mentioned above in relation to an installation, site or facility unless the person with control¹³ of it at the time when the direction is given is:

- 4385 (a) a Crown appointee¹⁴;
- 4386 (b) the United Kingdom Atomic Energy Authority ('the UKAEA')¹⁵;
- 4387 (c) a publicly owned company¹⁶;
- 4388 (d) the NDA itself; or
- 4389 (e) a person who has consented to the giving of the direction¹⁷.

A direction designating an installation, site or facility must specify the provision or provisions of heads (1) to (6) above for the purposes of which it is being designated¹⁸; but, except in so far as the direction containing the designation otherwise provides, the designation of a principal nuclear site¹⁹ for cleaning up is to have effect for the statutory purposes²⁰ as including a designation, as an installation to be decommissioned, of every installation situated in or on that site²¹.

The Secretary of State must:

- 4390 (i) lay before Parliament a copy of every direction containing a designation;
- 4391 (ii) publish the contents of every such direction in the manner which, in his opinion, is most appropriate for bringing it to the attention of persons likely to be affected by it; and
- 4392 (iii) send a copy of every direction giving the NDA a responsibility in relation to an installation, site or facility to the person with control of that installation, site or facility²².

He may, however exclude from what he lays before Parliament and publishes under these provisions, and from what is to be laid before the Scottish Parliament by the Scottish Ministers²³, anything the publication of which he considers to be against the interests of national security²⁴.

A direction under the above provisions comes into force at the time which is specified in the direction or determined in accordance with provision contained in it²⁵. A direction giving the NDA responsibilities in relation to an installation, site or facility which is a nuclear installation, a principal nuclear site or a facility situated in or on a principal nuclear site, but is not one in relation to which the NDA is to have a financial responsibility²⁶, may require the person with control of the installation, site or facility to make payments to the Secretary of State²⁷; and the Secretary of State must pay sums so received by him into the Consolidated Fund²⁸. A direction may also impose requirements with respect to the charges which²⁹ are to be imposed by the NDA in connection with the discharge of responsibilities given to the NDA by the direction³⁰.

A direction may³¹ be modified or revoked by a subsequent direction³²; but a direction must not modify or revoke a direction relating to the responsibility of the NDA in relation to an installation, site or facility unless the person with control of the installation, site or facility is, at the time when the modification or revocation comes into force, a person such as is described in heads (a) to (d) above or a person who has consented to the modification or revocation³³.

A direction in so far as it gives the NDA responsibility for the decommissioning of an installation, or for the cleaning up of a principal nuclear site, may be revoked only if the following condition is satisfied³⁴, namely:

- 4393 (A) in the case of a direction given by the Secretary of State, that he is satisfied that the NDA has discharged all its responsibilities in relation to the decommissioning or cleaning up of the installation or site; and
- 4394 (B) in the case of a direction given jointly by the Secretary of State and the Scottish Ministers³⁵, that he and those Ministers are so satisfied³⁶.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

2 'Cleaning up' and 'decommissioning', in relation to a site or installation, includes (1) the treatment, storage, transportation and disposal of hazardous material and of other matter and substances that need to be dealt with or removed in or towards making the site or installation suitable to be used for other purposes; and (2) the construction of buildings and other structures to be used in connection with the cleaning up or decommissioning of the site or installation: Energy Act 2004 s 37(1). For the meaning of 'site' see PARA 1420 note 2 ante; for the meaning of 'installation' see PARA 1416 note 8 ante; for the meaning of 'treatment' see note 6 infra; and for the meaning of 'hazardous material' see note 5 infra.

3 'Nuclear installation' means (1) an installation which is situated in or on a principal nuclear site (for the meaning of which see note 19 infra) but is not comprised in an NDA facility (for the meaning of which see note 8 infra); (2) pipes, conduits and other apparatus which are not situated in or on a principal nuclear site but are connected to an installation falling within head (1) supra; and 'apparatus' includes machinery, equipment, appliances, tanks, containers, pipes and conduits: *ibid* s 37(1). An installation, site or facility is designated for these purposes if (1) it is designated by a direction under s 3 (see the text and notes 4-24 infra); or (2) the NDA

otherwise has responsibilities in relation to it by virtue of such a direction: s 37(1), (2). For the meaning of 'facility' see PARA 1420 note 2 ante.

4 See note 2 supra.

5 For these purposes, 'nuclear site' means a principal nuclear site (see note 19 infra) or a contaminated site: Energy Act 2004 ss 36(1), 37(1). 'Contaminated site' means the whole or a part of a site which is not a principal nuclear site but (1) has been and remains contaminated (whether radioactively or chemically) as a result of nuclear activities; or (2) is the location of hazardous material: ss 36(2), 37(1). 'Hazardous material' means (a) nuclear matter; (b) radioactive waste (within the meaning of the Radioactive Substances Act 1993: see PARA 1450 note 3 ante); and (c) any other article or substance that has been and remains contaminated (whether radioactively or chemically) as a result (within the meaning of the Energy Act 2004 s 36) of nuclear activities: ss 37(1), (7), 196(1). 'Nuclear matter' means material which (i) is nuclear matter within the meaning of the Nuclear Installations Act 1965 (see PARA 1492 note 4 ante); or (ii) would be such matter if it did not fall within an exception prescribed by regulations under that Act: Energy Act 2004 ss 37(7), 196(1).

For the purposes of s 36, something is contaminated as a result of nuclear activities if the contamination (whenever occurring), or any of it, is the direct or indirect result of one or more of the following: (A) activities carried on in or on an installation, site or facility which was at the time, or subsequently became, a nuclear installation, a principal nuclear site or an NDA facility; (B) the storage or disposal of any matter or substance in or on an installation, site or facility which was at the time, or subsequently became, a nuclear installation, a principal nuclear site or an NDA facility; (C) an incident occurring in or on an installation, site or facility which was at the time, or subsequently became, a nuclear installation, a principal nuclear site or an NDA facility; (D) the discharge of anything from an installation, site or facility which was at the time, or subsequently became, a nuclear installation, a principal nuclear site or an NDA facility; (E) the transportation of hazardous material to or from a principal nuclear site or an installation or facility in or on such a site; (F) an incident affecting hazardous material being transported to or from a principal nuclear site or an installation or facility in or on such a site: s 36(5).

6 For these purposes, 'treat', in relation to any matter or substance, includes processing and reprocessing (including any use as a material in a process for the manufacture of nuclear fuel), and cognate expressions are to be construed accordingly: *ibid* s 37(1).

7 For the meaning of 'hazardous material' see note 5 supra.

8 Energy Act 2004 s 3(1). 'NDA facility' means a facility which (1) is being or has been used for or in connection with the storage, disposal or treatment of hazardous material; and (2) is a facility for the operation of which the NDA has or has had a responsibility: s 37(1).

9 *le* its duties under *ibid* ss 15, 16: see PARA 1602-1603 post.

10 *Ibid* s 3(2).

11 *le* subject to *ibid* s 6 (designations relating to Scotland). A direction under s 3 which gives the NDA responsibilities falling within s 6(2), or removes or varies any such responsibilities, may be given only by the Secretary of State and the Scottish Ministers, acting jointly: s 6(1). The following responsibilities fall within s 6(2): (1) responsibility for the cleaning up of a site in Scotland which is a principal nuclear site without being a licensable site; (2) responsibility for the cleaning up of a contaminated site in Scotland; (3) responsibility for the operation of facilities for treating or storing hazardous material in or on a site in Scotland which is a principal nuclear site without being a licensable site; (4) responsibility for the operation in or on a nuclear site in Scotland of a facility for the disposal of hazardous material; (5) responsibility, in specified circumstances, for the disposal at a site in Scotland of hazardous material; (6) responsibility for the treatment or storage of hazardous material that may, in the discharge of that responsibility, be treated or stored in or on a site in Scotland which is not a licensable site; (7) responsibility for the decommissioning of an installation comprised in NDA facilities that are situated in or on a site in Scotland which is a principal nuclear site without being a licensable site: s 6(2). Before giving a direction under s 3 which (a) gives the NDA responsibilities for the operation in or on a licensable site in Scotland of a facility for the non-processing treatment of hazardous material; (b) gives it responsibilities not falling within s 6(2)(f) (see head (6) supra) for the non-processing treatment or the storage of hazardous material the treatment or storage of which, in the discharge of those responsibilities, may take place in or on a site in Scotland; (c) gives it responsibilities for the operation in or on a licensable site in Scotland of a facility for the storage of hazardous material; or (d) removes or varies any responsibilities mentioned in head (a) or head (c) supra, the Secretary of State must consult the Scottish Ministers: s 6(3). For these purposes, 'licensable site' means a site that falls within PARA (a), (b) or (d) of the definition of a 'principal nuclear site' in s 36(2) (see note 19 infra); and 'non-processing treatment' means treatment that does not consist in the processing or reprocessing of spent or irradiated nuclear fuel: s 6(4).

As to the Secretary of State see PARA 601 note 1 ante.

12 *Ibid* s 3(3).

13 References in *ibid* Pt 1 Ch 1 (ss 1-37, Schs 1-4) (as amended) (see PARAS 1414-1417 *ante*, the text and notes 1-12 *supra*, 14-36 *infra*; and PARA 1593 *et seq post*) to the person with control of an installation, site or facility are references: (1) in the case of a site in relation to which a nuclear site licence is held by a person whose period of responsibility (within the meaning of the Nuclear Installations Act 1965: see PARA 1494 note 7 *ante*) is still current, or a nuclear installation in or on such a site, to that person; (2) in the case of an installation or site which (a) is an installation in or on a site occupied by or on behalf of the Crown or is itself such a site, and (b) is an installation or site in the case of which there is a person appointed by an order made by the Secretary of State to be the person with control, to that person; (3) in the case of a facility which is not an installation to which head (1) or head (2) *supra* applies, but is operated on a single site to which one of those heads does apply, to the person with control of the site; (4) in the case of an installation or facility which is not an installation or facility to which head (1), head (2) or head (3) *supra* applies, but is operated on a single site by a person who (without being the owner of the site) is in occupation of it, to the occupier of the site; (5) in the case of a facility which is operated otherwise than on a single site, to the operator of the facility; (6) in the case of anything in or under the territorial sea adjacent to the United Kingdom, to the Secretary of State; (7) in the case of a site to which none of heads (1)-(6) *supra* applies, to the owner of the site; (8) in the case of an installation or facility to which none of heads (1)-(7) *supra* applies, to the occupier of the site where the installation or facility is located: ss 36(3), 37(1), 196(1). An order for the purposes of s 36(3)(b) (see head (2)(b) *supra*) is subject to the negative resolution procedure: s 36(4). As to the negative resolution procedure see PARA 602 note 2 *ante*. As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

14 'Crown appointee', in relation to an installation, site or facility, means (1) a Minister of the Crown; or (2) a person for the time being holding an appointment under *ibid* s 36(3)(b) (see note 13 *supra*) as the person with control of it: s 37(1).

15 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 *et seq ante*; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 *ante*.

16 For the meaning of 'publicly owned company' see PARA 1412 note 11 *ante*.

17 Energy Act 2004 s 3(4).

18 *Ibid* s 3(5).

19 'Principal nuclear site' means the whole or a part of a site of any of the following descriptions: (1) a site in respect of which a nuclear site licence is or is required to be in force; (2) a site in respect of which such a licence would be required to be in force if the licensing requirements of the Nuclear Installations Act 1965 applied to the Crown; (3) a site not falling within head (1) or head (2) above in or on which there is an NDA facility; (4) a site on which there is an installation used for practical research into the production of energy by the fusion of atomic nuclei; (5) a site which has been a site falling within heads (1)-(4) *supra* but which, without being such a site, remains contaminated (whether radioactively or chemically) as a result of nuclear activities carried on while it was such a site or before it became one: Energy Act 2004 ss 37(1), 36(2), 196(1).

20 *Ie* for the purposes of *ibid* Pt 1 Ch 1 (as amended).

21 *Ibid* s 3(6).

22 *Ibid* s 3(7).

23 The Scottish Ministers must lay before the Scottish Parliament a copy of every direction which by virtue of *ibid* s 6 (see note 11 *supra*) is given jointly by them and the Secretary of State: s 3(8).

24 *Ibid* s 3(9).

25 *Ibid* s 5(1), (9).

26 *Ie* under *ibid* s 21: see PARA 1607 *post*.

27 *Ibid* s 5(2). Every amount received by the Secretary of State in pursuance of a requirement under s 5(2) must be shown in the Nuclear Decommissioning Funding Account as a credit: s 31(4)(a). As to that account see PARAS 1612-1613 *post*.

28 *Ibid* s 5(8). As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 *et seq*; PARLIAMENT vol 78 (2010) PARAS 1028-1031.

29 *Ie* subject to *ibid* s 21.

- 30 Ibid s 5(3).
- 31 le subject to ibid s 5(5), (6): see the text and notes 33-34 infra.
- 32 Ibid s 5(4).
- 33 Ibid s 5(5).
- 34 Ibid s 5(6).
- 35 See note 11 supra.
- 36 Energy Act 2004 s 5(7).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/(i) Functions of the Nuclear Decommissioning Authority/A. PRINCIPAL FUNCTION/1593. Additional responsibilities under designating directions.

1593. Additional responsibilities under designating directions.

Where the Nuclear Decommissioning Authority ('the NDA')¹ is given a responsibility²:

- 4395 (1) for securing the operation of an installation³ or facility⁴, a direction⁵ may also give the NDA further responsibilities in relation to the management of the site⁶ where that installation or facility is situated⁷;
- 4396 (2) in relation to a principal nuclear site⁸, a direction⁹ may give the NDA further responsibilities in relation to the operation or management of any one or more of the following:
- 415
602. (a) research facilities situated in or on that site;
603. (b) facilities other than research facilities which are situated in or on that site and are neither nuclear installations¹⁰ nor NDA facilities¹¹;
604. (c) other land, whether or not adjacent to that site, which is owned or occupied, together with it, by the person with control¹² of the principal nuclear site; and
605. (d) facilities of any description situated in or on such other land¹³.
- 416

The NDA is not, however, to be given further responsibilities under head (1) or head (2) above except where the Secretary of State¹⁴ considers it appropriate to do so:

- 4397 (i) for the purpose of facilitating the carrying out by the NDA of any of its functions; or
- 4398 (ii) for a purpose otherwise incidental to the carrying out of those functions¹⁵.

Where a direction gives the NDA a responsibility for securing the treatment¹⁶, storage, transportation or disposal of matter or waste, it may also give the NDA responsibility for securing the design, construction and operation of a facility for that purpose¹⁷.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

2 The Energy Act 2004 s 3(4) (see PARA 1592 ante) applies to giving the NDA a responsibility mentioned in s 4 (see the text and notes 3-17 infra) as it applies to giving it a responsibility mentioned in s 3: s 4(5).

3 For the meaning of 'installation' see PARA 1416 note 8 ante.

4 For the meaning of 'facility' see PARA 1420 note 2 ante.

5 Is a direction under the Energy Act 2004 s 3 (see PARA 1592 ante): s 4(6).

6 For the meaning of 'site' see PARA 1420 note 2 ante.

7 Energy Act 2004 s 4(1).

8 For the meaning of 'principal nuclear site' see PARA 1592 note 19 ante.

- 9 See note 5 supra.
- 10 For the meaning of 'nuclear installation' see PARA 1592 note 3 ante.
- 11 For the meaning of 'NDA facility' see PARA 1592 note 8 ante.
- 12 For the meaning of 'person with control' see PARA 1592 note 13 ante.
- 13 Energy Act 2004 s 4(2).
- 14 As to the Secretary of State see PARA 601 note 1 ante.
- 15 Energy Act 2004 s 4(3).
- 16 For the meaning of 'treatment' see PARA 1592 note 6 ante.
- 17 Energy Act 2004 s 4(4).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/(i) Functions of the Nuclear Decommissioning Authority/B. OTHER FUNCTIONS/1594. Supplemental functions.

B. OTHER FUNCTIONS

1594. Supplemental functions.

In addition to its principal function¹, the Nuclear Decommissioning Authority ('the NDA')² has the function, to the extent that it considers it appropriate to do so, of:

- 4399 (1) carrying out research into matters relating to the decommissioning³ of nuclear installations⁴, the cleaning up⁵ of nuclear sites⁶ and the other activities in relation to which it has functions;
- 4400 (2) promoting the carrying out of research by others into those matters;
- 4401 (3) distributing information about those matters;
- 4402 (4) educating and training persons about those matters;
- 4403 (5) giving encouragement and other support to activities that benefit the social or economic life of communities living near designated⁷ installations⁸, designated sites⁹ or designated facilities¹⁰ or that produce other environmental benefits for such communities¹¹.

The NDA also has the function, to the extent that it is required to do so by the Secretary of State¹², of acting on his behalf in relation to agreements to which he is a party and which relate to expenditure incurred, or to be incurred, by him or by others:

- 4404 (a) on the decommissioning of nuclear installations;
- 4405 (b) on the cleaning up of nuclear sites; or
- 4406 (c) on the treatment¹³, storage, transportation or disposal of hazardous material¹⁴.

Such a requirement of the Secretary of State may require the NDA to meet, in whole or part, the cost of discharging liabilities of his under the agreements in relation to which the NDA acts on his behalf¹⁵.

The NDA's functions further include:

- 4407 (i) to the extent that it is required to do so by the Secretary of State, giving advice to the Secretary of State or to others, whether generally or in relation to a particular installation, site or facility, or particular hazardous material, about any of the things in which the NDA requires an expertise for the purpose of carrying out its functions¹⁶;
- 4408 (ii) to the extent that it is required to do so by the Scottish Ministers, giving advice to them, whether generally or in relation to a particular installation, site or facility, or particular hazardous material, about any of those things so far as they concern Scotland; and
- 4409 (iii) giving to the Secretary of State and the Scottish Ministers such further general advice about the things in which the NDA requires an expertise for the purpose of carrying out its functions as it considers appropriate¹⁷.

It is the duty of the NDA to secure that the discharge of its responsibilities under its principal function¹⁸ is not adversely affected by the doing of anything mentioned in heads (1) to (5) above or by the carrying out of its functions by virtue of head (iii) above¹⁹.

Where the NDA provides advice to the Scottish Ministers in pursuance of a requirement imposed by them under these provisions, and the requirement is not one imposed with the agreement of the Secretary of State, the NDA may charge for the provision of the advice²⁰. The amount of the charge is to be such sum as may be either agreed between the NDA and the Scottish Ministers or, in the absence of agreement, determined by the Secretary of State²¹.

1 le its function under the Energy Act 2004 s 3: see PARA 1592 ante.

2 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

3 For the meaning of 'decommissioning' see PARA 1592 note 3 ante.

4 For the meaning of 'nuclear installation' see PARA 1592 note 3 ante.

5 For the meaning of 'cleaning up' see PARA 1592 note 3 ante.

6 For the meaning of 'nuclear site' see PARA 1592 note 5 ante.

7 For the meaning of 'designated' see PARA 1592 note 3 ante.

8 For the meaning of 'installation' see PARA 1416 note 8 ante.

9 For the meaning of 'site' see PARA 1420 note 2 ante.

10 For the meaning of 'facility' see PARA 1420 note 2 ante.

11 Energy Act 2004 s 7(1).

12 As to the Secretary of State see PARA 601 note 1 ante.

13 For the meaning of 'treatment' see PARA 1592 note 6 ante.

14 Energy Act 2004 s 7(2). For the meaning of 'hazardous material' see PARA 1592 note 5 ante.

15 Ibid s 7(3).

16 The references in ibid s 7(4) to the things in which the NDA requires an expertise for the purpose of carrying out its functions include, in particular (1) the operation and decommissioning of nuclear installations; (2) the cleaning up of nuclear sites; and (3) the treatment, storage, transportation and disposal of hazardous material: s 7(5).

17 Ibid s 7(4).

18 le under ibid s 3(1): see PARA 1592 ante.

19 Ibid s 7(6).

20 Ibid s 7(7).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/(i) Functions of the Nuclear Decommissioning Authority/B. OTHER FUNCTIONS/1595. Special functions in relation to pensions etc.

1595. Special functions in relation to pensions etc.

The Nuclear Decommissioning Authority ('the NDA')¹ has the function, to the extent that it considers it appropriate to do so, of:

- 4410 (1) establishing schemes for the payment of pensions, allowances or gratuities² to or in respect of one or more different descriptions of relevant employees³;
- 4411 (2) maintaining such schemes, whether or not established by the NDA; and
- 4412 (3) administering a scheme for the payment of compensation in respect of personal injuries or death caused to relevant employees or to others employed in the nuclear industry⁴.

For these purposes, 'relevant employees' means:

- 4413 (a) employees of the United Kingdom Atomic Energy Authority ('the UKAEA')⁵;
- 4414 (b) persons the duties of whose employment with any other person relate, in whole or in part, to activities carried on for purposes connected with the carrying out by the NDA of any of its functions; or
- 4415 (c) a person employed in the nuclear industry who is of such a description as may be designated for these purposes by the Secretary of State⁶;

and before making a designation for the purposes of head (c) above, the Secretary of State must consult the NDA⁷.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

2 For the meaning of references to pensions, allowances or gratuities and their payment see PARA 1396 note 10 ante.

3 As to relevant employees see heads (a)-(c) in the text.

4 Energy Act 2004 s 8(1).

5 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

6 Energy Act 2004 s 8(2). As to the Secretary of State see PARA 601 note 1 ante.

7 Ibid s 8(3).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (ii) General Duties and Powers of the Nuclear Decommissioning Authority/1596. General duties of the Nuclear Decommissioning Authority when carrying out its functions.

(ii) General Duties and Powers of the Nuclear Decommissioning Authority

1596. General duties of the Nuclear Decommissioning Authority when carrying out its functions.

It is the duty of the Nuclear Decommissioning Authority ('the NDA')¹, in carrying out its functions², to have particular regard to each of the following:

- 4416 (1) relevant government policy³;
- 4417 (2) the need to safeguard the environment;
- 4418 (3) the need to protect persons from risks to their health and safety from activities involving the use, treatment⁴, storage, transportation or disposal of hazardous material⁵; and
- 4419 (4) the need to preserve nuclear security⁶.

It is also the duty of the NDA, in carrying out its functions:

- 4420 (a) to promote, and to ensure, the maintenance and development in the United Kingdom⁷ of a skilled workforce able to undertake the work of decommissioning nuclear installations and of cleaning up nuclear sites;
- 4421 (b) to promote effective competition for contracts to provide it with the services it must secure in order to discharge its responsibilities;
- 4422 (c) to secure the adoption of what it considers to be good practice by the persons with control of designated⁸ installations⁹, designated sites¹⁰ and designated facilities¹¹; and
- 4423 (d) subject to heads (1) to (4) and to heads (a) to (c) above, to secure value for money in all its dealings with others¹².

In the carrying out of its functions with respect to the operation of the installations and facilities designated as installations or facilities whose operation is to be secured by the NDA, and the management of designated sites, the NDA has the further duty to act in the manner that it considers is most beneficial to the public¹³.

In the case of each designated installation, designated site or designated facility, it is the duty of the NDA, in carrying out its function of giving encouragement and other support to activities that benefit the social or economic life of the communities living near that installation, site or facility or that produce other environmental benefits for those communities¹⁴:

- 4424 (i) to have regard, in particular, to the extent to which the person with control¹⁵ of the installation, site or facility was doing anything done for the purpose of giving encouragement and other support to activities benefiting the social or economic life of communities living near the installation, site or facility, or activities producing other environmental benefits for those communities¹⁶, prior to its designation; and

- 4425 (ii) to consider what obligations in relation to the doing of anything such as is described in head (i) above should be imposed on any person with whom the NDA is proposing, in connection with the discharge of any of its responsibilities in relation to the installation, site or facility, to enter into a contract for that person to provide services¹⁷.

Where the NDA is proposing, in connection with the discharge of any of its responsibilities in relation to a designated installation, designated site or designated facility, to enter into a contract with any person for him to provide any services, it is the duty of the NDA, before entering into that contract:

- 4426 (A) to require that person to produce his proposed strategy for the procurement of the goods and services that he will need to procure for the purpose of carrying out his obligations under the contract; and
- 4427 (B) to consider the likely effect of the implementation of that strategy on the economic life of communities living near the installation, site or facility¹⁸.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

2 As to the functions of the NDA see PARAS 1592-1595 ante.

3 For these purposes, 'relevant government policy' means all current policies which (1) relate to the decommissioning of nuclear installations, the cleaning up of nuclear sites or other activities in relation to which the NDA has functions; and (2) have been published by or on behalf of Her Majesty's Government in the United Kingdom or a devolved administration, have been notified to the NDA by the Secretary of State or have been notified both to the NDA and to the Secretary of State by a devolved administration: Energy Act 2004 s 9(7). 'Devolved administration' means the Scottish Ministers, the National Assembly for Wales or the Welsh Ministers or a department in Northern Ireland: s 9(8). For the meanings of 'cleaning up', 'decommissioning' and 'nuclear installation' see PARA 1592 note 3 ante; and for the meaning of 'nuclear site' see PARA 1592 note 5 ante. As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'treatment' see PARA 1592 note 6 ante.

5 For the meaning of 'hazardous material' see PARA 1592 note 5 ante.

6 Energy Act 2004 s 9(1). In Pt 1 Ch 1 (ss 1-37, Schs 1-4) (as amended) (see PARAS 1394-1397, 1592-1595 ante; the text and notes 1-5 supra, 7-19 infra, and PARA 1597 et seq post), 'nuclear security' means the security of each of the following: (1) nuclear installations and nuclear sites; (2) hazardous material; (3) apparatus and software used or stored in or on a nuclear installation or nuclear site; (4) apparatus and software used in connection with the treatment, storage, transportation or disposal of hazardous material; (5) sensitive nuclear information: ss 9(9), 37(1). 'Sensitive nuclear information' means (a) information relating to a treatment of uranium that increases the proportion of the isotope 235 contained in the uranium; (b) information capable of being used in connection with such a treatment of uranium; (c) information relating to activities carried out in, on or in relation to (i) nuclear installations or nuclear sites, or (ii) hazardous material, which the NDA has been notified by the Secretary of State is information that needs to be protected in the interests of national security; and (d) information about nuclear security: s 9(10). For the meaning of 'apparatus' see PARA 1592 note 3 ante.

7 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

8 For the meaning of 'designated' see PARA 1592 note 3 ante.

9 For the meaning of 'installation' see PARA 1416 note 8 ante.

10 For the meaning of 'site' see PARA 1420 note 2 ante.

11 For the meaning of 'facility' see PARA 1420 note 2 ante.

12 Energy Act 2004 s 9(2).

13 Ibid s 9(3).

14 Ie its function by virtue of ibid s 7(1)(e): see PARA 1594 ante at head (5) in the text.

15 For the meaning of 'person with control' see PARA 1592 note 13 ante.

16 ie anything falling within the Energy Act 2004 s 9(5).

17 Ibid s 9(4), (5).

18 Ibid s 9(6).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (ii) General Duties and Powers of the Nuclear Decommissioning Authority/1597. Powers for carrying out functions.

1597. Powers for carrying out functions.

The Nuclear Decommissioning Authority ('the NDA')¹ has power, for the purpose of carrying out its functions², to do all such things as appear to it to be likely to facilitate the carrying out of its functions, or to be incidental to carrying them out³. The powers of the NDA include, in particular:

- 4428 (1) power to operate electricity generating stations;
- 4429 (2) power to apply for and hold nuclear site licences⁴, registrations under the Radioactive Substances Act 1993⁵ and authorisations under the specified provisions⁶ of that Act;
- 4430 (3) power to make grants or loans to persons undertaking activities that benefit the social or economic life of communities living near designated installations⁷, designated sites⁸ or designated facilities⁹ or that produce other environmental benefits for such communities;
- 4431 (4) power to make grants or loans to persons carrying out research into matters relating to the decommissioning¹⁰ of nuclear installations¹¹, the cleaning up¹² of nuclear sites¹³ or other activities in relation to which the NDA has functions;
- 4432 (5) power to use its facilities, and facilities on designated sites, for the carrying out of research on behalf of others into any matter whatever;
- 4433 (6) power to use those facilities for the carrying on of any activities, in addition to such research, that it considers appropriate for generating funds for application towards the carrying out of its functions;
- 4434 (7) power to delegate to the United Kingdom Atomic Energy Authority ('the UKAEA')¹⁴ the maintenance of any specified pension scheme¹⁵;
- 4435 (8) power itself to do anything that the NDA has a function of securing others to do;
- 4436 (9) power to enter into contracts for others to secure the things that it has a function of securing;
- 4437 (10) power to enter into contracts for others to do anything else that it may do for the purpose of, or in connection with, the carrying out of its functions;
- 4438 (11) power to acquire or establish subsidiaries¹⁶ and to carry out its functions through subsidiaries¹⁷.

The NDA may impose charges in respect of the things that it does or secures in the discharge of its responsibilities:

- 4439 (a) on persons with control¹⁸ of installations, sites and facilities in the case of which it does not have a financial responsibility¹⁹; and
- 4440 (b) on other persons for whom it does or secures the doing of anything for which it does not have a financial responsibility²⁰.

Charges so imposed must not be imposed except in accordance with a designation direction²¹ or with the approval of the Secretary of State²².

- 20 Ibid s 10(3). As to financial responsibility see s 21; and PARA 1607 post.
- 21 Ie a direction under ibid s 3: see PARA 1592 ante.
- 22 Ibid s 10(4). As to the Secretary of State see PARA 601 note 1 ante.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iii) Strategies, Plans and Reports/1598. Nuclear Decommissioning Authority's duty to prepare and revise its strategy for carrying out its functions.

(iii) Strategies, Plans and Reports

1598. Nuclear Decommissioning Authority's duty to prepare and revise its strategy for carrying out its functions.

It is the duty of the Nuclear Decommissioning Authority ('the NDA')¹ to prepare its strategy for carrying out its functions² and from time to time to revise that strategy³.

On the NDA being given a new responsibility for securing the decommissioning⁴ or cleaning up⁵ of an installation⁶ or site⁷, it must consider:

- 4441 (1) whether the objectives and policy already contained in its current strategy apply in the case of that installation or site in a manner that it considers appropriate; and
- 4442 (2) if it considers that they do not, what revision of its strategy is required⁸.

Subject to an exception in the case of certain revisions⁹, a strategy prepared or revised by the NDA has effect only if it is approved by the Secretary of State¹⁰ and, to the extent that it relates to specified responsibilities of the NDA with regard to Scotland¹¹, also by the Scottish Ministers¹². The NDA was to prepare its first strategy, and submit a draft of it for approval, before the end of the 12 months beginning with 31 March 2005¹³. It must carry out and complete a review of its strategy before the end of each review period¹⁴. If, in consequence of such a review, the NDA decides that it is necessary to revise its strategy, it must submit the draft of its proposed revision for approval¹⁵; and if, in consequence of such a review, the NDA decides that it is unnecessary to revise its strategy, it must submit its current strategy for the renewal of the strategy's approval¹⁶. The obligation, following a review, to submit the draft revision of the NDA's strategy prepared in consequence of the review, or the strategy the approval of which is for renewal, is an obligation to submit it as soon as reasonably practicable after the completion of the review¹⁷. The NDA may, however, revise its strategy otherwise than in consequence of a review¹⁸. A revision otherwise than in consequence of a review takes effect without approval except to the extent that it contains modifications of the NDA's strategy which:

- 4443 (a) are likely to require a significant increase over its previous estimate in the money required for giving effect to the strategy;
- 4444 (b) significantly alter the priorities of the NDA as respects different installations or sites; or
- 4445 (c) relate to the objectives of the NDA for an installation or site¹⁹.

Accordingly, the NDA must submit for approval so much of every proposed revision which is made otherwise than in consequence of a review but which involves modifications falling within heads (a) to (c) above²⁰. The persons to whom a submission for approval, or for a renewal of approval, must be made are, in a case where what is submitted contains anything relating to the specified responsibilities of the NDA with regard to Scotland²¹, the Secretary of State and the Scottish Ministers, and in any other case, the Secretary of State²².

Except in the case of a revision made for the purpose only of giving effect to directions²³ given to the NDA²⁴, before preparing a strategy, revising a strategy in a manner requiring approval, or submitting a strategy to have the approval of the strategy renewed, the NDA must consult the following persons²⁵, namely:

- 4446 (i) the Health and Safety Executive²⁶;
- 4447 (ii) the Environment Agency²⁷;
- 4448 (iii) the Scottish Environment Protection Agency;
- 4449 (iv) such persons with responsibilities in relation to nuclear security²⁸ as have been nominated for these purposes by the Secretary of State;
- 4450 (v) every local authority whose area includes a designated²⁹ installation, designated site or designated facility³⁰ or a locality affected by activities at such an installation, site or facility;
- 4451 (vi) every person with control of such an installation, site or facility;
- 4452 (vii) the employees of every such person and the persons appearing to the NDA to represent them; and
- 4453 (viii) every body established either by the NDA, or by a person with control³¹ of a designated installation, designated site or designated facility, for the purpose of consulting persons about activities carried on at, or in connection with, such an installation, site or facility³².

In preparing, reviewing or revising its strategy the NDA must have regard to every representation made to it by or on behalf of such a person, and the representations made to it by members of the public³³.

Where anything is submitted for approval³⁴, or the NDA's current strategy is submitted for the renewal of the strategy's approval, the submission must be accompanied by a report by the NDA of the representations about the contents of its strategy, or of any revision of it, that it received in the course of the preparation of the strategy, or in connection with its proposal to revise it or to have the approval of the strategy renewed³⁵. Before determining whether or not to approve anything relating to certain responsibilities with regard to Scotland³⁶, the Secretary of State must consult the Scottish Ministers³⁷. He must also consult the Scottish Ministers before approving anything relating to proposals for the non-processing treatment³⁸, the storage or the disposal of hazardous materials³⁹ if it appears to him that the proposals would have an effect (notwithstanding that they relate only to England and Wales), on the management of hazardous materials located in Scotland or on the use of a site in England and Wales for the non-processing treatment, the storage or the disposal of hazardous materials that could be brought to that site from Scotland⁴⁰. If the Secretary of State approves a strategy or revised strategy submitted to him under these provisions, and the Scottish Ministers approve it so far as it relates to the specified responsibilities of the NDA with regard to Scotland⁴¹, it takes effect as the approved strategy of the NDA from the time of the giving of the approval⁴². If it is not so approved, the NDA must modify what was submitted and resubmit it for approval to the Secretary of State and (if the case so requires) to the Scottish Ministers⁴³. In preparing a modified strategy or revision for resubmission, the NDA must comply with every direction given to it⁴⁴ with respect to any of the following matters:

- 4454 (A) the NDA's objectives for a particular installation or site or for installations or sites of a particular description;
- 4455 (B) the NDA's strategy with respect to the operation of any particular installation or facility;
- 4456 (C) the period over which decommissioning or cleaning-up work is to be carried out in the case of a particular installation or site or in the case of installations or sites of a particular description;

4457 (D) the amounts to be defrayed by the NDA in a particular period in respect of expenditure on decommissioning or cleaning-up work in the case of a particular installation or site or in the case of installations or sites of a particular description⁴⁵.

The NDA must publish its approved strategy in the manner which, in its opinion, is most appropriate for bringing it to the attention of persons likely to be affected by it⁴⁶; and where it revises that strategy, it must so publish the revised strategy⁴⁷. The Secretary of State must lay before Parliament a copy of anything that the NDA publishes in accordance with these provisions⁴⁸. Where the NDA so publishes a strategy or revised strategy it must, in the same manner, publish a report on the representations it received about what the strategy or revision should contain⁴⁹. The NDA must exclude from what it publishes under these provisions anything that it has been notified by the Secretary of State is a matter the publication of which he considers to be against the interests of national security⁵⁰. The NDA may also exclude from what it publishes anything relating to the private affairs of an individual the publication of which the NDA considers would seriously and prejudicially affect the interests of that individual⁵¹ and anything of a commercial nature relating specifically to the affairs of a particular body of persons the publication of which the NDA considers would seriously and prejudicially affect the interests of that body⁵².

The Secretary of State may by order modify the provisions set out above⁵³.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

2 As to the functions of the NDA see PARAS 1592-1595 ante.

- 36 Ie responsibilities mentioned in ibid s 6(3) (which relates to Scotland only): see PARA 1592 note 11 ante.
- 37 Ibid Sch 2 para 5(3).
- 38 For these purposes, 'non-processing treatment' means treatment that does not consist in the processing or reprocessing of spent or irradiated nuclear fuel: ibid s 6(4) (definition applied by Sch 2 para 5(11)).
- 39 For the meaning of 'hazardous material' see PARA 1592 note 5 ante.
- 40 Energy Act 2004 Sch 2 para 5(4).
- 41 See note 11 supra.
- 42 Energy Act 2004 Sch 2 para 5(5).
- 43 Ibid Sch 2 para 5(6).
- 44 The persons by whom directions may be so given are: (1) in the case of directions given by virtue of ibid Sch 2 para 5(7)(a) or (b) (see heads (A)-(B) in the text) in relation to responsibilities of the NDA falling within s 6(2), the Secretary of State and the Scottish Ministers, acting jointly; and (2) in any other case, the Secretary of State: Sch 2 para 5(8). Before giving a direction under Sch 2 para 5(7), the Secretary of State and the Scottish Ministers or (as the case may be) the Secretary of State must consult (a) the NDA; (b) the Health and Safety Executive; (c) the Environment Agency; (d) the Scottish Environment Protection Agency; and (e) such persons with responsibilities in relation to nuclear security as have been nominated for these purposes by the Secretary of State: Sch 2 para 5(9). Nothing in Sch 2 para 5, however, with respect to the giving of directions restricts the grounds on which, or the circumstances in which, the Secretary of State or the Scottish Ministers may refuse approval without giving a direction: Sch 2 para 5(10).
- 45 Ibid Sch 2 para 5(7).
- 46 Ibid Sch 2 para 6(1).

47 Ibid Sch 2 para 6(2).

48 Ibid Sch 2 para 6(3). The Scottish Ministers must lay before the Scottish Parliament a copy of anything that is so published: Sch 2 para 6(3).

49 Ibid Sch 2 para 6(4).

50 Ibid Sch 2 para 6(5).

51 Ibid Sch 2 para 6(6)(a). In determining whether to exclude anything from publication under Sch 2 para 6(6) the NDA must have regard to whether the harm that would be caused by publication is likely to outweigh the benefits: Sch 2 para 6(7).

52 Ibid Sch 2 para 6(6)(b); and see note 51 supra.

53 See *ibid* s 35(1)(b). As to the making of such orders see *PARA 1395* note 14 ante.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see *PARA 1494A*.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iii) Strategies, Plans and Reports/1599. Contents of strategy prepared by the Nuclear Decommissioning Authority.

1599. Contents of strategy prepared by the Nuclear Decommissioning Authority.

The strategy prepared in pursuance of the statutory duty to do so¹ must include both:

- 4458 (1) the Nuclear Decommissioning Authority's ('the NDA's')² strategy for decommissioning³ and cleaning up⁴ the installations⁵ and sites⁶ designated⁷ as installations or sites to be decommissioned or cleaned up⁸; and
- 4459 (2) its strategy for the operation of the installations and facilities designated as installations or facilities whose operation it is to secure⁹.

The strategy must set out:

- 4460 (a) the priorities the NDA has adopted with respect to the discharge of its responsibilities;
- 4461 (b) how it proposes to ensure the maintenance and development in the United Kingdom¹⁰ of a skilled workforce able to undertake the work of decommissioning nuclear installations¹¹ and of cleaning up nuclear sites¹²;
- 4462 (c) how it proposes to promote effective competition for contracts to provide it with the services it must secure in order to discharge its responsibilities;
- 4463 (d) its proposals for ensuring the adoption of what it considers to be good practice by the persons with control¹³ of designated installations, designated sites and designated facilities;
- 4464 (e) how it proposes to give encouragement or other support to activities that benefit the social or economic life of communities living near designated installations, designated sites or designated facilities or that produce other environmental benefits for such communities; and
- 4465 (f) an explanation of how and why it arrived at the decisions and proposals which are set out in the strategy¹⁴.

The strategy must also set out the steps that the NDA proposes to take:

- 4466 (i) for giving appropriate publicity to its responsibilities and strategy;
- 4467 (ii) for explaining them both to persons having a particular interest in matters relating to the carrying out by the NDA of its functions and to the general public;
- 4468 (iii) for ensuring that the NDA is kept informed at all times of the opinions about such matters of persons having such a particular interest; and
- 4469 (iv) for facilitating the communication by such persons of their opinions to the NDA¹⁵.

The Secretary of State may by order modify the provisions set out above¹⁶.

¹ ie the strategy prepared under the Energy Act 2004 s 11: see PARA 1598 ante.

2 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARAS 1592-1595 ante.

3 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

4 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

5 For the meaning of 'installation' see PARA 1416 note 8 ante.

6 For the meaning of 'site' see PARA 1420 note 2 ante.

7 For these purposes, references, in relation to the preparation of a strategy, to a site, installation or facility designated for any purpose include references to a site, installation or facility designated by a direction which is not yet in force: Energy Act 2004 s 12(9). For the meaning of 'designated' generally see PARA 1592 note 3 ante; and for the meaning of 'facility' see PARA 1420 note 2 ante.

8 Ibid s 12(1)(a). The strategy required by s 12(1)(a) must contain: (1) objectives describing what the NDA intends decommissioning or cleaning up to achieve in the case of different installations and sites; and (2) the NDA's policy as to the means by which it intends those objectives to be achieved: s 12(4). In the case of a site which is to be cleaned up, those objectives must include, in particular, a statement of the condition to which the site needs to be restored: s 12(5). In setting out its policy as to the means of achieving the objectives mentioned in s 12(4), the NDA must describe: (a) the procedure it proposes to adopt for ensuring the preparation, and revision from time to time, of plans for the identification and carrying out of the decommissioning or cleaning-up work that is or continues to be needed in the case of each designated installation or designated site; (b) the manner in which it proposes to secure that the work identified by such plans is carried out in accordance with them; (c) an outline of the work that has been identified as needed in the case of each designated installation or designated site for which plans have been prepared; (d) the period over which that work is to be carried out in the case of each installation or site; and (e) the expenses it expects to incur in respect of the carrying out of the decommissioning and cleaning-up work for which it has a responsibility: s 12(6).

An objective or policy set out in the NDA's strategy may be framed in one or more of the following ways: (i) by reference to a particular installation or site; (ii) by reference to different descriptions of installation or site; (iii) so as to become applicable to an installation or site of a particular description on the NDA being given responsibility for an installation or site of that description: s 12(8).

9 Ibid s 12(1)(b). The strategy required by s 12(1)(b) must set out (1) the expenditure that the NDA expects to incur on the running costs of installations and facilities whose operation it has a responsibility to secure, and on the management of the sites where they are located; (2) capital expenditure that the NDA expects to incur in connection with the discharge of its responsibilities in relation to those installations and facilities, and with the management of those sites; and (3) the income that it considers it is likely to secure from the operation of those installations and facilities and from the management of those sites: s 12(7). See also s 12(8), cited in note 8 supra.

10 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

11 For the meaning of 'nuclear installation' see PARA 1592 note 3 ante.

12 For the meaning of 'nuclear site' see PARA 1592 note 5 ante.

13 For the meaning of 'person with control' see PARA 1592 note 13 ante.

14 Energy Act 2004 s 12(2).

15 Ibid s 12(3).

16 See ibid s 35(1)(b). As to the making of such orders see PARA 1395 note 14 ante.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iii) Strategies, Plans and Reports/1600. Annual plans of the Nuclear Decommissioning Authority.

1600. Annual plans of the Nuclear Decommissioning Authority.

The Nuclear Decommissioning Authority ('the NDA')¹ must, for each financial year², prepare a plan:

- 4470 (1) for the carrying out, during that year, of work towards decommissioning³ the installations⁴ designated⁵ as installations to be decommissioned;
- 4471 (2) for the carrying out, during that year, of work towards cleaning up⁶ the sites designated as sites to be cleaned up⁷;
- 4472 (3) for the operation, during that year, of the installations and facilities designated as installations or facilities whose operation is to be secured by the NDA⁸; and
- 4473 (4) for the carrying out during that year of its other functions⁹.

The plan must be prepared and, not less than three months before the commencement of the financial year to which it relates, submitted for approval to the Secretary of State¹⁰ or, in a case where it contains anything relating to specified responsibilities of the NDA with regard to Scotland¹¹, to the Secretary of State and the Scottish Ministers¹².

The plan for a financial year:

- 4474 (a) so far as it relates to decommissioning and cleaning up, must set out:
417
 - 606. (i) a summary of the decommissioning and cleaning-up work which the NDA is intending should be carried out during that year;
 - 607. (ii) the arrangements that have been made, or are to be made, for securing that agreements for the carrying out of that work are entered into;
 - 608. (iii) the agreements, if any, that have already been entered into for that purpose or under which that work is to be carried out;
 - 609. (iv) an estimate of the expenditure that will be incurred by the NDA during that year in respect of decommissioning or cleaning-up work carried out during that year or previously or in respect of decommissioning and cleaning-up work to be carried out in subsequent years;
 - 610. (v) any proposals to which it intends to give effect during that year that relate to, or will affect, the management of installations or sites designated as installations or sites to be decommissioned or cleaned up; and
 - 611. (vi) the extent to which its plans for the year contribute to the achievement of the objectives set out in its strategy¹³;
- 418 4475 (b) so far as it relates to the operation of installations and facilities, must set out:
419
 - 612. (i) an estimate of the expenditure that will be incurred during that year on the running costs of the installations and facilities and on the management of the sites where they are located;

- 613. (ii) an estimate of the capital expenditure that will be incurred during that year in connection with the discharge of the NDA's responsibilities in relation to those installations and facilities and with the management of those sites;
 - 614. (iii) an estimate of the income it is likely to secure during that year from the operation of the installations and facilities and from the management of those sites; and
 - 615. (iv) any proposals to which the NDA intends to give effect during that year that relate to or will affect the operation of the installations or facilities, or the management of the sites where they are located¹⁴;
- 420
- 4476 (c) so far as it relates to the NDA's other functions, must:
- 421
- 616. (i) set out all the activities of significance that the NDA proposes to carry on during that year in the carrying out of those other functions; and
 - 617. (ii) an estimate of the expenditure that will be incurred in the carrying out of those other functions¹⁵;
- 422
- 4477 (d) must also set out any other matters that the Secretary of State directs the NDA to include in its plan for that year¹⁶.

A plan prepared or revised by the NDA has effect only if it is approved by the Secretary of State and, to the extent that it relates to specified responsibilities of the NDA with regard to Scotland¹⁷, also by the Scottish Ministers¹⁸. The NDA may revise its plan at any time before or during the year to which it relates¹⁹. Before preparing or revising a plan the NDA must consult:

- 4478 (A) the Health and Safety Executive²⁰;
- 4479 (B) the Environment Agency²¹;
- 4480 (C) the Scottish Environment Protection Agency;
- 4481 (D) such persons with responsibilities in relation to nuclear security²² as have been nominated for these purposes by the Secretary of State;
- 4482 (E) every local authority whose area includes a designated²³ installation, designated site or designated facility or a locality affected by activities at such an installation, site or facility;
- 4483 (F) every person with control²⁴ of such an installation, site or facility;
- 4484 (G) the employees of every such person and the persons appearing to the NDA to represent them; and
- 4485 (H) every body established by the NDA, or by a person with control of a designated installation, designated site or designated facility, for the purpose of consulting persons about activities carried on at, or in connection with, such an installation, site or facility²⁵.

In the case of a revision of a plan, however, the Secretary of State may allow the NDA to proceed without consulting one or more of the persons mentioned in heads (A) to (H) above²⁶. In preparing or revising a plan the NDA must have regard to every representation made to it by or on behalf of a person so mentioned and the representations made to it by members of the public²⁷.

Where a draft of the NDA's plan for a financial year, or of a revision of such a plan, is submitted for approval to the Secretary of State, or to the Secretary of State and the Scottish Ministers, the submission must be accompanied by a report by the NDA of the representations about the contents of its plan or revision that it received in the course of its preparation²⁸. Before determining whether or not to approve anything relating to certain responsibilities with regard to Scotland²⁹, the Secretary of State must consult the Scottish Ministers³⁰. The Secretary of State must also consult the Scottish Ministers before approving anything relating to proposals

for the non-processing treatment³¹, the storage or the disposal of hazardous materials³² if it appears to him that the proposals would have an effect, notwithstanding that they relate only to England and Wales, on the management of hazardous materials located in Scotland or on the use of a site in England and Wales for the non-processing treatment, the storage or the disposal of hazardous materials that could be brought to that site from Scotland³³. If the Secretary of State approves what has been submitted to him, and the Scottish Ministers approve it so far as it relates to specified responsibilities of the NDA with regard to Scotland³⁴, it takes effect, in relation to the financial year to which it relates, as an approved plan of the NDA³⁵. If it is not so approved, the NDA must modify what was submitted and resubmit it for approval to the Secretary of State and, if the case so requires, to the Scottish Ministers³⁶. Where the NDA makes modifications of a plan for the purpose of resubmitting it, it must do so in accordance with any directions given to it in relation to any matter other than specified responsibilities of the NDA with regard to Scotland³⁷, by the Secretary of State, or in relation to those responsibilities, by the Secretary of State and the Scottish Ministers, acting jointly³⁸.

The NDA must publish its plan for a financial year in the manner which, in its opinion, is most appropriate for bringing it to the attention of persons likely to be affected by it³⁹; and where it revises that plan, it must so publish the revised plan⁴⁰. The Secretary of State must lay before Parliament a copy of anything that the NDA publishes in accordance with these provisions⁴¹. Where the NDA publishes a plan or revised plan under these provisions it must, in the same manner, publish a report on the representations it received about what the plan or revision should contain⁴². The NDA must exclude from what it publishes under these provisions anything that it has been notified by the Secretary of State is a matter the publication of which he considers to be against the interests of national security⁴³. It may also exclude from what it so publishes anything relating to the private affairs of an individual the publication of which the NDA considers would seriously and prejudicially affect the interests of that individual⁴⁴ and anything of a commercial nature relating specifically to the affairs of a particular body of persons the publication of which the NDA considers would seriously and prejudicially affect the interests of that body⁴⁵.

The Secretary of State may by order modify the provisions set out above⁴⁶.

1 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARAS 1592-1595 ante.

2 For the meaning of 'financial year' see PARA 763 note 17 ante.

3 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

4 For the meaning of 'installation' see PARA 1416 note 8 ante.

5 For these purposes, references, in relation to the preparation of a plan for a financial year, to a site, installation or facility designated for any purpose include references to a site, installation or facility designated by a direction which is not yet in force but is to come into force during that financial year: Energy Act 2004 s 13(7). For the meaning of 'designated' generally see PARA 1592 note 3 ante; and for the meanings of 'site' and 'facility' see PARA 1420 note 2 ante.

6 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

7 As to designation for these purposes see note 5 supra.

8 See note 7 supra.

9 Energy Act 2004 s 13(1).

10 As to the Secretary of State see PARA 601 note 1 ante.

11 The responsibilities falling within the Energy Act 2004 s 6(2) (which relates to Scotland only): see PARA 1592 note 11 ante.

12 See *ibid* s 13(2).

- 13 Ibid s 13(3).
- 14 Ibid s 13(4).
- 15 Ibid s 13(5).
- 16 Ibid s 13(6).
- 17 See note 11 supra.
- 18 Energy Act 2004 s 11(8), Sch 3 para 1(1).
- 19 Ibid Sch 3 para 1(2).
- 20 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.
- 21 As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.
- 22 For the meaning of 'nuclear security' see PARA 1596 note 6 ante.
- 23 For the purposes of the Energy Act 2004 Sch 3 para 2, references, in relation to the preparation or revision of a plan, to a designated installation, designated site or designated facility include references to an installation, site or facility designated by a direction which (1) is not yet in force; but (2) is to come into force during the year to which the plan relates: Sch 2 para 2(4). For the meaning of 'designated' generally see PARA 1592 note 3 ante.
- 24 For the meaning of 'person with control' see PARA 1592 note 13 ante.
- 25 Energy Act 2004 Sch 3 para 2(1).
- 26 Ibid Sch 3 para 2(2).
- 27 Ibid Sch 3 para 2(3).
- 28 Ibid Sch 3 para 3(1), (2).
- 29 Ie responsibilities mentioned in ibid s 6(3) (which relates to Scotland only): see PARA 1592 note 11 ante.
- 30 Ibid Sch 3 para 3(3).
- 31 For the meaning of 'the non-processing treatment' see PARA 1598 note 38 ante (definition applied by ibid Sch 3 para 3(9)).
- 32 For the meaning of 'hazardous material' see PARA 1592 note 5 ante.
- 33 Energy Act 2004 Sch 3 para 3(4).
- 34 See note 11 supra.
- 35 Energy Act 2004 Sch 3 para 3(5).
- 36 Ibid Sch 3 para 3(6).
- 37 See note 11 supra.
- 38 Energy Act 2004 Sch 3 para 3(7). Before giving such a direction the Secretary of State or (as the case may be) the Secretary of State and the Scottish Ministers must consult (1) the NDA; (2) the Health and Safety Executive; (3) the Environment Agency; (4) the Scottish Environment Protection Agency; and (5) such persons with responsibilities in relation to nuclear security as have been nominated for these purposes by the Secretary of State: Sch 3 para 3(8).
- 39 Ibid Sch 3 para 4(1).
- 40 Ibid Sch 3 para 4(2).

41 Ibid Sch 3 para 4(3). The Scottish Ministers must lay before the Scottish Parliament a copy of anything that is so published: Sch 3 para 4(3).

42 Ibid Sch 3 para 4(4).

43 Ibid Sch 3 para 4(5).

44 Ibid Sch 3 para 4(6)(a). In determining whether to exclude anything from publication under Sch 3 para 4(6) the NDA must have regard to whether the harm that would be caused by publication is likely to outweigh the benefits: Sch 3 para 4(7).

45 Ibid Sch 3 para 4(6)(b); and see note 44 *supra*.

46 See *ibid* s 35(1)(c). As to the making of such orders see PARA 1395 note 14 *ante*.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iii) Strategies, Plans and Reports/1601. Annual reports of the Nuclear Decommissioning Authority.

1601. Annual reports of the Nuclear Decommissioning Authority.

As soon as reasonably practicable after the end of each financial year¹, the Nuclear Decommissioning Authority ('the NDA')² must prepare and send to the Secretary of State³ a report on the discharge of its responsibilities during that year and the carrying out of its other functions⁴. If during the year to which the report relates the NDA has had certain responsibilities with regard to Scotland⁵, it must also send a copy of that report to the Scottish Ministers⁶.

The report must contain:

- 4486 (1) a description of what has been done, during the year to which it relates, towards achieving the NDA's objectives, as set out in the approved strategy⁷ in force during that year;
- 4487 (2) a general description of the work carried out during that year for the purpose of decommissioning⁸ the installations⁹ designated¹⁰ as installations to be decommissioned;
- 4488 (3) a general description of the work carried out during that year for the purpose of cleaning up¹¹ the sites¹² designated as sites to be cleaned up;
- 4489 (4) a report on every change occurring during that year in the identity of persons with control¹³ of designated installations, designated sites and designated facilities¹⁴;
- 4490 (5) a report of every significant change during that year to the contractual arrangements of the NDA that are in force with respect to the carrying out, whether or not during that year, of decommissioning or cleaning-up work;
- 4491 (6) a report on the extent to which the NDA has implemented its plan¹⁵ for that year;
- 4492 (7) a report of the NDA's dealings during that year with the Health and Safety Executive¹⁶, the Environment Agency¹⁷ and the Scottish Environment Protection Agency;
- 4493 (8) a report containing an assessment of the performance in relation to safety and environmental matters of the persons, other than the NDA itself, who have control of designated installations, designated sites and designated facilities;
- 4494 (9) a report of the NDA's dealings during that year with such persons with responsibilities in relation to nuclear security¹⁸ as have been nominated for these purposes by the Secretary of State; and
- 4495 (10) any other matters which the NDA is directed by the Secretary of State¹⁹ to include in that report²⁰.

The report must deal separately with activities relating to the decommissioning of installations or the cleaning up of sites and the NDA's other activities²¹.

The Secretary of State must lay a copy of every report received by him under these provisions before Parliament²² and must also arrange for a copy of the report to be published in the manner which, in his opinion, is most appropriate for bringing it to the attention of persons likely to be affected by it²³. The Scottish Ministers must lay a copy of every report received by

them under these provisions before the Scottish Parliament²⁴. The Secretary of State may, however, exclude from what he lays before Parliament or arranges to be published under these provisions, and from what is to be laid before the Scottish Parliament by the Scottish Ministers, anything falling within the following descriptions²⁵, namely:

- 4496 (a) anything the publication of which the Secretary of State considers to be against the interests of national security;
- 4497 (b) anything relating to the private affairs of an individual the publication of which the Secretary of State considers would seriously and prejudicially affect the interests of that individual; and
- 4498 (c) anything of a commercial nature relating specifically to the affairs of a particular body of persons the publication of which the Secretary of State considers would seriously and prejudicially affect the interests of that body²⁶.

1 For the meaning of 'financial year' see PARA 763 note 17 ante.

2 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 Energy Act 2004 s 14(1).

5 The responsibilities which either fall within *ibid* s 6(2) or are mentioned in s 6(3) (matters relating to Scotland only): see PARA 1592 note 11 ante.

6 *Ibid* s 14(2).

7 As to the NDA's strategy see PARAS 1598-1599 ante.

8 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

9 For the meaning of 'installation' see PARA 1416 note 8 ante.

10 For the meaning of 'designated' see PARA 1592 note 3 ante.

11 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

12 For the meaning of 'site' see PARA 1420 note 2 ante.

13 For the meaning of 'person with control' see PARA 1592 note 13 ante.

14 For the meaning of 'facility' see PARA 1420 note 2 ante.

15 As to the NDA's annual plan see PARA 1600 ante.

16 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

17 As to the Environment Agency see PARA 1390 ante; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 68 et seq.

18 For the meaning of 'nuclear security' see PARA 1596 note 6 ante.

19 Before giving a direction for these purposes, the Secretary of State must consult the Scottish Ministers: Energy Act 2004 s 14(4).

20 *Ibid* s 14(3).

21 *Ibid* s 14(5).

22 *Ibid* s 14(6).

25 Ibid s 14(9).

26 Ibid s 14(10).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iv) Implementation of Strategies and Plans/1602. Duty to decommission and clean up installations and sites.

(iv) Implementation of Strategies and Plans

1602. Duty to decommission and clean up installations and sites.

Where the Nuclear Decommissioning Authority ('the NDA')¹ has a responsibility for securing the decommissioning² of an installation³ or the cleaning up⁴ of a site⁵, it is the duty of the NDA to take all such steps as it considers appropriate:

- 4499 (1) for securing the implementation in the case of that installation or site of the NDA's approved strategy⁶ for decommissioning and cleaning up;
- 4500 (2) for the achievement of the objectives set out in that strategy that are applicable to that installation or site; and
- 4501 (3) for giving effect in each financial year⁷ to its approved plan⁸ for that year, so far as it relates to the decommissioning of that installation or the cleaning up of that site⁹.

In the case of a designated¹⁰ site which is a contaminated site¹¹, that duty has effect subject to such general and specific directions relating to the manner in which the NDA is to discharge its responsibilities in relation to that site as may be given to it by the Secretary of State¹² or, in the case of a site in Scotland, by the Secretary of State and the Scottish Ministers, acting jointly¹³. The NDA must comply with all such directions¹⁴.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

2 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

3 For the meaning of 'installation' see PARA 1416 note 8 ante.

4 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

5 For the meaning of 'site' see PARA 1420 note 2 ante.

6 As to the NDA's strategy see PARAS 1598-1599 ante.

7 For the meaning of 'financial year' see PARA 763 note 17 ante.

8 As to the NDA's annual plan see PARA 1600 ante.

9 Energy Act 2004 s 15(1), (2).

10 For the meaning of 'designated' see PARA 1592 note 3 ante.

11 For the meaning of 'contaminated site' see PARA 1592 note 5 ante.

12 As to the Secretary of State see PARA 601 note 1 ante.

13 Energy Act 2004 s 15(3).

14 Ibid s 15(4).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iv) Implementation of Strategies and Plans/1603. Duties to operate installations and to provide treatment etc.

1603. Duties to operate installations and to provide treatment etc.

These provisions apply where the Nuclear Decommissioning Authority ('the NDA')¹ has a responsibility for securing:

- 4502 (1) the operation of a nuclear installation²;
- 4503 (2) the operation of a facility³ for treating⁴, storing, transporting or disposing of hazardous material⁵;
- 4504 (3) the operation of any other facility;
- 4505 (4) the treatment, storage, transportation or disposal, in designated⁶ circumstances, of hazardous material; or
- 4506 (5) the management of any land not comprised in a site⁷ designated as a site to be cleaned up⁸.

That responsibility is an obligation to secure that the installation or facility is operated, the hazardous material is treated, stored, transported or disposed of, or the land is managed, in accordance with general and specific directions⁹. The power to give such directions is exercisable by the Secretary of State¹⁰ or, in relation to any matter connected with specified responsibilities of the NDA with regard to Scotland¹¹, by the Secretary of State and the Scottish Ministers, acting jointly¹².

In discharging that responsibility the NDA must also act:

- 4507 (a) in accordance with the NDA's approved strategy¹³ for the operation of designated installations and designated facilities; and
- 4508 (b) in each financial year¹⁴, in accordance with the NDA's approved plan¹⁵ for that year¹⁶.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

2 For the meaning of 'nuclear installation' see PARA 1592 note 3 ante.

3 For the meaning of 'facility' see PARA 1420 note 2 ante.

4 For the meaning of 'treat' see PARA 1592 note 6 ante.

5 For the meaning of 'hazardous material' see PARA 1592 note 5 ante.

6 For the meaning of 'designated' see PARA 1592 note 3 ante.

7 For the meaning of 'site' see PARA 1420 note 2 ante.

8 Energy Act 2004 s 16(1). For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

9 Ibid s 16(2).

10 As to the Secretary of State see PARA 601 note 1 ante.

11 The responsibilities falling within the Energy Act 2004 s 6(2) (which relates to Scotland only): see PARA 1592 note 11 ante.

12 Ibid s 16(3).

13 As to the NDA's strategy see PARAS 1598-1599 ante.

14 For the meaning of 'financial year' see PARA 763 note 17 ante.

15 As to the NDA's annual plan see PARA 1600 ante.

16 Energy Act 2004 s 16(4).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iv) Implementation of Strategies and Plans/1604. Duty to use installations etc for purposes of the Nuclear Decommissioning Authority.

1604. Duty to use installations etc for purposes of the Nuclear Decommissioning Authority.

The following provisions apply:

- 4509 (1) in the case of every designated¹ nuclear installation² and every designated installation³ comprised in an NDA facility⁴;
- 4510 (2) in the case of every designated site⁵ which is a principal nuclear site⁶; and
- 4511 (3) in the case of every designated facility⁷ situated in or on a principal nuclear site⁸.

The person with control⁹ of the installation, site or facility must secure that neither the installation, site or facility nor any interest or right in relation to it¹⁰ is used or disposed of¹¹ except for purposes which:

- 4512 (a) facilitate the discharge of the Nuclear Decommissioning Authority's ('the NDA's')¹² responsibilities in relation to designated installations, designated sites and designated facilities¹³; and
- 4513 (b) secure that there is no contravention¹⁴, in relation to the discharge of those responsibilities, of any obligations imposed by or under any enactment¹⁵ on the person with control of the installation, site or facility¹⁶;

but this does not prevent the use or disposal of an installation, site or facility where the NDA has consented to that use or disposal¹⁷.

Where the NDA has an interest in the installation, site or facility, the person with control of it has the right, as against the NDA, to use it for the purposes authorised by heads (a) and (b) above and to put it to any use to which the NDA has consented¹⁸. Except where:

- 4514 (i) the NDA otherwise directs; or
- 4515 (ii) the person with control of the installation, site or facility is, has been or will be subject to charges by the NDA in respect of the discharge of its responsibilities in relation to that installation, site or facility,

that person must account for, and pay, to the NDA all sums and other benefits received by him in respect of the use or disposal¹⁹ by him of an interest or right in relation to the installation, site or facility²⁰.

1 For the meaning of 'designated' see PARA 1592 note 3 ante.

2 For the meaning of 'nuclear installation' see PARA 1592 note 3 ante.

3 For the meaning of 'installation' see PARA 1416 note 8 ante.

4 For the meaning of 'NDA facility' see PARA 1592 note 8 ante.

5 For the meaning of 'site' see PARA 1420 note 2 ante.

6 For the meaning of 'principal nuclear site' see PARA 1592 note 19 ante.

7 For the meaning of 'facility' see PARA 1420 note 2 ante.

8 Energy Act 2004 s 17(1).

9 For the meaning of 'person with control' see PARA 1592 note 13 ante.

10 For these purposes, a reference to an interest or right in relation to an installation or site includes a reference to any interest or right in relation to (1) anything located in or on the installation or site; (2) a facility operated from the installation or site; (3) a process carried on in or on the installation or site; or (4) information or documents relating to the installation or site or to anything mentioned in heads (1)-(3) supra: Energy Act 2004 s 17(8). For the meaning of 'documents' see PARA 733 note 4 ante.

11 For these purposes, references to the disposal of an interest in a site include references to (1) the granting of an estate or interest in the site, or of a licence to use it; or (2) entering into an agreement to grant such an estate, interest or licence: *ibid* s 17(9).

12 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

13 For these purposes, a reference to facilitating the discharge of the NDA's responsibilities in relation to an installation, site or facility includes a reference to doing anything which is required or authorised by or for the purposes of (1) an agreement between the NDA and the person with control of the installation, site or facility; or (2) an agreement between the NDA and a body corporate of which that person is a subsidiary: Energy Act 2004 s 17(6). For the meaning of 'subsidiary' see PARA 744 note 6 ante.

14 For the meaning of 'contravention' see PARA 761 note 7 ante.

15 For the meaning of 'enactment' see PARA 750 note 9 ante.

16 Energy Act 2004 s 17(2).

17 *Ibid* s 17(3).

18 *Ibid* s 17(4).

19 For these purposes, references to sums received in respect of a disposal of an interest in a site include references to sums that are paid periodically (by way of rent or otherwise) by a tenant or licensee or by a party to such an agreement: *ibid* s 17(9).

20 *Ibid* s 17(5). Nothing in s 17(5) prohibits the inclusion in such an agreement of provision for sums and benefits mentioned in that provision to be accounted for and paid to the NDA in a case falling within s 17(5)(b) (see head (ii) in the text): s 17(7).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (iv) Implementation of Strategies and Plans/1605. Directions by the Nuclear Decommissioning Authority to the person with control.

1605. Directions by the Nuclear Decommissioning Authority to the person with control.

The following provisions apply in every case where one of the following is designated¹:

- 4516 (1) a nuclear installation² or an installation³ comprised in an NDA facility⁴;
- 4517 (2) a principal nuclear site⁵; or
- 4518 (3) a facility⁶ situated in or on a principal nuclear site⁷.

It is the duty of the person with control⁸ of the installation, site or facility:

- 4519 (a) to prepare such plans⁹ for the decommissioning¹⁰ or operation of the installation, for the cleaning up¹¹ or management of the site or for the operation of the facility as the Nuclear Decommissioning Authority ('the NDA')¹² may direct;
- 4520 (b) to prepare such plans for the cleaning up of any related sites¹³ as the NDA may direct;
- 4521 (c) to submit his plans to the NDA for approval;
- 4522 (d) to comply with all such further directions¹⁴ as the NDA may give him from time to time with respect to the installation, site or facility; and
- 4523 (e) to comply with such directions as the NDA may give him for the purpose of securing or facilitating the discharge by the NDA of such of its specified statutory responsibilities¹⁵ as either were conferred on it by reference to the site, installation or facility or fall to be discharged in relation to it, or to anything in or on it¹⁶.

The directions that may be given by the NDA are directions:

- 4524 (i) in the case of an installation or site, requiring the carrying out, pending the preparation and approval of plans required by the NDA, of specified decommissioning or cleaning-up work in or on the installation or site or related sites;
- 4525 (ii) requiring the installation, site or facility to be operated or managed, pending the preparation and approval of such plans, in the specified manner;
- 4526 (iii) to modify in the specified manner, and to resubmit, a plan submitted to the NDA for approval, or approved by it, under these provisions;
- 4527 (iv) in the case of an installation or site, requiring the carrying out, pending the preparation and approval of modifications of a plan, of specified decommissioning or cleaning-up work in or on the installation or site or related sites;
- 4528 (v) requiring the implementation of a plan that the NDA has approved;
- 4529 (vi) requiring specified transactions to be entered into, and other specified steps to be taken, for the purposes of or in connection with the implementation of such a plan;
- 4530 (vii) requiring the provision to the NDA of all the information that it requires in order to discharge its responsibilities in relation to the installation, site or facility

and in relation to related sites or to enter into an agreement for the purpose of discharging those responsibilities¹⁷.

It is the duty of the person holding the majority of the voting rights¹⁸ in a company¹⁹ with control of the installation, site or facility to comply with such directions as may be given to it by the NDA for the purpose of securing that the company with control of the installation, site or facility complies with its obligations under these provisions²⁰. Directions must not, however, be given by the NDA under these provisions except for the purpose of giving effect to its annual plan²¹ for a particular financial year²² or of otherwise giving effect to its strategy²³ or achieving the objectives set out in that strategy²⁴. Furthermore, a direction under these provisions cannot authorise a contravention²⁵ in relation to an installation, site or facility of any obligation to which the person with control of it is subject by or under an enactment²⁶.

The duty of a person to whom a direction is given under the above provisions to comply with that direction is a duty owed to the NDA, and to no one else²⁷. That duty is to be enforceable by the NDA in civil proceedings for an injunction or for any other appropriate remedy or relief²⁸ and is subject to the obligation of the NDA²⁹ to discharge its financial responsibilities³⁰. A person with control of an installation, site or facility is not to be subject to that duty to the extent that he is relieved of it by the provisions of an agreement between the NDA and that person or between the NDA and a body corporate of which that person is a subsidiary³¹. Furthermore, the Secretary of State may by order provide, in the case of an installation, site or facility the person with control of which is a Crown appointee, that the Crown appointee is not to be subject, to the extent specified in the order, to the duty to comply with directions under the above provisions³².

1 For the meaning of 'designated' see PARA 1592 note 3 ante.

2 For the meaning of 'nuclear installation' see PARA 1592 note 3 ante.

3 For the meaning of 'installation' see PARA 1416 note 8 ante.

4 For the meaning of 'NDA facility' see PARA 1592 note 8 ante.

5 For the meaning of 'principal nuclear site' see PARA 1592 note 19 ante.

6 For the meaning of 'facility' see PARA 1420 note 2 ante.

7 Energy Act 2004 s 18(1).

8 For the meaning of 'person with control' see PARA 1592 note 13 ante.

9 A person required to prepare plans for these purposes must comply with the directions of the NDA as to the persons with whom, and the manner in which, he must consult before preparing the plans, or before submitting them to the NDA for approval: Energy Act 2004 s 18(6).

10 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

11 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

12 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

13 For these purposes, 'related site', in relation to a designated installation, designated site or designated facility, means a site the designation of which specifies, in accordance with the Energy Act 2004 s 19, that it is to be treated, by reference to that installation, site or facility, as a related site for these purposes: s 18(8). For the meaning of 'site' see PARA 1420 note 2 ante.

A direction designating a contaminated site (1) may specify that the site is to be treated for the purposes of s 18 as a related site; and (2) if it does so, must specify the installation, site or facility by reference to which the Secretary of State is satisfied as mentioned in s 19(2)(a) (see head (a) *infra*): s 19(1). A direction must not specify that a site is to be treated as a related site unless (a) the Secretary of State is satisfied that it has

become contaminated (whether radioactively or chemically) as a result of nuclear activities in or on a particular installation, site or facility; (b) that installation, site or facility was at the time of the contamination, or subsequently became, a nuclear installation, a principal nuclear site or an NDA facility; (c) the installation, site or facility is also designated (whether by that direction or as a consequence of a previous direction); and (d) the person with control of that installation, site or facility (i) is a Crown appointee, the United Kingdom Atomic Energy Authority ('the UKAEA'), a publicly owned company or the NDA itself; or (ii) has consented to the specification of the installation, site or facility for the purposes of s 19(1)(b) (see head (2) supra): s 19(2). On the giving by the Secretary of State of a direction specifying that a site is to be treated as a related site, he must send a copy of the direction to every person with control of an installation, site or facility by reference to which it is to be so treated: s 19(3). For these purposes, something is contaminated as a result of nuclear activities in or on a particular installation, site or facility if the contamination (whenever occurring), or any of it, is the direct or indirect result of one or more of the following (i) activities carried on in or on that installation, site or facility; (ii) the storage or disposal of any matter or substance in or on that installation, site or facility; (iii) an incident occurring in or on that installation, site or facility; (iv) the discharge of anything from that installation, site or facility; (v) the transportation of hazardous material to or from that installation, site or facility; (vi) an incident affecting hazardous material being transported to or from that installation, site or facility: s 19(4).

For the meaning of 'contaminated site' see PARA 1592 note 5 ante; for the meaning of 'Crown appointee' see PARA 1592 note 14 ante; for the meaning of 'publicly owned company' see PARA 1422 note 4 ante; and for the meaning of 'hazardous material' see PARA 1592 note 5 ante. As to the Secretary of State see PARA 601 note 1 ante; as to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

14 le directions falling within ibid s 18(3): see heads (i)-(viii) in the text.

15 le its responsibilities by virtue of ibid s 3(1)(e) (see PARA 1592 ante) or s 4(1), (2) or (4) (see PARA 1593 ante) or any direction under s 16(2) (see PARA 1603 ante): s 18(2)(e).

16 Ibid s 18(2).

17 Ibid s 18(3).

18 For the meaning of references to holding voting rights see PARA 1422 note 4 ante.

19 For the meaning of 'company' see PARA 1422 note 4 ante.

20 Energy Act 2004 s 18(4).

21 le its plan under ibid s 13: see PARA 1600 ante.

22 For the meaning of 'financial year' see PARA 763 note 17 ante.

23 le its strategy under the Energy Act 2004 s 11: see PARA 1598 ante.

24 Ibid s 18(5).

25 For the meaning of 'contravention' see PARA 761 note 7 ante.

26 Energy Act 2004 s 18(7).

27 Ibid s 20(1).

28 See ibid s 20(2)(a), (c). In Scotland, it is enforceable in civil proceedings for specific performance of a statutory duty under the Court of Session Act 1988 s 45: see the Energy Act 2004 s 20(2)(b).

29 le under ibid s 21: see PARA 1607 post.

30 Ibid s 20(3).

31 Ibid s 20(4). For the meaning of 'subsidiary' see PARA 744 note 6 ante.

32 Ibid s 20(5). An order for these purposes is subject to the negative resolution procedure: s 20(6). As to the negative resolution procedure see PARA 602 note 2 ante.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. Financial provisions; in general.

(v) Financial Provisions and the Nuclear Decommissioning Funding Account

A. INTRODUCTION

1606. Financial provisions; in general.

The provisions of the Energy Act 2004 with regard to the expenditure and receipts of the Nuclear Decommissioning Authority ('the NDA')¹, borrowing of the NDA² and the NDA's accounts in general³ have already been discussed⁴. Its financial responsibilities⁵ and tax treatment⁶ are discussed below⁷, as is the Nuclear Decommissioning Funding Account⁸.

1 Ie the Energy Act 2004 s 22: see PARA 1398 ante. As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

2 Ie ibid ss 23-25: see PARA 1399 ante.

3 Ie ibid s 26: see PARA 1400 ante.

4 See PARAS 1398-1400 ante.

5 Ie under the Energy Act 2004 s 21: see PARA 1607 post.

6 Ie under ibid ss 27-30, Sch 4: see PARA 1608 et seq post.

7 See PARA 1607 et seq post.

8 As to the Nuclear Decommissioning Funding Account see the Energy Act 2004 ss 31-32: see PARAS 1612-1613 post.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/B. FINANCIAL RESPONSIBILITIES/1607. Financial responsibilities of the Nuclear Decommissioning Authority.

B. FINANCIAL RESPONSIBILITIES

1607. Financial responsibilities of the Nuclear Decommissioning Authority.

The following provisions apply to an installation¹, site² or facility³ which becomes a designated⁴ installation, site or facility at a time when the person with control⁵ of it is:

- 4531 (1) a Crown appointee⁶;
- 4532 (2) the United Kingdom Atomic Energy Authority ('the UKAEA')⁷;
- 4533 (3) a wholly-owned subsidiary⁸ of the UKAEA;
- 4534 (4) any other publicly owned company⁹ which was so owned on 4 July 2002; or
- 4535 (5) a wholly-owned subsidiary of such a company¹⁰.

The Nuclear Decommissioning Authority's ('the NDA's')¹¹ responsibility for securing the decommissioning¹² or operation of an installation or facility to which these provisions apply, or the cleaning up¹³ of a site to which they apply, or of a related site¹⁴, includes the financial responsibility for the decommissioning or operation of the installation or facility, or for the cleaning up¹⁵. Its financial responsibilities under these provisions are in addition to its other financial responsibilities¹⁶.

Where the NDA has financial responsibility for decommissioning, operating or cleaning up an installation, site or facility, and a person other than the NDA is the person with control of it, that other person is not to be, or to be capable of becoming, liable to meet any of the costs of doing the things that are required to be secured by the NDA in the discharge of its responsibilities in relation to that installation, site or facility¹⁷. Accordingly, where the NDA has the financial responsibility in the case of an installation, site or facility:

- 4536 (a) it must not impose charges on the person with control of the installation, site or facility in respect of anything mentioned above¹⁸;
- 4537 (b) it must meet the costs of the doing by that person of anything that he is authorised or required to do by virtue of the statutory duty to use installations etc for the purposes of the NDA¹⁹;
- 4538 (c) it must also meet the costs of the performance by him of his duty to comply with directions given by the NDA²⁰; and
- 4539 (d) that person is not to be required for any purpose to make, or to continue to make, financial provision for meeting costs which fall, by virtue of its financial responsibility, to be met by the NDA²¹.

However, nothing in so much of these provisions as:

- 4540 (i) restricts the extent to which a person is, or may become, liable to meet any costs in relation to a site, installation or facility; or
- 4541 (ii) requires any costs in relation to an installation, site or facility to be reimbursed or otherwise met by the NDA,

is to be construed as restricting the extent to which the person with control of the installation, site or facility may be or become subject, in relation to a person other than the NDA, to the liability or obligation in respect of which the costs arise²².

It is the duty of the NDA, for the purpose of discharging its financial responsibilities, to make all such arrangements as it thinks fit for securing that the person with control of the installation, site or facility is able to meet, as they become due, all his liabilities to persons other than the NDA in respect of matters for which the NDA has financial responsibility or that those liabilities are otherwise discharged²³. It is also the duty of the NDA to make all such arrangements as it thinks fit for securing that amounts paid under these provisions to that person include such sums, if any, as the NDA considers it appropriate to pay by way of incentives to that person to discharge his duty to comply with directions given by the NDA²⁴ in the manner that the NDA thinks most effective²⁵.

The NDA is to be taken to have discharged its responsibility for meeting costs under these provisions if it is satisfied that those costs have been met by another person directly or indirectly out of money provided by Parliament or are to be so met²⁶.

The above provisions have effect in relation to an installation, site or facility subject to the terms of any agreement between the NDA and the person with control of the installation, site or facility or any agreement between the NDA and a body corporate of which that person is a subsidiary²⁷.

1 For the meaning of 'installation' see PARA 1416 note 8 ante.

2 For the meaning of 'site' see PARA 1420 note 2 ante.

3 For the meaning of 'facility' see PARA 1420 note 2 ante.

4 For the meaning of 'designated' see PARA 1592 note 3 ante.

5 For the meaning of 'person with control' see PARA 1592 note 13 ante.

6 For the meaning of 'Crown appointee' see PARA 1592 note 14 ante.

7 As to the United Kingdom Atomic Energy Authority ('the UKAEA') see PARA 1363 et seq ante; and as to the use of the abbreviation 'the UKAEA' in this context see PARA 1363 the text and notes 4-5 ante.

8 For the meaning of 'wholly-owned subsidiary' see PARA 744 note 6 ante.

9 For the meaning of 'publicly owned company' see PARA 1412 note 11 ante.

10 Energy Act 2004 s 21(2).

11 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

12 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

13 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

14 For these purposes, 'related site' has the same meaning as in the Energy Act 2004 s 18 (see PARA 1605 note 13 ante): s 21(11).

15 Ibid s 21(1).

16 Ibid s 21(10). - 26 *Ibid* s 21(8).
- 27 *Ibid* s 21(9). For the meaning of 'subsidiary' see PARA 744 note 6 ante.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/C. TAXATION/1608. Tax exemption for Nuclear Decommissioning Authority activities.

C. TAXATION

1608. Tax exemption for Nuclear Decommissioning Authority activities.

For the purposes of corporation tax:

- 4542 (1) trading income¹ arising or accruing to the Nuclear Decommissioning Authority ('the NDA')² or an NDA company³ from the carrying on of exempt activities⁴ is to be disregarded in computing the total profits of the NDA or that company; and
- 4543 (2) trading losses⁵ incurred by the NDA or an NDA company in the carrying on of exempt activities are to be disregarded in determining the amounts that may be set off under the relevant provisions of the Income and Corporation Taxes Act 1988⁶ or surrendered as trading losses for the purposes of the provision of that Act⁷ relating to group relief⁸.

Activities are exempt⁹ if they are activities carried on in connection with anything mentioned in the statutory definition of the NDA's principal function¹⁰ and are specified for these purposes in regulations made by the Treasury¹¹ with the concurrence of the Secretary of State¹². The activities so specified are the operation of designated¹³ facilities for the treatment¹⁴, storage, transportation or disposal of hazardous material¹⁵, carried on for the purpose of thermal oxide reprocessing or mixed oxide manufacture where that reprocessing or manufacture is undertaken at Sellafield in Cumbria¹⁶.

Exempt activities carried on by the NDA, or by a company while it is an NDA company, are to be treated for corporation tax purposes as a separate trade distinct from all other activities carried on by the NDA or, as the case may be, by that company¹⁷. An accounting period¹⁸:

- 4544 (a) of the NDA or of an NDA company ends, if it would not otherwise do so, where it begins to carry on exempt activities, immediately before it begins to carry them on, and where it ceases to carry on such activities, immediately after it so ceases¹⁹;
- 4545 (b) of a company which becomes an NDA company, and is carrying on exempt activities immediately after becoming such a company, ends (if it would not otherwise do so) when it becomes an NDA company²⁰;
- 4546 (c) of a company which ceases to be an NDA company, and is carrying on exempt activities immediately before ceasing to be such a company, ends (if it would not otherwise do so) when it ceases to be an NDA company²¹.

No charges on income incurred by the NDA, or by an NDA company, in connection with the carrying on of exempt activities are to be deductible from its total profits under the provision of the Income and Corporation Taxes Act 1988²² relating to the deduction of charges on income²³.

Where there is a finance lease²⁴ in the case of which:

- 4547 (i) the lessor is the NDA or an NDA company;

- 4548 (ii) the lessee is the NDA or an NDA company;
- 4549 (iii) the lessee is carrying on exempt activities; and
- 4550 (iv) the machinery or plant to which the lease relates is used by the lessee for the purposes of those activities,

no allowance under Part 2 of the Capital Allowances Act 2001²⁵ is to be available to the lessor in respect of qualifying expenditure²⁶ on the provision of the plant or machinery for leasing under the lease²⁷.

An identifiable part of a building or structure used for the purposes of exempt activities carried on by the NDA or an NDA company is to be treated for the purposes of Part 3 of the Capital Allowances Act 2001²⁸ as used otherwise than as an industrial building²⁹.

Where the NDA disposes of the relevant interest in an industrial building³⁰, or an NDA company carrying on exempt activities disposes of the relevant interest in an industrial building, the provisions of the Capital Allowances Act 2001 defining the residue of qualifying expenditure³¹ and providing for the writing off of qualifying expenditure³² apply to determine the residue of expenditure in the hands of the person who acquires the relevant interest as if:

- 4551 (A) exempt activities carried on by the NDA or the NDA company had not been exempt activities; and
- 4552 (B) all writing down allowances, and balancing allowances and charges, had been made as could have been made but for those activities being exempt activities³³.

1 For these purposes, 'trading income', in relation to the Nuclear Decommissioning Authority ('the NDA') or an NDA company, means (subject to the Energy Act 2004 s 27(9)) income which falls or (apart from s 27) would fall to be included (1) in respect of a trade; and (2) as chargeable to tax under the Income and Corporation Taxes Act 1988 s 18(1), (3), Schedule D, Case I (as amended) (see INCOME TAXATION vol 23(1) (Reissue) PARA 95 et seq) in the total profits for the purposes of corporation tax of the NDA or that company: Energy Act 2004 s 27(8). For the purposes of s 27, income consisting in (a) anything giving rise to a credit that would fall to be brought into account for the purposes of the Finance Act 1996 Pt IV Ch II (ss 80-105) (as amended) (loan relationships: see INCOME TAXATION vol 23(1) (Reissue) PARA 849 et seq); or (b) a credit falling to be brought into account under the Finance Act 2002 s 83, Sch 26 (as amended) (derivative contracts: see INCOME TAXATION), is to be treated as trading income accruing to the NDA or an NDA company from the carrying on of exempt activities to the extent only that it would fall (apart from the Energy Act 2004 s 27) to be taken into account as trading income from a trade consisting in the carrying on of such activities by the NDA or that company: s 27(9). 'Trade' includes every trade, manufacture, adventure or concern in the nature of trade; and 'company' means, subject to the Income and Corporation Taxes Act 1988 s 832(2) (see INCOME TAXATION vol 23(1) (Reissue) PARA 1 note 11), any body corporate or unincorporated association but does not include a partnership, a local authority or a local authority association: s 832(1) (definition applied by the Energy Act 2004 s 27(10)). See also notes 2-4 *infra*.

2 As to the establishment and constitution of the NDA see PARAS 1394-1397 *ante*; and as to its functions see PARAS 1592-1595 *ante*.

3 For the purposes of the Energy Act 2004 s 27, Sch 4, 'NDA company' means (1) a company the whole of the ordinary share capital in which is owned directly or indirectly by the NDA; or (2) a company that is a relevant site licensee: s 27(4). A company is a relevant site licensee for these purposes if (a) it is not a company falling within s 27(4)(a) (see head (1) *supra*); (b) it holds a nuclear site licence for a site the whole or part of which is either a designated site or a site in or on which there is a designated installation or designated facility; (c) in a case where there is in force a management contract relating to the whole or a part of the site to which that licence relates, or to an installation or facility in or on that site, the parties to the contract include either (i) the company in question; or (ii) a company which owns directly or indirectly at least 90% of the ordinary share capital of that company; and (d) such further conditions that are required by regulations made by the Treasury to be satisfied have been satisfied: s 27(5). The concurrence of the Secretary of State is required for the making of any regulations under s 27 by the Treasury (s 27(6)); and a statutory instrument containing regulations under s 27 is subject to annulment in pursuance of a resolution of the House of Commons (s 27(7)).

'Ordinary share capital', in relation to a company, means all the issued share capital (by whatever name called) of the company, other than capital the holders of which have a right to a dividend at a fixed rate but have no other right to share in the profits of the company: Income and Corporation Taxes Act 1988 s 832(1) (definition applied by the Energy Act 2004 s 27(10)). For the meaning of 'nuclear site licence' see PARA 1487 note 1 *ante*.

(definition applied by the Energy Act 2004 s 196(1)); for the meaning of 'designated' see PARA 1592 note 3 ante; for the meanings of 'site' and 'facility' see PARA 1420 note 2 ante; and for the meaning of 'installation' see PARA 1416 note 8 ante. For these purposes, 'owned directly or indirectly' has the same meaning as in the Income and Corporation Taxes Act 1988 s 838 (as amended) (subsidiaries: see INCOME TAXATION vol 23(2) (Reissue) PARA 952), and 'owns directly or indirectly' is to be construed accordingly; and 'management contract' means a contract between the NDA and another person under which the other person is required to do or secure anything that the NDA is required to secure for the purpose of discharging its responsibilities: Energy Act 2004 s 27(8).

The further conditions referred to in s 27(5)(d) (conditions in respect of NDA company which is a relevant site licensee: see head (d) supra) are those in the Energy Act 2004 (Nuclear Decommissioning) (Exempt Activities and Further Conditions) Regulations 2005, SI 2005/644, reg 3(2), (3): reg 3(1). The condition in reg 3(2) is that all the ordinary share capital of the company must have been transferred from the NDA or a wholly owned subsidiary of the NDA ('the original transfer'): reg 3(2). The condition in reg 3(3) is that where (A) a management contract is in force which relates to the whole or part of the site, or to an installation or facility in or on that site, for which a nuclear site licence is in force and which is made between the NDA and the company, or between the NDA and a company which owns, directly or indirectly, at least 90% of the ordinary share capital of the company; or (B) the company has control of a designated installation, site or facility and directions have been given to the company under the Energy Act 2004 s 18(3) (see PARA 1605 ante) in respect of that installation, site or facility, the company's memorandum and articles must be such as to secure that the restrictions imposed by the Energy Act 2004 (Nuclear Decommissioning) (Exempt Activities and Further Conditions) Regulations 2005, SI 2005/644, reg 3(4), (5) will always be met: reg 3(3). The company may not declare dividends on its shares (reg 3(4)); and a transfer of the company's shares (aa) may only be made to the NDA, or a wholly owned subsidiary of the NDA; (bb) must comprise the whole of the company's share capital; and (cc) must be for a consideration which is no greater than that given for the original transfer (reg 3(5)). For the purposes of reg 3(5)(c) (see head (cc) supra), where consideration is given for share capital and for something else besides, a just and reasonable apportionment must be made between the amount given for the share capital and the amount given for the other thing: reg 3(6).

For the meaning of 'designated' for these purposes see note 13 infra.

4 As to what are exempt activities see notes 9-16 infra.

5 For these purposes, 'trading losses', in relation to the NDA or an NDA company, means losses incurred in a trade in respect of which the NDA or that company is or (apart from the Energy Act 2004 s 27) would be within the charge to corporation tax under the Income and Corporation Taxes Act 1988 s 18(1), (3), Schedule D, Case I (as amended): Energy Act 2004 s 27(8).

6 Ie under the Income and Corporation Taxes Act 1988 s 393 (as amended) or s 393A (as added and amended): see INCOME TAXATION vol 23(1) (Reissue) PARA 864.

7 Ie for the purposes of ibid s 403 (as substituted and amended): see INCOME TAXATION vol 23(2) (Reissue) PARA 961.

8 Energy Act 2004 s 27(1).

9 Ie for the purposes of ibid s 27, Sch 4.

10 Ie anything mentioned in ibid s 3(1): see PARA 1592 ante.

11 Ibid s 27(3).

12 See ibid s 27(6). As to the making of such regulations see note 3 supra.

13 For these purposes, 'designated' means designated by means of a direction given by the Secretary of State to the NDA under ibid s 3(3) (see PARA 1592 ante): Energy Act 2004 (Nuclear Decommissioning) (Exempt Activities and Further Conditions) Regulations 2005, SI 2005/644, reg 1(2).

14 For the meaning of 'treatment' see PARA 1592 note 6 ante (definition applied by ibid reg 1(2)).

15 For the meaning of 'hazardous material' see PARA 1592 note 5 ante (definition applied by ibid reg 1(2)).

16 Ibid reg 2.

17 Energy Act 2004 s 27(2), Sch 4 para 1.

18 For these purposes, 'accounting period' is to be construed in accordance with the Income and Corporation Taxes Act 1988 s 12 (as amended) (see INCOME TAXATION vol 23(1) (Reissue) PARA 837): s 838(1) (definition applied by the Energy Act 2004 s 27(10)).

19 Ibid Sch 4 para 2(1).

20 Ibid Sch 4 para 2(2).

21 Ibid Sch 4 para 2(3).

22 Ie under the Income and Corporation Taxes Act 1988 s 338 (as substituted): see INCOME TAXATION vol 23(1) (Reissue) PARA 863.

23 Energy Act 2004 Sch 4 para 3.

24 For these purposes, 'finance lease' means any arrangements (1) which provide for plant or machinery to be leased or otherwise made available by a person ('the lessor') to another person ('the lessee'); and (2) which, under generally accepted accounting practice either fall (or would fall) to be treated, in the accounts of the lessor or a person connected with the lessor, as a finance lease or a loan, or are comprised in arrangements which fall (or would fall) to be so treated, and which are not a long funding lease in the case of the lessor: Capital Allowances Act 2001 s 219(1) (amended by the Finance Act 2002 s 103(4)(g); the Finance Act 2006 s 81(2), Sch 9 para 14(1), (2)) (definition applied by the Energy Act 2004 Sch 4 para 4(3)). For the purposes of that definition, 'accounts', in relation to a company, includes any accounts which relate to two or more companies of which that company is one, and are drawn up in accordance with generally accepted accounting practice: Capital Allowances Act 2001 s 219(2) (amended by the Finance Act 2005 s 80(1), Sch 4 Pt 2 para 33) (definition as so applied).

25 Ie under the Capital Allowances Act 2001 Pt 2 (ss 11-270) (as amended) (plant and machinery allowances): see INCOME TAXATION vol 23(1) (Reissue) PARA 296 et seq.

26 As to qualifying expenditure see ibid Pt 2 Ch 3 (ss 21-38) (as amended); and INCOME TAXATION vol 23(1) (Reissue) PARA 298 et seq.

27 Energy Act 2004 Sch 4 para 4(1), (2).

28 Ie the Capital Allowances Act 2001 Pt 3 (ss 271-360) (industrial buildings allowances): see INCOME TAXATION vol 23(1) (Reissue) PARA 376 et seq.

29 Energy Act 2004 Sch 4 para 5.

30 For these purposes, references to the NDA or an NDA company disposing of a relevant interest in an industrial building include references to the transfer in accordance with a nuclear transfer scheme of such an interest (1) from the NDA or that company; (2) to a person who is neither the NDA nor an NDA company: ibid Sch 4 para 6(4). For the meaning of 'nuclear transfer scheme' see PARA 1402 ante. 'Relevant interest' and 'industrial building' have the same meanings as in the Capital Allowances Act 2001 Pt 3: Energy Act 2004 Sch 4 para 6(3).

31 Ie the Capital Allowances Act 2001 s 313: see INCOME TAXATION vol 23(1) (Reissue) PARA 391.

32 Ie ibid Pt 3 Ch 8 (ss 332-340): see INCOME TAXATION vol 23(1) (Reissue) PARA 396.

33 Energy Act 2004 Sch 4 para 6(1), (2).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/C. TAXATION/1609. Taxation of Nuclear Decommissioning Authority activities chargeable under Case VI of Schedule D.

1609. Taxation of Nuclear Decommissioning Authority activities chargeable under Case VI of Schedule D.

For the purposes of the Corporation Tax Acts¹ so much of any activity of the Nuclear Decommissioning Authority ('the NDA')² as is an activity the profits and gains from which would otherwise be chargeable to tax under Case VI of Schedule D³, and is not excluded from the operation of these provisions⁴, is to be treated as an activity carried on by it as part of a trade⁵ in respect of which it is within the charge to tax under Case I of Schedule D⁶. Any activity is, however, excluded from the operation of these provisions if:

- 4553 (1) it is carried on by the NDA otherwise than in connection with something mentioned in head (a), head (b) or head (c) below⁷, namely:
- 423
- 618. (a) the operation, pending the commencement of their decommissioning⁸, of designated nuclear installations⁹;
- 619. (b) the operation of designated facilities¹⁰ for treating¹¹, storing, transporting or disposing of hazardous material¹²;
- 620. (c) the treatment, storage, transportation and disposal, in designated circumstances, of hazardous material¹³; and
- 424
- 4554 (2) the profits and gains from it would, in the NDA's case, be chargeable to tax under Case VI of Schedule D by virtue of an enactment¹⁴ other than just the relevant provision¹⁵ of the Income and Corporation Taxes Act 1988¹⁶.

All activities treated under these provisions as carried on by the NDA as part of a trade are to be treated as carried on as part of the same trade and may be treated as carried on as part of another trade carried on by the NDA¹⁷; but this is subject to any other provision made by or under the Corporation Tax Acts that requires an activity to be treated as carried on as part of a separate trade (with or without any other activity)¹⁸.

1 'The Corporation Tax Acts' means the enactments relating to the taxation of the income and chargeable gains of companies and of company distributions (including provisions relating to income tax): Interpretation Act 1978 s 5, Sch 1 (definition substituted by the Finance Act 1987 s 71, Sch 15 para 12).

2 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

3 I.e. under the Income and Corporation Taxes Act 1988 s 18(1), (3) Schedule D, Case VI (as amended): see INCOME TAXATION vol 23(1) (Reissue) PARA 560 et seq.

4 I.e. excluded by the Energy Act 2004 s 28(2): see the text and notes 7-16 infra.

5 For the meaning of 'trade' see PARA 1608 note 1 (definition applied by ibid s 28(5)).

6 Ibid s 28(1). As to the charge to tax under the Income and Corporation Taxes Act 1988 s 18(1), (3), Schedule D, Case I (as amended) see INCOME TAXATION vol 23(1) (Reissue) PARA 95 et seq.

- 7 le something mentioned in the Energy Act 2004 s 3(1)(a), (d) or (e): see PARA 1592 ante.
- 8 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.
- 9 See the Energy Act 2004 s 3(1)(a). For the meanings of 'designated' and 'nuclear installation' see PARA 1592 note 3 ante.
- 10 For the meaning of 'facility' see PARA 1420 note 2 ante.
- 11 For the meaning of 'treat' see PARA 1592 note 6 ante.
- 12 See the Energy Act 2004 s 3(1)(d). For the meaning of 'hazardous material' see PARA 1592 note 5 ante.
- 13 See *ibid* s 3(1)(e).
- 14 For the meaning of 'enactment' see PARA 750 note 9 ante.
- 15 le other than just the Income and Corporation Taxes Act 1988 s 18 (as amended).
- 16 Energy Act 2004 s 28(2).
- 17 *Ibid* s 28(3).
- 18 *Ibid* s 28(4).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/C. TAXATION/1610. Disregard for tax purposes of cancellation etc of provisions.

1610. Disregard for tax purposes of cancellation etc of provisions.

Where:

- 4555 (1) a relevant provision¹ is recognised in the accounts of a BNFL company² in accordance with generally accepted accounting practice³;
- 4556 (2) that provision:
- 425
621. (a) relates to decommissioning⁴ or cleaning up⁵ which the Nuclear Decommissioning Authority ('the NDA')⁶ acquires or has acquired responsibility for securing by virtue of a direction given by the Secretary of State⁷; but
622. (b) is not provision recognised in order to reflect the terms or effect of a management contract⁸ between the company and the NDA; and
- 426
- 4557 (3) the responsibility referred to in head (2)(a) above either includes the statutory financial responsibility⁹ or would do so but for the fact that the amount of the financial responsibility is for the time being subject to a limit imposed by a capping agreement¹⁰,

then in computing the profits, gains or losses of the company for the purposes of corporation tax, no amount is to be brought into account in respect of a credit or debit to which heads (i) to (iii) below apply¹¹. Those heads apply to a credit or debit if it arises from:

- 4558 (i) the recognition in the accounts of the company for a relevant period¹² beginning on or after 1 April 2005 of either the relevant provision, or an asset that, in accordance with generally accepted accounting practice, is recognised in connection with the relevant provision in order to reflect the acquisition of financial responsibility referred to in heads (1) to (3) above (a 'matching asset');
- 4559 (ii) an adjustment made in the accounts of the company for such a period of the relevant provision, or of a matching asset; or
- 4560 (iii) the removal from the accounts of the company for such a period of the relevant provision, a matching asset, or an asset or liability recognised in order to reflect the terms or effect of a contract such a contract as is described below¹³, namely a contract:
- 427
623. (A) which is a contract made before 1 April 2005 and having effect between two or more BNFL companies under which a party to the contract assumed responsibility for securing decommissioning or cleaning up; and
624. (B) the rights and obligations under which are extinguished by reason of a transfer made under a nuclear transfer scheme¹⁴.
- 428

Where a company ceases to be publicly owned otherwise than at the end of an accounting period, the accounting period during which it ceases to be publicly owned is treated for the

purposes of corporation tax as ending when it so ceases¹⁵ and its profits and losses are to be computed accordingly for those purposes¹⁶.

1 For these purposes, 'relevant provision' means a provision for liabilities or charges as defined in the Companies Act 1985 Sch 4 para 89 (as amended; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed) (see COMPANIES vol 15 (2009) PARA 730); Energy Act 2004 s 29(5).

2 For these purposes, 'BNFL company' means (1) the nuclear fuels company ('BNFL'); (2) a company that immediately before 1 April 2005 was a wholly-owned subsidiary of BNFL; or (3) a wholly-owned subsidiary of a company falling within head (2) supra: *ibid* ss 29(5), 196(1) (definition in s 29(5) substituted by the Finance Act 2006 s 99(1), (4)(a)). As to BNFL see PARA 1377 note 5 ante; and for the meaning of 'wholly-owned subsidiary' see PARA 744 note 6 ante.

3 'Generally accepted accounting practice' has the meaning given by the Finance Act 2004 s 50(1) (as amended) (ie (1) in relation to the affairs of a company or other entity that prepares accounts in accordance with international accounting standards ('IAS accounts'), generally accepted accounting practice with respect to such accounts; (2) in any other case, United Kingdom generally accepted accounting practice: Income and Corporation Taxes Act 1988 s 832(1) (definition added by the Finance Act 2002 s 103(1), (6); amended by the Finance Act 2004 s 50(5)(a); applied by the Energy Act 2004 s 29(6)).

4 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

5 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

6 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante; and as to its functions see PARAS 1592-1595 ante.

7 *Ie* a direction under the Energy Act 2004 s 3: see PARA 1592 ante. As to the Secretary of State see PARA 601 note 1 ante.

8 For the meaning of 'management contract' see PARA 1608 note 3 ante (definition applied by *ibid* s 29(5) (amended for this purpose by the Finance Act 2006 s 99(1), (4)(b)).

9 *Ie* the financial responsibility under *ibid* s 21: see PARA 1607 ante.

10 For these purposes, 'capping agreement' means an agreement under *ibid* s 21(9), entered into on 1 April 2005, the sole or main effect of which is to impose a limit on the NDA's financial responsibility under s 21: s 29(5) (definition added by the Finance Act 2006 s 99(1), (4)(b)).

11 Energy Act 2004 s 29(1), (2) (amended by the Finance Act 2006 s 99(1), (2)).

12 For these purposes, 'relevant period', in relation to a company, means an accounting period during the whole of which the company is publicly owned: Energy Act 2004 s 29(5) (definition added by the Finance Act 2006 s 99(1), (4)(c)). For the meaning of 'accounting period' see PARA 1608 note 18 ante (definition applied by the Energy Act 2004 s 29(6)); and as to when a body corporate is a publicly owned company see PARA 1412 note 11 ante.

13 Energy Act 2004 s 29(3) (s 29(3) substituted, and s 29(3A) added, by the Finance Act 2006 s 99(1), (3)).

14 Energy Act 2004 s 29(3A) (as added: see note 13 supra). For the meaning of 'nuclear transfer scheme' see PARA 1402 ante.

15 *Ibid* s 29(5A)(a) (s 29(5A) added by the Finance Act 2006 s 99(1), (5)).

16 Energy Act 2004 s 29(5A)(b) (as added: see note 15 supra).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1610 Disregard for tax purposes of cancellation etc of provisions

NOTE 1--Definition of 'relevant provision' amended to take account of the coming into force of the Companies Act 2006: SI 2008/948.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/C. TAXATION/1611. Disregard for tax purposes of provisions recognised by the Nuclear Decommissioning Authority.

1611. Disregard for tax purposes of provisions recognised by the Nuclear Decommissioning Authority.

Where:

- 4561 (1) by virtue of a direction given by the Secretary of State¹ the Nuclear
Decommissioning Authority ('the NDA')² acquires the responsibility for securing the
cleaning up³ of a site⁴:
- 429
625. (a) in relation to which, at the time that direction comes into force, there is a
nuclear site licence⁵ in force; and
626. (b) where the holder of that licence at that time is a BNFL company⁶ that is
publicly owned⁷,
- 430
- 4562 or the decommissioning⁸ of an installation⁹ or facility¹⁰ in or on such a site;
- 4563 (2) that responsibility:
- 431
627. (a) includes the statutory financial responsibility¹¹; or
628. (b) would do so but for the fact that the amount of the financial responsibility
is for the time being subject to a limit imposed by a capping agreement¹²;
- 432
- 4564 (3) the NDA recognises in its accounts, in accordance with generally accepted
accounting practice¹³, a relevant provision¹⁴ that relates to that responsibility; and
- 4565 (4) the provision is recognised:
- 433
629. (a) in order to reflect the coming into force of the direction mentioned in head
(1) above; or
630. (b) in consequence of the variation or removal of a limit on the NDA's statutory
financial responsibility¹⁵ imposed by a capping agreement,
- 434

then in computing the profits, gains or losses of the NDA for the purposes of corporation tax, no amount is to be brought into account in connection with:

- 4566 (i) the recognition made in the accounts of the NDA of:
- 435
631. (A) the relevant provision; or
632. (B) an asset that, in accordance with generally accepted accounting practice,
is recognised in order to reflect a limit on the NDA's statutory financial
responsibility¹⁶ imposed by a capping agreement;
- 436
- 4567 (ii) any adjustment made in those accounts, including the removal from the
accounts of an asset falling within head (i)(B) above, in consequence of a variation
or removal of the limit mentioned in that head¹⁷.

This does not, however, affect the amount, if any, to be brought into account in computing the profits, gains or losses of the NDA in connection with an adjustment not falling within head (ii) above¹⁸.

1 le a direction under the Energy Act 2004 s 3: see PARA 1592 ante. As to the Secretary of State see PARA 601 note 1 ante.

2 As to the establishment and constitution of the NDA see PARAS 1394-1395 ante; and as to its functions see PARAS 1592-1595 ante.

3 For the meaning of 'cleaning up' see PARA 1592 note 2 ante.

4 le a site falling within the Energy Act 2004 s 30(2). For the meaning of 'site' see PARA 1420 note 2 ante.

5 For the meaning of 'nuclear site licence' see PARA 1487 note 1 ante (definition applied by ibid s 196(1)).

6 For these purposes, 'BNFL company' means the nuclear fuels company ('BNFL') or a wholly-owned subsidiary of BNFL: ibid ss 30(5), 196(1). As to BNFL see PARA 1377 note 5 ante; and for the meaning of 'wholly-owned subsidiary' see PARA 744 note 6 ante.

7 See ibid s 30(2). As to when a body corporate is publicly owned see PARA 1412 note 11 ante.

8 For the meaning of 'decommissioning' see PARA 1592 note 2 ante.

9 For the meaning of 'installation' see PARA 1416 note 8 ante.

10 For the meaning of 'facility' see PARA 1420 note 2 ante.

11 le the financial responsibility under the Energy Act 2004 s 21: see PARA 1607 ante.

12 For the meaning of 'capping agreement' see PARA 1610 note 10 ante (definition applied by ibid s 30(5)) (s 30(5) amended for this purpose by the Finance Act 2006 s 100(1), (5)).

13 For the meaning of 'generally accepted accounting practice' see PARA 1610 note 3 ante (definition applied by the Energy Act 2004 s 30(6)).

14 For these purposes, 'relevant provision' means a provision for liabilities or charges as defined in the Companies Act 1985 Sch 4 para 89 (as amended; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed) (see COMPANIES vol 15 (2009) PARA 730); Energy Act 2004 s 30(5).

15 le the responsibility mentioned in note 11 supra.

16 See note 15 supra.

17 Energy Act 2004 s 30(1), (3) (amended by the Finance Act 2006 ss 100(1), (2), (3), 178, Sch 26 Pt 3(18)).

18 Energy Act 2004 s 30(4) (amended by the Finance Act 2006 s 100(1), (4)).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1611 Disregard for tax purposes of provisions recognised by the Nuclear Decommissioning Authority

NOTE 14--Definition of 'relevant provision' amended to take account of the coming into force of the Companies Act 2006: SI 2008/948.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/D. THE NUCLEAR DECOMMISSIONING FUNDING ACCOUNT/1612. Establishment and maintenance of the Nuclear Decommissioning Funding Account.

D. THE NUCLEAR DECOMMISSIONING FUNDING ACCOUNT

1612. Establishment and maintenance of the Nuclear Decommissioning Funding Account.

For the purpose of ensuring transparency as respects the funding of the carrying out of the Nuclear Decommissioning Authority's ('the NDA's')¹ functions², it is the duty of the Secretary of State³ to establish and maintain an account to be known as the 'Nuclear Decommissioning Funding Account'⁴. That account, when first established, was to have an opening balance of such amount as the Secretary of State might, with the consent of the Treasury⁵, determine⁶.

Every amount paid to the NDA by way of grant⁷ must be shown in the account as a debit⁸. The following amounts are to be shown in the account as credits:

- 4568 (1) every amount received by the Secretary of State in pursuance of a requirement that the person with control of certain designated installations, sites or facilities is to make payments to him⁹;
- 4569 (2) every amount received by the NDA that is required to be paid by it to the Secretary of State under the specified statutory provision¹⁰;
- 4570 (3) such amount in respect of each financial year¹¹ as the Secretary of State may, with the consent of the Treasury, determine¹²; and
- 4571 (4) amounts representing interest, at such rate and in respect of such periods as the Secretary of State may, with the like consent¹³, determine, on outstanding credit balances of the account¹⁴.

The Secretary of State:

- 4572 (a) may make a single determination for the purposes of head (3) above in relation to more than one financial year;
- 4573 (b) must make every determination for those purposes in accordance with the policy most recently published¹⁵;
- 4574 (c) must revise a determination made for those purposes if he considers it necessary to do so in order to take account of any revision of the policy in accordance with which it was made, or last revised; and
- 4575 (d) must publish every determination made for those purposes, and every revision of such a determination, in such manner as, in his opinion, is most appropriate for bringing it to the attention of persons likely to be affected by it¹⁶.

The time at which an amount is to be debited or credited to the account in accordance with these provisions is to be the time determined by the Secretary of State¹⁷ with the consent of the Treasury¹⁸.

1 As to the establishment and constitution of the NDA see PARAS 1394-1397 ante.

- 2 As to the functions of the NDA see PARAS 1592-1595 ante.
- 3 As to the Secretary of State see PARA 601 note 1 ante.
- 4 Energy Act 2004 s 31(1).
- 5 The consent of the Treasury is required for every determination by the Secretary of State for the purposes of *ibid* s 31: s 31(9).
- 6 See *ibid* s 31(2).
- 7 *Ie* under *ibid* s 22(1): see PARA 1398 ante.
- 8 *Ibid* s 31(3).
- 9 *Ie* in pursuance of a requirement under *ibid* s 5(2): see PARA 1592 ante.
- 10 *Ie* under *ibid* s 22(3): see PARA 1398 ante.
- 11 For the meaning of 'financial year' see PARA 763 note 17 ante.
- 12 As to determinations by the Secretary of State see note 5 *supra*. The Secretary of State (1) must prepare, and may from time to time revise, a statement of his policy with respect to the determination of amounts for the purposes of the Energy Act 2004 s 31(4)(c) (see head (3) in the text); and (2) must publish that statement, and every revision of it, in such manner as, in his opinion, is most appropriate for bringing it to the attention of persons likely to be affected by it: s 31(6). The policy contained in the statement under s 31(6) must (a) set out the basis on which determinations for the purposes of s 31(4)(c) are to be made; (b) secure that amounts credited to the account in accordance with s 31(4)(c) are at least enough to prevent the credit balance of the account falling at any time below such level as the Secretary of State determines to be appropriate; and (c) set out the basis on which the Secretary of State's determination for the purposes of head (b) *supra* has been made: s 31(7).
- 13 See note 5 *supra*.
- 14 Energy Act 2004 s 31(4).
- 15 *Ie* under *ibid* s 31(6): see note 12 *supra*.
- 16 *Ibid* s 31(5).
- 17 *Ibid* s 31(8).
- 18 See note 5 *supra*.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (v) Financial Provisions and the Nuclear Decommissioning Funding Account/D. THE NUCLEAR DECOMMISSIONING FUNDING ACCOUNT/1613. Examination of the Nuclear Decommissioning Funding Account.

1613. Examination of the Nuclear Decommissioning Funding Account.

As soon as practicable after the end of each relevant financial year¹, the Secretary of State² must prepare a statement of the Nuclear Decommissioning Funding Account³. The statement must show:

- 4576 (1) the credits and debits made to the account during the period for which it is prepared; and
- 4577 (2) the determinations made or revised⁴ during that period for the relevant statutory purposes⁵.

The period for which each statement is to be prepared is the period which begins:

- 4578 (a) in the case of the first statement, with the establishment of the account; and
- 4579 (b) in any other case, immediately after the end of the period for which the previous statement was prepared;

and which ends with the last day of the last relevant financial year to end before the statement's preparation⁶.

A statement prepared under these provisions must be sent to the Comptroller and Auditor General⁷ before 30 September in the financial year in which it is prepared⁸. The Comptroller and Auditor General must, before 31 December in the financial year in which he receives such a statement, examine and report on it and lay copies of it, and of his report on it, before Parliament⁹.

1 For these purposes, 'relevant financial year' means a financial year in the course of which the Secretary of State has made or revised a determination for the purposes of the Energy Act 2004 s 31(4)(c) (see PARA 1612 ante at head (3) in the text): s 32(6). For the meaning of 'financial year' see PARA 763 note 17 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Energy Act 2004 s 32(1). As to the establishment and maintenance of the Nuclear Decommissioning Funding Account see PARA 1612 ante.

4 I.e. for the purposes of ibid s 31(4)(c): see PARA 1612 ante at head (3) in the text.

5 Ibid s 32(2).

6 Ibid s 32(3).

7 As to the Comptroller and Auditor General see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARAS 724-726.

8 Energy Act 2004 s 32(4).

9 Ibid s 32(5).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1614. Consent for dismantling or decommissioning.

(vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors

1614. Consent for dismantling or decommissioning.

A licensee¹ must not commence a project² unless he has applied to the Health and Safety Executive ('the Executive')³ for a consent to carry out the project and such a consent has been granted for these purposes by the Executive⁴.

'Project' means the carrying out of any dismantling or decommissioning work on any nuclear power station or nuclear reactor to which the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999⁵ apply⁶, namely, subject to certain exceptions⁷, nuclear power stations and other nuclear reactors, except research installations for the production and conversion of fissionable and fertile materials whose maximum power does not exceed 1 kilowatt continuous thermal load⁸. The 1999 Regulations do not, however, apply to any project serving national defence purposes where the Secretary of State⁹ is of the opinion that application of those regulations would have an adverse effect on the defence purposes of the project¹⁰. Nor, unless the project is changed or extended¹¹, do those regulations apply to the carrying out of dismantling or decommissioning work on a nuclear power station or nuclear reactor commenced prior to 19 November 1999¹².

'Project' does not, however, include:

- 4580 (1) the removal from a power station or reactor of fuel elements, neutron absorption cartridges or control rods carried out in accordance with normal operating procedures; or
- 4581 (2) the removal of waste from, or decontamination work on, a power station or reactor when such an activity is carried out as part of routine operations not intended to be part of final dismantling or decontamination of that station or reactor¹³.

1 'Licensee' means a person to whom a nuclear site licence has been granted under the Nuclear Installations Act 1965 (see PARA 1490 ante) whether or not that licence remains in force: Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 2(1).

2 For the meaning of 'project' see the text and notes 5-13 infra.

3 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

4 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, regs 2(1), 4 (amended by SI 2006/657).

5 Ie the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892 (as amended): see PARA 1615 et seq post.

6 Ie by virtue of ibid reg 3(1).

7 See the text and notes 9-13 infra.

8 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, regs 2(1), 3(1).

9 As to the Secretary of State see PARA 601 note 1 ante.

10 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 3(3) (amended by SI 2006/657).

11 Ie except for the purposes of the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 13: see PARA 1622 post.

12 Ibid reg 3(2). 19 November 1999 is the date when the 1999 Regulations came into force: see reg 1. For these purposes, dismantling or decommissioning of a nuclear power station or nuclear reactor is not to be treated as having commenced unless plant or equipment is disabled or removed for the purpose of permanently preventing the continued operation of that station or reactor: reg 2(1).

13 Ibid reg 2(1).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1615. Provision of an environmental statement.

1615. Provision of an environmental statement.

A licensee¹ who applies for a consent for a project for dismantling or decommissioning work² must provide to the Health and Safety Executive³ an environmental statement, being a statement which:

- 4582 (1) includes such of the following information⁴ as is reasonably required to assess the environmental effects of the proposed project and which the licensee can, having regard in particular to current knowledge and methods of assessment, reasonably be required to compile⁵, namely:
- 437
633. (a) a description of the project⁶, including in particular a description of the physical characteristics of the whole project and the land-use requirements during the construction and operational phases, a description of the main characteristics of the production processes, for instance the nature and quantity of the materials used, and an estimate, by type and quantity, of expected residues and emissions⁷ resulting from the operation of the proposed project⁸;
634. (b) an outline of the main alternatives studied by the licensee and an indication of the main reasons for his choice, taking into account the environmental effects⁹;
635. (c) a description of the aspects of the environment likely to be significantly affected by the proposed project, including in particular, population, fauna, flora, soil, water, air, climatic factors, material assets, including architectural and archaeological heritage, landscape and the inter-relationship between the above factors¹⁰;
636. (d) a description of the likely effects of the proposed project on the environment, which should cover the direct effects and any indirect, secondary, cumulative, short, medium and long-term, permanent and temporary, positive and negative effects of the project, resulting from the existence of the project, the use of natural resource, the emission of pollutants, the creation of nuisances and the elimination of waste, and the description by the licensee of the forecasting methods used to assess the effects on the environment¹¹;
637. (e) a description of the measures envisaged to prevent, reduce and where possible offset any significant adverse effects on the environment¹²;
638. (f) a non-technical summary of the information provided under heads (a) to (e) above¹³; and
639. (g) an indication of any difficulties (technical deficiencies or lack of know-how) encountered by the licensee in compiling the required information¹⁴; and
- 438
- 4583 (2) includes at least the following information¹⁵, namely:
- 439
640. (a) a description of the project comprising information on the site, design and size of the project¹⁶;
641. (b) a description of the measures envisaged in order to avoid, reduce and, if possible, remedy significant adverse effects¹⁷;

642. (c) the data required to identify and assess the main effects which the project is likely to have on the environment¹⁸;
643. (d) an outline of the main alternatives studied by the licensee and an indication of the main reasons for his choice, taking into account the environmental effects¹⁹; and
644. (e) a non-technical summary of the information mentioned in heads (a) to (d) above²⁰.
- 440

The above information must be provided to the extent that the information is relevant to the consent procedure and the specific characteristics of a particular project or type of project and of the environmental features likely to be affected²¹.

The Executive and any other consultation body²² notified that a licensee has made or is proposing to make an application for consent²³ must, if requested by the licensee, or may, without such a request, enter into consultation with the licensee to determine whether the body has in its possession any information which the licensee or that body considers relevant to the preparation of an environmental statement and, if it has, the body must make any such information available to the licensee²⁴. Nothing in the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999²⁵, however, requires the disclosure by a body of information that it is entitled not to disclose under the specified provisions²⁶ of the Environmental Information Regulations 2004²⁷.

1 For the meaning of 'licensee' see PARA 1614 note 1 ante.

2 I.e. under the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 4(a): see PARA 1614 ante.

3 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

4 I.e. the information specified in the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 5(1)(a), Sch 1 Pt I (paras 1-7): see head (1)(a)-(g) in the text.

5 See *ibid* reg 5(1)(a).

6 For the meaning of 'project' see PARA 1614 ante.

7 I.e. water, air and soil pollution, noise, vibration, light, heat, radiation and other similar matters: see the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, Sch 1 para 1.

8 *Ibid* Sch 1 para 1.

9 *Ibid* Sch 1 para 2.

18 Ibid Sch 1 para 10.

19 Ibid Sch 1 para 11.

20 Ibid Sch 1 para 12.

21 Ibid reg 5(2).

22 For these purposes, 'the consultation bodies' means (1) the local planning authority; (2) the local highway authority; (3) any principal council for the area in which the site where the project is to be carried out, if not the local planning authority; and such of the following bodies as are applicable having regard to the place where a project is to be carried out: (a) in England and Wales, the Environment Agency; (b) in England, Natural England; (c) in Wales, the Countryside Council for Wales; (d) in Scotland, Scottish Natural Heritage and the Scottish Environment Protection Agency: *ibid* reg 2(1) (definition amended by virtue of the Countryside and Rights of Way Act 2000 s 73(2) and the Natural Environment and Rural Communities Act 2006 s 1(4)). 'Local planning authority' means, in England and Wales, a local planning authority within the meaning of the Town and Country Planning Act 1990 Pt I (ss 1-9) (as amended) (see *TOWN AND COUNTRY PLANNING* vol 46(1) (Reissue) PARA 28 et seq): Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 2(1).

23 See note 2 *supra*.

24 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 7.

25 *Ie* the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892 (as amended); see PARA 1614 *ante*; the text and notes 1-24 *supra*; and PARA 1616 *et seq post*.

26 *Ie* under the Environmental Information Regulations 2004, SI 2004/3391, regs 12, 13; see *ENVIRONMENTAL QUALITY AND PUBLIC HEALTH* vol 45 (2010) PARA 55; *WATER AND WATERWAYS* vol 101 (2009) PARA 680.

27 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 14 (substituted by SI 2006/657).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1616. Pre-application opinion as to the content of the environmental statement.

1616. Pre-application opinion as to the content of the environmental statement.

Without prejudice to the statutory requirement to provide an environmental statement¹, a licensee² who is minded to apply for a consent to carry out a project for dismantling or decommissioning work³ may request the Health and Safety Executive ('the Executive')⁴ to state in writing its opinion as to the information to be provided in connection with that application⁵. If the Executive considers that it has not been provided with sufficient information to give an opinion on a request so made, it must notify the licensee of the matters in respect of which it requires further information and is not to be required to give such an opinion until such further information has been provided⁶.

The Executive must not give an opinion in response to such a request until it has consulted the licensee, the consultation bodies⁷ and such other bodies as appear to the Executive to be appropriate having regard to the circumstances of the case, but it must⁸ respond to such request within 21 days of the end of the period allowed by the Executive for responding to such consultation⁹.

An opinion given for these purposes does not prevent the Executive subsequently requiring the licensee to submit further information¹⁰.

1 le without prejudice to the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 5: see PARA 1615 ante.

2 For the meaning of 'licensee' see PARA 1614 note 1 ante.

7 For the meaning of 'the consultation bodies' see PARA 1615 note 22 ante.

8 le subject to the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 6(2): see the text and note 6 supra.

9 Ibid reg 6(3).

10 Ibid reg 6(4).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1617. Publicity.

1617. Publicity.

Within 14 days of sending to the Health and Safety Executive ('the Executive')¹ an environmental statement², the licensee³ must cause to be published in one or more newspapers circulating in the locality in which the project for dismantling or decommissioning work⁴ is to be carried out and, where required by the Executive, any other newspaper named by the Executive, a notice stating:

- 4584 (1) the name and address of the licensee and that he is the applicant in respect of a consent for a project;
- 4585 (2) the date on which the application was made;
- 4586 (3) the address or location of the site at which the proposed project is to be carried out;
- 4587 (4) that a copy of the application together with a copy of the environmental statement may be inspected by members of the public at all reasonable hours;
- 4588 (5) an address, or addresses, in the locality of the power station or reactor at which those documents may be inspected and the latest date on which they will be available for inspection, being a date not less than 30 days later than the date on which the notice is published;
- 4589 (6) an address, or addresses, whether or not the same as that given under head (5) above, in the locality of the power station or reactor at which copies of the environmental statement may be obtained;
- 4590 (7) that copies may be obtained there so long as stocks last;
- 4591 (8) if a charge is to be made for a copy, the amount of the charge;
- 4592 (9) that any person wishing to make representations about the application should make them in writing, before the date named in accordance with head (5) above, to the Executive at a specified address; and
- 4593 (10) that the project is subject to an environmental impact assessment⁵ procedure⁶.

A copy of the notice so required must be provided to the Executive by the licensee within 14 days of the notice being published⁷.

The licensee must ensure that:

- 4594 (a) not less than five copies of the application for consent to carry out a project together with five copies of the environmental statement are available for inspection by members of the public at all reasonable hours at the address, or addresses specified in the above-mentioned notice pursuant to head (5) above; and
- 4595 (b) copies of the environmental statement are available at the address specified in the above-mentioned notice pursuant to head (6) above on payment of a reasonable charge reflecting printing and distribution costs⁸.

¹ As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 le pursuant to the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 5: see PARA 1615 ante.

3 For the meaning of 'licensee' see PARA 1614 note 1 ante.

4 For the meaning of 'project' see PARA 1614 ante.

5 For these purposes, 'environmental impact assessment' means a process which identifies, describes and assesses in an appropriate manner, in the light of each individual case, the direct and indirect effects of a proposed project on (1) human beings, flora and fauna; (2) soil, water, air, climate and the landscape; (3) material assets and the cultural heritage; (4) the interaction between the factors referred to in heads (1)-(3) supra: Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 2(1).

6 Ibid reg 9(1) (amended by SI 2006/657).

7 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 9(2).

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1618. Further information and evidence respecting environmental statements.

1618. Further information and evidence respecting environmental statements.

Where the Health and Safety Executive ('the Executive')¹ receives an application for consent to carry out a project for dismantling or decommissioning work² in relation to which the licensee³ has submitted a statement which he refers to as an environmental statement for the relevant statutory purposes⁴ and the Executive is of the opinion that the statement should contain further information in order to be an environmental statement, the Executive must notify the licensee in writing accordingly and the licensee must provide that further information⁵. The following provisions apply in relation to further information required of a licensee⁶.

Within 14 days of providing to the Executive the further information referred to above, the licensee must cause to be published in one or more newspapers circulating in the locality in which the project is to be carried out and, where requested by the Executive, any other newspaper named by the Executive, a notice stating:

- 4596 (1) the name of the licensee;
- 4597 (2) the date on which the application for consent to carry out the project was made;
- 4598 (3) the address or location of the site at which the proposed project is to be carried out;
- 4599 (4) that further information is available in relation to an environmental statement which has already been provided;
- 4600 (5) that a copy of the further information may be inspected by members of the public at all reasonable hours;
- 4601 (6) an address, or addresses, in the locality of the power station or nuclear reactor at which the further information may be inspected and the latest date on which it will be available for inspection, being a date not less than 30 days later than the date on which the notice is published;
- 4602 (7) an address, or addresses, whether or not the same as that given under head (6) above, in the locality of the nuclear reactor or power station at which copies of the further information may be obtained;
- 4603 (8) that copies may be obtained there as long as stocks last;
- 4604 (9) if a charge is to be made for a copy, the amount of the charge;
- 4605 (10) that any person wishing to make representations about the further information should make them in writing, before the date specified in accordance with head (6) above, to the Executive at a specified address⁷.

A copy of the notice so required must be provided to the Executive by the licensee within 14 days of the notice being published⁸.

The Executive must send a copy of the further information to each person to whom, in accordance with the relevant regulations⁹, the statement to which it relates was sent¹⁰; and the Executive may by notice in writing require the licensee to provide such number of copies of the further information as is specified in the notice, being the number required¹¹ for these purposes¹².

Where further information is required to be provided, the Executive must suspend determination of the application and must not determine it before the expiry of 14 days after the date on which the further information was sent to all persons to whom the statement to which it relates was sent or the expiry of 30 days after the date that notice of it was published in a newspaper in accordance with heads (1) to (10) above, whichever is the later¹³.

The licensee who provides further information¹⁴ must ensure that:

- 4606 (a) not less than five copies of the information are available for inspection by members of the public at all reasonable hours at the address, or addresses, named in the notice published pursuant to head (6) above as the address at which such copies may be obtained; and
- 4607 (b) copies of the information are available at the address, or addresses, named in the notice published pursuant to head (7) above on payment of a reasonable charge reflecting printing and distribution costs¹⁵.

The Executive may in writing require a licensee to produce such evidence as it may reasonably call for to verify any information in his environmental statement¹⁶.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1619. Procedure by the Health and Safety Executive.

1619. Procedure by the Health and Safety Executive.

Where the Health and Safety Executive ('the Executive')¹ receives in relation to a proposed project for dismantling or decommissioning work² an application for a consent³ it must:

- 4608 (1) within 21 days of the date of receipt of that application notify the consultation bodies⁴ in writing of the name and address of the licensee⁵ and of the duty imposed on them⁶ to make information available to the licensee; and
- 4609 (2) inform the licensee of the names and addresses of the bodies notified under head (1) above⁷.

Where the Executive is provided with an environmental statement⁸ it must:

- 4610 (a) consult the consultation bodies as to the information contained in that statement and for that purpose must within 21 days of the date of receipt of that statement provide to them the information contained in the statement;
- 4611 (b) require any body so consulted to respond to the Executive within such reasonable time as the Executive may specify;
- 4612 (c) send a copy of the environmental statement to the Secretary of State stating whether or not in the opinion of the Executive the project to which the environmental statement relates is likely to have significant effects on the environment in another EEA state⁹; and
- 4613 (d) must inform any particular person¹⁰ who they are aware is or is likely to be affected by, or has an interest in, the application, who is unlikely to become aware of it by means of a local advertisement, by sending them a notice that contains the prescribed details¹¹.

The Executive must not grant a consent¹² in relation to an application to carry out a proposed project unless:

- 4614 (i) there has been carried out an environmental impact assessment¹³ which takes into consideration the environmental statement provided¹⁴;
- 4615 (ii) the Executive has taken into account the assessment carried out pursuant to head (i) above, the responses of those consulted pursuant to heads (a) to (d) above and any representations made to it pursuant to the prescribed procedure for publicity¹⁵; and
- 4616 (iii) where another EEA state indicates that it wishes to participate in the procedure for which the relevant regulations provide¹⁶, a period of at least 21 days has elapsed since the end of all periods of consultation agreed pursuant to the prescribed procedure¹⁷ and the Executive has taken into account any responses received¹⁸ by another EEA state¹⁹.

The Executive may, on granting a consent to carry out a project, attach to that consent such conditions as may appear to it to be necessary or desirable in the interests of limiting the impact of that project on the environment²⁰.

1 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 For the meaning of 'project' see PARA 1614 ante.

3 Ie pursuant to the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 4(a): see PARA 1614 ante.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1620. Information as to decisions.

1620. Information as to decisions.

Where an application for consent to carry out a project for dismantling or decommissioning work¹ is determined by the Health and Safety Executive ('the Executive')², the Executive must:

- 4617 (1) in writing, inform the licensee³ and the Secretary of State⁴ of the decision;
- 4618 (2) inform the public of the decision by publishing a notice in a newspaper circulating in the locality of the site concerned, or by such other means as are reasonable in the circumstances; and
- 4619 (3) make available for public inspection at all reasonable hours at an office of the Executive nearest to the place where the power station or reactor is situated, and free of charge, a statement containing:
- 441
- 645. (a) the content of the decision and any conditions attached thereto;
- 646. (b) the main reasons and considerations on which the decision is based, including information about the public participation process;
- 647. (c) a description, where necessary, of the main measures to avoid, reduce and, if possible, offset the major adverse effects of the project; and
- 648. (d) information regarding the right to challenge the validity of the decision and the procedures for doing so⁵.
- 442

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1621. Projects likely to have significant effects on the environment in another EEA state.

1621. Projects likely to have significant effects on the environment in another EEA state.

Where:

- 4620 (1) it comes to the attention of the Secretary of State¹ that a project for dismantling or decommissioning work² proposed to be carried out in Great Britain is the subject of an application for consent³ and is likely to have significant effects on the environment in another EEA state⁴; or
- 4621 (2) another EEA state likely to be significantly affected by such project so requests,

the Secretary of State must:

- 4622 (a) send to the EEA state as soon as possible and no later than their date of publication in the London Gazette, or the Edinburgh Gazette as the case may be, referred to in head (b) below, the prescribed particulars⁵ and, if he thinks fit, the specified information⁶; and
- 4623 (b) publish the particulars in head (a) above in a notice placed in the London Gazette or, where the project is in Scotland, the Edinburgh Gazette, with an indication of where further information is available; and
- 4624 (c) give the EEA state a reasonable time in which to indicate whether it wishes to be further consulted in accordance with the following provisions⁷.

The Secretary of State in so far as he is concerned must also:

- 4625 (i) arrange for the particulars and information referred to above to be made available, within a reasonable time, to the specified authorities⁸ and the public concerned in the territory of the EEA state likely to be significantly affected; and
- 4626 (ii) ensure that those authorities and the public concerned are given an opportunity, before consent to the application is granted, to forward to the Secretary of State, within a reasonable time, their opinion on the information supplied⁹.

The Secretary of State must¹⁰ enter into consultation with the EEA state concerned regarding, inter alia, the potential significant effects of the project on the environment of that EEA state and the measures envisaged to reduce or eliminate such effects¹¹ and determine in agreement with the other EEA state a reasonable period of time for the duration of the consultation period¹². Where an EEA state has been so consulted, on the determination of the application concerned the Secretary of State must:

- 4627 (A) send to the Health and Safety Executive¹³ within 21 days of receipt any responses made by another EEA state pursuant to consultation under these provisions;
- 4628 (B) inform the EEA state of the decision; and
- 4629 (C) forward to it a statement of the content of the decision and any conditions attached thereto, the main reasons and considerations on which the decision is based and a description, where necessary, of the main measures to avoid, reduce and, if possible, offset the major adverse effects of the project¹⁴.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'project' see PARA 1614 ante.

3 Ie under the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 4 (as amended): see PARA 1614 ante.

4 For the meaning of 'EEA state' see PARA 1619 note 9 ante.

5 Ie the particulars mentioned in the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 12(2). The particulars referred to in head (a) in the text are (1) a description of the project, together with any available information on its possible significant effect on the environment in another EEA state; and (2) information on the nature of the decision which may be taken: reg 12(2).

6 Ie the information referred to in ibid reg 12(3). Where an EEA state indicates, in accordance with reg 12(1)(iii) (see head (c) in the text), that it wishes to participate in the procedure for which the 1999 Regulations provide, the Secretary of State must as soon as possible send to that EEA state the following information: (1) a copy of the application for consent to carry out the project concerned; (2) a copy of the environmental statement in respect of the project to which that application relates including any further information relating to the project provided pursuant to reg 10(1) (see PARA 1618 ante); and (3) relevant information regarding the procedure under those regulations, but only to the extent that such information has not been provided to the EEA state earlier in accordance with reg 12(1)(i) (see head (a) in the text): reg 12(3).

7 Ibid reg 12(1); and see note 6 supra.

8 Ie the authorities referred to in EEC Council Directive 85/337 (OJ L175, 05.07.85, p 40) art 6(1) (as substituted).

9 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 12(4).

10 Ie in accordance with EEC Council Directive 85/337 (OJ L175, 05.07.85, p 40) art 7(4) (as substituted).

11 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 12(5)(a).

12 Ibid reg 12(5)(b).

13 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

14 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 12(6) (amended by SI 2006/657).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1622. Change or extension of project.

1622. Change or extension of project.

Where there is a change or extension of:

- 4630 (1) any project for dismantling or decommissioning work¹ in respect of which a consent has been granted²; or
- 4631 (2) any project which commenced prior to 19 November 1999³,

and that change or extension may have significant adverse effects on the environment, the licensee⁴ must apply to the Health and Safety Executive ('the Executive')⁵ for a determination as to whether the project is to be made subject to an environmental impact assessment⁶ and must not commence or continue with the change or extension to the project and any other part of the project that the Executive may direct until such determination has been made⁷. In determining for this purpose whether an environmental impact assessment is required, the Executive must have regard to the relevant selection criteria⁸; and the licensee must provide to the Executive such information as it may require to enable the determination to be made⁹.

Where the Executive determines for these purposes that an environmental impact assessment is required in respect of the project, the relevant regulations¹⁰ apply as if any reference in them to the project were a reference to the project as so changed or extended¹¹. Where, however, the Executive determines for these purposes that an environmental impact assessment is not required in respect of the project, the Executive must:

- 4632 (a) in writing, inform the licensee and the Secretary of State¹² of the decision; and
- 4633 (b) inform the public of the decision by publishing a notice in a newspaper circulating in the locality of the site concerned, or by such other means as are reasonable in the circumstances, stating the main reasons on which the decision is based¹³.

¹ For the meaning of 'project' see PARA 1614 ante.

² Ie under the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 4 (as amended): see PARA 1614 ante.

³ Ie prior to the date when the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892 (as amended) came into force: see reg 1.

⁴ For the meaning of 'licensee' see PARA 1614 note 1 ante.

⁵ As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

⁶ For the meaning of 'environmental impact assessment' see PARA 1617 note 5 ante.

⁷ Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 13(1) (amended by SI 2006/657).

8 Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 13(2). The relevant selection criteria are as follows (Sch 2 paras 1-3), ie:

- 120 (1) characteristics of projects: the characteristics of projects must be considered having regard, in particular, to:
 - 99. (a) the size of the project;
99
 - 100.(b) the cumulation with other projects;
100
 - 101.(c) the use of natural resources;
101
 - 102.(d) the production of waste;
102
 - 103.(e) pollution and nuisances;
103
 - 104.(f) the risk of accidents, having regard in particular to substances or technologies used;
104
- 121 (2) location of projects: the environmental sensitivity of geographical areas likely to be affected by projects must be considered, having regard to:
 - 105.(a) the existing land use;
105
 - 106.(b) the relative abundance, quality and regenerative capacity of natural resources in the area;
106
 - 107. (c) the absorption capacity of the natural environment, paying particular attention to the following areas, ie wetlands; coastal zones; mountain and forest areas; nature reserves and parks; areas classified or protected under member states' legislation; special protection areas designated by member states pursuant to EEC Council Directive 79/409 (OJ L103, 25.04.79, p 1) (as amended) on the conservation of wild birds (see ANIMALS vol 2 (2008) PARAS 994, 1006; OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 728) and EEC Council Directive 92/43 (OJ L206, 22.07.92, p 7) (as amended) on the conservation of natural habitats and wild fauna and flora (see OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 728 et seq; WATER AND WATERWAYS vol 101 (2009) PARA 674); areas in which the environmental quality standards laid down in Community legislation have already been exceeded; densely populated areas; and landscapes of historical, cultural or archaeological significance;
107
- 122 (3) characteristics of the potential impact: the potential significant effects of projects must be considered in relation to criteria set out under heads (1)-(2) supra, and having regard in particular to:
 - 108.(a) the extent of the impact (geographical area and size of the affected population);
108
 - 109.(b) the transfrontier nature of the impact;
109
 - 110.(c) the magnitude and complexity of the impact;
110
 - 111.(d) the probability of the impact;
111
 - 112.(e) the duration, frequency and reversibility of the impact.

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1623. Recovery of expenses by the Health and Safety Executive.

1623. Recovery of expenses by the Health and Safety Executive.

The following provisions apply to any expenses incurred by the Health and Safety Executive ('the Executive')¹ which the Executive may determine to be incurred wholly or partly in connection with the carrying into effect of the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999² and include any sums paid by the Executive by way of remuneration, allowances or other payments to inspectors appointed under the Health and Safety at Work etc Act 1974³.

Where a licensee⁴ has applied for a consent to carry out a project for dismantling or decommissioning work⁵ or has requested an opinion as to the content of an environmental statement⁶, the Executive, in such cases and to such extent as it may appear to it appropriate to do so:

- 4634 (1) must require the licensee to repay to it so much of any expenses to which these provisions apply as may appear to it to be attributable to dealing with the application or request; and
- 4635 (2) may require the licensee to make to it a payment or payments on account of such liability⁷;

and a licensee must comply with any requirement so made of him⁸. Any liability of a licensee in respect of sums payable by him under these provisions on account of pensions must, if the Executive so determines, be satisfied by way of contributions calculated at such rate as may be determined by the Treasury, by reference to remuneration⁹.

Where a licensee has made a payment under head (2) above on account of an anticipated liability, then if the amount of the liability to which he becomes subject is less than the amount paid under that head, the Executive is liable to repay the difference to him¹⁰.

1 As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 I.e. the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892 (as amended): see PARA 1614 et seq ante, PARA 1624 post.

3 Ibid reg 15(1). As to the appointment of inspectors under the Health and Safety at Work etc Act 1974 see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375.

4 For the meaning of 'licensee' see PARA 1614 note 1 ante.

5 I.e. pursuant to the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 4 (as amended): see PARA 1614 ante.

6 I.e. pursuant to ibid reg 6: see PARA 1616 ante. See also note 7 infra.

7 Ibid reg 15(2). The statutory wording is 'pursuant to regulation 4 or 5 respectively' but it is apprehended that the reference to reg 5 is a drafting error and that the reference is intended to be to reg 6.

8 Ibid reg 15(3).

10 Ibid reg 15(5).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1623-1624 Recovery of expenses by the Health and Safety Executive, Enforcement

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/7. NUCLEAR ENERGY AND RADIOACTIVE SUBSTANCES/(10) NUCLEAR DECOMMISSIONING/ (vi) Environmental Impact Assessment for Decommissioning of Nuclear Reactors/1624. Enforcement.

1624. Enforcement.

The provisions of the Health and Safety at Work etc Act 1974 relating to enforcement and offences¹ apply to any requirement or prohibition imposed upon any licensee² by the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999³ or any requirement which they impose upon any person to give information to the licensee⁴ as if the requirement or prohibition concerned had been imposed by regulations made under the specified provision⁵ of that 1974 Act⁶. Any function of the Health and Safety Commission⁷ under any other provision of that 1974 Act which is exercisable in relation to any function of the Health and Safety Executive⁸ under or in respect of health and safety regulations, including their enforcement, is exercisable as if those 1999 Regulations were health and safety regulations for the purposes of that 1974 Act⁹.

The Health and Safety (Enforcing Authority) Regulations 1998¹⁰ do not, however, apply in relation to the enforcement of any requirement or prohibition referred to above¹¹.

¹ I.e. the Health and Safety at Work etc Act 1974 ss 18-26 (as amended), 33-42 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 372 et seq; HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq.

² For the meaning of 'licensee' see PARA 1614 note 1 ante.

³ I.e. by the Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892 (as amended): see PARA 1614 et seq ante.

⁴ I.e. any requirement imposed by ibid reg 7: see PARA 1615 ante.

⁵ I.e. under the Health and Safety at Work etc Act 1974 s 15 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 424-425.

⁶ Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 16(1).

⁷ As to the Health and Safety Commission see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 367 et seq.

⁸ As to the Health and Safety Executive see PARA 1391 ante; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

⁹ Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 16(1).

¹⁰ I.e. the Health and Safety (Enforcing Authority) Regulations 1998, SI 1998/494 (as amended): see HEALTH AND SAFETY AT WORK.

¹¹ Nuclear Reactors (Environmental Impact Assessment for Decommissioning) Regulations 1999, SI 1999/2892, reg 16(2).

UPDATE

1592-1624 Nuclear Decommissioning

As to the duty to submit a funded decommissioning programme see PARA 1494A.

1623-1624 Recovery of expenses by the Health and Safety Executive, Enforcement

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1624 Enforcement

NOTES 6, 9--SI 1999/2892 reg 16(1) amended: SI 2008/960.

NOTE 7--Health and Safety Commission abolished as from 1 April 2008: see the Legislative Reform (Health and Safety Executive) Order 2008, SI 2008/960, art 2.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(i) Scope and Definitions/1625. Scope of this part of the title.

8. PETROLEUM PRODUCTION

(1) INTRODUCTION

(i) Scope and Definitions

1625. Scope of this part of the title.

The statutory provisions described in this part of this title are concerned with (1) the law relating to property and other rights in petroleum¹ existing in its natural condition in strata in Great Britain² and in the continental shelf³; (2) the legal framework for persons to be enabled to search for and get such petroleum⁴ and for the control of such exploration and production⁵; and (3) statutory provisions governing certain relevant fields of administration and finance, including principally the functions of central government⁶, and the establishment, constitution and functions of the Oil and Pipelines Agency⁷.

The following matters are dealt with in detail elsewhere in this work: health and safety on installations⁸; jurisdiction in relation to territorial waters⁹; jurisdiction and statute law generally in relation to the continental shelf¹⁰; the handling and storing of petroleum spirit¹¹ and its conveyance by road¹²; the control and regulation of the government pipeline and storage system¹³; the exploration and exploitation of mineral resources in Antarctica¹⁴; and certain provisions relating to oil pollution¹⁵. Other provisions with regard to offshore oil and chemical pollution are discussed below¹⁶.

Certain legislation dealing with petroleum exploration and exploitation is outside the scope of this work¹⁷.

1 For the meaning of 'petroleum' see PARA 1626 post.

2 As to ownership of petroleum in Great Britain see PARAS 1634-1635 post. For the meaning of 'Great Britain' see PARA 602 note 7 ante. As to internal waters see INTERNATIONAL RELATIONS LAW vol 61 (2010) PARA 121; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

3 As to rights of action see PARA 1637 post.

4 As to licences to search for and get petroleum see PARA 1639 et seq post.

5 See PARA 1639 et seq post.

6 See PARA 1629 et seq post.

7 See PARA 1771 et seq post.

8 Installations on land (including the foreshore and land intermittently covered with water), offshore installations, and any other installation (whether floating, or resting on the sea bed or the subsoil thereof, or resting on other land covered with water or the subsoil thereof) are included in the definition of 'premises' in the Health and Safety at Work etc Act 1974: see s 53(1); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 302 note 6. The provisions of that Act, including particularly those imposing duties in regard to the safety of premises and the provisions of health and safety regulations, have effect for securing the general purposes of the Act in relation to such installations: see s 1(1), (3) (as amended); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 303. As to the application of the Act, and health and safety regulations, in relation to offshore installations see further PARA 1677 post.

9 See INTERNATIONAL RELATIONS LAW.

10 See INTERNATIONAL RELATIONS LAW. As to the jurisdiction of English courts in relation to certain torts see CONFLICT OF LAWS; see also the Continental Shelf Act 1964. Certain statutory provisions dealing with jurisdiction are extended so far as concerns offshore installations and submarine pipelines. So far as relates to provisions of orders and regulations concerning aircraft on or in the neighbourhood of offshore installations, the Civil Aviation Act 1982 s 102, Sch 13 Pt III para 6 (as amended) (relating to the extra-territorial effect of certain instruments: see AIR LAW vol 2 (2008) PARA 30) applies to all aircraft and not only to aircraft registered in the United Kingdom, and applies to the doing of anything in relation to any aircraft by any person, irrespective of nationality or, in the case of a body corporate, of the law under which it was incorporated (Sch 13 Pt III para 6(5)), and applies to installations notwithstanding that they are for the time being in transit (Sch 13 Pt III para 6(6)). Nothing in the Food and Environment Protection Act 1985 Pt II (ss 5-15) (as amended) (deposits in the sea: see SHIPPING AND MARITIME LAW) applies to anything done (1) for the purpose of constructing or maintaining a pipeline as respects any part of which an authorisation (within the meaning of the Petroleum Act 1998 Pt III (ss 14-28) (as amended) (see PARA 1743 note 7 post) is in force; or (2) for the purpose of establishing or maintaining an offshore installation within the meaning of Pt IV (ss 29-45) (see PARA 1729 et seq post): Food and Environment Protection Act 1985 s 7A (added by the Petroleum Act 1998 s 50, Sch 4 para 20).

11 See PARA 788 ante; and HEALTH AND SAFETY AT WORK. As to the statutory prohibition on keeping petroleum spirit without a licence see the Petroleum (Consolidation) Act 1928 s 1 (as amended); for provisions as to licences see ss 2-4 (as amended); and as to the labelling of vessels containing petroleum spirit see s 5 (as amended; repealed in relation to the carriage of petroleum mixtures and liquid methane in a road tanker or tank container by the Road Traffic (Carriage of Dangerous Substances in Road Tankers and Tank Containers) Regulations 1992, SI 1992/743, reg 30(1)).

12 See ROAD TRAFFIC.

13 See the Requisitioned Land and War Works Acts 1945 and 1948; the Land Powers (Defence) Act 1958; the Secretaries of State (Government Oil Pipeline and Petroleum Licences) Order 1989, SI 1989/150, art 2; and ARMED FORCES; WAR AND ARMED CONFLICT.

14 See the Antarctic Act 1994; and INTERNATIONAL RELATIONS LAW.

15 See the Pollution Prevention and Control Act 1999; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH; the Prevention of Oil Pollution Act 1971; and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq; the Merchant Shipping Act 1995 Pt VI (ss 128-192A) (as amended); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq; the Merchant Shipping (Prevention of Oil Pollution) Regulations 1996, SI 1996/2154 (as amended); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq; and the Merchant Shipping (Oil Pollution Preparedness, Response and Co-operation Convention) Regulations 1998, SI 1998/1056 (as amended); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARA 347 et seq. Operators in the United Kingdom sector of the continental shelf have entered into an agreement known as the Offshore Pollution Liability Agreement (OPOL), by which they bind themselves to accept liability, irrespective of fault but subject to certain maxima and exceptions, to persons who sustain damage from oil discharges from offshore facilities and to join in steps to guarantee payment of sums so due in specified circumstances. The original text of the agreement appears in (1974) 13 ILM 1409 and rules made under the agreement in (1975) 14 ILM 147. The agreement has now been extended to the continental shelves of Belgium, Denmark, Germany, France, Greece, Holland, Ireland, the Isle of Man, Italy, Norway, Portugal and Spain. The current text dates from 1996.

16 See PARA 1694 et seq post.

17 See the Offshore Petroleum Development (Scotland) Act 1975, which provides for the Secretary of State to acquire land in Scotland for purposes relating to offshore petroleum exploration and exploitation; enables him to carry out works and facilitate operations for those purposes, to regulate such operations in certain sea areas and to provide for the reinstatement of land used for those purposes and for various connected matters. That Act (except s 7(6): proceedings for offences) extends to Scotland only, and is therefore not dealt with in this work. See also the Petroleum (Production) Act (Northern Ireland) 1964.

Provisions of substantial significance in relation to petroleum exploration and exploitation have appeared in local legislation: see eg the Zetland County Council Act 1974 (amended by the Shetland Islands Council Order Confirmation Act 1979), which confers on the Shetland Islands Council (formerly the Zetland County Council) extensive powers in connection with shore and harbour facilities.

UPDATE

1625 Scope of this part of the title

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

NOTE 10--Food and Environment Protection Act 1985 s 7A amended: Energy Act 2008 Sch 1 para 2.

Food and Environment Protection Act 1985 s 7A further amended and repealed in part: Marine and Coastal Access Act 2009 Sch 8 para 2(4), Sch 22 Pt 2 (not yet in force).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(i) Scope and Definitions/1626. Meaning of 'petroleum' and cognate terms.

1626. Meaning of 'petroleum' and cognate terms.

The word 'petroleum' is not a definite term¹; its meaning in a particular case depends on the facts². The test is what the word meant at the date of the instrument concerned³, in the vernacular of non-scientific persons concerned with its use⁴, and where there is conflict this meaning must prevail over the purely scientific meaning⁵. Nevertheless, the word 'petroleum' is capable of limitation or expansion according to the intention with which it is used⁶; and this intention may be inferred from the document itself or from consideration of the circumstances in which it was made⁷. Where the word 'petroleum' occurs in legislation it is usually defined expressly.

For the purposes of Part I of the Petroleum Act 1998⁸, 'petroleum':

- 4636 (1) includes any mineral oil or relative hydrocarbon and natural gas⁹ existing in its natural condition in strata; but
- 4637 (2) does not include coal or bituminous shales or other stratified deposits from which oil can be extracted by destructive distillation¹⁰.

This definition is applied for the purposes of the Oil and Pipelines Act 1985¹¹, the Offshore Safety Act 1992¹² and a number of statutory provisions dealing with taxation¹³. 'Petroleum' has also been expressly defined for the purposes of the Ministry of Fuel and Power Act 1945¹⁴.

Expressions cognate to 'petroleum' which have been defined in legislation include 'petroleum-spirit'¹⁵, 'petroleum oil'¹⁶, 'petroleum field'¹⁷ and 'petroleum products'¹⁸. 'Oil' has also been statutorily defined¹⁹.

1 *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 223, [1953] 1 All ER 451 at 455, PC. As to whether petroleum is a 'mineral' see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 13.

2 See *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 226, [1953] 1 All ER 451 at 456, PC.

3 As to the construction of instruments according to contemporary usage see DEEDS AND OTHER INSTRUMENTS vol 13 (2007 Reissue) PARA 207.

4 *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 223, [1953] 1 All ER 451 at 454-455, PC. Cf *Glasgow Corp'n v Farie* (1888) 13 App Cas 657 at 675, HL, per Lord Watson; and MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARAS 12-13.

5 *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 223, [1953] 1 All ER 451 at 454-455, PC.

6 *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 223, [1953] 1 All ER 451 at 454-455, PC. Thus eg the intention governs the extent, if any, to which 'petroleum' may include natural gas (defined in PARA 1627 post): *Borys v Canadian Pacific Rly Co* supra; and see *Barnard-Argue-Roth-Stearns Oil and Gas Co Ltd v Farquharson* [1912] AC 864, PC; *Knight Sugar Co Ltd v Alberta Rly and Irrigation Co* [1938] 1 All ER 266, PC. As to a mixture of petroleum oil and other substances see *LCC v Holzapfels Compositions Co* (1899) 68 LJQB 886.

7 *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 223, [1953] 1 All ER 451 at 454-455, PC. Cf *Commonwealth of Australia v Hazeldehl Ltd* [1921] 2 AC 373, PC.

8 Ie the Petroleum Act 1998 Pt I (ss 1-9): see PARA 1634 et seq post.

9 For the meaning of 'natural gas' see PARA 1627 post.

10 Petroleum Act 1998 s 1.

11 See the Oil and Pipelines Act 1985 s 6 (definition substituted by the Petroleum Act 1998 s 50, Sch 4 para 21).

12 See the Offshore Safety Act 1992 s 5(7) (definition amended by the Petroleum Act 1998 Sch 4 para 33(4)).

13 See eg the Taxation of Chargeable Gains Act 1992 s 196(5) (as substituted and amended); and OIL AND GAS TAXATION vol 78 (2010) PARA 457; the Income and Corporation Taxes Act 1988 s 837B (as added); and OIL AND GAS TAXATION vol 78 (2010) PARA 437.

14 For the purposes of the Ministry of Fuel and Power Act 1945 s 1(1) (as amended), which provides for the appointment and functions of the Minister of Fuel and Power (now the Secretary of State), 'petroleum' includes products of petroleum: s 6(1). As to petroleum products see further the text and note 18 infra; and as to the Secretary of State see PARA 601 note 1 ante.

15 In the Petroleum (Consolidation) Act 1928, 'petroleum-spirit' means petroleum which, when tested in accordance with EEC Commission Directive 92/69 (OJ L383, 29.12.92, p 113) Annex Pt A.9, has a flash point (as defined in Annex Pt A.9) of less than 21°C: Petroleum (Consolidation) Act 1928 s 23 (amended for these purposes by the Dangerous Substances and Explosive Atmospheres Regulations 2002, SI 2002/2776, reg 15(1), Sch 6, Pt 1, PARA 2(1), (5)). 'Petroleum-spirit' has the same meaning in the Prevention of Oil Pollution Act 1971: s 29(1).

16 See the London County Council (General Powers) Act 1912 s 4 (as amended).

17 In the National Minimum Wage Act 1998, 'petroleum field' is defined as a geological structure identified as an oil or gas field by the relevant Order in Council extending the provisions of the Act to offshore employment: see s 42(5). A similar definition appears in the Employment (Continental Shelf) Act 1978 s 2 (prospectively repealed by the Petroleum Act 1998 s 51, Sch 5 Pt I, as from a day to be appointed under s 52(2), (3); at the date at which this title states the law, no such day had been appointed); and the Employment Rights Act 1996 s 201(5) (prospectively repealed by the Petroleum Act 1998 ss 50, 51, Sch 4 para 40(3), Sch 5 Pt I as from a day to be appointed under s 52(2), (3); at the date at which this title states the law, no such day had been appointed).

18 See eg the Energy Act 1976 s 21; and PARA 603 note 4 ante.

19 In the Prevention of Oil Pollution Act 1971, 'oil' means oil of any description and includes spirit produced from oil of any description, and also includes coal tar: see s 29(1). A similar definition appears in the Merchant Shipping Act 1995: see s 151(1); and ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vol 45 (2010) PARAS 425, 428. See also eg the Oil Taxation Act 1975 ss 1(1), 12(1) (as amended); and OIL AND GAS TAXATION vol 78 (2010) PARA 301; the Income and Corporation Taxes Act 1988 s 502(1) (as amended); and OIL AND GAS TAXATION vol 78 (2010) PARA 418.

UPDATE

1626-1627 Meaning of 'petroleum' and cognate terms, Meaning of 'natural gas'

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(i) Scope and Definitions/1627. Meaning of 'natural gas'.

1627. Meaning of 'natural gas'.

The expression 'natural gas', like 'petroleum'¹, is not a definite term, and its meaning in a particular case is to be arrived at on similar principles². In some circumstances petroleum and natural gas may be taken to be separate substances, although they are both hydrocarbons and contain the same elements³.

'Natural gas' has been defined expressly for the purposes of certain statutes, for example the Gas Act 1965⁴ and the Energy Act 1976⁵.

1 As to the meaning of 'petroleum' see PARA 1626 ante.

2 *Borys v Canadian Pacific Rly Co* [1953] AC 217, [1953] 1 All ER 451, PC; *Barnard-Argue-Roth-Stearns Oil and Gas Co Ltd v Farquharson* [1912] AC 864, PC; and cf para 1626 the text and notes 1-7 ante. As to whether natural gas is a 'mineral' see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 13.

3 *Borys v Canadian Pacific Rly Co* [1953] AC 217, [1953] 1 All ER 451, PC; *Barnard-Argue-Roth-Stearns Oil and Gas Co Ltd v Farquharson* [1912] AC 864 at 869-870, PC; and see *Knight Sugar Co Ltd v Alberta Rly and Irrigation Co* [1938] 1 All ER 266, PC. As to natural gas in solution in liquid petroleum see *Borys v Canadian Pacific Rly Co* supra.

4 See PARA 983 note 3 ante.

5 See PARA 603 note 3 ante.

UPDATE

1626-1627 Meaning of 'petroleum' and cognate terms, Meaning of 'natural gas'

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/ (ii) Sources of Law/A. DOMESTIC LEGISLATION/1628. The principal legislation.

(ii) Sources of Law

A. DOMESTIC LEGISLATION

1628. The principal legislation.

The law within the scope of this part of this title¹ is contained chiefly in the Petroleum Act 1998, which consolidates provisions about petroleum, offshore installations and submarine pipelines previously contained in the Petroleum (Production) Act 1934, the Mineral Workings (Offshore Installations) Act 1971, the Petroleum and Submarine Pipelines Act 1975, the Oil and Gas (Enterprise) Act 1982, the Petroleum Act 1987, and certain provisions previously contained in other legislation, for example in the Continental Shelf Act 1964, the Territorial Sea Act 1987 and the Offshore Safety Act 1992. With certain exceptions², the Petroleum Act 1998 was brought into force on 15 July 1999³. Part I of that Act makes provision with regard to the ownership of petroleum, licensing of exploration and supplementary matters⁴; Part II deals with the application of the criminal and civil law to offshore activities⁵; Part III deals with submarine pipelines and certain offshore gas storage facilities⁶; Part IV makes provision with regard to the abandonment of offshore installations⁷; and Part V contains miscellaneous and general provisions⁸.

The Continental Shelf Act 1964, which came into effect on 15 April 1964 (being the date on which it was passed), provides for the exploration and exploitation of the continental shelf⁹. The extant provisions of that Act vest in the Crown any rights exercisable by the United Kingdom outside territorial waters with respect to the sea bed and subsoil and their natural resources, except in so far as they are exercisable in relation to coal¹⁰, and provide that Orders in Council may designate areas as areas in which the rights of the United Kingdom are exercisable under the Act¹¹. They make provision with regard to the safety of navigation in designated areas¹²; for extending, with appropriate modifications, the provisions of the Radioactive Substances Act 1993 to certain installations and waters¹³; with regard to damage to submarine pipelines¹⁴; and for the prosecution of offences¹⁵.

The Oil and Pipelines Act 1985, which was fully in force by 27 March 1986¹⁶, provides for the establishment and functions of the Oil and Pipelines Agency¹⁷. The Agency has the power among other things to enter into agreements for the carrying out of activities on behalf of the Crown in relation to petroleum, pipelines and storage installations held by or on behalf of the Crown. It can also buy, sell and otherwise deal in petroleum on its own account¹⁸.

The Offshore Safety Act 1992, which was in force for all relevant purposes by 30 November 1993¹⁹, extends the application of health and safety legislation to offshore installations²⁰, and empowers the Secretary of State to give directions for the purpose of preserving the safety of any offshore installation, onshore terminal or oil refinery to any person who is the operator of an offshore installation, onshore terminal or refinery²¹.

The safety of any drilling operations onshore is regulated by the Borehole Sites and Operations Regulations 1995²², made under the Health and Safety at Work etc Act 1974. Those regulations do not, however, apply to offshore installations or activities carried out from such installations²³.

¹ See PARA 1625 ante.

2 The exceptions are: (1) the Petroleum Act 1998 s 5(1)-(4), (11) (see PARA 1669 post) and s 52 (commencement provisions) which, as provided in s 52(1), came into force on the passing of the Act (ie 11 June 1998); and (2) Sch 4 paras 8, 10, 11, 13, 34 and 40 (amendments) and the repeals in Sch 5 of the Employment (Continental Shelf) Act 1978, of the Trade Union and Labour Relations (Consolidation) Act 1992 s 287(5) and of the Employment Rights Act 1996 s 201(5): see the Petroleum Act 1998 (Commencement No 1) Order 1999, SI 1999/161, art 2(2). At the date at which this title states the law, the provisions mentioned in head (2) *supra* and the repeals referred to in that head were not in force.

3 See *ibid* art 2(1).

4 See the Petroleum Act 1998 Pt I (ss 1-9); and PARA 1626 ante, PARA 1634 et seq post.

5 See *ibid* Pt II (ss 10-13) (as amended); and PARAS 1678-1679 post.

6 See *ibid* Pt III (ss 14-28) (as amended): see PARAS 1030-1032 ante, PARA 1740 et seq post.

7 See *ibid* Pt IV (ss 29-45); and PARA 1729 et seq post.

8 See *ibid* Pt V (ss 46-53); and PARAS 1629, 1767, 1770 post.

9 See the Continental Shelf Act 1964, long title. The Act applies to the United Kingdom: see *R v Jameson* [1896] 2 QB 425 at 430, DC, per Lord Russell of Killowen CJ; and STATUTES; and cf the Continental Shelf Act 1964 s 12, which was repealed by the Northern Ireland Constitution Act 1973 s 41(1), Sch 6 Pt I. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

10 See the Continental Shelf Act 1964 s 1(1); and PARA 1636 post.

11 See generally para 1636 post; and INTERNATIONAL RELATIONS LAW vol 61 (2010) PARA 172.

12 See the Continental Shelf Act 1964 s 4 (as amended); and WATER AND WATERWAYS vol 101 (2009) PARA 539.

13 See *ibid* s 7 (as amended); and PARA 1679 post.

14 See *ibid* s 8 (as amended); PARA 1766 post; and TELECOMMUNICATIONS vol 97 (2010) PARA 207.

15 See *ibid* s 11 (as amended). Proceedings for any offence under another Act as applied by or under the Continental Shelf Act 1964 may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom: s 11(1) (amended by the Oil and Gas (Enterprise) Act 1982 s 37, Sch 3 para 3). Where a body corporate is guilty of such an offence and the offence is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director, manager, secretary or other similar officer of the body corporate or any person who was purporting to act in any such capacity he, as well as the body corporate, is guilty of the offence and is liable to be proceeded against and punished accordingly; and for these purposes, 'director' in relation to a body corporate established for the purpose of carrying on under national ownership any industry or part of an industry or undertaking, being a body corporate whose affairs are managed by its members, means a member of that body corporate: Continental Shelf Act 1964 s 11(2).

16 See the Oil and Pipelines Act 1985 (Commencement) Order 1985, SI 1985/1748; and the British National Oil Corporation (Dissolution) Order 1986, SI 1986/585.

17 See the Oil and Pipelines Act 1985 ss 1, 3, 7 (as amended); and PARA 1771 et seq post.

18 See *ibid* s 2(1)(a), (d); and PARA 1778 et seq post.

19 Offshore Safety Act 1992 s 7; Offshore Safety Act 1992 (Commencement No 1) Order 1993, SI 1993/2406; Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, which came into force on 23 August 1993.

20 See the Offshore Safety Act 1992 ss 1-4 (as amended).

21 See *ibid* s 5 (as amended); and PARA 1681 post.

22 See the Borehole Sites and Operations Regulations 1995, SI 1995/2038 (as amended); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 744.

23 See *ibid* reg 3(1).

UPDATE

1628 The principal legislation

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/ (ii) Sources of Law/A. DOMESTIC LEGISLATION/1629. Powers and duties of the Secretary of State under the Petroleum Act 1998.

1629. Powers and duties of the Secretary of State under the Petroleum Act 1998.

Under the Petroleum Act 1998, the Secretary of State¹:

- 4638 (1) has the power to grant licences to search and bore for, and to get, petroleum²;
- 4639 (2) may make regulations prescribing certain matters with regard to licences³;
- 4640 (3) may make repayments of royalties for the purpose of facilitating development⁴;
- 4641 (4) may appoint officers to inspect the plans of any mines or abandoned mines near which it is proposed to search for petroleum⁵;
- 4642 (5) may grant authorisations for the construction and use of submarine pipelines⁶;
- 4643 (6) may require the owner of a controlled pipeline to modify it by increasing its capacity or installing a junction to connect another pipeline⁷;
- 4644 (7) may grant third party access to controlled petroleum pipelines⁸ and to certain other pipelines⁹;
- 4645 (8) may determine certain disputes regarding controlled petroleum pipelines subject to the Norwegian access system¹⁰;
- 4646 (9) may bring certain¹¹ criminal proceedings¹²;
- 4647 (10) may terminate authorisations¹³ and issue new authorisations with regard to pipelines vested in him¹⁴;
- 4648 (11) may appoint inspectors¹⁵;
- 4649 (12) has a duty to consult relevant organisations before making regulations about submarine pipelines¹⁶;
- 4650 (13) may designate a person as the owner of a submarine pipeline¹⁷;
- 4651 (14) may require the submission of an abandonment programme with respect to an offshore installation or submarine pipeline¹⁸ and may approve, reject, require revision of, or withdraw approval of such a programme¹⁹;
- 4652 (15) may require a person in default to take remedial action with regard to an abandonment programme²⁰;
- 4653 (16) may require information about a person's financial affairs before approving an abandonment programme²¹ and may make regulations relating to the abandonment of offshore installations and submarine pipelines²²; and
- 4654 (17) may make loans to oil companies for development²³.

The matters to which the Secretary of State may have regard, in exercising or performing the powers and duties so conferred or imposed on him, include, in particular:

- 4655 (a) activities in relevant waters²⁴ for or in connection with the generation²⁵ of electricity²⁶;
- 4656 (b) proposals made by a person to carry on such activities;
- 4657 (c) the proposals that it appears to the Secretary of State may be made in the future for the carrying on of such activities; and

4658 (d) the likelihood that activities will in due course be carried on in accordance with proposals falling within head (b) or head (c) above²⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 See the Petroleum Act 1998 s 3; and PARA 1639 post.

3 See *ibid* s 4; and PARAS 1639, 1767 note 2 post.

4 See *ibid* s 6; and PARA 1767 post.

5 See *ibid* s 8; and PARA 1638 post.

6 See *ibid* s 15 (as amended); and PARAS 1744-1748 post.

7 See *ibid* s 16 (as amended); and PARA 1749 post. For the meaning of 'controlled pipeline' see PARA 1740 note 6 post.

8 See *ibid* s 17F (as added and amended); and PARA 1751 post. For the meaning of 'controlled petroleum pipeline' see PARA 1750 note 6 post.

9 See *ibid* s 17 (as amended); and PARAS 1748-1750 post.

10 See *ibid* s 17GA (as added); and PARA 1752 post.

11 In criminal proceedings for relevant offences under *ibid* Pt III (ss 14-28) (as amended) or for certain offences under Pt IV (ss 29-45).

12 See *ibid* s 22; and PARA 1759 post; s 41; and PARA 1739 post.

13 See *ibid* s 18 (as amended); and PARAS 1753-1755 post.

14 See *ibid* s 19 (as amended); and PARA 1756 post.

15 See *ibid* s 20; and PARAS 1763-1764 post.

16 See *ibid* s 25(1); and PARA 1740 note 2 post.

17 See *ibid* s 27 (as amended); and PARA 1749 note 4 post.

18 See *ibid* ss 29-31; and PARAS 1729-1730 post.

19 See *ibid* ss 32-25; and PARAS 1731-1734 post.

20 See *ibid* s 37; and PARA 1736 post.

21 See *ibid* s 38; and PARA 1732 post.

22 See *ibid* s 39; and PARA 1738 post.

23 See *ibid* s 47; and PARA 1767 post.

24 For these purposes, 'relevant waters' means (1) waters in or adjacent to the United Kingdom up to the seaward limits of the territorial sea; or (2) waters in a renewable energy zone (within the meaning of the Energy Act 2004 Pt 2 Ch 2 (ss 84-104) (see PARA 1310 *et seq* ante)): Petroleum Act 1998 s 47A(3) (s 47A added by the Energy Act 2004 s 103(4)). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and for the meaning of 'renewable energy zone' for these purposes see PARA 1310 ante.

25 For the meaning of 'generation' see PARA 1041 note 7 ante (definition applied by the Petroleum Act 1998 s 47A(3) (as added: see note 24 *supra*)).

26 The reference in head (a) in the text to activities in connection with the generation of electricity in relevant waters includes: (1) the transmission, distribution and supply of the electricity generated; and (2) the doing of anything, whether by way of investigations, trials or feasibility studies or otherwise, with a view to ascertaining whether activities in relevant waters for or in connection with the generation of electricity are, in a particular case, practicable or commercially viable, or both: *ibid* s 47A(2) (as added: see note 24 *supra*). For the

meanings of 'distribution', 'transmission', 'supply' and cognate expressions see PARA 1041 notes 5-6, 10 ante (definitions applied by s 47A(3) (as so added)).

27 Ibid s 47A(1) (as added: see note 24 supra).

UPDATE

1629 Powers and duties of the Secretary of State under the Petroleum Act 1998

TEXT AND NOTE 27--Petroleum Act 1998 s 47A(1) amended, s 47A(2A) added: Energy Act 2008 Sch 1 para 12.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/ (ii) Sources of Law/B. EUROPEAN UNION LEGISLATION/1630. European Union legislation; in general.

B. EUROPEAN UNION LEGISLATION

1630. European Union legislation; in general.

The provisions of the EC Treaty against discrimination on grounds of nationality¹ and as to the rights of freedom of establishment and freedom to provide services² restrict the exercise of powers to license searching for and getting petroleum. The provisions on the abolition of customs duties³ and competition⁴ also have an impact on petroleum production; and the Community has instituted an energy policy as a stated task of the Community⁵. The Hydrocarbons Licensing Directive establishes common rules to ensure equal access to prospecting, exploration for and producing hydrocarbons for all companies with the necessary capabilities⁶; and a further Directive provides for member states to maintain minimum stocks of crude oil and petroleum products⁷. There are also measures on improving the health and safety of workers in the mineral-extracting industries through drilling⁸; on public procurement⁹; and relating to the quality of petrol and diesel fuels¹⁰.

European Directives with a more general application to energy matters are discussed in an earlier part of this title¹¹.

1 See the EC Treaty art 12.

2 See *ibid* arts 43-55.

3 See *ibid* art 23.

4 See *ibid* arts 81-89.

5 *Ibid* art 3(u).

6 See European Parliament and EC Council Directive 94/22 (OJ L164, 30.6.94, p 3) on the conditions for granting and using authorisations for the prospecting, exploration and production of hydrocarbons; the Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, implementing that Directive in domestic law; and PARAS 1639 note 3, 1641-1643, 1668 post.

7 See EC Council Directive 2006/67 (OJ L217, 8.8.2006, p 8) imposing an obligation on member states to maintain minimum stocks of crude oil and/or petroleum products; and PARA 1631 post.

8 See EEC Council Directive 92/91 (OJ L348, 28.11.92, p 9) (as amended) on minimum requirements for improving safety, health and protection of workers in the mineral-extracting industries through drilling.

9 See European Parliament and EC Council Directive 2004/17 (OJ L134, 30.4.2004, p 1) co-ordinating the procurement procedures of entities operating in the water, energy, transport and postal services sectors ('the Utilities Directive'). As to the implementation of the Utilities Directive in domestic law see the Utilities Contracts Regulations 2006, SI 2006/6; and PARA 643 et seq ante; but note that a utility carrying out one or more of the following activities, namely the exploitation of geographical areas for the purpose of exploring for or extracting oil or gas, is excluded from having to comply with many of the provisions of those regulations in seeking offers in relation to a contract to be awarded for the purpose of carrying out one or more such activities: see reg 8; and PARA 645 ante.

10 See European Parliament and EC Council Directive 98/7 (OJ L350, 28.12.98, p 58) relating to the quality of petrol and diesel fuels.

11 See PARA 631 et seq ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/ (ii) Sources of Law/B. EUROPEAN UNION LEGISLATION/1631. Requirements as to stocks of crude oil and petroleum products.

1631. Requirements as to stocks of crude oil and petroleum products.

Member states must adopt such laws, regulations or administrative provisions as may be appropriate in order to maintain within the Community at all times¹ their stocks of petroleum products² at a level corresponding, for each of the categories of petroleum products listed in heads (1) to (3) below, to at least 90 days average daily internal consumption in the preceding calendar year³. That part of internal consumption met by derivatives of petroleum produced indigenously by the member state concerned may be deducted up to a maximum of 25 per cent of that consumption; and the domestic distribution of the result of such a deduction is to be decided by the member state concerned⁴. The following categories of product are to be taken into account in calculating internal consumption:

- 4659 (1) motor spirit and aviation fuel (aviation spirit and jet-fuel of the gasoline type);
- 4660 (2) gas oil, diesel oil, kerosene and jet-fuel of the kerosene type;
- 4661 (3) fuel oils;

but bunker supplies for sea-going vessels are not to be included in the calculation of internal consumption⁵.

Stocks maintained in accordance with the above requirements must be fully at the disposal of member states should difficulties arise in obtaining oil supplies; and member states must ensure that they have the legal powers to control the use of stocks in such circumstances. At all other times, member states must ensure the availability and accessibility of those stocks and they must establish arrangements allowing for the identification, accounting and control of the stocks⁶. Member states must ensure that fair and non-discriminatory conditions apply in their stock-holding arrangements and the cost burden resulting from the maintenance of such stocks must be identified by transparent arrangements⁷. To fulfil these requirements, member states may decide to have recourse to a stock-holding body or entity which will be responsible for holding all or part of the stocks. Two or more member states may decide to have recourse to a joint stock-holding body or entity, in which case they are to be jointly responsible for the obligations deriving⁸ from the relevant European Directive⁹.

Member states must submit to the European Commission a statistical summary¹⁰ showing stocks existing at the end of each month and specifying the number of days of average consumption in the preceding calendar year which those stocks represent. This summary must be submitted at the latest by the twenty-fifth day of the second month after the month to be reported¹¹.

For the purposes of implementing the relevant Directive, stocks may be established, under agreements between governments¹², within the territory of a member state for the account of undertakings, or bodies or entities, established in another member state; and it is for the government of the member state concerned to decide whether to hold a part of its stocks outside its national territory¹³.

Member states must adopt all the necessary provisions and take all the necessary measures to ensure control and supervision of stocks and must put in place mechanisms to verify the stocks¹⁴. They must also determine the penalties applicable to breaches of the national

provisions adopted pursuant to the relevant Directive and must take any measure necessary to ensure the implementation of these provisions; and the penalties must be effective, proportionate and dissuasive¹⁵.

If difficulties arise with regard to Community oil supplies, the Commission must, at the request of any member state or on its own initiative, arrange a consultation between the member states¹⁶. Except in cases of particular urgency or in order to meet minor local needs, member states must refrain, prior to that consultation, from drawing on their stocks to any extent which would reduce those stocks to below the compulsory minimum level¹⁷. They must inform the Commission of any withdrawals from their reserve stocks and must communicate as soon as possible:

- 4662 (a) the date upon which stocks fell below the compulsory minimum;
- 4663 (b) the reasons for such withdrawals;
- 4664 (c) the measures, if any, taken to replenish stocks;
- 4665 (d) an appraisal, if possible, of the probable development of the situation with regard to the stocks while they remain below the compulsory minimum¹⁸.

The Commission must submit regularly to the Council of the European Union a report on the situation concerning stocks in the Community, including if appropriate a report on the need for harmonisation in order to ensure effective control and supervision of stocks¹⁹.

1 Ie subject to EC Council Directive 2006/67 (OJ L217, 8.8.2006, p 8) imposing an obligation on member states to maintain minimum stocks of crude oil and/or petroleum products, art 10: see the text and notes 16-18 infra.

2 Stocks required to be maintained by ibid art 1 may be maintained in the form of crude oil and intermediate products, as well as in the form of finished products: ibid art 5(1).

3 Ibid 1(1). A member state's stock-holding obligation is to be based on the previous calendar year's internal consumption: art 4(2). At the beginning of each calendar year, member states must recalculate their stock-holding obligation at the latest by 31 March in each year and ensure that they comply with their new obligations as soon as possible and, in any event, at the latest by 31 July in each year: art 4(2).

4 Ibid art 1(2).

5 Ibid art 2.

6 Ibid art 3(1).

7 Ibid art 3(2). In this context, member states may adopt measures to obtain appropriate information regarding the cost burden of stock-holding in accordance with art 1 and to make such information available to interested parties: art 3(2).

8 Ie deriving from EC Council Directive 2006/67 (OJ L217, 8.8.2006, p 8).

9 Ibid art 3(3).

10 Ie drawn up in accordance with ibid arts 5(2), (3), 6. In the statistical summary, stocks of jet-fuel of the kerosene type must be reported separately under the category referred to in art 2(b) (see head (2) in the text): art 4(3). In the statistical summary of stocks existing at the end of each month: (1) finished products must be accounted for according to their actual tonnage; (2) crude oil and intermediate products must be accounted for: (a) in the proportions of the quantities for each category of product obtained during the preceding calendar year from the refineries of the member state concerned; or (b) on the basis of the production programmes of the refineries of the member state concerned for the current year; or (c) on the basis of the ratio between the total quantity manufactured during the preceding calendar year in the member state concerned of products covered by the obligation to maintain stocks and the total amount of crude oil used during that year, up to a maximum of 40% of the total obligation for the first and second categories (petrol and gas oils), and up to a maximum of 50% for the third category (fuel oils): art 5(2). Blending components, when intended for processing into the finished products listed in art 2 (see heads (1)-(3) in the text), may be substituted for the products for which they are intended: art 5(3).

When the level of minimum stocks provided for in art 1 is calculated, only those quantities which would be held in accordance with art 3(1) must be included in the statistical summary: art 6(1). Subject to that, the following may be included in the stocks: (i) supplies on board oil tankers in port for the purpose of discharging, once the port formalities have been completed; (ii) supplies held in ports of discharge; (iii) supplies held in tanks at the entry to oil pipelines; (iv) supplies held in refinery tanks, excluding those supplies in pipes and refining plant; (v) supplies held in storage by refineries and by importing, storage or wholesale distribution firms; (vi) supplies held in storage by large-scale consumers in compliance with the provisions of national law concerning the obligation to maintain permanent stocks; (vii) supplies held in barges and coasting-vessels engaging in transport within national frontiers, on condition that it is possible for the competent authorities to keep a check on such supplies and provided that the supplies can be made available immediately: art 6(2). The following must, in particular, be excluded from the statistical summary: indigenous crude oil not yet extracted; supplies intended for the bunkers of sea-going vessels; supplies in direct transit apart from the stocks referred to in art 7(1) (see the text and notes 12-13 infra); supplies in pipelines, in road tankers and rail tank wagons, in the storage tanks of retail outlets, and those held by small consumers: art 6(3). Quantities held by the armed forces and those held for them by the oil companies must also be excluded from the statistical summary: art 6(3).

11 Ibid art 4(1).

12 Drafts of such agreements must be sent to the Commission, which may make its comments known to the governments concerned. The agreements, once concluded, must be notified to the Commission, which must make them known to the other member states. Agreements must satisfy the following conditions: (1) they must relate to crude oil and to all petroleum products covered by the relevant Directive; (2) they must lay down conditions and arrangements for the maintenance of stocks with the aim of safeguarding control and availability of those stocks; (3) they must specify the procedures for checking and identifying the stocks provided for, inter alia, the methods for carrying out and co-operating on inspections; (4) they must as a general rule be concluded for an unlimited period; (5) they must state that, where provision is made for unilateral termination, the latter is not to operate in the event of a supply crisis and that, in any event, the Commission is to receive prior information of any termination: *ibid* art 7(2).

13 Ibid art 7(1). The member state on whose territory the stocks are held under the framework of such an agreement must not oppose the transfer of those stocks to the other member states for the account of which stocks are held under that agreement; it must keep a check on such stocks in accordance with the procedures specified in that agreement but must not include them in its statistical summary. The member state on whose behalf the stocks are held may, however, include them in its statistical summary. Together with the statistical summary, each member state must send a report to the Commission concerning the stocks maintained within its own territory for the benefit of another member state, as well as the stocks held in other member states for its own benefit. In both cases, the storage locations and/or companies holding the stocks, quantities and product category (or crude oil) stored will be indicated in the report: art 7(1).

When stocks established under such agreements are not owned by the undertaking, or body/entity, which has an obligation to hold stocks, but are held at the disposal of that undertaking, or body/entity, by another undertaking, or body/entity, the following conditions must be met: (1) the beneficiary undertaking, or body/entity, must have the contractual right to acquire those stocks throughout the period of the contract; the methodology for establishing the price of such acquisition must be agreed between the parties concerned; (2) the minimum period of such a contract must be 90 days; (3) storage location and/or companies holding the stocks at the disposal of the beneficiary undertaking, or body/entity, as well as quantity and category of product, or crude oil, stored in that location must be specified; (4) the actual availability of the stocks for the beneficiary undertaking, or body/entity, must be guaranteed, at all times throughout the period of the contract, by the undertaking or body/entity holding the stocks at the disposal of the beneficiary undertaking, or body/entity; (5) the undertaking, or body/entity, holding the stocks at the disposal of the beneficiary undertaking, or body/entity, must be one which is subject to the jurisdiction of the member state on whose territory the stocks are situated in so far as the legal powers of that member state to control and verify the existence of the stocks are concerned: art 7(3).

14 Ibid art 8.

15 Ibid art 9.

16 Ibid art 10(1).

17 Ibid art 10(2).

18 Ibid art 10(3).

19 Ibid art 11.

UPDATE

1631 Requirements as to stocks of crude oil and petroleum products

TEXT AND NOTES--Directive 2006/67 replaced: EC Council Directive 2009/119 (OJ L265, 9.10.2009, p 9).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/ (ii) Sources of Law/C. INTERNATIONAL AGREEMENTS/1632. Relevant international agreements.

C. INTERNATIONAL AGREEMENTS

1632. Relevant international agreements.

The United Kingdom is a party to the Agreement on an International Energy Program¹ and is a participating country of the International Energy Agency, through which the programme is implemented². It is also a party to the Convention for the Protection of the Marine Environment of the North-east Atlantic, commonly called 'the OSPAR Convention'³, which came into force on 25 March 1998 and has been amended in July 1998, May 2002, February 2005 and May 2006. That Convention provides a comprehensive approach for addressing all sources of pollution which might affect the maritime area, as well as matters relating to the protection of the marine environment other than those relating to the prevention and elimination of pollution. The OSPAR Commission has adopted a number of binding decisions, in particular a decision prohibiting the disposal of offshore installations at sea⁴.

The United Kingdom has made a number of agreements with Norway providing for the exploitation of specific reservoirs in the continental shelf⁵. It has also made two framework agreements with Norway: the 1998 Framework Agreement on Inter-connecting Submarine Pipelines⁶ and the more comprehensive 2005 Framework Agreement concerning Cross-boundary Petroleum Co-operation⁷.

1 The Agreement on an International Energy Program (Paris, 18 November 1974; TS 111 (1976); Cmnds 5826, 6697). The agreement provides for the maintenance of emergency reserves in order to establish a common emergency self-sufficiency in oil supplies (arts 2-4, Annex), for the preparation of programmes of contingency measures to restrain oil demand in the countries concerned in an emergency (art 5); the allocation of oil between those countries in an emergency (arts 6-11); the activation and deactivation of the emergency provisions (arts 12-24); the establishment of an information system on the international oil market (arts 25-36); the establishment of a framework for consultation with oil companies (arts 37-40); long-term co-operation on energy (arts 41-43); relations with producer countries and other consumer countries (arts 44-48); and the constitution of the International Energy Agency and various other matters (arts 49-76). For legislation implementing the obligations of the United Kingdom as a party to this agreement see the Energy Act 1976 s 3; and PARA 605 ante.

2 See the Agreement on an International Energy Program, and note 2 supra; and the Decision of the Council of the Organisation for Economic Co-operation and Development (OECD) (Paris, 15 November 1974; Misc 4 (1975); Cmnd 5826). As to the OECD see further INTERNATIONAL RELATIONS LAW.

3 See the Convention for the Protection of the Marine Environment of the North-east Atlantic (Paris, September 1992).

4 See OSPAR Decision 98/3.

5 See eg the Agreement between the Government of the United Kingdom and the Government of the Kingdom of Norway relating to the Exploitation of the Frigg Field Reservoir and the Use of Installations and Pipelines for the Exploitation and Transmission of Hydrocarbons (London, 10 May 1976; TS 113 (1977); Cmnd 7043; (revised 1998; Cm 4583).

6 See the Framework Agreement between the Government of the United Kingdom and the Government of the Kingdom of Norway relating to the Laying, Operation and Jurisdiction of Inter-connecting Pipelines (Stavanger, 25 August 1998; TS 9 (2003); Cm 5672).

7 See the Framework Agreement between the Government of the United Kingdom and the Government of the Kingdom of Norway concerning Cross-boundary Petroleum Co-operation (Oslo, 4 April 2005; Cm 6792). See

also the Petroleum Act 1998 s 17GA, 17GB (added by the Petroleum Act 1998 (Third Party Access) Order 2007, SI 2007/290, art 2, Schedule para 2); and PARA 1752 post.

UPDATE

1632 Relevant international agreements

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/ (ii) Sources of Law/C. INTERNATIONAL AGREEMENTS/1633. Power to modify the Petroleum Act 1998 to give effect to international agreements.

1633. Power to modify the Petroleum Act 1998 to give effect to international agreements.

Her Majesty may by Order in Council¹ make any modifications² of the Petroleum Act 1998 that Her Majesty considers appropriate for the purpose of securing that effect is given to an international agreement³, whenever entered into, which relates in whole or in part to the construction⁴, operation, use, decommissioning or abandonment of a pipeline⁵ or offshore installation⁶. This power to modify the 1998 Act includes:

- 4666 (1) power to provide for provision made by or under that Act to have effect, with or without modifications, in relation to a foreign area⁷;
- 4667 (2) power to provide for provisions of that Act having effect, with or without modifications, in relation to a foreign area, so far as they apply to individuals, to apply to them whether or not they are British citizens;
- 4668 (3) power to provide for provisions of that Act having effect, with or without modifications, in relation to a foreign area, so far as they apply to bodies corporate, to apply to them whether or not they are incorporated under the law of a part of the United Kingdom; and
- 4669 (4) power to provide for modifications of that Act to come into force before the coming into force of the international agreement to which they relate⁸.

An Order in Council under these provisions may:

- 4670 (a) modify powers under the Petroleum Act 1998 to make subordinate legislation⁹;
- 4671 (b) make provision for a reference in a modification made by the order to a specified document¹⁰ to operate as a reference to that document as revised or reissued from time to time; and
- 4672 (c) provide for the delegation of powers exercisable by virtue of modifications made by the order¹¹.

The Petroleum Act 1998 (Third Party Access) Order 2007¹², which is made under these powers, makes new provision with regard to controlled petroleum pipelines subject to the Norwegian access system¹³ and makes consequential amendments to the 1998 Act¹⁴.

1 The power to make an Order in Council containing provision authorised by the Energy Act 2004 s 189 (see the text and notes 2-10 infra) is subject to the affirmative resolution procedure: s 189(5). As to the affirmative resolution procedure see PARA 754 note 17 ante.

2 For the meaning of 'modification' see PARA 733 note 8 ante.

3 For these purposes, 'international agreement' means (1) any international treaty, convention or protocol to which the United Kingdom is a party; or (2) any other agreement between the United Kingdom and another country or territory: Energy Act 2004 s 189(6). As to such agreements see PARA 1632 ante; and for the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 For these purposes, 'construction' has the same meaning as in the Petroleum Act 1998 Pt III (ss 14-28) (as amended) (see s 28(1); and PARA 1740 note 4 post): Energy Act 2004 s 189(6).

5 For these purposes, 'pipeline' has the same meaning as in the Petroleum Act 1998 Pt III (as amended) (see s 26; and PARA 1741 post): Energy Act 2004 s 189(6).

6 Ibid s 189(1), (2). For these purposes, 'offshore installation' has the same meaning as in the Petroleum Act 1998 Pt IV (ss 29-45) (see PARA 1729 note 4 post): Energy Act 2004 s 189(6).

7 'Foreign area' means an area which is not within any of the following: (1) the United Kingdom; (2) the territorial sea adjacent to the United Kingdom; or (3) an area designated under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 post): Energy Act 2004 s 189(6). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

8 Ibid s 189(3).

9 For the meaning of 'subordinate legislation' see PARA 748 note 10 ante.

10 For the meaning of 'document' see PARA 733 note 4 ante.

11 Energy Act 2004 s 189(4).

12 Ie the Petroleum Act 1998 (Third Party Access) Order 2007, SI 2007/290, which came into force on 8 February 2007: see art 1.

13 See the Petroleum Act 1998 s 17GA, 17GB (added by the Petroleum Act 1998 (Third Party Access) Order 2007, SI 2007/290, art 2, Schedule para 2); and PARA 1752 post.

14 See ibid Schedule paras 1, 3, 4; and PARA 1032 ante, PARA 1751 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(iii) Ownership of Petroleum and Rights of Action/1634. Rights to petroleum in Great Britain.

(iii) Ownership of Petroleum and Rights of Action

1634. Rights to petroleum in Great Britain.

The exclusive right of searching and boring for and getting petroleum¹ existing in its natural condition in strata in Great Britain², including that beneath the territorial sea adjacent to the United Kingdom³, is vested by statute in the Crown⁴.

1 For the meaning of 'petroleum' for this purpose see PARA 1626 ante.

2 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

3 As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

4 Petroleum Act 1998 s 2(1), (2). This provision also applies to petroleum in crown land (s 2(1)); and for these purposes 'Crown land' means land which (1) belongs to Her Majesty or the Duchy of Cornwall; (2) belongs to a government department; or (3) or is held on trust for Her Majesty for the purposes of a government department: s 2(3). Nothing in s 2, however, is to taken to prejudice any right conferred by any licence granted under the Petroleum (Production) Act 1934 s 2 (repealed) which was in force immediately before 15 February 1999 (ie the commencement of the Petroleum Act 1998: see PARA 1628 the text and notes 2-3 ante) so long as the licence remains in force: see s 2(4), Sch 3 paras 3, 4. Furthermore, so long as the licence granted on 26 March 1923 under the Petroleum (Production) Act 1918 (repealed) to the Duke of Devonshire relating to an area near Hardstoft in the county of Derbyshire remains in force, the Petroleum Act 1998 s 2 does not apply to petroleum which at the commencement of the Petroleum (Production) Act 1934 (repealed) might lawfully be got under that licence: see the Petroleum Act 1998 Sch 3 paras 5(1), (3). As to licensing in connection with petroleum see PARA 1639 et seq post.

Rights to any oil or natural gas situated outside territorial waters which had been included in a mineral grant previously made by the Crown were revested in the Crown by the Continental Shelf Act 1964: see the Continental Shelf Act 1964 s 1(1); para 1636 post; and *Earl of Lonsdale v A-G* [1982] 3 All ER 579, [1982] 1 WLR 887, per curiam. As to property rights generally in mines and minerals see MINES, MINERALS AND QUARRIES. As to property rights in relation to fugacious elements, including oils and gases, see further *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 229, [1953] 1 All ER 451 at 458, PC.

UPDATE

1634 Rights to petroleum in Great Britain

NOTE 4--For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum (Production) Act 1934 s 2, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(iii) Ownership of Petroleum and Rights of Action/1635. Savings.

1635. Savings.

Nothing in Part I of the Petroleum Act 1998¹ is to be construed as:

- 4673 (1) imposing any liability on any person where in the course of mining or other lawful operations² petroleum³ is set free⁴; or
- 4674 (2) conferring, or enabling the Secretary of State⁵ to confer, on any person, whether acting on behalf of the Crown or not, any right which he does not otherwise enjoy to enter on or interfere with land⁶.

1 The Petroleum Act 1998 Pt I (ss 1-9): see PARA 1626 ante; the text and notes 2-6 infra; and PARA 1638 et seq post.

2 For a definition of 'mining operations' see TOWN AND COUNTRY PLANNING vol 46(1) (Reissue) PARA 220.

3 For the meaning of 'petroleum' for this purpose see PARA 1626 ante.

4 Petroleum Act 1998 s 9(1).

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Petroleum Act 1998 s 9(2). As to rights to interfere with land see eg MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 130 et seq (right to withdraw support); and cf *Borys v Canadian Pacific Rly Co* [1953] AC 217 at 228, [1953] 1 All ER 451 at 458, PC.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(iii) Ownership of Petroleum and Rights of Action/1636. Petroleum in the continental shelf.

1636. Petroleum in the continental shelf.

Any rights exercisable by the United Kingdom¹ outside territorial waters² with respect to the sea bed and subsoil and their natural resources³, but excepting coal⁴, are vested by statute in the Crown⁵.

The Crown may, by Order in Council, designate areas, known as 'designated areas', within which these rights are to be exercisable. This includes the power to revoke such Orders for the purpose of consolidating them⁶.

1 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 As to the nature and extent of the rights referred to, and as to territorial waters generally, see INTERNATIONAL RELATIONS LAW.

3 The Continental Shelf Act 1964 does not define 'natural resources'.

4 For provisions as to coal in the continental shelf see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 26.

5 Continental Shelf Act 1964 s 1(1). The Continental Shelf Act 1964 was enacted consequent upon the United Kingdom becoming a party to the Convention on the Continental Shelf (Geneva, 29 April to 31 October 1958; TS 39 (1964); Cmnd 2422), but does not refer to the convention. See further INTERNATIONAL RELATIONS LAW.

6 Continental Shelf Act 1964 s 1(7) (amended by the Oil and Gas (Enterprise) Act 1982 s 37(1), Sch 3 para 1); see also PARA 1639 post.

The following orders have been made under this provision: the Continental Shelf (Designated Areas) (Extended Territorial Sea) Order 1987, SI 1987/1265; the Continental Shelf (Designation of Areas) (Consolidation) Order 2000, SI 2000/3062; and the Continental Shelf (Designation of Areas) Order 2001, SI 2001/3670.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(iii) Ownership of Petroleum and Rights of Action/1637. Civil liability for breach of statutory duty.

1637. Civil liability for breach of statutory duty.

Breach of a duty imposed on any person by regulations made under Part III of the Petroleum Act 1998¹ which state that this provision applies to such a breach are to be actionable so far, and only so far, as the breach causes personal injury²; but this does not prejudice any claim which otherwise lies³. Any such regulations as are mentioned above bind the Crown, and references in those regulations to employees include for those purposes persons in the service of the Crown; but nothing in this provision:

- 4675 (1) confers any right of action on a person as a member of the armed forces of the Crown; or
- 4676 (2) authorises proceedings against Her Majesty in her private capacity or in right of the Duchy of Lancaster or against the Duke of Cornwall⁴.

A defence to a charge of an offence created by the regulations which is available by virtue of the relevant statutory provision⁵ is not a defence in any civil proceedings, whether they are brought by virtue of the above provisions or otherwise⁶.

Similar provision is made with respect to breach of a duty imposed on any person by any provision of regulations made under the Mineral Workings (Offshore Installations) Act 1971 which expressly applies the relevant provision⁷ of that Act⁸.

Except so far as Part III of the Petroleum Act 1998 otherwise expressly provides, nothing in that Part of that Act:

- 4677 (a) confers a right of action in any civil proceedings, other than proceedings for recovery of a fine, in respect of any contravention⁹ of it or an order or regulations made under it;
- 4678 (b) affects any restriction imposed by or under any other enactment¹⁰, whether public, local or private; or
- 4679 (c) derogates from any right of action or other remedy, whether civil or criminal, in proceedings instituted otherwise than under that 1998 Act¹¹.

1 Ie under the Petroleum Act 1998 Pt III (ss 14-28) (as amended): see PARAS 1030-1032 ante, PARA 1740 et seq post. The reference in the text to regulations made under Pt III (as amended) includes a reference to regulations made under the Petroleum and Submarine Pipelines Act 1975 s 26 (repealed) which were in force immediately before 15 February 1999 (ie the commencement of the Petroleum Act 1998: see PARA 1628 the text and notes 2-3 ante) (Sch 3 para 9(3)) and the repeal of the Petroleum and Submarine Pipelines Act 1975 Pt III does not affect any instrument to the extent that, immediately before 15 February 1999, it applied s 26 (repealed) (Petroleum Act 1998 Sch 3 para 10).

2 Ibid s 23(1). For these purposes, 'personal injury' includes any disease, any impairment of a person's physical or mental condition and any fatal injury: s 23(6). References in the Fatal Accidents Act 1976 (or, in the case of a death before 1 September 1976, the Fatal Accidents Act 1846) to a wrongful act, neglect or include references to any such breach which is so actionable: Petroleum Act 1998 s 23(2), Sch 3 para 13.

3 Ibid s 23(3).

4 Ibid s 23(5).

5 le by virtue of *ibid* s 25(3)(c): see PARA 1740 note 2 post.

6 *Ibid* s 23(4).

7 le which expressly applies the Mineral Workings (Offshore Installations) Act 1971 s 11 (as amended).

8 See *ibid* s 11(1)(b), (2)-(4), (7). Section 7(1), (2), which conferred power to make regulations under the 1971 Act, is now repealed.

9 Any reference in the Petroleum Act 1998 Pt III (as amended) to a contravention of a provision of that Part or regulations made or directions given under that Part includes a reference to a failure to comply with that provision: s 28(3).

10 'Enactment' includes an enactment of the Parliament of Northern Ireland or of the Northern Ireland Assembly: *ibid* s 28(1).

11 *Ibid* s 28(6). Section 28(6) is subject to the Interpretation Act 1978 s 18 (duplicated offences: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1272); Petroleum Act 1998 s 28(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(1) INTRODUCTION/(iii) Ownership of Petroleum and Rights of Action/1638. Power to inspect plans of mines.

1638. Power to inspect plans of mines.

For the purpose of ascertaining on behalf of the Secretary of State¹ the position of the workings, actual and prospective, of any mines² or abandoned mines³ through or near which it is proposed to sink any borehole for the purpose of searching for or getting petroleum⁴, any officer appointed by the Secretary of State has the same powers with respect to the production and inspection, and the taking of copies, of relevant documents⁵ as may be exercised by an inspector⁶ under the Health and Safety at Work etc Act 1974⁷ acting for the relevant purpose⁸ of that 1974 Act⁹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'mine' see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 5.

3 As to abandoned mines see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 530.

4 For the meaning of 'petroleum' for this purpose see PARA 1626 ante.

5 For these purposes, 'relevant documents' means plans, sections, drawings or other similar documents which, by virtue of the Health and Safety at Work etc Act 1974 Sch 3 para 16 (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 424) are required to be kept: Petroleum Act 1998 s 8(3)(a).

6 For these purposes, 'an inspector' means an inspector appointed under the Health and Safety at Work etc Act 1974 s 19 (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375): Petroleum Act 1998 s 8(3)(b). For these purposes, the Health and Safety at Work etc Act 1974 s 19(2), (3) is to be disregarded: Petroleum Act 1998 s 8(3)(c).

7 Ie under the Health and Safety at Work etc Act 1974 s 20 (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376.

8 Ie for the purpose mentioned in ibid s 20(1): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 376.

9 Petroleum Act 1998 s 8(1).

UPDATE

1638-1639 Power to inspect plans of mines, Power to grant licences to search for and get petroleum

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(i) The Award of Licences/1639. Power to grant licences to search for and get petroleum.

(2) LICENSING

(i) The Award of Licences

1639. Power to grant licences to search for and get petroleum.

On behalf of the Crown¹, the Secretary of State² has power to grant to such persons as he thinks fit³ licences⁴ to search and bore for, and get, petroleum⁵ in Great Britain⁶ under territorial waters or in designated areas⁷. Such licences are granted for such consideration, whether by way of royalty⁸ or otherwise⁹, as the Secretary of State with Treasury consent may determine, and upon such other terms and conditions as the Secretary of State thinks fit¹⁰. The Secretary of State must make regulations¹¹ prescribing:

- 4680 (1) the manner in which and the persons by whom applications for licences under Part I of the Petroleum Act 1998¹² may be made¹³;
- 4681 (2) the information to be included in or provided in connection with any such application¹⁴;
- 4682 (3) the fees to be paid on any such application¹⁵;
- 4683 (4) the conditions as to the size and shape of areas in respect of which licences may be granted¹⁶;
- 4684 (5) model clauses which must, unless he thinks fit to modify or exclude them in any particular case, be incorporated in any such licence¹⁷.

Different regulations may be made for different kinds of licence¹⁸.

As soon as practicable after granting a licence, the Secretary of State must publish notice of the fact in the London Gazette stating the name of the licensee and the situation of the area in respect of which the licence has been granted¹⁹.

The issue of an authorisation with regard to submarine pipelines²⁰ is to be deemed not to derogate from a licence granted under the above provisions which is for the time being in force²¹.

1 As to the Crown's right of property in petroleum see PARA 1634 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 The discretion of the Secretary of State is limited by requirements of the EC Treaty as to non-discrimination on grounds of nationality (see art 12) and the provisions on the right of establishment and freedom to provide services and goods (see arts 43-55) which have direct effect in English law: see PARA 1630 ante. See also European Parliament and EC Council Directive 94/22 (OJ L164, 30.6.94, p 3) on the conditions for granting and using authorisations for the prospecting, exploration and production of hydrocarbons; the Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, implementing that Directive in domestic law; and PARAS 1641-1643, 1668 post. Under that Directive, member states retain the right to determine the areas within their territory to be made available for the exercise of the activities of prospecting, exploring for and producing hydrocarbons (European Parliament and EC Council Directive 94/22 (OJ L164, 30.6.94, p 3) art 2(1)) but whenever an area is made available for the exercise of those activities, member states must ensure that there is no discrimination between entities as regards access to and exercise of these activities (art 2(2)). Member states may, however, refuse on grounds of national security to allow access to and exercise of those activities to any entity which is effectively controlled by third countries or third country nationals: art 2(2).

In consequence of the provision made or authorised to be made by the Offshore Safety Act 1992 s 1 (as amended) (see PARA 1677 post), any functions of the Secretary of State under a licence granted under the Petroleum Act 1998, or any of his functions under s 3, may be exercised without regard to safety considerations and nothing done in the exercise of any such functions prejudices or affects the operation of the relevant statutory provisions within the meaning of the Health and Safety at Work etc Act 1974 Pt I (ss 1-54) (as amended) (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 420 et seq) or any requirements imposed under those provisions: Offshore Safety Act 1992 s 3(2), (4) (amended by the Petroleum Act 1998 s 50, Sch 4 para 33(3)).

4 As to mining licences generally see MINES, MINERALS AND QUARRIES vol 31 (2003 (Reissue) PARA 349 et seq.

5 The petroleum to which the Petroleum Act 1998 s 2 applies (see PARA 1634 ante) and petroleum with respect to which rights vested in Her Majesty under the Continental Shelf Act 1964 s 1(1) (exploration and exploitation of continental shelf) are exercisable: see the Petroleum Act 1998 s 3(2). For the meaning of 'petroleum' see PARA 1402 ante.

6 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

7 Petroleum Act 1998 s 3(1), (2); Continental Shelf Act 1964 s 1(7) (amended by the Oil and Gas (Enterprise) Act 1982 s 37(1), Sch 3 para 1). Nothing in the Petroleum Act 1998 s 3 is to be taken to prejudice any right conferred by any licence granted under the Petroleum (Production) Act 1934 s 2 (repealed) which is in force immediately before 15 February 1999 (ie the commencement of the Petroleum Act 1998: see PARA 1628 the text and notes 2-3 ante) so long as the licence remains in force: s 3(4), Sch 3 para 4. The licence granted on 26 March 1923 under the Petroleum (Production) Act 1918 (repealed) to the Duke of Devonshire relating to an area near Hardstoft in the county of Derbyshire has effect, if in force immediately before 15 February 1999, as if granted under the Petroleum Act 1998: Sch 3 para 5(1), (2).

8 For the meaning of 'royalty' see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 334. At the date at which this title states the law, royalties are not payable under such licences: see Department of Trade and Industry Press Release, 17 November 2002.

9 Eg non-recurrent fees and area rentals.

10 Petroleum Act 1998 s 3(3).

11 Any such regulations must be made by statutory instrument subject to annulment in pursuance of a resolution of either House of Parliament: *ibid* s 4(3). In the exercise of his power under s 4 the Secretary of State has made the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended), which came into force on 5 March 2004: reg 1. See PARAS 1669-1674 post. In addition, by virtue of the Petroleum Act 1998 s 49, Sch 3 Pt I para 1(2), the following regulations have effect as if so made: (1) the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213 (as amended) (see PARAS 1640-1662 post); (2) the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436 (see PARAS 1640, 1663-1665, 1675-1676 post).

12 The under the Petroleum Act 1998 Pt I (ss 1-9): see PARAS 1626, 1634-1635, 1638 ante; the text and notes 1-11 supra, 13-21 infra; and PARAS 1669, 1666, 1743, 1767 note 2 post.

13 *Ibid* s 4(1)(a). As to applications for licences see PARA 1641 post.

14 *Ibid* s 4(1)(b).

15 *Ibid* s 4(1)(c).

16 *Ibid* s 4(1)(d).

17 *Ibid* s 4(1)(e). As to model clauses see PARA 1669 et seq post.

18 *Ibid* s 4(2).

19 *Ibid* s 4(4). If that area or any part of it is in Scotland, the Secretary of State must also publish the notice in the Edinburgh Gazette: s 4(4).

20 The an authorisation within the meaning of *ibid* Pt III (ss 14-28) (as amended): see ss 14, 28(1); and 1743 note 7 post.

21 *Ibid* s 9(3).

UPDATE

1638-1639 Power to inspect plans of mines, Power to grant licences to search for and get petroleum

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

1639 Power to grant licences to search for and get petroleum

TEXT AND NOTES 1-10--If (1) a person is (or two or more persons are) the licensee in respect of a licence under the Petroleum (Production) Act 1934 s 2 or the Petroleum Act 1998 s 3 ('the transferor'), (2) the transferor transfers a right granted by the licence, or derived from a right so granted, to another person ('the transferee') after commencement in circumstances where the consent of the Secretary of State is required for the transfer, and (3) that consent is not obtained, the Secretary of State may, by notice given to the transferor and the transferee, direct that the right is to revert to the transferor from a date specified in the notice: Petroleum Act 1998 s 5A(1), (2) (ss 5A-5C added by Energy Act 2008 s 76). 'Transfer' does not include a transfer by way of security for a loan; and 'commencement' means the time when s 5A comes into force (ie 26 January 2009: see SI 2009/45): Petroleum Act 1998 s 5A(6). The date specified must not be earlier than the date on which the notice is given: s 5A(3). Before giving a notice to a person under s 5A(2), the Secretary of State must (a) notify the person of the proposal to give the notice, and (b) give the person a reasonable period within which to make written representations: s 5A(4). The Secretary of State may not give a notice under s 5A(2) after the end of the period of three months beginning with the date on which the Secretary of State learns of the transfer: s 5A(5).

The Commissioners for Her Majesty's Revenue and Customs may disclose to the Secretary of State information relating to the transfer of a right granted by a licence under the Petroleum (Production) Act 1934 s 2 or the Petroleum Act 1998 s 3, or derived from a right so granted, for the purpose of enabling the Secretary of State to determine whether a transfer to which s 5A applies has taken place: Petroleum Act 1998 s 5B(1). Section 5B applies despite any statutory or other restriction on the disclosure of information: s 5B(2). Information disclosed under s 5B must not be further disclosed except (i) for the purpose mentioned in s 5B(1), with the consent (which may be general or specific) of the Commissioners, (ii) in pursuance of an order of a court, or (iii) with the consent of each person to whom the information relates: s 5B(3). A person who discloses information contrary to s 5B(3) commits an offence if the identity of the person to whom the information relates is specified in the disclosure, or can be deduced from it: s 5B(4). It is a defence for a person charged with an offence under s 5B to prove that the person reasonably believed that (A) the disclosure was lawful, or (B) the information had already and lawfully been made available to the public: s 5B(5). A person guilty of an offence under s 5B is liable on summary conviction, to imprisonment for a term not exceeding 12 months or to a fine not exceeding the statutory maximum, or both, and on conviction on indictment, to imprisonment for a term not exceeding two years or to a fine, or both: s 5B(6). As to the statutory maximum see PARA 689. Supplemental provision with respect to offences under s 5B is made: see Petroleum Act 1998 s 5C.

See also Energy Act 2008 s 15 and PARA 1032B.4.

See also Petroleum Act 1998 s 45A (added by Energy Act 2008 s 75) (information about decommissioning of wells).

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 s 3 or the Petroleum (Production) Act 1934 s 2, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

NOTE 11--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283); and the Offshore Exploration (Petroleum, and Gas Storage and Unloading) (Model Clauses) Regulations 2009, SI 2009/2814.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(i) The Award of Licences/1640. Seaward and landward areas; frontier areas.

1640. Seaward and landward areas; frontier areas.

Two distinct kinds of licensing areas are defined by regulations made under the Petroleum (Production) Act 1934¹:

4685 (1) regulations are made in relation to licences:

443

649. (a) to search and bore for, and get, petroleum² in strata in seaward areas, that is to say the islands on the seaward side of specified lines³, in the sea bed and subsoil beneath waters which lie on the seaward side of the appropriate lines of demarcation, and within the outward limit of territorial waters of the United Kingdom⁴, and in the sea bed and subsoil within any area designated by the Continental Shelf Act 1964⁵; and

650. (b) to search for petroleum in strata in the landward areas below the low-water line, that is to say areas of Great Britain⁶ and beneath the waters adjacent thereto which lie in the landward areas between the lines referred to above and the low-water line⁷;

444

4686 (2) regulations are made in relation to licences to search and bore for, and get, petroleum in strata in landward areas, that is to say the areas of Great Britain and beneath the waters adjacent thereto which lie on the landward side of specified lines⁸.

Regulations prescribing model clauses in exploration licences⁹, production licences¹⁰ and petroleum exploration and development licences¹¹ for the purposes of the Petroleum Act 1998¹² make different provision with regard to landward and seaward areas¹³ and, additionally, with regard to certain seaward areas that are regarded as frontier areas¹⁴.

1 Ie regulations made under the Petroleum (Production) Act 1934 s 6 (repealed) but now having effect as if made under the Petroleum Act 1998 s 4: see PARA 1639 ante.

2 For the meaning of 'petroleum' see PARA 1626 ante.

3 Ie lines drawn in accordance with the detailed provisions of the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 3(1)(a), Sch 1 (both amended by SI 1992/2378).

4 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 3(1)(a) (as amended: see note 3 supra). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3. For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

5 Ie the Continental Shelf Act 1964 s 1(7) (as amended): see PARA 1636 ante.

6 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

7 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 3(1)(b).

8 Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 3(1). The lines referred to are those drawn in accordance with the detailed provisions of Sch 1.

9 'Exploration licence' means a licence to search for petroleum in any seaward area and in those parts of any landward area which are below the low-water line: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 2.

10 'Production licence' means a licence to search and bore for, and get, petroleum in strata, in the sea bed and in the subsoil in a seaward area: *ibid* reg 2.

11 'Petroleum exploration and development licence' means a licence to search and bore for, and get, petroleum in a landward area: *ibid* reg 2.

12 *le* for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante.

13 For these purposes, 'landward area' means an area on the landward side of the baselines as set out in the Territorial Waters Order in Council 1964 (as amended) (which enables the baseline from which the outer territorial limit is measured to be drawn across the mouths of bays in accordance with public international law: see INTERNATIONAL RELATIONS LAW vol 61 (2010) PARA 125); and 'seaward area' means an area on the seaward side of the baselines as set out in the Territorial Waters Order in Council 1964 (as amended) in respect of which the Secretary of State may grant a licence pursuant to the Petroleum Act 1998 Pt I (ss 1-9) (see PARAS 1626, 1634-1635, 1638-1639 ante, PARAS 1669, 1666, 1743, 1767 note 2 post): see the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 2.

14 See PARAS 1671-1672 post. 'Frontier area' means an area whose exploitation is rendered especially difficult by any one or more of the following factors, namely (1) its distance from existing petroleum-related infrastructure; (2) great water depth; or (3) the lack of existing pertinent technical data relating to such area: *ibid* reg 2.

UPDATE

1640 Seaward and landward areas; frontier areas

TEXT AND NOTES--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283); and the Offshore Exploration (Petroleum, and Gas Storage and Unloading) (Model Clauses) Regulations 2009, SI 2009/2814.

NOTE 13--Now, 'landward area' has the meaning given by the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 3(1) (see PARA 1640): SI 2004/352 reg 2 (amended by SI 2009/3283).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(i) The Award of Licences/1641. Licence applications generally.

1641. Licence applications generally.

With certain exceptions¹, licences are awarded on a competitive basis following publication in the Official Journal of a notice by the Secretary of State² inviting applications³. Any such notice must set out the criteria to be applied in determining those applications⁴. Every application for a licence⁵ must be determined on the basis of criteria concerning:

- 4687 (1) the technical and financial capability of the applicant⁶;
- 4688 (2) the way in which the applicant proposes to carry out the activities that would be permitted by the licence;
- 4689 (3) in a case where tenders are invited, the price the applicant is prepared to pay in order to obtain the licence; and
- 4690 (4) where the applicant holds, or has held, a licence of any description under the Petroleum (Production) Act 1934 (repealed) or the Petroleum Act 1998, any lack of efficiency and responsibility displayed by the applicant in operations under that licence,

and the Secretary of State may refuse an application for a licence⁷. In a case where two or more applications for a licence have equal merit when assessed according to the criteria provided for in heads (1) to (4) above, other relevant criteria may be applied in order to determine which application should be granted⁸. The Secretary of State must not apply any of the prescribed criteria⁹ in a discriminatory manner¹⁰; but an application for a licence may be refused on grounds of national security where the applicant is effectively controlled by, or by nationals of, a state other than a member state¹¹.

Where an application for a licence is refused, the reasons for the decision must be notified to the applicant on request¹².

1 The exceptions are: (1) exploration licences for seaward areas or in landward areas below the low-water line (see the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 4(b)); (2) supplementary seismic survey licences (see the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, regs 4(2), 5(3), 8); and (3) methane drainage licences (see regs 4(1)(b), 5(3)).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 An application for a licence described in note 1 supra may be made at any time: see PARAS 1664-1665 post.

4 Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 5(1). In any case where the Secretary of State invites applications for a licence in accordance with regulations made under the Petroleum (Production) Act 1934 s 6 (repealed) and currently in force (by virtue of the Petroleum Act 1998 s 49, Sch 3 Pt I para 1(2), as if made under s 4: see PARA 1639 ante), and it is intended that the licence should be granted upon terms or conditions which differ from or are additional to those prescribed in those regulations for incorporation in licences of the relevant kind, a statement of such terms and conditions must be made available to any interested person at any time on request: Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, regs 2, 5(2). If any change to the terms and conditions included in the statement provided for in reg 5(1) is decided upon after the statement is first made available and before the licence to which it relates is granted, the change must be notified as soon as practicable to every person who has requested the statement: reg 5(3). As to the terms and conditions of licences see PARAS 1642, 1669 et seq post.

5 'Application for a licence' means an application made under regulations made under the Petroleum (Production) Act 1934 s 6 (repealed) and currently in force (see note 4 supra): Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 2.

6 'Applicant' means an entity which has lodged an application for a licence; and 'entity' means any natural or legal person or any group of such persons: *ibid* reg 2.

7 *Ibid* reg 3(1); Interpretation Act 1978 s 17(2).

8 Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 3(2).

9 *Ie* the criteria set out in *ibid* reg 3(1), (2): see the text and notes 5-8 *supra*.

10 *Ibid* reg 3(3).

11 *Ibid* reg 3(4).

12 *Ibid* reg 3(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(i) The Award of Licences/1642. Scope and application of terms and conditions of licences generally.

1642. Scope and application of terms and conditions of licences generally.

No licence¹ is to be granted upon terms and conditions other than such terms and conditions as are justified exclusively for the purpose of:

- 4691 (1) ensuring the proper performance of the activities permitted by the licence;
- 4692 (2) providing for the payment of consideration for the grant of the licence;
- 4693 (3) any of the considerations specified below, namely:
- 445
- 651. (a) national security;
- 652. (b) public safety;
- 653. (c) public health;
- 654. (d) security of transport;
- 655. (e) protection of the environment;
- 656. (f) protection of biological resources and of national treasures possessing artistic, historic or archaeological value;
- 657. (g) safety of installations and of workers;
- 658. (h) planned management of hydrocarbon resources, including in particular the rate at which hydrocarbons are depleted and the optimisation of their recovery;
- 659. (i) the need to secure tax revenues².
- 446

The terms and conditions provided for in heads (1) to (3) above must be applied in a non-discriminatory manner³.

1 For these purposes, 'licence' means a licence granted following an application for a licence: Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 2. For the meaning of 'application for a licence' see PARA 1641 note 5 ante.

2 Ibid reg 4(1), (2).

3 Ibid reg 4(3). Terms and conditions of United Kingdom licences incorporate prescribed model clauses: see PARA 1669 et seq post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(i) The Award of Licences/1643. Duration of licences.

1643. Duration of licences.

The Secretary of State¹ must² ensure that:

- 4694 (1) a licence³ only grants an entity⁴ exclusive rights for the period which is necessary for the proper performance of the activities authorised by the licence; and
- 4695 (2) the duration of the licence does not exceed the period necessary to carry out the activities authorised by the licence⁵.

He may, however, extend the term of a licence if:

- 4696 (a) the terms and conditions of the licence⁶ permit an extension of the term;
- 4697 (b) the licensee has performed its obligations in accordance with the terms and conditions of the licence; and
- 4698 (c) the term of the licence has proved, or is likely to prove, insufficient for the licensee to complete the activities authorised by the licence⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie subject to the Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 6(2): see the text and notes 6-7 infra.

3 For the meaning of 'licence' see PARA 1642 note 1 ante.

4 For the meaning of 'entity' see PARA 1641 note 5 ante.

5 Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 6(1).

6 As to the terms and conditions of licences generally see PARA 1642 ante.

7 Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 6(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1644. Requirements as to contents of licences.

(ii) Assessment of Environmental Effects

1644. Requirements as to contents of licences.

The Secretary of State¹ may not grant any licence² which does not require the licensee to obtain the prior consent of the Secretary of State to the operations described below³, namely any of the following operations wholly or partly in the relevant area⁴:

- 4699 (1) the commencement or recommencement of the drilling of any well⁵;
- 4700 (2) the extraction of petroleum⁶, otherwise than as a by-product of the drilling or the testing of any well, where the amount extracted exceeds 500 tonnes per day in the case of oil⁷ and 500,000 cubic metres per day in the case of gas⁸; or
- 4701 (3) the erection of any structure⁹ in connection with a development¹⁰.

Nor may he exercise any power conferred on him to vary the terms of a licence so as to relieve the licensee of any requirement to obtain his consent to any of the operations to which heads (1) to (3) above apply¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For these purposes, 'licence' means a licence granted or having effect as if granted under the Petroleum Act 1998 s 3 (licences to search and bore for and get petroleum: see PARA 1639 ante) and 'licensee' is to be construed accordingly: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1).

3 Ibid reg 4(1).

4 'The relevant area' means that area comprising (1) tidal waters and parts of the sea adjacent to the United Kingdom from the low-water mark up to the seaward limits of territorial waters; (2) waters in any area for the time being designated under the Continental Shelf Act 1964 s 1(7) (as amended) (designation of areas of continental shelf: see PARA 1636 ante); and (3) the sea bed and subsoil under the waters referred to in heads (1)-(2) supra: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1). References in the 1999 Regulations to a project being in a particular area include, unless the context otherwise requires, references to a project proposed to be carried out in that area, a project which is in the course of being carried out in that area and a project which has been carried out in that area: reg 3(2).

5 For these purposes, 'well' means any well or borehole drilled for the purposes of, or in connection with, the getting of petroleum, the exploration for petroleum or the establishment of the existence of, or appraisal of, the quantity, characteristics or quality of, petroleum in a particular location but does not include any well drilled in connection with the exploration for petroleum to a depth of 350 metres or less below the surface of the sea bed for the purpose of obtaining geological information about strata or any drilling operation, the main purpose of which is the testing of the stability of the sea bed: ibid reg 3(1). For the meaning of 'petroleum' see note 6 infra.

6 For these purposes, 'petroleum' includes any mineral oil or relative hydrocarbon and natural gas existing in its natural condition in strata, but does not include coal or bituminous shales or other stratified deposits from which oil can be extracted by destructive distillation: ibid reg 3(1).

7 For these purposes 'oil', except in the definition of 'petroleum' set out in note 6 supra, includes any mineral oil or relative hydrocarbon existing in its natural condition in strata, but does not include coal or bituminous shales or other stratified deposits from which oil can be extracted by destructive distillation: ibid reg 3(1).

8 For these purposes 'gas', except in the definition of 'petroleum' set out in note 6 supra, means natural gas existing in its natural condition in strata: *ibid* reg 3(1).

9 'Structure' means any structure used for or, as the case may be, to be used for the purpose of getting petroleum or conveying petroleum to land (including any structure for the storage of petroleum) which is intended to be permanent and is neither designed to be moved from place to place without major dismantling nor to be used only for searching for petroleum: *ibid* reg 3(1).

10 *Ibid* reg 4(2). 'Development' means any project which has as its main object the getting of petroleum as opposed to the establishment of its existence, the appraisal of its quantity, characteristics or quality or the characteristics or extent of any reservoir in which it occurs: reg 3(1).

11 *Ibid* reg 4(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1645. Requirements as to use of floating or mobile installations.

1645. Requirements as to use of floating or mobile installations.

Notwithstanding any provision in any licence¹, an undertaker² must not without the prior written consent of the Secretary of State³ granted in accordance with the relevant regulations⁴:

4702 (1) use a floating installation⁵ in connection with a relevant project⁶ comprising a development⁷; or

4703 (2) use any mobile installation for the extraction of petroleum where the principal purpose of the extraction is the testing of any well⁸.

1 For the meaning of 'licence' for these purposes see PARA 1644 note 2 ante.

2 'Undertaker' means any person who carries out, or may reasonably be taken to propose the carrying out of, a relevant project: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1). 'Relevant project' means a project comprising (1) the drilling of an exploration well; (2) a development; (3) the construction of a pipeline for the conveyance of petroleum other than one which is to form an integral part of any development; or (4) the use of a mobile installation for the extraction of petroleum where the principal purpose of the extraction is the testing of any well, wholly or partly within the relevant area: reg 3(1). 'Exploration well' means any well other than a well drilled for the purposes of, or in connection with, a development: reg 3(1). For the meaning of 'well' see PARA 1644 note 5 ante; for the meaning of 'petroleum' for these purposes see PARA 1644 note 6 ante; for the meaning of 'development' see PARA 1644 note 10 ante; and for the meaning of 'the relevant area' see PARA 1644 note 4 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 Ie in accordance with the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360 (as amended): see PARA 1646 et seq post.

5 'Floating installation' means any floating construction or device maintained on a station by whatever means but does not include a structure: *ibid* reg 3(1). For the meaning of 'structure' see PARA 1644 note 9 ante.

6 As to relevant projects see note 2 *supra*.

7 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 4(4)(a).

8 *Ibid* reg 4(4)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1646. Grant of consent by the Secretary of State in respect of relevant projects.

1646. Grant of consent by the Secretary of State in respect of relevant projects.

The Secretary of State¹ may not grant a consent² in respect of a relevant project³ unless the application⁴ for that consent is:

- 4704 (1) in the case of an application for a renewal of a consent⁵ to the getting of petroleum in relation to a relevant project, other than as the by-product of the drilling or testing of a well, an application where the Secretary of State has decided that, having regard to the specified matters⁶, the operation in respect of which the renewal is sought would not be likely to have a significant effect⁷ on the environment and that accordingly no environmental statement⁸ need be prepared in respect of that project⁹;
- 4705 (2) accompanied by an environmental statement in respect of that project; or
- 4706 (3) the subject of a direction¹⁰ that no environmental statement need be prepared¹¹.

Where the Secretary of State receives an application for a consent in respect of a relevant project to which head (1) above applies, the undertaker¹² in question must provide the Secretary of State with such information as he may require regarding that application¹³.

Where an application for consent in respect of a relevant project is accompanied by an environmental statement, the Secretary of State may not grant a consent in respect of that project unless:

- 4707 (a) he is satisfied that the prescribed requirements as to consultation and publicity¹⁴ have been substantially met; and
- 4708 (b) he has taken into consideration:
 - 447 660. (i) the environmental statement;
 - 661. (ii) any information in respect of that relevant project of the specified kind¹⁵;
 - 662. (iii) the representations of any environmental authority¹⁶ to which a copy of that statement was required to be sent¹⁷; and
 - 663. (iv) any opinions expressed by the public¹⁸.
- 448

Where a member state has requested to participate in the procedure¹⁹ in relation to the decision whether to grant consent in respect of a relevant project, the Secretary of State may not grant consent in respect of that project unless:

- 4709 (A) he is satisfied that the prescribed requirements²⁰ have been complied with;
- 4710 (B) he has communicated to that member state the response that he proposes to make to the application for consent, including information as to any measures envisaged to reduce or eliminate any trans-boundary effects of the project;
- 4711 (C) he is satisfied that the member state has been consulted regarding the application for consent and arrangements for consulting persons in that member state, including any authorities likely to be interested in the relevant project in

question by virtue of their particular environmental responsibilities²¹, a reasonable time has been allowed for the consultation of those persons and for any representations made by them regarding the relevant project to be forwarded to the Secretary of State²² and any timetable agreed with that member state regarding consultation with those persons has been observed²³; and

4712 (D) he has taken into consideration any representations made by the member state, members of the public and authorities in that member state and any information regarding the relevant project supplied by any of them²⁴.

Where the Secretary of State has made a direction that no further environmental statement need be prepared where one has already been prepared²⁵, he may not grant a consent to an application which falls within the terms of that direction unless he has taken the specified matters²⁶ into consideration²⁷.

Where the Secretary of State gives his consent to a relevant project, he may, to the extent that he has no other power to do so, attach conditions to that consent for the purpose of reducing or eliminating any significant adverse effects of that project on the environment²⁸.

The Secretary of State must publish a notice of his decision in relation to any application for consent accompanied by an environmental statement in the Gazettes²⁹ and by any other means he considers appropriate, which may include an electronic communication³⁰. He must, where he so publishes a notice of such a decision, communicate that decision, including the specified information³¹, to any EEA state³² which has been provided³³ with a copy of the environmental statement that accompanied that application³⁴.

Where the Secretary of State decides that no environmental statement is required to be prepared in respect of a relevant project which is the subject of an application for a consent to which head (1) above applies, he must publish notice of that decision in the Gazettes and by any other means he considers appropriate, which may include an electronic communication³⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For these purposes, 'consent' means, except in the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 4 (see PARAS 1644-1645 ante): (1) in relation to any relevant project comprising the drilling of an exploration well, any consent required by or under a licence to the commencement or recommencement of the drilling of that well; (2) in relation to a relevant project comprising a development: (a) any consent required by or under a licence in respect of the erection of any structure; (b) any consent required by or under a licence to the getting of more than 500 tonnes of oil per day or 500,000 cubic metres of gas per day otherwise than as a by-product of the drilling or the testing of any well; (c) any consent required by virtue of reg 4(4)(a) (consent to use of floating installation: see PARA 1645 ante); (d) any consent required by or under a licence in respect of the commencement or recommencement of the drilling of any well used for the purposes of, or in connection with, the development; or (e) any authorisation for the execution of works for the construction of a pipeline for the conveyance of petroleum, being a pipeline which is to form an integral part of the development; (3) in relation to any relevant project comprising a pipeline for the conveyance of petroleum other than a pipeline which is to form an integral part of a development, any authorisation for the execution of works for the construction of that pipeline; or (4) in relation to any relevant project comprising the use of a mobile installation for the extraction of petroleum where the principal purpose of the extraction is the testing of any well, any consent required under reg 4(4)(b) (see PARA 1645 ante); but does not in any case include any consent required pursuant to a licence in respect of anything done or to be done wholly outside the relevant area or any approval: reg 3(1). 'Authorisation' means a pipeline works authorisation required by the Petroleum Act 1998 s 14 (construction and use of pipelines: see PARA 1743 post): Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1). For the meaning of 'exploration well' see PARA 1645 note 2 ante; for the meaning of 'well' see PARA 1644 note 5 ante; for the meaning of 'development' see PARA 1644 note 10 ante; for the meaning of 'licence' see PARA 1644 note 2 ante; for the meaning of 'structure' see PARA 1644 note 9 ante; for the meanings of 'oil' and 'gas' see PARA 1644 notes 7-8 ante; and for the meaning of 'petroleum' for these purposes see PARA 1644 note 6 ante.

3 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

4 'Application' means, except in the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, regs 16, 17 (as amended) (applications to court: see PARA 1656 post), an application in writing: reg 3(1).

5 For the purposes of ibid reg 5(2A) (as added) (see head (1) in the text), a consent is renewed where the term of the consent is increased, but without any other variation in the conditions attached to the consent: reg 5(2B) (reg 5(2A), (2B), (8A) added by SI 2007/933).

6 le the matters set out in the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, Sch 1. The specified matters are as follows (Sch 1), ie:

123 (1) characteristics of projects: the characteristics of projects having regard, in particular, to:

113.(a) the size of the project;

113

114.(b) the cumulation with other projects;

114

115.(c) the use of natural resources;

115

116.(d) the production of waste, pollution and nuisances; and

116

117.(e) the risk of accidents, having regard in particular to substances or technologies used;

117

124 (2) location of projects: the environmental sensitivity of geographical areas likely to be affected by projects having regard, in particular, to:

118.(a) the existing land use;

118

119.(b) the relative abundance, quality and regenerative capacity of natural resources in the area;

119

120. (c) the absorption capacity of the natural environment, paying particular attention to the following areas, ie wetlands; coastal zones; mountain and forest areas; nature reserves and parks; areas classified or protected under member states' legislation; special protection areas designated by member states pursuant to EEC Council Directive 79/409 (OJ L103, 25.04.79, p 1) (as amended) on the conservation of wild birds (see ANIMALS vol 2 (2008) PARAS 994, 1006; OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 728) and EEC Council Directive 92/43 (OJ L206, 22.7.92, p 7) (as amended) on the conservation of natural habitats and wild fauna and flora (see OPEN SPACES AND COUNTRYSIDE vol 78 (2010) PARA 728 et seq; WATER AND WATERWAYS vol 100 (2009) PARA 674); areas in which the environmental quality standards laid down in Community legislation have already been exceeded; densely populated areas; and landscapes of historical, cultural or archaeological significance;

120

125 (3) characteristics of the potential impact: the potential significant effects of projects in relation to criteria set out under heads (1), (2) supra, and having regard in particular to:

121.(a) the extent of the impact (geographical area and size of the affected population);

121

122.(b) the trans-frontier nature of the impact;

122

123.(c) the magnitude and complexity of the impact;

123

124.(d) the probability of the impact; and

124

125.(e) the duration, frequency and reversibility of the impact.

125

7 'Effect' includes, except where the context otherwise requires, any direct, indirect, secondary, cumulative, short, medium or long-term, permanent or temporary, or positive or negative effect: ibid reg 3(1).

8 'Environmental statement' means a statement prepared in respect of a relevant project which includes (1) the matters specified in ibid Sch 2; and (2) any information submitted to the Secretary of State by the applicant voluntarily along with the matters referred to in head (1) supra: ibid reg 3(1) (definition substituted by SI

2007/933). The specified matters are as follows (Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, Sch 2), ie:

- 126 (1) a description of the project comprising information on the site, design and size of the project and where relevant to the particular characteristics of the project or the environmental features likely to be affected and to the extent that the undertaker might reasonably be required to compile the information having regard to current knowledge and methods of assessment, such a description must include:
 - 126.(a) the land and sea bed use requirements during the construction and operational phases; 126
 - 127.(b) a description of the main characteristics of the production processes including the nature and quantity of the materials used; and 127
 - 128. (c) an estimate by type and quantity of the expected residues and emissions (including water, air and soil pollution, noise, vibration, light, heat and radiation) resulting from the operation of the proposed project; 128
 - 127 (2) a description of the measures envisaged in order to avoid, reduce and, if possible remedy significant adverse effects on the environment;
 - 128 (3) the data required to identify and assess the main effects which the project is likely to have on the environment and where relevant to the particular characteristics of the project or the environmental features likely to be affected and to the extent that the undertaker might reasonably be required to compile the data having regard to current knowledge and methods of assessment such data must include:
 - 129. (a) a description of specific aspects of the environment likely to be significantly affected including in particular human population, fauna, flora, soil including the sea bed and its subsoil, water including the sea and any aquifers under the sea bed, air, climatic factors, the landscape or the seascape, tangible property, architectural and archaeological heritage and the interaction between any of the foregoing; and 129
 - 130.(b) a description of the likely significant effects on the environment arising from the existence of the project, the use of natural resources, the emission of pollutants, the creation of nuisances and the elimination of waste together with details of the forecasting methods used to assess the effects on the environment; 130
 - 129 (4) an outline of the main alternatives (if any) studied by the undertaker and an indication of the main reasons for his choice, taking into account the environmental effects;
 - 130 (5) a non-technical summary of the information provided under the above headings; and
 - 131 (6) where relevant to the particular characteristics of the project and the environmental features likely to be affected and to the extent that the undertaker might reasonably be required to compile the information having regard to current knowledge and methods of assessment, an indication of any difficulties (technical difficulties or lack of know-how) encountered by the undertaker in compiling the required information.

9 See the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 5(2A) (as added: see note 5 supra). As to application for consent to the construction of a pipeline or the augmentation of an existing pipeline see reg 5(2) (as substituted); and PARA 1744 post.

10 le a direction given under *ibid* reg 6 (as amended): see PARA 1647 post.

11 *Ibid* reg 5(1) (reg 5(1), (8), (10) substituted by SI 2007/933).

12 For the meaning of 'undertaker' see PARA 1645 note 2 ante.

13 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 5(3) (reg 5(3), (9) amended by SI 2007/933).

14 le the requirements of the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, regs 9, 10 (as amended): see PARAS 1650-1651 post.

15 Ie information of the kind referred to in *ibid* reg 10(2) (as amended) (information omitted from environmental statement): see *PARA 1651 post*.

16 'Environmental authority' means any person on whom environmental responsibilities are conferred by or under any enactment other than the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360 (as amended): reg 3(1).

17 Ie pursuant to the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360 (as amended).

18 *Ibid* reg 5(4).

19 Ie pursuant to *ibid* reg 12(2) (as amended) (request by member state to participate in procedure under the 1999 Regulations in relation to relevant project affecting it): see *PARA 1653 post*.

20 Ie the requirements of *ibid* reg 12(1), (2) (as amended) (projects affecting other states): see *PARA 1653 post*.

21 See *ibid* reg 5(5)(c)(i).

22 See *ibid* reg 5(5)(c)(ii).

23 See *ibid* reg 5(5)(c)(iii).

24 *Ibid* reg 5(5).

25 Ie a direction under *ibid* reg 6(2) (as substituted): see *PARA 1647 post*.

26 The specified matters are (1) the environmental statement prepared in respect of the relevant project in question; (2) any information in respect of that relevant project of the kind referred to in reg 10(2) (as amended) (information omitted from environmental statement: see *PARA 1651 post*); (3) any representations previously made by an environmental authority to whom that statement was required to be sent; (4) any opinions originally expressed by the public; and (5) any representations or information relating to the relevant project of the kind referred to in *ibid* reg 5(5)(d) (see head (d) in the text): reg 5(6)(a)-(e).

27 *Ibid* reg 5(6).

28 *Ibid* reg 5(7).

29 'The Gazettes' means the London, Edinburgh and Belfast Gazettes: *ibid* reg 3(1).

30 *Ibid* reg 5(8) (as substituted: see note 11 *supra*). 'Electronic communication' means a communication transmitted (whether from one person to another, from one device to another or from a person to a device or vice versa) while in an electronic form: reg 3(1) (definition added by SI 2007/933). A notice so published must either (1) set out: (a) the contents of the decision and any conditions attached to the decision; (b) the main reasons and considerations on which the decision is based; (c) a summary of any representations made to the Secretary of State by third parties in respect of the project in question, together with details of how those representations were taken into account; and (d) a description, where necessary, of the main measures required to be taken to avoid, reduce and, if possible, offset major adverse effects on the environment; or (2) specify where details of the matters referred to in head (1) *supra* may be obtained: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 5(8A) (as added: see note 5 *supra*).

31 Ie the information referred to in *ibid* reg 5(8A)(a) (as added): see note 30 head (1) *supra*.

32 'EEA state' means a member state, Norway, Iceland or Liechtenstein: *ibid* reg 3(1) (definition substituted by SI 2007/933).

33 Ie pursuant to the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 12 (as amended): see *PARA 1653 post*.

34 *Ibid* reg 5(9) (as amended: see note 13 *supra*).

35 *Ibid* reg 5(10) (as substituted: see note 11 *supra*).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1647. Directions that no environmental statement need be prepared.

1647. Directions that no environmental statement need be prepared.

Where an undertaker¹ makes an application² containing the appropriate particulars³ to the Secretary of State⁴ for him to exercise the power conferred by this provision⁵, and the Secretary of State is satisfied that either:

- 4713 (1) the carrying out of the relevant project⁶ described in that application; or
- 4714 (2) the carrying out of the relevant project as modified or carried out in a particular way or carried out at a particular time,

is not likely to have a significant effect⁷ on the environment, he may⁸ give a direction that any application for consent⁹ in respect of that relevant project or that relevant project as modified, or to be carried out in the manner or at the time specified in the direction, need not be accompanied by an environmental statement¹⁰. No direction may, however, be given pursuant to the above provision in respect of any application for consent:

- 4715 (a) to the getting of more than 500 tonnes of oil¹¹ per day or 500,000 cubic metres of gas¹² per day otherwise than in the course of the drilling or testing of any well¹³;
- 4716 (b) to the erection of any structure¹⁴ in relation to a relevant project comprising a development¹⁵ which the Secretary of State is not satisfied would be likely to produce 500 tonnes or less of oil per day or 500,000 cubic metres or less of gas per day;
- 4717 (c) for the execution of works for the construction of a pipeline of 40 kilometres or more in length and a diameter of 800 millimetres or more (regardless of whether that pipeline forms an integral part of a development); or
- 4718 (d) in respect of which another member state has requested¹⁶ to participate in the procedure¹⁷.

Nor may any direction be so given in respect of any application for an extension of a consent¹⁸.

Where a relevant project has been the subject of an environmental assessment¹⁹, the Secretary of State may, on the application of the undertaker concerned, give a direction that further applications for consents of such kind as may be specified in that direction need not be accompanied by an environmental statement provided that:

- 4719 (i) the Secretary of State is satisfied that if such consents were granted anything that might be done pursuant to them would not give rise to substantially different effects from, or significantly greater effects than, those mentioned in the environmental statement originally prepared in respect of the relevant project; and
- 4720 (ii) any such consents, if granted, would not otherwise fall within any of heads (a) to (d) above²⁰.

In deciding whether or not to give a direction under the above provisions, the Secretary of State must take into consideration, where relevant, the specified²¹ matters²². The Secretary of

State must give notice to the undertaker concerned of his decision in relation to any application made under these provisions²³.

Any direction given pursuant to these provisions remains in force for two years, or such shorter period as may be specified in the direction, from the date on which it was given²⁴. The Secretary of State may, however, revoke any direction so given²⁵.

1 For the meaning of 'undertaker' see PARA 1645 note 2 ante.

2 For the meaning of 'application' see PARA 1646 note 4 ante.

3 'Appropriate particulars' means the name and address of the undertaker, the location of the project in question, the nature and purpose of the project and what the undertaker considers would be likely to be the main environmental consequences of the execution of the project: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1).

4 As to the Secretary of State see PARA 601 note 1 ante.

5 See the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 6(1)(a). An undertaker must provide to the Secretary of State such further information in relation to any application so made by the undertaker, or made under reg 6(2) (as substituted) (see the text and notes 19-20 infra) as the Secretary of State may require: reg 6(4).

6 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

7 For the meaning of 'effect' see PARA 1646 note 7 ante.

8 Ie subject to the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 6(5), (5A) (reg 6(5A) (as added)): see the text and notes 11-18 infra.

9 For the meaning of 'consent' see PARA 1646 note 2 ante.

10 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 6(1) (amended by SI 2007/933).

11 For the meaning of 'oil' see PARA 1644 note 7 ante.

12 For the meaning of 'gas' see PARA 1644 note 8 ante.

13 For the meaning of 'well' see PARA 1644 note 5 ante.

14 For the meaning of 'structure' see PARA 1644 note 9 ante.

15 For the meaning of 'development' see PARA 1644 note 10 ante.

16 Ie pursuant to the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 12 (as amended) (projects affecting other states): see PARA 1653 post.

17 Ibid reg 6(5). Regulation 6(5) does not, however, prevent the giving of a direction pursuant to reg 6(1) (as amended) in respect of an application for a variation of any consent to the erection of any structure in relation to a development (whether the structure has already been erected pursuant to that consent or not): reg 6(6) (substituted by SI 2007/933).

18 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 6(5A) (reg 6(5A), (5B), (11) added by SI 2007/933). For these purposes, an 'extension of a consent' is a variation of an existing consent for a relevant project, where, if the effect of the variation were itself the subject of a separate application, the application would be for consent to: (1) the getting of more than 500 tonnes of oil per day, or 500,000 cubic metres of gas per day otherwise than in the course of the drilling or testing of any well; (2) the erection of any structure in relation to a relevant project comprising a development which the Secretary of State is not satisfied would be likely to produce 500 tonnes or less of oil per day or 500,000 cubic metres or less of gas per day; or (3) the execution of works for the construction of a pipeline of 40 kilometres or more in length and a diameter of 800 millimetres or more (regardless of whether that pipeline forms an integral part of a development): Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 6(5B) (as so added).

19 Ie in accordance with ibid reg 5(4): see PARA 1646 ante.

20 Ibid reg 6(2) (substituted by SI 2007/933). See also note 5 *supra*.

21 Ie the matters set out in the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, Sch 1: see PARA 1646 note 6 *ante*.

22 Ibid reg 6(3).

23 Ibid reg 6(8). Where the Secretary of State makes a decision in relation to any application for a direction in accordance with reg 6 (as amended), reg 5(8), (8A) (as respectively substituted and added) applies in respect of such an application for a direction in the same way as it applies to an application for a consent accompanied by an environmental statement: reg 6(11) (as added: see note 18 *supra*).

24 Ibid reg 6(7).

25 Ibid reg 6(10).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1648. Opinion by Secretary of State as to content of environmental statements.

1648. Opinion by Secretary of State as to content of environmental statements.

On the application¹ of an undertaker² containing the appropriate particulars³, the Secretary of State⁴ must⁵ give an opinion as to the matters to be included in an environmental statement⁶ in respect of the relevant project⁷ referred to in that application⁸. The Secretary of State may not, however, give his opinion pursuant to the above provision unless:

- 4721 (1) he has served a notice⁹ setting out the opinion that he is minded to give on:
- 449
- 664. (a) the undertaker; and
- 665. (b) any environmental authority¹⁰ which he considers would be likely to be interested in the relevant project by reason of its particular environmental responsibilities;
- 450
- 4722 (2) he is satisfied that a reasonable opportunity for making representations regarding the opinion he is minded to give has been afforded to the persons referred to in head (1) above; and
- 4723 (3) he has considered any representations made regarding the proposed opinion¹¹.

An opinion given pursuant to the above provision is without prejudice to the power of the Secretary of State¹² to request further information¹³.

1 For the meaning of 'application' see PARA 1646 note 4 ante.

2 For the meaning of 'undertaker' see PARA 1645 note 2 ante.

3 For the meaning of 'appropriate particulars' see PARA 1647 note 3 ante.

4 Subject to the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 7(2), (3): see the text and notes 9-13 infra.

6 For the meaning of 'environmental statement' see PARA 1646 note 8 ante.

7 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

8 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 7(1).

9 'Notice' means notice in writing: *ibid* reg 3(1). Any notice or other document required or authorised to be given or served on any person under the 1999 Regulations may be given or served by (1) delivering it to that person; (2) leaving it at his proper address; or (3) sending it to his proper address by the recorded delivery service: reg 14(1). Any notice or other document required or authorised to be served on, or given to, any body corporate or unincorporated association other than a partnership is to be duly given or served on the secretary or clerk or other similar officer of that body: reg 14(2). Any notice or other document required or authorised to be served on, or given to, any partnership may be served on or given to a partner or a person having the control or management of the partnership business: reg 14(3). Subject to reg 14(5), for these purposes the proper address of any person on whom or to whom any such notice or document is to be served or given is his last known address except that such address is to be: (a) in the case of a body corporate or its secretary or clerk, the address of the registered office or principal office of the body corporate; (b) in the case of an

unincorporated association (other than a partnership) or its secretary or clerk, the address of the principal office of the association; and (c) in the case of a partnership or a person having control or the management of the partnership business, the address of the principal office of the partnership, and for these purposes the principal office of a company registered outside the United Kingdom or of a partnership carrying on business outside the United Kingdom is to be its principal office within the United Kingdom: reg 14(4). If the person to be served with or given any such notice or document has furnished the person by whom the notice or document is to be served or given with an address pursuant to any provision of the 1999 Regulations, that address is also to be treated for these purposes as his proper address: reg 14(5).

10 For the meaning of 'environmental authority' see PARA 1646 note 16 ante.

11 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 7(2).

12 Ie under *ibid* reg 10 (as amended) (provision to Secretary of State of further information and evidence respecting environmental statements: see PARA 1650 post) or reg 11(5) (further information in respect of environmental statements in relation to exercise of powers under licences by Secretary of State: see PARA 1652 post).

13 *Ibid* reg 7(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1649. Obtaining of information for the preparation of environmental statements.

1649. Obtaining of information for the preparation of environmental statements.

The following provisions apply where an undertaker¹ makes an application² to the Secretary of State³ containing appropriate particulars⁴ in respect of a relevant project⁵ for the provision to the undertaker of any information which:

- 4724 (1) would assist the undertaker in the preparation of the environmental statement in respect of the relevant project referred to in the appropriate particulars; and
- 4725 (2) could not otherwise⁶ readily be obtained by the undertaker⁷.

On receipt of such an application, the Secretary of State must:

- 4726 (a) provide⁸ to the undertaker such information as he may have of the kind mentioned in heads (1) and (2) above;
 - 4727 (b) provide to the undertaker the name and address of any environmental authority⁹ that he considers may have any such information; and
 - 4728 (c) at the same time as he provides the name and address of any environmental authority to an undertaker, serve on that authority a notice¹⁰ which:
- 451
- 666. (i) states that he has provided the authority's name and address to the undertaker;
 - 667. (ii) refers to the duty imposed on the authority as described below; and
 - 668. (iii) is accompanied by a copy of the application made by the undertaker under these provisions¹¹.
- 452

Where a notice pursuant to head (c) above is served on an environmental authority by the Secretary of State, the authority must¹² provide to the undertaker concerned, within the period specified in the notice, any information held by it which it considers is of the kind mentioned in heads (1) and (2) above¹³.

Nothing in the above provisions, however, requires the disclosure of any information which is by virtue of any rule of the law of any part of the United Kingdom¹⁴ subject to any obligation of confidentiality¹⁵.

15 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 8(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1650. Procedure on receipt of application where environmental statement prepared; publicity requirements etc.

1650. Procedure on receipt of application where environmental statement prepared; publicity requirements etc.

Where the Secretary of State¹ receives an application² for a consent³ in respect of a relevant project⁴ which is accompanied by an environmental statement⁵, he must forthwith serve on the undertaker⁶ concerned a notice⁷ specifying those environmental authorities⁸ which in the opinion of the Secretary of State are likely to be interested in the project by reason of their particular environmental responsibilities⁹. The undertaker must forthwith:

- 4729 (1) serve on each environmental authority so notified to him:
- 453
- 669. (a) a copy of the Secretary of State's notice;
- 670. (b) a copy of the application for consent and the environmental statement that accompanied it; and
- 671. (c) a notice stating that representations may be made to the Secretary of State by a date specified in the notice which must be at least four weeks after the date on which the application, environmental statement and notice were served on the authority;
- 454
- 4730 (2) give notice to the Secretary of State of the name of every authority whom he has served under head (1) above, and of the date of such service;
- 4731 (3) having regard to the general whereabouts of any persons likely to be interested in, or affected by, the relevant project, make available for public inspection at an address within the United Kingdom¹⁰ between the hours of 10 am and 4 pm on business days¹¹ for a period of not less than four weeks immediately following the publication (or last publication, where it is published in more than one newspaper or on more than one occasion) of the notice referred to in head (6) below a copy of the application for consent and a copy of the environmental statement that accompanied it;
- 4732 (4) make available at an address within the United Kingdom enough copies of the environmental statement to be likely to satisfy all reasonable demands for copies pursuant to head (5) below;
- 4733 (5) subject to head (4) above and the receipt by the undertaker of any sum mentioned in the notice referred to in head (6) below, supply during the period mentioned in head (3) above to any person on request, a copy of the environmental statement¹²; and
- 4734 (6) publish a notice which:
- 455
- 672. (a) describes the application and states that it is accompanied by an environmental statement;
- 673. (b) states that the project is subject to an environmental impact assessment procedure and, where relevant, the fact that the provisions concerning projects affecting other states¹³ apply;
- 674. (c) gives the address referred to in head (3) above at which a copy of the application for consent and environmental statement may be inspected;
- 675. (d) states the nature of possible decisions in response to the application;

676. (e) sets out the arrangements made for consulting the public pursuant to these provisions;
677. (f) states that a copy of the environmental statement may be obtained from the address referred to in head (4) above and specifies the amount of any payment required to be tendered for the statement¹⁴;
678. (g) states a date not less than four weeks after the date on which the notice is last published¹⁵ by which any person may make representations in relation to the application in question to the Secretary of State, and specifies the address to which any such representations are to be sent; and
679. (h) provides an explanation of the right of a person aggrieved by a decision of the Secretary of State to make an application¹⁶ to the court¹⁷.
- 456

The undertaker must publish the notice referred to in head (6) above on such occasions as to be likely to come to the attention of those likely to be interested in, or affected by, the relevant project, and in such newspapers and by such other means (which may include an electronic communication¹⁸) as the Secretary of State may direct¹⁹; and must provide to the Secretary of State copies of the newspapers in which the notice appeared²⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'application' see PARA 1646 note 4 ante.

3 For the meaning of 'consent' see PARA 1646 note 2 ante.

4 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

5 For the meaning of 'environmental statement' see PARA 1646 note 8 ante.

6 For the meaning of 'undertaker' see PARA 1645 note 2 ante.

7 For the meaning of 'notice', and as to service of notices, see PARA 1648 note 9 ante.

8 For the meaning of 'environmental authority' see PARA 1646 note 16 ante.

9 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 9(1).

10 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

11 'Business day' means any day except a Saturday, a Sunday, Christmas Day, Good Friday or a bank holiday in any part of the United Kingdom by virtue of the Banking and Financial Dealings Act 1971: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1).

12 Where an undertaker is subject to an obligation to supply a copy of an environmental statement pursuant to a request made under *ibid* reg 9(2)(e) (see head (5) in the text), he must supply a copy of the environmental statement to the person requesting it as soon as reasonably practicable after receipt of the request: reg 9(5).

13 *Ie* *ibid* reg 12 (as amended): see PARA 1653 post.

14 An undertaker may make the supply of a copy of an environmental statement to any person other than an environmental authority conditional on the receipt by the undertaker of a sum calculated by reference to the cost of printing and distributing copies of the statement, subject to a maximum of £2.00 for each copy requested: *ibid* reg 9(4).

15 *Ie* pursuant to *ibid* reg 9(2A) (as added): see the text and notes 18-19 *infra*.

16 *Ie* pursuant to *ibid* reg 16 (as amended): see PARA 1656 post.

17 *Ibid* reg 9(2) (amended by SI 2007/933).

18 For the meaning of 'electronic communication' see PARA 1646 note 30 ante.

19 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 9(2A) (added by SI 2007/933).

20 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 9(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1651. Provision to the Secretary of State of further information and evidence respecting environmental statements.

1651. Provision to the Secretary of State of further information and evidence respecting environmental statements.

The Secretary of State¹ may by notice² require an undertaker³ to provide in respect of an environmental statement⁴ provided to him⁵ such further information as he may require, including evidence in support of any information in that statement⁶. Where the Secretary of State is of the opinion that information provided pursuant to a requirement so imposed ought to have been included in the environmental statement in question because that information relates to the main effects⁷ the project is likely to have on the environment, or where other information becomes available to the Secretary of State after the date on which the application was made which in his opinion is of material relevance to his decision as to whether to grant consent⁸, he must in writing direct the undertaker to:

- 4735 (1) serve that information on any environmental authority⁹ on which the environmental statement was required to be served¹⁰, together with a notice referring to the material previously served on that authority and stating that further representations may be made to the Secretary of State by a date specified in that notice which must be at least four weeks after the date on which the information and notice were served on that authority;
 - 4736 (2) notify the Secretary of State of the name of every authority served with the information and notice referred to in head (1) above and the date of such service;
 - 4737 (3) make available to the public the application for consent, the environmental statement and the information referred to in head (1) above in the same way as the application and environmental statement were previously made available for the period of four weeks immediately following the publication (or last publication) of the notice referred to in head (4) below; and
 - 4738 (4) publish in such newspapers on such occasions as to be likely to come to the attention of those likely to be interested in, or affected by, the relevant project¹¹, a notice which:
- 457
- 680. (a) refers to the previous notice in respect of the application and environmental statement and states that further information is available in respect of the relevant project;
 - 681. (b) gives the address at which a copy of the application for consent and environmental statement and further information may be inspected;
 - 682. (c) states where a copy of the environmental statement and the additional information may be obtained and specifies¹² the amount of any payment required to be tendered for the copy; and
 - 683. (d) states a date not less than four weeks after the date on which the notice is to be published (or last published) by which any person may make representations in relation to the application in question to the Secretary of State and specifies the address to which any such representations are to be sent¹³.

458

The undertaker must provide to the Secretary of State copies of the newspapers in which the notice referred to in head (4) above appeared¹⁴.

- 1 As to the Secretary of State see PARA 601 note 1 ante.

- 12 Ie subject to the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 9(4) (maximum payment for copy of environmental statement): see PARA 1650 ante.
- 13 Ibid reg 10(2) (amended by SI 2007/933).
- 14 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 10(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1652. Exercise by the Secretary of State of powers under licences.

1652. Exercise by the Secretary of State of powers under licences.

Where the Secretary of State¹ exercises any powers under a licence² so as to require a licensee to submit to him for his approval³ any proposals for the carrying out of a relevant project⁴ comprising a development⁵ then any proposals so submitted must⁶ be accompanied by an environmental statement⁷. Such proposals need not, however, be accompanied by an environmental statement where:

- 4739 (1) the licensee has submitted appropriate particulars⁸ in respect of the development referred to in the proposals submitted to the Secretary of State; and
- 4740 (2) the Secretary of State, being satisfied that:
- 459
- 684. (a) the proposals either relate to a development which will produce 500 tonnes or less of oil⁹ per day or 500,000 cubic metres or less of gas¹⁰ per day or do not involve the construction of a pipeline of 40 kilometres or more in length and a diameter of 800 millimetres or more;
- 685. (b) having regard to the specified matters¹¹, the carrying out of the proposals is not likely to have a significant effect¹² on the environment; and
- 686. (c) no member state has requested¹³ to participate in the decision relating to the granting of the approval,
- 460
- 4741 has given a direction in writing within the two years immediately preceding the submission of the proposals that they need not be accompanied by an environmental statement¹⁴.

The Secretary of State may revoke a direction so given¹⁵.

Where the Secretary of State proposes to exercise powers under a licence to impose a requirement on a licensee to carry out a relevant project comprising a development:

- 4742 (i) which in his opinion is likely to produce in excess of 500 tonnes of oil per day or in excess of 500,000 cubic metres of gas per day or involves the construction of a pipeline of 40 kilometres or more in length and a diameter of 800 millimetres or more; or
- 4743 (ii) other than one falling within head (i) above which, having regard to the specified matters¹⁶, he is not satisfied is not likely to have a significant effect on the environment,

he must serve a notice¹⁷ on the licensee setting out details of the relevant project which he proposes that the licensee should be required to carry out and requiring the licensee to provide him with an environmental statement in respect of that project within such time as may be specified in the notice¹⁸.

Where proposals are submitted to the Secretary of State accompanied by an environmental statement, or an environmental statement is provided to the Secretary of State in compliance with a requirement imposed by virtue of the provisions set out above¹⁹, then the prescribed procedural and publicity requirements²⁰ and the prescribed requirements regarding the

provision to the Secretary of State of further information and evidence respecting environmental statements²¹ apply, with appropriate modifications, in respect of such an environmental statement in the same way as they apply to an application for a consent²² accompanied by an environmental statement²³. The Secretary of State may not approve proposals which entail the carrying out of a relevant project comprising a development or exercise any power under a licence to require the carrying out of a relevant project comprising a development where in either case an environmental statement has been submitted to him, unless he is satisfied that those requirements, as they so apply, have been substantially met and he has taken into account the environmental statement, any information of the specified kind²⁴, the representations of any environmental authority²⁵ sent a copy of the environmental statement²⁶ and any opinions expressed by the public²⁷.

Where any other member state has requested²⁸ to participate in the procedure in relation to the decision whether to grant an approval or impose a relevant requirement²⁹ in respect of a relevant project, the Secretary of State may not grant an approval or impose a relevant requirement in respect of that project unless:

- 4744 (A) he is satisfied that the prescribed requirements³⁰ have been met;
- 4745 (B) he has communicated to that member state the response that he proposes to make to the application for approval or, as the case may be, the relevant requirement he is minded to impose (including in either case information as to any measures envisaged to reduce or eliminate any trans-boundary effects of the project);
- 4746 (C) he is satisfied that the member state has been consulted regarding the application for consent and the arrangements for consulting persons in that member state³¹, a reasonable time has been allowed for the consultation of those persons and for any representations made by them regarding the relevant project to be forwarded to the Secretary of State and any timetable agreed with that member state regarding consultation with those persons has been observed; and
- 4747 (D) he has taken into consideration any representations made by the member state, members of the public and authorities in that member state and any information regarding the relevant project supplied by any of them³².

Where, having considered the matters referred to above³³, the Secretary of State approves any proposals³⁴ or imposes any relevant requirement, he may, to the extent that he has no power to do so otherwise, attach conditions to that approval or requirement for the purpose of reducing or eliminating any significant adverse effects of the relevant project referred to in those proposals³⁵.

The Secretary of State must publish the relevant matters³⁶ in the Gazettes³⁷ and by any other means he considers appropriate (which may include an electronic communication)³⁸. Upon that publication in the Gazettes, he must inform any EEA state³⁹ which has been provided⁴⁰ with a copy of the environmental statement of the approval of the proposals or, as the case may be, of the imposition of the relevant requirement⁴¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'licence' see PARA 1644 note 2 ante.

3 'Approval' means an approval of the kind referred to in the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 11(1) (see the text and notes 4-7 infra): reg 3(1).

34 le any proposals of the kind referred to in *ibid* reg 11(1).

35 *Ibid* reg 11(8).

36 For these purposes, the 'relevant matters' are: (1) any decision regarding the approval pursuant to a licence of a project which entails the carrying out of a relevant project in respect of which an environmental statement was submitted to the Secretary of State; (2) particulars of the exercise by the Secretary of State of any powers pursuant to a licence requiring the carrying out of a relevant project in respect of which an environmental statement was submitted to the Secretary of State; or (3) any decision that an environmental statement is not to be required in connection with the giving of an approval or the imposition of a relevant requirement: *ibid* reg 11(9A) (added by SI 2007/933).

37 For the meaning of 'the Gazettes' see PARA 1646 note 29 *ante*.

38 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 11(9) (substituted by SI 2007/933).

39 For the meaning of 'EEA state' see PARA 1646 note 32 *ante*.

40 le pursuant to *ibid* reg 12 (as amended): see PARA 1653 *post*.

41 *Ibid* reg 11(10).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1653. Projects affecting other states.

1653. Projects affecting other states.

Where it appears to the Secretary of State¹ that the carrying out of a relevant project² would be likely to have a significant effect³ on the environment of any other member state or where any other member state which considers that its environment is likely to be significantly affected by that project so requests, the Secretary of State must forward to the member state in question as soon as possible and no later than the date on which the environmental statement⁴ in respect of that project is made available to the public (except in a case where a request is made by the member state after that date):

- 4748 (1) a description of the project together with any available information regarding the possible trans-boundary impact of the project; and
- 4749 (2) a written notification explaining the nature of the decision to be taken as to whether or not to grant consent⁵ in respect of the relevant project and informing the member state in question that it may within such reasonable period as may be specified in the notification request to participate in the procedure⁶ relating to the taking of the decision⁷.

Where any other member state requests to participate in the procedure⁸ in relation to a relevant project, the Secretary of State must, save to the extent that he has not already done so, send to that member state:

- 4750 (a) a copy of the application for consent in respect of the relevant project, a copy of any proposals submitted to the Secretary of State for approval⁹ or, as the case may be, any notice served by the Secretary of State of a project proposed to be carried out by an undertaker¹⁰;
- 4751 (b) the environmental statement relating to that project; and
- 4752 (c) to the extent that it is not included in the items referred to in head (a) or head (b) above, and subject to the exception for confidentiality¹¹, any other available information of a specified¹² nature¹³.

Where it appears to the Secretary of State that the carrying out of a relevant project would be likely to have a significant effect on the environment of an EEA state¹⁴ other than a member state or any such EEA state which considers that its environment is likely to be significantly affected by that project so requests, the Secretary of State must forward to the state in question the environmental statement relating to that project at the same time as it is made available to the public¹⁵ or, where a request is made after the date on which the environmental statement is made available to the public, as soon as reasonably practicable after receipt of the request by the Secretary of State¹⁶.

Nothing in the above provisions requires the disclosure by the Secretary of State of any material which is subject to an obligation of confidentiality under the law of any part of the United Kingdom¹⁷.

- 17 Ibid reg 12(4). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1654. Projects in other EEA states having a significant effect on the environment in the transboundary area.

1654. Projects in other EEA states having a significant effect on the environment in the transboundary area.

Where the Secretary of State¹ receives information² from another EEA state³ which that EEA state has gathered from the developer of a relevant project⁴ in that EEA state which is likely to have significant effects⁵ on the environment of the transboundary area⁶, the Secretary of State must:

- 4753 (1) enter into consultations with that EEA state regarding, inter alia, the potential significant effects of the proposed project on the environment of the transboundary area and the measures envisaged to reduce or eliminate such effects; and
- 4754 (2) determine in agreement with that EEA state a reasonable period, before development consent for the project is granted, during which members of the public in the United Kingdom⁷ may submit representations⁸ to the competent authority in that EEA state⁹.

The Secretary of State must also:

- 4755 (a) arrange for the information referred to above to be made available, within a reasonable time, both to the environmental authorities¹⁰ in the United Kingdom which he considers are likely to be concerned by the project by reason of their particular environmental responsibilities, and to the public concerned;
- 4756 (b) ensure that those authorities and the public concerned in the United Kingdom are given an opportunity, before development consent for the project is granted, to forward to the competent authority in the EEA state, within a reasonable time, their opinion on the information supplied; and
- 4757 (c) so far as he has received such information, notify those authorities and the public concerned of the content of any decision of the competent authority of that EEA state, and in particular:

461

- 687. (i) any conditions attached to it;
- 688. (ii) the main reasons and considerations on which the decision was based including, if relevant, information about the participation of the public; and
- 689. (iii) a description of the main measures to avoid, reduce and, if possible, offset any major adverse effects that have been identified¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 le pursuant to EEC Council Directive 85/337 (OJ L175, 5.7.85, p 40) on the assessment of the effects of certain public and private projects on the environment, art 7(1) or (2) (as substituted).

3 For the meaning of 'EEA state' see PARA 1646 note 32 ante.

4 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

5 For the meaning of 'effect' see PARA 1646 note 7 ante.

6 'Transboundary area' means the area comprising the relevant area but excluding (1) the tidal waters and parts of the sea adjacent to Scotland from the low-water mark to the seaward limits of the territorial sea; and (2) the sea bed and subsoil under the waters referred to in head (1) supra: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 3(1) (definition added by SI 2007/933). For the meaning of 'the relevant area' see PARA 1644 note 4 ante.

7 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

8 le pursuant to EEC Council Directive 85/337 (OJ L175, 5.7.85, p 40) art 7(3)(b) (as substituted).

9 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 12A(1) (reg 12A added by SI 2007/933).

10 For the meaning of 'environmental authority' see PARA 1646 note 16 ante.

11 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 12A(2) (as added: see note 9 supra).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1655. Exempt projects.

1655. Exempt projects.

The Secretary of State¹ may in exceptional circumstances direct that a relevant project² is to be exempt in whole or in part from the requirements of the relevant environmental assessment regulations³ provided that he is satisfied that the carrying out of that project is not likely to have a significant effect⁴ on the environment of any other EEA state⁵. Prior to the giving of any such direction, the Secretary of State must inform the European Commission of the reasons justifying the exemption to be granted and provide it with details of the information to be made available to the public pursuant to head (2) below⁶.

A direction given by the Secretary of State in pursuance of the above provision must:

- 4758 (1) require the carrying out of such other form of assessment as the Secretary of State considers appropriate;
- 4759 (2) require that all information relating to the main effects the project is likely to have on the environment collected pursuant to head (1) above is to be made available to the public and specify the manner in which it is to be made available;
- 4760 (3) specify the extent to which the relevant environmental assessment regulations are to apply or that they are not to apply at all; and
- 4761 (4) include a statement of his reasons for giving the direction⁷;

and it may disapply such provisions of those regulations as may in the circumstances appear to him to be appropriate⁸.

The Secretary of State must publish details of any direction so made together with information as to how persons interested in, or affected by, the project may obtain a copy of any direction given pursuant to these provisions in the Gazettes⁹ and by any other means he considers appropriate (which may include an electronic communication¹⁰).

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

3 I.e. the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360 (as amended): see PARA 1644 et seq ante, PARA 1656 et seq post.

7 Ibid reg 13(3) (amended by SI 1997/933).

8 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 13(4).

9 For the meaning of 'Gazettes' see PARA 1646 note 29 ante.

10 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 13(5) (substituted by SI 1997/333). For the meaning of 'electronic communication' see PARA 1646 note 30 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1656. Applications to the court.

1656. Applications to the court.

On the application of any person aggrieved¹:

- 4762 (1) by the grant of consent² in respect of a relevant project³ in relation to which an environmental statement⁴ was required to be submitted⁵, the court⁶ may grant an order quashing the grant of consent where it is satisfied that the consent was granted in contravention of the Secretary of State's duty to take the specified matters into consideration⁷, or that the interests of the applicant have been substantially prejudiced by any failure to comply with any other requirement⁸ of the relevant regulations⁹;
- 4763 (2) by an approval¹⁰ or the imposition of a relevant requirement¹¹ in respect of a relevant project in relation to which an environmental statement was required to be submitted¹², the court may grant an order quashing the approval or, as the case may be, the imposition of the relevant requirement where it is satisfied that the approval or, as the case may be, the imposition of the relevant requirement was in contravention of the Secretary of State's duty to take the specified matters into consideration¹³, or that the interests of the applicant have been substantially prejudiced by any failure to comply with any other requirement¹⁴ of the relevant regulations¹⁵.

An application to the court under head (1) or head (2) above must be made within six weeks from the date of publication in the Gazettes¹⁶ of details of the consent, approval or, as the case may be, imposition of the relevant requirement¹⁷. The court may by interim order, pending the determination of any question referred to in heads (1) and (2) above, stay the operation of the consent, approval or, as the case may be, the relevant requirement on such terms as it may think fit¹⁸.

Where:

- 4764 (a) any activity in relation to a relevant project is being, or has been, carried out without the necessary consent or approval of the Secretary of State granted in accordance with the relevant regulations¹⁹ or otherwise than in accordance with a relevant requirement imposed in accordance with those regulations; or
- 4765 (b) a relevant project is being, or has been, carried out in breach of any condition attached to any consent or approval, being a condition so attached for the purpose of reducing or eliminating any significant adverse effects²⁰ on the environment,

the court may²¹, on the application of the Secretary of State, make an order restraining the continued carrying out of the relevant project or compelling the performance of any act required to be done by a condition of the kind mentioned in head (b) above²². The court may, in addition to making such an order, make an order requiring:

- 4766 (i) the removal, so far as is practicable in all the circumstances, of any structure²³ erected:

463

690. (A) without the consent or approval of the Secretary of State as mentioned in head (a) above;

691. (B) otherwise than in accordance with any relevant requirement as mentioned in head (a) above; or

692. (C) in breach of a condition of the kind mentioned in head (b) above; and

464

4767 (ii) where it orders the removal of any structure, the reinstatement of the site where the structure was erected²⁴.

The court may not, however, grant an order under these provisions in respect of a breach of any condition of the kind mentioned in head (b) above where either the breach in question was due to circumstances beyond the control of the undertaker²⁵ and the breach could not reasonably have been prevented by the undertaker²⁶ or the breach occurred as a result of anything required to be done as a matter of urgency for the purposes of securing the safety of any person²⁷. Nor do these provisions apply to anything done in relation to a project which is the subject of an exemption granted²⁸ in respect of an exempt project²⁹.

Where the undertaker fails to comply with the terms of an order made pursuant to head (i) or head (ii) above within such time as may be specified in it or, in default of such specification, within a reasonable time of the making of the order, the Secretary of State may himself take the action required to be taken by the order and the reasonable costs and expenses of doing so are to be recoverable as a debt from the undertaker³⁰. Where the Secretary of State takes such action, that action is without prejudice to any consequences which may flow from the undertaker's failure to comply with the order³¹.

1 As to the meaning of 'person aggrieved' see JUDICIAL REVIEW vol 61 (2010) PARA 656.

2 For the meaning of 'consent' see PARA 1646 note 2 ante.

3 For the meaning of 'relevant project' see PARA 1645 note 2 ante.

4 For the meaning of 'environmental statement' see PARA 1646 note 8 ante.

5 Ie by virtue of the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 5(1) (as substituted) (grant of consent by Secretary of State in respect of relevant projects): see PARA 1646 ante. As to the Secretary of State see PARA 601 note 1 ante.

6 Subject to *ibid* reg 15(3), for the purposes of reg 16 (as amended) (application to court by person aggrieved: see the text and notes 1-5 *supra*, 7-17 *infra*) and reg 17 (application to court by Secretary of State: see the text and notes 18-30 *infra*), 'the court' means (1) in respect of a relevant project in the English area, the High Court; (2) in respect of a relevant project in the Scottish area, the Court of Session; and (3) in respect of a relevant project in the Northern Irish area, the High Court in Northern Ireland: reg 15(1). For these purposes 'the English area', 'the Scottish area' and 'the Northern Irish area' have the same meanings as in the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197: Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 15(2). 'The English area' means such of the offshore area adjacent to England and Wales which lies to the south of the Scottish border and east of the Northern Irish border together with the internal waters of England and Wales in so far as they are tidal or constitute parts of the sea; 'the Scottish area' means such of the offshore area adjacent to Scotland which lies to the north of the Scottish border and east of the Northern Irish border together with the internal waters of Scotland in so far as they are tidal or constitute parts of the sea; and 'the Northern Irish area' means such of the offshore area adjacent to Northern Ireland which lies to the west of the Northern Irish border together with the internal waters of Northern Ireland in so far as they are tidal or constitute parts of the sea: Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 1(2) (as so applied). For the meaning of 'the offshore area' see PARA 1679 note 7 *post*. Where a project is situated in more than one of those areas, then any of the courts having jurisdiction in those areas has jurisdiction in relation to any question arising under the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 16 (as amended) or reg 17: reg 15(3).

7 Ie in contravention of *ibid* reg 5(4)(b) (consideration of environmental statement etc): see PARA 1646 ante.

24 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 17(2).

25 For the meaning of 'undertaker' see PARA 1645 note 2 ante.

26 Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 17(3)(a).

27 Ibid reg 17(3)(b).

28 le granted pursuant to ibid reg 13 (as amended): see PARA 1655 ante.

29 Ibid reg 17(6).

30 Ibid reg 17(4).

31 Ibid reg 17(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(ii) Assessment of Environmental Effects/1657. Offences.

1657. Offences.

Any person who intentionally or recklessly¹ submits to the Secretary of State²:

- 4768 (1) an environmental statement³;
- 4769 (2) appropriate particulars⁴; or
- 4770 (3) any other information required to be submitted by virtue of any provision of the relevant regulations⁵,

which is false or misleading in a material particular is guilty⁶ of an offence⁷.

An undertaker⁸ who:

- 4771 (a) intentionally acts in breach of the terms of a condition attached to any consent⁹ or approval¹⁰, being a condition so attached for the purpose of reducing or eliminating any significant adverse effects¹¹ on the environment; or
- 4772 (b) carries out any activity in relation to a relevant project¹² without the necessary consent or approval of the Secretary of State granted in accordance with the relevant regulations¹³ or otherwise than in accordance with a relevant requirement¹⁴ imposed in accordance with those regulations,

is guilty¹⁵ of an offence¹⁶.

The above provisions do not, however, apply to anything which is an offence by virtue of the provision of the Petroleum Act 1998¹⁷ relating to enforcement¹⁸; nor do they apply to anything done in relation to a project which is the subject of an exemption granted¹⁹ in respect of an exempt project²⁰.

Proceedings for an offence under the above provisions may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom²¹. No proceedings may, however be instituted in England and Wales except by or with the consent of the Director of Public Prosecutions²² or by the Secretary of State or a person authorised by him in that behalf²³.

It is a defence to a charge under head (a) above for the undertaker to show:

- 4773 (i) that he took all reasonable steps to avoid the commission of the offence; or
- 4774 (ii) that the acts in question were attributable to anything required to be done as a matter of urgency for the purposes of securing the safety of any person²⁴.

A person guilty of an offence under these provisions is liable on summary conviction to a fine not exceeding the statutory maximum and on conviction on indictment to a fine²⁵. Where any offence provided for by these provisions committed by a body corporate is proved to have been committed with the consent or connivance of, or to have been attributable to any neglect on the part of, any director, manager, secretary or other similar officer of the body corporate or on the part of any person purporting to act in such capacity, he as well as the body corporate is guilty of that offence and is liable to be proceeded against and punished accordingly²⁶.

- 26 Ibid reg 18(6). Where the affairs of a body corporate are managed by its members, reg 18(6) applies in relation to the acts or defaults of a member in connection with his functions of management as if he were a director of the body corporate: reg 18(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(iii) Conservation of Habitats/1658-1660 Conservation of Habitats

(iii) Conservation of Habitats

1658-1660 Conservation of Habitats

Material relating to this part has been revised and published under the title ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vols 45, 46 (2010).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(iv) Types of Licences/A. LICENCES IN RESPECT OF SEAWARD AREAS OR LANDWARD AREAS BELOW LOW-WATER LINE/1661. Production licences.

(iv) Types of Licences

A. LICENCES IN RESPECT OF SEAWARD AREAS OR LANDWARD AREAS BELOW LOW-WATER LINE

1661. Production licences.

Any person may apply¹ for a production licence in respect of a seaward area² only³. Every application for such a production licence must relate to a block or a tranche described in a notice published in the Official Journal or to a number of blocks or tranches so described⁴. That notice must describe, by reference to a map deposited at the office of the Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry) specified in the notice and at such other places, if any, as may be specified in the notice:

- 4775 (1) areas to which reference numbers must be assigned ('blocks');
- 4776 (2) groups of contiguous blocks to which reference numbers must be assigned ('tranches'); or
- 4777 (3) both blocks and tranches to which reference numbers must be assigned,

in respect of which the Secretary of State⁵ is prepared to receive applications for production licences⁶. The notice must⁷ provide for applications relating to any of the blocks or tranches so described to be made and determined in competition with others, specifying:

- 4778 (a) a date before which any such applications are to be made, being a date at least 90 days after the date on which the notice is published; and
- 4779 (b) a date on which, or a period within which, licences will be granted to successful applicants⁸.

In the case, however, of any block in respect of which:

- 4780 (i) provision for competing applications was made on a previous occasion in a notice published in the Official Journal; and
- 4781 (ii) that provision did not result in the grant of a licence,

the notice may provide for applications to be made and determined at any time⁹.

Where the Secretary of State decides that geological or production considerations justify the granting of a production licence in respect of any area to the holder of a licence in respect of a contiguous area, and notifies him and any other holders of licences in respect of areas contiguous to the area in question accordingly, any of them may apply for a licence in respect of the area in question within whatever period the Secretary of State considers sufficient for this purpose and specifies in the notification¹⁰.

With every application for a production licence in respect of a seaward area only there must be paid a fee of £2,820¹¹.

Every production licence must incorporate the appropriate model clauses, unless the Secretary of State thinks fit to modify or exclude, in any particular case, the clauses prescribed in relation to such licences¹².

There is nothing to prevent more than one application being made by the same person or more than one licence being granted to him¹³.

1 In accordance with the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213 (as amended). The 1988 Regulations were made under the Petroleum (Production) Act 1934 s 6 (repealed) but now have effect as if made under the Petroleum Act 1998 s 4 (see PARA 1639 ante) by virtue of s 49, Sch 3 Pt I para 1(2). An application for a licence must be made in writing and must be in the form specified in the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, Sch 3 (amended by SI 1992/2378; SI 1995/1435; SI 1996/2946) or in a form substantially to the like effect, sent to the Licensing Branch, Oil and Gas Division, Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry), London SW1, and must be accompanied by the appropriate fee and by such evidence and particulars or documents in support thereof as are referred to in Sch 3 (as amended) and are appropriate to that application: Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 5(1) (amended by SI 1995/1435). If any of the matters stated in an application or any further information supplied by the applicant change after the application is made or after the information is given but before a licence is granted or the Secretary of State informs the applicant that the application is refused, the applicant must forthwith give notice in writing to the Secretary of State giving particulars of the change: Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 5(2).

2 For the meaning of 'seaward area' for these purposes see PARA 1640 ante.

3 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 4(a).

4 Ibid reg 7(1) (substituted by SI 1996/2946).

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 7(2) (reg 7(2)-(5) substituted by SI 1995/1435; the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 7(2), (3) amended by SI 1996/2946).

7 In subject to the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 7(4) (as substituted): see the text and note 9 infra.

8 Ibid reg 7(3) (as substituted and amended: see note 6 supra).

9 Ibid reg 7(4) (as substituted: see note 6 supra).

10 Ibid reg 7(5) (as substituted: see note 6 supra).

11 Ibid reg 9(2) (amended by SI 1996/2946).

12 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 8(1). For the prescribed model clauses see the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended); and PARAS 1671-1673 post.

13 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 10.

UPDATE

1661 Production licences

TEXT AND NOTE 11--The fee is now £2,100: SI 1988/1213 reg 9(2) (further amended by SI 2009/3283).

NOTE 12--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(iv) Types of Licences/A. LICENCES IN RESPECT OF SEAWARD AREAS OR LANDWARD AREAS BELOW LOW-WATER LINE/1662. Exploration licences.

1662. Exploration licences.

Any person may apply¹ for an exploration licence in respect of the whole or part of the seaward areas² or the landward areas below the low-water line³. The fee payable on every application for an exploration licence is £500⁴. There is nothing to prevent more than one application being made by the same person or more than one licence being granted to him⁵. Every exploration licence must incorporate the appropriate model clauses, unless the Secretary of State⁶ thinks fit to modify or exclude, in any particular case, the clauses prescribed in relation to such licences⁷.

1 In accordance with the Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213 (as amended). As to the method of application see PARA 1661 note 1 ante.

2 For the meaning of 'seaward areas' for these purposes see PARA 1640 ante.

3 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 4(b). For the meaning of 'landward areas below the low-water line' see PARA 1640 ante.

4 Ibid reg 9(3).

5 Ibid reg 10.

6 As to the Secretary of State see PARA 601 note 1 ante.

7 Petroleum (Production) (Seaward Areas) Regulations 1988, SI 1988/1213, reg 8(1). For the prescribed model clauses see Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended); and PARA 1670 post.

UPDATE

1662 Exploration licences

NOTE 7--For the prescribed model clauses in relation to licences granted on or after 13 November 2009 see the Offshore Exploration (Petroleum, and Gas Storage and Unloading) (Model Clauses) Regulations 2009, SI 2009/2814.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(iv) Types of Licences/B. LICENCES IN RESPECT OF LANDWARD AREAS/1663. Petroleum development and exploration licences.

B. LICENCES IN RESPECT OF LANDWARD AREAS

1663. Petroleum development and exploration licences.

Any person may apply¹ for a petroleum exploration and development licence² in respect of a landward area³. Every application for a petroleum exploration and development licence must⁴ relate to a block described in a notice published in the Official Journal or to a number of contiguous blocks so described⁵. That notice must describe, by reference to a map deposited at the office of the Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry) specified in the notice and at such other places, if any, as may be specified in the notice, areas ('blocks') to which reference numbers must be assigned, in respect of which the Secretary of State⁶ is prepared to receive applications for petroleum exploration and development licences⁷. The notice must⁸ provide for applications relating to any of the blocks so described to be made and determined in competition with others, specifying:

- 4782 (1) a date before which any such applications are to be made, being a date at least 90 days after the date on which the notice is published; and
- 4783 (2) a date on which, or a period within which, licences will be granted to successful applicants⁹.

In the case, however, of any block in respect of which:

- 4784 (a) provision for competing applications was made on a previous occasion in a notice published in the Official Journal; and
- 4785 (b) that provision did not result in the grant of a licence,

the notice may provide for applications to be made and determined at any time¹⁰.

Where the Secretary of State decides that geological or production considerations justify the granting of a petroleum exploration and development licence in respect of any area to the holder of a licence in respect of a contiguous area, and notifies him and any other holders of licences in respect of areas contiguous to the area in question accordingly, any of them may apply for a licence in respect of the area in question within whatever period the Secretary of State considers sufficient for this purpose and specifies in the notification¹¹.

An application for a petroleum exploration and development licence must include the specified information¹², accompanied by such evidence and particulars or documents in support thereof as are referred to in the relevant statutory provision¹³ and are appropriate to that application¹⁴. In respect of each applicant for a petroleum exploration and development licence which is a body corporate there must accompany the application two copies of the most recent audited accounts of such applicant and two copies of the most recent audited accounts of any body corporate having control¹⁵ of such applicant¹⁶. There must also accompany the application a list of the bodies corporate whose accounts are submitted pursuant to the above requirement¹⁷. Where the most recent audited accounts of a body corporate whose accounts are required to accompany an application are in respect of a period ending on a date more than 12 months before the date of the application, there must also accompany the application two copies of a

balance sheet showing the state of the body corporate's affairs as at the latest date within that 12 months period in respect of which a balance sheet can be made available¹⁸. In the case of each applicant who is not a body corporate there must accompany the application evidence demonstrating that he will have sufficient resources available to him to undertake the work programme¹⁹ described in the application²⁰. If any of the matters stated in an application or any further information supplied by the applicant change after the application is made or after the information is given but before a petroleum exploration and development licence is granted or the Secretary of State informs the applicant that the application is refused, the applicant must forthwith give notice in writing to the Secretary of State giving particulars of the change²¹.

Every petroleum exploration and development licence must incorporate the prescribed model clauses unless the Secretary of State thinks fit or modify or exclude, in any particular case, the clauses prescribed in relation to such licences²². Every application for such a licence must be accompanied by a fee of £1,000²³. There is nothing to prevent more than one application being made by the same person or more than one such licence being granted to him²⁴.

1 Ie in accordance with the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436. The 1995 Regulations were made under the Petroleum (Production) Act 1934 s 6(1) (repealed) but now have effect as if made under the Petroleum Act 1998 s 4 (see PARA 1639 ante) by virtue of s 49, Sch 3 Pt I para 1(2). Every application for a licence must (1) be made in writing and sent to Oil and Gas Division, Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry), London, SW1; and (2) be accompanied by the appropriate fee: Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 5(1). Every application for a licence which relates to an area bounded by any of the lines specified in Sch 1 must be accompanied by two copies of an Ordnance Survey map on a scale of 1:25,000, or such other map or chart as the Secretary of State may allow, upon which the boundaries of the area in relation to which the licence is sought are clearly defined: reg 5(2). For additional requirements with regard to applications for petroleum exploration and development licences see reg 6, Sch 2; and the text and notes 12-21 infra; and as to the appropriate fee see the text and note 23 infra.

2 'Petroleum exploration and development licence' means a licence granted pursuant to the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436 (as amended) to search and bore for and get petroleum in a landward area: reg 2. For the meaning of 'landward area' see PARA 1640 ante; and for the meaning of 'petroleum' see PARA 1626 ante.

3 Ibid reg 4(1)(a).

4 Ie subject to ibid reg 7(5): see the text and note 11 infra.

5 Ibid reg 7(1).

6 As to the Secretary of State see PARA 601 note 1 ante.

7 Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 7(2).

8 Ie subject to ibid reg 7(4): see the text and note 10 infra.

9 Ibid reg 7(3).

10 Ibid reg 7(4).

11 Ibid reg 7(5).

12 Ie the information specified in ibid reg 6(1), Sch 2.

13 Ie as are referred to in ibid Sch 2.

14 Ibid reg 6(1).

15 Whether for these purposes a body corporate has control of another body corporate is to be determined as if the Income and Corporation Taxes Act 1988 s 416(2), (4)-(6) (see INCOME TAXATION vol 23(2) (Reissue) PARA 1299) applied subject to the following modifications, namely: (1) for the words 'the greater part' wherever they occur in the s 416(2) there were substituted the words 'one-third or more'; (2) in s 416(6), for the word 'may', there were substituted the word 'shall', the words from 'and such attributions' onwards were omitted, and in the other provisions of s 416(6) any reference to an associate of a person is to be construed as including only a

relative of his (as defined by s 417(4) (as amended) (ie spouse or civil partner, parent or remoter forebear, child or remoter issue, or brother or sister), a partner of his and a trustee of a settlement (as defined by s 681(4) (now repealed)) of which he is a beneficiary: Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 6(3).

16 Ibid reg 6(2).

17 Ibid reg 6(4).

18 Ibid reg 6(5).

19 'Work programme' means a scheme of prospecting including any geological survey by any physical or chemical means and any test drilling: ibid reg 2.

20 Ibid reg 6(6).

21 Ibid reg 6(7).

22 Ibid reg 9(1). For the prescribed model clauses see the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended); and PARA 1674 post.

23 Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 10(1).

24 Ibid reg 11.

UPDATE

1663-1665 Licences in Respect of Landward Areas

Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436 further amended: Energy Act 2008 s 77, Sch 3 Pt 1.

1663 Petroleum development and exploration licences

TEXT AND NOTE 23--The fee is now £1,400: SI 1995/1436 reg 10(1) (amended by SI 2009/3283).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(iv) Types of Licences/B. LICENCES IN RESPECT OF LANDWARD AREAS/1664. Supplementary seismic survey licences.

1664. Supplementary seismic survey licences.

A person who holds a principal licence¹ may apply² for a supplementary seismic survey licence³ in respect of a landward area⁴ contiguous to the area to which the principal licence relates⁵. An application for such a licence may be made at any time⁶. Every such application must relate to a clearly defined area, no part of which is:

- 4786 (1) subject to a principal licence;
- 4787 (2) more than one kilometre from the boundary of the area to which a principal licence held by the applicant relates; or
- 4788 (3) below the low-water line⁷.

Every such application must be accompanied by two copies of a programme in accordance with which the applicant proposes to undertake seismic surveys in both the area to which the principal licence relates and the area to which the supplementary seismic survey licence is to relate⁸.

Every such licence must incorporate the appropriate model clauses unless the Secretary of State⁹ thinks fit to modify or exclude, in any particular case, the clauses prescribed in relation to such licences¹⁰. With every application for a supplementary seismic survey licence a fee of £150 is payable¹¹. Nothing prevents more than one application being made by the same person¹².

1 'Principal licence' means a licence of any description under the Petroleum Act 1998 other than a methane drainage licence or a supplementary seismic survey licence: Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 2; Interpretation Act 1978 s 17(2). As to methane drainage licences see PARA 1665 post; and for the meaning of 'supplementary seismic survey licence' see note 3 infra.

2 In accordance with the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436. As to the method of application see PARA 1663 note 1 ante.

3 'Supplementary seismic survey licence' means a licence to search for petroleum by undertaking seismic surveys in an area adjacent to an area to which a principal licence relates: *ibid* reg 2. For the meaning of 'petroleum' see PARA 1626 ante.

4 For the meaning of 'landward area' see PARA 1640 ante.

5 Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 4(2).

6 *Ibid* reg 5(3).

7 *Ibid* reg 8(1). For the meaning of 'low-water line' see PARA 1640 ante.

8 *Ibid* reg 8(2).

9 As to the Secretary of State see PARA 601 note 1 ante.

10 Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 9(1). For the prescribed model clauses see reg 9(2)(b), Sch 4; and PARA 1675 post.

11 *Ibid* reg 10(2).

12 Ibid reg 11.

UPDATE

UPDATE

1663-1665 Licences in Respect of Landward Areas

Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436 further amended: Energy Act 2008 s 77, Sch 3 Pt 1.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/A. IN GENERAL/1666. Compulsory acquisition of ancillary rights.

(v) Rights and Duties of Licensees

A. IN GENERAL

1666. Compulsory acquisition of ancillary rights.

The provisions of the Mines (Working Facilities and Support) Act 1966¹ apply for the purpose of enabling a person holding a licence² to acquire such ancillary rights³ as may be required for the exercise of the rights granted by the licence⁴, and have effect accordingly, subject to certain modifications⁵.

However, in relation to any application made to the court for such ancillary rights, in deciding whether to grant any right applied for or what terms and conditions, if any, should be imposed⁶ upon the grant of such a right, the court must have regard, among other considerations⁷, to the effect on the amenities of the locality of the proposed use and occupation of the land in respect of which the right is applied for⁸. In determining the amount of any compensation⁹ to be paid in respect of any such grant, an additional allowance of not less than 10 per cent must be made on account of the acquisition of the right being compulsory¹⁰.

No order may be made for the applicant's costs to be paid by any person from whom a right is sought to be obtained¹¹; and the costs in connection with the application incurred by each person from whom a right is sought to be obtained must be ordered to be paid by the applicant unless the court is satisfied that an unconditional offer in writing was made by the applicant to that person of a sum as compensation equal to or greater than the amount of any compensation awarded to him by the court¹².

1 See MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 383 et seq.

2 I.e a licence granted under the Petroleum Act 1998 Pt I (ss 1-9): see PARA 1626 et seq ante. As to the Secretary of State's power to grant such licences see PARA 1639 ante.

3 For the meaning of 'ancillary rights' for the purposes of the Mines (Working Facilities and Support) Act 1966 s 2 (as amended) see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 387. Without prejudice to the generality of s 2(1) (as amended), the 1966 Act has effect for these purposes as if the ancillary rights mentioned in s 2(1) (as amended) included (1) a right to enter upon land and to sink boreholes in the land for the purpose of searching for and getting petroleum; and (2) a right to use and occupy land for (a) the erection of such buildings; (b) the laying and maintenance of such pipes; and (c) the construction of such other works, as may be required for the purpose of searching and boring for and getting, carrying away, storing, treating and converting petroleum: Petroleum Act 1998 s 7(3). For the meaning of 'petroleum' see PARA 1626 ante.

4 Ibid s 7(1).

5 See ibid s 7(2). The modifications are that (1) references to a person having a right to work minerals include references to a person holding a licence under Pt I; (2) references to minerals include references to petroleum; and (3) references to the working of minerals include references to the getting, carrying away, storing, treating and converting of petroleum: s 7(2)(a)-(c).

6 As to the imposition of terms and conditions see the Mines (Working Facilities and Support) Act 1966 5(1), (4); and MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 395.

7 As to the considerations to be taken into account by the court see ibid s 5(3), (4); and MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 395.

8 Petroleum Act 1998 s 7(4)(a).

9 As to compensation generally in respect of grants of rights see the Mines (Working Facilities and Support) Act 1966 s 8; and MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 397; see also *BP Petroleum Developments Ltd v Ryder* [1987] 2 EGLR 233, [1987] RVR 211.

10 Petroleum Act 1998 s 7(4)(b). See also *BP Petroleum Developments Ltd v Ryder* [1987] 2 EGLR 233, [1987] RVR 211.

11 Petroleum Act 1998 s 7(4)(c).

12 Ibid s 7(4)(d).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/A. IN GENERAL/1667. Obligation to give facilities.

1667. Obligation to give facilities.

The obligations imposed by the Mining Industry Act 1926¹ with regard to the giving of information and permitting of access to the Natural Environment Research Council² in relation to the sinking of shafts and boreholes extend to such operations when undertaken in Great Britain³ for the purpose of searching for or getting petroleum⁴.

1 See the Mining Industry Act 1926 s 23(1) (as amended); and MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 263.

2 As to the Natural Environment Research Council see NATIONAL CULTURAL HERITAGE vol 77 (2010) PARA 970.

3 The obligations under the Mining Industry Act 1926 s 23(1) (as amended) have not been extended to operations outside Great Britain; but model clauses prescribed for inclusion in licences for both landward and seaward areas include requirements as to the keeping of records (including geological records) and samples, and for the delivery to the Secretary of State of copies of records and parts of samples: see PARA 1670 post at heads (10)-(12) in the text; and PARAS 1671-1674 post at heads (21)-(23) in the text of each of those paragraphs.

4 See the Mining Industry Act 1926 s 23(6) (added by the Petroleum Act 1998 s 50, Sch 4 para 1). For the meaning of 'petroleum' see PARA 1626 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/A. IN GENERAL/1668. Secretary of State's powers to require information.

1668. Secretary of State's powers to require information.

The Secretary of State¹ may only require an entity² which has been granted a licence³ to provide information on its intended or actual sources of procurement of supplies, works or services if that request is made exclusively with a view to the objectives set out in the relevant provision⁴ of the EC Treaty⁵; and he may only request information from an entity which has been granted a licence to monitor the activities of that entity if that monitoring is justified by any of the specified⁶ considerations⁷.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'entity' see PARA 1641 note 5 ante.

3 For the meaning of 'licence' see PARA 1642 note 1 ante.

4 Ie the objectives set out in the EC Treaty art 30 (ex art 36).

5 Hydrocarbons Licensing Directive Regulations 1995, SI 1995/1434, reg 7(1).

6 Ie the considerations specified in ibid reg 4(1), (2): see PARA 1642 ante.

7 Ibid reg 7(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(A) The Petroleum (Current Model Clauses) Order 1999/1669. The Petroleum (Current Model Clauses) Order 1999.

B. MODEL CLAUSES

(A) THE PETROLEUM (CURRENT MODEL CLAUSES) ORDER 1999

1669. The Petroleum (Current Model Clauses) Order 1999.

In an order made before 15 February 1999¹, the Secretary of State² was to reproduce the specified³ current model clauses⁴. In compliance with this requirement, the Secretary of State made the Petroleum (Current Model Clauses) Order 1999⁵, which came into force on 15 February 1999⁶. Any licence granted under the Petroleum (Production) Act 1934⁷ which was in force immediately before that date and which, when granted, incorporated any of the specified model clauses⁸, had effect on that date as if it incorporated, in place of the relevant model clauses⁹, the current model clauses so reproduced¹⁰. Where immediately before 15 February 1999 any such licence incorporated model clauses subject to any amendment or modification, or with the omission of any model clause, the current model clauses so reproduced have effect in relation to that licence:

- 4789 (1) subject to the same amendment or modification; or
- 4790 (2) as the case may be, with the omission of the model clause corresponding to the model clause omitted from the licence¹¹;

and where immediately before that date substitute model clauses¹² had been substituted for the model clauses originally incorporated in any licence granted under the 1934 Act¹³, the licence is to be treated for these purposes as if, when granted, it had incorporated the substitute model clauses¹⁴.

Notwithstanding anything contained in the Petroleum (Current Model Clauses) Order 1999, the prescribed model clauses¹⁵ in relation to:

- 4791 (a) exploration licences¹⁶;
- 4792 (b) production licences¹⁷; and
- 4793 (c) petroleum exploration and development licences¹⁸,

are now those provided for by the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004¹⁹.

1 Ie the commencement date of the Petroleum Act 1998: see PARA 1628 the text and notes 2-3 ante. However, s 5(1)-(4), Sch 1 (see the text and notes 2-4 infra) came into force on 11 June 1998: see s 52(1).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Ie model clauses in relation to each of the Petroleum Act 1998 Sch 1 paras 1-27, which list model clauses set out in a number of now superseded regulations.

4 See *ibid* s 5(4). For these purposes, the 'current model clauses' means, in relation to any paragraph of Sch 1, the model clauses which, immediately before 15 February 1999, would be incorporated in a licence granted

under the Petroleum (Production) Act 1934 s 2 (repealed) if the licence, when granted, had incorporated the model clauses mentioned in that paragraph: Petroleum Act 1998 s 5(1). The reference in s 5(1) to the model clauses which, immediately before 15 February 1999, would be incorporated in a licence is a reference to those model clauses as they would then have effect but as if any reference (however expressed) in a model clause to an enactment repealed and re-enacted by the Petroleum Act 1998 were, or (where the context requires) included, a reference to the corresponding provision of that 1998 Act: s 5(2). For the purposes of s 5(2), any provision of a model clause which would have effect (or would have a particular effect) only in relation to a licence of a description of which none was in force immediately before 15 February 1999 is to be treated as not then having effect (or as not then having that effect): s 5(3).

The order to be made under s 5(4) was to be made by statutory instrument, was to be laid before Parliament after being made and was to come into force on 15 February 1999: see s 5(11).

5 Ie the Petroleum (Current Model Clauses) Order 1999, SI 1999/160.

6 Ibid art 1.

7 Ie under the Petroleum (Production) Act 1934 s 2 (repealed).

8 Ie any of the model clauses mentioned in the Petroleum Act 1998 Sch 1 paras 1-27.

9 For these purposes, the relevant model clauses, in relation to any licence, are the model clauses which the licence incorporated immediately before 15 February 1999 other than any model clause which (1) was incorporated into the licence when it was granted; and (2) is not within any of Sch 1 paras 1-27: s 5(6).

10 Ibid s 5(5). Any provision incorporated in a licence by virtue of s 5(5) may be altered or deleted by an instrument under seal executed by the Secretary of State and the licensee or, as respects Scotland, by an instrument subscribed by the Secretary of State and the licensee in accordance with the Requirements of Writing (Scotland) Act 1995: Petroleum Act 1998 s 5(9). Where any provision is replaced by virtue of s 5(5): (1) a reference in any document to that provision (or which immediately before 15 February 1999 was to be construed as a reference to that provision) is, except so far as the nature of the document or context otherwise requires, to be construed as a reference to the replacement; and (2) anything done under or for the purposes of that provision must, except where the context otherwise requires, be treated as having been done under or for the purposes of the replacement: s 5(10).

11 Ibid s 5(7).

12 Ie model clauses set out in any regulations made under the Petroleum (Production) Act 1934 s 6 (repealed).

13 See note 7 supra.

14 Petroleum Act 1998 s 5(8).

15 Ie prescribed for the purposes of ibid s 4(1)(e): see PARA 1639 ante.

16 For the meaning of 'exploration licence' see PARA 1640 note 9 ante.

17 For the meaning of 'production licence' see PARA 1640 note 10 ante.

18 For the meaning of 'petroleum exploration and development licence' see PARA 1640 note 11 ante.

19 Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 3(1). See PARA 1670 et seq post. The model clauses so prescribed apply for the purposes of the twenty-second and subsequent rounds of licensing in seaward areas and the twelfth and subsequent rounds of licensing in landward areas.

UPDATE

1669 The Petroleum (Current Model Clauses) Order 1999

NOTES 4, 7--For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum (Production) Act 1934 s 2, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

NOTE 5--SI 1999/160 amended: Energy Act 2008 Sch 3 Pt 2.

NOTE 10--Petroleum Act 1998 s 5(9) amended: Energy Act 2008 Sch 5 para 8.

NOTE 19--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283); and the Offshore Exploration (Petroleum, and Gas Storage and Unloading) (Model Clauses) Regulations 2009, SI 2009/2814.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(B) Model Clauses for Exploration, Production and Development in Seaward and Landward Areas/1670. Model clauses for exploration licences.

(B) MODEL CLAUSES FOR EXPLORATION, PRODUCTION AND DEVELOPMENT IN SEAWARD AND LANDWARD AREAS

1670. Model clauses for exploration licences.

Model clauses have been prescribed¹ for incorporation in exploration licences² applied for on or after 5 March 2004³ which cover:

- 4794 (1) the grant of the licence⁴;
- 4795 (2) prospecting methods⁵;
- 4796 (3) the term of the licence⁶;
- 4797 (4) the licensee's right to determine the licence⁷;
- 4798 (5) the payment of consideration for the licence⁸;
- 4799 (6) restrictions on the commencement and abandonment of wells without the minister's consent and requirements as to the plugging of abandoned wells⁹;
- 4800 (7) the distance of wells from the boundaries of the exploration area¹⁰;
- 4801 (8) the avoidance of harmful methods of working¹¹;
- 4802 (9) the protection of fishing and navigation¹²;
- 4803 (10) the records to be kept by the licensee¹³;
- 4804 (11) the returns to be made by the licensee to the minister and to the Chancellor of the Exchequer¹⁴;
- 4805 (12) the keeping of samples¹⁵;
- 4806 (13) the minister's obligation to treat the licensee's reports as confidential¹⁶;
- 4807 (14) the minister's power to inspect the licensee's records¹⁷;
- 4808 (15) rights of access by persons authorised by the minister¹⁸;
- 4809 (16) the minister's power to execute works where the licensee is in default¹⁹;
- 4810 (17) the licensee's duty to indemnify the minister against third party claims²⁰;
- 4811 (18) an agreement not to assign rights under the licence without the minister's consent²¹;
- 4812 (19) the minister's power to revoke the licence²²;
- 4813 (20) provisions for arbitration in the event of disputes²³;
- 4814 (21) the licensee's obligations to give notice of certain activities to the Ministry of Defence²⁴; and
- 4815 (22) the licensee's obligation to appoint a fisheries liaison officer²⁵.

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person²⁶.

1 Ie for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante.

2 For the meaning of 'exploration licence' see PARA 1640 note 9 ante.

3 Ie the date when the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended) came into force: see reg 1.

4 See *ibid* reg 3(1), (2), Sch 1 cl 2. The licence is a non-exclusive licence conferring the right during its continuance and subject to its provisions to search for petroleum in the strata in the islands and in the sea bed and subsoil in any seaward area and in those parts of any landward area which are below the low-water line; provided that no rights conferred by the licence are to be exercisable in any area in respect of which a licence (not being a methane drainage licence) is for the time being in force, entitling the grantee of it to search and bore for and get petroleum, except with the agreement of the holder of that licence to the exercise in any such area of any such rights: Sch 1 para 2. 'The minister' means the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry); and 'the licensee' means the person or persons to whom the licence is granted, his personal representatives and any person or persons to whom the rights conferred by the licence may lawfully have been assigned: Sch 1 cl 1(1). For the meaning of 'landward area' and 'seaward area' see PARA 1640 note 13 *ante* (where definitions identical to those in Sch 1 cl 1(1) are set out); for the meaning of 'petroleum' see PARA 1626 *ante* (where a definition identical to that in Sch 1 cl 1(1) is set out); and as to methane drainage licences see PARA 1665 *ante*, PARA 1676 *post*.

5 The right to search for petroleum conferred by the licence includes prospecting and carrying out geological surveys by physical or chemical means and drilling for the purpose of obtaining geological information about strata in the exploration area but does not include any right to get petroleum or any right to drill wells for production of petroleum or any other well of a depth exceeding 350 metres below the surface of the sea bed or such greater depth as the minister may from time to time approve either generally or in relation to a particular well or in relation to a class of wells to which that well belongs: *ibid* Sch 1 cl 3. For these purposes, 'well' includes borehole; and 'the exploration area' means the area for the time being in which the licensee may exercise the rights granted by the licence: Sch 1 cl 1(1).

6 See *ibid* Sch 1 cl 4. Unless sooner determined under any of its provisions, the licence is to continue in force for the term of three years, but may, if the minister sees fit and the licensee has at least three months before the expiry of that term made a written request for its extension, be continued for a further period of three years: Sch 1 cl 4.

7 See *ibid* Sch 1 cl 5. The licensee may at any time determine the licence by giving to the minister not less than six months' previous notice in writing to that effect: Sch 1 cl 5.

8 See *ibid* Sch 1 cl 6.

9 See *ibid* Sch 1 cl 7. Where the licensee's rights in any area cease for the time being to be exercisable, by reason of the grant of a licence to search and bore for and get petroleum, or by reason of the ending of any such agreement as is referred to in the proviso to Sch 1 cl 2 (see note 4 *supra*), the licensee, unless the minister otherwise determines, must within one month after the date on which such rights cease to be exercisable plug any of the licensee's wells in that area: Sch 1 cl 7(5). All the licensee's wells (other than wells to which Sch 1 cl 7(5) applies) in the exploration area must, unless the minister otherwise determines, be plugged by the licensee not less than one month before the expiry or determination of the licensee's rights under the licence: Sch 1 cl 7(6). The plugging of any well must be done in accordance with a specification approved by the minister applicable to that well or to wells generally or to a class of wells to which that well belongs and must be carried out in an efficient and workmanlike manner: Sch 1 cl 7(7).

10 Except with the minister's consent in writing, no well is to be drilled or made so that any part of it is less than 125 metres from any of the boundaries of the exploration area: *ibid* Sch 1 cl 8.

11 See *ibid* Sch 1 cl 9. The licensee must maintain all apparatus and appliances and all wells which have not been abandoned and plugged as provided by Sch 1 cl 7 in good repair and condition and must execute all operations in or in connection with the exploration area in a proper and workmanlike manner in accordance with methods and practice of exploration customarily used in good oilfield practice: Sch 1 cl 9(1). He must comply with any relevant instructions from time to time given by the minister (see Sch 1 cl 9(2)) and must give notice to the minister of any event causing escape or waste of petroleum, damage to petroleum-bearing strata or entrance of water through wells to petroleum-bearing strata forthwith after the occurrence of that event (Sch 1 cl 9(3)). Forthwith after the occurrence of any event causing escape of petroleum into the sea, the licensee must give notice of the event to the Chief Inspector of Her Majesty's Coastguard: Sch 1 cl 9(3).

12 The licensee must not carry out any operations authorised by the licence in or about the exploration area in such manner as to interfere unjustifiably with navigation or fishing in the waters of the exploration area or with the conservation of the living resources of the sea: *ibid* Sch 1 cl 10.

13 See *ibid* Sch 1 cl 11.

14 See *ibid* Sch 1 cl 12.

15 See *ibid* Sch 1 cl 13. As far as reasonably practicable the licensee must correctly label and preserve for reference for a period of five years samples of the sea bed and of the strata encountered in any of the licensee's wells in the exploration area and samples of any petroleum or water discovered in any such wells

(Sch 1 cl 13(1)) and must not dispose of any sample after the expiry of that period unless he has at least six months before the date of the disposal given notice in writing to the minister of his intention to dispose of the sample and the minister or any person authorised by him has not within that period of six months informed the licensee in writing that he wishes the sample to be delivered to him (Sch 1 cl 13(2)).

16 See *ibid* Sch 1 cl 14.

17 See *ibid* Sch 1 cl 15.

18 See *ibid* Sch 1 cl 16.

19 If the licensee fails at any time to perform the obligations arising under the terms and conditions of *ibid* Sch 1 cl 7 or Sch 1 cl 9, the minister is entitled, after giving to the licensee reasonable notice in writing of his intention, to execute any works and to provide and install any equipment which in the opinion of the minister may be necessary to secure the performance of those obligations or any of them and to recover the costs and expenses of so doing from the licensee: Sch 1 cl 17.

20 See *ibid* Sch 1 cl 18.

21 The licensee must not, without the consent of the minister in writing, assign or part with any of the rights granted by the licence in relation to the whole or any part of the exploration area or grant any sub-licence in respect of any such rights: *ibid* Sch 1 cl 19.

22 See *ibid* Sch 1 cl 20. The minister may revoke the licence upon the occurrence of any of the following events: (1) any specified consideration or any part of it being in arrear or unpaid for two months next after any of the days on which it ought to have been paid; (2) any breach or non-observance by the licensee of any of the terms and conditions of the licence; (3) in Great Britain, the bankruptcy or sequestration of the licensee; (4) in Great Britain, the making by the licensee of any arrangement or composition with his creditors; (5) in Great Britain, if the licensee is a company, the appointment of a receiver or administrator or any liquidation whether compulsory or voluntary; (6) in a jurisdiction other than Great Britain, the commencement of any procedure or the making of any arrangement or appointment substantially corresponding to any of those mentioned in heads (3)-(5) *supra*; (7) if the licensee is a company, the licensee's ceasing to direct and control either (a) its operations under the licence; or (b) any commercial activities in connection with those operations from a fixed place within the United Kingdom; and where two or more persons are the licensee any reference to the licensee in heads (2)-(7) *supra* is a reference to any of those persons: Sch 1 cl 20(1), (2) (amended by SI 2006/784).

23 See the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 1 cl 21.

24 The licensee must give the Ministry of Defence six months' prior notice of any installation movements within the exploration area and six weeks' prior notice of any seismic survey within that area: *ibid* Sch 1 cl 22(1), (2). He must, at his own expense, install and maintain underwater sonar beacons to Ministry of Defence specifications on any structures that may be temporarily within the exploration area, provided that there is no requirement to fit such beacons to fixed and charted installations: Sch 1 cl 22(3).

25 See *ibid* Sch 1 cl 23.

26 *Ibid* Sch 1 cl 1(2).

UPDATE

1670-1674 Model Clauses for Exploration, Production and Development in Seaward and Landward Areas

Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 further amended: Energy Act 2008 s 77, Sch 3 Pt 3.

1670 Model clauses for exploration licences

TEXT AND NOTES--Model clauses have been prescribed by the Offshore Exploration (Petroleum, and Gas Storage and Unloading) (Model Clauses) Regulations 2009, SI 2009/2814, for incorporation in exploration licences granted on or after 13 November 2009. SI 2009/2814 also prescribes model clauses for incorporation in licences granted

on or after 13 November 2009 for loading, unloading and storage of gas and for establishing and maintaining a gas installation, most of which are identical to the clauses prescribed for incorporation in exploration licences; see PARA 1670A.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(B) Model Clauses for Exploration, Production and Development in Seaward and Landward Areas/1670A. Model clauses for loading, unloading and storage of gas and for establishing and maintaining a gas installation.

1670A. Model clauses for loading, unloading and storage of gas and for establishing and maintaining a gas installation.

Model clauses have been prescribed by the Offshore Exploration (Petroleum, and Gas Storage and Unloading) (Model Clauses) Regulations 2009, SI 2009/2814, for incorporation in licences granted on or after 13 November 2009 for (1) (a) the use of a controlled place for the unloading of gas to an installation or pipeline; (b) the use of a controlled place for the storage of gas; (c) the conversion of any natural feature in a controlled place for the purpose of storing gas; (d) the recovery of gas stored in a controlled place; and (2) establishing or maintaining an installation in a controlled place for the purposes of such exploration.

UPDATE

1670-1674 Model Clauses for Exploration, Production and Development in Seaward and Landward Areas

Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 further amended: Energy Act 2008 s 77, Sch 3 Pt 3.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(B) Model Clauses for Exploration, Production and Development in Seaward and Landward Areas/1671. Model clauses for production licences relating to frontier areas with no break clause.

1671. Model clauses for production licences relating to frontier areas with no break clause.

Model clauses have been prescribed¹ for incorporation in production licences² applied for on or after 5 March 2004³ which relate to frontier areas⁴ and which do not include a break clause⁵. Those model clauses cover:

- 4816 (1) the grant of the licence⁶;
- 4817 (2) the term of the licence⁷;
- 4818 (3) options to continue the licence into a second or a third term⁸, to continue it after the third term⁹ and to extend it further¹⁰;
- 4819 (4) the licensee's right to determine the licence or to surrender part of the licensed area¹¹;
- 4820 (5) provisions as to surrendered areas¹²;
- 4821 (6) payment of consideration for the licence¹³;
- 4822 (7) the method or methods used for the measurement of petroleum obtained from the licensed area¹⁴;
- 4823 (8) the licensee's duty to keep accounts¹⁵;
- 4824 (9) the licensee's obligations to carry out the work programme set out in the licence and any appropriate programme for exploring for petroleum in the licensed area which he has been required to submit to the minister¹⁶;
- 4825 (10) restrictions on the carrying out of development and production programmes without the minister's consent¹⁷;
- 4826 (11) restrictions on the commencement and abandonment of wells without the minister's consent and requirements as to the plugging of abandoned wells¹⁸;
- 4827 (12) the distance of wells from the boundaries of the licensed area¹⁹;
- 4828 (13) the control of development wells²⁰;
- 4829 (14) the licensee's obligations to provide storage tanks, pipes, pipelines and other receptacles²¹;
- 4830 (15) the avoidance of harmful methods of working²²;
- 4831 (16) restrictions on the appointment of operators without the minister's consent²³;
- 4832 (17) the protection of fishing and navigation²⁴;
- 4833 (18) the licensee's obligations as to the training of employees²⁵;
- 4834 (19) the minister's power to oblige the licensee to co-operate with other licensees in the development of an oil field as a unit²⁶;
- 4835 (20) the minister's powers to give directions as to oil fields across boundaries²⁷;
- 4836 (21) the records to be kept by the licensee²⁸;
- 4837 (22) the returns to be made by the licensee to the minister²⁹;
- 4838 (23) the keeping of samples³⁰;
- 4839 (24) the minister's obligation to treat the licensee's reports as confidential³¹;
- 4840 (25) the minister's power to inspect the licensee's records³²;
- 4841 (26) rights of access by persons authorised by the minister³³;
- 4842 (27) the minister's power to execute works where the licensee is in default³⁴;

- 4843 (28) the right of distress³⁵;
- 4844 (29) the licensee's duty to indemnify the minister against third party claims³⁶;
- 4845 (30) restrictions on the matters to be contained in advertisements and prospectuses³⁷;
- 4846 (31) restrictions on assignments³⁸;
- 4847 (32) the minister's power to revoke the licence³⁹;
- 4848 (33) provisions for arbitration in the event of disputes⁴⁰;
- 4849 (34) the licensee's obligations to give notice of certain activities to the Ministry of Defence⁴¹; and
- 4850 (35) the licensee's obligation to appoint a fisheries liaison officer⁴².

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person⁴³.

1 Ie for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante.

2 For the meaning of 'production licence' see PARA 1640 note 10 ante.

3 Ie the date when the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended) came into force: see reg 1.

4 For the meaning of 'frontier area' see PARA 1640 note 14 ante.

5 Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 3(1), (3). 'Break clause' means a clause in a licence, other than a clause relating to continuation of the licence beyond its initially agreed or any subsequent term, which provides that, in the event of failure by the licensee on or before a date specified in that clause to take specified action or to undertake to complete specified work, the licence is to cease and determine: reg 2.

6 See *ibid* reg 3(3), Sch 2 cl 2. The licence is an exclusive licence conferring the right during its continuance and subject to its provisions to search and bore for, and get, petroleum in the sea bed and subsoil under the seaward area more particularly described in the licence, being the area comprising blocks on the reference map deposited at the principal office of the Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry); provided that nothing in the licence affects the right of the minister to grant a methane drainage licence in respect of the whole or any part of the licensed area or affects the exercise of any rights granted under any such methane drainage licence: see Sch 2 cl 2. 'The minister' means the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry); 'the licensee' means the person or persons to whom the licence is granted, his personal representatives and any person or persons to whom the rights conferred by the licence may lawfully have been assigned; 'block' means an area comprised in the licence which is delineated on the reference map deposited at the principal office of the Department for Business, Enterprise and Regulatory Reform and to which a reference number was assigned at the date of the licence; and 'the licensed area' means the area for the time being in which the licensee may exercise the rights granted by the licence: Sch 2 cl 1(1). For the meaning of 'seaward area' see PARA 1640 note 13 ante; for the meaning of 'petroleum' see PARA 1626 ante (where a definition identical to that contained in Sch 2 cl 1(1) is set out); and as to methane drainage licences see PARA 1665 ante, PARA 1676 post.

7 See *ibid* Sch 2 cl 3. Unless sooner determined under any of the provisions of the licence, it continues for the initial term, ie the period of two years: Sch 2 cl 1(1), 3(1). Upon expiry of the initial term, and provided always that its terms and conditions continue to be performed and observed, the licence continues in force as follows: (1) subject to Sch 2 cl 4, 9, for the second term (ie a period of four years following expiry of the initial term); (2) subject to Sch 2 cl 5 and 9, for the third term (ie a period of six years following expiry of the second term); and (3) subject to Sch 2 cl 6, for the production period: Sch 2 cl 1(1), 3(2). 'Production period' means, in circumstances governed by Sch 2 cl 6(3)(a)-(c), a period of 18 years and, in circumstances governed by Sch 2 cl 6(3)(d) or Sch 2 cl 6(4), such period or periods of not more than 18 years in aggregate as the minister is to prescribe: Sch 2 cl 1(1). See further note 9 *infra*.

8 See *ibid* Sch 2 cl 4, 5. See also note 7 *supra*.

9 See *ibid* Sch 2 cl 6. See also note 7 *supra*. At any time not later than three months before the expiry of the third term the licensee may, subject to payment of those sums provided for in the licence and to performance of the terms and conditions contained in it, give notice in writing to the minister that he desires the licence to continue as to a part of the licensed area ('the producing part'): see Sch 2 cl 6(1). The producing part must be

an area that comprises no section that is not, wholly or in part, the subject of a consent, approval or programme described in Sch 2 cl 6(3): Sch 2 cl 6(2). If such a notice is given the licence continues in force after the expiry of the third term as provided by Sch 2 cl 6(4)-(6) in the event that before such expiry (1) the minister has given a consent in pursuance of Sch 2 cl 14(1) and such consent is still in force upon expiry of the third term; or (2) the minister has in pursuance of Sch 2 cl 14(4) approved a programme submitted to him in pursuance of Sch 2 cl 14(2) and such approval is still in force upon expiry of the third term; or (3) the minister has served a programme on the licensee in pursuance of Sch 2 cl 14(6) and such programme is still in force upon expiry of the third term; or (4) the minister has in his discretion so directed in writing: Sch 2 cl 6(3). Where the minister has given a direction extending the third term of the licence in pursuance of head (4) supra he may in his discretion, on notice in writing being given to him by the licensee not later than three months before the expiry of such extension or before the expiry of any subsequent extension under this provision that he desires the licence to continue in force thereafter, give a further direction that the licence shall so continue in force: Sch 2 cl 6(4). Where the licence continues in force by virtue of Sch 2 cl 6 then subject to the provisions of Sch 2 cl 3 it so continues during the production period: Sch 2 cl 6(5). 'Section' means a part of a block comprising an area bounded by minute lines of latitude and longitude one minute apart respectively: Sch 2 cl 1(1).

10 See *ibid* Sch 2 cl 7.

11 See *ibid* Sch 2 cl 8. The licensee may at any time by giving to the minister not less than one month's notice in writing to that effect determine the licence or surrender any part of the licensed area being a part which complies with Sch 2 cl 9: Sch 2 cl 8.

12 See *ibid* Sch 2 cl 9.

13 See *ibid* Sch 2 cl 10.

14 See *ibid* Sch 2 cl 11.

15 See *ibid* Sch 2 cl 12.

16 See *ibid* Sch 2 cl 13.

17 See *ibid* Sch 2 cl 14, 15.

18 See *ibid* Sch 2 cl 16 (as amended). The plugging of any well must be done in accordance with a specification approved by the minister applicable to that well or to wells generally or to a class of wells to which that well belongs and must be carried out in an efficient and workmanlike manner: Sch 2 cl 16(5). Subject to Sch 2 cl 16(7) and Sch 2 cl 16(7A) (as added), any well drilled by the licensee pursuant to the licence must be plugged and sealed not less than one month before the expiry or determination of the licensee's rights in respect of the area or part thereof in which that well is drilled: see Sch 2 cl 16(6) (amended by SI 2006/784). A direction by the minister may, however, be given by notice in writing to the licensee not less than one month before the licensee's rights in respect of the area or part thereof in which the well is situated expire or determine so as to relieve the licensee of the obligation so imposed to plug and seal the well: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 2 cl 16(7). Where the minister revokes the licence, any well drilled by the licensee pursuant to the licence must either be plugged and sealed as soon as reasonably practicable or, if the minister so directs at the time of revocation, be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: see Sch 2 cl 16(7A) (added by SI 2006/784). Any well that, pursuant to a direction by the minister under the Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 2 cl 16(7), has not been plugged and sealed, must be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: Sch 2 cl 16(8). All casings and fixtures forming part of a well and left in position at the expiry or determination (whether by revocation or otherwise) of the licensee's rights in respect of the area or part thereof in which that well is drilled, or at the completion of any works required of the licensee under Sch 2 cl 16(7A) (as added), whichever is the later, are to be the property of the minister: Sch 2 cl 16(9) (substituted by SI 2006/784). 'Well' includes borehole: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 2 cl 1(1).

19 Except with the consent in writing of the minister, no well must be drilled or made so that any part of it is less than 125 metres from any of the boundaries of the licensed area: *ibid* Sch 2 cl 17.

20 See *ibid* Sch 2 cl 18. The licensee must not suspend work on the drilling of a development well, or having suspended it must not begin it again, except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 2 cl 18(1). When work on the drilling of a development well is so suspended, the licensee must forthwith furnish the minister with such information relating to the well as the minister may specify: Sch 2 cl 18(2). The licensee (1) must not do any completion work in respect of a well in the licensed area except in accordance with a programme of completion work approved by the minister in respect of the well; (2) must furnish to the minister, in accordance with the

provisions of such a programme, particulars of any completion work done by him in respect of a well in the licensed area; and (3) must not remove or alter any casing or equipment installed by way of completion work in respect of a well except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 2 cl 18(3). For these purposes, 'completion work', in relation to a well, means work, by way of the installation of a casing or equipment or otherwise after the well has been drilled, for the purpose of bringing the well into use as a development well; and 'development well' means a well which the licensee uses or intends to use in connection with the getting of petroleum in the licensed area, other than a well which for the time being he uses or intends to use only for searching for petroleum: Sch 2 cl 18(4).

21 The licensee must use methods and practice customarily used in good oilfield practice for confining the petroleum obtained from the licensed area in tanks, gasholders, pipes, pipelines or other receptacles constructed for that purpose: *ibid* Sch 2 cl 19.

22 See *ibid* Sch 2 cl 20.

23 See *ibid* Sch 2 cl 21. The licensee must ensure that another person (including, in the case where the licensee is two or more persons, any of those persons) does not exercise any function of organising or supervising all or any of the operations of searching or boring for or getting petroleum in pursuance of the licence unless that other person is a person approved in writing by the minister and the function in question is one to which that approval relates: Sch 2 cl 21(1). The minister may not refuse to give his approval of a person if that person is competent to exercise the function in question, but where an approved person is no longer competent to exercise that function the minister may, by notice in writing given to the licensee, revoke his approval: Sch 2 cl 21(2).

24 The licensee must not carry out any operations authorised by the licence in or about the licensed area in such manner as to interfere unjustifiably with navigation or fishing in the waters of the licensed area or with the conservation of the living resources of the sea: *ibid* Sch 2 cl 22.

25 See *ibid* Sch 2 cl 23.

26 See *ibid* Sch 2 cl 24.

27 See *ibid* Sch 2 cl 25.

28 See *ibid* Sch 2 cl 26.

29 See *ibid* Sch 2 cl 27.

30 See *ibid* Sch 2 cl 28(1)-(4). As far as reasonably practicable the licensee must correctly label and preserve for reference for a period of five years samples of the sea bed and of the strata encountered in any well and samples of any petroleum or water discovered in any well in the licensed area: Sch 2 cl 28(1). The licensee must not dispose of any sample after the expiry of that period of five years unless (1) he has at least six months before the date of the disposal given notice in writing to the minister of his intention to dispose of the same; and (2) the minister or any person authorised by him has not within that period of six months informed the licensee in writing that he wishes the sample to be delivered to him: Sch 2 cl 28(2).

31 See *ibid* Sch 2 cl 29.

32 See *ibid* Sch 2 cl 30.

33 See *ibid* Sch 2 cl 31.

34 If the licensee at any time fails to perform the obligations arising under the terms and conditions of any of *ibid* Sch 2 cll 11, 16, 19 or 20, the minister is entitled, after giving to the licensee reasonable notice in writing of his intention, to execute any works and to provide and install any equipment which in the opinion of the minister may be necessary to secure the performance of those obligations or any of them and to recover the costs and expenses of so doing from the licensee: Sch 2 cl 32.

35 See *ibid* Sch 2 cl 33. As to diligence in Scotland see Sch 2 cl 34.

36 See *ibid* Sch 2 cl 35.

37 No statement must be made either in any notice, advertisement, prospectus or other document issued by or to the knowledge of the licensee or in any other manner claiming or suggesting whether expressly or by implication that Her Majesty or any government department or any person or body acting on behalf of Her Majesty has or have formed or expressed any opinion that the licensed area is from its geological formation or otherwise one in which petroleum is likely to be obtainable: *ibid* Sch 2 cl 36.

38 See *ibid* Sch 2 cl 37.

39 See *ibid* Sch 2 cl 38 (as amended). If any of the specified events occur then the minister may revoke the licence and thereupon the licence and all the rights granted by it are to cease and determine: see Sch 2 cl 38(1). The specified events are: (1) any payments mentioned in Sch 2 cl 10(1) or any part of them being in arrear or unpaid for two months after any of the days on which they ought to have been paid; (2) any breach or non-observance by the licensee of any of the terms and conditions of the licence; (3) in Great Britain, the bankruptcy or sequestration of the licensee; (4) in Great Britain, the making by the licensee of any arrangement or composition with his creditors; (5) in Great Britain, if the licensee is a company, the appointment of a receiver or administrator or any liquidation whether compulsory or voluntary; (6) in a jurisdiction other than Great Britain, the commencement of any procedure or the making of any arrangement or appointment substantially corresponding to any of those mentioned in heads (3)-(5) *supra*; (7) any breach or non-observance by the licensee of the terms and conditions of a development scheme; (8) if the licensee is a company, the licensee's ceasing to direct and control either (a) its operations under the licence; or (b) any commercial activities in connection with those operations, from a fixed place within the United Kingdom; (9) any breach of a condition subject to which the minister gave his approval in pursuance of Sch 2 cl 37(3) (assignment of rights to petroleum or proceeds of sale of petroleum); (10) any breach of Sch 2 cl 37(5) (restrictions on assignment where the licensee is two or more persons); and where two or more persons are the licensee any reference to the licensee in heads (3)-(8) *supra* is a reference to any of those persons: *ibid* Sch 2 cl 38(2) (amended by SI 2007/784). The minister may revoke the licence, with the like consequences as are mentioned in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 2 cl 38(1), if (i) the licensee is a company; and (ii) there is a change in the control of the licensee; and (iii) the minister serves notice in writing on the licensee stating that he proposes to revoke the licence unless such a further change in the control of the licensee as is specified in the notice takes place within the period of three months beginning with the date of service of the notice; and (iv) that further change does not take place within that period: Sch 2 cl 38(3). There is a change in the control of the licensee for the purposes of head (ii) *supra* whenever a person has control of the licensee who did not have control of the licensee when the licence was granted; and the Income and Corporation Taxes Act 1988 s 416(2)-(4), (6) (see *INCOME TAXATION* vol 23(2) (Reissue) PARA 1299) applies, for the purpose of determining whether a person has or had control of the licensee, with the modifications specified in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 2 cl 37(4) (restrictions on disposal of petroleum or proceeds of sale of petroleum): Sch 2 cl 38(4). Where two or more persons are the licensee and any of them is a company, Sch 2 cl 38(3), (4) is modified: see Sch 2 cl 38(5).

40 See *ibid* Sch 2 cl 39.

41 See *ibid* Sch 2 cl 40. The licensee must give the Ministry of Defence six months' prior notice of any installation movements within a block, and six weeks' prior notice of any seismic survey within a block: Sch 2 cl 40(1), (2). He must at his own expense install and maintain underwater sonar beacons to Ministry of Defence specifications on any structures that may be temporarily within a block; provided that there is no requirement to fit such beacons to fixed and charted installations: Sch 2 cl 40(3).

42 See *ibid* Sch 2 cl 41.

43 *Ibid* Sch 2 cl 1(2).

UPDATE

1670-1674 Model Clauses for Exploration, Production and Development in Seaward and Landward Areas

Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 further amended: Energy Act 2008 s 77, Sch 3 Pt 3.

1671 Model clauses for production licences relating to frontier areas with no break clause

TEXT AND NOTES--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(B) Model Clauses for Exploration, Production and Development in Seaward and Landward Areas/1672. Model clauses for production licences relating to frontier areas which include a break clause.

1672. Model clauses for production licences relating to frontier areas which include a break clause.

Model clauses have been prescribed¹ for incorporation in production licences² applied for on or after 5 March 2004³ which relate to frontier areas⁴ and which include a break clause⁵. Those model clauses cover:

- 4851 (1) the grant of the licence⁶;
- 4852 (2) the term of the licence⁷ and its expiry on the failure to complete certain work⁸;
- 4853 (3) options to continue the licence into a second or a third term⁹, to continue it after the third term¹⁰ and to extend it further¹¹;
- 4854 (4) the licensee's right to determine the licence or to surrender part of the licensed area¹²;
- 4855 (5) provisions as to surrendered areas¹³;
- 4856 (6) payment of consideration for the licence¹⁴;
- 4857 (7) the method or methods used for the measurement of petroleum obtained from the licensed area¹⁵;
- 4858 (8) the licensee's duty to keep accounts¹⁶;
- 4859 (9) the licensee's obligations to carry out the work programme set out in the licence before the expiry of the second term and to carry out any appropriate programme for exploring for petroleum in the licensed area which he has been required to submit to the minister¹⁷;
- 4860 (10) restrictions on the carrying out of development and production programmes without the minister's consent¹⁸;
- 4861 (11) restrictions on the commencement and abandonment of wells without the minister's consent and requirements as to the plugging of abandoned wells¹⁹;
- 4862 (12) the distance of wells from the boundaries of the licensed area²⁰;
- 4863 (13) the control of development wells²¹;
- 4864 (14) the licensee's obligations to provide storage tanks, pipes, pipelines and other receptacles²²;
- 4865 (15) the avoidance of harmful methods of working²³;
- 4866 (16) restrictions on the appointment of operators without the minister's consent²⁴;
- 4867 (17) the protection of fishing and navigation²⁵;
- 4868 (18) the licensee's obligations as to the training of employees²⁶;
- 4869 (19) the minister's power to oblige the licensee to co-operate with other licensees in the development of an oil field as a unit²⁷;
- 4870 (20) the minister's powers to give directions as to oil fields across boundaries²⁸;
- 4871 (21) the records to be kept by the licensee²⁹;
- 4872 (22) the returns to be made by the licensee to the minister³⁰;
- 4873 (23) the keeping of samples³¹;
- 4874 (24) the minister's obligation to treat the licensee's reports as confidential³²;
- 4875 (25) the minister's power to inspect the licensee's records³³;

- 4876 (26) rights of access by persons authorised by the minister³⁴;
- 4877 (27) the minister's power to execute works where the licensee is in default³⁵;
- 4878 (28) the right of distress³⁶;
- 4879 (29) the licensee's duty to indemnify the minister against third party claims³⁷;
- 4880 (30) restrictions on the matters to be contained in advertisements and prospectuses³⁸;
- 4881 (31) restrictions on assignments³⁹;
- 4882 (32) the minister's power to revoke the licence⁴⁰;
- 4883 (33) provisions for arbitration in the event of disputes⁴¹;
- 4884 (34) the licensee's obligations to give notice of certain activities to the Ministry of Defence⁴²; and
- 4885 (35) the licensee's obligation to appoint a fisheries liaison officer⁴³.

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person⁴⁴.

1 Ie for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante.

2 For the meaning of 'production licence' see PARA 1640 note 10 ante.

3 Ie the date when the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended) came into force: see reg 1.

4 For the meaning of 'frontier area' see PARA 1640 note 14 ante.

5 Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 3(1), (4). For the meaning of 'break clause' see PARA 1671 note 5 ante.

6 See *ibid* reg 3(4), Sch 3 cl 2. The licence is an exclusive licence conferring the right during its continuance and subject to its provisions to search and bore for, and get, petroleum in the sea bed and subsoil under the seaward area more particularly described in the licence, being the area comprising blocks on the reference map deposited at the principal office of the Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry); provided that nothing in the licence affects the right of the minister to grant a methane drainage licence in respect of the whole or any part of the licensed area or affects the exercise of any rights granted under any such methane drainage licence: see Sch 3 cl 2. 'The minister' means the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry); 'the licensee' means the person or persons to whom the licence is granted, his personal representatives and any person or persons to whom the rights conferred by the licence may lawfully have been assigned; 'block' means an area comprised in the licence which is delineated on the reference map deposited at the principal office of the Department for Business, Enterprise and Regulatory Reform and to which a reference number was assigned at the date of the licence; and 'the licensed area' means the area for the time being in which the licensee may exercise the rights granted by the licence: Sch 3 cl 1(1). For the meaning of 'seaward area' see PARA 1640 note 13 ante; for the meaning of 'petroleum' see PARA 1626 ante (where a definition identical to that contained in Sch 3 cl 1(1) is set out); and as to methane drainage licences see PARA 1665 ante, PARA 1676 post.

7 See *ibid* Sch 3 cl 3. Unless sooner determined under any of the provisions of the licence, it continues for the initial term, ie the period of two years: Sch 3 cl 1(1), 3(1). Upon expiry of the initial term, and provided always that its terms and conditions continue to be performed and observed, the licence continues in force as follows: (1) subject to Sch 3 cl 4, 5, 10, for the second term (ie a period of four years following expiry of the initial term); (2) subject to Sch 3 cl 6 and 10, for the third term (ie a period of six years following expiry of the second term); and (3) subject to Sch 3 cl 7, for the production period: Sch 3 cl 1(1), 3(2). 'Production period' means, in circumstances governed by Sch 3 cl 7(3)(a)-(c), a period of 18 years and, in circumstances governed by Sch 3 cl 7(3)(d) or Sch 3 cl 7(4), such period or periods of not more than 18 years in aggregate as the minister is to prescribe: Sch 3 cl 1(1). See further note 10 *infra*.

8 Unless the minister in any particular case decides otherwise, the licence automatically ceases and determines on the fourth anniversary of the date of commencement of the initial term in the event of failure by the licensee on or before that anniversary to (1) take the action described in Part I of the work programme described in the licence; and (2) undertake to complete on or before expiry of the second term the work described in Part II of that work programme: *ibid* Sch 3 cl 5.

9 See *ibid* Sch 3 cl 4, 6. See also notes 7-8 *supra*.

10 See *ibid* Sch 3 cl 7. See also notes 7-8 *supra*. At any time not later than three months before the expiry of the third term the licensee may, subject to payment of those sums provided for in the licence and to performance of the terms and conditions contained in it, give notice in writing to the minister that he desires the licence to continue as to a part of the licensed area ('the producing part'): see Sch 3 cl 7(1). The producing part must be an area that comprises no section that is not, wholly or in part, the subject of a consent, approval or programme described in Sch 3 cl 7(3): Sch 3 cl 7(2). If such a notice is given the licence continues in force after the expiry of the third term as provided by Sch 3 cl 7(4)-(6) in the event that before such expiry (1) the minister has given a consent in pursuance of Sch 3 cl 15(1) and such consent is still in force upon expiry of the third term; or (2) the minister has in pursuance of Sch 3 cl 15(4) approved a programme submitted to him in pursuance of Sch 3 cl 15(2) and such approval is still in force upon expiry of the third term; or (3) the minister has served a programme on the licensee in pursuance of Sch 3 cl 15(6) and such programme is still in force upon expiry of the third term; or (4) the minister has in his discretion so directed in writing: Sch 3 cl 7(3). Where the minister has given a direction extending the third term of the licence in pursuance of head (4) *supra* he may in his discretion, on notice in writing being given to him by the licensee not later than three months before the expiry of such extension or before the expiry of any subsequent extension under this provision that he desires the licence to continue in force thereafter, give a further direction that the licence shall so continue in force: Sch 3 cl 7(4). Where the licence continues in force by virtue of Sch 3 cl 7 then subject to the provisions of Sch 3 cl 3 it so continues during the production period: Sch 3 cl 7(5). 'Section' means a part of a block comprising an area bounded by minute lines of latitude and longitude one minute apart respectively: Sch 3 cl 1(1).

11 See *ibid* Sch 3 cl 8.

12 See *ibid* Sch 3 cl 9. The licensee may at any time by giving to the minister not less than one month's notice in writing to that effect determine the licence or surrender any part of the licensed area being a part which complies with Sch 3 cl 10: Sch 3 cl 9.

13 See *ibid* Sch 3 cl 10.

14 See *ibid* Sch 3 cl 11.

15 See *ibid* Sch 3 cl 12.

16 See *ibid* Sch 3 cl 13.

17 See *ibid* Sch 3 cl 14.

18 See *ibid* Sch 3 cl 15, 16.

19 See *ibid* Sch 3 cl 17 (as amended). The plugging of any well must be done in accordance with a specification approved by the minister applicable to that well or to wells generally or to a class of wells to which that well belongs and must be carried out in an efficient and workmanlike manner: Sch 3 cl 17(5). Subject to Sch 3 cl 17(7) and Sch 3 cl 17(7A) (as added), any well drilled by the licensee pursuant to the licence must be plugged and sealed not less than one month before the expiry or determination of the licensee's rights in respect of the area or part thereof in which that well is drilled: see Sch 3 cl 17(6) (amended by SI 2006/784). A direction by the minister may, however, be given by notice in writing to the licensee not less than one month before the licensee's rights in respect of the area or part thereof in which the well is situated expire or determine so as to relieve the licensee of the obligation so imposed to plug and seal the well: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 3 cl 17(7). Where the minister revokes the licence, any well drilled by the licensee pursuant to the licence must either be plugged and sealed as soon as reasonably practicable or, if the minister so directs at the time of revocation, be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: see Sch 3 cl 17(7A) (added by SI 2006/784). Any well that, pursuant to a direction by the minister under the Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 3 cl 17(7), has not been plugged and sealed, must be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: Sch 3 cl 17(8). All casings and fixtures forming part of a well and left in position at the expiry or determination (whether by revocation or otherwise) of the licensee's rights in respect of the area or part thereof in which that well is drilled, or at the completion of any works required of the licensee under Sch 3 cl 17(7A) (as added), whichever is the later, are to be the property of the minister: Sch 3 cl 17(9) (substituted by SI 2006/784). 'Well' includes borehole: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 3 cl 1(1).

20 Except with the consent in writing of the minister, no well must be drilled or made so that any part of it is less than 125 metres from any of the boundaries of the licensed area: *ibid* Sch 3 cl 18.

21 See *ibid* Sch 3 cl 19. The licensee must not suspend work on the drilling of a development well, or having suspended it must not begin it again, except with the consent in writing of the minister and in accordance with

the conditions, if any, subject to which the consent is given: Sch 3 cl 19(1). When work on the drilling of a development well is so suspended, the licensee must forthwith furnish the minister with such information relating to the well as the minister may specify: Sch 3 cl 19(2). The licensee (1) must not do any completion work in respect of a well in the licensed area except in accordance with a programme of completion work approved by the minister in respect of the well; (2) must furnish to the minister, in accordance with the provisions of such a programme, particulars of any completion work done by him in respect of a well in the licensed area; and (3) must not remove or alter any casing or equipment installed by way of completion work in respect of a well except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 3 cl 19(3). For these purposes, 'completion work', in relation to a well, means work, by way of the installation of a casing or equipment or otherwise after the well has been drilled, for the purpose of bringing the well into use as a development well; and 'development well' means a well which the licensee uses or intends to use in connection with the getting of petroleum in the licensed area, other than a well which for the time being he uses or intends to use only for searching for petroleum: Sch 3 cl 19(4).

22 The licensee must use methods and practice customarily used in good oilfield practice for confining the petroleum obtained from the licensed area in tanks, gasholders, pipes, pipelines or other receptacles constructed for that purpose: *ibid* Sch 3 cl 20.

23 See *ibid* Sch 3 cl 21.

24 See *ibid* Sch 3 cl 22. The licensee must ensure that another person (including, in the case where the licensee is two or more persons, any of those persons) does not exercise any function of organising or supervising all or any of the operations of searching or boring for or getting petroleum in pursuance of the licence unless that other person is a person approved in writing by the minister and the function in question is one to which that approval relates: Sch 3 cl 22(1). The minister may not refuse to give his approval of a person if that person is competent to exercise the function in question, but where an approved person is no longer competent to exercise that function the minister may, by notice in writing given to the licensee, revoke his approval: Sch 3 cl 22(2).

25 The licensee must not carry out any operations authorised by the licence in or about the licensed area in such manner as to interfere unjustifiably with navigation or fishing in the waters of the licensed area or with the conservation of the living resources of the sea: *ibid* Sch 3 cl 23.

26 See *ibid* Sch 3 cl 24.

27 See *ibid* Sch 3 cl 25.

28 See *ibid* Sch 3 cl 26.

29 See *ibid* Sch 3 cl 27.

30 See *ibid* Sch 3 cl 28.

31 See *ibid* Sch 3 cl 29(1)-(4). As far as reasonably practicable the licensee must correctly label and preserve for reference for a period of five years samples of the sea bed and of the strata encountered in any well and samples of any petroleum or water discovered in any well in the licensed area: Sch 3 cl 29(1). The licensee must not dispose of any sample after the expiry of that period of five years unless (1) he has at least six months before the date of the disposal given notice in writing to the minister of his intention to dispose of the same; and (2) the minister or any person authorised by him has not within that period of six months informed the licensee in writing that he wishes the sample to be delivered to him: Sch 3 cl 29(2).

32 See *ibid* Sch 3 cl 30.

33 See *ibid* Sch 3 cl 31.

34 See *ibid* Sch 3 cl 32.

35 If the licensee at any time fails to perform the obligations arising under the terms and conditions of any of *ibid* Sch 3 cll 12, 17, 20 or 21, the minister is entitled, after giving to the licensee reasonable notice in writing of his intention, to execute any works and to provide and install any equipment which in the opinion of the minister may be necessary to secure the performance of those obligations or any of them and to recover the costs and expenses of so doing from the licensee: Sch 3 cl 33.

36 See *ibid* Sch 3 cl 34. As to diligence in Scotland see Sch 3 cl 35.

37 See *ibid* Sch 3 cl 36.

38 No statement must be made either in any notice, advertisement, prospectus or other document issued by or to the knowledge of the licensee or in any other manner claiming or suggesting whether expressly or by implication that Her Majesty or any government department or any person or body acting on behalf of Her Majesty has or have formed or expressed any opinion that the licensed area is from its geological formation or otherwise one in which petroleum is likely to be obtainable: *ibid* Sch 3 cl 37.

39 See *ibid* Sch 3 cl 38.

40 See *ibid* Sch 3 cl 39 (as amended). If any of the specified events occur then the minister may revoke the licence and thereupon the licence and all the rights granted by it are to cease and determine: see Sch 3 cl 39(1). The specified events are: (1) any payments mentioned in Sch 3 cl 11(1) or any part of them being in arrear or unpaid for two months after any of the days on which they ought to have been paid; (2) any breach or non-observance by the licensee of any of the terms and conditions of the licence; (3) in Great Britain, the bankruptcy or sequestration of the licensee; (4) in Great Britain, the making by the licensee of any arrangement or composition with his creditors; (5) in Great Britain, if the licensee is a company, the appointment of a receiver or administrator or any liquidation whether compulsory or voluntary; (6) in a jurisdiction other than Great Britain, the commencement of any procedure or the making of any arrangement or appointment substantially corresponding to any of those mentioned in heads (3)-(5) *supra*; (7) any breach or non-observance by the licensee of the terms and conditions of a development scheme; (8) if the licensee is a company, the licensee's ceasing to direct and control either (a) its operations under the licence; or (b) any commercial activities in connection with those operations, from a fixed place within the United Kingdom; (9) any breach of a condition subject to which the minister gave his approval in pursuance of Sch 3 cl 38(3) (assignment of rights to petroleum or proceeds of sale of petroleum); (10) any breach of Sch 3 cl 38(5) (restrictions on assignment where the licensee is two or more persons); and where two or more persons are the licensee any reference to the licensee in heads (3)-(8) *supra* is a reference to any of those persons: *ibid* Sch 3 cl 39(2) (amended by SI 2007/784). The minister may revoke the licence, with the like consequences as are mentioned in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 3 cl 39(1), if (i) the licensee is a company; and (ii) there is a change in the control of the licensee; and (iii) the minister serves notice in writing on the licensee stating that he proposes to revoke the licence unless such a further change in the control of the licensee as is specified in the notice takes place within the period of three months beginning with the date of service of the notice; and (iv) that further change does not take place within that period: Sch 3 cl 39(3). There is a change in the control of the licensee for the purposes of head (ii) *supra* whenever a person has control of the licensee who did not have control of the licensee when the licence was granted; and the Income and Corporation Taxes Act 1988 s 416(2)-(4), (6) (see *INCOME TAXATION* vol 23(2) (Reissue) PARA 1299) applies, for the purpose of determining whether a person has or had control of the licensee, with the modifications specified in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 3 cl 38(4) (restrictions on disposal of petroleum or proceeds of sale of petroleum): Sch 3 cl 39(4). Where two or more persons are the licensee and any of them is a company, Sch 3 cl 39(3), (4) is modified: see Sch 3 cl 39(5).

41 See *ibid* Sch 3 cl 40.

42 See *ibid* Sch 3 cl 41. The licensee must give the Ministry of Defence six months' prior notice of any installation movements within a block, and six weeks' prior notice of any seismic survey within a block: Sch 3 cl 41(1), (2). He must at his own expense install and maintain underwater sonar beacons to Ministry of Defence specifications on any structures that may be temporarily within a block; provided that there is no requirement to fit such beacons to fixed and charted installations: Sch 3 cl 41(3).

43 See *ibid* Sch 3 cl 42.

44 *Ibid* Sch 3 cl 1(2).

UPDATE

1670-1674 Model Clauses for Exploration, Production and Development in Seaward and Landward Areas

Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 further amended: Energy Act 2008 s 77, Sch 3 Pt 3.

1672 Model clauses for production licences relating to frontier areas which include a break clause

TEXT AND NOTES--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(B) Model Clauses for Exploration, Production and Development in Seaward and Landward Areas/1673. Model clauses for standard production licences.

1673. Model clauses for standard production licences.

Model clauses have been prescribed¹ for incorporation in production licences² applied for on or after 5 March 2004³ which relate to areas other than frontier areas⁴. In such cases as the Secretary of State⁵ may think fit, such licences may contain the prescribed two-year break clause⁶ and related provisions⁷. The other model clauses cover:

- 4886 (1) the grant of the licence⁸;
- 4887 (2) the term of the licence⁹;
- 4888 (3) options to continue the licence into a second term¹⁰, to continue it after the second term¹¹ and to extend it further¹²;
- 4889 (4) the licensee's right to determine the licence or to surrender part of the licensed area¹³;
- 4890 (5) provisions as to surrendered areas¹⁴;
- 4891 (6) payment of consideration for the licence¹⁵;
- 4892 (7) the method or methods used for the measurement of petroleum obtained from the licensed area¹⁶;
- 4893 (8) the licensee's duty to keep accounts¹⁷;
- 4894 (9) the licensee's obligations to carry out the work programme set out in the licence before the expiry of the second term and to carry out any appropriate programme for exploring for petroleum in the licensed area which he has been required to submit to the minister¹⁸;
- 4895 (10) restrictions on the carrying out of development and production programmes without the minister's consent¹⁹;
- 4896 (11) restrictions on the commencement and abandonment of wells without the minister's consent and requirements as to the plugging of abandoned wells²⁰;
- 4897 (12) the distance of wells from the boundaries of the licensed area²¹;
- 4898 (13) the control of development wells²²;
- 4899 (14) the licensee's obligations to provide storage tanks, pipes, pipelines and other receptacles²³;
- 4900 (15) the avoidance of harmful methods of working²⁴;
- 4901 (16) restrictions on the appointment of operators without the minister's consent²⁵;
- 4902 (17) the protection of fishing and navigation²⁶;
- 4903 (18) the licensee's obligations as to the training of employees²⁷;
- 4904 (19) the minister's power to oblige the licensee to co-operate with other licensees in the development of an oil field as a unit²⁸;
- 4905 (20) the minister's powers to give directions as to oil fields across boundaries²⁹;
- 4906 (21) the records to be kept by the licensee³⁰;
- 4907 (22) the returns to be made by the licensee to the minister³¹;
- 4908 (23) the keeping of samples³²;
- 4909 (24) the minister's obligation to treat the licensee's reports as confidential³³;
- 4910 (25) the minister's power to inspect the licensee's records³⁴;
- 4911 (26) rights of access by persons authorised by the minister³⁵;
- 4912 (27) the minister's power to execute works where the licensee is in default³⁶;

- 4913 (28) the right of distress³⁷;
- 4914 (29) the licensee's duty to indemnify the minister against third party claims³⁸;
- 4915 (30) restrictions on the matters to be contained in advertisements and prospectuses³⁹;
- 4916 (31) restrictions on assignments⁴⁰;
- 4917 (32) the minister's power to revoke the licence⁴¹;
- 4918 (33) provisions for arbitration in the event of disputes⁴²;
- 4919 (34) the licensee's obligations to give notice of certain activities to the Ministry of Defence⁴³; and
- 4920 (35) the licensee's obligation to appoint a fisheries liaison officer⁴⁴.

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person⁴⁵.

1 Ie for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante.

2 For the meaning of 'production licence' see PARA 1640 note 10 ante.

3 Ie the date when the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 (as amended) came into force: see reg 1.

4 Ibid reg 3(1), (5). For the meaning of 'frontier area' see PARA 1640 note 14 ante.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 See the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 3(6), Sch 5. For the meaning of 'break clause' see PARA 1671 note 5 ante.

7 Ibid reg 3(6).

8 See ibid reg 3(5), Sch 4 cl 2. The licence is an exclusive licence conferring the right during its continuance and subject to its provisions to search and bore for, and get, petroleum in the sea bed and subsoil under the seaward area more particularly described in the licence, being the area comprising blocks on the reference map deposited at the principal office of the Department for Business, Enterprise and Regulatory Reform (formerly the Department of Trade and Industry); provided that nothing in the licence affects the right of the minister to grant a methane drainage licence in respect of the whole or any part of the licensed area or affects the exercise of any rights granted under any such methane drainage licence: see Sch 4 cl 2. 'The minister' means the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry); 'the licensee' means the person or persons to whom the licence is granted, his personal representatives and any person or persons to whom the rights conferred by the licence may lawfully have been assigned; 'block' means an area comprised in the licence which is delineated on the reference map deposited at the principal office of the Department for Business, Enterprise and Regulatory Reform and to which a reference number was assigned at the date of the licence; and 'the licensed area' means the area for the time being in which the licensee may exercise the rights granted by the licence: Sch 4 cl 1(1). For the meaning of 'seaward area' see PARA 1640 note 13 ante; for the meaning of 'petroleum' see PARA 1626 ante (where a definition identical to that contained in Sch 4 cl 1(1) is set out); and as to methane drainage licences see PARA 1665 ante, PARA 1676 post.

9 See ibid Sch 4 cl 3. Unless sooner determined under any of the provisions of the licence, it continues for the initial term, ie the period of two years: Sch 4 cl 1(1), 3(1). Upon expiry of the initial term, and provided always that its terms and conditions continue to be performed and observed, the licence continues in force as follows: (1) subject to Sch 4 cl 4, 8, for the second term (ie a period of four years following expiry of the initial term); and (2) subject to Sch 4 cl 5, for the production period: Sch 4 cl 1(1), 3(2). 'Production period' means, in circumstances governed by Sch 4 cl 5(3)(a)-(c), a period of 18 years and, in circumstances governed by Sch 4 cl 5(3)(d) or Sch 4 cl 5(4), such period or periods of not more than 18 years in aggregate as the minister is to prescribe: Sch 4 cl 1(1). See further note 11 infra.

10 See ibid Sch 4 cl 4. See also note 9 supra.

11 See ibid Sch 4 cl 5. See also note 9 supra. At any time not later than three months before the expiry of the second term the licensee may, subject to payment of those sums provided for in the licence and to performance of the terms and conditions contained in it, give notice in writing to the minister that he desires the licence to continue as to a part of the licensed area ('the producing part'): see Sch 4 cl 5(1). The producing

part must be an area that comprises no section that is not, wholly or in part, the subject of a consent, approval or programme described in Sch 4 cl 5(3): Sch 4 cl 5(2). If such a notice is given the licence continues in force after the expiry of the second term as provided by Sch 4 cl 5(4)-(6) in the event that before such expiry (1) the minister has given a consent in pursuance of Sch 4 cl 13(1) and such consent is still in force upon expiry of the second term; or (2) the minister has in pursuance of Sch 4 cl 13(4) approved a programme submitted to him in pursuance of Sch 4 cl 13(2) and such approval is still in force upon expiry of the second term; or (3) the minister has served a programme on the licensee in pursuance of Sch 4 cl 13(6) and such programme is still in force upon expiry of the second term; or (4) the minister has in his discretion so directed in writing: Sch 4 cl 5(3). Where the minister has given a direction extending the second term of the licence in pursuance of head (4) supra he may in his discretion, on notice in writing being given to him by the licensee not later than three months before the expiry of such extension or before the expiry of any subsequent extension under this provision that he desires the licence to continue in force thereafter, give a further direction that the licence shall so continue in force: Sch 4 cl 5(4). Where the licence continues in force by virtue of Sch 4 cl 5 then subject to the provisions of Sch 4 cl 3 it so continues during the production period: Sch 4 cl 5(5). 'Section' means a part of a block comprising an area bounded by minute lines of latitude and longitude one minute apart respectively: Sch 4 cl 1(1).

12 See *ibid* Sch 4 cl 6.

13 See *ibid* Sch 4 cl 7. The licensee may at any time by giving to the minister not less than one month's notice in writing to that effect determine the licence or surrender any part of the licensed area being a part which complies with Sch 4 cl 8: Sch 4 cl 7.

14 See *ibid* Sch 4 cl 8.

15 See *ibid* Sch 4 cl 9.

16 See *ibid* Sch 4 cl 10.

17 See *ibid* Sch 4 cl 11.

18 See *ibid* Sch 4 cl 12.

19 See *ibid* Sch 4 cl 13, 14.

20 See *ibid* Sch 4 cl 15 (as amended). The plugging of any well must be done in accordance with a specification approved by the minister applicable to that well or to wells generally or to a class of wells to which that well belongs and must be carried out in an efficient and workmanlike manner: Sch 4 cl 15(5). Subject to Sch 4 cl 15(7) and Sch 4 cl 15(7A) (as added), any well drilled by the licensee pursuant to the licence must be plugged and sealed not less than one month before the expiry or determination of the licensee's rights in respect of the area or part thereof in which that well is drilled: see Sch 4 cl 15(6) (amended by SI 2006/784). A direction by the minister may, however, be given by notice in writing to the licensee not less than one month before the licensee's rights in respect of the area or part thereof in which the well is situated expire or determine so as to relieve the licensee of the obligation so imposed to plug and seal the well: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 4 cl 15(7). Where the minister revokes the licence, any well drilled by the licensee pursuant to the licence must either be plugged and sealed as soon as reasonably practicable or, if the minister so directs at the time of revocation, be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: see Sch 4 cl 15(7A) (added by SI 2006/784). Any well that, pursuant to a direction by the minister under the Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 4 cl 15(7), has not been plugged and sealed, must be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: Sch 4 cl 15(8). All casings and fixtures forming part of a well and left in position at the expiry or determination (whether by revocation or otherwise) of the licensee's rights in respect of the area or part thereof in which that well is drilled, or at the completion of any works required of the licensee under Sch 4 cl 15(7A) (as added), whichever is the later, are to be the property of the minister: Sch 4 cl 15(9) (substituted by SI 2006/784). 'Well' includes borehole: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 4 cl 1(1).

21 Except with the consent in writing of the minister, no well must be drilled or made so that any part of it is less than 125 metres from any of the boundaries of the licensed area: *ibid* Sch 4 cl 16.

22 See *ibid* Sch 4 cl 17. The licensee must not suspend work on the drilling of a development well, or having suspended it must not begin it again, except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 4 cl 17(1). When work on the drilling of a development well is so suspended, the licensee must forthwith furnish the minister with such information relating to the well as the minister may specify: Sch 4 cl 17(2). The licensee (1) must not do any completion work in respect of a well in the licensed area except in accordance with a programme of completion work

approved by the minister in respect of the well; (2) must furnish to the minister, in accordance with the provisions of such a programme, particulars of any completion work done by him in respect of a well in the licensed area; and (3) must not remove or alter any casing or equipment installed by way of completion work in respect of a well except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 4 cl 17(3). For these purposes, 'completion work', in relation to a well, means work, by way of the installation of a casing or equipment or otherwise after the well has been drilled, for the purpose of bringing the well into use as a development well; and 'development well' means a well which the licensee uses or intends to use in connection with the getting of petroleum in the licensed area, other than a well which for the time being he uses or intends to use only for searching for petroleum: Sch 4 cl 17(4).

23 The licensee must use methods and practice customarily used in good oilfield practice for confining the petroleum obtained from the licensed area in tanks, gasholders, pipes, pipelines or other receptacles constructed for that purpose: *ibid* Sch 4 cl 18.

24 See *ibid* Sch 4 cl 19.

25 See *ibid* Sch 4 cl 20. The licensee must ensure that another person (including, in the case where the licensee is two or more persons, any of those persons) does not exercise any function of organising or supervising all or any of the operations of searching or boring for or getting petroleum in pursuance of the licence unless that other person is a person approved in writing by the minister and the function in question is one to which that approval relates: Sch 4 cl 20(1). The minister may not refuse to give his approval of a person if that person is competent to exercise the function in question, but where an approved person is no longer competent to exercise that function the minister may, by notice in writing given to the licensee, revoke his approval: Sch 4 cl 20(2).

26 The licensee must not carry out any operations authorised by the licence in or about the licensed area in such manner as to interfere unjustifiably with navigation or fishing in the waters of the licensed area or with the conservation of the living resources of the sea: *ibid* Sch 4 cl 21.

27 See *ibid* Sch 4 cl 22.

28 See *ibid* Sch 4 cl 23.

29 See *ibid* Sch 4 cl 24.

30 See *ibid* Sch 4 cl 25.

31 See *ibid* Sch 4 cl 26.

32 See *ibid* Sch 4 cl 27(1)-(4). As far as reasonably practicable the licensee must correctly label and preserve for reference for a period of five years samples of the sea bed and of the strata encountered in any well and samples of any petroleum or water discovered in any well in the licensed area: Sch 4 cl 27(1). The licensee must not dispose of any sample after the expiry of that period of five years unless (1) he has at least six months before the date of the disposal given notice in writing to the minister of his intention to dispose of the same; and (2) the minister or any person authorised by him has not within that period of six months informed the licensee in writing that he wishes the sample to be delivered to him: Sch 4 cl 27(2).

33 See *ibid* Sch 4 cl 28.

34 See *ibid* Sch 4 cl 29.

35 See *ibid* Sch 4 cl 30.

36 If the licensee at any time fails to perform the obligations arising under the terms and conditions of any of *ibid* Sch 4 cl 10, 15, 16 (sic) or 19, the minister is entitled, after giving to the licensee reasonable notice in writing of his intention, to execute any works and to provide and install any equipment which in the opinion of the minister may be necessary to secure the performance of those obligations or any of them and to recover the costs and expenses of so doing from the licensee: Sch 4 cl 31.

37 See *ibid* Sch 4 cl 32. As to diligence in Scotland see Sch 4 cl 33.

38 See *ibid* Sch 4 cl 34.

39 No statement must be made either in any notice, advertisement, prospectus or other document issued by or to the knowledge of the licensee or in any other manner claiming or suggesting whether expressly or by implication that Her Majesty or any government department or any person or body acting on behalf of Her Majesty has or have formed or expressed any opinion that the licensed area is from its geological formation or otherwise one in which petroleum is likely to be obtainable: *ibid* Sch 4 cl 35.

40 See *ibid* Sch 4 cl 36.

41 See *ibid* Sch 4 cl 37 (as amended). If any of the specified events occur then the minister may revoke the licence and thereupon the licence and all the rights granted by it are to cease and determine: see Sch 4 cl 37(1). The specified events are: (1) any payments mentioned in Sch 4 cl 9(1) or any part of them being in arrear or unpaid for two months after any of the days on which they ought to have been paid; (2) any breach or non-observance by the licensee of any of the terms and conditions of the licence; (3) in Great Britain, the bankruptcy or sequestration of the licensee; (4) in Great Britain, the making by the licensee of any arrangement or composition with his creditors; (5) in Great Britain, if the licensee is a company, the appointment of a receiver or administrator or any liquidation whether compulsory or voluntary; (6) in a jurisdiction other than Great Britain, the commencement of any procedure or the making of any arrangement or appointment substantially corresponding to any of those mentioned in heads (3)-(5) *supra*; (7) any breach or non-observance by the licensee of the terms and conditions of a development scheme; (8) if the licensee is a company, the licensee's ceasing to direct and control either (a) its operations under the licence; or (b) any commercial activities in connection with those operations, from a fixed place within the United Kingdom; (9) any breach of a condition subject to which the minister gave his approval in pursuance of Sch 4 cl 36(3) (assignment of rights to petroleum or proceeds of sale of petroleum); (10) any breach of Sch 4 cl 36(5) (restrictions on assignment where the licensee is two or more persons); and where two or more persons are the licensee any reference to the licensee in heads (3)-(8) *supra* is a reference to any of those persons: *ibid* Sch 4 cl 37(2) (amended by SI 2007/784). The minister may revoke the licence, with the like consequences as are mentioned in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 4 cl 37(1), if (i) the licensee is a company; and (ii) there is a change in the control of the licensee; and (iii) the minister serves notice in writing on the licensee stating that he proposes to revoke the licence unless such a further change in the control of the licensee as is specified in the notice takes place within the period of three months beginning with the date of service of the notice; and (iv) that further change does not take place within that period: Sch 4 cl 37(3). There is a change in the control of the licensee for the purposes of head (ii) *supra* whenever a person has control of the licensee who did not have control of the licensee when the licence was granted; and the Income and Corporation Taxes Act 1988 s 416(2)-(4), (6) (see *INCOME TAXATION* vol 23(2) (Reissue) PARA 1299) applies, for the purpose of determining whether a person has or had control of the licensee, with the modifications specified in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 4 cl 36(4) (restrictions on disposal of petroleum or proceeds of sale of petroleum): Sch 4 cl 37(4). Where two or more persons are the licensee and any of them is a company, Sch 4 cl 37(3), (4) is modified: see Sch 4 cl 37(5).

42 See *ibid* Sch 4 cl 38.

43 See *ibid* Sch 4 cl 39. The licensee must give the Ministry of Defence six months' prior notice of any installation movements within a block, and six weeks' prior notice of any seismic survey within a block: Sch 4 cl 39(1), (2). He must at his own expense install and maintain underwater sonar beacons to Ministry of Defence specifications on any structures that may be temporarily within a block; provided that there is no requirement to fit such beacons to fixed and charted installations: Sch 4 cl 39(3).

44 See *ibid* Sch 4 cl 40.

45 *Ibid* Sch 4 cl 1(2).

UPDATE

1670-1674 Model Clauses for Exploration, Production and Development in Seaward and Landward Areas

Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 further amended: Energy Act 2008 s 77, Sch 3 Pt 3.

1673 Model clauses for standard production licences

TEXT AND NOTES--See also the Petroleum Licensing (Production) (Seaward Areas) Regulations 2008, SI 2008/225 (amended by SI 2009/3283).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(B) Model Clauses for Exploration, Production and Development in Seaward and Landward Areas/1674. Model clauses for petroleum exploration and development licences.

1674. Model clauses for petroleum exploration and development licences.

Model clauses have been prescribed¹ for incorporation in petroleum exploration and development licences² applied for on or after 5 March 2004³. In such cases as the Secretary of State⁴ may think fit, such licences may contain the prescribed three-year break clause⁵ and related provisions⁶. The other model clauses cover:

- 4921 (1) the grant of the licence⁷;
- 4922 (2) the term of the licence⁸;
- 4923 (3) options to continue the licence as to part only of the licensed area⁹, to continue the licence after the second term¹⁰ and to extend it further¹¹;
- 4924 (4) the licensee's right to determine the licence or to surrender part of the licensed area and the consequences of such determination or surrender¹²;
- 4925 (5) payment of consideration for the licence¹³;
- 4926 (6) the method or methods used for the measurement of petroleum obtained from the licensed area¹⁴;
- 4927 (7) the licensee's duty to keep accounts¹⁵;
- 4928 (8) the licensee's obligation to carry out, during the initial period, the work programme, his obligations to carry out any appropriate programme for exploring for petroleum in the licensed area which he has been required to submit to the minister and his duty to observe other working obligations¹⁶;
- 4929 (9) restrictions on the carrying out of development and production programmes without the minister's consent¹⁷;
- 4930 (10) restrictions on the commencement and abandonment of wells without the minister's consent and requirements as to the plugging of abandoned wells¹⁸;
- 4931 (11) the distance of wells from the boundaries of the licensed area¹⁹;
- 4932 (12) the control of development wells²⁰;
- 4933 (13) the licensee's obligations to provide storage tanks, pipes, pipelines and other receptacles²¹;
- 4934 (14) the avoidance of harmful methods of working²²;
- 4935 (15) restrictions on the appointment of operators without the minister's consent²³;
- 4936 (16) the protection of fishing and navigation²⁴;
- 4937 (17) the licensee's obligations as to the training of employees²⁵;
- 4938 (18) the minister's power to oblige the licensee to co-operate with other licensees in the development of an oil field as a unit²⁶;
- 4939 (19) the records to be kept by the licensee²⁷;
- 4940 (20) the returns to be made by the licensee to the minister²⁸;
- 4941 (21) the keeping of samples²⁹;
- 4942 (22) the minister's obligation to treat the licensee's reports as confidential³⁰;
- 4943 (23) the minister's power to inspect the licensee's records³¹;
- 4944 (24) rights of access by persons authorised by the minister³²;
- 4945 (25) the minister's power to execute works where the licensee is in default³³;
- 4946 (26) the right of distress³⁴;
- 4947 (27) the licensee's duty to indemnify the minister against third party claims³⁵;

- 4948 (28) restrictions on the matters to be contained in advertisements and prospectuses³⁶;
 4949 (29) restrictions on assignments³⁷;
 4950 (30) the minister's power to revoke the licence³⁸; and
 4951 (31) provisions for arbitration in the event of disputes³⁹.

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person⁴⁰.

1 le for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante.

2 For the meaning of 'petroleum exploration and development licence' see PARA 1640 note 11 ante.

3 Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 3(1), (7). 5 March 2004 is the date when the 2004 Regulations came into force: see reg 1.

4 As to the Secretary of State see PARA 601 note 1 ante.

5 See the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, reg 3(8), Sch 7. For the meaning of 'break clause' see PARA 1671 note 5 ante.

6 Ibid reg 3(8).

7 See ibid reg 3(7), Sch 6 cl 2. The licence is an exclusive licence conferring the right during its continuance and subject to its provisions to search and bore for, and get, petroleum in the area described in the licence; provided that nothing in the licence affects the right of the minister to grant a methane drainage licence in respect of the whole or any part of the licensed area or affects the exercise of any rights granted under any such methane drainage licence: see Sch 6 cl 2. 'The minister' means the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry); 'the licensee' means the person or persons to whom the licence is granted, his personal representatives and any person or persons to whom the rights conferred by the licence may lawfully have been assigned; and 'the licensed area' means the area for the time being in which the licensee may exercise the rights granted by the licence: Sch 6 cl 1(1). For the meaning of 'petroleum' see PARA 1626 ante (where a definition identical to that contained in Sch 6 cl 1(1) is set out); and as to methane drainage licences see PARA 1665 ante, PARA 1676 post.

8 See ibid Sch 6 cl 3. Unless sooner determined under any of the provisions of the licence, it continues for the initial term, ie the period of six years: Sch 6 cl 1(1), 3(1). Upon expiry of the initial term, and provided always that its terms and conditions continue to be performed and observed, the licence continues in force as follows: (1) subject to Sch 6 cl 4, for the second term (ie a period of five years following expiry of the initial term); and (2) subject to Sch 6 cl 5, for the production period: Sch 6 cl 1(1), 3(2). 'Production period' means, in circumstances governed by Sch 6 cl 5(2)(a)-(b), a period of 20 years and, in circumstances governed by Sch 6 cl 5(2)(c) or Sch 6 cl 5(3), such period or periods of not more than 18 years in aggregate as the minister is to prescribe: Sch 6 cl 1(1). See further note 10 infra.

9 See ibid Sch 6 cl 4.

10 See ibid Sch 6 cl 5. See also note 8 supra. At any time not later than three months before the expiry of the second term the licensee may, subject to payment of those sums provided for in the licence and to performance of the terms and conditions contained in it, give notice in writing to the minister that he desires the licence to continue in force thereafter: see Sch 6 cl 5(1). If such a notice is given the licence continues in force after the expiry of the second term as provided by Sch 6 cl 5(3)-(5) in the event that before such expiry (1) the minister has in pursuance of Sch 6 cl 13(4) approved a programme submitted to him in pursuance of Sch 6 cl 13(2) and such approval is still in force upon expiry of the second term; or (2) the minister has served a programme on the licensee in pursuance of Sch 6 cl 13(6) and such programme is still in force upon expiry of the second term; or (3) the minister has with a view to securing the maximum economic recovery of petroleum so directed in writing: Sch 6 cl 5(2). Where the minister has given a direction extending the second term of the licence in pursuance of head (3) supra he may, on notice in writing being given to him by the licensee not later than three months before the expiry of such extension or before the expiry of any subsequent extension under this provision that he desires the licence to continue in force thereafter, give a further direction that the licence shall so continue in force: Sch 6 cl 5(3). Where the licence continues in force by virtue of Sch 6 cl 5 then subject to the provisions of Sch 6 cl 3 it so continues during the production period: Sch 6 cl 5(4).

11 See ibid Sch 6 cl 6.

12 See *ibid* Sch 6 cl 7, 8. The licensee may at any time by giving to the minister not less than one month's notice in writing to that effect determine the licence or surrender any part of the licensed area such as is mentioned in Sch 6 cl 7(2): Sch 6 cl 7(1). Any area to be surrendered in accordance with Sch 6 cl 7(1) must be a clearly defined area whose surrender will leave a retained area the boundaries of which (1) run north, south, east and west; and (2) each extend for 100 metres or a multiple of 100 metres; provided that the minister may agree in writing prior to the date notice is given by the licensee under Sch 6 cl 7(1) to accept a surrender of part of the licensed area which does not comply with these requirements: Sch 6 cl 7(2).

13 See *ibid* Sch 6 cl 9.

14 See *ibid* Sch 6 cl 10.

15 See *ibid* Sch 6 cl 11.

16 See *ibid* Sch 6 cl 12.

17 See *ibid* Sch 6 cl 13, 14.

18 See *ibid* Sch 6 cl 15 (as amended). The plugging of any well must be done in accordance with a specification approved by the minister applicable to that well or to wells generally or to a class of wells to which that well belongs and must be carried out in an efficient and workmanlike manner: Sch 6 cl 15(5). Subject to Sch 6 cl 15(7) and Sch 6 cl 15(7A) (as added), any well drilled by the licensee pursuant to the licence must be plugged and sealed not less than one month before the expiry or determination of the licensee's rights in respect of the area or part thereof in which that well is drilled: see Sch 6 cl 15(6) (amended by SI 2006/784). A direction by the minister may, however, be given by notice in writing to the licensee not less than one month before the licensee's rights in respect of the area or part thereof in which the well is situated expire or determine so as to relieve the licensee of the obligation so imposed to plug and seal the well: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 6 cl 15(7). Where the minister revokes the licence, any well drilled by the licensee pursuant to the licence must either be plugged and sealed as soon as reasonably practicable or, if the minister so directs at the time of revocation, be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: see Sch 6 cl 15(7A) (added by SI 2006/784). Any well that, pursuant to a direction by the minister under the Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 6 cl 15(7), has not been plugged and sealed, must be left in good order and fit for further working together with all casings and any well head fixtures the removal of which would cause damage to such wells: Sch 6 cl 15(8). All casings and fixtures forming part of a well and left in position at the expiry or determination (whether by revocation or otherwise) of the licensee's rights in respect of the area or part thereof in which that well is drilled, or at the completion of any works required of the licensee under Sch 6 cl 15(7A) (as added), whichever is the later, are to be the property of the minister: Sch 6 cl 15(9) (substituted by SI 2006/784). 'Well' includes borehole: Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 6 cl 1(1).

19 Except with the consent in writing of the minister, no well must be drilled or made so that any part of it is less than 125 metres from any of the boundaries of the licensed area: *ibid* Sch 6 cl 16.

20 See *ibid* Sch 6 cl 17. The licensee must not suspend work on the drilling of a development well, or having suspended it must not begin it again, except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 6 cl 17(1). When work on the drilling of a development well is so suspended, the licensee must forthwith furnish the minister with such information relating to the well as the minister may specify: Sch 6 cl 17(2). The licensee (1) must not do any completion work in respect of a well in the licensed area except in accordance with a programme of completion work approved by the minister in respect of the well; (2) must furnish to the minister, in accordance with the provisions of such a programme, particulars of any completion work done by him in respect of a well in the licensed area; and (3) must not remove or alter any casing or equipment installed by way of completion work in respect of a well except with the consent in writing of the minister and in accordance with the conditions, if any, subject to which the consent is given: Sch 6 cl 17(3). For these purposes, 'completion work', in relation to a well, means work, by way of the installation of a casing or equipment or otherwise after the well has been drilled, for the purpose of bringing the well into use as a development well; and 'development well' means a well which the licensee uses or intends to use in connection with the getting of petroleum in the licensed area, other than a well which for the time being he uses or intends to use only for searching for petroleum: Sch 6 cl 17(4).

21 The licensee must use methods and practice customarily used in good oilfield practice for confining the petroleum obtained from the licensed area in tanks, gasholders, pipes, pipelines or other receptacles constructed for that purpose: *ibid* Sch 6 cl 18.

22 See *ibid* Sch 6 cl 19.

23 See *ibid* Sch 6 cl 20. The licensee must ensure that another person (including, in the case where the licensee is two or more persons, any of those persons) does not exercise any function of organising or supervising all or any of the operations of searching or boring for or getting petroleum in pursuance of the licence unless that other person is a person approved in writing by the minister and the function in question is one to which that approval relates: Sch 6 cl 20(1). The minister may not refuse to give his approval of a person if that person is competent to exercise the function in question, but where an approved person is no longer competent to exercise that function the minister may, by notice in writing given to the licensee, revoke his approval: Sch 6 cl 20(2).

24 The licensee must not carry out any operations authorised by the licence in or about the licensed area in such manner as to interfere unjustifiably with navigation in any navigable waters or fishing in, or the conservation of the living resources of any waters in or in the vicinity of, the licensed area: *ibid* Sch 6 cl 21.

25 See *ibid* Sch 6 cl 22.

26 See *ibid* Sch 6 cl 23.

27 See *ibid* Sch 6 cl 24.

28 See *ibid* Sch 6 cl 25.

29 See *ibid* Sch 6 cl 26(1)-(4). As far as reasonably practicable the licensee must correctly label and preserve for reference for a period of five years samples of the strata encountered in any well (including, where the site of such well is on land covered by water, the surface of such land) and samples of any petroleum or water discovered in any well in the licensed area: Sch 6 cl 26(1). The licensee must not dispose of any sample after the expiry of that period of five years unless (1) he has at least six months before the date of the disposal given notice in writing to the minister of his intention to dispose of the same; and (2) the minister or any person authorised by him has not within that period of six months informed the licensee in writing that he wishes the sample to be delivered to him: Sch 6 cl 26(2).

30 See *ibid* Sch 6 cl 27.

31 See *ibid* Sch 6 cl 28.

32 See *ibid* Sch 6 cl 29.

33 If the licensee at any time fails to perform the obligations arising under the terms and conditions of any of *ibid* Sch 6 cl 10, 15, 18 or 19, the minister is entitled, after giving to the licensee reasonable notice in writing of his intention, to execute any works and to provide and install any equipment which in the opinion of the minister may be necessary to secure the performance of those obligations or any of them and to recover the costs and expenses of so doing from the licensee: Sch 6 cl 30.

34 See *ibid* Sch 6 cl 31. As to diligence in Scotland see Sch 6 cl 32.

35 See *ibid* Sch 6 cl 33.

36 No statement must be made either in any notice, advertisement, prospectus or other document issued by or to the knowledge of the licensee or in any other manner claiming or suggesting whether expressly or by implication that Her Majesty or any government department or any person or body acting on behalf of Her Majesty has or have formed or expressed any opinion that the licensed area is from its geological formation or otherwise one in which petroleum is likely to be obtainable: *ibid* Sch 6 cl 34.

37 See *ibid* Sch 6 cl 35.

38 See *ibid* Sch 6 cl 36 (as amended). If any of the specified events occur then the minister may revoke the licence and thereupon the licence and all the rights granted by it are to cease and determine: see Sch 6 cl 36(1). The specified events are: (1) any payments mentioned in Sch 6 cl 9(1) or any part of them being in arrear or unpaid for two months after any of the days on which they ought to have been paid; (2) any breach or non-observance by the licensee of any of the terms and conditions of the licence; (3) in Great Britain, the bankruptcy or sequestration of the licensee; (4) in Great Britain, the making by the licensee of any arrangement or composition with his creditors; (5) in Great Britain, if the licensee is a company, the appointment of a receiver or administrator or any liquidation whether compulsory or voluntary; (6) in a jurisdiction other than Great Britain, the commencement of any procedure or the making of any arrangement or appointment substantially corresponding to any of those mentioned in heads (3)-(5) *supra*; (7) any breach or non-observance by the licensee of the terms and conditions of a development scheme; (8) if the licensee is a company, the licensee's ceasing to direct and control either (a) its operations under the licence; or (b) any commercial activities in connection with those operations, from a fixed place within the United Kingdom; (9) any breach of a condition subject to which the minister gave his approval in pursuance of Sch 6 cl 35(2) (assignment of rights to

petroleum or proceeds of sale of petroleum); (10) any breach of Sch 6 cl 35(5) (restrictions on assignment where the licensee is two or more persons); and where two or more persons are the licensee any reference to the licensee in heads (3)-(8) supra is a reference to any of those persons: *ibid* Sch 6 cl 36(2) (amended by SI 2007/784). The minister may revoke the licence, with the like consequences as are mentioned in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 6 cl 36(1), if (i) the licensee is a company; and (ii) there is a change in the control of the licensee; and (iii) the minister serves notice in writing on the licensee stating that he proposes to revoke the licence unless such a further change in the control of the licensee as is specified in the notice takes place within the period of three months beginning with the date of service of the notice; and (iv) that further change does not take place within that period: Sch 6 cl 36(3). There is a change in the control of the licensee for the purposes of head (ii) supra whenever a person has control of the licensee who did not have control of the licensee when the licence was granted; and the Income and Corporation Taxes Act 1988 s 416(2)-(4), (6) (see *INCOME TAXATION* vol 23(2) (Reissue) PARA 1299) applies, for the purpose of determining whether a person has or had control of the licensee, with the modifications specified in the Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352, Sch 6 cl 35(4) (restrictions on disposal of petroleum or proceeds of sale of petroleum): Sch 6 cl 36(4) (which refers to the modifications specified in Sch 6 cl 36(4); but it is apprehended that this is a drafting error and, by analogy with Sch 4 cl 37(4) (see PARA 1673 note 41 ante), the reference is intended to be to the modifications specified in Sch 6 cl 35(4)). Where two or more persons are the licensee and any of them is a company, Sch 6 cl 36(3), (4) is modified: see Sch 6 cl 36(5).

39 See *ibid* Sch 6 cl 37.

40 *Ibid* Sch 6 cl 1(2).

UPDATE

1670-1674 Model Clauses for Exploration, Production and Development in Seaward and Landward Areas

Petroleum Licensing (Exploration and Production) (Seaward and Landward Areas) Regulations 2004, SI 2004/352 further amended: Energy Act 2008 s 77, Sch 3 Pt 3.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(C) Model Clauses for Supplementary Seismic Survey and Methane Drainage Licences/1675. Model clauses for supplementary seismic survey licences.

(C) MODEL CLAUSES FOR SUPPLEMENTARY SEISMIC SURVEY AND METHANE DRAINAGE LICENCES

1675. Model clauses for supplementary seismic survey licences.

Model clauses have been prescribed¹ for incorporation in supplementary seismic survey licences², which cover:

- 4952 (1) the grant of the licence³;
- 4953 (2) the term of the licence and the circumstances in which it is automatically determined⁴;
- 4954 (3) payment of consideration for the licence⁵;
- 4955 (4) notice requirements with regard to the carrying out of seismic surveys⁶;
- 4956 (5) the records to be kept by the licensee⁷;
- 4957 (6) the returns to be made to the minister by the licensee⁸;
- 4958 (7) the minister's obligation to treat the licensee's reports as confidential⁹;
- 4959 (8) the minister's power to inspect the licensee's records¹⁰;
- 4960 (9) the licensee's duty to indemnify the minister against third party claims¹¹;
- 4961 (10) restrictions on assignment¹²;
- 4962 (11) the minister's power to revoke the licence¹³; and
- 4963 (12) provisions for arbitration in the event of disputes¹⁴.

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person¹⁵.

1 See for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante. The Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, were made under the Petroleum (Production) Act 1934 s 6(1) (repealed), but by virtue of the Petroleum Act 1998 s 49, Sch 3 Pt I para 1(2), they now have effect as if made under s 4.

2 For the meaning of 'supplementary seismic survey licence' see PARA 1664 note 3 ante.

3 See the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 9(2)(b), Sch 4 cl 2. The licence confers on the licensee a non-exclusive right to search for petroleum underlying the area to which the principal licence relates by undertaking seismic surveys in the adjacent area more particularly described in the licence: Sch 4 cl 2. 'The licensee' means the person or persons to whom the licence is granted, his personal representatives and any person or persons to whom the rights conferred by the licence may lawfully have been assigned: Sch 4 cl 1(1). For the meaning of 'principal licence' see PARA 1664 note 1 ante; and for the meaning of 'petroleum' see PARA 1626 ante (where a definition identical to that for the purposes of Sch 4 cl 1(1) is set out).

4 See *ibid* Sch 4 cl 3, 4. Unless it is determined sooner, the licence is to continue in force for a period of 12 months: see Sch 4 cl 3. The licence automatically ceases and determines (1) on the termination of the principal licence; and (2) on the grant of a petroleum exploration and development licence in respect of an area which includes the whole of the exploration area: Sch 4 cl 4(1). Where a petroleum exploration and development licence is granted in respect of part of the exploration area, the licence automatically ceases and determines as regards that part: Sch 4 cl 4(2). For the meaning of 'petroleum exploration and development licence' see PARA 1663 note 2 ante; and as to the model clauses now prescribed for such licences see PARA 1674 ante.

5 See *ibid* Sch 4 cl 5.

6 See *ibid* Sch 4 cl 6. Planning permission may be required for the carrying out of the survey: see Sch 4 cl 6(1).

7 See *ibid* Sch 4 cl 7.

8 See *ibid* Sch 4 cl 8.

9 See *ibid* Sch 4 cl 9. 'The minister' means the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry): Sch 4 cl 1(1). As to the Secretary of State see PARA 601 note 1 ante.

10 See *ibid* Sch 4 cl 10.

11 See *ibid* Sch 4 cl 11.

12 See *ibid* Sch 4 cl 12.

13 The minister may revoke the licence in the event of any breach or non-observance by the licensee of any of the terms and conditions of the licence, and thereupon the licence and all the rights granted by it cease and determine, subject and without prejudice to any obligation or liability imposed upon the licensee or incurred by him under the terms and conditions of the licence: see *ibid* Sch 4 cl 13.

14 See *ibid* Sch 4 cl 14.

15 *Ibid* Sch 4 cl 1(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/ (2) LICENSING/(v) Rights and Duties of Licensees/B. MODEL CLAUSES/(C) Model Clauses for Supplementary Seismic Survey and Methane Drainage Licences/1676. Model clauses for methane drainage licences.

1676. Model clauses for methane drainage licences.

Model clauses have been prescribed¹ for incorporation in methane drainage licences², which cover:

- 4964 (1) the grant of the licence³;
- 4965 (2) the term of the licence and the licensee's right to determine it⁴;
- 4966 (3) payment of consideration for the licence⁵;
- 4967 (4) the records to be kept by the licensee and furnished to the minister⁶;
- 4968 (5) the minister's power to inspect the licensee's accounts and records⁷;
- 4969 (6) the minister's duty to treat the licensee's records as confidential⁸;
- 4970 (7) the licensee's duty to give notice of operations for getting natural gas⁹;
- 4971 (8) the licensee's duty to indemnify the minister against third party claims¹⁰;
- 4972 (9) restrictions on assignment¹¹;
- 4973 (10) the minister's power to revoke the licence¹²; and
- 4974 (11) provisions for arbitration in the event of disputes¹³.

Any obligations which are to be observed and performed by the licensee are joint and several obligations at any time at which the licensee is more than one person¹⁴.

1. See for the purposes of the Petroleum Act 1998 s 4(1)(e): see PARA 1639 ante. The Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, were made under the Petroleum (Production) Act 1934 s 6(1) (repealed), but by virtue of the Petroleum Act 1998 s 49, Sch 3 Pt I para 1(2), they now have effect as if made under s 4.

2. For the meaning of 'methane drainage licence' see PARA 1665 note 2 ante. In practice, such licences are granted only for the purpose of making coal mines safe. As to the safety of coal mines see generally HEALTH AND SAFETY AT WORK; MINES, MINERALS AND QUARRIES.

3. See the Petroleum (Production) (Landward Areas) Regulations 1995, SI 1995/1436, reg 9(2)(c), Sch 5 cl 2.

4. See *ibid* Sch 5 cl 3, 4.

5. See *ibid* Sch 5 cl 5.

6. See *ibid* Sch 5 cl 6.

7. See *ibid* Sch 5 cl 7.

8. See *ibid* Sch 5 cl 8.

9. See *ibid* Sch 5 cl 9. For the meaning of 'natural gas' see PARA 1627 ante.

10. See *ibid* Sch 5 cl 10.

11. See *ibid* Sch 5 cl 11.

12. See *ibid* Sch 5 cl 12.

13. See *ibid* Sch 5 cl 13.

14 Ibid Sch 5 cl 1(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(i) Statutory Regulation; in general/1677. The domestic legislation.

(3) OFFSHORE WORKINGS AND INSTALLATIONS

(i) Statutory Regulation; in general

1677. The domestic legislation.

The management of offshore installations is governed principally by the following domestic legislation:

- 4975 (1) Part II of the Petroleum Act 1998¹, which provides for the application of the criminal and civil law to offshore activities²;
- 4976 (2) Part IV of that 1998 Act³, which makes provision with regard to the abandonment of offshore installations⁴;
- 4977 (3) certain provisions of the Petroleum Act 1987⁵ which make provision for the establishment of safety zones around installations⁶;
- 4978 (4) the Offshore Safety Act 1992, which extends the general purposes of the Health and Safety at Work etc Act 1974 to offshore installations and makes provision for the security of petroleum and petroleum products⁷; and
- 4979 (5) Part II⁸ of the Aviation and Maritime Security Act 1990⁹.

The general purposes of Part I of the Health and Safety at Work etc Act 1974¹⁰ include:

- 4980 (a) securing the safety, health and welfare of persons on offshore installations¹¹ or engaged on pipeline works¹²;
- 4981 (b) securing the safety of such installations and preventing accidents on or near them;
- 4982 (c) securing the proper construction and safe operation of pipelines and preventing damage to them; and
- 4983 (d) securing the safe dismantling, removal and disposal of offshore installations and pipelines¹³.

1 Ie the Petroleum Act 1998 Pt II (ss 10-13) (as amended): see PARAS 1678-1679 post.

2 See PARAS 1678-1679 post.

3 Ie the Petroleum Act 1998 Pt IV (ss 29-45): see PARA 1729 et seq post.

4 See PARA 1729 et seq post.

5 Ie the Petroleum Act 1987 ss 21-24: see PARA 1680 post.

6 See PARA 1680 et seq post.

7 See the Offshore Safety Act 1992 ss 1, 3-5 (as amended); para 1639 note 3 ante; the text and notes 10-13 infra; and PARAS 1677, 1681 post. See also the Health and Safety at Work etc Act 1974 (Application outside Great Britain) Order 2001, SI 2001/2127; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 305. As to health and safety regulations with regard to offshore installations and activities see PARA 1682 et seq post; and HEALTH AND SAFETY AT WORK. Health and safety regulations in relation to offshore installations were previously made under

the Mineral Workings (Offshore Installations) Act 1971 and continued in force notwithstanding the repeal of the enabling powers: see the Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, reg 6(1).

The operation of any regulations made under the Mineral Workings (Offshore Installations) Act 1971 may be wholly or partly excluded in relation to any particular installation by directions of the Health and Safety Executive given in such manner and to such persons as it thinks appropriate: s 7(4) (amended by the Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, regs 3(1)(f), 4(2)). Any exemption or exclusion by such directions may be made subject to the conditions specified in the directions: Mineral Workings (Offshore Installations) Act 1971 s 7(5) (as so amended). Where a person is so exempted or excluded from the requirements of any provision of the Act or of regulations, but subject to a condition, the exemption or exclusion does not have effect, and proceedings may be brought in respect of any breach of duty as if the exemption or exclusion had not had effect: s 7(6). As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

8 Ie the Aviation and Maritime Security Act 1990 Pt II (ss 9-17): see PARA 1681 post; and SHIPPING AND MARITIME LAW vol 94 (2008) PARA 1135 et seq 1211 et seq.

9 See PARA 1681 post; and SHIPPING AND MARITIME LAW vol 94 (2008) PARA 1135 et seq 1211 et seq.

10 Ie the Health and Safety at Work etc Act 1974 Pt I (ss 1-54) (as amended): see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 420 et seq.

11 For these purposes, 'offshore installation' means any installation which is an offshore installation within the meaning of the Mineral Workings (Offshore Installations) Act 1971 (ie within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3 (as amended) (see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 733) (see PARA 1681 note 11 post) or is to be taken to be an installation for the purposes of the Petroleum Act 1987 ss 21-23 (as amended) (see PARA 1680 post): Offshore Safety Act 1992 s 1(4).

12 For these purposes, 'pipeline works' means works of any of the following kinds, namely: (1) assembling or placing a pipeline or length of pipeline; (2) inspecting, testing, maintaining, adjusting, repairing, altering or renewing a pipeline or length of pipeline; (3) changing the position of or dismantling or removing a pipeline or length of pipeline; (4) opening the bed of the sea for the purposes of works mentioned in heads (1)-(3) supra, tunnelling or boring for those purposes and other works needed for or incidental to those purposes; (5) works for the purpose of determining whether a place is suitable as part of the site of a proposed pipeline and the carrying out of surveying operations for the purpose of settling the route of a proposed pipeline: *ibid* s 1(4) (definition substituted the Petroleum Act 1998 s 50, Sch 4 para 33(2)(b)). 'Pipeline' means a controlled pipeline within the meaning of the Petroleum Act 1998 Pt III (ss 14-28) (as amended) (see PARA 1740 note 6 post): Offshore Safety Act 1992 s 1(4) (definition as so substituted). 'Pipeline' does not, however, include: (a) any pipeline so far as it forms part of the equipment of a vessel or vehicle; or (b) any apparatus and works associated with a pipe or system of pipes and prescribed for these purposes by regulations made by the Secretary of State: s 1(4A) (s 1(4A) (4B) added by the Petroleum Act 1998 Sch 4 para 33(2)(c)). A statutory instrument containing regulations made by virtue of the Offshore Safety Act 1992 s 1(4A) (as added) is subject to annulment in pursuance of a resolution of either House of Parliament; and the Petroleum Act 1998 s 25 (see PARA 1740 note 2 post) applies in relation to any such regulations as it applies in relation to regulations under s 20 (see PARA 1764 post): Offshore Safety Act 1992 s 1(4B) (as so added). At the date at which this title states the law, no such regulations had been made.

13 *Ibid* s 1(1). The Health and Safety at Work etc Act 1974 Pt I (as amended) has effect as if the provisions mentioned in the Offshore Safety Act 1992 s 1(3) (as amended) were existing statutory provisions within the meaning of that Part and, in the case of the enactments there mentioned, were specified in the Health and Safety at Work etc Act 1974 Sch 1 col 3 (as amended) (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 302 note 12): Offshore Safety Act 1992 s 1(1). Without prejudice to the generality of the Health and Safety at Work etc Act 1974 s 15(1) (as amended) (health and safety regulations), regulations under s 15 (as amended) may repeal or modify any of the provisions mentioned in the Offshore Safety Act 1992 s 1(3) (as amended) and may make any provision which, but for any such repeal or modification, could be made by regulations or orders made under any enactment mentioned in heads (1)-(3) supra: Offshore Safety Act 1992 s 1(3) (amended by the Petroleum Act 1998 ss 50, 51, Sch 4 para 33(2)(a), Sch 5 Pt I). The provisions mentioned in the Offshore Safety Act 1992 s 1(3) (as amended) and the definitions in s 1(4) (as amended) have effect as if any reference in: (a) the Mineral Workings (Offshore Installations) Act 1971 s 1(4) (now repealed); (b) the Petroleum Act 1987 s 21(7) (see PARA 1680 post); (c) the Petroleum Act 1998 s 14(2) or s 45 (see PARAS 1743, 1729 notes 4-5 post), to tidal waters and parts of the sea in or adjacent to the United Kingdom, or to the territorial sea adjacent to the United Kingdom, were a reference to tidal waters and parts of the sea in or adjacent to Great Britain, or to the territorial sea adjacent to Great Britain: Offshore Safety Act 1992 s 1(5) (amended by the Petroleum Act 1998 Sch 4 para 33(2)(d), Sch 5 Pt I). See further the Offshore Installations (Safety Case) Regulations 2005, SI

2005/3117 (made under various provisions of the Health and Safety at Work etc Act 1974 and also under the Offshore Safety Act 1992 s 1(2)); and PARA 1683 post. As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

UPDATE

1677 The domestic legislation

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(i) Statutory Regulation; in general/1678. Application of criminal law to offshore installations.

1678. Application of criminal law to offshore installations.

Her Majesty may by Order in Council provide that, in such cases and subject to such exceptions as may be prescribed:

- 4984 (1) any act or omission which takes place on, under or above an installation¹ in certain waters² or within 500 metres of any such installation, and which, if it took place in any part of the United Kingdom, would constitute an offence under the law in that part, is to be treated for the purposes of that law as taking place in that part³;
- 4985 (2) a constable is to have, on, under or above any installation in any such waters or any waters within 500 metres of such an installation, all the powers, protection and privileges which he has in the area for which he acts as constable⁴.

Where a body corporate is guilty of an offence by virtue of such an Order in Council, and the offence is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director, manager, secretary or other similar officer or any person purporting to act in any such capacity, he as well as the body corporate is guilty of the offence and liable to be proceeded against and punished accordingly⁵. Where the affairs of a body corporate are managed by its members, this applies in relation to the acts or defaults of a member in connection with his functions of management as if he were a director of a body corporate⁶.

Proceedings for anything which by virtue of the provisions described above is an offence, may be taken, and the offence treated for all incidental purposes as having been committed, in any place in the United Kingdom⁷. Subject to certain exceptions⁸, however, no proceedings for any offence alleged to have been committed on, under or above an installation in waters to which these provisions apply or in any waters within 500 metres of such an installation may be instituted in England and Wales except by or with the consent of the Director of Public Prosecutions, unless prosecution of the offence there requires the consent of the Attorney General⁹.

The Criminal Jurisdiction (Offshore Activities) Order 1987¹⁰ has effect as if made under the above provisions¹¹ and applies the criminal law in the manner set out in heads (1) and (2) above¹².

Her Majesty may by Order in Council specify any area which is in a foreign sector of the continental shelf¹³ and comprises any part of a cross-boundary field¹⁴ as an area in which the powers described above are exercisable¹⁵.

The above provisions, so far as they apply to individuals, apply to them whether or not they are British citizens, and so far as they apply to bodies corporate, apply to them whether or not they are incorporated under the law of any part of the United Kingdom¹⁶.

1 For these purposes, 'installation' includes any floating structure or device maintained on a station by whatever means: Petroleum Act 1998 s 13. Section 10 (as amended) (see the text and notes 2-10 infra), applies to installations notwithstanding that they are for the time being in transit but does not apply to an installation that is a renewable energy installation within the meaning of the Energy Act 2004 Pt 2 Ch 2 (ss 84-104) (see PARA 1310 et seq ante): Petroleum Act 1998 s 10(10) (amended by the Energy Act 2004 s 103(3)). For the

meaning of 'renewable energy installation' see PARA 1311 note 2 ante; and as to the application of the criminal law to such installations see PARA 1311 ante.

2 The waters to which the Petroleum Act 1998 s 10 (as amended) applies are: (1) the territorial sea adjacent to the United Kingdom; (2) waters in any area designated under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante); and (3) waters in any area specified under the Petroleum Act 1998 s 10(8) (see the text and notes 10-12 infra): s 10(7). For the meaning of 'United Kingdom' see PARA 602 note 7 ante; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

3 Ibid s 10(1). A statutory instrument containing an Order in Council under s 10 (as amended) is subject to annulment in pursuance of a resolution of either House of Parliament: s 10(11). At the date at which this title states the law, no such order had been made, but, by virtue of s 49, Sch 3 Pt I para 1(2), the Criminal Jurisdiction (Offshore Activities) Order 1987, SI 1987/2198, art 3 (see the text and note 12 infra), which applies to waters falling within heads (1)-(2) in note 2 supra (art 2) has effect as if so made.

4 Petroleum Act 1998 s 10(2). This is without prejudice to any other enactment or rule of law affording any power, protection or privilege to constables: s 10(3). As to the powers, protection and privileges of a constable see generally POLICE. At the date at which this title states the law, no such order had been made, but, by virtue of s 49, Sch 3 Pt I para 1(2), the Criminal Jurisdiction (Offshore Activities) Order 1987, SI 1987/2198, art 4 (see the text and note 12 infra), which applies to waters falling within heads (1)-(2) in note 2 supra (art 2) has effect as if so made.

5 Petroleum Act 1998 s 10(4).

6 Ibid s 10(5).

7 Ibid s 10(6).

8 The exceptions are (1) any offence to which ibid s 12(5) applies; (2) any offence under, or under any provision which has effect under: (a) the Customs and Excise Acts 1979, or any enactment to be construed as one with those Acts or any of them; (b) except where it is created by virtue of the Civil Aviation Act 1982 Sch 13 Pt III para 6(5) (see AIR LAW vol 2 (2008) PARA 30), that 1982 Act or any enactment to be construed as one with that Act; (c) the Pilotage Act 1987; (d) the Value Added Tax Act 1994 or any enactment to be construed as one with that Act; (e) the Merchant Shipping Act 1995; or (f) the Petroleum Act 1998 Pt III (ss 14-28) (as amended) (see PARAS 1030-1032, 1637 ante, PARA 1740 et seq post) or Pt IV (ss 29-45) (see PARA 1729 et seq post): s 12(2). Section 12(5) applies to: (i) any offence under the Petroleum Act 1987 s 23 (as amended) (safety zones): see PARA 1680 post; and (ii) any offence under any provision made under the Mineral Workings (Offshore Installations) Act 1971 which has effect by virtue of the Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, reg 6(1) (see PARA 1677 note 7 ante) or the corresponding Northern Ireland provision: Petroleum Act 1998 s 12(5). See also note 9 infra.

9 Ibid s 12(1)(a), (3)(a). Similar provision is made within regard to any offence committed on or as respects an aircraft which is not registered in the United Kingdom which is an offence created by virtue of the Civil Aviation Act 1982 Sch 13 Pt III para 6(5) (see AIR LAW vol 2 (2008) PARA 30): see the Petroleum Act 1998 s 12(1)(b), (3)(a). The Territorial Waters Jurisdiction Act 1878 s 3 (restriction on prosecutions: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1056) does not apply to any proceedings for an offence to which the Petroleum Act 1998 s 12(1) or (5) applies: s 12(4).

10 Ie the Criminal Jurisdiction (Offshore Activities) Order 1987, SI 1987/2198.

11 See notes 3-4 supra.

12 See the Criminal Jurisdiction (Offshore Activities) Order 1987, SI 1987/2198, arts 3, 4.

13 'Foreign sector of the continental shelf' means an area within which rights are exercisable with respect to the sea bed and subsoil and their natural resources by a country or territory outside the United Kingdom: Petroleum Act 1998 ss 13, 48(1).

14 'Cross-boundary field' means a field that extends across the boundary between waters falling within heads (1), (2) of note 2 supra and a foreign sector of the continental shelf; and 'field' means a geological structure identified as such by Order in Council under ibid s 10(8): s 10(9).

15 Ibid s 10(8). At the date at which this title states the law, no such order had been made.

16 Ibid s 48(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(i) Statutory Regulation; in general/1679. Application of civil law to offshore installations.

1679. Application of civil law to offshore installations.

Her Majesty may by Order in Council provide¹ that, in such cases and subject to such exceptions as may be prescribed, questions arising out of acts or omissions taking place on, under or above certain waters² in connection with activities:

- 4986 (1) connected with the exploration of, or the exploitation of the natural resources of, the shore or bed of such waters or the subsoil beneath it³; and
 4987 (2) without prejudice to the generality of head (1) above, activities carried on from, by means of or on, or for purposes connected with, any installation⁴ which is or has been maintained, or is intended to be established, for the carrying on of any of the following activities⁵, namely:
- 465
693. (a) the exploitation or exploration of mineral resources in or under the shore or bed of waters to which these provisions apply;
694. (b) the storage of gas in or under the shore or bed of such waters or the recovery of gas so stored;
695. (c) the conveyance of things by means of a pipe, or system of pipes, constructed or placed on, in or under the shore or bed of such waters; and
696. (d) the provision of accommodation for persons who work on or from an installation which is or has been maintained, or is intended to be established, for the carrying on of an activity within head (a), head (b) or head (c) above⁶,
- 466

are to be determined in accordance with the law in force in such part of the United Kingdom as may be specified⁷; and may make provision for conferring jurisdiction with respect to such questions on such courts in any part of the United Kingdom so specified⁸. Any jurisdiction so conferred is without prejudice to any jurisdiction otherwise exercisable⁹.

The Civil Jurisdiction (Offshore Activities) Order 1987¹⁰ has effect as if made under the above provisions¹¹.

Her Majesty may by Order in Council specify any area which is in a foreign sector of the continental shelf and comprises any part of a cross-boundary field¹² as an area in which the powers described above are exercisable¹³.

The above provisions, so far as they apply to individuals, apply to them whether or not they are British citizens, and so far as they apply to bodies corporate, apply to them whether or not they are incorporated under the law of any part of the United Kingdom¹⁴.

1 A statutory instrument containing an Order in Council under the Petroleum Act 1998 s 11 is subject to annulment in pursuance of a resolution of either House of Parliament: s 11(7).

2 The waters to which *ibid* s 11 applies are as follows: (1) tidal waters and parts of the sea in or adjacent to the United Kingdom up to the seaward limits of the territorial sea; (2) waters in any area designated under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante); (3) waters in any area specified under the Petroleum Act 1998 s 10(8) (see the text and notes 10-11 infra); (4) in relation to installations which have been maintained, or are intended to be established, in waters falling within head (1), head (2) or head (3) supra, waters in a foreign sector of the continental shelf which are adjacent to such waters: s 11(8). For the meaning

of 'United Kingdom' see PARA 602 note 7 ante; and as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3. For the meaning of 'foreign sector of the continental shelf' see PARA 1678 note 13 ante; and for the meaning of 'installation' see PARA 1678 note 1 ante.

3 See *ibid* s 11(2)(a).

4 *Ibid* s 11 applies to installations notwithstanding that they are for the time being in transit: s 11(6). In contrast to the position under s 10 (as amended) (see PARA 1678 ante), renewable energy installations are not specifically excluded; but as to the application of the civil law to such installations see the Energy Act 2004 s 87; and PARA 1312 ante.

5 See the Petroleum Act 1998 s 11(2)(b). The fact that an installation has been maintained for the carrying on of any such activity must be disregarded if, since it was so maintained, it has been outside waters described in note 2 supra or it has been maintained for the carrying on of an activity not falling within s 11(3) (see head (2)(a)-(d) in the text): s 11(4).

6 See *ibid* s 11(3)(a)-(d).

7 *Ibid* s 11(1)(a). At the date at which this title states the law, no such order had been made, but by virtue of s 49, Sch 3 Pt I para 1(2), the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 2 has effect as if so made. Subject to any Order in Council made under the Petroleum Act 1998 s 10(1) (see PARA 1678 ante) with respect to the application of the criminal law, the law in force in England and Wales is to apply for the determination of questions arising out of relevant acts taking place in the English area; and similar provision is made in relation to Scotland and Northern Ireland: Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 2; Interpretation Act 1978 s 17(2). 'Relevant act' means an act or omission taking place on, under or above the offshore area in connection with any of the activities mentioned in heads (1), (2) in the text; 'offshore area' means waters corresponding to those described in note 2 heads (1), (2), (4) supra; 'English area' means such of the offshore area adjacent to England and Wales lying to the south of the Scottish border (as defined) and east of the Northern Irish border (as defined), together with the internal waters of England and Wales in so far as they are tidal or constitute parts of the sea: Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 1(2).

An Order in Council under the Petroleum Act 1998 s 11 may make provision for treating for the purposes of the Radioactive Substances Act 1993 and any orders and regulations made thereunder any installation in an area or part with respect to which provision is made under the Petroleum Act 1998 s 11 and any waters within 500 metres of such an installation as if they were situated in such part of the United Kingdom as may be specified in the order, and for modifying the provisions of that Act in their application to such an installation or waters: Continental Shelf Act 1964 s 7 (amended by the Petroleum Act 1998 s 50, Sch 4 para 2(3)). The Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, provides for the extension of the application of the Radioactive Substances Act 1993 and certain provisions of the Communications Act 2003 to offshore installations: see the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 4 (as amended); the Communications Act 2003 s 410(3) (amended by the Energy Act 2004 s 87(5)); the Interpretation Act 1978 s 17(2); para 1357 note 8 ante; and TELECOMMUNICATIONS AND BROADCASTING. As to the Radioactive Substances Act 1993 see PARA 1439 et seq ante.

8 Petroleum Act 1998 s 11(1)(b). Under the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, art 3(1), jurisdiction is conferred on the High Court for the determination of any questions arising out of a relevant act which fall to be determined in accordance with the law of England and Wales (see note 7 supra), as it would have if the relevant act had taken place in England or Wales. Corresponding jurisdiction is conferred on the Court of Session and the High Court in Northern Ireland by art 3(2), (3) respectively.

9 Petroleum Act 1998 s 11(5).

10 *Ie* the Civil Jurisdiction (Offshore Activities) Order 1987, SI 1987/2197, arts 1-3: see notes 7-8 supra.

11 See notes 7-8 supra.

12 For the meaning of 'cross-boundary field' see PARA 1678 note 14 ante.

13 Petroleum Act 1998 s 10(8).

14 *Ibid* s 48(2).

UPDATE

1679 Application of civil law to offshore installations

TEXT AND NOTES 1-9--Petroleum Act 1998 s 11 amended: Energy Act 2008 Sch 1 para 7 (partly in force: SI 2009/45, SI 2009/2809).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(i) Statutory Regulation; in general/1680. Protection of installations.

1680. Protection of installations.

For the purpose of protecting installations¹, the Petroleum Act 1987 provides for the designation of sea areas as safety zones². There is a safety zone around every installation which, or part of which, is in certain waters³, if:

- 4988 (1) the installation is stationed there so that any of several specified activities⁴ may be carried out on, from or by means of it⁵;
- 4989 (2) it is being assembled at a station where it is to be used for such a purpose⁶; or
- 4990 (3) it remains or is being dismantled at a station where it has been used for such a purpose⁷.

This does not, however, apply to an installation in respect of which a zone is established by order⁸, or to one which:

- 4991 (a) is connected with dry land by a permanent structure providing access at all times and for all purposes⁹; or
- 4992 (b) does not project above the sea at any state of the tide¹⁰.

The Secretary of State¹¹ may by order¹² exclude any installation or any description of installation from the automatic establishment of a safety zone, and may do so generally or by reference to specified activities or locations or in any other way¹³.

A safety zone established under the provisions described above extends to every point within 500 metres of any part of the installation (ignoring any moorings) and to every point in the water which is vertically above or below such a point¹⁴.

The Secretary of State may by order establish a safety zone around any installation which, or part of which, is stationed in the waters to which the above provisions apply, or is being assembled or dismantled in such waters¹⁵. The area of a safety zone established by an order is as defined in the order and may extend outside those waters, but may not extend to any point which would be outside a zone defined as if it were established automatically under the provisions described above¹⁶. An order establishing a safety zone may be made in anticipation of the arrival of an installation at its station, so as to come into force when it does so¹⁷.

Where there is a safety zone around an installation, no vessel¹⁸ may enter or remain in the zone except, in the case of a safety zone established by order¹⁹, in accordance with that order, or in that or any other case, in accordance with regulations made by the Secretary of State or a consent given by the Health and Safety Executive²⁰. If a vessel enters or remains in a safety zone in contravention of this provision, then its owner and its master²¹ are each guilty of an offence and liable on summary conviction to a fine not exceeding the statutory maximum, or on conviction on indictment to imprisonment for a term not exceeding two years or a fine or to both²². It is a defence to prove that the presence of the installation or the existence of the safety zone was not, and would not on reasonable inquiry have become, known to the master²³. Where the commission by any person of an offence under this provision is due to the act or default of some other person, that other person is also guilty of that offence and is liable to be

proceeded against and punished accordingly²⁴; and where an offence committed by a body corporate under this provision is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director, manager, secretary or other similar officer of the body corporate or any person who was purporting to act in any such capacity, he as well as the body corporate is guilty of that offence and is liable to be proceeded against and punished accordingly²⁵. Where the affairs of a body corporate are managed by its members, such liability is applicable in relation to acts and defaults of a member in connection with his functions of management as if he were a director of the body corporate²⁶. Proceedings for an offence under this provision may be taken, and the offence may for all incidental purposes be treated as having been committed, in any place in the United Kingdom²⁷.

1 For these purposes: (1) any floating structure or device maintained on a station by whatever means; and (2) any apparatus or works treated as associated with a pipe or system of pipes by the Petroleum Act 1998 s 26 (but not anything else within the definition of pipeline in s 26) is to be taken to be an installation: Petroleum Act 1987 s 24(1) (amended by the Petroleum Act 1998 s 50, Sch 4 para 23).

2 See the text and notes 3-27 *infra*. The provisions described in the text and notes 3-27 *infra*, so far as they apply to individuals, apply to them whether or not they are British citizens, and so far as they apply to bodies corporate, apply to them whether or not they are incorporated in any part of the United Kingdom: Petroleum Act 1987 s 24(3). For the meaning of 'United Kingdom' see PARA 602 note 7 *ante*.

3 *Ibid* s 21(1). The waters referred to are: (1) tidal waters and parts of the sea in or adjacent to the United Kingdom up to the seaward limits of the territorial sea; and (2) waters in an area designated under the Continental Shelf Act 1964 1(7) (as amended) (see PARA 1636 *ante*): Petroleum Act 1987 s 21(7). A safety zone established by s 21(1) may extend to waters outside waters to which s 21(7) applies: s 21(6). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

4 The activities are (1) the exploitation or exploration of mineral resources in or under the shore or bed of the waters described in note 3 *supra*; (2) the storage of gas in or under the shore or bed of such waters or the recovery of gas so stored; (3) the conveyance of things by means of a pipe, or system of pipes, constructed or placed on, in or under the shore or bed of such waters; (4) the provision of accommodation for persons who work on or from such an installation: *ibid* s 21(2)(a)-(d).

5 *Ibid* s 21(1)(a).

6 *Ibid* s 21(1)(b).

7 *Ibid* s 21(1)(c).

8 *Ibid* s 21(3). As to orders establishing safety zones see s 22; and the text and notes 15-17 *infra*.

9 *Ibid* s 21(3)(a).

10 *Ibid* s 21(3)(b).

11 As to the Secretary of State see PARA 601 note 1 *ante*.

12 The power to make orders and regulations under the Petroleum Act 1987 ss 21-23 (as amended) is exercisable by statutory instrument; and a statutory instrument containing an order under s 21 or regulations under s 23 (as amended) is subject to annulment in pursuance of a resolution of either House of Parliament: s 24(2). It is the duty of the Health and Safety Commission to submit from time to time to the Secretary of State such proposals as the Commission considers appropriate for the making of orders under s 21 or s 22: s 24(2A) (added by the Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, reg 4(4)(b)).

13 Petroleum Act 1987 s 21(4).

14 *Ibid* s 21(5).

15 *Ibid* s 22(1). See also note 12 *supra*. A number of orders have been made under s 22(1), (2): see eg the Offshore Installations (Safety Zones) Order 2007, SI 2007/41; the Offshore Installations (Safety Zones) (No 2) Order 2007, SI 2007/1017; the Offshore Installations (Safety Zones) (No 3) Order 2007, SI 2007/1549; the Offshore Installations (Safety Zones) (No 5) Order 2007, SI 2007/2198; the Offshore Installations (Safety Zones) (No 6) Order 2007, SI 2007/2446.

16 Petroleum Act 1987 s 22(2).

17 Ibid s 22(3).

18 'Vessel' includes a hovercraft, submersible apparatus (within the meaning of the Merchant Shipping Act 1995 s 88(4): ie any apparatus used, or designed for use, in supporting human life on or under the bed of any waters or elsewhere under the surface of any waters) and an installation in transit: Petroleum Act 1987 s 23(8) (amended by the Merchant Shipping Act 1995 s 314(2), Sch 13 para 78).

19 See the text and notes 15-17 supra.

20 Petroleum Act 1987 s 23(1) (amended by the Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, reg 4(4)(a)). See also note 12 supra. As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

21 'Master' means (1) in relation to a hovercraft, the captain; (2) in relation to submersible apparatus, the person in charge of the apparatus; and (3) in relation to an installation in transit, the person in charge of the transit operation: Petroleum Act 1987 s 23(8).

22 Ibid s 23(2). As to the statutory maximum see PARA 689 note 2 ante. In fixing fines in such cases, the court must have regard to the level of culpability, the financial circumstances of the defendant, and the potential consequences to others of the breach of safety: see *R v Armana Ltd* [2004] EWCA Crim 1069, [2005] 1 Cr App Rep (S) 27 (fine of £40,000 held to be manifestly excessive in circumstances where the owner of the vessel had not been aware of a likely breach, had not encouraged or acquiesced in any breach of safety regulations, had employed experienced crew and deck officers, and had acted in such a way as to reduce the risk of breaches of safety procedures occurring; fine of £15,000 substituted on appeal).

23 Petroleum Act 1987 s 23(3).

24 Ibid s 23(4).

25 Ibid s 23(5).

26 Ibid s 23(6).

27 Ibid s 23(7).

UPDATE

1680 Protection of installations

NOTES--Certain persons or indorsements mentioned in this paragraph are specified for the purposes of Regulatory Enforcement and Sanctions Act 2008 s 37, Schs 5, 6 (meaning of 'regulator' for the purposes of imposing civil sanctions): see ADMINISTRATIVE LAW vol 1(1) (2001 Reissue) PARA 196A.

NOTE 4--Petroleum Act 1987 s 21(2) amended, s 21(8) added: Energy Act 2008 Sch 1 para 4 (partly in force: SI 2009/2809).

NOTE 12--The Health and Safety Commission was abolished as from 1 April 2008: see the Legislative Reform (Health and Safety Executive) Order 2008, SI 2008/960, art 2.

NOTE 15--See the Offshore Installations (Safety Zones) Order 2008, SI 2008/1522, the Offshore Installations (Safety Zones) (No 2) Order 2008, SI 2008/2157, the Offshore Installations (Safety Zones) (No 3) Order 2008, SI 2008/2454, the Offshore Installations (Safety Zones) (No 4) Order 2008, SI 2008/3011, the Offshore Installations (Safety Zones) Order 2009, SI 2009/1374, the Offshore Installations (Safety Zones) (No 2) Order 2009, SI 2009/2099, and the Offshore Installations (Safety Zones) (No 3) Order 2009, SI 2009/2927.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(i) Statutory Regulation; in general/1681. Preservation of security of petroleum and petroleum products and fixed platforms.

1681. Preservation of security of petroleum and petroleum products and fixed platforms.

The Secretary of State¹ may, after consultation with the Health and Safety Executive² and with any person who is the operator of an offshore installation³, onshore terminal⁴ or oil refinery⁵, give to that person such directions of a general character as appear to the Secretary of State requisite or expedient for the purpose of preserving the security of any such installation, terminal or refinery⁶. If it appears to the Secretary of State requisite or expedient for that purpose, he may after such consultation give the person a direction requiring him (according to the circumstances of the case), to do or not to do a particular thing specified in the direction⁷. A person given a direction under these provisions must give effect to it notwithstanding any other duty imposed on him by or under any enactment⁸.

The Secretary of State must lay a copy of any direction given by him under these provisions before each House of Parliament unless he is of opinion that disclosure of the direction is against the interests of national security or the commercial interests of some other person⁹. A person must not disclose, and is not required by virtue of any enactment or otherwise to disclose, anything done by virtue of these provisions if the Secretary of State has notified him that disclosure is against the interests of national security or the commercial interests of some other person¹⁰.

Provision has also been made for the suppression of unlawful acts against the safety of fixed platforms¹¹. In particular, a person who unlawfully, by the use of force or by threats of any kind, seizes a fixed platform or exercises control of it, commits an offence, whatever his nationality and whether the fixed platform is in the United Kingdom or elsewhere¹². A person guilty of such an offence is liable on conviction on indictment to imprisonment for life¹³.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

3 For these purposes, 'offshore installation' means any installation which is an offshore installation within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3 (as amended) (see PARA 1684 note 1 post), or is to be taken to be an installation for the purposes of the Petroleum Act 1987 ss 21-23 (as amended) (see PARA 1680 ante): Offshore Safety Act 1992 ss 1(4), 5(7); Mineral Workings (Offshore Installations) Act 1971 s 12(1) (definition substituted by the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 22 Sch 1 Pt II paras 2, 4).

4 'Onshore terminal' means an onshore terminal which receives petroleum directly or indirectly from an offshore installation: Offshore Safety Act 1992 s 5(7). For the meaning of 'petroleum' see PARA 1626 ante (definition applied by s 5(7) (amended for these purposes by the Petroleum Act 1998 s 50, Sch 4 para 33(4)).

5 'Oil refinery' includes an installation for processing petroleum products: Offshore Safety Act 1992 s 5(7).

6 Ibid s 5(1), (6).

7 Ibid s 5(2), (6).

8 Ibid s 5(3), (6).

9 Ibid s 5(4).

10 Ibid s 5(5).

11 See the Aviation and Maritime Security Act 1990 Pt II (ss 9-17); and SHIPPING AND MARITIME LAW vol 94 (2008) PARA 1135 et seq 1211 et seq. Proceedings for any offence under the Act may not be instituted in England and Wales except by, or with the consent of, the Attorney General: s 16(1)(a). The definition of 'fixed platform' in s 17(1) includes an offshore installation within the meaning of the Mineral Workings (Offshore Installations) Act 1971 (ie within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3 (as amended) (see PARA 1684 note 1 post): see the Mineral Workings (Offshore Installations) Act 1971 s 12(1) (definition as substituted: see note 3 supra)).

12 Aviation and Maritime Security Act 1990 s 10(1).

13 Ibid s 10(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/A. DESIGN AND CONSTRUCTION ETC OF OFFSHORE INSTALLATIONS AND WELLS/1682. Design and construction.

(ii) Health and Safety etc; Employment Rights

A. DESIGN AND CONSTRUCTION ETC OF OFFSHORE INSTALLATIONS AND WELLS

1682. Design and construction.

The design and construction of offshore installations¹ and wells² is subject to the provisions of the Offshore Installations and Wells (Design and Construction, etc) Regulations 1996³ which are made under the Health and Safety at Work etc Act 1974⁴. Those regulations make provision for identifying the 'duty holder'⁵ in relation to such installations and wells and impose duties on him with regard to:

- 4993 (1) the integrity of installations⁶;
- 4994 (2) helicopter landing areas⁷ and additional requirements with regard to installations⁸; and
- 4995 (3) wells⁹.

The Health and Safety Executive¹⁰ has power to exempt any person, installation, well or class of persons, installations or wells from any requirement or prohibition imposed by those regulations¹¹.

The 1996 Regulations are discussed in detail elsewhere in this work¹².

1 For these purposes, 'installation' means an offshore installation within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3 (as amended), except reg 3(3)(a), (b), (c)(ii) (see PARA 1684 note 1 post): Offshore Installations and Wells (Design and Construction, etc) Regulations 1996, SI 1996/913, reg 2(1).

2 For these purposes, 'well' means (1) a well made by drilling; and (2) a borehole drilled with a view to the extraction of minerals through it or another well; and it is deemed to include any device on it for containing the pressure in it: *ibid* reg 2(1).

3 *Ie* the Offshore Installations and Wells (Design and Construction, etc) Regulations 1996, SI 1996/913 (as amended): see HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 720-722. As to the application of those regulations see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 720; as to their enforcement see HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 574, 579 *et seq*; and as to offences under health and safety regulations see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 *et seq*. A special defence is available to a person charged with an offence under reg 5 (design of an installation) or reg 6 (work to an installation) if he can prove that the commission of the offence was due to the act or default of another person not being one of his employees and that he took all reasonable precautions, and exercised all due diligence, to avoid the commission of the offence: see reg 22; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 859.

4 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 *ante*.

5 'Duty holder' in relation to an installation, means the person who is the duty holder as defined by the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (see PARA 1684 note 4 post) in relation to that installation: Offshore Installations and Wells (Design and Construction, etc) Regulations 1996, SI 1996/913, reg 2(1).

- 6 See *ibid* Pt II (regs 4-10); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 720. 'Integrity' means structural soundness and strength, stability and, in the case of a floating installation, buoyancy in so far as they are relevant to the health and safety of persons: reg 2(1).
- 7 See *ibid* reg 11; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 721.
- 8 See *ibid* reg 12; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 721.
- 9 See *ibid* Pt IV (regs 13-21); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 721.
- 10 As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.
- 11 See the Offshore Installations and Wells (Design and Construction, etc) Regulations 1996, SI 1996/913, reg 23; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 720.
- 12 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 720-722.

UPDATE

1682-1684 Design and construction ... Management and administration; in general

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/A. DESIGN AND CONSTRUCTION ETC OF OFFSHORE INSTALLATIONS AND WELLS/1683. Safety cases.

1683. Safety cases.

The Offshore Installations (Safety Case) Regulations 2005¹, which are made under the Health and Safety etc Act 1974², implement in domestic law certain provisions of an EC Directive concerning the minimum requirements for improving the safety and health protection of workers in the mineral-extracting industries through drilling³, and replace the Offshore Installations (Safety Case) Regulations 1992⁴, which also implemented those provisions⁵. The 2005 Regulations make provision:

- 4996 (1) requiring a licensee⁶ to ensure that any operator⁷ he appoints is capable of carrying out his functions and discharging his duties satisfactorily⁸;
- 4997 (2) requiring an operator to prepare and send to the Health and Safety Executive a design notification for a production installation⁹ which is to be established¹⁰ and a relocation notification for a production installation that is to be moved to a new location¹¹;
- 4998 (3) prohibiting the operation of a production installation unless a safety case has been sent to and accepted by the Executive¹²;
- 4999 (4) prohibiting the movement of a non-production installation in relevant waters with a view to its being operated there unless a safety case has been sent to and accepted by the Executive¹³;
- 5000 (5) requiring a design notification to be sent to the Executive in respect of the conversion of a non-production installation to a production installation¹⁴ and prohibiting the operation of a converted installation unless a safety case has been sent to and accepted by the Executive¹⁵;
- 5001 (6) prohibiting the engagement of an installation in a combined operation with another unless a notification has been sent to the Executive¹⁶;
- 5002 (7) prohibiting the dismantling of a fixed installation¹⁷ unless a revised safety case has been sent to and accepted by the Executive¹⁸;
- 5003 (8) requiring a safety case to be reviewed when directed by the Executive and at intervals of five years¹⁹;
- 5004 (9) requiring a safety case to be revised when appropriate and when directed by the Executive²⁰;
- 5005 (10) granting to the Executive powers in respect of safety cases and related documents²¹;
- 5006 (11) requiring any procedures or arrangements in safety cases to be followed and providing for specified defences in the event of contravention of that requirement²²;
- 5007 (12) prohibiting the commencement of a well operation²³ unless a notification has been sent to the Executive²⁴;
- 5008 (13) imposing requirements with respect to the making and keeping of documents²⁵;
- 5009 (14) imposing requirements with respect to the creation, revision and continuing effect of a verification scheme in respect of an installation and providing a defence for contravention of those requirements²⁶;
- 5010 (15) providing for the granting of exemptions by the Executive²⁷; and

5011 (16) providing for an appeal to the Secretary of State²⁸ against certain decisions of the Executive²⁹.

Safety cases are discussed in more detail elsewhere in this work³⁰.

1 le the Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, which came into force on 6 April 2006: reg 1.

2 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 ante; and as to the application of the Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, see reg 4. They do not apply to wells to which the Borehole Sites and Operations Regulations 1995, SI 1995/2038 (as amended), apply (see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 744): Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, reg 4(2).

3 le EEC Council Directive 92/91 (OJ L348, 28.11.92, p 9) concerning the minimum requirements for improving the safety and health protection of workers in the mineral-extracting industries through drilling, art 3(2).

4 le the Offshore Installations (Safety Case) Regulations 1992, SI 1992/2885 (revoked).

5 As to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 et seq; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq.

6 For these purposes, 'licensee' means any person to whom a licence to search and bore for and get petroleum in respect of any area within relevant waters is granted pursuant to the Petroleum Act 1998 s 3 (see PARA 1639 ante): Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, reg 2(1). 'Relevant waters' means (1) tidal waters and parts of the sea in or adjacent to Great Britain up to the seaward limits of the territorial sea; and (2) any area designated by order under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante): Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, reg 2(1). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and for the meaning of 'Great Britain' see PARA 602 note 7 ante. 'Petroleum' includes any mineral oil or relative hydrocarbon and natural gas, whether or not existing in its natural condition in strata, and does not include coal or bituminous shales or other stratified deposits from which oil can be extracted by destructive distillation: Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, reg 2(1).

7 'Operator', in relation to a production installation, means (1) the person appointed by the licensee to manage and control directly or by any other person the execution of the main functions of a production installation; or (2) the licensee, where (a) it is not clear to the Health and Safety Executive that one person has been appointed to perform the functions described in head (1) supra; or (b) in the opinion of the Executive, any person appointed to perform those functions is incapable of performing those functions satisfactorily; and 'operator', in relation to a pipeline, means (i) the person who is to have or (once fluid or any mixture of fluids is conveyed) has control over the conveyance of fluid or any mixture of fluids in the pipeline; (ii) until that person is known (should there be a case where at a material time he is not yet known) the person who is to commission or (where commissioning has started) commissions the design and construction of the pipeline; or (iii) when a pipeline is no longer used or is not for the time being used, the person last having control over the conveyance of fluid or any mixture of fluids in it: *ibid* reg 2(1).

8 See *ibid* reg 5.

9 'Production installation' means an installation which (1) extracts petroleum from beneath the sea bed by means of a well; (2) stores gas in or under the shore or bed of relevant waters and recovers gas so stored; or (3) is used for the conveyance of petroleum by means of a pipe; and (a) includes (i) a non-production installation converted for use as a production installation for so long as it is so converted; (ii) a production installation which has ceased production for so long as it is not converted to a non-production installation; and (iii) a production installation which has not come into use; and (b) does not include an installation which, for a period of no more than 90 days, extracts petroleum from beneath the sea bed for the purposes of well testing: *ibid* reg 2(1). 'Installation' means an offshore installation within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3 (as amended) (see PARA 1684 note 1 post); and 'non-production installation' means an installation other than a production installation: Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, reg 2(1).

10 See *ibid* reg 6(1), Sch 1.

11 See *ibid* reg 6(2), Sch 1.

12 See *ibid* reg 7, Sch 2.

13 See *ibid* reg 8, Sch 3.

14 See *ibid* reg 9(1), Sch 1.

15 See *ibid* reg 9(5).

16 See *ibid* reg 10, Sch 4.

17 'Dismantling' means the dismantling or removal of the main and secondary structure of a fixed installation at the place at which it was operated; and 'fixed installation' means an installation which cannot be moved from place to place without major dismantling or modification, whether or not it has its own motive power: *ibid* reg 2(1).

18 See *ibid* reg 11, Sch 5.

19 See *ibid* reg 13.

20 See *ibid* reg 14.

21 See *ibid* reg 15.

22 See *ibid* reg 16.

23 'Well' means (1) a well made by drilling; and (2) a borehole drilled with a view to the extraction of petroleum through it or another well, and is deemed to include any device on it for containing the pressure in it (but see note 2 *supra*); and 'well operation' means (a) the drilling of a well, including the recommencement of drilling after a well has been completed, suspended or abandoned by plugging at the sea bed; and (b) any operation in relation to a well during which there may be an accidental release of fluids from that well which could give rise to the risk of a major accident: reg 2(1). 'Major accident' means (i) a fire, explosion or the release of a dangerous substance involving death or serious personal injury to persons on the installation or engaged in an activity on or in connection with it; (ii) an event involving major damage to the structure of the installation or plant affixed thereto or any loss in the stability of the installation; (iii) the collision of a helicopter with the installation; (iv) the failure of life support systems for diving operations in connection with the installation, the detachment of a diving bell used for such operations or the trapping of a diver in a diving bell or other subsea chamber used for such operations; or (v) any other event arising from a work activity involving death or serious personal injury to five or more persons on the installation or engaged in an activity in connection with it: reg 2(1).

24 See *ibid* reg 17, Sch 6.

25 See *ibid* reg 18.

26 See *ibid* regs 19-22, Sch 7.

27 See *ibid* reg 23.

28 As to the Secretary of State see PARA 601 note 1 *ante*.

29 See the Offshore Installations (Safety Case) Regulations 2005, SI 2005/3117, reg 24, Sch 8.

30 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 723 *et seq*.

UPDATE

1682-1684 Design and construction ... Management and administration; in general

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/B. MANAGEMENT AND ADMINISTRATION OF OFFSHORE INSTALLATIONS/1684. Management and administration; in general.

B. MANAGEMENT AND ADMINISTRATION OF OFFSHORE INSTALLATIONS

1684. Management and administration; in general.

The management and administration of offshore installations¹ is subject to the provisions of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995² which are made under the Health and Safety at Work etc Act 1974³. Those regulations make provision for identifying the 'duty holder'⁴ in relation to such installations and impose duties on him with regard to:

- 5012 (1) notification of movement or change of ownership concerning offshore installations⁵;
- 5013 (2) the appointment of competent managers⁶;
- 5014 (3) the keeping of records⁷;
- 5015 (4) arrangements for permits to work⁸;
- 5016 (5) the issuing of health and safety instructions⁹;
- 5017 (6) arrangements for effective communications¹⁰;
- 5018 (7) the appointment and presence of a helicopter landing officer¹¹;
- 5019 (8) arrangements for the collection and keeping of operational information¹²;
- 5020 (9) the availability of information about the relevant Health and Safety Executive office¹³;
- 5021 (10) the availability of drinking water and provisions¹⁴; and
- 5022 (11) the identification of the installation¹⁵.

The 1995 Regulations also impose duties on employers with regard to the health surveillance of workers employed on offshore installations¹⁶ and extend, with modifications, the provisions of the Employers' Liability (Compulsory Insurance) Act 1969¹⁷ to employers of relevant employees¹⁸.

The Executive has power to grant exemptions from the provisions of the 1995 Regulations¹⁹.

The Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995 are discussed in more detail elsewhere in this work²⁰.

1 For these purposes, 'offshore installation' means a structure which is, or is to be, or has been used, while standing or stationed in relevant waters, or on the foreshore or other land intermittently covered with water (1) for the exploitation, or exploration with a view to exploitation, of mineral resources by means of a well; (2) for the storage of gas in or under the shore or bed of relevant waters or the recovery of gas so stored; (3) for the conveyance of things by means of a pipe; or (4) mainly for the provision of accommodation for persons who work on or from a structure falling within any of the provisions of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3(1) (as amended), together with any supplementary unit which is ordinarily connected to it or any part of it (including those parts described in reg 3(3) and all of the connections: reg 3(1) (reg 3(1), (2) amended by SI 2002/2175). Any reference in the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3(1) (as amended) to a structure or unit does not, however, include: (a) a structure which is connected with dry land by a permanent structure providing access at all times and for all purposes; (b) a well; (c) a structure or device which does not project above the sea at any state of the tide; (d) a structure which has ceased to be used for

any of the purposes specified in reg 3(1) (as amended), and has since been used for a purpose not so specified; (e) a mobile structure which has been taken out of use and is not yet being moved with a view to its being used for any of the purposes specified in reg 3(1) (as amended); and (f) any part of a pipeline: reg 3(2) (as so amended). For these purposes there is deemed to be part of an offshore installation: (i) any well for the time being connected to it by pipe or cable; (ii) such part of any pipeline connected to it as is within 500 metres of any part of its main structure; (iii) any apparatus or works which are situated on or affixed to its main structure, or wholly or partly within 500 metres of any part of its main structure and associated with a pipe or system of pipes connected to any part of that installation: reg 3(3). Where two or more structures are, or are to be, connected permanently above the sea at high tide they are deemed to comprise a single offshore installation: reg 3(4). 'Relevant waters' means tidal waters and parts of the sea in or adjacent to Great Britain up to the seaward limits of territorial waters and any area designated by order under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante): Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (definition amended by SI 2002/2175). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and for the meaning of 'Great Britain' see PARA 602 note 7 ante.

2 See the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738 (as amended): see the text and notes 3-19 infra; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 733 et seq. As to the application of those regulations see reg 4; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 733.

3 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 ante. As to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 et seq; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq.

4 For these purposes, 'duty holder' means (1) in relation to a production installation, the operator; and (2) in relation to a non-production installation, the owner: Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (definition substituted by SI 2005/3117). 'Production installation' means an installation which (a) extracts petroleum from beneath the sea bed by means of a well; (b) stores gas in or under the shore or bed of relevant waters and recovers gas so stored; or (c) is used for the conveyance of petroleum by means of a pipe; and (i) includes (A) a non-production installation converted for use as a production installation for so long as it is so converted; (B) a production installation which has ceased production for so long as it is not converted to a non-production installation; and (C) a production installation which has not come into use; and (ii) does not include an installation which, for a period of no more than 90 days, extracts petroleum from beneath the sea bed for the purposes of well testing; and 'non-production installation' means an installation other than a production installation: Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (definitions added by SI 2005/3117). 'Operator' means (aa) the person appointed by the licensee to manage and control directly or by any other person the execution of the main functions of a production installation; or (bb) the licensee, where either it is not clear to the Health and Safety Executive that one person has been appointed to perform the functions described in head (aa) supra, or, in the opinion of the Executive, any person appointed to perform those functions is incapable of performing those functions satisfactorily; and 'owner' means the person who controls the operation of a non-production installation: Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (definitions substituted by SI 2005/3117). 'Petroleum' includes any mineral oil or relative hydrocarbon and natural gas, whether or not existing in its natural condition in strata (differing in this respect from the definition set out in the Petroleum Act 1998 s 1 (see PARA 1626 ante), and does not include coal or bituminous shales or other stratified deposits from which oil can be extracted by destructive distillation; and 'licensee' means any person to whom a licence to search and bore for and get petroleum in respect of any area within relevant waters is granted pursuant to the Petroleum Act 1998 s 3 (see PARA 1639 ante): Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (definitions added by SI 2005/3117).

5 See the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 5; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 733.

6 See *ibid* reg 6; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734. The manager of an offshore installation is given power to restrain certain persons or put them ashore (see reg 7; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 735) and other persons are under a duty to co-operate with him (see reg 8; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 737).

7 See *ibid* reg 9; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.

8 See *ibid* reg 10; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.

9 See *ibid* reg 11; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.

10 See *ibid* reg 12; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.

- 11 See *ibid* reg 13; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.
- 12 See *ibid* reg 14; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.
- 13 See *ibid* reg 15; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.
- 14 See *ibid* regs 17, 18; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.
- 15 See *ibid* reg 19; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 734.
- 16 See *ibid* reg 16; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 736.
- 17 As to employer's liability insurance see EMPLOYMENT vol 39 (2009) PARA 40 et seq.
- 18 See the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 21; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 736. 'Relevant employee' means an employee (1) who is ordinarily resident in the United Kingdom; or (2) who is not ordinarily resident in the United Kingdom but who has been present in the United Kingdom and relevant waters in the course of employment there for a continuous period of not less than seven days: reg 2(1).
- 19 See *ibid* reg 20; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 733.
- 20 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 733-737.

UPDATE

1682-1684 Design and construction ... Management and administration; in general

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/B. MANAGEMENT AND ADMINISTRATION OF OFFSHORE INSTALLATIONS/1685. Safety committees and representatives.

1685. Safety committees and representatives.

The Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989¹ make provision for the election of safety representatives by the workforce at an offshore installation², to investigate potential hazards and dangerous occurrences, and to carry out other functions relating to the health and safety of the workforce³.

There must also be established a safety committee, consisting of all the safety representatives, together with the installation manager, one person appointed by him, and any co-opted members, to review health and safety matters (including the election of safety representatives)⁴.

Specific duties relating to safety representatives and to the safety committee are imposed on the duty holder in relation to an installation⁵ and on installation managers and employers⁶. Contravention of the regulations by any such person is an offence⁷.

The Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989 are discussed in detail elsewhere in this work⁸.

1 The Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989, SI 1989/971 (as amended): see the text and notes 2-7 *infra*; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 739-742. The regulations were made under the Mineral Workings (Offshore Installations) Act 1971 ss 6, 7, Schedule. Those enabling powers are repealed, or spent in consequence of such repeal, but the regulations continue in force: Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, regs 3(1)(e), (f), (g), 6(1). See further PARA 1677 *ante*.

2 The Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989, SI 1989/971 (as amended) apply to an offshore installation at a working station in controlled waters which normally has persons on board: reg 3 (substituted by SI 1995/738).

3 See the Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989 regs 4-18A (as amended); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 739-740.

4 See *ibid* regs 19-22 (as amended); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 741.

5 'Duty holder', in relation to an offshore installation, means the person who is the duty holder within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (as amended) (see PARA 1684 note 4 *ante*) for the purpose of those regulations: Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989, SI 1989/971, reg 2(1) (definition added by SI 1995/738).

6 See the Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989, SI 1989/971, regs 23-27 (as amended); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 742.

7 *Ibid* reg 28(1) (amended by SI 1995/738). In proceedings for such an offence it is a defence for the person charged to prove (1) that he exercised all due diligence to prevent the commission of the offence; and (2) that the relevant failure to comply was committed without his consent connivance or wilful default: Offshore Installations (Safety Representatives and Safety Committees) Regulations 1989, SI 1989/971, reg 28(2). As to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 *et seq*; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 *et seq*.

8 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 739-742.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/B. MANAGEMENT AND ADMINISTRATION OF OFFSHORE INSTALLATIONS/1686. Extension of general employment legislation.

1686. Extension of general employment legislation.

Her Majesty may by Order in Council provide that the provisions of the Trade Union and Labour Relations (Consolidation) Act 1992, the Employment Rights Act 1996 and any Northern Ireland legislation making provision for purposes corresponding to any of the purposes of those Acts, apply, to such extent and for such purposes as may be specified in the Order (with or without modification), to or in relation to a person in offshore employment¹. The Employment Relations (Offshore Employment) Order 2000², which has been made in the exercise of these powers, extends certain provisions of those Acts to offshore employment for the purpose of specified activities and provides that employment tribunals are to have jurisdiction with regard to matters arising out of such employment³. The provisions of that Order are discussed in detail elsewhere in this work⁴.

¹ See the Trade Union and Labour Relations (Consolidation) Act 1992 s 287(2); the Employment Rights Act 1996 s 201(2); and see further EMPLOYMENT vol 39 (2009) PARA 128; EMPLOYMENT vol 40 (2009) PARA 919.

² See the Employment Relations (Offshore Employment) Order 2000, SI 2000/1828: see EMPLOYMENT vol 39 (2009) PARA 129.

³ See *ibid* arts 2, 3; and EMPLOYMENT vol 39 (2009) PARA 129.

⁴ See EMPLOYMENT vol 39 (2009) PARA 129.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/C. INSPECTORS/1687. Functions of health and safety inspectors.

C. INSPECTORS

1687. Functions of health and safety inspectors.

An inspector¹ may² at any time:

- 5023 (1) board an offshore installation³ and obtain access to all parts of it⁴;
- 5024 (2) inspect an offshore installation and any equipment⁵;
- 5025 (3) inspect the sea bed and subsoil under or near an offshore installation⁶;
- 5026 (4) inspect and take copies from certain documents⁷;
- 5027 (5) test any equipment⁸;
- 5028 (6) where a casualty has occurred or is apprehended, dismantle any equipment or test to destruction or take possession of any equipment⁹; or
- 5029 (7) require the owner or the manager, or any person on board or near to an offshore installation, to do or refrain from doing any act as appears to the inspector to be necessary or expedient for the purpose of averting a casualty¹⁰ or minimising its consequences¹¹.

In connection with any of his functions under the provisions described above, an inspector may make such requirements of any person, including the owner and manager of the installation, as appear to him to be required for the performance¹² of those functions¹³. He may require the owner, the manager or any other person to furnish¹⁴ such information as he may reasonably demand in exercise of those functions¹⁵.

The owner or manager of an offshore installation and any other person, in relation to any offshore installation in any area in respect of which he is the concession owner, must afford generally or cause to be so afforded to an inspector and any other person acting at the direction of the Health and Safety Executive all such facilities and assistance, including the carrying out of any procedures by way of a demonstration, as an inspector or such other person may reasonably require in performing the functions of an inspector; and an inspector or such other person may require accordingly¹⁶. An owner, manager or concession owner who fails to comply with these requirements is guilty of an offence¹⁷.

A person is guilty of an offence¹⁸ if he:

- 5030 (a) fails to comply with any requirement made of him under these provisions¹⁹;
- 5031 (b) obstructs any other person in the performance of his functions, powers or duties, or in complying with any requirement made of him, under these provisions²⁰;
- or
- 5032 (c) without permission²¹, removes, conceals or tampers with any article of which possession has been taken by an inspector or a person acting at the direction of the Health and Safety Executive²².

1 'Inspector' is defined for these purposes as a person appointed as an inspector under the Mineral Workings (Offshore Installations) Act 1971 s 6(4) (repealed) (see the Offshore Installations (Inspectors and Casualties) Regulations 1973, SI 1973/1842, reg 1(2)); but this is now to be construed as a reference to an inspector

appointed by the Health and Safety Executive under the Health and Safety at Work etc Act 1974 s 19 (see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375) who is authorised to act for the purpose (Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/SI 1993/1823, reg 5(1)). As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

2 le for the purposes of ensuring that the relevant statutory provisions are complied with, of investigating a casualty and generally assisting the Health and Safety Executive in the execution of those statutory provisions: see the Offshore Installations (Inspectors and Casualties) Regulations 1973, SI 1973/1842, reg 2 (regs 2-7 amended by virtue of SI 1993/1823). 'Casualty' means a casualty or other accident involving loss of life or danger to life suffered by a person (1) employed on, on or working from an offshore installation; or (2) on or working from an attendant vessel, in the course of any operation undertaken on or in connection with an offshore installation: Offshore Installations (Inspectors and Casualties) Regulations 1973, SI 1973/1842, reg 1(2). 'Vessel' includes an aircraft, a hovercraft and any floating structure other than an offshore installation: reg 1(2). For the meaning of 'offshore installation' see note 3 infra.

The statutory provisions referred to in reg 2 (as amended) are the provisions of the Mineral Workings (Offshore Installations) Act 1971 and regulations made thereunder; but most of those provisions are now repealed. As to the replacement of the 1971 Act by regulations made under the Health and Safety etc Act 1974 see PARA 1677 note 13 ante.

3 'Offshore installation' includes any part of an offshore installation whether or not capable of being manned by one or more persons: Offshore Installations (Inspectors and Casualties) Regulations 1973, SI 1973/1842, reg 1(2).

4 Ibid reg 2(1)(a). In connection with his functions under reg 2 (as amended), an inspector may require the owner or manager to provide at any reasonable time conveyance to or from the installation of himself, any other person acting at the direction of the Health and Safety Executive, any testing equipment and any article of which he has taken possession pursuant to the regulations: reg 3(1)(g) (as amended: see note 2 supra). The owner of an offshore installation must provide an inspector and any other person acting at such direction with reasonable accommodation and means of subsistence while on board an offshore installation for the purposes of the regulations (reg 5(1) (as so amended; also amended by SI 1995/738)); and if he fails to do so, he is guilty of an offence and liable on summary conviction to a fine not exceeding £100 (Offshore Installations (Inspectors and Casualties) Regulations 1973, SI 1973/1842, regs 7(2), 8(2)).

5 Ibid reg 2(1)(b). 'Equipment' means any plant, machinery, apparatus or system used, formerly used or intended to be used (whether on or from an offshore installation or an attendant vessel) in the assembly, reconstruction, repair, dismantlement, operation, movement or inspection of an offshore installation or the inspection of the sea bed on or near an offshore installation: reg 1(2). An inspector must permit the owner or manager or any nominee of either of them to be present when any inspection, test or dismantlement is carried out under reg 2 (as amended): reg 2(2). An inspector may also make notes and drawings, and take measurements and photographs, of an offshore installation and of any such article as is mentioned in note 9 infra: reg 3(1)(c). In connection with any of his functions under reg 2 (as amended), an inspector may require the owner or manager or any person employed on or in connection with the installation or equipment to carry out or assist in carrying out any inspection, test or dismantlement of the offshore installation or of any equipment: reg 3(1)(e).

6 Ibid reg 2(1)(c). See also reg 2(2); and note 5 supra. In connection with any of his functions under reg 2 (as amended), an inspector may require the owner or manager of the offshore installation or the concession owner concerned to assist him in carrying out an inspection of the sea bed or subsoil under or near the installation: reg 3(1)(f).

7 Ibid reg 2(1)(d). See also reg 2(2); and note 5 supra. The documents concerned are (1) any certificate of insurance issued for the purposes of the Employers' Liability (Compulsory Insurance) Act 1969 (see EMPLOYMENT vol 39 (2009) PARA 40 et seq) or of any other corresponding provision, or any copy of it so required to be maintained on an offshore installation; (2) any installation logbook or other record required to be maintained under regulations (see PARA 1684 ante); and (3) any other document relating to the operation or safety of an offshore installation or of any equipment: see the Offshore Installations (Inspectors and Casualties) Regulations 1973, SI 1973/1842, reg 2(1)(d).

8 Ibid reg 2(1)(e). See also reg 2(2); and note 5 supra. As to the powers of the inspector to require assistance in carrying out tests see note 5 supra.

9 Ibid reg 2(1)(f). See also reg 2(2); and note 5 supra. As to the inspector's powers to require assistance in carrying out tests and dismantlement see note 6 supra. In connection with any of his functions under reg 2 (as amended), an inspector may require any person to produce to him any of certain articles in his possession or custody (reg 3(1)(b), (2)), and may require the owner and manager of the installation or, if such an article is on any vessel, the master, captain or person in charge, to furnish to him any such article other than a document (reg 3(1)(d)). The articles concerned are any equipment or part of it, or specimen of any material or substance,

including a natural substance, on or near an offshore installation and any such document as is mentioned in reg 2(1)(d) (see note 7 supra): reg 3(2).

10 Ie whether the danger is immediate or not: *ibid* reg 2(1)(g).

11 *Ibid* reg 2(1)(g). A requirement under this provision ceases to have effect at the expiration of three days after the date on which it is given unless the Health and Safety Executive, after consultation with the owner and by notice to him, extends its operation, with or without variation: reg 2(3) (as amended: see note 2 supra).

12 Ie whether by himself or any other person acting at the direction of the Health and Safety Executive: *ibid* reg 3(1)(a) (as amended: see note 2 supra).

13 *Ibid* reg 3(1)(a) (as amended: see note 2 supra). Before making a requirement in connection with any of the provisions in heads (5)-(7) in the text, the inspector must consult with the owner or manager with a view to maintaining safety and to minimising interference with the operation of the installation: reg 3(1)(a) proviso.

14 Ie to him or to a person acting at the direction of the Health and Safety Executive: *ibid* reg 4(1) (as amended: see note 2 supra).

15 *Ibid* reg 4(1). The information may, and if the inspector so requires must, be furnished in writing, and if furnished orally may be so furnished in the presence of any person whom the furnisher reasonably desires to be present and, if practicable and the furnisher so wishes, in the presence of the manager of the installation: reg 4(2). Unauthorised disclosure, by a person acting at the direction of the Health and Safety Executive who is not an office holder under the Crown, of such information so obtained is prohibited, and is an offence: see regs 6, 7(4) (as amended: see note 2 supra). As to offences under health and safety regulations see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq.

16 *Ibid* reg 5(2) (as amended: see note 2 supra).

17 *Ibid* reg 7(3).

18 *Ibid* reg 7(1).

19 *Ibid* reg 7(1)(a). The provisions concerned are those of Pt I (regs 2-8) (as amended): reg 7(1)(a). Variation or revocation of a requirement does not affect liability for any offence committed previously: reg 8(3).

20 *Ibid* reg 7(1)(b); and see note 19 supra.

21 Ie granted by an inspector or other person acting at the direction of the Health and Safety Executive: *ibid* reg 7(1)(c) (as amended: see note 2 supra).

22 *Ibid* reg 7(1)(c) (as amended: see note 2 supra).

UPDATE

1687-1688 Functions of health and safety inspectors, Prevention of fire and explosion, and emergency response

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/D. EMERGENCIES AND DANGEROUS OCCURRENCES; FIRST AID/1688. Prevention of fire and explosion, and emergency response.

D. EMERGENCIES AND DANGEROUS OCCURRENCES; FIRST AID

1688. Prevention of fire and explosion, and emergency response.

The Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995¹, which are made under the Health and Safety at Work etc Act 1974²:

- 5033 (1) make provision for identifying the 'duty holder' in relation to offshore installations³;
- 5034 (2) impose a general duty on him to take appropriate measures with a view to protecting persons on the installation from fire⁴ and explosion⁵ and securing effective emergency response⁶;
- 5035 (3) require him to make and record an assessment:
- 467 697. (a) identifying the various events which could give rise to a major accident⁷ involving fire or explosion or the need (whether or not by reason of fire or explosion) for evacuation⁸, escape or rescue to avoid or minimise a major accident;
- 698. (b) the evaluation of the likelihood and consequences of such events;
- 699. (c) the establishment of appropriate standards of performance to be attained by anything provided by measures for ensuring effective evacuation, escape, recovery and rescue to avoid or minimise a major accident and otherwise protecting persons from a major accident involving fire or explosion; and
- 700. (d) the selection of appropriate measures⁹; and
- 468 5036 (4) impose specific duties on him with regard to:
- 469 701. (a) preparation for emergencies¹⁰;
- 702. (b) equipment for helicopter emergencies¹¹;
- 703. (c) an emergency response plan¹²;
- 704. (d) the prevention of fire and explosion¹³;
- 705. (e) the detection of incidents¹⁴;
- 706. (f) communication¹⁵;
- 707. (g) the control of emergencies¹⁶;
- 708. (h) mitigation of fire and explosion¹⁷;
- 709. (i) muster areas etc¹⁸;
- 710. (j) arrangements for evacuation¹⁹;
- 711. (k) means of escape²⁰;
- 712. (l) arrangements for recovery and rescue²¹;
- 713. (m) the suitability of personal protective equipment²² for use in an emergency²³;
- 714. (n) the suitability and condition of plant²⁴;
- 715. (o) life-saving appliances²⁵; and
- 716. (p) information regarding plant²⁶.
- 470

The Health and Safety Executive²⁷ has power to exempt any person, installation or class of persons or installations from any requirement or prohibition imposed by those regulations²⁸.

The Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995 are discussed in more detail elsewhere in this work²⁹.

1 le the Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743 (as amended): see the text and notes 3-28 infra; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 743. As to the application of the 1995 Regulations see reg 3; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 743.

2 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 ante; as to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 et seq; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq.

3 For these purposes, 'duty holder' means (1) in relation to a production installation, the operator; and (2) in relation to a non-production installation, the owner; 'production installation' means an installation which extracts petroleum from beneath the sea bed by means of a well, stores gas in or under the shore or bed of relevant waters and recovers gas so stored or is used for the conveyance of petroleum by means of a pipe, and (a) includes (i) a non-production installation converted for use as a production installation for so long as it is so converted; (ii) a production installation which has ceased production for so long as it is not converted to a non-production installation; and (iii) a production installation which has not come into use; and (b) does not include an installation which, for a period of no more than 90 days, extracts petroleum from beneath the sea bed for the purposes of well testing; and 'non-production installation' means an installation other than a production installation: Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 2(1) (definition of 'duty holder' substituted, and definitions of 'production installation' and non-production installation added, by SI 2005/3117). 'Operator' means (A) the person appointed by the licensee to manage and control directly or by any other person the execution of the main functions of a production installation; or (B) the licensee, where either it is not clear to the Health and Safety Executive that one person has been appointed to perform the functions described in head (A) supra or, in the opinion of the Executive, any person appointed to perform those functions is incapable of performing them satisfactorily; and 'owner' means the person who controls the operation of a non-production installation: Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 2(1) (definitions as so substituted). 'Petroleum' includes any mineral oil or relative hydrocarbon and natural gas, whether or not existing in its natural condition in strata (differing in this respect from the definition set out in the Petroleum Act 1998 s 1 (see PARA 1626 ante), and does not include coal or bituminous shales or other stratified deposits from which oil can be extracted by destructive distillation; and 'licensee' means any person to whom a licence to search and bore for and get petroleum in respect of any area within relevant waters is granted pursuant to s 3 (see PARA 1639 ante): Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 2(1) (definitions as so added). 'Installation' means an offshore installation within the meaning of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 3 (as amended) (see PARA 1684 note 1 ante): Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 2(1).

4 'Fire' means unplanned or uncontrolled fire: *ibid* reg 2(1).

5 'Explosion' means unplanned explosion: *ibid* reg 2(1).

6 See *ibid* reg 4. 'Emergency response' means action to safeguard the health and safety of persons on or near an installation in an emergency; and 'emergency' means an emergency of a kind which can require evacuation, escape or rescue: *ibid* reg 2(1).

7 For the meaning of 'major accident' see PARA 1683 ante (definition applied by *ibid* reg 2(1) (amended for this purpose by SI 2005/3117)).

8 'Evacuation' means the leaving of an installation and its vicinity, in an emergency, in a systematic manner and without directly entering the sea: Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 2(1).

9 See *ibid* reg 5.

10 See *ibid* reg 6.

11 See *ibid* reg 7.

- 12 See *ibid* reg 8.
- 13 See *ibid* reg 9.
- 14 See *ibid* reg 10.
- 15 See *ibid* reg 11.
- 16 See *ibid* reg 12.
- 17 See *ibid* reg 13.
- 18 See *ibid* reg 14.
- 19 See *ibid* reg 15.
- 20 See *ibid* reg 16.
- 21 See *ibid* reg 17 (amended by SI 2005/3117).
- 22 For these purposes, 'personal protective equipment' has the same meaning as in the Personal Protective Equipment at Work Regulations 1992, SI 1992/2966, reg 2(1) (ie all equipment (including clothing affording protection against the weather) which is intended to be worn or held by a person at work and which protects him against one or more risks to his health or safety, and any addition or accessory designed to meet that objective): Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 2(1).
- 23 See *ibid* reg 18.
- 24 See *ibid* reg 19(1).
- 25 See *ibid* reg 20.
- 26 See *ibid* reg 21.
- 27 As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.
- 28 See the Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, SI 1995/743, reg 22.
- 29 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 743.

UPDATE

1687-1688 Functions of health and safety inspectors, Prevention of fire and explosion, and emergency response

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/D. EMERGENCIES AND DANGEROUS OCCURRENCES; FIRST AID/1689. Emergency shut-down valves for major accident hazard pipelines connected to offshore installations.

1689. Emergency shut-down valves for major accident hazard pipelines connected to offshore installations.

The operator¹ of a major accident hazard pipeline² which:

- 5037 (1) is connected to an offshore installation; and
- 5038 (2) has an internal diameter of 40 millimetres or more,

must ensure that the prescribed requirements with regard to emergency shut-down valves³ are complied with in relation to the pipeline⁴; and the duty holder⁵ in relation to an offshore installation to which such a pipeline is connected must afford, or cause to be afforded, to the operator of the pipeline such facilities as he may reasonably require for the purpose of securing that those requirements are complied with in relation to the pipeline⁶. The prescribed requirements are as follows:

- 5039 (a) an emergency shut-down valve must be incorporated in the riser of a pipeline in a position in which it can be safely inspected, maintained and tested and, so far as this is consistent with that requirement, as far down the riser as is reasonably practicable; and it must comply with heads (b) to (g) below;
- 5040 (b) an emergency shut-down valve must be held open by an electrical, hydraulic or other signal to the mechanism for actuating the valve on the failure of which signal the valve must automatically close;
- 5041 (c) an emergency shut-down valve must also be capable of being closed by a person positioned by it and automatically by the operation of the emergency shut-down system⁷ of the offshore installation to which the pipeline is connected, or, while relevant work of examination or maintenance is being carried out, by one of those means;
- 5042 (d) if the pipeline is designed to allow for the passage of equipment for inspecting, maintaining or testing the pipeline, the emergency shut-down valve must also be designed to allow for such passage;
- 5043 (e) an emergency shut-down valve and its actuating mechanism must so far as is reasonably practicable be protected from damage arising from fire, explosion or impact;
- 5044 (f) an emergency shut-down valve must be maintained in an efficient state, in efficient working order and in good repair;
- 5045 (g) after an emergency shut-down valve has operated so as to block the flow of fluid within the pipeline it must not be reopened so as to permit the flow of fluid until steps have been taken to ensure that it is safe to do so⁸.

1 'Operator', in relation to a pipeline, means: (1) the person who is to have or (once fluid is conveyed) has control over the conveyance of fluid in the pipeline; (2) until that person is known (should there be a case where at a material time he is not yet known) the person who is to commission or (where commissioning has started) commissions the design and construction of the pipeline; (3) when a pipeline is no longer, or is not for the time being used, the person last having control over the conveyance of fluid in it; and 'fluid' includes a mixture of fluids: Pipelines Safety Regulations 1996, SI 1996/825, reg 2(1). Subject to reg 3(2)-(5), 'pipeline' means a pipe

or system of pipes (together with any apparatus and works, of a kind described in reg 3(2), associated with it) for the conveyance of any fluid, not being: (1) a drain or sewer; (2) a pipe or system of pipes constituting or comprised in apparatus for heating or cooling or for domestic purposes; (3) a pipe (not being apparatus described in reg 3(2)(e)) (see head (e) *infra*) which is used in the control or monitoring of any plant: reg 3(1). The apparatus and works referred to in reg 3(1) are: (a) any apparatus for inducing or facilitating the flow of any fluid through, or through a part of, the pipe or system; (b) any apparatus for treating or cooling any fluid which is to flow through, or through part of, the pipe or system; (c) valves, valve chambers and similar works which are annexed to, or incorporated in the course of, the pipe or system; (d) apparatus for supplying energy for the operation of any such apparatus or works as are mentioned in heads (a)-(c) *supra*; (e) apparatus for the transmission of information for the operation of the pipe or system; (f) apparatus for the cathodic protection of the pipe or system; and (g) a structure used or to be used solely for the support of a part of the pipe or system: reg 3(2). For the purpose of head (c) *supra*, a valve, valve chamber or similar is deemed to be annexed to, or incorporated in the course of, a pipe or system where it connects the pipe or system to plant, an offshore installation, or a well: reg 3(3). A pipeline for supplying gas to premises is deemed not to include anything downstream of an emergency control: reg 3(4). For these purposes, 'emergency control' means a valve for shutting off the supply of gas in an emergency, being a valve intended for use by a consumer of gas; and 'gas' has the same meaning as it has in the Gas Act 1986 Pt I (ss 4AA-48) (as amended) (see PARA 789 note 5 *ante*): Pipelines Safety Regulations 1996, SI 1996/825, reg 3(5).

2 A 'major accident hazard pipeline' means a pipeline in which a dangerous fluid is being, or is to be conveyed (ibid regs 2(1), 18(1)); and a fluid is a dangerous fluid for these purposes if it falls within a description in Sch 2 (regs 2(1), 18(2)). 'Major accident' means death or serious injury involving a dangerous fluid: reg 2(1). The prescribed descriptions of fluid are as follows (Sch 2 paras 1-9), ie:

- 132 (1) a fluid which is flammable in air, has a boiling point below 5°C, at 1 bar absolute and is or is to be conveyed in the pipeline as a liquid;
- 133 (2) a fluid which is flammable in air and is or is to be conveyed in the pipeline as a gas at above 8 bar absolute;
- 134 (3) a liquid which has a vapour pressure greater than 1.5 bar absolute when in equilibrium with its vapour at either the actual temperature of the liquid or at 20°C;
- 135 (4) a toxic or very toxic fluid which is a gas at 20°C and 1 bar absolute and is, or is to be, conveyed as a liquid or a gas;
- 136 (5) a toxic fluid which at 20°C has a saturated vapour pressure greater than 0.4 bar and is, or is to be, conveyed in the pipeline as a liquid;
- 137 (6) acrylonitrile;
- 138 (7) a very toxic fluid which at 20°C has a saturated vapour pressure greater than 0.001 bar or is, or is to be, conveyed in the pipeline as a liquid at a pressure greater than 4.5 bar absolute;
- 139 (8) an oxidising fluid which is, or is to be, conveyed as a liquid;
- 140 (9) a fluid which reacts violently with water.

For these purposes, a liquid is oxidising and a fluid is toxic or very toxic, or reacts violently with water, if it has been, or is liable to be, classified pursuant to the Chemicals (Hazard Information and Packaging for Supply) Regulations 2002, SI 2002/1689, reg 4 (see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 571) as, as the case may be, oxidising, toxic, very toxic or as reacting violently with water: Pipelines Safety Regulations 1996, SI 1996/825, Sch 2 para 10; Interpretation Act 1978 s 17(2).

3 Ie the requirements of the Pipelines Safety Regulations 1996, SI 1996/825, Sch 3: see heads (a)-(g) in the text. 'Emergency shut-down valve' means a valve which is capable of adequately blocking the flow of fluid within the pipeline at the point at which it is incorporated: reg 2(1).

4 Ibid reg 19(1).

5 For these purposes, 'duty holder', in relation to an offshore installation, means the person who is the duty holder as defined by the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (as amended) (see PARA 1684 note 4 *ante*): Pipelines Safety Regulations 1996, SI 1996/825, reg 19(3).

6 Ibid reg 19(2).

7 For these purposes, 'emergency shut-down system' means the system comprising mechanical, electrical, electronic, pneumatic, hydraulic or other arrangements by which the plant on an offshore installation is automatically shut down in the event of an emergency: *ibid* Sch 3 para 8.

8 *Ibid* Sch 3 paras 1-7. For other provisions with regard to the safety of major accident hazard pipelines see regs 20-27; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 613 et seq; and as to the safety of pipelines generally see RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARAS 610-611.

UPDATE

1689 Emergency shut-down valves for major accident hazard pipelines connected to offshore installations

NOTE 2--Reference to SI 2002/1689 now to SI 2009/716: SI 1996/825 Sch 10 para 2 (amended by SI 2009/716).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/D. EMERGENCIES AND DANGEROUS OCCURRENCES; FIRST AID/1690. Reporting of industrial injuries, diseases and dangerous occurrences.

1690. Reporting of industrial injuries, diseases and dangerous occurrences.

The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (commonly known as 'RIDDOR')¹, which are made under the Health and Safety at Work etc Act 1974², make provision for identifying the 'responsible person' in relation to an offshore installation³ and require that person to notify the Health and Safety Executive⁴ when there is a serious industrial injury to a person at an offshore workplace⁵ or a dangerous occurrence⁶, or when a person at such a workplace suffers from any specified⁷ disease⁸. The Executive has power to exempt any person or class of persons from any requirement imposed by those regulations⁹.

In any case where any person, as a result of an accident arising out of or in connection with work at an offshore workplace, dies or suffers a major injury¹⁰, no person must disturb the place where it happened or tamper with anything at that place before:

- 5046 (1) the expiration of three clear days after the matter has been notified in accordance with those regulations; or
- 5047 (2) the place has been visited by an inspector¹¹;

whichever is the sooner¹²; but this does not prohibit the doing of anything by or with the consent of an inspector or the doing of anything necessary to secure the safety of the workplace or of any person, plant or vessel¹³.

The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 are discussed in detail elsewhere in this work¹⁴.

1 The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163 (as amended): see the text and notes 2-13 infra; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 399 et seq.

2 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 ante; and see also the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163, reg 12. As to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 et seq; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq. It is a defence in proceedings against any person for an offence under the 1995 Regulations for that person to prove that he was not aware of the event requiring him to notify or send a report to the Health and Safety Executive and that he had taken all reasonable steps to have all such events brought to his notice: see reg 11.

3 'Responsible person' means (1) in relation to an offshore installation (otherwise than in the case of a disease reportable under ibid reg 5), the duty holder for the purposes of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738 (see PARA 1684 note 4 ante) provided that for these purposes reg 3(2)(c) is deemed not to apply; (2) in relation to a dangerous occurrence at a pipeline (being an incident to which the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163, Sch 2 Pt I para 14(a)-(f) applies: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 400 at head (14) in the text), the owner of that pipeline; (3) a dangerous occurrence at a well, the person appointed by a licensee to execute the function of organising and supervising the drilling of, and all operations to be carried out by means of, that well or, where no such person has been appointed, the licensee (and, for this purpose, 'licensee' means any person to whom a licence to search and bore for and get petroleum in respect of any area within relevant waters is granted pursuant to the Petroleum Act 1998 s 3: see PARA 1639 ante); (4) a diving project (otherwise than in the case of a disease reportable under the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163, reg 5), the diving contractor: see reg 2(1) (definition

amended by SI 2005/3117). In the case of a reportable disease, the responsible person is the employer: see the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163, reg 2(1).

4 As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

5 As to notifiable injuries see the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163, regs 3, 4; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 399, 408. For the meaning of 'offshore workplace' for these purposes see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 399 note 1.

6 As to the requirement to report dangerous occurrences see *ibid* reg 3; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 399; and as to the dangerous occurrences which are reportable in respect of an offshore workplace see Sch 2 Pt V (paras 73-83); and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 404.

7 In any disease specified in *ibid* Sch 3: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 406-407.

8 See *ibid* reg 5; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 405.

9 See *ibid* reg 13; and HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 399.

10 For the meaning of 'major injury' see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 399 note 4.

11 As to the powers of health and safety inspectors see PARA 1687 ante.

12 Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995, SI 1995/3163, reg 9, Sch 6 para 1(1).

13 *Ibid* Sch 6 para 1(2).

14 See HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 399 et seq.

UPDATE

1690 Reporting of industrial injuries, diseases and dangerous occurrences

NOTES--Certain functions under provisions mentioned in this paragraph are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3, see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/D. EMERGENCIES AND DANGEROUS OCCURRENCES; FIRST AID/1691. Registration of deaths and persons lost.

1691. Registration of deaths and persons lost.

The Offshore Installations (Logbooks and Registration of Death) Regulations 1972¹ require that where, in connection with an offshore installation², a death occurs or a person is lost³ and the death or loss is not required to be registered under certain other legislation⁴, a return of death, in a prescribed form⁵, must be made⁶. Provision is made as to the completion and submission of such a return⁷, and for the notification by the owner of a person's death or loss⁸ to the next of kin, or in certain circumstances to his employer⁹.

Offences are prescribed by the regulations¹⁰.

1 Ie the Offshore Installations (Logbooks and Registration of Death) Regulations 1972, SI 1972/1542 (as amended): see the text and notes 2-10 infra.

2 The Offshore Installations (Logbooks and Registration of Death) Regulations 1972, SI 1972/1542 (as amended) do not apply to installations registered as vessels, whether so registered in the United Kingdom or elsewhere, which are dredging installations or which are in transit to or from a station, or in relation to installations which are unmanned: reg 1(3).

3 Ie where any person (1) dies on an offshore installation or is lost from it in circumstances such that it is reasonable to believe that he has died; or (2) dies in or on a lifeboat, life raft or other emergency survival craft belonging to such an installation or is lost from such a craft in those circumstances; or (3) otherwise dies or is lost in those circumstances in the neighbourhood of such an installation while engaged in any operations connected with the installation: *ibid* reg 8(a)-(c).

4 Ie under the Merchant Shipping Act 1995 (see s 108 (as amended), s 273) or any regulations made thereunder (see SHIPPING AND MARITIME LAW vol 94 (2008) PARAS 654-655; SHIPPING AND MARITIME LAW vol 94 (2008) PARA 875): Offshore Installations (Logbooks and Registration of Death) Regulations 1972, SI 1972/1542, reg 8; Interpretation Act 1978 s 17(2).

5 For the prescribed form see the Offshore Installations (Logbooks and Registration of Death) Regulations 1972, SI 1972/1542, reg 8, Schedule.

6 *Ibid* reg 8.

7 See *ibid* reg 9. Where an obligation to make a return arises, the installation manager must complete part of the prescribed form and dispatch it to the owner (reg 9(1)); and the owner, after receiving the form, must complete the remainder and send the form, duly signed by him or on his behalf, to the Registrar General of Shipping and Seamen (reg 9(2)). Times are prescribed for these steps by reg 9(1), (2), but a return of death is not invalid by reason only that it is not made within those times: see reg 9(3). As to the Registrar General of Shipping and Seamen see SHIPPING AND MARITIME LAW vol 93 (2008) PARA 61. The duties of the Registrar General of Shipping and Seamen, on receiving the return, are prescribed by reg 11.

8 Ie in circumstances in which an obligation to make a return of death arises under *ibid* reg 8: see note 3 *supra*.

9 See *ibid* reg 10. The notification must be to the next of kin if the owner is the employer (reg 10(a)); otherwise it must be to the employer (reg 10(b)). The notification must be made as soon as practicable and in any event within 48 hours of the owner becoming aware of the death or loss: reg 10.

10 Any contravention of *ibid* reg 9(1) by the manager, or of reg 9(2) or reg 10 by the owner, is an offence for which the penalty, on summary conviction, is a fine not exceeding £100: reg 12(1), (2) (amended by SI 1995/738). It is a defence in any proceedings for such an offence for the person charged to prove (1) that he exercised all due diligence to prevent the commission of the offence; and (2) that the relevant contravention

was committed without his consent, connivance or wilful default: Offshore Installations (Logbooks and Registration of Death) Regulations 1972, SI 1972/1542, reg 12(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/D. EMERGENCIES AND DANGEROUS OCCURRENCES; FIRST AID/1692. First aid.

1692. First aid.

The Offshore Installations and Pipeline Works (First-Aid) Regulations 1989¹, which are made under the Health and Safety at Work etc Act 1974², make provision for identifying the person in control of an offshore installation³ and impose duties on him to ensure that there are provided suitable equipment, facilities and medications and suitably qualified and competent persons, for rendering first aid⁴.

The Health and Safety Executive⁵ may exempt any person, class of persons, offshore installation, class of offshore installations, pipeline works, class of pipeline works, activity or class of activity from certain requirements of the regulations⁶.

The Offshore Installations and Pipeline Works (First-Aid) Regulations 1989 are discussed in detail elsewhere in this work⁷.

¹ See the Offshore Installations and Pipeline Works (First-Aid) Regulations 1989, SI 1989/1671 (as amended): see the text and notes 2-5 infra; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 738.

² As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 ante; as to the application of the Offshore Installations and Pipeline Works (First-Aid) Regulations 1989, SI 1989/1671 (as amended) see reg 3; as to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 et seq; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq. In any proceedings for an offence of contravening the 1989 Regulations it is a defence for any person to prove that he took all reasonable precautions and exercised all due diligence to avoid the commission of that offence: reg 6.

³ 'Person in control' means (1) in relation to an offshore installation, the person who is the duty holder as defined by the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (as amended) for the purposes of those regulations (see PARA 1684 note 4 ante); (2) in relation to pipeline works, the owner of the pipeline or the proposed owner of the proposed pipeline as both are defined in the Petroleum Act 1998 s 27 (as amended) (see PARAS 1749 note 4, 1751 note 6 post) or, if no person has been designated as the owner of the pipeline or proposed owner of the proposed pipeline in pursuance of that provision, the person in whom the pipeline is vested or the person for whom it is to be constructed; (3) in relation to an activity in connection with an offshore installation (a) the person who is, in relation to the installation, the duty holder as defined by the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995, SI 1995/738, reg 2(1) (as amended) for the purposes of those regulations; and the employer of persons engaged in that activity: Offshore Installations and Pipeline Works (First-Aid) Regulations 1989, SI 1989/1671, reg 2(1) (definition amended by SI 1995/738). For the meaning of 'offshore installation' see PARA 1684 note 1 ante (definition applied by the Offshore Installations and Pipeline Works (First-Aid) Regulations 1989, SI 1989/1671, reg 2(1) (as so amended)). For the meanings of 'pipeline' and 'pipeline works' for these purposes see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 738 note 1.

⁴ See *ibid* reg 5. 'First aid' means (1) in cases where a person will need help from a medical practitioner or nurse, treatment for the purpose of preserving life and minimising the consequences of injury and illness until the appropriate help is obtained; and (2) treatment of minor injuries or illnesses which would otherwise receive no treatment or which do not need treatment by a medical practitioner or nurse; and for this purpose 'treatment' includes redressing and other follow-up treatment: *ibid* reg 2(1).

⁵ As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 561 et seq.

⁶ See the Offshore Installations and Pipeline Works (First-Aid) Regulations 1989, SI 1989/1671, reg 7 (amended by SI 1999/3242; and by virtue of SI 1993/1823).

⁷ See HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 738.

UPDATE

1692-1693 First aid, Regulations governing diving operations

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(ii) Health and Safety etc; Employment Rights/E. DIVING OPERATIONS/1693. Regulations governing diving operations.

E. DIVING OPERATIONS

1693. Regulations governing diving operations.

The Diving at Work Regulations 1997¹, which are made under the Health and Safety at work etc Act 1974², control work-related diving projects and diving operations³. The regulations impose duties on diving contractors⁴ and diving supervisors⁵, and contain provisions as to the fitness and qualifications of divers⁶. The Health and Safety Executive⁷ has power to exempt any person or class of persons, any diving operation or class of diving operations and any plant or class of plant from any requirement or prohibition imposed by any provision of those regulations⁸.

The Diving at Work Regulations 1997 are discussed in detail elsewhere in this work⁹.

1 le the Diving at Work Regulations 1997, SI 1997/2776: see the text and notes 2-7 *infra*; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 591-594.

2 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations see PARA 1677 *ante*. See also the Diving at Work Regulations 1997, SI 1997/2776, reg 3(2). As to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 *et seq*; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 *et seq*.

3 For the meanings of 'diving project' and 'diving operation' see *ibid* reg 2(1); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 591; and as to when a person 'dives' see reg 2(2); and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 591. As to the general duty to ensure compliance with the 1997 Regulations see reg 4; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 591.

4 See *ibid* regs 5-8; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 592.

5 See *ibid* regs 9-11; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 593.

6 See *ibid* regs 12-15; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 594.

7 As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 *et seq*.

8 See the Diving at Work Regulations 1997, SI 1997/2776, reg 16; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 591.

9 See HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 591-594.

1727-1728 Conservation of Habitats

Material relating to this part has been revised and published under the title ENVIRONMENTAL QUALITY AND PUBLIC HEALTH vols 45, 46 (2010).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1729. Preparation of programmes.

(v) Abandonment of Offshore Installations

1729. Preparation of programmes.

The Secretary of State¹ may by written notice² require (1) the person³ to whom the notice is given; or (2) where notices are given to more than one person, those persons jointly, to submit to him a programme setting out the measures proposed to be taken in connection with the abandonment of an offshore installation⁴ or submarine pipeline⁵ ('an abandonment programme')⁶.

An abandonment programme:

- 5048 (a) must contain an estimate of the cost of the measures proposed in it⁷;
- 5049 (b) must either specify the times at or within which the measures proposed in it are to be taken or make provision as to how those times are to be determined⁸;
- 5050 (c) if it proposes that an installation or pipeline be left in position or not wholly removed, must include provision as to any continuing maintenance that may be necessary⁹.

A person who submits an abandonment programme to the Secretary of State must at the same time pay him such fee in respect of his expenditure¹⁰ in connection with abandonment as may be determined in accordance with regulations¹¹.

The Secretary of State may exercise his powers under these provisions notwithstanding that an abandonment programme has previously been submitted for the installation or pipeline in question, but only if he rejected¹² that programme or has withdrawn his approval¹³ of it¹⁴.

Where the Secretary of State has given a notice to submit an abandonment programme in relation to an installation or pipeline he may at any time before the programme required by it is submitted withdraw the notice or give a further notice¹⁵ (whether in substitution for or in addition to any notice already given); and if he does so he must inform the recipients of any other notices which have been given in relation to that installation or pipeline and not withdrawn¹⁶.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Any notice or other communication authorised or required to be given by the Petroleum Act 1998 Pt IV (ss 29-45) may be sent by post (but this is without prejudice to any other method of transmission): s 43.

3 Ibid Pt IV, in so far as it applies to individuals, applies to them whether or not they are British citizens, and in so far as it applies to bodies corporate, applies to them whether or not they are incorporated under the law of any part of the United Kingdom: s 48(3). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 For these purposes, 'offshore installation' means any installation which is or has been maintained, or is intended to be established, for the carrying on of any activity to which ibid s 44(2) applies: ss 44(1), 45. Section 44(1) applies to any activity mentioned in s 44(3) which is carried on from, by means of or on an installation which is maintained in the water, or on the foreshore or other land intermittently covered with water, and is not connected with dry land by a permanent structure providing access at all times and for all purposes: s 44(2). The activities referred to in s 44(2) are (1) the exploitation, or the exploration with a view to exploitation, of mineral resources in or under the shore or bed of relevant waters; (2) the storage of gas in or under the shore

or bed of relevant waters or the recovery of gas so stored; (3) the conveyance of things by means of a pipe, or system of pipes, constructed or placed on, in or under the shore or bed of relevant waters; and (4) the provision of accommodation for persons who work on or from an installation which is or has been maintained, or is intended to be established, for the carrying on of an activity falling within head (1), head (2) or head (3) supra: s 44(3). The fact that an installation has been maintained for the carrying on of an activity falling within s 44(3) is to be disregarded for these purposes if, since it was so maintained, the installation: (a) has been outside relevant waters or, where it was so maintained in a part of a foreign sector of the continental shelf adjacent to those waters, the area consisting of those waters and that part; or (b) has been maintained for the carrying on of an activity not falling within s 44(3): s 44(6).

In Pt IV (ss 29-45), 'relevant waters' means (i) tidal waters and parts of the sea in or adjacent to the United Kingdom up to the seaward limits of the territorial sea; (ii) waters in an area designated under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante); and (iii) such inland waters as may for the time being be specified for these purposes by Order in Council; but Her Majesty may by Order in Council provide that, in such cases and subject to such exceptions and modifications as may be prescribed by the order, the Petroleum Act 1998 Pt IV is to have effect as if (A) any reference therein to relevant waters included a reference to waters in any area specified under s 10(8) (see PARA 1679 ante); and (B) in relation to an installation which is or has been maintained, or is intended to be established, in relevant waters, any reference in s 44(3) to relevant waters included a reference to waters in a foreign sector of the continental shelf which are adjacent to such waters: ss 44(4), 45. Any statutory instrument containing an order under s 44(4) is subject to annulment in pursuance of a resolution of either House of Parliament: s 44(7). At the date at which this title states the law, no such order had been made. As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3.

For the purposes of Pt IV, 'foreign sector of the continental shelf' means an area within which rights are exercisable with respect to the sea bed and subsoil and their natural resources by a country or territory outside the United Kingdom: ss 45, 48(1). For the purposes of s 44, 'inland waters' means waters within the United Kingdom other than tidal waters and parts of the sea; 'installation' includes (aa) any floating structure or device maintained on a station by whatever means; and (bb) in such cases and subject to such exceptions as may be prescribed by Order in Council, any apparatus or works which are by virtue of s 26 (see PARA 1741 post) to be treated as associated with a pipe or system of pipes for the purposes of Pt III (ss 14-28) (as amended) (see PARA 1740 et seq post), but, subject to head (bb) supra, does not include any part of a pipeline within the meaning of s 26; and 'modifications' includes additions, omissions and alterations: s 44(5).

5 'Submarine pipeline' means a pipeline within the meaning of *ibid* s 26 (see PARA 1741 post) which is in, under or over waters in (1) the territorial sea adjacent to the United Kingdom; or (2) an area designated under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante): Petroleum Act 1998 s 45.

6 *Ibid* s 29(1). The Secretary of State must not give a notice to a person under s 29(1) without first giving him an opportunity to make written representations as to whether the notice should be given: s 31(4).

A notice under s 29(1) must either specify the date by which the abandonment programme is to be submitted or provide for it to be submitted on or before such date as the Secretary of State may direct: s 29(2). It may require the person to whom it is given to carry out such consultations as may be specified in the notice before submitting an abandonment programme: s 29(3).

In certain circumstances, a person may challenge the validity of the Secretary of State's act in giving a notice under s 29(1): see s 42; and PARA 1737 post.

7 *Ibid* s 29(4)(a).

8 *Ibid* s 29(4)(b).

9 *Ibid* s 29(4)(c).

10 *Ie* his expenditure under *ibid* Pt IV: s 29(5).

11 *Ibid* s 29(5). The regulations referred to are made under s 39 (as amended): see PARA 1738 post.

12 As to rejection of programmes see *ibid* s 32; and PARA 1731 post.

13 As to withdrawal of approval see *ibid* s 35; and PARA 1731 post.

14 *Ibid* s 29(6).

15 *Ie* subject to *ibid* s 29(1)-(4): see note 6 supra; and PARA 1730 notes 9, 16 post.

16 *Ibid* s 31(5). Neither the withdrawal of a notice given under s 29(1), nor the giving of a further notice, relieves the recipient of any other notice of his duty to submit a programme (jointly, in a case where more than one notice is given and not withdrawn, with the recipients of the other notices): s 31(6).

UPDATE

1729 Preparation of programmes

NOTE 4--Petroleum Act 1998 s 44(3), (5) amended: Energy Act 2008 Sch 1 para 11 (partly in force: SI 2009/2809).

NOTE 5--Definition of 'submarine pipeline' amended: Petroleum Act 1998 s 45 (amended by Energy Act 2008 Sch 5 para 11; Marine and Coastal Access Act 2009 Sch 8 para 8).

TEXT AND NOTES 6, 16--Petroleum Act 1998 s 31 amended: Energy Act 2008 s 72(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1730. Persons who may be required to submit programmes.

1730. Persons who may be required to submit programmes.

A notice to submit an abandonment programme¹ must not be given to a person in relation to the abandonment of an offshore installation² unless at the time when the notice is given he is within any of heads (1) to (5) below³:

- 5051 (1) the person having the management of the installation or of its main structure⁴;
- 5052 (2) a person to whom heads (a) and (b) below apply in relation to the installation⁵, namely:
- 471
- 717. (a) he has the right to exploit or explore mineral resources in any area, or to store gas in any area and to recover gas so stored; and
- 718. (b) any specified activity⁶ is carried on from, by means of or on the installation,
- 472
- 5053 or a person if he had such a right when any such activity was last so carried on⁷;
- 5054 (3) a person outside heads (1) and (2) above who is a party to a joint operating agreement or similar agreement relating to rights by virtue of which a person is within head (2) above⁸;
- 5055 (4) a person outside heads (1) to (3) above who owns any interest in the installation otherwise than as security for a loan⁹;
- 5056 (5) a company which is outside heads (1) to (4) above but is associated with a company¹⁰ within any of those heads¹¹.

A notice to submit an abandonment programme must not be given to a person in relation to the abandonment of a submarine pipeline¹² unless at the time when the notice is given he is within any of heads (i) to (iii) below¹³:

- 5057 (i) a person designated¹⁴ as the owner of the pipeline¹⁵;
- 5058 (ii) a person outside head (i) above who owns any interest in the whole or substantially the whole of the pipeline, otherwise than as security for a loan¹⁶;
- 5059 (iii) a company which is outside heads (i) and (ii) above but is associated with a company within one of those heads¹⁷.

The Secretary of State may by written notice¹⁸ require a person appearing to him to be within any of heads (1) to (5) or heads (i) to (iii) above to give him, within such time as may be specified in the notice, the name and address of every other person whom the recipient of the notice believes to be within any of those heads in relation to the installation or pipeline concerned¹⁹. A person who fails, without reasonable excuse, to comply with such a notice is guilty of an offence²⁰.

¹ ie a notice under the Petroleum Act 1998 s 29(1): see PARA 1729 ante. For the meaning of 'abandonment programme' see PARA 1729 the text and notes 1-6 ante.

2 For the meaning of 'offshore installation' see PARA 1729 note 4 ante.

3 Petroleum Act 1998 s 30(1).

4 Ibid s 30(1)(a).

5 Ibid s 30(1)(b).

6 Ie any activity mentioned in ibid s 30(6): s 30(5). The activities referred to are: (1) the exploitation or exploration of mineral resources, or the storage or recovery of gas, in the exercise of the right mentioned in s 30(5)(a) (see head (2)(a) in the text); (2) the conveyance in the area so mentioned, by means of a pipe or system of pipes, of minerals got, or gas being stored or recovered, in the exercise of that right; and (3) the provision of accommodation for persons who work on or from an installation which is or has been maintained, or is intended to be established, for the carrying on of an activity falling within head (1) or head (2) supra: s 30(6). The fact that an installation has been maintained for the carrying on of an activity within s 30(6) must be disregarded for the purposes of s 30(6)(c) (see head (3) supra) if, since it was so maintained, the installation (a) has been outside relevant waters or, where it was so maintained in a part of a foreign sector of the continental shelf adjacent to those waters, the area consisting of those waters and that part; or (b) has been maintained for the carrying on of an activity which is not within s 30(6): s 30(7). For the meaning of 'relevant waters' and 'foreign sector of the continental shelf' see PARA 1729 note 4 ante.

7 See ibid s 30(5).

8 Ibid s 30(1)(c).

9 Ibid s 30(1)(d). The Secretary of State must not give a notice under s 29(1) in relation to an offshore installation to a person within s 30(1)(d) or (e) (see heads (4)-(5) in the text), if he has been and continues to be satisfied that adequate arrangements (including financial arrangements) have been made by a person or persons within s 30(1)(a), (b) or (c) (see heads (1)-(3) in the text) to ensure that a satisfactory abandonment programme will be carried out: s 31(1). This does not apply if there has been a failure to comply with a notice under s 29(1) or if the Secretary of State has rejected a programme submitted in compliance with such a notice: s 31(3). As to the Secretary of State see PARA 601 note 1 ante.

10 For these purposes, one company is associated with another if one of them controls the other or a third company controls both of them: ibid 30(8). One company controls another if it possesses or is entitled to acquire: (1) one half or more of the issued share capital of the company; (2) such rights as would entitle it to exercise one half or more of the votes exercisable in general meetings of the company; (3) such part of the issued share capital of the company as would entitle it to one half or more of the amount distributed if the whole of the income of the company were in fact distributed among the shareholders; or (4) such rights as would, in the event of the winding up of the company or in any other circumstances, entitle it to receive one half or more of the assets of the company which would then be available for distribution among the shareholders; or if it has the power, directly or indirectly, to secure that the affairs of the company are conducted in accordance with its wishes: s 30(8). In determining whether one company controls another, the former is taken to possess any rights and powers possessed by a person as nominee for it, and any rights and powers possessed by a company which it controls (including rights and powers which such a company would be taken to possess by virtue of this provision): s 30(9).

11 Ibid s 30(1)(e). See also note 9 supra.

12 For the meaning of 'submarine pipeline' see PARA 1729 note 4 ante.

13 Petroleum Act 1998 s 30(2).

14 Ie designated by an order made by the Secretary of State under ibid s 27 (as amended): see PARA 1749 post.

15 Ibid s 30(2)(a).

16 Ibid s 30(2)(b). The Secretary of State must not give a notice under s 29(1) in relation to a submarine pipeline to a person within s 30(2)(b) or (c) (see heads (ii)-(iii) in the text) if he has been and continues to be satisfied that adequate arrangements (including financial arrangements) have been made by a person or persons within s 30(2)(a) (see head (i) in the text) to ensure that a satisfactory abandonment programme will be carried out: s 31(2). This does not apply if there has been a failure to comply with a notice under s 29(1) or if the Secretary of State has rejected a programme submitted in compliance with such a notice: s 31(3).

17 Ibid s 30(2)(c). See also note 16 supra.

18 As to the service of notices see PARA 1729 note 2 ante.

19 Petroleum Act 1998 s 30(3).

20 Ibid s 30(4). As to offences under Pt IV (ss 29-45) see PARA 1739 post.

UPDATE

1730 Persons who may be required to submit programmes

TEXT AND NOTES--Petroleum Act 1998 ss 30, 31 amended: Energy Act 2008 s 72(1)-(7), Sch 1 para 10, Sch 5 para 9, Sch 6 (Sch 1 para 10 partly in force: SI 2009/2809).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1731. Approval of programmes.

1731. Approval of programmes.

The Secretary of State¹ may either approve or reject an abandonment programme² submitted to him³. If he approves a programme, he may approve it with or without modifications and either subject to conditions or unconditionally⁴. If he rejects a programme, he must inform the persons who submitted it of his reasons for doing so⁵.

Unless the programme is one which he has certified as a project that should be carried out for imperative reasons of overriding public interest⁶, the Secretary of State must, where he considers that it is likely to have a significant effect on a relevant site⁷, make an appropriate assessment of the implications for the site before granting approval of the programme⁸.

The Secretary of State may, at the request of one or more of the persons who submitted an abandonment programme, withdraw his approval of the programme⁹. He must, after determining whether to withdraw his approval of a programme, give notice¹⁰ of his determination to each of the persons who submitted the programme¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. a programme submitted to him under the Petroleum Act 1998 s 29: see PARA 1729 ante. For the meaning of 'abandonment programme' see PARA 1729 the text and notes 1-6 ante.

3 Ibid s 32(1). The Secretary of State must act without unreasonable delay in reaching a decision as to whether to approve or reject a programme: s 32(5). In certain circumstances, a person may challenge the validity of the Secretary of State's act in approving or rejecting a programme: see s 42; and PARA 1737 post.

4 Ibid s 32(2). Before approving a programme with modifications or subject to conditions, the Secretary of State must give the persons who submitted the programme an opportunity to make written representations about the proposed modifications or conditions: s 32(3).

5 Ibid s 32(4).

6 I.e. unless the Offshore Petroleum Activities (Conservation of Habitats) Regulations 2001, SI 2001/1754, reg 6 (as amended) applies: see PARA 1660 ante.

7 For the meaning of 'relevant site' see PARA 1660 note 6 ante.

8 See ibid reg 5 (as amended); and PARA 1660 ante.

9 Petroleum Act 1998 s 35(1). If a request under s 35(1) is made by some but not all of the persons who submitted the programme, the Secretary of State must give the others an opportunity to make written representations as to whether his approval should be withdrawn: s 35(2).

10 As to the service of notices see PARA 1729 note 2 ante.

11 Petroleum Act 1998 s 35(3). In certain circumstances, a person may challenge the validity of the Secretary of State's act in making a determination under s 35: see s 42; and PARA 1737 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1732. Financial resources etc.

1732. Financial resources etc.

At any time after the Secretary of State¹ has given a notice to submit an abandonment programme² to any person and before he has approved an abandonment programme for the installation or pipeline concerned, he may by written notice³ require that person, within such time as may be specified in the notice:

- 5060 (1) to provide such information relating to the financial affairs of that person;
and
- 5061 (2) to supply copies of such documents relating to those affairs,

as may be so specified⁴.

In order to satisfy himself that a person who has a duty to secure that an abandonment programme is carried out will be capable of discharging that duty, the Secretary of State may at any time by written notice require that person, within such time as may be specified in the notice, to provide such information, and to supply copies of such documents, as may be so specified⁵.

A person who:

- 5062 (a) without reasonable excuse fails to comply with a notice under either of the provisions described above⁶; or
- 5063 (b) in purported compliance with such a notice provides information which he knows to be false in a material particular or recklessly provides information which is false in a material particular,

is guilty of an offence⁷.

If the Secretary of State is not satisfied that a person will be capable of discharging the duty to carry out an abandonment programme⁸, he may by written notice, after consulting the Treasury, require that person to take such action as may be specified in the notice within such time as may be so specified⁹. A person who fails to comply with such a notice is guilty of an offence unless he proves that he exercised due diligence to avoid the failure¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

6 I.e a notice under ibid s 38(1) or (2): see the text and notes 1-5 supra.

7 Ibid s 38(3). As to offences under Pt IV (ss 29-35) see PARA 1739 post; and for the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

8 le the duty imposed by *ibid* s 36: see PARA 1735 post.

9 *Ibid* s 38(4). The Secretary of State must not give notice to a person under s 38(4) without first giving him an opportunity to make written representations as to whether the notice should be given: s 38(5).

In certain circumstances, a person may challenge the validity of the Secretary of State's act in giving a notice under s 38(4); see s 42; and PARA 1737 post.

10 *Ibid* s 38(6); and see note 7 *supra*.

UPDATE

1732 Financial resources etc

TEXT AND NOTES--Petroleum Act 1998 s 38 amended: Energy Act 2008 s 73. As to the protection of funds set aside for the purpose of an abandonment programme see Petroleum Act 1998 s 38A (ss 38A, 38B added by Energy Act 2008 s 74(1)). The Secretary of State may direct a security provider to publish specified information about the protected assets: see Energy Act 2004 s 38B. The Energy Act 2008 s 74 has effect in relation to a trust or other arrangements established on or after 1 December 2007: s 74(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1733. Failure to submit programmes.

1733. Failure to submit programmes.

If a notice to submit an abandonment programme¹ is not complied with, or if the Secretary of State² rejects a programme submitted in compliance with such a notice, the Secretary of State may himself prepare an abandonment programme for the installation or pipeline concerned³. With a view to exercising his powers under this provision, the Secretary of State may by written notice⁴ require any of the persons to whom a notice to submit an abandonment programme was given to provide him, within such time as may be specified in the notice, with such records and drawings and such other information as may be so specified⁵. A person who fails, without reasonable excuse, to comply with such a notice is guilty of an offence⁶.

The Secretary of State may recover from any of the persons to whom a notice to submit an abandonment programme was given any expenditure incurred by him in preparing an abandonment programme under these provisions, and any fee that would have been payable on the submission of a programme by those persons⁷.

1 I.e. a notice under the Petroleum Act 1998 s 29(1): see PARA 1729 ante. For the meaning of 'abandonment programme' see PARA 1729 the text and notes 1-6 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Petroleum Act 1998 s 33(1). Where the Secretary of State prepares an abandonment programme under s 33, he must inform the persons to whom notice was given under s 29(1) of its terms; when he has done so, ss 34-45 (see PARAS 1734-1739 post) have effect as if the programme had been submitted by those persons and approved by the Secretary of State: s 33(7).

4 As to the service of notices see PARA 1729 note 2 ante.

5 Petroleum Act 1998 s 33(2).

6 Ibid s 33(3). As to offences under Pt IV (ss 29-45) see PARA 1739 post.

7 Ibid s 33(4). A person liable to pay any sum to the Secretary of State by virtue of s 33(4) must also pay interest on that sum for the period beginning with the day on which the Secretary of State notified him of the sum payable and ending with the date of payment: s 33(5). The rate of interest payable under s 33(5) is to be a rate determined by the Secretary of State as comparable with commercial rates: s 33(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1734. Revision of programmes.

1734. Revision of programmes.

Where the Secretary of State¹ has approved an abandonment programme submitted to him²:

- 5064 (1) either he or the persons who submitted it acting together may propose an alteration to the programme or to any condition to which it is subject³; and
 5065 (2) either he or any of those persons may propose that any person who has a duty to secure that the programme is carried out⁴ is to cease to have that duty, or that a person who does not already have that duty is to have it (either in addition to or in substitution for another person)⁵.

A proposal under the above provision must be made by written notice⁶ given:

- 5066 (a) if the proposal is the Secretary of State's, to each of the persons by whom the programme was submitted; and
 5067 (b) in any other case, to the Secretary of State⁷.

A person giving notice to the Secretary of State must at the same time pay to him such fee in respect of his expenditure⁸ in connection with the abandonment programme as may be determined in accordance with regulations⁹.

The Secretary of State must determine whether a proposed change is to be made and must then give notice of his determination, and of his reasons for it, to:

- 5068 (i) every person who, before the determination was made, had a duty to secure the carrying out of the programme; and
 5069 (ii) any person who has that duty as a result of the determination¹⁰.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie a programme submitted to him under the Petroleum Act 1998 s 29: see PARA 1729 ante. For the meaning of 'abandonment programme' see PARA 1729 the text and notes 1-6 ante.

3 Ibid s 34(1)(a). Where the Secretary of State has made such a proposal, he must give an opportunity to make written representations about it to each of the persons who submitted the programme: s 34(5).

4 Ie the duty imposed by virtue of ibid s 36: see PARA 1735 post.

5 Ibid s 34(1)(b). In the case of a proposal of this kind, any person who would if the proposed change were made have a duty to secure that the programme is carried out must be a person who: (1) if the programme relates to an offshore installation, is within any of s 30(1)(a)-(e) (see PARA 1730 ante at heads (1)-(5) in the text) when the proposal is made, or has been within one of those heads at some time since the giving of the first notice under s 29(1) in relation to the installation; and (2) if the programme relates to a submarine pipeline, is within any of s 30(2)(a)-(c) (see PARA 1730 ante at heads (i)-(iii) in the text) when the proposal is made, or has been within one of those heads at some time since the giving of the first notice under s 29(1) in relation to the pipeline: s 34(2). For the meanings of 'offshore installation' and 'submarine pipeline' see PARA 1729 notes 4-5 ante.

The Secretary of State must not propose that a person who is or has been within s 30(1)(d) or (e) (but no other head of s 30(1)), or within s 30(2)(b), (c) (but not s 30(2)(a)) is to have a duty to secure that a programme is

carried out unless it appears to him that a person already under that duty has failed or may fail to discharge it: s 34(3).

Where a proposal has been made under s 34(1)(b), the Secretary of State must give an opportunity to make written representations about it to every person (other than one who made the proposal) who will if the proposed change is made (a) have a duty to secure that the programme is carried out; or (b) cease to have that duty: s 34(6).

6 As to the service of notices see PARA 1729 note 2 ante.

7 Petroleum Act 1998 s 34(4).

8 le his expenditure under ibid Pt IV (ss 29-45): s 34(4).

9 Ibid s 34(4). The regulations referred to are regulations made under s 39: see PARA 1738 post. At the date at which this title states the law, no such regulations had been made.

10 Ibid 34(7). Where the Secretary of State determines that a change proposed in accordance with s 34 is to be made, Pt IV then has effect as if the programme had been approved by the Secretary of State after being submitted under s 29 with the alterations, or as the case may be by the persons, specified in the determination: s 34(8). In certain circumstances, a person may challenge the validity of the Secretary of State's act in making a determination under s 34: see s 42; and PARA 1737 post.

UPDATE

1734 Revision of programmes

NOTE 5--Petroleum Act 1998 s 34(2), (3) amended: Energy Act 2008 Sch 5 para 10, Sch 6. See also Petroleum Act 1998 s 34(3A) (added by Energy Act 2008 s 72(8)).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1735. Duty to carry out programmes.

1735. Duty to carry out programmes.

Where an abandonment programme¹ is approved by the Secretary of State², it is the duty of each of the persons who submitted it to secure that it is carried out and that any conditions to which the approval is subject are complied with³.

1 For the meaning of 'abandonment programme' see PARA 1729 the text and notes 1-6 ante.

2 As to such approval see PARA 1731 ante; and as to the Secretary of State see PARA 601 note 1 ante.

3 Petroleum Act 1998 s 36. As to the action to be taken by the Secretary of State where he is not satisfied that a person is able to carry out this duty see PARA 1732 the text and notes 8-10 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1736. Default in carrying out programmes.

1736. Default in carrying out programmes.

If an abandonment programme¹ approved by the Secretary of State² is not carried out or a condition to which the approval is subject is not complied with, the Secretary of State may by written notice³ require any of the persons who submitted the programme to take such remedial action as may be specified in the notice within such time as may be specified⁴. A person who fails to comply with such a notice is guilty of an offence unless he proves that he exercised due diligence to avoid the failure⁵. If such a notice is not complied with, the Secretary of State may carry out the remedial action required by the notice and may recover any expenditure incurred by him in doing so from the person to whom the notice was given⁶.

1 For the meaning of 'abandonment programme' see PARA 1729 the text and notes 1-6 ante.

2 As to such approval see PARA 1731 ante; and as to the Secretary of State see PARA 601 note 1 ante.

3 As to the service of notices see PARA 1729 note 2 ante.

4 Petroleum Act 1998 s 37(1).

5 Ibid s 37(2). As to offences under Pt IV (ss 29-45) see PARA 1739 post.

6 Ibid s 37(3). A person liable to pay any sum to the Secretary of State by virtue of s 37(3) must also pay interest on that sum for the period beginning with the day on which the Secretary of State notified him of the sum payable and ending with the date of payment: s 37(4). The rate of interest payable is to be a rate determined by the Secretary of State as comparable with commercial rates: s 37(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1737. Validity of Secretary of State's acts.

1737. Validity of Secretary of State's acts.

If any person is aggrieved by any of certain specified acts¹ of the Secretary of State² and desires to question its validity on the ground that it was not within the powers of the Secretary of State or that the relevant procedural requirements³ had not been complied with, he may within 42 days of the day on which the act was done make an application to the court⁴ for the act to be quashed⁵. If on such an application the court is satisfied that the act in question was not within the powers of the Secretary of State or that the applicant has been substantially prejudiced by a failure to comply with the relevant procedural requirements, the court may quash the act⁶.

Except as provided by these provisions, the validity of any of the specified acts of the Secretary of State may not be questioned in any legal proceedings whatever⁷.

1 The specified acts are (1) the giving of a notice under the Petroleum Act 1998 s 29(1) (see PARA 1729 ante); (2) the approval or rejection of a programme under s 32 (see PARA 1731 ante); (3) a determination under s 34 (see PARA 1734 ante); (4) a determination under s 35 (see PARA 1731 ante); or (5) the giving of a notice under s 38(4) (see PARA 1732 ante): s 42(2).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 'The relevant procedural requirements' means (1) in relation to the giving of a notice under the Petroleum Act 1998 s 29(1), the requirements of s 31(4) (see PARA 1729 ante); (2) in relation to the approval or rejection of a programme under s 32, the requirements of s 32(3) or (4) (see PARA 1731 ante); (3) in relation to a determination under s 34, the requirements of s 34(5), (6) and (7) (see PARA 1734 ante); (4) in relation to a determination under s 35, the requirements of s 35(2) (see PARA 1731 ante); (5) in relation to the giving of a notice under s 38(4), the requirements of s 38(5) (see PARA 1732 ante): s 42(5).

4 I.e. in relation to England and Wales, the High Court: *ibid* s 42(6)(a).

5 *Ibid* s 42(1).

6 *Ibid* s 42(3).

7 *Ibid* s 42(4).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1738. Power to make regulations.

1738. Power to make regulations.

The Secretary of State¹ may make regulations² relating to the abandonment of offshore installations³ and submarine pipelines⁴. In particular, such regulations may:

- 5070 (1) prescribe standards in respect of the dismantling, removal and disposal of installations and pipelines⁵;
- 5071 (2) prescribe standards and safety requirements in respect of anything left in the water in cases where an installation or pipeline is not wholly removed⁶;
- 5072 (3) make provision for the prevention of pollution⁷;
- 5073 (4) make provision for inspection, including provision as to the payment of the costs of inspection⁸;
- 5074 (5) make provision as to the determination of the amount of any fees that are payable⁹ to the Secretary of State¹⁰.

Such regulations may include provision making it an offence, in such cases as may be prescribed, to contravene the regulations¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Regulations under the Petroleum Act 1998 s 39 (see the text and notes 3-11 infra) must be made by statutory instrument, subject to annulment in pursuance of a resolution of either House of Parliament: s 39(6).

3 For the meaning of 'offshore installation' see PARA 1729 note 4 ante.

4 Petroleum Act 1998 s 39(1). For the meaning of 'submarine pipeline' see PARA 1729 note 5 ante. The functions of the Secretary of State referred to in s 39(1) are, so far as exercisable in relation to Wales, exercisable only after consultation with the National Assembly for Wales or the Welsh Ministers: see the National Assembly for Wales (Transfer of Functions) Order 1999, SI 1999/672, art 5, Sch 2. As to the National Assembly for Wales and the Welsh Ministers see PARA 601 note 1 ante. Furthermore, certain functions under the Petroleum Act 1998 s 39(1) are, in so far as they are exercisable in or as regards Scotland, only exercisable after consultation with the Scottish Ministers: see the Scotland Act 1998 (Transfer of Functions to the Scottish Ministers etc) Order 1999, SI 1999/1750, art 4, Sch 3.

Before making regulations under the Petroleum Act 1998 s 39, the Secretary of State must consult organisations in the United Kingdom appearing to him to be representative of those persons who will be affected by the regulations; and he must not make regulations relating to the amount of any fees without the consent of the Treasury: s 39(5). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

At the date at which this title states the law, no regulations had been made under s 39 and none had effect as if so made.

5 Ibid s 39(2)(a).

6 Ibid s 39(2)(b).

7 Ibid s 39(2)(c).

8 Ibid s 39(2)(d).

9 Ie payable under ibid Pt IV (ss 29-45): s 39(2)(e).

10 Ibid s 39(2)(e); and see note 4 supra.

11 Ibid s 39(3). Where regulations under s 39 create an offence, they must make provision as to the mode of trial and punishment of offenders; but (1) any provision as to punishment on summary conviction must not authorise a fine exceeding the statutory maximum or imprisonment; and (2) any provision as to punishment on conviction on indictment must not authorise imprisonment for a term exceeding two years: s 39(4). As to the statutory maximum see PARA 689 note 2 ante. As to offences under Pt IV see PARA 1739 post.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(3) OFFSHORE WORKINGS AND INSTALLATIONS/(v) Abandonment of Offshore Installations/1739. Offences relating to abandonment of offshore installations.

1739. Offences relating to abandonment of offshore installations.

A person guilty of an offence under the specified provisions of Part IV of the Petroleum Act 1998¹ is liable on summary conviction to a fine not exceeding the statutory maximum, and on conviction on indictment to imprisonment for a term not exceeding two years or a fine, or to both².

Proceedings for any such offence, or for an offence under regulations made under that Part of the Act³, may not be instituted in England and Wales except by the Secretary of State⁴ or a person authorised in his behalf, or by or with the consent of the Director of Public Prosecutions⁵.

Where such an offence committed by a body corporate is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director, manager, secretary or other similar officer of that body or any person who was purporting to act in any such capacity, he as well as the body corporate is guilty of that offence and is liable to be proceeded against and punished accordingly⁶.

If an offence of failing to comply with a notice to remedy a default in carrying out an abandonment programme⁷, or an offence under regulations⁸, is committed outside the United Kingdom⁹, proceedings for the offence may be taken, and the offence for all incidental purposes may be treated as having been committed, in any place in the United Kingdom¹⁰.

1 Ie an offence under the Petroleum Act 1998 s 30 (see PARA 1730 ante), s 33 (see PARA 1733 ante), s 37 (see PARA 1736 ante) or s 38 (see PARA 1732 ante). As to Pt IV (ss 29-45) see PARA 1729 et seq ante.

2 Ibid s 40. As to the statutory maximum see PARA 689 note 2 ante.

3 Ie regulations made under ibid s 39: see PARA 1738 ante. At the date at which this title states the law, no such regulations had been made.

4 As to the Secretary of State see PARA 601 note 1 ante.

5 Ibid s 41(1). As to the institution of proceedings in Northern Ireland see s 41(2).

6 Ibid s 41(3). Where the affairs of a body corporate are managed by its members, s 41(3) applies in relation to acts and defaults of a member in connection with his functions of management as if he were a director of the body corporate: s 41(4).

7 Ie an offence under ibid s 37: see PARA 1736 ante.

8 See note 3 supra.

9 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

10 Petroleum Act 1998 s 41(5). The Territorial Waters Jurisdiction Act 1878 s 3 (restriction on prosecutions: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1056) does not apply to any proceedings for an offence to which the Petroleum Act 1998 s 41(1) applies: s 41(6).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/A. INTRODUCTION/1740. The domestic legislation.

(4) SUBMARINE PIPELINES

(i) Control, Authorisation and Use

A. INTRODUCTION

1740. The domestic legislation.

Part III of the Petroleum Act 1998¹, with subordinate legislation², provides for control by the Secretary of State³ of the construction⁴ and use of pipelines⁵ in certain waters, referred to as 'controlled waters'⁶, surrounding the United Kingdom⁷; for the appointment of inspectors to assist the Secretary of State in the execution of the statutory provisions⁸; for criminal⁹ and civil liability¹⁰; and for various supplemental matters¹¹. The abandonment of submarine pipelines is covered by Part IV¹² of that Act¹³.

1 The Petroleum Act 1998 Pt III (ss 14-28, Sch 2) (as amended); see PARA 1741 et seq post.

2 The Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835 (as amended) (see PARA 1763 et seq post), which now have effect as if made under the Petroleum Act 1998 s 20(2). See also the Submarine Pipelines (Electricity Generating Stations) Regulations 1981, SI 1981/750; and PARA 1300 ante; the Submarine Pipelines (Exemption) Regulations 1985, SI 1985/1051; and PARA 1742 post.

Before making any regulations under the Petroleum Act 1998 Pt III (as amended) the Secretary of State must consult such organisations in the United Kingdom as he considers are representative of persons who will be affected by the regulations: s 25(1). It is also his duty, before making regulations under s 20 (see PARA 1763 et seq post), to have regard to the extent of the jurisdiction which belongs to the United Kingdom under international law: s 25(2). Regulations may provide for the creation of offences and punishment of offences and for defences: see s 25(3). They may be limited so as to apply only in prescribed cases or may exclude prescribed cases from their application: see s 25(4)(a), (b). By directions given to such persons as it considers appropriate, the Health and Safety Executive may provide for a case specified in the directions to be excluded from the application of any regulations governing submarine pipelines so long as conditions so specified are satisfied: see s 25(4). Defences created by these provisions do not extend to civil proceedings: see the Petroleum Act 1998 s 23(4); and PARA 1637 ante. For the meaning of 'United Kingdom' see PARA 602 note 7 ante; and as to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 et seq.

Any power under Pt III (as amended) to make orders or regulations is exercisable by statutory instrument (s 25(10)) and includes power to make different provision for different circumstances, and to include incidental, transitional or supplemental provisions (such as fees) (see s 25(7), (8)).

3 As to the Secretary of State see PARA 601 note 1 ante.

4 In relation to a pipeline, 'construction' includes placing, and cognate expressions are to be construed accordingly: Petroleum Act 1998 s 28(1).

5 For the meaning of 'pipeline' see PARA 1741 post.

6 'Controlled waters' means the territorial sea adjacent to the United Kingdom and the sea in any area designated under the Continental Shelf Act 1964 s 1(7) (as amended) (see PARA 1636 ante); Petroleum Act 1998 ss 14(2), 28(1). So much of any pipeline as is in, under or over controlled waters is referred to as a 'controlled pipeline': ss 14(2), 28(1).

7 See *ibid* ss 14-19 (as amended); and PARA 1744 et seq post. As to the provision made with respect to certain offshore gas storage facilities see ss 17C-17E, 17H (as added and amended); and PARAS 1030-1032 ante.

8 See *ibid* s 20; the Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835 (as amended); and PARA 1760 *et seq post*.

9 See *ibid* s 21 (as amended), s 22; and PARA 1763 *et seq post*.

10 See *ibid* s 23; and PARA 1637 *ante*.

11 See *ibid* ss 24-27; and PARA 1741 *et seq post*.

12 *Ie ibid* Pt IV (ss 29-45).

13 See PARA 1729 *et seq ante*.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/A. INTRODUCTION/1741. Meaning of 'pipeline'.

1741. Meaning of 'pipeline'.

Except where the context otherwise requires, in Part III of the Petroleum Act 1998¹ 'pipeline' means a pipe or system of pipes, excluding a drain or sewer, for the conveyance of any thing, together with apparatus and works associated with such a pipe or system². The apparatus and works associated with such a pipe or system for these purposes are:

- 5075 (1) any apparatus for inducing or facilitating the flow of any thing through, or through a part of, the pipe or system³;
- 5076 (2) any apparatus for treating or cooling any thing which is to flow through, or through part of, the pipe or system⁴;
- 5077 (3) valves, valve chambers and similar works which are annexed to, or incorporated in the course of, the pipe or system⁵;
- 5078 (4) apparatus for supplying energy for the operation of any such apparatus or works as are mentioned in heads (1) to (3) above⁶;
- 5079 (5) apparatus for the transmission of information for the operation of the pipe or system⁷;
- 5080 (6) apparatus for the cathodic protection of the pipe or system⁸; and
- 5081 (7) any structure⁹ used or to be used solely for the support of a part of the pipe or system¹⁰.

The Secretary of State¹¹ may by order¹² provide that a part of a pipeline specified in the order is to be treated for the purposes of the relevant statutory provisions¹³ as a pipeline¹⁴.

13 Ie for the purposes of the Petroleum Act 1998 Pt III (as amended). except s 26(3); s 26(3).

14 Ibid s 26(3). Such orders, which are of local effect only, are not dealt with in this work.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

1741 Meaning of 'pipeline'

TEXT AND NOTES 2-10--Petroleum Act 1998 s 26(1) amended, s 26(2) repealed: Energy Act 2008 s 78(3), Sch 6.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/A. INTRODUCTION/1742. Exclusion of certain pipelines.

1742. Exclusion of certain pipelines.

Where no initial or terminal point of a pipeline¹ is situated in the United Kingdom² or controlled waters³, the pipeline must be disregarded for the purposes of the relevant⁴ statutory provisions⁵. However, the Secretary of State⁶ may by order⁷ provide that such of the provisions of Part III of the Petroleum Act 1998⁸ as are specified in the order are to apply, with or without modifications, to the whole or any part of any such pipeline⁹. Any such order may contain only such provisions as the Secretary of State considers are consistent with the jurisdiction which belongs to the United Kingdom under international law¹⁰.

The Secretary of State may in regulations¹¹ provide that such of the provisions of that Part of the 1998 Act as may be specified in the regulations are not to apply to a pipeline of a kind specified therein or are not to apply to a pipeline while any condition specified in the regulations is satisfied¹².

1 For the meaning of 'pipeline' see PARA 1741 ante.

2 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 For the meaning of 'controlled waters' see PARA 1740 note 6 ante.

4 I.e. for the purposes of the Petroleum Act 1998 Pt III (ss 14-28, Sch 2) (as amended) except s 24(1), (2): s 24(1).

5 Ibid s 24(1).

6 As to the Secretary of State see PARA 601 note 1 ante.

7 A statutory instrument containing an order under the Petroleum Act 1998 s 24(2) or regulations under s 24(3) is subject to annulment in pursuance of a resolution of either House of Parliament: s 24(5). As to the making of orders generally see PARA 1740 note 2 ante. The Interpretation Act 1978 s 14 (implied power to amend) does not apply in relation to the power conferred by the Petroleum Act 1998 s 24(2): s 25(9).

8 I.e. the provisions of ibid Pt III (as amended).

9 Ibid s 24(2), (4).

10 Ibid s 24(2). As to the jurisdiction of the United Kingdom in international law see INTERNATIONAL RELATIONS LAW.

11 See note 7 supra. As to the making of regulations generally see PARA 1740 note 2 ante.

12 Petroleum Act 1998 s 24(3), (4). At the date at which this title states the law, no such regulations had been made, but by virtue of s 49, Sch 3 Pt I para 1(2), the Submarine Pipelines (Electricity Generating Stations) Regulations 1981, SI 1981/750 (see PARA 1300 ante) and the Submarine Pipelines (Exemption) Regulations 1985, SI 1985/1051 (see PARA 1742 post) have effect as if so made.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

1742 Exclusion of certain pipelines

TEXT AND NOTES--Petroleum Act 1998 s 24 amended: Marine and Coastal Access Act 2009 Sch 8 para 7.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/B. CONTROL OF CONSTRUCTION AND USE/1743. Construction and use of pipelines.

B. CONTROL OF CONSTRUCTION AND USE

1743. Construction and use of pipelines.

No person¹ must:

- 5082 (1) execute in, under or over any controlled waters² any works³ for the construction of a pipeline⁴; or
- 5083 (2) use a controlled pipeline⁵ of which the construction was begun on or after 1 January 1976⁶,

except in accordance with an authorisation⁷ given in writing by the Secretary of State⁸. Any person who contravenes⁹ these provisions is guilty of an offence¹⁰ and liable on summary conviction to a fine not exceeding the statutory maximum or on conviction on indictment to a fine¹¹.

The issue of such an authorisation is to be deemed not to derogate from a licence granted under Part I of the Petroleum Act 1998¹² which is for the time being in force¹³.

1 The Petroleum Act 1998 Pt III (ss 14-28, Sch 2) (as amended), so far as it applies to individuals, applies to them whether or not they are British citizens; and so far as it applies to bodies corporate, applies to them whether or not they are incorporated under the law of any part of the United Kingdom: s 48(3). For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

2 For the meaning of 'controlled waters' see PARA 1740 note 6 ante.

3 For these purposes, works at any place in, under or over controlled waters for the purpose of determining whether the place is suitable as part of the site of a proposed pipeline and the carrying out of surveying operations for the purpose of settling the route of a proposed pipeline are not works for the construction of a pipeline: Petroleum Act 1998 s 28(2). For the meaning of 'pipeline' see PARA 1741 ante; and for the meaning of 'construction' see PARA 1740 note 4 ante.

4 Ibid s 14(1)(a).

5 For the meaning of 'controlled pipeline' see PARA 1740 note 6 ante.

6 Petroleum Act 1998 s 14(1)(b).

7 'Authorisation' means an authorisation required by ibid s 14: s 28(1).

8 Ibid s 14(1). As to the Secretary of State see PARA 601 note 1 ante. As to authorisations for pipelines see PARA 1744 et seq post.

9 Any reference to a contravention of a provision of ibid Pt III (as amended), or of regulations made or directions given thereunder, includes a reference to failure to comply with that provision: s 28(3).

10 Ibid s 21(1)(a).

11 Ibid s 21(1). As to the statutory maximum see PARA 689 note 2 ante. As to enforcement see further PARA 1757 post.

12 Ie a licence granted under ibid s 3: see PARA 1639 ante.

13 Ibid s 9(3).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/C. AUTHORISATIONS FOR PIPELINES/1744. Applications for and issue of authorisations; in general.

C. AUTHORISATIONS FOR PIPELINES

1744. Applications for and issue of authorisations; in general.

The statutory provisions relating to submarine pipelines¹ contemplate two types of authorisations² in relation to the pipelines: (1) works authorisations³; and (2) other authorisations⁴. Provision is made with respect to applications for, and notice of, works authorisations and other authorisations⁵. It is the duty of the Secretary of State not to issue an authorisation to a person⁶ other than a body corporate⁷.

Unless the pipeline in question is one which he has certified as a project that should be carried out for imperative reasons of overriding public interest⁸, the Secretary of State must, where he considers that it is likely to have a significant effect on a relevant site⁹, make an appropriate assessment of the implications for the site before granting an authorisation¹⁰.

The Secretary of State may not grant a works authorisation for a relevant project within the meaning of the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999¹¹ unless an application for consent¹² is made under those regulations and the application is:

- 5084 (a) one where no part of the pipeline to be constructed or augmented would extend more than 500 metres from a well¹³ or any part of a fixed installation to which that pipeline would be directly or indirectly attached and the Secretary of State has decided that having regard to the specified matters¹⁴ the operation in respect of which consent is sought would not be likely to have a significant effect¹⁵ on the environment and that accordingly no environmental statement¹⁶ need be prepared in respect of the relevant project in question¹⁷;
- 5085 (b) accompanied by an environmental statement in respect of that project; or
- 5086 (c) the subject of a direction¹⁸ that no environmental statement need be prepared¹⁹.

The procedure for the environmental assessment of such projects has already been discussed²⁰.

1 Ie the Petroleum Act 1998 Pt III (ss 14-28, Sch 2) (as amended). For the meaning of 'pipeline' see PARA 1741 ante.

2 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

3 'Works authorisation' means an authorisation (1) for works for the construction of a pipeline; or (2) for such works and for the use of a pipeline: Petroleum Act 1998 s 28(1). As to works authorisations see s 15(1), Sch 2 Pt I (paras 1-9): note 5 infra; and PARA 1745 post. For the meaning of 'construction' see PARA 1740 note 4 ante; and for the meaning of 'works for the construction of a pipeline' see PARA 1743 note 3 ante.

4 As to other authorisations see *ibid* Sch 2 Pt II (para 10): and PARA 1746 post.

5 The Secretary of State may by regulations make provision as to (1) the manner in which an application for a works authorisation is to be made; and (2) the information to be included in or provided in connection with an application: *ibid* Sch 2 para 1(1). Without prejudice to the generality of Sch 2 para 1(1), such regulations may require the payment of fees in connection with an application: Sch 2 para 1(2). A statutory instrument

containing regulations under Sch 2 para 1 is to be subject to annulment in pursuance of a resolution of either House of Parliament: Sch 2 para 1(3). At the date at which this title states the law, no such regulations had been made and none had effect as if so made. As to the procedure for granting an authorisation see the text and notes 8-19 *infra*; and PARA 1745 *post*.

6 As to persons to whom the legislation applies see PARA 1743 note 1 *ante*.

7 Petroleum Act 1998 s 15(2).

8 *Ie* unless the Offshore Petroleum Activities (Conservation of Habitats) Regulations 2001, SI 2001/1754, reg 6 (as amended) applies: see PARA 1660 *ante*.

9 For the meaning of 'relevant site' see PARA 1660 note 6 *ante*.

10 See the Offshore Petroleum Activities (Conservation of Habitats) Regulations 2001, SI 2001/1754, reg 5 (as amended); and PARA 1660 *ante*.

11 *Ie* within the meaning of the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360 (as amended). For the meaning of 'relevant project' for those purposes see PARA 1645 note 2 *ante*.

12 For the meaning of 'consent' see PARA 1646 note 2 *ante*.

13 For the meaning of 'well' see PARA 1644 note 5 *ante*.

14 *Ie* the matters set out in the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, Sch 1: see PARA 1646 note 6 *ante*.

15 For the meaning of 'effect' for these purposes see PARA 1646 note 7 *ante*.

16 For the meaning of 'environmental statement' see PARA 1646 note 8 *ante*.

17 See the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 5(2) (reg 5(1) (2) substituted by SI 2007/933).

18 *Ie* a direction given under the Offshore Petroleum Production and Pipelines (Assessment of Environmental Effects) Regulations 1999, SI 1999/360, reg 6 (as amended): see PARA 1647 *ante*.

19 *Ibid* reg 5(1) (as substituted: see note 17 *supra*).

20 See PARA 1646 *et seq* *ante*.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/C. AUTHORISATIONS FOR PIPELINES/1745. Procedure for issue of works authorisations.

1745. Procedure for issue of works authorisations.

The Secretary of State¹ must, on receiving an application for a works authorisation², decide whether the application is to be considered further or rejected and must serve notice³ of his decision on the applicant⁴. In the case of a decision that the application is to be considered further, he must give the applicant such directions with respect to the application as he considers appropriate for the purposes⁵ of publicity⁶. In the case of a decision to reject the application, the Secretary of State must include in the notice a statement of the reasons for the decision except any reason which in his opinion it would be against the national interest to state⁷.

Where the Secretary of State serves on an applicant notice under the above provisions that the application is to be considered further, the applicant must:

- 5087 (1) publish, in such manner as the Secretary of State directs, a notice which:
473
- 719. (a) contains such particulars of the application as the Secretary of State directs; and
- 720. (b) states that representations with respect to the application may be made in writing to the Secretary of State within the period of 28 days beginning with the date on which the notice is first published in accordance with this provision or within such longer period beginning with that date as is specified in the notice in accordance with a direction of the Secretary of State; and
- 721. (c) states where the map mentioned in head (2) below may be inspected during the period specified in the notice under head (b) above;
474
- 5088 (2) secure that a map of such scale and containing such particulars as the Secretary of State directs is available for inspection by the public free of charge from 10 am to 4 pm on each weekday during the period so specified; and
- 5089 (3) serve a copy of the notice on such persons as the Secretary of State directs;

and the Secretary of State must defer his further consideration of the application until he is satisfied that the applicant has complied with these requirements⁸.

Where the Secretary of State decides that an application for a works authorisation is to be considered further and is of the opinion, either on his own initiative⁹ or in consequence of representations made to him by the applicant or any other person:

- 5090 (i) that the route proposed for the pipeline¹⁰ or part of it in the application ought to be altered in a particular manner for any of the specified purposes¹¹; or
- 5091 (ii) that the capacity proposed for the pipeline or part of it in the application ought to be increased for any of the specified purposes¹²,

then the Secretary of State must, before deciding whether to issue an authorisation¹³ in consequence of the application, serve notice of his opinion on the applicant and, where the opinion relates to an alteration of the route proposed for the pipeline or part of it, on any

persons whom the Secretary of State considers are likely to be affected by the alteration or on any person appearing to the Secretary of State to represent such persons¹⁴. In any notice of his opinion so served the Secretary of State must state the reasons for his opinion except any reason which he considers that it would be against the national interest to state¹⁵. Where the Secretary of State so serves on the applicant notice of his opinion he must give him an opportunity of being heard¹⁶ with respect to the opinion; and where the applicant is heard the Secretary of State may give such other persons, if any, as he thinks fit an opportunity to be heard at the hearing¹⁷. Where he so serves on any person other than the applicant notice of his opinion, he must state in the notice that representations in writing with respect to the opinion may be made to him within a period specified in the notice¹⁸.

Where the Secretary of State is satisfied that an applicant for a works authorisation has complied with heads (1) to (3) above, and he has considered any representations relating to the application which were made to him within the specified period¹⁹, at any hearing held²⁰ and in accordance with a notice served by him in respect of the application as described above²¹, he must decide whether to issue an authorisation in consequence of the application²².

Where the Secretary of State decides not to issue a works authorisation in consequence of an application he must serve on the applicant, and on each person on whom a copy of notice of the application was required to be served by the applicant²³, a notice stating the decision and, in the case of the notice served on the applicant, stating also the reasons for the decision except any reason which he considers that it would be against the national interest to state²⁴.

Where the Secretary of State decides to issue a works authorisation in consequence of an application he must serve notice of the decision on the applicant, on each person on whom a copy of notice of the application was required to be served by the applicant²⁵, and on any other person who made²⁶ representations²⁷. He must also publish a copy of the notice in the London and Edinburgh and Belfast Gazettes, or in such of them as he considers appropriate, and in any other publication which he considers appropriate²⁸. Where he issues a works authorisation, he must serve on the persons (other than the applicant) on whom notice in respect of the authorisation was so required to be served a notice stating that the authorisation has been issued and containing the name and address of the person to whom it was issued²⁹, such particulars as the Secretary of State considers appropriate of:

- 5092 (A) the route of the pipeline;
- 5093 (B) its authorised capacity;
- 5094 (C) the things authorised to be conveyed by it; and
- 5095 (D) the persons authorised to use it³⁰,

and such other information (if any) about the pipeline as he considers appropriate³¹. The Secretary of State must publish a copy of the notice in the London and Edinburgh and Belfast Gazettes, or in such of them as he considers appropriate, and in any other publication which he considers appropriate³².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'works authorisation' see PARA 1744 note 3 ante.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/C. AUTHORISATIONS FOR PIPELINES/1746. Procedure for issue of other authorisations.

1746. Procedure for issue of other authorisations.

Where the Secretary of State¹ issues an authorisation² other than a works authorisation³, he must publish in the London and Edinburgh and Belfast Gazettes or in such of them as he considers appropriate, and in any other publication which he considers appropriate, a notice stating that the authorisation has been issued and containing:

- 5096 (1) the name and address of the person to whom it was issued;
- 5097 (2) such particulars as the Secretary of State considers appropriate of:
 - 475 722. (a) the route and capacity of the relevant pipeline⁴;
 - 723. (b) the things authorised to be conveyed by it; and
 - 724. (c) the persons authorised to use it; and
 - 476 5098 (3) such other information (if any) about the pipeline as the Secretary of State considers appropriate⁵.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

3 For the meaning of 'works authorisation' see PARA 1744 note 3 ante.

4 For the meaning of 'pipeline' see PARA 1741 ante. See also PARA 1745 note 10 ante.

5 Petroleum Act 1998 s 15(1), Sch 2 para 10.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/C. AUTHORISATIONS FOR PIPELINES/1747. General terms of authorisations.

1747. General terms of authorisations.

Any authorisation¹ in respect of a controlled pipeline² may contain such terms as the Secretary of State³ thinks appropriate⁴, including, in particular, terms as to:

- 5099 (1) the duration of the authorisation, including the method of ascertaining its duration⁵;
- 5100 (2) the persons⁶ or kinds of persons who are authorised to execute the works in question⁷ or to use the pipeline⁸ or are so authorised if the Secretary of State consents to the execution of the works or the use of the pipeline by them⁹;
- 5101 (3) in the case of a works authorisation¹⁰, the route of the pipeline, the boundaries within which any works may be executed in pursuance of the authorisation, the design and capacity¹¹ of the pipeline or of part of it and the steps to be taken to avoid or reduce interference by the pipeline with fishing¹² or with other activities connected with the sea¹³ or the sea bed¹⁴ or subsoil¹⁵;
- 5102 (4) the things authorised to be conveyed by the pipeline¹⁶;
- 5103 (5) the steps to be taken for the purpose of ensuring that funds are available to discharge any liability for damage attributable to the release or escape of anything from the pipeline¹⁷;
- 5104 (6) the transactions relating to the pipeline which are not to be entered into, and the other things relating to the pipeline which are not to be done, without the consent of the Secretary of State¹⁸;
- 5105 (7) the persons who may be permitted to acquire an interest in the pipeline and who may not be permitted to retain such an interest¹⁹;
- 5106 (8) the operation of the pipeline, including the methods by which it is to be operated and the persons by whom it may be operated²⁰;
- 5107 (9) the information to be furnished in respect of the pipeline²¹; and
- 5108 (10) the giving by the Secretary of State, with respect to matters specified in the authorisation, of directions which are to have effect as terms of the authorisation²².

1 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

2 For the meaning of 'controlled pipeline' see PARA 1740 note 6 ante.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 Petroleum Act 1998 s 15(3).

5 Ibid s 15(3)(a). Unless the Secretary of State considers that there are special circumstances by reason of which the duration of an authorisation should be limited, an authorisation must provide for its duration to be unlimited subject to s 15(5)-(8), 16-28 (as amended) (see PARA 1748 et seq post): s 15(4). As to the termination of authorisations see PARA 1753 et seq post.

6 As to persons to whom the legislation applies see PARA 1743 note 1 ante.

7 I.e. works for the construction of a controlled pipeline: see the Petroleum Act 1998 s 14(1)(a); and PARA 1743 ante at head (1) in the text. For the meaning of 'works' for these purposes see PARA 1743 note 3 ante; and for the meaning of 'construction' see PARA 1740 note 4 ante.

- 8 See *ibid* s 14(1)(b); and PARA 1743 ante at head (2) in the text.
- 9 *Ibid* s 15(3)(b).
- 10 For the meaning of 'works authorisation' see PARA 1744 note 3 ante.
- 11 For further provisions as to the capacity of controlled pipelines see the Petroleum Act 1998 ss 15(5)-(8),
16 (as amended); and PARAS 1748-1749 post.
- 12 As to rights of fishing see generally AGRICULTURE AND FISHERIES.
- 13 As to rights of navigation see generally SHIPPING AND MARITIME LAW.
- 14 As to rights affecting the sea bed see generally INTERNATIONAL RELATIONS LAW.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/C. AUTHORISATIONS FOR PIPELINES/1748. Consequences of certain terms as to capacity or route.

1748. Consequences of certain terms as to capacity or route.

Where a works authorisation¹ contains a term (the 'variation term') requiring that the capacity² of the controlled pipeline³ to which it relates, or of any part of the pipeline, is to be greater than that proposed in the application for the authorisation⁴, or requiring that any part of the route of the pipeline⁵ is to be different from that so proposed, then the Secretary of State⁶ may⁷ serve notice⁸ on the holder⁹ of the authorisation, and on any other person¹⁰ who made representations¹¹ to the Secretary of State that the capacity should be greater than that proposed as mentioned above or that any of the route should be different from that so proposed¹². The notice must:

- 5109 (1) specify the sums, or the method of determining them, which the Secretary of State considers should be paid to the holder by the other person for the purpose of defraying so much of the cost of constructing¹³ the pipeline as is attributable to the variation term¹⁴;
 - 5110 (2) require that other person to make, within a period specified in the notice, arrangements which the Secretary of State considers are appropriate for the purpose of securing that those sums will be paid to the holder if he constructs the pipeline or a relevant part of it in accordance with the variation term or satisfies the Secretary of State that he will so construct it¹⁵;
 - 5111 (3) provide that if such arrangements are not made by the other person within that period, the holder may elect in the manner specified in the notice:
- 477
- 725. (a) that the term is to have effect with such modifications as are so specified with a view to eliminating the consequences of the representations of the other person; and
 - 726. (b) that the provisions included in the notice by virtue of head (4) below will cease to have effect¹⁶; and
- 478
- 5112 (4) authorise the holder, if he satisfies the Secretary of State that the pipeline or a relevant part of it has been or will be constructed in accordance with the term, to recover those sums from the other person¹⁷.

1 For the meaning of 'works authorisation' see PARA 1744 note 3 ante.

2 As to terms governing the capacity of controlled pipelines see PARA 1747 the text and note 11 ante.

3 For the meaning of 'controlled pipeline' see PARA 1740 note 6 ante; and for the meaning of 'pipeline' see PARA 1741 ante.

4 As to applications for works authorisations see PARA 1744 note 5 ante.

5 As to terms governing the routes of controlled pipelines see PARA 1747 ante at head (3) in the text.

6 As to the Secretary of State see PARA 601 note 1 ante.

7 le subject to the Petroleum Act 1998 s 17(7) or s 17G(6) (as added): see note 12 infra.

8 le notice in writing; see *ibid* s 28(1). As to the service of notices and documents see PARA 1030 note 11 ante.

9 In relation to an authorisation, 'holder' means the person to whom the authorisation was issued: *ibid* s 28(1). For the meaning of 'authorisation' see PARA 1743 note 7 ante.

10 As to persons to whom the legislation applies see PARA 1743 note 1 ante.

11 As to representations with respect to applications for works authorisations see PARA 1744 note 5 ante.

12 Petroleum Act 1998 s 15(5), (6) (s 15(6) amended by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 1). Before serving a notice under the Petroleum Act 1998 s 15(6) (as amended) on a person other than the holder of the relevant authorisation: (1) the Secretary of State must give that person an opportunity to make an application under s 17(1) (see PARA 1750 post) in respect of the proposed pipeline to which the authorisation relates; and s 17(1)-(6) (as amended) has effect for this purpose as if references to a pipeline and the owner of it were references to the proposed pipeline and the proposed owner of it (s 17(7)); (2) the Secretary of State must, in the case of a controlled petroleum pipeline (for the meaning of which see PARA 1750 note 6 post), give that person an opportunity to make applications under s 17F (as added and amended) (see PARA 1751 post) in respect of the proposed pipeline to which the authorisation relates; and s 17F (as added and amended) and s 17G(1)-(5) (as added) (see PARA 1751 post) have effect for this purpose as if references to a pipeline and the owner of it were references to the proposed pipeline and the proposed owner of it (s 17G(6) (added by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 4)).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/C. AUTHORISATIONS FOR PIPELINES/1749. Compulsory modifications of pipelines.

1749. Compulsory modifications of pipelines.

If in the case of a controlled pipeline¹ it appears to the Secretary of State², on the application of a person³ other than the owner⁴ of the pipeline, that the capacity of the pipeline can and should be increased by modifying⁵ apparatus and works associated with the pipeline⁶, or that the pipeline can and should be modified by installing in it a junction through which another pipeline may be connected to the pipeline⁷, then after giving to the owner of the pipeline an opportunity of being heard about the matter, the Secretary of State may⁸ serve notice⁹ on the owner and on the applicant¹⁰. The notice must:

- 5113 (1) specify the modifications connected with the pipeline which the Secretary of State considers should be made in consequence of the application¹¹;
- 5114 (2) specify the sums, or the method of determining the sums, which he considers should be paid to the owner by the applicant for the purpose of defraying the cost of the modifications¹²;
- 5115 (3) require the applicant to make, within a period specified in that behalf in the notice, arrangements which the Secretary of State considers appropriate for the purpose of securing that those sums will be paid to the owner if he carries out the modifications or satisfies the Secretary of State that he will carry them out¹³;
- 5116 (4) require the owner, if the applicant makes those arrangements within the period mentioned in head (3) above, to carry out the modifications within a period specified for the purpose in the notice¹⁴; and
- 5117 (5) authorise the owner, if he satisfies the Secretary of State that he has carried out or will carry out the modifications, to recover those sums from the applicant¹⁵.

Any person who contravenes¹⁶ any provision of a notice served on him in accordance with these provisions in his capacity as the owner of the pipeline to which the notice relates, in a case where no authorisation for the use of the pipeline is required¹⁷, is guilty of an offence¹⁸ and liable on summary conviction to a fine not exceeding the statutory maximum or on conviction on indictment to a fine¹⁹.

1 For the meaning of 'controlled pipeline' see PARA 1740 note 6 ante. For the meaning of 'pipeline' see PARA 1741 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 As to persons to whom the legislation applies see PARA 1743 note 1 ante.

4 For the purposes of the Petroleum Act 1998 Pt III (ss 14-28) (as amended) (see PARAS 1030-1032, 1740 et seq ante; the text and notes 5-18 infra; and PARA 1750 et seq post), in relation to a pipeline, 'owner', and in relation to a proposed pipeline, 'proposed owner', mean the person for the time being designated as the owner of the pipeline, or, as the case may be, as the proposed owner of the proposed pipeline, by an order made by the Secretary of State: s 27(1). An order designating a person as the proposed owner of a proposed pipeline may also contain provision for him to be designated as the owner of the pipeline in question at a time designated by or under the order: s 27(2). Before designating a person under s 27(1) or (2), the Secretary of State must give the person an opportunity of being heard with respect to the matter: s 27(3). Where a person for the time being so designated requests the Secretary of State in writing to cancel the designation, he must

consider the request and, if he considers it appropriate to do so, give that person an opportunity of being heard in connection with that request: s 27(4). For the meaning of 'heard' see PARA 1745 note 16 ante.

See also s 27(1A) (as added and amended) (meaning of 'owner' and 'proposed owner' in the case of controlled petroleum pipelines, other than for the purposes of s 16 (as amended), s 17(1) and the first reference in s 17F(2) (as added); and PARA 1751 note 6 post.

5 For the purposes of ibid s 16(1), (2) (as amended), references to modifications include, in the case of modifications of any apparatus and works, references to changes in, substitutions for and additions to the apparatus and works: s 16(3).

6 Ibid s 16(1)(a).

7 Ibid s 16(1)(b).

8 Ie subject to ibid s 17(8) or s 17G(7) (as added): see note 10 infra.

9 Ie notice in writing: see ibid s 28(1). As to the service of notices and documents see PARA 1030 note 11 ante.

10 Ibid s 16(1) (amended by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 2). Before serving a notice under the Petroleum Act 1998 s 16(1) (as amended), where the Secretary of State proposes to serve the notice on a person other than the owner of the relevant pipeline: (1) he must give that person particulars of the modifications which he proposes to specify in the notice and an opportunity to make an application under s 17(1) (see PARA 1750 post), in respect of the pipeline; and s 17(1)-(6) (as amended) (see PARA 1750 post) has effect for this purpose as if for references to a pipeline there were substituted references to the pipeline as it would be with those modifications (s 17(8)); (2) he must, in the case of a controlled petroleum pipeline (for the meaning of which see PARA 1750 note 6 post), give that person particulars of the modifications which he proposes to specify in the notice and an opportunity to make applications under s 17F (as added) (see PARA 1751 post) in respect of the pipeline; and s 17F (as added) and s 17G(1)-(5) (as added) have effect for this purpose as if references to a pipeline were references to the pipeline as it would be with those modifications (s 17G(7) (added by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 4).

11 Petroleum Act 1998 s 16(2)(a).

12 Ibid s 16(2)(b).

13 Ibid s 16(2)(c).

14 Ibid s 16(2)(d). For the purposes of s 14(1) (see PARA 1743 ante), a notice under s 16(1) (as amended) requiring a person to carry out modifications authorises him to carry them out; but nothing in Sch 2 (see PARAS 1744-1745 ante) applies to such a notice: s 16(4).

15 Ibid s 16(2)(e).

19 Petroleum Act 1998 s 21(1). As to criminal proceedings see PARA 1759 post; and as to the statutory maximum see PARA 689 note 2 ante.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/D. ACQUISITION OF RIGHTS TO USE PIPELINES/1750. Acquisition of rights to use pipelines belonging to others, except controlled petroleum pipelines and gas interconnectors.

D. ACQUISITION OF RIGHTS TO USE PIPELINES

1750. Acquisition of rights to use pipelines belonging to others, except controlled petroleum pipelines and gas interconnectors.

Where a person¹ applies to the Secretary of State² for a statutory notice³ which secures to the applicant a right to have conveyed, by a controlled pipeline⁴ of which he is not the owner⁵ (but excluding a controlled petroleum pipeline⁶ or a gas interconnector⁷), quantities specified in the application of things which are of a kind so specified and which the pipeline is designed to convey, the Secretary of State must:

- 5118 (1) give notice⁸ to the owner of the pipeline and the applicant that he proposes to consider the application; and
- 5119 (2) after the expiry of 21 days beginning with the date on which that notice was served, but before considering the application, give them an opportunity of being heard⁹ with respect to the application¹⁰.

Where after considering such an application the Secretary of State is satisfied that, if he served the necessary statutory notice¹¹, the pipeline in question could be operated in accordance with the notice without prejudicing its efficient operation for the purpose of conveying, on behalf of its owner, the quantities of permitted substances¹² which the owner requires or may reasonably be expected to require, the Secretary of State may serve such a notice on the owner and the applicant¹³.

The statutory notice may contain such provisions as the Secretary of State considers appropriate for any of the following purposes¹⁴:

- 5120 (a) to secure to the applicant, without prejudicing the efficient operation¹⁵ of the pipeline, the right to have conveyed by the pipeline the quantities specified in the application of the things so specified¹⁶;
- 5121 (b) to secure that the exercise of the right is not prevented or impeded¹⁷;
- 5122 (c) to regulate the charges which may be made for the conveyance of things by virtue of the right¹⁸; and
- 5123 (d) to secure to the applicant the right to have a pipeline of his connected to the pipeline by the applicant or the owner¹⁹.

Such a notice may also authorise the owner to recover from the applicant payments by way of consideration for any right mentioned in head (a) or head (d) above of amounts specified in the notice or determined in accordance it²⁰.

Any person who contravenes any provision of a notice served on him in accordance with these provisions in his capacity as the owner of the pipeline to which the notice relates, in a case where no authorisation for the use of the pipeline is required²¹, is guilty of an offence²² and liable on summary conviction to a fine not exceeding the statutory maximum, or on conviction on indictment to a fine²³.

- 1 As to persons to whom the legislation applies see PARA 1743 note 1 ante.
- 2 As to the Secretary of State see PARA 601 note 1 ante.
- 3 I.e. a notice under the Petroleum and Submarine Pipelines Act 1975 s 17 (as amended): see the text and notes 11-19 infra. For the meaning of 'notice' generally see PARA 1757 note 7 ante.
- 4 For the meaning of 'controlled pipeline' see PARA 1740 note 6 ante. For the meaning of 'pipeline' see PARA 1741 ante.
- 5 For the meaning of 'owner' see PARA 1749 note 4 ante.
- 6 'Controlled petroleum pipeline' means any controlled pipeline or one of a network of controlled pipelines operated or constructed as part of a petroleum production project or used to convey petroleum from the site of one or more such projects (1) directly to premises, in order for that petroleum to be used at those premises for power generation or for an industrial process; (2) directly to a place outside Great Britain; (3) directly to a terminal; or (4) indirectly to a terminal by way of one or more other terminals, whether or not such intermediate terminals are of the same kind as the final terminal: Petroleum Act 1998 s 28(1) (definition added by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 9). For these purposes, 'petroleum' has the same meaning as in the Petroleum Act 1998 Pt I (ss 1-9) (see s 1; and PARA 1626 ante), and includes petroleum which has undergone any processing; 'petroleum production project' means a project carried out by virtue of a licence granted under s 3 (see PARA 1639 ante), or an equivalent project in a foreign sector of the continental shelf, and includes such a project which is used for the storage of gas; and 'terminal' includes (a) onshore facilities in the United Kingdom for such initial blending and other treatment as may be required to produce stabilised crude oil and other hydrocarbon liquids to the point at which a seller could reasonably make a delivery to a purchaser of such oil and liquids; (b) gas processing facilities; and (c) a facility for the reception of gas prior to its conveyance to a place outside Great Britain: s 28(1) (definitions as so added). 'Gas processing facility' means any facility in Great Britain operated otherwise than by a gas transporter (within the meaning of the Gas Act 1986 Pt I (ss 4AA-48) (as amended): see PARA 805 ante) which carries out gas processing operations; and 'gas processing operation' means any of the following operations, namely (i) purifying, blending, odourising or compressing gas for the purpose of enabling it to be introduced into a pipeline system operated by a gas transporter or to be conveyed to an electricity generating station, a gas storage facility or any place outside Great Britain; (ii) removing from gas for that purpose any of its constituent gases, or separating from gas for that purpose any oil or water; and (iii) determining the quantity or quality of gas which is or is to be so introduced, or so conveyed, whether generally or by or on behalf of a particular person: s 28(1) (definitions as so added); Utilities Act 2000 s 76(7). For the meaning of 'gas' for these purposes see PARA 1030 note 2 ante; for the meaning of 'foreign sector of the continental shelf' see PARA 1678 note 13 ante; and for the meaning of 'Great Britain' see PARA 602 note 7 ante.
- 7 I.e. within the meaning of the Gas Act 1986 Pt I (as amended): see PARA 792 note 4 ante.
- 8 I.e. notice in writing: see the Petroleum Act 1998 s 28(1). As to the giving and service of notices and documents see PARA 1030 note 11 ante.
- 9 For the meaning of 'heard' see PARA 1745 note 16 ante.
- 10 Petroleum Act 1998 s 17(1), (1A), (2) (s 17(1A) added by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 3; amended by the Energy Act 2004 s 151(5)(a)).
- 11 See note 3 supra.
- 12 For these purposes, 'permitted substances' means the things which may be conveyed by the pipeline in accordance with an authorisation (or, if no authorisation for the use of the pipeline is required by the Petroleum Act 1998 s 14(1) (see PARA 1743 ante), means the things which the pipeline is designed to convey): s 17(4). For the meaning of 'authorisation' see PARA 1743 note 7 ante.
- 13 Ibid s 17(3).
- 14 Ibid s 17(5).
- 15 I.e. for the purpose mentioned in ibid s 17(3): see the text and notes 11-13 supra.
- 16 Ibid s 17(5)(a). The use of a pipeline by any person in accordance with a right secured to him by virtue of s 17 (as amended) is not a contravention of s 14(1) (see PARA 1743 ante), but a person to whom a right is so secured is not entitled to assign the right to any other person: s 17(9). For the meaning of 'contravention' see PARA 1743 note 9 ante.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

1750 Acquisition of rights to use pipelines belonging to others, except controlled petroleum pipelines and gas interconnectors

TEXT AND NOTES--A person ('the applicant') who seeks a right to have petroleum processed by an oil processing facility must, before making an application to the Secretary of State under the Energy Act 2008 s 80(5), apply to the owner of the facility for the right: Energy Act 2008 s 80(1). An application under s 80(1) may be made only in respect of an oil processing facility which is situated in (1) Great Britain, (2) the territorial sea adjacent to Great Britain, or (3) the sea in any area designated under the Continental Shelf Act 1964 s 1(7) (see PARA 1636): Energy Act 2008 s 80(2). An application under s 80(1) is to be made by notice in writing specifying the nature of the right which is being sought: s 80(3). The notice must, in particular, specify (a) the period during which the petroleum is to be processed by the facility, (b) the kind of petroleum to be processed, and (c) the quantities of petroleum to be processed: s 80(4). If the owner and the applicant do not reach agreement on the application, the applicant may apply to the Secretary of State for directions which would secure to the applicant the right specified in the notice: s 80(5). The Secretary of State may not consider an application under s 80(5) unless satisfied that the parties have had a reasonable time in which to reach agreement: s 80(6). When considering an application under s 80(5) the Secretary of State must (i) decide whether the application is to be adjourned to enable further negotiations between the parties, considered further or rejected, (ii) give notice of that decision to the applicant, and (iii) in the case of a decision to consider the application further, give notice to the persons mentioned in s 80(8) and give them the opportunity to be heard in relation to the application: s 80(7). Those persons are (A) the owner of the oil processing facility, (B) any person with a right to have petroleum processed at the facility, and (C) the Health and Safety Executive: s 80(8). On an application under s 80(5), the Secretary of State may give directions if satisfied that they will not prejudice (aa) the efficient operation of the oil processing facility, (bb) the processing by the facility of the quantities of petroleum which the owner or an associate of the owner requires or may reasonably be expected to require to be processed by the facility for the purposes of any business carried on by the owner or associate, or (cc) the processing by the facility of the quantities of petroleum which another person with a right to have petroleum processed

by the facility requires to be processed in the exercise of that right: s 80(9). For the meaning of 'associate' see Energy Act 2008 s 82.

Supplemental provision is made with respect to directions under the Energy Act 2008 s 80: see s 81.

NOTE 6--Definitions of 'terminal' and 'gas processing operation' in Petroleum Act 1998 s 28(1) amended: Energy Act 2008 s 78(4)(a), (c), Sch 6.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/D. ACQUISITION OF RIGHTS TO USE PIPELINES/1751. Acquisition of rights to use controlled petroleum pipelines, except those subject to the Norwegian access system.

1751. Acquisition of rights to use controlled petroleum pipelines, except those subject to the Norwegian access system.

The following provisions apply to controlled petroleum pipelines¹, other than pipelines subject to² the Norwegian access system³.

Any person who seeks a right to have things conveyed by a controlled petroleum pipeline of which he is not the owner⁴ ('the applicant') must, before making an application to the Secretary of State⁵, apply to the owner of the pipeline⁶ for the right⁷. Such an application must be made by giving notice⁸ to the owner specifying what is being sought⁹. The notice must, in particular, specify the kind of things to be conveyed (which must be of a kind the pipeline is designed to convey) and the quantities to be conveyed¹⁰.

If the owner and the applicant do not reach agreement on the application, the applicant may apply to the Secretary of State for a statutory notice¹¹ securing to the applicant the right to have conveyed by the pipeline in respect of which he has made an application to the owner under the above provisions the quantities specified in the notice given to the owner¹² of things of a kind so specified¹³. The Secretary of State may not entertain such an application unless he is satisfied that the parties have had a reasonable time in which to reach agreement between themselves on the application¹⁴ to the owner¹⁵. Where a person applies to the Secretary of State under the above provision and the Secretary of State is satisfied that the parties have had such reasonable time, he must:

- 5124 (1) give notice to the owner of the pipeline and the applicant that he proposes to consider the application; and
- 5125 (2) after the expiry of 21 days beginning with the date on which that notice was served, but before considering the application, give them an opportunity of being heard¹⁶ with respect to the application¹⁷.

Where an application is so made to the Secretary of State in respect of a pipeline which is situated partly in, under or over controlled waters¹⁸ and partly in a foreign sector of the continental shelf¹⁹, the Secretary of State must consult the relevant authorities in the other country with respect to the application before considering it himself²⁰.

For the purpose of considering such an application, the Secretary of State may by notice require the owner or the applicant to provide him with such information relevant to the application as may be specified or described in the notice²¹. That information may, in particular, include financial information relevant to the owner's or the applicant's activities with respect to petroleum production projects²² and controlled petroleum pipelines²³. The Secretary of State may not, however, disclose to any person any information so obtained without the consent of the person by or on behalf of whom it was provided, unless he is required to do so by virtue of any obligation imposed on him by or under any enactment²⁴.

When considering the application, the Secretary of State must, so far as relevant, take into account:

- 5126 (a) capacity which is or can reasonably be made available in the pipeline in question;
- 5127 (b) any incompatibilities of technical specification which cannot reasonably be overcome;
- 5128 (c) difficulties which cannot reasonably be overcome and which could prejudice the efficient, current and planned future production of petroleum;
- 5129 (d) the owner's reasonable needs for the transport and processing of petroleum;
- 5130 (e) the interests of all users and operators of the pipeline;
- 5131 (f) the need to maintain security and regularity of supplies of petroleum; and
- 5132 (g) the number of parties involved in the dispute²⁵.

Where the Secretary of State is satisfied that, if he served a notice under this provision, the pipeline in question could be operated in accordance with the notice without prejudicing its efficient operation for the purpose of conveying, on behalf of its owner, the quantities of permitted substances²⁶ which the owner requires or may reasonably be expected to require, the Secretary of State may serve such a notice on the owner and the applicant²⁷. Such a notice may contain such provisions as the Secretary of State considers appropriate for any of the following purposes²⁸:

- 5133 (i) to secure to the applicant the right to have conveyed by the pipeline the quantities specified in the original notice to the owner²⁹ of the things of a kind so specified³⁰;
- 5134 (ii) to secure that the exercise of the right is not prevented or impeded³¹;
- 5135 (iii) to regulate the charges which may be made for the conveyance of things by virtue of the right³²; and
- 5136 (iv) to secure to the applicant the right to have a pipeline of his connected to the pipeline by the applicant or owner³³.

Such a notice may also authorise the owner to recover from the applicant payments by way of consideration for any right mentioned in head (i) or head (iv) above of amounts specified in the notice or determined in accordance with the notice³⁴.

Any person who contravenes any provision of such a notice served on him in his capacity as the owner of the pipeline to which the notice relates, in a case where no authorisation for the use of the pipeline is required³⁵, is guilty of an offence³⁶ and liable on summary conviction to a fine not exceeding the statutory maximum, or on conviction on indictment to a fine³⁷.

1 For the meaning of 'controlled petroleum pipeline' see PARA 1750 note 6 ante.

2 I.e. pipelines to which the Petroleum Act 1998 s 17GA (as added) applies: see PARA 1752 post.

3 Ibid s 17F(1) (ss 17F, 17G added by the Gas (Third Party Access and Accounts) Regulations 2000, 2000/1937, reg 2(4), Sch 4 para 4; the Petroleum Act 1998 s 17F(1) amended by the Petroleum Act 1998 (Third Party Access) Order 2007, SI 2007/290, art 2, Schedule para 1).

4 For the meaning of 'owner' for this purpose see PARA 1749 note 4 ante.

5 I.e. under the Petroleum Act 1998 s 17F(5) (as added): see the text and notes 11-13 infra. As to the Secretary of State see PARA 601 note 1 ante.

6 For the purposes ibid Pt III (ss 14-28) (as amended), (other than s 16 (as amended) (see PARA 1749 ante), s 17(1) (see PARA 1750 ante), the first reference in s 17F(2) (as added) (see the text to note 4 supra) and the reference in s17GA(2)(a) (as added) (see PARA 1752 post), in the case of downstream gas pipelines and controlled petroleum pipelines (1) 'owner' in relation to a pipeline includes a person in whom the pipeline is vested; and a person who has the right to use capacity in the pipeline, where such right has been acquired by that person on terms that (a) he is entitled to use the capacity for a period of one year or more; and (b) the

right is capable of being assigned or otherwise disposed of to another person; and (2) 'proposed owner' in relation to a proposed pipeline includes a person in whom the pipeline is proposed to be vested: s 27(1A) (added by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 8; amended by the Petroleum Act 1998 (Third Party Access) Order 2007, SI 2007/290, art 2, Schedule para 4; prospectively amended, so as to remove the reference to downstream gas pipelines, by the Energy Act 2004 s 197(9), Sch 23 Pt 1, as from a day to be appointed under s 198(2); at the date at which this title states the law, no such day had been appointed).

7 Petroleum Act 1998 s 17F(2) (as added: see note 3 supra).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/D. ACQUISITION OF RIGHTS TO USE PIPELINES/1752. Controlled petroleum pipelines subject to the Norwegian access system.

1752. Controlled petroleum pipelines subject to the Norwegian access system.

The following provisions apply to any controlled petroleum pipeline¹ which, under the terms of the Framework Agreement concerning cross-boundary petroleum co-operation dated 4 April 2005 and made between the government of the United Kingdom² and the government of the Kingdom of Norway, is subject to a system whereby any terms or conditions on which persons who are not the owner³ of the pipeline are entitled to have things conveyed by it are determined according to the law of, or by the relevant authority of, the Kingdom of Norway⁴.

Where:

- 5137 (1) under the terms of the Framework Agreement, any term or condition on which a person who is not the owner⁵ of a pipeline is entitled to have conveyed by the pipeline any petroleum⁶ originating wholly or partly from a designated area⁷ has been determined according to the law of, or by the relevant authority of, the Kingdom of Norway; and
- 5138 (2) a dispute has arisen between the person mentioned in head (1) above and the owner as to whether the owner has complied with any term or condition so determined,

the person mentioned in head (1) above may apply to the Secretary of State⁸ for a determination⁹ whether or not the owner has complied with the terms and conditions in question¹⁰. Such an application must specify the terms and conditions in dispute and the applicant's reasons for considering that the owner has failed to comply with them¹¹; and the applicant must give notice¹² of the application to the owner of the pipeline¹³.

Where a person applies to the Secretary of State under the above provision, the Secretary of State must:

- 5139 (a) give notice to the owner of the pipeline and the applicant that he proposes to consider the application; and
- 5140 (b) after the expiry of 21 days beginning with the date on which that notice was served, but before considering the application, give them an opportunity of being heard¹⁴ with respect to the application¹⁵.

For the purpose of considering such an application, the Secretary of State may by notice require the owner or the applicant to provide him with such information relevant to the application as may be specified or described in the notice¹⁶. He may not, however, disclose to any person any information so obtained without the consent of the person by or on behalf of whom it was provided, unless he is required to do so by virtue of any obligation imposed on him by or under the Framework Agreement or by or under any enactment¹⁷.

The Secretary of State must determine whether or not the owner has complied with the terms and conditions in question, and must give notice of that determination to the owner and the applicant¹⁸. Where he determines that the owner has not so complied, the notice must state what the owner is required to do or, as the case may be, to refrain from doing, in order to

comply with the terms and conditions in question¹⁹. Where he is obliged to do so under the Framework Agreement, the Secretary of State must make his determination and issue the above-mentioned notice jointly with the relevant authority of the Kingdom of Norway²⁰.

The obligation to comply with a notice of determination given by the Secretary of State, in a case where the owner has not complied with the terms and conditions in question²¹, is a duty owed to any person who may be affected by a failure to comply with it²². Where such a duty is owed to any person, any breach of the duty which causes that person to sustain loss or damage is actionable at the suit or instance of that person²³. In any proceedings so brought against a person, it is, however, a defence for him to prove that he took all reasonable steps and exercised all due diligence to avoid contravening the duty²⁴.

1 For the meaning of 'controlled petroleum pipeline' see PARA 1740 note 6 ante.

2 For the meaning of 'United Kingdom' see PARA 602 note 7 ante.

3 For the meaning of 'owner' for these purposes see PARA 1751 note 6 ante.

4 Petroleum Act 1998 s 17GA(1), (9) (s 17GA, 17GB added by the Petroleum Act 1998 (Third Party Access) Order 2007, SI 2007/290, art 2, Schedule para 2).

5 For the meaning of 'owner' for this purpose see PARA 1750 note 6 ante.

6 For the meaning of 'petroleum' see PARA 1740 note 6 ante.

23 Ibid s 17H(2) (as added: see note 22 supra).

24 Ibid s 17H(3) (as added: see note 22 supra).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/E. TERMINATION OF AUTHORISATIONS/1753. Termination of authorisations; in general.

E. TERMINATION OF AUTHORISATIONS

1753. Termination of authorisations; in general.

An authorisation¹ for a pipeline² ceases to be in force at the earliest of the following:

- 5141 (1) where the duration of the authorisation is not expressed to be unlimited, the time at which that duration expires as specified by or ascertained under the terms of the authorisation³;
- 5142 (2) the time, if any, agreed in writing by the holder⁴ and the Secretary of State⁵ as the time at which the authorisation is to cease to be in force⁶; and
- 5143 (3) the time specified in a notice served by the Secretary of State⁷ where execution of works has not been begun at the expiry of the specified period⁸ or where the holder has contravened the terms of the authorisation or of any provision of a notice⁹ requiring modifications of, or third-party access to, the pipeline¹⁰.

When an authorisation ceases to be in force the Secretary of State must publish notice to that effect in the London, Edinburgh and Belfast Gazettes or in such one of them as he considers appropriate¹¹.

1 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

2 For the meaning of 'pipeline' see PARA 1741 ante.

3 Petroleum Act 1998 s 18(1)(a).

4 For the meaning of 'holder' see PARA 1748 note 9 ante.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Petroleum Act 1998 s 18(1)(b). It is an offence to make a false statement for the purpose of inducing the Secretary of State to come to such an agreement: see PARA 1758 post.

7 I.e. a notice under *ibid* s 18(2) (see PARA 1754 post) or s 18(6) (as amended) (see PARA 1755 post).

8 See *ibid* s 18(2), (3); and PARA 1754 post.

9 I.e. a notice under *ibid* s 16 (as amended), s 17 (as amended) or s 17F(9) (as added): see PARAS 1749-1751 ante.

10 See *ibid* s 18(1)(c).

11 See *ibid* s 18(9).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/E. TERMINATION OF AUTHORISATIONS/1754. Termination for failure to execute works.

1754. Termination for failure to execute works.

If it appears to the Secretary of State¹ that the execution of works² authorised by a works authorisation³ has not been begun at the expiry of the period of three years beginning with the date when the authorisation is expressed to come into force⁴, or such longer period beginning with that date as the Secretary of State has, on the application of the holder⁵, specified in a notice served⁶ on him during that period of three years⁷, the Secretary of State must serve on him a notice stating that the authorisation is to cease to be in force at the time specified in the notice⁸.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 Ie disregarding the execution of any of the works which the Secretary of State considers should be disregarded for this purpose: Petroleum Act 1998 s 18(4).

3 For the meaning of 'works authorisation' see PARA 1744 note 3 ante.

4 See the Petroleum Act 1998 s 18(3)(a).

5 For the meaning of 'holder' see PARA 1748 note 9 ante.

6 Ie served under the Petroleum Act 1998 s 18(3)(b). As to the service of notices see PARA 1030 note 11 ante. The Secretary of State may not serve such a notice unless (1) he is satisfied that notice of the application has been served on (a) the persons on whom, in accordance with Sch 2 (see PARA 1745 ante), notice was served of the application for the authorisation, or on such of those persons as he considers appropriate in the circumstances; and (b) such other persons, if any, as he considers appropriate in the circumstances; and (2) he has considered any written representations about the application made, during such period as he considers reasonable, by any of the persons on whom notice of the application was served in accordance with head (1) supra: s 18(5).

7 See *ibid* s 18(3)(b). It is an offence to make a false statement for the purpose of inducing the Secretary of State to specify a period under s 18(3)(b): see PARA 1758 post.

8 *Ibid* s 18(2).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/E. TERMINATION OF AUTHORISATIONS/1755. Termination for contraventions.

1755. Termination for contraventions.

If the Secretary of State¹ considers that the holder² of an authorisation³:

- 5144 (1) has contravened⁴ a term of the authorisation; or
- 5145 (2) has contravened any provision of a notice which, under the specified provisions of the Petroleum Act 1998⁵, was served on him in his capacity as the owner⁶ of the pipeline⁷, or the proposed owner of the proposed pipeline, to which the authorisation relates,

he may serve on the holder a notice⁸ stating that the authorisation is to cease to be in force at a time specified in the notice⁹. He may not, however, serve such a notice without first giving the holder of the authorisation an opportunity to make written representations to him¹⁰. Nor may he serve such a notice in consequence of a contravention if he considers that:

- 5146 (a) having regard to the nature and consequences of the contravention and to any previous contravention, it would be unreasonable to terminate the authorisation in consequence of the contravention; and
- 5147 (b) the holder has taken adequate steps to prevent similar contraventions in future¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 For the meaning of 'holder' see PARA 1748 note 9 ante.

3 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

4 For the meaning of 'contravention' see PARA 1743 note 9 ante.

5 I.e. under the Petroleum Act 1998 s 16 (as amended), s 17 (as amended) or s 17F(9) (as added): see PARAS 1749-1751 ante.

6 For the meanings of 'owner' and 'proposed owner' see PARAS 1750 note 6, 1751 note 6 ante.

7 For the meaning of 'pipeline' see PARA 1741 ante.

8 I.e. a notice in writing: see the Petroleum Act 1998 s 28(1). As to the service of notices see PARA 1030 note 11 ante.

9 Ibid s 18(6) (amended by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 5).

10 Petroleum Act 1998 s 18(7). It is an offence to make a false statement for the purpose of inducing the Secretary of State not to serve a notice under s 18(6) (as amended): see PARA 1758 post.

11 Ibid s 18(8); and see note 10 supra.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/E. TERMINATION OF AUTHORISATIONS/1756. Vesting of pipelines on termination or subsequent issue of authorisations.

1756. Vesting of pipelines on termination or subsequent issue of authorisations.

When an authorisation¹ ceases to be in force² the controlled pipeline³ to which it relates is transferred to and vests⁴ in the Secretary of State⁵ free from incumbrances⁶. Where the Secretary of State proposes to issue an authorisation to any person⁷ in respect of a pipeline so vested in the Secretary of State he may agree with that person, on terms which may include provision for the making of payments by that person to the Secretary of State, that the authorisation is to include a specified⁸ statement⁹. Where an authorisation includes such a statement the pipeline to which the authorisation relates is transferred to and vests¹⁰ in the holder of the authorisation¹¹.

1 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

2 See PARAS 1753-1755 ante.

3 For the meaning of 'controlled pipeline' see PARA 1740 note 6 ante. For the meaning of 'pipeline' see PARA 1741 ante.

4 Ie by virtue of the Petroleum Act 1998 s 19(1) (as amended); but see note 6 infra.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Petroleum Act 1998 s 19(1). Nothing in this provision, however, prejudices (1) any interest belonging to the Crown Estate or to Her Majesty in right of the Duchy of Lancaster or the Duchy of Cornwall; or (2) any right conferred by a notice relating to the pipeline under s 17 (as amended) (see PARA 1750 ante) or s 17F(9) (as added) (see PARA 1751 ante): s 19(1)(a), (b) (amended by the Gas (Third Party Access and Accounts) Regulations 2000, SI 2000/1937, reg 2(4), Sch 4 para 6).

7 As to the persons to whom the legislation applies see PARA 1743 note 1 ante.

8 Ie a statement that the Petroleum Act 1998 s 19(3) (see the text and notes 10-11 infra) applies to the authorisation: s 19(2).

9 Ibid s 19(2).

10 Ie by virtue of ibid s 19(3), and at the time specified in that behalf in the authorisation.

11 Ibid s 19(3). The transfer and vesting is subject to any interest or right then subsisting in respect of the pipeline by virtue of s 19(1)(a) or (b) (as amended) (see note 6 supra): s 19(3).

UPDATE

F. ENFORCEMENT AND OFFENCES

1757. Enforcement powers of the Secretary of State.

If a person¹ executes any works² in contravention³ of the statutory restrictions on the construction⁴ and use of submarine pipelines⁵ the Secretary of State⁶ may at any time serve on him a notice⁷ requiring him to comply with the requirement to remove such of the works as are specified in the notice as works to be removed⁸. It is the duty of the recipient of such a notice to comply with it within the period specified in it, and if he fails to do so the Secretary of State may comply with the notice on his behalf and recover from him any expenses reasonably incurred in doing so⁹.

If a person executes any works in contravention of the provisions previously mentioned and the Secretary of State considers that it is urgently necessary to do such things in relation to the works as he could have required that person to do by notice¹⁰, the Secretary of State may do those things and recover from that person any expenses reasonably incurred in doing so¹¹. The fact that any thing is done or omitted by the recipient of such a notice for the purpose of complying with the notice¹², or by the Secretary of State in exercise of his enforcement powers¹³, does not relieve him from liability for any damage which is attributable to the act or omission and for which he would have been liable had the act or omission not been authorised by these provisions¹⁴; but the Secretary of State is entitled to recover from the person who executed the works in question the amount of any damages which, in consequence of the works, are paid by the Secretary of State by virtue of this provision¹⁵.

1 As to persons to whom the legislation applies see PARA 1743 note 1 ante.

2 As to the meaning of 'works' see PARA 1743 note 3 ante.

3 For the meaning of 'contravention' see PARA 1743 note 9 ante.

4 For to the meaning of 'construction' see PARA 1740 note 4 ante.

5 Ie the provisions of the Petroleum Act 1998 s 14(1): see PARA 1743 ante.

6 As to the Secretary of State see PARA 601 note 1 ante.

7 'Notice' means notice in writing: Petroleum Act 1998 s 28(1). As to the service of notices see PARA 1030 note 11 ante.

8 Ibid s 21(2).

9 Ibid s 21(3).

10 Ie by notice under ibid s 21(2).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/F. ENFORCEMENT AND OFFENCES/1758. Offence of making false statements.

1758. Offence of making false statements.

Any person¹ is guilty of an offence if he makes a statement which he knows is false in a material particular, or recklessly² makes a statement which is false in a material particular, for the purpose of inducing the Secretary of State³:

- 5148 (1) to issue any authorisation⁴; or
- 5149 (2) to agree⁵ that an authorisation is to cease to be in force; or
- 5150 (3) to specify a period⁶ within which the execution of works authorised by a works authorisation⁷ must be begun; or
- 5151 (4) not to serve a contravention notice⁸ on him⁹.

A person guilty of such an offence is liable on summary conviction to a fine not exceeding the statutory maximum, or on conviction on indictment to a fine¹⁰.

1 As to the persons to whom the legislation applies see PARA 1743 note 1 ante.

2 For the meaning of 'recklessly' in the context of the criminal law see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(1) (2006 Reissue) PARA 11.

3 As to the Secretary of State see PARA 601 note 1 ante.

4 For the meaning of 'authorisation' see PARA 1743 note 7 ante.

5 Ie under the Petroleum Act 1998 s 18(1)(b): see PARA 1753 ante.

6 Ie under ibid s 18(3)(b): see PARA 1754 ante.

7 For the meaning of 'works authorisation' see PARA 1744 note 3 ante.

8 Ie not to serve a notice under the Petroleum Act 1998 s 18(6) (as amended): see PARA 1755 ante.

9 Ibid s 21(1)(c).

10 Ibid s 21(1). As to the statutory maximum see PARA 689 note 2 ante; and as to criminal proceedings see PARA 1759 post.

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(i) Control, Authorisation and Use/F. ENFORCEMENT AND OFFENCES/1759. Criminal proceedings.

1759. Criminal proceedings.

Proceedings for an offence under the specified provision of the Petroleum Act 1998¹, or created by regulations made under Part III of that Act² (a 'relevant offence') may be taken, and the offence may for incidental purposes be treated as having been committed, in any place in the United Kingdom³.

Proceedings for a relevant offence alleged to have been committed in, under or over controlled waters⁴ may not be instituted in England and Wales except:

- 5152 (1) by the Secretary of State⁵ or by a person authorised in that behalf by the Secretary of State; or
- 5153 (2) by or with the consent of the Director of Public Prosecutions⁶;

but this does not apply to proceedings for an offence created by regulations made⁷ with regard to the powers and duties of inspectors⁸.

In proceedings for a relevant offence an averment in the information, complaint or indictment that anything was done or situated in, under or over controlled waters is, unless the contrary is proved, to be sufficient evidence of the matter stated in the averment⁹.

Where a relevant offence committed by a body corporate is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of, any director¹⁰, manager, secretary or other similar officer of the body corporate or any person who was purporting to act in any such capacity, he as well as the body corporate is guilty of that offence and is liable to be proceeded against and punished accordingly¹¹.

In any proceedings for:

- 5154 (a) an offence¹² of executing works or using a pipeline¹³ otherwise than in accordance with the terms of the relevant authorisation¹⁴; or
- 5155 (b) an offence¹⁵ of contravening¹⁶ any provision of a notice¹⁷,

it is a defence to prove that the accused used all due diligence to comply with those terms or, as the case may be, with that provision¹⁸.

1 Ie an offence under the Petroleum Act 1998 s 21(1) (as amended): see PARAS 1743-1751, 1758 ante.

2 Ie regulations made under *ibid* Pt III (ss 14-28) (as amended). As to the making of regulations see PARA 1740 note 2 ante.

3 Ibid s 22(1). For the meaning of 'United Kingdom' see PARA 602 note 7 ante. The Territorial Waters Jurisdiction Act 1878 s 3 (consents to prosecution of offences committed on the open sea by persons who are not British citizens: see CRIMINAL LAW, EVIDENCE AND PROCEDURE vol 11(3) (2006 Reissue) PARA 1056) does not apply to any proceedings for a relevant offence: Petroleum Act 1998 s 22(9).

4 For the meaning of 'controlled waters' see PARA 1740 note 6 ante.

5 As to the Secretary of State see PARA 601 note 1 ante.

6 Petroleum Act 1998 s 22(2). As to the institution of proceedings in Northern Ireland see s 22(3).

7 le regulations made under *ibid* s 20: see PARAS 1763-1764 *post*.

8 *Ibid* s 22(4).

9 *Ibid* s 22(5).

10 For these purposes, in relation to a body corporate which (1) is established by or under any enactment for the purpose of carrying on under public ownership any industry or part of an industry or undertaking; and (2) is a body whose affairs are managed by its members, 'director' means a member of the body corporate: *ibid* s 22(7).

11 *Ibid* s 22(6).

12 le an offence under *ibid* s 21(1)(a): see PARA 1743 *ante*.

13 For the meaning of 'pipeline' see PARA 1741 *ante*.

14 For the meaning of 'authorisation' see PARA 1743 note 7 *ante*.

15 le an offence under *ibid* s 21(1)(b) (as amended): see PARAS 1749-1751 *ante*.

16 For the meaning of 'contravention' see PARA 1743 note 9 *ante*.

17 le a notice under the Petroleum Act 1998 s 16 (as amended) (see PARA 1749 *ante*), s 17 (as amended) (see PARA 1750 *ante*) or s 17F(9) (as added) (see PARA 1751 *ante*) served on the person in question in his capacity as the owner of the pipeline to which the notice relates in a case where no authorisation for the use of the pipeline is required by s 14(1) (see PARA 1743 *ante*); see s 21(1)(b) (as amended); and see PARAS 1749-1751 *ante*.

18 *Ibid* s 22(8).

UPDATE

1740-1759 Control, Authorisation and Use

For provision requiring consent to be given for works detrimental to navigation in connection with licences under the Petroleum Act 1998 Pt 3, see Energy Act 2008 Pt 4A (ss 79A-79Q) and WATER AND WATERWAYS.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(ii) Safety/A. SAFETY REGULATIONS/1760. Power to make regulations; in general.

(ii) Safety

A. SAFETY REGULATIONS

1760. Power to make regulations; in general.

The power to make safety regulations in relation to pipeline works is now contained in the Health and Safety at Work etc Act 1974, extended and applied as previously described in relation to offshore installations¹.

¹ See the Offshore Safety Act 1992 ss 1, 3-5 (as amended), which extend the general purposes of the Health and Safety at Work etc Act 1974 to offshore installations etc and make provision for the security of petroleum and petroleum products; and PARA 1677 ante. See also PARAS 1761-1762 post.

UPDATE

1760-1764 Power to make regulations; in general ... Functions of inspectors

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(ii) Safety/A. SAFETY REGULATIONS/1761. The Pipelines Safety Regulations 1996.

1761. The Pipelines Safety Regulations 1996.

The Pipelines Safety Regulations 1996¹, which are made under the Health and Safety at Work etc Act 1974², make provision:

- 5156 (1) with regard to the safe design, construction, installation, operation and maintenance of pipelines³;
- 5157 (2) for the arrangements to be made in connection with incidents and emergencies⁴;
- 5158 (3) as to the safe decommissioning of pipelines⁵;
- 5159 (4) for the prevention of damage to pipelines⁶ and co-operation between operators of different parts of a pipeline⁷; and
- 5160 (5) with regard to major accident hazard pipelines⁸.

Contravention of the regulations is an offence⁹; but in any proceedings for such an offence, it is a defence for the person charged to prove that the commission of the offence was due to the act or default of another person not being one of his employees and that he took all reasonable precautions and exercised all due diligence to avoid the commission of the offence¹⁰.

The 1996 Regulations are discussed in detail elsewhere in this work¹¹.

1 See the Pipelines Safety Regulations 1996, SI 1996/825 (as amended): see PARA 1689 ante; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 610 et seq.

2 As to the extension of the Health and Safety at Work etc Act 1974 to offshore installations etc see PARAS 1677, 1760 ante; and see also the Pipelines Safety Regulations 1996, SI 1996/825, reg 4(1).

3 See ibid regs 5-11, 13; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 611. For the meaning of 'pipeline' for these purposes see PARA 1689 note 1 ante.

4 See ibid reg 12; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 611.

5 See ibid reg 13A (as added), reg 14; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 611.

6 See ibid regs 15, 16; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 611.

7 See ibid reg 17; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 611.

8 See ibid Pt III (regs 18-27); para 1689 ante; and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARAS 610 et seq. For the meaning of 'major accident hazard pipeline' see PARA 1689 note 1 ante.

9 As to the enforcement of health and safety regulations see HEALTH AND SAFETY AT WORK vol 52 (2009) PARAS 370, 375 et seq; and as to offences under them see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 852 et seq.

10 Pipelines Safety Regulations 1996, SI 1996/825, reg 28(1). For restrictions on the circumstances in which such a defence may be relied on see reg 28(2), (3); and RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 630.

11 See RAILWAYS, INLAND WATERWAYS AND CROSS-COUNTRY PIPELINES vol 39(1A) (Reissue) PARA 610 et seq.

UPDATE

1760-1764 Power to make regulations; in general ... Functions of inspectors

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(ii) Safety/A. SAFETY REGULATIONS/1762. Control of diving operations.

1762. Control of diving operations.

The Diving at Work Regulations 1997¹, which are made under the Health and Safety at Work etc Act 1974², apply to and in relation to any work-related diving project or diving operation³ carried out in connection with pipeline works executed in, under or over controlled waters⁴.

¹ See the Diving at Work Regulations 1997, SI 1997/2776: see PARA 1693 ante; and HEALTH AND SAFETY AT WORK vol 53 (2009) PARAS 591-594.

3 Ibid s 20(1).

4 Ibid s 20(1). Such determination requires the approval of the Minister for the Civil Service: s 20(1).

UPDATE

1760-1764 Power to make regulations; in general ... Functions of inspectors

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(ii) Safety/B. INSPECTORS/1764. Functions of inspectors.

1764. Functions of inspectors.

The Secretary of State¹ may by regulations² make provision with respect to:

- 5161 (1) the powers and duties of inspectors appointed by him³ to assist him in the execution of Part III of the Petroleum Act 1998⁴ and of any other persons acting on the directions of the Secretary of State in connection with the execution of that Part of that Act; and
- 5162 (2) the facilities to be accorded to such inspectors and other persons⁵.

For the purpose of enforcing regulations so made, an inspector⁶ has the same powers to institute proceedings in England and Wales under the Health and Safety at Work etc Act⁷ as he would have if he were an inspector appointed⁸ by the Health and Safety Executive⁹ who is authorised to act for the purposes of the regulations¹⁰.

Regulations provide that for the purpose of assisting the Secretary of State or the Executive in such execution, an inspector¹¹ may, at any time:

- 5163 (a) inspect any pipeline¹² or require any person to carry out such procedures or conduct such tests as may appear likely to facilitate the power to inspect¹³;
 - 5164 (b) enter upon any premises, vessel¹⁴ or installation used or intended to be used in connection with any pipeline or with any activities relating to a pipeline or proposed pipeline¹⁵;
 - 5165 (c) inspect and test, or cause to be tested, any equipment so used or intended to be used¹⁶;
 - 5166 (d) where he is of the opinion that any activities relating to a pipeline or a proposed pipeline as carried on or about to be carried on involve or, as the case may be, will involve a risk of an occurrence of a specified kind¹⁷ or there has been such an occurrence:
- 479
- 727. (i) require any person engaged, or about to be engaged, in the carrying on of the activities to do or refrain from doing anything in connection with the activities with a view to minimising the risk of that occurrence or, as the case may be, its consequences¹⁸;
 - 728. (ii) cause to be dismantled or subjected to any test (including a test to destruction) any part of a pipeline or any equipment which may cause or, as the case may be, have caused that occurrence¹⁹;
 - 729. (iii) take possession of any such part of a pipeline or any such equipment²⁰;
- 480
- 5167 (e) take such measurements and photographs and make such recordings as he considers necessary for the purpose of any inspection or test under head (a), head (c) or head (d)(ii) above²¹;
 - 5168 (f) require the production of, inspect and take copies of books and other documents and entries in them²²;
 - 5169 (g) require the owner²³ of a pipeline or the proposed owner²⁴ of a proposed pipeline to convey him and his equipment for testing, and anything of which he has taken possession under head (d)(iii) above, to and from any vessel or installation

- used or intended to be used with the pipeline or related pipeline works and to provide him with reasonable accommodation and means of subsistence while on, or in transit to or from, such a vessel or installation²⁵; and
- 5170 (h) require any person to afford him such facilities and assistance with respect to any matters or things within that person's control or in relation to which that person has responsibilities as are necessary to enable the inspector to exercise any of the powers so conferred on him²⁶.

It is the duty of any person whom an inspector has reasonable cause to believe to be able to give him information relevant to the execution of Part III of the Petroleum Act 1998 to answer, in private²⁷, such questions as the inspector may think fit to ask²⁸ and to furnish in writing such of that information as he has or can reasonably obtain²⁹.

Nothing in the above provisions³⁰, however, imposes, or confers power on an inspector to impose, any obligation on any person on a vessel registered outside the United Kingdom as a ship, aircraft or hovercraft when it is not engaged in operations for the purposes of laying or maintaining a pipeline³¹.

It is an offence to contravene, or fail to comply with a requirement or obligation imposed under, the above provisions³².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the making of regulations see PARA 1740 note 2 ante.

3 *Ie* under the Petroleum Act 1998 s 20(1): see PARA 1763 ante.

4 *Ie* *ibid* Pt III (ss 14-28) (as amended): see PARA 1740 *et seq* ante.

5 *Ibid* s 20(2). At the date at which this title states the law, no such regulations had been made; but, by virtue of s 49, Sch 3 Pt I para 1(2), the Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835 (as amended), have effect as if so made.

6 *Ie* an inspector appointed under the Petroleum Act 1998 s 20(1).

7 *Ie* under the Health and Safety at Work etc Act 1974 s 38 (as amended): see HEALTH AND SAFETY AT WORK vol 53 (2009) PARA 856.

8 *Ie* under *ibid* s 19: see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 375.

9 As to the Health and Safety Executive see HEALTH AND SAFETY AT WORK vol 52 (2009) PARA 361 *et seq*.

10 Petroleum Act 1998 s 20(3).

11 For these purposes, 'inspector' means (1) a person appointed as an inspector under *ibid* s 20(1) (or under the Health and Safety at Work etc Act 1974 s 19: see the Offshore Safety (Repeals and Modifications) Regulations 1993, SI 1993/1823, reg 5(1)); or (2) any other person acting on the direction of the Secretary of State or the Health and Safety Executive in connection with the execution of the Petroleum Act 1998 Pt III (as amended): Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 2(1) (amended by SI 1993/1823); Interpretation Act 1978 s 17(2).

12 Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(a). 'Pipeline' means a controlled pipeline (see PARA 1740 note 6 ante) of which an initial or terminal point is situated in the United Kingdom or controlled waters but excluding any pipeline or part of a pipeline which is in, under or over the territorial sea adjacent to Northern Ireland: reg 2(2) (amended by SI 1991/680). For the meaning of 'United Kingdom' see PARA 602 note 7 ante; as to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and as to the meaning of 'controlled waters' see PARA 1740 note 6 ante.

13 Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(j) (added by SI 1982/1513). Before exercising any of the powers conferred by the Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(j) (as so added), or conferred by reg 3(1)(c) (see head (c) in the text) or reg 3(1)(d)(i), (ii) (see heads (d)(i), (ii) in the text), an inspector must, except in a case of urgency, consult such persons as

appear to him appropriate for the purpose of ascertaining what may be the consequence of doing anything he proposes to do under the power: reg 3(5) (amended by SI 1982/1513).

14 'Vessel' includes an aircraft, a hovercraft and any floating structure: Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 2(1).

15 Ibid reg 3(1)(b).

16 Ibid reg 3(1)(c); and see note 13 supra. Where an inspector proposes to exercise either of the powers conferred by reg 3(1)(c) (see head (c) in the text) and reg 3(1)(d)(iii) (see head (d)(iii) in the text) on any premises, vessel or installation, he must, if so requested by a person who at the time is present in and has responsibilities in relation to those premises or that vessel or installation, as the case may be, do, or cause to be done, anything which is to be done by virtue of the power in the presence of that person: reg 3(3).

17 It is an occurrence of a kind specified in ibid Sch 1. The specified occurrences are as follows (Sch 1), ie:

141 (1) any accident causing the death or loss of, or serious bodily injury to, any person;

142 (2) any damage to, or defect in, a pipeline;

143 (3) any substantial change in the position of a pipeline;

144 (4) any substantial change in the sea bed or subsoil in the vicinity of a pipeline or pipeline works;

145 (5) any escape of anything from, or inrush of anything into, a pipeline;

146 (6) any damage to a vessel or installation which may affect its safety or that of a pipeline attached to it;

147 (7) any parting of an anchor or winch cable of a vessel being used to lay a pipeline;

148 (8) discovery of a defect in any plant, machinery, equipment or material which might endanger the safety or health of any person or affect the safety of a pipeline;

149 (9) any uncontrolled explosion or fire;

150 (10) any failure of a lifting appliance or of a pipe tensioning appliance; and

151 (11) any emission of ionising radiation or of radioactive or other toxic substances which may endanger the safety or health of any person.

18 Ibid reg 3(1)(d)(i); and see note 13 supra. This power is exercisable only by an inspector appointed under the Petroleum Act 1998 s 20(1) or the Health and Safety at Work etc Act 1974 s 19 (and, therefore, not by a person as described in note 11 head (2) supra): Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(d)(i); Interpretation Act 1978 s 17(2). An inspector may not exercise the power so conferred so as to require the shutting down of a pipeline, or the discontinuance of the conveyance of anything through it, except in a case where the inspector is of the opinion that there is a risk of an accident causing the death or loss of, or serious bodily injury to, any person, or such an accident has occurred, or where the inspector is of the opinion that the escape of anything from the pipeline has occurred or is imminent: Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(2). A requirement under reg 3(1)(d)(i) ceases to have effect on the expiration of a period of three days beginning with the date on which it was made unless the Secretary of State or the Executive by notice given to the person on whom it was imposed extends its operation either in its original or a modified form for additional periods: reg 3(4) (amended by SI 1993/1823).

19 Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(d)(ii); and see note 13 supra.

20 Ibid reg 3(1)(d)(iii); and see note 16 supra.

21 Ibid reg 3(1)(e).

22 Ibid reg 3(1)(f). The books and documents referred to are those required to be kept under the Petroleum Act 1998 Pt III (as amended), or any other book relating to the construction and use of a pipeline or to pipeline works: Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(f).

23 In relation to a pipeline in respect of which no person has been designated as its owner under the Petroleum Act 1998 s 27(1) (see PARA 1749 note 4 ante), 'owner' means the person by whom the pipeline is to

be used: Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 2(1); Interpretation Act 1978 s 17(2).

24 In relation to a proposed pipeline for which no person has been designated as its proposed owner under the Petroleum Act 1998 s 27(1) (see PARA 1749 note 4 ante), 'proposed owner' means the person for whom the pipeline is to be constructed: Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 2(1); Interpretation Act 1978 s 17(2).

25 Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1)(g).

26 Ibid reg 3(1)(h).

27 Ie in the absence of persons other than a person nominated by the person concerned to be present and any persons whom the inspector may allow to be present: ibid reg 4(a).

28 Ibid reg 4(a).

29 Ibid reg 4(b).

30 Ie nothing in ibid reg 3 (as amended), reg 4: see the text and notes 11-29 supra.

31 Ibid reg 8.

32 See PARA 1765 post.

UPDATE

1760-1764 Power to make regulations; in general ... Functions of inspectors

Certain functions under provisions mentioned in these paragraphs are 'relevant functions' for the purposes of the Regulatory Enforcement and Sanctions Act 2008 s 4, Sch 3: see LOCAL GOVERNMENT vol 69 (2009) PARA 733.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(ii) Safety/B. INSPECTORS/1765. Offences relating to functions of inspectors, etc.

1765. Offences relating to functions of inspectors, etc.

A person commits an offence if:

- 5171 (1) he contravenes¹ or fails to comply with a requirement imposed by an inspector² in the exercise of his functions³ or with an obligation⁴ imposed on him with respect to information⁵;
- 5172 (2) he wilfully obstructs a person exercising a function conferred, or performing a duty imposed, by the regulations⁶ relating to inspectors⁷; or
- 5173 (3) in furnishing any information for the purposes of those regulations, he makes or causes to be made on his behalf a statement which he knows to be false or does not believe to be true⁸.

The penalty for such an offence is on summary conviction a fine not exceeding the statutory maximum⁹ or, on conviction on indictment, imprisonment for up to two years or a fine, or both¹⁰. It is a defence for the person charged with any such offence to prove that he took all reasonable precautions and exercised all due diligence to prevent the commission of the offence¹¹.

1 For the meaning of 'contravention' see PARA 1743 note 9 ante.

2 For the meaning of 'inspector' for these purposes see PARA 1764 note 11 ante.

3 I.e. his functions under the Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 3(1) (as amended): see PARA 1764 ante.

4 I.e. an obligation under *ibid* reg 4: see PARA 1764 ante.

5 *Ibid* reg 7(1)(a) (amended by SI 1995/3163).

6 I.e. by the Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835 (as amended): see PARA 1764 ante.

7 *Ibid* reg 7(1)(b).

8 *Ibid* reg 7(1)(c).

9 *Ibid* reg 7(3) (added by SI 1982/1513) expresses the maximum penalty for summary conviction as 'that authorised by section 32(3)(a) of the [Petroleum and Submarine Pipelines Act 1975], that is to say, on summary conviction, a fine not exceeding £1,000'. Section 32(3)(a) is, however, repealed and replaced by the Petroleum Act 1998 s 25(3), which authorises the statutory maximum as the maximum penalty for summary conviction. As to the statutory maximum see PARA 689 note 2 ante.

10 Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 7(3) (as added: see note 9 *supra*); Interpretation Act 1978 s 17(2).

11 Submarine Pipelines (Inspectors etc) Regulations 1977, SI 1977/835, reg 7(2).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(4) SUBMARINE PIPELINES/(iii) Penalties etc for Damage to Pipelines/1766. Criminal and civil liability for damage.

(iii) Penalties etc for Damage to Pipelines

1766. Criminal and civil liability for damage.

The provisions of the Submarine Telegraph Act 1885 which impose criminal penalties for damaging submarine cables¹ and a civil liability to pay compensation for damage to cables and for loss of gear sacrificed to avoid such damage² are extended to cover damage to all pipelines under the high seas, including those under the territorial sea adjacent to the United Kingdom³ or under waters in a designated⁴ area⁵. Those provisions are discussed elsewhere in this work⁶.

1 Ie the Submarine Telegraph Act 1885 s 3 (as amended): see TELECOMMUNICATIONS vol 97 (2010) PARA 207.

2 Ie ibid Schedule arts IV, VII.

3 As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and for the meaning of 'United Kingdom' see PARA 602 note 7 ante.

4 Ie an area designated under the Continental Shelf Act 1964 s 1(7) (as amended): see PARA 1636 ante.

5 See ibid s 8(1), (1A) (s 8(1) amended by the Energy Act 2004, ss 103(1)(a), 197(9), Sch 23 Pt 1; the Continental Shelf Act 1964 s 8(1A) added by the Petroleum Act 1998 s 50, Sch 4 para 2(4)).

6 See TELECOMMUNICATIONS vol 97 (2010) PARA 207.

UPDATE

1766 Criminal and civil liability for damage

NOTE 5--Continental Shelf Act 1964 s 8(1A) amended: Marine and Coastal Access Act 2009 Sch 4 para 1 (not yet in force).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(5) FINANCE/1767. Repayments and loans for development.

(5) FINANCE

1767. Repayments and loans for development.

Where any person has paid to the Secretary of State¹ a sum by way of royalty under the terms of a licence granted under the Petroleum Act 1998², the Secretary of State may, with the approval of the Treasury, repay to him the whole or a part of that sum if the Secretary of State considers it expedient to do so for the purpose of facilitating or maintaining the development of the petroleum³ resources of the United Kingdom⁴. Any such repayment and right to such repayment is to be disregarded for the purposes of income tax, corporation tax or petroleum revenue tax⁵.

Where it appears to the Secretary of State expedient to do so for the purpose of facilitating or maintaining the development of the petroleum resources of the United Kingdom, he may, with Treasury approval:

- 5174 (1) make loans to an oil company⁶ on terms determined by him; or
- 5175 (2) guarantee on such terms the repayment of the principal of, and the payment of interest on loans made to, an oil company by another person⁷.

The aggregate amount for the time being outstanding in respect of the principal of loans so made must not exceed £50 million⁸; and the aggregate amount of the principal sums in respect of which guarantees so given are for the time being in force and of the payments made by the Secretary of State on account of principal sums under such guarantees and not recovered by him must not exceed £600 million⁹. Immediately after a loan is so made or guarantee so given, the Secretary of State must lay a statement relating to it before each House of Parliament¹⁰; and where any sum is issued for fulfilling a guarantee so given he must, as soon as possible after the end of each financial year¹¹, similarly lay a statement relating to that sum¹².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 I.e. a licence granted under the Petroleum Act 1998 s 3: see PARA 1639 ante. Any information which the Commissioners for Revenue and Customs possess in connection with petroleum won by virtue of a licence granted under s 3: (1) may be disclosed by the Commissioners to the Secretary of State, or to an officer of his who is authorised by him to receive such information, in connection with provisions of the licence relating to royalty payments; but (2) must not be disclosed by a person to whom it is disclosed under head (1) *supra* except (a) as authorised by the licence; (b) to a person to whom it could have been disclosed under head (1) *supra*; or (c) for the purposes of proceedings (which may be arbitration proceedings) in connection with the licence: s 4(5) (amended by virtue of the Commissioners for Revenue and Customs Act 2005 s 50). At the date at which this title states the law, however, royalties are not payable under such licences: see Department of Trade and Industry Press Release, 17 November 2002. Exemption from royalties in respect of petroleum from certain fields and areas had earlier been granted by statute: see the Petroleum Royalties (Relief) and Continental Shelf Act 1989 ss 1, 2, Schedule (s 1 amended by the Petroleum Act 1998, s 50, Sch 4 para 26).

3 For the meaning of 'petroleum' see PARA 1626 ante.

4 Petroleum Act 1998 s 6(1). For the meaning of 'United Kingdom' see PARA 602 note 7 ante. The Secretary of State may contract out any function of his which relates to or is connected with the payment or repayment of any sum by way of royalty which is conferred on him by (1) any provision of any licence granted or treated as

having been granted under the provisions of s 3(1); or (2) s 6: see the Contracting Out (Functions in Relation to Petroleum Royalty Payments) Order 2000, SI 2000/353, arts 2, 3.

Where a person has been required for the purposes of a licence granted under the Petroleum Act 1998 s 3 to deliver petroleum to the Secretary of State for any chargeable period, s 6(1) has effect as if the person had paid to the Secretary of State by way of royalty such sum, or (where he has been required to deliver some but not all of the petroleum which he could have been required to deliver) such additional sum as he would have been required to pay under the licence if he had not been required to deliver the petroleum: s 6(2).

5 Ibid s 6(3); and see note 4 supra.

6 For these purposes, 'oil company' means a body corporate which, in the opinion of the Secretary of State, has as its principal object (1) the production of petroleum; (2) the refining of petroleum; (3) the production and refining of petroleum; or (4) the supplying of petroleum in a case where any of its other objects is one of those mentioned in heads (1)-(3) supra: *ibid* s 47(6).

7 Ibid s 47(1).

8 Ibid s 47(2).

9 Ibid s 47(3).

10 Ibid s 47(4).

11 I.e. beginning with the financial year in which the sum is issued and ending with that in which all liability in respect of the principal of the sum and interest on it is finally discharged: *ibid* s 47(5).

12 Ibid s 47(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(5) FINANCE/1768. Contributions in respect of mineral exploration.

1768. Contributions in respect of mineral exploration.

There must be defrayed out of money provided by Parliament any payments made by the Secretary of State¹ by way of contribution towards expenditure incurred on searching for, or on discovering and testing, mineral deposits² in Great Britain³ or in the sea bed and subsoil of territorial waters⁴ or of designated areas⁵ of the continental shelf⁶. The amount so paid must not exceed £25 million or such larger sum, not exceeding £50 million, as the Secretary of State may specify by order⁷; and contributions must not exceed 35 per cent of the expenditure towards which they are made⁸.

Any such payment by the Secretary of State may be made on such terms as he thinks fit⁹, including terms providing for repayment¹⁰ of the amount paid, or for the giving of security for the performance of any of the terms¹¹.

In respect of each financial year in which payments are made under these provisions the Secretary of State must as soon as may be prepare a report on the operation of the provisions and lay it before Parliament¹².

1 As to the Secretary of State see PARA 601 note 1 ante.

2 'Mineral deposits' includes any natural deposits capable of being lifted or extracted from the earth: Mineral Exploration and Investment Grants Act 1972 s 1(8).

3 For the meaning of 'Great Britain' see PARA 602 note 7 ante.

4 I.e. territorial waters of the United Kingdom adjacent to Great Britain: Mineral Exploration and Investment Grants Act 1972 s 1(1). As to the territorial sea of the United Kingdom see WATER AND WATERWAYS vol 100 (2009) PARA 31 note 3; and for the meaning of 'the United Kingdom' see PARA 602 note 7 ante.

5 I.e. areas designated under the Continental Shelf Act 1964 s 1(7) (as amended): see PARA 1636 ante.

6 Mineral Exploration and Investment Grants Act 1972 s 1(1), which has effect subject to s 1(2)-(8): s 1(1). This provision gives effect to a government scheme to encourage exploration for, and evaluation of, non-ferrous metals and other minerals: see 820 HC Official Report (5th series), 8 July 1971, written answers, col 441. Before making a contribution the Secretary of State must be satisfied that planning permission was obtained for the operations concerned, or that it was not necessary to obtain it: Mineral Exploration and Investment Grants Act 1972 s 1(4). As to planning control in relation to mining operations see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 355; and TOWN AND COUNTRY PLANNING.

7 Ibid s 1(2). Any such order must be made by statutory instrument, but it must not be made unless a draft has been approved by a resolution of the House of Commons: s 1(2).

8 Ibid s 1(5).

9 It is a condition for the making of a contribution in respect of any operations that the applicant for it has agreed that geological information obtained will be communicated, in appropriate form and detail, to the Secretary of State and, for the purposes of the geological survey of Great Britain, to the Natural Environment Research Council: ibid s 1(3). As to that Council see NATIONAL CULTURAL HERITAGE vol 77 (2010) PARAS 967, 970. As to the provision of facilities to the council in connection with certain mining operations see MINES, MINERALS AND QUARRIES vol 31 (2003 Reissue) PARA 358.

10 I.e. in whole or in part, and with or without interest or an addition in lieu of interest: ibid s 1(5).

11 Ibid s 1(5). Any sums received by the Secretary of State in accordance with the terms on which a payment is made under the provisions mentioned in the text must be paid into the Consolidated Fund: s 1(6).

As to the Consolidated Fund see CONSTITUTIONAL LAW AND HUMAN RIGHTS vol 8(2) (Reissue) PARA 711 et seq;
PARLIAMENT vol 78 (2010) PARAS 1028-1031.

12 Ibid s 1(7).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(5) FINANCE/1769. Credits and grants for construction of offshore installations.

1769. Credits and grants for construction of offshore installations.

Provision is made by the Industry Act 1972 for the Secretary of State for Business, Enterprise and Regulatory Reform (formerly the Secretary of State for Trade and Industry) to give guarantees and to make loans and grants in connection with the construction of certain offshore installations. These matters are dealt with elsewhere in this work¹.

¹ See the Industry Act 1972 Pt III (ss 10-12, Sch 1) (as amended); and TRADE AND INDUSTRY vol 97 (2010) PARA 861655.

UPDATE

1769 Credits and grants for construction of offshore installations

TEXT AND NOTE 1--The functions of the Secretary of State for Business, Enterprise and Regulatory Reform have been transferred to the Secretary of State for Business, Innovation and Skills: see Secretary of State for Business, Innovation and Skills Order 2009, SI 2009/2748.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(5) FINANCE/1770. Northern Ireland and Isle of Man shares of petroleum revenue from the continental shelf.

1770. Northern Ireland and Isle of Man shares of petroleum revenue from the continental shelf.

For any financial year in which the proceeds from petroleum licences granted for the continental shelf¹ exceed the expenses of administration, the Secretary of State must out of money provided by Parliament make payments to the governments of Northern Ireland and the Isle of Man of amounts equal respectively to the Northern Ireland share and the Isle of Man share of the balance². Provision is made for the calculation of expenses of administration³ and of the two shares⁴.

1 The licences granted under the Petroleum Act 1998 s 3 (see PARA 1639 ante) by virtue of s 3(2)(b): see the Miscellaneous Financial Provisions Act 1968 s 2(5) (amended by the Petroleum Act 1998 s 50, Sch 4 para 3). For those purposes the proceeds from the licence are to be taken to include the proceeds from the sale of the petroleum less (1) any sums paid by the Secretary of State in respect of the petroleum or its delivery or treatment; and (2) any expenses incurred by him in connection with the sale; and 'petroleum' has the same meaning as in the Petroleum Act 1998 Pt I (ss 1-9) (see s 1; and PARA 1626 ante): s 46(1), (2). As to the Secretary of State see PARA 601 note 1 ante.

2 See the Miscellaneous Financial Provisions Act 1968 s 2(1), (2).

3 See *ibid* s 2(4).

4 See *ibid* s 2(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(i) Constitution and Functions/1771. Establishment and constitution.

(6) THE OIL AND PIPELINES AGENCY

(i) Constitution and Functions

1771. Establishment and constitution.

The Oil and Pipelines Agency ('the Agency') is a body corporate which exists for the purpose of exercising and performing the functions assigned to it by the Oil and Pipelines Act 1985¹. The Agency consists of (1) a full-time or part-time chairman; and (2) such number of other full-time or part-time members, not being less than two or more than four, as the Secretary of State² may from time to time determine³.

The Agency is not to be regarded as a servant or agent of the Crown, or as enjoying any status, privilege or immunity of the Crown; and its property is not to be regarded as property of, or property held on behalf of, the Crown⁴.

The Agency is not exempt from any tax, duty, rate, levy or charge whatsoever, whether general or local⁵.

The property, rights and liabilities of the British National Oil Corporation were transferred on 1 December 1985 to the Oil and Pipelines Agency⁶, and the Corporation was dissolved on 27 March 1986⁷.

1 Oil and Pipelines Act 1985 s 1(1).

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Oil and Pipelines Act 1985 s 1(2). See further PARA 1773 et seq post.

4 Ibid s 1(3). This applies unless the Agency is acting in pursuance of an agreement entered into under s 2(1)(a): see PARA 1772 post at head (1) in the text.

5 Ibid s 1(4).

6 See ibid s 3, Sch 2; and the Oil and Pipelines Act 1985 (Appointed Day) Order 1985, SI 1985/1749. The Oil and Pipelines Act 1985 imposed a duty on the Agency to dispose of or discharge, on the best reasonably obtainable terms, property, rights and liabilities so transferred, except such as the Secretary of State determined should continue to be vested in the Agency: see s 4.

7 See the British National Oil Corporation (Dissolution) Order 1986, SI 1986/585.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(i) Constitution and Functions/1772. General powers and duties of the Oil and Pipelines Agency.

1772. General powers and duties of the Oil and Pipelines Agency.

The Oil and Pipelines Agency ('the Agency')¹ has power:

- 5176 (1) to enter into agreements for the carrying out on behalf of the Crown of activities with respect to petroleum², pipelines and storage installations held by or on behalf of the Crown³;
- 5177 (2) to do anything required for the purpose of giving effect to such agreements⁴; and
- 5178 (3) to buy, sell or otherwise deal in petroleum on its own account⁵; but the exercise of this power requires the Secretary of State's consent⁶.

The Agency also had power to enter into such participation agreements⁷ as the Secretary of State might determine⁸ and to do anything required for the purpose of giving effect to agreements so entered into and to such participation agreements entered into by persons other than the Agency as the Secretary of State might determine⁹; but participation agreements were phased out between 1988 and 1991 and the legislation regarding them has now been repealed¹⁰.

The Agency has the power to do anything which is calculated to facilitate, or is incidental or conducive to, the exercise or performance of any of its functions under the Oil and Pipelines Act 1985 including, in particular, power to appoint other persons to exercise or perform any of those functions on its behalf¹¹.

The Agency also has a duty to comply with any general or specific direction given by the Secretary of State with respect to the exercise or performance of any of its functions under the Act¹²; and a duty to comply with any notice given by the Secretary of State with the approval of the Treasury requiring it to perform duties of a financial nature specified in the notice¹³.

1 As to the Oil and Pipelines Agency see PARA 1771 ante.

2 For these purposes, 'petroleum' has the same meaning as in the Petroleum Act 1998 Pt I (ss 1-9) (see s 1; and PARA 1626 ante): Oil and Pipelines Act 1985 s 6 (definition substituted by the Petroleum Act 1998 s 40, Sch 4 para 21).

3 Oil and Pipelines Act 1985 s 2(1)(a); see also PARA 1771 the text and note 4 ante.

4 Ibid s 2(1)(c).

5 Ibid s 2(1)(d).

6 Ibid s 2(2)(b). In giving a consent for these purposes, the Secretary of State may impose such conditions as he thinks fit: s 2(3). As to the Secretary of State see PARA 601 note 1 ante.

7 'Participation agreement' is defined as meaning either (1) any participation agreement as defined by the Participation Agreements Act 1978 s 1 (repealed); or (2) so much of any scheme made under the Oil and Gas (Enterprise) Act 1982 s 2 or 10 (both repealed), as would, if made by agreement, constitute a participation agreement as so defined: Oil and Pipelines Act 1985 s 6.

8 See *ibid* s 2(1)(b). The Secretary of State's consent was required for the exercise of any option or the making of any election which (in either case) entitled the Agency to take petroleum under a participation agreement: see s 2(2)(a).

9 See *ibid* s 2(1)(c).

10 As to the phasing out of participation agreements see 135 HC Official Report (6th series), 17 July 1988, written answers col 182. The Participation Agreements Act 1978 was repealed by the Competition Act 1998 (Transitional, Consequential and Supplemental Provisions) Order 2000, SI 2000/311, art 10.

11 Oil and Pipelines Act 1985 s 5(2). This is subject to Sch 3 (as amended) (see PARA 1778 et seq post): s 5(2).

12 *Ibid* s 5(1)(a).

13 *Ibid* s 5(1)(b).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(ii) Members and Staff/1773. Appointment and tenure of members.

(ii) Members and Staff

1773. Appointment and tenure of members.

The members of the Oil and Pipelines Agency¹, including the chairman, are appointed by the Secretary of State². A person so appointed holds and vacates office in accordance with the terms of the instrument appointing him and, on ceasing to hold office, is eligible for reappointment³. The instrument appointing a member must not, except with the approval of the Treasury, include terms entitling him to compensation on ceasing to be a member⁴.

1 As to the Oil and Pipelines Agency see PARA 1771 ante.

2 Oil and Pipelines Act 1985 s 1(5), Sch 1 para 1(1). As to the Secretary of State see PARA 601 note 1 ante.

3 Ibid Sch 1 para 1(2).

PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(ii) Members and Staff/1774. Remuneration and expenses of members.

1774. Remuneration and expenses of members.

The Oil and Pipelines Agency ('the Agency')¹ may pay to any member such sums, whether by way of remuneration or allowances or otherwise, as the Secretary of State² may determine³. The Agency may also pay or make provision for paying to or in respect of any member or former member such sums by way of pensions, allowances or gratuities as the Secretary of State may determine⁴.

Where a person ceases to be a member in circumstances in which, by the terms of the instrument appointing him, he is entitled to compensation of any amount, the Agency must make to him a payment of that amount⁵.

Where:

- 5179 (1) a person ceases to be a member otherwise than on the expiry of his term of office; and
- 5180 (2) the terms of the instrument appointing him do not provide for compensation as stated above; and
- 5181 (3) it appears to the Secretary of State that there are special circumstances which make it right for that person to receive compensation,

the Agency may make to him a payment of such amount as the Secretary of State may determine⁶.

The approval of the Treasury is required for any determination under the provisions described above⁷.

5 Ibid Sch 1 para 2(3).

6 Ibid Sch 1 para 2(4).

7 Ibid Sch 1 para 2(5).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(ii) Members and Staff/1775. Parliamentary disqualification.

1775. Parliamentary disqualification.

Members of the Oil and Pipelines Agency¹ are disqualified for membership of the House of Commons or the Northern Ireland Assembly².

¹ As to the Oil and Pipelines Agency see PARA 1771 ante; and as to the appointment or members see PARA 1773 ante.

² House of Commons Disqualification Act 1975 Sch 1 Pt II (amended by, inter alia, the Oil and Pipelines Act 1985 s 1(5), Sch 1 para 3); Northern Ireland Assembly Disqualification Act 1975 Sch 1 Pt II (similarly amended). See PARLIAMENT vol 78 (2010) PARA 908.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(ii) Members and Staff/1776. Staff.

1776. Staff.

The Oil and Pipelines Agency ('the Agency')¹ may, but only with the approval of the Secretary of State², appoint a person (who may be the chairman or another member) to act as its chief executive³. The Agency may appoint such other officers, and employ such other persons, as it may determine⁴. As regards such of its officers or employees as it may determine, the Agency may pay such pensions, allowances or gratuities, or provide and maintain such pension schemes (whether contributory or not), as it may determine⁵. If any officer or employee who is a participant in any applicable pension scheme becomes a member of the Agency, he may, if the Secretary of State so determines, be treated for the purposes of the scheme as if his service as a member were service as an officer or employee, notwithstanding that benefits will be payable to him as a member⁶.

1777. Proceedings and documents.

The quorum of the Oil and Pipelines Agency ('the Agency')¹ and the arrangements relating to its meetings are such as the Agency may determine². The arrangements may provide for the exercise or performance, under the general directions of the Agency, of any of the Agency's functions by a committee or by one or more of the members, officers or employees of the Agency³. The validity of any proceedings of the Agency are not affected by any vacancy among the members or by any defect in the appointment of a member⁴.

The application of the Agency's seal⁵ must be authenticated by the signature of an officer of the Agency authorised by the Agency in that behalf⁶.

Any document purporting to be an instrument issued by the Agency and to be sealed as described above or signed on behalf of the Agency is to be received in evidence and deemed to be such an instrument without further proof unless the contrary is shown⁷.

PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(iii) Financial Provisions/1778. Borrowing and investment powers.

(iii) Financial Provisions

1778. Borrowing and investment powers.

The Oil and Pipelines Agency ('the Agency')¹ may borrow temporarily, by way of overdraft or otherwise:

- 5182 (1) in sterling from the Secretary of State²; or
- 5183 (2) with the consent of the Secretary of State and the approval of the Treasury, in sterling or a currency other than sterling from a person other than the Secretary of State³,

such sums as may be required for meeting the obligations and exercising and performing the functions of the Agency or any of its wholly owned subsidiaries⁴.

The Agency may not:

- 5184 (a) borrow money otherwise than in accordance with head (1) above⁵; or
- 5185 (b) except with the consent of the Secretary of State and the approval of the Treasury:
- 481 730. (i) lend money, charge any of its actual or future assets or give any surety or guarantee for the performance by another person of any obligation; or
- 731. (ii) promote or participate in the promotion of, or acquire or relinquish membership of or any interest in or securities issued by, a body corporate⁶.
- 482

The Agency must secure that none of its wholly owned subsidiaries either borrows money otherwise than temporarily⁷, or does anything without the permission of the Agency which, if done by the Agency, would under this provision require the consent of the Secretary of State and the approval of the Treasury⁸.

Where the consent of the Secretary of State is required for these purposes he may impose such conditions as he thinks fit⁹.

The aggregate of the amounts outstanding, otherwise than by way of interest, in respect of:

- 5186 (A) sums borrowed by the Agency or any of its wholly owned subsidiaries from outside persons¹⁰;
- 5187 (B) sums for the repayment of which by outside persons the Agency or any of its wholly owned subsidiaries has given any surety or guarantee; and
- 5188 (C) sums issued by the Treasury in fulfilment of guarantees given by the Treasury¹¹,

may not at any time exceed £20 million sterling or any such greater amount, not exceeding £80 million, as the Secretary of State may by order specify¹².

- 1 As to the Oil and Pipelines Agency see PARA 1771 ante.
- 2 Oil and Pipelines Act 1985 s 5(3), Sch 3 para 1(1)(a). As to the Secretary of State see PARA 601 note 1 ante.
- 3 Ibid Sch 3 para 1(1)(b).
- 4 Ibid Sch 3 para 1(1). For these purposes, 'subsidiary' and 'wholly owned subsidiary' are to be construed in accordance with the Companies Act 1985 s 736 (as substituted; prospectively repealed by the Companies Act 2006 s 1295, Sch 16, and replaced by s 1159, as from a day to be appointed under s 1300(2); at the date at which this title states the law, no such day had been appointed) (see COMPANIES vol 14 (2009) PARA 25): Oil and Pipelines Act 1985 s 6.
- 5 Ibid Sch 3 para 1(2)(a).
- 6 Ibid Sch 3 para 1(2)(b).
- 7 Ibid Sch 3 para 1(3)(a).
- 8 Ibid Sch 3 para 1(3)(b). The consent of the Secretary of State and the approval of the Treasury are required for the giving of such permission by the Agency: Sch 3 para 1(4).
- 9 Ibid Sch 3 para 1(5).
- 10 'Outside person' refers to a person other than the Agency or any of its wholly owned subsidiaries: ibid Sch 3 para 2(2).
- 11 Ie under ibid Sch 3 para 4: see PARA 1780 post.
- 12 Ibid Sch 3 para 2(1). An order under these provisions must be made by statutory instrument, and no such order may be made unless a draft has been approved by a resolution of the House of Commons: Sch 3 para 2(3). At the date at which this title states the law, no such order had been made.

UPDATE

1778 Borrowing and investment powers

NOTE 4--Definitions of 'subsidiary' and 'wholly owned subsidiary' amended: SI 2009/1941.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(iii) Financial Provisions/1779. Loans by Secretary of State.

1779. Loans by Secretary of State.

The Secretary of State¹ may, with the approval of the Treasury, lend to the Oil and Pipelines Agency² any sums which it has power³ to borrow⁴. Any loans which the Secretary of State makes under this power must be repaid to him at such times and by such methods, and interest must be paid to him at such rates and at such times, as he may, with the approval of the Treasury, from time to time direct⁵. The Treasury may issue such sums as the Secretary of State requires for making such loans out of the National Loans Fund⁶. Any sums received as interest or repayment by the Secretary of State must be paid into the National Loans Fund⁷.

It is the duty of the Secretary of State, as respects each financial year:

- 5189 (1) to prepare, in such form as the Treasury may direct, an account of sums issued to him out of, or required to be paid into, the National Loans Fund, and the disposal of those sums by him⁸; and
- 5190 (2) to send the account to the Comptroller and Auditor General⁹ not later than the end of August following the end of that year¹⁰.

The Comptroller and Auditor General must examine, certify and report on the account and lay copies of it before each House of Parliament¹¹.

1 As to the Secretary of State see PARA 601 note 1 ante.

2 As to the Oil and Pipelines Agency see PARA 1771 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(iii) Financial Provisions/1780. Treasury guarantees.

1780. Treasury guarantees.

The Treasury may guarantee, in such manner and on such conditions as it may think fit, the repayment of the principal of, the payment of the interest on, and the discharge of any other financial obligation in connection with, any sums which the Oil and Pipelines Agency ('the Agency')¹ borrows from a person other than the Secretary of State².

Immediately after a guarantee is given under this power, the Treasury must lay a statement of the guarantee before each House of Parliament; and immediately after any sum is issued for fulfilling such a guarantee, the Treasury must so lay a statement relating to that sum³.

Any sums required by the Treasury for fulfilling a guarantee under this power must be charged on and issued out of the Consolidated Fund⁴. If any sums are issued in fulfilment of a guarantee given under this power, the Agency must make to the Treasury, at such times and in such manner as the Treasury may from time to time direct:

5191 (1) payments of such amounts as the Treasury may so direct in or towards repayment of the sums so issued; and

5192 (2) payments of interest on what is outstanding for the time being in respect of sums so issued at such rate as the Treasury may so direct⁵.

Any such sums received must be paid into the Consolidated Fund⁶.

1 As to the Oil and Pipelines Agency see PARA 1771 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(iv) Administration/1783. Provision of information to the Secretary of State.

(iv) Administration

1783. Provision of information to the Secretary of State.

It is the duty of the Oil and Pipelines Agency ('the Agency')¹ to provide the Secretary of State² with such information as he may from time to time require with respect to the property, activities or proposed activities of the Agency or any of its subsidiaries³. Any such requirement does not impose on the Agency the duty of providing the Secretary of State with information which the Agency does not possess and cannot be reasonably expected to obtain⁴.

1 As to the Oil and Pipelines Agency see PARA 1771 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 Oil and Pipelines Act 1985 s 5(3), Sch 3 para 7(1). For the meaning of 'subsidiary' see PARA 1778 note 4 ante.

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(iv) Administration/1784. Annual reports.

1784. Annual reports.

It is the duty of the Oil and Pipelines Agency ('the Agency')¹ to make to the Secretary of State², as soon as possible after the end of each accounting year³, a report on the exercise and performance of its functions during that year⁴. The report for any accounting year must include:

- 5193 (1) such information as the Secretary of State may specify with respect to the activities of the Agency⁵; and
- 5194 (2) particulars of any directions or notices made under the Oil and Pipelines Act 1985⁶ which the Secretary of State has given during that year, except any particulars as to which he has given notice to the Agency that in his opinion the publication of them would be contrary to the national interest or to the commercial interest of the Agency or some other person⁷.

The Secretary of State must lay before each House of Parliament a copy of each report made to him in this manner⁸.

1 As to the Oil and Pipelines Agency see PARA 1771 ante.

2 As to the Secretary of State see PARA 601 note 1 ante.

3 'Accounting year' means the period of 12 months beginning on 1 January in each year, or immediately after the end of the previous accounting year: Oil and Pipelines Act 1985 s 5(3), Sch 3 para 10(1). The Secretary of State may direct that a particular accounting year is to end on a date specified in the direction (whether before or after the date on which it would otherwise end): Sch 3 para 10(2).

4 Ibid Sch 3 para 8(1).

5 Ibid Sch 3 para 8(2)(a).

6 Ie under ibid s 5(1): see PARA 1772 ante.

7 Ibid Sch 3 para 8(2)(b).

8 Ibid Sch 3 para 8(3).

Halsbury's Laws of England/FUEL AND ENERGY (VOLUME 19(1) (2007 REISSUE) PARAS 601-775; VOLUME 19(2) (2007 REISSUE) PARAS 776-1328); VOLUME 19(3) (2007 REISSUE) PARAS 1329-1927)/8. PETROLEUM PRODUCTION/(6) THE OIL AND PIPELINES AGENCY/(iv) Administration/1785. Accounts and audit.

1785. Accounts and audit.

It is the duty of the Oil and Pipelines Agency ('the Agency')¹ to keep proper accounts and records²; and to prepare in respect of each accounting year³ a statement of accounts giving a true and fair view of the state of affairs and the profit and loss⁴ of the Agency⁵.

It is the duty of the Agency to prepare, in respect of each accounting year in which it has subsidiary undertakings⁶, a statement of consolidated accounts dealing with, and giving a true and fair view of, the state of affairs and the profit and loss of:

- 5195 (1) the Agency and all of its subsidiary undertakings⁷; or
- 5196 (2) the Agency and such of its subsidiary undertakings as the Agency may determine and the Secretary of State⁸ may for the time being approve⁹.

Where the Agency prepares such a statement of consolidated accounts in respect of any accounting year, the Secretary of State may, with the approval of the Treasury, direct that the statement of accounts prepared by the Agency¹⁰ in respect of that year need not show the Agency's profit or loss¹¹.

Without prejudice to these requirements, every statement of accounts prepared by the Agency in accordance with these provisions must comply with any requirement which the Secretary of State has, with the approval of the Treasury, notified in writing to the Agency relating to:

- 5197 (a) the information contained in the statement;
- 5198 (b) the manner in which that information is to be presented; and
- 5199 (c) the methods and principles according to which the statement is to be prepared¹².

The accounts kept, and all statements prepared, by the Agency under these provisions in respect of accounting years ending on or before 31 March 2002 were to be audited by auditors appointed¹³ for each such accounting year by the Secretary of State after consultation with the Agency¹⁴. As soon as the accounts kept, and the statements prepared, by the Agency under these provisions in respect of such accounting years had been audited, the Agency was to send to the Secretary of State a copy of the statements together with a copy of any report made by the auditors on the statements or on the accounts of the Agency; and the Secretary of State was to lay a copy of every statement and report of which a copy had been received by him in pursuance of this provision before each House of Parliament¹⁵.

The Agency must send the accounts kept in respect of each accounting year ending on or after 31 March 2003 and the statement of accounts prepared by it under these provisions in respect of each such accounting year to the Comptroller and Auditor General¹⁶ as soon as reasonably practicable after the end of the accounting year to which the accounts relate¹⁷. The Comptroller and Auditor General must examine, certify and report on each statement of accounts so sent to him and must lay a copy of the statement and his report on it before each House of Parliament¹⁸.
